Governor BOB GRAHAM Secretary LOUIE L. WAINWRIGHT

1311 Winewood Boulevard • Tallahassee, Florida 32301 • Telephone: 904/488-5021

December 31, 1984

Honorable Bob Graham Governor of Florida Honorable Members of Florida Legislature

Dear Governor and Members of the Legislature:

In accordance with Chapter 20.315(15), Florida Statutes, the Department of Corrections respectfully submits its Annual Report for Fiscal Year 1983-84. This year's Report will provide you and other interested individuals and agencies with information regarding the activities, status, functions and impact of the Florida Department of Corrections as it executes its statutory responsibility for the custody, care, treatment, management, and supervision of adult offenders.

Should you have any questions regarding the material in our 1983-84 Annual Report, we will be happy to respond.

Sincerely,

LOUIE L. WAINWRIGHT

Secretary

SECRETARY'S MESSAGE

LOUIE L. WAINWRIGHT, Secretary

The crush of a steadily increasing prison population in 1982-83 required a definitive response and new solutions. The Governor's and Legislature's intitiatives created landmark legislation—the Correctional Reform Act of 1983. This Act coupled with additional budget resources provided diversionary alternatives enabling our Department to comply with the provisions of the settlement agreement approved by the Federal Court in the Costello v Wainwright litigation and, in particular, to address critical inmate bed space, quality health care, and mental health services.

Implementation of the various components of the Act, in addition to an increasingly healthy economy, has created a leveling out of the offender population. In mid June, 1983, the population was 28,075; the June 30, 1984, population declined to 26,471; and the Criminal Justice Estimating Conference's forecast indicates a relatively level population for the next five years.

This development has been critical in enabling us to attain compliance with the Costello agreement. A significant factor in this process was the implementation of our Community Control Program. The Correctional Reform Act provided the courts with this highly cost effective alternative to incarceration which, in conjunction with sentencing guidelines, is being utilized successfully. It is important that the Community Control Program be appropriated funds to prevent the dilution of regular probation services.

The successful implementation of the various components of the Correctional Reform Act and the leveling of our prison population have provided us with an opportunity—an opportunity to catch up! While resources have been infused into our system to meet basic housing and health care needs, there is much that remains to be done.

Foremost is the need to strengthen our security capabilities. As our newer institutions have come on line, they have received security staffing consistent with current standards, but our older

A TIME AND OPPORTUNITY TO CATCH UP!

major institutions have significant deficiencies that have not been corrected. Work programs and activities had to be expanded to cope with the huge population growth; however, no new staff was provided to deal with these expansions in many facilities. The relief factor for our 7-day security posts should be adjusted to provide adequate staffing consistent with the demands and performance expectations of the 80's. A relief factor should be established for our 5-day posts. The 320 hour Correctional Standards Training and in-service training requirements place a premium on funded training relief.

In the past three years, we have expanded our Community Correctional Centers, built new ones, and utilized all of them intensively and extensively in managing our population. Staffing at these facilities has not kept pace with this service demand. Our lean staff has done an outstanding job in carrying out effective programs, and these facilities have achieved accreditation status. But, staff turnover and burnout are symptoms of asking too few to do too much for too long. Our community-based programs are very cost effective, but are overdue for more support staff and resources.

Additionally, in the mandatory drive to provide sufficient inmate beds, custody and care, and manage population, our programs and support services have been outstripped and left far behind as the need for these services soared. Illustrative, at the end of Fiscal Year 1976-77, the inmate population in institutions was 16,172. By June 30, 1984, this population had increased over 50 percent to 24,397. During this same seven year period, we experienced a net loss of educational staff from 500 to 488. Classification and records, counseling services, job training and placement, and substance abuse counseling are other programs that have fallen behind.

Program resources are badly needed system wide. They are needed to help us provide fundamental knowledge and skills and to deal with the basic human needs of those placed in our care. We are also committed to provide effective programs as a key strategy in our efforts to reduce the number of inmates returning to our system.

Education and training is a major force in addressing our inmate population's needs. Resource needs include: academic and vocational instructors, librarians, proper equipment for vocational training, and adequate buildings to house programs. Competitive salaries for instructional staff are essential if we are to provide the quality programs needed. The enhancement of these programs in our youthful offender facilities is a priority.

Offender job training and placement resources play a critical role in an inmate's successful reentry into the community. During this fiscal year, we have implemented or extended preemployment training, job placement, and other assistance for offenders leading to the acquistion and maintenance of employment upon release. Joint projects with the Department of Labor and Employment Security during 1983-84 made a significant start in this area. A grant

under the Wagner-Payser Act enabled us to provide additional preemployment and employment services. These initiatives need to be continued and strengthened.

Our Classification and Records staff have been overwhelmed by sheer numbers. The resources provided by the 1983 Legislature have helped greatly; however, we still do not have sufficient staff to meet workload standards. In addition to excessive caseloads, staff have had to respond to demands created by legislative and legal changes. Records must be maintained and essential data entered by too few staff for too many inmates.

Substance abuse and alcohol treatment made strides forward through the mid 70's, but there has been minimal advancement in the 80's. Substance abuse problems have not gone away, only taken new forms and combinations. Cocaine use has increased alarmingly and is at the root of much criminal activity. Alcohol use and abuse continues to be a major ill of our society, with preteen and teenage abusers growing. We need to refocus and strengthen our efforts on this problem.

During the past year, we expanded work opportunities throughout our system. A total of 2,606,751 man hours of work were performed for other state agencies, counties, municipalities, and local organizations. This effort to reduce inmate idleness was impressive in view of the limited staff available to supervise and direct these activities. We still lack sufficient constructive activities for all inmates capable of participating. Part of this need can be addressed by increased public work projects, if staff is provided to supervise the inmates. The expansion of industry work programs by Prison Rehabilitative Industries and Diversified Enterprises, Inc. is another important option, particularly for those inmates not eligible to work outside the institutions. We need to address idleness through a comprehensive, coordinated program that provides positive work experiences in concert with job training. Supervision staff and support resources are essential for success.

The physical buildings, shops, and temporary trailers housing our programs systemwide have deteriorated and are inadequate to conduct proper programs. Replacement, renovation, and new facilities are needed to provide existing programs and meet the increased needs for new ones.

Our facilities have not been able to keep pace with increased numbers and the changing needs of our system. Substantial numbers of our population are living in open housing environments. There is an increasing need for single cell housing for our evolving population. Factors contributing to this demand are: the rapid increase of inmates with twenty-five year minimum mandatory sentences, the phase out of parole resulting in a subtle growth of long-term offenders, and housing of high security inmates. This is compounded by the demand for death row and close management bed space at Florida State Prison and the phase out of the Main Housing Unit at Union Correctional Institution. Crisis stabilization and medical isolation beds are increasingly needed.

The 1,000 temporary crisis beds built last year are still in inventory, as they must be. The court, however, has indicated that these beds cannot be used in perpetuity. They need to be replaced with permanent beds and this replacement must be a part of our plan in response to our commitment to the court.

Finally, our people are our most valuable resource and staff development was a high priority this year. Through a diversity of training processes, we provided over 800,000 training hours for staff.

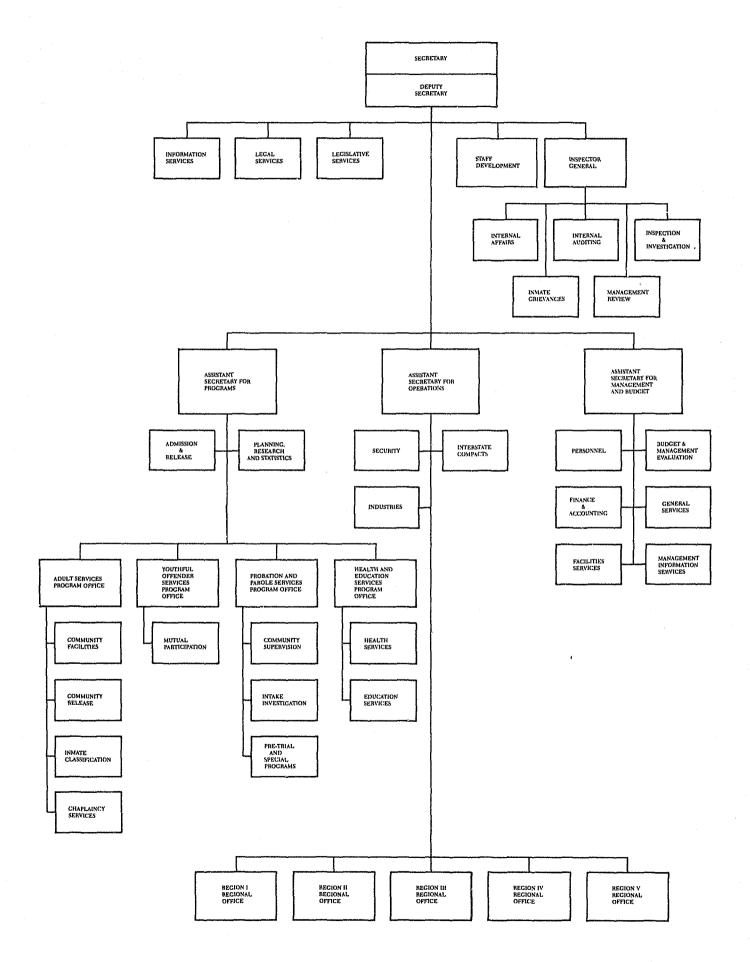

Highlights were the emergency preparedness training of key staff, training for our Community Control Offices, training in self-defense and fitness programs for staff. Our fitness programs focused on stress reduction and physical fitness training for staff safety.

As our system expands, both in inmates and staff, the demands and necessity of staff training and retraining is increasingly critical. The diversity of knowledge and skills required by our staff seems to increase on a daily basis. Our response to this challenge is the most important contribution we can make to our long-term success. Enhancement of our training resources is essential if we are to assure our personnel are professionally equipped to meet the challenges ahead.

Our training delivery capabilities must be increased to meet staff needs. We need to improve the quality of in-service training by providing a minimum of one Correctional Training Officer per 240 employees. We need to expand our Training Academy to a facility that provides adequate space for instructional needs, staff accommodations, and support services, so that we can provide quality training at reduced cost. Resources to provide computer-assisted learning and other technological approaches to effective training are necessary. The provision of training relief support for security staff is essential if we are to effectively deliver training services.

