## ACKNOWLEDGMENTS

*Drug Use as Predictor of Rearrest or Failure to Appear* has been deposited at the Data Resources Program of the National Institute of Justice, Sociometrics Corporation, for public distribution, by Eric D. Wish of the Center for Substance Abuse Research. Data collection was funded by the National Institute of Justice under Award No. 83-IJ-CX-K048. Funding for the work done by the Data Resources Program to prepare the data for public use was provided by the U. S. Office of Justice Programs under Contract No. OJP-89-C-008 to Sociometrics Corporation.

Users of the data are strongly urged to inform the Data Resources Program of any errors or discrepancies. They are further urged to bring to the attention of the Data Resources Program all problems and difficulties encountered, particularly those that may prevent effective and convenient use of the data.

All manuscripts based on data made available through the Data Resources Program should acknowledge that fact as well as cite the data set (see suggested citation format, inside front cover). Users of these data are urged to follow some adaptation of the following statement.

The data used in this publication were made available by the Data Resources Program of the National Institute of Justice, Sociometrics Corporation, 170 State Street, Suite 260, Los Altos, CA 94022-2812. The study entitled *Drug Use as Predictor of Rearrest or Failure to Appear* was conducted by Eric D. Wish, Center for Substance Abuse Research. Data collection was funded by the National Institute of Justice (Award No. 83-IJ-CX-K048). Funding support for preparing the revised documentation for public distribution was provided by a contract (OJP-89-C-008) between the U. S. Office of Justice Programs and Sociometrics Corporation. The original investigators, funding agency, and the Data Resources Program are not responsible for the analyses or interpretations presented here.

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about Data Resources Program participants' research activities, each user of these resources is requested to send a copy of each completed manuscript, thesis abstract, or reprint to the Data Resources Program of the National Institute of Justice, Sociometrics Corporation, 170 State Street, Suite 260, Los Altos, CA 94022-2812.

## SUMMARY

The purpose of this study was 1) to estimate the prevalence of drug use and drug use trends among booked arrestees in New York City; and 2) to assess the relationship between drug use and crime. It is important to note that this study was conducted before the use of cocaine processed for smoking--"crack"--became prevalent in New York City. Therefore, this study may be used in conjunction with more recent studies to assess the impact of the use of crack on specific crime rates. Finally, this study ultimately served as a preliminary study for the Drug Use Forecasting (DUF) study. The Drug Use Forecasting program, conducted by the National Institute of Justice, has interviewed and administered drug tests to thousands of booked arrestees in various cities across the United States annually since 1987.

During a 6 month period in 1984 research staff obtained voluntary interview information and urine specimens from 6,406 male arrestees. Participation in the interview regarding prior and current drug use and provision of a urine specimen was voluntary. Also collected were police and court records of prior criminal behavior and experience with the criminal justice system, and records of the arrestee's current case, including court warrants, rearrests, failures to appear, and court dispositions. The data are contained in one file. All male arrestees who were approached by project staff are included in the data file. Of those who were approached, 90 percent consented to an interview (n = 5,747), and 84 percent of those interviewed provided a specimen (n = 4,851).

## GENERAL STUDY OVERVIEW

Source: Wish, Eric D. (1987). *Drug Use in Arrestees in Manhattan: The Dramatic Increase in Cocaine From 1984 to 1986*. New York: Narcotic and Drug Research

### Study Identification

*Drug Use as Predictor of Rearrest or Failure to Appear*

*Eric D. Wish*

*Center for Substance Abuse Research*

*Award No. 83-II-CX-K048*

### Key Words

Arrestees, crime and drugs, drug dependency, drug treatment, drug use, rearrest, failure to appear, urinalysis

### Purpose of the Study

This study was used to estimate the prevalence of drug use and drug use trends among booked arrestees in New York City. Studies addressing the prevalence of drug use do not typically include the population of offenders. It is important to include this population because research has shown that criminals are among the most serious drug abusers, and thus studies that exclude them from analyses may seriously underestimate the level of drug use.

Also, this study was used to assess the relationship between drug use and crime. Investigated are the prevalence of crime types before and at the index arrest, and during the criminal justice process itself (i.e., rearrest and failure to appear). Findings from this study may have implications for the allocation of criminal justice funds to drug abuse treatment and prevention programs. It is important to note that this study was conducted before the use of cocaine processed for smoking--"crack"--became prevalent in New York City. Therefore, this study may be used in conjunction with more recent studies to assess the impact of the use of crack on specific crime rates.

