Inmate Handbook

Harris County Sheriff’s Office

Revision Date (March 2012)
A MESSAGE FROM SHERIFF ADRIAN GARCIA

You are in the Harris County Jail and in the custody of the Harris County Sheriff’s Office. Your case will be handled in court. Until your case is finished, you can make the best of your stay here by following these simple, but important, rules:

1) **Read this Inmate Handbook.** It has answers to many questions you may have regarding visitors, medical care, commissary, and other important matters.

2) **Follow all orders given by the Detention Officers, Deputies, and Staff Members.** Part of their job is to keep you safe. Do not argue. You can file a written complaint against a Detention Officer, Deputy, or Staff Member at the appropriate time if you believe he or she did something wrong.

3) **Avoid disputes with other inmates.** Notify a Deputy, Detention Officer, or Staff Member at once if you get into a dispute with another inmate or if an inmate has threatened, assaulted, or victimized you in any way.

4) **Keep yourself and your area clean.** This will benefit you, the other inmates, and the staff. Take a shower every day. Do not hoard food. Throw trash in trashcans and keep the floor free of objects and debris.

5) **No smoking and no contraband.** Smoking is prohibited in all jail facilities, courts, and other county facilities. Possessing tobacco products or any other contraband is strictly prohibited by all inmates and can result in loss of privileges as well as criminal charges being filed against you.

6) **The Harris County Sheriff’s Office operates the jail.** We serve the public in other ways, too. We operate the jail according to our State laws and other regulations. We want it to be a safe place.

   **I encourage you to behave at all times** and take advantage of many programs offered in the jail: Chaplaincy, Inmate Education, voluntary work programs, and other services.

   If you have any questions, please ask a Detention Officer, Deputy, or Staff Member.

   ~ Sheriff Adrian Garcia

I. General Information

A. Safety
   Emergency plans are posted throughout each facility. In the event of a fire or other emergency that requires the evacuation of the entire facility or specific housing units, alarms will sound, an announcement will be made, and personnel/staff members will give each housing area specific instructions. It is critical that you follow the instructions of the personnel/staff members during an emergency. Safety devices are installed for your protection. Tampering with fire extinguishers, smoke detectors or any other fire life safety equipment is a criminal act and will result in additional criminal charges.

B. Inmate (SPN) Number
   1. You have been assigned a unique System Personal Number (SPN). This is commonly called a “Spin Number.”
   2. Your (SPN) has been placed on your armband. Your SPN is used for all transactions in the Sheriff’s Office such as Commissary, Inmate Trust Fund, Mail, Medical, etc. If you alter or destroy your armband, you will not be able to receive services provided to you by the Sheriff’s Office in a timely manner. Failure to wear an armband is also considered an administrative violation and can lead to loss of both commissary and visitation privileges.
   3. Your (SPN) number is also used by the Harris County Court System, Probation Department, and other Harris County organizations.
   4. Be sure to MEMORIZE this number in its entirety.

C. Duty to Obey
   1. You are required to fully comply with any order given by a Detention Officer, Deputy, or Staff Member in a timely manner.
      a. An order may be verbal, such as a Detention Officer, Deputy or Staff Member telling you to do or not do something.
      b. An order may be written, such as a memo from the Jail Commander or the instructions in this Inmate Handbook.
   2. You are required to obey all the inmate rules set forth in this handbook—THERE ARE NO EXCEPTIONS. Each of these rules contain an explanation of the type of conduct that is prohibited or required.
   3. You are required to know these rules—ignorance of these rules is no excuse and is not a valid defense.

D. Grievance Procedure
   1. You may file a grievance if you are subjected to any of the following:
      a. A violation of Civil Rights
      b. A criminal act
      c. An unjust denial or restriction of inmate privileges
      d. A prohibited act by any Staff Member
   2. Notify any staff member on duty if your grievance is an emergency in which delay could subject you to personal injury, property damage, or property loss.
3. If you have an issue, you are first required to try to resolve it with the Detention Officer, Deputy, or Staff Member on duty.
   a. If the issue is not resolved, you should request to speak with the Floor Supervisor in an effort to resolve the issue.
   b. If these attempts are exhausted without a resolution, you may then file a grievance.

4. Filing a Grievance:
   
   A Grievance:
   a. Is a written statement by you on a grievance form or any piece of paper.
   b. Fully and truthfully explains the incident that occurred.
   c. Gives the date, time, and location of the incident.
   d. Includes the names of any Detention Officers, Deputies, Staff Members, or inmates who were involved or were witnesses.

5. Submitting your Grievance:
   a. Put the grievance in the grievance box, interdepartmental mail, or the U.S. Mail.
   b. Grievance boxes are in various locations throughout every floor and are accessible to all inmates.

6. Investigation of Grievances
   a. Investigations are conducted by an assigned supervisor not involved in the grievance.
   b. Grievances in which the investigating supervisor has determined “unresolved” will proceed to the Grievance Board for a Grievance Hearing.

7. Grievance Hearing:
   a. The Grievance Board will conduct a hearing with you, unless cause can be shown where it would present a hazard to institutional safety and/or correctional goals.
   b. Possible resolutions from this hearing are:
      1. Resolved
      2. Sustained
      3. Unfounded
      4. Forwarded to the Bureau Commander for further investigation. You will be notified, in writing, of the Grievance Board’s decision within fifteen (15) working days (excluding holidays).
   c. If you disagree with the decision of the Grievance Board, you may appeal to the Division Commander of Administrative Services.
   d. All appeals must be in writing and submitted within five (5) working days of the Grievance Board’s decision (excluding holidays).

Foreign nationals have access to the diplomat representative of their country of citizenship. A diplomat representative may visit you at any time.
III. Daily Activities

A. General Cellblock Rules

These rules are not a grieveable matter.

1. Lights will be turned on daily at established times.

2. Bunks will be made by placing the sheet on top of the mattress, the blanket on top of the sheet and then both the sheet and blanket neatly tucked under the mattress on all four (4) sides. At no time will the sheet or blanket be tied into knots to secure them to the mattress. Beds will remain fully made until “lights-out” time. Blankets will not be removed from the mattress for any purpose. The mattress will be kept flat at all times.

3. Inmates will be fully dressed, in their county-issued shirt and pants, while the interior lights in the cellblock are on.

4. No linen items will be worn around the head or neck at any time. This includes the wearing of a “do-rag” type item. Towels will not be draped over your head, neck, or shoulders.

5. No clothing items or linens, including county-issued underwear will be hung or washed anywhere within the cellblock. One (1) set of county-issued underwear will be turned in when laundry is exchanged. No inmate clothing will be hung anywhere to dry, including being placed on top of a property container.

6. All general population cellblocks will be cleaned daily at established times.

7. Showers, hand sinks, and mop sinks will be free of soap pieces, trash, etc. at all times.

8. All toilets and sinks will be clean at all times. Cellblock walls will be kept neat and clean. Food particles splattered on the cellblock walls and/or doors will be cleaned immediately. No writing, drawing, pictures, etc. are allowed to be placed anywhere on the walls of the cellblocks and/or cell doors.

9. Do not hang trash bags or other items from windows, cellblock bars, doors, or air vents (HVAC registers).

10. No inmate property shall be stored in the aisles or common walkways. All inmate property will be stored in the county-issued storage container. Footwear will be kept next to the storage container. Both the storage container and footwear will be on the floor, under the metal bunk. All other property left outside the issued property container will be considered contraband and will be confiscated and disposed of. Inmates on variance bunks, commonly called “low-riders,” may leave their county-issued storage container next to their bunk, but must keep their footwear under the bunk.

11. No property/items will be stored under the mattress at any time. Any property/items discovered under a mattress will be considered contraband and will be confiscated and disposed of.

12. Do not loan, barter, give, exchange, or sell any personal property, food, commissary items, or issued items to another inmate. Personal property in the possession of anyone other than the recorded owner will be considered contraband and will be confiscated and disposed of. You must maintain possession of receipts for all commissary items in your possession.
13. Possession of contraband will result in disciplinary action and/or criminal charge(s) being brought against you.