Over many years, this Department has faced adversities and challenges of enormous magnitude. We have met these challenges and defied them as we continued to move progressively forward. It is my firm belief that Florida has the finest state corrections system in the nation. Primarily, this is true because we have an olympic size team of exceptionally dedicated and professional employees serving Florida's citizenry. Illustrative of this effort is the national recognition of Florida as the largest fully accredited corrections system. Let us not rest on our laurels however, and while we have some respite from the population pressures of recent years, let's take advantage of today's opportunity and invest the resources necessary to truly achieve blue ribbon status for corrections in Florida.

DEPARTMENT ORGANIZATION CHART

STRUCTURE AND FUNCTIONS

OFFICE OF THE SECRETARY

SECRETARY LOUIE L. WAINWRIGHT is chief administrator of the Department of Corrections. He has held this position since July 1962 and was again reappointed by the Governor and confirmed by the Senate during the 1984 Legislative Session. The Secretary has the authority and responsibility to plan, direct, coordinate and effect the powers, duties and responsibilities assigned to the Department. Through daily contacts and weekly staff meetings, Secretary Wainwright provides guidance to the entire Department, identifies major issues and directs the planning and implementation of policies and procedures necessary to the operation of the State Corrections System.

DEPUTY SECRETARY DAVID D. BACHMAN shares the total management responsibility with the Secretary and in the absence of the Scretary acts on his behalf. Prior to appointment to this position, Mr. Bachman served in several major institutions and has held key administrative assignments throughout the Department.

The following FUNCTIONAL UNITS are located in the Office of the Secretary:

THE INSPECTOR GENERAL'S OFFICE is responsible for statewide local jail inspections, prison inspections and investigations, internal audits, inmate grievances, and management evaluations. Additionally, the Inspector General represents the Secretary in matters concerning variety of operational and investigative issues, makes recommendations for improvements in Correctional Institutions, and reviews and approves plans for proposed local detention facilities.

INFORMATION SERVICES provides liaison with the news media and responds to requests for information from the news media and the public sector. Production of the Departmental Newsletter and coordination of the release of information by the Department are also under the purview of this section.

LEGAL SERVICES has the responsibility for coordinating legal services, representing the Department in court suits and rendering legal opinions as necessary to the Secretary and other staff of the Department. Additionally, Legal Services coordinates and provides for promulgation of Department Rules.

LEGISLATIVE SERVICES coordinates all legislative liaison activities, analyzes and evaluates proposed legislation which potentially impacts upon the Department, and coordinates development of Department positions on proposed legislation.

BUREAU OF STAFF DEVELOPMENT coordinates and supervises all Staff Development Programs, develops curriculum and materials for staff training, and develops and coordinates specialized training programs.

ACCREDITATION MANAGER supervises the Department's Accreditation efforts and the continuing process of re-accreditation statewide, which includes liaison between the Department and the Commission on Accreditation for Corrections, and coordination and monitoring of all agency accreditation activities.

Mr. HARRY K. SINGLETARY, Jr. is ASSISTANT SECRETARY FOR OPERATIONS. This position is responsible for the direct supervision of the five Regional Directors and the delivery of all Departmental programs and services in the Regions, which encompass Major Institutions, Community Facilities and Probation and Parole Services. Other areas of management asigned to this office include the Interstate Compact Authority, Industries Operations, Security Coordination and the Department's Inter-Agency Work Programs.

These units and their functions are as follows:

INTERSTATE COMPACT AUTHORITY arranges and coordinates the implementation of the Interstate Compact Agreement with other states and implements interstate extradition proceedings. Interstate Compact Agreements provide the mechanism for transferring offenders to or from other states; the offenders involved being both under Probation and Parole supervision and in prison, and having acceptable reasons for being supervised in a state other than the one in which they were convicted.

CORRECTIONAL INDUSTRIES was responsible for coordinating and directing all Industries Programs in the institutions, and for the coordination of the sale, transportation and distribution of goods produced by the various industries. During FY 1983-84, its operations have been transferred to a private, non-profit corporation, Prison Rehabilitative Industries and Diversified Enterprises (PRIDE), Inc. The Department continues to be responsible for supplying the labor force and for liaison with PRIDE to help ensure successful operations.

SECURITY COORDINATOR provides for the monitoring and evaluation of security programs at all facilities, advising superintendents in the event of riots, disturbances, or potentially dangerous situations, monitoring the care and control of all movable security equipment, and reviewing security programs in all proposed institutions.

Dr. JAMES NATHAN COLE IS ASSISTANT SECRETARY FOR PROGRAMS. He came to the Department after serving four years as the Public Safety Policy Coordinator in the Governor's office. Dr. Cole is responsible for systemwide planning and program development, offender records, population movement and control, and all reaserch, statistics and program evaluation functions. He directs and supervises the activities of the Adult Services Program Office, Youthful Offender Program Office, Probation and Parole Services Program Office, Health and Education Services Program Office, Admission and Release Authority, and the Bureau of Planning, Research and Statistics.

The activities of these Program Offices and Bureaus are:

PROGRAM OFFICES AND BUREAUS

ADULT SERVICES is responsible for assessing needs, developing program policies, monitoring and controlling quality of programs, and developing program plans, directives, rules and procedures. Other units of organization included in the Program Office are Institutional Classification, Community Release, Community Facilities, and Chaplaincy Services.

YOUTHFUL OFFENDER is responsible for developing and assessing program policies,,monitoring and controlling program quality and developing program plans, directives, rules and procedures. Additionally, the Program Office is responsible for supervising the Mutual Participation Program in conjunction and in coordination with the Florida Parole and Probation Commission, and monitoring the movement and status of youthful offenders committed to the Department.

HEALTH AND EDUCATION SERVICES is responsible for identifying inmate health and education needs, developing program policies, monitoring and controlling the quality of health and education programs, and providing technical assistance to the institutions and other facilities.

PROBATION AND PAROLE SERVICES has as its primary responsibilities to monitor and control the quality of services, develop program plans, directives, rules and regulations, provide technical assistance to the Regions, evaluate programs and develop policies.

ADMISSION AND RELEASE AUTHORITY administers the activities of the Commitment and Sentence Data, Offender Records, and Population Movement and Control Sections, which are respectively responsible for receiving, documenting and establishing the official record of all persons sentenced to the Department of Corrections. Included are setting up and maintaining data on the computer necessary to establish an overall release date for each committed person; maintaining all current files for incarcerated offenders and offenders under supervision; and the initial institutional assignment of inmates from reception facilities, the physical movement of inmates between institutions an community facilities, and returning parole violators from out-of-state.

PLANNING, RESEARCH AND STATISTICS is responsible for planning, monitoring and evaluation efforts within the Department; research and analysis; and statistics. These areas of responsibility include the development of goals and objectives, performance measures, program evaluation, forecasting prison populations and probation and parole supervision caseloads, producing the Department's Annual Report, and providing recurring monthly reports regarding admissions and releases and status of the population under supervision.

Dr. PAMELA JO DAVIS is ASSISTANT SECRETARY FOR MANAGEMENT AND BUDGET. She is responsible for providing administrative support services to the Department which includes budget development and administration, general services, architectural and engineering services, automated data processing, finance and administrative services, and personnel management.

The functional units and their responsibilities are:

OFFICE OF MANAGEMENT AND BUDGET BUREAUS

BUDGET AND MANAGEMENT EVALUATION supervises the Department's fund allocations and releases, the coordination of statewide legislative operating budget preparation, the management of operating budgets, and the consolidation of legislative budget requests.

GENERAL SERVICES is charged with responsibility to plan, or ganize and supervise the Department's purchasing and property management, food service, and energy and preventative maintenance activities.

FACILITIES SERVICES has responsibility for coordination and development of new facility designs, renovation of existing facilities, coordination of site selection for new institutions and supervision of all projects appropriated to the Department.

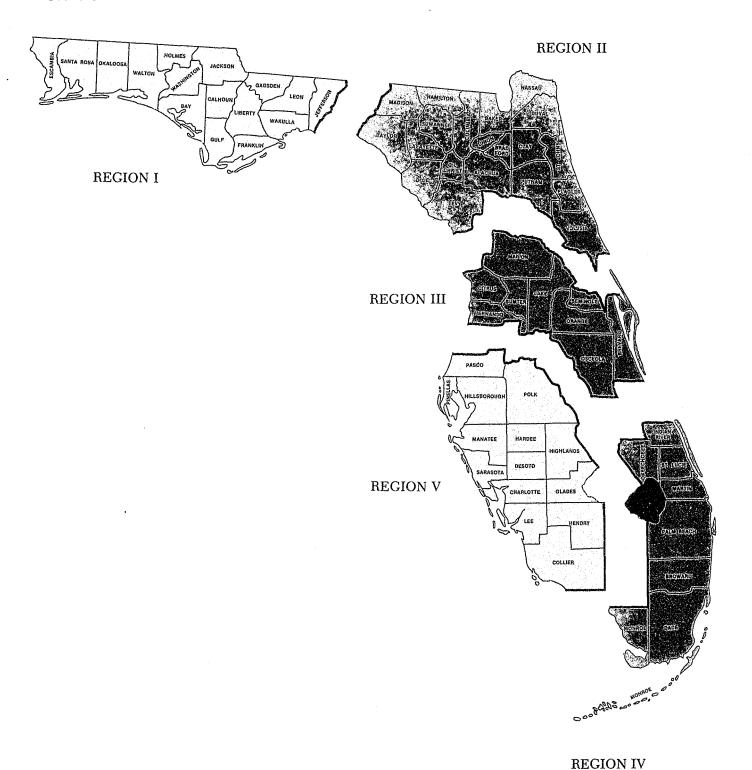

MANAGEMENT INFORMATION SERVICES administers Department Information Systems and related functions, including design, development and implementation of approved automated information systems. Included in their activities are the provision of programming support for the Department, and routine systems maintenance activities and general work flow within the computer center.

FINANCE AND ADMINISTRATIVE SERVICES is responsible for the preparation an anlysis of financial statements, the monitoring of fund balances and releases, the preparation of reports of requested financial data, the preparation of financial management projection reports, paying invoices, processing payroll changes, monitoring Grants and Donations transactions, and preparation of grant progress reports.

PERSONNEL represents the Department in personnel matters with other governmental agencies and the public, assists departmental management in collective bargaining activities and provides personnel law and rule interpretation and application. This activity analyzes and processes all classification and pay requests for the Department, prepares forms for the staffing of new facilities and functions, and acts as liaison with the Department of Administration.