Finally, this study ultimately served as a preliminary study for the Drug Use Forecasting (DUF) study. The Drug Use Forecasting program, conducted by the National Institute of Justice, has interviewed and administered drug tests to thousands of booked arrestees in various cities across the United States annually since 1987.

The data address the following questions:

1. What is the relationship between drug use and rearrest or failure to appear in court?
2. What is the relationship between drug use and criminal history?
3. What types of drugs did male arrestees use in New York City in 1984?
4. Among arrestees reporting drug use, what is the level of dependency on drugs? (Self-report data)

5. How consistently does self-reported drug use match urinalysis findings?

**Methods**

*Study Design*

This study was a non-experimental investigation of drug use among arrestees in New York City. Narcotic and Drug Research Institute (NDRI) staff were stationed in Manhattan Central Booking during a 6 month period in 1984 to obtain voluntary interview information and urine specimens from 6,406 male arrestees. In requesting participation, priority was given to persons charged with nondrug felony offenses. Participation in the interview regarding prior and current drug use and the provision of a urine specimen was voluntary. Also collected for each arrestee approached for an interview were police and court records of prior criminal behavior and experience with the criminal justice system, and records of the arrestee's current case, including court warrants, rearrests, failures to appear, and court dispositions. Names of arrestees, not included in the data, were obtained in order to track each person's case disposition. Finally, urine specimens were collected at the time of the interview. The New York State laboratory in Brooklyn analyzed the urine specimens, testing for opiates, cocaine, PCP, and methadone. Methods for urinalysis included EMIT and thin layer chromatography (TLC).

*Sources of Information*

Data were obtained through voluntary interviews about prior and current drug use, voluntary urine samples and urinalysis results, and police and court records of prior criminal behavior and experience with the criminal justice system, and records of the arrestee's current case, including court warrants, rearrests, failures to appear, and court dispositions.

*Sample*

Data from interviews, urine specimens, and court and police records were collected nonrandomly from 6,406 male arrestees who were booked at Manhattan Central Booking from April to October, 1984. In requesting participation in the study, priority was given to persons charged with nondrug felony offenses. Twenty percent of the arrestees in the interviewed sample were charged with a drug offense, and 76 percent were charged with a felony offense. With regard to drug use, the data show that 56 percent among those in the sample who provided a specimen tested positive for opiates, cocaine, PCP, or methadone.

*Response Rates*

All male arrestees who were approached by NDRI staff are included in the data file. Of those who were approached, 90 percent consented to an interview (n = 5,747), and 84 percent of those interviewed provided a specimen (n = 4,851).

*Dates of Data Collection*

The data were collected from April to October, 1984.

## Summary of Contents

### *Description of Variables*

Included in the data file JU133W.DAT are demographic variables, including age, education, vocational training, marital status, residence, employment; items relating to prior and current drug use and drug dependency; urinalysis results for tests for opiates, cocaine, PCP, and methadone; arrest charge for index crimes and subsequent court records pertaining to those arrests (i.e., number of court warrants issued, number of pretrial rearrests, type of rearrests, failure to appear in court, court dispositions); and prior criminal records (i.e., number of times arrested for, convicted of "x" crimetype, past court dispositions).

### *Presence of Common Scales*

None.

### *Unit of Observation*

The individual arrestee.

### **Geographic Coverage**

New York City, New York.

### **Evaluation**

#### *Data Quality*

Frequency checks reveal a large number of missing values. However, the number of missing values may be overestimated since for some variables, it is difficult to distinguish between missing and nonapplicable cases. Checks for out-of-range values show that the data are relatively clean of detectable coding error. See Tables 1 through 4 of the Data Completeness Report for more details.

#### *Data Limitations*

The nature of the sampling method precludes using the data set to make generalizations about arrestees. The sample was drawn from a single geographical location, Brooklyn. Also, priorities were given in sample selection to certain types of arrests, but weights are not provided to correct for this disproportionate sampling.

Also, as indicated in the codebook, the archivist and investigator were unable to provide clear documentation for some variable and value labels. This was due to circumstances related to the length of time between when the study was originally conducted and when the data were archived. Please refer to the codebook for more information.

## SPECIFICATIONS FOR MACHINE-READABLE FILES

### Available Formats

Machine-readable Archive files are available in both mainframe and microcomputer formats. Unless otherwise requested, files formatted for a mainframe computer are provided on a 9-track tape at a density of 6250 bpi, in EBCDIC recording mode with IBM Standard Labels. Files formatted for a microcomputer are provided in ASCII format on high- and low-density, 5¼" or 3½" diskettes, at the user's request.

