## Bureau of Justice Statistics reports

(Revised September 1994)

Call toll-free 800-732-3277 to order BJS reports, to be added to one of the BJS mailing lists, or to speak to a reference specialist in statistics at the Bureau of Justice Statistics Clearinghouse, P.O. Box 179, Annapolis Junction, MD 20701-0179; or fax orders to 410-792-4358. For drugs and crime data, call the Drugs & Crime Data Center & Clearinghouse, 1600 Research Blvd., Rockville, MD 20850, toll-free 800-666-3332..

### BJS maintains these mailing lists:

- Law enforcement reports
- Federal statistics
- Drugs and crime data
- Justice expenditure and employment
- Privacy and security of criminal histories and criminal justice information policy
- BJS bulletins and special reports
- State felony courts
- Corrections
- National Crime Victimization Survey
- Sourcebook of Criminal Justice Statistics (annual)

Single copies of reports are free; use title, NCJ number to order. Postage and handling are charged for bulk orders of single reports. For single copies of multiple titles, up to 10 titles are free; 11-40 titles \$10; more than 40, \$20; libraries call for special rates.

Public-use tapes, disks, and CD-ROM's of BJS data sets and other criminal justice data are available from the National Archive of Criminal Justice Data (formerly CJAIN), P.O. Box 1248, Ann Arbor, MI 48106 (toll-free 800-999-0960).

## National Crime Victimization Survey

Police response to crime, NCJ 143286, 10/94  
Criminal victimization in the U.S.:

1973-92 trends, NCJ-147006, 8/94  
1992 (final), NCJ-145125, 4/94

Violent crime: Selected findings, NCJ-147486, 4/94

Elderly crime victims: Selected findings, NCJ-147186, 3/94

Violence against women, NCJ-145325, 1/94  
Highlights from 20 years of surveying crime victims: 1973-92, NCJ-144525, 10/93

Crime and older Americans information package, NCJ-140091, 4/93, \$15

Crime victimization in city, suburban, and rural areas, NCJ-135943, 6/92

School crime, NCJ-131645, 9/91

Teenage victims, NCJ-128129, 5/91

The Nation's two crime measures: Uniform Crime Reports and the National Crime Survey, NCJ-122705, 4/90

Redesign of the National Crime Survey, NCJ-111457, 3/89

The seasonality of crime victimization, NCJ-111033, 6/88

Victimization and fear of crime: World perspectives, NCJ-93872, 1/85, \$9.15

The National Crime Survey: Working papers, Vol. I, History, NCJ-75374, 8/82

Vol. II, Methodology, NCJ-90307, 1/85, \$9.90

### BJS crime data briefs

Violence and theft in the workplace, NCJ-148199, 7/94

Child rape victims, 1992, NCJ-147001, 6/94

Crime and neighborhoods, NCJ-147005, 6/94

Guns and crime: Handgun victimization, firearm self-defense, and firearm theft, NCJ-147003, 4/94

Carjacking, NCJ-147002, 3/94

Costs of crime to victims, NCJ-145865, 2/94

### BJS bulletins

Criminal victimization 1992, NCJ-144776, 11/93

Crime and the Nation's households, 1992, NCJ-143288, 9/93

### BJS special reports

Black victims, NCJ-122562, 4/90

Hispanic victims, NCJ-120507, 1/90

Motor vehicle theft, NCJ-109978, 3/88

Robbery victims, NCJ-104638, 4/87

Violent crime by strangers and non-strangers, NCJ-103702, 1/87

Preventing domestic violence against women, NCJ-102037, 8/86

### BJS technical reports

New directions for NCS, NCJ-115571, 3/89  
Series crimes: Report of a field test, NCJ-104615, 4/87

## Corrections

### BJS bulletins and special reports

Prisoners in 1993, NCJ-147036, 6/94

Women in prison, NCJ-145321, 3/94

Capital punishment 1992, NCJ-145031, 12/93

HIV in U.S. prisons and jails, NCJ-143292, 9/93

Drug enforcement and treatment in prisons, 1990, NCJ-134724, 7/92

Violent State prisoners and their victims, NCJ-124133, 7/90

Prison rule violators, NCJ-120344, 12/89

Recidivism of prisoners released in 1983, NCJ-116261, 4/89

Drug use and crime: State prison inmate survey, 1986, NCJ-111940, 7/88

Time served in prison and on parole, 1984, NCJ-108544, 12/87

Profile of State prison inmates, 1986, NCJ-109926, 1/88

Imprisonment in four countries, NCJ-103967, 2/87

Comparing Federal and State prison inmates, 1991, NCJ-145864, 9/94

Profile of inmates in the United States and in England and Wales, 1991, NCJ-145863, 9/94

National Corrections Reporting Program: 1992, NCJ-145862, 9/94

1991, NCJ-145861, 2/94

Correctional populations in the U.S.: 1991, NCJ-142729, 8/93

1990, NCJ-134946, 7/92

Survey of State prison inmates, 1991, NCJ-136949, 5/93

Census of State and Federal correctional facilities, 1990, NCJ-137003, 6/92

Prisons and prisoners in the United States, NCJ-137002, 4/92

State and Federal institutions, 1926-86: Race of prisoners admitted, NCJ-125618, 6/91

Historical statistics on prisoners, NCJ-111098, 6/88

## Census of jails and survey of jail inmates

### BJS bulletins and special reports

Jail inmates, 1992, NCJ-143284, 8/93

Drunk driving: 1989 Survey of inmates of Local Jails, NCJ-134728, 9/92

Women in jail, 1989, NCJ-134732, 3/92

Drugs and jail inmates, NCJ-130836, 8/91

Profile of jail inmates, 1989, NCJ-129097, 4/91

Population density in local jails, 1988, NCJ-122299, 3/90

Census of local jails, 1988: Summary and methodology, vol. I, NCJ-127992, 3/91

Data for individual jails in the Northeast, Midwest, South, West, vols. II-V, NCJ-130759-130762, 9/91

Census of local jails, 1983: Selected findings, vol. V, NCJ-112795, 11/88

## Probation and parole

### BJS bulletins and special reports

Probation and parole: Violators, NCJ-149076, 9/94

1993 (press release), NCJ-149730, 9/94

1992, NCJ-146412, 9/94

1990, NCJ-133285, 11/91

Recidivism of young parolees, NCJ-104916, 5/87

## Juvenile corrections

Children in custody: Census of public and private juvenile detention, correctional, and shelter facilities, 1975-85, NCJ-114065, 6/89

Survey of youth in custody, 1987 (special report), NCJ-113365, 9/88

## Expenditure and employment

Justice expenditure and employment: 1990 (BJS bulletin), NCJ-135777, 9/92

1988 (full report), NCJ-125619, 8/91

Extracts, 1984, '85, '86, NCJ-124139, 8/91, \$12.25

Justice variable pass-through data, 1990: Anti-drug abuse formula grants (BJS technical report), NCJ-133018, 3/92

## Courts

Acting Director

Foreword

This **Sourcebook** provides a window on crime, the operations of the criminal justice system, and the public's attitudes toward both. Now in its 21st year, the **Sourcebook** series continues to be widely used by practitioners and scholars alike. It is, by far, the most complete inventory and reference source on crime and criminal justice available.

In the coming years, BJS is planning to introduce electronic access to **Sourcebook** data. Many users of the **Sourcebook** will be able to access tables on topics of specific interest and import them to standard spreadsheet files. In addition, we hope to make the **Sourcebook** available through many bulletin boards and other telecommunications systems.

I invite your suggestions and ideas for disseminating the **Sourcebook**. Please write or telephone:

Ms. Sue Lindgren  
Assistant Deputy Director  
Bureau of Justice Statistics  
633 Indiana Avenue, N.W.  
Washington, DC 20531

SUGGESTED CITATION

Kathleen Maguire and Ann L. Pastore, eds.,  
**Sourcebook of Criminal Justice Statistics 1993**. U.S. Department of Justice, Bureau of Justice Statistics. Washington, DC: USGPO, 1994.

I want to express my appreciation for another outstanding volume of information to both the staff of the **Sourcebook** and the many contributors who make it possible.

Lawrence A. Greenfeld  
Acting Director

## For your information

This is the 21st annual *Sourcebook of Criminal Justice Statistics*. It brings together in a single volume nationwide data of interest to the criminal justice community.

Statistical information about crime and criminal justice in the United States is published by hundreds of public and private agencies, academic institutions, research organizations, public opinion polling firms, and other groups. All levels of government collect and disseminate such data.

The objective of *Sourcebook* is to compile information from a variety of sources and to make it accessible to a wide audience. In order to be included in *Sourcebook*, the data must meet two standards. First, the information must be national in scope or of nationwide relevance. Nearly all the data presented are nationwide in scope and, where possible, they are displayed by regions, States, and cities to increase their value for local decisionmakers and for comparative analyses. Data available for limited groups of cities, States, or jurisdictions are included if they pertain to a topic of major concern. Second, the data must be methodologically sound with respect to sampling procedures, data collection methods, estimation procedures, and reliability of the information.

### Organization of the *Sourcebook*

This book has six sections:

(1) Characteristics of the Criminal Justice Systems presents data on the number and types of criminal justice agencies and employees, criminal justice expenditures, workload of agency personnel, and so on. It also includes tables that summarize, State by State, the statutory, regulatory, or administrative characteristics and practices of criminal justice agencies.

(2) Public Attitudes Toward Crime and Criminal Justice-related Topics presents the results of nationwide public opinion polls on such matters as fear of victimization; the death penalty; gun control; drug use; and ratings of law enforcement and judicial system performance.

(3) Nature and Distribution of Known Offenses presents data from several indicators of the extent of illegal activities. They include surveys of individuals and households that may have been victims of crime; proportions of persons reporting that they have used

various drugs or participated in other illegal activities; and law enforcement agency counts of offenses reported to them.

(4) Characteristics and Distribution of Persons Arrested includes tabulations of arrests by age, sex, race, and area; proportions of known crimes cleared by arrests; and counts of illegal goods and assets seized.

(5) Judicial Processing of Defendants presents data on the number of juveniles and adults processed through the courts and on the characteristics, dispositions, and sentences of defendants.

(6) Persons Under Correctional Supervision presents data about persons on probation and parole, juveniles in custody, persons in local jails, population and movement of inmates of State and Federal prisons, and characteristics of State and Federal prison inmates. The section also presents data on offenders executed and offenders currently under sentence of death.

Each of the six sections opens with an overview of its contents.

### Annotated sources and list of publishers

Publications from which tables or figures have been selected for presentation in *Sourcebook* are described in annotations that precede the appendices. The annotations include standard bibliographic information, periodicity of publication, dates of tabular information appearing in the publication (many sources, even some annual reports, contain data for a number of years), a brief summary of the publication's contents, and a list of *Sourcebook* tables and figures taken from the sources. Addresses of the publishers follow the annotations.

### Explanatory appendices

For sources that use complex survey methods or that require a long list of definitions of terms, explanatory text is presented in the *Sourcebook*. These appendices add information or clarify the data presented, but readers should consult the original sources for more detailed and complete explanations.

### Reliability of the data

Data in this book are no more reliable or complete than the sources from which they are taken. Responsibility for the quality of data is borne by the original source; responsibility for its selection and presentation rests with the *Sourcebook* staff.

### Reporting periods

The aim for each edition of the *Sourcebook* is to combine the most recent data available

with earlier data to show trends. Unfortunately, many reports are based on data already several years old at the time of publication.

It is sometimes impossible or imprecise to compare data from different sources. For example, data in one source may be expressed only in fiscal years while those in another are expressed only in calendar years. It is best to check a table's explanatory note to verify the precise periods covered by data presented. Readers should be extremely cautious in combining or comparing data from different sources or in examining data from the same source over time.

### Table and figure preparation

Updating. For tables and figures from annual publications, such as the FBI's *Crime in the United States* and BJS's *Criminal Victimization in the United States*, updating involves replacing older with newer data, taking care to note any changes in methodology or reporting procedures that should be brought to the reader's attention.

For tables and figures from nonannual and special publications (such as surveys, research reports, and public opinion polls), updating and expansion involves searches for new or more recent data. Sometimes, data from previous editions of the *Sourcebook* are retained, either alone or along with more recent data.

Bodies of tables. The bodies of most *Sourcebook* tables appear exactly as in the original sources. This presentation is consistent with the *Sourcebook's* main function--to bring together data from diverse sources for presentation as originally published, rather than to transform or recompute the original data.

However, the *Sourcebook* staff has:

(a) constructed some tables based on printed narrative or machine-readable data from the source; and

(b) adapted some tables with only nonsubstantive changes from the source.

Notes. *Sourcebook* tables carry three types of explanatory and cautionary notes:

(1) Notes that follow tables and begin with "Note:" are written by the *Sourcebook* staff from information in the original source.

(2) Some are brief notes in parentheses "( )" just above the table body. Most of these notes repeat information from the source table, but a few are added by the *Sourcebook* staff.

(3) Some are footnotes reprinted as they appeared in the original source. Most of these

footnotes are keyed to specific table entries or to variables that require explanation.

#### A note on definitions of terms

Because the *Sourcebook* includes data from so many sources, similar or identical terms sometimes have different referents when used in different sources. For example, the precise meaning of terms such as "case," "caseload," "rate," and "race/ethnicity," differs among sources. To clarify the meaning of terms as they are used by various sources, definitions are provided in notes on tables and in appendices to which table notes refer.

However, in a compilation such as this it is impossible to provide an exhaustive list of definitions and explanations for each table that will satisfy the needs of all readers. Users with strong interest in particular tables are advised to consult the original source for a fuller explanation of subtleties with respect to data collection procedures, data exclusions, definitions of terms, and so on.

#### Cross-references to last year's edition

The figure and table list (which follows the table of contents) indicates whether last year's edition contained exactly the same table or an equivalent table with data from an earlier year.

#### Your input requested

Your critical comments and suggested changes will help us to improve future editions of the *Sourcebook*.

Please tell us about appropriate sources of criminal justice statistics you believe we have overlooked. Of special interest are sources of data--preferably, but not necessarily, national in scope--that have not been drawn upon for this edition.

It would help us to know for what purposes you have used the *Sourcebook* and how much it has helped in achieving those purposes.

A special page for your comments and suggestions appears at the end of the book, just after the index. Please use this self-mailer to give us the benefit of your comments and suggestions for a more useful *Sourcebook*.

#### Guide to symbols used in tables

The following symbols have been used uniformly, unless otherwise noted in specific tables:

- 0 Represents the quantity zero or rounds to less than half the unit of measurement shown.
- NA Data not separately enumerated, tabulated, or otherwise available.
- X Figure not applicable because column heading, stub line, or other contingencies make an entry impossible, absurd, or meaningless.
- B Not computed because the base figure is too small from which to generate a derived figure that meets statistical standards for reliability.
- ( ) Figure in parentheses is the base on which percentages or other statistics in the table column or row have been calculated. A lower case letter in parentheses in a table cell is a footnote entry.
- No entry in original source; reason not differentiated in original source.
- Y Indicates that the relevant attribute is present.

Where a different symbol meaning is used in order to maintain clarity within the context of a given table, this is noted for that particular table.

## Acknowledgments

This 21st edition of the *Sourcebook of Criminal Justice Statistics* is the result of a collaboration involving many people throughout the United States.

The staff at the Hindelang Criminal Justice Research Center deserve many thanks. They are an outstanding team and we are grateful for their commitment to the project.

Both Kim Abbott, editorial assistant and Marcy O'Connor, statistical typist have served the project for many years. The skill, care, and diligence with which they approach all aspects of the production process, from file maintenance to proofreading, is evidenced on each page of this book. Marilyn Hubbard also assisted with production of this edition. We thank the production staff for all their efforts.

Our Assistant Editors, Eric Riksheim, Tim Ireland, Charlie Lanier, and Mark Gorthy help to define the *Sourcebook* in many ways. We rely on their judgment, research expertise, writing skills, and sense of humor on a daily basis. The high quality of the data selected for presentation in the book is largely due to the critical review, thoroughness, and expertise of our assistant editors. We appreciate their efforts and commitment. Sean Anderson also assisted with final preparation of this edition. Sharon Wright, Administrative Associate of the Hindelang Center, has lent her many years of experience to the project and continues to assist us in countless ways. We appreciate her considerable efforts.

We owe special thanks to Sue A. Lindgren, Assistant Deputy Director of the Bureau of Justice Statistics. For over 20 years, Sue has provided support, guidance, and editorial expertise. We are deeply grateful for her efforts on our behalf. Sue works under the direction of Benjamin H. Renshaw III, Deputy Director for Management and Intergovernmental Affairs. Marilyn Marbrook, Chief of Publications and Dissemination at the Bureau of Justice Statistics, administered publication as she has done for more than two decades. The *Sourcebook* is immeasurably better because of her knowledge, assistance, and experience. Marilyn was assisted by Yvonne Boston.

The *Sourcebook* staff also relies on many individuals in State and Federal justice agencies, research centers, and universities who produce criminal justice statistical information. These people assist us in many ways, including advising us of new sources of

criminal justice statistical data, providing prepublication copies of materials, and answering myriad questions from our editorial team about terminology and data collection procedures. This year, the following individuals were particularly helpful and we acknowledge their generous assistance: Thomas Hester, Lisa Bastion, Brian Reaves, Patrick Langan, Patsy Klaus, Carol Kaplan, Allen J. Beck, Tracy Snell, Caroline Harlow, Darrell Gilliard, Jodie Brown, Ronet Bachman, Michael Rand, James Stephan, Robyn Cohen, and Craig Perkins of the Bureau of Justice Statistics; Joe Moone of the Office of Juvenile Justice and Delinquency Prevention; Pat Richards and Gwen Coleman of the Administrative Office of the United States Courts; Lloyd Johnston, Jerald Bachman, Patrick O'Malley, Ginger Maggio, Debbie Poinier, and Lisa Nagy, Institute for Social Research; Kathleen Sampson and Beth Rice, American Judicature Society; Leslie C. McAneny and Lydia Saad, The Gallup Organization, Inc.; David Sanchez, National Institute on Alcohol Abuse and Alcoholism; Christopher Innes, Federal Bureau of Prisons; Dale Dickerhoof, National Park Service; Carolyn Hoffman, Joyce Colbert, and Viola Moore, Drug Enforcement Administration; G. Thomas Munsterman, National Center for State Courts; Darrell Bryan, CEGA Publishing; James Alan Fox, Northeastern University; Susan Katzenelson, U.S. Sentencing Commission; Juanita Holmes, U.S. Parole Commission; Melissa Sickmund, National Center for Juvenile Justice; Bob Haulbrook, PRIDE, Inc.; Mary T. Brouder and Jila Salari, Roper Starch Worldwide, Inc.; Janice Greenblatt and Joe Gfroerer, Substance Abuse and Mental Health Services Administration; Mark Overstreet, National Rifle Association; Eloise Thorton, Immigration and Naturalization Service; Joan F. Minton, The Council of State Governments; Andrew Kohut and Carol J. Bowman, Times Mirror Center for The People and The Press; Charles W. Thomas, University of Florida; Harold W. Stanley and Richard G. Niemi, University of Rochester; Samuel Walker, University of Nebraska at Omaha; Anita Timrots, Drugs and Crime Data Center and Clearinghouse; Adele O'Grady, Louis Harris and Associates; John Brennan, Los Angeles Times Poll; Meredith DeHart, U.S. Department of Commerce; Lois Fingerhut, National Center for Health Statistics; Ken Carlson, Abt Associates; and Bryce R. Bassett, The Wirthlin Group.

Finally, we wish to thank the many *Sourcebook* users who provide information about new sources of data, comments on *Sourcebook*, and suggestions for improvement. We receive these comments from colleagues at professional meetings, through telephone calls, and by mail, and we followup on all inquiries, suggestions, and comments. Suggestions of additional materials for possible inclusion in subsequent editions are especial-

ly appreciated, and can be made either by using the questionnaire at the end of this book or by contacting the Editors at the Hindelang Criminal Justice Research Center, State University of New York, University at Albany, 135 Western Avenue, Albany, New York 12222, (518) 442-5608.

## Contents

### For your information iii

### Guide to symbols used in tables iv

### Acknowledgments v

### Figure and table list ix

#### Section 1

#### Characteristics of the criminal justice systems 1

Expenditures for criminal justice activities 2  
Expenditures for health care in State and Federal departments of correction 15  
Federal budget authorities and outlays for criminal justice activities 17  
Drug control funding and expenditures 19  
Allocation of Edward Byrne State and Local Law Enforcement Assistance Program funds 25  
Employment and payroll for criminal justice activities 31  
State and local law enforcement personnel and departments 47  
Number, rate, and characteristics of personnel in State and local law enforcement 51  
Salaries for police officers and other law enforcement personnel 61  
Duties performed by the U.S. Marshals Service 65  
Appropriations, salaries, and personnel for the Federal judiciary 68  
Criminal cases filed per judgeship in U.S. District Courts 73  
Duties performed by magistrates in U.S. District Courts 76  
Number and term of State court judges 77  
Qualification requirements, salaries, and selection process for State court judges 79  
Staff and budget of judicial conduct organizations 87  
Expenditures and utilization of petit and grand jurors in U.S. District Courts 88  
Jury fees in State and Federal courts 89  
Investigative reports by Federal probation officers 90  
Characteristics of jails and detention centers 91  
Correctional system personnel 92  
Salaries of correctional personnel 100  
Entry requirements, training, and counseling for correctional officers 101  
State and Federal correctional facilities 108  
Shock incarceration/boot camp programs 112  
Correctional facilities under court order 113  
Private correctional facilities 116  
Drug control and treatment activities in correctional facilities 122  
Federal Bureau of Prisons facilities and staff 125

Statutory provisions related to capital offenses 130  
State and Federal paroling authorities 132  
Intensive parole supervision programs 133  
Activities of the U.S. Parole Commission 135  
Restrictions for judicial waiver of juveniles to criminal court 137  
Juvenile and adult sex-offender programs 140  
Statutory provisions on firearms 142  
Statutory provisions related to alcohol use and drunk driving 144

#### Section 2

#### Public attitudes toward crime and criminal justice-related topics 153

Most important problems for country and communities 154  
Problems facing schools 157  
Public confidence in institutions 157  
Confidence in the criminal justice system 159  
Confidence in the U.S. Supreme Court 161  
Ethics of lawyers 164  
Ethics of police 164  
Confidence in police 165  
Police protection 167  
Police use of force 168  
Effect of violent crime and police brutality on racial and ethnic minorities 171  
Treatment of blacks and whites by criminal justice system 171  
Causes of crime 172  
Level of spending for the problems of crime and drugs 178  
Fear of crime and perceived safety 182  
Responses to crime and criminals 191  
Severity of local courts 194  
Rehabilitation and treatment of juveniles and criminals 196  
Legality of abortion 198  
Use of wiretaps 198  
Penalty for murder 200  
Death penalty 200  
Gun ownership 202  
Gun control policies 204  
Sale of alcohol 210  
Availability and harmfulness of drugs 212  
Legalization of marijuana 214  
Drug abuse by children 216  
Abuse of children 216  
Children's attitudes toward important problems 217  
Teenagers' attitudes toward important problems 218  
Students' concerns of crime and safety at school 218  
Students' perceptions of availability and harmfulness of drugs 219  
Teenagers' fear for safety in neighborhood 220  
Teenagers favoring gun control 220  
High school seniors' attitudes:  
Selected social problems 221  
Performance of selected institutions 223  
Performance of the police 224  
Performance of the courts and justice system 225

Drug and alcohol use and drug legalization 227

Young adults' perceptions of harmfulness of drug use 228  
Teenagers' use of and attitudes toward legalization of marijuana 233  
College freshmen attitudes:  
Legalization of marijuana 233  
Abortion 234  
The courts 234  
Capital punishment 235  
Homosexual relationships 235  
AIDS testing and drug testing 235  
Gun control 236  
Media coverage and portrayal of crime and violence 236  
Televised executions 239  
Pornography and public policies 240

#### Section 3

#### Nature and distribution of known offenses 245

Personal and household victimization 246  
Reasons for reporting and not reporting victimization to police 253  
Police response time 255  
Economic loss in personal and household victimizations 256  
Rates of personal victimization 258  
Rates of violent victimization for females 264  
Victim-offender relationship in personal victimization 267  
Trends of violent victimization with a handgun 270  
Trends in personal victimization 271  
Respondents reporting whether they have been hit or had something taken by force 274  
Respondents reporting whether they have been a victim of crime or child abuse 278  
Self-protective measures employed by victims 279  
Rate of household victimizations 281  
Trends in household victimization 285  
Rate of motor vehicle theft 288  
Characteristics of lone-offender victimizations 289  
Characteristics of multiple-offender victimizations 291  
Weapon use in personal victimizations 294  
Adolescents' reported involvement in health-risk behaviors 295  
High school seniors' victimization experiences 297  
High school seniors' self-reported delinquency 308  
High school seniors' involvement in traffic violations 318  
High school seniors' involvement in traffic violations while under the influence of drugs 320  
High school seniors' involvement in traffic accidents 324  
High school seniors' self-reported drug and alcohol use 325  
College students' and young adults' self-reported drug and alcohol use 330

- Students (grades 6 through 12) self-reported alcohol and drug use 333
- Prevalence of drug and alcohol use 335
- Drug abuse-related emergency room episodes 341
- Alcohol use and frequency of use 347
- Fatalities in alcohol-related motor vehicle accidents 349
- Offenses known to police 352
- Firearm-related violent crime 366
- Rates of violent crime in cities over 250,000 population 368
- Offenses known to police in cities over 100,000 population 369
- Average loss incurred for selected offenses 375
- Bias-motivated (hate) crimes 375
- Offenses in Federal parks 376
- Murders 377
- Juvenile murder offenders and victims 386
- Workplace homicides and fatal occupational injuries 390
- Suicide rates 391
- Robberies 391
- Aggravated assaults 393
- Burglaries 394
- Larceny-thefts 394
- Motor-vehicle thefts 395
- Bank fraud and embezzlement investigations 395
- Violations of Federal bank robbery statutes 396
- Law enforcement officers killed and assaulted 398
- Explosives incidents 409
- Arson, deaths, and property loss due to fires 412
- Terrorist incidents 414
- Criminal acts related to air transportation 415
- Crime insurance policies, claims, and losses 415
- 
- Section 4**
- Characteristics and distribution of persons arrested 417**
- 
- Number and rate of arrests, national estimates 418
- Offense charged and characteristics of persons arrested 421
- Arrests in cities, suburban areas, and rural counties 435
- Arrest rates for violent crimes 447
- Arrest rates for property crimes 449
- Offenses cleared by arrest 450
- Clearances from arrest of persons under 18 years old 453
- Juveniles taken into police custody 455
- Alcohol-related arrests 456
- Drug-related arrests 457
- Drug use by arrestees 459
- Drug seizures by the Drug Enforcement Administration 463
- Seizures of marijuana plants and illegal drug laboratories 464
- Arrests, convictions, and assets seized by the Drug Enforcement Administration 465
- 
- Drug and property seizures by the U.S. Customs Service 466
- Seizures and arrests by the U.S. Coast Guard 468
- Counterfeiting enforcement activities by the U.S. Secret Service 470
- Aliens deported from the U.S. 471
- 
- Section 5**
- Judicial processing of defendants 473**
- 
- Requests for immunity by Federal prosecutors 474
- Court-authorized interception of wire, oral, or electronic communications 475
- Cases filed and disposed of by U.S. attorneys 477
- Pretrial release and detention of defendants in U.S. District Courts 479
- Criminal matters concluded by U.S. attorneys 486
- Suspects declined for prosecution by U.S. attorneys 487
- Suspects referred to U.S. magistrates 488
- Defendants prosecuted, convicted, and sentenced in U.S. District Courts 489
- Length of sentences imposed by U.S. District Courts 495
- Cases filed, terminated, and pending in U.S. District Courts 498
- Length of time to disposition of cases in U.S. District Courts 504
- Defendants detained by U.S. District Courts 508
- Dispositions and sentences of drug law violators in U.S. District Courts 510
- Antitrust cases filed in U.S. District Courts 513
- Federal racketeering and criminal enterprise matters in U.S. District Courts 514
- Defendants disposed of and sentenced in U.S. District Courts 517
- Application of U.S. Sentencing Commission guidelines 528
- Felony cases and convictions in State courts 535
- Type and length of sentences imposed by State courts 537
- Probation and other penalties imposed by State courts 540
- Felony defendants in the 75 largest counties 542
- Predisposition release status of felony defendants in the 75 largest counties 543
- Adjudication outcomes and sentences imposed for felony defendants in the 75 largest counties 546
- Characteristics of juvenile delinquency offenders and case outcomes 548
- Prisoner petitions filed in U.S. District Courts 550
- Appeals filed, terminated, and pending in U.S. Courts of Appeals 550
- Activities of the U.S. Supreme Court 552
- Cases filed, disposed of, and pending in the U.S. Supreme Court 553
- Writ of certiorari petitions to the U.S. Supreme Court 554
- 
- Cases argued in the U.S. Supreme Court 555
- Executive clemency applications 556
- Criminal tax fraud cases 557
- Arrests and convictions handled by the U.S. Postal Inspection Service 558
- Prosecutions and convictions for violations of immigration and nationality laws 560
- Investigative activity and dispositions of arrests by the U.S. Secret Service 561
- Forged check and bond cases 562
- Criminal enforcement activities of the U.S. Environmental Protection Agency 562
- Abuse of public office cases 563
- Judicial misconduct cases 564
- U.S. Army Courts-Martial cases 566
- U.S. Air Force Courts-Martial cases 567
- U.S. Coast Guard Courts-Martial cases 570
- 
- Section 6**
- Persons under correctional supervision 573**
- 
- Persons under community supervision 574
- Movement of the probation population 575
- Persons under supervision of the Federal Probation System 576
- Intensive probation supervision programs 579
- Juveniles held in public and private juvenile custody facilities 581
- Number and characteristics of jail inmates 591
- Jail inmates charged with driving while intoxicated 595
- Jail inmates' involvement with drugs 595
- Prisoners in jails due to overcrowded State facilities 597
- Prisoners in State and Federal institutions 598
- Prisoners over age 55 609
- Characteristics and current offense of State prison inmates 611
- Sentence length and special sentencing conditions of State prisoners 615
- Family history and parental status of State prisoners 616
- HIV tests of State and Federal prisoners 617
- Drug use history of State prisoners 619
- Victims of violent State prison inmates 623
- Admissions and new court commitments to prisons in 35 States 624
- Prisoners serving life sentences 627
- Population and characteristics of prisoners in Federal institutions 628
- Admissions and new court commitments to Federal prisons 631
- Academic, work, and counseling programs in State and Federal prisons 634
- Participation in drug treatment programs by State prisoners 637
- Sex offender treatment programs for State and Federal prisoners 638
- Drug and alcohol treatment units and number of clients 641
- Population and capacity of military correctional facilities 647
- Escapes from correctional facilities 648
- Releases from State and Federal institutions 649

Time served by Federal prisoners 652  
 Movement of the parole population 653  
 Prisoners admitted to State and Federal institutions for violations of conditional release 654  
 Entries to and discharges from State parole supervision 655  
 Prisoners granted parole by the U.S. Parole Commission 658  
 Entries to and discharges from Federal parole supervision 659  
 AIDS-related and other deaths among sentenced prisoners 663  
 Prisoners under sentence of death 666  
 Movement of prisoners under sentence of death 669  
 Prisoners removed from death row 672  
 State and Federal prisoners executed 674  
 Methods of execution in States 677

## Figures and tables

For users who wish to compare data in this edition with that in the **1992 Sourcebook**, the numbers for equivalent tables and figures in the **1992 Sourcebook** are shown in parentheses. Table and figure numbers marked with an asterisk (\*) contain identical data in the 1992 and 1993 editions; these tables have been repeated from 1992 to 1993, with possible changes in titles and notation, for accuracy and consistency within this edition. The table and figure numbers within parentheses and without asterisks are those for which the most recent data are presented in (generally) the same format as the one in the 1992 edition. Tables for which dashes (--) appear have no comparable table in the 1992 edition.

## Figures

Fig. 1.1 Duties performed by Deputy U.S. Marshals, by type of activity, fiscal year 1992 (Fig. 1.1\*) 65

Fig. 1.2 Property seized by the U.S. Marshals Service, by type of property, fiscal years 1987-92 (Fig. 1.2\*) 65

Fig. 3.1 Estimated rate (per 1,000 persons age 12 and older) of personal victimization, by type of victimization, United States, 1973-92 (--) 258

Fig. 3.2 Estimated rate (per 1,000 persons age 12 and older) of serious violent victimization and violent victimization with a handgun, United States, 1979-92 (--) 270

Fig. 3.3 Estimated rate (per 1,000 persons age 12 and older) of violent victimization with a handgun, by age and race of victim, United States, 1987-92 (--) 270

Fig. 3.4 Estimated rate (per 1,000 households) of household victimization, by type of victimization, United States, 1973-92 (--) 281

Fig. 3.5 Percent of households experiencing crime during the last 12 months, by type of victimization, United States, 1975-92 (Fig. 3.1) 282

Fig. 3.6 Percent of households experiencing crime during the last 12 months, by type of victimization and race of head of household, United States, 1975-92 (Fig. 3.2) 282

## Tables

### Section 1

#### Characteristics of the criminal justice systems 1

1.1 Justice system expenditures, by type of activity and level of government, United States, fiscal year 1990 (1.1\*) 2

1.2 Percent distribution of justice system direct expenditures, by type of activity and level of government, United States, fiscal year 1990 (1.2\*) 2

1.3 Percent change in direct expenditures for justice system activities, by type of activity and level of government, United States, 1971-90, 1979-90, and 1985-90 (1.3\*) 3

1.4 State and local justice system total expenditures, by type of activity and State, fiscal year 1990 (1.4\*) 4

1.5 State and local justice system per capita expenditures, by type of activity and State, fiscal year 1990 (1.5\*) 5

1.6 Direct current expenditures for State judicial activities, by type of court and State, fiscal year 1990 (1.6\*) 6

1.7 Direct expenditures for State and local corrections activities, by type of activity and level of government, fiscal year 1990 (1.7\*) 7

1.8 Direct current expenditures for State corrections activities, by type of activity and State, fiscal year 1990 (1.8\*) 12

1.9 Expenditures for State and Federal correctional facilities, by region and jurisdiction, fiscal year ending between July 1, 1989 and June 30, 1990 (1.9\*) 13

1.10 Departments of corrections' proposed budgets, by type of activity and jurisdiction, 1993-94 (1.10) 14

1.11 Cost of health care in State and Federal departments of correction, by jurisdiction, 1993 (-) 15

1.12 Federal criminal justice budget authorities, fiscal years 1993 (actual) and 1994-99 (estimated) (1.13) 17

1.13 Allocation of Office of Justice Programs' funds, by type of budget activity, fiscal years 1983-93 (1.14) 18

1.14 Federal drug control budget authority, by type of activity and agency, fiscal years 1984-94 (1.16) 19

1.15 Federal drug control funding, by agency, fiscal years 1993 and 1994 (-) 22

1.16 Drug control expenditures, by type of activity and level of government, United States, fiscal years 1990 and 1991 (-) 23

1.17 Drug control direct expenditures, by type of activity and level of government, United States, fiscal year 1991 (-) 23

1.18 State and local drug control expenditures as a percent of total justice system expenditures, by type of activity and State, fiscal year 1991 (-) 24

1.19 Allocation of the Edward Byrne Memorial State and Local Law Enforcement Assistance Program funds, by jurisdiction, fiscal years 1991-94 (1.17) 25

1.20 Allocation of the Edward Byrne Memorial State and Local Law Enforcement Assistance Program discretionary funds, by program area, fiscal years 1987-92 (-) 27

1.21 Allocation of the Edward Byrne Memorial State and Local Law Enforcement Assistance Program formula funds, by program area, fiscal years 1987-92 (-) 27

1.22 Distribution of the Edward Byrne Memorial State and Local Law Enforcement Assistance Program formula grant funds, by program area and jurisdiction, fiscal year 1992 (-) 28

1.23 Justice system employment and payroll, by type of activity and level of government, United States, October 1990 (1.18\*) 31

1.24 Percent distribution of justice system employment and payroll, by type of activity and level of government, United States, October 1990 (1.19\*) 31

1.25 State and local justice system full-time equivalent employment, by type of activity and level of government, fiscal year 1990 (1.20\*) 32

1.26 State and local justice system payroll, by type of activity and level of government, fiscal year 1990 (1.21\*) 37

1.27 Rate (per 10,000 population) of State and local justice system full-time equivalent employment, by rank and State, October 1990 (1.22\*) 42

1.28 State and local corrections full-time equivalent employment, by type of activity and level of government, fiscal year 1990 (1.23\*) 43

1.29 Employees in State and local law enforcement agencies, by type of agency, United States, 1992 (-) 47

1.30 State and local law enforcement agencies, by type of agency and State, 1992 (-) 48

1.31 Number and rate (per 10,000 population) of full-time employees in State and local law enforcement agencies, by type of agency and employee, United States, 1986 and 1992 (-) 49

1.32 Full-time employees in State and local law enforcement agencies, by type of agency and State, 1992 (-) 50

1.33 Number and rate (per 10,000 population) of full-time sworn police officers in State and local law enforcement agencies, by type of agency and State, 1992 (-) 50

1.34 State and local law enforcement agencies with 1,000 or more full-time sworn personnel working in field operations, by State, name of agency, and number of full-time sworn personnel working in field operations, 1990 (1.33\*) 51

1.35 Characteristics of full-time sworn personnel in local police departments, by size of population served, United States, 1990 (1.36\*) 51

1.36 Characteristics of full-time sworn personnel in sheriffs' departments, by size of population served, United States, 1990 (1.37\*) 52

1.37 Characteristics of full-time sworn personnel in State police departments, United States, 1987 and 1990 (1.38\*) 52

1.38 Number of police officers and number of black police officers in the 50 largest cities, 1983 and 1992 (1.39\*) 53

- 1.39 Number of police officers and number of Hispanic police officers in the 50 largest cities, 1983 and 1992 (1.40\*) 54
- 1.40 Average operating expenditures of local police departments, by size of population served, United States, fiscal year 1990 (1.43\*) 55
- 1.41 Average operating expenditures of sheriffs' departments, by size of population served, United States, fiscal year 1990 (1.44\*) 55
- 1.42 Average starting salaries in local police departments, by size of population served and selected positions, United States, 1990 (1.45\*) 55
- 1.43 Average starting salaries in sheriffs' departments, by size of population served and selected positions, United States, 1990 (1.46\*) 55
- 1.44 Employment and payroll for State and local police, by level of government, United States, October 1992 (1.60) 56
- 1.45 Full-time equivalent employment of State and local police, by level of government and State, October 1992 (1.61) 56
- 1.46 Full-time paid personnel of police departments in cities of 10,000 persons and over, by population group, geographic division, and metro status, United States, 1993 (1.62) 57
- 1.47 Mean and per capita police department personnel expenditures in cities of 10,000 persons and over, by population group, geographic division, and metro status, United States, 1993 (1.63) 57

- 3.41 Estimated rate (per 1,000 households) of household victimization, by type of victimization, race, and ethnicity of head of household, United States, 1992 (3.42) 284
- 3.42 Estimated rate (per 1,000 households) of household victimization, by type of victimization and family income, United States, 1992 (3.43) 284
- 3.43 Number and rate (per 1,000 households) of burglary victimization, by race of head of household and locality of residence, United States, 1973-92 (3.44) 285
- 3.44 Number and rate (per 1,000 households) of household larceny victimization, by race of head of household and locality of residence, United States, 1973-92 (3.45) 285
- 3.45 Respondents reporting whether anyone illegally entered their home during the past year, by demographic characteristics, United States, selected years 1973-93 (3.46) 286
- 3.46 Estimated number and rate (per 1,000 households and per 1,000 vehicles owned) of motor vehicle theft, by race and age of head of household, and form of tenure, United States, 1992 (3.47) 288
- 3.47 Number and rate (per 1,000 households) of motor vehicle theft, by race of head of household and locality of residence, United States, 1973-92 (3.48) 288
- 3.48 Estimated percent distribution of personal victimizations by lone offenders, by type of victimization and perceived age of offender, United States, 1992 (3.49) 289
- 3.49 Estimated percent distribution of personal victimizations by lone offenders, by type of victimization and perceived sex of offender, United States, 1992 (3.50) 289
- 3.50 Estimated percent distribution of personal victimizations by lone offenders, by type of victimization and perceived race of offender, United States, 1992 (3.51) 290
- 3.51 Estimated percent distribution of personal victimizations by lone offenders, by type of victimization, race of victim, and perceived race of offender, United States, 1992 (3.52) 290
- 3.52 Estimated percent distribution of personal victimizations by lone offenders, by type of victimization and victim-offender relationship, United States, 1992 (3.53) 291
- 3.53 Estimated percent distribution of personal victimizations by multiple offenders, by type of victimization and perceived ages of offenders, United States, 1992 (3.54) 291
- 3.54 Estimated percent distribution of personal victimizations by multiple offenders, by type of victimization and perceived sex of offenders, United States, 1992 (3.55) 292
- 3.55 Estimated percent distribution of personal victimizations by multiple offenders, by type of victimization and perceived races of offenders, United States, 1992 (3.56) 292
- 3.56 Estimated percent distribution of personal victimizations by multiple offenders, by type of victimization, race of victim, and perceived races of offenders, United States, 1992 (3.57) 293
- 3.57 Estimated percent distribution of personal victimizations by multiple offenders, by type of victimization and victim-offender relationship, United States, 1992 (3.58) 293
- 3.58 Estimated percent distribution of type of weapon used by armed offenders in personal incidents, by type of incident, victim-offender relationship, and type of weapon, United States, 1992 (3.59) 294
- 3.59 Adolescents' (12 to 19 years old) reported involvement in health-risk behaviors, by school enrollment status, United States, 1992 (--) 295
- 3.60 High school seniors reporting victimization experiences in last 12 months, by type of victimization, United States, 1981-93 (3.64) 297

- 3.61 High school seniors reporting victimization experiences in last 12 months, by type of victimization and sex, United States, 1981-93 (3.65) 298
- 3.62 High school seniors reporting victimization experiences in last 12 months, by type of victimization and race, United States, 1981-93 (3.66) 300
- 3.63 High school seniors reporting victimization experiences at school in last 12 months, by type of victimization, United States, 1981-93 (3.67) 303
- 3.64 High school seniors reporting victimization experiences at school in last 12 months, by type of victimization and sex, United States, 1981-93 (3.68) 304
- 3.65 High school seniors reporting victimization experiences at school in last 12 months, by type of victimization and race, United States, 1981-93 (3.69) 306
- 3.66 High school seniors reporting involvement in selected delinquent activities in last 12 months, United States, 1981-93 (3.70) 308
- 3.67 High school seniors reporting involvement in selected delinquent activities in last 12 months, by sex, United States, 1981-93 (3.71) 310
- 3.68 High school seniors reporting involvement in selected delinquent activities in last 12 months, by race, United States, 1981-93 (3.72) 314
- 3.69 High school seniors reporting receiving traffic ticket or warning for a moving violation in last 12 months, United States, 1981-93 (3.75) 318
- 3.70 High school seniors reporting receiving traffic ticket or warning for a moving violation in last 12 months, by sex, United States, 1981-93 (3.76) 318
- 3.71 High school seniors reporting receiving traffic ticket or warning for a moving violation in last 12 months, by race, United States, 1981-93 (3.77) 320
- 3.72 High school seniors reporting receiving traffic ticket or warning for a moving violation in last 12 months while under the influence of drugs, by type of drug, United States, 1981-93 (3.78) 320
- 3.73 High school seniors reporting receiving traffic ticket or warning for a moving violation in last 12 months while under the influence of drugs, by type of drug and sex, United States, 1981-93 (3.79) 322
- 3.74 High school seniors reporting receiving traffic ticket or warning for a moving violation in last 12 months while under the influence of drugs, by type of drug and race, United States, 1981-93 (3.80) 322
- 3.75 High school seniors reporting involvement in driving accidents in last 12 months, United States, 1981-93 (3.81) 324
- 3.76 High school seniors reporting involvement in driving accidents while under the influence of drugs in last 12 months, by type of drug, United States, 1981-93 (3.82) 324
- 3.77 Reported alcohol use and most recent use among high school seniors, by sex, region, population density, and college plans, United States, 1992 and 1993 (3.83) 325
- 3.78 Reported marijuana, cocaine, and heroin use and most recent use among high school seniors, by sex, region, population density, and college plans, United States, 1992 and 1993 (3.84) 326
- 3.79 Reported drug use, alcohol use, and cigarette use within last 12 months among high school seniors, by type of drug, United States, 1981-93 (3.85) 327
- 3.80 Reported drug use, alcohol use, and cigarette use within last 30 days among high school seniors, by type of drug, United States, 1981-93 (3.86) 329
- 3.81 Reported recency of drug use, alcohol use, and cigarette use among college students, by type of drug, United States, 1980-93 (3.87) 330
- 3.82 Reported daily use within last 30 days of drugs, alcohol, and cigarettes among college students, by type of drug, United States, 1980-93 (3.88) 330
- 3.83 Reported recency of drug use, alcohol use, and cigarette use among young adults, by type of drug, United States, 1985-93 (3.89) 332
- 3.84 Reported daily use within last 30 days of drugs, alcohol, and cigarettes among young adults, by type of drug, United States, 1986-93 (3.90) 333
- 3.85 Students' (grades 6 to 12) reported age at first use of alcohol and drugs, by grade level of respondent, 1992-93 (3.91) 333
- 3.86 Students' (grades 6 to 12) reported frequency of use of alcohol and drugs, by grade level of respondent, 1992-93 (--) 334
- 3.87 Estimated prevalence and most recent use of alcohol and marijuana, by sex, race, ethnicity, age, and region, United States, 1992 (--) 335
- 3.88 Estimated prevalence and most recent use of cocaine and crack, by sex, race, ethnicity, age, and region, United States, 1992 (--) 336
- 3.89 Estimated prevalence and most recent use of inhalants, hallucinogens, and stimulants, by sex, race, ethnicity, age, and region, United States, 1992 (--) 336
- 3.90 Estimated prevalence and past year use of PCP, heroin, anabolic steroids, and needle use, by sex, race, ethnicity, age, and region, United States, 1992 (--) 337
- 3.91 Estimated prevalence of drug and alcohol use, by age group and type of drug, United States, selected years 1972-93 (3.95) 338
- 3.92 Estimated prevalence of drug and alcohol use during the past year, by age group and type of drug, United States, selected years 1972-93 (3.96) 339
- 3.93 Estimated prevalence of drug and alcohol use during the past month, by age group and type of drug, United States, selected years 1972-93 (3.97) 340
- 3.94 Drug abuse-related emergency room episodes, by characteristics of patients and episodes, United States, 1989-92 (--) 341
- 3.95 Drug abuse-related emergency room episodes, by sex, race, ethnicity, and age of patient, United States, 1992 (3.110) 342
- 3.96 Drug abuse-related emergency room episodes, by characteristics of patients and episodes, United States, 1992 (3.111) 343
- 3.97 Drug abuse-related emergency room episodes, by drug use motive, and characteristics of patients and episodes, United States, 1992 (3.112) 344
- 3.98 Type of drug mentioned in drug abuse-related emergency room episodes, by sex, race, ethnicity, age, and drug use motive of patient, United States, 1992 (3.113) 345
- 3.99 Type of drug mentioned in drug-abuse related emergency room episodes, by patient and episode characteristics, United States, 1988-92 (--) 346
- 3.100 Reported alcohol use, by sex, United States, selected years 1939-94 (3.114) 347
- 3.101 Reported alcohol use, by demographic characteristics, United States, 1994 (3.115) 347
- 3.102 Respondents reporting whether they drink more than they should, by demographic characteristics, United States, 1994 (3.116) 348

- 3.103 Respondents reporting whether drinking has ever been a source of family trouble, by demographic characteristics, United States, 1994 (3.118) 348
- 3.104 Fatalities in alcohol-related motor vehicle accidents, by blood alcohol concentration level, United States, 1982-92 (3.119) 349
- 3.105 Blood alcohol concentration level of motor vehicle drivers involved in fatal crashes, by age, United States, 1982-92 (3.120) 350
- 3.106 Persons killed in alcohol-related motor vehicle crashes, by blood alcohol concentration level and jurisdiction, 1992 (-) 351
- 3.107 Estimated number and rate (per 100,000 inhabitants) of offenses known to police, by offense, United States, 1960-92 (3.122) 352
- 3.108 Estimated number and rate (per 100,000 inhabitants) of offenses known to police, by offense and extent of urbanization, 1992 (3.123) 353
- 3.109 Estimated number and rate (per 100,000 inhabitants) of offenses known to police, by offense, jurisdiction, and extent of urbanization, 1992 (3.124) 354
- 3.110 Offenses known to police, by offense and size of place, 1991 and 1992 (3.125) 363
- 3.111 Rank order of States according to rates (per 100,000 population) of violent crime, homicide, robbery, aggravated assault, and rape, 1992 (-) 365
- 3.112 Number and rate (per 100,000 population) of violent crime and homicide, and number and percent of firearm-related violent crime and weapon-related homicide, by State 1992 (3.126) 366
- 3.113 Number and rate (per 100,000 population) of robbery and aggravated assault and number and percent of firearm-related robbery and aggravated assault, by State, 1992 (3.127) 367
- 3.114 Rate (per 100,000 population) of violent crime, homicide, rape, robbery, and aggravated assault, in cities over 250,000 population, 1992 (3.128) 368
- 3.115 Offenses known to police in cities over 100,000 population, 1991 and 1992 (3.129) 369
- 3.116 Number of offenses known to police and average loss incurred, by selected offenses and type of target, United States, 1992 (3.130) 375
- 3.117 Bias-motivated (hate) crimes known to the police, by offense, United States, 1991 and 1992 (-) 375
- 3.118 Bias motivations in hate crimes known to police, by race, ethnicity, religion, and sexual orientation, United States, 1991 and 1992 (-) 375
- 3.119 Offenses in Federal parks known to police, by offense, 1975-93 (3.131) 376
- 3.120 Offenses in Federal parks known to park rangers and park police, by offense 1993 (3.132) 377
- 3.121 Percent distribution of murders and nonnegligent manslaughters known to police, by type of weapon used, United States, 1964-92 (3.133) 377
- 3.122 Percent distribution of murders and nonnegligent manslaughters known to police, by type of weapon used and region, 1992 (3.134) 378
- 3.123 Murders and nonnegligent manslaughters known to police, by type of weapon used and age of victim, United States, 1992 (3.135) 378
- 3.124 Number and rate (per 100,000 population) of firearm-related homicide, suicide, and unintentional deaths, by State, 1990 and 1991 (-) 379
- 3.125 Murders and nonnegligent manslaughters known to police, by victim-offender relationship and circumstances of the offense, United States, 1992 (3.139) 380
- 3.126 Percent distribution of murders and nonnegligent manslaughters known to police, by age of victim, United States, 1964-92 (3.141) 382
- 3.127 Percent distribution of murders and nonnegligent manslaughters known to police, by sex of victim, United States, 1964-92 (3.142) 384
- 3.128 Percent distribution of murders and nonnegligent manslaughters known to police, by race of victim, United States, 1964-92 (3.143) 384
- 3.129 Murders and nonnegligent manslaughters known to police, by sex, race, and age of victim, United States, 1992 (3.144) 385
- 3.130 Rate (per 100,000 persons in each age group) of murder and nonnegligent manslaughter victimization, by age, sex, and race of victim, United States, 1976-92 (3.145) 385
- 3.131 Rate (per 100,000 persons in each age group) of juvenile murder and nonnegligent manslaughter victimization, by age, sex, and race of victim, United States, 1976-92 (3.146) 386
- 3.132 Rate (per 100,000 persons in each age group) of murder and nonnegligent manslaughter committed by juveniles, by age, sex, and race of offender, United States, 1976-92 (3.147) 386
- 3.133 Characteristics of juvenile murder and nonnegligent manslaughter victims, by selected characteristics of the offender and offense, United States, 1976-92 (3.148) 387
- 3.134 Characteristics of juvenile murder and nonnegligent manslaughter offenders, by selected characteristics of the victim and offense, United States, 1976-92 (3.149) 387

- 5.85 Petitions for review on writ of certiorari to the U.S. Supreme Court filed, terminated, and pending, by circuit and nature of proceedings, fiscal year 1992 (5.81) 554
- 5.86 U.S. Supreme Court cases argued and decided on merits, at conclusion of the October terms 1981-92 (5.82) 555
- 5.87 Executive clemency applications for Federal offenses received, disposed of, and pending in the Office of the U.S. Pardon Attorney, fiscal years 1953-93 (5.83) 556
- 5.88 Criminal tax fraud cases initiated by the Internal Revenue Service Criminal Investigation Division, by type of disposition, fiscal years 1976-93 (5.84) 557
- 5.89 Criminal tax fraud cases handled by the Internal Revenue Service Office of Chief Counsel, by type of disposition, fiscal years 1976-93 (5.85) 558
- 5.90 Arrests and convictions handled by the U.S. Postal Inspection Service, fiscal years 1981-93 (5.86) 558
- 5.91 Arrests and convictions handled by the U.S. Postal Inspection Service, by type of offense, fiscal year 1993 (5.87) 559
- 5.92 Prosecutions for violations of U.S. immigration and nationality laws, by type of case, type of disposition, and aggregate fines and imprisonment imposed, fiscal years 1983-93 (5.88) 560
- 5.93 Convictions for violations of U.S. immigration and nationality laws, by offense, fiscal years 1984-93 (5.89) 560
- 5.94 Investigative activity of the U.S. Secret Service, fiscal years 1988-94 (5.90) 561
- 5.95 Disposition of arrests by the U.S. Secret Service, fiscal years 1975-93 (5.91) 561
- 5.96 Forged check and forged bond cases received and closed by the U.S. Secret Service, fiscal years 1973-92 (5.92\*) 562
- 5.97 Criminal enforcement activities of the U.S. Environmental Protection Agency, by disposition, United States, fiscal years 1982-92 (5.93) 562
- 5.98 Persons indicted, awaiting trial on Dec. 31, and convicted of offenses involving abuse of public office, by level of government, 1970-91 (5.94\*) 563
- 5.99 Judicial misconduct complaints and dispositions, by type of disposition and State, 1991-92 (5.95) 564

- 5.100 Army personnel tried and percent convicted in General and Special (BCD) Courts-Martial, by type of personnel, fiscal years 1971-93 (5.96) 566
- 5.101 Air Force personnel tried and percent convicted in General and Special Courts-Martial, by type of court and personnel, 1971-92 (5.97\*) 567
- 5.102 Air Force personnel tried and percent pleading guilty to all charges entered in General and Special Courts-Martial, by type of court, 1971-92 (5.98\*) 568
- 5.103 Air Force personnel convicted in General and Special Courts-Martial, by type of disposition and court, 1971-92 (5.99\*) 569
- 5.104 Coast Guard personnel tried in General, Special (BCD), and Summary Courts-Martial, by type of court, fiscal years 1966-93 (5.100) 570
- 5.105 Offenses involved in Coast Guard Special (BCD) Courts-Martial, fiscal years 1978-93 (5.101) 571
- 5.106 Coast Guard personnel convicted in Special (BCD) Courts-Martial, by type of disposition, fiscal years 1981-93 (5.102) 572
- Section 6**  
**Persons under correctional supervision**  
573
- 6.1 Rate (per 100,000 adult residents) of persons under community supervision, by type of supervision, region, and State, 1989 and 1990 (6.1\*) 574
- 6.2 Movement of the probation population under State and Federal jurisdiction, by region and jurisdiction, 1990 (6.2\*) 575
- 6.3 Persons received for supervision by the Federal Probation System, by type of supervision, 1975-93 (6.3) 576
- 6.4 Movement of persons under supervision of the Federal Probation System, fiscal year 1993 (6.4) 577
- 6.5 Persons under supervision of the Federal Probation System and authorized probation officers, United States, 1975-93 (6.5) 577
- 6.6 Federal probationers terminating supervision, by outcome and offense, United States, 1990 (6.6) 578
- 6.7 Intensive probation supervision programs, by selected program characteristics and State, 1992 (6.9\*) 579
- 6.8 Juveniles held in public juvenile facilities, by region and State, selected years 1975-91 (6.10\*) 581
- 6.9 Juveniles admitted to and discharged from public juvenile facilities, by region and State, selected years 1975-90 (6.11\*) 582
- 6.10 Custody rate (per 100,000 juveniles) of juveniles held in public juvenile facilities, by region and State, 1987, 1989, and 1991 (6.12\*) 583
- 6.11 Juveniles held in public juvenile facilities, by adjudication status and type of facility, United States, 1991 (6.13\*) 584
- 6.12 Juveniles held in public juvenile facilities, by sex and reason held, United States, 1991 (--) 584
- 6.13 Public juvenile facilities administered by State and local governments, by region and State, 1988 and 1991 (6.17\*) 585
- 6.14 Private juvenile facilities and youth characteristics, by type of facility, United States, 1991 (6.20\*) 586
- 6.15 Juvenile offenders in custody, by selected characteristics and jurisdiction, 1993 (6.28) 587
- 6.16 Juvenile facilities and juveniles under custody, by type of facility and State, 1991 (6.29\*) 588
- 6.17 Number of jail inmates, average daily population, and rated capacity, by legal status and sex, United States, 1983-92 (6.31) 591
- 6.18 Estimated number and rate (per 100,000 U.S. residents) of persons in local jails, by race, United States, 1984-92 (--) 592
- 6.19 Jail inmates, by sex, race, and Hispanic origin, United States, 1991 and 1992 (6.36) 592
- 6.20 Characteristics of jail inmates, by sex, United States, 1983 and 1989 (6.37\*) 592
- 6.21 Most serious offense of jail inmates, by sex, United States, 1983 and 1989 (6.39\*) 593
- 6.22 Conviction status of adult jail inmates, by sex, United States, 1983-92 (6.41) 594
- 6.23 Jail inmates charged with driving while intoxicated (DWI), by demographic characteristics, United States, 1989 (6.46\*) 595
- 6.24 Length of sentence imposed on offenders convicted of driving while intoxicated (DWI), by number of prior DWI sentences to jail or prison, United States, 1989 (6.48\*) 595
- 6.25 Jail inmates charged with drug and nondrug offenses, by selected demographic characteristics, United States, 1983 and 1989 (6.49\*) 595
- 6.26 Drug use history of jail inmates, by type of drug, United States, 1983 and 1989 (6.50\*) 596
- 6.27 Drug use history of jail inmates, by selected demographic characteristics, United States, 1989 (6.51\*) 596
- 6.28 Prisoners housed in jails due to overcrowded State facilities, by sex, region, and jurisdiction, on Dec. 31, 1990 and 1991 (6.57\*) 597
- Fig. 6.1 Sentenced prisoners in State and Federal institutions on Dec. 31, United States, 1925-92 (Fig. 6.1) 598
- Fig. 6.2 Sentenced female prisoners in State and Federal institutions on Dec. 31, United States, 1925-92 (Fig. 6.2) 598
- Fig. 6.3 Sentenced male prisoners in State and Federal institutions on Dec. 31, United States, 1925-92 (Fig. 6.3) 599
- Fig. 6.4 Rate (per 100,000 resident population) of sentenced prisoners in State and Federal institutions on Dec. 31, United States, 1940-92 (Fig. 6.4) 599
- 6.29 Number and rate (per 100,000 resident population of each sex) of sentenced prisoners in State and Federal institutions on Dec. 31, by sex, United States, 1925-92 (6.58) 600
- 6.30 Rate (per 100,000 resident population) of sentenced prisoners in State and Federal institutions on Dec. 31, by region and jurisdiction, 1972-92 (6.59) 601
- 6.31 Prisoners under jurisdiction of State and Federal correctional authorities on Dec. 31, by region and jurisdiction, 1991 and 1992 (6.61) 602
- 6.32 Rate (per 100,000 resident population) of prisoners under jurisdiction of State and Federal correctional authorities, by maximum sentence length, region, and jurisdiction, on Dec. 31, 1992 (6.63) 603
- 6.33 Movement of sentenced prisoners in State and Federal institutions, by region and jurisdiction, 1991 (6.60\*) 604
- 6.34 Prisoners under jurisdiction of State and Federal correctional authorities, by race, region, and jurisdiction, on Dec. 31, 1991 (6.62\*) 606

- 6.35 Prisoners in custody of State and Federal correctional authorities on Dec. 31, by maximum sentence length, region, and jurisdiction, 1990 and 1991 (6.64\*) 607
- 6.36 Female prisoners in State and Federal institutions, by security classification, type of offense, and jurisdiction, 1993 (--) 608
- 6.37 Prisoner population over age 55, by jurisdiction, as of June 30, 1990, 1992, and 1993 (--) 609
- 6.38 State and Federal correctional facilities and inmates/residents, by type of facility and sex of inmates/residents, June 29, 1990 (6.65\*) 609
- 6.39 Number of inmates/residents in and design capacity of State and Federal correctional facilities, by facility size, June 30, 1984 and June 29, 1990 (6.66\*) 610
- 6.40 Characteristics of State prison inmates, by sex, United States, 1986 and 1991 (6.69\*) 611
- 6.41 Most serious offense of State prison inmates, by race and Hispanic origin, United States, 1986 and 1991 (6.70\*) 612
- 6.42 Most serious offense of State prison inmates, by age, United States, 1991 (6.71\*) 613
- 6.43 Most serious offense of State prison inmates, by sex, United States, 1986 and 1991 (--) 614
- 6.44 Criminal history and prior sentences of State prison inmates, by sex, United States, 1991 (--) 614
- 6.45 Maximum sentence length of State prison inmates, by most serious offense and sex, United States, 1991 (--) 615
- 6.46 Maximum sentence length and special sentencing conditions of State prison inmates, by most serious offense, United States, 1991 (6.72\*) 615
- 6.47 Family history of State prison inmates, by sex and race of inmates, United States, 1991 (--) 616
- 6.48 State prison inmates with children, by sex and race of inmates, United States, 1991 (--) 616
- 6.49 Pregnant inmates in State and Federal institutions and babies born to inmates during past 12 months, by jurisdiction, 1993 (--) 617
- 6.50 State and Federal prisoners testing positive for the human immunodeficiency virus (HIV), by type of HIV infection, and region and jurisdiction, 1991 (--) 617
- 6.51 State prison inmates ever tested for the human immunodeficiency virus (HIV) and percent reporting testing positive, by selected characteristics, 1991 (--) 618
- 6.52 State prisoners reporting testing positive for the human immunodeficiency virus (HIV), by drug and needle use, and selected characteristics, 1991 (--) 618
- 6.53 Drug use history of State prison inmates, by type of drug, United States, 1986 and 1991 (6.73\*) 619
- 6.54 Drug use history of State prison inmates, by characteristics, United States, 1991 (6.74\*) 620
- 6.55 Drug use history of State prison inmates, by most serious offense, United States, 1991 (6.75\*) 620
- 6.56 Drug use among State prison inmates during month before offense, by most serious offense, United States, 1991 (6.76\*) 621
- 6.57 Drug use by female State prison inmates, by type of drug, United States, 1986 and 1991 (--) 622
- 6.58 Drug use history of female State prison inmates, by most serious offense, United States, 1991 (--) 622
- 6.59 Characteristics of victims of violent State prison inmates, by most serious offense, United States, 1991 (6.77\*) 623
- 6.60 Prison admissions in 35 States, by admission type and demographic characteristics, United States, 1991 (6.78) 624
- 6.61 New court commitments to prisons in 35 States, by offense, sex, race, and Hispanic origin, United States, 1991 (6.79) 625
- 6.62 New court commitments to prisons in 35 States, by offense and age at admission, United States, 1991 (6.80) 626
- 6.63 Prison inmates serving life sentences, by selected characteristics, on Sept. 30, 1992 (6.81\*) 627
- 6.64 Characteristics of Federal prisoners, United States, 1990-93 (6.82) 628
- 6.65 Characteristics of Federal prisoners, United States, 1993 (6.83) 629
- 6.66 Security level of facilities housing Federal prisoners, by sex and race of prisoner, United States, 1993 (6.84) 630
- 6.67 Type of commitment offense among Federal prisoners, by sex and race of prisoner, United States, 1993 (6.85) 630
- 6.68 Federal prison admissions, by sentence length and demographic characteristics, United States, 1991 (6.86) 631
- 6.69 New court commitments to Federal prison, by offense, sex, race, and Hispanic origin, United States, 1991 (6.87) 632
- 6.70 New court commitments to Federal prison, by offense and age at admission, United States, 1991 (6.88) 633
- 6.71 Enrollment in academic, work, and counseling programs in State correctional facilities, by type of program and type of facility, June 30, 1984 and June 29, 1990 (6.89\*) 634
- 6.72 Academic programs in State and Federal correctional facilities and number of participants, by type of program, June 29, 1990 (6.90\*) 634
- 6.73 State and Federal correctional facilities providing work assignments and number of participants, by type of work assignment, June 29, 1990 (6.91\*) 635
- 6.74 Enrollment in counseling programs in State and Federal correctional facilities, by type of counseling program and type of facility, June 29, 1990 (6.92\*) 635
- 6.75 Inmates enrolled in education programs in State and Federal institutions, by type of education program and jurisdiction, 1993 (--) 636
- 6.76 Participants in drug treatment programs among State prison inmates, by sex, race and Hispanic origin, and drug use history, United States, 1991 (6.96\*) 637
- 6.77 Sex offenders, housing, and treatment programs, by jurisdiction, 1993 (--) 638
- 6.78 Clients in drug and/or alcoholism treatment units, by sex, race, ethnicity, and age, United States, as of Sept. 30, 1991 (6.97\*) 641
- 6.79 Drug and/or alcoholism treatment units, clients in treatment, and treatment capacity, by jurisdiction, as of Sept. 30, 1991 (6.98\*) 642
- 6.80 Clients in drug and/or alcoholism treatment units, by age and jurisdiction, as of Sept. 30, 1991 (6.99\*) 643
- 6.81 Clients in drug and/or alcoholism treatment units, by sex and jurisdiction, as of Sept. 30, 1991 (6.100\*) 644
- 6.82 Clients in drug and/or alcoholism treatment units, by race, ethnicity, and jurisdiction, as of Sept. 30, 1991 (6.101\*) 644

- 6.83 Drug and alcoholism treatment and prevention units providing services, by type of treatment unit and type of service, as of Sept. 30, 1991 (6.102\*) 645
- 6.84 Drug and alcoholism treatment and prevention units providing services, by type of service and jurisdiction, as of Sept. 30, 1991 (6.103\*) 646
- 6.85 Capacity of U.S. Navy correctional centers, by sex and location, 1993 (6.104) 647
- 6.86 Capacity and security level of U.S. Army correctional centers, by location, 1993 (--) 647
- 6.87 Capacity and average population of U.S. Marine Corps correctional centers, by location, 1993 (6.105) 647
- 6.88 Escapes and walk-aways/AWOLS from correctional facilities, by jurisdiction, fiscal years 1992 and 1993 (6.106) 648
- 6.89 Conditional and unconditional releases of sentenced prisoners from State jurisdiction, by type of release, region, and State, 1991 (6.107\*) 649
- 6.90 First releases from prisons in 34 States, by offense, race, Hispanic origin, and time served in prison, United States, 1991 (6.108) 650
- 6.91 First releases from Federal prisons, by offense, race, Hispanic origin, and time served in prison, United States, 1991 (6.109) 651
- 6.92 Time served by Federal offenders, by most serious conviction offense, time served, and percent of sentence served, United States, 1990 (6.111) 652
- 6.93 Movement of the parole population under State and Federal jurisdiction, by region and jurisdiction, 1990 (6.112\*) 653
- 6.94 Rate (per 100,000 adult residents) of persons in the parole population, United States, 1979-90 (6.113\*) 653
- 6.95 Sentenced prisoners admitted to State institutions for violations of parole or other conditional release, by whether a new sentence was imposed, sex, region, and State, 1991 (6.114\*) 654
- 6.96 Entries to parole supervision from prisons in 34 States, by offense, sex, race, and Hispanic origin, United States, 1991 (6.115) 655
- 6.97 Parole discharges in 27 States, by method of parole discharge, sex, race, and Hispanic origin, United States, 1991 (6.116) 656
- 6.98 Parole discharges in 27 States, by offense and type of discharge, United States, 1991 (6.117) 657
- 6.99 Prisoners granted parole by the U.S. Parole Commission, by region, fiscal years 1977-93 (6.118) 658
- 6.100 Entries to Federal parole supervision, by offense, sex, race, and Hispanic origin, United States, 1991 (6.119) 659
- 6.101 Federal parole discharges, by method of parole discharge, sex, race, and Hispanic origin, United States, 1991 (6.120) 660
- 6.102 Federal parole discharges, by offense and type of discharge, United States, 1991 (6.121) 661
- 6.103 Federal parolees terminating supervision, by outcome and offense, United States, 1990 (6.122) 662
- 6.104 Deaths among sentenced prisoners under the jurisdiction of State correctional authorities, by cause of death, sex, region, and State, 1991 (6.123\*) 663
- 6.105 AIDS-related deaths among State prisoners, by sex, and region and State, 1991 (--) 664
- 6.106 Deaths and assaults among inmates and staff in State and Federal prisons, by jurisdiction, fiscal years, 1992 and 1993 (6.124) 665
- 6.107 Number of inmates/residents in State and Federal correctional facilities, by status, 1990 (6.125\*) 665
- 6.108 Prisoners under sentence of death, by race, ethnicity, and jurisdiction, on Apr. 20, 1994 (6.126) 666
- 6.109 Prisoners under sentence of death, by demographic characteristics, prior felony conviction history, and legal status, United States, on Dec. 31, 1992 (6.127) 666
- 6.110 Prisoners under sentence of death, by race, region, and jurisdiction, on Dec. 31, 1991 and 1992 (6.128) 667
- 6.111 Hispanic and female prisoners under sentence of death, by State, 1991 and 1992 (6.129) 668
- 6.112 Prisoners received from court under sentence of death, by race, region, and jurisdiction, 1991 (6.130\*) 668
- 6.113 Prisoners received from court under sentence of death, by age, legal status at time of arrest, and region, United States, 1991 (6.131\*) 669
- 6.114 Movement of prisoners under sentence of death, United States, 1968-91 (6.132\*) 669
- 6.115 Movement of prisoners under sentence of death, by race, ethnicity, region, and jurisdiction, United States, 1991 (6.133\*) 670
- 6.116 Prisoners removed from death row, by current status, region, and jurisdiction, 1991 (6.134\*) 672
- 6.117 Prisoners removed from death row, by method of removal, region, and jurisdiction, 1991 (6.135\*) 673
- 6.118 Prisoners executed, by jurisdiction, 1930-Dec. 31, 1992 (aggregate) (6.136) 674
- 6.119 Prisoners executed under civil authority, by region and jurisdiction, 1930-91 (6.137\*) 675
- 6.120 Prisoners executed under civil authority, by race and offense, United States, 1930-91 (6.138\*) 676
- 6.121 Methods of execution in States authorizing the death penalty, by State, 1992 (6.139) 677

## Section 1

### Characteristics of the criminal justice systems

The data presented in this section describe the organization, structure, financial expenditures, and employment of criminal justice systems in the United States. This section includes information on the functioning of criminal justice systems at the local, county, State, and Federal levels. Selected legislation relating to criminal justice matters also is included.

The first part of the section presents data from surveys conducted by the U.S. Bureau of the Census for the Bureau of Justice Statistics (BJS). Tables provide detailed information on justice system expenditures at the Federal, State, and local levels. Data on expenditures for police functions, judicial activities, and corrections activities are presented. Expenditure trends for the Federal drug control budget are presented as are data on State and local spending on drug control activities. Several tables also focus on the number of persons employed by police departments, the courts, and correctional systems.

The second segment of the section provides information on the characteristics of police agencies. Data from the Directory Survey of Law Enforcement Agencies and the Law Enforcement Management and Administrative Statistics (LEMAS) survey, both sponsored by BJS, describe the employment, expenditures, and characteristics of law enforcement personnel and departments at the State and local levels. Data from a survey conducted by the International City/County Management Association also provide information on police personnel, salaries, and expenditures. Data from the Federal Bureau of Investigation's Uniform Crime Reporting Program provide the number and rate of law enforcement employees for geographic regions of the country. Information on the duties of the U.S. Marshals Service is provided; these include property seizures, the execution of warrants and court orders, witness security, and the transportation of Federal prisoners.

The next portion presents information relating to the courts and the judiciary. Information on appropriations for the Federal judiciary, salaries, and personnel is presented, as are data on criminal cases filed in U.S. District Courts and duties performed by U.S. magistrates. Characteristics of State court judges such as qualifications, salaries, and length of term are included. In addition, a number of tables describe judicial conduct commissions, juror expenditures and utilization, and investigative reports by Federal probation officers.

The fourth part of the section presents a series of tables focusing on correctional facilities in the United States. Information on jails and detention centers is presented as well as data on characteristics of State, Federal, and private correctional facilities. Information is presented on correctional personnel and facilities in adult and juvenile systems. This includes details on State and Federal correctional officers, such as demographic characteristics and training requirements as well as information on wardens and superintendents. Data on correctional facilities housing females, prison boot camp programs, and private correctional facilities also are included. Additionally, information on drug interdiction activities in correctional facilities and correctional departments under court order is included. Characteristics of State intensive parole supervision programs are presented as are the workload of and decisions made by the U.S. Parole Commission.

The final set of tables presents statutory provisions relating to a number of issues such as capital offenses, restrictions for judicial waiver of juveniles to criminal court, sex offender programs, and statutory restrictions relating to firearms. Finally, information on drinking and driving statutes for the 50 States is provided.

Table 1.1

## Justice system expenditures

By type of activity and level of government, United States, fiscal year 1990

(Dollar amounts in thousands)

Level of government	Total	Police protection	Judicial and legal services				Correc- tions	Other justice activities
			Total	Courts only	Prosecution and legal services	Public defense		
All expenditures	\$74,249,120	\$31,804,913	\$16,549,151	\$9,306,975	\$5,500,139	\$1,742,037	\$24,960,606	\$934,450
Federal	10,058,735	4,020,474	3,477,040	1,553,171	1,518,098	405,771	1,596,765	964,456
Direct	9,330,923	4,020,474	3,477,030	1,553,161	1,518,098	405,771	1,456,405	377,014
Intergovernmental	727,812	0	10	10	0	0	140,360	587,442
All State and local	64,918,198	27,784,438	13,072,121	7,753,814	3,982,041	1,336,266	23,504,200	557,436
State	28,004,591	5,197,067	5,532,918	3,478,174	1,451,070	603,674	16,692,827	581,779
Direct	25,413,826	4,714,460	5,009,884	3,165,321	1,296,078	548,485	15,364,609	324,872

Intergovernmental	500,302	356,153	42,994	36,144	1,702	5,148	100,521	634

Note: These data were collected by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. The Federal Government, all State governments, and a sample of county, municipal, and township governments were included in the survey. Since not all local governments were included in the survey, these data are subject to sampling error (i.e., variations that might result if a different sample were used). The category "Other justice activities" includes data not elsewhere classified, that cut across more than one category, or that are not allocable to separate categories (e.g., crime commissions, neighborhood crime councils, and State criminal justice coordinating councils).

Intergovernmental expenditure consists of payments from one government to another. Such expenditure eventually will show up as a direct expenditure of a recipient government. Duplicative transactions between levels of governments are excluded from the totals for all governments, all State and local governments, and total local governments.

For survey methodology and definitions of terms, see Appendix 1.

Note: See Note, table 1.1. Data for the Federal government were extracted from *Budget of the United States Government, FY 1992, Appendix*. Beginning with the 1985 survey that document allowed the classification of appropriate expenditure and employment amounts for the Immigration and Naturalization Service, the U.S. Customs Service, and the Internal Revenue Service as "prosecution and legal services." In earlier years, those amounts could not be

broken out of the "police protection" category. (Source, p. 12.) For survey methodology and definitions of terms, see Appendix 1.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Justice Expenditure and Employment, 1990*, Bulletin NCJ-135777 (Washington, DC: U.S. Department of Justice, September 1992), p. 4.

Note: See Note, table 1.1. For survey methodology and definitions of terms, see Appendix 1.

<sup>a</sup>Detail may not add to total because of rounding.<sup>b</sup>Data for "other" corrections are for State governments only.<sup>c</sup>Data for municipalities, and the local government totals that include municipal data, are estimates subject to sampling variability. Data for State and county governments (boroughs, parishes) are based on a canvass of all such governments and therefore are not subject to sampling variability.Source: U.S. Department of Justice, Bureau of Justice Statistics, *Justice Expenditure and Employment in the U.S., 1990*, NCJ-137754 (Washington, USGPO, 1994), Table 41.

Note: These data were collected for the U.S. Department of Justice, Bureau of Justice Statistics by the U.S. Bureau of the Census. The 1990 Census of State and Federal Adult Correctional Facilities was the fourth enumeration of State institutions and the first of Federal institutions. Previous censuses were completed in 1974, 1979, and 1984. Questionnaires were mailed to facilities at the end of June 1990. Through various followup procedures a response rate of 100 percent was achieved. Expenditure information was collected separately by the U.S. Bureau of the Census in site visits to State departments of correction, and by Federal Bureau of Prisons personnel.

Facilities were included in the census if they were staffed with State or Federal employees; housed primarily State or Federal prisoners; were physically, functionally, and administratively separate from other facilities; and were operational on the reference date, June 29, 1990. Where data refer to an annual period, the reference date is June 30, 1990. The census also included 67 private facilities under exclusive contract by State governments to house prisoners. The census included the following types of State and Federal adult correctional facilities: prisons; prison farms; reception, diagnostic, and classification centers; road camps; forestry and conservation camps; youthful offender facilities (except in California); vocational training facilities; prison hospitals; drug and alcohol treatment facilities; and State-operated local detention facilities in Alaska, Connecticut, Delaware, Hawaii, Rhode Island, and Ver-

mont. Specifically excluded from the census were privately operated facilities that were not exclusively for State or Federal inmates; military facilities; Immigration and Naturalization Service facilities; Bureau of Indian Affairs facilities; facilities operated and administered by local governments, including those housing State prisoners; facilities operated by the U.S. Marshals Service; and public hospital wings and wards reserved for State prisoners.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Figures include expenditures such as salaries, wages, employee benefits, purchase of food, supplies, and contractual services.

<sup>c</sup>Figures include expenditures such as purchase or leasing of land.

<sup>d</sup>Operating expenditures per inmate were determined by dividing the amount spent on salaries, wages, supplies, utilities, transportation, contractual services, and other current operating items paid for during the fiscal year, by the average daily inmate population.

Note: This information was collected through a survey of the 50 States, the District of Columbia, and the Federal Bureau of Prisons. Indiana, Montana, and Wyoming did not respond to the survey. Budget amounts have been rounded to the nearest thousand. Some budget allocations and employee figures also have been rounded. The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>a</sup>Included as part of treatment programs.

<sup>b</sup>Addition.

<sup>c</sup>Expansion.

<sup>d</sup>\$150,000,000 in construction authority remains from fiscal year 1989.

<sup>e</sup>Plus 2,540 in additions.

<sup>f</sup>Less than 1 percent.

<sup>g</sup>Loss of five positions.

<sup>h</sup>Loss of 93.5 positions.

<sup>i</sup>Loss of 89 positions.

<sup>j</sup>Construction budgets are special legislation and not part of the annual budget.

<sup>k</sup>No capital outlay for construction.

<sup>l</sup>Renovation.

<sup>m</sup>Reconfiguration of existing facility.

<sup>n</sup>Loss of 120 positions.

<sup>o</sup>Loss of 33 beds.

<sup>p</sup>General revenues only.

<sup>q</sup>Derived from other funding source.

<sup>r</sup>Separate department.

<sup>s</sup>Estimated.

<sup>t</sup>Separate budget.

<sup>u</sup>Five expansion projects also.

Table 1.11

## Cost of health care in State and Federal departments of correction

By jurisdiction, 1993

Jurisdiction	Total department of corrections budget	Total health care budget	Health care cost per inmate	Health care budget also funds:
Alabama	\$139,478,942	\$11,639,000	\$777	Mental health treatment (limited), obstetrics/gynecology, AIDS treatment, alcohol and drug addiction, sex offender treatment (treatment programs budget)
Alaska	117,000,000	15,000,000	2,535	Mental health treatment, obstetrics/gynecology, AIDS treatment
Arizona	250,715,700	31,167,976	1,927	Sex offender treatment; mental health treatment; obstetrics/gynecology; AIDS treatment; alcohol and drug counseling is purchased using funds generated by driving under the influence offenders who work in the community while incarcerated
Arkansas	75,269,991	13,944,947	1,912	Alcohol and drug treatment, sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
California	2,441,956,000	244,644,000	2,391	Alcohol and drug addiction treatment, sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
Connecticut	248,310,810	29,328,200	2,766	Sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
District of Columbia	262,429,000	11,000,000 <sup>a</sup>	1,000	Mental health treatment, obstetrics/gynecology
Florida	905,946,109	142,962,718	3,072	Mental health treatment, obstetrics/gynecology, AIDS treatment
Georgia	451,489,774	47,747,900	2,048	Mental health treatment, obstetrics/gynecology, AIDS treatment
Hawaii	60,420,599	7,143,083	2,610	Mental health treatment (through Department of Health, Courts and Corrections), obstetrics/gynecology, AIDS treatment
Idaho	42,000,000	3,200,000	1,450	Mental health treatment, obstetrics/gynecology, AIDS treatment
Illinois	573,773,200	49,231,400	1,763	Alcohol and drug addiction treatment, sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
Indiana	310,404,568	40,513,392	3,087	Alcohol and drug addiction treatment, sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment, all inside and outside hospital services, all dental, medical and mental services
Kansas	162,638,799	13,557,993	2,366	Mental health treatment, obstetrics/gynecology, AIDS treatment
Kentucky	175,724,900	16,977,100	1,735	Alcohol and drug addiction treatment, sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
Louisiana	285,264,129	13,000,000	634	Alcohol and drug addiction treatment, mental health treatment, obstetrics/gynecology, AIDS treatment (alcohol and drug addiction treatment and mental health treatment not included in the cost per inmate)
Massachusetts	246,000,000	30,000,000	3,260	Alcohol and drug addiction treatment, sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
Minnesota	162,057,000	11,817,373	1,840	Obstetrics/gynecology, AIDS treatment
Mississippi	81,533,506	7,435,340	748	Alcohol and drug addiction treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
Missouri	209,459,867	19,162,711	1,204	Mental health treatment, obstetrics/gynecology, AIDS treatment, speech pathology, audiology, optometry, dental
Montana	29,538,683	1,284,380	859	Obstetrics/gynecology, AIDS treatment
Nebraska	45,549,781	5,928,025	2,335	Obstetrics/gynecology, AIDS treatment
Nevada	87,971,087	16,454,221	2,861	Alcohol and drug addiction treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
New Hampshire	35,593,516	4,335,035	2,990	Alcohol and drug addiction treatment, sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
New Mexico	107,259,600	9,197,400 <sup>b</sup>	3,058	Alcohol and drug addiction treatment, sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment

See notes at end of table.

Table 1.11

## Cost of health care in State and Federal departments of correction

By jurisdiction, 1993--Continued

Jurisdiction	Total department of corrections budget	Total health care budget	Health care cost per inmate	Health care budget also funds:
New York	1,377,436,374	102,899,729	1,817	Obstetrics/gynecology, AIDS treatment
Ohio	\$520,734,000	\$45,047,365	\$1,275	Alcohol and drug addiction treatment, sex offender treatment, obstetrics/gynecology, AIDS treatment (all covered by department budget, not medical budget)
Oklahoma	173,873,897	14,005,715	1,032	Mental health treatment
Oregon	178,950,375	15,110,322	2,296	Sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
Pennsylvania	457,611,000	48,115,000	2,046	Mental health treatment, obstetrics/gynecology, AIDS treatment
Rhode Island	93,000,000	8,500,000	2,680	Alcohol and drug treatment, sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
South Carolina	199,000,000	23,000,000	1,596	Sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
South Dakota	21,160,319	2,218,523	1,563	Sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
Tennessee	288,900,000	24,200,000	2,606	Obstetrics/gynecology, AIDS treatment
Texas	733,579,475	112,882,624	2,099	Alcohol and drug addiction treatment, sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment, physically handicapped
Utah	89,525,144	5,256,689	1,735	Sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
Virginia	407,486,680	34,383,299	2,062	Alcohol and drug addiction, sex offender treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
Washington	262,868,270	22,232,588	1,621	Alcohol and drug addiction treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
West Virginia	28,600,000	3,000,000	1,765	Alcohol and drug addiction treatment, mental health treatment, obstetrics/gynecology, AIDS treatment
Wisconsin	260,213,800	11,501,200	1,529	Obstetrics/gynecology, AIDS treatment
Wyoming	23,500,000	2,792,000	2,964	Mental health treatment, obstetrics/gynecology, AIDS treatment
Federal Bureau of Prisons	2,084,652,000	214,550,000	2,997	Alcohol and drug addiction treatment, mental health treatment, obstetrics/gynecology, AIDS treatment

Note: This information was collected in February 1993 through a survey mailed to the departments of correction in the 50 States, the District of Columbia, and the Federal Bureau of Prisons. Colorado, Delaware, Iowa, Maine, Michigan, and New Jersey did not respond to the survey. Maryland, North Carolina, North Dakota, and Vermont provided incomplete budgetary information. The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>a</sup> Approximate.

<sup>b</sup> Men's facility only; women's facility utilizes private contractor.

Note: The Justice Assistance Act of 1984 authorized the establishment of the Office of Justice Programs as the successor agency to the Office of Justice Assistance, Research, and Statistics (OJARS) and the Law Enforcement Assistance Administration (LEAA). This body is responsible for coordinating the activities of its component bureaus. Research and statistical activities are conducted by the National Institute of Justice (NIJ) and the Bureau of Justice Statistics (BJS), respectively. The Bureau of Justice Assistance is responsible for the State and Local Assistance Program and the Anti-Drug Abuse Program.

<sup>a</sup>Includes effect of Gramm-Rudman-Hollings reductions.

<sup>b</sup>Column may not add to total because of rounding.

<sup>c</sup>Authorization for program not provided until fiscal year 1985. 1984 funds were added to 1985 funds for award in 1985.

<sup>d</sup>Reflects the total program level, which includes unused carryover earmarked by Congress for addition to appropriated amount.

<sup>e</sup>Includes \$150 million 1993 supplemental appropriation for the Police Hiring Program.

<sup>f</sup>Represents amount deposited in previous year.

<sup>g</sup>State technical assistance.

<sup>h</sup>A program authorized to provide funds, equipment, intelligence information, and/or personnel to a requesting State in the event of a law enforcement emergency.

<sup>i</sup>A program to aid State and local law enforcement agencies in the exchange of intelligence information.

<sup>j</sup>Refers to an appropriation to be allocated to States housing Marie! Cuban refugees in State correctional facilities.

<sup>k</sup>Funds transferred from the Office of National Drug Control Policy.

Note: U.S. Department of Justice Assets Forfeiture Fund (AFF) was established by the Comprehensive Crime Control Act of 1984. Forfeited cash and proceeds from the sale of forfeited properties are deposited into the AFF. Most assets are forfeited because they were used in, or acquired as a result of, violations of racketeering, money laundering, or drug trafficking statutes. The 1993 Treasury/Postal Appropriations Act established in the Treasury of the United States the Department of the Treasury Forfeiture Fund (TFF). The TFF will receive deposits from forfeited cash and proceeds from the sale of forfeited properties that fall under any law enforced or administered by a Department of the Treasury law enforcement organization or the United States Coast Guard.

The Assets Forfeiture Amendments Act of 1988 established the Special Forfeiture Fund (SFF), which was intended to allow the Director of the Office of National Drug Control Policy (ONDCP) to supplement drug control programs. Deposits to this fund come from the Justice Assets Forfeiture Fund and the Treasury Assets Forfeiture Fund after they meet certain necessary expenses.

Direct	8,455	3,585	311	482	187	2,486	1,173	163	68
Intergovernmental	112	1	1	1	-	14	94	-	-
Percent change, 1990 to 1991									
All State and local	13.0 %	4.7 %	8.8 %	9.3 %	1.6 %	12.9 %	27.5 %	37.6 %	20.4 %
State	19.9	2.7	6.4	2.0	7.0	19.0	28.1	31.8	47.6
Local	8.1	4.9	8.6	10.7	0.5	3.7	25.2	51.5	2.9

Note: These data were collected by the U.S. Bureau of the Census for the Office of National Drug Control Policy. All State governments, all 3,042 county governments, all municipalities with a 1986 population of 10,000 or more, and a sample of municipalities with populations of less than 10,000 were included in the sample population. Since not all local governments were included in the survey, these data are subject to sampling error (i.e., variations that might result if a different sample were used). Intergovernmental expenditure consists of payments made from one government to another. Such expenditures eventually show up as direct expenditures of the recipient government.

Duplicative transactions between levels of government are excluded from the total for all State and local governments and the total for local governments.

For survey methodology and definitions of terms, see Appendix 1.

Note: The Anti-Drug Abuse Act provides financial and technical resources to State and local units of government, as well as the Federal Government, to engage in the Nation's fight against drugs. The purpose of the Edward Byrne Memorial State and Local Law Enforcement Assistance Program is to assist States and units of local government in carrying out specific programs that offer a high probability of improving the functioning of the criminal justice system, and to enhance drug control efforts at the State and local levels. Special emphasis is placed on nationwide and multi-jurisdictional projects and programs that advance national drug control priorities. In accordance with Sec. 501 (b) of the Act, the States may award formula grant funds to State agencies and units of local government for the purpose of enforcing State and local laws that establish offenses similar to offenses established in the Controlled Substances Act (21 U.S.C. 801 et seq.) and to improve the functioning of the criminal justice system, with emphasis on violent crime and serious offenders. Grants may

provide personnel, equipment, training, technical assistance, and information systems for more widespread apprehension, prosecution, adjudication, detention, and rehabilitation of persons who violate such laws, and to assist the victims of such crimes (other than compensation). (Source, 1994, p. 1.)

Note: See Note, table 1.19. The Discretionary Grant Program is designed to determine which programs and strategies are effective in criminal justice and drug control, to disseminate that information to State and local agencies, and to assist them with replication of effective programs and practices (Source, p. 1).

Source: U.S. Department of Justice, Bureau of Justice Assistance, *Report on Drug Control, Fiscal Year 1992*, NCJ-141639 (Washington, DC: U.S. Department of Justice, 1993), pp. 5, 6. Table adapted by SOURCEBOOK staff.

<sup>a</sup>The dollar figure for each fiscal year reflects actual awards and may differ slightly from the appropriation because funds may be carried over from 1 year to the next.

Table 1.22

**Distribution of the Edward Byrne Memorial State and Local Law Enforcement Assistance Program formula grant funds**

By program area and jurisdiction, fiscal year 1992--Continued

Note: See Notes, tables 1.19 and 1.21.

<sup>a</sup>Demand reduction education programs in which law enforcement officers participate.

<sup>b</sup>Multi-jurisdiction task force programs that integrate Federal, State and/or local drug law enforcement agencies and prosecutors for the purpose of enhancing interagency coordination and intelligence and facilitating multi-jurisdiction investigations.

<sup>c</sup>Programs designed to target the domestic sources of controlled and illegal substances, such as precursor chemicals, diverted pharmaceuticals, clandestine laboratories, and cannabis cultivations.

<sup>d</sup>Providing community and neighborhood programs that assist citizens in preventing and controlling crime, including special programs that address the problems of crimes committed against the elderly and special programs for rural jurisdictions.

<sup>e</sup>Improving the investigation and prosecution of white-collar crime, organized crime, public corruption crimes, and fraud against the government with priority attention to cases involving drug-related official corruption.

<sup>f</sup>Improving the operational effectiveness of law enforcement through the use of crime analysis techniques, street sales enforcement, schoolyard violator programs, gang-related programs, and low-income housing drug control programs. Also, developing and implementing anti-terrorism plans for ports, international airports, and other important facilities.

<sup>g</sup>Career criminal prosecution programs, including the development of model drug control legislation.

<sup>h</sup>Financial investigative programs that target the identification of money laundering operations and assets obtained through illegal drug trafficking, including the development of proposed model legislation, financial investigative training, and financial information sharing systems.

<sup>i</sup>Improving the operational effectiveness of the court process by expanding prosecutorial, defender and judicial resources, and implementing court delay reduction programs.

<sup>j</sup>Programs designed to provide additional public correctional resources and improve the corrections system, including treatment in prisons and jails, intensive supervision programs, and long-range corrections and sentencing strategies.

<sup>k</sup>Providing programs which identify and meet the treatment needs of adult and juvenile drug-dependent and alcohol-dependent offenders.

<sup>l</sup>Developing and implementing programs which provide assistance to jurors and witnesses, and assistance (other than compensation) to victims of crime.

<sup>m</sup>Developing programs to improve drug control technology, such as pretrial drug testing programs, programs which provide for the identification, assessment, referral to treatment, case management and monitoring of drug-dependent offenders, and enhancement of State and local forensic laboratories. As well as the development of criminal justice information systems to assist law enforcement, prosecution, courts, and corrections organizations (including automated fingerprint identification systems).

<sup>n</sup>Innovative programs which demonstrate new and different approaches to enforcement, prosecution, and adjudication of drug offenses and other serious crimes.

<sup>o</sup>Addressing the problems of drug trafficking and the illegal manufacture of controlled substances in public housing.

<sup>p</sup>Improving the criminal and juvenile justice systems' response to domestic and family violence, including spouse abuse, child abuse, and abuse of the elderly.

<sup>q</sup>Drug control evaluation programs that State and local units of government may utilize to evaluate programs and projects directed at State drug control activities.

<sup>r</sup>Providing alternatives to avoid detention, jail, and prison for persons who pose no danger to the community.

<sup>s</sup>Programs focusing on strengthening urban enforcement and prosecution efforts targeted at street drug sales.

<sup>t</sup>Funds allocated to States to pay for costs incurred in administering the Formula Grant Program.

<sup>u</sup>The total includes \$26,250 distributed to Hawaii and \$20,000 distributed to West Virginia for the Prison Industry Program Area. The purpose of this area is to provide support for prison industry projects designed to place inmates in a realistic working and training environment that will enable them to acquire marketable skills and to make financial payments for victim restitution, family support, and self-support while incarcerated.

<sup>v</sup>The total includes \$72,616 distributed to Louisiana and \$100,000 distributed to North Carolina for the Property Crime Program Area. The purpose of this area is to disrupt illicit commerce in stolen goods and property.

Special police	100	67.9	32.1	100	23.2	76.8

Note: These data are from the second Directory Survey of Law Enforcement Agencies, a census of the Nation's State and local law enforcement agencies conducted in 1992. The first census was conducted in 1986. The data were collected by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. The Directory Survey includes all police and sheriffs' departments that are publicly funded and employ at least one full-time or part-time sworn officer with general arrest powers. The Directory Survey collects data on the number of sworn and nonsworn personnel employed by each agency, including both full-time and part-time employees. The pay period that included June 30, 1992, was the reference date for all personnel data. The census resulted in a 100 percent response rate from the 17,358 State and local law enforcement agencies operating in the United States. The final database includes responses from 12,502 general purpose local police departments, 3,086 sheriffs' departments, 49 primary State police departments, and 1,721 special police agencies. Hawaii does not have a State police agency.

A local police department was defined as a general purpose police department operated by a municipal or county government. A State police department was defined as the general purpose State police agency operated by the State. Local and State police categories include only general purpose agencies. Included among special police agencies are both State and local agencies policing special geographic jurisdictions such as airports, parks, transit systems, public schools, colleges and universities, and public housing. Also included are agencies with special enforcement responsibilities such as those pertaining to natural resource conservation or alcoholic beverage control, special investigative units such as those operated by prosecutors' offices, and county constables in Texas.

New York	New York City Housing Police	1,934	1,701				

Note: These data are from the second Law Enforcement Management and Administrative Statistics (LEMAS) survey conducted in 1990. The first survey was conducted in 1987. The data were collected by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. The LEMAS survey collects data from a nationally-representative sample of nearly 17,000 publicly-funded law enforcement agencies in the United States. All 780 State and local law enforcement agencies with 100 or more sworn officers were included in the survey. For agencies with fewer than 100 sworn officers, a nationally-representative sample was drawn. A stratified random sample based on type of agency (local, sheriff, or special police), size of population served, and number of sworn officers was used. A total of 2,945 agencies responded to the survey yielding a 94.5 percent response rate. The final database includes responses from 1,830 local police departments, 840 sheriffs' departments, 226 special police departments, and 49 primary State police departments. Hawaii does not have a State police agency. The data from agencies with fewer than 100 sworn personnel were derived from a sample, and therefore subject to sampling variation.

A local police department was defined as a general purpose police department operated by a municipal or county government. A State police department was defined as the general

purpose State police agency operated by the State. Other police departments such as those with jurisdiction limited to enforcement of wildlife conservation or liquor laws, parks, transit systems, airports, college and university campuses, or school systems have been defined as special police and are not included in any tables. Local and State police categories include only general purpose agencies. The special police category includes both State and local-level agencies.

Field operations personnel include officers, detectives, inspectors, supervisors and other personnel providing direct services related to traffic enforcement, patrol and response to incidents, investigations, and special operations. Personnel working in positions related to the functions of administration, technical support, jail operations, or court operations are not included.

Note: Data for 1983 were obtained through a questionnaire mailed to the office of the chief of police and the office of the municipal director of personnel (or equivalent position) in the 50 largest cities in the United States. Forty-seven cities returned completed questionnaires in 1983; all 50 cities returned completed questionnaires in 1992. Cities are listed in rank order of size based on the 1990 census of the population.

The Index of black representation is calculated by dividing the percent of black police officers in a department by the percent of blacks in the local population. An index approaching 1.0 indicates that a city is closer to achieving a representation of black police officers equal to their proportion in the local population. The black population of a city is derived from the 1990 census of the population.

<sup>a</sup>Data for 1983 are based on 1980-81 information from the Police Executive Research Forum, *Survey of Police Operational and Administrative Practices 1981* (Washington, DC: Police Executive Research Forum, 1981).

Table 1.40

## Average operating expenditures of local police departments

By size of population served, United States, fiscal year 1990

Population served	Average operating expenditures			
	Per department	Per sworn officer	Per employee	Per resident
All sizes	\$1,675,000	\$54,900	\$42,300	\$108
1,000,000 or more	334,542,000	62,600	48,300	144
500,000 to 999,999	79,567,000	63,400	48,400	114
250,000 to 499,999	46,500,000	62,600	46,800	128
100,000 to 249,999	16,268,000	59,600	44,000	108
50,000 to 99,999	6,528,000	54,400	40,600	95
25,000 to 49,999	3,225,000	55,200	42,100	93
10,000 to 24,999	1,513,000	51,600	40,400	96
2,500 to 9,999	442,000	39,800	31,800	85
Under 2,500	115,000	31,500	27,400	95

Note: See Note, table 1.34. Figures are for the fiscal year ending June 30, 1990, or the most recent fiscal year completed prior to that date. Figures do not include capital expenditures such as equipment purchases or construction costs. Computation of per officer and per employee averages includes both full-time and part-time employees, with a weight of 0.5 assigned to part-time employees.

Police protection	460,111	402,585	422,580	1,248,528	1,220,652
Police officers only	342,888	324,582	330,258	1,058,878	1,050,257
<u>Township government</u>					
Police protection	44,703	32,800	36,868	112,142	106,237
Police officers only	32,526	27,734	29,297	98,406	95,984

Note: The U.S. Bureau of the Census conducts an annual survey of government employment as authorized by Title 13, United States Code, Section 182. This survey measures the number of government civilian employees and their gross pay for the month of October by type of government. Data presented are based on a mail survey of State government agencies and sampled local governments. Data for State governments resulted from a complete canvass of all State departments, agencies, and institutions. Local government data are estimated from a sample of approximately 21,800 local units chosen from the universe of local governments identified in the 1987 Census of Governments and modified by the addition or deletion of local governments that came into existence or went out of existence since 1987. Usable replies were received from more than 80 percent of the panel canvassed for the 1992 survey of government employment. Estimates based on the sample are subject to sampling error.

"Local governments" include counties, municipalities, and townships. "Municipal governments" are political subdivisions within which a municipal corporation has been established to provide general local government services for a specific population concentration in a defined area. "Township governments," as distinguished from municipal governments, are created to serve inhabitants of areas defined without regard to population concentrations. "Police protection" includes all activities concerned with the enforcement of law and order, including coroner's offices, police training academies, investigation bureaus, local jails and other detention facilities not intended to serve as correctional facilities. "Police officers only" includes only persons with the power of arrest.

<sup>a</sup>Detail may not add to total because of rounding.

Table 1.46

## Full-time paid personnel of police departments in cities of 10,000 persons and over

By population group, geographic division, and metro status, United States, 1993<sup>a</sup>

	Number of cities reporting	Mean number of police personnel	Rate of police personnel per 1,000 population
Total, all cities	1,609	127	2.68
<u>Population group</u>			
Over 1,000,000	4	5,813	3.28
500,000 to 1,000,000	13	2,239	3.48
250,000 to 499,999	28	965	2.91
100,000 to 249,999	86	365	2.60
50,000 to 99,999	208	152	2.37
25,000 to 49,999	389	77	2.39
10,000 to 24,999	881	36	2.35
<u>Geographic division</u>			
New England	144	68	2.34
Mid-Atlantic	213	75	2.44
East North Central	308	100	2.51
West North Central	156	102	2.46
South Atlantic	203	176	3.70
East South Central	76	138	2.91
West South Central	180	156	2.52
Mountain	90	145	2.67
Pacific Coast	239	189	2.53
<u>Metro status</u>			
Central	338	393	2.91
Suburban	907	61	2.30
Independent	364	46	2.42

Note: These data were collected in a mail survey conducted by the International City/County Management Association in January 1993. Of the 2,795 cities surveyed, 1,798 (64.3 percent) provided the information requested concerning their police departments. The term "cities" refers to cities, villages, towns, townships, and boroughs. For definitions of terms, a list of States in regions, and detail of survey response rates, see Appendix 2.

<sup>a</sup>Includes uniformed and civilian/nonuniformed personnel.

Average number of employees per 1,000 inhabitants	3.7	X	X	X	X	X	X

Note: These data are collected annually by the FBI Uniform Crime Reporting Program. "Full-time law enforcement employees" includes both law enforcement officers and civilian employees. Law enforcement officers include all "full-time, sworn personnel with full arrest powers." This excludes persons performing guard or protection duties (e.g., school crossing guards) who are not paid from police funds. "Civilian employees include persons such as clerks, radio dispatchers, meter attendants, stenographers, and mechanics." Persons not paid from police funds are excluded. Employees on leave with pay are also excluded. (U.S. Department of Justice, Federal Bureau of Investigation, *Uniform Crime Reporting Handbook* (Washington, DC: USGPO, 1984). pp. 71, 72.) These data are for employees who were

on the payroll on Oct. 31, 1992. Population figures represent U.S. Bureau of the Census July 1, 1992 estimates. For a list of States in geographic divisions, see Appendix 3.

<sup>a</sup>Includes civilians.

<sup>b</sup>Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes central cities. Suburban cities and counties are also included in other groups.

Note: See Note, table 1.46. The "entrance salary" refers to salary paid during the first 12 months of employment with the department as a sworn police officer (excluding uniform allowance, holiday pay, or other additional compensation). The "maximum salary" refers to salary paid to personnel who do not hold any promotional rank (excluding uniform allowance, holiday pay, hazard pay, or any other additional compensation). The mean is calculated by dividing the total number of salaries into the total amount paid in salaries. The median is the salary that marks the point below which and above which 50 percent of all the salaries fall. When there is an even number of observations, the mean of the two middle observations is reported.

The first quartile salary is the salary below which 25 percent of all salaries fall; the third quartile salary is the salary below which 75 percent of all the salaries fall. For definitions of terms, a list of States in regions, and detail of survey response rates, see Appendix 2.

Council-manager	109	33,238	32,000
Commission	3	27,949	25,846
Town meeting	3	35,490	34,093

Note: These data are from a mail survey of municipal officials conducted by the International City/County Management Association in the summer of 1993. Of the 7,200 cities surveyed, 4,570 responded for a rate of 63.5 percent. The mean salary level is calculated by dividing the total number of salaries into the total amount paid in salaries. The median salary level is the salary that marks the point below which and above which 50 percent of all salaries fall. When there is an even number of observations, the mean of the two middle observations is reported. Classifications having less than three cities reporting were excluded because meaningful statistics cannot be computed. Consequently, the number reporting in some subcategories does not always equal the total reporting. For definitions of terms, a list of States in regions, and detail of survey response rates, see Appendix 2.

Figure 1.1

## Duties performed by Deputy U.S. Marshals

By type of activity, fiscal year 1992

Note: The U.S. Marshals Service (USMS) is a law enforcement agency performing duties for the Executive Branch of the Federal Government. The agency executes all warrants issued by the Federal courts, conducts fugitive investigations, and maintains custody of all Federal pretrial detainees. In addition the USMS is responsible for prisoner processing and detention, transportation and production of prisoners, protection of Federal judiciary, Federal witness security, the execution of court orders, and management of related Federal Government seizures. Further responsibilities include escorting missile convoys, suppressing prison disturbances in Federal prisons, and arresting dangerous fugitives. Data on workload, accomplishments, and time utilization are collected on a regular basis from the 94 district offices.

A fugitive is an individual who has been convicted or is suspected of criminal activity and attempts to avoid legal sanctions by fleeing from the justice system. Fugitive warrants are issued for a variety of violations, e.g., escape, bond default, parole or probation violations, and felony violations in cases where the originating agency does not have arrest authority.

## Property seized by the U.S. Marshals Service

By type of property, fiscal years 1987-92

Note: See Note, figure 1.1. The U.S. Marshals Service administers the U.S. Department of Justice's program for the management and disposal of property subject to judicial and administrative forfeiture. Asset seizure and forfeiture is used to dismantle drug trafficking rings and other continuing criminal enterprises, not only by prosecuting and imprisoning major drug suppliers, money launderers, and drug financiers, but also by stripping away the criminal assets of the illegal organization. (Source, 1991, p. 59.)

<sup>a</sup>Prior to 1990, the category was labeled "cash."

<sup>b</sup>Prior to 1990, the category was labeled "conveyances."

<sup>c</sup>"Other" includes all property excluded from the other three categories, including antiques, livestock, jewelry, laboratory equipment and chemicals, electronic equipment, aircraft, and vessels.

1992	5,228	6,650	2,109	3,185	NA	1,232	5,325

Note: See Note, figure 1.1. "U.S. Marshals Service felony fugitive" refers to warrants that the USMS maintains primary control over and includes probation and parole violators, supervised release violators, escapees, and bond defaulters. "Other felony" refers to felony warrants originated by other Federal agencies (such as the Drug Enforcement Administration), for which the USMS also assumes responsibility.

<sup>a</sup>For 1989-91, data for warrants pending at the beginning of the fiscal year have been revised by the Source.

Note: See Note, figure 1.1. Non-warrant court orders include summonses and complaints in civil actions, subpoenas in both civil and criminal actions, writs of habeas corpus, writs of execution, and enforcement of major injunctions. These orders may originate from the Federal courts, United States attorneys, private litigants, Federal agencies, foreign governments, and others. (Source, 1992, p. 39.)

Source: U.S. Department of Justice, U.S. Marshals Service, *The Director's Report: A Review of the United States Marshals Service in FY 1987*, p. 45; 1988, p. 49; 1989, p. 52; 1990, p. 54; 1991, p. 56; 1992, p. 39 (Washington, DC: U.S. Department of Justice).

Table 1.56

## Participation in the U.S. Marshals Service Witness Security Program

Fiscal years 1987-92

	1987	1988	1989	1990	1991	1992
New principal witnesses	170	208	185	173	175	227
Active funded principal witnesses	787	783	878	766	657	1,306
Active funded program participants <sup>a</sup>	1,731	1,632	1,854	1,609	1,844	3,234
Average number of months witnesses are funded	15	16	17	16	NA	NA
Cumulative principal witnesses	5,045	5,253	5,438	5,612	5,787	6,014
Cumulative program participants <sup>a</sup>	11,279	11,157	11,511	12,611	12,982	13,535
Number of principal witnesses reactivated during fiscal year	97	109	115	81	71	69

Note: See Note, figure 1.1. For the Witness Security Program, the U.S. Marshals Service "provides protection to government witnesses when their lives become endangered because they have agreed to provide critical information to the government and the courts about organized crime and other serious criminal enterprises. This protection is provided 24 hours a day to all such witnesses while they are in a 'threat' environment and upon their return to a danger area for trials or other court appearances. The witnesses and authorized dependents are given new identities, moved to another city, and provided services necessary to assist them in becoming self-sustaining and acclimated to their new community as quickly as possible." (Source, 1990, p. 47.)

<sup>a</sup>Program participants include principal witnesses and family members.

Source: U.S. Department of Justice, U.S. Marshals Service, *The Director's Report: A Review of the U.S. Marshals Service in FY 1988*, p. 46; 1990, p. 50; 1991, p. 51; 1992, p. 33 (Washington, DC: U.S. Department of Justice).

Table 1.57

## Transportation of prisoners by the U.S. Marshals Service

Fiscal years 1986-92

	1986	1987	1988	1989	1990	1991	1992	Percent change 1986-92
Number of prisoner movements	74,834	83,907	92,051	107,391	127,052	131,133	157,089	110 %
Total hours expended in prisoner transportation	214,200	221,300	245,762	287,604	295,234	312,156	354,440	65
Average number of hours expended per prisoner transported	2.8	2.6	2.7	2.7	2.3	2.6	2.2	-21
Average number of prisoner movements per workyear	NA	682	718	778	895	753	810	X

Note: See Note, figure 1.1. Prisoner transportation involves the physical relocation of prisoners from one U.S. Marshals Service district to another. Usually it includes the transfer of custody, either from district to district or from the U.S. Marshals Service to another agency. The USMS also takes newly sentenced prisoners to institutions to begin serving their time, and transfers sentenced prisoners between institutions. (Source, 1992, pp. 21, 22.)

Note: This table does not include the U.S. Supreme Court justices or staff. The total for 1990 has been revised because of the addition of U.S. Sentencing Commission figures. Data for 1979-90 are reported for the 12-month period ending June 30. Beginning in 1991, data are reported for the Federal fiscal year, which is the 12-month period ending September 30. Data for 1991 have been revised by the Source and may differ from the 1992 SOURCEBOOK.

<sup>a</sup> Permanent and temporary personnel are included in the totals.

<sup>b</sup> Includes territorial judges.

<sup>c</sup> This figure includes the nine judges from the Court of International Trade (Article III), however, it is a national court.

<sup>d</sup> Beginning in 1990, bankruptcy judges are included in the "Judges" total.

<sup>e</sup> For 1992, jury commissioners and their staff are reported as a single figure.

## Characteristics of Presidential appointees to the U.S. Supreme Court

By Presidential administration, 1930-93

Presidential administration and justice	Political party	Home State	Years on Court	Age at nomination	Number of years of previous judicial experience
<u>Hoover appointees</u>					
Charles E. Hughes	Republican	New York	1930-1941	67	0
Owens J. Roberts	Republican	Pennsylvania	1930-1945	55	0
Benjamin N. Cardozo	Democrat	New York	1932-1938 <sup>a</sup>	61	18
<u>F. Roosevelt appointees</u>					
Hugo L. Black	Democrat	Alabama	1937-1971 <sup>a</sup>	51	1.5
Stanley F. Reed	Democrat	Kentucky	1938-1957	53	0
Felix Frankfurter	Independent	Massachusetts	1939-1962	56	0
William O. Douglas	Democrat	Connecticut	1939-1975	40	0
Frank Murphy	Democrat	Michigan	1940-1949 <sup>a</sup>	49	7
James F. Byrnes	Democrat	South Carolina	1941-1942	62	0
Harlan Fiske Stone	Republican	New York	1941-1946 <sup>a</sup>	68	0 <sup>b</sup>
Robert H. Jackson	Democrat	New York	1941-1954 <sup>a</sup>	49	0
Wiley B. Rutledge	Democrat	Iowa	1943-1949 <sup>a</sup>	48	4
<u>Truman appointees</u>					
Harold H. Burton	Republican	Ohio	1945-1958	57	0
Fred M. Vinson	Democrat	Kentucky	1946-1953 <sup>a</sup>	56	5
Tom C. Clark	Democrat	Texas	1949-1967	49	0
Sherman Minton	Democrat	Indiana	1949-1956	58	8
<u>Eisenhower appointees</u>					
Earl Warren	Republican	California	1953-1969	62	0
John M. Harlan	Republican	New York	1955-1971	55	1
William J. Brennan	Democrat	New Jersey	1956-1990	50	7
Charles E. Whittaker	Republican	Missouri	1957-1962	56	3
Potter Stewart	Republican	Ohio	1958-1981	43	4
<u>Kennedy appointees</u>					
Byron R. White	Democrat	Colorado	1962-present	44	0
Arthur J. Goldberg	Democrat	Illinois	1962-1965	54	0
<u>Johnson appointees</u>					
Abe Fortas	Democrat	Tennessee	1965-1969	55	0
Thurgood Marshall	Democrat	New York	1967-1991	59	4
<u>Nixon appointees</u>					
Warren E. Burger	Republican	Minnesota	1969-1986	61	13
Harry A. Blackmun	Republican	Minnesota	1970-present	61	11
Lewis F. Powell, Jr.	Democrat	Virginia	1971-1987	64	0
William H. Rehnquist	Republican	Arizona	1971-1986	47	0
<u>Ford appointee</u>					
John Paul Stevens	Republican	Illinois	1976-present	55	5
<u>Reagan appointees</u>					
Sandra Day O'Connor	Republican	Arizona	1981-present	51	6.5
William H. Rehnquist	Republican	Arizona	1986-present	61	0 <sup>b</sup>
Antonin Scalia	Republican	Illinois	1986-present	50	4
Anthony Kennedy	Republican	California	1988-present	51	12
<u>Bush appointees</u>					
David H. Souter	Republican	New Hampshire	1990-present	50	13
Clarence Thomas	Republican	Georgia	1991-present	43	1
<u>Clinton appointee</u>					
Ruth Bader Ginsburg	Democrat	New York	1993-present	60	13

<sup>a</sup>Died in office.<sup>b</sup>Prior to appointment to associate justice.

<b>American Bar Association ratings</b>							
Extremely well/well qualified	75.0	73.3	58.3	75.0	64.5	55.3	64.9
Qualified	20.0	26.7	33.3	25.0	35.5	44.7	35.1
Not qualified	2.5	0.0	8.3	0.0	0.0	0.0	0.0

Note: These data were compiled from a variety of sources. Primarily used were questionnaires completed by judicial nominees for the U.S. Senate Judiciary Committee, transcripts of the confirmation hearing conducted by the Committee, and personal interviews. In addition, an investigation was made of various biographical directories including *The American Bench* (Sacramento: R.B. Forster), *Who's Who in American Politics* (New York: Bowker), *Martindale-Hubbell Law Directory* (Summit, NJ: Martindale-Hubbell, Inc.), national and regional editions of *Who's Who*, *The Judicial Staff Directory* (1992 edition), and local newspaper articles.

Law firms are categorized according to the number of partners/associates: 25 or more associates for a large firm, 5 to 24 associates for a moderate firm; and 4 or less for a small firm. Percent subtotals for occupational experience sum to more than 100 because some appointees have had both judicial and prosecutorial experience.

The American Bar Association's (ABA) ratings are assigned to candidates after investigation and evaluation by the ABA's Standing Committee on Federal Judiciary, which considers prospective Federal judicial nominees only upon referral by the U.S. Attorney General or at the request of the U.S. Senate. The ABA's Committee evaluation is directed primarily to professional qualifications—competence, integrity, and judicial temperament. Factors including intel-

lectual capacity, judgment, writing and analytical ability, industry, knowledge of the law, and professional experience are assessed. Prior to the Bush administration, the ABA's Standing Committee on Federal Judiciary utilized four ratings: exceptionally well qualified, well qualified, qualified, and not qualified. Starting with the Bush administration, the ABA Standing Committee on Federal Judiciary dropped its "exceptionally well qualified" rating so that "well qualified" became the highest rating. Nominees who previously would have been rated "exceptionally well qualified" and nominees who would have been rated "well qualified" now received the same rating. The "exceptionally well qualified" and "well qualified" categories are combined for all six administrations' appointees and therefore will differ from previous editions of SOURCEBOOK.

<sup>a</sup> Percents may not add to 100 because of rounding.

<sup>b</sup> No ABA rating was requested for one Johnson appointee.

Note: The Federal courts are organized into 11 geographic circuits. Each circuit consists of a number of District Courts, which are the trial courts, and a Court of Appeals, which hears appeals taken from other courts. There is also a separate District Court and Court of Appeals for the District of Columbia. Data for 1972-86 are reported for the 12-month period ending June 30. Beginning in 1987, data are reported for the Federal fiscal year, which is the 12-month period ending September 30.

On Oct. 1, 1981 the number of U.S. District Court Circuits was increased from 10 to 11. The new circuit was created by the removal of Alabama, Florida, and Georgia from the Fifth Circuit and the reorganization of these courts into the Eleventh Circuit.

Beginning with the year ending June 30, 1976, U.S. District Courts have reported the number of minor offense cases filed in the Federal courts in addition to the number of felonies and misdemeanors above the minor offense level (offenses involving penalties that do not exceed 1 year imprisonment or a fine of more than \$1,000). This additional reporting resulted from the Speedy Trial Act of 1974 (Public Law 93-619), which required the courts to maintain records on all offenses above the petty offense level (offenses involving penalties that do not exceed 6 months incarceration and/or a fine of not more than \$500). Because the majority of minor offense cases are handled by magistrates in Federal courts and because this report is primarily a statistical statement reflecting the workload per authorized judgeship, the minor offense cases have been excluded from the 1976-79 data by the Administrative Office of the United States Courts. The exclusion of these cases from the workload statistics has been done in an effort to make the 1976-79 data more comparable to previous years' data that did not include most minor offense cases. In 1979, the Federal Magistrates Act (Public Law 96-82) expanded the authority of magistrates to dispose of all misdemeanors. To reflect the workload per authorized judgeship, the 1980-92 data exclude all cases below the felony level.

Data for 1979 are provided in two columns in order to reflect the efforts of individual judges before and after the enactment of the Omnibus Judgeship Act (Public Law 95-486),

which became effective Oct. 20, 1978. Because the increase in authorized judgeships became effective midway through the year and most of the newly authorized positions were not filled by June 30, 1979, computations based only on the newly authorized judgeships do not give an accurate indication of the efforts of individual judges.

The sharp decline in criminal cases filed in the Canal Zone after 1979 resulted from the passage of the Panama Canal Act of 1979 (Public Law 96-70), signed Sept. 27, 1979. This information was provided to SOURCEBOOK staff by the Administrative Office of the United States Courts, Statistics Division.

<sup>a</sup>On Apr. 1, 1979, as a result of the enactment of Public Law 95-409, the Central District Court of Illinois was established, the Eastern District Court of Illinois was eliminated, and the Southern District Court of Illinois underwent extensive reorganization. Consequently, data collected for the Southern District Court after this date are not comparable with data collected prior to this date.

<sup>b</sup>Included in the criminal statistics for this district are numerous traffic offense cases that are classified as misdemeanors above the minor offense level. In most districts similar cases are classified as minor offenses and are excluded from this report.

<sup>c</sup>Public Law 95-157 established the District Court of the Northern Mariana Islands on Nov. 8, 1977. Court was convened on Jan. 9, 1978.

Note: The Federal Magistrates Act (28 U.S.C. 636(b)) provides the authority under which magistrates assist courts in the performance of "additional duties." This authority was both broadened and clarified by Public Law 94-577, Oct. 21, 1976, and by new procedural rules governing most habeas corpus proceedings in the District Courts, effective Feb. 1, 1977. The changes make clear the ability of the parties of a civil case to consent to have the case referred to a magistrate for trial as a special matter; the changes also empower magistrates to conduct evidentiary hearings in prisoner petition cases. Additionally, the role of magistrates in providing pretrial assistance to district judges in both dispositive and non-dispositive matters has been clarified. A magistrate's authority to conduct arraignments following indictment in a criminal case is provided under Rule 10 of the Federal Rules of Criminal Procedure in 86 Districts. Data for 1982 and 1988-91 are reported for the 12-month period ending

June 30. Beginning in 1992, data are reported for the Federal fiscal year, which is the 12-month period ending September 30.

<sup>a</sup>Includes attorney appointment hearings, seizure warrants, fee applications, contempt proceedings, and other hearings.

<sup>b</sup>Includes mental competency/motion hearings.

<sup>c</sup>Includes fee applications, summary jury trials, and motion hearings.

<sup>d</sup>Prior to 1992, evidentiary hearings were also included in the totals for State habeas, Federal habeas, and civil rights.

Table 1.66

## Number and term of judges of appellate and general trial courts

By type of court and jurisdiction, as of Jan. 1, 1994--Continued

Note: These data were collected through information provided by the National Center for State Courts, State Court administration offices, and a search of State statutes.

<sup>a</sup>Number includes chief justice.

<sup>b</sup>Initial term may be shorter.

<sup>c</sup>Plus five masters.

<sup>d</sup>At the general trial court level, Arkansas has three types of courts: chancery, circuit, and chancery probate courts. There are 32 chancery court judges who serve 4-year terms; circuit court has 34 judges who serve 4-year terms. Chancery probate court, a hybrid of both chancery and circuit, consists of 33 judges (20 of which serve in the juvenile division of chancery court) who serve 6-year terms.

<sup>e</sup>Plus 114 commissioners and 24 referees.

<sup>f</sup>Plus three magistrates.

<sup>g</sup>For Superior Court: president judge, 3 resident judges, and 11 associate judges; Court of Chancery: 5 chancellors.

<sup>h</sup>For judges of the Superior Court of the Atlanta Judicial Court, term of office is 8 years.

<sup>i</sup>Plus 13 family court judges.

<sup>j</sup>Plus 75 lawyer and 2 non-lawyer magistrates.

<sup>k</sup>Plus 11 supplemental judges.

<sup>l</sup>Two years initial; 10 years retention.

<sup>m</sup>Plus one tax court judge.

<sup>n</sup>Includes 8 chief judges, 101 district judges, 46 district associate judges, 17 senior judges, 11 associate juvenile judges, and 149 part-time magistrates.

<sup>o</sup>Plus 69 district associate judges.

<sup>p</sup>Plus seven commissioners.

<sup>q</sup>Plus 175 associate circuit judges.

<sup>r</sup>Plus six judges for Water Court and one for Workers' Compensation Court.

<sup>s</sup>Plus nine full-time and two part-time marital masters.

<sup>t</sup>May be reappointed to age 70.

<sup>u</sup>Plus 21 surrogates.

<sup>v</sup>Plus 100 clerks who hear uncontested probate.

<sup>w</sup>Temporary.

<sup>x</sup>Plus 77 associate judges and 63 special judges.

<sup>y</sup>Includes two masters in the Superior Court; plus 10 judges for Workers' Compensation Court.

<sup>z</sup>Plus 20 masters-in-equity.

<sup>aa</sup>Plus 17 law magistrates, 7 part-time law magistrates, 83 full-time clerk magistrates, and

<sup>ab</sup>49 part-time clerk magistrates.

<sup>ac</sup>Three years initial; 10 years retention.

<sup>ad</sup>Plus four magistrates. District court judges also serve as family court judges.

<sup>ae</sup>Chief judges and associate judges sit on appellate and trial divisions.

<sup>af</sup>For good behavior.

Table 1.67

Selected qualification requirements of judges of appellate and trial courts of general jurisdiction

By type of court and jurisdiction, as of Jan. 1, 1994--Continued

Note: See Note, table 1.66. "Appellate" refers to judges of courts of last resort and intermediate appellate courts. "Trial" refers to judges of courts of general trial jurisdiction. In some instances, information on the length of time for residency and legal experience requirements was not supplied. There are no qualification requirements for judges in Massachusetts.

<sup>a</sup> Citizen of the United States. Alabama--5 years. Georgia--3 years. Missouri--15 years for appellate court, 10 years for trial courts.

<sup>b</sup> Citizen of the State.

<sup>c</sup> Length of time not specified.

<sup>d</sup> Length of time as member of State bar not specified but must have been engaged in active practice of law for a specific number of years: 8 years for appellate court, 5 years for trial court.

<sup>e</sup> For court of appeals, 5 years.

<sup>f</sup> For court of appeals judges only.

<sup>g</sup> Qualified elector. For Arizona court of appeals, must be elector of county of residence. For Michigan Supreme Court, elector in State; court of appeals, elector of appellate circuit. For Missouri Supreme and appellate courts, elector for 9 years; for circuit courts, elector for 3 years. For Oklahoma Supreme Court and Court of Criminal Appeals, elector for 1 year; court of appeals and district courts, elector for 6 months. For Oregon court of appeals, qualified elector in county.

<sup>h</sup> Specific personal characteristics. Arizona, Arkansas--good moral character. Maine--sobriety of manners. Maryland--integrity, wisdom, and sound legal knowledge.

<sup>i</sup> Nominee must be under certain age to be eligible. Arizona--under 70 years. Colorado--under 72 years, except when name is submitted for vacancy. Florida--under 70 years, except upon temporary assignment or to complete a term. Michigan, Ohio--under 70 years.

<sup>j</sup> Learned in law.

