## INTRODUCTION

This report summarizes workload information about the Maricopa County Juvenile Court Center in 1991. This report compares the court activity in 1991 with the activity of the prior four years (1987-1990).

The bulk of this report deals with juvenile delinquency and incorrigibility referrals. The information is obtained from police reports, other referring entities, and from probation officers who interviewed the children and their families.

A child becomes known to the court by a "referral" which alleges that the child has violated the law in some way. It should be noted that many children whose actions or social conditions might warrant action by the Juvenile Court are not referred to the court and are therefore not included in these data. Some children are not referred simply because their illegal actions are not observed or reported, or the child is not apprehended. Furthermore, not all activities of juveniles once reported to the police are subsequently referred to the Juvenile Court. Some police agencies within the county use community counseling programs for children apprehended for minor offenses, followed by release to their parents. Consequently, the data presented in this report cannot be taken as a complete measure of the extent of delinquent behavior in Maricopa County.

When it has been decided by a referring agency that a child's action or social condition warrants intervention by the court, that child is referred, and when a child is referred, the intake division of the Juvenile Court begins the process of diagnosis and recommendation. There are numerous ways in which a referral may be dealt with by the court. However, the best interest of the child, balanced with what is in the best interest of the community, must always be considered.

Children also become known to the court when they are being adopted, when one or both parent's rights are being severed (usually prior to adoption), or when the child may have been neglected, abandoned or abused.

The report was prepared by the staff of the Division of Research and Planning of the Maricopa County Juvenile Court Center located at 3125 West Durango, Phoenix, Arizona 85009. Questions concerning this report may be directed to (602)506-4488.

# Age at Referral

## Number of Referrals in Each Age Group

The largest age category is age 17, though the number of 16 year old referrals is almost precisely the same. It is clear that up to 16 years of

age the older a juvenile is the higher the number of referrals received by the Juvenile Court. These data are also consistent over several years.

### Number of Juveniles

 **Screened**     
  **Detained**

During 1991, there were 7,464 requests for detention. This resulted in detention 6,187 times, or for about 83% of the requests. A request for detention may occur when a Police Officer believes, for the safety of the community or the juvenile, that physical detention may be required. The juvenile is taken to either of the Maricopa County Juvenile Court facilities where an Intake Screening Officer interviews the juvenile. Based upon statutes

and the Court Center's administrative criteria, the Intake Screening Officer has the option to release the juvenile to the parents or physically detain the juvenile pending court action. Probation Officers are on duty seven days per week, 24 hours per day to screen juveniles brought to the detention center by police or parents. If the juvenile is detained, a petition must be filed and a detention hearing held within 24 hours.

Avg. Daily Population

In 1991, 6,187 juveniles were detained. Of those, 3,426 were detained for delinquent or incorrigible acts, and the remainder of 2,761 juveniles were detained for such reasons as: court holds, courtesy holds, family counseling, family crisis, FOJ (from other jurisdiction), warrants, and home detention.

The average daily population in detention (including both facilities) was 239 juveniles. The average (mean) length of stay was 13.6 days. Length of stay does not have a normal distribution. Most juveniles stay less than 13 days while those who stay longer remain much longer than the 1991 average might suggest.

The cost of a juvenile per day in detention was \$83.51 in 1991. This amount increased slightly from 1990. In the past five years this amount has increased by \$21.74.

 **At Year End**

During 1991, 3,022 juveniles were placed on probation, 918 more than in 1990. This reflects the increase felt in referrals and in petitions filed by the County Attorney's Office. An additional effect was the increase in Probation Officer caseload to a five year high of 54 cases under supervision. The average stay on probation has decreased from 14 months in 1990 to 13 months in 1991.

The average number of prior complaints at probation has increased steadily from 1.4 prior complaints in 1987 to 1.8 in 1990 and 1991. The

court is taking longer (in the sense of allowing more referrals to occur) to place a juvenile on probation than was true in the past.