### File Structure

Data File (1):	Raw data, 89,684 records
Unit:	The individual arrestee.
Variables:	520
Cases:	6,406

### Mainframe Orders

	Contents	LRECL	BLKSIZE	Feet of tape at 6250 bpi
File	Raw data, EBCDIC format	117	32720	105.5

### Microcomputer Orders

#### High-Density 5¼" Diskettes

	Contents	Diskette	File Name	Bytes
File 1	Data, compressed, split	1	JU133H51.EXE	905,847
File 1	Data, compressed, split	2	JU133H52.EXE	895,461

The data file is compressed and split; when uncompressed and reconstituted the data file requires 7,405,336 bytes of disk space. To reconstitute the data file from the split and compressed files on the distribution diskettes and to place it on your hard disk, do the following:

- (1) Make sure you have more than 9,142,302 bytes of disk space available on the hard disk drive on which you want to install the data. (Extra disk space is needed temporarily during installation.)
- (2) Place Diskette 1 in the floppy drive (A: or B:) from which you plan to install the data.
- (3) Change to the installation drive (A: or B:) and type:

INSTALL *d directory a*

where *d* is the drive and *directory* is the directory in which you want the data to be installed and where *a* is the installation drive. (Notes: There must be spaces between INSTALL, *d*, *directory*, and *a*. If *directory* does not exist, INSTALL will create it.) Then follow the instructions given during installation.

When the installation is complete you will have the data file, JU133W.DAT, with 7,405,336 bytes, on the drive and in the directory that you specified.

#### High-Density 3½" Diskettes

	Contents	Diskette	File Name	Bytes
File 1	Data, compressed, split	1	JU133H31.EXE	905,847
File 1	Data, compressed, split	2	JU133H32.EXE	895,461

The data file is compressed and split; when uncompressed and reconstituted the data file requires 7,405,336 bytes of disk space. To reconstitute the data file from the split and compressed files on the distribution diskettes and to place it on your hard disk, do the following:

- (1) Make sure you have more than 9,142,302 bytes of disk space available on the hard disk drive on which you want to install the data. (Extra disk space is needed temporarily during installation.)
- (2) Place Diskette 1 in the floppy drive (A: or B:) from which you plan to install the data.
- (3) Change to the installation drive (A: or B:) and type:

INSTALL *d directory a*

where *d* is the drive and *directory* is the directory in which you want the data to be installed and where *a* is the installation drive. (Notes: There must be spaces between INSTALL, *d*, *directory*, and *a*. If *directory* does not exist, INSTALL will create it.) Then follow the instructions given during installation.

When the installation is complete you will have the data file, JU133W.DAT, with 7,405,336 bytes, on the drive and in the directory that you specified.

#### Low-Density 3½" Diskettes

	Contents	Diskette	File Name	Bytes
File 1	Data, compressed, split	1	JU133L31.EXE	608,801
File 1	Data, compressed, split	2	JU133L32.EXE	606,414
File 1	Data, compressed, split	3	JU133L33.EXE	599,387

The data file is compressed and split; when uncompressed and reconstituted the data file requires 7,405,336 bytes of disk space. To reconstitute the data file from the split and compressed files on the distribution diskettes and to place it on your hard disk, do the following:

- (1) Make sure you have more than 8,815,551 bytes of disk space available on the hard disk drive on which you want to install the data. (Extra disk space is needed temporarily during installation.)
- (2) Place Diskette 1 in the floppy drive (A: or B:) from which you plan to install the data.
- (3) Change to the installation drive (A: or B:) and type:

INSTALL *d directory a*

where *d* is the drive and *directory* is the directory in which you want the data to be installed and where *a* is the installation drive. (Notes: There must be spaces between INSTALL, *d*, *directory*, and *a*. If *directory* does not exist, INSTALL will create it.) Then follow the instructions given during installation.

When the installation is complete you will have the data file, JU133W.DAT, with 7,405,336 bytes, on the drive and in the directory that you specified.