<sup>k</sup> Years as a practicing lawyer and/or service on bench of court of record in State may satisfy requirement. Arkansas--appellate: 8 years; trial: 6 years. Indiana--10 years admitted to practice or must have served as a circuit, superior, or criminal court judge in the State for at least 5 years. Kansas--appellate: 10 years; trial: 5 years (must have served as an associate district judge in State for 2 years). Texas--appellate: 10 years; trial: 4 years. Vermont--5 of 10 years preceding appointment. West Virginia--appellate: 10 years; trial: 5 years. Puerto Rico--appellate: 10 years; trial: 5 years.

<sup>l</sup> 6 months.

<sup>m</sup> A person convicted of a felony or breach of public trust is not eligible to the office for a period of 20 years after conviction.

<sup>n</sup> May not have been previously removed from judicial office.

<sup>o</sup> Except that record of birth is required.

<sup>p</sup> Thirty years for judges of court of appeals and court of criminal appeals.

<sup>q</sup> Supreme court is 5 years; court of appeals is 3 years.

<sup>r</sup> Supreme court is 30 years; court of appeals is 25 years.

<sup>s</sup> For court of appeals, admitted to practice for 5 years.

<sup>t</sup> 10 days.

<sup>u</sup> 90 days.

Northern Mariana Islands	126,000	X	120,000	2/1/93
Puerto Rico	80,000	70,000	50,000 to 58,000	10/1/92
Virgin Islands	X	X	75,000	10/1/89

Note: The salaries reported for the highest appellate courts refer to salaries paid to associate justices, not chief justices. National averages for the highest appellate and general trial courts are based on figures for the 50 States. For intermediate appellate courts, the average is based on the 38 States that have such courts. Two figures are shown for States where localities supplement State-paid salaries. The first is the sum of the State pay plus the lowest supplement paid by the localities. The second figure (shown in parentheses) is the sum of the State pay plus the highest possible supplement paid by the localities.

<sup>a</sup>Median salary.

<sup>b</sup>The base pay is supplemented by increments for length of service.

Table 1.69

## Method of selection and length of initial and retention terms of the highest appellate court justices

By State, as of May 1994

State	Initial selection		Retention	
	Method <sup>a</sup>	Term	Method	Term (in years)
Alabama	Partisan election	6 years	Partisan election	6
Alaska	Nominating commission	Until next general election but not less than 3 years	Retention election	10
Arizona	Nominating commission	Until next general election but not less than 2 years	Retention election	6
Arkansas	Partisan election	8 years	Partisan election	8
California	Appointed by governor	Until next general election	Retention election	12
Colorado	Nominating commission	Until next general election but not less than 2 years	Retention election	10
Connecticut <sup>b</sup>	Judicial selection commission	8 years	Commission reviews, governor renominates, legislature reappoints	8
Delaware	Nominating commission	12 years	Reappointment by governor	12
District of Columbia <sup>c</sup>	Nominating commission	15 years	Reappointment by judicial tenure committee or President	15
Florida	Nominating commission	Until next general election but not less than 1 year	Retention election	6
Georgia	Nonpartisan election	6 years	Nonpartisan election	6
Hawaii	Nominating commission	10 years	Reappointment by commission	10
Idaho	Nonpartisan election	6 years	Nonpartisan election	6
Illinois	Partisan election	10 years	Retention election	10
Indiana	Nominating commission	Until next general election but not less than 2 years	Retention election	10
Iowa	Nominating commission	Until next general election but not less than 1 year	Retention election	8
Kansas	Nominating commission	Until next general election but not less than 1 year	Retention election	6
Kentucky	Nonpartisan election	8 years	Nonpartisan election	8
Louisiana	Partisan election	10 years	Partisan election	10
Maine	Appointed by governor	7 years	Reappointment by governor	7
Maryland <sup>d</sup>	Nominating commission	Until next general election but not less than 1 year	Retention election	10
Massachusetts	Nominating commission	To age 70	X	X
Michigan	Nonpartisan election	8 years	Nonpartisan election	8
Minnesota	Nonpartisan election	6 years	Nonpartisan election	6
Mississippi	Partisan election	8 years	Partisan election	8
Missouri	Nominating commission	Until next general election but not less than 1 year	Retention election	12
Montana	Nonpartisan election	8 years	Nonpartisan election, but if unopposed, retention election	8
Nebraska	Nominating commission	Until next general election but not less than 3 years	Retention election	6
Nevada	Nonpartisan election	6 years	Nonpartisan election	6
New Hampshire	Appointed by governor <sup>e</sup>	To age 70	X	X
New Jersey	Appointed by governor	7 years	Reappointment by governor	To age 70
New Mexico	Nominating commission	Until next general election	Partisan election the first time; after that, winner runs in retention election	8
New York <sup>d</sup>	Nominating commission	14 years	Reappointment by governor	14
North Carolina	Partisan election	8 years	Partisan election	8
North Dakota	Nonpartisan election	10 years	Nonpartisan election	10
Ohio	Nonpartisan election	6 years	Nonpartisan election	6
Oklahoma <sup>f</sup>	Nominating commission	Until next general election but not less than 1 year	Retention election	6
Oregon	Nonpartisan election	6 years	Nonpartisan election	6
Pennsylvania	Partisan election	10 years	Retention election	10
Rhode Island	Elected by legislature	Life tenure	X	X
South Carolina	Elected by legislature	10 years	Election by legislature	10
South Dakota	Nominating commission	Until next general election but not less than 3 years	Retention election	8
Tennessee	Partisan election	8 years	Retention election	8
Texas <sup>f</sup>	Partisan election	6 years	Partisan election	6
Utah	Nominating commission	Until next general election but not less than 3 years	Retention election	10
Vermont	Nominating commission	6 years	(g)	6
Virginia	Elected by legislature	12 years	Election by legislature	12
Washington	Nonpartisan election	6 years	Nonpartisan election	6
West Virginia	Partisan election	12 years	Partisan election	12
Wisconsin	Nonpartisan election	10 years	Nonpartisan election	10
Wyoming	Nominating commission	Until next general election but not less than 1 year	Retention election	8

See notes on next page.

Table 1.69

**Method of selection and length of initial and retention terms of the highest appellate court justices**

By State, as of May 1994--Continued

Note: These data were compiled through a survey of State statutes; they were then verified by personnel of the American Judicature Society.

"Partisan election" refers to elections in which the judicial candidates' names appear on the ballot with their respective party labels; "nonpartisan election" refers to the situation when no party labels are attached to judicial candidates' names on the ballot. "Retention election" refers to an election in which a judge runs unopposed on the ballot and the electorate votes solely on the question of the judge's continuation in office. In the retention election, the judge must win a majority of the vote in order to serve a full term, except in Illinois which requires 60 percent. "Nominating commission" is a merit selection procedure that refers to the nonpartisan body, composed of lawyers and nonlawyers, which actively recruits, screens, and nominates prospective judicial candidates to the executive for appointment. The nominating commission method of selection was established by executive order in Delaware, Maryland, and Massachusetts and by constitutional or statutory authority in all other jurisdictions. "Initial selection" is defined as the constitutional or statutory method by which judges are selected for a full term of office. "Retention" refers to the method used to select judges for subsequent terms of office.

<sup>a</sup>In States that use nominating commissions, the governor generally makes the appointment.

<sup>b</sup>The judicial selection commission submits a list of prospective judges to the governor who nominates one to fill a vacancy. The legislature then votes to approve or disapprove that nomination.

<sup>c</sup>Initial appointment is made by the President of the United States and confirmed by the Senate. If the President does not wish to reappoint the judge, the District of Columbia Nomination Commission compiles a new list of candidates.

<sup>d</sup>The highest State court is named the Court of Appeals.

<sup>e</sup>The appointment requires the approval of the elected executive council.

<sup>f</sup>Oklahoma and Texas have two courts of final jurisdiction: the supreme court, which has final civil jurisdiction; and the court of criminal appeals, which has final criminal jurisdiction.

<sup>g</sup>Automatic retention unless legislature votes against it.

Table 1.70

Method of selection and length of initial and retention terms of intermediate appellate court judges in 38 States

As of May 1994

State	Initial selection		Retention	
	Method <sup>a</sup>	Term	Method	Term (in years)
Alabama <sup>b</sup>	Partisan election	6 years	Partisan election	6
Alaska	Nominating commission	Until next general election but not less than 3 years	Retention election	8
Arizona	Nominating commission	Until next general election but not less than 2 years	Retention election	6
Arkansas	Partisan election	8 years	Partisan election	8
California	Appointed by governor	Until next general election	Retention election	12
Colorado	Nominating commission	Until next general election but not less than 2 years	Retention election	8
Connecticut	Nominating commission	8 years	Commission reviews, governor renominate, legislature confirms	8
Florida	Nominating commission	Until next general election but not less than 1 year	Retention election	6
Georgia	Nonpartisan election	6 years	Nonpartisan election	6
Hawaii	Nominating commission	10 years	Reappointment by commission	10
Idaho	Nonpartisan election	6 years	Nonpartisan election	6
Illinois	Partisan election	10 years	Retention election	10
Indiana	Nominating commission	Until next general election but not less than 2 years	Retention election	10
Iowa	Nominating commission	Until next general election but not less than 1 year	Retention election	6
Kansas	Nominating commission	Until next general election but not less than 1 year	Retention election	4
Kentucky	Nonpartisan election	8 years	Nonpartisan election	8
Louisiana	Partisan election <sup>c</sup>	10 years	Partisan election <sup>c</sup>	10
Maryland	Nominating commission	Until next general election but not less than 1 year	Retention election	10
Massachusetts	Nominating commission	To age 70	X	X
Michigan	Nonpartisan election	6 years	Nonpartisan election	6
Minnesota	Nonpartisan election	6 years	Nonpartisan election	6
Missouri	Nominating commission	Until next general election but not less than 1 year	Retention election	12
Nebraska	Nominating commission	Until next general election but not less than 3 years	Retention election	6
New Jersey	Appointed by governor	7 years	Reappointment by governor	To age 70
New Mexico	Nominating commission	Until next general election	Partisan election the first time; after that, winner runs in retention election	8
New York	Nominating commission	5 years	Reappointment by governor	5
North Carolina	Partisan election	8 years	Partisan election	8
Ohio	Nonpartisan election	6 years	Nonpartisan election	6
Oklahoma <sup>d</sup>	Nominating commission	Until next general election but not less than 1 year	Retention election	6
Oregon	Nonpartisan election	6 years	Nonpartisan election	6
Pennsylvania <sup>e</sup>	Partisan election	10 years	Retention election	10
South Carolina	Elected by legislature	6 years	Reelected by legislature	6
Tennessee <sup>b</sup>	Nominating commission	Until the biennial general election but not less than 30 days	Retention election	8
Texas	Partisan election	6 years	Partisan election	6
Utah	Nominating commission	Until next general election but not less than 3 years	Retention election	6
Virginia	Elected by legislature	8 years	Reelected by legislature	8
Washington	Nonpartisan election	6 years	Nonpartisan election	6
Wisconsin	Nonpartisan election	6 years	Nonpartisan election	6

Note: See Note, table 1.69. States not listed do not have intermediate appellate courts.

<sup>a</sup>In States that use nominating commissions, the governor makes the appointment.

<sup>b</sup>Alabama and Tennessee have two intermediate appellate courts: the court of civil appeals, which has civil jurisdiction; and the court of criminal appeals, which has criminal jurisdiction. The selection process is the same for both.

<sup>c</sup>Although party affiliation of judicial candidates appears on ballots, judicial primaries are open. This gives judicial elections a nonpartisan character.

<sup>d</sup>Appeals court judges are initially chosen in nonpartisan elections and midterm vacancies are filled from a list submitted by a judicial nominating commission.

<sup>e</sup>Pennsylvania has two intermediate appellate courts; the superior court and the commonwealth court. The selection process is the same for both.

Table 1.71

## Method of selection and length of initial and retention terms of general jurisdiction court judges

By State and name of court, as of May 1994--Continued

State/name of court(s)	Initial selection		Retention	
	Method <sup>a</sup>	Term	Method	Term (in years)
New Mexico District court	Nominating commission	Until next general election	Partisan election the first time; after that, winner runs in retention election	6
New York Supreme court	Partisan election	14 years	Partisan election	14
North Carolina Superior court	Partisan election <sup>d</sup>	8 years	Partisan election <sup>f</sup>	8
North Dakota District court	Nonpartisan election	6 years	Nonpartisan election	6
Ohio Common Pleas court	Nonpartisan election	6 years	Nonpartisan election	6
Oklahoma District court	Nonpartisan election	4 years	Nonpartisan election	4
Oregon Circuit court	Nonpartisan election	6 years	Nonpartisan election	6
Pennsylvania Common Pleas court	Partisan election	10 years	Retention election	10
Rhode Island Superior court	Appointed by governor	Life tenure	X	X
South Carolina Circuit court	Elected by legislature	6 years	Reelected by legislature	6
South Dakota Circuit court	Nonpartisan election	8 years	Nonpartisan election	8
Tennessee Circuit court	Partisan election	8 years	Partisan election	8
Texas District court	Partisan election	4 years	Partisan election	4
Utah District court	Nominating commission	Until next general election but not less than 3 years	Retention election	6
Vermont Superior court	Nominating commission	6 years	(s)	6
Virginia Circuit court	Elected by legislature	8 years	Reelected by legislature	8
Washington Superior court	Nonpartisan election	4 years	Nonpartisan election	4
West Virginia Circuit court	Partisan election	8 years	Partisan election	8
Wisconsin Circuit court	Nonpartisan election	6 years	Nonpartisan election	6
Wyoming District court	Nominating commission	Until next general election but not less than 1 year	Retention election	6

Note: See Note, table 1.69. Courts of general jurisdiction are defined as having unlimited civil and criminal jurisdiction (Larry C. Berkson, "Judicial Selection in the United States: A Special Report," *Judicature* 64 (October 1980) p. 178).

<sup>a</sup>In States that use nominating commissions, the governor makes the appointment.

<sup>b</sup>Counties with populations less than 150,000 select and retain superior court judges in nonpartisan elections for 4-year terms.

<sup>c</sup>Local electors can choose either nonpartisan elections or gubernatorial appointment.

<sup>d</sup>Judge must be elected to a full term on a nonpartisan ballot at the next general election. If the election is not contested, the incumbent's name does not appear on the ballot.

<sup>e</sup>Initial appointment is made by the President of the United States and confirmed by the Senate. If the President does not wish to reappoint the judge, the District of Columbia Nomination Commission compiles a new list of candidates.

<sup>f</sup>Circuit court associate judges are appointed by the circuit judges in each circuit for 4-year terms, as provided by supreme court rule.

<sup>g</sup>In Vanderburgh County, initial selection and retention are by nonpartisan election.

<sup>h</sup>A nominating commission is used for the superior court judges of Lake and St. Joseph Counties. In Vanderburgh County the election is nonpartisan.

<sup>i</sup>In Lake and St. Joseph Counties each appointed judge serves until the next general election but not less than 2 years.

<sup>j</sup>Nonpartisan elections are used in Allen and Vanderburgh Counties. Retention elections are used in Lake and St. Joseph Counties.

<sup>k</sup>Seventeen of 31 districts use a nominating commission for district judge selection; the remaining 14 select district judges in partisan elections.

<sup>l</sup>Fourteen of 31 districts use partisan elections.

<sup>m</sup>Nominating commissions are used for selecting circuit court judges in Jackson, Clay, and Platte Counties, and the City and County of St. Louis.

<sup>n</sup>An associate circuit court judge's term is 4 years; also in counties that use nominating commissions the appointed judge serves until the next general election but not less than 1 year.

<sup>o</sup>Retention elections are used in Jackson, Clay, and Platte Counties, and the City and County of St. Louis.

<sup>p</sup>Subject to approval by an elected five-member executive council.

<sup>q</sup>Special judges of the superior court are appointed by the governor and serve 4-year terms.

<sup>r</sup>Special judges of the superior court are reappointed by the governor and serve 4-year terms.

<sup>s</sup>Automatic retention unless legislature votes against it.

New Hampshire	2	1	0	0	1	0	0	10,000
New Jersey	3	1	0	1	1	0	0	150,000
New Mexico	2	1	0	0	0	1	0	80,268
New York	27	1	7	6	3	8	2	1,826,000
North Carolina	2	1	0	0	0	1	0	86,185
North Dakota <sup>k</sup>	3	0	1	0	0	2	0	175,363
Ohio	14	1	5	1	1	6	0	880,296
Oklahoma	4	1	2	0	0	1	0	63,625
Pennsylvania	8	1	1	2	1	2	1	684,000
South Carolina	2	1	0	0	1	0	0	60,707
Tennessee	(l)	X	X	X	X	X	X	X
Texas	12	1	5	2	4	0	0	472,224 <sup>m</sup>
Utah	2	1	(n)	(n)	0	1	0	32,000
Virginia	3	0	2	0	1	0	0	308,835
Washington	6	1	0	2	1	1	1	522,045
West Virginia	5	1	1	3	0	0	0	(o)
Wisconsin	2	1	0	0	1	0	0	159,100

Note: The Center for Judicial Conduct Organizations conducts annual surveys of judicial conduct organizations. These organizations are typically State agencies created by statute or constitutional amendment with the mandate to receive, investigate, and dispose of complaints regarding judicial misconduct. Figures presented include both full- and part-time staff. Information was not available for Connecticut, Idaho, Massachusetts, Montana, Oregon, Rhode Island, South Dakota, Vermont, and Wyoming.

<sup>a</sup>The judicial conduct organizations do not use uniform reporting periods. Most of the budgets reported are for a fiscal year beginning 7/1/91 and ending 6/30/92. Data reported for Colorado, Florida, Georgia, Illinois, Kansas, Kentucky, Maine, Maryland, Mississippi, Missouri, Nebraska, New Jersey, New Mexico, Utah, and Washington are for a fiscal year beginning 7/1/92 and ending 6/30/93. Alabama's budget figures are for 10/1/92 to 9/30/93. Oklahoma's figures are for 7/1/91 to 6/30/92. The figures for New Hampshire and Ohio are for calendar year 1992. New York's figures are for 4/1/91 to 3/31/92. Virginia's figures are for 6/30/93 to 6/30/94. The figures for the District of Columbia and Michigan are for 10/1/91 to 9/30/92.

<sup>b</sup>Includes one investigator position eliminated 4/1/93.

<sup>c</sup>The Court on the Judiciary has no budget or staff. The clerk of the supreme court serves as clerk of the Court on the Judiciary. All costs are paid by the supreme court, except when private counsel is appointed for a judge. If private counsel is appointed, payment is made from a superior court fund established to reimburse private counsel for representing State judicial employees before a Delaware court.

<sup>d</sup>The Commission on Judicial Qualifications has a counsel.

<sup>e</sup>The Commission does not have a special budget, but is included in the supreme court's budget.

<sup>f</sup>The annual budget does not include personnel costs. Staff are on the payroll of the State court administrator and the attorney general.

<sup>g</sup>Does not include personnel or office costs. Most of these costs are paid by the appellate clerk's budget.

<sup>h</sup>Annual budget includes litigation costs and the investigator's salary. Other salaries are paid by the judicial administrator's office.

<sup>i</sup>Excludes expenses; all expenses are paid by or through the administrative office of the courts.

<sup>j</sup>Attorneys and investigators are provided by the attorney general's office.

<sup>k</sup>Budget and staff shared with attorney disciplinary board.

<sup>l</sup>The Court of the Judiciary has no budget or staff of its own, but is able to utilize staff of the administrative office of the courts, and to use retired judges or Tennessee Bureau of Investigation personnel to investigate complaints.

<sup>m</sup>Biennial budget; excludes director's salary.

<sup>n</sup>Director performs duties of investigator and attorney.

<sup>o</sup>Included in the budget of the administrative office of the courts.

Table 1.73

## Grand Jury and grand juror utilization in U.S. District Courts

Fiscal years 1988-93

Fiscal year	Juries serving	Sessions convened	Jurors		Hours		Proceedings filed by indictment		Average defendants indicted per session
			Total	Average per session	Total	Average per session	Cases	Defendants	
1988	736	10,668	209,168	19.6	57,362	5.4	23,243	38,214	3.58
1989	744	10,413	205,131	19.7	56,792	5.5	24,050	39,679	3.81
1990	742	10,065	198,863	19.8	53,978	5.4	24,779	40,817	4.05
1991	788	10,914	215,789	19.8	58,293	5.3	27,168	44,607	4.09
1992	836	11,571	228,784	19.8	61,806	5.3	28,560	47,164	4.08
1993	847	11,181	221,505	19.8	59,117	5.3	27,037	44,480	4.00

Note: Grand jurors hear evidence of criminal activity presented by the prosecution and determine whether the government's evidence is sufficient to justify the bringing of formal charges.

Note: In this table, 1977 data are for 94 District Courts; 1978 through 1982 data are for 95 District Courts; and 1983 through 1993 data are for 94 District Courts. Data for 1977-87 are reported for the 12-month period ending June 30. Beginning in 1988, data are reported for the Federal fiscal year, which is the 12-month period ending September 30. Data for 1988-91 have been revised by the Source and may differ from previous editions of SOURCEBOOK.

Petit jurors determine questions of fact, in any civil or criminal action, through hearing the evidence presented at trial. The "Juror Usage Index" is the average number of jurors on hand for each jury trial day; it is calculated by dividing the total number of available jurors by the total number of jury trial days.

<sup>a</sup>Each juror is counted for each day serving, traveling, or waiting at the courthouse to serve.

<sup>b</sup>Includes jurors in travel status.

Table 1.75

## Jury fees in State and Federal courts

By Jurisdiction, 1994

Jurisdiction	Juror fees per day	Jurisdiction	Juror fees per day
Federal	\$40.00 <sup>a</sup>	Missouri	\$6.00
Alabama	10.00	Montana	12.00 <sup>n</sup>
Alaska	12.50 <sup>b,c</sup>	Nebraska	20.00
Arizona	12.00 <sup>d</sup>	Nevada	(o)
Arkansas	5.00 <sup>e</sup>	New Hampshire	10.00 <sup>b</sup>
California	5.00 <sup>f</sup>	New Jersey	5.00
Colorado	(g)	New Mexico	(p)
Connecticut	(h)	New York	(q)
Delaware	15.00	North Carolina	12.00 <sup>r</sup>
District of Columbia	30.00 <sup>i</sup>	North Dakota	25.00
Florida	(j)	Ohio	10.00 <sup>k,s</sup>
Georgia	5.00 <sup>k</sup>	Oklahoma	12.50
Hawaii	30.00	Oregon	10.00
Idaho	5.00 <sup>b</sup>	Pennsylvania	(t)
Illinois	4.00 <sup>k</sup>	Rhode Island	15.00
Indiana	7.50 <sup>l</sup>	South Carolina	10.00
Iowa	10.00	South Dakota	10.00 <sup>k,u</sup>
Kansas	10.00	Tennessee	10.00
Kentucky	12.50	Texas	6.00 <sup>k,v</sup>
Louisiana	12.00	Utah	17.00
Maine	10.00	Vermont	30.00
Maryland	10.00 <sup>k,m</sup>	Virginia	30.00 <sup>k</sup>
Massachusetts	(g)	Washington	10.00 <sup>k</sup>
Michigan	7.50 <sup>b</sup>	West Virginia	15.00
Minnesota	15.00	Wisconsin	8.00 <sup>b,k</sup>
Mississippi	15.00	Wyoming	30.00 <sup>w</sup>

Note: Daily juror fees are set by State statutes and do not include any mileage payments to jurors.

<sup>a</sup>May be raised to \$50.00 per day after 30 days of service upon discretion of the judge.

<sup>b</sup>Half-day rate.

<sup>c</sup>Anchorage provides \$5.00 half-day rate for the first day, then \$12.50 per half-day after the first day.

<sup>d</sup>No fee for first day (discretionary); \$12.00 per day thereafter.

<sup>e</sup>\$20.00 per day while actually serving (sworn).

<sup>f</sup>Fees vary among counties; \$20.00 maximum per day.

<sup>g</sup>No fee for first 3 days; \$50.00 per day thereafter. Expenses for unemployed available.

Employers must pay employees for first 3 days while serving.

<sup>h</sup>No fee for first 5 days; \$50.00 per day thereafter. Expenses for unemployed available.

Employers must pay employees for first 5 days while serving.

<sup>i</sup>No fee for first day; \$30.00 per day thereafter.

<sup>j</sup>If employer pays salary or wages of person on jury duty, then there is no fee paid for 3 days; then \$30.00 per day thereafter. If individual is not employed or employer does not pay salary, then fee is \$15.00 per day for first 3 days; then \$30.00 per day thereafter.

<sup>k</sup>Fees vary among counties.

<sup>l</sup>\$17.50 per day while actually serving (sworn).

<sup>m</sup>Provided as an expense; not reported as income nor remitted to employer.

<sup>n</sup>\$25.00 per day while actually serving (sworn).

<sup>o</sup>\$15.00 per day while actually serving (sworn). \$30.00 per day after 5 days of service. \$9.00 per day if not sworn.

<sup>p</sup>\$4.25 per hour.

<sup>q</sup>If employer has more than 10 employees, must pay at least \$15 per day for the first 3 days.

After 3 days, the court must pay \$15 per day. If juror is not employed or if employer has less than 10 employees, then court must pay \$15 per day from day 1.

<sup>r</sup>\$30.00 per day after 5 days of service.

<sup>s</sup>\$15.00 maximum per day.

<sup>t</sup>\$9.00 for first 3 days; \$25.00 per day thereafter.

<sup>u</sup>\$40.00 maximum per day while actually serving (sworn).

<sup>v</sup>\$30.00 maximum per day while actually serving (sworn).

<sup>w</sup>May be raised to \$50.00 per day after 4 days of service upon discretion of the judge.

Collateral bail	192	220	502	442	922	1,093	NA	NA	NA	NA	NA	NA	NA	NA	NA

Note: Persons under supervision of the Federal Probation System include persons placed on probation—either by U.S. District Courts, U.S. magistrates, or at the request of U.S. attorneys (deferred prosecution)—and Federal offenders released from confinement on parole or mandatory release. A Federal prisoner is eligible for mandatory release when the prisoner has served the full term of imprisonment less "good-time" allowances. If the offender has earned more than 180 days of "good-time" credit, supervision (as if on parole) is for that period in excess of 180 days. If "good-time" is less than 180 days, release occurs without supervision. Prior to 1989, the data represent the 12-month period ending June 30. In 1989 and 1990, the reporting period was the 12-month period ending March 31. Beginning in 1991, data are reported for the Federal fiscal year, which is the 12-month period ending September 30. As of 1987 the total figure no longer includes bail interviews because this function was transferred from the probation offices to the pretrial services offices. Data for 1987 and 1991 have been revised by the Source and may differ from previous editions of SOURCEBOOK.

Wyoming	22	0	0	7	15	277	181	498

Note: This information was collected through a survey mailed to the 50 States. The following States have combined State and local jail systems, and are therefore excluded from this table: Alaska, Connecticut, Delaware, Hawaii, Rhode Island, and Vermont. Mega jails contain 1,000 or more beds; large jails, 250 to 999 beds; medium jails, 50 to 249 beds; small jails, 1 to 49 beds.

<sup>b</sup>1988 Bureau of Justice Statistics data were used if 1992 data were unavailable.

Source: American Correctional Association, 1993-1995 *National Jail and Adult Detention Directory* (Laurel, MD: American Correctional Association, 1993), pp. xiv, xix, xx. Reprinted by permission.

<sup>a</sup>Personnel figures are for all jails.

Federal Bureau of Prisons	8,521	89.8	10.2	67.9	8.1	1:8	7.5	19,713	27,372

Note: This information was collected through a survey of the 50 States, the District of Columbia, and the Federal Bureau of Prisons conducted in August 1992. Indiana, Maryland, and Utah did not respond to the survey. The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>a</sup>Some figures have been rounded to the nearest tenth.

<sup>b</sup>Alaska hired 65 correctional officers in 1991, all levels.

<sup>c</sup>Very few.

<sup>d</sup>No female facilities.

<sup>e</sup>1:6.4 for correctional officer I and II; 1:7.1 for correctional officer I only.

<sup>f</sup>Female facility is contracted.

<sup>g</sup>Depends on union.

<sup>h</sup>Maximum.

<sup>i</sup>Depending on security level.

<sup>j</sup>Estimate.

<sup>k</sup>Approximate.

## Entry requirements, training, and counseling for correctional officers

By jurisdiction, 1992

Jurisdiction	Entry requirements for correctional officers	Do actual qualifications exceed requirements?	Training provided by department		Support groups or counseling available
			At start:	Annually:	
Alabama	General equivalency diploma or high school graduate, 21 years old at time of appointment, meet physical and drug test requirement, no felony convictions, U.S. citizen, and any discharge from armed services must be honorable.	No	280 hours	40 hours	The department refers employees to Mental Health for any problems.
Alaska	U.S. citizen or resident alien with demonstrated intent to become a citizen, Alaskan resident, 21 years of age, high school diploma or the equivalent and valid Alaska driver's license, successful certification by the Alaska Police Standards Council.	NA	240 hours	40 hours	None
Arizona	High school diploma or general equivalency diploma, valid Arizona driver's license, Arizona residency, no felony convictions, U.S. citizen or alien lawfully authorized to work.	Yes, college graduates and officers from other jurisdictions (State, Federal, local, and military agencies).	280 hours	24 hours	Departmental policy--counseling services for employees.
Arkansas	18 years of age, high school diploma or general equivalency diploma.	No	200 hours	40 hours	Provide a psychological examiner for appointments to discuss job-related problems or personal problems.
California	21 years of age, equivalent to completion of the 12th grade; knowledge of purposes and methods of discipline; ability to control, direct, and instruct inmates; communication skills; emotional maturity and stability; no felonies.	All applicants must meet or exceed minimum requirements, pass all tests, and complete training at the academy. No special consideration is given to applicants who exceed the minimum requirements and statistics are not maintained in this area.	6 weeks academy plus 40 hours (first year).	40 hours	Employee Assistance Program available for professional counseling and referrals due to stress, alcoholism, family problems, etc.; post-trauma team at each facility to assist employees after incidents.
Colorado	21 years of age. Correctional Intern--no specific education or experience. Correctional Officer A--1 year corrections related experience or 1 year college course work toward a degree in corrections, criminal justice, or one of the helping services.	No	120 hours	40 hours minimum	Colorado State Employees' Assistance Program.
Connecticut	18 years of age, pass the civil service examination, successful completion of the hiring process.	Yes, most candidate have some college preparation, security experience, or military background.	13 weeks	40 hours	Employee Assistance Program provides counseling and referral services for employees in crisis, personal or work related. Critical Incident Stress Response Team and Staff Support Teams provide additional services.
Delaware	21 years of age, general equivalency diploma, valid driver's license.	Yes, some have criminal justice degrees.	6 weeks	Refresher training in weapons, gas, and first aid.	In planning phase. A proposal is being considered through Delaware Correctional Association.
District of Columbia	21 years of age, high school diploma, etc.	Yes, many have college degree/education.	280 hours	48 hours	Stress management training offered by the office of Volunteer Division.
Florida	19 years of age, U.S. citizen, high school graduate or equivalent; no felonies, perjuries, or dishonorable discharges; pass physical examination; good moral character; completed basic recruit training course or equivalent.	Most are 21 years of age and an increasing number have some college or have completed basic recruit training prior to employment.	440 hours basic recruit plus 40 hours orientation.	40 hours	Employees Assistance Program; department is in the process of implementing an Employee Trauma Debriefing Program.

See note at end of table.

Table 1.85

## Entry requirements, training, and counseling for correctional officers

By jurisdiction, 1992--Continued

Jurisdiction	Entry requirements for correctional officers	Do actual qualifications exceed requirements?	Training provided by department		Support groups or counseling available
			At start:	Annually:	
Georgia	18 years of age and under 65 years of age, high school graduate or general equivalency diploma, no felony convictions, no more than three misdemeanor convictions, good vision.	In military base areas, department usually is able to employ officers with more experience and education (information not tracked).	160 hours minimum	40 hours minimum	Stress management sessions, Employee Assistance Programs.
Hawaii	High school graduate or equivalent; 6 months supervising experience; communication skills; mature judgement; normal hearing, vision, physical condition, etc.; valid Hawaii driver's license.	No	Basic Correctional Techniques	On-the-job training.	The Resource for Assistance and Counseling (REACH).
Idaho	Willingness to work in high stress, hostile environment; deal with violence; break up fights; conduct body searches; work alone and unarmed; work shifts on holidays, weekends, etc.	Yes, a large number are experienced in other States' correctional systems.	200 hours pre-service plus 120 hours on-the-job training.	40 hours minimum	Employee Assistance Program.
Illinois	18 years of age, high school diploma or general equivalency diploma, no experience necessary.	Yes, many are hired with greater than minimum requirements.	240 hours	40 hours	Employee Assistance Program.
Iowa	18 years of age.	Yes, many from all age groups apply.	160 hours pre-service.	40 hours in-service.	Special counseling and treatment.
Kansas	21 years of age, high school graduate or general equivalency diploma, no felony convictions, pass a drug screening test, valid driver's license.	Yes, periodically hire those with training and experience in other States.	160 hours basic plus 40 hours orientation.	80 hours	No. However, the State offers assistance through Lifeline for employees and their families when needed.
Kentucky	21 years of age, high school or general equivalency diploma, no felony convictions.	No	3 weeks	40 hours	No
Louisiana	18 years of age, valid driver's license, no felony convictions.	Yes, qualifications are exceedingly low.	2 weeks training academy plus 5.5 months on-the-job training.	40 hours	Employee Assistance Program.
Maine	Minimum entry qualifications based on knowledge, skills, and ability required of job classification.	No	80 hours within first 6 months.	20 hours	State Employee Assistance Program.
Massachusetts	19 years of age; high school diploma, general equivalency diploma or 3 years military under honorable conditions; no felony convictions; good physical health; able to complete basic training; pass physical; pass civil exam.	Yes	262.5 hours	120 hours first year, 40 hours thereafter.	Stress unit.
Michigan	18 years of age, 15 semester college credits in a human services area, Civil Service examination, fitness testing, no experience necessary.	Not generally	16 weeks	40 hours	Employee Services Program.
Minnesota	Pass a written video-based, job-related exam, pass pre-employment physical examination.	No	120 hours	80 hours	Critical incident stress debriefing program.

See note at end of table.

Table 1.85

## Entry requirements, training, and counseling for correctional officers

By jurisdiction, 1992--Continued

Jurisdiction	Entry requirements for correctional officers	Do actual qualifications exceed requirements?	Training provided by department		Support groups or counseling available
			At start:	Annually:	
Mississippi	21 years of age, high school graduate or general equivalency diploma, valid Mississippi driver's license.	Yes, many have some college and some have college degrees.	5 weeks	--	No
Missouri	21 years of age, 2 years military or work experience, high school graduate, meet certain physical standards.	Yes, some exceed requirements.	160 hours	40 hours	Employee Assistance Program, local support groups.
Montana	High school graduate or equivalent, 1 year work experience, valid driver's license, no physical limitations.	Yes, prior corrections experience or had educational experience in excess of minimums.	124 hours (average)	40 hours (officers choose from many training programs offered).	Department will make counseling staff available on request.
Nebraska	High school graduate or equivalent.	Yes, many have degrees in criminal justice, human behavior, psychology, etc.	120 hours	40 hours	Employee Assistance Program.
Nevada	21 years of age, high school or general equivalency diploma, 1 year corrections or police experience, or education in related field, 2 years any type of work experience.	Yes, most have many years of police experience and work experience.	160 hours	24 hours minimum	State Employees Assistance Program with two free consultations and referral if necessary.
New Hampshire	20 years of age, high school graduate.	Yes	336 hours	40 hours	Employees Assistance Program.
New Jersey	18 years of age, high school diploma or general equivalency diploma, New Jersey resident at least 6 months prior to employment, U.S. citizen, valid New Jersey driver's license, must be eligible to bear firearms.	Yes, college degree.	8 weeks basic training plus on-the-job training.	1 week	One day stress management built into basic training curriculum, conducts 3 hours stress management course for families of officers on graduation day, stress management director located at central office complex and is available to do one-on-one counseling.
New Mexico	Citizen of U.S., age of majority, high school graduate or general equivalency diploma, no felony convictions, pass physical and aptitude examination.	No	10 weeks	40 hours minimum	No
New York	21 years of age, high school graduate or equivalent, no felony convictions, must pass physical and psychological screening.	NA	7 weeks	40 hours	Employee Assistance Program
North Carolina	20 years of age, high school diploma or equivalent, U.S. citizen, eligible for criminal justice certification.	Yes, in some areas individuals have education beyond high school in related fields.	160 hours	40 hours	State Employee Assistance Program.
North Dakota	18 years of age, high school diploma, prefer law enforcement/corrections experience.	Yes, generally have 2 or 4 year degree or many years of experience.	80 hours	40 hours	Employee Assistance Program.
Ohio	Formal education in English and arithmetic that includes reading, writing and speaking English and addition/subtraction; valid driver's license; a score of at least 70 percent on psychological inventory test; high school diploma or general equivalency diploma.	Yes, associate degrees in corrections, law enforcement, criminal justice, or related field.	120 hours pre-service and 40 hours on-the-job training.	40 hours	Stress management courses (pre- and in-service), referral to Employees Assistance Program.
Oklahoma	21 years of age, high school diploma or general equivalency diploma, valid Oklahoma driver's license, no felony conviction.	Yes, BA degrees and occasionally MA degrees.	6 weeks	40 hours	Employees Assistance Program coordinator, 24 hour 800 number for employees.

See note at end of table.

Table 1.85

## Entry requirements, training, and counseling for correctional officers

By jurisdiction, 1992--Continued

Jurisdiction	Entry requirements for correctional officers	Do actual qualifications exceed requirements?	Training provided by department		Support groups or counseling available
			At start:	Annually:	
Oregon	21 years of age, high school diploma or general equivalency diploma.	Yes, experience in correctional setting.	280 hours (includes 5 weeks Board on Public Safety Training).	40 hours	Employee Assistance Program.
Pennsylvania	21 years of age, pass Civil Service written test and oral examination, pass medical examination, physical fitness test, background investigation, and urinalysis screening for drugs.	Yes, some are college graduates.	4 weeks plus three phases covering 1 year.	40 hours	An Assistance Referral Program, Stress Management Training is provided on an as needed basis.
Rhode Island	18 years of age, high school diploma or general equivalency diploma, must pass three event PT tests, an intense background investigation, psychological screening and personal interview.	Yes	320 hours (pre-service), plus 40 hours on-the-job training, and 24 hours weapons training.	40 hours	Stress management unit comprised of staff members and correctional officers.
South Carolina	21 years of age, high school diploma or general equivalency diploma, clear police record, no Driving Under the Influence or loss of license in the last 5 years.	Yes, some college and limited prior experience.	200 hours	40 hours	Annual counseling sessions to employees or families, Employee Assistance Program.
South Dakota	High school diploma or general equivalency diploma, 2 years work experience.	Yes, generally more experience.	5 weeks	40 hours	--
Tennessee	18 years of age, high school or equivalent, no experience, U.S. citizen, driver's license, no felony convictions, pass physical and psychological exam.	No, appointments are based on written test score and interview.	3 weeks	1 week	Employee Assistance Program.
Texas	18 years of age, high school or general equivalency diploma, no class B misdemeanor within 6 months, class A within 12 months, no Driving While Intoxicated within 2 years, pass pre-employment test, meet height and weight standard.	Yes	120 hours	80 hours	Employee Assistance Program (information and referral only).
Vermont	High school or equivalent, 2 years work history.	Yes, some college.	160 hours	40 hours	No
Virginia	21 years of age, high school diploma or general equivalency diploma, free of felony convictions.	Yes, in some areas, applicants may have college or advanced degrees.	7 weeks	1 week (approximately) on biennial basis.	Crisis Response Team, State Employees Assistance Service, courses on stress management.
Washington	High school or general equivalency diploma, 1 year experience working with others to gain their cooperation, counseling or customer relations, valid driver's license.	Yes, many now have college degrees.	2 week orientation plus 4 week academy.	20 hours	For all State employees.
West Virginia	High school diploma or equivalent.	Yes, some exceed educational requirement.	Academy training.	20 hours minimum	No

See note at end of table.

Table 1.85

## Entry requirements, training, and counseling for correctional officers

By jurisdiction, 1992--Continued

Jurisdiction	Entry requirements for correctional officers	Do actual qualifications exceed requirements?	Training provided by department		Support groups or counseling available
			At start:	Annually:	
Wisconsin	18 years of age, valid Wisconsin driver's license, convicted felons must have a pardon or Federal waiver to bear firearms, willingness to accept any vacancy regardless of location.	Yes	11 weeks pre-service, 5 weeks classroom, and 2 weeks on-the-job training.	Update training.	Employee Assistant Program and Peer Support Counselor Training for critical incidents. Some institutions have started support groups.
Wyoming	18 years old, completion of course work at a high school level, U.S. citizen, successfully pass a background and reference investigation.	Yes, some have prior experience.	80 hours	CPR, first aid, weapons, defensive driving.	Some counseling is available in-house at two locations.
Federal Bureau of Prisons	Maximum entry age preceding 37th birthday, 3 1/2 years experience in supervisory or leadership experience, teaching or instructing, enforcement of rules and regulations, rehabilitation, counseling, interviewing and sales work.	No	Introduction to Correctional Techniques and Introduction to Institutions Familiarization.	Annual Refresher Training.	Employee Assistance Program.

Washington	904,455	NA	--	--	--	--	--	--	--	--	--	--	--
Wisconsin	1,651,484	4,341	7 weeks; 280 hours	225	99	209	90	15	8	1	1	2	2
Wyoming <sup>n</sup>	47,192	NA	--	X	X	X	X	X	X	X	X	(o)	X
Federal Bureau of Prisons	5,932,000	1,000	3 weeks; 115 hours	2,569	1,090	2,470	984	8	3	9	8	41	7

Note: This information was collected through a survey of the 50 States, the Federal Bureau of Prisons, and the District of Columbia. The survey was conducted in the Spring of 1993. Colorado, Idaho, Indiana, Maine, Maryland, Nevada, Virginia, and West Virginia did not respond to the survey. The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>a</sup>In 1992, all academies were canceled.

<sup>b</sup>Training staff is 70 percent male and 30 percent female.

<sup>c</sup>Includes males and females.

<sup>d</sup>Approximately.

<sup>e</sup>Includes law enforcement.

<sup>f</sup>At the academy, with an additional 2 to 6 weeks at the facility.

<sup>g</sup>Five percent failure rate overall.

<sup>h</sup>Includes all employees, pre- and in-service.

<sup>i</sup>Two weeks in the department, 7 weeks in the academy.

<sup>j</sup>Includes all employees.

<sup>k</sup>The pre-service selection process is undergoing major revisions; no individuals began training program in 1992.

<sup>l</sup>1991-92.

<sup>m</sup>Per hour.

<sup>n</sup>Each facility is developing their own basic training program for line officers. Figures based on Wyoming State Penitentiary which has a formalized basic training course.

<sup>o</sup>Two full-time and 10 to 20 part-time employees.

## State and Federal correctional facilities

By type and function, June 29, 1990

Facility function	All facilities			State facilities			Federal confinement facilities
	Total	Confinement	Community-based	Total	Confinement	Community-based	
Total	1,287	1,037	250	1,207	957	250	80
General adult population confinement	1,050	979	71	970	899	71	80
Boot camp	23	22	1	23	22	1	0
Reception, diagnosis, or classification	148	147	1	139	138	1	9
Medical treatment or hospitalization	86	86	0	81	81	0	5
Alcohol/drug treatment confinement	117	97	20	113	93	20	4
Youthful offender confinement	27	23	4	27	23	4	0
Work release/pre-release	411	161	250	409	159	250	2
Returned to custody	92	88	4	87	83	4	5
Other <sup>a</sup>	140	119	21	122	101	21	18

Note: See Note, table 1.9. Figures add to more than the total number of facilities because facilities may have more than one function.

<sup>a</sup>Includes psychiatric, geriatric, and pre-sentence functions.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Census of State and Federal Correctional Facilities, 1990*, NCJ-137003 (Washington, DC: USGPO, 1992), p. 8, Table 11.

Table 1.88

## Population density characteristics of State correctional facilities

June 30, 1984 and June 29, 1990<sup>a</sup>

Characteristic	Percent of all inmates		Average square feet per inmate		Average number of hours per day confined to unit	
	1984	1990	1984	1990	1984	1990
All State confinement facilities	100 %	100 %	57 sq. ft.	56 sq. ft.	11.3 hrs.	13.7 hrs.
<u>Housing units rated to hold</u>						
1 inmate	33.5	31.3	68	61	12.3	15.9
2 inmates	23.5	27.4	34	40	11.0	13.7
3 to 5 inmates	3.4	3.9	46	63	11.3	11.5
6 to 49 inmates	15.6	13.4	64	58	10.7	11.9
50 inmates or more	23.9	24.0	62	66	10.5	13.1
<u>Housing unit use</u>						
General housing	87.8	86.0	57	56	10.4	12.0
Special purpose <sup>b</sup>	8.5	13.3	57	58	19.9	19.6
Other <sup>c</sup>	3.7	0.7	NA	76	15.0	14.9
<u>Housing unit security designation</u>						
Maximum	33.4	26.8	53	54	13.1	18.5
Medium	44.7	49.0	57	56	10.8	12.7
Minimum	21.9	24.2	64	59	9.5	11.3
<u>Size of facility<sup>d</sup></u>						
Fewer than 500 inmates	22.3	16.9	67	67	10.3	13.2
500 to 1,000 inmates	26.9	27.3	58	56	11.1	13.9
More than 1,000 inmates	50.8	55.8	53	53	11.8	14.3

Note: See Note, table 1.9. Data refer to inmates in general and special housing except under "housing unit use" where "other" is shown for comparison. Calculation of square footage per inmate in occupied space assumes minimum density per unit, based on the most efficient distribution of inmates within units.

<sup>a</sup>Detail may not add to 100 percent because of rounding.

<sup>b</sup>Includes death row, protective custody, administrative segregation, disciplinary action, sick or injured, work release, substance abuse, reception/diagnosis, and boot camp units in 1990. Substance abuse, reception or diagnostic, and boot camp units are classified as "other housing" in 1984.

<sup>c</sup>Includes mental health, geriatric, and other unspecified special purpose space.

<sup>d</sup>Based on average daily population.

Note: This information was collected through a survey mailed to State and Federal correctional facilities housing female offenders. Facilities not listed in the table did not respond to the survey. The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>a</sup>Some offenders have multiple charges.

<sup>b</sup>Per day.

<sup>c</sup>Unavailable. However, majority are incarcerated for non-violent and/or drug-related crimes.

<sup>d</sup>Staff assignments are not based on the gender of the inmate or the staff member designated to supervise the activity.

<sup>e</sup>All females currently confined are awaiting trial.

<sup>f</sup>Personnel rotate, not assigned to one particular post.

<sup>g</sup>May also work with male inmates.

<sup>h</sup>Unavailable, most crimes are drug or drug-related.

<sup>i</sup>Program assistants only.

<sup>j</sup>Approximately.

<sup>k</sup>653 Mountain View, 1,981 Gatesville.

Massachusetts	4 months	Y	Y		256	137	384	111	86
Michigan	3 months			Y	360	300	3,956	2,440	130
Minnesota	6 months <sup>h</sup>	Y		(i)	72	38	84	29 <sup>j</sup>	31
Mississippi	4 months	Y	Y		287	238	4,091	3,735	37
Nevada	150 days	Y			96	77	478	340	12
New Hampshire	4 months			Y	75	28	297	225	10
New York	6 months			Y	1,850	1,492	14,501	8,198	850 <sup>k</sup>
North Carolina	3 months	Y			90	84	1,307	1,096	36
Oklahoma	45 days to 5 months	Y	Y		430	368	2,015	1,947	72
Pennsylvania	6 months			Y	197 <sup>l</sup>	48	105	40	44
Tennessee	3 months	Y			150	100	867	583	80
Texas	3 months	Y	Y		400	301	6,264	5,137	137
Virginia	3 months	Y			96	54	663	458	70
Wisconsin	6 months	Y			40	38	304	58	29
Federal Bureau of Prisons	6 months	Y	Y		299	314	1,193	657	67

Note: This information was collected through a survey of the 50 States, the District of Columbia, and the Federal Bureau of Prisons conducted from June through August 1993. Connecticut, Delaware, the District of Columbia, Indiana, Iowa, Maine, New Jersey, New Mexico, North Dakota, Rhode Island, South Dakota, Utah, Vermont, and West Virginia did not operate shock incarceration programs at the time the survey was conducted. In Alaska, legislation has been passed to begin a shock/boot camp program. Missouri plans to start a program, and Nebraska will begin a program on 7/1/96 as per legislation. Montana's program began 7/12/93, and Oregon's and Washington's were slated to begin 10/1/93 and 11/1/93, respectively. Hawaii, Idaho, Maryland, Ohio, South Carolina, and Wyoming did not respond to the survey. A "Y" in the table indicates "yes." The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>c</sup>New program.

<sup>d</sup>Prison phase of program.

<sup>e</sup>3 months for probation facilities; 4 months for incarceration facilities.

<sup>f</sup>120 days plus a 6-day week that does not count on the program time length.

<sup>g</sup>Full-time.

<sup>h</sup>6 months includes incarceration (Phase I) and community release (Phase II); the remainder of the sentence is served on supervised release (Phase III).

<sup>i</sup>The program was scheduled to become coed as of September 1993.

<sup>j</sup>Phase I.

<sup>k</sup>Approximately.

<sup>l</sup>Projected.

Source: Contact Publications, *Corrections Compendium* (Lincoln, NE: Contact Publications, September 1993), pp. 9-12. Table adapted by SOURCEBOOK staff. Reprinted by permission.

<sup>a</sup>3 months minimum security; 6 months maximum security.

<sup>b</sup>3 months while in prison; 2 months of work training; 4 months on parole.

Table 1.91

## State correctional facilities under court order or consent decree

By reason and whether ordered to limit the population, June 29, 1990

Reason	Number of facilities		
	Total	Ordered to limit population	Not ordered to limit population
Total	1,207	264	943
Not under court order or consent decree for specific conditions of confinement	965	81	884
Under court order or consent decree for specific conditions of confinement <sup>a</sup>	242	183	59
Crowding	186	172	14
Medical facilities	172	34	38
Administrative segregation	121	99	22
Staffing	155	135	20
Food services/nutrition	136	116	20
Education	139	117	22
Disciplinary policies	114	93	21
Recreation	127	109	18
Visiting/mail policies	130	109	21
Fire hazards	114	105	9
Counseling programs	106	88	18
Inmate classification	121	103	18
Library services	122	93	29
Grievance policies	113	94	19
Other	41	19	22

Note: See Note, table 1.9. No Federal correctional facility was under court order or consent decree at the time of the census. A total of 323 State facilities were under court order or consent decree to either limit population or for specific conditions of confinement, or both.

<sup>a</sup>Detail adds to more than the total number of facilities under court order or consent decree for specific conditions of confinement because some facilities were under court order or consent decree for more than one reason.

Note: See Note, table 1.81. As of June 30, 1993 the following jurisdictions had no correctional departments or institutions under court order: Maine, Massachusetts, Minnesota, Montana, Nebraska, New Jersey, North Dakota, Oregon, Vermont, Virginia, and Wyoming.

<sup>a</sup>Delivery/improvement of services.

<sup>b</sup>State court order pending ruling on *Cleary v. Smith* suit.

<sup>c</sup>Programs, overcrowding, access to courts, and conditions of confinement.

<sup>d</sup>Programs.

<sup>e</sup>Conditions of confinement.

<sup>f</sup>Overcrowding.

<sup>g</sup>Agreed order concerning female employees.

<sup>h</sup>Abuse allegations at training schools.

<sup>i</sup>Access to courts.

<sup>j</sup>Combined adult and juvenile departments.

<sup>k</sup>Overcrowding and conditions of confinement.

<sup>l</sup>Mainstreaming HIV-positive inmates.

<sup>m</sup>Consent decree to address employment opportunities for female correctional officers in male-inmate facilities.

<sup>n</sup>Settlement of 1978 "Right to Treatment" suit.

<sup>o</sup>Movement from detention to department within 10 days of confinement.

<sup>p</sup>The Federal Bureau of Prisons does not operate facilities for juveniles.

Table 1.93

## Private correctional facilities

By selected characteristics, United States, December 1993--Continued

Location	Facility name	Management company	Source of prisoners		Rated capacity	Present population	Security level
			Primary	Secondary			
Venus, TX	(d)	Corrections Corporation of America	State of Texas <sup>f</sup>	NA	500	NA	Minimum
Seattle, WA	Seattle Processing Center	Esmor Correctional Services, Inc.	Immigration and Naturalization Service	NA	150	145	Minimum/Medium

Note: These data were collected through the Private Corrections Project at the Center for Studies in Criminology and Law, University of Florida. Information was collected from senior executive representatives of each private correctional management firm in the United States. Data reflect the status of private correctional facilities as of December 1993.

<sup>a</sup>This facility was previously operated by Prisor, Inc. Prisor no longer operates any secure adult correctional facilities. The date that prisoners were received is the date that Concept, Inc. assumed ownership of the facility.

<sup>b</sup>Department of Corrections.

<sup>c</sup>Parole Division.

<sup>d</sup>To be determined.

<sup>e</sup>Houses State prisoners.

<sup>f</sup>Texas Department of Criminal Justice-Institutional Division.

<sup>g</sup>Texas Department of Criminal Justice-Board of Pardons and Paroles.

<sup>h</sup>Houses sentenced offenders for whom no space is available in either traditional State prisons or pre-release centers operated by private corrections firms working under contract to the Texas Department of Criminal Justice. These offenders are often referred to as "backlog" or "paper-ready" inmates. They would be housed in local jails if this facility was not available.

<sup>i</sup>This facility was previously operated by Detention Services, Inc. (DSI). DSI no longer operates any secure adult correctional facilities. The date that prisoners were received is the date that Dove Development Corporation assumed ownership of the facility.

Table 1.94

## Drug interdiction activities in State and Federal correctional facilities

By type of activity and group targeted, June 29, 1990

Interdiction activity and group targeted	Federal confinement	State	
		Confinement	Community-based
<u>Inmates at admission</u>			
Verbal questioning	83.8 %	74.9 %	79.2 %
Patdown	87.5	77.7	71.2
Clothing exchange	87.5	59.0	26.0
Body cavity search	61.3	45.1	14.4
Other <sup>a</sup>	30.0	25.8	36.4
<u>Inmates returning from temporary release</u>			
Verbal questioning	72.5	66.5	68.0
Patdown	81.3	79.7	81.6
Clothing exchange	72.5	54.5	29.2
Body cavity search	63.8	47.6	20.4
Other <sup>a</sup>	35.0	30.9	36.8
<u>Prison visitors</u>			
Verbal questioning	97.5	78.7	82.4
Patdown	51.3	69.4	39.6
Belongings search	92.5	87.4	75.6
Body cavity search	27.5	22.4	5.2
Other	30.0	21.1	6.8
<u>Prison staff<sup>b</sup></u>			
No reported interdiction activity	17.5	23.4	42.0
Verbal questioning	53.8	43.3	45.2
Patdown	21.3	49.3	24.4
Other <sup>c</sup>	35.0	25.0	11.6
Number of facilities	80	957	250

Note: See Note, table 1.9. An addendum on drug control activities in State and Federal facilities was included for the first time in the 1990 Census of State and Federal Correctional Facilities.

<sup>a</sup>"Other" includes such measures as visual search, drug testing, and a strip search that examines clothing and body surfaces.

<sup>b</sup>For prison staff, interdiction activities are overlapping categories.

<sup>c</sup>Includes such measures as drug testing, belongings search, and visual inspection.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Drug Enforcement and Treatment in Prisons, 1990*, Special Report NCJ-134724 (Washington, DC: U.S. Department of Justice, July 1992), p. 2; p. 3, Table 3; p. 4, Table 5. Table adapted by SOURCE-BOOK staff.

Date prisoners received/expected	American Correctional Association certified	Facility construction	Expansion plans
10/95	Will be sought	New construction	None
7/89	Yes	Renovation	None

<sup>i</sup>This facility was previously operated by Detention Services, Inc. (DSI). DSI no longer operates any secure adult correctional facilities. The date that prisoners were received is the date that Capital Correctional Resources, Inc. assumed ownership of the facility.

<sup>ii</sup>This facility was previously operated by Concept, Inc. and, earlier, by Texas Detention Management, Inc.(TDM). TDM no longer operates any secure facilities. The date that prisoners were received is the date that the Bobby Ross Group assumed ownership of the facility.

Verbal questioning	8,757	0.1	0.8	0.1	2.2	0.1
Other	1,541	0.0	0.0	0.0	8.6	0.0
No reported interdiction activity	1,345	0.4	7.4	0.0	8.3	0.0
<b>Staff</b>						
All types	26,002	3.3	1.0	0.9	5.4	1.9
Verbal questioning and patdown	60,065	1.0	1.2	0.6	5.5	0.6
Questioning	42,529	0.4	0.5	1.1	5.3	6.6
Patdown	62,209	0.3	1.2	0.6	6.6	(a)
Other	60,704	0.6	2.1	1.3	5.3	4.9
No reported interdiction activity	44,363	3.1	2.6	2.2	6.5	6.6

Note: See Notes, tables 1.9 and 1.94. Interdiction activities are mutually exclusive categories. "All types" for inmates and visitors includes body cavity search, clothing exchange or belongings search, patdown, and verbal questioning, and may include other interdictions. For staff, "all types" includes verbal questioning, patdown, and other interdiction. "Body cavity search and clothing exchange" and "body cavity and belongings searches" include both, and may include patdown, verbal questioning, and/or other. "Body cavity search," "clothing exchange," and "belongings search" may include patdown, verbal questioning, and/or other. "Verbal questioning and patdown," "patdown," and "verbal questioning" may include other. "Other" does not include any of the above listed types of interdiction.

<sup>a</sup> Located on the New Mexico-Texas border.<sup>b</sup> Federal Correctional Institution/Federal Detention Center (FCI/FDC).<sup>c</sup> Satellite Camps are FPCs that are adjacent to the main facility at a particular site. Figures for number of staff are included in the main facility entry.<sup>d</sup> The satellite facility at FPC Bryan is an Intensive Confinement Center (ICC) not a camp. It opened in July 1992, so population figures as of July 1, 1992 are not applicable.<sup>e</sup> There are two satellite facilities at USP Lewisburg. One is a 350-bed minimum-security satellite camp for male offenders, which has a target completion date of late 1992. The other is a 192-bed ICC for minimum-security male offenders, which opened in 1991.<sup>f</sup> The satellite camp is adjacent to USP Lompoc.<sup>g</sup> Federal Medical Center (FMC).<sup>h</sup> Miami opened in 1975 as a facility for young adult offenders, was converted in 1976 to a FCI, and changed to MCC Miami in 1982.<sup>i</sup> Federal Detention Center (FDC).<sup>j</sup> Medical Center for Federal Prisoners (MCFP).Source: U.S. Department of Justice, Federal Bureau of Prisons, *Facilities 1992* (Washington, DC: U.S. Department of Justice, 1992), pp. 11-46. Table 1.102

## Statutory provisions related to capital offenses

By jurisdiction, 1992

Jurisdiction	Capital offense	Minimum age for imposition of death penalty
Alabama	Murder during kidnaping, robbery, rape, sodomy, burglary, sexual assault, or arson; murder of a peace officer, correctional officer, or a public official; murder while under a life sentence; murder for pecuniary gain or contract murder; aircraft piracy; murder by a defendant with a previous murder conviction; murder of a witness to a crime; murder when a victim is subpoenaed in a criminal proceeding, when the murder is related to the role of the victim as a witness; murder when a victim is less than 14 years old; murder in which a victim is killed while in a dwelling by a deadly weapon fired from outside the dwelling; murder in which a victim is killed while in a motor vehicle by a deadly weapon fired from outside that vehicle; murder in which a victim is killed by a deadly weapon fired from a motor vehicle.	16
Arizona	First-degree murder.	None specified
Arkansas	Felony murder; arson causing death; intentional murder of a law enforcement officer; murder of prison, jail, court, or correctional personnel, or military personnel acting in the line of duty; multiple murders; intentional murder of public officeholder or candidate; intentional murder while under life sentence; contract murder.	14 <sup>a</sup>
California	Treason; homicide by a prisoner serving a life term; first-degree murder with special circumstances; train wrecking; perjury causing execution.	18
Colorado	First-degree murder; kidnaping with death of victim; felony murder.	18
Connecticut	Murder of a public safety or correctional officer; murder for pecuniary gain; murder in the course of a felony; murder by a defendant with a previous conviction for intentional murder; murder while under a life sentence; murder during a kidnaping; illegal sale of cocaine, methadone, or heroin to a person who dies from using these drugs; murder during first-degree sexual assault; multiple murders.	18 <sup>b</sup>
Delaware	First-degree murder with aggravating circumstances.	None specified
Florida	First-degree murder; capital felonies; capital drug trafficking felonies.	None specified
Georgia	Murder; kidnaping with bodily injury when the victim dies; aircraft hijacking; treason; kidnaping for ransom when the victim dies.	17
Idaho	First-degree murder; aggravated kidnaping.	None specified
Illinois	Murder accompanied by at least one of 11 aggravating factors.	18
Indiana	Murder accompanied by at least one of 12 aggravating circumstances.	16
Kentucky	Aggravated murder; kidnaping when victim is killed.	16
Louisiana	First-degree murder; treason.	16
Maryland	First-degree murder, either premeditated or during the commission of a felony.	16
Mississippi	Murder of a peace officer or correctional officer; murder while under life sentence; murder by bomb or explosive; contract murder; murder committed during specific felonies (rape, burglary, kidnaping, arson, robbery, sexual battery, unnatural intercourse with a child, non-consensual unnatural intercourse); murder of an elected official; capital rape <sup>d</sup> ; aircraft piracy; treason.	16 <sup>c</sup>
Missouri	First-degree murder.	16
Montana	Deliberate homicide; aggravated kidnaping when the victim or rescuer dies; attempted deliberate homicide, aggravated assault, or aggravated kidnaping by a State prison inmate with a prior conviction for deliberate homicide or who has been previously declared a persistent felony offender.	None specified
Nebraska	First-degree murder.	18
Nevada	First-degree murder.	16
New Hampshire	Contract murder; murder of a law enforcement officer; murder of a kidnaping victim; killing another after being sentenced to life imprisonment without parole.	17
New Jersey	Purposeful or knowing murder; contract murder.	18
New Mexico	First-degree murder; felony murder with aggravating circumstances.	18
North Carolina	First-degree murder.	17 <sup>e</sup>
Ohio	Assassination; contract murder; murder during escape; murder while in a correctional facility; murder after conviction for a prior purposeful killing or prior attempted murder; murder of a peace officer; murder arising from specified felonies (rape, kidnaping, arson, robbery, burglary); murder of a witness to prevent testimony in a criminal proceeding or in retaliation.	18

See notes at end of table.

