1973 ANNUAL REPORT OF THE DIVISION OF POLICE

FOREWORD

Since 1929 the Cincinnati Police Division has compiled data and statistics in the present format via the Annual Report for research and analysis. We attempt to present annually without interpretation the "most asked for" data in such manner that similar information can be compared from year to year. Permission will be given to reproduce any part of this report upon request.

POLICE CHIEF

City of Cincinnati

June, 1974

Mr. Henry J. Sandman
Director of Safety

Sir:

The annual report of the Cincinnati Police Division for the year 1973 is herewith submitted providing a summary of its activities and accomplishments. The various statistical tables included with this summary reveal that during 1973 the Division continued to maintain its high standards of performance.

During the year 1973 all Division resources and efforts, with the cooperation of an involved citizenry, were directed toward reducing crime in Cincinnati. Attendant to these efforts, seven of nine Part I offense catagories realized a decrease. Major crime as catagorized by the Uniform Crime Reporting (U.C.R.) system is divided into Index and Non Index Crime. The Index classification consists of Murder, Rape, Robbery, Aggravated Assault, Burglary, Larceny and Auto Theft while Manslaughter and Non Aggravated Assault comprise Non Index Crime.

In 1973 all law enforcement agencies participating in the F.B.I.'s U.C.R. program were required to aggregate Larceny over $50.00 (formerly Index) and Larceny under $50.00 (formerly Non Index) into a general Larceny catagory to be considered an Index Crime.

Index Crimes totaled 28,903 offenses in 1973 for a net decrease of 294 from the 1972 total of 29,197 or a decrease of 1%. Non Index Crime totaled 3,525 offenses or a net increase of 823 or a 30.5% increase.

Comparative data for the years 1972 and 1973:

PART I OFFENSES	1972	1973
Index Crimes		
Murder	70	68
Rape	239	203
Robbery	1,733	1,386
Aggravated Assault	761	733
Burglary	9,729	10,337
Larceny	13,685	13,551
Auto Theft	2,980	2,625
Total Index Crimes	29,197	28,903
Non-Index Crimes		
Manslaughter	37	29
Non-Aggravated Assault	2,665	3,496
Total Non-Index Crimes	2,702	3,525
TOTAL OF ALL PART I OFFENSES	31,899	32,428

Total criminal arrests for Part I and Part II offenses decreased 7.6% during 1973. Part I arrests increased 11.6% while Part II arrests decreased 17.5%.

The Field Operations Bureau on March 4, 1973 implemented Community Sector Team Policing in District One. Implementation of this program was possible with a $1.9 million grant from the Police Foundation combined with over eighteen months of planning effort involving personnel from all bureaus, other city agencies, and members of the community.

Evaluation of the Com-Sec Program for the nine month period, from March to December, was so favorable that the Police Foundation awarded an additional operational grant of $1.3 million for 1974.

In conjunction with the Com-Sec program the District Five Investigative Model became operational on March 4th. This model was devised to compare three investigative modes; Com-Sec, a centralized approach - Criminal Investigation Section, and the

District Five Model which is centralized under the direct supervision of the District Commander.

The 1973 Seasonal Robbery Task Force, November 18 through December 24th, altered their mode of operation from a centralized operation to a decentralized concept utilizing district based "Mini-Tact Units" and personnel from the Criminal Investigation Section. This effort resulted in an overall robbery decrease of approximately 10% as compared to the same period in 1972; a 23% reduction in "Business Robberies" as compared to 1972.

On January 7th the Tactical Patrol Section was decentralized, including the Canine Teams, assigning one team to each of the six districts. During August six new canine teams were selected and trained increasing the Division's teams to twelve, plus a Sergeant assigned to Field Operations Bureau to coordinate their operations.

January 7th also saw decentralization of Traffic Section's accident investigation units, three wheel motorcycles, and foot traffic control. East district is now responsible for accident investigation within their areas, with the Traffic Section maintaining staff supervision.

There were 32,150 traffic accidents reported in 1973 and 73 lives lost. While there were 9 less people killed in 1973 compared to 1972 there was an increase of 537 accidents in the city. The Traffic Section's Alcohol Safety Unit continued to combat the problem of the drinking driver resulting in 3,643 apprehensions for driving under the influence of alcohol or drugs, a net increase of 737 over 1972.

The Investigative Services Bureau consists of the Criminal Investigation Section, Vice Control Section, and the Youth Aid Section. Also operating within this Bureau is the Regional Narcotic Enforcement Unit, a federally funded program. Specialized units within these sections investigate crimes and complaints related to robbery, homicide, forgery, burglary, auto theft, vice operations, narcotic violations, and problems of juvenile delinquency.

Seventy-one homicides were committed in 1973 and sixty-three of these cases have been successfully closed. The Homicide Squad continued to provide assistance to other county agencies upon request.