## Probation Assessments and Collections

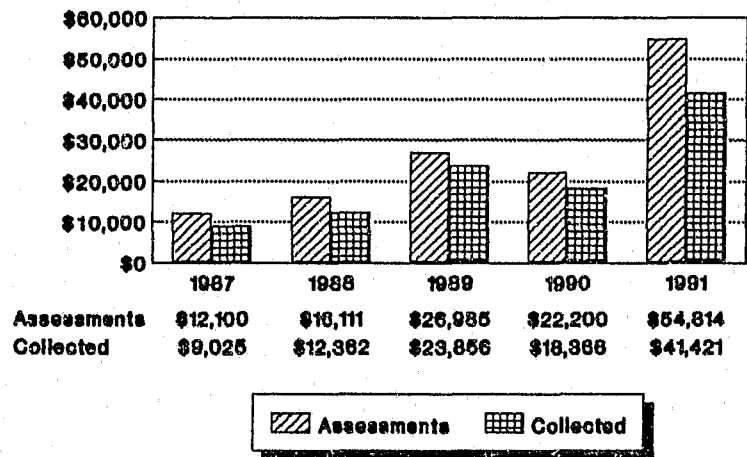

Assessments are imposed by the judiciary in cases allowed for probation service fees and placement service fees among others.

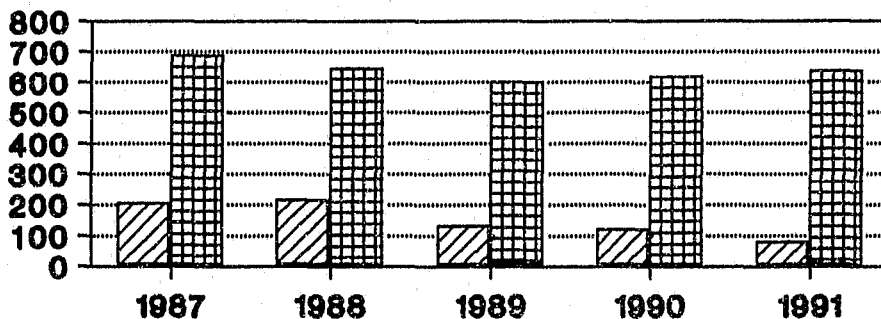

Probation assessments and collections have increased by \$17,146 in assessments and \$2,716 in collections from 1990. This is still significantly lower than assessments and collections made in 1989.

## Placement Assessments and Collections

Placement assessments have increased dramatically by \$32,614 in 1991 over 1990, or a 147% increase. Placement collections increased by 126%, or \$23,055 over 1990.

