CRIME IN KANSAS, 1989 contains statistical information documenting the status of crime during calendar year 1989. This publication is based upon reports received from over 350 local and state law enforcement agencies. Their participation and assistance in providing this data is greatly appreciated. The various tables and graphic presentations can be a valuable planning tool for the criminal justice community as well as to those responsible for its activities.

Featured in this annual publication is more extensive data from the state's Incident Based Reporting System. This system has been developed to better characterize the dimensions of crime in Kansas and to provide more in-depth information to state and local policy makers.

It is with pleasure that this publication of CRIME IN KANSAS is presented.

IN MEMORIAM

Crime in Kansas 1989 is dedicated to Patrolman Jeffery A. Young, Kansas City Police Department, who died on August 1, 1989, as a result of injuries sustained when a fleeing felon intentionally ran over the officer during a partial roadblock in the early morning hours of Thursday, November 10, 1988.

The suspect was pursued by officers from both sides of the state line for twenty-two minutes before he was caught and arrested in Kansas City, Kansas. The suspect was convicted of second degree murder and sentenced to 15 years to life.

Officer Young, 29, started his law enforcement career, June 16, 1977, as a cadet for the Kansas City Police Department. He became a Patrolman, at the Kansas City Police Department, on October 14, 1981. At the time of his death he was a Patrolman 1st Class.

Officer Young's death was a tragic loss of a professional and dedicated law enforcement officer. Our most sincere condolences to Officer Young's family and friends.

INTRODUCTION

The Kansas Bureau of Investigation is the Central Repository of criminal justice related data for the state. K.S.A. 21-2501(a) and K.S.A. 21-2504 require the submission of reports from all local police and sheriff departments to the KBI. Recently, state agencies with law enforcement responsibilities have begun to report information as well. There were nearly 350 state and local reporting entities during calendar 1989 upon which this publication is based.

The state has participated in the national Uniform Crime Reporting (UCR) program, maintained by the Federal Bureau of Investigation, since 1969. Prior to the development of a state-level program in the late 1970's, most reporting by local agencies was done directly to the FBI. The establishment of the state program ensured better coordination between the state and the national program, a higher level of data quality, and more complete reporting.

The UCR program collects offense data on murder, rape, robbery, aggravated assault/battery, burglary, theft and motor vehicle theft. The offenses are referred to as Part I crimes - so designated by the National Sheriff's Association and the International Association of Chiefs of Police in the 1930's due to their severity, frequency of occurrence and likelihood of being reported. These crimes are the basis for the Crime Index - the barometer by which crime trends have been measured for over 50 years. Arson was added to this list in the 1980's but is not included in calculations of the Crime Index. Part I crimes are divided into two categories: violent crime, which includes murder, rape, robbery and aggravated assault/battery; and, property crime, including burglary, theft and motor vehicle theft. Additionally, arrest statistics are collected on these crimes as well as other so-called Part II crimes. Data on law enforcement personnel, including assaults, are also collected as part of the program. Program principles include using the "hierarchy rule" (counting only the most serious crime in a multiple offense situation), counting only arrests made for crimes committed in an agency's jurisdiction and being a monthly summary reporting system.

In order to better address requests for crime statistics and to provide a more complete view of the complexion of crime in Kansas, a pilot program on Incident Based Reporting was begun in 1984 with

participation by ten local law enforcement agencies. This program detailed crime reporting based upon incidents of reported crime wherein numerous points of information could be gathered and studied. Prior to implementation of this program, summary reports were prepared by the local agencies, forwarded to the KBI, tallied by the state and sent to the FBI. In 1989, all but three law enforcement agencies reported on the Incident Based Reporting System and this publication reflects presentations on this expanded data base.

The goals of the Incident Based Reporting System are: 1) the standardization of reporting methods and data elements; 2) the collection and reporting of data based on Kansas law, rather than national standards; 3) the maintenance of a state-level stolen property file; 4) to maintain a broad data-base allowing for the analysis of crimes, victims, suspects, etc.; 5) better feedback to local agencies. Long range goals include the ability to: 1) link arrests with offenses; 2) count arrests made for another agency; and 3) track offenders through the justice system.

Nationally, the Uniform Crime Reporting program is also transitioning into the National Incident Based Reporting System (NIBRS). After an exhaustive period of study, 53 data elements have been identified as core to this program and the Kansas system will be modified to ensure incorporation of the few data elements currently not in the IBR data base. With this incorporation, the three previously identified long range goals will be accomplished. Coupled with a renewed interest in the issue of data quality, the future is bright for crime reporting programs both nationally and within the state of Kansas.

OBJECTIVES OF CRIME IN KANSAS 1989:

- o - To provide justice system administrators with crime statistics for administrative and operational use;
- o - To inform the Executive, Legislative and Judicial branches of government, and the public, as to the nature of the crime problem in Kansas -- its magnitude and its trend;

- o - To provide information to those charged with the responsibility of formulating public safety policy;
- o - To determine who commits crimes by age, sex, race, and other attributes in order to find the proper focus for prevention and intervention programs;
- o - To provide Kansas citizens with the most complete information on the nature and extent of crime;
- o - To include comprehensive data for researchers and planners;
- o - To provide base data and statistics to assist in the assessment of social and other causes for the development of theories of criminal behavior, to assist in the assessment of the efficiency, effectiveness and performance of criminal justice agencies, and to measure the effects of prevention and deterrence programs; and,
- o - To provide the FBI with complete data to be included in the national crime report.

CRIME FACTORS:

It is important to remember that crime is a social problem and, therefore, a concern of the entire population of Kansas.