The Auto Theft Squad was formally instituted on May 27th and not only investigated thefts from within the city but also

worked closely with other police agencies within and outside the state. The squad was responsible for the recovery of more than $350,000.00 in stolen motor vehicles.

In March of 1973, the Criminal Investigation Section Instituted a 20 Most Wanted File. The success of this operation is reflected by 20 apprehensions from 36 persons placed on the list.

The Vice Control Section noted an increase of over 100% in arrests for bookmaking and 120% in policy (numbers) arrests which reflects its thrust in concentrating on these organized forms of vice.

The assault on drug trafficking continued through the effort of the Federally Funded - "Regional Enforcement Narcotic Unit" based on a county wide operational concept.

The Youth Aid Section continued its viable School Resource Officer Program. During the year these officers presented 446 school related programs contacting 32,334 individuals.

The Inspectional Services Bureau is comprised of three sections: Intelligence Section, Inspection Section, and Internal Investigation Section. The primary functions of the Bureau are to provide information necessary to good administration and to assure quality control, which includes maintenance of a high level of integrity throughout the Police Division.

The Internal Investigation Section investigated a total of 339 complaints in 1973, which represented a decrease of 42 (12%) from the total investigated in 1972. Of the 339 complaints, 277 were instituted by citizens and 62 were instituted by the Police Division. The section assisted with ten disciplinary hearings, an increase of 5 over 1972. Six the ten hearings sustained charges presented. During 1973, 57 official reprimands were administered.

The Program Management Bureau, composed of the Research and Development, Fiscal and Budgetary, and Com-Sec Development Section, expanded the scope of its operations to include the Criminal Justice Section and the Legal Section.

The Criminal Justice Section was created in April under a grant from the Police Foundation to support the Com-Sec Team Policing Experiment. This section's work represents the county's first systematic effort to coordinate the police with other criminal justice system components and human service agencies in the handling of arrests and other related service problems.

Since its formation, the section helped develop and implement a twenty-five bed Alcohol Detoxification Center, opened in August, a Division-wide Stationhouse Release Program, a Central Warrant Processing Unit, and New Warrant Service Procedure.

The Legal Section became operational in July with the appointment of an Assistant City Solicitor as the Police Legal Advisor. The section is partially funded through an LEAA grant.

During the year the Legal Section moved forward on developing uniform rules of police procedure and conduct. Also, the section was instrumental in the planning, preparation, and training required to implement the new Ohio and Cincinnati Criminal Codes.

Research and Development Section established probabilities for burglaries and robberies in the reporting areas of the city. The Operations Analyst provided the necessary coordination for the Division's decentralized robbery task force in operation during November and December.

In the area of grant programs Research and Development received in excess of $468,000 from LEAA state block and federal discretionary grants. This included such diverse projects as Police Cadet Training, Police Minority Recruitment and the continuation of the Regional Enforcement Narcotics Unit. In addition to the LEAA grants received, the Police Division also received $74,000 from the Department of Transportation that was utilized in the Fatal Accident Reduction Enforcement program. This program, known as FARE, was designed to control speeding. It significantly contributed to the reduction of fatal auto accidents during the holiday weekends of Memorial Day through Thanksgiving Day.

The Com-Sec Implementation and Evaluation Section finalized plans for implementation of the Community Sector Team Policing experiment which was implemented March 4, 1973. The section has two primary goals: attending to the many details that need to be brought together for Com-Sec and developing a comprehensive evaluation system for the program. Work encompassed assessing exact needs, identifying roadblocks and monitoring the entire planning-implementation process.

This section coordinated preparations for 1974 funding of Community Sector Team Policing, including the writing of the proposal for 1974 funding based on information provided by various other Division units, a large portion of which was the

internal evaluation report. Another large effort was the coordination of the Division's presentation before the Cities Committee of the Police Foundation.

The University/Police Consortium developed an accredited training program for First Line Supervisors which was attended by seventy-five Sergeants. Work advanced on design of a Masters Degree Program in Criminal Justice to be implemented in the Autumn Quarter of 1974 at the University of Cincinnati.

Utilization of University interns was expanded to include seventeen students during the Autumn Quarter of 1973. Colleges participating in this work/learn experience were Community Services, Business Administration, Law and Design, Art and Architecture.

In 1973 the five Sections in the Technical Services Bureau--Police Communications, Court, Records, Criminalistics, and Central Warrant Processing Unit were consolidated to provide for more efficient management and control. The five Sections were reduced to three: Police Communications Section, Court Section and Records Section. The Records Section consists of three units: the Police Data Processing Unit, formerly Records Section, the Criminalistics Unit and the Central Warrant Processing Unit.

The Court Section was established in January to provide liaison between the Hamilton County Municipal Court and the division. The section has addressed such problem areas as; crowded court dockets and long delays between arrest and trial.