Table 1.102

## Statutory provisions related to capital offenses

By jurisdiction, 1992--Continued

Jurisdiction	Capital offense	Minimum age for imposition of death penalty
Oklahoma	Murder with malice aforethought; murder arising from specified felonies (forcible rape, robbery with a dangerous weapon, kidnaping, escape from lawful custody, first-degree burglary, arson); murder when the victim is a child who has been injured, tortured, or maimed.	16
Oregon	Aggravated murder.	18
Pennsylvania	First-degree murder.	None specified
South Carolina	Murder with statutory aggravating circumstances.	None specified
South Dakota	First-degree murder; kidnaping with gross permanent physical injury inflicted on the victim; felony murder.	10 <sup>f</sup>
Tennessee	First-degree murder.	18
Texas	Murder of a public safety officer, fire fighter, or correctional employee; murder during the commission of specified felonies (kidnaping, burglary, robbery, aggravated rape, arson); murder for remuneration; multiple murders; murder during prison escape; murder by a State prison inmate.	17
Utah	Aggravated murder.	14
Virginia	Murder during commission or attempts to commit specified felonies (abduction, armed robbery, rape, sodomy); contract murder; murder by a prisoner while in custody; murder of a law enforcement officer; multiple murders; murder of a child under age 12 during an abduction; murder arising from drug violations.	15
Washington	Aggravated first-degree premeditated murder.	None specified
Wyoming	First-degree murder including felony murder.	16
Federal system	First-degree murder; murder while a member of the Armed Forces; retaliatory murder of a member of the immediate family of law enforcement officials; murder of a member of Congress, an important executive official, or a Supreme Court Justice; destruction of aircraft, motor vehicles, or related facilities resulting in death; destruction of government property resulting in death; mailing of injurious articles with the intent to kill or resulting in death; assassination or kidnaping resulting in the death of the President or Vice President; willful wrecking of a train resulting in death; bank-robbery-related murder or kidnaping; treason; murder of Federal judges and officers; espionage; espionage by a member of the Armed Forces; death resulting from aircraft hijacking; witness tampering where death results; any person engaging in or working in furtherance of a continuing criminal enterprise, or any person engaging in an offense punishable under section 841(b)(1)(A) or section 960(b)(1) who intentionally kills or counsels, commands, induces, procures, or causes the intentional killing of an individual and such killing results, and any person, during the commission of, in furtherance of, or while attempting to avoid apprehension, prosecution or service of a prison sentence for, a felony violation of this subchapter or subchapter II of this chapter who intentionally kills or counsels, commands, induces, procures, or causes the intentional killing of any Federal, State, or local law enforcement officer engaged in, or on account of, the performance of such officer's official duties and such killing results.	18

Note: Thirty-six States and the Federal Government had death penalty statutes in effect on Dec. 31, 1992. Statutes should be consulted for the full text and meaning of specific provisions. The following jurisdictions do not have statutory provisions for sentences of death: Alaska, District of Columbia, Hawaii, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, New York, North Dakota, Rhode Island, Vermont, West Virginia, and Wisconsin.

<sup>a</sup>See Arkansas Code Ann. 9-27-318(b)(1) (Repl. 1991).

<sup>b</sup>See Conn. Gen. Stat. 53s-46a(g)(1).

<sup>c</sup>Minimum age defined by statute is 13, but effective age is 16 based on interpretation of U.S. Supreme Court decisions by the State attorney general's office.

<sup>d</sup>Capital rape is the forcible rape of a child under the age of 14 by a person age 18 or older.

<sup>e</sup>Age required is 17 unless the murderer was incarcerated for murder when a subsequent murder occurred; the age then may be 14.

<sup>f</sup>Age 10, but only after a transfer hearing to try a juvenile as an adult.

Table 1.103

## Characteristics of State and Federal paroling authorities

By Jurisdiction, as of June 30, 1993

Jurisdiction	Name of agency	Administrator of parole field services	Independent agency	Number of board members	Full-time board
Alabama	Board of Pardons and Paroles	Board of Pardons and Paroles	Yes	3	Yes
Alaska	Board of Parole	Department of Corrections	Yes	5	No
Arizona	Board of Pardons and Paroles	Department of Corrections	Yes	7	Yes
Arkansas	Post-Prison Transfer Board	Department of Community Punishment	Yes	7	No <sup>a</sup>
California	Board of Prison Terms <sup>b</sup>	Department of Corrections	Yes	9	Yes
Colorado	Board of Parole	Department of Corrections	Yes	7	Yes
Connecticut	Board of Parole	Department of Correction <sup>b</sup>	Yes	11	No <sup>c</sup>
Delaware	Board of Parole	Department of Correction	Yes	5	No <sup>c</sup>
District of Columbia	Board of Parole	Board of Parole	Yes	5	Yes
Florida	Parole Commission	Department of Corrections	Yes	7	Yes
Georgia	Board of Pardons and Paroles	Board of Pardons and Paroles	Yes	5	Yes
Hawaii	Paroling Authority	Paroling Authority	Yes	3	No <sup>c</sup>
Idaho	Commission for Pardons and Paroles	Department of Correction	Yes	5	No
Illinois	Prisoner Review Board	Department of Corrections <sup>b</sup>	Yes	12	Yes
Indiana	Parole Board	Department of Correction	Yes	5	Yes
Iowa	Board of Parole	Department of Corrections	Yes	5	No <sup>c</sup>
Kansas	Parole Board	Department of Corrections <sup>b</sup>	Yes	5	Yes
Kentucky	Parole Board	Department of Corrections	Yes	7	Yes
Louisiana	Board of Parole	Department of Public Safety and Corrections	Yes	7	Yes
Maine	Parole Board <sup>d</sup>	Department of Corrections	Yes	5	No
Maryland	Parole Commission	Department of Public Safety and Correctional Services	No	7	Yes
Massachusetts	Parole Board	Parole Board	Yes	6	Yes
Michigan	Parole Board	Department of Corrections	No	10	Yes
Minnesota	Department of Corrections, Office of Adult Release <sup>b</sup>	Department of Corrections	No	4	No <sup>g</sup>
Mississippi	Parole Board	Department of Corrections	Yes	5	Yes
Missouri	Board of Probation and Parole	Department of Corrections	Yes	5	Yes
Montana	Board of Pardons	Department of Corrections and Human Services	Yes	3	No
Nebraska	Board of Parole <sup>b</sup>	Department of Correctional Services <sup>b</sup>	Yes	5	Yes
Nevada	Board of Parole Commissioners	Department of Parole and Probation	Yes	6	Yes
New Hampshire	Board of Parole	Department of Corrections <sup>b</sup>	Yes	5	No
New Jersey	Parole Board	Department of Corrections, Bureau of Parole <sup>b</sup>	Yes	9	Yes
New Mexico	Adult Parole Board	Corrections Department	Yes	4	Yes
New York	Board of Parole	Division of Parole	Yes	19	Yes
North Carolina	Parole Commission	Department of Correction	Yes	5	Yes
North Dakota	Parole Board	Department of Corrections and Rehabilitation	Yes	3	No
Ohio	Adult Parole Authority	Department of Rehabilitation and Correction	No	9 <sup>f</sup>	Yes
Oklahoma	Pardon and Parole Board	Department of Corrections <sup>b</sup>	Yes	5	No
Oregon	Board of Parole and Post-Prison Supervision	Department of Corrections	Yes	4	Yes
Pennsylvania	Board of Probation and Parole <sup>b</sup> and County Courts <sup>g</sup>	Board of Probation and Parole <sup>b</sup> and County Courts	Yes	5	Yes
Rhode Island	Parole Board	Department of Corrections	Yes	6	No
South Carolina	Board of Probation, Parole and Pardon Services	Department of Probation, Parole and Pardon Services <sup>b</sup>	Yes	7	No
South Dakota	Board of Pardons and Paroles	Department of Corrections	Yes	6	No
Tennessee	Board of Paroles	Board of Paroles	Yes	7	Yes
Texas	Board of Pardons and Paroles	Texas Department of Criminal Justice	No	18	Yes
Utah	Board of Pardons	Department of Corrections	Yes	5	Yes
Vermont	Board of Parole	Department of Corrections	Yes	5	No
Virginia	Parole Board	Department of Corrections	Yes	5	Yes
Washington	Indeterminate Sentence Review Board	Department of Corrections	Yes	5	Yes
West Virginia	Board of Probation and Parole <sup>h</sup>	Division of Corrections	Yes	3	Yes
Wisconsin	Parole Commission	Department of Corrections	Yes	5	Yes
Wyoming	Board of Parole	Department of Corrections	Yes	7	No
Federal	Parole Commission <sup>b</sup>	Administrative Office of the U.S. Courts	Yes	9	Yes

Note: See Note, table 1.81. The column "independent agency" refers to the status of the State paroling authority.

<sup>a</sup>Three full-time, four part-time.

<sup>b</sup>Accredited by Commission on Accreditation for Corrections.

<sup>c</sup>The chairman serves full-time; members serve part-time.

<sup>d</sup>Parole Board hears pre-1976 cases of parole. Flat sentences with no parole under criminal code effective May 1, 1976.

<sup>e</sup>The Executive Officer and two Deputy Executive Officers serve full-time, other staff serve part-time.

<sup>f</sup>Eleven hearing officers expand the functions of the Parole Board.

<sup>g</sup>The Board of Probation and Parole provides services when the sentence is over 2 years; the County Courts provide services when the sentence is 2 years or less.

<sup>h</sup>Under State statute, parole is considered probation.

Table 1.104

## Intensive parole supervision programs

By selected program characteristics and State, 1992

State	Number of offenders		Number of officers		Average case load		Difference in officers' pay or qualifications for handling intensive parole supervision cases
	On parole	Under intensive parole supervision	Total	Handling intensive parole supervision	Non-intensive supervision	Intensive supervision	
Alabama	6,000	185	192	9	147	25	None
Alaska	900	32	68	2	80	15	Intensive supervision officers receive a shift differential and on-call allowance and must be firearms qualified.
Arizona	4,100 <sup>a</sup>	275	63	11	76	25	None
Arkansas	3,631	90	70	6	54	15	None
California	83,799	8,500 <sup>b</sup>	1,655	146 <sup>b</sup>	65	45	None, but officer must be off probationary status for 1 year.
Colorado	1,866	77	4	2	65	20	None
Connecticut	5,613	8 % <sup>b</sup>	65	0	92 % <sup>b</sup>	8 % <sup>b</sup>	None
Florida	2,465	50 <sup>b</sup>	2,206 <sup>c</sup>	0 <sup>d</sup>	--	25	Correctional Probation Officers II level are assigned as Community Control Officers.
Hawaii	1,442	70	26	4	85	35 <sup>e</sup>	None
Idaho	387	61	79	14	75	25 <sup>e</sup>	None
Illinois	21,448	675	92	30	--	23	Pay scale is the same, although there are more opportunities for overtime; intensive supervision agents must be weapons authorized.
Iowa	2,150	328	252 <sup>c</sup>	35 <sup>f</sup>	(g)	20 to 25	Intensive supervision officers are usually PPO III (case management) and PPO I (surveillance), whereas, regular probation officers are PPO II's.
Kentucky	3,345	804	309	54	60	27	None
Louisiana	10,478	142	NA	0	(h)	(h)	None
Maryland	14,809 <sup>i</sup>	3,100 <sup>j</sup>	450	185	42	47	None
Minnesota	261 <sup>k</sup>	151	71	16	98	15 <sup>l</sup>	None
Mississippi	2,909	74	121 <sup>m</sup>	12 <sup>m</sup>	104	28	None
Missouri	8,390	584	625 <sup>m</sup>	18	75	20	No salary difference, must be an experienced officer.
Montana	625	--	48	4	88.5	10	None
Nebraska	685	50 <sup>b</sup>	14	3	50	35	None
Nevada	2,504	292	179 <sup>m</sup>	19 <sup>m</sup>	75	25 to 30	Officers handling intensive supervision cases are compensated an additional 5 percent of their base salary.
New Hampshire	582	65	50 <sup>m</sup>	4.5	85 to 95	25 to 30	Intensive supervision parole officers receive specialized training commensurate with their responsibilities.
New Jersey	28,748	677	332	72	141	10	Salary increase for carrying a weapon.
New York	49,718	18,573	850	425	97	38	None
North Carolina	11,953	809	148	(n)	74	24	Must have 3 years experience handling regular cases.
North Dakota	150	5	NA	1	65 to 80	10 to 12	Salary increase and required to be experienced officer.

See notes at end of table.

Table 1.104

## Intensive parole supervision programs

By selected program characteristics and State, 1992--Continued

State	Number of offenders		Number of officers		Average case load		Difference in officers' pay or qualifications for handling intensive parole supervision cases
	On parole	Under intensive parole supervision	Total	Handling intensive parole supervision	Non-intensive supervision	Intensive supervision	
Ohio	6,000 <sup>b</sup>	1,900 <sup>b</sup>	350 <sup>b</sup>	(h)	45 to 65	20 to 50	One program requires officers with more experience.
Oklahoma	3,963	135	286 <sup>m</sup>	0	85 <sup>m</sup>	--	None
Oregon	6,700	1,400 <sup>m</sup>	382	--	85	35 to 50	None
Pennsylvania	17,274	1,040	236	30	106.7	34.7	None
Rhode Island	506	44	7	1	77	44	None
South Carolina	4,607	371	483 <sup>m</sup>	66 <sup>m</sup>	160	61	Salary Increase.
South Dakota	673	46	24	8	39	6	None
Texas	73,821	2,325	1,035	93	75	25	None
Utah	2,036	273	NA	19	--	--	--
Vermont	339	91	65 <sup>m</sup>	6	4.2 <sup>o</sup>	15.2 <sup>o</sup>	None
Virginia	10,000	600	450 <sup>m</sup>	45 <sup>m</sup>	70 <sup>m</sup>	24 <sup>m</sup>	None
Wyoming	3,500 <sup>m</sup>	3	51	3	100 <sup>m</sup>	25 <sup>m</sup>	Salary Increase and 2 years experience.

Note: This information was collected through a survey of the 50 States, the District of Columbia, and the Federal Bureau of Prisons conducted in June 1992. Georgia, Kansas, Maine, Michigan, Tennessee, Washington, and West Virginia had no intensive parole supervision programs at the time the survey was conducted. Indiana was beginning an intensive parole supervision program at the time of the survey. Delaware, the District of Columbia, Massachusetts, New Mexico, Wisconsin, and the Federal Bureau of Prisons did not respond to the survey. The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>f</sup>Also supervises intensive probation.

<sup>g</sup>Unknown.

<sup>h</sup>Officers handle both regular and intensive supervision cases.

<sup>i</sup>9,049 total; 5,760 active.

<sup>j</sup>Active.

<sup>k</sup>Supervised release.

<sup>l</sup>Maximum by law.

<sup>m</sup>Includes probation.

<sup>n</sup>Parole cases handled by intensive probation officer.

<sup>o</sup>Part of caseload.

<sup>a</sup>Includes intensive probation offenders.

<sup>b</sup>Approximation.

<sup>c</sup>Also supervises probationers.

<sup>d</sup>Handles community control supervision.

<sup>e</sup>Per two officers.

1993	9,495	1,638	X	2,702	1,477	X	317	X	720	2,439	20	24	158

Note: The U.S. Parole Commission conducts parole hearings for inmates currently in the custody of the Federal Bureau of Prisons and exercises jurisdiction over approximately 20,000 Federal parolees. The hearing examiner's workload consists of in-person hearings and record reviews. At an in-person hearing, the offender appears before the examiner and can introduce additional information for consideration. At a record review, only information contained in the prisoner's case file is considered. Some data reported as hearings were actually record reviews because the prisoner was granted parole "on the record" or was serving concurrent Federal and State sentences in a State institution. With implementation of presumptive parole date procedures, "one-third hearings" and "review hearings" have been phased out.

For parole guidelines and definitions of terms, see Appendix 4.

1991	2,793	528	738	468	549	510
1992	3,218	1,502 <sup>a</sup>	X	716 <sup>b</sup>	1,000 <sup>b</sup>	X
1993	2,439	740 <sup>a</sup>	X	653 <sup>b</sup>	1,046 <sup>b</sup>	X

Note: See Note, table 1.105. If probable cause for revocation is established at the local hearing, the parolee may be returned to the institution to await the institutional hearing. A local hearing is not necessary if the parolee has been convicted of a crime committed while under supervision. For definitions of terms and a list of States in regions, see Appendix 4.

<sup>a</sup>The Commission modified its regional operation by combining the Northeast and Southeast regions into the Eastern region.

<sup>b</sup>The Commission modified its regional operation by closing the Western region. The South Central and North Central offices took over the area previously serviced by the Western region.

1989	8,724	90.0	7.9	2.2	2,759	85.8	10.2	4.0
1990	5,438	88.0	9.4	2.6	3,208	84.5	10.8	4.7
1991	3,612	84.9	11.7	3.4	3,142	84.1	9.7	6.2
1992	2,609	83.9	12.7	3.3	3,176	82.7	12.2	5.1
1993	2,618	83.3	14.5	3.3	2,974	82.0	13.0	4.9

Note: See Note, table 1.105. In 1978, the U.S. Parole Commission adopted a system of guidelines, based on a calculation of parole risk, to aid in the determination of an optimal parole release date. Release decisions may be made either above or below the designated guideline range if warranted by discretionary, statutory, or policy considerations. For this table, only discretionary decisions outside the guideline structure are counted as "above" or "below." Thus, decisions to deny parole where the mandatory release date is below the guideline range, and decisions to grant an effective parole date above the guideline range, due to time needed to develop a suitable release plan or because the minimum sentence is beyond the guideline range, are counted as "within" the parole policy guidelines. Decisions below the guideline range because of policy limitations are excluded from this table (Source, *October 1, 1978 to September 30, 1980*, p. 22). Guidelines are used in revocation hearings in order to establish an eligibility date for "reparole." In addition, cases in which the guidelines developed by the District of Columbia Parole Board were used as the result of a court order are excluded from this table in 1988.

For definitions of terms, see Appendix 4.

Table 1.108

## Age and crime restrictions for judicial waiver of juveniles to criminal court

By State, 1993

State	Age at which juvenile can be transferred to criminal court	Crime restrictions	State	Age at which juvenile can be transferred to criminal court	Crime restrictions
Alabama	14 and older	Child alleged to have committed an act which would constitute a crime if committed by an adult.	Idaho	14 and older	Any crime.
Alaska	No specific age	None.	Illinois	13 and older	Any crime.
Arizona	No specific age	None. County attorney files motion with clerk of the court requesting that the juvenile court waive jurisdiction and transfer child for criminal prosecution.	Indiana	10 and older	Murder (waiver mandatory).
Arkansas	14	Capital murder; murder in the first degree; murder in the second degree; kidnaping in the first degree; aggravated robbery or rape; first degree battery; possession of a handgun on school property; aggravated assault with a deadly weapon.		14 and older	Heinous or aggravated act, or part of repetitive pattern of less serious delinquent acts.
	16 and older	Felony if committed by an adult.		16 and older	Class A or B felony; involuntary manslaughter as a Class C felony; reckless homicide as a Class C felony (waiver mandatory).
California	16 and older	Any criminal statute or ordinance.		No specific age	Felony if committed by an adult and previous conviction of a felony or nontraffic misdemeanor (waiver mandatory).
Colorado	14 and older	Felony.	Iowa	14 and older	Public offense.
Connecticut	14 and older	If child previously adjudicated delinquent for a serious juvenile offense, may be transferred for commission of a Class A, B, or C felony. Murder: Class A felony if previously adjudicated delinquent for Class A felony; Class B felony if previously adjudicated delinquent for two violations designated Class A or B felony.	Kansas	14 or 15	Class A or B felony, or after July 1, 1993, an off-grid felony, a nondrug felony crime at severity level 1, 2, or 3 or a drug felony crime ranked at severity level 1 or 2.
Delaware	14 and older	Felony.		16 and older	Any crime.
	16 and older	Child not amenable to rehabilitative processes available to the court.	Kentucky	14	Capital offense or Class A or B felony.
District of Columbia	15 and older	Felony.		16	Class C or D felony who has two prior delinquency adjudications for felonies. Waiver permitted in case of any child charged with a felony who has a prior criminal conviction; before certifying such child the court must find the child has a delinquency adjudication for a felony within 1 year prior to commission of present charge and that child has failed to comply with the terms of the disposition following the prior adjudication.
	16 and older	None, if child already under commitment for delinquency.	Louisiana	15 and older	Waiver permitted if child charged with armed robbery, aggravated burglary, or aggravated kidnaping, attempted first or second degree murder, aggravated battery.
	18 and older	Offense committed before age of 18.	Maine	No specific age	Murder or a Class A, B, or C crime.
	Any age	Illegal possession or control of a firearm within 500 feet of a District of Columbia public school building, property, or school-sponsored event.	Maryland	Under 15	Crimes punishable by death or life imprisonment.
Florida	14 and older	None.		15 and older	None.
	No specific age	Offense punishable by death or life imprisonment if indicted by grand jury; waiver mandatory upon demand of child and parent or guardian.	Massachusetts	14 and older	Child has committed an offense which, if committed by an adult, would be punishable by imprisonment in the State prison and child has been previously committed to the department of youth services, or the crime involves the threat or infliction of serious bodily harm.
Georgia	13 and older	Offense punishable by death or life imprisonment.	Michigan	15 and older	Felony.
	15 and older	None; waiver mandatory in case of child 15 or older charged with burglary on 3 or more occasions and probable cause established on present charge.	Minnesota	14 and older	Violation of State or local law or ordinance; waiver mandatory in case of child over whom jurisdiction was waived on a previous felony charge and who was convicted of such offense or a lesser included offense. Mandatory waiver provision does not apply to juvenile offenders subject to criminal court jurisdiction under section 609.055.
Hawaii	16 and older	Felony; waiver mandatory in case of child 16 or older charged with a Class A felony who has previously been adjudged to have committed a Class A felony involving force or violence or the threat of force or violence, or to have committed two or more felonies within the previous 2-year period.			

See notes at end of table.

Table 1.108

## Age and crime restrictions for judicial waiver of juveniles to criminal court

By State, 1993--Continued

State	Age at which juvenile can be transferred to criminal court	Crime restrictions	State	Age at which juvenile can be transferred to criminal court	Crime restrictions
Mississippi	13 and older	None.	Oregon	15 and older	Murder; aggravated murder; Class A or Class B felonies; second degree escape; third degree assault; coercion; second degree arson; third degree robbery.
Missouri	14 to 17	Felony.		Under 16	Murder; aggravated murder; attempted murder; attempted aggravated murder; first degree manslaughter; first degree assault; first degree rape; first degree sodomy; first degree robbery.
	17 to 21	Any State law or ordinance if child already within court's extended jurisdiction.	Pennsylvania	14 and older	Waiver permitted where child is charged with a felony; waiver mandatory if child charged with murder; child may request waiver.
Montana	12 and older	Sexual intercourse without consent, deliberate homicide, mitigated deliberate homicide, attempt of either deliberate or mitigated deliberate homicide.	Rhode Island	No specific age	Child charged with felony.
	16 and older	Negligent homicide; arson; aggravated or felony assault; robbery; burglary or aggravated burglary; aggravated kidnapping; possession of explosives; criminal sale of dangerous drugs; criminal production or manufacture of dangerous drugs; attempt of any of the above acts.	South Carolina	14 or 15	Two prior and unrelated adjudications of assault; assault and battery with intent to kill; assault and battery of a high and aggravated nature; arson; housebreaking; burglary; kidnapping; attempted criminal sexual conduct or robbery and currently charged with a third or subsequent offense.
Nevada	16 and older	Felony.		16 and older	Felony or misdemeanor.
New Hampshire	No specific age	Felony.		Any age	Murder or criminal sexual conduct.
New Jersey	Under 14	Murder-juvenile may elect to have case transferred.	South Dakota	No specific age	None.
	14 and older	Criminal homicide other than death by auto; robbery of the first degree; aggravated sexual assault; sexual assault; second degree aggravated assault, kidnapping; aggravated arson; crime committed when juvenile previously adjudicated delinquent or convicted of above-named offenses; crime committed when juvenile previously sentenced and confined in adult penal institution; violent offense; drug offense; attempt or conspiracy of above (waiver permitted). Also, juvenile may elect to have case transferred.	Tennessee	14 and older	Murder; rape; aggravated rape; robbery offenses; kidnapping offenses.
				16 and older	None.
New Mexico	15 and older	First or second degree murder; assault with intent to commit a violent felony; kidnapping; aggravated battery; shooting at a dwelling or occupied building, or shooting at or from a motor vehicle, which results in great bodily harm to another person; dangerous use of explosives; criminal sexual penetration; robbery; aggravated burglary; aggravated arson; any felony offense if they have had three prior, separate felony adjudications within a 2-year period immediately preceding (youthful offender subject to adult or juvenile sanctions).	Texas	15 and older	Felony.
			Utah	14 and older	Felony.
North Carolina	14 and older	Felony; waiver is mandatory if felony charged is a Class A felony.	Vermont	Over 10, but less than 14 years of age	Arson causing death; assault and robbery with a dangerous weapon; assault and robbery causing bodily injury; aggravated assault; murder; manslaughter; kidnapping; maiming; sexual assault; aggravated sexual assault; burglary of sleeping apartments in nighttime.
North Dakota	14 and older	Delinquent act involving infliction or threat of serious bodily harm.	Virginia	15 and older	Any offense, which if committed by an adult could be punishable by confinement in a State correctional facility.
	16 and older	Child requests.	Washington	15 and older	Class A felony or attempted Class A felony.
Ohio	15 and older	Felony; waiver mandatory if child is presently charged with murder or aggravated murder and child previously has been adjudicated delinquent for murder or aggravated murder.		17	Second degree assault; first degree extortion; indecent liberties; second degree kidnapping; second degree rape; second degree robbery.
Okahoma	No specific age	Felony.	West Virginia	16	Child demands waiver.
				No specific age	Waiver permitted if child has committed: treason; murder; robbery with a deadly weapon; kidnapping; first degree arson; or first degree sexual assault. Waiver permitted if child charged with violent felony, if previously found delinquent for a violent felony. Waiver permitted if child charged with a felony, if child has been twice previously adjudged delinquent for offense which would be a felony if child were an adult.

See notes at end of table.

Table 1.108

## Age and crime restrictions for judicial waiver of juveniles to criminal court

By State, 1993--Continued

State	Age at which juvenile can be transferred to criminal court	Crime restrictions
West Virginia, continued	16 and older	Waiver permitted if child has committed an offense of violence to the person which would be a felony if committed by an adult. Waiver permitted if child has committed an offense which would be a felony if committed by an adult, if child previously judged delinquent for offense which would be a felony if child were an adult. Waiver required when demanded by the child.
Wisconsin	14 and older	First or second degree intentional homicide; first or second degree reckless homicide; first degree sexual assault; taking hostages; kidnaping; armed or unarmed burglary; manufacture or delivery of controlled substances; any felony committed at request of or for benefit of a criminal gang; (child or district attorney may request waiver).
	16 and older	Violation of any State criminal law other than assault or battery by a prisoner while in a secured correctional facility (child or district attorney may request waiver).
Wyoming	No specific age	None.

Note: These data were produced by a computerized search of a database that contains State child abuse and neglect statutes and juvenile codes (the Automated Juvenile Law Archive). The search was completed in February 1994. Other related statutes may be found in State criminal codes or rules of juvenile procedure. No attempt was made to include relevant case law. For the most complete understanding of this complex issue, the Source encourages readers to consult the full text of the relevant statute. For States not appearing in the table, no provisions relating to judicial waiver were located in the juvenile codes. In Nebraska, no waiver provisions exist because the juvenile and criminal courts have concurrent jurisdiction and the prosecutor decides where to file.

Note: This information was collected by the Safer Society Program through a questionnaire mailed to 1,500 juvenile and adult sex-offender treatment programs and service providers. These programs were identified through telephone and mail surveys; contacts with local, county, and State sex-offender treatment networks; and consultations.

The information above does not include: services provided for the incest offender when treated only within the context of the incest family, nonspecialized groups that include sex offenders, or adult sex-offender self-help programs (Source, p. 5).

The categories labeled "court" are those existing in conjunction with the court such as probation or parole offices or school districts. Categories labeled "private" refer to private nonprofit or private-for-profit agencies or professional service. "Community based, prison-

related" programs are those that are located in halfway houses operated by prison authorities.

At the time of the survey, Mississippi did not provide service to either juvenile or adult sex offenders.

Note: These data were compiled by the National Rifle Association of America, Institute for Legislative Action. In addition to State laws, the purchase, sale, and in certain circumstances, the possession and interstate transportation of firearms are regulated by the Federal Gun Control Act of 1968 as amended by the Firearms Owners' Protection Act. Also, cities and localities may have their own firearms ordinances in addition to Federal and State laws. A "Y" in the table indicates that the attribute is present. However, many qualifications may apply. The Source notes that State firearms laws are subject to frequent change. State and local statutes and ordinances, as well as local law enforcement authorities, should be consulted for full text and meaning of statutory provisions.

A long gun is a rifle or shotgun. The Source defines "constitutional provision" by citing Article 1, Section 15 of the Connecticut State Constitution as an example of the basic feature contained in the constitutions of many States. It reads: "Every citizen has a right to bear arms in defense of himself and the State."

<sup>a</sup>The Federal 5-day waiting period for handgun purchases applies to States that don't have instant background checks, waiting period requirements, or licensing procedures exempting them from the Federal requirement. Application of the Federal waiting period is determined by the Bureau of Alcohol, Tobacco and Firearms.

<sup>b</sup>A State firearms preemption law proscribes the existence of a local law or ordinance more restrictive than a State law governing firearms.

<sup>c</sup>Least restrictive; most have "shall issue" permit systems.

<sup>d</sup>Carrying handgun openly in a motor vehicle requires a license.

<sup>e</sup>Moderately restrictive; permit issuance subject to discretion of local law enforcement, or permits are unavailable and concealed carry is prohibited in some circumstances.

<sup>f</sup>Sharply restrictive; permits are difficult to obtain or unavailable entirely.

<sup>g</sup>Arkansas prohibits carrying a firearm "with a purpose to employ it as a weapon against a person"; Tennessee prohibits carrying "with the intent to go armed"; Vermont prohibits carrying "with the intent or purpose of injuring another."

<sup>h</sup>Loaded.

<sup>i</sup>California, Connecticut, New Jersey, New York City, other local jurisdictions in New York, and several cities in Ohio have banned "assault weapons." Some Ohio cities also forbid the possession and sale of handguns with a certain magazine capacity. In Illinois, Chicago and certain other cities have banned handguns and "assault weapons." Maryland has banned several small, low-caliber, inexpensive handguns and "assault pistols." Hawaii has banned "assault pistols." Virginia has banned Street Sweeper shotguns and the District of Columbia has banned handguns and semi-automatic firearms with the ability to use a magazine holding more than 12 rounds. (In some cases, individuals are allowed to keep any banned firearm possessed prior to the effective date of the gun-ban law, with certain restrictions.)

Table 1.110

Statutory restrictions on the purchase, carrying, and ownership of firearms

By State, 1994--Continued

- <sup>1</sup>Holders of carry permits are exempt from the waiting period. A hunting license provides exemption on long guns only.
- <sup>2</sup>Preemption through judicial ruling, not statute. Local regulation may be instituted in Massachusetts and North Carolina, but it must be ratified by legislative action.
- <sup>3</sup>Waiting period does not apply to persons holding valid permits/licenses to carry handguns issued within 5 years of proposed purchase.
- <sup>4</sup>In certain cities or counties.
- <sup>5</sup>The permit-to-purchase system constitutes a waiting period for first-time gun buyers in the following States: Illinois, Nebraska, Massachusetts, Missouri, New Jersey, New York, and North Carolina. In Iowa, permits-to-purchase are good only after three days from date of issue. Hawaii's permit-to-purchase system constitutes a 14 to 20-day waiting period for first time gun buyers as the law requires law enforcement to hold the permit-to-purchase for 14 days and no longer than 20 days. Subsequent permits may be granted in less time.
- <sup>6</sup>Handguns prohibited in Evanston, Oak Park, Morton Grove, Winnetka, Wilmette, and Highland Park.
- <sup>7</sup>Chicago only.
- <sup>8</sup>Except Gary and East Chicago.
- <sup>9</sup>Applies to "military style" semi-automatics. In New Jersey, applies only to firearms lawfully possessed prior to 1990 ban. In Minnesota, applies to a specific list of 17 semi-automatic firearms.
- <sup>10</sup>Handguns must be presented to the city chief of police or county sheriff to obtain a certificate of inspection.
- <sup>11</sup>New York's permit system combines purchase, possession, and carry in a single permit. New York City requires a permit for all guns.
- <sup>12</sup>New York City only.
- <sup>13</sup>Except Philadelphia.
- <sup>14</sup>Handgun purchases limited to 1 per 30-day period, with certain exceptions.
- <sup>15</sup>Can be extended by police to 30 days under some circumstances. Non-driver's license holders must wait 90 days.
- <sup>16</sup>Applies only to handguns registered and re-registered prior to the District of Columbia's 1977 handgun "ban," and to all long guns. No additional handguns may be acquired by District of Columbia residents.

Note: These data were collected through a review of the statutory provisions of the 50 States, the District of Columbia, and Puerto Rico.

The evidentiary weight given to blood alcohol concentration levels generally falls into one of two categories. "Illegal per se at 0.10 percent" indicates that such a level of blood alcohol concentration is considered conclusive evidence of intoxication in a court of law. "Presumption at 0.10 percent" indicates that such a level of blood alcohol concentration creates a presumption of intoxication in a court of law. Statutory provisions of several jurisdictions treat the 0.10 percent level as both presumptive and illegal per se evidence of driving under the influence. This appears to be the result of States having adopted one of the standards without amending statutes that had previously authorized the other standard. In such cases, the actual statutes

should be consulted for clarification. "Open container laws" refer to laws prohibiting the possession of open containers of alcoholic beverages in the passenger compartment of a motor vehicle. "Anti-consumption laws" refer to laws prohibiting the consumption of alcoholic beverages in the passenger compartment of a motor vehicle. "Dram shop laws" refer to laws that make owners of drinking establishments civilly liable for serving alcohol to an intoxicated patron who then goes out and injures another individual in a motor vehicle accident. In the table, "S" indicates that such a provision is provided expressly by statute. In all jurisdictions, use of a controlled substance or use of a controlled substance in conjunction with alcohol also constitutes the basis for a driving while intoxicated charge. Statutes should be consulted for the full text and meaning of specific provisions.

Table 1.111

## Statutory provisions related to alcohol use and driving

By Jurisdiction, as of Jan. 1, 1994--Continued

<p><sup>a</sup>Applies to drivers only.</p> <p><sup>b</sup>0.08 percent.</p> <p><sup>c</sup>Applies only to actions of intoxicated minors.</p> <p><sup>d</sup>Presumption of driving while impaired at 0.05 percent; presumption of driving while under the influence at 0.10 percent.</p> <p><sup>e</sup>This State has a statute that places a monetary limit on the amount of damages that can be awarded in dram shop liability actions.</p> <p><sup>f</sup>Constitutes prima facie evidence.</p> <p><sup>g</sup>Prima facie evidence at greater than 0.05 blood alcohol concentration.</p> <p><sup>h</sup>Adopted via case law decisions.</p> <p><sup>i</sup>Applies only to the actions of intoxicated minors or persons known to be habitually addicted to alcohol.</p> <p><sup>j</sup>Competent evidence of driving while intoxicated.</p> <p><sup>k</sup>Has both prima facie and presumptive evidence laws with blood alcohol concentration levels at 0.10 percent.</p> <p><sup>l</sup>Unclear, the statute appears to have limited actions to those committed by minors.</p> <p><sup>m</sup>Presumption of driving under the influence at 0.07 percent; presumption of driving while intoxicated at 0.10 percent. Both constitute prima facie evidence.</p> <p><sup>n</sup>Limited application.</p> <p><sup>o</sup>Presumption of driving while impaired at 0.07 percent; presumption of driving under the influence at 0.10 percent.</p> <p><sup>p</sup>Cause of action limited to licensees who have been convicted of selling alcoholic beverages to minors or intoxicated individuals.</p> <p><sup>q</sup>Inference of a driving while intoxicated offense.</p> <p><sup>r</sup>0.07-0.10 constitutes prima facie evidence of impairment.</p>	<p><sup>s</sup>Applies specifically to the actions of intoxicated minors, but the law does not foreclose developing case law as to other types of dram shop action.</p> <p><sup>t</sup>Presumption of driving while impaired at 0.05 percent; prima facie evidence of driving while under the influence at 0.10 percent.</p> <p><sup>u</sup>Not less than 0.08 percent constitutes being under the influence of intoxicating liquor.</p> <p><sup>v</sup>0.05 for persons who operate buses, trucks, or other large motor vehicles.</p> <p><sup>w</sup>This blood alcohol level is an inference of driving while intoxicated.</p> <p><sup>x</sup>Possible via case law. Applies to actions of intoxicated minors.</p> <p><sup>y</sup>Statutory law has limited dram shop actions.</p> <p><sup>z</sup>Applies only to the actions of intoxicated minors, and/or adults who have lost their will to stop drinking.</p> <p><sup>aa</sup>First and second offense 0.10 percent; third or subsequent offenses 0.08 percent.</p> <p><sup>ab</sup>0.10 percent is prima facie evidence for first and second offenses. 0.08 percent is prima facie evidence for third and subsequent offenses.</p> <p><sup>ac</sup>Liability limited only to the actions of persons who are under 21 years old.</p>

Table 1.112

Statutory provisions authorizing blood alcohol concentration tests for persons suspected of driving while intoxicated, and sanctions for refusal to take such tests

By jurisdiction, as of Jan. 1, 1994--Continued

Note: See Note, table 1.111. The blood alcohol concentration level of persons suspected of driving while intoxicated is generally determined through the administration of either preliminary breath tests or chemical blood, breath, or urine tests. "Preliminary breath tests" are administered at the site of a traffic stop and are used for screening purposes in determining the need to arrest and the need to conduct further blood alcohol concentration tests. "Chemical tests," authorized under "implied consent laws," are typically administered after arrest (see table for exceptions) and are used to obtain admissible evidence of intoxication (U.S. Department of Transportation, National Highway Traffic Safety Administration, *Alcohol and Safety Laws: A National Overview, 1981* (Washington, DC: USGPO, 1982), pp. 1, 3, 9). "Implied consent laws" provide that "any person who operates a motor vehicle upon a public highway is deemed to have given consent to a chemical test or tests of his or her blood, breath, or urine for the purpose of determining the blood alcohol content" (U.S. Department of Transportation, National Highway Traffic Safety Administration, *Alcohol and Highway Safety Laws: A National Overview, 1981* (Washington, DC: USGPO, 1982), p. 9). "Criminal" sanctions refers to fines and/or jail sentences whereas "administrative licensing action" refers to suspension or revocation of license. In the table, "S" indicates that such a provision is provided expressly by statute. Statutes should be consulted for the full text and meaning of specific provisions.

<sup>a</sup>Based upon a reasonable suspicion of a driving while intoxicated offense.

<sup>b</sup>A law enforcement officer can request a driver to submit to a chemical test if the driver has been arrested for a driving while intoxicated offense, if the driver has been involved in a fatal accident, or if there is "reasonable cause to believe" that the driver is intoxicated or has a blood alcohol concentration level of 0.10 or more. A law enforcement officer can request a driver, who is under 21, to submit to a chemical test (1) if the underage person has been arrested for any offense arising out of driving while under the influence or with a blood alcohol concentration level of 0.02 but less than 0.10, (2) if the underage person has been involved in an accident or (3) if a law enforcement officer has stopped the underage person based upon "reasonable cause to believe" that the underage person has been driving while under the influence or with a blood alcohol concentration level of 0.02 but less than 0.10.

<sup>c</sup>A preliminary breath test may be conducted without legislative authority.

<sup>d</sup>For persons under 21 years old, who refuse to submit to a preliminary breath test where there has been a lawful detention and where there is reasonable cause to believe that the person was operating a motor vehicle with a blood alcohol concentration/breath alcohol concentration level of 0.01 or more, suspension is for not less than 1 year. This suspension is not mandatory. Restricted driving privileges are available based upon a critical need to drive.

<sup>e</sup>Although arrest is not required, police must have "probable cause."

<sup>f</sup>Unclear, but probably not.

<sup>g</sup>Provides only for the testing of urine.

<sup>h</sup>An arrest is not required if there is "reasonable grounds" to believe that a person was driving while intoxicated and they were involved in an accident that resulted in either serious injury or death.

<sup>i</sup>The police need only "reasonable grounds" of driving while intoxicated offense before the implied consent law is applicable. However, a subsequent statute appears to indicate that "probable cause" is needed.

<sup>j</sup>Before the preliminary breath test can be given, a law enforcement officer must have reasonable suspicion to believe that the driver is violating the driving while intoxicated law. The test is given prior to an actual driving while intoxicated arrest for the purpose of assisting the officer in determining whether to require a chemical (evidentiary) test under the implied consent law.

<sup>k</sup>Limited to an accident in which there has been a death or a serious bodily injury likely to cause death.

<sup>l</sup>A law enforcement officer only needs "reasonable grounds" and any one of the following: (1) a driving while intoxicated arrest; (2) an accident resulting in injury or death; (3) a preliminary breath test refusal; (4) a preliminary breath test reading of 0.10 percent; or (5) a preliminary breath test reading of less than 0.10 percent but the officer has reasonable grounds that the driver was under the influence of drugs or drugs and alcohol.

<sup>m</sup>No arrest is required if the person has been involved in a motor vehicle accident resulting in property damage, injury, or death.

<sup>n</sup>The law uses the term "detained" instead of "arrested."

<sup>o</sup>Police only need reasonable grounds and probable cause of driving while intoxicated.

<sup>p</sup>Only "reasonable grounds" are needed not an arrest.

<sup>q</sup>Only "reasonable grounds" seem to be required.

<sup>r</sup>The law only authorizes these tests in those situations where a driver has been involved in an accident and has committed a traffic law violation. A violation could include other offenses as well as driving while intoxicated.

<sup>s</sup>An arrest is not required in all situations. If a preliminary breath test indicates that alcohol has been consumed, a request to submit to a chemical test under the implied consent law may be made without the need of a formal arrest.

<sup>t</sup>If criminal process for the driving while intoxicated offense has been issued arrest is not required.

<sup>u</sup>A person is not subject to licensing action for a refusal if they plead guilty to a driving while intoxicated offense.

<sup>v</sup>The implied consent law would seem to indicate that an arrest is necessary before licensing sanctions for refusal could be imposed. However, a recent court decision appears to hold that only "reasonable grounds" not an actual arrest is all that is needed. See *Magill v. Com.*, 522 A.2d 172 (Pa. Cmwlth. 1987).

<sup>w</sup>Implied.

<sup>x</sup>A driver's license is not subject to revocation for refusal to submit to a chemical test under the implied consent law if either (1) the driver pleads guilty to a driving while intoxicated offense or (2) the DWI charge is dismissed prior to a hearing on the refusal and the person is not convicted of a lesser charge or, if a hearing is not requested, prior to the revocation being ordered.

<sup>y</sup>If a driver refuses to submit to a chemical test and the police officer had "reasonable grounds to believe" that the driver was driving while intoxicated, the State may proceed to suspend/ revoke the driver's license.

<sup>z</sup>A blood sample may be requested (1) if breath testing equipment is not available to determine alcohol content; or (2) if the law enforcement officer believes that the driver was under the influence of drugs.

<sup>aa</sup>If there is an injury likely to cause death, a person may be compelled to submit to a test for drugs as well as alcohol.

<sup>ab</sup>If a person pleads guilty to a driving while intoxicated offense within 10 days of arraignment, the license suspension for refusal shall not take effect.

Note: See Note, table 1.111. In the table, "S" indicates that such a provision is provided expressly by statute. Statutes should be consulted for the full text and meaning of specific provisions.

<sup>a</sup>Not specifically provided for by statute. However, case law provides that the Blood Alcohol Concentration test law provisions were deemed to apply to dead persons.

<sup>b</sup>If 15 years of age or older.

<sup>c</sup>Possible.

<sup>d</sup>If 16 years of age or older.

<sup>e</sup>Test results may only be used for statistical purposes that do not reveal the identity of the deceased individuals.

<sup>f</sup>If 14 years of age or older.

<sup>g</sup>If driver dies within 4 hours of accident. However, the law only applies if, at the time of the accident, (1) the driver was the only occupant of the vehicle and (2) no other individuals were involved.

<sup>h</sup>If dead within 4 hours of the accident.

<sup>i</sup>If 16 years of age or older and dies within 4 hours of accident.

<sup>j</sup>No test shall be conducted if there is reason to believe that the decedent is of a religious faith which is opposed to such a test.

<sup>k</sup>If over 13 years of age and dies within 5 hours of accident.

<sup>l</sup>If over 15 years of age and dies within 4 hours of accident.

<sup>m</sup>Only if the driver of the vehicle cannot be determined.

<sup>n</sup>Discretionary.

<sup>o</sup>Adults only.

Note: See Note, table 1.111. "The sanctions listed for convictions of alcohol driving offenses... are those specified by statute. If a sanction is not specified by law... it is not listed." (U.S. Department of Transportation, National Highway Traffic Safety Administration, *Digest of State Alcohol-Highway Safety Related Legislation, January 1993* (Washington, DC: U.S. Department of Transportation, 1993), pp. 1, 2.) Imprisonment refers to both jail sentences and prison sentences. "The term 'mandatory sanction' means either a criminal sanction or an administrative licensing action which must be imposed by either a court or administrative agency" (Source, p. 1-2). Because of variation among the jurisdictions within categories of sanctions, e.g., terms of imprisonment or amounts of fines, the Source document as well as individual jurisdictions' statutes should be consulted. Statutes should be consulted for the full text and meaning of specific provisions. Unless otherwise stated, the sanctions are the same for all alcohol and drug driving offenses (e.g., driving while under the influence of either alcohol or drugs, illegal per se, etc.).

<sup>a</sup>In lieu of jail for a driving while intoxicated conviction.

<sup>b</sup>Consecutively.

<sup>c</sup>Suspended.

<sup>d</sup>Revoked.

<sup>e</sup>48 consecutive hours if the defendant is eligible for the work release program.

<sup>f</sup>May not apply to certain offenders who have been suspended pursuant to the administrative per se law.

<sup>g</sup>An amendment to the law in 1993 may have eliminated this mandatory revocation.

<sup>h</sup>Not necessarily served consecutively, the sanctions are for non-injury offenses.

<sup>i</sup>48 consecutive hours or 10 days of community service became mandatory when the Department of Motor Vehicles certified that an application for 23 USC 408 grant funds had been submitted to the U.S. Department of Transportation.

<sup>j</sup>Mandatory sanctions for driving while under the influence/illegal per se offenses.

<sup>k</sup>Applies only to first illegal per se convictions.

<sup>l</sup>Mandatory community service regardless of whether there is a mandatory imprisonment sanction.

<sup>m</sup>License suspension is not mandatory in all situations. A "special permit" may be issued in cases of "significant hardship."

<sup>n</sup>"House arrest" or the use of an "ignition interlock" device may be ordered in lieu of a jail sentence.

<sup>o</sup>It appears that a court may order the use of an "ignition interlock" device in lieu of mandatory licensing action.

<sup>p</sup>The court must sentence defendants to at least one of these sanctions but may sentence them to more than one such sanction.

<sup>q</sup>Must serve at least 48 consecutive hours.

<sup>r</sup>Not more than 200 hours of community service in lieu of the fine.

<sup>s</sup>This sentence may not be suspended; however, the statute is silent as to probation.

<sup>t</sup>A person may be issued a restricted license notwithstanding this revocation if certain conditions are met.

<sup>u</sup>Followed by work release for 3 days.

<sup>v</sup>Followed by work release for 88 days.

<sup>w</sup>Home incarceration is possible.

Mandatory minimum  
administrative licensing sanctions

First offense	Second offense	Third offense
90 days <sup>c</sup>	1 yr <sup>d</sup>	3 yrs <sup>d</sup>
30 days <sup>d</sup>	1 yr <sup>d</sup>	10 yrs <sup>d</sup>

3 mos <sup>c</sup>	1 yr <sup>c</sup>	2 yrs <sup>c</sup>
	1 yr <sup>c</sup>	2 yrs <sup>c</sup>
	1 yr <sup>d</sup>	1 yr <sup>d</sup>
	2 yrs <sup>d</sup>	3 yrs <sup>d</sup>
90 days <sup>c</sup>	1 yr <sup>d</sup>	1 yr <sup>d</sup>
90 days <sup>c</sup>	18 mos <sup>c</sup>	2 yrs <sup>d</sup>
	2 yrs <sup>d,z</sup>	5 yrs <sup>d</sup>
30 days <sup>c</sup>	1 yr <sup>d</sup>	2 yrs <sup>d</sup>
30 days <sup>d,ax</sup>	1 yr <sup>d,ax</sup>	1 yr <sup>d,ax</sup>
	60 days <sup>d</sup>	90 days <sup>d</sup>
	1 yr <sup>c</sup>	3 yrs <sup>d</sup>

<sup>x</sup>Not mandatory in all situations.

<sup>y</sup>Provided the defendant either (1) had a Blood Alcohol Content (BAC) level of 0.15 or more; (2) was driving 30 MPH over the speed limit and had a BAC level of 0.08 or more; (3) was eluding a police officer and had a BAC level of 0.08 or more; (4) refused to submit to a chemical test; or (5) was driving with a passenger under 16 years old.

<sup>z</sup>Temporary restricted license may be issued only for the purpose of attending either an alcohol education or treatment program.

<sup>aa</sup>Mandatory sanctions for driving while intoxicated offenses.

<sup>ab</sup>Or 14 days in a treatment facility.

<sup>ac</sup>Work release is available for this period of time.

<sup>ad</sup>Possible.

<sup>ae</sup>30 days imprisonment unless the court orders a probation rehabilitation program.

<sup>af</sup>The court may sentence a person without regard to certain mandatory sanctions if mitigating circumstances exist or if the person is assigned to intensive probation.

<sup>ag</sup>Applies only to Driving While Intoxicated offenses.

<sup>ah</sup>Applies only to driving while under the influence offenses.

<sup>ai</sup>This revocation may not be mandatory if the defendant meets certain eligibility requirements for and does participate in a driver rehabilitation or improvement program.

<sup>aj</sup>The mandatory sanctions given are based upon a person receiving probation.

<sup>ak</sup>One day imprisonment or 24 hours of community service if rehabilitation is taken.

<sup>al</sup>48 hours must be served consecutively. However, if the defendant agrees to participate in a 1 year treatment program, the jail term is reduced to 1 day or, as an alternative, the offender may perform 24 hours of community service.

<sup>am</sup>Three consecutive 24 hour periods in a house of correction and seven consecutive 24 hour periods in a driving while intoxicated detention center.

<sup>an</sup>Mandatory treatment of not less than 12 or more than 48 hours; this time is to be spent in an intoxicated driver resource center.

<sup>ao</sup>Not more than 90 days as an alternative to imprisonment.

<sup>ap</sup>The law states that the right to operate a motor vehicle is "forfeited."

<sup>aq</sup>Mandatory sanctions for the offenses of driving while intoxicated and illegal per se.

<sup>ar</sup>If there is no imprisonment sanction, the defendant must serve either 48 consecutive hours of inpatient rehabilitation/treatment or 10 days of community service.

<sup>as</sup>Plus the following mandatory surcharges: first offense--\$50; second offense--\$100; and third offense--\$200.

<sup>at</sup>Could be 5 years under the habitual offender law.

<sup>au</sup>Home detention may be used in lieu of this sanction.

<sup>av</sup>As a part of community supervision.

<sup>aw</sup>Applies to driving while intoxicated offenses that are not related to injury or death.

<sup>ax</sup>Applies only to driving while intoxicated offenses that are not related to injury or death and provided the person participates in the Ignition Interlock program.

Source: U.S. Department of Transportation, National Highway Traffic Safety Administration, *Digest of State Alcohol-Highway Safety Related Legislation, Current as of January 1, 1994* (Washington, DC: U.S. Department of Transportation, 1994), pp. 2-5-2-8. Table adapted by SOURCEBOOK staff.

## Section 2

### Public attitudes toward crime and criminal justice-related topics

Surveys of public opinion focusing on criminal justice topics are conducted periodically in the United States. These surveys are conducted by public opinion research organizations for political campaigns or in general social surveys; others are conducted for government agencies or commissions concerned with specific problems. Selected populations such as high school seniors or college students have been the focus of some opinion surveys. Results from a variety of public opinion polls, examining attitudes toward particular social problems are presented in this section.

Public attitudes about problems facing the country, minority communities, and public schools; public confidence in selected institutions such as the police, courts, and the U.S. Supreme Court; and attitudes toward the honesty and ethics of lawyers and police officers are presented in this section. Ratings of various measures of police performance and police behavior are presented as well. Knowledge of police brutality and public attitudes regarding police use of force have been examined.

Attitudes regarding the causes of crime, the level of spending on crime reduction and the drug problem, perceived safety, fear of crime, and perceived changes in the crime rate are included. Also examined through recent public opinion surveys are strategies for combatting crime, severity of the courts, and rehabilitation and treatment of criminals. Attitudes toward juvenile crime and juvenile justice, the legality of abortion and wiretapping, and attitudes toward the death penalty for murder are provided. Issues involving firearms, e.g., possession, sale, registration, waiting periods, and other gun control measures, have been examined through opinion surveys and are presented as well.

Attitudes about availability of drugs, harmfulness of drugs, legalization of marijuana, drug abuse by children, and child abuse are presented. Children's and teenagers' attitudes toward issues facing them and their communities are presented. Students' fear for safety at school, attitudes toward crime at school, and perceptions of availability and harmfulness of drugs are provided. Teenagers' perceptions of safety in their neighborhoods and opinions on gun control are examined. High school seniors' attitudes and beliefs about social problems, crime and violence, performance of the police and courts, harmfulness of drug use, and the legalization of marijuana are provided. Attitudes of college freshmen regarding marijuana legalization are included; as are their

beliefs about criminals' rights, capital punishment, gun control, AIDS testing, and the legality of abortion and homosexuality.

Public opinion research regarding the relationship between crime and the media, particularly the attention given to crime in the media and in the news, violence on television, the impact of crime coverage by television news, broadcast of public executions, and the relationship between violence on television and crime is presented as well. Finally, public attitudes about pornography are examined.

When available, survey results are broken down by demographic characteristics of respondents--such as age, sex, race, income, and occupation--enabling comparisons across important social dimensions. Finally, because some questions have been asked repeatedly, many trend tables have been constructed by *Sourcebook* staff and are presented.

Two appendices are included which outline survey sampling procedures, methodology, and definitions of terms used in the surveys. Appendix 5 describes procedures used in The Gallup Poll, the Gallup/Phi Delta Kappa Education Poll, the Harris Survey, the Youth Risk Behavior Survey, and surveys conducted by Market Segment Research, Inc., Roper Starch Worldwide, Inc., and Times Mirror Center for The People and The Press. Also included in Appendix 5 is a description of the General Social Survey (GSS) conducted by the National Opinion Research Center. The GSS is an annual survey of a national probability sample that has been conducted each year since 1972 (with the exception of 1979, 1981, and 1992). Appendix 7 describes a series of surveys focusing on the behaviors and attitudes of high school seniors and young adults. The Monitoring the Future Project provides data from nationwide surveys of high school seniors conducted annually since 1975 by the Institute for Social Research at the University of Michigan. These surveys report on the attitudes of high school seniors and young adults toward drinking and drug use.

Readers should be aware that many factors, including slight differences in the wording of survey questions, may have significant effects on survey responses. In addition, the margin of error for survey results, presented in Appendix 5, may vary slightly between surveys. Thus, attention to the exact wording of questions and the appropriate estimate of error, should always accompany comparisons.

Table 2.1

## Attitudes toward the most important problem facing the country

United States, 1981-94

Question: "What do you think is the most important problem facing this country today?"

	May 8-11, 1981	Jan. 8-11, 1982	Oct. 15-18, 1982	Apr. 15-18, 1983	Oct. 7-10, 1983	Feb. 10-13, 1984	Sept. 28-30, 1984	Jan. 25-28, 1985	May 17-20, 1985	July 11-14, 1986	Apr. 10-13, 1987	Sept. 9-11, 1988	May 4-7, 1989	Nov. 9-12, 1989	Apr. 5-8, 1990	July 19-22, 1990	Mar. 7-10, 1991	Mar. 26-29, 1992	Jan. 8-11, 1993	Jan. 15-17, 1994

Table 2.2

## Attitudes toward issues and problems facing the country

United States, 1994

Issue	What do you think are the two most important issues for the government to address?	What do you think are the two most serious problems facing the country?
Health care	45 %	21 %
Crime/violence	36	56
The economy <sup>a</sup>	12	15
Employment/jobs	14	10
Federal deficit/budget	8	5
Programs for the poor	8	7
Domestic/social issues	4	8
Taxes	6	2
Education	6	4
Drugs	6	20
Gun control	3	4
Foreign policy <sup>a</sup>	4	1
Morality/sex on television	2	4
Programs for the elderly	2	1
Welfare	7	3
Peace/world peace/nuclear arms	1	1
Abortion	3	1
Environment	1	1
Defense	2	(c)
NAFTA <sup>b</sup>	1	(c)
Human/civil/women's rights	1	2
Somalia	(c)	(c)
Bosnia/Serbia/Yugoslavia	(c)	(c)
Farmer/farm issues	(c)	(c)
Other	8	14
Not sure	5	3

Note: To determine how the results would differ if two similar, but differently worded questions were asked, the original sample of 1,252 adults was split into national cross-sections and each subsample was asked a different question (Source, pp. 2, 6). For a discussion of public opinion survey sampling procedures, see Appendix 5.

<sup>a</sup>Non-specific.

<sup>b</sup>North American Free Trade Agreement.

<sup>c</sup>Less than 0.5 percent.

Table 2.3

## Attitudes toward the most important issue facing minority communities today

By race/ethnicity, United States, 1993<sup>a</sup>

Question: "Which of the following issues facing your community today do you feel is the most important?"

Issue	Hispanic	African-American	Asian
Education	36 %	45 %	29 %
AIDS	15	12	9
Drugs	15	17	9
Child abuse	11	2	1
Gang violence	7	3	8
Crime	5	7	19
Health care	4	3	8
Care for the elderly	2	2	3
Environment	0	1	2
Alcoholism	0	1	1
Don't know	5	6	11

Note: These data were collected and analyzed by Market Segment Research, Inc. as part of the 1993 Minority Market Report. A total of 3,500 interviews of respondents 18 years of age and older were conducted between November 1992 and January 1993. The sample included 2,000 Hispanics, 1,000 African-Americans, and 500 Asians. For a discussion of public opinion survey sampling procedures, see Appendix 5.

<sup>a</sup>Percents may not add to 100 because of rounding.

## Attitudes toward causes of violent crime

By demographic characteristics, United States, 1993

Question: "Of course, the problems we face in our society often have many different causes. I am going to ask you about some different problems in society and for each one I want you to tell me what you think are the major causes of each problem. First, violent crime. Which three or four things do you think are the main causes of people committing violent crimes?"

	Living in poverty	Parents not teaching right/wrong	Being abused as a child	Drug abuse	What people see in T.V. programs	Lack of morals	Lack of education	Person not seeing any harm in it	Person being irresponsible	Influence of friends	Alcohol abuse	What people see in movies	Guns being easy to get	Low chance of being punished

**Respondents agreeing too little is spent on selected problems in the country**

---

United States, selected years 1973-93

Question: "We are faced with many problems in this country, none of which can be solved easily or inexpensively. I'm going to name some of the problems, and for each one I'd like you to tell me whether you think we're spending too much money on it, too little money, or about the right amount. First (problem) are we spending too much, too little, or about the right amount on (problem)?"

(Percent agreeing too little)

Table 2.42

**Attitudes toward likelihood of certain groups to commit crime**

United States, 1993<sup>a</sup>

Question: "Now, I'm going to read a list of various types of people in America today. Please tell me for each whether you think people in that particular type of group are *more likely* to commit crimes than others in our society, *less likely* or about the *same*: immigrants, whites, homeless people, the police, blacks, Asian-Americans, Hispanics, male teenagers in general, male teenagers in your neighborhood."

	More likely	Less likely	Same	No opinion
Male teenagers in general	58 %	6 %	34 %	2 %
Homeless people	40	20	36	4
Blacks	37	5	56	2
Hispanics	30	7	59	4
Immigrants	29	14	53	4
Male teenagers in your neighborhood	25	34	38	3
Asian-Americans	15	21	60	4
The police	11	45	42	2
Whites	6	21	71	2

Note: For a discussion of public opinion survey sampling procedures, see Appendix 5.

<sup>a</sup>Percents may not add to 100 because of rounding.

Table 2.43

**Attitudes toward measures to reduce crime**

By race, ethnicity, community size, and whether respondent is a crime victim, United States, 1994<sup>a</sup>

Question: "To lower the crime rate in the United States some people think additional money and effort should go to attacking the social and economic problems that lead to crime, through better education and job training. Others feel more money and effort should go to deterring crime by improving law enforcement with more prisons, police, and judges. Which comes closer to your view?"

	Spend money on social and economic problems	Spend money on police, prisons, and judges	Don't know
<b>National</b>	52 %	38 %	10 %
<b>Race, ethnicity</b>			
White	50	39	11
Black	56	35	9
Hispanic	56	36	8
<b>Community size</b>			
City	53	39	8
Suburb	56	33	11
Small town	49	39	12
Rural area	49	42	9
<b>Victim of crime</b>	46	43	11

Note: These data are from a nationwide telephone survey of 1,516 adults age 18 or older conducted by the Los Angeles Times Poll Jan. 15-19, 1994. Telephone numbers were generated from a computer list that includes all telephone exchanges in the Nation. Random-digit dialing techniques were used to ensure that both listed and unlisted residences had an opportunity to be contacted. Results are adjusted to conform with census figures on characteristics such as sex, age, race, education, and household size.

<sup>a</sup>Percents may not add to 100 because of rounding.

Table 2.44

## Attitudes toward proposed anti-crime measures

By race, United States, 1993<sup>a</sup>

Question: "For each of the following, please tell me whether you favor or oppose it as a way of dealing with crime in the United States. First, do you strongly favor, favor, oppose, or strongly oppose; making it more difficult for those convicted of violent crimes like murder and rape to be paroled; making it more difficult for those accused of violent crimes like murder and rape to get out on bail while awaiting trial; enacting tougher gun control laws; prohibiting plea bargaining--where in exchange for pleading guilty the defendant is charged with a lesser crime; making sentences more severe for all crimes; extending the death penalty for some serious crimes other than murder; limiting appeals to death sentences; putting more police on the streets, even if it requires higher taxes?"