The most important and vital influences on the occurrence of crime include:

- o - Density and size of the community population and its surrounding area;
- o - Composition of the population with reference particularly to age, sex, race, and ethnic origin;
- o - Economic status and mores of the population;
- o - Stability of the population with respect to transient factors;
- o - Climate, which includes seasonal weather conditions;
- o - Cultural conditions; i.e., educational, recreational and religious characteristics;
- o - Effective strength of the law enforcement agencies;

- o - Standards governing appointments to law enforcement agencies;
- o - Policies and/or attitudes of criminal justice system, practitioners including prosecution, courts, corrections and social services agencies;
- o - Relationship and attitudes of the public toward law enforcement problems;
- o - Administrative and investigative efficiency of law enforcement, including the degree of adherence of crime reporting and crime description standards; and,
- o - Organization and cooperation of adjoining and overlapping police jurisdictions.

DATA COMPARISONS/LIMITATIONS:

This program was developed for Kansas law enforcement agencies by the Kansas Bureau of Investigation to furnish information for use primarily by contributing agencies. The tendency with a publication of this nature is to attempt to make comparisons of data between jurisdictions, whether between agencies, counties, or regions. Caution is urged in attempting to make comparisons between agencies; the reasons for this will become apparent as the reader reviews the publication. Data presented herein are carefully planned to present the truest and most accurate picture possible of crime in Kansas.

It is not always appropriate to compare single agencies because of the great variety of factors which affect the extent and fluctuation of crime and which are not taken into consideration in either raw data or crime rates. For example, one occurrence of theft is weighed equally with one occurrence of murder, even though the two crimes are obviously at opposite spectrums on a scale of seriousness. For the purpose of this publication, all crimes are weighted equally in computing crime rates.

The Incident Based Reporting program in Kansas is the best information presently available for reflecting crime as reported to law enforcement. It does not claim to represent all crime occurring in Kansas because it is dependent upon the willingness of the victim to

report the crime to law enforcement and the willingness of law enforcement to report the crime to the Kansas Bureau of Investigation.

This publication of Crime In Kansas, 1989 is the result of the efforts of 344 local and state law enforcement agencies submitting required information to the state program maintained by the Kansas Bureau of Investigation. The effort by the numerous individuals responsible for this process is greatly appreciated.

CRIME INDEX OVERVIEW

Crime Index Offenses (murder, rape, robbery, aggravated assault/battery, burglary, theft and motor vehicle theft) totaled 125,439 in 1989, a increase of 5.2% over 1988. The ten year trend of Crime Index Offenses shows an decrease of 0.3% in crimes reported in 1989 as compared to 1980 figures. This increase is due, in part, to better reporting methods and the participation of more agencies.

Crime Index Offenses are divided into two sub-categories: 1) Violent Crime; and, 2) Property Crime. In the Violent Crime category aggravated assault/battery continues to be the most frequently reported crime and constitutes 64.8% of all violent crime reported. Theft is the most often reported Property Crime; 58.5% of reported property crime and slightly under fifty-four percent of the entire Crime Index are thefts.

The Crime Clock suggests that, on an average, one Crime Index Offense occurred every four minutes in 1989, while the individual categories of Violent Crime and Property Crime show an occurrence rate of 52 minutes, 41 seconds and 4 minutes, 33 seconds, respectively. August ranks as the month with the most Crime Index offenses reported.

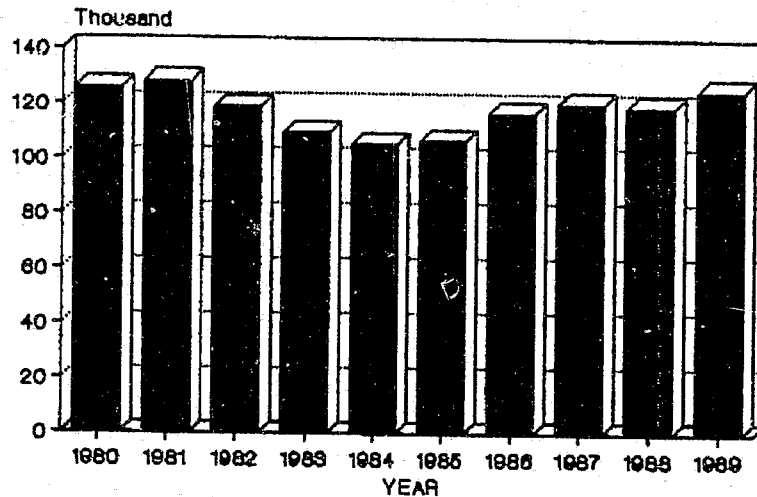

There are thirty-four cities in Kansas with populations of over 10,000. Those cities account for 80% of all Crime Index Offenses that occurred in 1989. Kansas City experienced the greatest number of violent crimes; Wichita had the largest number of property crimes.

The crime clock should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of the Part I Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

VIOLENT CRIME

In 1989 a violent crime of murder, rape, robbery or aggravated assault/battery occurred on an average of every 53 minutes in Kansas. Statistics for 1989 indicate that nearly 4 persons per thousand population experienced some type of violent crime.

Violent crime accounted for 8.0% of the total crime index offenses reported in 1989. This crime category totaled 9,980 in 1989 as compared to 8,920 in 1988, an increase of 11.9%.

Information on simple assault/battery has been included even though it is considered a Part II offense under UCR guidelines. However, due to the frequency that this crime against persons is reported, the information is valuable to law enforcement.

MURDER AND NON-NEGLIGENT MANSLAUGHTER

Kansas Statutes define murder and non-negligent manslaughter as follows:

"Murder in the first degree is the killing of a human being committed maliciously, willfully, deliberately and with premeditation or committed in the perpetration or attempt to perpetrate any felony," (K.S.A. 21-3401).