During 1973 the Police Communications Section participated in a study in conjunction with researchers from the University of Dayton to ascertain whether it would be feasible and more efficient to replace sworn police officers in the Police Communications Section with carefully selected and highly trained civilians. The progress of this experiment will be carefully monitored during a one year pilot program after which, a decision can be made regarding the hiring of civilians to replace sworn Police Communications personnel.

Early in October, Police Division operation of prisoner detention facilities was phased out and this duty was assumed by Corrections Officers from the Community Correctional Institution. Six experienced Patrolmen from the disbanded Police Detention operation were assigned to duty in the Central Warrant Processing Unit enabling the unit to function on a 24-hour a day schedule for the first time.

The Central Warrant Processing Unit provides a central repository for all Cincinnati warrants and capiases, maintaining not only the manual source document files, but also a parrallel computerized file which is queried constantly by the two thousand police officers in Hamilton County. Two complete validation of the Cincinnati police warrant files in the regional computer were accomplished during the year. The final one completed on October 1st, revealed a computer file accuracy of 99.08%.

On November 19th, a Letter Notification program was implemented. Under this program a computer-generated Letter of Notification is mailed to every person for whom a traffic warrant or a criminal misdemeanor warrant has been issued by the Clerk of Courts, explaining to these persons what to do and where to go to avoid a physical arrest.

In addition to affording a citizen an alternative to the inconvenience of a physical arrest, the Letter of Notification program was also able to divert from the system 40% of all traffic warrants remaining after the initial screening by the Traffic Violations Office Postcard Notification program. Additionally, the Letter Notification program diverted over 60% of all criminal misdemeanor warrants from the system.

The Personnel Section of the Administrative Services Bureau began development of a source document for personnel data, from which the Division will be able to utilize the special skills and expertise that our officers have developed.

During 1973, efforts of the Recruitment contact and Investigation Team resulted in starting one recruit class and one cadet class. The 59th Police Recruit class of 73 members began July 1, 1973. The class was composed of 51 male whites, 18 male blacks, 3 female whites, and 1 female black. Twenty-six percent of the class was black, however, when the 12 male white former cadet members of the class are excluded, this percentage increases to 31.1%.

The Police Cadet Class, appointed August 20, 1973, had 55 members. For the first time the program was opened to females. The recruitment effort resulted in a class of 42 male whites, 8 male blacks, 1 male oriental, 3 female whites, and 1 female black, or 23.6% minority (including black, female and oriental).

Training and Education Section instituted the Recruit Counselor Program in February. The Program is designed to assist Recruit Patrolmen with any problems encountered while making the transition from a civilian environment to the semi-military environs of the Division.

The in-service training program on the New Ohio Revised Code (House Bill 511) was presented to the personnel of the Field Operations and Investigative Services Bureaus, necessitating a 24-hour a day operation to accomplish this task.

An Investigative Skills Training Program provided a new concept in education for the Division. All District One (Com-Sec) personnel and District Five Specialists were provided with individual investigative equipment, narcotics field testing kits, cameras, etc. These officers were then given a minimal amount of classroom instruction and sent to simulated crime scenes to conduct actual investigations. The purpose of the training is to provide each individual with the skills necessary to be a generalist.

On October 28th the Division's Auto Impounding Program was transferred from the Property Management Section to the Transportation Section. Total impounded vehicles was 9,010, consisting of 567 disposed of as junk and the remainder consisted of the catagories of stolen vehicles, vehicles held for investigative purposes, and vehicles towed for parking violations. The section conducted 25 auctions to dispose of unclaimed vehicles for a total of 1,439 vehicles sold encompassing a dollar return of $67,473.00. This represents as increase of 266 vehicles or $26,292.00 over 1972 figures.

The Division's auto fleet encompassed by 385 vehicles operated for a total of 6,910,267 miles during the year which represents an increase of 429,305 miles over 1972. The mileage increase is attributal to an increase of our auto fleet by 54 vehicles in 1973.

Police vehicles were involved in 456 accidents in 1973 with an estimated cost to repair at $96,258.33. The prior year of 1972 reveals 460 accidents with a cost of $99,777.97. This is a decrease of 4 accidents and a decrease in damage of $3,519.64. This assumes a more favorable reflection when we recall that 429,305 more miles were driven in 1973 than in 1972.

The Community Relations Bureau's Public Affairs Section continued their sponsorship of a "Law Enforcement Explorer Post" which in 1973 was the recipient of the "Post of the Year Award" from a field of more than 150 area posts.

Personnel from the Public Affairs Section participated in the filming of "The Crime" in cooperation with Avco Broadcasting and filming of "Com-Sec" in cooperation with Taft Broadcasting.

The Public Information Section combined efforts with the Com-Sec Media Coordinator in launching a Division newsletter in 1973. This bi-weekly publication is distributed by mail to all Division employees as well as over 800 other community members and interested parties.

The Division gratefully acknowledges and support and cooperation received from the City Administration and from other governmental agencies and officials. The personnel of the Division pledge continued efforts to provide Cincinnati with the best possible service.