	Strongly favor	Favor	Oppose	Strongly oppose	No opinion
Make parole more difficult	66 %	16 %	8 %	9 %	1 %
White	68	16	7	8	1
Black	53	21	8	16	2
Restrict bail	59	16	11	13	1
White	61	17	10	11	1
Black	46	12	14	25	3
Impose more severe sentences	48	31	14	4	3
White	48	30	15	4	3
Black	42	34	13	7	4
Put more police on the street	43	37	15	4	1
White	43	37	14	4	2
Black	41	35	15	9	0
Enact tougher gun laws	40	24	20	13	3
White	38	25	21	13	3
Black	47	20	16	12	5
Limit appeals in death penalty cases	37	23	21	14	5
White	38	24	21	13	4
Black	23	20	19	29	9
Extend death penalty for more crimes	24	27	30	15	4
White	25	28	30	14	3
Black	22	17	26	28	7
Ban plea bargaining	24	19	31	22	4
White	25	19	31	21	4
Black	19	12	30	31	8

Note: For a discussion of public opinion survey sampling procedures, see Appendix 5.

<sup>a</sup>Percents may not add to 100 because of rounding.

Table 2.45

## Respondents favoring various crime-control measures

By race and Hispanic origin, 1993

Question: "I will read you some proposals for fighting crime. Please say for each if you favor or oppose it. Do you favor or oppose. . .?"

(Percent responding "favor")	Total	White	Black	Hispanic
Imposing a five-day waiting period between purchase and delivery of a gun	83 %	84 %	82 %	73 %
Banning the importation and sales of foreign made assault rifles	68	69	72	64
Banning the sale of assault rifles	67	67	69	61
Expanding the number of crimes to which the death penalty would apply	67	68	53	74
Spending 3.4 billion dollars to pay for 50,000 new police officers	65	65	67	66

Note: For a discussion of public opinion survey sampling procedures, see Appendix 5.

Table 2.66

## Attitudes toward proposed gun control measures

By demographic characteristics, United States, 1993

Question: "Please tell me whether you would generally favor or oppose each of the following proposals which some people have made to reduce the amount of gun violence: (a) the Brady bill, which requires a five-day waiting period on the purchase of all guns in order to determine whether the prospective buyer has been convicted of a felony; (b) a ban on the manufacture, sale and possession of semi-automatic assault guns, such as the AK-47; (c) prohibiting people with criminal histories from being able to purchase or own guns; (d) requiring people to take safety classes in order to qualify to own a gun; (e) a limit on gun purchases to one per month; (f) a ban on the manufacture and sale of cheap handguns; (g) a very high federal sales tax which would increase the price of bullets for most handguns by 50%; (h) prohibiting people under the age of 18 from being able to purchase a gun."

	Require safety classes		Prohibit purchase by those under 18		Prohibit criminals from purchasing		Brady bill		Ban assault guns		Ban cheap handguns		Limit purchase to one per month		High tax on bullets

Note: These data are from the 1992 National Household Survey on Drug Abuse sponsored by the U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration. Households were randomly sampled from all households in the United States and interviews conducted throughout the calendar year. The sample for 1992 consisted of 28,832 persons. The 1992 survey is the twelfth in a series of surveys measuring the prevalence of drug use among the American household population age 12 and older. Answer alternatives for the question were "probably impossible," "very difficult," "fairly difficult," "fairly easy," and "very easy." For survey methodology, see Appendix 6.

<sup>a</sup>Population density is based on 1984 Metropolitan Statistical Area classifications and their 1990 U.S. Bureau of the Census population counts.

9th and 10th grade	51	42	48	34	32	24
11th and 12th grade	53	40	51	31	32	21

Note: These data are from a study conducted by Louis Harris and Associates for The Pew Charitable Trusts in cooperation with Earth Force. The survey was conducted from Apr. 12 to May 24, 1993 among a nationwide cross-section of 10,375 school children in grades 4 through 12 selected from 549 schools. The children completed the interviews in the classroom. The completed interviews were weighted to the average number of children per class, by grade, gender, race/ethnicity, and region to reflect their actual proportions in the population.

12th grade	13.1	6.6	10.6	15.8	53.9

Note: These data are from a survey of 6th through 12th grade students conducted between September 1992 and June 1993 by PRIDE, Inc. Participating schools are sent the PRIDE questionnaire with explicit instructions for administering the self-report survey. Students are informed that their responses are confidential.

Schools that administer the PRIDE questionnaire do so voluntarily, or in compliance with a school district or State request. For the 1992-93 academic year there were 790,628 adolescent student respondents from 40 States. The 1992-93 survey included States that conducted statewide surveys and States where relatively large numbers of school systems used the PRIDE questionnaire. To prevent any one State from having a disproportionate influence on the summary results, random samples of 20,000 students were drawn from those States where disproportionately large numbers of students were surveyed. The 1992-93 survey results are based upon 236,745 sampled respondents. After sampling, 50.4 percent of the respondents were from Florida, Georgia, Kentucky, Louisiana, Tennessee, and Virginia. The following States did not participate in the PRIDE survey: Arizona, Hawaii, Maryland, Minnesota, Nevada, Oregon, Rhode Island, South Carolina, Utah, West Virginia, and the District of Columbia.

<sup>a</sup>Percents may not add to 100 because of rounding.

<sup>b</sup>Includes crack.

<sup>c</sup>Includes LSD and PCP.

Note: These data are from a series of nationwide surveys of high school seniors conducted by the Monitoring the Future Project at the Survey Research Center of the Institute for Social Research from 1975 through 1993. The survey design is a multistage random sample of high school seniors in public and private schools throughout the continental United States. All percentages reported are based on weighted cases; the N's that are shown in the tables refer to the number of weighted cases.

Response categories were "never," "seldom," "sometimes," and "often." Readers interested in responses to this question for 1975 through 1980 should consult previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see Appendix 7.

Note: See Note, table 2.83. Data are given for those who identify themselves as White or Caucasian and those who identify themselves as Black or African-American because these are the two largest racial/ethnic subgroups in the population. Data are not given for the other ethnic categories because these groups comprise less than 3 percent of the sample in any given year (Source, 1982, p. 9). "College plans" distinguishes those seniors who expect to graduate from a 4-year college from those who expect to receive some college training or none. The four drug use categories are based on an index of seriousness of involvement. The "pills" category indicates use of any of a number of drugs including some that usually are not taken in pill form. Respondents indicating the use of one or more of a number of illicit drugs but who had not used any one class of them on three or more occasions and did not use heroin at all fall into the "few pills" category. Respondents indicating such use on three or more occasions and did not use heroin at all fall into the "more pills" category. Respondents reporting heroin use were included in a separate category that is not presented here due to the small number of respondents indicating such use. (Source, 1982, pp. 8, 9, 14.)

Response categories were "never," "seldom," "sometimes," and "often." Readers interested in responses to this question for 1975 through 1980 should consult previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see Appendix 7.

Take steroids	NA	NA	NA	NA	NA	NA	NA	NA	63.8	69.9	65.6	70.7	69.1

Note: These data are from a series of nationwide surveys of high school seniors conducted by the University of Michigan's Institute for Social Research for the National Institute on Drug Abuse from 1975 through 1993. The survey design is a multistage random sample of high school seniors in public and private schools. Depending on the survey year, from 66 to 80 percent of the schools initially invited to participate agreed to do so. Completed questionnaires were obtained from 77 to 84 percent of all sampled students in participating schools each year. All percentages reported are based on weighted cases; the N's that are shown in the tables also refer to the number of weighted cases. "Crack" is a highly potent and addictive form of cocaine. Alcohol and cigarette use are included in selected tables. Readers interested in responses to this question for 1975 through 1980 should consult previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see Appendix 7.

<sup>a</sup> Answer alternatives were: (1) no risk, (2) slight risk, (3) moderate risk, (4) great risk, and (5) can't say, drug unfamiliar.

Table 2.91

## High school seniors' perceptions of availability of drugs

By type of drug, United States, 1981-93

Question: "How difficult do you think it would be for you to get each of the following types of drugs, if you wanted some?"

(Percent saying drug would be "fairly easy" or "very easy" for them to get<sup>a</sup>)

Type of drug	Class of 1981 (N=3,578)	Class of 1982 (N=3,602)	Class of 1983 (N=3,385)	Class of 1984 (N=3,269)	Class of 1985 (N=3,274)	Class of 1986 (N=3,077)	Class of 1987 (N=3,271)	Class of 1988 (N=3,231)	Class of 1989 (N=2,806)	Class of 1990 (N=2,549)	Class of 1991 (N=2,476)	Class of 1992 (N=2,586)	Class of 1993 (N=2,670)
Marijuana	89.2 %	88.5 %	86.2 %	84.6 %	85.5 %	85.2 %	84.8 %	85.0 %	84.3 %	84.4 %	83.3 %	82.7 %	83.0 %

## College freshmen reporting that marijuana should be legalized

By sex, United States, 1968-93

(Percent indicating "agree strongly" or "agree somewhat")

Year	Marijuana should be legalized		
	Total	Male	Female
1968	19.4 %	21.4 %	16.9 %
1969	25.6	28.1	22.4
1970	38.4	41.0	35.2
1971	38.7	41.7	35.0
1972	46.6	49.6	43.0
1973	48.2	50.9	45.2
1974	46.7	49.7	43.4
1975	47.2	50.7	43.3
1976	48.9	51.6	46.1
1977	52.9	56.6	49.2
1978	49.5	52.1	47.1
1979	46.0	48.6	43.6
1980	39.3	42.1	36.6
1981	34.0	36.3	31.9
1982	29.4	32.5	26.4
1983	25.7	28.4	23.1
1984	22.9	25.8	20.3
1985	21.8	24.8	18.9
1986	21.3	25.0	18.0
1987	19.3	23.1	15.9
1988	18.3	22.8	16.4
1989	16.7	20.1	13.7
1990	18.6	21.7	16.0
1991	20.9	24.2	18.0
1992	23.0	26.6	19.9
1993	28.2	32.1	25.0

Note: The Cooperative Institutional Research Program Freshman Survey is conducted annually by the Higher Education Research Institute (HERI) at the University of California, Los Angeles. Each fall, the HERI surveys approximately 200,000 full-time students entering the freshman classes from a nationally representative sample of 2-year and 4-year colleges and universities in the United States. From 1966 to 1970, approximately 15 percent of the Nation's institutions of higher education were selected by sampling procedures to participate in the program. Beginning in 1971, a stratified sample was selected from all institutions that have entering freshman classes and that respond to the U.S. Department of Education's Higher Education General Information Survey. An institution is considered eligible if it was operating at the time of the survey and if it had a freshman class of at least 25 students. The data presented above are weighted estimates of all first-time, full-time students entering higher education institutions in the fall of each year. Response categories were "agree strongly," "agree somewhat," "disagree somewhat," and "disagree strongly." The text or format of the questions or responses may differ slightly in different years.

## Attitudes toward pornographic material leading to rape

By demographic characteristics, United States, selected years 1973-93

Question: "The next questions are about pornography--books, movies, magazines, and photographs that show or describe sex activities. I'm going to read some opinions about the effects of looking at or reading such sexual materials. As I read each one, please tell me if you think sexual materials do or do not have that effect: Sexual materials lead people to commit rape."

## Section 3

### Nature and distribution of known offenses

The data presented in this section describe the nature and extent of criminal activity. There are essentially three ways in which the level of crime is measured—through officially recorded data, victimization surveys, and through self-reports of criminal involvement. Because it is well known that many crimes are not reported to the police, surveys of the population and selected subgroups have been used to provide an additional perspective on the extent of criminal activity. Two methods have been most commonly used: (1) surveys of households and business to determine the rate of victimizations and characteristics of victims of criminal acts and (2) surveys of the general population to determine the proportion and characteristics of persons who have committed criminal offenses. The former are known as victimization surveys, while the latter involve self-reported criminal activity.

This section begins with information presented from the National Crime Victimization Survey (NCVS), which is conducted for the Bureau of Justice Statistics by the U.S. Bureau of the Census. The NCVS is a national probability survey of households in the United States. Detailed information is provided on the extent and nature of completed and attempted crimes, frequency of occurrence, characteristics of victims and offenders, victim-offender relationships, the circumstances surrounding criminal incidents and their impact, associated economic costs, and reasons for reporting and not reporting crimes to the police. Data pertaining to trends in victimization across several major offenses as well as trends in reporting victimization experiences to the police are presented.

Also featured in this edition are tables focusing on violent victimization of women and data from the Gallup Organization, Inc., reporting child abuse experiences while growing up. Also included are data from the Youth Risk Behavior Survey reporting adolescents' involvement in numerous risk behaviors.

The next segment includes information from the Monitoring the Future Project. This project conducts a series of nationwide surveys of high school seniors. Information on victimization experiences and involvement in delinquent activities is gathered annually. This segment also contains information derived from surveys on drug use and related attitudes of high school seniors, college students, and young adults in the United States. Data are presented on most recent use of alcohol, drugs, and cigarettes. Drugs examined include marijuana, cocaine, crack,

heroin, inhalants, sedatives, stimulants, tranquilizers, hallucinogens, and steroids. This segment also incorporates self-report data collected by PRIDE, Inc. on alcohol and drug use by students, grades 6 through 12.

Also included in this section are data derived from the 1992 and 1993 National Household Survey on Drug Abuse. Information is presented on drug use among the Nation's population age 12 and older. Prevalence and recency of use figures are presented for various types of drugs as well as reported problems associated with alcohol, drug, and cigarette use. Also included are data from the Drug Abuse Warning Network (DAWN) focusing on drug abuse-related emergency room episodes. In addition, data derived from the Gallup Poll on alcohol use and related problems are included. Finally, information is presented on alcohol-related motor vehicle accidents.

The final part of the section presents data on officially recorded crime. The Federal Bureau of Investigation collects information on crimes known to the police through the Uniform Crime Reporting (UCR) Program. Nationwide data on crimes are collected and tabulated by city, county, Metropolitan Statistical Area, population group, and geographic division. Offense characteristics and situational factors of violent crime, property crime, and the eight index offenses are presented. Included among the situational factors are type of target, type of weapon used, victim-offender relationship, circumstances of the offense, demographic characteristics of the victim (i.e., sex, race, age), offender characteristics, and place and time of occurrence. A ranking of States according to violent crime rates is provided. Also, data are presented for the 50 States and large U.S. cities on the involvement of firearms and other weapons in violent crime. Featured this year are data on bias motivated (hate) crimes from the Federal Bureau of Investigation. Information on juvenile murder offenders and victims is included in this section. These data are based upon the Federal Bureau of Investigation's Supplementary Homicide Reports (SHR). In addition, data from the National Center for Health Statistics report on homicides and suicides resulting from firearms and data from the Bureau of Labor Statistics present information on homicides occurring in the workplace.

Information on motor vehicle thefts and Federal bank robberies is provided in this section. Also included is information on the number of law enforcement officers who were assaulted and killed in the United States. Data are presented on the circumstances at the scene of the incident, type of assignment, selected characteristics of officers (e.g., race, age, length of service), persons identified in the killing of law en-

forcement officers, and the type of weapon used.

This section concludes with information presented on explosives incidents, loss due to incendiary or suspicious fires, information on the number and type of terrorist incidents and casualties resulting from terrorism, results of airline passenger screening, and Federal Crime Insurance policies.

Table 3.1

## Estimated number, percent distribution, and rate of personal and household victimizations

By sector and type of victimization, United States, 1992<sup>a</sup>

Sector and type of victimization	Number	Percent of crimes within sector	Percent of all crimes	Rate per 1,000 persons age 12 and older	Sector and type of victimization	Number	Percent of crimes within sector	Percent of all crimes	Rate per 1,000 households
All crimes	33,649,340	X	100 %	NA	Household sector	14,817,360	100 %	44.0 %	152.2
Personal sector	18,831,980	100 %	56.0	91.2	Completed	12,586,350	84.9	37.4	129.3
Crimes of violence	6,621,140	35.2	19.7	32.1	Attempted	2,231,010	15.1	6.6	22.9
Completed	2,409,520	12.8	7.2	11.7	Burglary	4,757,420	32.1	14.1	48.9
Attempted	4,211,610	22.4	12.5	20.4	Completed	3,785,070	25.5	11.2	38.9
Rape	140,930	0.7	0.4	0.7	Forcible entry	1,602,130	10.8	4.8	16.5
Completed	40,730	0.2	0.1	0.2	Unlawful entry without force	2,182,930	14.7	6.5	22.4
Attempted	100,200	0.5	0.3	0.5	Attempted forcible entry	972,340	6.6	2.9	10.0
Robbery	1,225,510	6.5	3.6	5.9	Household larceny	8,101,150	54.7	24.1	83.2
Completed	806,460	4.3	2.4	3.9	Completed	7,581,760	51.2	22.5	77.9
With injury	334,040	1.8	1.0	1.6	Less than \$50	2,800,570	18.9	8.3	28.8
From serious assault	173,480	0.9	0.5	0.8	\$50 or more	4,200,090	28.3	12.5	43.2
From minor assault	160,550	0.9	0.5	0.8	Amount not available	581,090	3.9	1.7	6.0
Without injury	472,420	2.5	1.4	2.3	Attempted	519,380	3.5	1.5	5.3
Attempted	419,040	2.2	1.2	2.0	Motor vehicle theft	1,958,780	13.2	5.8	20.1
With injury	103,320	0.5	0.3	0.5	Completed	1,219,510	8.2	3.6	12.5
From serious assault	55,750	0.3	0.2	0.3	Attempted	739,270	5.0	2.2	7.6
From minor assault	47,560	0.3	0.1	0.2	Total number of households	97,324,770	X	X	X
Without injury	315,720	1.7	0.9	1.5					
Assault	5,254,690	27.9	15.6	25.5

Less than \$50	4,390,870	23.3	13.0	21.3					
\$50 or more	5,942,460	31.6	17.7	28.8					
Amount not available	672,930	3.6	2.0	3.3					
Attempted	719,740	3.8	2.1	3.5					
Total population age 12 and older	206,414,480	X	X	X					

Note: The National Crime Victimization Survey (NCVS) is conducted for the Bureau of Justice Statistics by the U.S. Bureau of the Census. These estimates are based on data derived from a continuous survey of a representative sample of housing units in the United States. Approximately 61,000 housing units, inhabited by 110,000 individuals age 12 and older, participated in the survey. For 1992, 96 percent of all eligible housing units took part in the NCVS. For survey methodology and definitions of terms, see Appendix 8.

Note: See Note, table 3.1. Slight changes in the classification of the personal crimes of robbery and assault occurring in commercial establishments were made beginning in 1985. Data for 1984 have been adjusted to account for this change and will differ slightly from previous years' presentations. Data for 1987 and 1991 have been revised by the Source, and therefore will differ from previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see Appendix 8.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>The victimization rate for female rape (the number of rapes per 1,000 women age 12 and older) was 1.4 in 1983, 1.6 in 1984, 1.3 in 1985, 1.2 in 1986, 1.3 in 1987, 1.2 in 1988, 1.2 in 1989, 1.0 in 1990, 1.4 in 1991, and 0.8 in 1992.

Note: See Notes, tables 3.1 and 3.2. The rates on which these percent change data were calculated are presented in table 3.2. All changes have been computed using rates that were rounded to the nearest hundredth. The resulting percent changes have been rounded to one decimal point. For survey methodology and definitions of terms, see Appendix 8.

<sup>a</sup>The difference is not statistically significant at the 90 percent confidence level.

<sup>b</sup>Less than 0.5 percent.

Note: See Note, table 3.1. An incident is a specific criminal act involving one or more victims. The number of incidents of personal crime is lower than the number of victimizations because some crimes are simultaneously committed against more than one individual. For survey methodology and definitions of terms, see Appendix 8.

<sup>b</sup> Estimate is based on about 10 or fewer sample cases.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Criminal Victimization in the United States, 1992*, NCJ-145125 (Washington, DC: U.S. Department of Justice, 1994), p. 73.

<sup>a</sup> Subcategories may not sum to total because of rounding.

0.0 <sup>c</sup>	3.5 <sup>c</sup>	8.6						

Note: These data are based on victimizations reported to the National Crime Victimization Survey (NCVS) for the years 1973 to 1992. The NCVS is conducted by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. Data for the NCVS are obtained from persons age 12 and older residing in a nationally representative sample of housing units. These data are estimates derived from a sample and therefore subject to sampling variation. The numbers for crimes of violence and personal theft are for persons age 12 and older. For survey methodology and definitions of terms used in the National Crime Victimization Survey, see Appendix 8.

<sup>a</sup>Detail may not add to total because of rounding.

<b>Location of residence</b>				
Central city	55.9	90.2	34.4	79.1
Suburban	36.1	71.1	20.6	65.1
Rural	29.1	47.9	20.1	41.1

Note: These data are based on victimizations reported to the National Crime Victimization Survey (NCVS) from 1987-91. The NCVS is conducted by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. Data for the NCVS are drawn from a continuous, nationally representative sample of households in the United States. Household members age 12 and older are interviewed. The victimization rates reported are average annual rates for 1987-91. The numerator of a given rate is the sum of the crimes that occurred each year from 1987 through 1991 for each demographic group. The denominator is the sum of the annual population totals for these same years and demographic groups. For survey methodology and definitions of terms, see Appendix 8.

<sup>a</sup>Includes groups such as Asians and Native Americans.

1992	140,930	0.7	83,080	0.8	69,950	0.8	13,130	1.0 <sup>a</sup>

Note: See Note, table 3.9. A revised survey questionnaire is being phased in, and in 1992 approximately one-half of the sample was surveyed using the revised questionnaire. Figures for 1992 are based only on the portion of the sample that received the original questionnaire. Estimates of rape victimization are particularly subject to fluctuation because of the relatively small number of rapes reported. The potential for fluctuation increases as the sample size decreases. For survey methodology and definitions of terms used in the National Crime Victimization Survey, see Appendix 8.

<sup>a</sup>Estimate is based on about 10 or fewer sample cases.

Table 3.34

**Estimated percent of personal victimizations in which victim took self-protective measures**

By type of victimization and victim-offender relationship, United States, 1992

Type of victimization	Percent using self-protective measures		
	All victimizations	Involving strangers	Involving nonstrangers
Crimes of violence	71.7 %	69.9 %	74.3 %
Completed	68.6	61.6	78.8
Attempted	73.4	74.5	71.6
Rape	80.1	84.3	76.2
Robbery	59.4	54.9	78.8
Completed	47.5	43.4	68.0
With injury	63.5	58.6	87.8 <sup>a</sup>
From serious assault	67.9	63.4	100.0 <sup>a</sup>
From minor assault	58.7	52.7	80.5 <sup>a</sup>
Without injury	36.2	32.7	53.8
Attempted	82.5	79.1	93.0
With injury	86.1	86.2	85.7 <sup>a</sup>
From serious assault	85.0	88.7 <sup>a</sup>	71.5 <sup>a</sup>
From minor assault	87.4	83.2 <sup>a</sup>	100.0 <sup>a</sup>
Without injury	81.3	76.8	95.3
Assault	74.3	74.6	73.8
Aggravated	71.9	71.3	73.0
Completed with injury	74.6	74.4	75.0
Attempted with weapon	70.3	70.0	71.3
Simple	75.6	77.1	74.1
Completed with injury	82.1	80.8	82.8
Attempted without weapon	73.2	76.1	69.9

Note: See Note, table 3.1. This table reflects the proportion of victims who responded affirmatively when asked whether they used any self-protective measures. For survey methodology and definitions of terms, see Appendix 8.

<sup>a</sup>Estimate is based on about 10 or fewer sample cases.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Criminal Victimization in the United States, 1992*, NCJ-145125 (Washington, DC: U.S. Department of Justice, 1994), p. 84, Table 73.

Table 3.35

**Estimated percent distribution of self-protective measures employed by victims of violent crime**

By type of victimization and type of measure, United States, 1992<sup>a</sup>

Type of self-protective measure	Crimes of violence				Robbery			Assault

Table 3.38

## Number and percent of households experiencing crime during the last 12 months

By type of victimization, United States, 1975-92

	Households, total (in thousands)	Households experiencing crime (in thousands)	Percent of households experiencing crime <sup>a</sup>							
			Any NCVS crime	Rape	Robbery	Assault	Personal theft	Burglary	Household theft	Motor vehicle theft
1975	73,123	23,377	32.1 %	0.2 %	1.4 %	4.5 %	16.4 %	7.7 %	10.2 %	1.8 %
1976	74,528	23,540	31.5	0.2	1.2	4.4	16.2	7.4	10.3	1.6
1977	75,904	23,741	31.3	0.2	1.2	4.7	16.3	7.2	10.2	1.5
1978	77,578	24,277	31.3	0.2	1.1	4.6	16.2	7.2	9.9	1.7
1979	78,964	24,730	31.3	0.2	1.2	4.8	15.4	7.1	10.8	1.6
1980	80,622	24,222	30.0	0.2	1.2	4.4	14.2	7.0	10.4	1.6
1981	82,797	24,863	30.0	0.2	1.3	4.7	13.9	7.4	10.2	1.6
1982	85,178	24,989	29.3	0.2	1.4	4.5	13.9	6.9	9.6	1.6
1983	86,146	23,621	27.4	0.1	1.1	4.2	13.0	6.1	8.9	1.4
1984	87,791	22,806	26.0	0.2	1.0	4.1	12.3	5.5	8.5	1.4
1985	88,852	22,191	25.0	0.1	0.9	4.0	11.5	5.3	8.1	1.4
1986	90,014	22,201	24.7	0.1	0.9	3.8	11.2	5.3	8.0	1.4
1987	91,391	22,404	24.5	0.1	1.0	3.8	11.1	5.2	8.0	1.5
1988	92,892	22,844	24.6	0.2	0.9	4.0	11.2	5.4	7.7	1.5
1989 <sup>b</sup>	94,553	23,221	24.6	0.1	1.0	3.9	11.2	5.0	8.0	1.6
1990	95,461	22,652	23.7	0.1	1.0	3.8	10.5	4.8	7.5	1.9
1991	96,561	22,855	23.7	0.2	1.0	4.0	10.4	4.7	7.7	1.8
1992	97,613	22,093	22.6	0.2	1.0	4.1	9.7	4.2	7.2	2.0

Note: See Note, table 3.1. The data presented for the years 1975-80 are weighted estimates based on 1970 population figures from the U.S. Bureau of the Census. Data for 1981 are weighted estimates based on a composite figure developed from 1970 and 1980 population figures. Data for the years 1982-91 are weighted estimates based on 1980 population figures. Data for 1992 are weighted estimates based on 1990 population figures. "Households experiencing crime" includes households experiencing burglary or theft (including motor vehicle theft), or those in which a household member was a victim of personal crimes of violence or theft. For survey methodology and definitions of terms, see Appendix 8.

<sup>a</sup>Detail does not add to total because of overlap in households experiencing different crimes.

<sup>b</sup>Data have been revised by the Source and therefore will differ from previous editions of SOURCEBOOK.

Table 3.39

## Percent of households experiencing crime during the last 12 months

By type of victimization, race and ethnicity of head of household, family income, and place of residence, United States, 1992<sup>a</sup>

	Race of head of household			Ethnicity of head of household		Annual family income					Place of residence <sup>b</sup>		
	White	Black	Other	Non-Hispanic	Hispanic	Under \$7,500	\$7,500 to \$14,999	\$15,000 to \$24,999	\$25,000 to \$49,999	\$50,000 and over	Urban	Suburban	Rural
Any crime	21.9 %	27.2 %	25.2 %	22.0 %	30.7 %	23.6 %	21.0 %	21.6 %	23.6 %	25.2 %	28.1 %	21.4 %	16.9 %
Violent crime	4.8	7.1	4.0	4.8	7.6	7.0	5.3	5.1	4.8	4.3	6.4	4.6	3.8
Rape	0.2	0.1	0.0	0.1	0.2	0.2	0.1	0.2	0.1	0.1	0.2	0.1	0.1
Robbery	0.9	2.2	1.2	0.9	2.4	1.4	1.1	1.0	1.0	0.8	1.8	0.7	0.4
Assault	4.0	5.1	3.1	4.0	5.4	5.7	4.2	4.2	3.9	3.5	4.7	3.9	3.5
Aggravated	1.3	2.6	0.8	1.4	2.3	2.5	1.7	1.5	1.2	1.0	1.9	1.2	1.3
Simple	2.9	2.9	2.4	2.8	3.5	3.7	2.8	3.1	2.9	2.7	3.1	2.9	2.5
Total theft	15.5	17.1	17.8	15.3	21.1	14.8	13.5	14.9	17.3	18.5	19.5	15.0	11.4
Personal	9.6	9.8	12.7	9.5	11.4	8.6	7.3	8.5	10.8	13.1	11.4	9.8	6.9
Household	7.1	8.6	6.1	6.9	11.6	7.6	7.3	7.6	7.8	6.6	9.7	6.3	5.2
Burglary	4.0	5.8	4.3	4.1	5.8	6.1	5.5	3.9	3.4	3.8	5.0	3.8	3.7
Motor vehicle theft	1.8	3.3	3.0	1.8	4.4	1.5	1.9	1.9	2.0	2.2	3.2	1.8	0.6
Serious violent crime <sup>c</sup>	2.3	4.7	2.0	2.4	4.5	3.9	2.9	2.6	2.2	1.9	3.7	2.0	1.8
Crimes of high concern <sup>d</sup>	6.4	9.7	6.3	6.6	10.0	9.3	7.8	6.5	6.0	6.4	8.8	6.1	5.3

Note: See Notes, tables 3.1 and 3.38. The figures for each racial and ethnic subgroup are computed as a percent of the total number of households comprising that subgroup. "Other" refers to those households headed by an individual whose racial identification is other than white or black. For survey methodology and definitions of terms, see Appendix 8.

<sup>a</sup>Detail does not add to total because of overlap in households experiencing different crimes.

<sup>b</sup>Estimates of households in urban, suburban, and rural areas for 1986-92 are not comparable to those of previous years. Geographic codes for 1986 through 1992

estimates are based upon 1980 U.S. Bureau of the Census definitions and estimates for earlier years are based upon 1970 U.S. Bureau of the Census definitions.

<sup>c</sup>Rape, robbery, or aggravated assault.

<sup>d</sup>Rape, robbery, assault by stranger, or burglary.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Crime and the Nation's Households, 1992*, Bulletin NCJ-143288 (Washington, DC: U.S. Department of Justice, August 1993), p. 3, Table 3; p. 4, Table adapted by SOURCEBOOK staff.

Table 3.40

## Estimated rate (per 1,000 households) of household victimization

By type of victimization and age of head of household, United States, 1992<sup>a</sup>

Type of victimization	Age of head of household (in years)				
	12 to 19 (N=790,720)	20 to 34 (N=25,468,330)	35 to 49 (N=30,747,950)	50 to 64 (N=19,364,170)	65 years and older (N=20,953,570)

Table 3.46

Estimated number and rate (per 1,000 households and per 1,000 vehicles owned) of motor vehicle theft

By race and age of head of household, and form of tenure, United States, 1992<sup>c</sup>

	Household			Vehicles owned		
	Number	Number of thefts	Rate per 1,000	Number	Number of thefts	Rate per 1,000
<b>Race of head of household</b>						
All races	97,324,770	1,958,780	20.1	171,826,250	2,009,290	11.7
White	83,264,500	1,444,300	17.3	153,910,360	1,481,910	9.6
Black	11,370,350	421,570	37.1	13,597,410	430,420	31.7
Other	2,689,910	92,890	34.5	4,318,470	96,940	22.4
<b>Age of head of household</b>						
12 to 19 years	790,720	18,000 <sup>a</sup>	22.8 <sup>a</sup>	791,570	18,000 <sup>a</sup>	22.7 <sup>a</sup>
20 to 34 years	25,468,330	743,710	29.2	42,504,870	766,550	18.0
35 to 49 years	30,747,950	646,190	21.0	62,241,200	655,980	10.5
50 to 64 years	19,364,170	371,050	19.2	39,625,350	384,870	9.7
65 years and older	20,953,570	179,820	8.6	26,663,240	183,870	6.9
<b>Form of tenure</b>						
Owned or being bought	62,362,980	936,920	15.0	127,787,450	963,060	7.5
Rented	34,961,780	1,021,860	29.2	44,038,790	1,046,220	23.8

Note: See Notes, tables 3.1 and 3.13. The number of thefts based on vehicles owned is equal to or higher than the corresponding figure based on households because the former includes all completed or attempted vehicle thefts, regardless of the final classification of the event; personal crimes of contact and burglary occurring in conjunction with motor vehicle thefts take precedence in determining the final classification based on the number of households. For survey methodology and definitions of terms, see Appendix 8.

<sup>a</sup>Estimate is based on about 10 or fewer sample cases.

## Adolescents' (12 to 19 years old) reported involvement in health-risk behaviors

By school enrollment status, United States, 1992

Behavior	Total	School enrollment status	
		In-school <sup>a</sup>	Out-of-school <sup>b</sup>
Used safety belts <sup>c</sup>	32.5 %	33.2 %	23.2 %
Used motorcycle helmets <sup>d</sup>	43.6	43.7	45.6
Rode with a drinking driver <sup>e</sup>	19.6	18.9	28.4
Participated in a physical fight <sup>f</sup>	44.6	44.2	51.0
Carried a weapon <sup>g</sup>	15.7	15.5	22.9
Ever tried cigarette smoking	51.5	50.9	57.7
Current cigarette use <sup>h</sup>	21.7	20.4	33.7
Current smokeless tobacco use <sup>i</sup>	6.9	6.8	8.4
Ever drank alcohol	55.6	55.2	62.9
Current episodic heavy drinking <sup>j</sup>	17.5	17.1	21.8
Ever used marijuana	17.2	15.9	31.4
Ever used cocaine	2.6	2.1	7.1
Ever injected drugs <sup>k</sup>	1.0	0.8	3.9
Ever had sexual intercourse <sup>l</sup>	47.5	45.4	70.1
Sexual intercourse with four or more sex partners <sup>l</sup>	15.9	14.0	36.4
Condom used during most recent sexual intercourse <sup>m</sup>	58.3	59.8	50.2

Note: These data are from the Youth Risk Behavior Survey (YRBS), conducted as part of the 1992 National Health Interview Survey. The data were collected and analyzed by the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. For methodology and sampling procedures used for the YRBS, see Appendix 5.

<sup>a</sup> Adolescents who were going to school or were on vacation from school at the time of the interview.

<sup>b</sup> Adolescents who were not presently attending school and had not graduated from high school or attained General Educational Development credentials at the time of the interview.

<sup>c</sup> Safety belts used "always" when riding in a car or truck as a passenger.

<sup>d</sup> Helmets used "always" among respondents who rode motorcycles.

<sup>e</sup> Rode at least once during the 30 days preceding the survey in a car or other vehicle driven by someone who had been drinking alcohol.

<sup>f</sup> Fought at least once during the 12 months preceding the survey.

<sup>g</sup> Carried a gun, knife, or club at least 1 day during the 30 days preceding the survey.

<sup>h</sup> Smoked cigarettes on one or more of the 30 days preceding the survey.

<sup>i</sup> Used chewing tobacco or snuff on one or more of the 30 days preceding the survey.

<sup>j</sup> Drank five or more drinks of alcohol on at least one occasion during the 30 days preceding the survey.

<sup>k</sup> Respondents were classified as injecting-drug users only if they 1) reported injecting-drug use not prescribed by a physician and 2) answered one or more to any of these questions: "During your life, how many times have you used any form of cocaine including powder, crack, or freebase?"; "During your life, how many times have you used any other type of illegal drug such as LSD, PCP, ecstasy, mushrooms, speed, ice, heroin, or pills without a doctor's prescription?"; or "During your life, how many times have you taken steroid pills or shots without a doctor's prescription?"

<sup>l</sup> Respondents 14 to 19 years old.

<sup>m</sup> Among respondents 14 to 19 years old who had had sexual intercourse during the 3 months preceding the survey.

Note: These data are from a series of nationwide surveys of high school seniors conducted from 1975 through 1993 by the Monitoring the Future Project at the Survey Research Center of the Institute for Social Research. The survey design is a multistage random sample of high school seniors in public and private schools throughout the continental United States. All percentages reported are based on weighted cases; the N's that are shown in the tables also refer to the number of weighted cases. Readers interested in responses to this question for 1976 through 1980 should consult previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see Appendix 7.

Note: See Note, table 3.60. Data are given for those who identify themselves as White or Caucasian and those who identify themselves as Black or African-American because these are the two largest racial/ethnic subgroups in the population. Data are not given for the other ethnic categories because these groups comprise less than 3 percent of the sample in any given year (Source, 1982, p. 9). Readers interested in responses to this question for 1976 through 1980 should consult previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see Appendix 7.

Note: See Note, table 3.60. Readers interested in responses to this question for 1975 through 1980 should consult previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see Appendix 7.

<sup>a</sup>Less than 0.05 percent.

<sup>b</sup>Beginning in 1993, the question is worded: "Been arrested and taken to a police station?"

Table 3.69

High school seniors reporting receiving traffic ticket or warning for a moving violation  
in last 12 months

United States, 1981-93

Question: "Within the last 12 months how many times, if any, have you received a ticket (or been stopped and warned) for moving violations, such as speeding, running a stop light, or improper passing?"

Number of tickets/warnings	Class of 1981 (N=18,267)	Class of 1982 (N=18,348)	Class of 1983 (N=16,947)	Class of 1984 (N=16,499)	Class of 1985 (N=16,502)	Class of 1986 (N=15,713)	Class of 1987 (N=16,843)	Class of 1988 (N=16,795)	Class of 1989 (N=17,142)	Class of 1990 (N=15,676)	Class of 1991 (N=15,483)	Class of 1992 (N=16,251)	Class of 1993 (N=16,763)
None	73.3 %	75.1 %	72.8 %	73.5 %	72.3 %	69.6 %	68.1 %	68.8 %	68.1 %	67.7 %	68.4 %	69.1 %	71.3 %
One	16.6	15.6	17.3	16.7	17.3	18.9	19.0	18.9	19.5	19.4	19.2	18.6	17.8
Two	5.7	5.4	5.8	6.0	6.1	6.5	7.4	7.0	7.0	7.7	6.9	7.1	6.7
Three	2.5	2.3	2.3	2.0	2.7	2.9	3.2	3.1	3.0	2.9	3.1	2.9	2.3
Four or more	1.9	1.7	1.8	1.9	1.7	2.1	2.3	2.2	2.4	2.3	2.3	2.3	1.9

Note: See Note, table 3.60. Readers interested in responses to this question for 1976 through 1980 should consult previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see Appendix 7.

Table 3.70

High school seniors reporting receiving traffic ticket or warning for a moving violation  
in last 12 months

By sex, United States, 1981-93

Question: "Within the last 12 months how many times, if any, have you received a ticket (or been stopped and warned) for moving violations, such as speeding, running a stop light, or improper passing?"

Number of tickets/warnings	Class of 1981		Class of 1982		Class of 1983		Class of 1984		Class of 1985		Class of 1986	
	Male (N=8,725)	Female (N=8,865)	Male (N=8,828)	Female (N=8,788)	Male (N=8,074)	Female (N=8,227)	Male (N=7,800)	Female (N=8,029)	Male (N=7,776)	Female (N=8,164)	Male (N=7,261)	Female (N=7,855)
None	63.7 %	62.7 %	65.6 %	64.6 %	63.0 %	62.3 %	63.5 %	63.1 %	62.6 %	61.5 %	59.2 %	79.0 %
One	20.1	13.1	19.6	11.5	21.4	13.5	21.2	12.4	21.3	13.5	23.7	14.7
Two	8.6	3.0	8.0	2.7	8.7	3.0	8.8	3.2	9.1	3.2	9.2	4.0
Three	4.3	0.8	3.8	0.7	3.6	0.9	3.2	0.8	4.2	1.2	4.4	1.5

## High school seniors reporting involvement in driving accidents in last 12 months

United States, 1981-93

Question: "During the last 12 months, how many accidents have you had while you were driving (whether or not you were responsible)?"

Number of accidents	Class of 1981 (N=18,267)	Class of 1982 (N=18,348)	Class of 1983 (N=16,947)	Class of 1984 (N=16,499)	Class of 1985 (N=16,502)	Class of 1986 (N=15,713)	Class of 1987 (N=16,843)	Class of 1988 (N=16,795)	Class of 1989 (N=17,142)	Class of 1990 (N=15,676)	Class of 1991 (N=15,483)	Class of 1992 (N=16,251)	Class of 1993 (N=16,763)
None	76.6 %	77.8 %	77.8 %	77.3 %	75.6 %	74.9 %	74.4 %	73.9 %	74.0 %	73.9 %	75.7 %	76.9 %	76.1 %
One	18.3	17.0	17.3	17.6	18.5	18.8	19.5	19.9	19.6	19.4	18.3	17.5	18.2
Two	3.9	4.0	3.7	3.9	4.5	4.8	4.4	4.6	4.8	4.9	4.5	4.1	4.4
Three	0.8	0.9	0.9	0.9	0.9	1.1	1.3	1.2	1.2	1.2	1.1	1.0	0.9
Four or more	0.5	0.4	0.3	0.3	0.5	0.4	0.4	0.4	0.5	0.6	0.4	0.4	0.5

Note: See Note, table 3.60. Respondents were informed that "accident" refers to "a collision involving property damage or personal injury - not bumps or scratches in parking lots" (Source, 1982, p. 22). Readers interested in responses to this question for 1976 through 1980 should consult previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see Appendix 7.

None or under 4 years	9.8	90.2	54.9	24.8	10.5	10.8	89.2	53.6	25.2	10.4
Complete 4 years	13.1	86.9	50.0	25.9	11.0	13.4	86.6	49.6	25.7	11.3

Note: These data are from a series of nationwide surveys of high school seniors conducted by the University of Michigan's Institute for Social Research for the National Institute on Drug Abuse from 1975 through 1993. The survey design is a multistage random sample of high school seniors in public and private schools. Depending on the survey year, from 66 to 80 percent of the schools initially invited to participate agreed to do so. Completed questionnaires were obtained from 77 to 84 percent of all sampled students in participating schools each year. All percentages reported are based on weighted cases; the N's that are shown in the tables also refer to the approximate number (i.e., rounded to the nearest hundred) of weighted cases. The number of respondents for 1992

and 1993 was approximately 15,800 and 16,300 respectively, excluding cases with missing data. These data were derived from the questions indicated above. For 1993, alcohol data are based on three of six questionnaire forms; N is approximately one-half of N indicated. For survey methodology and definitions of terms, see Appendix 7.

Cigarettes	NA	NA	NA	NA	NA	NA	NA	NA	NA	NA	NA	NA	NA

Note: See Note, table 3.77. Data for the categories "inhalants" and "hallucinogens" are underestimated because some users of amyl and butyl nitrites, and PCP fail to report in these drug categories. Since 1979, the survey addresses this issue by asking specific questions about amyl and butyl nitrites (inhalants) and PCP (a hallucinogen) on one survey alternate form. The results of this survey are used to adjust for underreporting in these drug categories. Since 1982, new questions were introduced on the use of controlled and non-controlled stimulants in order to exclude over-the-counter amphetamines, which were believed to have been inflating the statistic during 1980 and 1981. "Crack" is a highly potent and addictive form of cocaine. "Other cocaine" refers to noncrack forms of this drug. Readers interested in responses to this question for 1975 through 1980 should consult previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see Appendix 7.

<sup>a</sup>Data based on four questionnaire forms in 1976-88; N is four-fifths of N indicated. Data based on five questionnaire forms in 1989-93; N is five-sixths of N indicated.

<sup>b</sup>Adjusted for underreporting of amyl and butyl nitrites.

<sup>c</sup>Data based on a single questionnaire form; N is one-fifth of N indicated in 1979-88 and one-sixth of N indicated in 1989-93.

<sup>d</sup>Question text changed slightly in 1987.

<sup>e</sup>Adjusted for underreporting of PCP.

<sup>f</sup>Data based on a single questionnaire form in 1986; N is one-fifth of N indicated. Data based on two questionnaire forms in 1987-89; N is two-fifths of N indicated in 1987-88 and two-sixths of N indicated in 1989. Data based on six questionnaire forms in 1990-93.

<sup>g</sup>Data based on a single questionnaire form in 1987-89; N is one-fifth of N indicated in 1987-88 and one-sixth of N indicated in 1989. Data based on four questionnaire forms in 1990-93; N is four-sixths of N indicated.

<sup>h</sup>Only drug use which was not under a doctor's orders is included here.

<sup>i</sup>Beginning in 1982 the question about stimulant use (i.e. amphetamines) was revised to get respondents to exclude the inappropriate reporting of non-prescription stimulants. The prevalence rate dropped slightly as a result of this methodological change.

<sup>j</sup>Data based on two questionnaire forms; N is two-sixths of N indicated. Steroid data based on a single questionnaire form in 1989-90.

<sup>k</sup>Data based on five questionnaire forms in 1975-88, six questionnaire forms in 1989, and one questionnaire form in 1990-93. N is one-sixth of N indicated in 1990-93.

<sup>l</sup>Data based on three of the six questionnaire forms in 1993. N is one-half of N indicated.

Note: See Note, table 3.77. These data are from a followup survey of respondents 1 to 4 years past high school who are presently enrolled in college. Included are those registered as full-time students in March of the year in question and who report that they are enrolled in a 2- or 4-year college. Those individuals previously in college and those who have already completed college are excluded. The number of respondents for each year is as follows: 1980, 1,040; 1981, 1,130; 1982, 1,150; 1983, 1,170; 1984, 1,110; 1985, 1,080; 1986, 1,190; 1987, 1,220; 1988, 1,310; 1989, 1,300; 1990, 1,400; 1991, 1,410; 1992, 1,490; 1993, 1,490.

Since 1982, new questions were introduced on the use of controlled and non-controlled stimulants in order to exclude over-the-counter amphetamines, which were believed to have been inflating the statistic during 1980 and 1981. "Stimulants adjusted" is based on the data obtained from these new questions. "Crack" is a highly potent and addictive form of cocaine. For survey methodology and definitions of terms, see Appendix 7.

<sup>a</sup>This drug was asked about in four of the five questionnaire forms in 1980-89, and in five of the six questionnaire forms in 1990-93. Total N in 1993 for college students is 1,260.

<sup>b</sup>This drug was asked about in two of the five questionnaire forms in 1987-89, and in all six forms in 1990-93.

<sup>c</sup>Less than 0.05 percent.

<sup>d</sup>Only drug use which was not under a doctor's orders is included here.

<sup>e</sup>This drug was asked about in two of the six questionnaire forms. Total N in 1993 for college students is 500.

Note: See Notes, tables 3.77 and 3.81. "Young adults" includes high school graduates 1 to 12 years beyond high school. These data present the prevalence for young adults combined. The number of respondents for each year is as follows: 1986, 6,900; 1987, 6,800; 1988, 6,700; 1989, 6,600; 1990, 6,700; 1991, 6,600; 1992, 6,800; 1993, 6,700. For survey methodology and definitions of terms, see Appendix 7.

<sup>a</sup>This drug was asked about in four of the five questionnaire forms in 1986-89, and five of the six questionnaire forms in 1990-93. Total N in 1993 is approximately 5,500.

<sup>b</sup>Adjusted for underreporting of amyl and butyl nitrites.

<sup>c</sup>This drug was asked about in one questionnaire form. Total N in 1993 is approximately 1,250.

<sup>d</sup>Less than 0.05 percent.

<sup>e</sup>Adjusted for underreporting of PCP.

<sup>f</sup>This drug was asked about in two of the five questionnaire forms in 1987-89, and in all six questionnaire forms in 1990-93.

<sup>g</sup>This drug was asked about in one of the five questionnaire forms in 1987-89, and in four of the six questionnaire forms in 1990-93. Total N in 1993 is approximately 4,200.

<sup>h</sup>Only drug use which was not under a doctor's orders is included here.

<sup>i</sup>This drug was asked about in two questionnaire forms. Total N in 1993 is approximately 2,500.

Note: These data are from a survey of 6th through 12th grade students conducted between September 1992 and June 1993 by PRIDE, Inc. Participating schools are sent the PRIDE questionnaire with explicit instructions for administering the self-report survey. Students are informed that their responses are confidential.

Schools that administer the PRIDE questionnaire do so voluntarily, or in compliance with a school district or State request. For the 1992-93 academic year there were 790,628 adolescent student respondents from 40 States. The 1992-93 survey included States that conducted statewide surveys and States where relatively large numbers of school systems used the PRIDE questionnaire. To prevent any one State from having a disproportionate influence on the summary results, random samples of 20,000 students were drawn from those States where disproportionately large numbers of students were surveyed. The 1992-93 survey results are based upon 236,745 sampled respondents. After sampling, 50.4 percent of the respondents were from Florida, Georgia, Kentucky, Louisiana, Tennessee, and Virginia. The following States did not participate in the PRIDE survey: Arizona, Hawaii, Maryland, Minnesota, Nevada, Oregon, Rhode Island, South Carolina, Utah, West Virginia, and the District of Columbia.

<sup>a</sup>Includes crack.

<sup>b</sup>Includes LSD and PCP.

Note: These data are from the 1992 National Household Survey on Drug Abuse sponsored by the U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration. Households were randomly sampled from all households in the United States and interviews conducted throughout the calendar year. In 1992, the sample consisted of 28,832 persons. The 1992 survey is the twelfth in a series of surveys measuring the prevalence of drug use among the American household population age 12 and older. For survey methodology, see Appendix 6.

Note: These data are from the National Household Survey on Drug Abuse sponsored by the U.S. Department of Health and Human Services. The 1993 survey is the 13th in a series of surveys measuring the prevalence of drug use in the United States. Households were randomly sampled from all households in the United States. Beginning in 1991 the survey differs from previous years in two ways: Alaska and Hawaii were included in the sample and some individuals living in group quarters (e.g., civilians living on military installations, individuals living in college dormitories, or individuals using homeless shelters) were included. The 1993 survey measures the prevalence of drug use among a sample of 26,489 individuals from the United States' civilian, noninstitutionalized population aged 12 and older. The age group breakdowns have been revised by the Source and will differ from previous editions of SOURCEBOOK. For survey methodology and definitions of terms, see Appendix 8.

<sup>a</sup>Estimates based on only a few respondents are omitted because a high degree of confidence cannot be placed in their statistical accuracy.

<sup>b</sup>Nonmedical use of any prescription-type stimulant, sedative, tranquilizer, or analgesic; does not include over-the-counter drugs.

<sup>c</sup>Estimates prior to 1982 for psychotherapeutics may not be comparable to those for later years due to a change in the methodology.

<sup>d</sup>Estimates prior to 1979 for alcohol may not be comparable to those for later years due to a change in methodology.

Note: These data were gathered through the Drug Abuse Warning Network (DAWN) sponsored by the Substance Abuse and Mental Health Services Administration. The data are weighted estimates representing all drug abuse-related emergency room episodes from a stratified random sample of hospitals in the 48 contiguous States, the District of Columbia, and 21 metropolitan areas. These data are estimates derived from a sample and therefore subject to sampling variation.

Data for 1991 have been revised by the Source and will differ from data shown in the 1992 SOURCEBOOK. For information on methodology, sampling, and estimation procedures, see Appendix 9.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Includes self-medication for physical ailment, to prevent pregnancy or induce abortion, accident, used unknowingly, etc.

Unknown/no response	9.6	11.5	6.1	5.0	8.3	7.1	11.8	22.8	20.1	13.8	22.4	11.7

Note: See Note, table 3.94. "In addition to alcohol-in-combination, up to four substances may be reported for each emergency room drug abuse episode; thus, the total number of mentions exceeds the number of total episodes. It should be noted that a drug mention may or may not be the confirmed 'cause' of the episode in multiple-drug abuse cases. Even when only one substance is reported for an episode, allowance should still be made for reportable drugs not mentioned or for other contributory factors." (Source, p. 138.) For information on methodology, sampling, and estimation procedures, see Appendix D.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Estimate does not meet standard of precision (estimates with a relative standard error of 50 percent or higher are suppressed).

<sup>c</sup>Numerator for percentage is less than 10.

<sup>d</sup>Includes American Indians, Alaska Natives, Asians, and Pacific Islanders.

<sup>e</sup>Less than 0.05 percent.

<sup>f</sup>Includes self-medication for physical ailment, to prevent pregnancy or induce abortion, accident, used unknowingly, etc.

Note: These data are based on information from two of the National Highway Traffic Safety Administration's data systems: The Fatal Accident Reporting System (FARS) and the National Accident Sampling System/General Estimates System (GES). FARS contains data from a census of fatal traffic crashes occurring in the 50 States, the District of Columbia, and Puerto Rico. FARS data include crashes involving motor vehicles traveling on a trafficway customarily open to the public, and resulting in the death of a vehicle occupant or a nonmotorist within 30 days of the crash.

GES data are obtained from a nationally representative probability sample selected from all police-reported crashes. To be eligible for the GES sample, a police accident report must be completed, and

the crash must involve at least one motor vehicle traveling on a trafficway and result in property damage, injury, or death.

A fatal crash is defined as alcohol-related or alcohol-involved if either a driver or a nonmotorist (usually a pedestrian) had a measurable or estimated blood alcohol concentration of 0.01 or more grams per deciliter.

Data have been revised by the Source and may differ from previous editions of SOURCEBOOK.

Table 3.107

## Estimated number and rate (per 100,000 inhabitants) of offenses known to police

By offense, United States, 1960-92--Continued

Note: These data were compiled by the Federal Bureau of Investigation through the Uniform Crime Reporting Program. On a monthly basis, law enforcement agencies (police, sheriffs, and State police) report the number of offenses that become known to them in the following crime categories: murder and nonnegligent manslaughter, manslaughter by negligence, forcible rape, robbery, assault, burglary, larceny-theft, motor vehicle theft, and arson. A count of these crimes, which are known as Part I offenses, is taken from records of all complaints of crime received by law enforcement agencies from victims or other sources and/or from officers who discovered the offenses. Whenever complaints of crime are determined through investigation to be unfounded or false, they are eliminated from an agency's count (Source, 1992, p. 375).

The Uniform Crime Reporting Program uses seven crime categories to establish a "crime index" in order to measure the trend and distribution of crime in the United States. Crime index offenses include murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft; the "Total Crime Index" is a simple sum of the index offenses. Arson was designated as a Part I Index offense in October 1978; data collection was begun in 1979. However, due to the incompleteness of arson reporting by police in 1979-92, arson data are not displayed nor are they included in the Total Crime Index of the offenses known to the police.

The figures in this table are subject to updating by the Uniform Crime Reporting Program. The number of agencies reporting and populations represented may vary from year to year. This table and tables 3.108 and 3.109 present estimates for the United States or particular areas based on agencies reporting. For definitions of offenses, see Appendix 3.

<sup>a</sup>Because of rounding, the offenses may not add to totals.

<sup>b</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.

<sup>c</sup>Data for 1988 were not available for Florida and Kentucky; crime counts for these States were estimated by the Source.

<sup>d</sup>Data for 1991 were not available for Iowa; crime counts for this State were estimated by the Source.

<sup>e</sup>All rates were calculated on the offenses before rounding.

Note: See Note, table 3.107. These figures are aggregated from individual State statistics presented in table 3.109. These data include estimated offense totals for agencies submitting less than 12 months of offense reports (Source, p. 378). For definitions of offenses and areas, see Appendix 3.

<sup>a</sup>Populations are U.S. Bureau of the Census provisional estimates as of July 1, 1992 and are subject to change.

<sup>b</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.

<sup>c</sup>The percentage representing area actually reporting will not coincide with the ratio between reported and estimated crime totals, since these data represent the sum of the calculations for individual States that have varying populations, portions reporting, and crime rates.

Source: U.S. Department of Justice, Federal Bureau of Investigation, *Crime in the United States, 1992* (Washington, DC: USGPO, 1993), p. 59, Table 2. Table adapted by SOURCEBOOK staff.

Note: See Note, table 3.107. These data include estimated offense totals for agencies submitting less than 12 but more than 2 months of offense reports (Source, p. 378). For definitions of offenses and areas, see Appendix 3.

<sup>a</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>b</sup>Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.

<sup>c</sup>Includes offenses reported by the Zoological Police.

<sup>d</sup>Forcible rape figures furnished by the State-level Uniform Crime Reporting (UCR) Program administered by the Illinois Department of State Police were not in accordance

with national UCR guidelines. The 1992 forcible rape totals for Illinois were estimated by the Source using the national rate of forcible rapes when grouped by like agencies. Therefore, only the State total is shown.

<sup>e</sup>U.S. Bureau of the Census estimates for Puerto Rico were unavailable.

Note: See Note, table 3.107. These data represent all law enforcement agencies submitting complete reports for at least 6 common months in 1991 and 1992 (Source, p. 379). Forcible rape figures furnished by the State-level Uniform Crime Reporting (UCR) Program administered by the Illinois Department of State Police were not in accordance with national UCR guidelines and were excluded by the Source from the forcible rape, violent crime, and Total Crime Index categories. Complete data for 1991 were not available for Iowa; crime counts for this State were estimated by the Source. Complete data were received from Iowa for 1992. For definitions of offenses, suburban and rural areas, see Appendix 3.

<sup>a</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>b</sup>Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.

<sup>c</sup>Includes State police agencies with no county breakdown.

<sup>d</sup>Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes central cities. Suburban cities and counties are also included in other groups.

Note: These data were compiled by the National Rifle Association of America, Institute for Legislative Action, Research and Information Division from data provided by the Federal Bureau of Investigation's Uniform Crime Reporting Program and the Supplementary Homicide Report for 1992.

<sup>a</sup>Forcible rape figures furnished by the State-level Uniform Crime Reporting (UCR) Program administered by the Illinois Department of State Police were not in accordance with national

UCR guidelines. The 1992 forcible rape rate for Illinois was estimated by the UCR Program using the national rate of forcible rapes when grouped by like agencies.

Source: Table provided to SOURCEBOOK staff by the National Rifle Association of America, Institute for Legislative Action; data were made available through the Federal Bureau of Investigation's Uniform Crime Reporting Program.

Table 3.112

Number and rate (per 100,000 population) of violent crime and homicide, and number and percent of firearm-related violent crime and weapon-related homicide

By State, 1992

Note: See Note, table 3.111. Firearm-related figures are projections based upon Uniform Crime Reports supplemental data showing incomplete reports from the States and the District of Columbia. Not all States report each year; therefore comparisons between years should not be undertaken, except for States that have reported consistently.

For detailed information on State and Federal restrictions on the purchase, carrying, and ownership of firearms, see table 1.110.

<sup>a</sup>Includes projections for firearm-related rape.

<sup>b</sup>Includes murder and nonnegligent manslaughter. Also, includes certain homicides later ruled as self-defense and other justifiable homicides.

<sup>c</sup>Includes homicide, robbery, aggravated assault, and rape.

<sup>d</sup>Firearm-related violent crime figures for "United States, total" are projections based on reports from 47 States and the District of Columbia.

<sup>e</sup>Alabama and Kentucky did not provide weapon-related robbery and aggravated assault data and Maine did not provide weapon-related homicide data. Therefore firearm-related violent crime figures were not computed.

Source: Table provided to SOURCEBOOK staff by the National Rifle Association of America, Institute for Legislative Action; data were made available through the Federal Bureau of Investigation's Uniform Crime Reporting Program.

Note: See Note, table 3.111.

<sup>a</sup>Forcible rape figures furnished by the State-level Uniform Crime Reporting (UCR) Program administered by the Illinois Department of State Police were not in accordance with national UCR guidelines. Therefore the figures were excluded from the violent crime rate and rape rate categories.

Source: Table provided to SOURCEBOOK staff by the National Rifle Association of America, Institute for Legislative Action; data were made available through the Federal Bureau of Investigation's Uniform Crime Reporting Program.

Worcester, MA <sup>d</sup>	1991	X	X	X	X	X	X	X	X	X	X
	1992	11,791	NA	13	112	448	718	4,333	4,774	1,393	NA
Yonkers, NY	1991	10,927	11,041	9	48	901	360	2,115	4,992	2,502	114
	1992	9,086	9,170	13	38	751	368	1,723	4,417	1,776	84

Note: See Note, table 3.107. Arson is shown only if 12 months of arson data were received. The Modified Crime Index is the sum of the Crime Index of offenses, including arson. For definitions of offenses, see Appendix 3.

<sup>a</sup>Forcible rape figures furnished by the State-level Uniform Crime Reporting (UCR) Program administered by the Illinois Department of State Police were not in accordance with national UCR guidelines. Therefore, the figures were excluded from the forcible rape, Total Crime Index, and Modified Crime Index categories.

<sup>b</sup>Data for 1991 were not available for Iowa.

<sup>c</sup>Figures not reported for 1992.

<sup>d</sup>Figures not reported for 1991.

<sup>e</sup>Arson data for 1991 are not comparable to prior years.

<sup>f</sup>Aggravated assault figures are not comparable to prior years due to a change in reporting procedures.

<sup>g</sup>Orlando did not submit complete reports for all 12 months of 1991 and therefore was omitted by the Source.

Source: U.S. Department of Justice, Federal Bureau of Investigation, *Crime in the United States, 1991*, pp. 108-156; *1992*, pp. 108-157 (Washington, DC; USGPO). Table adapted by SOURCEBOOK staff.

Table 3.116

## Number of offenses known to police and average loss incurred

By selected offenses and type of target, United States, 1992

(12,589 agencies; 1992 estimated population 228,654,000)

Offense and type of target	Number of offenses 1992	Percent change over 1991 <sup>a</sup>	Percent <sup>b</sup>	Average loss (in dollars)
Murder	21,092	-1.5	100.0 %	\$89
Forcible rape	98,898	+4.2	100.0	27
Robbery	636,079	-2.3	100.0	840
Street/highway	353,904	-2.8	55.6	672
Commercial house	75,402	-0.5	11.9	1,380
Gas or service station	15,845	-4.8	2.5	513
Convenience store	33,401	-11.0	5.3	402
Residence	63,959	-0.2	10.1	1,123
Bank	10,519	+1.2	1.7	3,325
Miscellaneous	83,049	+1.0	13.1	770
Burglary	2,667,173	-5.5	100.0	1,278
Residence (dwelling)	1,765,870	-5.4	66.2	1,215
Night	563,403	-5.1	21.1	973
Day	773,159	-4.6	29.0	1,306
Unknown	429,308	-7.1	16.1	1,369
Nonresidence (store, office, etc.)	901,303	-5.8	33.8	1,400
Night	420,612	-6.2	15.8	1,153
Day	231,742	-0.2	8.7	1,827
Unknown	248,949	-9.6	9.3	1,420
Larceny-theft (except motor vehicle theft)	7,100,352	-2.4	100.0	483
By type				
Pocket-picking	70,144	-5.3	1.0	430
Purse-snatching	67,152	-11.2	0.9	292
Shoplifting	1,124,694	-6.6	15.8	106
From motor vehicles (except accessories)	1,607,865	-1.6	22.6	555
Motor vehicle accessories	993,155	-3.4	14.0	297
Bicycles	420,345	-0.3	5.9	231
From buildings	992,866	-2.8	14.0	802
From coin-operated machines	64,666	-9.2	0.9	141
All others	1,759,465	+0.6	24.8	665
By value				
Over \$200	2,551,714	-2.0	35.9	1,242
\$50 to \$200	1,681,280	-2.4	23.7	114
Under \$50	2,867,358	-2.8	40.4	24
Motor vehicle theft	1,148,352	-1.0	100.0	4,713

Note: See Note, table 3.107. "Commercial house" refers to nonresidential structures, with the exception of gas stations, convenience stores, and banking type institutions. "Loss" refers to property taken during the commission of the offense only. All offenses, including those that involve no loss of property, were used in compiling "average loss." For definitions of offenses, see Appendix 3.

