# LAW ENFORCEMENT ASSISTANCE ADMINISTRATION JUVENILE DELINQUENCY PROJECT SUMMARIES FOR FISCAL YEAR 1972

October 1972

U. S. DEPARTMENT OF JUSTICE Law Enforcement Assistance Administration

This report is a summary of those programs and projects funded by the Law Enforcement Assistance Administration in FY-1972 that relate to juvenile delinquency. They include those projects funded under block grants (monies administered by the states), discretionary grants (monies administered by the central or regional offices), and research grants (monies administered by the National Institute of Law Enforcement and Criminal Justice). Some of those projects indicated as funded under block monies are what the state plans to fund; the eventual program or project that is funded may, however, vary somewhat from that original intention. This listing represents, therefore, the funding plans for state block monies, and actual expenditures for discretionary and National Institute projects.

In some of the listings, the summary indicates the project will serve both juveniles and adults; the amount of 1972 funds indicated reflects that portion of the grant which serves juveniles.

The letters under each fund amount indicate the source of those monies:
