FOREWORD

The Arizona Department of Public Safety is pleased to participate in and serve as the coordinating agency for the Arizona Uniform Crime Reporting program.

The purpose of the Arizona Uniform Crime Report 1992 is to provide data regarding the nature and extent of crime throughout the state. This report does not draw conclusions as to the causes of crime. However, it does provide the vital information necessary to assist law enforcement agencies, government, and the public in their approach to crime in our state.

This report is the culmination of a joint effort by our state's law enforcement agencies to collect and organize crime data. The information contained in this report should provide a valuable overview of the crime problem.

Sincere appreciation is expressed to all Arizona law enforcement agencies without whose cooperation this publication would not be possible.

F. J. "RICK" AYARS, COLONEL

Director

HISTORY OF UNIFORM CRIME REPORTING

The Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP) was established in 1927 to initiate a national program for collecting crime information. This Committee's responsibility to provide management information to law enforcement agencies was eventually turned over to the Federal Bureau of Investigation (FBI) in 1930, when the FBI received a Congressional mandate to collect and disseminate national crime information. The IACP has continued to serve the Uniform Crime Reporting (UCR) Program in an advisory capacity and was joined in this responsibility by the Committee on Crime Records of the National Sheriff's Association (NSA) in 1966.

The Arizona Uniform Crime Reporting (AUCR) Section first began receiving voluntary crime information from Arizona law enforcement agencies in January 1975. Prior to this date these agencies submitted their crime data directly to the FBI.

OBJECTIVES OF ARIZONA UCR

Due to increased attention being focused on the problem of crime in our communities in recent years, many segments of our population need more complete information for a variety of reasons.

Law enforcement professionals, managers and administrators who must focus on crime in their own jurisdictions, also need to know what is occurring in surrounding jurisdictions in order to deploy personnel and equipment more efficiently. Researchers and planners need to know what is actually happening to predict trends and recommend changes.

The goal of the Arizona Uniform Crime Report is to identify the nature and extent of criminal activity in this state and present the information needed by each of these groups. This information will not in itself prevent crime, but it may encourage all segments of society, by understanding the problem, to work together with law enforcement agencies to reduce crime through more effective enforcement.

The objectives of the Arizona Uniform Crime Report are: (1) To identify the nature and extent of crime in our state; (2) To provide the management information needed by the law enforcement community to augment their ability to attack the crime problem; (3) To provide our citizens with the most complete information available; (4) To provide legislators with the information necessary to formulate laws which address the crime problem, and (5) To provide sufficient detailed data for researchers and planners.

CONSIDERATIONS FOR INTERPRETATION

Statistics are tools used to summarize information so that patterns or trends become clearer. All statistics must be interpreted with an understanding of just what it is that they can say. Too often information of the type in this report is used incorrectly to draw conclusions that the statistics simply do not support. We ask that great care be taken in analysis and interpretation.

The following factors have a major influence on the statistics presented in this report:

- Crime figures are police statistics as distinguished from the findings of a court, coroner, jury or decision of a prosecutor.
- Density and size of community population.
- Variations in composition of the population, particularly age structure.
- Stability of population with respect to transient factors.
- Economic conditions, including job availability.
- Climate.
- Effective strength of law enforcement agencies; some police jurisdictions overlap.
- Attitudes of citizenry toward crime.
- Crime reporting practices of citizenry.
- Crime rates are based on census-fixed residential populations of police jurisdictions.
- Crimes committed on Indian reservations are not reported to the AUCR program, although their population is included in the state's population figures.
- Incomplete or zero data from reporting agencies or non-participation of some local law enforcement agencies. The number of these agencies will vary from year to year.

To obtain accurate information from many different agencies, the national UCR program had to precisely define the methods for collecting such information as the number of offenses, arrests, clearances and value of stolen or recovered property.

Classification of Offenses

UCR divides offenses into two major classifications which are designated Part I and Part II offenses. This distinction is important to keep in mind because different information is collected for each.