14. You are prohibited from posting or otherwise displaying any pictures or portions of books or publications anywhere in the cellblocks. These items will be considered contraband and will be confiscated and disposed of. Pasting pictures or other articles on any walls, windows, bunks, or ledges is prohibited. Drawing on walls is prohibited. This will result in disciplinary action being brought against you.

15. For sanitary reasons, food purchased through commissary will be eaten when opened. Any open food items or drink containers that no longer contain the original contents will be disposed of as contraband. Food served at meal time will be consumed at that time or thrown away. All food and drinks will be consumed at the dayroom tables.

16. Bedding and linen will not be removed from your sleeping area to be used as rugs, tablecloths, head coverings, or for any other purpose. No bedding or linen will be used in a manner that obstructs the view of personnel/staff members to include draping around toilet areas and draping from the top bunk to the bottom bunk.

17. DO NOT SIT ON TOP OF DAYROOM TABLES!

B. Personal Property

1. All the clothing and valuables in your possession when you were booked into the Harris County Jail System have been placed in the Inmate Property Room. This property will be returned to you when you are released from jail. You are not allowed to have any of this property in your cell, do not ask for it back while you are incarcerated. The following items are the only personal property allowed in your cell:
   a. **Legal paperwork** – To request legal paperwork located in your personal property, submit a written request on an Inmate Request Form. The request should be addressed to the Floor Supervisor. (All requested material must fit and be stored in your county-issued storage container.)
   b. **Prescription Eyewear** - If you did not retain your prescription eyewear when you were booked into the Harris County Jail System, submit a written request on an Inmate Request Form, addressed to the Floor Supervisor, asking to get your prescription eyewear from the Inmate Processing Center.

2. If you are sent to the TDCJ-ID or to a federal prison, you may:
   a. Have your personal property picked up from the Inmate Processing Center at 1201 Commerce.
   b. Donate your personal property to charity.

3. The only item(s) of personal property you are allowed to have in your cellblock are those items **YOU** have purchased from the Inmate Commissary, received through authorized channels, or legal paperwork. You must maintain possession of receipts for all commissary items in your possession (failure to produce a receipt may result in loss of items).
C. Personal Hygiene

1. Good hygiene is necessary in the jail because germs spread easily from one person to another while living in a confined space.

2. You are required to keep your body, clothing, bedding, and cell clean at all times.
   a. You should shower at least once (1) a day using soap on all parts of your body when showering, including your hair—this is a good defense against germs that may cause infections.
   b. Do not hoard laundry items in excess of the number you are authorized to have in your possession at any one (1) time.
   c. You are required to throw away any uneaten food items from the meals served to you.
   d. You are required to throw away newspapers over one (1) day old.
   e. You are required to keep your authorized possessions neat, clean, and orderly.

3. You are required to help the other inmates assigned to your housing area keep common areas of the cellblock neat and clean.

4. Do not share toothbrushes, combs, soap, washcloths, towels, razors, or any other item that may spread germs or viruses.

5. FREQUENT HANDWASHING is encouraged to prevent the spread of infections.

6. Remember, keeping yourself and your cellblock clean helps prevent health concerns.

7. Razors are not sold through the Inmate Commissary. You will be issued a razor in accordance with the razor distribution schedule - it is to be returned in an unaltered condition. Ask a Detention Officer or Deputy on your housing floor for the specific day and time of razor distribution in your cellblock. Altering the razor, or having a razor in your possession other than the prescribed time, will result in disciplinary action being brought against you.

D. Telephones

1. The telephones in the cellblocks are coinless pay phones.
   a. When you place a call, the operator will ask the person whom you are calling if they will accept the charges.
   b. If the person you are calling agrees, the call will be connected.
   c. Telephone calls are limited to fifteen (15) minutes and will turn off automatically.
   d. Telephones are available in the cellblocks for your use.

