STATE OF NEW JERSEY
EMERGENCY OPERATIONS PLAN GUIDELINES
INSTRUCTIONS FOR STANDARDIZED TEXT

Your task of writing the EOP is further simplified by the availability of standardized text for many of the items on the checklist. Standardized text consists of parts of the EOP that are pre-written for you and are ready to use or require only slight additions or modifications. This text is attached as part of these instructions and the sections are numbered to coincide with the checklist as discussed above. The pages may be used as they are, photocopied or retyped to suite your particular needs.

In many cases you may use the standardized text as it is or by merely filling in some blanks. In other cases you will find that the standardized text does not fit your situation and you will have to modify it. If it doesn't fit your particular jurisdiction, modify it or develop your own.

Samples are provided for several required appendices including emergency proclamations and incident command system guidance. Note that these attachments are provided to give an understanding of what is required or assist you in developing your own appendices. They are not intended to be used as is.

The purpose of the standardized text is to make your job easier, but you are not required to use it if you don't want to and should not use it if it doesn't accurately describe your particular circumstances.

Standardized text was not provided for some parts of the checklist, primarily in the Situation and the Operations and Control sections, because the information called for differs too much from one jurisdiction to another. You must answer each of these items in narrative form and provide the required information. You will have fulfilled the EOP requirements by answering checklist items in this manner and utilizing the standardized text where applicable.

Standardized text was provided for all items in some sections and only some items in other sections. If you use the text as received, without retyping, make sure you don't miss an item on the checklist. This is particularly applicable to the Responsibilities section.

Follow the checklist and use it to ensure that each item is addressed. Consider the standardized text as an aid and not a total solution. The checklist is the primary planning document and every item on it must be addressed.

E. PROMULGATION STATEMENT

(enter jurisdiction) has prepared this Emergency Operations Plan which sets forth the general policies and procedures to be carried out by municipal and volunteer entities in order to provide the citizens of the jurisdiction with an effective integrated emergency response plan designed to minimize the loss of life and property during an emergency. All municipal departments assisted in the development of this plan along with the Emergency Management Council and the Office of Emergency Management.

I have approved this Emergency Operations Plan and hereby promulgate it as the authoritative document for emergency operations in this municipality.

DATE: (fill in date) Mayor (type in name & sign)
II. AUTHORITY

A. Laws, ordinance, regulations, resolutions and directives.

1. Federal
   b. The Natural Disaster Recovery Act, as amended (P.L. 91-606), 1969

2. State

   b. FEMA Guide For Review of State and Local Emergency Operations Plans, CPG 1-8A
   c. FEMA Disaster Operations, A Handbook for Local Government, CPG 1-6
   d. FEMA Guide for Increasing Local Government Civil Defense Readiness During Periods of International Crisis, CPG-1-7

2. State

3. County
   a. (list any guidance documents including other EOP's)

4. Municipal
   a. (list any guidance documents including other EOP's)

III. PURPOSE

A. The purpose of this Emergency Operations Plan is to protect life and property in emergencies by coordinating response activities of municipal and volunteer entities to ensure their optimum use. It provides for actions to be taken to mitigate, prepare for, respond to, and recover from the effects of an emergency.

B. This plan is an all hazards approach to emergency management and covers natural disasters, technological disasters, and national security crises.
IV. Situation

C. Relevant planning assumptions used to refine the planning process include the following:

1. There will most likely be some warning of an attack or nuclear detonation.

2. There may not be any warning prior to a tornado or earthquake but there should be some warning prior to most other natural disasters.

3. Major transportation disasters \( \text{(are/are not)} \) likely to happen in this jurisdiction.

4. Local industry \( \text{(does/does not)} \) present the possibility of a major industrial disaster.

5. The jurisdiction \( \text{(is/is not)} \) vulnerable to damage by a hurricane.

6. Mutual aid will be available from the contiguous municipalities.

V. Operations And Control

B. Phases of Emergency Management

1. Mitigation.

Mitigation activities are those that eliminate or reduce the probability of a disaster occurrence. Also included are those long-term activities that lessen the undesirable effects of unavoidable hazards. Some examples include the establishment of building codes, flood plain management, insurance, elevating buildings, and public education programs.

2. Preparedness.

Preparedness activities serve to develop the response capabilities needed in the event of an emergency. Planning, exercising, training and developing public information programs and warning systems are among the activities conducted under this phase.
3. Response.

Response activities include direction and control, warning, evacuation and emergency services and are designed to address immediate and short-term effects of the onset of an emergency or disaster. They help to reduce casualties and damage and to speed recovery.

4. Recovery.

Recovery includes both short term and long term activities. Short term operations seek to restore critical services to the community and provide for the basic needs of the public. Long term recovery focuses on restoring the community to its normal, or improved state of affairs. The recovery period is also an opportune time to institute mitigation measures, particularly those related to the recent emergency. Examples of recovery actions would be temporary housing and food, restoration of non-vital government services, and reconstruction of damaged areas.

VI. RESPONSIBILITIES

A. The Emergency Management Coordinator is responsible for implementing this plan and directing the emergency response.

B. A functional area responsibility matrix has been developed and is attached as Appendix BPA-3. This matrix shows the primary and support agencies responsible for each annex.

C. The major tasks assigned to each functional annex are listed in Appendix BPA-4.
D. For each of the annexes listed on the Responsibilities Matrix, (BPA -3) it shall be incumbent upon the responsible individual to prepare and distribute Standard Operating Procedures (SOP'S) and an Operational Checklist pertaining to their emergency management function.

VII Continuity of Government

A. There is a need for a line of succession to the office of the Mayor/Chief Executive Officer and the Emergency Management Coordinator to assure continuous leadership in an emergency and this line is as follows:

1. Mayor/Chief Executive Officer
   a. ____________________________
      (fill in title)
   b. ____________________________
   c. ____________________________
      (fill in title)

2. Emergency Management Coordinator
   a. ____________________________
      (fill in title)
   b. ____________________________
   c. ____________________________
      (fill in title)

B. The person responsible for each annex (emergency function) must establish a line of succession and ensure personnel in that function and the Emergency Management Coordinator are kept informed of that line of succession.