Part I offenses include:

Violent Crimes

- Criminal Homicide
- Forcible Rape
- Robbery
- Aggravated Assault

Property Crimes

- Burglary
- Larceny-Theft
- Motor Vehicle Theft
- Arson

Part II offenses include:

- Other Assaults-simple
- Forgery and Counterfeiting
- Fraud
- Embezziement
- Stolen Property; Buying, Receiving, Possessing, etc.
- Vandalism
- Weapons; Carrying, Possessing, etc.
- Prostitution
- Sex Offenses (except forcible rape and prostitution)
- Narcotic Drug Laws
- Gambling
- Offenses Against Family and Children
- Driving Under the Influence
- Liquor Laws
- Drunkenness (not reported inArizona)
- Disorderly Conduct
- Vagrancy
- All Other Offenses (except traffic)
- Suspicion (not reported in Arizona)
- Curfew and Loitering Law Violations (Juveniles)
- Runaways (Juveniles)

Note: Only arrests are counted for Part II offenses.

All offenses are classified on the basis of law enforcement officer investigation in accordance with UCR offense definitions (which will not necessarily be identical to Criminal Code definitions). Because UCR identifies a police problem, offense classifications are not based on the findings of a court, coroner, jury or decisions of a prosecutor.

Counting of Offenses

The number of offenses is collected only for Part I crimes and simple assault. The method of counting offenses varies with the type of crime committed, and it is important to remember that the number of offenders does not determine the number of offenses.

For murder and nonnegligent manslaughter, negligent manslaughter, rape, aggravated assault and simple assault, one offense is counted for each victim, regardless of the number of offenders involved.

For robbery and larceny-theft, one offense is counted for each distinct operation which is separate in time and place. The number of victims in any one operation does not determine the number of offenses.

For burglary, one offense is counted for each structure which is illegally entered. However, when the structure is an apartment house, business or office building in which units are leaased for a period of time, one offense is counted for each unit burglarized.

For motor vehicle theft, one offense is counted for each vehicle stolen.

Note: Attempts to commit any one of the above are also counted as offenses, except that attempts to kill and assaults to kill are counted as aggravated assaults.

For multiple offenses that occur in one crime incident, only the most serious offense is counted. In cases when an arson occurs in conjunction with other Part I crimes, both are reported. Part I offenses are ranked according to seriousness and appear in order from most serious to least serious under "Classifications of Offenses."

Ciearances

An offense is considered cleared (solved) when at least one offender is arrested for a crime, even though several may have been involved.

Offenses may also be cleared by exceptional means when the offender: commits suicide; makes a dying declaration; confesses while in custody or serving time for another crime; is prosecuted in another jurisdiction for the same offense; is a juvenile who is handled by notifying the parents; when the victim refuses to prosecute or another jurisdiction refuses to extradite the offender.

Clearances are counted as "adult" and "juvenile". A "juvenile" clearance is counted only when juveniles are exclusively involved in the clearance of an offense. If the arrest of both adults and juveniles results in a clearance, it is counted as an "adult" clearance.

Property Stolen and Recovered

The figures for value of property stolen and recovered report the value at each point in time. Although property can increase in value over time, it is more likely that stolen property will be recovered in a damaged condition. Therefore, recovery value does not necessarily represent a "clearance rate" for stolen property, and one cannot use it to determine law enforcement effectiveness in recovering stolen goods. Because stolen and recovered property figures indicate thefts and recoveries in the current year, it is important to note that recovered property may have been stolen in a previous year. In addition, the type and value of stolen or recovered property is reported only for Part I offenses and does not include such Part II offenses as fraud, forgery or embezzlement.

Arrests

Arrest information is collected for all Part I and Part II offenses according to the age, sex and race of the offender. It is not possible, however, to correlate race with sex or specific ages because the information is collected independently, thus limiting analysis. Furthermore, arrest figures cannot be directly related to the number of crimes cleared because arrest totals count all offenders arrested for each offense, and clearance totals count only the offenses for which an arrest(s) or exceptional clearance(s) has occurred.

Reporting Variations and Procedures

Arizona receives Uniform Crime Reports from 93 law enforcement agencies. One must be aware that unintentional variations from UCR guidelines may occur that would affect the validity of the data presented in this report. Offense totals vary from the actual number of offenses that occur because UCR statistics are based on crimes that are reported to law enforcement agencies and many crimes are not reported.