Sincerely,

Carl V. Goodin
Police Chief

TABLE 76D
REPORTING AREAS COMPRISING EACH DISTRICT

District One - Areas 1 through 26, 38, 39, 40, 79, 175 through 181, and 194 through 215.

District Three - Areas 182 through 193, 216 through 308, 311, and 389, 390.

District Four - Areas 69 through 74, 365, 366, 368 through 388, 414, 416 through 419, 421, 422, and 446 through 505.

District Five - Areas 309, 310, 312 through 355, 391 through 413, 415, 420, and 423 through 445.

District Six - Areas 57, 58, 59, 61, 62, 63, 68, 75, 76, 77, 78 and 80 through 174.

District Seven - Areas 27 through 37, 41 through 56, 60, 64, 65, 66, 67, 356 through 364, 367, and 506.

32.	Carthage	61
33.	Hartwell	60
34.	College Hill	81, 82.01, 82.02, 84, 111
35.	Mt. Airy	83
36.	Winton Hills	73, 80
37.	Westwood	100, 101, 102.01, 102.02, 109
38.	Mt. Washington	46.01, 46.02, 46.03
39.	California	45
40	Camp Washington	28
41.	River Road	104
42.	University Heights	29, 30
43.	Queensgate	1, 5
44.	Central Business District-Central Riverfront	6, 7

Note: 1970 Census Tracts are essentially the same as 1960, except for (a) deletion of Census Tract 31; and (b) division of some 1960 tracts into smaller ones (e.g., 46 into 46.01, 46.02 and 46.03).

Table 96.--VALUE IN DOLLARS OF STOLEN AND RECOVERED PROPERTY: 1973
(Automobiles not included: See Table 97)

	Reported Stolen	Total Recovered	Recovered (Local Theft)		
			By Pawnshop Squad	By Other Police Units	Otherwise
All Property (except autos): 1973	$4,682,256	$394,910	$1,624	$328,141	$65,145
A. Currency, notes, etc.	735,267	55,526	-	44,976	10,550
B. Jewelry and precious metals	540,084	38,412	-	32,151	6,261
C. Furs	45,449	2,800	-	2,338	462
D. Clothing	216,117	31,910	-	26,613	5,297
E. Other *	3,145,339	266,262	1,624	222,063	42,575
All (Except Autos): 1972	$4,482.138	$592,206	2,911	494,003	95,292

* Includes miscellaneous articles, such as bicycles, cameras, guns, radios, television sets, tools, typewriters, etc.

Table 97.--AUTOMOBILE THEFTS, RECOVERIES, AND VALUE FOR THE LAST THREE YEARS: 1973 - 1971

		1973	1972	1971
1.	Motor Vehicles Stolen in City (actual offenses)	2,625	2,980	3,149
2.	Motor Vehicles Recovered:			
	A. Number stolen locally & recovered locally	2,063	2,139	2,407
	B. Number stolen locally & recovered by other jurisdiction	134	317	153
	C. Total locally stolen autos recovered	2,197	2,456	2,560
	D. Number stolen out of town recovered locally	402	372	347
3.	Percent of Local Motor Vehicles Recovered	83.7	82.4	81.3
4.	Value of Local Motor Vehicles Stolen	2,312,235	2,278,131	2,290,931
5.	Value of Local Motor Vehicles Recovered	1,745,529	1,922,327	2,037,728

Table 104.--TRAFFIC ACCIDENTS BY TYPE: 1973 - 1972

Type of Accident:	Total		Fatal		Non-Fatal		No Injury	
Collision of Motor Vehicle With:	1973	1972	1973	1972	1973	1972	1973	1972
ALL TYPES - TOTAL	32,150	31,613	69	81	5,663	5,685	26,418	25,849
1. Pedestrian	789	751	21	26	724	683	44	42
2. Other Motor vehicles	28,309	27,945	32	32	3,909	4,056	24,368	23,857
3. Railroad train	25	20	-	1	9	5	16	14
4. Bicycle	154	160	-	1	108	115	46	44
5. Fixed object in road	110	112	-	-	19	24	91	88
6. Fixed object off road	2,300	2,142	13	20	791	694	1,496	1,428
7. Non-collision in road	52	54	1	-	25	23	26	31
8. Non-collision off road	50	33	-	-	9	9	41	24
9. Miscellaneous	361	396	2	1	69	74	290	321

Note: (1) All tables giving traffic accident data are published showing figures as of January 15 of the year following the year for which reported. In tables 104 to 115, the data are classified by the date of the accident according to the condition of victims including fifteen days after December 31. Therefore, deaths which occur after that, as a result of accidents which occurred before, will not be given as deaths.

(2) Collisions which do not involve a motor vehicle or occur on private property are omitted from these tables by definition. See "Uniform Definitions of Motor Vehicle Accidents" published by the Bureau of Census, Washington, which are used for classifying data for these tables.

