WILLIAM D. LEEKE, Commissioner

October 8, 1986

The Honorable Richard W. Riley  
Governor of South Carolina  
Chairman, State Budget and Control Board  
State House, First Floor, West Wing  
Box 11450  
Columbia, South Carolina 29211

Dear Governor Riley:

It is my pleasure to present to you the Annual Report of the Board of Corrections and of the Commissioner of the South Carolina Department of Corrections for the period July 1, 1985, to June 30, 1986.

As you are very much aware, recent legislation and citizen awareness have centered on crime, and mandated changes are having a significant impact on our inmate population. The Annual Report is intended to serve as a reference text--tracing agency history, capturing significant events during the past fiscal year and presenting a statistical profile of the Department of Corrections' admissions, releases and year-end population. We hope that this publication will be useful to all who require information and statistics on the South Carolina prison system.

Sincerely,

William D. Leeke

## ORGANIZATION OF THE SOUTH CAROLINA DEPARTMENT OF CORRECTIONS

The South Carolina Department of Corrections (SCDC) is the administrative agency of South Carolina state government responsible for providing food, shelter, health care, security and rehabilitation services to all adult offenders, age 17 and above, convicted of an offense against the State and sentenced to a period of incarceration exceeding three months. As of June 30, 1986, SCDC had jurisdiction over 11,533\* sentenced adult inmates of whom 814 were serving an indeterminate sentence under the Youthful Offender Act<sup>1</sup>. Also included, as SCDC "safekeepers," were 45 Death Row inmates for more details, see page 37 and Table 29 on page 102. In addition to the 11,533 inmates under SCDC jurisdiction, SCDC also had custody of other safekeepers for the counties, as well as unsentenced offenders sent by the courts for pre-sentence investigation under the Youthful Offender Act.

SCDC is headed by a Commissioner who is responsible to the State Board of Corrections, a six-member board appointed by the Governor upon advice and consent of the Senate. The Governor also serves on the Board as an ex-officio member. The Commissioner has overall responsibility for the agency, supervising all staff functions and ensuring that all departmental policies are practiced and maintained. Under the immediate supervision of the Office of the Commissioner are the Legal Advisor, Executive Assistant, and the Divisions of Special

---

<sup>1</sup> The provisions of this Act are summarized in Appendix B, page 109. This Act provides indeterminate sentences of one to six years for offenders between the ages of 17 and 21 (extended to 25 with offender consent), placing them under the Division of Classification and Community Services' Youthful Offender Branch. The Youthful Offender Program essentially operates as a micro-correctional system within the Department, providing all youthful offenders a complete range of administrative, evaluative, parole and aftercare services. There were 733 youthful offenders on parole under SCDC supervision in the community at the end of FY 1986. Parole decisions pertaining to, and the parole supervision of adult offenders are generally the responsibilities of the South Carolina Department of Parole and Community Corrections except for persons sentenced under the Youthful Offender Act.

\*This figure does not include inmates conditionally released under the Emergency Prison Overcrowding Powers Act (see Pages 27 through 29 for further details of this Act) or YOA paroles.

Projects, Public Affairs, and Internal Affairs and Inspections. The Executive Assistant to the Commissioner for Legal Settlements and Compliance reports to the Commissioner on the monitoring of legal settlements.

To assist the Commissioner in system operations and program administration are three offices headed by Deputy Commissioners and 11 divisions supervised by Directors:

The Office of the Deputy Commissioner for Administration has the major responsibility of coordinating all department-wide activities pertaining to resource and information management, personnel administration, training, industries, and support services. These five areas are individually the management responsibility of a division director, and a description of each is as follows:

1. The Division of Resource and Information Management encompasses the functions of planning, budgeting, statistical reporting and analysis, computer operations, system development and programming, offender records and financial accounting.
2. The Division of Personnel Administration develops and administers departmental personnel policies and procedures, and handles all personnel matters.
3. The Division of Training and Staff Development develops and implements employee training programs at all levels to meet agency needs.
4. The Division of Industries administers a prison industry program consisting of several production lines and four farming operations. These programs/operations provide work for inmates to help defray the cost of upkeep, and produce goods for other state agencies, institutions and political subdivisions. This division also oversees SCDC's transportation and communication operations.
5. The Division of Support Services directs purchasing, canteen, commissary and food service functions of the agency.

The Office of the Deputy Commissioner for Operations is responsible for managing all security, construction, engineering, and maintenance operations statewide. The Deputy Commissioner receives reports from two divisions, a director of security and three regional administrators. Their respective offices and duties are described below:

1. The Division of Construction, Engineering and Maintenance provides the necessary coordination and supervision

required for the implementation and execution of the five-year capital improvements plan, manages all phases of new construction, and is the SCDC liaison with architects, engineers and contractors awarded bids for construction projects. Other responsibilities include management of projects which are constructed with inmate labor, and maintenance and operation of the physical plant facilities. The division also performs renovation projects and provides technical assistance to the institutional maintenance personnel, state, county and city officials.

2. The Division of Inmate Operations and Control directs and coordinates all administrative and operational activities relating to the movement, status and number of inmates in SCDC facilities and in designated facilities; provides administrative liaison with the South Carolina Parole and Community Corrections Board, administers the Interstate Corrections Compact in this Agency and ensures compliance with State law and compact agreements. In addition, this division manages the inmate labor details to include contracting with counties and other aspects of the program.

3. The Director of Security manages the overall security posture at SCDC facilities, ensuring availability and serviceability of security equipment. In addition, the Director of Security ensures all security employees are properly trained in assigned duties, especially the effective response of the Reserve Emergency Platoons, Situation Control Teams and Corrections Emergency Response Teams. These units are selected security employees specially trained to respond to emergencies, such as riots or hostage situations.

4. Institutional operations are divided into three regions, headed by Regional Administrators. The Appalachian Correctional Region has administrative responsibilities for institutions in the upper part of the state. Institutions on the coast are part of the Coastal Correctional Region; the Midlands Correctional Region is made up of those institutions in mid-state South Carolina. Each Regional Administrator is responsible for ensuring all institutions located in their region operate effectively and efficiently.

The Office of the Deputy Commissioner for Program Services<sup>2</sup> is administratively responsible for defining, planning and developing a program delivery system that adequately meets the needs of the incarcerated. Delivering a broad spectrum of

---

<sup>2</sup> For a list of programs and services administered by SCDC, see Appendix C, page 110.

services under the supervision of this office are the Divisions of Classification and Community Services, Human Services, Educational Services, and Health Services:

1. The Division of Classification and Community Services implements standardized procedures for inmate classification, administers the Youthful Offender Program as directed by the Youthful Offender Act, and supervises the placement of inmates in community programs, (e.g., Pre-Release and Work Release programs, the Employment Program, the Extended Work Release Program, Supervised Furlough programs and Early Release programs).
2. The Division of Human Services' field staff provides psychological, social, and specialized institutional services to inmates, and its central administrative staff provides service coordination and acquires external resources to supplement SCDC's efforts.
3. The Division of Educational Services develops and evaluates curricula for the educational needs of SCDC inmates under the Palmetto Unified School District. This division is comprised of academic, vocational, special education, career education, and library services.
4. The Division of Health Services renders medical, dental and psychiatric care to inmates through its medical and dental staff, and contractual agreements. It operates one infirmary and administers one under contract, one psychiatric unit, and coordinates the placement of inmates at the Byrnes Clinical Center and community hospitals as needed.

The aforementioned organizational structure of SCDC is illustrated in Figure 1, page 12.

## INSTITUTIONS OF THE SOUTH CAROLINA DEPARTMENT OF CORRECTIONS

At the end of FY 1986, the Department of Corrections operated a total of 26 institutions, which are listed in Table 1, page 19 through 20. Figure 2, page 21, shows their location. Of these, six are work release centers, one is a pre-release center; one serves dually as a pre-release/work release center; one minimum-security functions dually as a geriatric/handicapped unit and female work release unit. Excluding the pre-release and work release centers, 11 institutions are minimum security, one is minimum-maximum security, one is medium security, three are medium-maximum security, and one is maximum security. Four of these SCDC institutions are primarily for younger offenders and house inmates sentenced under the Youthful Offender Act. One SCDC institution is exclusively for female inmates.