"Murder in the second degree is the malicious killing of a human being, committed without deliberation or premeditation and not in the perpetration or attempt to perpetrate a felony," (K.S.A. 21-3402).

"Voluntary manslaughter is the unlawful killing of a human being, without malice, which is done intentionally upon a sudden quarrel or in the heat of passion," (K.S.A. 21-3403).

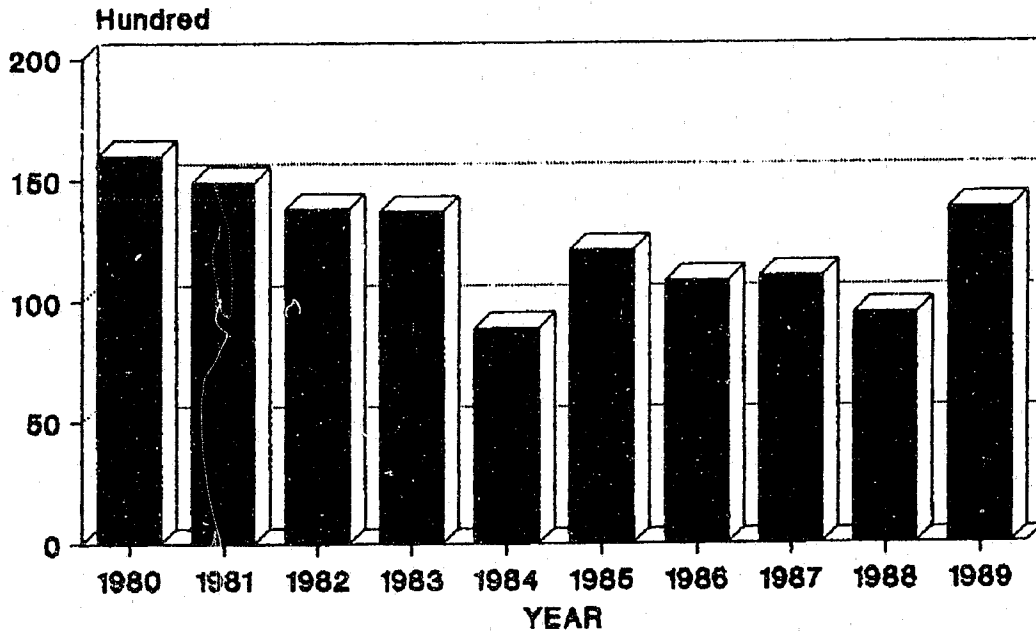

The national program defines murder as "the willful (nonnegligent) killing of one human being by another," (Uniform Crime Reporting Handbook, 1984, page 6).

In 1989, Kansas reported 138 homicides, a dramatic increase of 45.3% as compared to the 95 homicides reported in 1988. There were also 4 justifiable homicides committed by citizens in self defense during the commission of felony offenses. Three additional homicides by police officers were ruled justifiable. Two negligent manslaughters were reported.

Kansas had 19 victims murdered in multiple homicide situations in 1989. In four separate cases, there were 2 victims. (The offender in one of these cases has also been linked to 2 other homicides reported in Kansas in 1989.) One homicide reported involved three victims in two different jurisdictions and two homicides reported had four victims.

A firearm of some type was used in 55.1% of the homicides reported in 1989. Slightly over half (50.7%) of these crimes were committed by offenders unknown to the victim. Characteristics show the victim was most often a white male between the ages of 22 to 30. The perpetrator was most likely a white male between the ages of 22 to 30. The largest number of homicides was reported in October. The most common known circumstance for homicide was during the commission of a robbery.

RAPE

K.S.A. 21-3502 defines rape as:

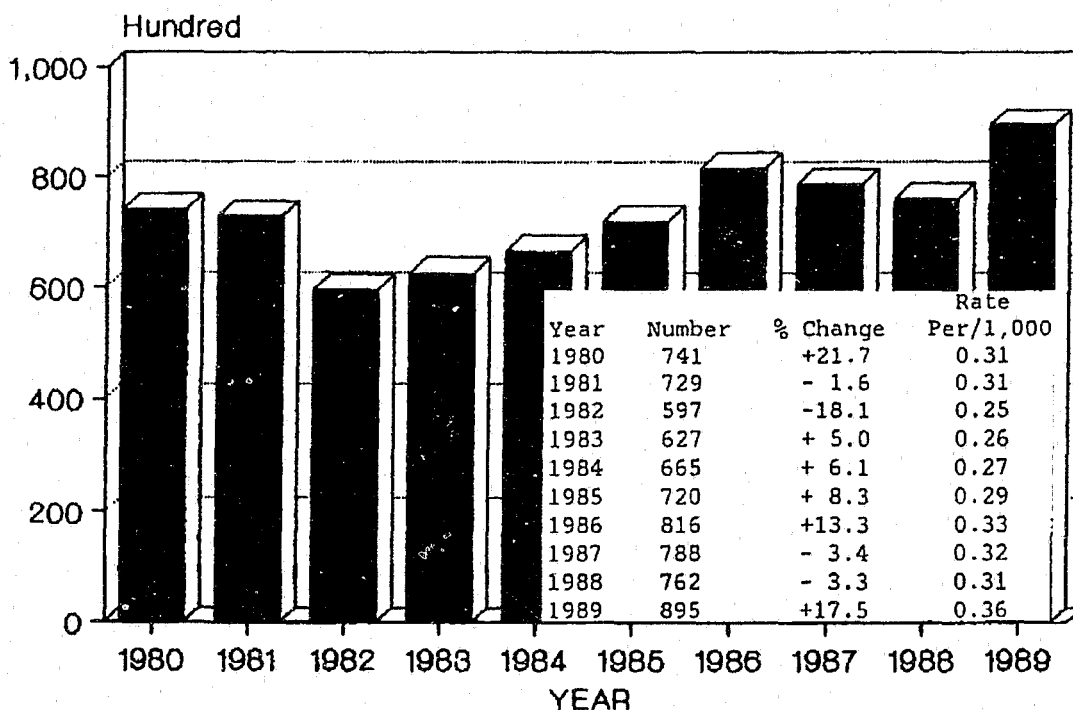

"...sexual intercourse with a person who does not consent to the sexual intercourse..."