2. Telephone privileges are available to all inmates.
   a. No inmate is authorized to keep a telephone use list or to “schedule” other inmates for telephone use.
   b. No inmate is authorized to “sell” telephone calls.
c. No inmate is authorized to interfere with another inmate’s use of the telephone in any way.

d. If any inmate attempts to interfere with your use of the telephone, contact a staff member immediately and let them handle the situation.

3. Telephone courtesy:
   a. Do not abuse your telephone privileges.
   b. You must stand while making a telephone call. Do not stretch the telephone cord by sitting, squatting, or lying down while using the telephone.
   c. Be considerate toward your fellow inmates; let everyone have their turn making telephone calls.
   d. If there is a dispute over the telephone, contact a staff member immediately and let them handle the situation.

4. Messages
   a. You are not allowed to receive telephone calls from anyone.
   b. Tell your friends and relatives that important messages (a death in the family, serious illness to a family member, etc.) should be directed to the Chaplain’s Office for delivery by a Chaplain’s representative.
   c. No messages will be taken for or delivered to you by Sheriff’s Office personnel.

5. Inmates with hearing and/or speech disabilities will be given access to a text telephone (TTY) or comparable equipment. Telephones with volume control are also made available to inmates with a hearing impairment. If you are disabled, you must ask for an accommodation, assistance, or services that you need. It is helpful to request this in writing, by submitting the request on an Inmate Request Form to the Harris County Sheriff’s Office ADA Coordinator through the Health Services Division. Text telephones or comparable equipment are for the use of inmates with hearing and/or speech disabilities only and those inmates whose families use text telephones or comparable equipment.

6. If you are hospitalized telephone privileges will be suspended.

E. Correspondence

1. You may write to anyone, as often as you wish, provided your correspondence does not violate:
   a. U.S. Postal regulations or laws
   b. State or local laws or ordinances
   c. Court Orders
   d. Sheriff’s Office rules, regulations, or orders

2. Staff members are not allowed to hand-deliver outgoing mail to any person, to include - Courts, Media, or Attorney(s). (All outgoing mail shall be delivered via the United States Postal Service).

3. Inmate to inmate correspondence is generally allowed.
4. No inmate will be allowed to receive correspondence that contains any of the following:
   a. Information regarding the manufacture of explosives, weapons, or drugs
   b. Material that a reasonable person would construe as written solely for the purpose of communicating information designed to achieve the breakdown of the facility’s security through inmate disruption such as strikes or riots.
   c. Competent authority has made a specific factual determination that the publication is detrimental to the inmate’s rehabilitation because it would encourage deviant criminal sexual behavior.

5. To send letters, you must do the following:
   a. Your return address must be shown in the upper left front corner of the envelope.
   b. You must use the return address and format for the facility you are housed in as shown on page two (2) of this Inmate Handbook.

   d. All requests and results are CONFIDENTIAL.
e. If you are found to be HIV positive, additional counseling and medical assistance will be discussed and/or offered to you. A care coordinator will be assigned to you to ensure that you receive services while incarcerated. He/she will also assist with your transition to the free-world when you are released from custody.

f. Being HIV positive means you have come in contact with the virus and are infected.

g. It does not mean that your life is in immediate danger or that you qualify as an AIDS patient.

h. HIV is NOT Acquired Immunodeficiency Syndrome (AIDS), but you still need to obtain medical assistance.

i. There is no cure for the HIV virus at this time. If you have been infected and take care of yourself by following medical advice and leading a healthy lifestyle, you will live a longer, more fulfilling life.

j. By getting tested for HIV, you will be able to get assistance if you are infected; you will be protecting your loved ones. This will also help avoid further transmission of the HIV virus.

k. If you need further information or assistance, submit a written request to the HIV Section of the Health Services Division.

O. MRSA

1. What Is MRSA?
Methicillin-resistant Staphylococcus aureus (MRSA) is a bacterium that causes infections in different parts of the body. It is tougher to treat than most strains of staphylococcus aureus -- or staph -- because it is resistant to some commonly used antibiotics. The symptoms of MRSA depend on where you are infected. Most often, it causes mild infections on the skin, causing sores or boils. However, it can also cause more serious skin infections or infect surgical wounds, the bloodstream, the lungs, or the urinary tract. Though most MRSA infections are not serious, some can be life-threatening.