The total design capacity of these institutions at the end of FY 1986 was 6,987\*, and the safe and reasonable operating capacity, as approved by the Budget and Control Board and adopted by the Board of Corrections in April, 1986, was 8,036\*. The capacities for individual institutions are shown in Table 1, page 19 through 20. Capacity distributions are as follows: Appalachian Correctional Region - 2,247 design capacity, 2,582 safe and reasonable capacity; Midlands Correctional Region - 4,292 design capacity, 4,749 safe and reasonable capacity; and Coastal Correctional Region - 448\* design capacity, 705\* safe and reasonable capacity. The total average inmate population under SCDC jurisdiction during FY 1986 (excluding YOA parolees and EPA releasees) was 10,755. Of these, 478 were housed in designated facilities, 196 were in the Extended Work Release Program, 514 were on Supervised Furlough, 88 were on Provisional Parole, and 180 were placed in non-SCDC locations<sup>3</sup>. Thus, on average, 9,299 inmates were housed in SCDC facilities, operating at 133% of design capacity and 116% of safe and reasonable capacity.

Institutions of the South Carolina Department of Corrections are located in three divisions of the State known as correctional regions (See Figure 2). The Appalachian, Coastal, and Midlands Regions are administered by regional administrators.

---

\* As of July 1, 1986, these figures will increase by 378, with the opening of Lieber Correctional Institution.

<sup>3</sup> These include the Byrnes Clinical Center, the State Law Enforcement Division, and the Criminal Justice Academy, other hospital facilities and those inmates on authorized absence.

Because of overcrowded conditions in SCDC institutions/centers, and the desire of local entities to use prison labor, the Department<sup>4</sup> has been housing state inmates in designated local facilities<sup>4</sup> since FY 1975, as provided for by legislation. At the end of FY 1986, 502 state inmates were held in designated local facilities in 41 counties. During the fiscal year, the average number of SCDC inmates held in designated local facilities was 478, or 4% of the total average inmate population under SCDC jurisdiction.

Besides housing inmates in designated facilities, SCDC also placed certain inmates in other special locations because of their unique assignments or needs. A 34-bed unit of the Byrnes Clinical Center, administered and operated by the South Carolina Department of Mental Health (SCDMH), is designated to hold SCDC inmates undergoing and recuperating from general surgery. Whereas SCDMH provides the professional services, SCDC is responsible for the security staffing and procedures. In addition to inmate assignments to the State Law Enforcement Division, a number of eligible inmates participate in programs (Extended Work Release, Supervised Furlough and Provisional Parole) that permit them to reside in the community under close supervision.

---

<sup>4</sup> See FY 1975 and FY 1976 SCDC Annual Report for details of the origin of designated facilities.

## HISTORICAL PERSPECTIVE

Corrections in South Carolina has evolved, over the years, from county-operated prison systems to state-administered institutions and from a single state penitentiary to a network of penal facilities throughout the State. The following summary of significant developments and events during this evolution provides a perspective for the current efforts of the South Carolina Department of Corrections.<sup>5</sup>

### Dual Prison System and Creation of SCDC

As a humane alternative to cruelties which had prevailed under county supervision of convicts, the General Assembly passed an act which transferred the control of convicted and sentenced felons from the counties to the State and established the State Penitentiary during the 1860's. This act stripped the counties of their responsibility for handling felons. Shortly thereafter, the counties' demands for labor for building and maintaining roads prompted the reversal of this provision. By 1930, county supervisors assumed full authority to choose either to retain convicts for road construction or to transfer them to the State. This dual prison system of state-administered facilities and local prison and jail operations resulted in inequitable treatment of prisoners and caused widespread criticism of the system. In the midst of the political and legal developments concerning state and county jurisdiction over convicts, the State Penitentiary expanded to a network of penal facilities throughout the State. Changes reflecting the evolution of correctional philosophy to include educational and vocational training along with productive work programs were also experienced. Despite notable improvements, overcrowding and mismanagement prevailed. As a result, the state correctional system was reorganized, and the Department of Corrections was created through legislative action in 1960. But the autonomy of the state and local systems remained intact, and the dual prison system continued.

Problems inherent in the dual prison system became increasingly evident as crime rates soared in the 1960's. The most critical problems were related to the absence of adequate planning and programming, the inefficiency of resource utilization and the inequitable distribution of services. Therefore, reform of the total adult corrections system in South Carolina was necessary.

---

<sup>5</sup> For greater details of these developments and events, see previous SCDC Annual Reports.

### Consolidation of the South Carolina Adult Corrections System

While the problems of the dual prison system and the need for system reform had long been recognized, the major impetus for reform of the South Carolina adult corrections system was the 1973 Adult Corrections Study conducted by the Office of Criminal Justice Programs (OCJP). The major recommendations of this study were the elimination of the dual prison system in favor of a consolidated state system and regionalization of SCDC operations. Under the proposed consolidated system, the State would be responsible for all long-term adult offenders, ensuring humane treatment, providing confinement, programs and services close to their home communities. Under the proposed regionalization, the State would be divided into ten correctional regions, each with regional corrections coordinating offices. The coordinating offices would be headed by regional administrators. Each office would be responsible for administration of all SCDC facilities in the area. This would include the development, coordination and support of regional correctional programs in their respective regions, in coordination with the Department's central headquarters. Such regionalization was designed to provide improved planning, coordination and administration of SCDC operations and to facilitate effective and efficient utilization of local community resources.

While some recommendations in the Adult Corrections Study were modified in the course of implementation, the overall concept was adopted as policy by the State Board of Corrections, and steps were immediately taken to consolidate and regionalize the adult corrections system in South Carolina. The major step toward consolidation was the closure of county prison operations. Legislation passed in June, 1974, gave the State jurisdiction over all adult offenders with sentences exceeding three months, and counties were required to transfer any such prisoners in their facilities to the Department. Either voluntarily or through negotiations with SCDC officials, counties began transferring their long-term prisoners to the State and closing their prison operations in May, 1973. And for the first time in the history of South Carolina corrections, all prisoners sentenced to more than 90 days were systematically processed and classified through the Department. Many were then returned to local jurisdictions to continue their involvement in public work programs.

This period in South Carolina saw many of the larger counties move away from the county supervisor form of administration to the county council manager system of government. All metropolitan counties except Anderson decided to end their involvement with county prison camps and turned many of the camps over to the Department, which sorely needed additional room for its growing number of state prisoners. It continued to

be permissible for any county to operate its own prison camp, provided the facility met certain basic standards. This local option was carried out when the Department, through agreement with the jurisdiction's governing body, designated the facility to be suitable to house state inmates. Since May 1, 1973, most counties have closed their prisons or converted them to other use. As of June 30, 1986, only seven counties operate prisons as separate facilities. Other counties operate combined facilities for detainees and sentenced inmates, county jails, correctional centers, overnight lockups, detention centers and/or law enforcement centers.

The assumption of county prisoners and the closing of many local prison systems enabled the Department to take steps toward the ultimate regionalization of SCDC operations. One of the major steps toward implementation of regionalization was the alignment of adjacent planning districts into correctional regions. Continual in-house studies of the geographic distribution of offenders, and cost-benefit analysis of resource utilization resulted in the Department's decision in FY 1975 to reduce the proposed number of correctional regions from the ten originally recommended by the Adult Correctional Study to four. Further in-depth examination of regionalization was undertaken as an integral part of the Ten Year Comprehensive Growth and Capital Improvements Plan developed in FY 1977. The distribution of SCDC facilities throughout the State, the commitment trends of the inmate population, the Department's manpower and financial resources and the capital improvement requirements suggested that the Department further reduce the number of correctional regions from four to three. This reduction was implemented; and by the end of FY 1979, three correctional regions -- Appalachian, Midlands, and Coastal -- were established and became fully operational through regional corrections coordinating offices. Although configuration and facility alignment changes have occurred, the current configuration is found in Figure 2 on page 21.