C. Reporting procedures to other levels of government during an emergency are as follows:
1. During times of emergency all department heads shall direct and coordinate all resource requests through the Municipal Office of Emergency Management. The Office of Emergency Management shall prioritize all municipal resource requests and direct them to the affected area. All resource requests that exceed municipal capability shall be directed to, and be coordinated by, the County Office of Emergency Management. The County Office of Emergency Management shall periodically advise the State Office of Emergency Management of all such requests. The State will request resources from the Federal Government or private agencies if required.

2. When the local Emergency Operating Center is activated the following agencies, depending on scope and severity, shall be notified:

   a. All municipal department heads
   b. Other agencies with emergency function responsibilities.
   c. County Office of Emergency Management
   d. State Office of Emergency Management

   Individual department heads are responsible for the protection and preservation of all vital records received or generated by or through their departments. These vital records will be stored in locked, fireproof files as specified by SOP _________________. Vital records are those non-replaceable records of the municipality for which there may be a future need and shall include but not be limited to:

   1. Tax Records
   2. Real Estate Maps and Records
   3. Birth Certificates
   4. Marriage Licenses
   5. Death Certificates
VIII. Administration and Logistics

A. Accurate detailed records of all actions taken in any emergency are essential for use in designing future improvements, training emergency personnel, and settling possible litigation. Therefore, each department head and/or person responsible for an emergency function will keep accurate detailed records of actions taken during an emergency and forward reports of these actions to the Emergency Management Coordinator. The Emergency Management Coordinator is responsible for records and reports received from or passed to the county or higher levels of government and for starting and maintaining a significant events log of the emergency.

B. Each Department head is responsible for maintaining records of their department's expenditures and for ensuring that these expenditure records are forwarded to the Municipal [fill in title] for processing. The Emergency Management Coordinator is responsible for the record of expenditures associated with the general operation of the Office of Emergency Management.

C. There are written and/or verbal mutual aid agreements with the following

1. [fill in name] municipality
2. [fill in name] municipality
3. [fill in name] municipality
4. [fill in name] municipality
5. [fill in name] municipality
6. [fill in name] municipality
5. [fill in name] County
6. Volunteer Organizations Active in Disasters (VOAD)
7. __________________ American Red Cross Chapter

(fill in name)

IX. Plan Development and Maintenance

A. The Emergency Management Coordinator in conjunction with the Emergency Management Council is responsible for the maintenance of this Plan and for ensuring that necessary changes and revisions to the Plan are prepared, coordinated, approved and distributed.

B. The Emergency Management Coordinator will ensure that the Basic Plan and all annexes are reviewed and updated annually based on deficiencies identified through drills and exercises.

   a. (fill in municipal authority if any)
B. References, guidance material and other documents.

1. Federal
   a. FEMA Outdoor Warning Systems Guide, CPG 1-17, 1980
   c. FEMA State and Local Communications and Warning Systems Engineering Guidance, CPG 1-37, 1984
   d. FEMA EMP Protection Guidance, CPG 2-18, 1985

2. State
   b. New Jersey Emergency Broadcast System Guidebook
   c. New Jersey Attack Warning Plan, 1988

3. County
   a. (fill in county references if any)

4. Municipal
   a. (fill in municipal references if any)

III. PURPOSE

A. The purpose of this Alerting, Warning and Communications Annex is to define and to provide guidance for the development and operation of a viable alert, warning and communications program during any emergency or disaster situation and to ensure completion of required emergency actions.
VI. RESPONSIBILITIES

A. The ______________________ is responsible for implementing this annex and directing the Alerting, Warning and Communications emergency response.

B. The following are the SOP'S that address how the Alerting, Warning and Communications functions will accomplish their emergency response: (If none, so state)

1. 
2. 
3. 

C. Mutual aid agreements for the Alerting, Warning and Communications functions are as follows: (If none, so state)

1. 
2. 
3. 

E. A test of the New Jersey Attack Warning System (without sirens) is authorized once each month by the State Director. These are originated at the State Warning Point via NAWAS and SPEN radio. Sirens will only be tested at noon on Saturday and will not exceed one minute duration. Under no circumstances will the "TAKE COVER" (a 3 to 5 minute wavering tone) or "ALERT" (a 3 to 5 minute steady tone) signal be sounded in these tests.

1. The following are the actions to be taken by the public upon hearing an actual warning signal.

   a. ATTACK OR ACCIDENTAL LAUNCH WARNING. The public should be advised to remain in whatever structure they may be in. People out of doors are to immediately proceed to the basement or center core of the nearest structure.

   b. ALERT. The public should listen for essential emergency information via radio, television and EBS if normal broadcasting is off of the air.
VII. CONTINUITY OF GOVERNMENT FOR ALERTING, WARNING AND COMMUNICATIONS

A. There is a need for a line of succession for the person responsible for the alerting, warning and communications functions in order to ensure continuous leadership, authority and responsibility. The Emergency Management Coordinator and the personnel working within these functions will be kept informed of the following line of succession:

1. (title of person responsible for the annex)

2. (title of person next in line)

3. (title of person next in line)

B. Essential records and logs will be protected and preserved in accordance with standing departmental orders. Records and logs pertaining to emergency operations will be forwarded to the Emergency Management Coordinator to ensure that a complete record of the emergency is available for post operation analysis and possible use in litigation.

VIII. ADMINISTRATION AND LOGISTICS

A. The (list person by title) is responsible for maintenance of all records and reports required for the alerting, warning and communications functions in an emergency.

B. The (list person by title) is responsible for records of expenditures for the alerting, warning and communications functions in an emergency.

C. The procedures for obtaining supplies and equipment during an emergency will be in accordance with standing departmental orders as outlined in the Resource Management Annex and in the following SOP(S):

1. ____________________________

2. ____________________________
The [title of responsible person] will coordinate with the Emergency Management Coordinator for all requests for supplies and equipment through mutual aid or from the county Office of Emergency Management.