2. What Causes MRSA?
Garden-variety staph is common bacteria that can live on our bodies. Plenty of healthy people carry staph without being infected by it. In fact, 25%-30% of us have staph bacteria in our noses. But staph can be a problem if it manages to get into the body, often through a cut. Once there, it can cause an infection. Staph is one of the most common causes of skin infections in the U.S. Usually, these are minor and do not need special treatment. Less often, staph can cause serious problems like infected wounds or pneumonia. Staph can usually be treated with antibiotics. But over the decades, some strains of staph—like MRSA—have become resistant to antibiotics that once destroyed it. MRSA was first discovered in 1961. It is now resistant to methicillin, amoxicillin, penicillin, oxacillin, and many other antibiotics.
3. **Who Gets MRSA?**

MRSA is spread by contact. So you could get MRSA by touching another person who has it on the skin. Or you could get it by touching objects that have the bacteria on them. MRSA is carried, or "colonized," by about 1% of the population, although most of them are not infected. MRSA infections are common among people who have weak immune systems and are in hospitals, nursing homes, and other health care centers. Infections can appear around surgical wounds or invasive devices, like catheters or implanted feeding tubes.

4. **How to Prevent MRSA?**

When it comes to MRSA and other drug-resistant infections, the best defense is basic hygiene. Frequent hand washing is the best way to avoid most MRSA skin infections. "The common sense, back-to-basics are the way to manage the threat." In addition to hand washing, that means avoiding the sharing of towels or clothes. Skin wounds should remain clean and well covered, and any wounds that change rapidly or look "angry" should get immediate medical attention.
Unlock Your Skin’s Health

Staphylococcus (staph) is a germ that causes boils (like a large, red, painful pimple that may have a white “head”) or other sores. The sores may burst and drain pus. Anyone with a sore that is draining pus can pass the germs to another person. Anyone with a sore that is draining pus can spread the germs to other parts of their own body. Infections are not caused by spider bites!

If you have a boil or sore that is draining pus:
• Tell the jailer about your sore
• Ask to see a nurse or doctor
• Cover all draining sores with a bandage
• Wash hands with soap and water for at least 15 seconds before and after touching any sore or boil

Do not “pop” or open any boil or sore.

Even if you do not have a draining boil or sore:

Wash hands with soap and water for at least 15 seconds
• Before eating
• After exercising
• After using the bathroom
• After sneezing, coughing, or blowing your nose

Take a shower every day

Do not share soap, razors, toothbrushes, or towels
Do not handle other cellmates’ soap, razors, toothbrushes or towels
Do not use exercise equipment if you have a boil or sore
Keep toilet, shower, and sink in cell clean
Do not get tattoos in jail

*Additional information regarding MRSA may be found at http://www.cdc.gov/mrsa/
P. Smoking

1. Cigarette smoking is the leading cause of preventable death in this country.

2. Tobacco is toxic to the body. The nicotine in cigarettes and chewing tobacco causes the body to release adrenaline. Adrenaline causes the blood vessels in the body to constrict, causing the heart to beat faster, which results in raising the blood pressure. High blood pressure can lead to a heart attack or stroke.

3. The tars and other toxic substances contained in tobacco can cause cancer of the lungs and other organs of the body. This can cause damage to the lungs and lead to emphysema (a serious breathing disorder).

4. Cigarette smoke contains carbon monoxide which interferes with the lung's ability to get oxygen into the blood. Other chemicals, such as DDT, arsenic and formaldehyde are also contained in cigarette smoke. Repeated smoking or use of tobacco products can become a habit. A person can become addicted to the nicotine contained in tobacco products. This can cause changes in the body and a person's mood. The changes happen over a period of time.

5. When a person quits using tobacco products (especially the first few days), he/she may experience the following symptoms:
   a. Craving Nicotine
   b. Hunger
   c. Feeling on edge
   d. Unable to concentrate
   e. Coughing
   f. Headaches

6. If you need assistance in dealing with not smoking or using tobacco products, submit a written request to the Health Services Division.
Q. Dietitian

1. All inmates are provided three (3) meals each day that follow the USDA’s MyPlate food guidance system. The regular diet provides adequate nutrients and energy for an average healthy adult.