Each contributing law enforcement agency is responsible for compiling its own monthly reports. An FBI UCR handbook is supplied to all contributors outlining reporting procedures in detail and is also complete with examples and illustrations.

POPULATION GROUPING

The crime statistics reported by an individual agency indicates what is happening in one particular area. AUCR groups jurisdictions on the basis of population size and reports crime rates among these groups. The cities, towns and counties within the state have been divided into seven groups according to population size. The seventh group (ungrouped) is provided for identification of volume and type of crime to account for total offenses. This population grouping factor has some influence on the volume and type of crime presented in this report. For use in interpreting this report, the UCR grouping is listed below:

Group No.

- 1. Over 250,000 population. There are four (4) cities that fall within this group.
- 2. 100,001 to 250,000 population. There are four (4) cities and counties that fall within this group.
- 50,001 to 100,000 population. There are six
 (6) cities and counties that fall within this group.
- 4. 25,001 to 50,000 population. There are nine (9) cities and counties that fall within this group.
- 5. 10,001 to 25,000 population. There are twelve (12) cities, towns, and counties that fall within this group.
- 6. 10,000 or less population. There are fifty (50) cities, towns, and counties that fall within this group.
- 7. Ungrouped. There are eight (8) reporting agencies. These are educational institutions and the Department of Public Safety, that by definition do not have measurable population. For purposes of this report, they are combined for the crimes by population distribution.

The following is a listing by population group of law enforcement agencies submitting crime data to the Uniform Crime Reporting Section.

Note: Estimated population figures for these groups are furnished by the Population Statistics Unit, Arizona Department of Economic Security. The total population for the State of Arizona in 1992 was estimated to be 3,858,825.

ARIZONA CRIME CLOCK 1992

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Offenses. This mode of display should not be taken to imply a regularity in the commission of the Offenses; rather, it represents the annual ratio of crime to affixed time intervals.

ARIZONA CRIME CYCLE

The following represents the approximate number of Crime Index Offenses that were reported to Arizona law enforcement agencies every 24 hours during 1992.

STATE CRIME SUMMARY

CRIME INDEX OFFENSES

- There were 264,207 Crime Index Offenses reported in 1992.
- August recorded the highest incidence of offenses with 23,336 reported while February recorded the lowest incidence of offenses with 21,126 reported.
- The value of property stolen amounted to \$255,733,478 in 1992.
- The value of property recovered amounted to \$100,550,637 for a recovery rate of 39.3 percent.
- The crime rate for 1992 for Arizona was 6,846.5 crimes per 100,000 population.

CRIME INDEX ARRESTS/CLEARANCES

- During 1992, a total of 55,605 persons were arrested for Index offenses.
- Adult Index arrests were 36,214 and juvenile arrests were 19,391.
- Males accounted for 76.0 percent of the Index arrests and females accounted for 24.0 percent.
- A total of 56,530 clearances, representing 21.4 percent, of Index Offenses was reported in 1992. Juveniles represented 24.0 percent of this total.

VIOLENT CRIME

OFFENSES

- A total of 25,397 violent crimes were reported in 1992.
- Violent crimes accounted for 9.6 percent of the total Crime Index.
- The highest number of violent crimes was reported in August with 2,401 offenses while the lowest number was reported in November with 1,823 offenses.
- Aggravated assault accounted for the largest incidence of violent crimes with 17,695 offenses while homicide accounted for the smallest with 309 offenses.
- The value of property stolen was \$3,978,454.

ARRESTS/CLEARANCES

- There were 9,628 arrests for violent crimes in 1992.
- Adult arrests were 7,406 and juvenile arrests were 2,222.
- Males accounted for 87.4 percent and females accounted for 12.6 percent.
- A total of 12,822 clearances, representing 50.5 percent, of violent crimes was reported in 1992. Juveniles represented 15.0 percent of this total.