IX. ANNEX DEVELOPMENT AND MAINTENANCE

A. The [list responsible person by title] is responsible for the maintenance of the Alerting, Warning and Communications Annex and for ensuring that necessary changes and revisions to the annex are prepared, coordinated, approved and distributed.

B. The [list responsible person by title] is responsible for review and updating of the Alerting, Warning and Communications Annex, SOP'S, and attachments based on deficiencies identified through drills, exercises and actual emergencies on an annual basis.

X. DEFINITIONS

A. The following terms and acronyms were used in addition to those defined in the Basic Plan.

1. [list any terms or acronyms used in this annex that were not defined in the Basic Plan]
XI. Appendices/Attachments

AWCA 1. List of key government and Emergency Management personnel with telephone numbers who require early notification. (On file)

AWCA 2. A Warning Flow Chart. (Attached)

AWCA 3. Area map of existing and projected outdoor warning devices and area coverage for each unit and a listing of all warning devices (sirens) by size, decibel rating, and address where located. (Attached)

AWCA 4. Warning device deficiencies and proposed schedule of correction. (Attached)

AWCA 5. Matrix that includes a list of frequencies that identifies which agencies have access to those frequencies. (Attached)

AWCA-6. Recall/Duty Roster. (On file)

III. PURPOSE

A. The purpose of this Emergency Public Information Annex is to define and to provide guidance for the development and operation of a viable emergency public information program during any emergency or disaster situation and to ensure completion of required emergency actions.

VI. RESPONSIBILITIES

A. The __________________________ is responsible for implementing this annex and directing the Emergency Public Information emergency response.

B. The __________________________ serves as the Public Information officer and is the official point of contact during an emergency.

C. The following are the SOP'S that address how the Emergency Public Information function will accomplish their emergency response: (If none, so state)

1.

2.

3.
D. Mutual aid agreements for the Emergency Public Information function are as follows: (If none, so state)

1. 

2. 

3. 

E. The ____________________________ is responsible for Emergency Public Information guidance materials (pamphlets, magazines, etc.) that are prepared based on hazards affecting the jurisdiction, and arranging for the dissemination of these materials to the media.

F. The ____________________________ is responsible for ensuring that Emergency Public Information material for visually-impaired and non-English speaking groups are available for dissemination.

VII. CONTINUITY OF GOVERNMENT FOR EMERGENCY PUBLIC INFORMATION

A. There is a need for a line of succession for the person responsible for the emergency public information functions in order to ensure continuous leadership, authority and responsibility. The Emergency Management Coordinator and the personnel working within this function will be kept informed of the following line of succession:

1. ____________________________ (title of person responsible for the annex)

2. ____________________________ (title of person next in line)

3. ____________________________ (title of person next in line)

B. Essential records and logs will be protected and preserved in accordance with standing departmental orders. Records and logs pertaining to emergency public information will be forwarded to the Emergency Management Coordinator to ensure that a complete record of the emergency is available for post operation analysis and possible use in litigation.
VIII. ADMINISTRATION AND LOGISTICS

A. The ___________________________ is responsible for
   (list person by title)
   maintenance of all records and reports required for the
   emergency public information functions in an emergency.

B. The ___________________________ is responsible for
   (list person by title)
   records of expenditures for the emergency public
   information functions in an emergency.

C. The procedures for obtaining supplies and equipment
   during an emergency will be in accordance with standing
   departmental orders as outlined in the Resource
   Management Annex and in the following SOP(S):

   1. ___________________________
   2. ___________________________

The ___________________________ will coordinate
   (title of responsible person)
   with the Emergency Management Coordinator for all
   requests for supplies and equipment through mutual aid
   or from the county Office of Emergency Management.

IX. ANNEX DEVELOPMENT AND MAINTENANCE

A. The ___________________________ is
   (list responsible person by title)
   responsible for the maintenance of the Emergency Public
   Information Annex and for ensuring that necessary
   changes and revisions to the annex are prepared,
   coordinated, approved and distributed.

B. The ___________________________ is
   (list responsible person by title)
   responsible for review and updating of the Emergency
   Public Information Annex, SOP'S, and attachments based
   on deficiencies identified through drills, exercises
   and actual emergencies on an annual basis.

A. The ____________________________ is responsible for (list person by title) implementing this annex and directing the Fire and Rescue emergency response.
B. The following are the SOP'S that address how the Fire and Rescue functions will accomplish their emergency response: (If none, so state)

1. 
2. 
3. 

C. Mutual aid agreements for the Fire and Rescue functions are as follows: (If none, so state)

1. 
2. 
3. 

D. The _____________________ is responsible for fire protection in emergency shelters.

VII. CONTINUITY OF GOVERNMENT FOR FIRE AND RESCUE

A. There is a need for a line of succession for the person responsible for the fire and rescue functions in order to ensure continuous leadership, authority and responsibility. The Emergency Management Coordinator and the personnel working within these functions will be kept informed of the following line of succession:

1. ________________________________ (title of person responsible for the annex)
2. ________________________________ (title of person next in line)
3. ________________________________ (title of person next in line)

B. Essential records and logs will be protected and preserved in accordance with standing departmental orders. Records and logs pertaining to fire and rescue will be forwarded to the Emergency Management Coordinator to ensure that a complete record of the emergency is available for post operation analysis and possible use in litigation.
VIII. ADMINISTRATION AND LOGISTICS

A. The __________________________ is responsible for maintenance of all records and reports required for the fire and rescue functions in an emergency.

B. The __________________________ is responsible for records of expenditures for the fire and rescue functions in an emergency.

C. The procedures for obtaining supplies and equipment during an emergency will be in accordance with standing departmental orders as outlined in the Resource Management Annex and in the following SOP(S):

1. __________________________
2. __________________________

The __________________________ will coordinate with the Emergency Management Coordinator for all requests for supplies and equipment through mutual aid or from the county Office of Emergency Management.

IX. ANNEX DEVELOPMENT AND MAINTENANCE

A. The __________________________ is responsible for the maintenance of the Fire & Rescue Annex and for ensuring that necessary changes and revisions to the annex are prepared, coordinated, approved and distributed.