2. MyPlate Food Guidance System
   a. Balancing Calories
      1. Enjoy your food, but eat less.
      2. Avoid oversized portions.
   b. Foods to Increase
      1. Make half your plate fruits and vegetables.
      2. Make at least half your grains whole grains.
      3. Switch to fat-free or low-fat (1%) milk.
   c. Foods to Reduce
      1. Compare sodium in foods like soup, bread, and frozen meals and choose the foods with lower numbers.
      2. Drink water instead of sugary drinks.

3. There is no pork served in the Harris County Jail.
4. Vegetarian diets are not available.
5. If you need a special diet due to a medical condition, submit a written request to the dietitian. There is a $10 charge to see the dietitian.

R. Dental and Dental Hygiene

1. If you are having problems with your teeth, submit a written request to the dentist. There is a $15 charge to see the dentist.
2. Most dental problems are caused by not brushing your teeth. Tooth brushing removes plaque and food particles from the outer, inner, and biting surfaces of your teeth. A number of different tooth brushing methods are acceptable. The following method is one effective way of removing plaque:
   a. Place the head of your toothbrush beside your teeth with the bristle tips at a 45-degree angle against the gum line (see Figure 1).
b. Move the brush back and forth in short (half-a-tooth-wide) strokes several times, using a gentle "scrubbing" motion.

c. Brush the outer surfaces of each tooth, upper and lower, keeping the bristles angled against the gum line (see Figure 2).

d. Use the same method on the inside surfaces of all the teeth, still using short, back-and-forth strokes.

e. Scrub the chewing surfaces of the teeth.

f. To clean the inside surfaces of the front teeth, tilt the brush vertically and make several gentle up-and-down strokes with the front of the brush.

g. Brushing your tongue will help freshen your breath and clean your mouth by removing bacteria.

3. Worn-out toothbrushes cannot properly clean your teeth and may injure your gums.

4. Usually toothbrushes need to be replaced every three (3) or four (4) months.

5. Brush gently with very short strokes and enough pressure so that you feel the bristles against the gums. The tips of the bristles do the cleaning, so do not squash them. Remember to change the position of your toothbrush frequently, moving slowly across all the surfaces of every tooth. The toothbrush can clean only one (1) or two (2) teeth at a time.

S. Sexual Assault Information

1. What is Sexual Assault?
   a. Sexual assault is any forceful or threatened sexual behavior forced on you by one (1) or more person(s).
   b. This includes pressure, threats, or other actions and communications to force you to engage in a partial or complete sexual act.

2. Your Right to be Safe From Sexual Assault
   a. No one has the right to pressure you to engage in a sexual act.
   b. You do not have to tolerate sexual assault or pressure to engage in unwanted sexual behavior regardless of your age, size, race, or ethnicity.
   c. Whether you are straight, gay, lesbian or bisexual, you have the right to be safe from unwanted sexual advances and acts.

3. About Your Safety
   a. If you feel that your right to be left alone sexually is being violated, staff are available to help you deal with this problem.
b. You should feel free to discuss your concerns about sexual assault with any staff member.

c. Some Health Services personnel, like mental health providers, are specifically trained to assist you in dealing with problems in this area.

d. If you are in an emergency situation, approach any staff member. It is part of their job to ensure your safety.

e. You do not have to name other inmates to receive assistance, but specific information may make it easier for staff to assist you.

f. If you are sexually assaulted, you should immediately ask for medical treatment.

g. Even though you may want to clean up after the assault, it is important to see Health Services personnel before you shower, wash, drink, eat, change clothing, or use the restroom.

h. Health Services personnel will examine you for injuries, which may or may not be readily apparent to you.

i. They can also test you for sexually transmitted diseases (STD’s) and gather any physical evidence of the assault.