PROPERTY CRIME

OFFENSES

- A total of 238,810 property crimes were reported in 1992.
- Property crimes accounted for 90.4 percent of the total Crime Index.
- The highest number of property crimes was reported in August with 20,935 offenses while the lowest number was reported in June with 18,997 offenses.
- Larceny-theft accounted for the largest incidence of property crimes with 153,865 offenses while arson accounted for the smallest with 1.212 offenses.
- The value of property stolen was \$251,755,024.

ARRESTS/CLEARANCES

- There were 45,977 arrests for property crimes in 1992.
- Adult arrests were 28,808 and juvenile arrests were 17,169.
- Males accounted for 73.6 percent and females accounted for 26.4 percent.
- A total of 43,708 clearances, representing 18.3 percent, of property crimes was reported in 1992. Juveniles represented 26.6 percent of this total.

TOTAL ARRESTS

- There were 247,025 persons arrested in 1992.
- Adult arrests were 193,934 and juvenile arrests were 53,091.
- Males accounted for 80.0 percent and females accounted for 20.0 percent.
- Part I offenses accounted for 55,605 arrests.
- Part II offenses accounted for 191,420 arrests.

There were three (3) agencies that furnished only partial data for 1992. These agencies are located in the following counties: Cochise, Pima and Pinal.

There were two (2) agencies that were unable to furnish any data for 1992. These agencies are located in the following counties: Coconino and Yuma.

The 1992 data for Yuma County listed in all county tables is incomplete. Data was not available for one large agency that had previously reported complete 12 month data for 1991.

^{*}For the purposes of this comparison chart only, statistics from seven agencies have been excluded. These agencies were unable to provide complete reports for a full twelve month period in 1991 and/or 1992. These seven agencies are located in the following counties: Cochise, Coconino, Graham, La Paz, Pima, Pinal and Yuma.

(Figures for 1991 may have been updated and therefore may vary from previously published statistics.)

VALUE OF PROPERTY LOSS BY INDEX CRIME OFFENSE-STATE TOTALS

The table below reflects the amount of property stolen by offense category. Motor vehicle theft accounted for the highest property loss, \$131,818,463, or 52 percent of the total. The next highest category was burglary with \$63,285,712, or 25 percent of the total.

OFFENSE	Number of Offenses	Dist.	Value of Property Stolen	Dist.	Average Value
Murder	309	0.13%	\$ 426	0.00%	\$ 1.38
Rape	1,604	0.65%	18,065	0.01%	11.26

TOTALS	245,300	100.00%	\$255,733,478	100.00%	\$1,042.53

^{*}Motor vehicles that were stolen in conjunction with a more "serious" index offense such as robbery or burglary are not included in this count. This count represents only those instances in which motor vehicle theft was the only or most "serious" offense committed. The total value shown here reflects the value of all property stolen during the commission of the offense (i.e., not just the value of each vehicle).

TYPE AND VALUE OF PROPERTY STOLEN AND RECOVERED-STATE TOTALS

The table below reflects the amount of property stolen and recovered by property type. Locally stolen motor vehicles accounted for the highest property loss in a single category with \$131,569,885. Locally stolen motor vehicles were also the most easily recovered property with a recovery rate of 69 percent or \$91,403,028.

TYPE OF PROPERTY	Value Stolen	Dist.	Value Recovered	Percent Recovered

MURDER AND NONNEGLIGENT MANSLAUGHTER

DEFINITION

The willful (nonnegligent) killing of one person by another. Attempted murders and assaults to murder are classified as aggravated assaults. Suicides, traffic fatalities, accidental deaths, negligent manslaughters, and justifiable homicides are not counted under this classification.

SUMMARY

- There were 309 murders reported during 1992.
- Murder accounted for 0.1 percent of the total Index offenses and 1.2 percent of the total violent crimes.
- December recorded the highest number, with 35, while February recorded the lowest with 16.
- Sunday reported the highest incidence of murders, with 59, while Monday was the lowest with 28.
- The time period of 6:01 PM 2:00 AM recorded the highest number of murders, with 131, while 2:01 AM 10:00 AM was the lowest with 76.
- Firearms were used in 68.9 percent of the murders.
- In murders where the relationship between the victim and offender was known, 24.3 percent were acquaintances.