<sup>a</sup>Percent change calculations are based only on agencies submitting 6 or more common months of data for both 1991 and 1992. As a result direct comparisons should not be made with similar data presented in previous editions of SOURCEBOOK.

<sup>b</sup>Because of rounding, percents may not add to total.

Source: U.S. Department of Justice, Federal Bureau of Investigation, *Crime in the United States, 1992* (Washington, DC: USGPO, 1993), p. 205, Table 23.

Table 3.117

## Bias-motivated (hate) crimes known to the police

By offense, United States, 1991 and 1992

Offense	1991		1992	
	Number	Percent <sup>a</sup>	Number	Percent <sup>a</sup>
Total	4,755	100 %	8,918	100 %
Murder	12	0.3	17	0.2
Forcible rape	7	0.1	8	0.1
Robbery	119	2.5	172	1.9
Aggravated assault	773	16.3	1,431	16.0
Burglary	56	1.2	69	0.8
Larceny-theft	22	0.5	36	0.4
Motor vehicle theft	0	0.0	5	(b)
Arson	55	1.2	47	0.5
Simple assault	796	16.7	1,765	19.8
Intimidation	1,614	33.9	3,328	37.3
Destruction/damage/vandalism of property	1,301	27.4	2,040	22.9

Note: The data were obtained from the Federal Bureau of Investigation's statistical program on hate crimes. Data for 1991 were supplied by 2,771 law enforcement agencies in 32 States. Data for 1992 were supplied by 6,180 law enforcement agencies in 41 States and the District of Columbia.

<sup>a</sup>Because of rounding, percents may not add to total.

<sup>b</sup>Less than 0.1 percent.

Source: Table provided to SOURCEBOOK staff by the U.S. Department of Justice, Federal Bureau of Investigation.

Table 3.118

## Bias motivations in hate crimes known to police

By race, ethnicity, religion, and sexual orientation, United States, 1991 and 1992

	1991		1992	
	Number	Percent <sup>a</sup>	Number	Percent <sup>a</sup>
Total	4,755	100 %	8,075	100 %
Race				
Anti-white	2,963	62.3	5,050	62.5
Anti-black	888	18.7	1,664	20.6
Anti-American Indian/Alaskan Native	1,689	35.5	2,884	35.7
Anti-Asian/Pacific Islander	11	0.2	31	0.4
Anti-multi-racial group	287	6.0	275	3.4
Ethnicity				
Anti-Hispanic	88	1.9	198	2.5
Anti-other ethnicity/national origin	450	9.5	841	10.4
Religion				
Anti-Jewish	242	5.1	498	6.2
Anti-Catholic	208	4.4	343	4.2
Anti-Protestant	917	19.3	1,240	15.4
Anti-Islamic (Moslem)	792	16.7	1,084	13.4
Anti-other religion	23	0.5	18	0.2
Anti-athelism/agnosticism/etc.	26	0.5	29	0.4
Anti-athelism/agnosticism/etc.	10	0.2	17	0.2
Anti-athelism/agnosticism/etc.	51	1.1	77	1.0
Anti-athelism/agnosticism/etc.	11	0.2	14	0.2
Anti-athelism/agnosticism/etc.	4	0.1	1	(b)
Sexual orientation				
Anti-homosexual	425	8.9	944	11.7
Anti-heterosexual	421	8.9	928	11.5
Anti-bisexual	3	0.1	13	0.2
Anti-bisexual	1	0.0	3	(b)

Note: See Note, table 3.117. Detailed breakdowns for bias motivations for 1992 were not available from Minnesota and Pennsylvania.

<sup>a</sup>Because of rounding, percents may not add to total.

<sup>b</sup>Less than 0.05 percent.

Source: Table provided to SOURCEBOOK staff by the U.S. Department of Justice, Federal Bureau of Investigation.

Table 3.119

## Offenses in Federal parks known to police

By offense, 1975-93

	Total offenses	Total annual visitation (in thousands)	Offense							
			Criminal homicide <sup>a</sup>	Forcible rape <sup>b</sup>	Robbery	Aggravated assault	Burglary <sup>b</sup>	Larceny-theft	Motor vehicle theft	Arson <sup>c</sup>
1975	7,697	238,849	10	84	779	385	1,031	5,156	252	X

1990	7,009	337,900	24	92	184	448	1,180	4,643	310	128
1991	7,203	358,295	28	78	209	390	1,118	5,004	251	125
1992	7,212	360,352	23	71	222	386	928	5,204	241	137
1993	6,452	387,707	25	62	197	367	747	4,681	210	163

Note: The National Park Service is responsible for the administration of 361 park areas that are owned by the Federal Government. Three urban park areas are policed by the U.S. Park Police, whereas other park areas are policed by the U.S. Park Rangers. The offense categories listed above are the Uniform Crime Reports Part I offenses; see Appendix 3 for definitions. Note, however, that these offenses are not counted in the Federal Bureau of Investigation figures. In 1975, the "Human Kindness Day" activities held in Washington, DC accounted for approximately 500 robbery incidents.

<sup>a</sup>Includes negligent and nonnegligent manslaughter.

<sup>b</sup>Includes attempts.

<sup>c</sup>Included in tabulations as a Part I offense beginning in 1981.

Source: Table provided to SOURCEBOOK staff by the U.S. Department of the Interior, National Park Service.

Table 3.120

## Offenses in Federal parks known to park rangers and park police

By offense, 1993

Offense	Total offenses	
	Park rangers	Park police
Total, all offenses	75,265	19,660
Part I offenses, total	5,017	1,435
Homicide		
Murder and nonnegligent manslaughter	14	6
Manslaughter by negligence	5	0
Forcible rape		
Rape by force	22	29
Attempted forcible rape	9	2
Robbery		
Firearm	10	43
Knife or cutting instrument	4	11
Strong arm; hands, fist, feet, etc.	13	103
Other dangerous weapon	3	10
Aggravated assault		
Firearm	29	36
Knife or cutting instrument	24	34
Other dangerous weapon	51	50
Hands, fist, feet, etc.	122	21
Burglary		
Forcible entry	380	69
Unlawful entry <sup>a</sup>	198	26
Attempted forcible entry	58	16
Larceny-theft <sup>b</sup>	3,769	912
Motor vehicle theft		
Automobiles	115	44
Trucks and buses	16	0
Other vehicles	31	4
Arson		
Structural	25	8
Mobile	16	7
Other	103	4
Part II offenses, total	70,248	18,225
Other assaults	320	313
Forgery and counterfeiting	24	7
Fraud	79	15
Embezzlement	17	1
Stolen property; buying, receiving, possessing	272	1,022
Vandalism	3,427	761
Weapons; carrying, possessing, etc.	3,003	440
Prostitution and commercialized vice	19	28
Sex offenses	299	507
Drug abuse violations <sup>c</sup>	3,360	3,277
Offenses against family and children	138	23
Gambling	29	1
Driving while intoxicated	1,649	741
Liquor laws	5,796	1,052
Drunkenness	1,283	152
Disorderly conduct	5,254	915
Vagrancy	152	357
All other offenses	43,119	7,239
Suspicion	890	1,363
Curfew and loitering	470	2
Runaways	58	9
Thefts	590	0

Note: See Note, table 3.119.

<sup>a</sup>No force used.<sup>b</sup>Excludes motor vehicle thefts.<sup>c</sup>Includes sale, manufacturing, and possessing.

Source: Table provided to SOURCEBOOK staff by the U.S. Department of the Interior, National Park Service.

Table 3.121

## Percent distribution of murders and nonnegligent manslaughters known to police

By type of weapon used, United States, 1964-92

Year	Total number of murders and nonnegligent manslaughters	Total <sup>a</sup>	Type of weapon used					Unknown or not stated
			Firearm	Cutting or stabbing instrument	Blunt object (club, hammer, etc.)	Personal weapons (hands, feet, fists, etc.) <sup>b</sup>	Other <sup>c</sup>	
1964	7,990	100 %	55 %	24 %	5 %	10 %	3 %	2 %
1965	8,773	100	57	23	6	10	3	1
1966	9,552	100	59	22	5	9	2	1
1967	11,114	100	63	20	5	9	2	1
1968	12,503	100	65	18	6	8	2	1
1969	13,575	100	65	19	4	8	3	1
1970	13,649	100	66	18	4	8	3	1
1971	16,183	100	66	19	4	8	2	1
1972	15,832	100	66	19	4	8	2	1
1973	17,123	100	66	17	5	8	2	2
1974	18,632	100	67	17	5	8	1	1
1975	18,642	100	65	17	5	9	2	2
1976	16,605	100	64	18	5	8	2	3
1977	18,033	100	62	19	5	8	2	3
1978	18,714	100	64	19	5	8	2	3
1979	20,591	100	63	19	5	8	2	3
1980	21,860	100	62	19	5	8	2	4
1981	20,053	100	62	19	5	7	2	3
1982	19,485	100	60	21	5	8	2	3
1983	18,673	100	58	22	6	9	2	3
1984	16,689	100	59	21	6	8	3	4
1985	17,545	100	59	21	6	8	3	4
1986	19,257	100	59	20	6	9	2	4
1987	17,859	100	59	20	6	8	2	4
1988	18,269	100	61	19	6	8	2	4
1989	18,954	100	62	18	6	7	2	4
1990	20,045	100	64	18	5	7	2	4
1991	21,505	100	66	16	5	7	2	4
1992	22,540	100	68	14	5	6	2	5

Note: See Note, table 3.107. In trend tables "constructed" or "adapted" by SOURCEBOOK staff from *Crime in the United States*, the data were taken from the first year in which the data were reported. It should be noted that the number of agencies reporting and the populations represented vary from year to year.

The Uniform Crime Reporting Program requests that additional information be transmitted to the FBI when a murder has been committed. The actual number of offenses presented in the tables displaying characteristics of murders known to the police may differ from figures in other tables that reflect data from only the initial report on the offense.

Data for Florida and Kentucky were not available for 1988 and data for Iowa were not available for 1991; therefore the Source did not include these States in detailed breakdowns of the data for those years. However, data for these States were estimated by the Source and included in the national totals for those years.

<sup>a</sup>Because of rounding, percents may not add to total.<sup>b</sup>This category includes beatings and strangulations. Pushed is also included in personal weapons.<sup>c</sup>This category includes arson, poison, explosives, narcotics, asphyxiation, etc.

Table constructed by SOURCEBOOK staff.

Table 3.122

## Percent distribution of murders and nonnegligent manslaughters known to police

By type of weapon used and region, 1992

Region	Total	Type of weapon			
		Firearm	Knife or other cutting instrument	Unknown or other dangerous weapon	Personal weapons (hands, fists, feet, etc.)
Total	100.0 %	68.2 %	14.5 %	12.3 %	5.0 %
Northeast	100.0	68.1	15.0	10.9	6.0
Midwest	100.0	66.4	15.2	13.4	5.0
South	100.0	69.0	13.8	12.9	4.3
West	100.0	68.3	14.7	11.6	5.4

Note: See Notes, tables 3.107 and 3.121. In this table, strangulations are classified in the "unknown or other dangerous weapon" category rather than in the category "personal weapons," as was done in table 3.121. For a list of States in regions, see Appendix 3.

Note: These data are based on information from all death certificates filed in the 50 States and the District of Columbia. The mortality data files are maintained by the National Center for Health Statistics at the Centers for Disease Control and Prevention. Rates were calculated from population estimates obtained from the U.S. Bureau of the Census.

<sup>a</sup>Includes deaths of unknown intent.

Note: See Notes, tables 3.107 and 3.121. Law enforcement agencies are requested to describe the circumstances of murders and nonnegligent manslaughters. These descriptions are categorized by the Uniform Crime Reporting Program. These data include murder and nonnegligent manslaughter victims for which supplemental homicide data were received. "Felony type" refers to killings that occur in conjunction with the commission of another felony, such as robbery or burglary.

<sup>a</sup>Column headers refer to offenders.

Table 3.136

## Characteristics of murder and nonnegligent manslaughter offenders known to police

United States, 1976-92

Year	Offender characteristics								
	Age				Sex		Race		
	Under 18 years old	18 to 29	30 to 49	50 years and older	Male	Female	White	Black	Other <sup>a</sup>
1976	8.8 %	48.6 %	31.8 %	10.8 %	84.0 %	16.0 %	46.3 %	51.9 %	1.7 %
1977	8.2	48.3	32.4	11.1	83.9	16.1	47.7	50.4	1.9
1978	8.3	49.3	32.1	10.2	84.8	15.2	47.8	50.5	1.7
1979	8.3	49.7	31.8	10.2	85.9	14.1	48.9	48.9	2.2
1980	7.9	50.6	32.8	8.7	86.3	13.7	49.8	48.8	1.4
1981	7.6	49.1	33.8	9.5	86.3	13.7	49.7	48.8	1.5
1982	7.3	50.0	33.5	9.3	85.9	14.1	50.3	47.8	1.8
1983	7.0	49.7	34.4	8.9	85.6	14.4	51.5	46.5	2.0
1984	6.5	49.8	34.6	9.1	86.4	13.6	53.9	44.2	1.9
1985	7.4	48.7	34.7	9.2	86.9	13.1	51.7	46.2	2.1
1986	8.2	49.0	34.5	8.3	87.3	12.7	50.4	47.5	2.2
1987	8.6	48.2	34.9	8.3	87.2	12.8	50.5	47.6	1.9
1988	9.9	49.0	33.3	7.8	88.2	11.8	47.6	50.7	1.8
1989	10.6	50.8	31.6	7.0	88.5	11.5	47.1	51.1	1.8
1990	11.9	51.2	30.5	6.4	89.7	10.3	47.0	51.5	1.5
1991	12.9	53.2	28.4	5.6	90.3	9.7	44.4	53.6	2.1
1992	14.2	52.9	27.1	5.8	90.3	9.7	42.8	54.9	2.3

Note: See Note, table 3.130. Data have been revised by the Source and may differ from previous editions of SOURCEBOOK. These data include only those incidents for which age, sex, and race of the offender were available.

Source: Table constructed from data provided to SOURCEBOOK staff by James Alan Fox, National Crime Analysis Program, Northeastern University.

<sup>a</sup>Includes American Indians, Asians, Pacific Islanders, and all other races.

Table 3.137

## Murders and nonnegligent manslaughters known to police

By race and sex of victim and offender, United States, 1992

Characteristics of victim	Total victims/offenders	Characteristics of offender						
		Race			Un-known	Sex		Un-known
		White	Black	Other		Male	Female	
Total	11,250	4,869	6,000	216	165	9,803	1,282	165
Race								
White	5,422	4,499	794	55	74	4,828	520	74
Black	5,522	291	5,164	12	55	4,729	738	55
Other	242	65	26	148	3	219	20	3
Unknown	64	14	16	1	33	27	4	33
Sex								
Male	8,394	3,413	4,731	150	100	7,276	1,018	100
Female	2,792	1,442	1,253	65	32	2,500	260	32
Unknown	64	14	16	1	33	27	4	33

Note: See Notes, tables 3.107 and 3.121. These data pertain only to the 11,250 murders and nonnegligent manslaughters that involved a single offender and a single victim.

Table 3.138

## Workplace homicides

By type of event and circumstances, United States, 1992<sup>a</sup>

	Homicides	
	Number	Percent
Total	1,004	100 %
Type of event		
Shooting <sup>b</sup>	822	82
Stabbing <sup>c</sup>	82	8
Beating <sup>d</sup>	51	5
Other <sup>e</sup>	49	5
Type of circumstance <sup>f</sup>		
Business disputes	87	9
Co-worker, former co-worker	45	4
Customer and client	35	3
Other	7	1
Personal disputes	39	4
Relative of victim (primarily husband, ex-husband)	24	2
Boyfriend, ex-boyfriend	7	1
Other	8	1
Police in the line of duty	56	6
Robberies and miscellaneous crimes	822	82

Note: These data were collected through the 1992 Census of Fatal Occupational Injuries conducted by the Bureau of Labor Statistics, in cooperation with numerous Federal and State agencies. States are responsible for data collection, followup, and coding. States obtain information from death certificates, workers' compensation reports, and other reports provided by State administrative agencies. Information is also obtained from Federal agencies, such as the Department of Labor's Occupational Safety and Health Administration, Employment Standards Administration, the Mine Safety and Health Administration, the Federal Aviation Administration, the Federal Railroad Administration, and the U.S. Coast Guard. Self-employed and unpaid family workers, who are not covered by a State or Federal agency are included by searching death certificates, medical examiner, and autopsy reports.

To ensure an accurate count of fatal occupational injuries, the census program requires that the work relationship be substantiated by two or more independent source documents or one source document and a followup questionnaire. For fatalities with only one source document, the case is included in the national database only if the State and the Bureau of Labor Statistics agree that there is sufficient information to determine that the fatality is work-related.

Homicide is defined as intentionally taking another's life or killing another while committing a crime.

<sup>a</sup>Detail may not sum to total because of rounding.

<sup>b</sup>Includes shootings using all types of firearms such as shotguns and pistols.

<sup>c</sup>Includes knives, screwdrivers, picks, scissors, and shards of material used as a weapon.

<sup>d</sup>Includes persons, crowbars, pipes, hammers, bats, rocks, and objects identified as "blunt objects."

<sup>e</sup>"Other" includes types of events such as strangulations, fires, and being run over by a car.

<sup>f</sup>Some cases listed under business disputes, personal disputes, and police in the line of duty may also qualify as robberies or other crimes.

Table 3.140

Suicide rate (per 100,000 persons in each age group) for persons 15 to 24 years of age

By age group and sex, United States, 1950, 1960, 1970, 1980, 1990

	1950	1960	1970	1980	1990
15 to 19 years of age	2.7	3.6	5.9	8.5	11.1
Male	3.5	5.6	8.8	13.8	18.1
Female	1.8	1.6	2.9	3.0	3.7
20 to 24 years of age	6.2	7.1	12.2	16.1	15.1
Male	9.3	11.5	19.2	26.8	25.7
Female	3.3	2.9	5.6	5.5	4.1
15 to 24 years of age	4.5	5.2	8.8	12.3	13.2
Male	6.5	8.2	13.5	20.2	22.0
Female	2.6	2.2	4.2	4.3	3.9

Note: These data are based on information from all death certificates filed in the 50 States and the District of Columbia. The mortality data files are maintained by the National Center for Health Statistics at the Centers for Disease Control and Prevention. Rates were calculated from decennial census counts obtained from the U.S. Bureau of the Census.

## Financial institution fraud and failure matters handled by the U.S. Department of Justice

United States, 1986-93

Year	Number of cases pending	Number of major cases pending <sup>a</sup>	Number of convictions	Number of pretrial diversions <sup>b</sup>	Number of major case convictions <sup>a</sup>	Reported total dollar losses <sup>b</sup>	Number of failed financial institutions under investigation
1986	7,286	2,948	1,957	NA	533	\$606,154,566	202
1987	7,622	3,393	2,309	NA	740	860,599,398	282
1988	7,385	3,446	2,197	NA	751	2,191,756,491	357
1989	7,819	3,605	2,174	NA	791	1,284,101,771	404
1990	7,613	3,672	2,461	NA	1,043	1,177,944,154	530
1991	8,678	4,336	2,559	NA	986	2,280,551,788	670
1992	9,772	5,071	2,594	261	905 <sup>c</sup>	NA	756
1993	10,088	5,405	3,120	311	1,154 <sup>c</sup>	NA	651

Note: Financial institutions include banks, savings and loans, and credit unions. Prior to 1992, data for cases pending and convictions are reported on a fiscal year basis, data for dollar losses are reported on a calendar year basis, and data for failed financial institutions under investigation are as of February of each year. Data for 1992 and 1993 are reported for the fiscal year.

<sup>a</sup>A major case is defined as a case where the amount of reported loss or exposure is \$100,000 or more.

<sup>b</sup>The Source did not report pretrial diversions prior to 1992 and did not report dollar losses for 1992 and 1993.

<sup>c</sup>May include pretrial diversions.

Note: These bank crime statistics were compiled by the Federal Bureau of Investigation. Violations of the Federal Bank Robbery and Incidental Crimes Statute include robbery, burglary (entry of bank and/or theft from bank during non-business hours), and larceny (theft not involving direct confrontation between offender and bank personnel or customers) of commercial banks, mutual savings banks, savings and loan institutions, and credit unions. Violations of the Hobbs Act involve extortion and kidnapping of bank officials or their families.

<sup>a</sup>As of 1988, the category "Hobbs Act" was changed to "extortion."

Note: These data were compiled from reports of investigations conducted by the Federal Bureau of Investigation, the U.S. Department of the Treasury, the U.S. Postal Service, and the U.S. Capitol Police. The Federal Bureau of Investigation is responsible for the investigation of assaults on personnel of the U.S. Department of the Interior, the U.S. Department of Justice, and the Federal judiciary. Customarily, the U.S. Department of the Treasury, the U.S. Postal Service, and the U.S. Capitol Police investigate assaults against officers assigned to their agencies. All assaults and threats of assault are included in the analysis even though no injury to an officer may have resulted, as are assaults that resulted in the death of an officer (Source, 1990, p. 2).

<sup>a</sup>Beginning in 1989, the variation in Immigration and Naturalization Service figures is due to changes in reporting procedures.

<sup>b</sup>Covers only Border Patrol Division.

<sup>c</sup>Increase in U.S. and Assistant U.S. attorney figures due to change in reporting procedures.

<sup>d</sup>Decrease in Internal Revenue Service figures due to change in reporting procedures.

<sup>e</sup>Beginning in 1991, the U.S. Postal Service no longer differentiates between Inspectors and Security Police in its report.

Source: U.S. Department of Justice, Federal Bureau of Investigation, *Assaults on Federal Officers, 1979, p. 7; 1981, p. 4, Table 1, FBI Uniform Crime Reports* (Washington, DC: USGPO); *Law Enforcement Officers Killed and Assaulted, 1983, FBI Uniform Crime Reports* (Washington, DC: USGPO, 1984), p. 49, Table 1; *Law Enforcement Officers Killed and Assaulted, 1985, FBI Uniform Crime Reports* (Washington, DC: U.S. Department of Justice, 1986), p. 52; and *Law Enforcement Officers Killed and Assaulted, 1987, p. 51; 1989, p. 61; 1990, p. 51; 1992, p. 73, FBI Uniform Crime Reports* (Washington, DC: USGPO). Table adapted by SOURCEBOOK staff.

<sup>a</sup>Beginning in 1989, totals and subtotals may not be directly comparable due to modifications in reporting procedures, failures to report, or changes in Federal agencies included.

<sup>b</sup>No report concerning assaults on Bureau of Indian Affairs officers was received for 1991.

<sup>c</sup>Number of offenders was not reported by the National Park Service during 1991.

<sup>d</sup>Beginning in 1991, assault statistics from the Bureau of Prisons, U.S. and Assistant U.S.

attorneys, and the judicial branch were no longer collected.

<sup>e</sup>Number of offenders was not reported by the Bureau of Prisons during 1938.

1992 <sup>c</sup>	481	89	144	10	51	143	37	0	7

Note: See Note, table 3.152. Beginning in 1984, data include assaults on officers of the U.S. Capitol Police. Data for this agency are not available for years prior to 1984. Beginning in 1991, assault statistics on Bureau of Prisons officers, U.S. and Assistant U.S. attorneys, and the judicial branch were no longer collected. Therefore, 1991 and 1992 data are not directly comparable with preceding years.

<sup>a</sup> Does not include 1988 data from Bureau of Prisons where 23 officers were assaulted with weapons and 123 without weapons.

<sup>b</sup> No report concerning assaults on Bureau of Indian Affairs officers was received for 1991. The data do not include 96 National Park Service victims and 4

Immigration and Naturalization Service victims for whom type of weapon was not reported.

<sup>c</sup> Data reported by the Immigration and Naturalization Service include the Border Patrol Division only.

Table constructed by SOURCEBOOK staff.

Table 3.158

## Persons identified in the killing of law enforcement officers

By demographic characteristics and prior record, United States, 1983-92 (aggregate) and 1992

Characteristics of persons identified	1983 to 1992		1992	
	Number	Percent	Number	Percent
Total	963	100 %	85	100 %
Age				
Under age 18	85	9	11	13
18 through 29 years	518	54	46	54
Sex				
Male	934	97	84	99
Female	29	3	1	1
Race, ethnicity				
White	536	56	45	53
Black	397	41	39	46
Other <sup>a</sup>	30	3	1	1
Prior record				
Prior criminal arrest	705	73	50	59
Convicted on prior criminal charges	546	57	39	46
Prior arrest for crime of violence	349	36	32	38
On parole or probation at time of killing	237	25	13	15
Prior arrest on murder charge	46	5	3	4
Prior arrest on drug law violation	225	23	17	20
Prior arrest for assaulting an officer or resisting arrest	103	11	7	8
Prior arrest for weapons violation	355	37	27	32

Note: See Note, table 3.154. Percents do not add to 100 in the age category because all ages are not represented in the table. Multiple responses are possible for prior record.

<sup>a</sup>Other includes Asian, Pacific Islander, American Indian, and Alaskan Native.

Table 3.159

## Persons identified in the killing of law enforcement officers

By type of disposition, United States, 1981-90 (aggregate)<sup>a</sup>

Type of disposition	Total	Percent
Persons identified	1,039 <sup>b</sup>	100 %
Fugitives	5	0.5
Justifiably killed	140	13.5
Committed suicide	51	4.9
Arrested and charged	842	81.0
Persons arrested and charged	842	100
Guilty of murder	614	72.9
Guilty of a lesser offense related to murder	69	8.2
Guilty of crime other than murder	38	4.5
Acquitted or otherwise dismissed	80	9.5
Committed to mental institution	16	1.9
Case pending or disposition unknown	12	1.4
Died in custody	13	1.5

Note: See Note, table 3.154.

<sup>a</sup>Percents may not add to 100 because of rounding.

<sup>b</sup>One offender was murdered while at large.

Source: U.S. Department of Justice, Federal Bureau of Investigation, *Law Enforcement Officers Killed and Assaulted, 1992*, FBI Uniform Crime Reports (Washington, DC: USGPO, 1993), p. 37. Table constructed by SOURCEBOOK staff.

Table 3.163

## Assaults on law enforcement officers and percent receiving personal injury

By type of weapon used, 1980-92

	Total victims	Type of weapon used			
		Firearm	Personal weapon	Knife or cutting instrument	Other dangerous weapon
<b>Total</b>					
1980	57,847	3,295	47,484	1,653	5,415
1981	57,174	3,334	47,304	1,733	4,803
1982	55,775	2,642	46,802	1,452	4,879
1983	62,324	3,067	51,901	1,829	5,527
1984	60,153	2,654	50,689	1,662	5,148
1985	61,724	2,793	51,953	1,715	5,263
1986	64,259	2,852	54,072	1,614	5,721
1987	63,842	2,789	53,807	1,561	5,685
1988	58,752	2,759	49,053	1,367	5,573
1989	62,172	3,154	51,861	1,379	5,778
1990	71,794	3,662	59,101	1,641	7,390
1991	62,852	3,532	50,813	1,493	7,014
1992	61,252	4,455	66,098	2,095	8,604
<b>Percent receiving personal injury</b>					
1980	37.2 %	22.5 %	38.2 %	34.4 %	38.0 %
1981	35.5	18.3	36.2	34.3	40.6
1982	30.7	16.4	30.7	27.0	39.1
1983	33.4	21.8	33.4	31.4	40.2
1984	33.6	20.1	33.5	30.0	42.2
1985	33.7	20.8	33.9	27.4	41.1
1986	33.7	22.3	33.9	29.9	38.3
1987	33.3	21.7	33.5	30.7	38.4
1988	35.8	27.3	35.6	32.3	42.1
1989	35.2	30.2	35.0	30.5	40.8
1990	36.3	29.4	36.1	29.4	42.5
1991	37.6	30.8	37.5	30.6	43.5
1992	36.5	25.5	36.9	30.4	40.9

Note: These data are based upon the number of agencies reporting assaults to the Uniform Crime Reporting Program during the particular year. Data for 1992 are based on 10,862 agencies covering approximately 85 percent of the total population; 1991 are based on 9,263 agencies covering approximately 76 percent of the total population; 1990 are based on 9,483 agencies covering approximately 80 percent of the total population; 1989 are based on 9,213 agencies covering approximately 76 percent of the total population; 1988 are based on 8,866 agencies covering approximately 76 percent of the total population; 1987 are based on 8,957 agencies covering approximately 78 percent of the total population; 1986 are based on 9,755 agencies covering approximately 81 percent of the total population; 1985 data are based on 9,906 agencies covering approximately 83 percent of the total population; 1984 data are based on 10,002 agencies covering approximately 83 percent of the total population; 1983 data are based on 9,908 agencies covering approximately 85 percent of the total population; 1982 data are based on 8,829 agencies covering approximately 76 percent of the total population; 1981 data are based on 9,020 agencies covering approximately 78 percent of the total population; 1980 data are based on 9,235 agencies covering approximately 81 percent of the total population.

Threats to U.S. Department of the Treasury facilities	44	33	22	35	22	24	10	9	7	8	6	10	7	5	5	2	3

Note: These figures are from reports to the Bureau of Alcohol, Tobacco and Firearms (BATF) and other law enforcement agencies; these reports may not include all explosives incidents. "Explosives incidents" are any explosives-involved situations that have an impact on BATF jurisdiction. "Bombings" are any incidents in which a device constructed with criminal intent and using high explosives, low explosives, or blasting agents explodes. This includes incidents where premature detonation occurs during preparation, transportation, or placement of a device so constructed. "Attempted bombings" are incidents in which a device designed or purposely contrived to detonate/ignite fails to function. Intent of activity was criminal in nature. This pertains to malfunctioning, recovered, and/or disarmed devices. "Incendiary bombings" are criminally-motivated

bombing incidents in which an incendiary/chemical device that induces burning is used. "Hoax devices" are inactive or "dummy" devices designed to appear as bombs or explosive materials. (Source, 1992, pp. 89, 90.)

Bombing figures for the years 1976 and 1977 include 30 and 21 criminal accidents, respectively, that were separately enumerated by the Source.

1982	795	485	194	77	39	7,202,848	99	16
1983	687	442	127	77	41	6,342,652	100	12
1984	803	518	127	118	40	5,618,581	112	6
1985	847	575	102	113	57	6,352,000	144	28
1986	858	580	129	101	48	3,405,000 <sup>b</sup>	185 <sup>b</sup>	14
1987	848	600	104	102	42	4,201,000	107	21
1988	977 <sup>c</sup>	593	156	161	40	2,257,000	145	20
1989	1,208 <sup>d</sup>	641	203	243	91	5,000,000	202	11
1990	1,582	931	267	254	130	9,600,000	222	27
1991	2,499	1,551	423	395	130	6,440,000	230	30
1992	2,989	1,911	582	384	112	12,500,000	349	26

Note: Detailed information concerning each bombing incident occurring in the United States, Puerto Rico, Guam, and the Virgin Islands is submitted by FBI field offices to the Uniform Crime Reporting Program. Local and State public safety agencies also bring incidents within their jurisdictions to the attention of the field offices. Because not all bombing incidents constitute Federal violations within the FBI's investigative purview, these other law enforcement agencies facilitate the reporting of occurrences and details of the incidents. Data reported are also derived from bombing incidents reported by the U.S. Postal Service and the Bureau of Alcohol, Tobacco and Firearms.

Bombing incidents refer to actual and attempted detonations of explosive or incendiary devices in violation of a State, local, or Federal law. Prior to 1990, these tabulations excluded threats to bomb, hoax bomb devices, accidental explosions, recoveries of explosive or incendiary devices, and such misdemeanor offenses as the illegal use of fireworks. Beginning in 1990, only bomb threats and such violations as the illegal use of fireworks were excluded from the tabulations.

<sup>a</sup>Detail may not add to total because of rounding. The Source began reporting by millions of dollars in 1989. Previous editions reported by thousands of dollars.

<sup>b</sup>Includes major bombing incidents resulting in an unusually high number of personal injuries and deaths, or substantial damage to property.

<sup>c</sup>Includes 27 incidents involving combination devices.

<sup>d</sup>Includes 30 incidents involving combination devices.

Note: See Note, table 3.164. "Blasting agents" refers to a specific type of explosive that can be classified as either a low or high explosive depending on how it is used. For this reason, it is separately enumerated. "RDX" refers to an extremely powerful explosive manufactured by the U.S. Army and found, in small quantities, in blasting caps, shells, and bombs.

<sup>a</sup>Military explosives and TNT have been combined since 1985.

<sup>b</sup>Called blasting caps in pre-1991 editions of SOURCEBOOK.

<sup>c</sup>Other specific types of explosives were identified and combined in this category due to the small quantities involved.

1987	57	384	45.6
1988	60	691	165.9
1989	74	495	48.9
1990	64	385	16.3
1991	75	695	27.1
1992	45	469	22.6

Note: See Note, table 3.164. These data include detonated and incendiary bombings, and criminal and noncriminal explosives incidents. The 1977 property damage figure includes approximately \$50 million resulting from grain elevator explosions. The dramatic increase in the 1978 injury figure is due to two major incidents: 150 people in New York City were injured in the accidental, noncriminal explosion of an ice cream truck; 250 people in Kentucky and West Virginia were injured by illegal fireworks.

Source: U.S. Department of the Treasury, Bureau of Alcohol, Tobacco and Firearms, *Explosives Incidents Report 1985*, p. 9; 1990, p. 11; and 1992, p. 13 (Washington, DC: U.S. Department of the Treasury). Table adapted by SOURCEBOOK staff.

Table 3.170

## Estimated number of fires, civilian fire deaths, and value of property loss due to incendiary or suspicious structure fires

United States, 1992

	Estimated number of fires	Estimated number of civilian fire deaths	Estimated value of property loss (in thousands)
Total, all fires in structures	637,500	3,940	\$6,957,000
Total, incendiary and suspicious fires	94,000	605	1,999,000 <sup>a</sup>
Incendiary fires	58,000	465	1,493,000 <sup>a</sup>
Suspicious fires	36,000	140	506,000

Note: The data above are weighted estimates from an annual survey of fire departments conducted by the National Fire Protection Association. All U.S. fire departments that protect communities of 100,000 or more are included in the sample. For departments that protect less than 100,000 population, the sample is stratified by community size. A total of 2,848 fire departments responded to the 1992 survey. Readers are advised to consult the Source for more detailed information on methodology and weighting procedures.

"Incendiary fires" are fires in which "a legal decision or physical evidence indicates that a fire was deliberately set." "Suspicious fires" are fires that involve "circumstances that indicate the possibility that a fire may have been set deliberately." "Suspicious circumstances" include multiple ignitions or a lack of accidental or natural ignition factors. "Civilians" include "anyone other than a fire fighter, and covers public service personnel such as police officers, civil defense staff, non-fire service medical personnel, and utility company employees." (Source, p. 80.)

<sup>a</sup>Includes fire losses that occurred in the Los Angeles civil disturbance on Apr. 29, 1992 resulting in an estimated loss of \$567,371,246.

1989	4	16	7
1990	7	1	5
1991	5	1	4
1992	4	0	0

Note: A terrorist incident is a violent act, or an act dangerous to human life, in violation of the criminal laws of the United States or of any State, to intimidate or coerce a government, the civilian population, or any segment thereof, in furtherance of political or social objectives. A suspected terrorist incident is a potential act of terrorism, responsibility for which cannot be attributed to a known or suspected terrorist group. A terrorism prevention is a documented instance in which a violent act by a known or suspected terrorist group or individual with the means and a proven propensity for violence is successfully interdicted through investigative activity. (Source, p. 20.)

Table 3.177

## Crime Insurance policies in effect on Dec. 31, 1993 and insurance claims paid by the Federal Crime Insurance Program in the 12 months prior to Dec. 31, 1993

By type of policy and coverage, United States

Type of policy and coverage	Policies in effect on Dec. 31, 1993			Claims paid in 12 months prior to Dec. 31, 1993	
	Number	Amount of insurance (in thousands)	Annual written premiums	Number	Amount
Total	16,722	\$152,716	\$4,755,926	791	\$3,138,954.95
Residential policies	13,839	114,942	1,479,399	306	510,972.87
Commercial policies	2,883	37,774	3,276,527	485	2,627,982.08
Robbery	352	2,210	419,575	59	278,972.18
Burglary	1,483	17,871	1,315,072	197	1,156,129.23
Combination	1,048	X	1,541,880	X	X
Robbery	X	6,045	X	96	411,776.60
Burglary	X	11,648	X	133	781,104.07

Note: The Federal Crime Insurance Program was established by Congress in 1970. It is administered by the Federal Emergency Management Agency through its Federal Insurance Administration, which is authorized to offer Federal Crime Insurance policies in States in which it is concluded that there exists a critical problem in the availability of crime insurance. Policies, offered both to individuals and businesses, cover losses due to robbery and burglary.

"Annual written premiums" are the payments that would be received if all policies were in effect for the entire year. A "combination" policy provides different coverage limits for robbery and burglary.

Source: Table provided to SOURCEBOOK staff by the Federal Emergency Management Agency, Federal Insurance Administration.

Table 3.178

## Federal crime insurance policies and amount of insurance in effect

By jurisdiction, as of Dec. 31, 1993

Jurisdiction	Policies in effect			Insurance in effect (in thousands)		
	Total	Residential	Commercial	Total	Residential	Commercial
Total	16,722	13,839	2,883	\$152,716	\$114,942	\$37,774
California	1,731	1,484	247	15,993	12,256	3,737
District of Columbia	54	29	25	622	231	391
Florida	18,161	1,614	202	16,477	13,422	2,535
Illinois	333	171	162	2,778	1,379	1,399
Kansas	218	211	7	1,354	1,251	103
Maryland	97	53	44	943	390	553
New Jersey	1,053	965	88	8,973	7,916	1,057
New York	8,894	7,061	1,833	85,026	60,190	24,836
Pennsylvania	1,437	1,255	182	11,036	8,769	2,267
Tennessee <sup>a</sup>	62	51	11	492	430	62
Puerto Rico	471	407	64	4,178	3,517	661
Virgin Islands	556	538	18	4,844	4,671	173

Note: See Note, table 3.177. Alabama, Connecticut, and Georgia were removed from the program effective Dec. 1, 1992. Policies that remained in effect in these States expired as of Nov. 30, 1993. No claims were paid in these States during 1993, prior to the expiration of coverage.

<sup>a</sup>Tennessee was removed from the Federal Crime Insurance Program (FCIP) effective July 1, 1992 and was subsequently re-admitted into the FCIP on June 30, 1993.

Source: Table provided to SOURCEBOOK staff by the Federal Emergency Management Agency, Federal Insurance Administration.

#### Section 4

##### **Characteristics and distribution of persons arrested**

This section begins with a series of tables from the Federal Bureau of Investigation's Uniform Crime Reporting (UCR) Program. The UCR obtains information on offenses known and arrests made by participating law enforcement agencies across the country. Included in this section are data on total arrests, and arrests in cities, suburban areas, and rural counties. An arrest is reported to the UCR Program "each time a person is taken into custody, notified, or cited for criminal infractions other than traffic violations." The arrest data are presented by type of offense, and the age, race, and sex of persons arrested. Trend data for both violent and property crime arrests, and arrest rates by offense charged and region, also are displayed. Trend data spanning over 25 years are presented showing rates of total arrests, violent crime arrests, property crime arrests, and arrests for drug violations. These trends are displayed for both white and black arrestees.

The number of offenses "cleared by arrest" is presented. An offense is cleared by arrest when at least one person is arrested, charged, and turned over to the court for prosecution. These tables include type of offense, geographic area, number of police agencies reporting, population served, and offenses cleared by arrest of juveniles. Additionally, information on juveniles taken into police custody and arrests for alcohol-related offenses is presented.

This section also includes information on arrests for drug law violations shown for the four regions of the country. Data from the Drug Use Forecasting (DUF) program showing drug use by adult arrestees in a sample of U.S. cities also is provided. These tables include type of drug use and demographic characteristics of arrestees.

A series of tables present the activities of the Drug Enforcement Administration (DEA) including information on drug seizures from the Federal-wide Seizure System, type of drugs removed from the domestic market, seizures of illegal drug laboratories, and type and value of assets seized by the DEA. Drug and property seizures and arrests made by the U.S. Coast Guard also are presented. Finally, information on the law enforcement activities of the U.S. Secret Service and the Immigration and Naturalization Service are provided.

Table 4.1

Estimated number of arrests<sup>a</sup>

By offense charged, United States, 1992

## Offense charged

Total <sup>b</sup>	14,075,100
Murder and nonnegligent manslaughter	22,510
Forcible rape	39,100
Robbery	173,310
Aggravated assault	507,210
Burglary	424,000
Larceny-theft	1,504,500
Motor vehicle theft	197,600
Arson	19,900
Violent crime <sup>c</sup>	742,130
Property crime <sup>d</sup>	2,146,000
Total Crime Index <sup>e</sup>	2,888,200
Other assaults	1,074,700
Forgery and counterfeiting	105,400
Fraud	424,200
Embezzlement	13,700
Stolen property; buying, receiving, possessing	161,500
Vandalism	323,100
Weapons; carrying, possessing, etc.	239,300
Prostitution and commercialized vice	96,200
Sex offenses (except forcible rape and prostitution)	108,400
Drug abuse violations	1,066,400
Gambling	17,100
Offenses against family and children	109,200
Driving under the influence	1,624,500
Liquor laws	541,700
Drunkenness	832,300
Disorderly conduct	753,100
Vagrancy	34,300
All other offenses (except traffic)	3,389,500
Suspicion (not included in total)	18,400
Curfew and loitering law violations	91,100
Runaways	181,300

Note: These data were compiled by the Federal Bureau of Investigation through the Uniform Crime Reporting Program. On a monthly basis, law enforcement agencies report the number of offenses that become known to them in the following crime categories: murder and nonnegligent manslaughter, manslaughter by negligence, forcible rape, robbery, assault, burglary, larceny-theft, motor vehicle theft, and arson. All of these crime categories, except manslaughter by negligence, are used to establish a crime index in order to measure the trend and distribution of crime in the United States. The "Total Crime Index" is a simple sum of the index offenses. Arson was designated as a Part I Index offense in October 1978. Unlike the tables from *Crime in the United States* presented in Section 3, arrest statistics for the crime of arson are complete and appear in the "Total Crime Index" and "Property crime" total.

Arrest statistics are compiled as part of this monthly data collection effort. Participating law enforcement agencies are instructed to count one arrest each time a person is taken into custody, notified, or cited for criminal infractions other than traffic violations. Annual arrest figures do not measure the number of individuals taken into custody because one person may be arrested several times during the year for the same type of offense or for different offenses. A juvenile is counted as a person arrested when he/she commits an act that would be a criminal offense if committed by an adult. Two offense categories, "curfew and loitering" and "runaway," are tabulated only for juveniles. Violations of local juvenile acts other than runaway and curfew and loitering law violations are included in the "all other offenses" classification (U.S. Department of Justice, Federal Bureau of Investigation, *Uniform Crime Reporting Handbook* (Washington, DC: USGPO, 1984), p. 60).

Data in this table are estimates based on arrest statistics for all law enforcement agencies in the Uniform Crime Reporting Program, including those submitting reports for less than 12 months in 1992 (Source, p. 379).

For definitions of offenses, see Appendix 3.

<sup>a</sup>Arrest totals based on all reporting agencies and estimates for unreported areas.

<sup>b</sup>Because of rounding, figures may not add to total.

<sup>c</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>d</sup>Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>e</sup>Includes arson.

Source: U.S. Department of Justice, Federal Bureau of Investigation, *Crime in the United States, 1992* (Washington, DC: USGPO, 1993), p. 217.

Note: See Note, table 4.1. The number of agencies reporting and the populations represented vary from year to year. Due to reporting problems, complete arrest data were not available for Kentucky in 1988, Florida in 1988 and 1989, Georgia and New Hampshire in 1990, and Florida and Iowa in 1991; therefore, these States were omitted by the Source for the years indicated. Arson was designated an index property crime in October 1978. Data collection began in 1979. For definitions of offenses, see Appendix 3.

<sup>a</sup>Includes arson beginning in 1979.

<sup>b</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>c</sup>Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

Rate	68.5	79.8	73.3	91.1	93.7	88.3	74.5	62.7	46.9	38.2	58.0

Note: See Note, table 4.1. This table presents data from all law enforcement agencies submitting complete reports for 12 months in 1992. Population figures represent U.S. Bureau of the Census July 1, 1992 population estimates for individual agencies (Source, p. 379). For definitions of offenses, suburban areas, and rural counties, see Appendix 3.

<sup>a</sup>Includes only suburban county law enforcement agencies.

<sup>b</sup>Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes central cities. Suburban cities and counties are also included in other groups.

<sup>c</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>d</sup>Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>e</sup>Includes arson.

Table 4.4

## Percent distribution of total U.S. population and persons arrested for all offenses

By age group, United States, 1992

Age group	U.S. resident population	Persons arrested
Age 12 and younger	19.2 %	1.7 %
13 to 15	4.1	7.1
16 to 18	3.9	11.8
19 to 21	4.4	12.8
22 to 24	4.4	11.1
25 to 29	7.9	16.6
30 to 34	8.7	14.7
35 to 39	8.3	10.3
40 to 44	7.4	6.2
45 to 49	6.0	3.4
50 to 54	4.7	1.9
55 to 59	4.1	1.1
60 to 64	4.1	0.7
Age 65 and older	12.6	0.7

Note: See Note, table 4.1. This table presents data from all law enforcement agencies submitting complete reports for 12 months in 1992 (Source, U.S. Department of Justice, p. 379). Because of rounding, percents do not add to 100.

Note: See Note, table 4.1. This table presents data from all law enforcement agencies submitting complete reports for 12 months in 1992 (Source, p. 380). Population figures represent U.S. Bureau of the Census July 1, 1992 estimates. Direct comparisons of arrest totals listed in this table should not be made with prior years (Source, p. 280). For definitions of offenses, see Appendix 3.

<sup>a</sup>Does not include traffic arrests. For a list of included offenses, see table 4.1.

<sup>b</sup>Includes arson.

<sup>c</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.  
<sup>d</sup>Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

Source: U.S. Department of Justice, Federal Bureau of Investigation, *Crime in the United States, 1992* (Washington, DC: USGPO, 1993), pp. 274-280.

Note: See Note, table 4.1. This table presents data from all law enforcement agencies submitting complete reports for 12 months in 1992 (Source, p. 380). Population figures represent U.S. Bureau of the Census July 1, 1992 estimates. For definitions of offenses, see Appendix 3.

<sup>a</sup>Because of rounding, percents may not add to total.

<sup>b</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>c</sup>Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.  
<sup>d</sup>Includes arson.

Runaways	146,170	63,178	43.2	82,992	56.8	1.2	0.7	3.7

Note: See Notes, tables 4.1 and 4.8. Estimates by the U.S. Bureau of the Census indicate that on July 1, 1992, males comprised 48.8 percent and females 51.2 percent of the total U.S. resident population (U.S. Department of Commerce, Bureau of the Census, "U.S. Population Estimates, by Age, Sex, Race, and Hispanic Origin: 1990 to 1992," Washington, DC: U.S. Department of Commerce, September 1993. (Mimeographed.) Table 1). For definitions of offenses, see Appendix 3.

<sup>a</sup>Because of rounding, percents may not add to total.

<sup>b</sup>Less than one-tenth of 1 percent.

<sup>c</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>d</sup>Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>e</sup>Includes arson.

Note: See Note, table 4.1. This table presents data from all law enforcement agencies submitting complete reports for 12 months in 1991 and 1992 (Source, p. 380). Population figures represent U.S. Bureau of the Census July 1, 1991 and 1992 estimates. For definitions of offenses, see Appendix 3.

<sup>a</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>b</sup>Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>c</sup>Includes arson.

Runaways	X	X	X	X	X	X	X	X	X	X

Note: See Notes, tables 4.1 and 4.8. Estimates by the U.S. Bureau of the Census indicate that on July 1, 1992, whites comprised 83.5 percent, blacks 12.4 percent, and other racial categories 4.1 percent of the total U.S. resident population (U.S. Department of Commerce, Bureau of the Census, "U.S. Population Estimates, by Age, Sex, Race, and Hispanic Origin: 1990 to 1992," Washington, DC: U.S. Department of Commerce, September 1993. (Mimeographed.) Table 1). For definitions of offenses, see Appendix 3.

<sup>b</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>c</sup>Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>d</sup>Includes arson.

Source: U.S. Department of Justice, Federal Bureau of Investigation, *Crime in the United States, 1992* (Washington, DC: USGPO, 1993), pp. 235-237.

<sup>a</sup>Because of rounding, percents may not add to total.

Note: See Note, table 4.1. This table presents data from all city law enforcement agencies submitting complete reports for 12 months in 1992 (Source, p. 380). Population figures represent U.S. Bureau of the Census July 1, 1992 estimates. For definitions of offenses and city areas, see Appendix 3.

<sup>c</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>d</sup>Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>e</sup>Includes arson.

<sup>a</sup>Because of rounding, percents may not add to total.

<sup>b</sup>Less than one-tenth of 1 percent.

Note: See Note, table 4.1. This table presents data from all suburban law enforcement agencies submitting complete reports for 12 months in 1992 (Source, p. 380). Population figures represent U.S. Bureau of the Census July 1, 1992 estimates. For definitions of offenses and suburban areas, see Appendix 3.

<sup>a</sup>Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes central cities. Suburban cities and counties are also included in other groups.

<sup>b</sup>Because of rounding, percents may not add to total.

<sup>c</sup>Less than one-tenth of 1 percent.

<sup>d</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>e</sup>Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>f</sup>Includes arson.

Note: See Note, table 4.1. This table presents data from all rural county law enforcement agencies submitting complete reports for 12 months in 1992 (Source, p. 380). Population figures represent U.S. Bureau of the Census July 1, 1992 estimates. For definitions of offenses and rural counties, see Appendix 3.

<sup>a</sup>Because of rounding, percents may not add to total.

<sup>b</sup>Less than one-tenth of 1 percent.

<sup>c</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>d</sup>Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>e</sup>Includes arson.

Note: See Note, table 4.1. The number of agencies reporting and the populations represented vary from year to year. Due to reporting problems, complete arrest data were not available for Kentucky in 1988, Florida in 1988 and 1989, Georgia and New Hampshire in 1990, and Florida and Iowa in 1991; therefore, these States were omitted by the Source for the years indicated. For a list of States in regions and definitions of offenses, see Appendix 3.

See notes at end of table.

Table 4.23

Offenses known to police and percent cleared by arrest<sup>a</sup>

By offense and size of place, 1992--Continued

Population group	Total Crime Index	Violent crime <sup>b</sup>	Property crime <sup>c</sup>	Murder and non- negligent manslaughter	Forcible rape	Robbery	Aggra- vated assault	Burglary	Larceny- theft	Motor vehicle theft
<b>SUBURBAN COUNTIES</b>										
1,313 agencies; population 49,330,000:										
Offenses known	1,968,541	230,026	1,738,515	2,904	17,314	55,927	153,881	482,251	1,061,489	194,775
Percent cleared by arrest	20.3 %	51.2	16.2	66.6	52.6	26.7	59.7	14.2	17.1	16.0
<b>RURAL COUNTIES</b>										
2,632 agencies; population 26,015,000:										
Offenses known	545,952	59,085	486,867	1,328	6,565	4,305	46,887	178,479	279,106	29,282
Percent cleared by arrest	23.0 %	60.7	18.4	74.5	53.0	38.1	63.4	16.4	18.3	32.4
<b>SUBURBAN AREAS<sup>d</sup></b>										
6,524 agencies; population 98,986,000:										
Offenses known	4,392,592	451,473	3,941,119	4,812	30,783	113,206	302,672	927,695	2,620,916	392,508
Percent cleared by arrest	21.9 %	51.1	18.6	67.0	51.6	27.4	59.6	14.3	20.3	16.8

Note: See Note, table 4.1. "An offense is 'cleared by arrest' or solved for crime reporting purposes when at least one person is: (1) arrested; (2) charged with the commission of the offense; and (3) turned over to the court for prosecution. The prosecution can follow arrest, court summons, or police notice." An offense is also counted as cleared by arrest if any of the following "exceptional" conditions pertain: (1) suicide of the offender; (2) double murder; (3) deathbed confession; (4) offender killed by police or citizen; (5) confession by offender already in custody or serving a sentence; (6) an offender prosecuted in another jurisdiction for a different offense and that jurisdiction does not release offender to first jurisdiction; (7) extradition denied; (8) victim refuses to cooperate in prosecution; (9) warrant is outstanding for felon but before arrest the offender dies of natural causes or as a result of an accident, or is killed in the commission of another offense; or, (10) handling of a juvenile offender either orally or by written notice to parents in instances involving minor offenses where no referral to juvenile court is made as a matter of publicly accepted police policy. (U.S. Department of Justice, Federal Bureau of Investigation, *Uniform Crime Reporting Handbook* (Washington, DC: USGPO, 1984), pp. 41, 42.) It should be noted that the arrest of one person can clear several crimes or several persons may be arrested to clear one crime.

Arson was designated an index property crime in October 1978. Due to the incompleteness of arson reporting by police for offenses known, arson data are not included in this table. Forcible rape figures furnished by the State-level Uniform

Crime Reporting (UCR) Program administered by the Illinois Department of State Police were not in accordance with national UCR guidelines and were excluded by the Source from the forcible rape, violent crime, and Total Crime Index categories. This table presents data from all law enforcement agencies submitting complete reports for at least 6 months in 1992 (Source, p. 379). Population figures represent U.S. Bureau of the Census July 1, 1992 estimates. For definitions of offenses, city and suburban areas, and rural counties, see Appendix 3.

<sup>a</sup>Includes offenses cleared by exceptional means.

<sup>b</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>c</sup>Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.

<sup>d</sup>Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes central cities. Suburban cities and counties are also included in other groups.

Note: See Notes, tables 4.1 and 4.23. Forcible rape figures furnished by the State-level Uniform Crime Reporting (UCR) Program administered by the Illinois Department of State Police were not in accordance with national UCR guidelines and were excluded by the Source from the forcible rape, violent crime, and Total Crime Index categories. For definitions of offenses, city and suburban areas, and rural counties, see Appendix 3.

<sup>a</sup>Includes offenses cleared by exceptional means.

<sup>b</sup>Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

<sup>c</sup>Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.

<sup>d</sup>Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes central cities. Suburban cities and counties are also included in other groups.

Note: These data are compiled from the Federal Bureau of Investigation's Uniform Crime Reporting Program. The data presented in this table differ from those presented in the U.S. Department of Justice, Federal Bureau of Investigation, *Crime in the United States*, 1992 (Washington, DC: USGPO, 1993). This is because this table includes data processed by the Federal Bureau of Investigation after the cut off date for that publication. "In many States where drunkenness and/or vagrancy are not treated as criminal actions, these categories are not permissible causes of arrest. In one respect, these data may be considered conservative estimates of alcohol-related arrests. Arrests are classified by a single offense, using a hierarchical rule. Consequently, crimes committed while intoxicated are categorized under the primary offense. On the other hand, 'driving under the influence' includes impairment due to any type of drug; it is not limited to impairment due to alcohol" (Source).

Note: These data are from the Drug Use Forecasting (DUF) program sponsored by the National Institute of Justice. DUF data are collected in booking facilities in participating cities throughout the United States. For approximately 14 consecutive evenings each quarter, trained local staff obtain voluntary and anonymous urine specimens and interviews from a new sample of arrestees. Chicago, Miami, and Omaha did not test or interview female arrestees. (Source, pp. 2, 3.) For methodology and survey sampling information, see Appendix 10.

<sup>a</sup>Includes cocaine, opiates, marijuana, phencyclidine (PCP), methadone, benzodiazepines, methaqualone, propoxyphene, barbiturates, and amphetamines.

Table 4.38

## Drug seizures by the Drug Enforcement Administration

By type of drug, fiscal years 1989-93

	Pounds seized <sup>a</sup>				
	1989	1990	1991	1992	1993 <sup>b</sup>
Total	1,343,204	737,318	926,635	1,093,196	1,019,591
Heroin	2,414	1,794	3,030	2,551	3,345
Cocaine	218,695	235,214	246,324	303,254	238,053
Marijuana	1,070,514	483,248	499,070	783,343	752,114
Hashish	51,581	17,062	178,211	4,048	26,080

Note: The Federal-wide Drug Seizure System (FDSS) contains information about drug seizures made within the jurisdiction of the United States by the Drug Enforcement Administration, Federal Bureau of Investigation, and U.S. Customs Service, as well as maritime seizures made by the U.S. Coast Guard. Drug seizures made by other Federal agencies are included in the FDSS data base when custody of the drug evidence was transferred to one of these four agencies.

<sup>a</sup>Figures are rounded to the nearest pound.

<sup>b</sup>Data are preliminary and subject to change.

Source: Table adapted by SOURCEBOOK staff from tables provided by the U.S. Department of Justice, Drug Enforcement Administration, Federal-wide Drug Seizure System.

Note: These data were collected by the Drug Enforcement Administration (DEA) in conjunction with the Domestic Cannabis Eradication/Suppression Program. This program is a joint Federal and State effort in which DEA contributes funding, training, equipment, investigative, and aircraft resources to the participating States in the effort to eradicate domestically-cultivated marijuana.

<sup>b</sup>A provision of Federal law allows the government to seize profits of the illicit drug trade and allows participating law enforcement agencies to share a percentage of the assets forfeited to the government.

Source: Table adapted by SOURCEBOOK staff from table provided by the U.S. Department of Justice, Drug Enforcement Administration.

<sup>a</sup>Total may include tended ditchweed, a type of marijuana that grows wild.

<sup>a</sup>This category includes other controlled substances such as phenyl 2 propanone, a precursor used in making methamphetamine and amphetamine, and methadone, an opiate-type heroin substitute.

<sup>b</sup>Data for 1991 have been revised by the Source and may differ from previous editions of SOURCEBOOK.

Source: Comptroller General of the United States, *Report to the Congress: Stronger Crackdown Needed on Clandestine Laboratories Manufacturing Dangerous Drugs* (Washington, DC: U.S. General Accounting Office, 1981), p. 37; and data provided to SOURCEBOOK staff by the U.S. Department of Justice, Drug Enforcement Administration.

Table 4.42

## Arrests and convictions by the Drug Enforcement Administration

By type of drug, fiscal year 1993

	Arrests		Convictions	
	Number	Percent	Number	Percent
Total, all cases	21,231	100 %	18,180	100 %
Heroin	2,139	10.1	2,206	12.1
Cocaine <sup>a</sup>	10,976	51.7	9,797	53.9
Cannabis <sup>b</sup>	5,142	24.2	3,746	20.6
Dangerous drugs <sup>c</sup>	2,974	14.0	2,431	13.4

Note: Arrest statistics for fiscal year 1993 are estimated from current activity and prior reporting patterns. The validity of the estimating procedure has been shown to be accurate in excess of 99 percent for previous reporting periods. Arrest and conviction totals (final, not estimates) for fiscal year 1991 are 23,272 and 15,923, respectively. For fiscal year 1992, the final arrest and conviction totals are 24,531 and 17,439, respectively. Arrest statistics are compiled by the date of arrest; conviction statistics are compiled according to the date the activity was reported to the Drug Enforcement Administration.

<sup>a</sup>Includes crack.

<sup>b</sup>Includes marijuana, hashish, and hashish oil.

<sup>c</sup>Includes stimulants (e.g., methamphetamine), depressants (e.g., barbiturates), and hallucinogens (e.g., LSD and PCP).

Note: The data presented for 1975 and 1976 coincide with the former Federal fiscal year, the period July 1 to June 30. The transition quarter refers to the period July 1, 1976 to Sept. 30, 1976. The Federal fiscal year is now Oct. 1 to Sept. 30. Some data have been revised by the Source and may differ from previous editions of SOURCEBOOK.

The drug value is computed using the Drug Enforcement Administration (DEA) retail value lists. The illegal market retail drug prices for heroin and cocaine are based on evidence exhibits purchased by DEA; other dangerous drug prices are derived from monthly availability reports submitted by DEA field offices.

<sup>a</sup>Value data were computed using retail values as of the fourth quarter of fiscal year 1976.

<sup>b</sup>Value data were computed using retail values as of the third quarter of the fiscal year.

<sup>c</sup>Value data were computed using the most recent retail values available at the time of publication. Values for heroin, cocaine, and marijuana have been recalculated to reflect updated retail price data from the National Narcotics Intelligence Consumers Committee and the DEA.

<sup>d</sup>Values for heroin, cocaine, and marijuana were estimated from the DEA national retail price data for the period July to September 1988. The value of hashish was estimated from the Royal Canadian Mounted Police retail price data for the month of August 1988. Values for opium, morphine, and other drugs cannot be estimated because of a lack of U.S. price data. Estimated values of "other drugs" for the years prior to fiscal year 1988 were based on an estimated mix of drugs that is no longer considered valid.

## Seizures and arrests by the U.S. Coast Guard

By type and amount of property seized, 1976-93

	1976	1977	1978	1979	1980	1981	1982	1983	1984	1985
Vessels seized	16	38	141	101	134	146	173	170	218	165
Vessels seized by other agencies with Coast Guard participation	12	21	32	23	17	21	30	21	38	28
Marijuana seized (lbs.)	183,168	1,032,609	3,321,035	2,682,586	2,494,774	2,643,043	3,525,775	2,448,940	2,505,357	2,142,133
Marijuana seized by other agencies with Coast Guard participation (lbs.)	164,406	179,538	326,829	353,950	279,607	183,990	194,074	91,988	249,666	247,577
Cocaine seized (lbs.)	62	0	0	0	0	40	9.36	46.20	1,966.92	6,546.82
Cocaine seized by other agencies with Coast Guard participation (lbs.)	4.40	0.00	0.01	0.00	10.01	96.10	828.01	1,150.01	75.00	847.25
Hashish seized (lbs.)	0	0	0	43,550	564	34,580	0	29,962	1	2,099
Hashish seized by other agencies with Coast Guard participation (lbs.)	0	1,700	1,100	1	168	0	18	0	0	0
Hashish oil seized (gal.)	0	0	0	0	5	7	0	10	18	1
Thai sticks seized (lbs.)	10,185	17,130	0	0	12,623	0	0	0	1	0
Thai sticks seized by other agencies with Coast Guard participation (lbs.)	0	0	5,500	251	0	0	0	0	16,000	0
Dangerous drugs seized (doses)	0	200	500,000	4,186,060	514,584	5,961,009	61,628	100	0	1
Arrests	184	306	904	572	728	803	1,081	895	1,054	794
Estimated street value of contraband seized (in millions)	\$146.28	\$435.13	\$1,345.04	\$1,916.23	\$1,992.75	\$1,802.25	\$4,042.62	\$2,124.42	\$2,767.70	\$3,196.29

Note: A "Thai stick" is a Southeast Asian marijuana bud that is bound onto a short section of bamboo. It may be laced with opium, hashish, or another narcotic in order to increase its potency. This definition was provided to SOURCEBOOK staff by the Source. The figures for "arrests" and "estimated street value of contraband seized" include Coast Guard activities as well as arrest and seizure activities of other agencies with Coast Guard participation. Data have been revised by the Source and may differ from previous editions of SOURCEBOOK.