**Intake Caseload  
Cite-in First Set**

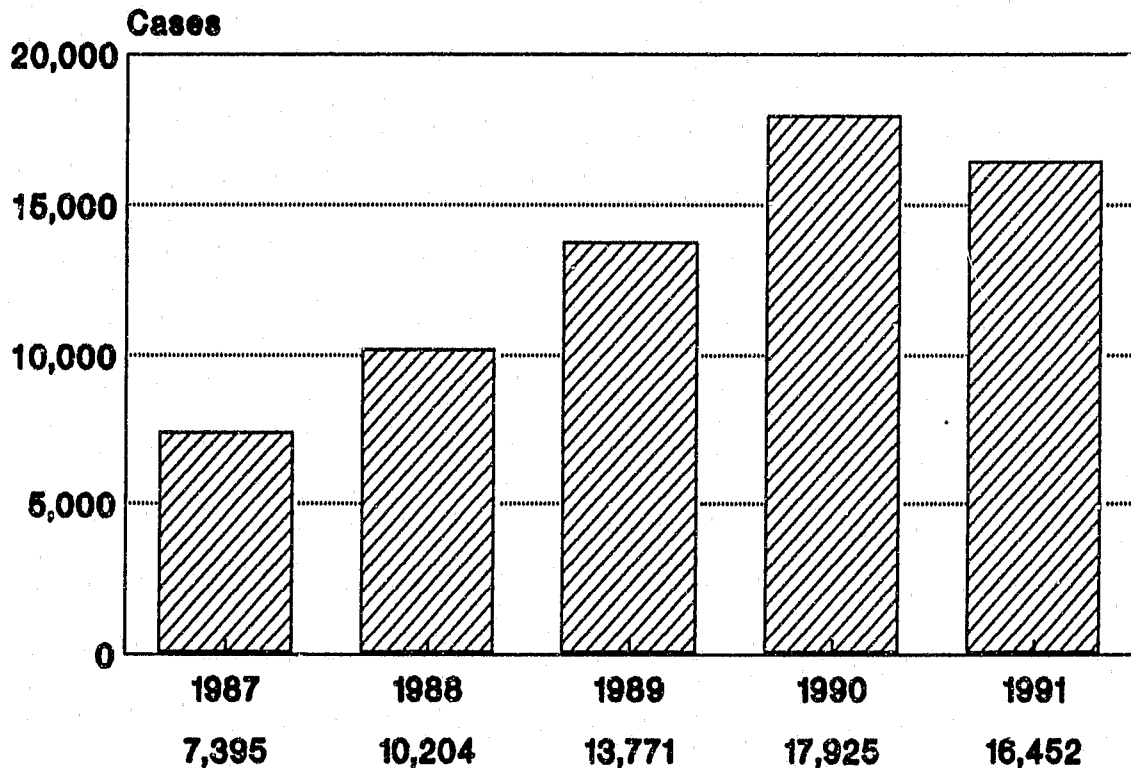

The intake cite-in is the interview of the referred juvenile and parent(s) at the Juvenile Court by an Intake Officer. Generally, these juveniles are first and second referral misdemeanors or status offenses. The Intake Officer has the discretion to handle the referral without initiating a formal Court process.

The above graph shows the average number of days to first cite-in measuring how quickly the Intake Division is able to get to the caseload assigned. A second measure is the number of pending (unfinished) cases which is shown in the graph to the right. The average number of days remained the same from 1990, but the number of cases pending decreased from 3,168 in 1990 to 3,032 in 1991.