#### Population Trends

SCDC's efforts to regionalize were made more difficult by the fact that this occurred during a time of unprecedented increases in crime in South Carolina, as well as throughout the nation. As a result of increasing crime, the counties' transfer of inmates to the State, and the legislative mandate for all long-term prisoners to be under SCDC jurisdiction, the Department experienced an unprecedented influx of offenders through the state corrections system during FY 1975. The number of inmates under state jurisdiction on June 30, 1975, (5,658) was 53% higher than on the same date the previous year (3,693). There was also an increase of more than 30% in the average daily population from FY 1974 to FY 1975 (from 3,542 to 4,618). However, this percentage increase was

surpassed during FY 1976 when the average daily population under SCDC jurisdiction (6,264) increased by 35.6% over the FY 1975 figure, the largest known yearly increase in average daily population in SCDC history. Such increases in the number of inmates under state jurisdiction have been among the severest in the nation, as indicated by a nationwide survey of the National Clearinghouse for Criminal Justice Planning and Architecture.

The dramatic increases in inmate population in Fiscal Years 1975 and 1976 resulted in intensified overcrowding in SCDC facilities, as well as a constant strain on the Department's financial resources. The Department was forced to focus primary attention on solving the problems of overcrowding and limited financial resources. Short-term and long-range strategies directed toward overcoming either or both problems have involved renovation of existing facilities; realignment of existing space use; acquisition of additional facilities; expanded use of designated facilities; revision of Youthful Offender institutional release policies; revision of fiscal policies and procedures; introduction of economizing measures; revision of capital improvement plans; implementation of the Extended Work Release Program as an alternative to continued incarceration, and implementation of an Earned Work Credit Program, providing reduction in time to serve for inmates participating in productive work.

Partly as a result of SCDC's implementation of program alternatives to incarceration, and partly because of a stabilization of commitments to the correctional system, the dramatic population increase in Fiscal Years 1975 and 1976 did not persist. Inmate population continued to increase but at a more moderate rate, and in FY 1977-81 stabilization in the population level was witnessed. However, this population stabilization did not continue in FY 1982 when the average daily population increased 6.5% over Fiscal Year 1981. Annual population increase rates during the last five years ranged between 2.7% to 9.2%. (Table 3, page 47, shows the average inmate population for Fiscal Years 1967-1986.)

## SIGNIFICANT DEVELOPMENTS IN FY 1986

The Department of Corrections continued to be in the public eye during Fiscal Year 1986. Continued prison overcrowding, compliance with the Nelson v. Leeke lawsuit, publicized prison disturbances, other legislation and the passing of the Omnibus Criminal Justice Improvements Act contributed to increased public awareness of criminal justice issues and the South Carolina Department of Corrections.

The implementation of programs and policies aimed at reducing the inmate population to a manageable level, phased-in compliance with the Nelson settlement, plans for the construction of additional prisons, and renovations of existing prisons were priorities in Fiscal Year 1986. An additional EPA rollback during the fiscal year helped relieve overcrowding. Construction of a medium/maximum facility in McCormick County began and is scheduled to open in Fiscal Year 1987. During the year, the Office of Legal Settlements and Compliance continued to work closely with the Classification Branch to ensure that an objective classification system for placement and reassignment of inmates was developed and implemented. A Victim/Witness Liaison was hired by the Department.

The Department of Corrections received a great deal of attention during the fiscal year due to disturbances such as the helicopter escape from Perry Correctional Institution, the major disturbance/riot at Kirkland Correctional Institution which resulted in approximately \$732,000 in damages, and the disturbance at Perry Correctional Institution incited by three major participants but resulting in little or no damages.

In response to the valuable services correctional officers perform for the State of South Carolina, Governor Riley proclaimed the week of May 4-10 as South Carolina Correctional Officer Week.

### Inmate Population Gains

In Fiscal Year 1986, SCDC's average daily jurisdictional inmate population (excluding YOA pre-sentence, YOA parolees, EPA releasees, and non-death row safekeepers) was 10,755 (an increase of 734 (7.4%) over FY 1985). This continued a trend of increasing average daily populations, although this year's increase was not as great as the 9.2% increase in FY 1983. Of the average 10,755, 9,299 were housed in SCDC facilities, 478 in designated facilities, 798 in community programs (Extended Work Release, Supervised Furlough, Provisional Parole), and the remaining 180, in other non-SCDC state facilities by special assignments (the Governor's Mansion, Criminal Justice Academy, State Hospital, etc.). At the

beginning of FY 1986, SCDC's safe and reasonable operating capacity was 7,976. In April, 1986, the safe and reasonable capacity increased to 8,036. At year end, SCDC was operating at 116% of that capacity.

#### Institutional Changes and Capital Improvements

Operational and administrative activities during the year were consistently marked by priority efforts to comply with all requirements of the Nelson Decree, especially those relating to elimination of double celling in lockup cells and the population ceiling at the Midlands Reception and Evaluation Center (MR&EC), the MR&EC Annex and the MR&E Holding Unit.

Early in Fiscal Year 1986, funding was secured to construct a 600-bed facility in McCormick County, and a 288-bed Reception and Evaluation Center in the Broad River Road Complex.

In February, 1986, the Board of Corrections authorized the South Carolina Department of Corrections to attempt to obtain necessary funds and approval to construct two temporary structures, and to study the feasibility of constructing three additional units for the purpose of housing inmates.

On March 12, 1986, the Budget and Control Board authorized the SCDC to borrow monies from existing Capital Improvement Funds for the purpose of constructing two temporary structures for the housing of inmates. It was decided that one 96-bed temporary structure would be constructed at the Manning Correctional Institution (MCI), and the second 96-bed structure would be constructed at the Goodman Correctional Institution. Construction of the 96-bed temporary housing unit at MCI was completed on June 13, and the unit became operational on June 16, 1986. On June 30, 1986, there were 93 inmates in the unit. The second 96-bed temporary structure is under construction at the Goodman Correctional Institution with an estimated completion date of early August, 1986.

During 1985-86 legislative session, the South Carolina Department of Corrections requested funding for construction of five major correctional institutions. The recently passed bond bill authorizes funding for three such facilities. Sites for two of these institutions have been selected (Allendale and Columbia), and one site remains to be chosen.

#### Implementation of the Emergency Prison Overcrowding Powers Act (EPA) And Supervised Furlough Program

In June of 1983, the South Carolina General Assembly passed the "Prison Overcrowding Powers Act" (EPA) to provide an emergency

release mechanism to relieve prison overcrowding. The Act authorizes the Governor to declare a state of emergency when the prison population exceeds the "safe and reasonable operating capacity" for 30 consecutive days, thereby empowering the Board of Corrections to advance by 30, 60, or 90 days, the "max-out" release date<sup>6</sup> of non-violent offenders with sentences greater than nine months. Non-violent offenders with a sentence of nine months or less receive only a fraction of the advancement. All eligible inmates in, or admitted to the prison system during the EPA emergency are also qualified for the advancement/early release. Inmates released early via the EPA provisions are placed in the community and remain under the jurisdiction and supervision of the Department of Parole and Community Corrections (DPCC) until expiration of their sentences.

The Emergency Prison Overcrowding Powers Act has been amended since 1983. In June, 1986, the Omnibus Criminal Justice Improvements Act was passed; specifying that eligible prisoners for release must be evaluated on risk pursuant to release. Priority will be given to prisoners who have served a substantial portion of their sentence. However, qualified prisoners with two years or more sentences may not be released before they would normally be eligible for parole. Calculation of parole eligibility is to be based on actual time served in incarceration not reduced by earned credits under any provision of the law. Rather than specifying the advancement of release dates, the new provision permits up to 200 screened non-violent inmates to be released monthly under the supervision of the Department of Parole and Community Corrections until the emergency declaration is lifted.