REGIONAL DIRECTORS

As shown below and on the following pages, the Department administers Correctional Facilities and Probation and Parole Offices through five Regions. Each Region is headed by a Regional Director who supervises the activities of the Superintendents of Major Institutions within each Region, the Superintendents of Community Facilities and the Regional Probation and Parole Supervisors. Regional Directors are responsible for administering financial affairs and personnel management within their respective Regions and ensuring that departmental policies are carried out and standards of services complied with. The Regional Directors are also responsible for maintaining community relations throughout each Region and serving on various Boards and Councils.

CORRECTIONAL FACILITIES

Facilities required for housing incarcerated offenders are located throughout Florida. The geographical separation of similar facilities provides additional opportunities for appropriate programming and management of the inmate population.

THE DEPARTMENT IS RESPONSIBLE FOR:

SUPERVISING 26,471 OFENDERS*

IN

82 FACILITIES

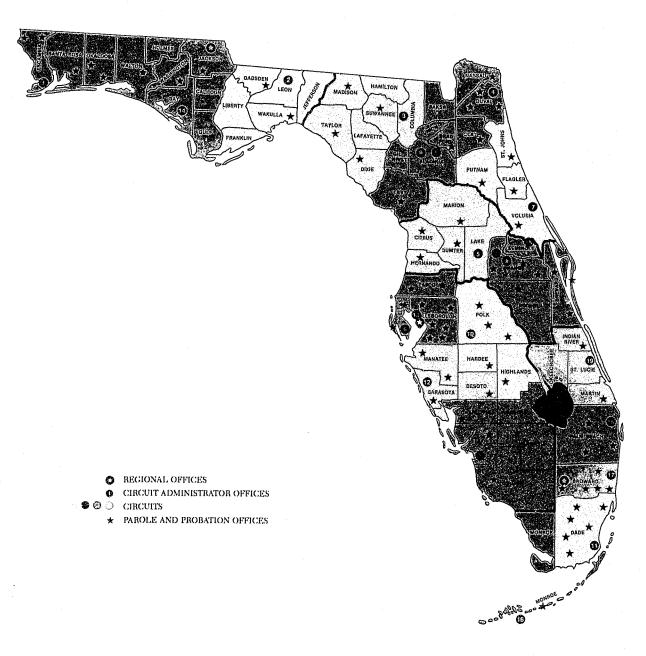

*June 30, 1984

PROBATION AND PAROLE OFFICES

Diversionary strategies are a critical factor in the success of any offender based criminal justice system. Florida relies on the quality and professionalism of the Probation and Parole offices to keep diversionary practices a viable alternative for offender rehabilitation.

THE DEPARTMENT IS RESPONSIBLE FOR:

SUPERVISING 69,538°
FROM
100 PROBATION PAROLE OFFICES

*June 30, 1984

GOALS AND OBJECTIVES 1983-85 BIENNIUM REVISED JULY 1983

I. PROVIDE HUMANE ENVIRONMENT IN SUFFICIENT FACILITIES TO ACCOMMODATE CURRENT AND POTENTIAL INMATE POPULATION

- Develop and carry out plans and procedures to implement recently enacted siting legislation.
- Ensure institutional assignment of assaultive and violent inmates based on uniform security classifications.
- Monitor inmate population levels to ensure maintenance below 98% of lawful capacity.
- Maintain accepted standards for the health and safety of inmates and staff.
- Correct critical fire safety and waste water treatment deficiencies.
- Continue developing youthful offender system of intake, movement, treatment and facilities.
- Provide required minimum standards training to all line correctional personnel.

II. PROVIDE COMMUNITY-BASED ALTERNATIVES TO INCARCERATION

- Acquire full funding for the Workhour Formula throughout the state.
- Implement the Pretrial Intervention Program in remaining one Judicial Circuit.
- Establish four (4) new Probation and Restitution Centers.
- Further develop the structured supervision program for Youthful Offenders and the training program for the Probation and Parole Officers who supervise them.
- Strengthen jobs development and placement services for inmates.
- Provide for disabled offenders to participate in community-based programs and facilities and make agreements with community service organizations for continuity of services.
- Strengthen and expand the citizen volunteer program to work with probationers and parolees.
- Fully implement Community Control Program as specified in the Correctional Reform Act of 1983.
- Clarify the setting of conditions of community control for those sentenced under the Youthful Offender Act/Chapter 958, Florida Statutes.
- Improve transitional services to offenders through implementation of the Basic Release Assistance Program

III. PROVIDE HEALTH SERVICES IN ACCORDANCE WITH ACCEPTED HEALTH SERVICES STANDARDS AND THE DEPARTMENT'S COMPREHENSIVE HEALTH SERVICES PLAN

- Request and allocate separate and discrete funds for development and training of Health Care Staff and for the operation of the Health Services Program.
- · Develop comprehensive standing orders for each facility's health unit.
- Develop appropriate policy and procedure manuals for each facility's health unit, including the special needs of women and inmates in confinement.
- Provide comprehensive staffing and equipment for health facilities including emergency rooms.
- Develop and implement programs for inmates with special needs due to mental, developmental and physical disabilities.
- Seek accreditation for the Reception and Medical Center Hospital from the Joint Commission on Accreditation of Hospitals.
- Develop limited intensive care capability at the RMC Hospital.
- Implement a telemedicine system for Health Care Services.

IV. PROVIDE MENTAL HEALTH CARE FOR ALL INMATES IN NEED

- Renovate and operate Corrections Mental Health Facility dedicated to the hospitalization and treatment of offenders with chronic mental health disorders.
- Expand the Treatment Team Concept and utilize the Individualized Written Treatment Plan in all major institutions having mental health care providers.
- Implement statewide medically accepted institutional screening methods for identifying inmates with mental disorders.
- Provide staff training in basic mental health treatment concepts.
- Establish intermediate care capabilities for inmates with chronic mental illnesses.
- Continue efforts to secure additional mental health positions required to improve treatment services.
- Improve Involuntary Commitment Procedures to facilitate the transfer of mentally disorderd inmates requiring placement in the Department of Health and Rehabilitative Services.

V. IMPROVE THE QUALITY OF FOOD SERVICES FOR INMATES

- Continue to ensure that Master Menus and modified diet menus, where applicable, are utilized.
- Continue to utilize menus appropriate for women in the female institutions.
- Justify and request additional food services personnel.
- Develop and secure approval of a plan to equalize food service personnel salaries with comparable positions in the private sector.
- Improve purchasing procedures and procurement control.
- Improve coordination in the areas of food service, maintenance and administration.

VI. ENHANCE RELIGIOUS SERVICES TO INMATES

- Add needed Chaplain positions with secretarial support making the ratio of Chaplains to inmates as follows:
 - Maximum Security Institution 1:300
 - Medium Security Institution 1:500
 - Minimum Security Institution—1:550
- Upgrade personnel currently involved, both in pay and required training.
- · Establish a career ladder for Chaplains.
- Provide the support services and resources required to operate an effective Chaplaincy Program in compliance with American Correctional Association Standards including a separate free-standing facility for religious activities.
- Develop individual facility master program plans for Chaplaincy Services.
- Establish an evaluation and quality assurance program for Chaplaincy Services to ensure accountability and program effectiveness.

VII. CONTINUE TO IMPROVE CORRECTIONAL WORK PROGRAMS

- · Provide work programs for all inmates to the extent practical.
- Strengthen the development and coordination of inmate work opportunities in non-industries areas.
- Analyze all work programs, and in the case of unprofitable programs, seek ways to make them profitable or consider their elimination.
- Fully assist the work of the Prison Rehabilitative Industries and Diversified Enterprises, Inc. to provide more effective and efficient management and administration.
- Assist PRIDE in the orderly transition of programs as outlined in the Department's Master Plan.

VIII. MAINTAIN AMERICAN CORRECTIONAL ASSOCIATION ACCREDITATION STANDARDS

- Continue the monitoring and maintenance of accreditation standards for major institutions, Probation and Parole Services and community facilities.
- · Attain accreditation for Central Office.
- Attain reaccreditation, as appropriate, for major institutions, community facilities and Probation and Parole
 offices.

IX. IMPROVE ACADEMIC AND VOCATIONAL TRAINING BASED UPON JOB MARKET DEMANDS

- Establish the Council on Correctional Education.
- Complete on-site evaluation of current educational program offerings.
- Assure efficient use of diagnostic instruments sequentially to maximize utility of data on individual inmates.
- Cooperate with the Department of Education to administer state student assessment tests.
- · Secure approval for the standard administration of GED tests to 16 and 17 year old youthful offenders.
- Restore community college level academic programs to the Department as deemed appropriate by the Council on Correctional Education.
- Improve vacational training programs at youthful offender institutions.
- Strengthen the delivery of in-service training to educate staff to meet the certification requirements of the Department of Education.
- Enhance library services at all Major Institutions.
- Improve the quality of academic programs, particularly basic education, in all major institutions.
- Estblish a monitoring program to ensure that voacational training programs are closely linked to job market demands.

X. IMPROVE EFFICIENCY, PRODUCTIVITY AND ACCOUNTABILITY

- Ensure that chains of command, areas of responsibility and authority are clearly defined.
- Improve communications between employees and supervisors.
- Continue affirmative action programs to ensure wider employment and promotion of females and minority groups.
- Improve fire safety and preventative maintenance procedures in all facilities.
- Improve supervision and accountability in Canteens.
- · Continue to conserve energy.
- Develop a strategy for long-range planning.
- Continue the development and refinement of integrated and automated information systems.
- Prepare long-range plan for information resources as statutorily required.
- Develop and deliver staff training programs to ensure the continued upgrading of efficiency and productivity levels among Department personnel.
- Standardize automated systems for accounting and personnel to ensure maximum quality of product.

XI. IMPROVE THE DELIVERY OF SERVICES BASED ON SPECIFIC PROGRAM NEEDS

- Evaluate the special needs of female offenders and develop programs to meet those needs.
- Increase assistance to ex-inmates to obtain employment related to vocational skills acquired during incarceration.
- Improve the identification of the needs of inmates in Community Correctional Centers, and structure policies, programs, resources and activities to meet those needs.
- Expand the joint efforts of the Department of Corrections and the Department of Labor and Employment Security to help the ex-inmate find suitable and meaningful employment.
- Develop a structured statewide citizen volunteer program.