ARRESTS/CLEARANCES

- A total of 232 persons were arrested in 1992.
- · Adults accounted for 187 arrests and juveniles accounted for 45 arrests.
- Males accounted for 90.9 percent and females accounted for 9.1 percent.
- There were a total of 217 clearances for murder reported in 1992. Juveniles represented 10.6 percent of this total.

^{*}There were 4 murder victims where the race and/or ethnic origin could not be determined.

RAPE

DEFINITION

The carnal knowledge of a female through the use of force or threat of force. Assaults or attempts to commit forcible rape are also included; however, statutory rape (without force) and other sex offenses are not counted in this category.

SUMMARY

- There were 1,604 rapes reported during 1992.
- Rape accounted for 0.6 percent of the total Index offenses and 6.3 percent of violent crimes.
- July recorded the highest number, with 152, while November recorded the lowest with 99.
- Of the total rapes, forcible accounted for 1,288 and attempted accounted for 316.

ARRESTS/CLEARANCES

- A total of 353 persons were arrested in 1992.
- Adults accounted for 285 arrests and juveniles accounted for 68 arrests.
- There were a total of 580 clearances for rape reported in 1992. Juveniles represented 11.7 of this total.

RAPE BY POPULATION GROUP

ROBBERY

DEFINITION

The taking or attempting to take anything of value from the care, custody, or control of a person by force or threat of force and/or by putting the victim in fear.

SUMMARY

- There were 5,789 robberies reported during 1992.
- Robbery accounted for 2.2 percent of the total Index offenses and 22.8 percent of the violent crimes.
- August recorded the highest number, with 551, while April and July recorded the lowest with 448.
- Robberies occurring on highways (streets, alleys, and sidewalks) recorded the highest number, with 3,084 or 53.3 percent of all robberies.
- Gas or service station robberies had the lowest number, with 110, or 1.9 percent of all robberies.
- Robberies occurring on highways (streets, alleys, and sidewalks) had the highest total dollar loss, with \$1,354,217.
- Bank robberies had the highest dollar loss per robbery, with \$2,865.
- Firearms represented the most common weapon used in 2,074 robberies, or 35.8 percent.

ARRESTS/CLEARANCES

- A total of 1,607 persons were arrested in 1992.
- Adults accounted for 1,134 arrests and juveniles accounted for 473 arrests.
- Males accounted for 91.2 percent and females accounted for 8.8 percent.
- There were a total of 1,692 clearances for robbery reported in 1992. Juveniles represented 15.0 percent of this total.

AGGRAVATED ASSAULT

DEFINITION

The unlawful attack by one person upon another for the purpose of inflicting severe bodily injury usually accompanied by the use of a weapon or other means likely to produce death or serious bodily harm.

SUMMARY

- There were 17,695 aggravated assaults reported during 1992.
- Aggravated assault accounted for 6.7 percent of the total Index offenses and 69.7 percent of the violent crimes.
- July recorded the highest number, with 1,677, while November recorded the lowest with 1,222.
- Firearms represented the most common weapon used in 5,718 aggravated assaults, or 32.3 percent.
- There were 42,783 simple assaults reported in 1992. Simple assault is primarily differentiated from aggravated assault by the seriousness of the injury and the weapon used. Simple assault is not a Crime Index offense but is reported here for the purpose of showing the total assault violence.

ARRESTS/CLEARANCES

- A total of 7,436 persons were arrested in 1992.
- Adults accounted for 5,800 arrests and juveniles accounted for 1,636 arrests.
- Males accounted for 85.9 percent and females accounted for 14.1 percent.
- There were a total of 10,333 clearances for aggravated assault reported in 1992. Juveniles represented 15.2 percent of this total.