Implementation of EPA affects inmates' "max-out" release dates and accordingly, eligibility for other programs related to the max-out date. The major program affected is the Supervised Furlough II (SFII) Program authorized on June 13, 1983.

Prior to passage of the Omnibus Criminal Justice Improvements Act, under the SFII statute, non-violent offenders who were within six months of their maxout date and had served at least six months with a clear disciplinary record, were eligible to be placed in intensive community supervision by DPCC while

---

<sup>6</sup> Thus the Act does not affect parole eligibility.

<sup>7</sup> Non-violent offenders exclude habitual offenders and those convicted of Murder, Armed Robbery, Sexual Assault, Assault and Battery with Intent to Kill, Kidnapping or Trafficking in Illegal Drugs.

remaining in SCDC jurisdiction. An EPA declaration resulted in an advancement of max-out dates for those eligible, and since SFII eligibility is six months prior to max-out, there was a corresponding advancement of SFII eligibility. Inmates became eligible for SFII as a result of the EPA advancement of max-out date and some inmates were thus under SFII supervision for 180 days (i.e., full duration of the SFII Program), then, were re-assigned to EPA supervision for the remainder of their sentences. Thus, an inmate could be released from institutional incarceration more than 180 days prior to his scheduled max-out release date. Inmates affected by EPA but not eligible/approved for SFII were placed directly to EPA supervision and thus to the jurisdiction of the DPCC.

The EPA was first invoked by the Governor on September 2, 1983, and the amount of a full advancement (rollback) was 90 days. As overcrowding continued, the Act was invoked again -- in March, 1985, and in June, 1985. On both occasions, a 90-day advancement was implemented. Since the state of emergency had not been lifted at any time since the first rollback, all eligible inmates in SCDC at that time with a sentence greater than nine months could receive a maximum of 270 days advancement of sentence. The fourth rollback occurred December, 1985. Between September 16, 1983, and June 30, 1986, 1,453 inmates were released from SCDC institutions directly to the EPA Program and 3,517 were placed on the SFII Program.

In FY 1986, 713 inmates were placed directly on EPA and 1,203 were placed directly on SFII, of whom 915 were eligible at the time of placement because of EPA. As of June 30, 1986, 655 were in the community being supervised under EPA and 551 were under SFII.

#### Legislation Directly Affecting the South Carolina Department of Corrections

During the past two years, publicized criminal cases and the public's desire for harsher punishment for crimes has led to increased citizen awareness of crime and legislation for stricter punishment for violent crimes. Numerous bills relating to crime and punishment have been introduced and analyzed to determine their impact on the Department of Corrections and the inmate population over the past two years. Among these bills, the Omnibus Criminal Justice Improvements Act, a comprehensive piece of legislation designed to relieve overcrowding and meet the desire of the public for tougher sentences, was passed.

Specifically, the Omnibus Criminal Justice Improvement Act provides for the definition of non-violent offenders, redefines the accrual of good time, introduces educational credits for non-violent offenders, re-structures the emergency release program, and Supervised Furlough and specifies

"tougher" sentencing for select violent crimes, and repeat offenders.

Under the Omnibus Criminal Justice Improvements Act, Community diversion programs include Shock Probation, restitution centers and Intensive Supervision Probation. These programs will be under the jurisdiction of the South Carolina Department of Parole and Community Corrections (DPCC). SCDC will have direct involvement in the Shock Probation program. Under this program, non-violent offenders committed for five years or less, who are less than 25 years of age, will be incarcerated for a term of 90 days by SCDC as a condition of probation.

The Omnibus Criminal Justice Improvements Act specifies that all inmates in SCDC custody irrespective of sentence accrue good time at the rate of twenty days for each month served. Inmates in local correctional facilities will accrue good time at one day for every two days served. Good time forfeited for disciplinary infractions may not be restored.

The earned work credit program was revised to allow inmates to receive work credit if they are enrolled in an academic program. However, inmates with life sentences will not be eligible for any work/educational credits. Inmates convicted of violent crimes will not be eligible for any educational credits. Inmates at local correctional facilities can be required to perform labor on the "public works or ways."

Changes to the Emergency Prison Overcrowding Powers Act (EPA) by the Omnibus Criminal Justice Improvements Act resulted in the requirements that only non-violent offenders be eligible, and only after they are evaluated for risk and are eligible for parole (or have less than a two year sentence). Calculation for parole eligibility will be based on actual time incarcerated, not reduced by earned credits. The emergency release request/provision will specify the number of prisoners to be released rather than the advancement of days.

The Omnibus Criminal Justice Improvements Act specifies that inmates who are not in the highest trusty grade and who are assigned to a work detail outside the confinement of any correctional facility be required to wear uniforms with stripes, and violent offenders on the work release program cannot be placed in the community in which the offense was committed. Violent offenders are to be excluded from the Supervised Furlough Program, and no persons convicted of Criminal Sexual Conduct I or II, or Murder may participate in extended work release.

Either the death penalty or a sentence of life imprisonment without possibility of parole until the service of 30 years is prescribed for persons convicted of murder in which one or more

aggravating circumstances are found. Where no aggravating circumstances are found, the penalty shall be life imprisonment without parole eligibility until the service of 20 years. Earned work credits and good-time credits may not be applied to reduce the mandatory time of prisoners sentenced under these provisions. Additionally, when the Governor commutes a sentence of death, the commuttee is not eligible for parole. Upon the conviction or adjudication of Murder, the court must conduct a separate proceeding to determine whether the defendant should be sentenced to life imprisonment or death.

The Firearms Provision of the Omnibus Criminal Justice Improvements Act states that any person convicted of committing or attempting to commit a violent crime while in possession of a firearm or knife will receive a five year mandatory sentence (consecutive or concurrent) and will not be eligible for parole, work release, or extended work release. The five years will not be suspended and while the person may earn good time/work credits, credits may not be used to complete a term of imprisonment in less than five years.

Changes in parole eligibility statuses exclude multiple offenders from parole. Violent offenders will not be paroled without the consent of 2/3 of the DPCC board. Anyone denied parole will have their case reviewed every two years. Persons paroled for medical reasons cannot be more than one year away from their parole eligibility date, and a psychiatric or psychological evaluation is required for those serving a total of 10 years.

Other provisions under the Omnibus Criminal Justice Improvements Act affect court transitions and the placement of future correctional facilities.

#### Earned Work Credit Program (EWCP)

SCDC's overcrowding situation would have been much worse had it not been for the impact of the Earned Work Credit Program and the Extended Work Release Program on reducing facility population. The EWCP was authorized as part of the Litter Control Act signed into law by the Governor on May 5, 1978. In addition to providing for the use of inmates for litter control and removal, the Act amended Section 24-13-230 of the 1976 S.C. Code of Laws, and authorized SCDC's Commissioner to allow a reduction of time served by inmates assigned productive duty. Earned Work Credits were to be awarded on the basis of performance on the assigned job as well as job classification level. The job levels and the credits for a full-time job requiring more than four hours work per day are as follows:

- Level 2: One Earned Work Credit for each two days worked.
- Level 3: One Earned Work Credit for each three days worked.
- Level 5: One Earned Work Credit for each five days worked.
- Level 7: One Earned Work Credit for each seven days worked.

Those assigned to part-time jobs, requiring up to four hours each work day, can earn one-half of the amount of credits shown above.