ACTIVITIES, ACHIEVEMENTS AND RECOMMENDATIONS

ACCREDITATION UPDATE

The Department takes a great deal of pride in its accomplishments in the field of accreditation. In moving this effort ahead, this year's priority was on achieving systemwide accreditation and reaccreditation efforts for major institutions. In meeting the standards of the Commission on Accreditation for Corrections, Florida has continued to enhance the corrections system, and proven to be a national leader in accreditation.

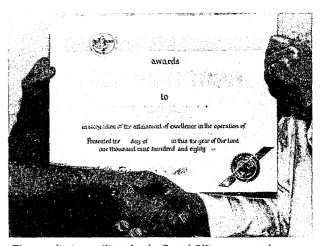

Achievements include:

Achieved full accreditation of the Ft. Myers Community Correctional Center. This was the last institution/facility for accreditation within the Department and allowed Central Office to begin its audit process.

The Central Office began the accreditation process in mid 1983 and was successfully audited by the Commission on November 7-8, 1983. This represents only the third time a Central Office has successfully completed an audit using the Standards for the Administration of Correctional Agencies. With Accreditation of the Central Office the Department became the largest fully accredited correctional system in the Nation.

Secretary Wainwright giving acceptance speech after receiving accreditation certificate for Central Office in Denver, Colorado January 8, 1983.

The accreditation certificate for the Central Office represents the cooperative effort and dedication of all of the Department's 11,000 employees.

The major institutions embarked upon the reaccreditation process in mid-November, 1983 and will continue until all have completed the process. Through the fiscal year end, 17 major institutions attained full reaccreditation.

Recommendations

Strengthen internal monitoring system to maintain accreditation.

Emphasize training for staff in the accreditation process, and involve new institutions from the outset to better prepare for entry into the process.

PROBATION AND PAROLE SERVICES

The major thrust of Probation and Parole Services, in addition to preparing investigations for the courts, supervising probationers, parolees and pretrial intervention cases, has been implementation of Community Control in accordance with the Correctional Reform Act of 1983. Community Control involves selected offenders, as designated by the court, serving their sentence while confined to their residence under house arrest instead of in prison. The program is designated as a punishment oriented alternative to help reduce prison overcrowding.

• Major achievements for the year include:

Implemented Community Control as an effective punishment oriented diversionary alternative.

Maintained credibility of Community Control by providing supervision seven (7) days a week, limiting caseloads to 20 per officer and enforcing conditions of confinement to residence.

Community Control Officer maintaining contact with law enforcement during field surveillance contacts

Surpassed Criminal Justice Estimating Conference projection by diverting 1,370 offenders from prison, and supervising 1,886 community controlees at the end of the year.

Collected \$6.6 million dollars in revenue through cost of supervision program which was placed in the State Treasury.

Collected \$9 million dollars in victim restitution which was paid to victims of crimes.

Offender making cost of supervision and victim restitution payments.

Completed 85,503 investigations in the fiscal year, with 72,607 cases under supervision at fiscal year end.

▶ Recommendations

Fully fund Community Control as a component of the workhour fomula in order to prevent diluting regular probation services.

Elevate paygrades of Community Control Officers to compensate for more dangerous conditions and irregular hours as incentives to attract and retain qualified staff.

Fully fund Workhour Formula including Pretrial Intervention, Circuit Administrator structure, and Competitive Area Differentials.

Adjust clerical ratio to 2.5 to 1 ratio of professional to clerical.

Implement minimum professional standards training for all officers and include them in Criminal Justice Standards and Training.

Provide funds for construction of probation officers to reduce rental costs and address firearm issue for further protection of Community Control Officers.

ADMISSION AND RELEASE AUTHORITY

During the past year the Admission and Release Authority has concentrated its efforts on fine tuning computer programs and internal procedures for establishing and handling inmate records, release date calculations, maintenance of location of inmates, and placing detainers against inmates. These computer programs have been constantly monitored and revised for accurate application and compliance with state laws. In addition, Florida Statutes require the Department to maintain one offender-based information system for utilization by the Department as well as the Florida Parole and Probation Commission. Significant effort has been devoted to working out procedures which allow for the efficient utilization of files by both agencies while ensuring records accountability.

The following was achieved:

As a result of accreditation requirements, a procedure was implemented which provides for the systematic annual audit of basic contents of inmate records.

The computerized file tracking system was audited and now provides better individual accountability for records checked-out to Department staff and Florida Parole and Probation Commission employees.

Clerk tracking location of inmate record on the automated data base.

After tracking, a Supervisor delivers the record for onward transmission.

Inactive records processing is now on a current basis and is maintained monthly.

Assistance was provided to receiving centers in preparation and implementation of a retention schedule for the institutional record.

Detailed written instructions were prepared for the accomplishment of each and every major task within the Admission and Release Authority.

▶ Recommendations

Additional computer terminals to ensure each employee will have the tools necessary to perform assigned tasks with top efficiency.

Preparation of general information printout of the basic inmate record which will be written in "plain English" and will be utilized by DC staff and others authorized to have access to inmate records.

Implementation of a computerized transfer program which will automatically handle institutional assignments of previously approved transfer orders as vacancies occur in Department facilities.

Implementation of a computerized file request system which will automatically check out the record to the requestor, or notify the requestor who currently has possession of the record.

ADULT SERVICES INITIATIVES

The major focus of Adult Services was the implementation of the gain time provisions of the 1983 Correctional Reform Act. Initiatives and direction were provided to our program areas to help deal with increased population, the opening of new institutions, and expanded community correctional centers. The development of rules for our adult programs was another major activity.

• Important achievements were as follows:

Promulgated rules and set up procedures for gain time in accordance with the Correctional Reform Act.

Classification Team evaluates inmate progress and awards gain time.

Jointly with Management Information Services developed a program for the computerized entry of Incentive Gain Time.

Developed rules for each of the four types of confinement.

Developed an agreement with the Florida Parole and Probation Commission for the recommendation of parole, particularly for work releases who have demonstrated their capacity to live harmoniously in the community.

Cost effective public transportation is used by inmates on work release.

Expanded our work release program by 336 beds, and phased in two new Probation and Restitution Centers.

▶ Recommendations

Establish a new classification workload and staffing formula that addresses the results of law change and system expansion.

Upgrade computer capabilities and technology to achieve increased efficiency, create an equitable distribution of work, and to implement a computerized transfer program.

Initiate a study and develop recommendations for competitive salaries and adequate staffing for classification, records, and chaplains.

Expand program direction and support for after-hour activities for adult inmates to reduce idleness.

Reassess the needs of inmates in community release programs and structure policies, programs, resources, and activities to meet those needs.

YOUTHFUL OFFENDER PROGRAM

The major theme for the Youthful Offender Program during the past year has been an increased emphasis on the provision of a safe environment conducive to youthful offender programming through purification and refinement of the inmate population within the youthful offender network. A major effort was also initiated to revitalize the Youthful Offender Program through the examination by key staff of issues most current and pressing to the youthful offender population.

Significant achievements during the year were:

Expanded youthful offender transfer team reviews to review of all transfers to and from the youthful offender network and developed computer program to provide effective monitoring and documentation.

Completed expansion and refinement of the reception process for youthful offenders at Lancaster Correctional Institution.

New Arrivals—Lancaster Youthful Offender Reception and Orientation Genter.

Diagnostic Testing and Evaluation.

Began plans to implement female youthful offender processing in the reception process at Broward Correctional Institution and recommended review procedures for selection and transfer of eligible female youthful offenders from Broward Correctional Institution to Florida Correctional Institution.

Held a meeting of all youthful offender key staff with over 60 employees in attendance and made recommendations concerning Community Release and Employment Assistance; the Youthful Offender Plan; Youthful Offender Staff Training; Youthful Offender Criteria and Institutional Designations; and the Female Youthful Offender Program.

Streamlined transfer procedures between the two departments pursuant to 959.116, Florida Statutes, Transfer of Certain Minors to HRS.

In cooperation with the Bureau of Health Services, procedures for the early identification and treatment of special needs inmates were developed.

▶ Recommendations

Priority consideration should be given to the construction of a female youthful offender institution.

Revise the curriculum for initial youthful offender staff training and develop an effective and innovative delivery system.

Provide standardized curriculum for 80-hour pre-release program to be implemented in all youthful offender institutions.

Pursue legislation to enable the Department to contract with private agencies for the delivery of specialized treatment programs for youthful offenders.

INSTITUTIONAL HEALTH SERVICES

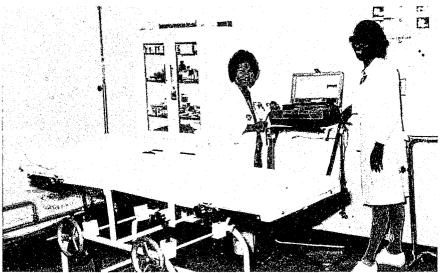

The major efforts in health services has been directed towards continued improvement in the health care delivery system through implementation of the Comprehensive Health Services Plan and in providing enhanced services for mentally ill inmates. Areas of primary attention included the development and implementation of performance criteria to measure compliance to standards in the various health services functions, and implementation of a quality assurance program.

• The achievements were as follows:

Acquired additional resources to enhance health services toward resolution of the *Costello* v. Wainwright litigation.

Provided 1,364,752 total outpatient health care services to 26,471 inmates (includes medical, dental and mental health visits).

Institutional health departments met accreditation standards and updated policy and procedures.

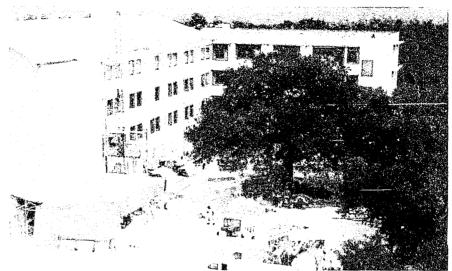

Institutional Health Services Emergency Room at Lawtey Correctional Institution. Status: READY

Established and filled Dental Executive Director position.

Published revised Health Records Manual.

Provided Department and institutional reviews concerning quality assurance, controls, staffing, budget, facilities and equipment.

Enhanced mental health services through acquisition of additional professional staff, and greater use of Individual Written Treatment Plans.

Work proceeding on Corrections Mental Helath Institution at Chattahoochee.

Participated in mental health staff development and training with Florida Mental Health Institute.

▶ Recommendations

Improve R.M.C. Hospital surgery and intensive care units.

Assure operational capability of new Corrections Mental Health Institution.

Implement health staff development plan for in-service and continuing education.

Revise health records to include dental records and sharing important data.