1993	36,686	18,870	1,163	14,456	658	1,429	110

Note: "Aliens deported" refers to those aliens required to leave the country under formal orders of deportation. "Other" includes persons who, at the time of their entry, were excludable as: polygamists, draft evaders, alien smugglers, illiterates over 16 years of age, children under 16 unaccompanied by a parent, and those unable to maintain employment, suffering from mental illness, or who have been previously excluded. Data have been revised by the Source and may differ from previous editions of SOURCEBOOK.

Source: Table provided to SOURCEBOOK staff by the U.S. Department of Justice, Immigration and Naturalization Service.

## Section 5

### Judicial processing of defendants

This section provides information on the judicial processing of adult and juvenile defendants in the United States. The data present information of Federal, State, and military courts.

The initial tables involve requests for immunity by Federal prosecutors and court orders for interception of wire, oral, or electronic communication. In addition, information concerning the activities of the U.S. attorneys' offices is presented.

The next segment presents data from the Federal Justice Statistics database. Tables provide information on pretrial release and detention of defendants in U.S. District Courts, criminal matters concluded in U.S. District Courts, suspects declined for prosecution and referred to U.S. magistrates, and defendants prosecuted, convicted, and sentenced in U.S. District Courts. Additional tables present data on cases filed, terminated, and pending, and the length of trials in U.S. District Courts. Featured this year are data on drug offenders convicted and sentenced in U.S. District Courts and Federal racketeering and criminal enterprise cases processed by U.S. District Courts. Finally, a number of tables display information on defendants detained, disposed, and sentenced in U.S. District Courts.

Information pertaining to criminal sentencing under the U.S. Sentencing Commission guidelines is provided. These tables include number of offenders sentenced, offense type, demographic characteristics of defendants, type and length of sentences imposed, and departures from the guidelines.

Information on case processing in State courts comprises the next section. These data are from a series of projects sponsored by the Bureau of Justice Statistics: the National Judicial Reporting Program, the National Pretrial Reporting Program, and the National Prosecutor Survey Program. Information is provided on felony convictions and sentences in State courts, including offense type, demographic characteristics of defendants, method of conviction, and type and length of sentences imposed. Offenders sentenced to additional penalties (i.e., restitution, community service, etc.) and processing time from arrest to conviction are included. In addition, data on pretrial release status and case outcomes for a sample of felony cases from the 75 largest U.S. counties are presented. These tables include the number and characteristics of felony defendants, pretrial release status and bail amounts, adjudication outcomes, and sentences imposed. Several tables also present information on the charac-

teristics of juvenile delinquency offenders and outcomes of juvenile court cases.

The next portion of the section includes information on petitions filed in U.S. District Courts, appeals to the U.S. Courts of Appeal, and activities of the U.S. Supreme Court. Data on requests for executive clemency, commutation of sentences, and pardons also are presented.

Information on criminal tax fraud cases, and arrests and convictions by the U.S. Postal Inspection Service is provided. Data pertaining to violations of immigration and nationality laws are included. Information on the activities of the U.S. Secret Service and the U.S. Environmental Protection Agency also is provided.

The final segment of the section presents information on abuses of public office, and complaints and dispositions handled by judicial misconduct organizations. Military court-martial activities of the Army, Air Force, and Coast Guard also are displayed.

Table 5.1

**Requests for immunity by Federal prosecutors to the U.S. Attorney General and witnesses involved in these requests**

By origin of request, fiscal years 1973-93

Fiscal year	Requests			Witnesses		
	Total number	Criminal Division Number	Percent	Total number	Criminal Division Number	Percent
1973	1,160	769	66 %	2,715	1,598	59 %
1974	1,410	1,121	80	3,655	2,055	56
1975	1,632	1,259	77	3,733	2,183	58
1976	1,789	1,361	76	3,923	2,366	60
1977	1,798	1,250	70	4,413	1,969	45
1978	1,445	959	66	2,997	1,403	47
1979	1,596	1,163	73	3,204	1,816	57
1980	1,653	1,207	73	3,530	1,892	54
1981	1,686	1,252	74	3,271	2,032	62
1982	1,836	1,394	76	3,810	2,233	59
1983	1,986	1,425	72	4,226	2,243	53
1984	2,378	1,838	77	4,784	2,858	60
1985	2,451	1,898	77	5,146	3,329	65
1986	2,550	1,948	76	5,013	3,267	65
1987	3,161	1,869	59	5,918	3,249	55
1988	3,125	1,821	58	5,961	3,205	54
1989	3,072	1,807	59	5,760	3,249	56
1990	2,845	1,694	60	5,062	2,905	57
1991	2,587	1,560	60	4,364	2,448	56
1992	2,333	1,416	61	4,130	2,308	56
1993	2,493	1,466	59	4,407	2,399	54

Note: These data reflect requests received from Federal prosecutors under 18 U.S.C. 6001-6005, the statute that now governs the granting of use immunity. 18 U.S.C. 6003 requires all Federal prosecuting attorneys to receive authorization from the U.S. Attorney General (or representative) before seeking a court order for witness immunity. It should be noted that in some cases in which the authorization is obtained, the prosecutor may decide not to seek the immunity order from the courts. Therefore, the number of witnesses actually granted immunity is probably lower than the data in the table indicate. It should also be noted that data for 1973 and 1974 include a total of 11 requests and 27 witnesses, and 7 requests and 11 witnesses, respectively, falling under an older statute, 18 U.S.C. 2514, which has since been repealed. "Criminal Division" refers to the Criminal Division of the U.S. Department of Justice and the U.S. attorneys. Other requests, not pertaining to the Criminal Division, come from the remaining divisions of the U.S. Department of Justice (e.g., Antitrust, Tax, Civil Division, Civil Rights, and Lands and Natural Resources), as well as from the other Federal agencies (e.g., Interstate Commerce Commission, Federal Trade Commission, Securities and Exchange Commission, and Department of the Army) and from Congress, all of which may request immunity for witnesses. Some data have been revised by the Source and therefore will differ from previous editions of SOURCEBOOK.

Source: Table constructed by SOURCEBOOK staff from data provided by the U.S. Department of Justice, Criminal Division.

Table 5.2

## Court-authorized orders for interception of wire, oral, or electronic communications

1989	453	310
1990	548	324
1991	500	356
1992	579	340

Note: The Director of the Administrative Office of the United States Courts is required, in accordance with provisions of 18 U.S.C. 2519(1), to transmit to Congress a report regarding applications for orders authorizing or approving the interception of wire, oral, or electronic communications. This report is required to contain information about the number of such orders and any extensions granted. Every State and Federal Judge is required to file a written report on each application made. This report is required to contain information on the grants and denials, name of applicant, offense involved, type and location of device, and duration of authorized intercept. Prosecuting officials who have applied for intercept orders are required to file reports containing information on the cost of the intercepts and the results of the intercepts in terms of arrests, trials, convictions, and the number of motions to suppress the use of the intercepts (Source, 1993, p. 1). A total of 41 jurisdictions had statutes authorizing the interception of wire, oral, or electronic communications during 1992. Eighteen of these jurisdictions did not have any court-authorized orders for interception during 1992 (Source, 1993, p. 2).

<sup>a</sup>For 1968, the reporting period was from June to December.

Note: See Note, table 5.2. Arrests, trials, and convictions resulting from the interceptions of wire, oral, and electronic communication do not always occur within the same year as the implementation of the court order. This table presents arrest and conviction data for the year court-authorized interception began and subsequent years.

<sup>a</sup>Revised by the Source.

<sup>b</sup>Includes arrests and convictions that occurred prior to the year in which they were reported.

Note: The U.S. attorney is the highest ranking law enforcement representative in each of the Federal judicial districts. The attorney and staff members assist the U.S. Attorney General in the enforcement of Federal criminal laws, the investigation and prosecution of corrupt public officials and organized crime figures, and the initiation of environmental litigation. In addition, the U.S. attorney is responsible for the enforcement of laws pertaining to Federal programs. These include violations involving Medicaid and Medicare, U.S. Government contracts, the use of labor union funds, educational benefits for war veterans, and the food stamp program. U.S. attorneys are responsible for collecting criminal fines, civil judgments, prejudgment claims, forfeitures, penalties, and other monies owed to the Federal Government.

<sup>a</sup>Includes 706 cases initiated by transfer under Rule 20 (see footnote g).

<sup>b</sup>Includes 683 cases terminated by transfer under Rule 20 (see footnote g) and 1 case dismissed because of superseding indictment or information.

<sup>c</sup>Includes 755 defendants initiated by transfer under Rule 20 (see footnote g).

<sup>d</sup>Includes 942 defendants terminated by transfer under Rule 20 (see footnote g) and 3 defendants dismissed because of superseding indictment or information.

<sup>e</sup>Includes 27 verdicts of not guilty by reason of insanity involving 44 defendants.

<sup>f</sup>Includes transfers, dismissals other than by court, pretrial diversions, and proceedings suspended indefinitely by court.

<sup>g</sup>Rule 20 of the Federal Criminal Rules permits the transfer of a case from one district to another for plea and sentencing. That is, if an offender is arrested in one district on an indictment or information originating in another district, the offender may plead guilty and be sentenced in the arresting district.

<sup>h</sup>Laws of States adopted for areas within a Federal jurisdiction (18 U.S.C. sec. 13), e.g., driving while intoxicated on a military base.

<sup>i</sup>Organized Crime Drug Enforcement Task Forces.

<sup>j</sup>An initiative focusing on repeat violent criminal offenders who possess firearms during the commission of a crime. These offenders are subject to a minimum mandatory sentence of 15 years imprisonment.

<sup>k</sup>Includes cases with lead charge of violent crime, which would otherwise fall into another offense category.

Note: These data are from the U.S. Department of Justice, Bureau of Justice Statistics' Federal Justice Statistics database maintained by Abt Associates, Inc. Sources of information include the Executive Office for U.S. Attorneys, the Administrative Office of the United States Courts, the U.S. Sentencing Commission, the Federal Bureau of Prisons, and the Pretrial Services Agency (PSA).

The data include both felony and misdemeanor cases. The sum of the defendants released and detained exceeds 100 percent because some defendants who were initially detained eventually raised bail or had the conditions of their bail changed by rehearing or appeal. Total also includes defendants for whom release status data were unavailable. For methodology and definitions of terms, see Appendix 11.

<sup>a</sup>Data describe defendants scheduled to be interviewed by a pretrial services agency.

<sup>b</sup>In addition to the three types of release shown, 1,221 defendants were released subject to other conditions such as PSA supervision or

third party custody.

<sup>c</sup>Initially held 2 or more days.

<sup>d</sup>Includes deposit bond, surety bond, and collateral bond.

<sup>e</sup>Includes temporary detention and detention ordered after a pretrial detention hearing.

<sup>f</sup>May include some non-violent offenses.

<sup>g</sup>Excludes tax fraud.

<sup>h</sup>Excludes transportation of stolen property.

<sup>i</sup>Too few cases to obtain statistically reliable data.

<sup>j</sup>Excludes fraudulent property offenses; includes destruction of property, trespass.

Prior conviction							
Misdemeanor only	7,090	70.0	15.5	33.6	18.9	52.9	57.3
Felony	12,524	47.3	8.5	22.7	13.6	70.9	71.0
<b>Drug abuse</b>							
No known abuse	31,461	68.5	15.9	34.6	16.5	49.4	61.0
Drug history	9,086	59.8	12.0	30.8	15.6	63.2	65.1

Note: See Note, table 5.6. Data describe defendants scheduled to be interviewed during 1990 by the Pretrial Services Agency (PSA). The sum of the defendants released and detained exceeds 100 percent because some defendants who were initially detained eventually raised bail or had the conditions of their bail changed by rehearing or appeal. For methodology and definitions of terms, see Appendix 11.

<sup>b</sup>Includes only those defendants whose PSA records explicitly showed no prior convictions.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Compendium of Federal Justice Statistics, 1990*, NCJ-143499 (Washington, DC: U.S. Department of Justice, 1993), p. 26.

<sup>a</sup>Based on defendants scheduled for interviews with a pretrial services agency Jan. 1, 1990 to Sept. 30, 1990 only. Not directly comparable to data from prior years.

Table 5.9

**Behavior of Federal defendants released prior to trial in U.S. District Courts**

By offense and type of release, United States, 1990.

Most serious offense charged and type of release	Number of released defendants <sup>a</sup>	No violation	Percent of released defendants who had:					
			Violations while on release					
			Total	Failed to appear	New offense charged		Technical violations of bail conditions	Release revoked
					Felony	Mis-demeanor		
All defendants	22,977	87.7 %	12.3 %	2.5 %	1.8 %	1.1 %	7.9 %	4.5 %
<b>Offense charged</b>								
Violent offenses	878	82.7	17.3	1.8	2.4	3.5	10.8	9.7
Property offenses	7,782	90.5	9.5	1.7	1.5	1.0	6.2	3.2
Fraudulent offenses <sup>b</sup>	5,973	92.1	7.9	1.6	1.1	0.8	5.1	2.6
Other offenses	1,809	84.9	15.1	2.2	2.9	1.9	9.8	5.5
Drug offenses	8,533	82.2	17.8	3.6	2.3	1.3	11.9	6.6
Public-order offenses	5,784	93.0	7.0	1.9	1.1	0.7	3.9	2.5
Regulatory offenses	1,326	94.0	6.0	1.9	1.1	0.3	3.2	1.9
Other offenses <sup>c</sup>	4,458	92.7	7.3	1.9	1.1	0.8	4.0	2.7
<b>Type of release</b>								
Personal recognizance	5,766	90.6	9.4	1.7	1.2	1.2	5.9	3.7
Unsecured bond	11,290	88.8	11.2	1.8	1.5	1.0	7.9	4.4
Financial release	5,921	82.9	17.1	4.5	2.8	1.2	9.9	5.7

Note: See Note, table 5.6. Data were derived from the Pretrial Services Agency data files. Data describe defendants whose pretrial services were terminated in 1990. A defendant with more than one type of violation appears in more than one column. A defendant with more than one of the same type of violation appears only once in that column. Therefore, the sum of individual violations exceeds the total. Not all violations resulted in revocation. For methodology and definitions of terms, see Appendix 11.

<sup>a</sup>Excludes defendants who were released but whose records did not contain sufficient information to determine type of release or violation behavior.

<sup>b</sup>Excludes tax fraud.

<sup>c</sup>Includes tax fraud.

Regulatory	179	98	6	46	44	2	2	1
Other public-order	1,846	88	15	51	21	1	12	2

Note: These data are from the pretrial segment of the Federal Justice Statistics Program (FJSP). The data were collected by the U.S. Department of Justice, Bureau of Justice Statistics (BJS) and describe 44,113 felony defendants scheduled for interview by a Federal pretrial services agency during 1990. While these data are derived from the FJSP database, these tables are designed to be comparable to State felony court data collected through BJS' National Pretrial Reporting Program. For survey methodology and definitions of terms, see Appendix 11.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Includes deposit bond, surety bond, and property bond.

<sup>c</sup>Includes nonnegligent manslaughter and attempted murder.

Note: These data are from the U.S. Department of Justice, Bureau of Justice Statistics' Federal Justice Statistics database maintained by Abt Associates, Inc. Sources of information include the Executive Office for U.S. Attorneys, the Administrative Office of the United States Courts, the Federal Bureau of Prisons, the Pretrial Services Agency, and other Federal agencies. Suspects are persons under investigation or interrogation as likely perpetrators of a criminal offense. Matters are potential cases under review by U.S. attorneys on which more than 1 hour is expended. For methodology and definitions of terms, see Appendix 11.

<sup>a</sup>Data for 1991 are incomplete due to changes in the Executive Office for U.S. Attorneys' reporting system.

<sup>b</sup>Total may include cases for which offense category could not be determined.

<sup>c</sup>Excludes tax fraud.

<sup>d</sup>Includes tax fraud.

Black	6,656	29.4	27.1	30.8	34.2	33.2	13.3	20.1
Other	1,025	4.5	10.8	3.5	5.1	3.5	6.0	5.4
<b>Ethnicity</b>								
Hispanic	4,817	21.0	6.9	10.1	5.9	26.4	14.1	32.0
Non-Hispanic	18,106	79.0	93.1	89.9	94.1	73.6	85.9	68.0
<b>Age</b>								
19 to 20 years	430	2.1	2.6	1.4	3.6	2.1	1.5	2.0
21 to 30 years	7,800	37.6	35.8	32.6	37.2	41.3	25.9	36.9
31 to 40 years	6,777	32.7	36.0	31.4	28.6	34.5	32.0	30.2
Over 40 years	5,725	27.6	25.4	34.5	30.7	22.0	40.6	30.9
<b>Education</b>								
Less than high school graduate	9,366	42.8	42.9	26.0	35.8	47.9	27.6	53.9
High school graduate	7,141	32.6	34.3	34.5	40.1	31.4	37.5	28.8
Some college	3,939	18.0	18.1	26.9	18.2	16.3	20.9	12.0
College graduate	1,452	6.6	4.7	12.6	5.9	4.4	14.0	5.3
<b>Criminal record</b>								
None	7,439	32.9	15.0	44.7	34.8	32.5	47.6	23.7
Prior adult conviction								
Never incarcerated	7,696	34.1	28.4	32.7	34.3	37.4	33.4	29.1
Incarcerated								
1 year or less	5,362	23.7	38.3	17.1	22.5	21.5	14.7	33.9
More than 1 year	2,090	9.3	18.3	5.5	8.3	8.6	4.3	13.3

Note: See Note, table 5.6. This table was created by matching the Administrative Office master data files with the United States Sentencing Commission monitoring system files, which include records for sentences imposed under the guidelines only. Previous years also included information about characteristics of offenders who were not sentenced under the guidelines, but during calendar year 1990, Federal agencies other than the Sentencing Commission discontinued recording of data about convicted offender characteristics. Since the sentencing guidelines are effective for offenses committed after Nov. 1, 1987, the offenders whose characteristics are included in these tables for 1990 are disproportionately offenders whose court cases were completed rapidly. Juvenile offenders are not subject to guidelines and are no longer included in tables showing offender characteristics.

Records were included in the tables if the relevant information was available from either source. Administrative Office master data file records that did not contain the relevant information and did not correspond to a Sentencing Commission record were excluded from the tabulated items. Tables indicate the number of records for which relevant data were available. (Source, pp. 59, 60.) For methodology and definitions of terms, see Appendix 11.

<sup>a</sup>Defendant characteristics are not directly comparable with prior years.

Note: See Note, table 5.6. Total excludes eight convicted defendants whose sentence could not be determined. The sum of the defendants exceeds 100 percent because split and mixed sentences are counted in both incarceration and probation. Data are derived from records of cases terminated in 1990. For methodology and definitions of terms, see Appendix 11.

<sup>a</sup>All sentences to incarceration, including split, mixed, life, indeterminate, and youth sentences.

<sup>b</sup>Includes offenders with split and mixed sentences.

<sup>c</sup>Sentences to probation combined with incarceration.

<sup>d</sup>Excludes life and indeterminate sentences for youthful or drug offenders. These excluded cases represent 0.03 percent of all incarcerations.

<sup>e</sup>Too few cases to obtain statistically reliable data.

<sup>f</sup>May include some non-violent offenses.

<sup>g</sup>Excludes tax fraud.

<sup>h</sup>Excludes transportation of stolen property.

<sup>i</sup>No cases of this type occurred in the data.

<sup>j</sup>Excludes fraudulent property offenses; includes destruction of property, trespass.

Note: See Note, table 5.14. Data for 1990 through 1992 reflect a change in the Administrative Office of the United States Courts file closeout procedures and are not exactly comparable to data for earlier years (Source, p. 19). These data include all sentences to incarceration longer than 4 days regardless of whether the term was concurrent or consecutive with a period of probation, a fine, or other condition. For methodology and definitions of terms, see Appendix 11.

<sup>a</sup>Includes sentences to prison with or without probation.

<sup>b</sup>Totals may include cases for which offense category could not be determined, but excludes cases for which sentence category could not be determined.

<sup>c</sup>Excludes tax fraud.

<sup>d</sup>Data have been revised by the Source.

<sup>e</sup>Includes tax fraud.

Other	15.7	17.8	17.2	12.5	13.9	16.9	17.5

Note: See Note, table 5.14. These data include only prisoners serving U.S. District Court sentences first released in the indicated calendar year, regardless of sentence length. The data exclude subsequent releases (e.g., parole violators) and prisoners received from other sources (e.g., courts martial and probation violators). For methodology and definitions of terms, see Appendix 11.

<sup>a</sup>Prisoners are classified according to the offense associated with the longest sentence actually imposed. Offense categories are based on combinations of offense designations used by the Bureau of Prisons. They are similar to the categories in other tables, but may not be directly comparable.

<sup>b</sup>Total includes offenders whose offense category could not be determined.

<sup>c</sup>Excludes tax fraud.

<sup>d</sup>Includes tax fraud.

1985	19,938	38,546	954	37,139	22,299
1986	22,299	40,427	1,063	39,333	24,456
1987	24,453	41,794 <sup>a</sup>	1,136	42,287	25,458
1988	25,263	43,116	1,082	42,115	27,733
1989	27,722	44,467	1,104	42,810	30,907
1990	30,910	47,565	942	44,295	35,519
1991	35,021	44,799	680	42,788	37,968
1992	39,562	47,298	894	44,147	43,781
1993	34,078	45,682	883	44,800	36,064

Note: There are two reporting changes during fiscal year 1976 that have affected the data base. Beginning Oct. 1, 1975, all minor offenses (offenses involving penalties that do not exceed 1 year imprisonment or a fine of more than \$1,000), with the exception of most petty offenses (offenses involving penalties that do not exceed 6 months incarceration and/or a fine of not more than \$500), are included. Minor offenses are generally disposed of by the magistrates and, in past years, most of these minor offenses would not have been counted in the workload of the district courts. Second, when the Federal Government's motion to dismiss an original indictment or information is granted, the superseding indictment or information does not become a new case as in the years prior to 1976, but remains the same case. (An indictment is the charging document of the grand jury, and an information is the charging document of the U.S. attorney.) Data for 1955-91 are reported for the 12-month period ending June 30. Beginning in 1992, data are reported for the Federal fiscal year, which is the 12-month period ending September 30.

"Received by transfer" includes defendants transferred by Rule 20, *Federal Rules of Criminal Procedure*, which provides that defendants who (1) are arrested or held in a district other than that in which an indictment or information is pending against them or in which the warrant for their arrest was issued and (2) state in writing that they wish to plead guilty or nolo contendere, may consent to disposition of the case in the district in which they are arrested or are held, subject to the approval of the U.S. attorney for both districts.

<sup>a</sup>Does not include 362 cases that were reopened during the reporting period.

Note: See Note, table 5.27. These data represent defendants charged with Federal offenses under the following statutes: Title 21 U.S.C. 176(a) (the Marijuana Tax Act); Title 26 U.S.C. 1407 (Customs laws governing border crossings by narcotic addicts or violators); Title 18 U.S.C. 4741-62 (imposition of tax and affixing of tax stamps); 18 U.S.C. 1403 (conspiracy to commit an offense under the Narcotic Drug Import and Export Act); 18 U.S.C. 1406 (immunity from prosecution for grand jury testimony concerning violations of the Narcotic Drug Import and Export Act); other provisions of the Narcotic Drug Import and Export Act (Title 18 U.S.C. 171-200); and other narcotic drug laws (26 U.S.C. 4701-4736, 7237).

The District of Columbia is excluded from these data through 1973. The territorial courts of the Virgin Islands, Canal Zone, and Guam are excluded through 1976.

Prior to 1977, the periods reported for lengths of sentences of imprisonment are 1 year and 1 day and under, over 1 year and 1 day to 3 years, 3 to 5 years, and 5 years and over. Beginning in 1977, the periods reported for lengths of sentences of imprisonment are 1

through 12 months, 13 through 35 months, 36 through 59 months and 60 months and over. Beginning in 1991, two of the periods reported for lengths of sentences to imprisonment changed. The period 36 through 59 months changed to 36 through 60 months, and the period 60 months and over changed to over 60 months.

<sup>a</sup>Includes sentences of more than 6 months that are to be followed by a term of probation (mixed sentences). Beginning in 1991, includes sentences of at least 1 month that may be followed by a term of probation.

<sup>b</sup>From 1968-81 and 1990-93, defendants who were committed pursuant to Title 28 U.S.C. 2902(b) of the Narcotic Addict Rehabilitation Act are included in the dismissed column.

<sup>c</sup>From 1978-88, "other" includes split sentences, indeterminate sentences, and Youth Corrections Act or youthful offender sentences. In 1989 and 1990, the category includes split sentences and indeterminate sentences. Beginning in 1991, "other" includes suspended and sealed sentences, deportation, imprisonment of 4 days or less, and no sentence.

Type of sentence								Average sentence of imprisonment (in months) <sup>e</sup>	Average sentence to probation (in months) <sup>f</sup>
Imprisonment									
Total regular	Regular sentences <sup>a</sup>				Other <sup>c</sup>	Probation	Fine and other <sup>d</sup>		
	1 through 12 months	13 through 35 months	36 through 59 months	60 months and over

16,247	1,933	3,426	3,934	6,954	143	1,812	216	84.0	39.5

<sup>a</sup>Includes supervisory release, probation of 4 days or less, suspended sentences, sealed sentences, and no sentence.

<sup>b</sup>From 1978-90, split sentences, Youth Corrections Act and youthful offender sentences, and life sentences are not included in computing average sentence. Beginning in 1991, deportation, suspended sentence, sealed sentences, imprisonment of 4 days or less, no sentence, life sentences, and death sentences are not included in computing average sentence.

<sup>c</sup>From 1986-90, split sentences, indeterminate sentences, and Youth Corrections Act and youthful offender sentences are not included in computing average sentence. Beginning in 1991, supervisory release, probation of 4 days or less, suspended sentences, sealed sentences, and no sentence are not included in computing the average sentence.

<sup>d</sup>Defendants charged in two or more cases that were terminated during this year are reported only once.

<sup>e</sup>Includes 34 life sentences and 1 death sentence.

<sup>f</sup>Excludes no sentence, suspended sentences, sealed sentences, deportation, imprisonment of 4 days or less, life sentences, and death sentences.

<sup>g</sup>Includes 59 life sentences.

<sup>h</sup>Includes 158 life sentences.

Table adapted by SOURCEBOOK staff.

Table 5.38

**Federal racketeering and criminal enterprise matters concluded and declined by U.S. attorneys<sup>a</sup>**

By most serious offense investigated, United States, 1990

Most serious offense investigated	Matters concluded			Number of suspects declined	Matters declined			
	Number of suspects	Percent of suspects			No crime	Main reason for declination		
		Filed for prosecution	Declined			Referred for prosecution elsewhere	Case-related reasons <sup>b</sup>	Other reasons <sup>c</sup>
All offenses	95,760	63 %	37 %	35,239	16 %	25 %	30 %	29 %
Racketeering	2,704	52	48	1,302	16	19	45	20
Underlying offenses	8,317	49	51	4,268	18	20	37	24
Continuing Criminal Enterprise	440	85	15	67	1	31	31	36
Other drug offenses <sup>d</sup>	31,071	80	20	6,346	12	43	26	20
All other offenses	53,228	56	44	23,256	17	21	29	33

Note: These data are from the U.S. Department of Justice, Bureau of Justice Statistics' Federal Justice Statistics Program (FJSP). The information was provided by the Executive Office for U.S. Attorneys and the Administrative Office of the U.S. Courts. Abt Associates, Inc. generated the tables from the FJSP database. Federal racketeering statutes target a number of specific offenses, such as conspiracy to obstruct or obstruction of, interstate commerce by robbery or extortion; travel in interstate or foreign commerce, or use of the mails, with the intent to facilitate any unlawful activity; and any offer, acceptance, or solicitation of bribes to influence an employee benefit plan. The Organized Crime Control Act of 1970 amended existing Federal racketeering statutes to include the Racketeer Influenced and Corrupt Organizations Act (RICO). The statute defines *racketeering activity* as any of 27 types of violations of the U.S. Code and 8 types of State felonies. The 27 Federal offenses include specific types of gambling, prostitution, drug offenses, obscenity, theft, fraud, extortion, counterfeiting, bribery, obstruction of justice, cigarette bootlegging, and labor law violations. State predicate crimes include murder, kidnapping, gambling, arson, robbery, bribery, extortion, and drug offenses. The statute defines *enterprise* to include any individual, partnership, corporation, association, or other legal entity, or any group of individuals who, though not a legal entity, are associated in fact. Persons whose most serious offense was one of the listed U.S. Code violations, but who were not classified as racketeers or drug offenders were included under the

heading "underlying offenses." The Continuing Criminal Enterprise (CCE) statute targets only illegal drug activity. The statute makes it a crime to commit or conspire to commit a continuing series of felony violations of the 1970 Drug Abuse Prevention and Control Act when such acts are undertaken in concert with five or more other persons. Racketeering and CCE offenses were identified on the basis of the most serious offense mentioned. As a result, some racketeering offenders were excluded from the analysis because they were also charged with or convicted of a more serious offense (such as murder). Both individual and corporate cases are included, and both felonies and misdemeanors are included, unless otherwise indicated. (Source, pp. 2, 7.)

<sup>a</sup>Excludes matters resolved by U.S. magistrates.

<sup>b</sup>Includes reasons such as weak evidence and expiration of the statutes of limitations.

<sup>c</sup>Includes lack of resources to prosecute, minimal Federal interest, and failure to meet formal policy guidelines.

<sup>d</sup>Includes possession, which accounts for approximately 7 percent of Federal drug suspects.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Prosecuting Criminal Enterprises*, Special Report NCJ-142524 (Washington, DC: U.S. Department of Justice, November 1993), p. 3, Tables 1 and 2. Table adapted by SOURCEBOOK staff.

Southern	84	81	96.4	495	492	99.4	446	173	38.8

Note: These data are computed only for the respective time intervals actually begun and terminated during the year ending Sept. 30, 1992. The Speedy Trial Act of 1974 (U.S.C. 3152-3156 and 3161-3174) required each U.S. District Court to adopt a plan for the prompt disposition of criminal cases in accordance with statutory time limits. The time interval from arrest to indictment or information is 30 days (18 U.S.C. 3161(b)). Defendants entering a plea of not guilty must be brought to trial not more than 70 days after a filing of an information or indictment, or after an appearance before a judicial officer of the court in which the charge is pending, whichever comes last (18 U.S.C. 3161(c)(1)). The trial may not commence sooner than 30 days from the date the defendant first appears unless

written waiver is given (18 U.S.C. 3161(c)(2)). An indictment is the charging document of the grand jury and an information is the charging document filed by the U.S. attorney.

The Speedy Trial Act does not establish time limits governing the period between conviction and sentencing, but does require that statistics be furnished regarding the time span of this interval. The Committee on Administration of the Criminal Law of the Judicial Conference has recommended a 45-day time limit for the interval from conviction to sentencing.

Table 5.43

## Defendants disposed of in U.S. District Courts

By type of disposition, and type and length of sentence, years ending June 30, 1945-92<sup>a</sup>--Continued

Note: See Notes, tables 5.27 and 5.33. The District of Columbia is excluded from these data through 1973. The territorial courts of the Virgin Islands, Canal Zone, and Guam are excluded through 1976. Data provided for the year ending June 30, 1977 have been revised by the Source.

<sup>a</sup>Data for 1992 are reported for the Federal fiscal year, which is the 12-month period ending September 30.

<sup>b</sup>Includes sentences of more than 6 months that are to be followed by a term of probation (mixed sentences). Beginning in 1991, includes sentences of at least 1 month that may be followed by a term of probation.

<sup>c</sup>Includes defendants who were committed pursuant to 28 U.S.C. 2902(b) of the Narcotic Addict Rehabilitation Act.

<sup>d</sup>From 1979-85, total includes Federal Juvenile Delinquency Act sentences.

<sup>e</sup>A split sentence is a sentence on a one-count indictment of 6 months or less in a jail-type institution followed by a term of probation, 18 U.S.C. 3651 approved Aug. 23, 1958 (72 Stat. 834). Included are mixed sentences involving confinement for 6 months or less on one count to be followed by a term of probation on one or more counts. For 1959-62, split sentences are included in prison terms of 1 year and 1 day and under.

<sup>f</sup>18 U.S.C. 4205B(1) and (2).

<sup>g</sup>18 U.S.C. 5010(b) and (c) (repealed 10/14/84). Included in total imprisonment prior to 1977.

<sup>h</sup>From 1945-60, "other" was included with sentences of probation. From 1986-90, "other" included deportation, suspended sentences, imprisonment for 4 days or less, time already served, remitted and suspended fines, and life sentences. Beginning in 1991, "other" includes supervisory release, probation of 4 days or less, suspended sentences, sealed sentences, and no sentence.

<sup>i</sup>From 1977-90, split sentences, Youth Corrections Act and youthful offender sentences, and life sentences were not included in computing average sentence. Beginning in 1991, deportation, suspended sentence, sealed sentences, imprisonment of 4 days or less, no sentences, life sentences, and death sentences were not included in computing average sentence.

<sup>j</sup>From 1986-90, split sentences, indeterminate sentences, and Youth Corrections Act and youthful offender sentences were not included in computing average sentences. Beginning in 1991, supervisory release, probation of 4 days or less, suspended sentences, sealed sentences, and no sentence were not included in computing the average sentence.

<sup>k</sup>Beginning in 1991, defendants charged in two or more cases that were terminated during the year are reported only once.

<sup>l</sup>Includes 43 life sentences, 1 death sentence, and 336 cases with either no sentence, a suspended sentence, a sealed sentence, deportation, or imprisonment of 4 days or less.

<sup>m</sup>Includes 111 life sentences and 860 cases with either no sentence, a suspended sentence, a sealed sentence, deportation, or imprisonment of 4 days or less.

Note: The sentencing reform provisions of the Comprehensive Crime Control Act, Public Law No. 98-473 (1984), created the United States Sentencing Commission. The Commission's primary function is to develop sentencing policies and practices for the Federal courts. On Apr. 13, 1987, the Commission submitted its Initial Sentencing Guidelines and Policy Statements to Congress. The guidelines became effective on Nov. 1, 1987, and apply to all offenses committed on or after that date. These data are derived from the United States Sentencing Commission's fiscal year 1993 data file. The Commission collected information on 42,107 cases sentenced under the Sentencing Reform Act of 1984 during fiscal year 1993 (Oct. 1, 1992 through Sept. 30, 1993), for which data were received by the Commission as of Jan. 11, 1994. Given the nature of the data file and reporting requirements, the following types of cases are not included in the data presented here: cases initiated but for which no convictions were obtained; defendants convicted for whom no sentences were yet issued; defendants sentenced but for whom no data were submitted to the Commission; cases that solely involved petty offenses, organizational defendants, or diversionary sentences; and cases not sentenced under the Sentencing Reform Act of 1984 (non-guideline cases).

A case or defendant is defined as a single sentencing event for a single defendant (even if multiple indictments or multiple convictions are consolidated for sentencing). Multiple defend-

ants in a single sentencing event are treated as separate cases. If an individual defendant is sentenced more than once during the time period of interest, each sentencing event is identified as a separate case. (Source, p. 51.)

Of the 42,107 guideline cases some were excluded due to missing information. For sex, 107 cases were excluded due to one or both of the following conditions: missing primary offense category, 94; and missing gender information, 33. For race and ethnicity, 427 cases were excluded due to one or both of the following conditions: missing primary offense category, 94; and missing race or ethnicity information, 388.

Under drug offenses, "communication facility" refers to the use of a communication facility, e.g., a telephone, in a drug trafficking offense.

<sup>a</sup>The Hispanic category includes both black and white Hispanics.

<sup>b</sup>Includes Native Americans, Alaska Natives, Asians, or Pacific Islanders.

Table 5.52

## Defendants sentenced for drug trafficking under U.S. Sentencing Commission guidelines

By race, ethnicity, and offense, fiscal year 1993

Offense	Total cases	Race, ethnicity <sup>a</sup>							
		White		Black		Hispanic		Other <sup>b</sup>	
		Number	Percent	Number	Percent	Number	Percent	Number	Percent
Total	18,281	6,033	33.0 %	5,824	31.9 %	6,104	33.4 %	320	1.8 %
Drug trafficking	16,439	5,407	32.9	5,265	32.0	5,479	33.3	288	1.8
Protected locations <sup>c</sup>	523	96	18.4	275	52.6	143	27.3	9	1.7
Continuing criminal enterprise	80	25	31.3	35	43.8	20	25.0	0	X
Use of communication facility	218	91	41.7	50	22.9	73	33.5	4	1.8
Rent/manage drug establishment	118	47	39.8	38	32.2	29	24.6	4	3.4
Possession <sup>d</sup>	903	367	40.6	161	17.8	360	39.9	15	1.7

Note: See Note, table 5.46. This table includes only the 18,397 cases in which drug trafficking was the primary offense. Of these 18,397 cases, 110 cases sentenced for technical or reporting violations have been excluded. Of the remaining 18,287 cases, 6 were excluded due to missing information on race of the defendant.

<sup>a</sup>The Hispanic category includes both black and white Hispanics.

<sup>b</sup>Includes Native Americans, Alaska Natives, Asians, or Pacific Islanders.

<sup>c</sup>Offenses occurring near designated protected locations such as schools or playgrounds.

<sup>d</sup>Includes distribution of a small amount of marijuana and simple possession.

Note: See Note, table 5.46. Of the 42,107 guideline cases, complete information was received on 35,635 cases. Of these 35,635 cases, 156 were excluded due to one or more of the following conditions: missing primary offense category, 21; missing guideline range information, 43; missing sentencing information, 47; missing departure information, 39; and missing statutory information, 11. Also, 1,834 cases were excluded due to several logical criteria other than missing information.

<sup>a</sup>Cases departed downward based on a motion by the Government for a reduced sentence due to the defendant's substantial assistance to authorities.

Table 5.54

## Problems in felony case processing reported by State prosecutors' offices

By areas of difficulty, United States, 1992

Areas of difficulty	Percent of prosecutors' offices reporting
<b>Reasons for court dismissals</b>	
All types of problems	75 %
Search or seizure problems	55
Unavailability of prosecution witnesses	49
Speedy trial time restrictions	20
Language barrier	17
Self-incrimination	15
Defense of former jeopardy	11
Right to counsel	7
<b>Declined, diverted, or deferred cases because of:</b>	
Victim reluctance	69
Witness reluctance	37
<b>Rescheduled trial dates</b>	
Rescheduled trials because of unavailability of witness for:	66
Prosecution	61
Defense	55
<b>Other areas of difficulty</b>	
Offices contending with the following complexities:	60
Writ of extradition filed	
In another State	43
By another State	32
Inmate's habeas corpus petition	29
Arrest policy for domestic violence	21

Note: These data were collected by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics, as part of the 1992 National Prosecutor Survey Program (NPSP). The NPSP utilized a nationally representative sample comprised of 290 chief prosecutors. Questionnaires were mailed to the 290 chief prosecutors' offices in August 1992 and usable responses were received from 262 offices. These data are derived from a sample and therefore subject to sampling variation.

Unspecified	35,951	4.3
<b>Weapons offenses</b>	20,733	2.5
<b>Other offenses<sup>f</sup></b>	105,484	12.7

Note: These data are derived from the National Judicial Reporting Program (NJRP), a biennial survey of State felony courts. Data were collected by the U.S. Bureau of the Census and the National Association of Criminal Justice Planners for the U.S. Department of Justice, Bureau of Justice Statistics. The first survey, conducted in 1986, reported on felony case processing in State courts in a sample of 100 counties. The samples collected in 1988 and 1990 were expanded to include 300 counties selected to be nationally representative. All three samples included the same 54 counties representative of the Nation's 75 largest. Only offenses that State penal codes define as felonies are included. Excluded are Federal courts and State courts or local courts that did not try felony cases. Case-level data were successfully obtained on convicted felons sentenced in 1990 from all 300 sampled counties. Sentencing data specifying the conviction offense were available for 100 percent of the sample. These data are estimates derived from a sample and therefore subject to sampling variation. Detail may not sum to total because of rounding.

For definitions of terms and survey sampling procedures, see Appendix 12.

<sup>a</sup>Manslaughter defined as nonnegligent manslaughter only.

<sup>b</sup>In a small number of cases where it was unclear whether the offense was murder or manslaughter, the case was classified under manslaughter.

<sup>c</sup>Includes offenses such as negligent manslaughter, sexual assault, and kidnapping.

<sup>d</sup>Includes a small number of unspecified offenses.

<sup>e</sup>Includes embezzlement.

<sup>f</sup>Composed of nonviolent offenses such as receiving stolen property and driving while intoxicated.

Other violent <sup>b</sup>	2,509	14	1,246	7	639	4	15,031	86
Property offenses	19,478	7	8,363	3	7,180	3	261,246	93
Burglary	8,509	8	3,865	4	3,353	3	101,242	92
Larceny <sup>c</sup>	7,275	6	2,928	3	2,588	2	105,819	94
Fraud <sup>d</sup>	3,694	6	1,570	3	1,239	2	54,209	94
Drug offenses	24,357	9	8,905	3	9,709	4	250,256	91
Possession	7,606	7	1,964	2	2,858	3	98,646	93
Trafficking	16,751	10	6,941	4	6,851	4	151,610	90
Weapons offenses	2,352	11	825	4	1,145	6	18,381	89
Other offenses <sup>e</sup>	8,061	8	3,678	3	2,371	2	97,423	92

Note: See Note, table 5.55. Data on type of conviction were available for 81 percent of the estimated total. Table figures include estimates for cases missing a designation on type of conviction. Consequently, detail sums to the 1990 total of 829,344 felony convictions. Also, the trial total includes trial cases missing information on whether the trial was jury versus bench. Consequently, the trial total exceeds the sum of jury plus bench. For definitions of terms and survey sampling procedures, see Appendix 12.

<sup>a</sup>Includes nonnegligent manslaughter.

<sup>b</sup>Includes offenses such as negligent manslaughter, sexual assault, and kidnapping.

<sup>c</sup>Includes motor vehicle theft.

<sup>d</sup>Includes forgery and embezzlement.

<sup>e</sup>Composed of nonviolent offenses such as receiving stolen property and driving while intoxicated.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *National Judicial Reporting Program, 1990*, NCJ-145323 (Washington, DC: U.S. Department of Justice, 1993), pp. 40, 41. Table adapted by SOURCEBOOK staff.

Table 5.58

## Felony sentences imposed by State courts

By most serious conviction offense, United States, 1990

Most serious conviction offense	Total	Percent of felons sentenced to:			
		Incarceration			
		Total	Prison	Jail	Probation
All offenses	100 %	71 %	46 %	25 %	29 %
Violent offenses	100	80	59	21	20
Murder <sup>a</sup>	100	95	91	4	5
Rape	100	86	67	19	14
Robbery	100	90	73	17	10
Aggravated assault	100	72	45	27	28
Other violent <sup>b</sup>	100	67	42	25	33
Property offenses	100	66	44	22	34
Burglary	100	75	54	21	25
Larceny <sup>c</sup>	100	65	40	25	35
Fraud <sup>d</sup>	100	53	33	20	47
Drug offenses	100	72	43	29	28
Possession	100	64	35	29	36
Trafficking	100	77	49	28	23
Weapons offenses	100	62	38	24	38
Other offenses <sup>e</sup>	100	66	37	29	34

Note: See Note, table 5.55. Data on sentence type were available for 99.4 percent of the estimated total. For persons receiving a combination of sentences, the sentence designation came from the most serious penalty imposed -- prison being the most serious, followed by jail, then probation. "Prison" includes sentences to death. For definitions of terms and survey sampling procedures, see Appendix 12.

<sup>a</sup>Includes nonnegligent manslaughter.

<sup>b</sup>Includes offenses such as negligent manslaughter, sexual assault, and kidnapping.

<sup>c</sup>Includes motor vehicle theft.

<sup>d</sup>Includes forgery and embezzlement.

<sup>e</sup>Composed of nonviolent offenses such as receiving stolen property and driving while intoxicated.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *National Judicial Reporting Program, 1990*, NCJ-145323 (Washington, DC: U.S. Department of Justice, 1993), p. 6.

Table 5.59

## Average length of felony sentences imposed by State courts

By most serious conviction offense, United States, 1990

(In months)

Most serious conviction offense	Maximum sentence length for felons sentenced to:			
	Incarceration			
	Total	Prison	Jail	Probation
<b>Average sentence</b>				
All offenses	52	75	8	42
Violent offenses	91	119	10	46

Possession	100	51	48	1	100	36	64	(e)
Trafficking	100	48	51	1	100	35	65	(e)
Weapons offenses	100	45	54	1	100	39	61	(e)
Other offenses <sup>f</sup>	100	69	29	2	100	59	40	1

Note: See Notes, tables 5.55 and 5.63. Data on race were available for 65 percent of the estimated total. For definitions of terms and survey sampling procedures, see Appendix 12.

<sup>a</sup>Includes nonnegligent manslaughter.

<sup>b</sup>Includes offenses such as negligent manslaughter, sexual assault, and kidnapping.

<sup>c</sup>Includes motor vehicle theft.

<sup>d</sup>Includes forgery and embezzlement.

<sup>e</sup>Less than 0.5 percent.

<sup>f</sup>Composed of nonviolent offenses such as receiving stolen property and driving while intoxicated.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *National Judicial Reporting Program, 1990*, NCJ-145323 (Washington, DC: U.S. Department of Justice, 1993), p. 34.

Table 5.65

## Felons sentenced to additional penalties by State courts

By most serious conviction offense and type of penalty, United States, 1990

Most serious conviction offense	Fine	Rest-tution	Treat-ment	Community service	Other
All offenses	16 %	16 %	7 %	4 %	10 %
Violent offenses	11	13	7	4	10
Murder <sup>a</sup>	7	8	2	1	4
Rape	13	12	8	2	10
Robbery	6	10	3	2	5
Aggravated assault	14	18	10	6	13
Other violent <sup>b</sup>	19	12	13	7	16
Property offenses	13	26	6	5	11
Burglary	12	23	5	4	9
Larceny <sup>c</sup>	15	25	6	5	12
Fraud <sup>d</sup>	14	35	4	5	11
Drug offenses	17	8	7	4	9
Possession	19	6	9	5	9
Trafficking	16	10	6	3	8
Weapons offenses	14	8	5	3	9
Other offenses <sup>e</sup>	25	13	8	4	15

Note: See Note, table 5.55. Additional penalties are penalties imposed in addition to the primary penalty of jail, prison, or probation. Examples of penalties in the category "other" are community control, house arrest, work release, drug testing, and loss of driver's license. Where the data indicated affirmatively that a particular additional penalty was imposed, the case was coded accordingly. Where the data did not indicate affirmatively or negatively, the case was treated as not having an additional penalty. These procedures provide a conservative estimate of the prevalence of additional penalties. Persons receiving more than one type of additional penalty appear under more than one penalty heading. For definitions of terms and survey sampling procedures, see Appendix 12.

<sup>a</sup>Includes nonnegligent manslaughter.

<sup>b</sup>Includes offenses such as negligent manslaughter, sexual assault, and kidnapping.

<sup>c</sup>Includes motor vehicle theft.

<sup>d</sup>Includes forgery and embezzlement.

<sup>e</sup>Composed of nonviolent offenses such as receiving stolen property and driving while intoxicated.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *National Judicial Reporting Program, 1990*, NCJ-145323 (Washington, DC: U.S. Department of Justice, 1993), p. 13.

Table 5.66

## Number of days between arrest and conviction for felony cases disposed by State courts

By most serious conviction offense and method of conviction, United States, 1990

(In days)

Most serious conviction offense	Average number of days between arrest and conviction for cases disposed by:				
	Total	Total	Trial Jury	Bench	Guilty plea

Other property	5,323	9.4
Drug offenses	18,586	32.8
Sales/trafficking	10,405	18.4
Other drug	8,181	14.4
Public-order offenses	4,281	7.6
Driving-related	1,295	2.3
Other public-order	2,986	5.3

Note: These data were collected by the Pretrial Services Resource Center for the U.S. Department of Justice, Bureau of Justice Statistics as part of the National Pretrial Reporting Program (NPRP). The data are based on a sample of 39 of the 75 most populous counties in the United States and a sample of felony defendants in each of the 39 counties. The sample was designed and selected by the U.S. Bureau of the Census. Information is based on 13,597 sample felony cases processed in the 39 counties in May 1990. These data are derived from a sample and therefore subject to sampling variation.

Data for the specific arrest charges were available for 99.7 percent of all cases. For survey methodology, definitions of terms, and crimes within offense categories, see Appendix 13.

<sup>a</sup>Detail may not add to total because of rounding.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Felony Defendants in Large Urban Counties, 1990*, NCJ-141872 (Washington, DC: U.S. Department of Justice, 1993), p. 2, Table 1.

Sales/trafficking	7,028	100	32	32	19	18
Other drug	4,487	100	38	39	11	11
Public-order offenses	2,480	100	42	33	10	16
Driving-related	825	100	39	35	9	16
Other public-order	1,655	100	43	32	10	15

Note: See Note, table 5.67. Table includes only defendants for whom a bail amount was set. For survey methodology, definitions of terms, and crimes within offense categories, see Appendix 13.

<sup>a</sup>Detail may not add to total because of rounding.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Pretrial Release of Felony Defendants, 1990*, Bulletin NCJ-139560 (Washington, DC: U.S. Department of Justice, November 1992), p. 4, Table 3.

Table 5.72

## Released felony defendants who failed to make a scheduled court appearance in the 75 largest counties

By selected defendant characteristics, 1990<sup>a</sup>

Defendant characteristics	Number of defendants	Total	Percent making all scheduled court appearances	Percent failing to appear in court <sup>b</sup>		
				Total	Returned to court	Remained a fugitive
All released defendants	34,831	100 %	76 %	24 %	16 %	8 %
<b>Most serious arrest charge</b>						
Violent offenses	8,606	100	81	19	12	6
Property offenses	11,990	100	72	28	19	9
Drug offenses	11,466	100	74	26	17	8
Public-order offenses	2,769	100	87	13	9	4
<b>Sex</b>						
Male	28,672	100	76	24	16	8
Female	5,624	100	77	23	15	7
<b>Race</b>						
Black	16,399	100	71	29	19	10
White	14,119	100	81	19	13	6
Other	599	100	89	11	6	5
<b>Age</b>						
Under 21 years	8,136	100	77	23	15	7
21 to 24 years	6,241	100	75	25	17	8
25 to 29 years	7,239	100	74	26	18	8
30 to 34 years	5,612	100	76	24	17	8
35 years and older	7,017	100	80	20	12	8
<b>Court appearance history from prior arrests</b>						
Failed to appear <sup>b</sup>	7,704	100	61	39	29	1
Made all appearances	10,192	100	80	20	13	7
Had no prior arrests	11,776	100	83	17	10	7
<b>Type of release</b>						
Recognizance	13,543	100	71	29	18	11
Surety bond	7,841	100	86	14	11	3
Conditional	4,297	100	86	14	10	4
Full cash bond	3,520	100	76	24	15	9
Unsecured bond	2,738	100	64	36	26	10
Deposit bond	1,451	100	81	19	10	8
Emergency	520	100	51	49	44	5

Note: See Note, table 5.67. Data on court appearance record for the current case were available for 99 percent of cases involving a defendant released prior to case disposition. All defendants who failed to appear in court and were not returned to court within the 1-year study period were counted as fugitives. Some of these defendants may have been returned to the court at a later date. For survey methodology, definitions of terms, and crimes within offense categories, see Appendix 13.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Failure to appear occurs when a court issues a bench warrant for a defendant's arrest because he or she has missed a scheduled court appearance.

<sup>a</sup>Detail may not add to total because of rounding.

Table 5.74

## Sentences received by convicted defendants in the 75 largest counties

By most serious conviction offense, 1990<sup>a</sup>

Most serious conviction offense	Number of defendants	Total	Type of sentence					
			Incarceration			Nonincarceration		
			Total	Prison	Jail	Total	Probation	Fine <sup>b</sup>
All offenses	28,552	100 %	73 %	37 %	36 %	27 %	25 %	3 %
All felonies	23,118	100	75	43	32	25	24	1
Violent offenses	4,330	100	79	52	27	21	21	(c)
Murder	133	100	93	87	6	7	7	0
Rape	255	100	92	53	39	8	8	0
Robbery	1,646	100	87	65	22	13	13	0
Assault	1,680	100	71	41	31	29	28	1
Other violent	616	100	71	43	28	29	29	0
Property offenses	8,049	100	71	42	29	29	29	1
Burglary	2,618	100	80	53	27	21	20	(c)
Theft	3,291	100	71	40	31	29	28	1
Other property	2,139	100	59	31	28	41	40	1
Drug offenses	8,714	100	78	41	37	22	21	1
Sales/trafficking	5,721	100	80	43	37	20	20	1
Other drug	2,993	100	74	36	39	26	25	1
Public-order offenses	2,026	100	71	39	33	29	27	2
Driving-related	781	100	79	39	40	21	18	3
Other public-order	1,245	100	66	38	28	34	32	2
Misdemeanors	5,433	100	64	10	54	36	26	11

Note: See Note, table 5.67. Data on type of sentence were available for 93 percent of cases involving defendants who had been convicted. These data reflect the most serious type of sentence received. Sentences to incarceration may have also included a probation term. Sentences to prison, jail, or probation may have included a fine, restitution, or community service. For survey methodology, definitions of terms, and crimes within offense categories, see Appendix 13.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Fines include restitution or community service in some instances.

<sup>c</sup>Less than 0.5 percent.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Felony Defendants in Large Urban Counties, 1990*, NCJ-141872 (Washington, DC: U.S. Department of Justice, 1993), p. 17.

Table 5.75

## Average sentences to incarceration for defendants convicted of a felony in the 75 largest counties

By most serious conviction offense, 1990

Most serious felony conviction offense	Length of sentence (in months)			
	Prison		Jail	
	Average	Median	Average	Median
All felonies	63	36	7	6
Violent offenses	97	60	8	6
Murder	233	120	10	12
Rape	99	72	9	8
Robbery	93	60	9	9
Assault	80	60	7	6
Other violent	95	60	7	6
Property offenses	59	36	7	6
Burglary	64	48	8	6
Theft	56	36	7	6
Other property	55	36	6	3
Drug offenses	51	36	6	6
Sales/trafficking	53	36	7	6
Other drug	47	36	5	3
Public-order offenses	35	24	7	6
Driving-related	24	16	8	9
Other public order	40	24	6	4

Note: See Note, table 5.67. Data on length of prison sentence were available for 83 percent of convicted defendants who were sentenced to prison. Data on length of jail sentence were available for 95 percent of convicted defendants who were sentenced to jail. Averages and medians were calculated using defendants' maximum sentence. Sentences to incarceration may have also included a probation term. For survey methodology, definitions of terms, and crimes within offense categories, see Appendix 13.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Felony Defendants in Large Urban Counties, 1990*, NCJ-141872 (Washington, DC: U.S. Department of Justice, 1993), p. 18, Table 21.

Table 5.76

## Characteristics of juvenile offenders in cases disposed by juvenile courts

By type of offense, United States, 1991<sup>a</sup>

Characteristics	Type of offense				
	All offenses (N=1,338,100)	Person (N=260,300)	Property (N=793,900)	Drug (N=59,300)	Public-order (N=224,600)
Total	100 %	100 %	100 %	100 %	100 %
Sex					
Male	81.2	80.0	81.3	87.9	80.7
Female	18.8	20.0	18.7	12.1	19.3
Race					
White	65.1	55.5	69.3	50.2	65.1
Black	31.6	41.7	27.0	48.2	31.8
Other <sup>b</sup>	3.4	2.8	3.7	1.6	3.1
Age at referral to court					
13 years and younger	22.8	24.1	25.7	6.3	15.2
14 years	16.3	16.6	16.9	11.0	15.3
15 years	20.8	20.4	20.6	21.4	22.0
16 years	22.5	22.1	21.2	30.3	25.4
17 years and older	17.6	16.7	15.6	31.0	22.1

Note: These data were collected by the National Center for Juvenile Justice (NCJJ) for the U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention. The data are gathered from courts with juvenile jurisdiction in participating States. Information reported is based on national estimates of delinquency cases disposed by juvenile courts in the United States during 1991 (N=1,338,100). These estimates were derived from a sample of 553,243 individual case records from 1,182 jurisdictions in 23 States with jurisdiction over 45 percent of the Nation's youth population at risk and a sample of compatible court-level aggregate statistics on an additional 155,176 delinquency cases from 322 jurisdictions in an additional 7 States. The final sample included data reported by 1,504 jurisdictions covering 57 percent of the Nation's youth population at risk. These data were derived from a nonprobability sample of courts; therefore statistical confidence in the estimates cannot be determined. These data files were developed by NCJJ and originally analyzed for the Juvenile Court Statistics series. For survey methodology, definitions of terms, and offenses within categories, see Appendix 14.

<sup>a</sup>Subcategories may not add to total because of rounding or interpolation techniques.

<sup>b</sup>Includes primarily Asians, Native Americans, and Pacific Islanders. Most individuals of Hispanic origin would be coded as white in this categorization of race/ethnicity.

Source: National Center for Juvenile Justice, "National Estimates of Juvenile Court Delinquency Cases: 1987-1991" (machine-readable data file), U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention (Pittsburgh, PA: National Center for Juvenile Justice, 1994). Table constructed by SOURCEBOOK staff.

Table 5.77

## Type of offenses in cases disposed by juvenile courts

By offender characteristics, United States, 1991<sup>a</sup>

Type of offense	Age at referral to court									
	Sex		Race		Other <sup>b</sup>	13 years and younger				
	Male	Female	White	Black		14 years	15 years	16 years	17 years and older

Property	59.4	59.1	63.2	50.7	66.2	66.9	61.5	58.6	55.9	52.6
Drugs	4.8	2.9	3.4	6.8	2.1	1.2	3.0	4.6	6.0	7.8
Public order	16.7	17.3	16.8	16.9	15.4	11.2	15.7	17.7	19.0	21.1

Note: See Note, table 5.76. For survey methodology, definitions of terms, and offenses within categories, see Appendix 14.

<sup>a</sup>Subcategories may not add to total because of rounding or interpolation techniques.

<sup>b</sup>Includes primarily Asians, Native Americans, and Pacific Islanders. Most individuals of Hispanic origin would be coded as white in this categorization of race/ethnicity.

Source: National Center for Juvenile Justice, "National Estimates of Juvenile Court Delinquency Cases: 1987-1991" (machine-readable data file), U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention (Pittsburgh, PA: National Center for Juvenile Justice, 1994). Table constructed by SOURCEBOOK staff.

Table 5.78

## Juvenile court case outcomes

By demographic characteristics of juvenile offenders and type of offense, United States, 1991

	Delinquency cases		Petitioned cases		Adjudicated cases			
	Detained prior to juvenile court disposition	Petitioned	Adjudicated delinquent	Waived to adult court <sup>a</sup>	Placed out of home	Placed on probation	Dismissed	Other <sup>b</sup>
Total	20.3 %	49.7 %	58.9 %	1.5 %	28.7 %	56.6 %	3.9 %	10.8 %
<b>Sex</b>								
Male	21.5	52.1	59.9	1.6	29.5	56.0	3.8	10.7
Female	15.2	39.2	53.4	0.4	23.6	60.5	4.3	11.6
<b>Race</b>								
White	17.3	45.5	59.7	1.1	25.1	58.0	3.6	13.3
Black	26.2	58.3	56.7	2.0	34.5	55.1	4.6	5.7
<b>Age at referral to court</b>								
13 years and younger	13.5	37.9	56.6	0.0	24.1	62.2	3.5	10.2
14 years	21.0	49.5	61.5	0.1	30.7	56.9	3.2	9.2
15 years	23.6	53.4	62.0	0.5	31.9	55.2	3.7	9.1
16 years	24.0	53.6	60.0	1.7	30.4	55.7	3.8	10.1
17 years and older	20.1	55.7	54.1	4.6	24.7	54.0	5.3	15.9
<b>Offense</b>								
Person	24.9	54.9	54.2	2.3	33.0	54.5	4.2	8.4
Property	16.6	46.8	60.3	1.1	24.6	59.2	3.9	12.3
Drug	36.1	67.1	60.6	4.0	34.8	52.1	4.7	8.4
Public-order	24.0	49.0	60.0	0.6	35.4	51.8	3.4	9.3

Note: See Note, table 5.76. Care should be exercised when interpreting age, sex, or race differences because reported statistics do not control for variations in the seriousness of the offense or the prior criminal history of the juvenile. The racial category "other" comprised a small number of cases and was therefore omitted. For survey methodology, definitions of terms, and offenses within categories, see Appendix 14.

<sup>a</sup>The 1991 data exclude cases that were transferred to criminal court under concurrent jurisdiction provisions. Therefore, the counts of waived cases are lower than those presented in previous editions of SOURCEBOOK.

<sup>b</sup>Includes dispositions such as fines, restitution, community service, and referrals outside the court for services with minimal or no further court involvement anticipated.

Source: National Center for Juvenile Justice, "National Estimates of Juvenile Court Delinquency Cases: 1987-1991" (machine-readable data file), U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention (Pittsburgh, PA: National Center for Juvenile Justice, 1994). Table constructed by SOURCEBOOK staff.

Note: Petitions by Federal prisoners are suits brought against the Federal Government. Petitions by State prisoners are those petitions in which the State or its representative(s) is(are) named as the defendant(s). "Habeas corpus" is a writ whose object is to bring a party before a court or a judge. "Mandamus" is a writ from a superior court to an inferior court or to a public official, a corporation, etc., commanding that a specified action be taken. Data for 1977-91 are reported for the 12-month period ending June 30. Beginning in 1992, data are reported for the Federal fiscal year, which is the 12-month period ending September 30. Data for 1988-91 have been revised and may differ from previous editions of SOURCEBOOK.

Note: See Note, table 5.80. "Private cases" brought in U.S. District Courts include suits wherein litigation is between States and/or private citizens. Prisoner petitions included in this category are those filed by State prisoners naming a State or its representative(s) as the defendant(s). "Diversity of citizenship" refers to lawsuits between residents of different States. Since 1987, totals include reopened, remanded, and reinstated appeals as well as original appeals. Data for 1980-91 are reported for the 12-month period ending June 30. Beginning in 1992, data are reported for the Federal fiscal year, which is the 12-month period ending September 30.

