# Quarterly News Notes

## INMATE GUILTY IN TAYLOR MURDER CONSPIRACY

On Nov. 22, a McLean County jury convicted Pontiac CC inmate David Carter of three counts of first degree murder for planning the 1987 murder of Prison Superintendent Robert L. Taylor. Carter also was found guilty of one count of solicitation of murder and two counts of conspiracy.

This is a precedent-setting case in that the department was successful for the first time in prosecuting an inmate identified as ordering that an employee be murdered. Techniques used in the investigation of this case were appealed to the U.S. Supreme Court and were upheld.

Inmates Ike Easley and Roosevelt Lucas were previously sentenced to death for Taylor's September, 1987, murder. A fourth inmate, Michael Johnson, goes on trial for conspiracy in Taylor's death in January. □

## DELINQUENCY PREVENTION EFFORT BEGINS

Director Howard A. Peters III announced a move to help delinquency prevention organizations by initially involving the agency in projects benefitting youth in the Springfield area. Staff and inmate work crews from several facilities have been involved in building repair at the local Boys and Girls Clubs and helping out at holiday festivities. This is part of an organized effort to involve staff, and the agency as a whole, in community volunteer work and delinquency prevention projects. □

## HEALTH CARE OPERATIONS ACCREDITED

The ambulatory health care facilities at Danville, Shawnee, Western Illinois, Centralia and Hill Correctional Centers were all recently accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO).

Danville CC was the first prison health care unit in the nation to be accredited by JCAHO in 1988. Shawnee CC and Centralia CC were awarded accreditation with commendation by JCAHO. Shawnee's health care unit is the first prison health care unit in the nation to receive accreditation with commendation. The commendations place Centralia and Shawnee in the top quarter of all ambulatory health care facilities in the United States, not just prison health care units. □

## INMATES BEGIN EAST ST. LOUIS RECYCLING PROJECT

Beginning Oct. 2, Illinois prison inmates began recycling as many as one million discarded tires in the City of East St. Louis. Inmates, under the direction of Illinois Correctional Industries personnel, grade and sort discarded tires. The tires will then be recapped for additional use by Industries, or shredded and burned in coal burning power plants by Archer Daniels Midland Company and Monsanto.

"This is an excellent opportunity for inmates to begin to repay society for some of the costs of their incarceration," said Director Howard A. Peters III. "This tire collection program will help eliminate an eyesore in East St. Louis as well as address a pressing public health issue." □

## KANKAKEE MINIMUM SECURITY UNIT OPENS

The new female minimum security unit at Kankakee opened Nov. 1 with 10 inmates and 28 staff, becoming the second all-female prison in Illinois. The minimum security unit has been established in what was formerly the Illinois Youth Center-Kankakee which closed in July due to budget cuts. The minimum security unit was established to help relieve crowding at Dwight Correctional Center. It will serve as a satellite facility to the Dwight prison, sharing some of Dwight's support services such as health care.

The facility will initially house 100 female inmates. However, after some infrastructure work and the addition of a new housing unit, the center will accommodate 200 women. □

# Quarterly Report to the Illinois General Assembly Illinois Department of Corrections January 1, 1992

## Honorable Members of the General Assembly State House Springfield, Illinois

Tight fiscal times are the biggest concern for state government, and the Department of Corrections, as we begin the third quarter of FY1992. We have begun a comprehensive analysis of cost-cutting scenarios for the entire range of Corrections operations. I have organized a study group of staff members from across the state to look at our spending in light of the tight financial situation facing state government in the coming year. Our goals will continue to focus on providing the taxpayers of Illinois with a prison system capable of dealing with an increasing inmate population.

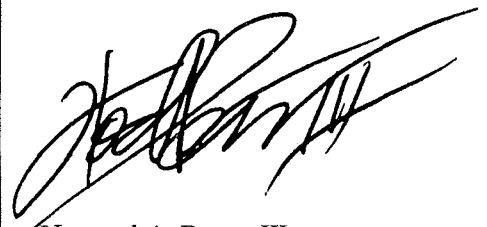

During the spring legislative session, the prospect of dealing with another 1,600 or more additional inmates in FY1993 will require our attention. With 1,700 new prison beds ready or near completion at one new prison and four new work camps, the space may be available. However, the funding to operate these much needed facilities is a question we must address.

We will continue to provide members of the General Assembly with the important information necessary to create effective public policy for Illinois' criminal justice system.

The value of our Impact Incarceration Program at Dix Correctional Center, alternative sentencing proposals and other programs and ideas on effective use of tax dollars in our mission to protect the public are topics I look forward to engaging in the new year. I look forward to any initiatives from the General Assembly in which the Department of Corrections may offer assistance.

I welcome your comments and analysis on this quarterly report.