EDUCATION AND TRAINING

As a follow-up to passage of CS/HB 557 the primary efforts for the fiscal year were to cooperate with the Council on Correctional Education in reviewing inmate education services, and incomplying with requirements of enacted legislative changes. In addition to this focus the Department placed emphasis on education staff development, curriculum development for life skills and academic education, and modernization of the vocational equipment inventory.

• Significant achievements were:

Cooperated with the Council on Correctional Education in conducting an evaluation of education services provided to inmates.

The Council on Correctional Education established by the 1983 Legislature assisted the Department in review of the education delivery system.

Installed system to assure appropriated education funds were alloted only for education purposes.

Developed competency-based curriculum guides for reading, language arts, math, science, social studies, and health.

Implemented competency based academic education at DeSoto Correctional Institution.

FLORIDA MINIMUM STUDENT PERFORMANCE STANDARDS have been utilized to develop special curriculum and tests for inmate education.

Contracted for development of four additional life skills modules.

Upgraded and replaced vocational training equipment at nearly half the major institutions.

Statewide, and regional correctional education staff training workshops were conducted, with over 200 staff participating in each meeting. Training also provided for beginning teachers, and vocational instructors requiring certification.

Recommendations

Provide additional education program space at selective major institutions.

Implement new life skills and academic curriculum guides.

Expand competency based academic education using state standards for public schools.

Monitor and evaluate computer assisted instruction.

Enhance library services to inmates by adding a library coordinator in the Bureau of Education Services.

Develop and implement an improved Education Data Collection System.

OFFENDER JOB PLACEMENT PROGRAM

The Department has continued its effort to provide Pre-employment, Job Placement and other assistance for offenders leading to the acquisition and maintenance of employment upon release by end of sentence or while under probation or parole supervision.

• Major achievements during the year:

Through a jointly operated program with the Department of Labor and Employment Security, five (5) employment specialists provide full-time assistance for offenders in Pensacola, Tallahassee, Orlando, Tampa, Miami. A total of 6,576 offenders contacts were made, resulting in 3,245 job referrals and 1,183 job placements.

Under a grant received through the Comprehensive Employment and Training Act (CETA), 369 inmates participated in a 160 hours pre-release training program of which 166 were placed in jobs.

In February 1984, upon discontinuation of CETA, the Department received a grant under the Wagner-Payser Act, to operate an offender services program providing pre-employment training and placement services to 1248 offenders.

Inmate receiving pre-release employment training.

▶ Recommendations

Establish a programmatic staff capability within the Department to coordinate job development and placement activities.

Improve Job Placement options by developing state policy requiring state agencies to employ ex-offenders, with specific job goals being established.

Develop and implement a plan for utilizing provisions of the Job Training Partnership Act conjunctive with the Department's education, industries, and correctional work program in providing training, job placement, followup and other services for offenders.

INTERSTATE COMPACT AUTHORITY

The major thrust of the Interstate Compact Authority during this fiscal year was the evaluation, reorganization, and streamlining of operational procedures. An integral part of this effort was intensive staff training and the upgrading of skills within the office. More effective procedures were established for the timely processing of approximately two thousand pieces of correspondence and investigative requests per week. Consistent monitoring was established in conjunction with the five Regional Compact Offices to ensure that uniform compact activities were adhered to statewide.

• The following achievements were attained:

Initiated program of streamlining operational procedures from the field to the Central Office.

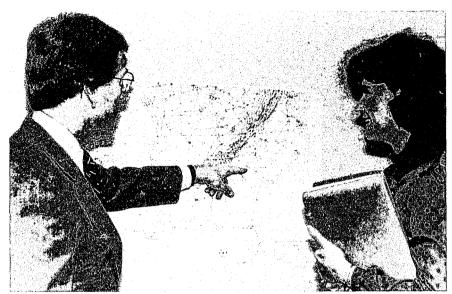

Clerk checking information on data base regarding probationer arriving from out of state.

Increased emphasis was placed on training and the upgrading of skills to assist staff in their professional development and to more efficiently process our high case loads.

Implemented more effective monitoring and coordination with Regional Compact Specialists.

Executed 112 contracts for inmates in institutions this year, with 69 additional Florida cases pending placement.

Interstate Compacts Administrator discussing placement of inmate out of state.

Provided for supervision of 7,964 Florida probationers and parolees out of state, and 5,520 out-of-state cases in Florida at end of fiscal year.

▶ Recommendations

Improve and expand services to probationers, parolees, inmates and prosecutors in Florida and other states by streamlining service delivery through office automation and monitoring of staff procedures and activities.

Continue upgrading of office automation to assist in the processing of the large number of interstate transactions in Florida.

Revise the Interstate Compact Manual to reflect current policy and procedures.

CORRECTIONAL INDUSTRIES

The enactment of Chapter 946, Florida Statutes, requires Correctional Industries be phased out as a Department entity by June 1985, and be placed under the operational control of Prison Rehabilitative Industries and Diversified Enterprises (PRIDE), Inc. This has led Correctional Industries management to concentrate its energies on necessary coordination to assure the smooth and orderly transfer of programs from the Department to PRIDE, and to increase the productivity, sales, and profits of individual programs until the time of their actual transition.

• Achievements were:

The annual net profit for Correctional Industries exceeded \$2 million for the fiscal year, which represents only partial year profits since the majority of work programs were turned over to PRIDE on monthly intervals throughout the fiscal year.

The final remaining 43 Industries programs in eleven different correctional facilities were shifted to PRIDE twelve months ahead of schedule.

Construction of the P.R.I.D.E. administration building by in mate labor at Apalachee Correctional Institution earmarked the transfer of the final twelve industry programs to P.R.I.D.E.

Financial reporting was revised to provide more stringent programing of sales, improve expenditure forecasts, improve reporting efficiency with better control of expenditures which resulted in a balance of approximately \$2.5 million in trust funds for PRIDE's use in expanding current work programs or establishing new programs.

All Correctional Industry field staff were either placed in comparable positions within the PRIDE organization or were reassigned within the Department.

A Comprehensive Farm and Agriculture Plan for Apalachee Correctional Institution was completed and implemented during the fiscal year.

Correctional Industries, in conjunction with the Auditor General's Office, completed an in-depth inventory of supplies and equipment on 43 Industries programs.

Correctional Industries turned over to PRIDE approximately \$5 million in raw materials and finished goods as well as \$1.8 million operating capital for their continued operating purposes.

Correctional Industries leased to PRIDE land and fixed assets valued in excess of \$72 million.

P.R.I.D.E. funded industry workshop constructed at Polk Correctional Institution will manufacture metal furniture.

▶ Recommendations

Continue support for further expansion of Industries programs which replicate the best aspects of private enterprise relative to on-the-job training, incentives for productivity and career advancement opportunities.

Expand and improve vocational and academic educational programs to provide the prerequisite skills needed for employment and promotion in existing and projected industry programs.

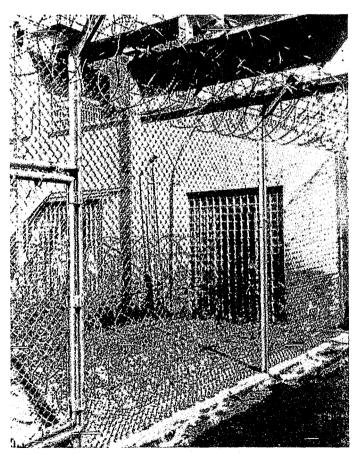

Provide funding to assure a continuing capability within the Department to coordinate the efforts of PRIDE in the operation, expansion and up-grading of Industrial Work Programs and to evaluate ongoing industrial operations.

SECURITY ADMINISTRATION

Security Administration has continued to oversee security needs throughout the Department. During recent years the Department has experienced tremendous population growth. In many cases sufficient funds were not provided by the Legislature to properly equip and staff institutions. Alternate methods were sought to provide sufficient levels of security for the general public as well as staff and inmates. As shown below the Department has focused considerable attention in solving these problems.

• Achievements during the Fiscal Year include:

Greatly expanded the use of razor wire to better secure the perimeter of additional institutions in lieu of staff.

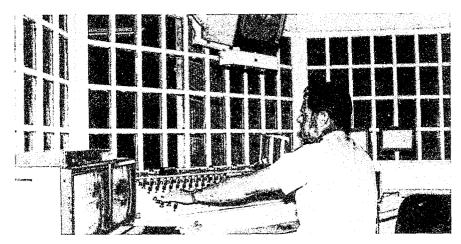

Razor wire has been installed at institutions for additional security.

Conducted manpower and roster management training sessions to insure maximum utilization of staff.

Provided extensive training to field staff in the area of emergency planning.

Implemented an emergency communication system for staff working in high risk institutions.

Emergency Alert System in operation at Florida State Prison.

Together the above initiatives contributed to a 24.2 percent reduction in escapes from the Department compared to the previous fiscal year.

▶ Recommendations

Increase staffing levels to provide prototype staffing.

Increase staffing relief factors to more adequately provide relief coverage for annual, sick, holiday and training leave.

Continue to expand the use of razor wire.

Expand the emergency communication system to other close custody institutions.

Construct single cell replacement beds to replace the temporary crisis beds.

Expand the training of security staff to better assist them in handling emergencies.

FACILITIES SITING AND CONSTRUCTION

Continuing effort was made during the fiscal year to locate sites for use as prison or community facility sites. In addition, consummation of purchase/sales agreements was pursued in several counties. The philosophy during most of the site selection activities was to purchase and "bank" several sites so that actual construction of a future needed facility would not be delayed by a 2-3 year process of site acquisition. The construction program moved ahead and is on a schedule to assure sufficient beds capacity to meet the requirements of the Costello agreement on July 1, 1985.

• For the year achievements include:

Pursuant to the Correctional Reform Act of 1983 a major study of correctional facilities needed statewide was completed, submitted to the Governor and Cabinet and approved as submitted.

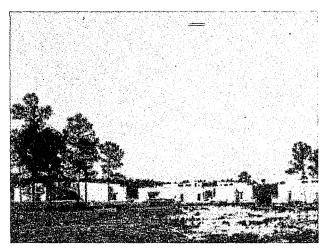

Dr. Davis presents the Comprehensive Statewide Study for Siting Correctional Facilities to Governor and Cabinet.

A site for a major institution was purchased during this period in Orange County. The Orange County administration was most cooperative during the selection and purchase of this site. This site is now available for location of a major institution at the direction of the Legislature.