Table 106.--TRAFFIC ACCIDENTS AND VICTIMS FOR THE LAST FIVE YEARS: 1973 - 1969

	1973	1972	1971	1970	1969
Total Accidents Reported	32,150	31,613	29,828	31,229	31,663
A. Fatal Accidents	69	81	80	76	66
B. Injury Accidents	5,663	5,683	5,163	5,361	5,408
C. No Injury Accidents	26,418	25,849	24,585	25,792	26,189
Number of persons killed	73	83	90	81	73
Number of persons injured	7,821	8,518	7,403	7,398	7,539
Traffic fatality rate per 100,000 population	16.1(1)	18.3(1)	19.9(1)	17.9(1)	14.5(2)

(1) Note: Based on 1970 Federal Census (452,524)

(2) Note: Based on 1960 Federal Census (502,550)

Table 111.--MOTOR VEHICLES INVOLVED IN TRAFFIC ACCIDENTS: 1973

	Total	Fatal	Non-Fatal	No Injury
Total Motor Vehicles	60,780	111	10,556	50,113
A. Type of Motor Vehicles				
Passenger Car	51,844	79	8,718	43,047
Passenger Car & Trailer	7	-	2	5
Truck	3,448	8	449	2,991

Percentage of tags disposed of	91.0	89.2	83.4

Note: Warning of record, issued for minor violations (Form 66 and 314 for traffic violations).

* These are tags issued in error only (e.g. defective parking meter). Does not include violation tags cancelled in accordance with Ordinance 390 (1943 and 360 (1959).

** Based on 300 working days.

Table 140.--MISCELLANEOUS FACTUAL DATA OF CINCINNATI: 1973

1. Found in 1788--Chartered as a village 1802--Incorporated as a city 1819. Council Manager form of government adopted 1925.

2. Area--City 77.62 square miles; Hamilton County 414 square miles; Metropolican area (Hamilton, Clermont, Warren Counties, Ohio;Boone, Campbell and Kenton Counties Kentucky; and Dearborn County, Indiana) 2,154 square miles.

3. Area of "Downtown" (basin) police district; 3.71 square miles.

4. Population--City of Cincinnati, 452,524; Hamilton County, 924,018; Metropolitan Area, 1,384,851.

5. Valuation--Cincinnati assessed 1972 for payment in 1973 $1,298,620,730; Hamilton County $3,027,208,590.

6. Tax Rate--City of Cincinnati $48.86 per $1,000 (for 1972 payable in 1973)

7. Climate--(Based on 30-year period, 1931 to 1960) Norman annual average temperature 56.9; Prescipitation 39.51.

8. Altitude: 761 Feet above mean sea level.

9. Education--Hamilton County--2 universities--University of Cincinnati-- municipally owned with an enrollment of 34,676 and Xavier University-- with an enrollment of 5,896. Other 4 year colleges include Athenaeum of Ohio; Cincinnati Bible Seminary; College of Mt. St. Joseph; Edge- cliff College; Hebrew Union College; Cincinnati Technical College, the only autonomous state supported two year college in southwest Ohio.

10. Hospitals--28 in the area--total beds 10,562, General hospitals include: Bethesda, Christ, Cincinnati General, Deaconess, Dearborn Co, Otto C. Epp Memorial, Good Samaritan, Christian R. Holmes, Jewish, Our Lady of Mercy, Provicence, St. Francis, U.S. Gov't Veterans Administration.

11. Parks--(City) 86 areas covering 3,77 acres. Also 59 playgrounds 1,176 acres. (County) 4 areas; 5,717 acres.

12. Streets--934 miles paved with a total street mileage of 1035.

13. Waterworks--City owned with a firm pumping capacity of 200,000,000 gallons per day.

14. Fire Protection--First paid fire department in the U.S. Present force 905 men; city has 100% inspection of all homes, manufacturing and commercial establishments by members of Fire Department.

15. Police Protection--1132 total authorized police equipped with personal radios.

Table 142.—AN OUTLINE OF CINCINNATI POLICE HISTORY

Settled in 1788 and a frontier town for many years, originally known as Losantiville, Cincinnati was incorporated as a town in 1802, with a population of about 800 persons. The soldiers of Fort Washington provided what "protection" was necessary prior to that time. The early inhabitants had no need for anything like a police force as crime was negligible and there was no traffic. After incorporation, a marshal was elected every year, but earliest actual policing dates from 1803 when a disastrous fire caused the Council to provide for a Night Watch. All male citizens over the age of 21 were required to serve in rotation without pay as watchmen, 12 each night. They reported to the Watch House at 8:00 o'clock and chose an "officer of the night" who divided them into two "classes" of six men each for patrol duty. While "walking to and fro through the streets", each one carried a lantern and a watchman's rattle for summoning assistance and giving signals.