**Intake Caseload  
Cases Pending**

## Intake Caseload New Complaints Received

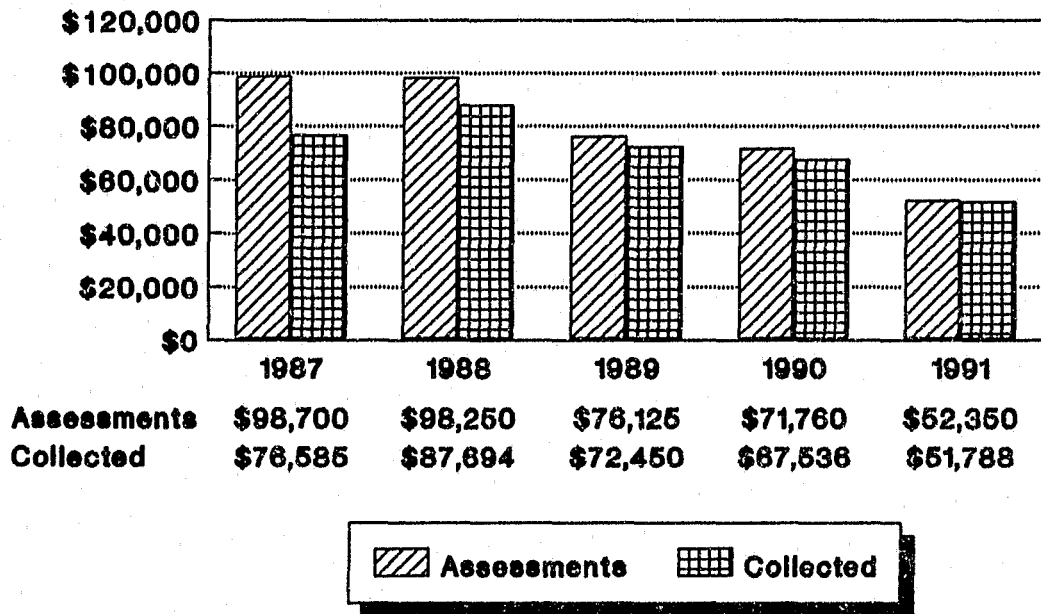

Referrals (complaints) where no formal petition is filed may be adjusted by the Intake Officer after the initial interview with the juvenile and parents. If the juvenile has acknowledged involvement in the alleged offense, the matter will not be adjusted until specific conditions established by the Probation Officer are met. Conditions of adjust may include referral to community agencies for family counseling,

individual counseling, specialized education, and awareness programs such as alcohol and drug abuse, restitution to victims, voluntary work hours in the community, and other similar options.

While the number of New Complaints Received increased by 122% since 1987, they decreased by 8% to 16,452 in 1991 from 17,925 in 1990.

## PIC-ACT Assessments and Collections

Progressively Increasing  
Consequences Act (PIC-ACT)

The Progressively Increasing Consequences Act (PIC-ACT) became effective through legislative action on July 1, 1984. If after conducting an intake interview with the alleged juvenile offender and parent(s), the juvenile acknowledges responsibility for the delinquent act or alcohol offense, the Juvenile Probation Officer may adjust the delinquency complaint once the juvenile has complied with specific conditions.

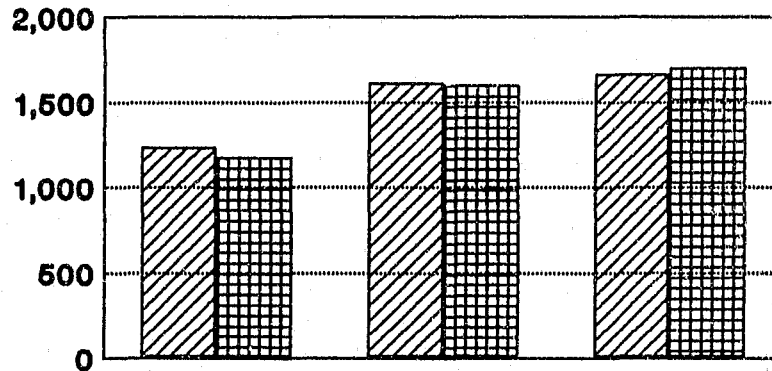

This legislation concentrates on first and second time

offenders in hopes of eliminating delinquent behavior patterns before they become firmly established. The development of PIC-ACT centers on the debate of whether holding youthful offenders more accountable for their delinquent behavior will result in a lower incidence of recidivism. Programs sponsored under PIC-ACT are currently in operation in all fifteen counties in Arizona.

Assessments made at intake for intake services has dropped consistently since 1987.

Home Detention is an alternative between structured institutional detention and unconditional release back into the community. Juveniles originally held in the juvenile detention facility but being allowed to return home pending Court may be assigned to Home Detention. In this program, the juvenile's freedom is greatly restricted and the Home Detention staff maintain frequent and close contact with

the juvenile on an unannounced basis to assure compliance with the conditions of release.

The number of juveniles in Placements has increased dramatically over the past five years. Day and Evening Care Placements have increased 34% from 1990 to 1991. In 1991, 348 juveniles were placed in Day & Evening Care.

Residential placement has increased by 39% from 1990 to 1991. There were 423 juveniles placed in residential care in 1991.

The cost involved per day per juvenile was \$26.28 for Day & Evening Care, and \$102.53 for Residential care in 1991.

# Diversions Programs

**Juveniles Assigned to Diversion Programs**

Diversions programs are established and supervised by various municipalities for the needs of some first time offenders in their communities. These programs are developed by agreement with the Court Center as provided by statute.