B. The __________________________ is responsible for review and updating of the Fire & Rescue Annex, SOP'S, and attachments based on deficiencies identified through drills, exercises and actual emergencies on an annual basis.
STATE OF NEW JERSEY
FIRE AND RESCUE ANNEX
STANDARDIZED TEXT

X. DEFINITIONS

A. The following terms and acronyms were used in addition to those defined in the Basic Plan.

1. (list any terms or acronyms used in this annex that were not defined in the Basic Plan)

XI. APPENDICES/ATTACHMENTS

FRA 1 Fire Mutual Aid Agreements. (On file)
FRA 2 Recall/Duty Roster. (On file)
FRA 3 Fire SOP's. (On file)
FRA 4 Resource/Equipment List. (On file)
As stated in the beginning of this standardized text, it is of critical importance that you understand the purpose and limits of this guidance. Many jurisdictions will find that this information reflects common operational procedures used across the state. Nevertheless, it is provided as recommended way of addressing the items of the checklist ONLY IF IT ACCURATELY DESCRIBES YOUR OPERATION.

This is especially true for the Hazardous Materials Annex in that there are many areas of planning and response covered by special state and Federal laws, such as the NJ County Environmental Health Act, Title-III of the Federal Superfund Amendments and Reauthorization Act, and OSHA 29-CFR-1910.120. Your EOP must describe activities as they really happen in your jurisdiction, so make sure the standard text says it right before using it!

Note also that you have been provided with information that should be used in Appendix 4 of this Annex. Be aware, however, that these two items address only part of what is required for the Appendix. As with all other areas throughout the EOP you must complete the remaining requirements in this and the other checklists.

Should you have any questions on the checklist or the standardized text for the Hazardous Materials Annex do not hesitate to contact your NJOEM regional office or the NJOEM Hazardous Materials Emergency Response Planning Unit at State Police Division Headquarters (609) 882-2000, ext. 2945.
I. INTRODUCTION

Statement of approval:

The Hazardous Materials Annex of the (enter jurisdiction name) Emergency Operations Plan meets the approval of the Emergency Management Coordinator and the (title of person/agency responsible for annex) and is hereby approved. This Annex supersedes any previously written Hazardous Materials Annexes.

Approval date:

(fill in date) Police Dept Representative (fill in name and sign)

(fill in date) Fire Dept Representative (fill in name and sign)

(fill in date) EMS Representative (fill in name and sign)

(fill in date) Emergency Management Coordinator (fill in name and sign)

II. AUTHORITIES AND REFERENCES

A. Laws, ordinances, regulations, resolutions and directives.

1. Federal

2. State
   b. N.J.S.A. 26:3A2-21, County Environmental Health Act.
   c. Other state statutes and directives as listed in "New Jersey Laws Applicable to Hazardous Materials Response and Planning", NJOEM.

3. County

   c. Standardized Hazardous Materials Training Comes to New Jersey, NJOEM.
   d. Guidelines for Public Evacuation, NJOEM.
   e. Preparing a Traffic Diversion Capability, NJOEM.

3. County
   a. (fill in county references if any)

4. Municipal
   a. (fill in municipal references if any)
III. PURPOSE

A. The purpose of the Hazardous Materials Annex is to define and to provide guidance for the development and operation of a viable hazardous materials program during any emergency or disaster situation and to ensure completion of required emergency actions.

V. OPERATIONS AND CONTROL

A. Heightened risk actions.

4. According to NFPA Standard 471, emergency responders are to utilize a system for classifying incidents. As outlined in the New Jersey Hazardous Materials Emergency Response Course, this classification scheme is broken down into three categories which are based on the three levels of response function. Level-I incidents involve minor situations requiring only defensive actions. Level-II incidents often require only defensive actions, but may involve some offensive response. Level-III incidents require more involved defensive and offensive actions, and will most likely involve considerations such as public exposure and/or evacuation. A full layout of the classification scheme is provided in chart form is provided in HMA-4.

6. It is impossible to predict the proper response to all hazardous materials incidents in advance of an actual occurrence. In most cases, however, the response will be directed through a command post operation. For situations requiring large scale evacuation and multiagency coordination the EOC will also be activated. This decision will be made by the Incident Commander in consultation with the emergency management coordinator and any department heads present on-scene. In either case, the command post operation will remain as the primary point for direction and control.
7. As required by OSHA Law 29-CFR-1910.120, the Incident Command System (ICS) is used for directing the response phase to hazardous materials emergencies. There are five functional areas under the ICS, including command, planning, operations, logistics, and finance. In virtually all situations, the ______________ will be designated as the Incident Commander. Depending on the severity of the situation, the Incident Commander may delegate the responsibility for the remaining four functions of the ICS to the appropriate department heads on-scene. These subcommanders will report directly to the Incident Commander and will be in command of each of their delegated functions. An expanded description of the five functional areas of the ICS is provided in HMA-4.

B. The following table has been prepared as a planning tool to provide emergency responders with a rough idea of how long it will take to muster the necessary support for hazardous materials response.

From the chart it is important for the first responders to be aware that there may be substantial time lag before assistance from the __________________ may arrive to perform __________________ advanced or offensive response actions. Procedures will be implemented to notify and activate these agencies as soon as it is determined that their assistance will be needed.
VI. RESPONSIBILITIES

A. The _____________________________ is responsible for implementing this Annex. The Incident Commander will be designated from the _____________________________ and will be responsible for directing the hazardous materials emergency response.

B. The following are the SOPs that address how the hazardous materials functions will be accomplished: (If none, so state)

1. Initial Contact Message Procedures.
2. Incident Classification Scheme.
3. Incident Command System.
4. 
5. 

Further details on these SOPs are provide in HMA-4.

C. Agreements for the hazardous materials function are as follows: (If none, so state)

1. County response services (under a County Environmental Health Act agreement with the NJDEP).
2. _____________________________ HazMat Response Team Services.
3. 
4. 

Further details on these agreements are provided in HMA-6.

E. If it is determined that due to incident conditions it is possible that emergency responders may be exposed to a hazardous substance, the Incident Commander will assure that self-contained breathing apparatuses are worn.