BURGLARY

DEFINITION

The unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify the crime as a burglary. A structure is considered to include, but not limited to, the following: dwelling houses, apartments, public buildings, offices, barns, cabins, etc. Burglary is divided into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

SUMMARY

- There were 52,884 burglaries reported during 1992.
- Burglary accounted for 20.0 percent of the total Index offenses and 22.2 percent of the property crimes.
- October recorded the highest number, with 4,734, while June recorded the lowest with 4,051.
- Forcible entry was used in 31,600, or 59.8 percent of the total burglaries.
- Residential burglaries accounted for 38,540, or 72.9 percent of the total burglaries.
- In burglaries where the time of occurrence was known, 15,034, or 28.4 percent occurred between the hours of 6 AM - 6 PM.
- Residential burglaries accounted for the highest property loss, \$45,530,156.

ARREST/CLEARANCES

- A total of 7,640 persons were arrested in 1992.
- Adults accounted for 4,038 arrests and juveniles accounted for 3,602 arrests.
- Males accounted for 89.3 percent and females accounted for 10.7 percent.
- There were a total of 6,001 clearances for burglary reported in 1992. Juveniles represented 27.5 percent of this total.

LARCENY-THEFT

DEFINITION

The unlawful taking or stealing of property or articles from the possession of another without the use of force, violence, or fraud. This crime category does not include embezzlement, fraud, counterfeiting, or worthless checks.

SUMMARY

- There were 153,865 larceny-thefts reported during 1992.
- Larceny-theft accounted for 58.2 percent of the total Index offenses and 64.4 percent of the property crimes.
- December recorded the highest number, with 13,221, while June was the lowest with 12,462.
- Larceny-theft in the under \$50 category reported the highest number of incidents, with 70,344, or 45.7 percent.
- Shoplifting accounted for 32,122 larceny-thefts or 20.9 percent.

ARRESTS/CLEARANCES

- A total of 34,537 persons were arrested in 1992.
- Adults accounted for 23,208 arrests and juveniles accounted for 11,329 arrests.
- Males accounted for 68.5 percent and females accounted for 31.5 percent.
- There were a total of 33,498 clearances for larceny-theft reported in 1992. Juveniles represented 25.0 percent of this total.

MOTOR VEHICLE THEFT

DEFINITION

The unlawful taking or stealing of a motor vehicle including attempts and joyriding. This definition excludes the taking for temporary use by those persons having lawful access to the vehicle.

SUMMARY

- There were 30,849 motor vehicle thefts reported during 1992.
- Motor vehicle theft accounted for 11.7 percent of the total Index offenses and 12.9 percent of the property crimes.
- August recorded the highest number, with 3,009, while May recorded the lowest with 2,273.
- Autos represented the highest single category of motor vehicle theft, with 20,399, or 66.1 percent.
- Recovered motor vehicles that were locally stolen amounted to 23,709 or a 76.9 percent recovery rate.
- The total dollar loss amounted to \$131,569,885. Of that amount, \$91,403,028 was recovered. The recovered amount reflects the value of the vehicle when recovered and may be lower than the value when stolen because of missing parts or damage.

ARRESTS/CLEARANCES

- A total of 3,461 persons were arrested in 1992.
- Adults accounted for 1,433 arrests and juveniles accounted for 2,028 arrests.
- Males accounted for 88.6 percent and females accounted for 11.4 percent.
- There were a total of 3,953 clearances for motor vehicle theft reported in 1992. Juveniles represented 37.3 percent of this total.

ARSON

DEFINITION

Arson is defined by the national Uniform Crime Reporting Program to include any willful or malicious burning or attempts to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Fires of suspicious or unknown origins are excluded.

SUMMARY

- There were 1,212 arsons reported during 1992.
- Arson accounted for 0.5 percent of the total Index offenses and 0.5 percent of the property crimes.
- June recorded the highest number, with 141, while December recorded the lowest with 76.
- Structural arson accounted for 589 offenses or 48.6 percent.
- Motor vehicle arson accounted for the highest single known category, with 236, while industrial/manufacturing arson was the lowest with 3.

ARRESTS/CLEARANCES

- A total of 339 persons were arrested in 1992.
- Adults accounted for 129 arrests and juveniles accounted for 210 arrests.
- Males accounted for 83.8 percent and females accounted for 16.2 percent.
- There were a total of 256 clearances for arson reported in 1992. Juveniles represented 58.6 percent of this total.