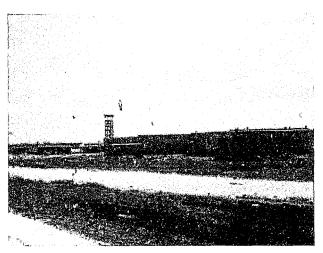

A five-acre tract in North Dade County was made available to the department for construction of a 100-man work release center, and construction of the center was planned and begun.

Specific sites were identified in Hillsborough, Charlotte, Lee and Pinellas counties and the long process of appraisals and negotiations to purchase began.

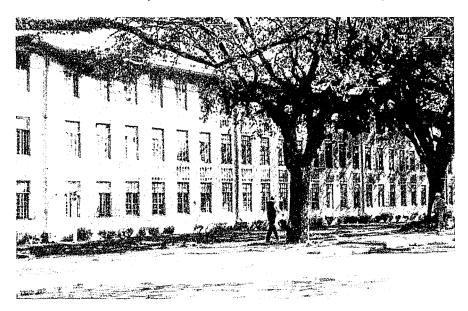

Constructed and brought on line 961 male beds, and made substantial construction progress to bring on line inmate housing required by the Federal Court.

Martin Correctional Institution, Martin County

South Florida Reception Center, Dade County

The new Martin Correctional Institution and South Florida Reception Center provides additional single cell capability as the Main Housing Unit at U.C.I. above and Annex at R.M.C. are phased out.

Agreement was reached with selected legislators in Pinellas County to seek the placement of a women's institution on state-owned land in Largo. Construction of this facility would be that of a multifloor structure, conserving land in a densely populated county.

▶ Recommendations

Provide funds to purchase sites in advance of their need.

Fund permanent housing units to replace the 1000 crisis beds remaining in inventory.

Appropriate dollars necessary to construct close management beds.

Provide appropriations to complete all physical components of major institutions.

PERSONNEL RECRUITMENT AND RETENTION

The year was highlighted by the implementation of class consolidation for all Career Service classes. Class consolidation provided the opportunity to merge two or more similar class specifications into a singular specification thereby increasing the efficiency and reducing the number of separate job categories utilized by the Department. Continued development of the Cooperative Personnel Employment System (COPES) also has provided an automated leave and attendance system utilized by all of the major Institutions, Regional Offices and Central Office. In addition, a permanent employee information segment had been included in COPES.

• The achievements for FY 1983-84 were as follows:

Turnover for Correctional Officer I remained at 20% statewide.

Interviewing employees is part of the vigorous recruitment process.

Significant progress in the area of affirmative action with minority employment at 21%, and female employment at 28%.

Completed classification actions on the Probation and Parole Clerical Study.

Implemented a Department-wide Attendance and Leave Report.

Entering data into the Cooperative Personnel Employment System (COPES).

▶ Recommendations

Provide salary parity between Correctional Officers and the beginning level State law enforcment class.

Establish a Competitive Area Differential salary additive for the Correctional Probation Officer Series in Broward, Dade, Monroe and Palm Beach counties.

Revise the Correctional Officer Series to provide a career ladder to Correctional Officers.

STAFF DEVELOPMENT

Training activities for all Department employees received major attention during the fiscal year. Newly hired correctional officers received 320 hours of basic recruit training during their first year of employment, and all employees received 40 hours of annual in-service training. The Department continued to encourage the career development of its employees as it is recognized that each of them is its most valuable resource. Additional career development opportunities and education monies were available to correctional officers and counselors.

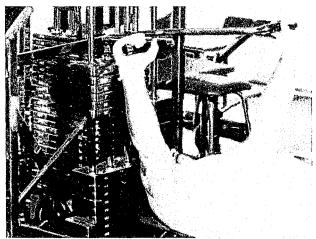

• Some key achievements were:

Provided over 800,000 training hours for staff during the fiscal year.

Updated Emergency Preparedness policies and procedures and training of key staff.

Promoted professionalism through a myriad of specially designed officer training programs.

Placed universal weight machines at major institutions for stress reduction and physical fitness training.

Correctional Staff utilizing the new universal weight machine for stress reduction.

Part of RMC's new physical fitness obstacle course.

Upgraded regional firing ranges to meet Criminal Justice Standards and Training requirements.

▶ Recommendations

Improve the quality of in-service training by providing a minimum of one Correctional Training Officer for every 240 employees.

Expand the Department's Training Academy to a facility that provides adequate space for instructional classrooms, dormitory accommodations, food service operations, and equal access from all Department facilities.

Encourage and promote the utilization of Department personnel in the instruction of specialized courses in order to ensure cost effective and on-going training.

Continue to explore and pilot test the use of computer-assisted learning systems in the delivery of in-service training.

Increase the salary level of the Correctional Training Officer position to ensure that the Department has the ability to attract, select, and retain top quality personnel.

INSPECTIONS, INVESTIGATIONS AND TECHNICAL ASSISTANCE

The Inspector General's Office has continued to strengthen management control of the Corrections System through the inspection, management analysis, internal audit, and inmate grievance programs. Inspections

emphasized management improvements to assure more timely completion and followup on a substantially increased volume of investigations. The management review of Union Correctional Institution was the largest ever undertaken by the Inspector General's Office, and helped fine tune institutional review procedures and techniques. Internal Audit focused its efforts on translating audit findings into improved agency policy and procedures to assure tighter control of canteen operations, and inmate welfare funds. The Inmate Grievance function, in addition to handling a large increase in grievance workload, initiated a major project to have the Department's grievance process certified.

• Last year the following was achieved:

Revised and updated Chapter 33-8, Florida Administrative Code, Rules for County and Municipal Detention Facilities.

Completed 1639 criminal and internal investigations, a 33 percent increase over the prior year.

Completed 495 inspections of local detention facilities.

Sheriff John McDaniel accompanies Chief Prison Inspector Russell Smith and team during inspection of Jackson County Jail.

Provided 78 technical assistance consultations to help counties solve their jail problems.

Conducted management reviews in 12 county jails jointly with the Florida Sheriffs Association.

Obtained 320 hour Correctional Officer Standards Certification for 21 Prison Inspectors.

Conducted management reviews at two major institutions (Union and Brevard Correctional Institution) and the Miami Probation and Parole Circuit Office.

Performed 100 internal audits during the year, including operations evaluations of the Business Offices in all major institutions.

Harry Singletary, Assistant Secretary for Operations receives audit briefing from Curtis Green, Internal Audit coordinator.

Processed 2,430 inmate grievances, and over 900 complaints.

Began project to achieve certification of the inmate grievance process by the U.S. Department of Justice.

▶ Recommendations

Ensure adequate funds for required travel by all staff in the Office of the Inspector General.

Develop a unified records system for the Inspector General's Office.

Develop an automobile replacement schedule to be used to replace Prison Inspectors' vehicles having over 100,000 miles and requiring maintenance that is no longer cost effective.

Provide systems for centralized control of all complaint correspondence to the Department.

Develop a schedule for Management Reviews of selected Central Office Bureaus, major institutions, and Probation and Parole Circuit Offices.

INFORMATION SYSTEMS DEVELOPMENT

As the inmate population has grown and resources become more scarce, the Department has had to seek more cost-effective means to assist in the operation of the corrections system. Here the Department's major thrust has been in Management Information Systems. This fiscal year saw the real beginning of a long-range, planned effort to use automated systems extensively within the Department to increase productivity at minimum cost. Beyond the planning effort appropriations were received to upgrade the computer mainframe in the Justice Data Center, and to begin long overdue office automation.

• Key achievements include:

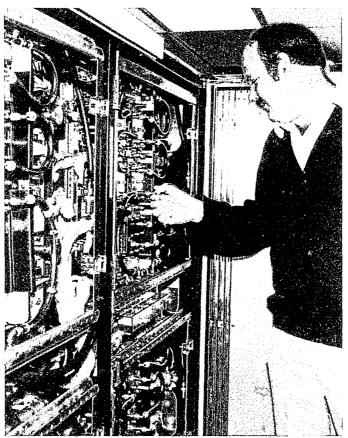

Development of an Information Resource Plan to expand the existing inmate/probationer/parolee records system, and to provide office automation services departmentwide on a phased in basis. The Plan additionally provides automated services in such areas as staff and inmate training, spreadsheet and statistical analysis, inmate medical records and several others.

The Department was the subject of a very thorough study by the staff of the Information Resource Commission in the area of office automation systems. The study provided a detailed picture of the manpower, equipment and other resources appropriate to provide an automated system of office management throughout the Department.

M.I.S: staff testing a prototype of an office automation system.

The Legislature supported the plan to upgrade the Justice Data Center host computer and funded it in the amount of \$852,056, and the procurement process was started. Significantly, the upgrade will provide much needed relief to the Department in terms of raw computer power, and will improve processing power and response time so that staff will be better able to handle their day-to-day activities.

Director of Justice Data Center checking the internals of the new IBM 3081D Mainframe used by the Department of Corrections.

▶ Recommendations

Support implementation of the approved Word Processing/Office Automation supplement to the IRC Plan.

Fund additional terminals, as outlined in the Plan, in order to provide additional access to institutions for implementation of the Inmate Bank System and the Inventory Control System.

Expand the network for Probation and Parole so that more offices have access to the host computer for timely activities, and more equitable distribution of workload.

Expand the computer network to include Community Facilities so they can have access to the host computer for their daily activities, i.e., movements, gain time, inmate bank, etc.

Enhance capabilities in major institutions to provide medical information on all inmates.

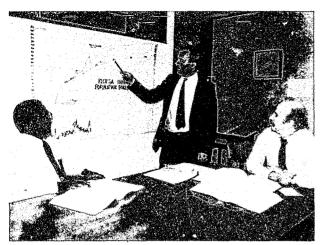

PLANNING, RESEARCH AND STATISTICS

This year saw the Bureau of Planning, Research, and Statistics under-take major efforts to evaluate the impact of Sentencing Guidelines on Florida's Corrections System, and as a member of the Criminal Justice Estimating Conference to develop several new statistical programs used to support the inmate forecasting process. Other areas of emphasis included ongoing planning and monitoring activities, and production of various research and statistical reports used by agency managers, criminal justice agencies, and the Legislature.

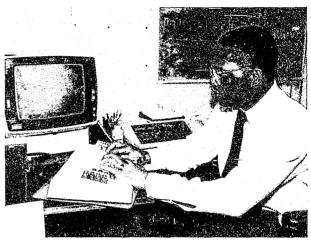

• Key achievements include:

Developed comparative data and analyzed the impact of Sentencing Guidelines on Florida's Correctional System.