F. The Incident Commander will assure that personal protective equipment (PPE) will be worn only by trained qualified emergency responders and will be done in accordance with OSHA Law and established procedures.

G. For incidents requiring the establishment of site control measures, the Incident Commander will limit and control the number of responders entering the "hot zone".

H. If a hazardous materials response team is undertaking offensive actions in order to mitigate an incident, the Incident Commander will assure that responders follow the "buddy system" by working in groups of two or more.
I. The ________ will provide basic life support services as required. The ________ will provide advanced life support services as required.

J. The ________ will be responsible for coordinating safety monitoring and decontamination as required.

K. Arrangements have been made with ________ receiving and treating citizens and/or emergency responders injured and/or contaminated as a result a hazardous materials incident.

L. The ________ will be responsible for maintaining safety zones, providing site security and traffic control. The ________ will be responsible for providing places of refuge for both emergency workers and the public.

M. The ________ will be responsible for providing and maintaining exposure records for responders. At this time ________ has no personnel trained as "team" members or specialists, however, any responder exhibiting symptoms of overexposure shall receive immediate medical attention and follow-up medical surveillance.

N. Individual departments will be responsible for the maintenance and calibration of response equipment according to established procedures which follow manufacturers and NFPA recommended practices.

O. The ________ will be responsible for establishing and coordinating a hazardous materials public information and education program. All information which must be made available to the public will be on file at the ________.
VII. CONTINUITY OF GOVERNMENT FOR HAZARDOUS MATERIALS

A. There is a need for a line of succession for the person responsible for hazardous materials response functions in order to ensure continuous leadership, authority and responsibility. This procedure will be consistent with the structure to be used under the Incident Command System.

Therefore, even though individual lines of succession exist for each department, a separate line of succession for hazardous materials response will also be established. The Emergency Management Coordinator and the personnel working within this function will be kept informed of the following line of succession:

1. (title of hazardous materials Incident Commander)

2. (title of person next in line)

3. (title of person next in line)

B. Essential records and logs will be protected and preserved in accordance with standing departmental orders. Copies of records and logs pertaining to hazardous materials emergency operations will be forwarded to the Emergency Management Coordinator to ensure that a complete record of the hazardous materials incident response is available for post operation analysis and possible use in litigation.

VIII. ADMINISTRATION AND LOGISTICS

A. The ____________________________ is responsible for the maintenance of all records and reports required for the hazardous materials functions in an emergency. In addition, current files will be maintained on all Right-To-Know, SARA, and TCPA facilities in this jurisdiction. Emergency Response Reference Guides will be kept at the ____________________________ for use during emergencies.

B. The ____________________________ is responsible for records of expenditures for the hazardous materials functions in an emergency. Accurate recordkeeping is of paramount importance if any future claims are made against a responsible party. This activity will be coordinated with the NJDEP regional responder in accordance with established procedures.
C. The procedures for obtaining supplies and equipment during an emergency will be in accordance with the Resource Management Annex and the following SOP(s).

1. ____________________

2. ____________________.

The ____________________ will coordinate with the Emergency Management Coordinator for all requests for supplies and equipment through agreement with neighboring jurisdictions, industry or from the county Office of Emergency Management. (See HMA-5, HMA-6 and RMA-8)

IX. ANNEX DEVELOPMENT AND MAINTENANCE

A. The ____________________ is responsible for the maintenance of the Hazardous Materials Annex and for ensuring that necessary changes and revisions to the Annex are prepared, coordinated, approved and distributed to all agencies participating in hazardous materials planning and response.

B. The ____________________ is responsible for review and updating of the Hazardous Materials Annex, SOPs and attachments based on changes or additions to existing hazardous materials laws or directives, and deficiencies identified through drills, exercises and actual emergencies on an annual basis. It is important to note that exercising of the EOP is also required by SARA Title-III, Section 303.
X. DEFINITIONS

The following terms and acronyms were used in addition to those defined in the Basic Plan.

1. CEHA - N.J. County Environmental Health Act
2. ICS - Incident Command System
3. NFPA - National Fire Protection Association
4. NIOSH - National Institute for Occupational Safety and Health
5. NJDEP - N.J. Department of Environmental Protection
6. NJDOH - N.J. Department of Health
7. NRC - National Response Center
8. OSHA - U.S. Occupational Safety and Health Administration
9. PPE - Personal Protective Equipment
10. RTK - Right-To-Know
11. SARA - U.S. Superfund Amendments and Reauthorization Act
12. SCBA - Self Contained Breathing Apparatus
13. TCPA - N.J. Toxic Catastrophe Prevention Act
14. USCG - U.S. Coast Guard
15. USDOT - U.S. Department of Transportation
16. USEPA - U.S. Environmental Protection Agency

**Using the Deciding Conditions**—First look at *Product Hazard* to determine the level. If you then determine an incident level of less than three then look at *Life Safety* to help decide if you should upgrade the level.

**Using the Contributing Factors**—If less than level three is defined by the Deciding Conditions then all of the Contributing Factors should be considered to define an incident level.
Although many systems exist throughout the nation for the command and control of resources at emergency incidents, the National Fire Academy has adopted the Incident Command System (ICS) as its base for teaching the concepts of incident command. The ICS is recognized by the Academy as a system that is documented and has been successfully used in managing available resources at emergency operations.

The system consists of procedures for controlling personnel, facilities, equipment, and communications.

It is designed to begin developing from the time an incident occurs until the requirement for management and operations no longer exists. The "Incident Commander" is a title which can apply equally to an engine company captain, or the chief of a police department, depending upon the situation. The structure of the ICS can be established and expanded depending upon the changing conditions of the incident. It is intended to be staffed and operated by qualified personnel from any emergency services agency and may involve personnel from a variety of agencies.

As such, the system can be utilized for any type or size of emergency, ranging from a minor incident involving a single unit, to major emergency involving several agencies. The ICS allows agencies to communicate using common terminology and operating procedures. It also allows for the timely combining of resources during an emergency.

The ICS is designed to be used in response to emergencies caused by fires, floods, earthquakes, hurricanes, riots, hazardous materials, or other natural or human-caused incidents.

INCIDENT COMMAND SYSTEM FUNCTIONS

A brief explanation of the five major functional areas of the ICS are as follows:

COMMAND

The command function manages the incident including establishing strategic goals, and ordering and releasing resources in the form of personnel and equipment. Command also has responsibility for the other four functions until and if they are delegated.

OPERATIONS

The operations function directs all incident tactical resources to accomplish the goals and objectives developed by command. Operations assures that the personnel and equipment at the scene are used to perform effective mitigation.

PLANNING

Planning is responsible for the collection and evaluation of information important to the incident. This then leads to the development of an action plan. Planning is ongoing.

LOGISTICS

The logistics function provides the services and supplies needed to support the tactical operations. It may be a simple function such as arranging for refueling of vehicles or as complicated as feeding hundreds of people.

FINANCE

Finance includes activities such as purchasing, renting equipment deemed necessary on-site, and keeping records on overtime for complex larger operations.
I. INTRODUCTION

A. Statement of approval:

The Law Enforcement Annex of the (enter jurisdiction name) Emergency Operations Plan meets the approval of the Emergency Management Coordinator and the (enter title of person responsible for annex) hereby approved. This annex supersedes any previously written Law Enforcement Annexes.

Approval date: 

(fill in date) __________________________ Person Responsible  

(fill in name and sign)  

Emergency Management Coordinator  

(fill in name and sign)  

II. AUTHORITY AND REFERENCES

A. Laws, ordinances, regulations, resolutions and directives.

1. Federal

2. State

a. OEM Directive No. 38, Governor's Proclamation on Auxiliary Police Powers

b. N.J.S.A. Title 40A, Municipalities & Counties
3. County

III. PURPOSE

A. The purpose of this Law Enforcement Annex is to define and to provide guidance for the development and operation of a viable law enforcement program during any emergency or disaster situation and to ensure completion or required emergency actions.

VI. RESPONSIBILITIES

A. The ________________________ is responsible for
   (list person by title)
   implementing this annex and directing the Law Enforcement emergency response.
B. The following are the SOP'S that address how the Law Enforcement function will accomplish their emergency response: (If none, so state)

1.
2.
3.

C. Mutual aid agreements for the Law Enforcement function are as follows: (If none, so state)

1.
2.
3.

D. The ___________________________ is responsible for providing security at critical facilities, reception centers, lodging and feeding facilities, and emergency shelters.

VII. CONTINUITY OF GOVERNMENT FOR LAW ENFORCEMENT

A. There is a need for a line of succession for the person responsible for the law enforcement functions in order to ensure continuous leadership, authority and responsibility. The Emergency Management Coordinator and the personnel working within these functions will be kept informed of the following line of succession:

1. ___________________________ (title of person responsible for the annex)
2. ___________________________ (title of person next in line)
3. ___________________________ (title of person next in line)

B. Essential records and logs will be protected and preserved in accordance with standing departmental orders. Records and logs pertaining to law enforcement will be forwarded to the Emergency Management Coordinator to ensure that a complete record of the emergency is available for post operation analysis and possible use in litigation.
VIII. ADMINISTRATION AND LOGISTICS

A. The ____________________________ is responsible for (list person by title) maintenance of all records and reports required for the law enforcement functions in an emergency.

B. The ____________________________ is responsible for (list person by title) records of expenditures for the law enforcement functions in an emergency.

C. The procedures for obtaining supplies and equipment during an emergency will be in accordance with standing departmental orders as outlined in the Resource Management Annex and in the following SOP(S):

1. ____________________________
2. ____________________________.

The ____________________________ will coordinate (title of responsible person) with the Emergency Management Coordinator for all requests for supplies and equipment through mutual aid or from the county Office of Emergency Management.

IX. ANNEX DEVELOPMENT AND MAINTENANCE

A. The ____________________________ is (list responsible person by title) responsible for the maintenance of the Law Enforcement and for ensuring that necessary changes and revisions to the annex are prepared, coordinated, approved and distributed.

B. The ____________________________ is (list responsible person by title) responsible for review and updating of the Law Enforcement Annex, SOP'S, and attachments based on deficiencies identified through drills, exercises and actual emergencies on an annual basis.
X. DEFINITIONS

III. PURPOSE

A. The purpose of this Public Works Annex is to define and to provide guidance for the development and operation of a viable public works program during any emergency or disaster situation and to ensure completion of required emergency actions.

VI. RESPONSIBILITIES

A. The ___________________________ is responsible for implementing this annex and directing the Public Works emergency response.

B. The following are the SOP'S that address how the Public Works function will accomplish their emergency response: (If none, so state)

1.

2.

3.

C. Mutual aid agreements for the Public Works function are as follows: (If none, so state)

1.

2.

3.
D. The __________________________ is responsible for preparing and maintaining a resource list that identifies source, location and availability of earth-moving equipment, dump trucks, road graders, fuel, etc., for use in disaster response/recovery operations.

E. The __________________________ is responsible for coordinating the repair and restoration of essential services and vital facilities.

F. The __________________________ is responsible for the arrangement of the restoration of utilities to essential facilities.

G. The __________________________ is responsible for maintaining sanitation services during an emergency.

VII. CONTINUITY OF GOVERNMENT FOR PUBLIC WORKS

A. There is a need for a line of succession for the person responsible for the public works functions in order to ensure continuous leadership, authority and responsibility. The Emergency Management Coordinator and the personnel working within this function will be kept informed of the following line of succession:

1. __________________________ (title of person responsible for the annex)

2. __________________________ (title of person next in line)

3. __________________________ (title of person next in line)

B. Essential records and logs will be protected and preserved in accordance with standing departmental orders. Records and logs pertaining to public works will be forwarded to the Emergency Management Coordinator to ensure that a complete record of the emergency is available for post operation analysis and possible use in litigation.
VIII. ADMINISTRATION AND LOGISTICS

A. The ____________________________ is responsible for maintenance of all records and reports required for the public works functions in an emergency.

B. The ____________________________ is responsible for records of expenditures for the public works functions in an emergency.

C. The procedures for obtaining supplies and equipment during an emergency will be in accordance with standing departmental orders as outlined in the Resource Management Annex and in the following SOP(S):

1. ____________________________
2. ____________________________

The ____________________________ will coordinate with the Emergency Management Coordinator for all requests for supplies and equipment through mutual aid or from the county Office of Emergency Management.

IX. ANNEX DEVELOPMENT AND MAINTENANCE

A. The ____________________________ is responsible for the maintenance of the Public Works Annex and for ensuring that necessary changes and revisions to the annex are prepared, coordinated, approved and distributed.

B. The ____________________________ is responsible for review and updating of the Public Works Annex, SOP'S, and attachments based on deficiencies identified through drills, exercises and actual emergencies on an annual basis.
X. DEFINITIONS

A. The following terms and acronyms were used in addition to those defined in the Basic Plan.

1. (list any terms or acronyms used in this annex that were not defined in the Basic Plan)

III. PURPOSE

   A. The purpose of this Radiological Protection Annex is to define and to provide guidance for the development and operation of a viable radiological protection program during any emergency or disaster situation and to ensure completion of required emergency actions.

VI. RESPONSIBILITIES

   A. The ___________________________ is responsible for (list person by title)
      implementing this annex and directing the Radiological Protection response.
B. The following are the SOP's that address how the Radiological Protection function will accomplish their emergency response: (If none, so state)

1.

2.

3.

C. Mutual aid agreements for the Radiological Protection function are as follows: (If none, so state)

1.

2.

3.

D. The ____________________ is responsible for (list person by title) ensuring that all emergency support services, vital facilities, and essential industries have trained radiological protection personnel (radiological response team personnel and radiological monitors).

E. The ____________________ is responsible for (list person by title) providing appropriate protective equipment, instruments, antidotes and clothing to perform assigned tasks in a hazardous chemical or radiological environment and identifying medical facilities with decontamination and evaluation capabilities.

F. The ____________________ is responsible for (list person by title) ensuring that radiological monitors are available to provide data to the EOC.

G. The ____________________ is responsible for (list person by title) providing the crisis training of radiological monitors for all public fallout shelters planned for use.

H. The ____________________ is responsible for (list person by title) the radiological training of the jurisdiction's field forces, maintaining equipment for radiation hazard evaluation and exposure control and maintaining dose records for emergency workers and ensuring that dosimeters are read and reported at appropriate frequencies.
VII. CONTINUITY OF GOVERNMENT FOR RADIOLOGICAL PROTECTION

A. There is a need for a line of succession for the person responsible for the radiological protection functions in order to ensure continuous leadership, authority and responsibility. The Emergency Management Coordinator and the personnel working within this function will be kept informed of the following line of succession:

1. (title of person responsible for the annex)

2. (title of person next in line)

3. (title of person next in line)

B. Essential records and logs will be protected and preserved in accordance with standing departmental orders. Records and logs pertaining to radiological protection will be forwarded to the Emergency Management Coordinator to ensure that a complete record of the emergency is available for post operation analysis and possible use in litigation.

VIII. ADMINISTRATION AND LOGISTICS

A. The (list person by title) is responsible for maintenance of all records and reports required for the radiological protection functions in an emergency.

B. The (list person by title) is responsible for records of expenditures for the radiological protection functions in an emergency.
C. The procedures for obtaining supplies and equipment during an emergency will be in accordance with standing departmental orders as outlined in the Resource Management Annex and in the following SOP(S):

1. 

2. 

The (title of responsible person) will coordinate with the Emergency Management Coordinator for all requests for supplies and equipment through mutual aid or from the county Office of Emergency Management.

IX. ANNEX DEVELOPMENT AND MAINTENANCE

A. The (list responsible person by title) is responsible for the maintenance of the Radiological Protection Annex and for ensuring that necessary changes and revisions to the annex are prepared, coordinated, approved and distributed.

B. The (list responsible person by title) is responsible for review and updating of the Radiological Protection Annex, SOP'S, and attachments based on deficiencies identified through drills, exercises and actual emergencies on an annual basis.

X. DEFINITIONS

A. The following terms and acronyms were used in addition to those defined in the Basic Plan.

1. (list any terms or acronyms used in this annex that were not defined in the Basic Plan)

XI. APPENDICES/ATTACHMENTS

RPA 1 Municipal Radiological Increased Readiness Actions (On file)

RPA 2 Recall/Duty Roster (On file)

RPA 3 Resource/Equipment List (On file)
Municipal Increased Readiness Actions for Radiological Defense
Annex (RADEF)

I.

1. The primary mission of the Radiological Defense System is to provide the individual citizen and government officials the knowledge and skill to:
   a. (1) Survive a nuclear attack; (2) Facilitate recovery efforts on behalf of the County's civilian population.
   b. The secondary mission of Raef is to provide support as appropriate for emergency response to peacetime accidents.

3. The Division of State Police, Office of Emergency Management is the Headquarters for Radiological Defense for the State of New Jersey and its political subdivision.

4. The County Office of Emergency Management under the County Coordinator and Radiological Defense Officer are responsible for implementing Radiological Defense policy within their County operations. They are also responsible for assisting the municipal level of government, within their County, with Radef training and equipment.

5. The municipal Office of Emergency Management under the coordinator and Radef Staff, is responsible for transforming Radef Guidance into plans and operations. The Municipal level of OEM is responsible for transforming Radef Guidance into plans and operations. It is the level of OEM that operates shelters and emergency services (police, fire, first aid) functions.

II. RADIOLOGICAL OPERATIONS (TIME PHASE)

1. Pre-Emergency - Normal Operations Preparedness is the objective of Radef in this time phase. The Radef system must be operational and prepared to fulfill the objectives of Radef; therefore:
   A. The Radiological Defense Officer (RDO) and the Radef must be trained and operating. (See Appendix 1)
B. Fallout, shelters must be identified and provisions for Radiological Monitoring within the shelters must be provided for. (See Appendix 2)

C. Self Protection of Emergency Services (Police, fire, first aid), vital facilities and essential industries must be identified for equipment needs as outlined in Radiological Defense Circular 6-3.

Decontamination guidance is provided with the latter document.

D. Provision for Population Protection Planning should be developed at this phase and placed in the appropriate annex. The type of radiological Operation will depend on whether or not the Population Protection Option is exercised.

2. INCREASED READINESS PHASE (PRE ATTACK)

The objective for Rade in this phase is improved capability. The Complete Radiological Defense Unit must be assigned, trained and deployed. Therefore:

A. Accelerated training must begin for all Radiological Monitoring teams, Shelter Monitors, Self Protection teams and Rade EOC teams are to be trained and staffed in accordance with CPG 1-30.

B. Instruments will be distributed for bulk repositories to pre designated units according to Municipal Rade SOP’s.

C. A daily communication’s drill will be held between the Municipal and EOC and its Rade elements as well as the Municipal EOC and County Rade. All times for recording will be in local time format.

D. If the Population Protection Option is exercised, Municipal Radiological Operations will be adjusted accordingly.
3. **EMERGENCY PHASE (ATTACK PHASE)**

The objective of RADEF in this time phase is survival. Casualties must be kept to a minimum. The primary hazard is gamma radiation. No unshielded operations are possible unless casualties are willing to be accepted. The primary countermeasure is sheltering.

The Emergency Phase begins when the warning is sounded that an attack is imminent and lasts until radiation levels after the attack has decreased to allow short term operations or until the emergency phase is cancelled. In the event of attack the RDO and his staff must provide guidance pertaining to radiation to all elements of municipal government. The RADEF staff must:

1. Direct Shelter Operations
2. Consider Remedial Movement of Shelters, if practical.
3. Implement Exposure Control
4. Provide Decontamination Guidance as needed. (See Appendix 7)

4. **RECOVERY PHASE (POST ATTACK PHASE)**

This phase is a two level phase. The first level is for the operational recovery of essential services (telephone service, power stations, water works, police, fire, etc.).

The primary hazard is gamma radiation, limited recovery can begin under the guidance of the RDO staff. Decontamination is the primary objective of the first level of recovery.

The following countermeasures will be used to achieve the first level of recovery:

1. Decontamination Procedures
2. Shelter Operations
3. Remedial Movement Option
4. Exposure Control
5. Contamination Control

The first level of recovery may take many months.

The second level of recovery is the Final Recovery which has as its objective the normal operation of government and business.

The primary hazard present may be Beta radiation. All decontamination procedures are in effect but the primary emphasis of the RADEF staff is contamination.
control. These practices would continue until the State Office of Emergency Management orders them stopped.

III. PEACETIME NUCLEAR INCIDENTS

Radiological Defense units are not to respond to peacetime nuclear incidents. Special training is available to RADEF units for response to peacetime accident. These units MUST be trained by the NJSP OEM and NJ Department of Environmental Protection (DEP). All peacetime incidents are to reported at once to the New Jersey State Police Emergency Operations Center. Telephone 609-882-4201. This is a 24 hour number.
I. INTRODUCTION

A. Statement of approval:

The Resource Management Annex of the (enter jurisdiction name) Emergency Operations Plan meets the approval of the Emergency Management Coordinator and the (enter title of person responsible for annex) hereby approved. This annex supersedes any previously written Resource Management Annexes.

Approval date: (fill in date) Person Responsible (fill in name and sign)

II. AUTHORITY AND REFERENCES

A. Laws, ordinances, regulations, resolutions and directives.

1. Federal
   a. As cited in the Basic Plan

2. State
   a. As cited in the Basic Plan

3. County
   a. (fill in county authority if any)
III. PURPOSE

A. The purpose of this Resource Management Annex is to define and to provide guidance for the development and operation of a viable resource management program during any emergency or disaster situation and to ensure completion of required emergency actions.

VI. RESPONSIBILITIES

A. The ________________________ is responsible for (list person by title) implementing this annex and directing the Resource Management emergency response.

B. The following are the SOP'S that address how the Resource Management function will accomplish their emergency response: (If none, so state)

1.

2.

3.
C. Mutual aid agreements for the Resource Management function are as follows: (If none, so state)

1. 
2. 
3. 

D. The ___________________________ is responsible for ___________________________.

E. The ___________________________ is responsible for ___________________________.

F. The ___________________________ is responsible for ___________________________.

G. The ___________________________ is responsible for ___________________________.

VII. CONTINUITY OF GOVERNMENT FOR RESOURCE MANAGEMENT

A. There is a need for a line of succession for the person responsible for the resource management functions in order to ensure continuous leadership, authority and responsibility. The Emergency Management Coordinator and the personnel working within this function will be kept informed of the following line of succession:

1. ___________________________ (title of person responsible for the annex)
2. ___________________________ (title of person next in line)
3. ___________________________ (title of person next in line)
B. Essential records and logs will be protected and preserved in accordance with standing departmental orders. Records and logs pertaining to resource management will be forwarded to the Emergency Management Coordinator to ensure that a complete record of the emergency is available for post operation analysis and possible use in litigation.

VIII. ADMINISTRATION AND LOGISTICS

A. The ________________________________ is responsible for maintenance of all records and reports required for the resource management functions in an emergency.

B. The ________________________________ is responsible for records of expenditures for the resource management functions in an emergency.

C. The procedures for obtaining supplies and equipment during an emergency will be in accordance with standing departmental orders as outlined in the this Annex and in the following SOP(S):

1. ________________________________
2. ________________________________.

The ________________________________ will coordinate with the Emergency Management Coordinator for all requests for supplies and equipment through mutual aid or from the county Office of Emergency Management.

IX. ANNEX DEVELOPMENT AND MAINTENANCE

A. The ________________________________ is responsible for the maintenance of the Resource Management Annex and for ensuring that necessary changes and revisions to the annex are prepared, coordinated, approved and distributed.
B. The ______________________ is
(list responsible person by title)
responsible for review and updating of the Resource
Management Annex, SOP's, and attachments based on
deficiencies identified through drills, exercises and
actual emergencies on an annual basis.