4. **Avoiding Sexual Assault**

Here are some things you can do to protect yourself against sexual assault:

a. DO NOT accept gifts or favors from other inmates. Most gifts or favors from other inmates come with strings attached to them.

b. Be alert. DO NOT use contraband substances such as drugs or alcohol; these can weaken your ability to stay alert and make good decisions.

c. Choose your associates wisely. Look for people who are involved in "safe," positive institutional activities like education programs, mental health groups or religious services. Get yourself involved in these activities.

d. Trust your instincts. If you sense that a situation may be dangerous, it probably is.

5. **Mental Health Services Related to Sexual Assault**

a. Most people need help recovering from the emotional effects of sexual assault.

b. If you are a sexual assault victim, whether it is recent or in the past, Mental Health personnel are available to assist you.

c. If you feel you need help to keep from sexually assaulting someone else, please notify a Mental Health Provider or any Staff Member.

6. **BEFORE YOU SEXUALLY ASSAULT ANOTHER INMATE, REMEMBER:**

a. Sexual assault is a serious crime.

b. The Harris County Sheriff’s Office must investigate all reported sexual assault incidents.

c. Sexually assaulting another inmate will result in disciplinary action being brought against you. This can include additional criminal charges, loss of “good time credit” and/or disciplinary separation housing.
7. **How to Report a Sexual Assault Incident:**
   a. Report the incident immediately.
   b. You can tell any Staff Member (Officer, Chaplain, or Medical Personnel).
   c. If you do not wish to speak with staff, you may use an Inmate Request Form or handwritten letter to request assistance.
   d. Provide basic information regarding the incident including persons involved, date, time, and where the incident occurred.

T. **Pregnancy Management**
1. During intake processing, female inmates will be asked if they are pregnant. If you are pregnant, you will be assessed by a Health Services staff member and referred to an OB specialist for further care.
2. All female inmates will have a urine pregnancy test during their initial medical examination or at their fourteen (14) day health assessment.
3. Routine prenatal care will be provided in the HCSO OB/GYN Clinic and inmates needing specialized care will be referred to the Harris County Hospital District OB Clinic.
4. Pregnant female inmates who have been identified as having a dependence on heroin or methadone will be referred to the Harris County Hospital District specialist for evaluation and management.
5. Nutrition: all pregnant female inmates will be referred to the dietician for counseling on proper food choices.
6. Postpartum inmates will be re-evaluated by a physician for special needs upon their return to the detention facility after release from the Harris County Hospital District.
7. If you have questions regarding family planning services prior to your release from the Harris County Jail, contact the Chaplain’s office for assistance.

U. **Continuity of Care**
The Health Services Division strives to meet your medical needs. It is important that you tell the medical staff (physicians and nurses) about your health concerns. If you are being treated/seen by an outside (free-world) physician, clinic etc., it would benefit your treatment while you are in custody to have copies of those records sent here. Records should be sent to:

**Harris County Sheriff’s Office**
**Attn: Medical Records**
**1200 Baker Street**
**Houston, TX 77002**
V. Are you a Veteran of the United States Armed Services?

1. If you are a Veteran of the United States Armed Services, you may be eligible for medical, psychiatric, substance use and/or vocational services through the Michael E. DeBakey Veteran’s Affairs (VA) Medical Center (MEDVAMC). Upon your release from custody, you can go to the VA hospital to apply for services in person at the following address:

   Michael E. DeBakey VA Medical Center
   2002 Holcombe Blvd.
   Houston, TX. 77030

   **METRO:** Take the #1 LBJ Hospital Bus to the VA Hospital from downtown Houston

2. If you already receive services from the VA, alert the Harris County Sheriff’s Office Health Services Division personnel and sign a “Release of Information” form. This will allow the medical staff at the VA Hospital to provide information to the Harris County Sheriff’s Office Health Services personnel about your diagnoses and medications from their physicians. This will assist you in getting needed care while in our custody.

3. If you need help setting up appointments or connecting with VA services after release, contact the Veterans' Justice Outreach Coordinator, Loretta A. Coonan, LCSW at 832-260-1361 or 713-791-1414 ext. 6475