During FY 1986, an average of 8,258 inmates (or 77 percent of the SCDC average daily population) were productively engaged and earned credits towards their time to serve. An additional 811 inmates, on the average, worked on jobs but due to their sentence category were not eligible for motivational work credits as specified by the Litter Control Act. Among those eligible for motivational work credit, a total of 790,122 credits were earned during this period for a productivity average of 96 credit days per inmate. These credits ultimately will result in an earlier release date for each of these inmates at an average of 57 days per 100 credit days earned for those released with sentence served and 100 days per 100 credit days for those paroled. A detailed breakdown of the daily average of inmates in each job assignment and the total and average number of work credits generated by each job during this period is presented in Table 26 in the Statistical Section, pages 93 through 99. The profile of inmates at each job level of productive work close to the end of FY 1986 was as follows:

LEVEL	FULL TIME	PART TIME	NUMBER OF INMATES
2 (One day credit for each two days worked)	3,507	--	3,507 (30.4%)
3 (One day credit for each three days worked)	2,312	20	2,332 (20.2%)
5 (One day credit for each five days worked)	1,590	95	1,685 (14.6%)
7 (One day credit for each seven days worked)	976	163	1,139 (9.9%)
Unassigned/Not Earning Credit*	2,870	--	2,870 (24.9%)
TOTAL	11,255	278	11,533(100.0%)

\* Inmates undergoing transfer, reception and evaluation processing, administrative disciplinary action, unassigned, or on Death Row.

The Earned Work Credit Program was conceived as a strategy to stabilize inmate population, thereby controlling the spiraling long-term capital improvements and operating costs. The effects of earned work credits on the SCDC population level and operational costs have resulted in the reduction of time served of released inmates. Between July 1, 1985, and June 30, 1986, 6,369 inmates were released from SCDC. Of that number, 4,735 inmates (74%) had their time served reduced via the productive work provisions of the Litter Control Act.

The Omnibus Criminal Justice Improvements Act revised the earned work credit program to allow certain inmates to receive work credits if they are enrolled in an academic program. However, inmates with life sentences and violent offenders will not be eligible for work or educational credits. This provision became effective with the Act, June 3, 1986.

#### Extended Work Release Program (EWRP)

Since legislative authorization on June 13, 1977, the EWRP has continued to facilitate the placement of eligible inmates in communities residing with family sponsors, thereby relieving work release bedspace for other inmates. Amended June 15, 1981, selection criteria for the EWRP now provides the exceptional regular work release resident, convicted of a first and not more than a second offense, the opportunity to reside with an approved community sponsor and to be gainfully employed in the community. Each extended work release participant must have satisfactorily participated in regular work release, exhibited a desire to become a law-abiding citizen, and satisfied other criteria set forth by departmental policy. Participants in EWRP report to work release centers and are required to reimburse SCDC \$21.00 a week for supervision. Amended in June, 1986, extended work release participants are further restricted to exclude persons convicted of violent crimes or convicted of attempting to commit a violent crime while in possession of a firearm or a knife. During FY 1986, 340 inmates were placed on EWRP; 234 successfully completed the program and were released or paroled from SCDC, 165 were transferred to other programs, or were terminated for rule violations. The number of inmates in

---

<sup>8</sup> Of the remaining 1,634 inmates released, 330 had earned work credit, but because of a combination of circumstances were not affected in their release eligibility.

<sup>9</sup> Before the amendment, only inmates convicted of non-violent crimes were allowed to participate in the EWRP.

the program averaged 194 during the fiscal year, and on June 30, 1986, 167 program participants were residing with community sponsors rather than being housed in SCDC facilities.

#### Health Services Division

Fiscal Year 1986 was the first of a three-year plan for implementing Nelson Settlement health care requirements. Compliance was near 100%, including acquisition of required new staff and equipment.

Correctional Medical Systems (CMS) was selected to provide contract health care for inmates of the Coastal Region. CMS began service on an interim basis at Lieber Correctional Institution at the end of the fiscal year. Full implementation is expected during the coming year. Solicitation for a firm to provide contractual health care at McCormick Correctional Institution began in May, 1986.

The contract with Martin Segal Company, to review all hospital bills prior to payment to determine if fees are appropriate and treatment and services consistent with medical diagnosis, terminated at the end of the fiscal year. The results indicate that generally, hospital bills are correct as rendered.

In the area of mental health services, changes at Gilliam Psychiatric Center (GPC) during FY 1986 should result in improved quality of care and a greater clinical focus. Special training workshops conducted by specialists were offered during the year, and a Quality Assurance Supervisor and oversight committee were established. In addition, GPC moved from a one treatment team approach to a multi-treatment team approach. This along with the hiring of additional staff allows more intense contact with clients and a more clinical focus.

#### Correctional Industries and Farming Operations

During Fiscal Year 1986, Prison Industries had gross sales of approximately 6 million dollars.

In order to encourage the use of SCDC's industries work force and products, Governor Richard Riley established a prison industry task force (comprised of legislators, businessmen and women, and private citizens) to explore ways that Prison Industries could be expanded. The Task Force made its report to Governor Riley in late June, and their recommendations are presently under study. The task force stated that Prison Industries has the potential to double its sales within the next several years and to set as a goal 5% of the gross purchases made by the State of South Carolina.

Prison Industries began installing equipment at the Lieber Correctional Institution in Dorchester County. This plant will be involved in repair and renovation of heavy equipment. It is anticipated that the plant will be in full operation by late August, 1986.

Plans have been made to relocate the Tag Plant from CCI to a facility in the Broad River Road area. Other programs have been designated for the new institutions at McCormick and Allendale.

The Agricultural Branch completed the first phase of the dairy complex, and is presently producing and processing chocolate and white milk for inmate consumption. The new dairy is operating very efficiently, and plans are now being made to complete the feedlot section. Money has been approved for this expansion.

The Agricultural Branch completed installation of approximately 600 acres of a \$200,000 irrigation system. The irrigation system is financed from timber sales authorized under state law.

#### Personnel Administration and Training

Hiring and recruiting activities were of primary importance during FY 1986. The Agency was allocated 849 new positions, the majority of which had been recruited for and staffed by year-end.

The Correctional Officers Screening (basic skills) Test, developed and tested during FY 1985, was implemented during FY 1986. To date, it has proven to be an effective screening mechanism for correctional officer applicants.

Employee orientation and supervisory training for the Employee Assistance Program began in August, 1985. Developed to aid in the detection and treatment of job-related stress and other extraneous problems occurring outside of the work place, the program has been well received and participation has exceeded expectations.

In compliance with the Fair Labor Standards Act (FLSA), a comprehensive policy was developed and implemented that addressed hours of work and overtime hours, as well as overtime compensation. As a result of FLSA, a new leave and attendance reporting system was implemented Agency-wide which provides for the calculation and payment of overtime hours.

#### Division of Human Services

After the first year of a three-year Health/Mental Health Staffing Study, the Division of Human Services added institutional social work staff to meet the social worker -

general population inmate ratio goal of 1/150. Staff was also added to the administrative segregation units and to the Habilitation Unit for the Developmentally Disabled Offender at the Stevenson Correctional Institution. Contractual psychological consultation at institutional social work services and mental health related components was also initiated.

After the development and orientation of the SCDC Adult Sexual Offender Treatment Program at Perry Correctional Institution, Kirkland Correctional Institution, Manning Correctional Institution and Central Correctional Institution during FY 1985, services began to be provided as part of a pilot effort to implement the program during FY 1986.

Aided by the South Carolina Commission of Alcohol and Drug Abuse, the initial development of an eight-hour alcohol and drug education course for inmates was completed during FY 1986.

Reaccreditation was received for the SCDC Clinical Pastoral Education Program.

#### Inmate Classification

A comprehensive objective classification plan with provisions for initial classification, reclassification and internal classification was refined during FY 1986. Initial and reclassification instruments were designed and detailed instructions/manuals were written. This classification system is being continually monitored and evaluated, and plans are being made for validation.

With SCDC's classification system receiving national recognition, the Classification Branch was called on to provide technical assistance and information to states referred by the American Correctional Association, the National Institute of Corrections, and other organizations. Classification representatives from Alabama, Louisiana, and Maryland visited South Carolina to observe and discuss SCDC classification procedures.

#### Accreditation

The South Carolina Department of Corrections continued its participation in standards compliance and accreditation with the Commission on Accreditation for Corrections. Previously awarded accreditation certificates valid for three year periods were the Youthful Offender Branch -- Parole Field Service, Palmer Work Release Center, Dutchman Correctional Institution, Watkins Pre-Release Center, and Cross Anchor Correctional Institution.