#### Low-Density 5¼" Diskettes

	Contents	Diskette	File Name	Bytes
File 1	Data, compressed, split	1	JU133L51.EXE	311,855
File 1	Data, compressed, split	2	JU133L52.EXE	310,288
File 1	Data, compressed, split	3	JU133L53.EXE	310,541
File 1	Data, compressed, split	4	JU133L54.EXE	309,157
File 1	Data, compressed, split	5	JU133L55.EXE	303,492
File 1	Data, compressed, split	6	JU133L56.EXE	309,242

The data file is compressed and split; when uncompressed and reconstituted the data file requires 7,405,336 bytes of disk space. To reconstitute the data file from the split and compressed files on the distribution diskettes and to place it on your hard disk, do the following:

- (1) Make sure you have more than 8,488,911 bytes of disk space available on the hard disk drive on which you want to install the data. (Extra disk space is needed temporarily during installation.)
- (2) Place the Installation Diskette in the floppy drive (A: or B:) from which you plan to install the data.
- (3) Change to the installation drive (A: or B:) and type:

INSTALL *d directory a*

where *d* is the drive and *directory* is the directory in which you want the data to be installed and where *a* is the installation drive. (Notes: There must be spaces between INSTALL, *d*, *directory*, and *a*. If *directory* does not exist, INSTALL will create it.) Then follow the instructions given during installation.

When the installation is complete you will have the data file, JU133W.DAT, with 7,405,336 bytes, on the drive and in the directory that you specified.

## DATA COMPLETENESS REPORT

This section presents information regarding the quality of the data in this Data Set. Tables 1 and 2 indicate the extent and location of out-of-range values, and Tables 3 and 4 summarize the incidence of missing data.

Number of Cases: 6406  
 Number of Variables: 520

**Table 1. Distribution of Variables by Percentage of Out-of-Range Values**

Percent of Cases with Out-of-Range Values	Distribution of Variables By Percent Out-of-Range Values	
	Number	Percent
> 0% to 0% (0 cases)	511	98.3%
> 0% to 1% (1 to 64 cases)	7	1.3%
> 1% to 3% (65 to 192 cases)	2	0.4%
> 3% to 5% (193 to 320 cases)	0	0.0%
> 5% to 10% (321 to 640 cases)	0	0.0%
> 10% to 20% (641 to 1281 cases)	0	0.0%
> 20% to 40% (1282 to 2562 cases)	0	0.0%
> 40% to 100% (2563 to 6406 cases)	0	0.0%
<b>Total</b>	<b>520</b>	<b>100.0%</b>

**Table 2. List of Variables With Out-of-Range Values**

Variable Name and Label	Out-of-Range Values	Number of Cases
MISFEL Misdemeanor or felony?	3	22
PREARRST CJA count of arrest before index arrest	-1	3
CFIRA First arrest?	3	47
CRDPR2 Updated case level	9,10,11	179
V5050 Ever arrested on violent charges?	26,27	2
V5074 Criminal or supreme court pretrial time	-5	1
V5077 Supreme court pretrial time	-349	1
V5084 Time free thru disposition (Supreme court or crim crt)	6	152
V5182 Total num days free since arraignment	-1	1

*Note.* The variable names used here are those used in the codebook.

**Table 3. Distribution of Variables by Percentage of Missing Values**

Percent of Cases with Missing Values			Distribution of Variables By Percent Missing Values	
			Number	Percent
> 0%	0%	(0 cases)	102	19.6%
> 0% to 1%	1%	(1 to 64 cases)	36	6.9%
> 1% to 3%	3%	(65 to 192 cases)	149	28.7%
> 3% to 5%	5%	(193 to 320 cases)	54	10.4%
> 5% to 10%	10%	(321 to 640 cases)	166	31.9%
> 10% to 20%	20%	(641 to 1281 cases)	9	1.7%
> 29% to 40%	40%	(1282 to 2562 cases)	2	0.4%
> 40% to 100%	100%	(2563 to 6406 cases)	1	0.2%
<b>Total</b>			<b>520</b>	<b>100.0%</b>

*Note.* The number of missing values may be overestimated in this table since, for some variables, it is difficult to distinguish missing from nonapplicable cases.

**Table 4. List of Variables With Over 5% Missing Values (321 Missing Values or More)**

Variable Name and Label	Number of Cases
There are too many variables to present in this table.

INTERVIEWER: COMPLETE THIS BOX BEFORE  
BEGINNING INTERVIEW:

A 8 \_\_\_\_\_

1. What is the highest grade or educational level you have completed?  
(H.S. grad= 12; 1 yr college= 13; GED=35) I 01

1A. What is your current marital status?

- single, never married.....1
- married.....2
- separated, divorced.....3
- living common law.....4
- widowed.....5

I 02

2. In the month before this arrest were you mainly employed full or part-time in a legitimate job, or were you mainly in school or prison/jail?