The national UCR program does not include male sexual assaults under the rape definition; those are considered "other sex offenses" and fall within the Part II crimes category. However, under Kansas Statutes, male sexual assault is considered rape in some incidents and counted as such.

There were 895 reported rapes in 1989, a significant increase of 17.5% as reported in 1988. Most of these rapes (62.2%) occurred in apartments and residences and in 379 cases no weapon was involved. As in 1988, the highest number of rapes were reported in the month of July. Rapes most frequently occurred on Saturday and Sunday and between the hours of 10:00 p.m. and 4:00 a.m.

The victim was most often a white female, between 15-19 years of age, while the offender was most commonly a white male, age 20-24. Sixteen males were victims of rape, over twice as many (6) as reported in 1988.

ROBBERY

Under the national UCR program and Kansas law, robbery is:

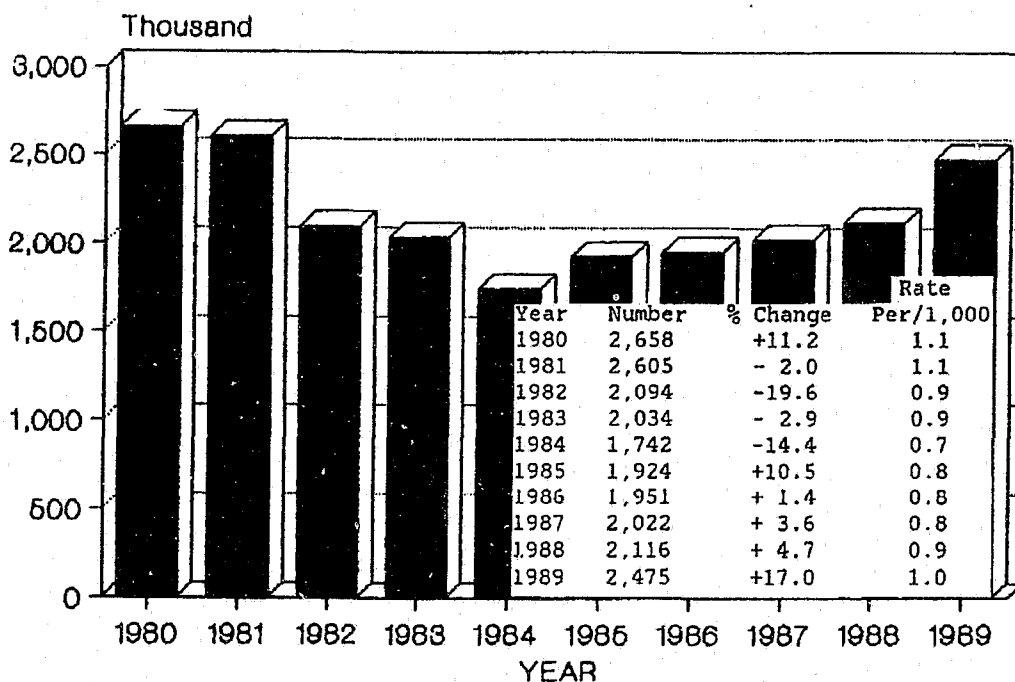

"...the taking of property from the person or presence of another by threat of bodily harm to his person or the person of another or by force."

Robberies reported increased 17.0% in 1989 compared to 1988, this increase reflects a continuous upward trend that has been occurring since 1984 when the lowest number of robberies were reported in a ten year span. The majority of robberies (94.0%) occurred in cities with populations of 10,000 and the largest number (900) occurred in business establishments where \$269,153 of property was reported stolen.

The highest number of robberies (270) were reported in October. Robberies most frequently occurred on Saturday and between the hours of 8:00 p.m. and 2:00 a.m.

The majority of the offenders (89.7%) were a stranger or unknown to the victim and used a firearm to commit the offense.

AGGRAVATED ASSAULT/BATTERY

Aggravated assault is defined in Kansas under K.S.A. 21-3410 as:

- "(a) Unlawfully assaulting or striking at another with a deadly weapon; or
- (b) Committing assault by threatening or menacing another while disguised in any manner designed to conceal identity; or
- (c) Willfully and intentionally assaulting another with intent to commit any felony."

Aggravated battery is defined in Kansas under K.S.A. 21-3414 as:

- "(a) Inflicts great bodily harm upon him; or
- (b) Causes any disfigurement or dismemberment to or of his person; or
- (c) Is done with a deadly weapon, or in any manner whereby great bodily harm, disfigurement, or death can be inflicted."

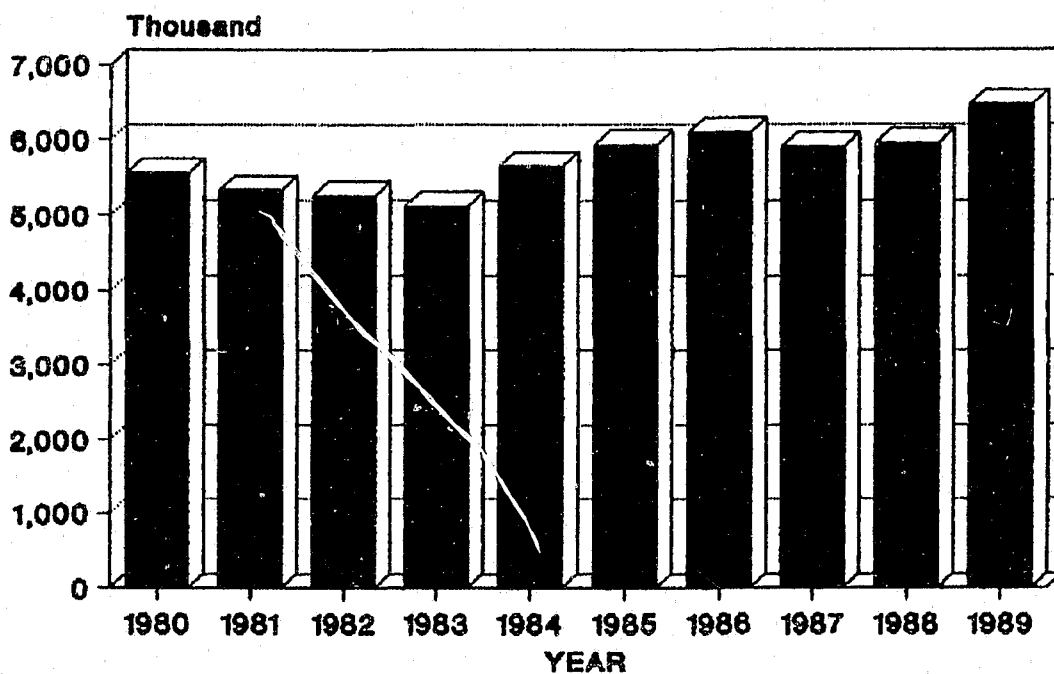

Aggravated assault is defined for the Uniform Crime Report as:

"An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm,"
(Uniform Crime Reporting Handbook, 1984, page 16).

Aggravated assault/battery continued to be the most frequently reported violent crime representing 64.8% of this category. Aggravated assault/battery increased 8.8% in 1989, as compared to 1988. This is the largest increase since 1984, and the largest number reported in the last ten years.

Nearly one-third (29.1%) of aggravated assault/battery occurred in the summer months of June, July and August. Victims were most often 20-25 (1,300) and were related or acquainted with (59.9%) the offender. Most of these offenses involved the use of a weapon (5,124) instead of physical force.

SIMPLE ASSAULT/BATTERY

Assault is defined in Kansas under K.S.A. 21-3408 as:

"An assault is an intentional threat or attempt to do bodily harm to another coupled with apparent ability and resulting in immediate apprehension of bodily harm. No bodily contact is necessary."

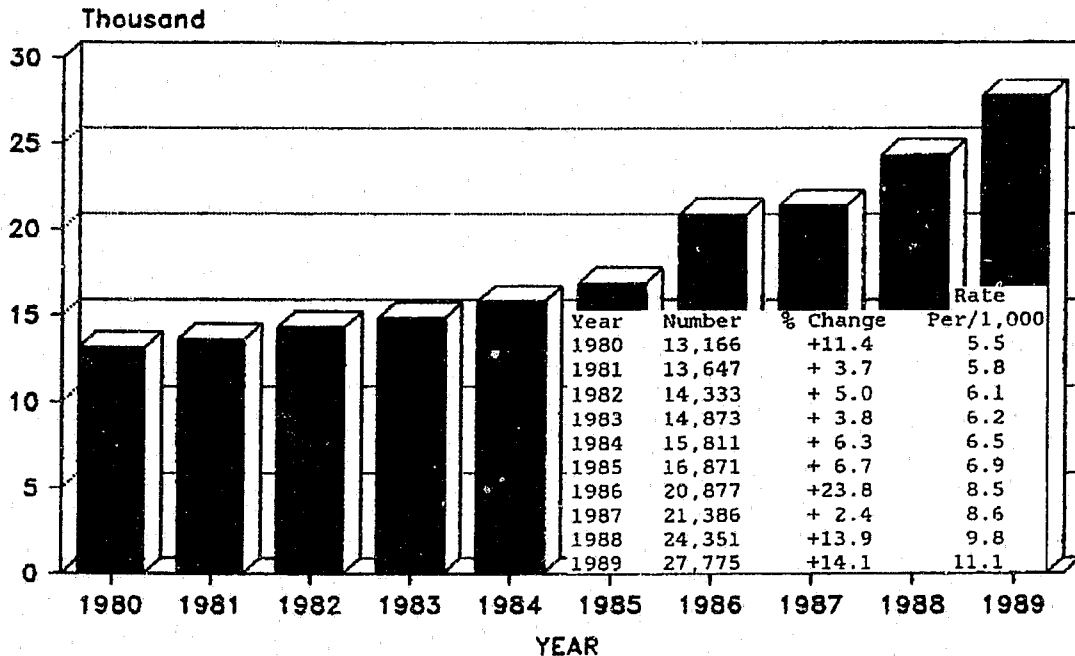

Battery is defined in Kansas under K.S.A. 21-3412 as:

"Battery is the unlawful, intentional touching or application of force to the person of another, when done in a rude, insolent or angry manner."

Simple assault/battery (the threat of violence that could result in personal injury) is a Part II crime. In 1989, this totaled 27,775 reflecting a 14.1% increase from 1988. The trend shows a continuous pattern of simple assault/battery increasing in the last decade, with the smallest increase occurring in 1987.

Most simple assault/battery is committed by a family member (24.4%) or an acquaintance (47.7%) of the victim; the majority of the victims, 4,244, are between the ages of 20 and 25. These offenses most often occurred on weekends (36.1%) and happened between 8:00 p.m. and 2:00 a.m.

PROPERTY CRIME

Part I property crime, which includes burglary, theft, and motor vehicle theft, increased 4.6% in 1989 and totaled 115,459 reported offenses. These three offenses represent 92.0% of the total crime index in 1989. The highest number of property crimes, 21,964, were reported in July and August.

Also included is data on arson, which is an additional offense reported to the Uniform Crime Reporting Program, and currently being collected and reported in Kansas by the State Fire Marshall's Office.

Data on criminal damage to property which is considered a Part II offense under UCR guidelines, is also presented. Criminal damage statistics are ascertained from those agencies reporting on the Incident Base Reporting System.

BURGLARY

Burglary in Kansas is defined under K.S.A. 21-3715 as:

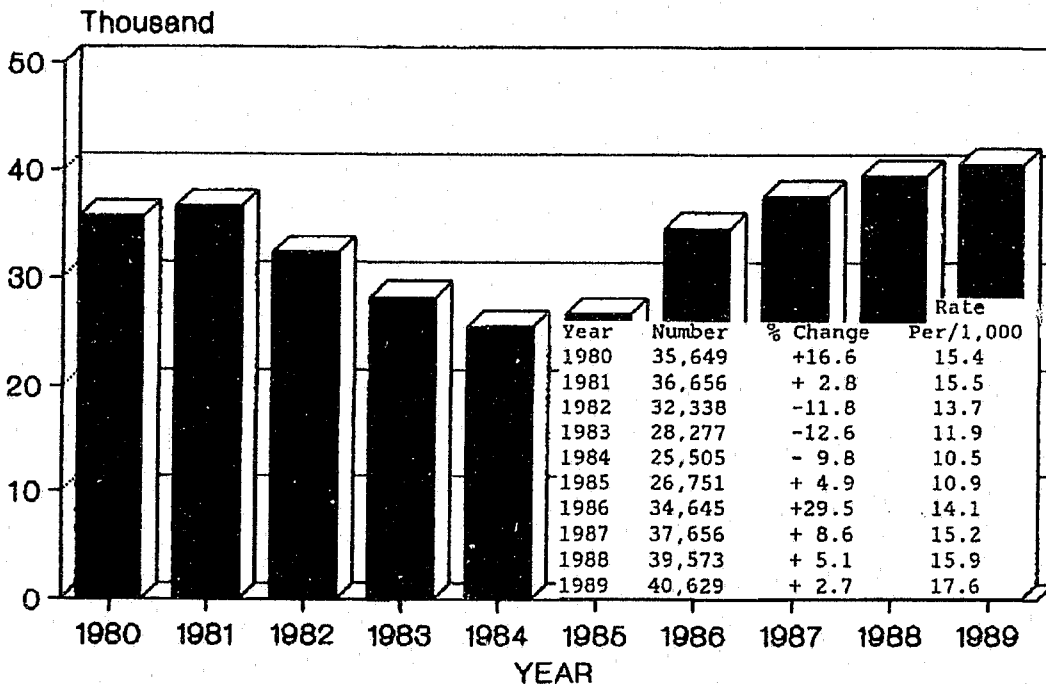

"...knowingly and without authority entering or remaining within any building, mobile home, tent or other structure, or any motor vehicle, aircraft, watercraft, railroad car or other means of conveyance of persons or property, with intent to commit a felony or theft therein."

The national UCR program does not recognize a vehicle as a structure, therefore, for UCR reporting purposes, breaking into a vehicle has traditionally been counted as a theft. However, under Kansas state statute these offenses are classified as burglaries.

In 1989 burglaries rose from 39,573, reported in 1988, to 40,629 an increase of 2.7%. Nearly 47% of residence burglaries occurred during the day, while most non-residence burglaries (51.6%) happened at night.

Of the \$25,854,108 of stolen property reported for this offense, 52.3% was taken in residence burglaries.

THEFT

Kansas Statute K.S.A. 21-3701 defines theft as:

"...any of the following acts done with intent to deprive the owner permanently of the possession, use, or benefit of the owner's property:

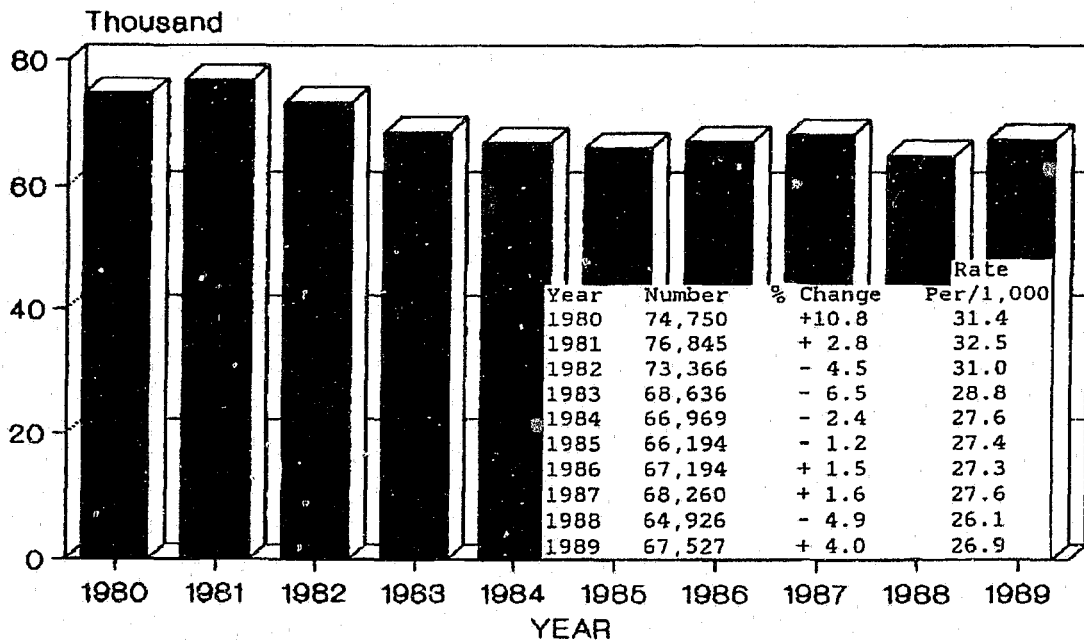

- (a) Obtaining or exerting unauthorized control over property; or
- (b) Obtaining by deception, control over property; or
- (c) Obtaining by threat, control over property; or
- (d) Obtaining control over stolen property knowing the property to have been stolen by another."

An increase of 4.0% in theft was reflected from 1988. Theft was the most frequently reported Part I crime at 53.8% of the total crime index.

Shoplifting accounted for 14.5% of total thefts reported and amounted to \$667,709. The highest number of thefts occurred in August and most frequently happened on Friday (16.3%) between 4 p.m. - 6 p.m.

Several Kansas statutes meet the definition of theft under UCR guidelines, and are counted as such. A list of these statutes and the number of offenses reported is included.

MOTOR VEHICLE THEFT

The national UCR program separates stolen motor vehicles from the general theft category to allow for more accurate accounting of vehicles stolen. Motor vehicle theft reflects a 24.6% increase, however, some of this increase may be attributed to a reporting error in 1988 by a major agency. Stolen vehicles accounted for 40.7% (\$33,197,277) of total property reported stolen.

It should be noted that a discrepancy in dollar value of stolen vehicles exists in some tables. When a vehicle is taken in the commission of a more serious crime (rape, burglary, etc.) a motor vehicle theft is not tallied, but the vehicle will be counted as property taken during the offense.

CRIMINAL DAMAGE

Criminal damage to property is defined in K.S.A. 21-3720 as:

"...by means other than by fire or explosive:

- (a) Willfully injuring, damaging, mutilating, defacing, destroying, or substantially impairing the use of any property in which another has an interest without the consent of such other person; or
- (b) Injuring, damaging, mutilating, defacing, destroying, or substantially impairing the use of any property with intent to injure or defraud an insurer or leinholder."

The figures provided in this section are based on statistics from the Incident Base Reporting System and do not include those agencies that are UCR participants only.

There were 42,550 incidents reported in 1989, listing Criminal Damage as one of the violations. There were 28,535 violations where Criminal Damage was the primary offense.

Criminal damage loss reported totaled \$8,426,084 in 1989 which reflects an increase of 21.1% from 1988. The table shows vehicles are the primary target for Criminal Damage (34.8%) and constitute 52.8% of the total dollar loss.

Criminal Damage most frequently occurred on Friday or Saturday (37%), between the hours of 10:00 p.m. - 12:00 p.m.

ARSON

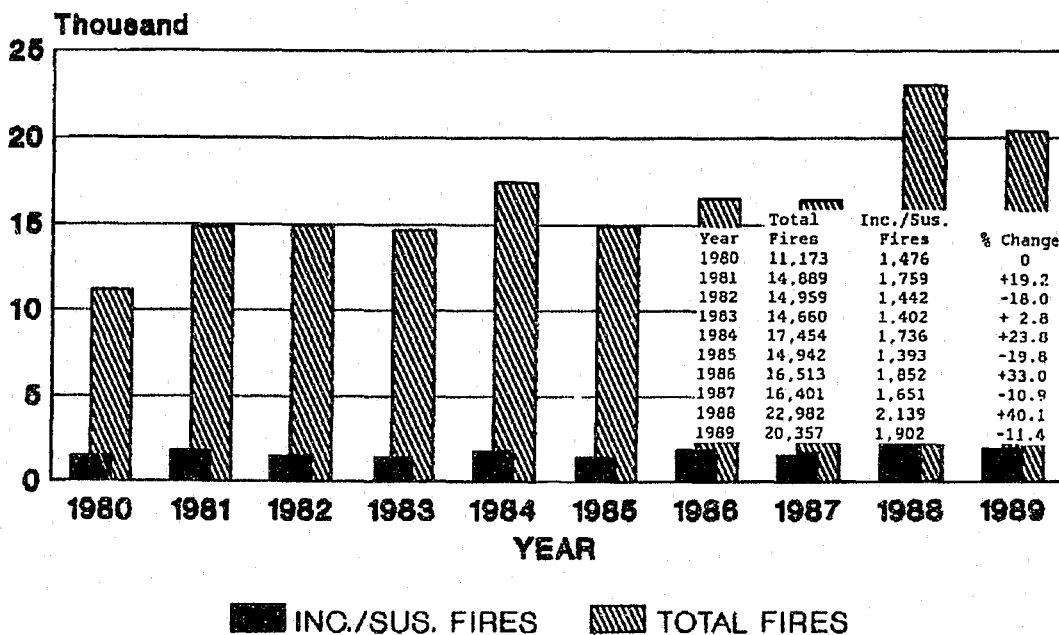

Arson is defined in K.S.A. 21-3718 as:

- "...knowingly, by means of fire or explosive
- (a) Damaging any building or property in which another person has any interest without the consent of such person;
 - or
 - (b) Damaging any building or property with intent to injure or defraud an insurer or lienholder."

Arson statistics for 1989 are based on information provided by the State Fire Marshal's Office as reported under the Kansas Fire Incident Reporting System (KFIRS).

The trend graph depicts yearly total fires as reported to KFIRS and the number of incendiary/suspicious fires. The data shows an overall decrease of 11.4% in reported fires as compared to 1988. The pie chart shows that grass/refuse fires are a primary problem to local firefighters.

STOLEN AND RECOVERED PROPERTY

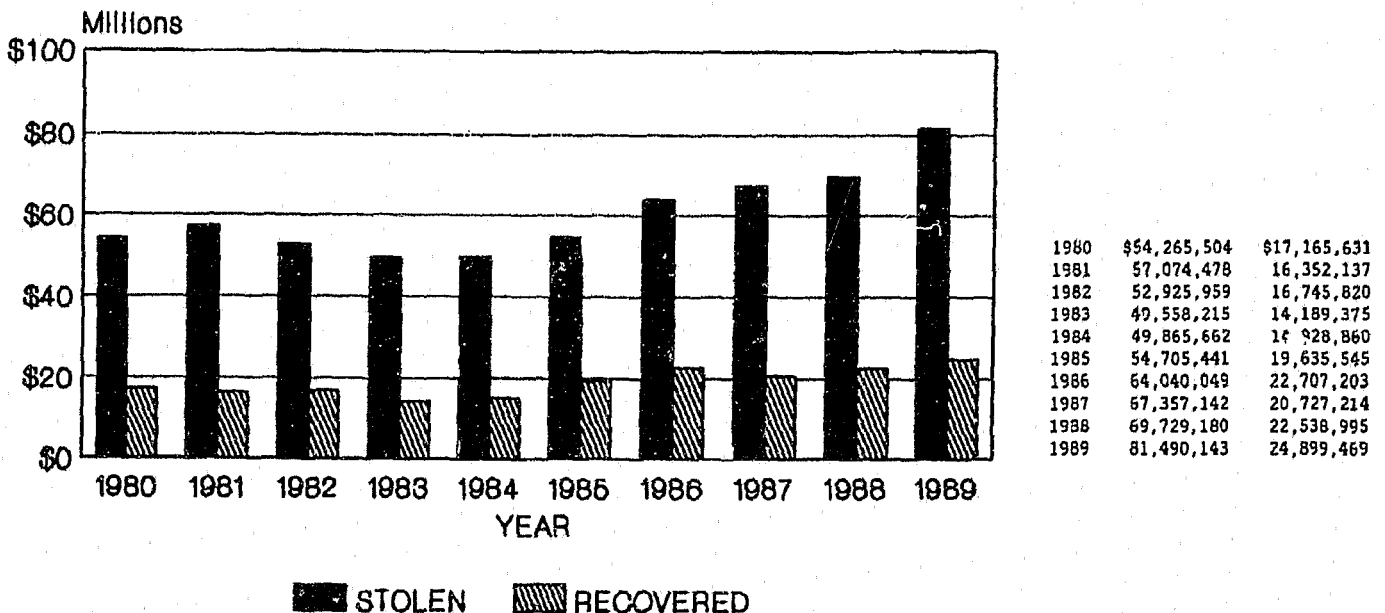

In 1989, property reported stolen equalled \$81,490,143 which is a 16.9% increase from 1988. Agencies recovered \$24,899,469 of property that had been reported stolen either in, or prior to, 1989 (an increase of 10.5% from 1988).

Motor vehicles accounted for 39.2% of property reported stolen and were the most frequently recovered property (85.9%).

Nearly seventy-seven percent of reported stolen property was in cities with a population of over 10,000; recovered property totaled \$19,150,114 in these same cities.

A list of property reported stolen through the Incident Base Reporting System is included; this information is used to create the Kansas Stolen Property File. The file is used as a resource for law enforcement agencies to search for recovered property that may have been reported stolen by Kansas agencies. Unlike the National Crime Information Center (NCIC) the Kansas System is unique in that only a property description is required for a search of the file.

ARRESTS

The total arrests for 1989 increased 9.5% as compared to 1988. However, this is a continuation of a six year trend which has seen overall arrests increase 35.3% from 1984 to 1989. The largest increase was Part II adult arrests with 63,678 reported in 1988 and 71,526 (12.3%) in 1989.

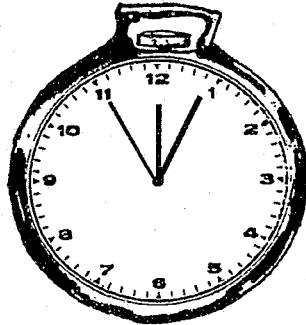

Juveniles seventeen years of age were the most often arrested accounting for 24.3% of all juvenile arrests. While the most frequently arrested adults were 25-29 amounting to 21.5% of total adult arrests.

The greatest number of juveniles arrested (5,360) were for the Part I crime of theft. The largest number of adults (15,498) for the Part II offense of DUI.

The arrest clock should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of Part I Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Kansas had the misfortune of losing a police officer in 1989. The Kansas City, Kansas Police Department had an officer die as the result of injuries sustained November 10, 1988, when a fleeing felon intentionally ran over him during a partial roadblock.

Assaults on law enforcement officers increased 16.2% from 863 in 1988 to 1,003 in 1989. Of these total assaults, eighty-three percent were without serious injury; 748 of these offenses, or 74.6% were committed by hands, fists, or feet. The highest incident of assault occurred while responding to some type of disturbance, with this category accounting for 45.4% of assaults. Approximately 39.7% of all assaults on law enforcement officers occurred between the hours of 10:00 p.m. and 2:00 a.m. Slightly over eighty-five percent, or 858, of all assaults were cleared.

LAW ENFORCEMENT EMPLOYEES

The number of full-time sworn and civilian law enforcement employees for 1989 increased 12.5% as compared to 1988. There were 5,171 sworn employees and 1,843 civilian employees for a total of 7,014.

Over 68% of the civilian employees were female, and females represented 8.4% of the sworn employees. Most employees (1,392) had served 6-10 years in law enforcement and the majority 19% had been with the same agency that long. Nearly 54% of the law enforcement employees have attended college, and 1,620 have degrees.

Also included in this section is a summary of employees by agency.