During FY 1986, the Livesay Work Release Center in Spartanburg was successfully audited and awarded initial accreditation for

three years. Accreditation efforts continue at the State Park Correctional Center. Also accreditation contracts were signed with the Commission on Accreditation for Corrections for the Campbell Work Release Center in Columbia and for re-accreditation of the Dutchman Correctional Institution in Spartanburg County.

#### Death Row

As set forth by South Carolina Law, for those persons convicted of Murder and sentenced to death, SCDC has the responsibility of "providing a death chamber and all necessary appliances for inflicting such penalty by electrocution" (Section 24-3-540, S. C. Code of Laws). Since the amendment and passage of the current death penalty law in June, 1977, SCDC has been housing these inmates on Death Row at CCI as safekeepers for the county. During the year, SCDC received 12 inmates to Death Row, and at the end of the fiscal year, there were 45 individuals on Death Row. Of the offenders received this year, 5 were white and 7 were black, all were male and sentenced for Murder. Their ages ranged from 20 to 55, with an overall average age of 30. They were engaged in varying stages of the appeals process with an average stay on Death Row of 3 years, 2 months.

Since reinstatement of capital punishment in 1977, SCDC has received 59 Death Row inmates. Since 1977, fourteen inmates have been removed from the Death Row count: four had their death sentences commuted to life; five were resentenced; one was retried, found not guilty, and released from SCDC; two died; and two have been executed (one in FY 1985, and one in FY 1986).

#### Division of Public Affairs

During recent years, the Department of Corrections has been thrust into the public eye due to prison overcrowding, litigation, publicized cases of violent crimes and inmate disturbances. Consequently, the Division of Public Affairs developed a plan during FY 1986 to establish a better working relationship with victims' rights groups and to educate the public and SCDC employees concerning these issues. To accomplish this, agency personnel are being consulted for media input, a special-topic videotape operation for agency and public use is being offered, an organized speaker's bureau was established and a victims' liaison was hired.

## GRANT ASSISTANCE DURING FY 1986\*

### Through the South Carolina State Department of Education:

- o Chapter I (formerly Title I) to supplement and upgrade educational programs within the South Carolina Department of Corrections for youths under 21 years of age: \$311,542 for July 1, 1985, to June 30, 1986.
- o Direct service delivery (Public Law 94-142) to provide special education for the handicapped (learning disabilities), age 21 and under: \$41,715 for July 1, 1985, to June 30, 1986.
- o Adult Basic Education to hire teachers and furnish supplies for basic education programs at multi-grade levels: \$146,577 for July 1, 1985, to June 30, 1986.
- o Chapter II (formerly Title IV, Part B) to furnish instructional materials and equipment at the institutional library to enhance educational programs: \$4,330 for July 1, 1985, to June 30, 1986.
- o Vocational Education Act (VEA) to provide vocational training to the underprivileged and furnish skills to prepare them for beneficial employment upon release: \$352,542 for July 1, 1985, to June 30, 1986.

### Through the S.C. State Library Board:

- o Library Services - Book collection improvement for the South Carolina Department of Corrections' libraries: \$17,000 for July 1, 1985, to June 30, 1986.

### JTPA (Job Training Partnership Act) through the Governor's Office:

- o JTPA Services - (a combination of Linkage and Transition Services of previous years) to supplement the 30-day work release program and assist incarcerated offenders to attain a comprehensive transition into the labor market: \$293,000 for July 1, 1985, to June 30, 1986.
- o JTPA - to provide training skills in Auto Mechanics, Brickmasonry, and Welding at Aiken Youth Correction Center: \$114,542 for July 1, 1985, to June 30, 1986.

### Through the National Institute of Corrections:

- o For Prison Industry Marketing Plan: \$25,000 for April 1, 1985, to September 30, 1986.

Through S.C. Energy Research Foundation - Clemson University:

- o To build an ethanol plant at Wateree: \$350,000 for December 1, 1984, to March 31, 1988.

U.S. Department of Justice (through the Governor's Office):

- o To develop a Demographically Disaggregated Flow model of the South Carolina Criminal Justice System to Facilitate Prison Population Projections: \$7,689 for April 30, 1986, to June 30, 1986.

\*Amount approved by grantor/agency.

## STATISTICAL SECTION

Detailed inmate and personnel statistics are presented on pages 45 through 105. Tables 7 to 13 therein delineate the characteristics of inmates admitted to SCDC during FY 1986. Tables 14 to 23 describe the inmate population in SCDC at the end of FY 1986. Tables 24 to 26 pertain to inmates released from SCDC during FY 1986. The following provides an overview of inmate population flow and characteristics.

### Average Population and Facility Occupancy in FY 1986

- o During FY 1986, on an average daily basis, SCDC had 10,755 incarcerated inmates under its jurisdiction (including inmates on supervised furlough but excluding inmates on EPA). For every 100 inmates, 86 were housed in SCDC facilities, 5 in Designated Facilities, and 9 were placed in other locations.
- o SCDC's average daily population in FY 1986 increased by 7.4% over FY 1985.
- o SCDC facilities continued to be overcrowded in FY 1986, although total design capacity and safe and reasonable operating capacity had increased by 60 beds by fiscal year end. Overall, SCDC facilities were housing about one and one-third times the number of inmates they were designed to hold. Based on the safe and reasonable capacity, Goodman Correctional Institution was most overcrowded (70% above its rated capacity).
- o Based on design capacity, 21 of the 26 SCDC facilities were overcrowded on an average daily basis; based on the safe and reasonable operating capacity, 18 facilities were overcrowded.

### Profile of Inmates Admitted to SCDC During FY 1986

The profile of 7,397 admissions recorded by the Correctional Information System during FY 1986, is as follows:

- o For every 100 inmates admitted, 40 were white male, 52 non-white male, 3 white female and 5 non-white female.
- o Forty-three (43) out of every 100 inmates admitted were from the Appalachian Region, 28 from the Midlands Region, and 29 from the Coastal Region.

- o The most common offenses<sup>11</sup> among admissions were: Larceny (17 out of 100 inmates admitted were convicted of this offense), Dangerous Drugs (12/100), Burglary (11/100), Traffic Offenses<sup>12</sup> (10/100), Assault (7/100).
- o The average age for inmates admitted in FY 1986 was 29 years. Generally as groups, non-whites were somewhat younger (by two years) than whites.
- o For every 100 inmates admitted, 12 were 19 years of age or younger and 51 between 20 to 29 years of age (63, or almost two-thirds, therefore, were 29 years of age or younger).
- o Inmates admitted in FY 1986 had an average sentence of 4 years and 10 months. (This average is nine months less than in FY 1985, but one month more than in 1982.)
- o Generally, non-white male admissions had longer average sentences than white males (5 years 2 months for the former, 4 years 9 months for the latter). Female admissions had shorter average sentences than males. (Notable differences in types of offenses/nature of crimes may contribute to variations in sentence.)
- o For every 100 admissions, 12 had a YOA sentence and 34 had a sentence of a year or less. During FY 1986, the number of YOA's admitted decreased slightly (22 fewer than FY 1985). Admissions in the year or less category increased (235 more than last fiscal year).

#### Profile of Inmates in SCDC as of June 30, 1986

There was a total of 11,533 inmates under SCDC's jurisdiction as of June 30, 1986 (1,183 or 11% more than approximately the same date a year ago). The characteristics of these inmates were as follows:

- o For every 100 inmates in SCDC, 37 were white males, 58 non-white males, 2 white females and 3 non-white females.
- o There was the same proportion of non-white males in the system on June 30, 1986 (58%), as on June 30, 1985 (58%). Proportionally, white males remained the same (37%).

---

<sup>11</sup> In the case of multiple offenders, only the most serious offense is counted.

<sup>12</sup> Including Driving Under the Influence.