- unemployed.....(ASK A).....1
- emp full-time..(ASK B).....2
- emp part-time..(ASK B).....3
- only odd jobs..(ASK B).....4
- mainly in school...(GO TO Q.3).....5
- in jail or prison..(GO TO Q.3).....6

I 03

A. IF R UNEMPLOYED: Have you applied for a job in the past 6 months?

- No...(ASK A.1).....1
- Yes..(ASK A.1).....2

I 04

A.1 Why not or what happened? (Record only a brief summary)

I 05

A.2 Do you now need some type of job training program?

- No.....1
- Yes.....2

I 06

B. IF R EMPLOYED: Type of job: \_\_\_\_\_

3. When were you arrested (this time)?

\_\_\_/\_\_\_/19\_\_ I 07

4. At about what time was this?

I 08 : \_\_\_ AM-1 PM-2 I 09

5. Have you ever received any treatment or detox for drugs or alcohol?

- No...(GO TO Q.5).....1
- Yes.....(ASK A).....2

I 10

A. IF YES: What type of treatment?

Are you currently receiving this?  
(Circle each currently in)

- methadone maintenance.....1. I 11 ..... 1 I 16
- residential drug or TC.....2. I 12 ..... 2 I 17
- any outpatient or detox.....3. I 13 ..... 3 I 18
- Rockefeller or other program.....4. I 14 ..... 4 I 19
- any alcohol treatment.....5. I 15 ..... 5 I 20

6. Do you feel that you now need some treatment (IF IN RX NOW, ASK: Do you now to continue in or have additional treatment) for drug or alcohol use?

- No.....1
- Yes, drug only.....2
- Yes, alc only.....3
- Yes drug and alc.....4

I21

7. Have you EVER used (READ DRUG)?	IF YES: Have you ever felt DEP on?	IF R EVER FELT DEPENDENT ASK: Age FIRST DEP on?	Are you NOW DEP (YES-CIRCLE IT)
Alcohol 1 I22	1 I23	I24	I25
Marijuana 2 I26	2 I27	I28	I29
✓ Heroin 3 I30	3 I31	I32	I33
✓ Cocaine 4 I34	4 I35	I36	I37

IF R EVER USED COCAINE: How do you usually take cocaine?

I38	Snort-1	Inject coc only-2	Inject with heroin-3	Free-base-
✓ PCP	5 I39	5 I40	I41	5 I42
✓ Street Methadone	6 I43	6 I44	I45	6 I46
✓ Methadone in RX	7 I47	7 I48	I49	7 I50

8. During the 24-48 hours before this arrest did you use any: (YES-CIRCLE)

- Alcohol.....1 I51
- ✓ Street methadone.....6 I56
- Marijuana/hash....2 I52
- Methadone in RX.....7 I57
- ✓ Heroin.....3 I53
- Downers (Val, ludes).....8 I58
- ✓ Cocaine.....4 I54
- Uppers (speed, diet pills).....9 I59
- ✓ PCP.....5 I55
- Any other drugs for medical or nonmedical use? (SPECIFY BELOW).....10
- Other Drugs: \_\_\_\_\_

I61

URINE SPECIMEN: Refused ...1 Couldn't urinate.....2 Provided specimen.

I certify that I have told this respondent that providing the urine specimen is voluntary and that his/her name will not appear on the specimen container, and I believe that s/he understands this consent procedure.

Signed: \_\_\_\_\_

## Drug Abuse as Predictor of Rearrest or Failure to Appear

Eric D. Wish

*Codebook*

Prepared by  
Sociometrics Corporation

## CODEBOOK NOTES

1. The data are coded in ASCII format as raw data. Fourteen records of up to 117-columns are used to code the data. Each record starts with a four-column ID number and a one-column record number. For each variable the codebook provides a short variable name, a longer descriptive label, the record number on which the variable is coded, the starting and ending column positions within the record, and the format by which the data are to be read. Fw.d refers to standard numeric format where w indicates the total number of columns used to code the variable, including any decimal points, and d indicates the number of positions to the right that are interpreted as decimals. String format - Aw - is used to read character data, in which w indicates that total column width of the character string.
2. "Index arrest" refers to the arrest for which the arrestee was selected by the investigators to be interviewed.
3. Most dates, as indicated, are provided as Gregorian dates.
4. The archivist and investigator were unable to provide clear documentation for some variable and value labels. This was due to circumstances related to the length of time between when the study was originally conducted and when the data were archived. Such variable labels and value labels are identified with an asterisk (\*).
5. Unless indicated otherwise, blank fields and codes of 9, 99, 999, etc. represent missing data.