With Cincinnati's rapid growth to a city, certain citizens, irked by their enforced duty as watchman, initiated a movement in 1818 to establish a fund to pay for the services of professional night-watchmen. Accordingly, an ordinance was passed in that year providing for a captain and six watchmen, who were granted the power of arrest and also were required to trim the street lamps and "light them about dusk". The City was incorporated the following year, 1819 with a population of about 9,000. The corporation line on the south was the Ohio River, on the west the Millcreek and on the north a straight line drawn through Liberty Street from the Millcreek to the Ohio. By 1826, the Watch consisted of two captains and 18 men. Finally, 1824, City Council passed an ordinance levying a tax of one mill on the dollar upon all property owners to pay the salaries of these men. Thus was created the first true "police force", under a direct responsiblity to the taxpayers of the City. In 1842, a day watch of two men was added to supplement the night force. They were paid $1.25 per day each. The night men received $1.00 a night. By 1855, there were a hundred men on the force and the city's population had grown to approximately 135,000. The first detectives were added to the force in that year, when three men were appointed for special investigation work. The first private police in the city were appointed in 1846, when provisions were made for special watchmen by the merchants of Pearl Street.

From the earliest days, the watchmen were under the authority of the various town or city marshals, who were elected for one or two-year terms. In 1859, the position of City Marshal was abolished and the offices of Chief of Police formally established under a five-men Board of Police Commissioners, serving without pay. The Marshal's job had declined in importance since 1853, due to political maneuvering, from which had evolved the position of Chief of Police. This latter title was changed again, however, in 1873 to that of Superintendent of Police. All appointments and dismissals of watch and police personnel from the beginning were on a political basis, at the pleasure of the mayors in office. In 1873, as an attempt to correct this, an act was passed providing for the selection of a commission of four members who took over the power from the Mayor and Chief of Police. This commission was short-lived and in 1874 was abolished, the Mayor again taking charge. However, in 1886 the department was at last taken out of politics by an act which established by state law a non-partisan Board of Police Commissions to have complete control and supervision of the police force.

This Board consisted of four commissioners appointed by the Governor of Ohio, who also had the power of removing them. Not more than two members of the Board could belong to the same political party. Appointments to the force and promotions

Table 142.—AN OUTLINE OF CINCINNATI POLICE HISTORY - Page 2

were required to be made from eligible lists without reference to political opinions of affiliations and all had to be approved by the Board. Commissions and policemen alike were prohibited from political activity. The Mayor was given the responsibility for the direction of the force, with the Superintendent of Police in direct command.

In 1903, a Board of Public Safety was formed by a merger of the Boards of Police and Fire Commissioners. At this time the position of Chief of Police was re-established. Six years later, however, in 1909, the Board of Public Safety was abolished, and a Director of Public Safety was appointed to assume charge of the police, fire, welfare and other safety functions.

In 1910, the merit system of appointments and promotions was fortified by the passage of the present Civil Service Law, the formation of a Board of Civil Commissioners and the appointment of a Civil Service Examiner. The population of Cincinnati was then 363,591 and the 643 men on the police force patrolled 49 square miles, the approximate area of the city at that time.

Meanwhile, many improvements were being made in police methods. In 1856, the first uniform was adopted. Registration of persons arrested was begun in 1863, leading to the establishment of a rogue's gallery in 1873. The dial system of police telegraph was installed in 1866 and telephones introduced in 1878, just two years after Alexander Graham Bell obtained his patent. In 1879, a telephone exchange serving the entire department was installed and the Cincinnati Police enjoyed the distinction of being the first Police Department to supplant the telegraph with the telephone.

In 1881, the patrol wagon service was organized, the second of its kind in the country. With the reorganization of the department in 1886, the Detective Bureau was formally established, mounted policemen on horseback began to replace the feet patrolmen on the outlying beats and in the next few years many innovations that today are to be found in most police departments were introduced. These included a police gymnasium with physical training for the men; military drill under a drillmaster, which led to the annual parade and inspection of the force; the School of Instruction with formal training for all members of the department; a printed manual for each man, containing the rules and regulations governing the force and instructions in many of the details of police business; a Board of Examiners to conduct regular "mental and manual" examinations; a police library and the Roll of Honor, awarded for meritorious deeds.

The Bertillon department was established in 1892. Because of the increasing use of the fingerprint system of identification, which was adopted by the department shortly after its introduction into this country in 1904, it became the Bureau of Identification in 1912. This year following, 1913, witnessed the discard of the horse-drawn patrol wagons and the use of motor patrols in their stead. Introduction of motorcycles was begun also in 1913, a year after the formation of the first regular traffic squad. The first automobile had been purchased in 1909. In 1924, the horses were replaced by roadster-type automobiles, which were used until coupes were introduced in 1928.

By 1920 the city had grown to 401,247 in population and the police force to 696 men. On January 1, 1926, the City Charter form of City government was inaugurated, placing the police, together with other executive branches of the municipal service, directly under the control of the City Manager. In 1930, the position of Director of Safety was restored and the force established as the Division of Police of the Department of Safety.