- o Of every 100 inmates, 14 were in AA custody, 44 in A, 29 in B, 4 in C, 4 in M, 1 in semi-trusty, 2 intake and 2 in protective. The custody grade composition had no major difference from that on June 30, 1985.
- o Most serious offenses for inmates in SCDC on June 30, 1986, were: Larceny (17 out of every 100 inmates were convicted of this offense), Robbery (13/100), Homicide (13/100), Burglary<sup>13</sup> (11/100), Dangerous Drugs (9/100) and Assault (8/100).
- o The average age among all inmates in SCDC on June 30, 1986, was 30 years (30 years 7 months a year ago). The average age was slightly higher for white females (32 years) when compared to the non-white female's average age of 30. Non-white males were younger than their white counterparts (30 years and 31 years, respectively).
- o The average sentence of the SCDC inmate population on this date was 11 years 11 months. For non-white males, the average was 12 years 5 months, as compared to 11 years 8 months for white males. White females had an average sentence of 7 years 1 month; non-white females, 6 years 8 months.
- o There were more YOA's in SCDC on June 30, 1986, than a year ago (814 or 7.1% versus 715 (6.9%). There was a 10% increase in the number of lifers 933 on June 30, 1986, versus 839 a year ago).
- o On June 30, 1986, there were more white males (9.0%) than non-white males (7.5%) in the life category; there were also more white males (8.1%) than non-white males (6.6%) in the YOA sentence category. There were more white female lifers (10.4%) than non-white female lifers (6.8%), and there were fewer non-white female YOA's than white female YOA's (2.9% vs. 5.2%).

---

<sup>13</sup> Because of the relatively fast turnover with short sentences, the leading offenses for the inmate population in SCDC on specific dates were somewhat different from those for admission cohorts. For example, offenses which carry relatively short sentences were the fourth leading (most serious) among admissions cohorts, but ranked number 9 among offenses for the inmate population as of June 30, 1986. Only 2.6% of the inmate population as of that date were convicted of traffic offenses.

### Statistics on Inmates Released from SCDC During FY 1986

During FY 1986, SCDC released 6,369 inmates. Of every 100 inmates released, 11 were youthful offenders paroled by the Youthful Offender Branch of SCDC's Division of Classification and Community Services; 14 were paroled by the Probation, Parole and Pardon Board; 34 had served the maximum term of their sentence after consideration for good time credits; 17 were placed on probation; and 20 were EPA conditional releases. The remaining 4 were released upon paying a fine or appeal bond or death.

- o For every 100 inmates released, over half (55%) served one year or less, while 2% served ten or more years. The average time served for all inmates released was 1 year and 10 months.

TABLE 2

SCDC AVERAGE INMATE POPULATION <sup>3</sup>  
1960-1986  
(CALENDAR YEARS)

YEAR	IN FACILITIES	SPECIAL PLACEMENTS <sup>1</sup>	IN DESIGNATED <sup>2</sup> FACILITIES	TOTAL UNDER SCDC JURISDICTION	ABSOLUTE CHANGE OVER PREVIOUS YEAR	PERCENT CHANGE OVER PREVIOUS YEAR

1986	9,588	1,614	479	11,681	928	8.6

<sup>1</sup>This category of inmates do not take up bedspace in SCDC facilities and have increased in number as institutional diversionary programs are implemented -- Extended Work Release Program (in 1978), Supervised Furlough and Provisional Parole Program (in 1982). Special placements included those inmates assigned to the State Law Enforcement Division, the Commissioner's Home, hospital facilities, Alston Wilkes Half-way Houses, Interstate Corrections Compact, authorized absences, Extended Work Release, Supervised Furlough and Provisional Parole.

<sup>2</sup>Since April 1, 1975, suitable county and local facilities have been designated as facilities to hold State inmates as a temporary measure to alleviate overcrowded conditions in SCDC facilities.

<sup>3</sup>Average calculated from January, 1986 - June, 1986 population figures.

1986	9299	978	478	10755	634	6.3

\*This category of inmates do not take up bedspace in SCDC facilities and have increased in number as institutional diversionary programs are implemented--Extended Work Release Program (in 1978), Supervised Furlough and Provisional Parole Programs (in 1982). Special placements include those inmates assigned to Byrnes Clinical Center, the State Law Enforcement Division, the Criminal Justice Academy, the Commissioner's Home, hospital facilities, Alston Wilkes Half-way Houses, Interstate Corrections Compact, authorized absences, Extended Work Release, Supervised Furlough and Provisional Parole.

\*\*Since April 1, 1975, suitable county and local facilities have been designated as facilities to hold State inmates as a temporary measure to alleviate overcrowded conditions in SCDC facilities.

\*\*\*The jurisdiction count does not include inmates conditionally released under the Emergency Prison Overcrowding Powers Act (EPA) enacted in September 1983. Had it not been for EPA, the average jurisdictional counts for Fiscal Years 1984, 1985 and 1986 would have been 9813 (an increase of 24), 10392 (an increase of 271), and 11329 (an increase of 574), respectively.

## APPENDIX A

### STATUTORY AUTHORITY OF THE SOUTH CAROLINA

#### DEPARTMENT OF CORRECTIONS

The South Carolina Department of Corrections was created in 1960 by Section 55-292, *South Carolina Code of Laws* as follows: "There is hereby created as an administrative agency of the State government the Department of Corrections. The functions of the Department shall be to implement and carry out the policy of the State with respect to its prison system, as set forth in 55-291, and the performance of such other duties and matters as may be delegated to it pursuant to Law."

Section 55-291 as referred to in Section 55-292 sets out the Declaration of Policy as follows: "It shall be the policy of this State in the operation and management of the Department of Corrections to manage and conduct the Department in such a manner as will be consistent with the operation of a modern prison system and with the view of making the system self-sustaining, and that those convicted of violating the law and sentenced to a term in the State Penitentiary shall have humane treatment, and be given opportunity, encouragement and training in the matter of reformation."

Further significant statutory authority was provided the Department by Section 14, Part II, the permanent provisions of the 1974-75 General Appropriations Act which was signed on June 28, 1974. Section 14 is, in effect, an amendment of Section 55-321 and places all prisoners convicted of an offense against the State in the custody of the Department when their sentences exceed three months. The text of the statute is as follows:

"Notwithstanding the provisions of Section 55-321 of the 1962 Code, or any other provision of law, any person convicted of an offense against the State of South Carolina shall be in the custody of the Board of Corrections of the State of South Carolina, and the Board shall designate the place of confinement where the sentence shall be served.

The Board may designate as a place of confinement any available, suitable and appropriate institution or facility, including a county jail or work camp whether maintained by the State Department of Corrections or otherwise, but the consent of the officials in charge of the county institutions so designated shall be first obtained. Provided, that if imprisonment for three months or less is ordered by the court as the punishment, all persons so convicted shall be placed

in the custody, supervision and control of the appropriate officials of the county wherein the sentence was pronounced, if such county has facilities suitable for confinement."

This statute was amended by an added provision in the 1975-76 General Appropriations Act to provide for notification to the Department of Corrections of the closing of county prison facilities as follows: "Section 14, Part II, of Act 1136 of 1974 is amended by adding the following proviso at the end thereof: Provided, further, that the Department of Corrections shall be notified by the county officials concerned not less than six months prior to the closing of any county prison facility which would result in the transfer of the prisoners of the county facility to facilities of the Department."

## APPENDIX B

### YOUTHFUL OFFENDER ACT

The Youthful Offender Act provides for indeterminate sentencing of offenders between the ages of 17 and 21, extended to 25 with offender consent. The specific provisions of the Act are as follows:

Section 5b - This section allows the court to release the youthful offender to the custody of the Department's Division of Classification and Community Services prior to sentencing for an observation and evaluation period of not more than 60 days.

Section 5c - This section allows the court to sentence the youthful offender, between 17 and 21, without his consent, indefinitely to the custody of the Department's Division of Classification and Community Services for treatment and supervision until discharge. The period of such custody will not exceed six years. If the offender has reached 21 years of age but is less than 25 years of age, he may be sentenced in accordance with the above procedure if he consents thereto in writing.

Section 5d - This section provides that if the court finds that the youthful offender will not derive benefits from treatment, it may sentence the youthful offender under any other applicable provision.