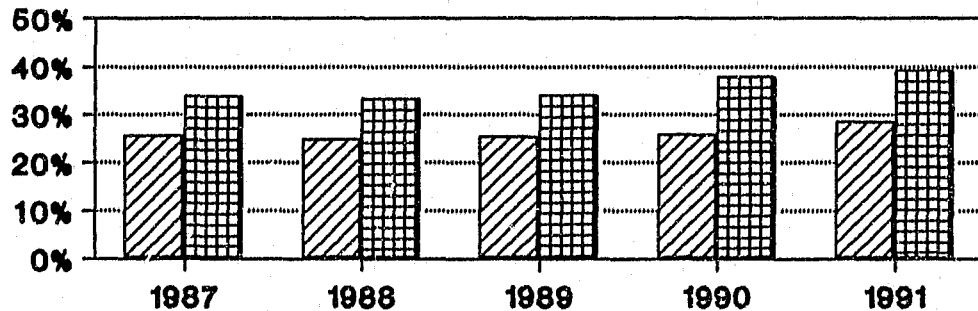

Municipalities within Maricopa County have designed First Offender Programs to work with juveniles.

Cities such as Phoenix, Mesa, Tempe, Glendale, Peoria, Scottsdale, Williams Air Force Base and Gilbert have various types of diversion programs for the first time offender.

The number of juveniles assigned to diversion programs has decreased by 14% since 1987, for a total of 1,036 juveniles in 1991.

## Recidivism

### Juveniles Recidivating

**First Timers**
 **All Juveniles**

**Excludes Juveniles who are currently 17,  
Administrative Offenses, Probation  
Violation, and Invalid Complaints.**

In this table, recidivism is defined as the probability of a subsequent referral within one year of the initial referral. Administrative offenses (Holds), and technical probation violations (i.e., no law violation charged) are not counted as initial referrals or subsequent referrals. If the juvenile is 17 years or older at the initial referral, they are not considered. For example, if a juvenile was referred September 1, 1989, and was 17 years and 6 months old, the case would not be counted, since he could not get more than 6 months of experience in the juvenile system.

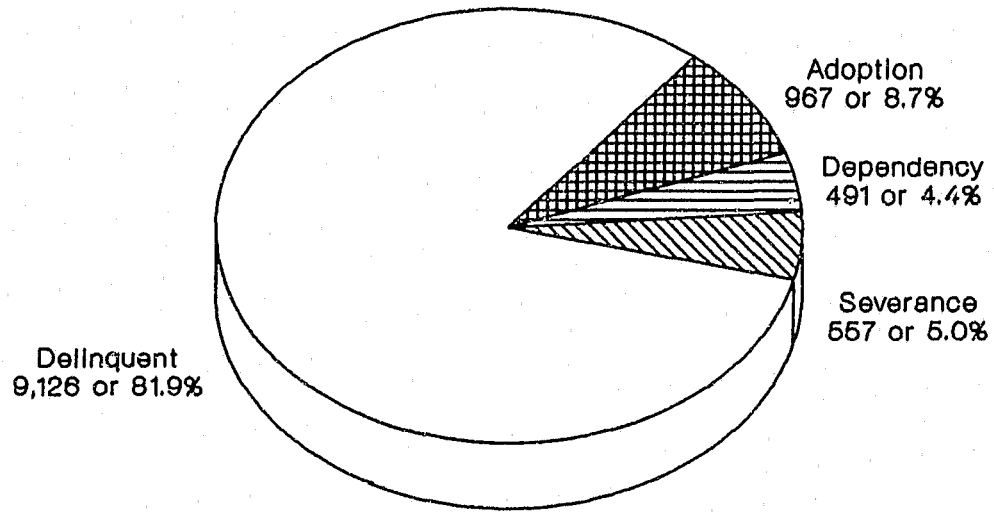

As soon as a juvenile reaches the age of 18, the Juvenile Court loses all jurisdiction over that person.

Two samples are used above. The sample called "First Timers" utilized only the first referral to Juvenile Court as the initial referral, while "All Juveniles" utilize any referral except an administrative offense or probation violation.

Recidivism for "All Juveniles" shows an increase of approximately 5% over prior years.