ARREST SUMMARY

- There were a total of 247,025 arrests reported in 1992.
- Arrests for Part I offenses amounted to 55,605, or 22.5 percent.
- Arrests for Part II offenses amounted to 191,420, or 77.5 percent.
- Adult arrests were 193,934, or 78.5 percent, and juvenile arrests were 53,091, or 21.5 percent.
- Males accounted for 197,679 arrests, or 80.0 percent, and females accounted for 49,346, or 20.0 percent.
- Arrests for adults between the ages of 25-29 recorded the highest number with 36,977, or 19.1
 percent of the total adult arrests.
- Arrests for juveniles age 12 and under were 6,375, or 12.0 percent of the total juvenile arrests.
- Larceny-theft recorded the highest number of arrests of a specific offense with 34,537, or 14.0 of the total.

POLICE OFFICER ASSAULTS

DEFINITION

All assaults on sworn officers resulting in serious injury or in which a weapon was used that could have caused serious injury or death. Also included are assaults not causing injury which involved more than mere verbal abuse or minor resistance to arrest.

SUMMARY

- There were a total of 1,586 police officers assaulted statewide in 1992.
- Personal weapons, such as hands, fists, and feet, were used in 1,306 assaults, or 82.3 percent.
- The time period of 12:01 AM to 2:00 AM recorded the highest incidence of assaults with 283, or 17.8 percent.
- The highest number of assaults, 614, or 38.7 percent, occurred when officers were responding to disturbance calls.
- Personal injuries were sustained in 264 assaults, or 16.6 percent.

CLEARANCES

 There were a total of 1,543 clearances for assaults on police officers. This represents a clearance rate of 97.3 percent.

BIAS (HATE) CRIME DATA COLLECTION

BACKGROUND

The collection of bias (hate) crime statistics is the latest addition to the Uniform Crime Reporting program. It reflects a growing concern on both a federal and state level to the problem of crimes being committed due to bias or hate.

The collection of these statistics began with the passage of Public Law 101-275, known as the Hate Crime Statistics Act, in April 1990. The Act required the Attorney General to establish guidelines and collect data "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity, including where appropriate the crimes of murder, non-negligent manslaughter; forcible rape; aggravated assault, simple assault, intimidation; arson; and destruction, damage or vandalism of property."

In Arizona, legislation mandating the collection of bias (hate) crime statistics was passed in 1991. Arizona Revised Statutes 41-1750 was amended in part to read that the criminal identification section within the Department of Public Safety shall "Collect information concerning criminal offenses that manifest evidence of prejudice based on race, color, religion, national origin, sexual orientation, gender or disability."

Statewide collection began January 1992. Statistics received from Arizona law enforcement agencies are listed on the following pages.

BIAS (HATE) CRIMES

DEFINITION

A criminal offense committed against a person or property which is motivated, in whole or in part, by the offender's bias against a race, religion, ethnic/national origin group, sexual orientation group, gender, or disability.

SUMMARY

- There were 172 actual incidents of bias crimes reported in 1992 involving 179 offenses.
- Intimidation accounted for 66 offenses, or 37 percent, followed by simple assault with 49 offenses and aggravated assault with 38 offenses.
- The residence/home accounted for the most frequent location of occurence of bias offenses with 65 or 36 percent.
- Racial bias accounted for 107 of all bias offenses, or 60 percent, followed by sexual orientation bias with 33 offenses or 18 percent.
- The most frequently reported known suspected offenders' race was white, reported in 114 offenses, or 64 percent, followed by black with 16, American Indian with 3, and multi-racial with 3. In 43 bias offenses, the suspected offenders' race was reported as unknown.

FULL-TIME LAW ENFORCEMENT EMPLOYEES

DEFINITION

The following chart reflects full-time law enforcement personnel employed as of October 31, 1992. These figures include full-time sworn personnel with full arrest powers; however they do not include persons performing guard or protection duties, such as school crossing guards, nor reserve officers. Civilian employees include clerks, dispatchers, secretaries, etc. who are employed full-time and are paid from law enforcement funds or budget.