## APPENDIX C

### PROGRAMS AND SERVICES ADMINISTERED BY THE SOUTH CAROLINA DEPARTMENT OF CORRECTIONS

#### RESPONSIBLE DIVISION

#### PROGRAM AREA/ACTIVITY

##### Human Services

Psychological Services; Social Work Services; Sexual Offender Treatment Program; Recreation Services; Horticultural Services; Pastoral Care Services; Morris Village and Alston Wilkes Furlough Programs; S. C. Department of Vocational Rehabilitation Inter-Agency Agreement; Volunteer and Child Activity Services.

##### Health Services

Medical/Dental Outpatient Services; Infirmary Services; General Surgery and Orthopedic Surgery; Internal Medicine; Psychiatric Services; Optometric and Ophthalmology Services; Physical Therapy Referral Services--Dermatology, Neurology and Urology Services, Pharmacy and Medical Laboratory.

##### Classification and Community Services

Classification and Assignment; Work Release; Extended Work Release; 30-Day Pre-Release; Short-Term Work Release; Youthful Offender Referrals; Educational Release; Federal Offender Referrals; Employment Program; Economic Development Pilot Program; Provisional Parolees Referrals; Inmate Furlough; Casework; Pre-sentence Investigation; Institutional Services; Parole and Aftercare Services for Youthful Offenders; Supervised Furlough and Emergency Prison Overcrowding Powers Act Releases; R&E Intake Assessment.

Internal Affairs and  
Inspections (Inmate  
Relations Branch)

Investigate and evaluate complaints  
concerning inmates and submit  
recommendations when necessary;  
assist inmates who have been unable  
to resolve problems through existing  
channels.

## APPENDIX D

### COMMUNITY PROGRAMS

1. 30-Day Pre-Release Program: All inmates who are to be released from SCDC or provisionally paroled. This program offers participants a series of pre-release training sessions at the Watkins Pre-Release Center and the Blue Ridge Community Pre-Release Center. Inmates on the 30-Day Pre-Release Program do not work in the community.
2. Regular Work Release, Short-Term Work Release, Educational Release, Federal Referral Programs: Inmates participating in the Short-Term Work Release, Regular Work Release, Educational Release, and Federal Referral Programs work in the community during the day and reside in SCDC work centers. These programs have similar selection criteria but differ in terms of the inmates' remaining time to serve before eligible for parole or other forms of release. The Federal Bureau of Prisons refers some of their inmates to SCDC who are legal residents of South Carolina and meet all the criteria for the SCDC Regular Work Release Program. For details on the programs' respective eligibility requirements, users of this report should consult the Division of Classification and Community Services.
3. Extended Work Release Program: This program allows the exceptional work release inmate to continue employment in the community and reside with an approved community sponsor. Program participants continue to be responsible to the work release center assigned and are maintained as authorized absentees. Information on eligibility criteria can be obtained from the Division of Classification and Community Services.

## APPENDIX E

### LEGISLATION RELATING TO SUPERVISED FURLOUGH

Supervised Furlough I: Pursuant to Section 24-13-710, Code of Laws of South Carolina, 1976, the Supervised Furlough Program provides for first-time or second-time offenders committed to the South Carolina Department of Corrections with a total sentence of over one year but not more than five years, for crimes other than (1) Murder, (2) Armed Robbery, (3) Criminal Sexual Assault, (4) Assault and Battery with Intent to Kill, (5) Drug Trafficking, or (6) Kidnapping, to be released on furlough under the supervision of the Department of Parole and Community Corrections. These carefully selected and screened offenders have the privilege of residing in an approved residence and continuing treatment, or employment in the community until parole eligibility or expiration of sentence. Additional eligibility requirements for program placement include, but are not limited to, the following:

1. Maintain a clear disciplinary record for at least six months prior to consideration for program placement;
2. Demonstrate a general desire to become a law-abiding member of society;
3. Have an identifiable need for and willingness to participate in community-based programs and rehabilitative services.

Supervised Furlough II (also Section 24-13-710): By the authority granted under Article 9, Chapter 13 of Title 24, 1976 Code as amended upon approval by the Governor on June 13, 1983, the South Carolina Department of Corrections and the South Carolina Department of Parole and Community Corrections have developed a cooperative agreement for the operation of the Supervised Furlough Program. The Act provides for the placement of inmates who qualify under the criteria to be placed on furlough under the supervision of the Department of Parole and Community Corrections. In order to be released under the Supervised Furlough II Program, an inmate: must not have been sentenced to life imprisonment; must not have been sentenced for any of the following crimes--Murder, Armed Robbery, Criminal Sexual Assault (1st, 2nd, or 3rd degree), Assault and Battery with Intent to Kill, Kidnapping, Drug Trafficking, Non-Support, Contempt of Court, Violation of the Habitual Offender Act, Lewd act on a Child, Assault with Intent to Commit Criminal Sexual

Conduct, Felony DUI, Voluntary Manslaughter, Involuntary Manslaughter or Accessory Before the Fact of any of the above offenses; must not have any pending holds, wanteds, or detainers; must not be confined to lock-up for investigation or disciplinary action on placement date; must not be released directly from Psychiatric Unit; must not have been removed from participation in a community program during the six months prior to Supervised Furlough eligibility date; must not have been sentenced under the Youthful Offender Act; must not have a pending adjustment committee action; must not be a participant in the Extended Work Release Program; must not have escaped during the six months prior to Supervised Furlough eligibility date; must have a claimed place of residence with a verifiable address within the State of South Carolina which is approved by the Department of Parole and Community Corrections; must be within six months of the expiration of sentence; must have served at least six months toward the sentence; must have maintained a clear disciplinary record for at least six months prior to eligibility date; and must have served the minimum time of a mandatory minimum sentence.

Disorderly Conduct	
Disturbing the Peace	
Curfew Violation	
Littering	

## APPENDIX I

### LEGISLATION RELATING TO MINIMUM SENTENCING/PAROLE ELIGIBILITY FOR:

#### 1. Armed Robbery

The Armed Robbery Act (Section 16-11-330, South Carolina Code of Laws, 1976), signed on June 24, 1975, pertains to the sentencing of armed robbers, and provides: "(1) for a mandatory ten year minimum sentence with seven years having to be served before parole eligibility; (2) for under twenty-one year old offenders sentenced under the Youthful Offender Act, a three year minimum sentence, all of which must be served; (3) that no person between the ages of twenty-one and twenty-five sentenced under the Act may be sentenced under the Youthful Offender Act; (4) that it shall be a misdemeanor for anyone to carry a concealed weapon anywhere other than on his own premises; and (5) that a person convicted of attempted robbery shall be sentenced to a term of no more than twenty years at the discretion of the judge."

#### 2. Murder

This Act, signed into law on June 8, 1977 (Section 16-3-20, South Carolina Code of Laws, 1976), provides: "that a person who is convicted of or pleads guilty to murder shall be punished by death or by life imprisonment and shall not be eligible for parole until the service of twenty years."

## APPENDIX J

### FY 1985 LEGISLATION AFFECTING THE DEPARTMENT OF CORRECTIONS

The following bills affecting SCDC were passed by the General Assembly in the Fiscal Year 1984-85 legislative session:

H2120 A bill to amend Section 16-3-20, Code of Laws of South Carolina, 1976, relating to the punishment for murder, so as to provide that when the Governor commutes a sentence of death, the commuttee is not eligible for parole and to provide that no person sentenced for murder may receive any work release credits, good-time credits, or any other credit that would reduce the mandatory twenty-year imprisonment required by this section.

S258 A bill to amend Section 16-11-310, Code of Law of South Carolina, 1976, relating to burglary and to amend Article 5, Chapter 11 of Title 16 relating to offenses, against property by adding Sections 16-11-311, 16-11-312, and 16-11-313 so as to provide for the crimes of burglary in the first, second, and third degree, all of which are felonies, to provide penalties for violations, and to repeal Section 16-11-320 relating to the crime of housebreaking which is not burglary.