Table 142.—AN OUTLINE OF CINCINNATI POLICE HISTORY - Page 3

In 1927, the number of police districts was reduced from ten to seven and the position of district Superintendent was created. A police major was assigned to the position in each district. The control of all traffic matters was removed from the districts and placed under the command of a Superintendent of Traffic. Also in that year, a teletype system of inter-communication was installed, and the present style of uniform with the .38 caliber revolver was adopted. During the following year, 1928, with traffic signal lights being introduced downtown, traffic patrolmen, who formerly had directed traffic with hand and whistle signals were given short beats in the congested area.

The centralized Bureau of Records was established in 1928 and a new record system was installed as a result of recommendations proposed by staff members of the Committee on Uniform Crime Records of the International Association of Chiefs of Police. This system and the crime classification developed for it prove so successful that they were taken as the ground work for the published Manual which established the Uniform Reporting System, formally adopted in 1929 by the country's leading police departments. Thus Cincinnati, pioneering in the field of modern police records, played a significant part in the development of this system. Since then statistics have been compiled uniformly and are comparable with those of other police departments cooperating in the project.

In 1930, the federal census found the city's population to be 451,160. There were then 662 members of the police department. Communication was considerably improved in 1931 by the establishment of Station X upon the completion of the police radio installation and Radio Station WKDU, which had begun in 1929. Also, in 1931, the City Retirment System was established, replacing the Police Relief Fund for police employees. In 1933, a city-wide Safety Patrol was organized and in 1934, with injuries and deaths from vehicular accidents constantly increasing, the first unit of an accident investigation squad was added. The Traffic Accident Investigation Bureau was formally established in 1936, with especially selected and trained men in motor cars equipped with cameras, measuring tapes, red flares, first aid kits, etc.

Another noteworthy addition to the department was made in 1934, when the Police Crime Laboratory equipped with ballistic, X-ray, polygraphic, microscopic, moulage and other equipment was established. In 1935, the Police Credit Union was organized, one of the first to be formed in the country by police employees. The following year, effective January 1, 1936, Central Station was re-established at City Hall for the purpose of centralizing at one point instead of seven, the registration and detention of all persons arrested. In 1936, the personnel of the department numbered 633; in 1937, 714.

Early in 1937 the city saw the greatest flood in its history when the Ohio River rose to an unprecedented crest of 80 feet, 28 feet above flood stage. Twenty-four square miles of the city were inundated and the water front measured fifty-two miles. This was a major disaster, but with the help of the Ohio National Guard and Coast Guard, the police were able to meet every emergency without a declaration of martial law. Also, in that year an outdoor police pistol range was built at Bald Knob and the Annual Medal Shoot for members of the department was initiated.

In 1939, two important steps were taken to curb juvenile delinquency which was rapidly becoming a serious problem in the city. The Boy's Clubs movement was introduced to Cincinnati and the formation of Bicycle Safety Clubs in the schools

Table 142.—AN OUTLINE OF CINCINNATI POLICE HISTORY - Page 4

was begun by specially trained officers. Delayed because of litigation, the city's testing station for compulsory inspection of motor vehicles also was opened that year. The federal census of the following year, 1940, showed the city's population as 455,610. The police department then had 732 employees.

In 1941, a court decision restored the Police Relief Fund, forbidding police officers to remain as members of the City Retirement System. Parking meters began to be installed in that year and preparation for civilian defense was started to meet the impending war emergency which made itself fully felt in 1942. Two-way radio and radio-telegraph were added to the department's communication facilities when new radio equipment was put into operation in 1942. The policy of furnishing new recruits with revolvers and equipment, including the first complete summer and winter uniform, was also initiated in 1942.

The Juvenile Crime Prevention Bureau (renamed Youth Aid Bureau in 1946 and Juvenile Bureau in 1958) was organized in 1943. For that year Cincinnati was awarded first place in the National Traffic Safety Contest and was runner-up in the Ohio Traffic Safety Contest. In 1944, with the dissolving of the civilian defense organization, the Auxiliary Police Corps was established and augmented the police force during the time of man-power shortage caused by military leaves. Also, during that year "FM" radio was introduced. At the end of 1944 there were 159 stars on the Cincinnati Police Service flag for members in the armed forces. In 1945 a Keeler Polygraph was acquired for the Police Crime Laboratory.

Policewomen were added to the force early in 1946. In that year also the target range in Lockland was acquired. In 1947, a missing persons unit, to work in conjunction with the police districts, was established as part of the Juvenile Bureau. Late in 1950, a new District Six Stationhouse, located on Erie Avenue, was opened. The Census Bureau announced the city's population as 503,998.