Sincerely,

Howard A. Peters III  
Director  
Illinois Department of Corrections

# Adult Facilities

## Number of Residents in All Adult Institutions

Facility	Number of Residents November 27, 1991

**Adult Population Projection Monitoring**  
**End of Month Population**  
**Projections Based on Fiscal Year 1991 Data**

FY 92	Actual Population	Population Projection	Actual over/under the Projection	Percent of Actual over/under Projected
JUL 91	28,742	28,641	101	0.35%
AUG 91	28,676	28,662	14	0.05%
SEP 91	28,655	28,668	-13	-0.05%
OCT 91	28,981	28,659	322	1.11%
NOV 91	29,049	28,794	255	0.88%

**Projected Adult Prison Population for each of the Succeeding Twelve Months  
Following each Reporting Date, Indicating All Assumptions  
Built into such Population Estimates**

Date	Projections based on Fiscal Year 1991 Data
January 1992	29,330
February 1992	29,443
March 1992	29,664
April 1992	29,948
May 1992	30,360
June 1992	30,603
July 1992	30,768
August 1992	31,050
September 1992	31,112
October 1992	31,181
November 1992	31,349
December 1992	31,451

These population projections reflect Department's efforts to improve upon its methodology to project prison population using a simulation tool that reflects policy changes. Conceptually, the model is designed around the movement of individuals through the prison system. The data reflect fiscal year 1991 experiences. The underlying assumptions are:

1. New felony admissions were increased by 5% for FY 92 through FY 95 and 4% for the balance.
2. Defaulter admissions (technical violations and new offense violations) were based on the probability (violation rate) that 16% of all inmates on supervision will violate supervision and be returned to prison.
3. Admissions were seasonally adjusted based on the past four years average percentage distribution by month and the number of delivery days in each month for 1992.
4. Class of crime distributions were based on actual distributions of admissions by class of crime for fiscal year 1991 as reported in OTS.
5. Sentence estimates for new admissions were based on the fiscal year 1991 actual distribution of sentence lengths by class of crime. These data were obtained from OTS.
6. All inmates will receive all their day-for-day good time.
7. For new admissions, there is a probability that 21% will have some good time revoked and 71% will have some time restored, while 64% will have all time restored. This is based on a recent change in policy.
8. Jail credits and probation credits were based on actual admission distribution of fiscal year 1991 OTS data by class of crime.
9. An average of 130 days of MGT per inmate will be awarded.
10. Projected exits for inmates in the current population as of June 30, 1991, were based on the sentence calculation module of OTS. For those with indeterminate sentences, it was assumed those inmates who have yet to see the Prisoner Review Board on their minimum sentence will exit on their minimum, while those already past their minimum will exit on their projected maximum release date.

NOTE: OTS refers to the Offender Tracking System.

**Status of All Capital Projects Currently Funded by the Department

Source: Juvenile Tracking System (JTS) Report JERHP105, Resident Housing Report, November 30, 1991

**Projected Juvenile Institution Population for each of the Succeeding Twelve Months  
Following each Reporting Date, Indicating All Assumptions  
Built into such Population Estimates**

	Book Count		Absences		Residential Count
January 1992	1,289	-	76	=	1,213
February 1992	1,294	-	76	=	1,218
March 1992	1,287	-	76	=	1,211
April 1992	1,286	-	76	=	1,210
May 1992	1,302	-	76	=	1,226
June 1992	1,306	-	76	=	1,230
July 1992	1,301	-	76	=	1,225
August 1992	1,264	-	76	=	1,188
September 1992	1,239	-	76	=	1,163
October 1992	1,228	-	76	=	1,152
November 1992	1,225	-	76	=	1,149
December 1992	1,227	-	76	=	1,151
Monthly Average for FY 91	1,334	-	76	=	1,258
Monthly Average for FY 92	1,308	-	76	=	1,232

These population projections reflect DOC's efforts to improve upon its methodology to project juvenile institutional book count using a simulation model. Conceptually, the model is designed around the incarceration process of youths committed to DOC. The data reflect calendar year 1987 experiences. The underlying assumptions are:

1. The court admissions reflect CY 1987 incarceration rate for the projected state population by age, sex, and race. Court admissions are expected to stay at the 1988 level of 858.
2. The level of absences from the institutions will remain at the current level throughout the projection period. These levels are:

Authorized Absences	
(EA, AA)	5/month
Psychiatric, medical, writ, etc.	25/month
Other, unauthorized	46/month
TOTAL	76/month

3. Youth in the existing population will be released at their current administrative review date.
4. The parole rate will remain stable over the three year period of the projections.

**Status of All Capital Projects Currently Funded by the Department  
Location of each Capital Project, the Projected On-Line Dates for each  
Capital Project, including Phase-in Dates and Full Occupancy Dates**

Location	Project Completion Date	Phase-in Date	Total Beds On-Line	Full Occupancy Date	Number of Beds
----------	-------------------------------	---------------	--------------------------	---------------------------	-------------------

**THERE ARE NO FUNDED PROJECTS TO ADD BEDS TO JUVENILE FACILITIES.**

**Projected Capacity of each Facility Six Months and One Year  
Following each Reporting Date**

Facility	Rated Capacity November 27, 1991	Projected Rated Capacity July 1992	Projected Rated Capacity January 1993
1. Harrisburg	276	276	276
2. Joliet	212	212	212
3. Pere Marquette	68	68	68
4. St. Charles	318	318	318