Participated in efforts of the Criminal Justice Estimating Conference to develop a population forecasting model for the Prison and Probation and Parole Systems.

Planning and Research staff preparing for meeting of the Crinimal Justice Estimating Conference.

Research staff member resolving a problem using the Department computer resources.

Prepared the Department's biennial Goals and Objectives.

Developed the Secretary's Performance Agreement with Governor Graham; monitored and reported on performance measures.

Tracked agency implementation of legislative requirements in the General Appropriations Act, and substantive legislation.

Produced and distributed a series of monthly and special management and statistical reports.

Conducted evaluation of unit management at Sumter Correctional Institution.

Produced and distributed the Department's Annual Report.

▶ Recommendations

Provide sufficient resources for development of agency functional plans required by the State and Regional Planning Act of 1984.

Upgrade technical training for all staff assigned to research and evaluation activities.

Strengthen the evaluation capabilities of the Bureau of Planning, Research, and Statistics.

Secure additional resources necessary to upgrade and maintain the staff library.

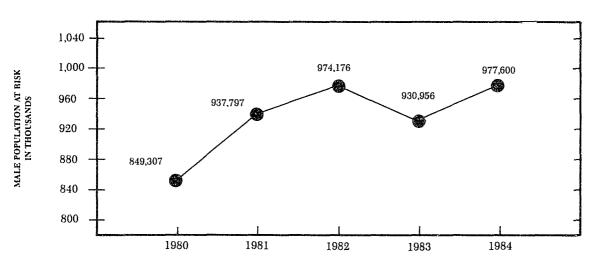

CRIMINAL JUSTICE TRENDS

The new growth of the inmate population and the probation and parole caseload of the Department of Corrections is the result of varying rates of admissions and releases. It appears to be related to several factors over which the Department has no control. These factors include Florida population growth, the rate of crime among the younger male population, the rate of unemployment in the State, rates of arrest and prosecution, and sentencing policies of the judiciary within a structure of changing statutes.

POPULATION AT RISK INCREASED 5% DURING THE 1983 CALENDAR YEAR

The rate of commitment for both the prison population and probation and parole caseload is related primarily to the number of male adults in the State, 18 to 29 years of age. This age group, called the Population at Risk, has been responsible for a high proportion of Florida's prison admissions since 1960 (approximately 75% of all admitted inmates are in this age group).

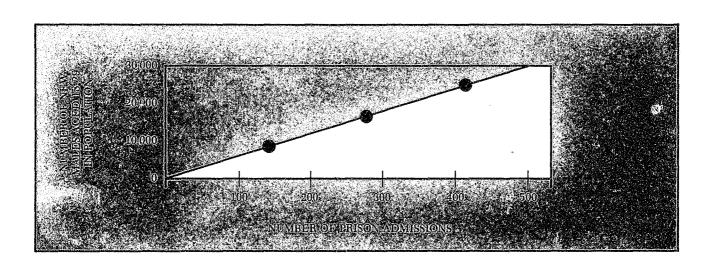

FLORIDA MALE POPULATION GROWTH FOR AGES 18-29 YEARS° (1980-84)

^{**}Data supplied by the U.S. Census Bureau and the Bureau of Economic & Business Research, University of Florida, Gainesville, Florida.

PRISON ADMISSIONS WERE 131 FOR EACH 10,000 MALES (AGE 18-29)

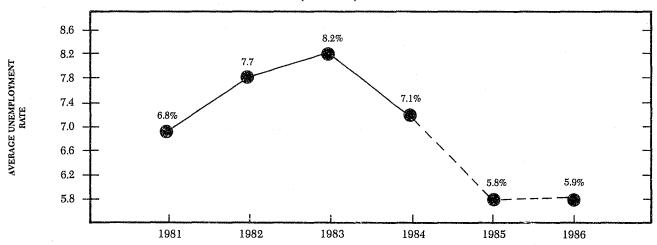

Because sufficient data has not been available regarding law enforcement and court activities, the relationship between the population at risk, unemployment and prison admissions has been especially significant in developing forecasts of the growth of the prison population.

FLORIDA'S AVERAGE UNEMPLOYMENT RATE INCREASED .5% FOR CALENDAR YEAR 1982

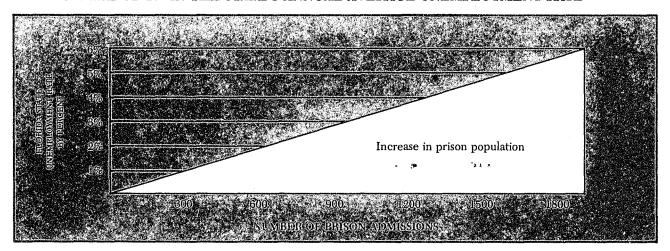

The rate of prison admission from the population risk historically has been tied to the rate of unemployment in response to increases in criminal activity during periods of high unemployment.

FLORIDA UNEMPLOYMENT RATE (1980-86)

^{*}Average unemployment rates supplied by the Florida Division of Employment Security

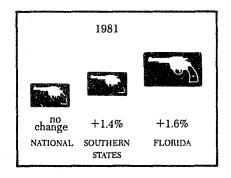

• IT IS ESTIMATED THERE WILL BE AN ADDITIONAL 305 PRISON ADMISSIONS FOR EACH INCREASE OF 1% IN THE STATE'S ANNUAL AVERAGE UNEMPLOYMENT RATE

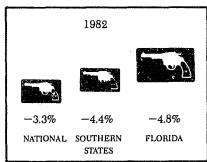

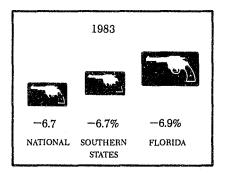

INDEX CRIMES IN FLORIDA DECREASED 6.9% TURING CALENDAR YEAR 1983

The Uniform Crime Report provides a general indicator of criminal activity in the state. Crime report data historically has not been related to prison admissions. This may be explained by the fact that the Uniform Crime Report counts crimes, not criminals. In addition, the index crimes reported include a significant number of misdemeanor offenses not resulting in prison admissions.

CRIME TREND DATA CALENDAR YEARS 1981-83

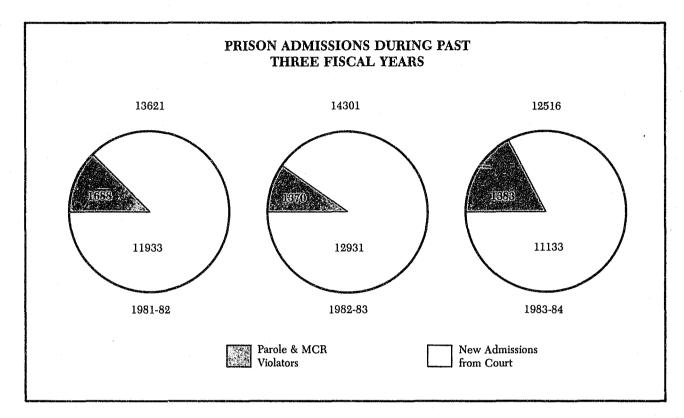

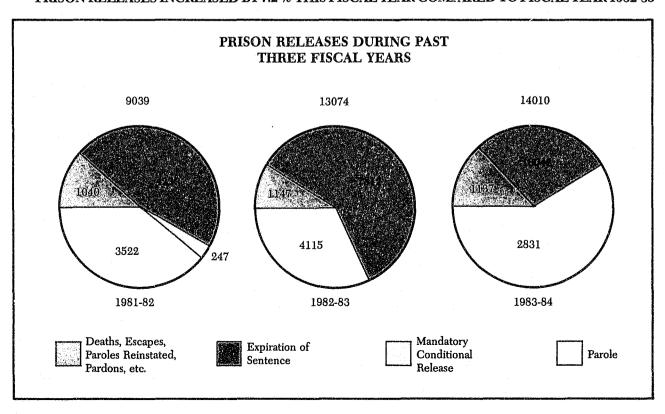

INMATE ADMISSIONS AND RELEASES

- THERE WAS A NET LOSS OF 1785 INMATES AND THE TOTAL PRISON ADMISSIONS FOR THIS FISCAL YEAR DECREASED BY 12.5% AS COMPARED TO FISCAL YEAR 1982-83
 - New admissions from the court decreased 13.9%
 - Admissions of violators of parole increased 1.0%

• PRISON RELEASES INCREASED BY 7.2 % THIS FISCAL YEAR COMPARED TO FISCAL YEAR 1982-83

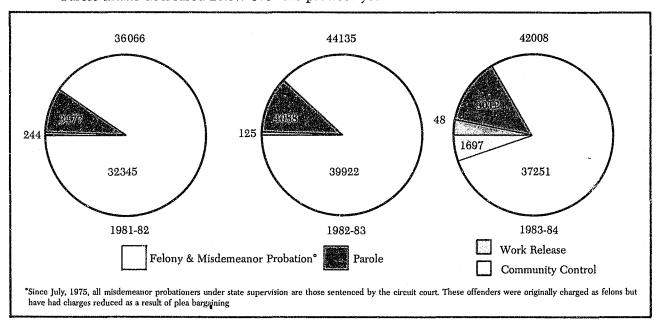

COMMUNITY SUPERVISION INTAKES AND LOSSES

The rate of growth of probation and parole cases is affected by changes in certain variables similar to those used to predict prison admissions. However, increases in the supervision caseload are the direct result of the rate of parole release from prison, as well as new probation commitments from the circuit courts.

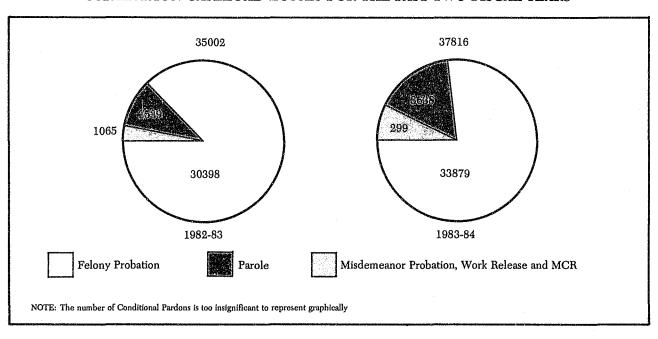

It should be noted that with improved reporting resulting from full implementation of the probation and parole information system, the trends below may not accurately reflect the degree or rate of change, but they are generally considered to be valid indicators of direction of growth.