In 1951 the average work week of members of the force was reduced from 48 hours to 44. Also, during that year the Motor Transport Bureau was discontinued as a separate unit and its duties and personnel taken over by the Police Districts. Early in 1952 radar was successfully used to aid the police in the apprehension of speeders. The Police Training School was re-named Police Academy when it was moved to new quarters on the second floor of District 2 Stationhouse.

The Lincoln Park Drive Police Building, housing offices of the police chief and several members of his staff, in addition to quarters for the Juvenile Bureau, Traffic Bureau and District One, was placed in use early in 1955. At the same time a realignment of police district boundries was inaugurated. Later in the same year the Crime Bureau, Records Section and Identification Section expanded into the quarters made vacant in the City Hall by removal of the several units to Lincoln Park Drive.

The first group of Police Cadets was employed in 1955. On April 1, 1956, the Division was placed on a 40 hour week. In December 1957, a new Stationhouse for District 5, located on Ludlow Avenue, was opened. The Tactical Unit, composed of a sergeant and ten patrolmen, was formally organized as a separate entity of the Patrol Bureau in April 1959. The city's population was 502,550 in 1960 according to the U. S. Bureau of the Census. The first steps in forming a Canine Corps were undertaken. The following year the Canine Corps, combined with the Tactical Unit, was placed in operation. In 1966, the rank of Police Specialist was created.

Table 142.—AN OUTLINE OF CINCINNATI POLICE HISTORY - Page 5

In 1967 the Co-op System of training was inaugurated between the Police Division and U. C. for the cadets. Late October 1967 brought the introduction of the School Resource Officer Program to 96 public schools and 60 parochial schools in the city. For the first time since the Police Division utilized motor vehicles, the color was changed from a dark blue to a gray.

Summer months of 1968 found the uniformed officers wearing white short sleeved shirts. In March 1969 the actual operation of the Regional Crime Information Center began. June 1969 brought about implementations of a recently released International Association of Chief's of Police report through re-grouping of various sections and bureaus. A new Crime Prevention Bureau was established. Community Relations programs were extended to all police districts.

August 1969 construction started on second floor extension and third floor addition, to 310 Lincoln Park Drive. In December 1969 all police functions except detention, moved from City Hall, 9th and Central to 222 E. Central Parkway, the old Alms & Doepke Building.

Early in 1970 District Two was absorbed by District One, reducing the district total to six. The core area of the city also received the first police motor scooter patrol. Late in this year the first policewoman retired and a police uniform for policewomen was created. The Cincinnati Police Division also suffered a severe loss when Chief Jacob Schott passed away.

In January the new Communications Section at Police Headquarters became a reality, replacing Station X. Individual two-way radios with lapel microphones and the Eisenhower type jacket were introduced as standard equipment.

In 1971 brought the appointment of Carl V. Goodin as Police Chief. The concept of team policing known as Community-Sector Team Policing (Com-Sec) was instituted in District One; efforts are continuing to improve and expand this technique. The Police Division is being considered as a recipient of a Police Foundation grant that could amount in value in excess of $6,000,000. Other grants provided programs involving Community Service Assistants, and a Community Relations Mobile Van.

The year of 1972 saw the Division initiate motor scooter patrol in all six districts and this new mode of patrol emerged as particularly effective in crime prevention and public relations. The Alcohol Safety Action Program was formed under a Federal Grant on January 17, 1972 to combat the problems created by the drinking driver. Miracode Rapid Information Retrieval System was inaugurated which allows searches for a single fingerprint or a "mug shot". In a minimum of time by utilizing a numerically coded system.

In 1973 the Police Division implemented Community Sector Team Policing (Com-Sec) in District 1. Funded by the Police Foundation, Com-Sec's primary goal is to combine efforts of citizenry and police in establishing a safe community. Simoultaneously a pilot program to evaluate the efforts of a new investigative model were being conducted in District 5. An investigative skill training program was initiated this year and will be continued in 1974 to furnish each Division member the latest techniques in criminal investigation. A Legal Section was formally established in the Division with the cooperation of the City Solicitor, this was a timely effort in that our Legal Staff effectively coordinated a training program for the new Ohio Criminal Code.

Table 142.--AN OUTLINE OF CINCINNATI POLICE HISTORY - Page 6

Police history is being written every day. Everything that is reflected in the Division's annual reports may not be of interest to posterity, but it is certain that each of the men who patrol the city's 77 square-mile area today performs his duty with the same interest and enthusiasm that his predecessors have shown since earliest policing began in the little frontier town of long ago.

Table 143.--GROWTH OF CINCINNATI AND ITS POLICE FORCE

Year	Population of the City	Total Number of Police Employees	Police per 1000 Population
1790	229		
1800	750*	Soldiers of	-
1803	800*	Ft. Washington	-
1810	2,540	All Male Citizens, Serving	-
1818	9,000	As watchmen, 12 each night	-
1820	9,642	7	.8
1825	15,000	7	.7
1830	24,831	20	1.3
1840	46,338		
1850	115,438		
1860	161,044		
1870	216,239	174	1.1