SUPERVISION INTAKE FOR FISCAL YEAR 1983-84 WAS 4.8% LESS THAN THE PREVIOUS YEAR

- Felony probation intake decreased 7.3% over last year
- Parole intake decreased 26.3% over the previous year

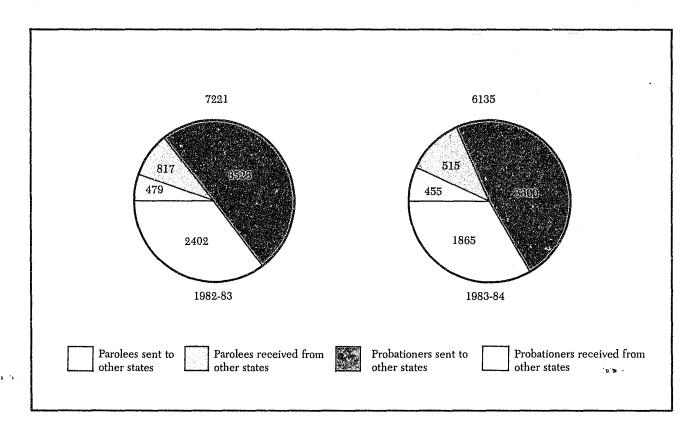

SUPERVISION LOSSES FOR FISCAL YEAR 1983-84 INCREASED 8.0% OVER THE PREVIOUS YEAR SUPERVISION CASELOAD LOSSES FOR THE PAST TWO FISCAL YEARS

INTERSTATE COMPACT TRANSFERS

- INTERSTATE COMPACT TRANSFERS DURING THE 1983-84 FISCAL YEAR BETWEEN STATES DECREASED 15% FROM THE PREVIOUS YEAR
 - FLORIDA SET 455 PAROLEES TO OTHER STATES FOR SUPERVISION
 - FLORIDA RECEIVED 515 PAROLEES FROM OTHER STATES TO SUPERVISE
 - FLORIDA SENT 3300 PROBATIONERS TO OTHER STATES FOR SUPERVISION
 - FLORIDA RECEIVED 1865 PROBATIONERS FROM OTHER STATES FOR SUPERVISION

CORRECTIONAL STATISTICS

The continued refinement of our computerized data system has permitted inclusion of information for incarcerated inmates and offenders under community supervision for two time periods.

- Inmates and probationers/parolees admitted to custody or supervision of the Department of Corrections during FY 1983-84
- Inmates and probationers/parolees in custody or supervision of the Department as of June 30, 1984.

Data in this section of the Annual Report are organized into two major subsections—incarcerated offenders, and offenders under community supervision. This data follows the summary statistics for population under criminal sentence.

For each category statistics are included on the population in custody or under supervision, along with dispositional data and offender demographics. The data are organized along the following lines:

- First, data descriptive of the prison and community supervision populations are presented. Data are included on the number of offenders, their origin by county, and where housed or supervised.
- Then, dispositional data as to criminal history, primary offense, length of commitment or supervision, and class of felony is included.
- Finally, offender specific data on age, education, intelligence, length of residence, employment, and use of alcohol or narcotics are provided.

It should be noted that some data are the result of self reporting and may be subject to error and may not be totally reliable.

Due to limitation of space in the Annual Report, a limited amount of data is included in the report. Data from reports which previously appeared in the Biennial Report series is available upon specific request from the Bureau of Planning, Research and Statistics, 1311 Winewood Boulevard, Tallahassee, Florida 32301, telephone (904) 488-8430.

ADMITTED NARCOTICS USE REPORTED BY INMATES COMMITTED TO THE DEPARTMENT OF CORRECTIONS

^{*}Admission during FY 1983-43 *Status population as of June 30, 1984

[†]Data from self report

PROBATION AND PAROLE STATISTICS

The following pages contain statistics concerning probationers and parolees under the supervision of the Department of Corrections. The probation and parole caseload continues to increase. The Department continues its emphasis upon diversionary programs and these programs, hopefully, will reduce the number of institutional beds necessary in the future. Consequently, an even greater probation and parole caseload is anticipated in the years to come.

In the following tables, misdemenaor probation reflects cases originally filed in circuit court as felonies that were reduced to misdemeanors and subsequently placed on probation.

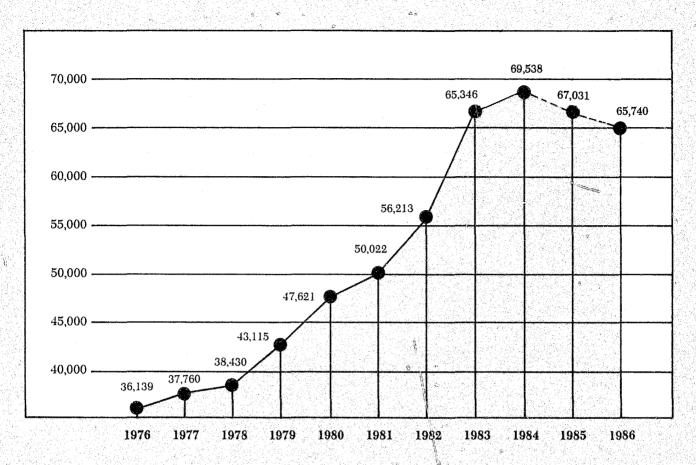

POPULATION UNDER COMMUNITY SUPERVISION

	1982-83	1983-84
POPULATION UNDER PAROLE AND PROBATION SUPERVISION ON JULY 1	56,213	65,346
Intakes ¹ Terminations ²	44,135 34,002	42,008 37,816
POPULATION UNDER PAROLE AND PROBATION SUPERVISION ON JUNE 30	65,346	69,538
POPULATION UNDER PRETRIAL SUPERVISION ON JULY 1	3,749	3,801
Intakes Terminations	6,252 6,210	5,451 5,187
POPULATION UNDER PRETRIAL SUPERVISION ON JUNE 30	3,801	4,065

¹Includes all sources of intake (courts, prison, out-of-state, etc.)

 $^{^2}$ Includes all types of terminations (normal expiration, death, etc.) including parole and probation revocations

ACTUAL PAROLE AND PROBITION CASELOAD UNDER SUPERVISION (1975-84) AND CASELOAD PROJECTIONS THROUGH 1986

^{*}Projections from Criminal Justice Estimating Conference 9/20/84.

^{*}Admission during FY 1983-84 **Status population as of June 30, 1984

PROFILE OF PROBATIONERS/PAROLEES **ADMISSIONS DURING FY 1983-84**

The Typical White Male Probationer/Parolee Profile of the offenders admitted to supervision during the 1983-84 fiscal year.

Age Under 21 Years (21.2%) 21 to 25 Years (28.2%) 26 to 30 Years (19.2%) Over 30 Years (31.4%)

 Prior Felony Convictions None (86.1%) One (7.5%) Two (2.9%) Three (1.4%) Four or More (2.1%)

• Risk Classification at admission Maximum (19.4%) Medium (73.3%) Minimum (7.3%)

- Claims at Least Occasional Use of Alcohol (54.5%)
- Claims at Least Occasional Use of Narcotics (36.1%)
- Most Frequent Offense
 - 1) Burglary (19.4%)
 - 2) Larceny (15.7%)
- Is Under Supervision 2 Years or Less (47.8%)
- Is Under Probation Sentence 2 Years of Less (42.1%)
- Is Under Parole Supervision 2 Years or Less (63.1%)
- Is Under Sentence from Out of State (9.1%)

The Typical Black Male Probationer/Parolee Profile of the offenders admitted to supervision during the 1983-84 fiscal year.

Age Under 21 Years (21.4%) 21 to 25 Years (28.8%) 26 to 30 Years (20.0%) Over 30 Years (29.8%)

 Prior Felony Convictions None (81.3%) One (10.1%) Two (3.8%) Three (2.1%)

Four or More (2.7%)

 Risk Classification at admission Maximum (19.9%) Medium (76.1%) Minimum (4.0%)

- Claims at Least Occasional Use of Alcohol (45.8%)
- Claims at Least Occasional Use of Narcotics (29.0%)
- Most Frequent Offense 1) Burglary (19.8%)
 - 2) Larceny (15.0%)
- Is Under Supervision 2 Years or Less (54.9%)
- Is Under Probation Sentence 2 Years of Less (48.5%)
- Is Under Parole Supervision 2 Years or Less (63.7%)
- Is Under Sentence from Out of State (2.7%)

The Typical White Female Probationer/Parolee Profile of the offenders admitted to supervision during the 1983-84 fiscal year.

Under 21 Years (15.0%) 21 to 25 Years (29.8%)

26 to 30 Years (20.9%) Over 30 Years (34.2%)

Prior Felony Convictions

None (94.2%) One (3.9%) Two (.09%)

Three (.04%)

Four or More (.06%)

 Risk Classification at admission Maximum (16.2%)

Medium (76.1%) Minimum (7.7%)

- Claims at Least Occasional Use of Alcohol (44.0%)
- Claims at Least Occasional Use of Narcotics (28.9%)
- Most Frequent Offense
 - 1) Larceny (21.4%)
 - 2) Narcotics Possession (17.9%)
- Is Under Supervision 2 Years or Less (51.3%)
- Is Under Probation Sentence 2 Years of Less (47.9%)
- Is Under Parole Supervision 2 Years or Less (58.9%)
- Is Under Sentence from Out of State (7.5%)

The Typical Black Female Probationer/Parolee Profile of the offenders admitted to supervision during the 1983-84 fiscal year.

Under 21 Years (12.7%)

21 to 25 Years (26.4%)

26 to 30 Years (23.3%)

Over 30 Years (37.6%)

Prior Felony Convictions

None (91.2%) One (5.1%)

Two (1.9%)

Three (.8%)

Four or More (1.0%)

Risk Classification at admission

Maximum (11.9%)

Medium (81.1%)

Minimum (7.0%)

- Claims at Least Occasional Use of Alcohol (32.5%)
- Claims at Least Occasional Use of Narcotics (16.4%)
- Most Frequent Offense
 - 1) Family Offenses (23.3%)
 - 2) Larceny (20.7%)
- Is Under Supervision 2 Years or Less (51.1%)
- Is Under Probation Sentence 2 Years of Less (46.9%)
- Is Under Parole Supervision 2 Years or Less (63.3%)
- Is Under Sentence from Out of State (2.1%)