<sup>a</sup>Includes tort actions; forfeiture and penalty; securities, commodities, and exchange; and tax suits.

<sup>b</sup>Includes labor suits.

<sup>c</sup>Includes real property actions.

<sup>d</sup>Includes marijuana, narcotics, controlled substances, and other drug-related offenses.

<sup>e</sup>Includes sex offenses, bribery, gambling, lottery, kidnaping, escape, perjury, drunk driving/traffic, and Federal statutes such as agricultural acts, antitrust violations, etc.

Note: "Original" refers to those cases that were on the Supreme Court docket previously and disposed of, but that have been reinstated for some reason. For all cases other than "original" ones, a docket filing fee must be "paid." If the petitioner is indigent, the docket filing fee is waived and the case is filed "in forma pauperis."

Note: "Writ of certiorari" is an order by the appellate court that is used when the court has discretion on whether to hear an appeal. If the appellate court grants the writ, it has the effect of ordering the lower court to certify the record and send it up to the higher court which will then hear the appeal. "U.S. civil" filings involve suits against the Federal Government brought in U.S. District Courts. "Private civil" filings involve suits wherein litigation is between States and/or private citizens. "Administrative appeals" include applications for enforcement or petitions for review of orders of an administrative board or agency. For a list of U.S. District Courts in each circuit, see table 5.29.

1992	100	76	27	26	47	24	100	61	67	29	5	39

Note: The data above represent actions taken during the annual terms of the U.S. Supreme Court. "Amicus" refers to a party who is not involved directly in the suit, but who demonstrates an interest in the case by filing a supportive brief. "Decided on merits" refers to a reassessment and resolution of the substantive issues presented in the case, but that does not involve active participation of the litigants through the filing of written and oral arguments.

<sup>a</sup>Includes cases summarily affirmed, reversed, or vacated on the In Forma Pauperis Docket.

<sup>b</sup>Percent is based on the total cases in which the Government participated.

<sup>c</sup>Includes cases in which the Government filed briefs as amicus curiae but did not participate in the argument.

<sup>d</sup>Includes cases set for reargument in succeeding terms.

1992	379	0	0	192	476
1993	868	36	2	251	928

Note: Article II, Section 2 of the U.S. Constitution authorizes the President to grant executive clemency for Federal offenses. The U.S. Pardon Attorney, in consultation with the Deputy Attorney General, receives and reviews all petitions for executive clemency, initiates the necessary investigations, and prepares the recommendations of the Deputy Attorney General to the President (Source, 1980, p. 35). Clemency may be a reprieve, remission of fine, commutation, or pardon. A "pardon," which is generally considered only after sentence completion, restores basic civil rights and may aid in the reinstatement of professional or trade licenses that may have been lost as a result of the conviction. A "commutation" is a reduction of sentence. Petitions denied also include those that are closed administratively. The figures presented in this table do not include clemency actions on draft resisters, or military deserters and absentees during the Vietnam era.

1993	6,146	4,266	1,726	142	3,216

Note: The Criminal Investigation Division of the Internal Revenue Service is responsible for enforcing the criminal provisions of the tax laws, investigating evidence of tax evasion or tax fraud, identifying and investigating persons who derive substantial income from illegal activities and who violate tax laws, investigating money laundering violations under the Bank Secrecy Act (Title 31), and recommending prosecution (Source, 1978, p. 30).

The Criminal Tax Division of the Office of Chief Counsel handles criminal tax legal matters for the Internal Revenue Service, reviews criminal cases and decides if cases warrant prosecution, coordinates criminal tax prosecutions with the U.S. Department of Justice, and provides assistance to U.S. attorneys in criminal tax trials upon request (Source, 1978, p. 53).

Some cases referred by the Criminal Investigation Division may not go through the Office of Chief Counsel. For example, recommendations to prosecute money laundering violations are referred directly to U.S. attorneys.

Note: See Note, table 5.88. An indictment is the charging document of the grand jury and an information is the charging document filed by the U.S. attorney. A "nolle prosequere" disposition occurs when a prosecutor decides not to prosecute a case. "No true bill" refers to cases in which the grand jury decides not to indict the defendant. "Nolo contendere" is a plea in a criminal case that has a similar legal effect as pleading guilty. The difference between a plea of guilty and a plea of nolo contendere is that the latter may not be used against the defendant in a civil action based on the same acts.

**Arrests and convictions handled by the U.S. Postal Inspection Service**

Fiscal years 1981-93

Year	Total		Mail fraud	
	Arrests	Convictions	Arrests	Convictions
1981	5,358	5,410	1,100	1,046
1982	5,658	4,783	1,026	966
1983	6,254	5,019	1,194	938
1984	6,426	5,095	1,272	1,042
1985	7,115	5,570	1,142	887
1986	8,620	6,608	1,435	1,131
1987	9,006	7,732	1,304	1,206
1988	10,470	8,114	1,488	1,015
1989	11,502	9,479	1,543	1,225
1990	12,060	9,614	1,699	1,486
1991	13,513	10,320	1,772	1,297
1992	14,578	11,359	1,904	1,582
1993	14,263	12,428	1,965	1,900

Note: The U.S. Postal Inspection Service is the law enforcement arm of the U.S. Postal Service. Responsibilities include reviewing U.S. Postal Service programs and projects (e.g., financial audits and program evaluations), safeguarding U.S. Postal Service assets (e.g., investigating worker compensation claims and employee embezzlement), protecting the work environment of postal employees (e.g., investigating threats and assaults against postal employees while on duty and removal of employees using and/or selling narcotics on postal property), and preserving the integrity of the mail and its use (e.g., investigating employee crime and non-employee crime related to the U.S. Postal Service). The number of convictions may be greater than the number of arrests in a given year because convictions may occur in a year subsequent to an arrest.

Source: U.S. Postal Service, U.S. Postal Inspection Service, *Semiannual Report, April 1 - September 30, 1991*, p. 55; *April 1 - September 30, 1992*, p. 65; *April 1 - September 30, 1993*, p. 60 (Washington, DC: U.S. Postal Inspection Service); and data provided by the U.S. Postal Service, U.S. Postal Inspection Service. Table constructed by SOURCEBOOK staff.

Table 5.91

## Arrests and convictions handled by the U.S. Postal Inspection Service

By type of offense, fiscal year 1993

Type of offense	Arrests	Convictions
Total	14,263	12,428
<u>Internal crime</u>		
Mail theft	1,241	1,181
Embezzlement	371	381
Workers' compensation fraud	45	37
Narcotics related	326	352
Miscellaneous	60	56
<u>External crime</u>		
Mail theft	5,548	4,931
Burglary	288	280
Robbery	168	159
Assault	558	400
Miscellaneous	921	783
<u>Prohibited mailings</u>		
Pornography/obscenity	180	151
Controlled substances	2,193	1,483
Bombs/explosive devices	171	151
Miscellaneous	120	93
Mail fraud	1,965	1,900
Fraud against U.S. Postal Service	108	90

Note: See Note, table 5.90. Internal crimes are those involving employees of the U.S. Postal Service and external crimes are those committed by individuals or groups outside the organization. Internal mail theft involves contractors and some non-employees engaged in mail-related work such as mailroom employees. Embezzlement includes theft of funds and falsification of records. Narcotics cases include both employees and non-employees selling narcotics on postal property. Miscellaneous internal crimes include theft of property and sabotage of equipment. External mail theft includes theft and possession of stolen mail. Assault includes threats and assaults against on-duty postal employees. Miscellaneous external crimes include counterfeit and contraband postage, money order offenses, vandalism, and arson. Pornography/obscenity includes sexually-oriented advertisements, and scurrilous and defamatory matter. Controlled substances include narcotics, steroids, drug-related proceeds, and drug paraphernalia. Miscellaneous prohibited mailings include hazardous material, firearms and weapons, intoxicants, explosives other than bombs, extortion, and false documents.

Note: Questionnaires are sent annually to the U.S. attorneys' offices in each of the Federal judicial districts eliciting data concerning indictments and convictions during the year as well as prosecutions awaiting trial on December 31 of each year. These data cover persons elected or appointed to office and career (staff) government employees; "others involved" include individuals who hold no official position, but who participated in an offense aimed at corrupting another's public office. "Abuse of public office" includes offenses such as extortion, bribery, and conflict of interest.

to have been more consistent reporting of lower-level employees who abused their office, cases that may have been overlooked in the past. For reference, the U.S. attorneys' offices were told: "For purposes of this questionnaire, a public corruption case includes any case involving abuse of office by a public employee. We are not excluding low-level employees or minor crimes, but rather focusing on the job-relatedness of the offense and whether the offense involves abuse of the public trust placed in the employee."

<sup>a</sup>The 1983 figures were reviewed to attempt to identify the reason for the substantial jump in prosecutions of Federal officials. The explanation appears to be two-fold; there has been a greater focus on Federal corruption nationwide, and there appears

Note: The Center for Judicial Conduct Organizations conducts annual surveys of judicial conduct organizations. These organizations are typically State agencies created by statute or constitutional amendment with the mandate to receive, investigate, and dispose of complaints regarding judicial misconduct. The judicial conduct organizations handle complaints such as judicial prejudice or bias, slow processing of orders, procedural or administrative irregularity, courtroom demeanor, and conflict of interest. (The Center for Judicial Conduct Organizations, *Judicial Conduct Reporter* 3 (Fall 1981), p. 2.) A confidentiality provision prohibits revealing disposition of complaints in Virginia. Information was not available for Idaho, Massachusetts, Montana, Oregon, Rhode Island, South Dakota, Vermont, and Wyoming. The data presented are for 1991 and 1992; however reporting periods vary across jurisdictions, with some States reporting by calendar year and others by fiscal year. Cross jurisdiction comparisons should be done cautiously due to differences among the States in definitions of complaints and recording practices. (The Center for Judicial Conduct Organizations, *Judicial Conduct Reporter* 7 (Fall 1985) p. 1.) For the States of Alaska, California, Indiana, Kansas, Kentucky, Louisiana, Mississippi, Missouri, New Hampshire, North Carolina, Oklahoma, Tennessee, Utah, and Wisconsin any discrepancies in totals usually are due to multiple or consolidated complaints and/or dispositions.

<sup>a</sup>States do not maintain uniform reporting periods. Most States reported data from the calendar year 1992. However, the following jurisdictions reported on a fiscal year basis: Connecticut, Florida, Georgia, Hawaii, Kentucky, Maryland, New Mexico, New York, and Utah (7/1/92 through 6/30/93); District of Columbia (10/1/91 through 9/30/92); Alabama (10/1/92 through 9/30/93); New Jersey and Texas (9/1/92 through 8/30/93); Tennessee (8/22/92 through 8/23/93).

<sup>b</sup>Category includes complaints dismissed after no investigation, minimal or initial investigation, or substantial investigation.

<sup>c</sup>Alabama is a two-tier judicial disciplinary State. The Judicial Inquiry Commission receives and investigates complaints. The Court of the Judiciary hears complaints filed by the Commission and issues a judgment.

<sup>d</sup>Two cases were dismissed after probable cause hearings, one compensation commissioner retired for permanent disability, and the Judicial Review Council permitted one complainant to withdraw a complaint.

<sup>e</sup>Suspension also included a public reprimand.

<sup>f</sup>Judge was defeated for re-election.

<sup>g</sup>The same 22 judges that were subject of informal action.

<sup>h</sup>Only the Supreme Court can publicly discipline judges.

<sup>i</sup>Although fines are not specifically authorized, an argument could be advanced that the Supreme Court's plenary power "to make such other disposition as justice may require" encompasses imposition of a fine.

<sup>j</sup>The Louisiana Judiciary Commission has changed its definition of "complaint" from previous years to indicate all types of complaints, including phone calls and drop-in complaints.

<sup>k</sup>Includes only those matters docketed as formal complaints under Maine Committee on Judicial Responsibility and Disability rules and practices (i.e., only written complaints or investigations begun on the Committee's own initiative).

<sup>l</sup>Monetary sanctions have been imposed; they have been referred to as a forfeiture of compensation.

<sup>m</sup>Maryland does not keep a record of informal complaints, namely, those requiring no Commission action, whether by telephone or letter. Numbers presented refer only to formal complaints.

<sup>n</sup>A judge was directed to offer a formal apology to the complainant.

<sup>o</sup>Only the Supreme Court may issue public discipline, but two disciplined judges signed a waiver of confidentiality, permitting the Board on Judicial Standard's private discipline to the judges to be released to the public.

<sup>p</sup>Includes initiation of formal complaint; memorandum of understanding.

<sup>q</sup>Question was not answered to maintain confidentiality.

<sup>r</sup>Judge resigned after probable cause hearing.

<sup>g</sup>Public censure, admonishment, or reprimand and suspension are done by the Supreme Court.

<sup>i</sup>Undecided.

<sup>u</sup>Referred for counseling.

<sup>v</sup>Private admonition.

<sup>w</sup>The Commission recommended that a judge be publicly censured.

<sup>x</sup>One of the private censures was after commencement of the formal proceedings but prior to the hearing.

<sup>y</sup>Supreme Court rejected the Board recommendation and found no misconduct.

<sup>z</sup>Tennessee Court of the Judiciary can recommend removal from office; the Supreme Court then reviews the decision and can recommend impeachment to legislature.

<sup>aa</sup>The Texas Commission on Judicial Conduct does not have any complaints that it dismisses without any investigation whatsoever. In its statistics, it does not include problems that are outside its jurisdiction (i.e., problems concerning Federal judges, attorneys, police officers, etc.) as complaints.

<sup>ab</sup>Orders for education.

<sup>ac</sup>The Commission uses the term "inquiry" to denote contacts that do not warrant substantial investigation. These may be telephone calls, letters, or news articles that do not become active complaints. In 1992, the Commission received 531 inquiries. More than half of the complaints began as inquiries in 1992 or earlier.

<sup>ad</sup>Case consolidated.

<sup>ae</sup>6 months.

Note: In the military justice system, a General Court-Martial consists of a military judge and not less than five members (jurors), although a trial may be heard by a military judge alone, if requested by the accused (10 U.S.C. 815). A Special Court-Martial consists of not less than three members, or a military judge and not less than three members, or trial by military judge alone, if requested by the accused (10 U.S.C. 815). The jurisdiction of the Special Court-Martial is limited to non-capital offenses. In addition, a Special Court-Martial cannot adjudge a dishonorable discharge, dismissal, confinement longer than 6 months, hard labor without confinement for longer than 3 months, forfeiture of more than two-thirds pay, or any forfeiture of pay for longer than 6 months. If a bad conduct discharge (BCD) is adjudged, the Special Court-Martial must have included a verbatim record of the proceeding, counsel for the accused, and a military judge (10 U.S.C. 819). This is referred to as a Special (BCD) Court-Martial.

These data reflect the combined activity of both General and Special (BCD) Courts-Martial. The data presented for years prior to and including 1976 coincide with former Federal

fiscal years. The transition quarter refers to the period July 1, 1976 to Sept. 30, 1976. The fiscal year for the Federal Government is now from October 1 to September 30.

<sup>a</sup>Includes one cadet.

<sup>b</sup>Includes one civilian.

<sup>c</sup>Includes two prisoners.

<sup>d</sup>The number of enlisted personnel tried is much lower than previous years because there were fewer trials than usual during the deployment to Southwest Asia and subsequent military operations in that region. In addition, the size of the Army is currently being reduced.

Note: See Notes, tables 5.100 and 5.101. Punitive discharges imposed by General and Special Courts-Martial must be approved by the General Convening Authority. Discharges apply to enlisted personnel. The comparable disposition for officers is referred to as a dismissal. The data above include only dispositions that were approved by the General Convening Authority.

<sup>a</sup>Includes dismissals of officers.

1987	11	24	63
1988	13	25	35
1989	5	40	48
1990	14	42	47
1991	9	34	18
1992	16	26 <sup>a</sup>	25
1993	14	31	11

Note: See Note, table 5.100. A Summary Court-Martial is a military trial by one commissioned officer who need not be a lawyer. Punishment may not exceed 30 days in confinement, and may include reduction and forfeitures of not more than two-thirds of 1 month's pay. No counsel is furnished for prosecution or defense. Accused personnel have the option to refuse trial by Summary Court-Martial, but refusal may result in the charges being referred to a higher level court-martial. The data presented for years prior to and including 1976 coincide with former Federal fiscal years July 1 to June 30. The transition quarter refers to the period July 1, 1976 to Sept. 30, 1976. The fiscal year for the Federal Government is now from October 1 to September 30.

<sup>a</sup>Includes one case where charges were withdrawn prior to plea.

<sup>a</sup>Disposition totals are greater than the conviction totals shown because more than one disposition may be imposed in each case.

## Section 6

### Persons under correctional supervision

Information presented in this section focuses on persons under community supervision, juveniles in public and private confinement facilities, the number and characteristics of jails and jail inmates, and characteristics of State and Federal prison populations. In addition, information is provided on clients in drug and alcohol treatment units as well as prisoners executed and under sentence of death.

The first part of the section presents information on persons under Federal and State probation supervision. Included are data on the number of probationers under supervision, type of supervision, persons received for and terminating Federal probation supervision, and characteristics of intensive probation supervision programs operating in the States.

A series of tables on juveniles confined in State and local facilities is derived from a national census of public and private juvenile facilities conducted periodically by the U.S. Bureau of the Census. Data presented include the number and confinement rate of juveniles, annual admissions and discharges, type of offense of juveniles detained, and number and type of juvenile facilities operating in the States. Trend tables based on data from the past eight censuses provide comparisons for the years 1975 through 1991.

The next section presents data on local jails. This information is from the National Jail Census, conducted every 5 years, and the Annual Survey of Jails which is conducted in noncensus years. Information provided includes: the number of jails and jail inmates, average daily population, jail capacity, and characteristics and type of offense of jail inmates. Data from the 1989 Survey of Inmates in Local Jails present information on jail inmates charged with driving while intoxicated offenses and drug offenses as well as detailed information on drug use history of jail inmates. Trend tables are provided when available, allowing comparisons for the years 1983 through 1992.

Information on State and Federal prisoners is derived from an annual Bureau of Justice Statistics-sponsored census of all State correctional departments and the Federal Bureau of Prisons, the 1991 Survey of Inmates in State Correctional Facilities, and the 1990 Census of State and Federal Adult Correctional Facilities. These tables present the number and rate of prisoners under State and Federal jurisdiction at yearend, admissions and releases during the year, type of release, and selected prisoner information. Featured this year are a series of tables on

women in prison and a table on aging prisoners. A number of trend comparisons also are provided. In addition, these surveys provide descriptive data, including characteristics of prisoners, criminal history, characteristics of violent offenders, offense type, sentence length, and involvement with drugs. Also featured this year is information on HIV and AIDS in prisons and jails. Several tables in this section also present data on new court commitments and prisoners serving life sentences.

The next portion of the section presents data on academic, work, counseling, drug treatment, and sex offender treatment programs in State and Federal prisons. A series of tables dealing with clients in drug and alcohol treatment units also are presented in this section. This information includes the number of drug and alcohol treatment units in the United States, clients in treatment, client characteristics (sex, age, race, ethnicity, and jurisdictional location), program capacity, and utilization rate. Population and capacity data for U.S. Army, U.S. Navy, and U.S. Marine Corps correctional centers, and the number of escapes from State prisons also are displayed.

A section on post-release supervision focuses on conditional and unconditional releases from State and Federal correctional facilities, first releases from State and Federal prisons, rates of persons on parole, movement of the parole population, and persons released from parole supervision. Data derived from the National Corrections Reporting Program provide information on Federal and State parole entries and discharges.

The final portion of this section presents data on inmate deaths, death sentences, and executions. Data on deaths from natural causes, suicide, and AIDS-related deaths are included. Data on State and Federal prisoners sentenced to death, movement of prisoners on death row, and persons executed or otherwise removed from death row are provided. Selected characteristics of persons sentenced to death and executed are included. In addition, methods of execution used in death penalty States and execution trends are provided for each State.

Table 6.1

Rate (per 100,000 adult residents) of persons under community supervision

					Wyoming	91 <sup>d</sup>	98	703 <sup>d</sup>	937

Note: These data are from a survey of probation and parole agencies of the 50 States, the District of Columbia, and the Federal system on 1989 and 1990 probation and parole populations. The survey was conducted by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. Persons on probation are defined as offenders who have been placed under the supervision of a probation agency resulting from a court order. Excluded under this definition are persons placed on bench probation, court probation, summary probation, or any status not requiring supervision by a probation agency. Parolees are offenders conditionally released from prison to parole supervision either by a discretionary parole board decision or by fulfilling the conditions for a mandatory release. Many States update their population counts so that the Jan. 1, 1990 numbers may differ from those previously published for Dec. 31, 1989. For a discussion of survey methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 15.

<sup>a</sup>Unpublished U.S. Bureau of the Census estimates of the adult population age 18 and older for July 1, 1989 and Apr. 1, 1990 were used to calculate rates.

<sup>b</sup>Federal and State entries do not sum to total because of rounding.

<sup>c</sup>Maine eliminated parole in 1976. See Appendix 15 for additional information.

<sup>d</sup>Estimated.

Note: Persons under supervision of the Federal Probation System include persons placed on probation--either by U.S. District Courts, U.S. magistrates, or at the request of U.S. attorneys (pretrial diversion/deferred prosecution)--and Federal offenders released from confinement on parole or mandatory release. A Federal prisoner is eligible for mandatory release when the prisoner has served the full term of imprisonment less "good-time" allowances. If the offender has earned more than 180 days of "good-time" credit, supervision (as if on parole) is for that period in excess of 180 days. If "good-time" is less than 180 days, release occurs without supervision.

Data for 1975-90 represent persons who began supervision in the 12-month period prior to June 30 of the year noted. Beginning in 1991, data are reported for the Federal fiscal year, which is the 12-month period ending September 30. Data for 1990 and 1991 have been revised by the Source and therefore may differ from previous editions of SOURCEBOOK. The Canal Zone, Guam, and the Virgin Islands began reporting data in 1977.

<sup>a</sup>Pretrial diversion was called "deferred prosecution" in years prior to 1977.

"Special parole" refers to a specified period of parole attached to a term of imprisonment at sentencing. This provision is applicable to violations of certain drug laws (see Drug Abuse Prevention and Control Act of 1970, Public Law 91-513, Oct. 27, 1970, 84 Stat. 1260).

"Supervised release" refers to a specified term of post-release supervision enacted in November 1987 under the Federal Sentencing Guidelines.

<sup>a</sup>Percents may not add to 100 because of rounding.

Table 6.5

## Persons under supervision of the Federal Probation System and authorized probation officers

United States, 1975-93

	Number of probationers	Number of probation officers
1975	64,261	1,377
1976	64,246	1,452
1977	64,427	1,578
1978	66,681	1,604
1979	66,087	1,604
1980	64,450	1,604
1981	59,016	1,534
1982	58,373	1,637
1983	60,180	1,574
1984	63,092	1,690
1985	65,999	1,758
1986	69,656	1,847
1987	73,432	1,879
1988	76,366	2,046
1989	77,284	2,146
1990	80,592	2,361
1991	83,012	2,802
1992	85,920	3,316
1993	86,823	3,516 <sup>a</sup>

Note: See Note, table 6.3. For "number of probationers," data for 1975-87 are reported for the 12-month period ending June 30. Beginning in 1988, the data are reported for the Federal fiscal year, which is the 12-month period ending September 30. Data for 1988-91 have been revised by the Source and may differ from previous editions of SOURCEBOOK. For "number of probation officers," data for 1975-90 are reported as of June 30. Beginning in 1991, the data are reported as of September 30. The 1991 data for probation officers have been revised by the Source and may differ from previous editions of SOURCEBOOK.

Note: These data are from the U.S. Department of Justice, Bureau of Justice Statistics' Federal Justice Statistics database maintained by Abt Associates, Inc. Sources of information include the Executive Office for U.S. Attorneys, the Administrative Office of the United States Courts, the U.S. Sentencing Commission, the Federal Bureau of Prisons, and the Pretrial Services Agency. Total includes offenders for whom offense category could not be determined. The number of offenders who terminated probation supervision in 1990 was 23,404. Due to changes in the counting of terminations, these data are not directly comparable to prior years. For methodology and definitions of terms, see Appendix 11.

<sup>a</sup>Supervision terminated with incarceration or removal to inactive status for violation of supervision conditions other than charges for new offenses.

<sup>b</sup>Supervision terminated with incarceration or removal to inactive status after arrest for a "major" or "minor" offense.

<sup>c</sup>Too few cases to obtain statistically reliable data.

<sup>d</sup>May include some non-violent offenses.

<sup>e</sup>Excludes tax fraud.

<sup>f</sup>Excludes transportation of stolen property.

<sup>g</sup>Excludes fraudulent property offenses; includes destruction of property and trespass.

Table 6.7

## Intensive probation supervision programs

By selected program characteristics and State, 1992

State	Number of offenders		Number of officers		Average case load		Difference in officers' pay or qualifications for handling intensive probation supervision cases
	On probation	Under intensive probation supervision	Total	Handling intensive probation supervision	Non-intensive supervision	Intensive supervision	
Alabama	24,200	180	192 <sup>a</sup>	9	147	25	None
Arizona	32,300	2,100	680	84	60	25	None
Colorado	28,700	479	307	30 <sup>b</sup>	160	20	5 percent increase in pay for intensive probation supervision.
Connecticut	47,629	160	236	4	202	40	10 percent differential pay for intensive officers who are required to work evenings and weekends.
Florida	88,640	12,431	2,206	582 <sup>c</sup>	120	25 <sup>c</sup>	Correctional Probation Officer II's are assigned as community control officers.
Georgia	132,000	2,795	816	164 <sup>d</sup>	150	50 <sup>e</sup>	10 percent above regular Probation Officer II pay.
Hawaii	3,900	83	48	8	160 to 180	35 to 40	None
Idaho	3,194	110	79	14	75 <sup>f</sup>	25 <sup>g</sup>	None
Illinois	79,411	871	2,122	118	95 <sup>h</sup>	10 <sup>i</sup>	Most jurisdictions offer intensive officers a slightly higher salary.
Iowa	13,580	271	252	35	(j)	20 to 25	Intensive Supervision Officers are usually PPO III (case management) and PPO I (surveillance) whereas regular probation officers are PPO II.
Kansas	15,284	2,342	431	168	73.6	25	Probation officers are State employees and salaries are established according to State salary ranges (standardized salaries). Intensive Supervision Officers are county employees and pay varies depending on the county.
Kentucky	9,897	684	309	54	60	27	None
Maryland	88,289	--	533	185	142	47	None
Michigan	46,396	240	474 <sup>k</sup>	13	110	30 <sup>l</sup>	None
Mississippi	8,139	273	121	12 <sup>m</sup>	104	28	None
Missouri	31,319	771	625	34	75	20	No salary difference; must be an experienced officer to be assigned to intensive supervision.
Montana	625 <sup>n</sup>	--	50 <sup>o</sup>	4	88.5	10	None
Nebraska	18,793	318	198	25	109	21.5	None
Nevada	7,561	788	250 <sup>h</sup>	20 to 25	65 to 75	25 to 35	Some receive 5 percent salary adjustment.
New Hampshire	4,100	70	50	4.5	85 to 95	25 to 30	Intensive Supervision Probation Officers receive specialized training commensurate with their responsibilities.
New York	139,132	4,800 <sup>h</sup>	2,400 <sup>h</sup>	135	(p)	21	None
North Carolina	86,591	3,033	939	171	108	24	Must have 3 years of experience as a probation officer handling regular cases.
Ohio	77,000 <sup>q</sup>	3,968	113 <sup>r</sup>	113	90 to 120 <sup>s</sup> ; 60 <sup>t</sup>	35 to 40	Usually a small increase in pay and intensive supervision officers usually have more experience.
Oklahoma	24,871	139	286 <sup>a</sup>	(u)	85	--	None
Oregon	30,000	1,400 <sup>n</sup>	382	--	85	35 to 50	None

See notes at end of table.

Table 6.7

## Intensive probation supervision programs

By selected program characteristics and State, 1992--Continued

State	Number of offenders		Number of officers		Average case load		Difference in officers' pay or qualifications for handling intensive probation supervision cases
	On probation	Under intensive probation supervision	Total	Handling intensive probation supervision	Non-intensive supervision	Intensive supervision	
South Carolina	30,583	1,804	483 <sup>a</sup>	66	160	61	Regular supervision agents start at \$18,996; journeyman regular supervision agents earn a minimum of \$20,545; intensive agents earn a minimum of \$21,364.
South Dakota	3,800	50	70	4	75	12.5	More experienced officers supervise intensive caseloads.
Tennessee	20,052	1,119	296.5	40.5	80	28	One step pay increase.
Texas	343,382	6,000 <sup>h</sup>	2,750 <sup>h</sup>	NA	40 to 100	40	Officers are trained to work with offenders with high risks/needs and are trained in special need areas or risk areas.
Utah	6,542	161	166 <sup>a</sup>	5	57	15 to 20	More experienced officers who must be peace officer certified.
Vermont	6,007	265	65	6	97.3 <sup>v</sup>	44.2 <sup>v</sup>	None
Virginia	22,000	450	450 <sup>a</sup>	45 <sup>a</sup>	70 <sup>n</sup>	24 <sup>n</sup>	None
Wyoming	3,500 <sup>h</sup>	12	51	3	100 <sup>h</sup>	25 <sup>n</sup>	Beginning agents start at \$18,060. To do intensive probation supervision (Surveillance and Treatment of Offenders Program) an agent must be a specialist (2 years experience) while pay is \$21,500. Both positions require a 4-year degree.

Note: This information was collected through a survey of the 50 States, the District of Columbia, and the Federal Bureau of Prisons conducted in April 1992. Arkansas, Indiana, Louisiana, Maine, Minnesota, Rhode Island, and Washington had no intensive probation supervision programs at the time the survey was conducted. North Dakota indicated that they plan to implement their intensive probation supervision program on June 1, 1992. Alaska, California, Delaware, the District of Columbia, Massachusetts, New Jersey, New Mexico, Pennsylvania, West Virginia, Wisconsin, and the Federal Bureau of Prisons did not respond to the survey. The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>a</sup>Includes parole officers.

<sup>b</sup>Adults.

<sup>c</sup>Community control officers.

<sup>d</sup>60 probation officers and 104 surveillance officers.

<sup>e</sup>Per two-person team.

<sup>f</sup>Between 113 and 126 workload hours.

<sup>g</sup>For two officers.

<sup>h</sup>Approximation.

<sup>i</sup>Per 1 officer, 25 per two officers, and 40 per three officers.

<sup>j</sup>Unknown; records maintained by workload points in accordance with classification level.

<sup>k</sup>94 officers perform combination parole and probation duties.

<sup>l</sup>Maximum.

<sup>m</sup>Handles probationers and parolees.

<sup>n</sup>Includes parolees.

<sup>o</sup>Including regional supervisors without caseloads.

<sup>p</sup>Varies among State's 58 local jurisdictions.

<sup>q</sup>55,000 felony; 22,000 misdemeanor.

<sup>r</sup>Intensive supervision county programs only.

<sup>s</sup>County programs.

<sup>t</sup>State programs.

<sup>u</sup>No officers handle intensive supervision exclusively.

<sup>v</sup>Plus parole caseload.

Note: These data are from the Census of Juvenile Detention, Correctional, and Shelter Facilities, conducted by the U.S. Bureau of the Census for the U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention. The census dates were June 30, 1975; Dec. 31, 1977 and 1979; Feb. 1, 1983 and 1985; and Feb. 15, 1989 and 1991. These figures are one-day counts reflecting the number of juveniles under custody on the census date. For survey methodology and definitions of terms, see Appendix 16.

<sup>a</sup>No public juvenile facilities were reported in operation in Vermont in 1979, 1983, or 1985.

Note: See Note, table 6.8. The data for 1975 are for the annual period ending June 30, 1975. Data for 1977, 1979, 1982, 1984, 1986, 1988, and 1990 are for the calendar year. Admissions include new entries, reentries, and transfer entries. Discharges include final exits, transfer exits, exits to supervision, and unauthorized exits. For survey methodology and definitions of terms, see Appendix 16.

<sup>a</sup>Data on juvenile discharges were not available for 1988.

<sup>b</sup>No public juvenile facilities were reported in operation in Vermont in 1979, 1982, or 1984.

Note: See Note, table 6.8. Juvenile custody rates are calculated by dividing the number of juveniles in public facilities on the census date by the number of persons from 10 years of age up to the statutorily defined maximum age of original juvenile court jurisdiction in each State. For survey methodology and definitions of terms, see Appendix 16.

<sup>a</sup>Custody rates refer to the number of juveniles on the census date.

Table adapted by SOURCEBOOK staff.

Table 6.11

## Juveniles held in public juvenile facilities

By adjudication status and type of facility, United States, 1991

	All facilities	Short-term facilities			Long-term facilities		
		Total	Institutional	Open	Total	Institutional	Open
Total juveniles	1,076	511	72	439	565	338	227
Total detained	18,467	17,890	705	17,185	577	156	421
Delinquent offenses <sup>a</sup>	17,214	16,693	291	16,402	521	110	411
Status offenses <sup>b</sup>	757	712	206	506	45	38	7
Abuse and neglect <sup>c</sup>	250	244	199	45	6	6	0
Offenses unknown <sup>d</sup>	246	241	9	232	5	2	3
Total committed	38,900	3,326	201	3,125	35,574	8,912	26,662
Delinquent offenses <sup>a</sup>	37,590	3,137	129	3,008	34,453	8,217	26,236
Status offenses <sup>b</sup>	998	135	52	83	863	500	363
Abuse and neglect <sup>c</sup>	221	39	20	19	182	173	9
Offenses unknown <sup>d</sup>	91	15	0	15	76	22	54

Note: See Note, table 6.8. "Detained" juveniles refer to those temporarily held awaiting adjudication, disposition, or placement; "committed" refers to placement following adjudication or any placement procedure. For survey methodology and definitions of terms, see Appendix 16.

<sup>a</sup>Offenses that would be criminal if committed by an adult.

<sup>b</sup>Offenses that would not be criminal for adults, such as running away, truancy, or incorrigibility.

<sup>c</sup>Also includes dependency, emotional disturbance, and mental retardation.

<sup>d</sup>Includes unknown or unspecified acts.

Note: This information was collected through a survey mailed to the departments of juvenile corrections in the 50 States, the District of Columbia, and the Federal Bureau of Prisons. Alabama and Alaska were unable to participate and Delaware, Idaho, Virginia, and Washington did not respond to the survey. The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>a</sup>Upper boundary may be as high as 25 years of age depending upon seriousness of the crime.

<sup>b</sup>Operating at 72 percent over capacity for State-operated facilities and 39 percent over capacity for institutions.

<sup>c</sup>Upper boundary can be as high as 21 years of age.

<sup>d</sup>For felony offenses.

<sup>e</sup>Includes both males and females.

<sup>f</sup>Overcrowded, but no percentage reported.

<sup>g</sup>Operating between 20 and 50 percent over capacity.

<sup>h</sup>Operating between 10 and 15 percent over capacity.

<sup>i</sup>Upper boundary may be as high as 21 years of age depending upon seriousness of the crime.

<sup>j</sup>Program capacity is 225, able to avoid extreme overcrowding via early release.

<sup>k</sup>Operating between 30 and 95 percent over capacity.

<sup>l</sup>All juveniles are in contract facilities.

Percent of rated capacity occupied <sup>b</sup>	85 %	90 %	94 %	96 %	98 %	101 %	108 %	104 %	101 %	99 %	

Note: Data for 1983 and 1988 are from the National Jail Census, taken every 5 years and conducted for the Bureau of Justice Statistics by the U.S. Bureau of the Census. Questionnaires were mailed to all (N=3,358) locally-administered jails in the Nation in January 1983. Through the use of various followup procedures a response rate of 99 percent was achieved. In 1988, questionnaires were mailed to 3,448 locally-administered jails in the Nation during the week of August 1. Forty-four jails were added to the initial mailout and 176 were deleted, leaving a final count of 3,316 facilities. Through the use of various followup procedures a response rate of 100 percent was achieved.

Data for 1984-87 and 1989-92 are from the Annual Survey of Jails that is taken during noncensus years. Data for 1984-87, 1989, and 1992 are based on figures reported for June 30. Data for 1990 are based on figures reported for June 29. Data for 1991 are based on figures reported for June 28. The survey is based on all jails in jurisdictions with 100 or more jail inmates and a stratified random sample of jurisdictions with an average daily population of less than 100 inmates. For 1984, 1,154 jails representing 893 jurisdictions were surveyed; in 1985, 1,142 jails in 874 jurisdictions were represented in the survey; in 1986, 1,137 jails in 868 jurisdictions were included; in 1987, 1,135 jails in 866 jurisdictions were included; in 1989, 1,128 jails in 809 jurisdictions were included; in 1990, 1,135 jails in 804 jurisdictions were included; in 1991, 1,124 jails in 799 jurisdictions were included; and in 1992, 1,113 jails in 795 jurisdictions were included. Data for these survey years are estimates and therefore subject to sampling error.

A local jail is defined as a facility that holds inmates beyond arraignment, usually for more than 48 hours, and is administered by local officials. Specifically excluded from the count were temporary lockups that house persons for less than 48 hours, physically separate drunk tanks, other holding facilities that did not hold persons after they had been formally charged, and Federal or

State administered facilities. (Source, 1992, p. 9.) Connecticut, Delaware, Hawaii, Rhode Island, and Vermont have combined jail-prison systems and therefore were excluded in 1983-92. Alaska was also excluded as a combined system in 1987-92. In 1988-92, five locally-operated jails in Alaska and eight jails that were privately-operated under contract for local governments were included.

For 1988 data, a number of items were incompletely reported. Where the number of inmates convicted and awaiting sentence was not available, estimates were accepted. In some cases, data for inmates convicted and awaiting sentence may have been reported as awaiting arraignment/trial or being tried. The race of Hispanic inmates and Hispanic staff was incompletely reported. Respondents estimated approximately 20 percent of the data on time spent in jail prior to discharge.

<sup>a</sup>Juveniles are persons of an age specified by State statute (usually under 18) initially subject to juvenile court authority even if tried as adults in criminal court. Because fewer than 1 percent of the jail population were juveniles, caution must be used in interpreting any changes over time.

<sup>b</sup>Percent of rated capacity occupied is based on the 1-day count of inmates.

Table 6.19

## Jail inmates

By sex, race, and Hispanic origin, United States, 1991 and 1992<sup>a</sup>

	Percent of jail inmates	
	1991	1992
Total	100 %	100 %
Sex		
Male	90.7	90.8
Female	9.3	9.2
Race, Hispanic origin		
White non-Hispanic	41.1	40.1
Black non-Hispanic	43.4	44.1
Hispanic	14.2	14.5
Other <sup>b</sup>	1.2	1.3

Note: See Note, table 6.17. Data are for June 28, 1991 and June 30, 1992. Race was reported for 99 percent of the inmates in 1991 and for 98 percent in 1992.

<sup>a</sup>Percents may not add to total because of rounding.

<sup>b</sup>Native Americans, Aleuts, Asians, Alaska Natives, and Pacific Islanders.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Jail Inmates 1992*, Bulletin NCJ-143284 (Washington, DC: U.S. Department of Justice, August 1993), p. 2, Table 4.

Table 6.20

## Characteristics of jail inmates

By sex, United States, 1983 and 1989<sup>a</sup>

Characteristic	Percent of female inmates		Percent of male inmates	
	1983	1989	1983	1989
Race and ethnicity				
White non-Hispanic	41.8 %	37.8 %	46.9 %	38.7 %
Black non-Hispanic	42.2	43.4	37.1	41.5
Hispanic	12.7	16.3	14.3	17.5
Other <sup>b</sup>	3.2	2.5	1.7	2.3
Age				
17 years or younger	0.9 %	0.7 %	1.3 %	1.6 %
18 to 24 years	36.8	27.2	40.7	33.2
25 to 34 years	44.3	51.2	38.2	42.1
35 to 44 years	12.4	15.6	12.4	16.9
45 to 54 years	4.3	3.9	4.9	4.6
55 years and older	1.3	1.3	2.4	1.7
Median age	26 years	28 years	26 years	28 years
Marital status				
Married	19.3 %	16.2 %	21.1 %	19.3 %
Widowed	3.9	3.8	1.2	0.7
Divorced	18.0	17.2	15.6	14.9
Separated	14.5	14.0	7.4	7.6
Never married	44.4	48.9	54.8	57.5
Education <sup>c</sup>				
8th grade or less	13.7 %	11.9 %	17.9 %	16.0 %
Some high school	39.2	37.6	41.5	38.2
High school graduate	32.3	34.9	28.9	33.0
Some college or more	14.7	15.7	11.6	12.8
Median grade completed	11	11	11	11
Number of inmates	15,566	37,383	206,537	358,171

Note: The 1989 Survey of Inmates in Local Jails was conducted by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. A nationally-representative sample of 5,675 inmates in 424 local jails were interviewed from July to September 1989. A jail is defined as a confinement facility administered by a local government agency that holds persons pending adjudication and persons committed after adjudication, usually for sentences of a year or less. These data are estimates derived from a sample and therefore subject to sampling variation. For information on methodology and survey sampling procedures, see Appendix 17.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Includes Asians, Pacific Islanders, American Indians, Alaska Natives, and other racial groups.

<sup>c</sup>Based on highest grade completed.

Table 6.21

## Most serious offense of jail inmates

By sex, United States, 1983 and 1989<sup>a</sup>

Most serious offense	Percent of jail inmates			
	1983		1989	
	Female	Male	Female	Male
All offenses	100 %	100 %	100 %	100 %
Violent offenses	21.3	31.4	13.2	23.5
Murder <sup>b</sup>	3.8	4.1	1.8	2.9
Negligent manslaughter	1.5	0.6	0.4	0.5
Kidnaping	0.6	1.4	1.1	0.7
Rape	0.1	1.6	0.0	0.9
Other sexual assault	0.2	2.2	0.2	2.8
Robbery	6.2	11.5	3.9	7.0
Assault	8.1	8.7	5.2	7.4
Other violent <sup>c</sup>	0.7	1.3	0.6	1.1
Property offenses	42.7	38.3	31.9	29.9
Burglary	5.1	15.0	4.0	11.4
Larceny/theft	18.4	11.2	12.9	7.4
Motor vehicle theft	0.7	2.5	0.9	3.0
Arson	0.6	0.9	0.6	0.7
Fraud	15.2	4.2	11.6	3.2
Stolen property	1.7	2.6	1.4	2.5
Other property <sup>d</sup>	1.0	2.0	0.5	1.7
Drug offenses	13.1	9.0	33.6	21.9
Possession	7.1	4.6	14.9	9.2
Trafficking	4.6	4.0	16.9	11.5
Other or unspecified	1.4	0.5	1.9	1.2
Public-order offenses	22.0	20.5	19.0	23.2
Weapons	1.1	2.4	1.4	2.0
Obstruction of justice	3.1	1.9	3.6	2.8
Traffic	1.3	2.2	1.3	2.8
Driving while intoxicated <sup>e</sup>	5.2	7.1	3.6	9.3
Drunkenness or morals <sup>f</sup>	8.3	3.0	5.3	1.3
Violation of parole or probation <sup>g</sup>	2.0	2.3	3.6	3.0
Other public-order <sup>h</sup>	0.9	1.7	0.2	2.0
Other offenses <sup>i</sup>	0.9	0.8	2.2	1.5
Number of inmates	15,259	204,314	35,625	344,535

Note: See Note, table 6.20. Excludes an estimated 15,393 inmates in 1989 and 3,979 inmates in 1983 because their offense was unknown. For information on methodology and survey sampling procedures, see Appendix 17.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Includes nonnegligent manslaughter.

<sup>c</sup>Includes blackmail, extortion, hit-and-run driving with bodily injury, child abuse, and criminal endangerment.

<sup>d</sup>Includes destruction of property, vandalism, hit-and-run driving without bodily injury, trespassing, and possession of burglary tools.

<sup>e</sup>Includes driving while intoxicated and driving under the influence of drugs or alcohol.

<sup>f</sup>Includes drunkenness, vagrancy, disorderly conduct, unlawful assembly, morals, and commercialized vice.

<sup>g</sup>Includes parole or probation violations, escape, AWOL, and flight to avoid prosecution.

<sup>h</sup>Includes rioting, abandonment, non-support, immigration violations, invasion of privacy, liquor law violations, tax evasion, and bribery.

<sup>i</sup>Includes juvenile offenses and unspecified offenses.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Women in Jail 1989*, Special Report NCJ-134732 (Washington, DC: U.S. Department of Justice, March 1992), p. 4, Table 3.

Table 6.22

## Conviction status of adult jail inmates

By sex, United States, 1983-92

	Number of jail inmates										
	National Jail Census 1983						National Jail Census 1988				
		Annual Survey of Jails						Annual Survey of Jails			
		1984	1985	1986	1987			1989	1990	1991	1992
Total number of adults with known conviction status	221,644	229,822	250,468	269,179	289,495	341,893	393,303	403,019	424,129	441,781	
Convicted	107,660	113,491	123,409	127,067	139,394	166,224	189,012	195,661	206,458	217,940	
Male	100,557	105,529	114,131	117,100	128,818	151,810	171,181	177,619	185,947	196,656	
Female	7,103	7,962	9,278	9,967	10,576	14,414	17,831	18,042	20,511	21,284	
Unconvicted	113,984	116,331	127,059	142,112	150,101	175,669	204,291	207,358	217,671	223,840	
Male	105,459	107,901	117,560	130,806	137,213	159,784	184,869	188,202	198,681	204,450	
Female	8,525	8,430	9,499	11,306	12,888	15,885	19,422	19,156	18,990	19,390	

Note: See Note, table 6.17. Annual Survey of Jails data may underestimate the number of convicted inmates and overestimate the number of unconvicted inmates. Some facility records do not distinguish inmates awaiting sentence (or other convicted persons) from unconvicted inmates. The 1989 Survey of Inmates in Local Jails indicated that 43 percent of the inmates were unconvicted and 57 percent were convicted. (Source, 1992, p. 2, Table 3.)

Table 6.23

## Jail inmates charged with driving while intoxicated (DWI)

By demographic characteristics, United States, 1989

Characteristic	Percent of inmates charged with	
	DWI	Other offenses
<b>Sex</b>		
Male	96.3 %	90.1 %
Female	3.7	9.9
<b>Race, ethnicity</b>		
White non-Hispanic	67.7	36.0
Black non-Hispanic	8.2	45.0
Hispanic	19.5	16.9
Other <sup>a</sup>	4.6	2.1
<b>Age</b>		
17 to 20 years	0.9	15.4
21 to 24 years	9.7	20.7
25 to 29 years	23.6	23.6
30 to 34 years	26.5	18.6
35 to 39 years	11.6	11.5
40 to 44 years	9.4	5.0
45 to 49 years	9.2	2.7
50 years and older	9.0	2.4
<b>Education</b>		
8th grade or less	19.9	15.2
Some high school	33.2	38.9
High school graduate	32.4	33.2
Some college or more	14.5	12.7
<b>Marital status</b>		
Married	28.5	18.0
Widowed	1.8	0.9
Divorced/separated	34.8	22.3
Never married	34.9	58.8
<b>Employment status at arrest</b>		
Employed	78.1	63.1
Full-time	69.2	51.5
Part-time	8.9	11.6
Unemployed	21.9	36.9
Looking	11.0	22.5
Not looking	10.9	14.4
Median age	32 years	27 years
Median education	12 years	12 years
Median annual income <sup>b</sup>	\$11,000	\$6,750
Number of jail inmates	32,310	348,927

Note: The 1989 Survey of Inmates in Local Jails was conducted by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. A nationally-representative sample of 5,675 inmates in 424 local jails were interviewed from July to September 1989. A jail is defined as a confinement facility administered by a local government agency that holds persons pending adjudication and persons committed after adjudication, usually for sentences of a year or less. These data exclude an estimated 320 inmates for whom race and Hispanic origin were unknown. Data were also missing for the following categories: age, 1,056 inmates; education, 2,309; marital status, 1,890; and employment status, 1,911. These data are estimates derived from a sample and therefore subject to sampling variation. For information on methodology and survey sampling procedures, see Appendix 17.

<sup>a</sup>Includes Asians, Pacific Islanders, American Indians, Alaska Natives, and other racial groups.

<sup>b</sup>Includes only those inmates who had been free at least 1 full year prior to arrest.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Drunk Driving*, Special Report NCJ-134728 (Washington, DC: U.S. Department of Justice, September 1992), p. 4, Table 3.

Table 6.24

## Length of sentence imposed on offenders convicted of driving while intoxicated (DWI)

By number of prior DWI sentences to jail or prison, United States, 1989<sup>a</sup>

Sentence length	Percent of convicted DWI offenders			
	Prior DWI sentences to jail or prison			
	All	None	One	Two or more
Total	100 %	100 %	100 %	100 %
30 days or less	13.6	16.3	20.4	4.8
31 to 90 days	23.1	31.7	20.4	12.6
91 to 120 days	6.6	6.5	6.4	6.9
121 to 240 days	27.8	20.1	28.3	38.5
241 to 365 days	17.3	12.6	17.6	23.7
More than 1 year	11.6	12.7	7.0	13.4
Mean sentence length	258 days	228 days	194 days	346 days
Median sentence length	180 days	115 days	134 days	181 days
Number of jail inmates	23,001	10,549	5,212	7,299

Note: See Note, table 6.23.

<sup>a</sup>Percents may not add to total because of rounding.

Table 6.25

## Jail inmates charged with drug and nondrug offenses

By selected demographic characteristics, United States, 1983 and 1989

	Percent of jail inmates charged with			
	Any drug offense		A nondrug offense	
	1983	1989	1983	1989
Number of jail inmates	24,118	97,999	219,573	282,161
<b>Sex</b>				
Male	90.7 %	86.3 %	93.3 %	92.1 %
Female	9.3	13.7	6.7	7.9
<b>Race, ethnicity</b>				
White non-Hispanic	43.7	25.5	46.8	43.3
Black non-Hispanic	34.6	48.3	37.8	39.6
Hispanic	19.9	24.7	13.6	14.6
Other <sup>a</sup>	1.9	1.6	1.8	2.6
<b>Education</b>				
8th grade or less	14.8	15.2	18.0	15.7
Some high school	36.7	39.0	42.1	38.3
High school graduate	33.3	32.7	28.6	33.2
Some college or more	15.2	13.0	11.4	12.8
<b>Age</b>				
17 years or younger	0.2	0.7	1.5	1.8
18 to 24 years	32.0	33.6	41.4	32.4
25 to 29 years	30.2	25.4	22.3	23.0
30 to 34 years	19.6	19.9	15.0	19.0
35 to 44 years	14.0	15.9	12.2	17.0
45 to 54 years	3.0	3.3	5.0	5.0
55 years or older	0.9	1.2	2.6	1.8
Median age (in years)	27	28	26	28

Note: See Note, table 6.20. The data presented above exclude an estimated 3,979 inmates in 1983 and 15,394 inmates in 1989 because their offense was unknown. In 1983, data were missing on race and Hispanic origin for 0.2 percent of cases. Data were missing on education for 1.1 percent of cases in 1983 and 0.5 percent of cases in 1989. For information on methodology and survey sampling procedures, see Appendix 17.

<sup>a</sup>Includes Asians, Pacific Islanders, American Indians, Aleuts, Eskimos, and other racial groups.

Colorado	653	81	652	71	1	10	1.0
Idaho <sup>a</sup>	123	103	122	94	1	9	4.6
Oregon	61	0	33	X	28	X	0
Utah	0	96	X	88	X	8	3.7

Note: Unlisted jurisdictions either had combined jail-prison systems or did not report prisoners held in local jails. For information on methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 18.

<sup>a</sup> Arizona, Idaho, Indiana, Massachusetts, Oklahoma, and West Virginia did not include the inmates in jails in their jurisdiction counts; however, the percent of jurisdiction

population was calculated for all persons serving sentences to incarceration, whether in prison or in jail.

Figure 6.1

## Sentenced prisoners in State and Federal institutions on Dec. 31

United States, 1925-92

Note: Prison population data were compiled by a yearend census of prisoners held in custody in State and Federal institutions. Data for 1925 through 1939 include sentenced prisoners in State and Federal prisons and reformatories whether committed for felonies or misdemeanors. Data for 1940 through 1970 include all adult felons serving sentences in State and Federal institutions. Since 1971, the census has included all adults or youthful offenders sentenced to a State or Federal correctional institution with maximum sentences of over 1 year.

Beginning on Dec. 31, 1978, a distinction was made between prisoners "in custody" and prisoners "under jurisdiction." As defined in a 1978 report (U.S. Department of Justice, Bureau of Justice Statistics, *Prisoners in State and Federal Institutions on December 31, 1978*, NPS Bulletin SD-NPS-PSF-6 (Washington, DC: USGPO, 1980)), "in custody" refers to the direct physical control and responsibility for the body of a confined person. "Under jurisdiction" is defined as follows: A State or Federal prison system has jurisdiction over a person if it retains the legal power to incarcerate the person in one of its own prisons. Jurisdiction is not determined by the inmate's physical location; jurisdiction is determined by the legal authority to hold the inmate. Examples of prisoners under the jurisdiction of a given system, but not in its custody, are those housed in local jails, in other States, or in hospitals (including mental health facilities) outside the correctional system; inmates on work release, furlough, or bail; and State prisoners held in Federal prisons or vice versa.

For information on methodology, definitions of terms, and a detailed explanation of revised, estimated, and noncomparable data, see Appendix 18.

Figure constructed by SOURCEBOOK staff.

Figure 6.4

Rate (per 100,000 resident population) of sentenced prisoners in State and Federal institutions on Dec. 31

United States, 1940-92

Note: See Note, figure 6.1. The rates for the period before 1980 are based on the civilian population. The civilian population represents the resident population less the armed forces stationed in the United States. Since 1980, the rates are based on the total resident population provided by the U.S. Bureau of the Census. For information on methodology, definitions of terms, and a detailed explanation of revised, estimated, and noncomparable data, see Appendix 18.

Note: See Notes, figures 6.1 and 6.4. Sentenced prisoners are defined as those serving sentences of more than 1 year. The data for the years 1972-77 represent sentenced prisoners in the custody of State and Federal institutions. The data for 1978-92 represent sentenced prisoners under the jurisdiction of State and Federal correctional authorities. Population estimates are provided by the U.S. Bureau of the Census. For information on methodology and definitions of terms, see Appendix 18.

Note: See Note, figure 6.1. All figures on admissions and releases are of prisoners sentenced to more than 1 year. The data represent the number of transactions and not the number of individual prisoners who were involved in such movements. Because of different counting procedures among the States, a "0" entry in any category can mean that: (1) the State uses this category of admission or release but had no inmates in the category during 1991; (2) the State uses this category but cannot report the number of inmates in the category; or (3) the State does not use this category. "Unconditional releases" include expira-

tion of sentence, commutation of sentence, and other such unqualified discharges. "Conditional releases" are those involving some form of supervision over the offender upon return to the community and include parole, probation, supervised mandatory release (early release because of good behavior), and other forms of conditional discharge. For information on methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 18.

<sup>a</sup>Figures include both jail and prison inmates; jails and prisons are combined in one system.

<sup>b</sup>New court commitments may include a small number of other admissions. For Connecticut, Massachusetts, Delaware, and the District of Columbia, unconditional releases may include a small number of inmates who were released to probation.

<sup>c</sup>Numbers for admission and release categories are estimated.

<sup>d</sup>All data for Arizona, California, Florida, Georgia, Illinois, Indiana, Iowa, Massachusetts, Michigan, Texas, and Wyoming are custody, rather than jurisdiction counts.

<sup>e</sup>Counts of inmates may be slightly incorrect. See "Sentencing Information" for the relevant jurisdiction in Appendix 18.

Wyoming <sup>b,c</sup>	1,099	873	51	56	2	117

Note: See Note, figure 6.1. For information on methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 18.

<sup>a</sup>Figures include both jail and prison inmates; jails and prisons are combined in one system.

<sup>b</sup>Hispanic prisoners were classified as persons of unknown race.

<sup>c</sup>All data for Arizona, California, Florida, Georgia, Illinois, Indiana, Iowa, Massachusetts, Michigan, Texas, and Wyoming are custody, rather than jurisdiction counts.

<sup>d</sup>Hispanic prisoners were classified as white.

<sup>e</sup>Racial group membership of the population was estimated.

<sup>f</sup>Louisiana and Tennessee reported persons whose race is neither black nor white under "other race," here reported under "unknown race."

Note: This information was collected through a survey mailed to the departments of correction in the 50 States, the District of Columbia, and the Federal Bureau of Prisons in December 1993. Colorado, Maine, and Utah did not respond to the survey. Information was unavailable for Texas and Vermont. The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>a</sup>The data are estimates.

<b>State</b>			
Total	658,828	641,749	17,079
Male	622,982	607,580	15,402
Female	35,846	34,169	1,677
<b>Federal</b>			
Total	56,821	56,821	(a)
Male	52,642	52,642	(a)
Female	4,179	4,179	(a)

Note: These data were collected for the U.S. Department of Justice, Bureau of Justice Statistics by the U.S. Bureau of the Census. The 1990 Census of State and Federal Adult Correctional Facilities was the fourth enumeration of State institutions and the first of Federal Institutions. Previous censuses were completed in 1974, 1979, and 1984. Questionnaires were mailed to facilities at the end of June 1990. Through various followup procedures a response rate of 100 percent was achieved. Expenditure information was collected separately by the U.S. Bureau of the Census in site visits to State departments of correction, and by Federal Bureau of Prisons personnel.

Facilities were included in the census if they were staffed with State or Federal employees; housed primarily State or Federal prisoners; were physically, functionally, and administratively separate from other facilities; and were operational on the reference date, June 29, 1990. Where data refer to an annual period, the reference date is June 30, 1990. The census also included 67 private facilities under exclusive contract by State governments to house prisoners. The census included the following types of State and Federal adult correctional facilities: prisons; prison farms; reception, diagnostic, and classification centers; road camps; forestry and conservation camps; youthful offender facilities (except in California); vocational training facilities; prison hospitals; drug and alcohol treatment facilities; and State-operated local detention facilities in Alaska, Connecticut, Delaware, Hawaii, Rhode Island, and Vermont. Specifically excluded from the census were privately operated facilities that were not exclusively for State or Federal inmates; military facilities; Immigration and Naturalization Service facilities; Bureau of Indian Affairs facilities; facilities operated and administered by local governments, including those housing State prisoners; facilities operated by the U.S. Marshals Service; and public hospital wings and wards reserved for State prisoners.

Correctional facilities were classified as community-based if 50 percent or more of the residents were regularly permitted to leave the facility unaccompanied for work or study. These facilities included halfway houses, restitution centers, and pre-release, work release, and study release centers. Correctional facilities in which less than 50 percent of the inmates regularly left the facility unaccompanied were classified as confinement institutions. Because the census was a complete enumeration, the results were not subject to sampling error. (Source, p. 19.)

<sup>a</sup>Federal correctional authorities did not operate community-based facilities. Some individuals in Federal custody were housed in community-based facilities under contract arrangements; however, because none of these facilities held only Federal inmates, they were excluded from the census.

Note: See Note, table 6.38. A variety of capacity measures are used by correctional reporting authorities to reflect both available space to house inmates and the ability to staff and operate an institution. The measure reported in this table, design capacity, is the number of inmates/residents that planners or architects intended for the facility.

<sup>a</sup>Based on average daily population.

<sup>b</sup>Not included in the 1984 Census of State Adult Correctional Facilities.

Non-veteran	79.8	79.0	98.0	83.6	82.8	98.1

Note: These data were collected by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics through the 1991 Survey of Inmates in State Correctional Facilities. Similar surveys were conducted in 1974, 1979, and 1986. The sample for the 1991 survey was selected from the 1,239 State prisons that were enumerated in the 1990 Census of State and Federal Adult Correctional Facilities and those that were opened after completion of the census. The survey employed a stratified two-stage selection design. In the first stage, correctional facilities were separated into two sampling frames; one for prisons housing male inmates and one for prisons housing female inmates. Prisons housing both sexes were included on both lists. Within each frame, prisons were stratified into eight strata based on census region and facility type (confinement and community-based). All prisons with 1,950 or more men and all prisons with 380 or more women were selected. The remaining prisons in the male and female frames were grouped into strata. A systematic sample of prisons was then selected within strata with probabilities proportional to the size of each prison. In the second stage, interviewers visited each selected facility and systematically selected a sample of male and female inmates using predetermined procedures. In 1991, a total of 13,986 interviews were completed at 277 prisons for a response rate of 93.75 percent. In 1986, a total of 13,711 interviews were completed at 275 prisons from a sample of approximately 15,000. These data are estimates derived from a sample and therefore subject to sampling variation.

Data for marital status were missing for 1.1 percent of the inmates; for education, 0.8 percent; and for military service, 0.2 percent.

<sup>a</sup> Percents may not add to 100 because of rounding.

<sup>b</sup> Includes Asians, Pacific Islanders, American Indians, Alaska Natives, and other racial groups.

Note: See Note, table 6.40. This table excludes an estimated 2,564 State prison inmates in 1986 and 7,462 in 1991 whose offense was unknown. "Murder" includes non-negligent manslaughter. "Other violent" includes blackmail, extortion, hit-and-run driving with bodily injury, child abuse, and criminal endangerment against a person. "Other property" includes destruction of property, vandalism, criminal tampering, trespassing, entering without breaking, and possession of burglary tools. "Other public-order" includes escape from custody, court offenses, obstruction, driving while intoxicated, other traffic offenses, drunkenness, disorderly conduct, morals and decency violations, commercialized vice, and liquor law violations. "Other offenses" includes juvenile offenses and unspecified offenses.

<sup>a</sup>Subcategories may not add to total because of rounding.

<sup>b</sup>Includes Asians, Pacific Islanders, American Indians, Alaska Natives, and other racial groups.

## State prison inmates with children

By sex and race of inmates, United States, 1991

Characteristics	Percent of female inmates				Percent of male inmates All <sup>a</sup>
	All <sup>a</sup>	White	Black	Hispanic	
Number of inmates	38,658	13,983	17,754	5,521	669,732
<u>Have children</u>					
No	21.9 %	26.1 %	20.4 %	17.8 %	36.1 %
Yes	78.1	73.9	79.6	82.2	63.9
Under age 18	66.6	61.6	69.0	71.6	56.1
Adult only	11.4	12.3	10.6	10.6	7.6
<u>Number of children under age 18<sup>b</sup></u>					
1	37.3	40.7	37.0	31.2	43.2
2	29.9	30.8	28.4	33.3	28.9
3	18.1	17.5	18.2	19.8	15.2
4	8.5	6.5	9.0	10.0	6.8
5 or more	6.1	4.5	7.4	5.7	5.9
<u>Lived with child(ren) under 18 before entering prison<sup>b</sup></u>					
No	28.3	31.3	24.5	34.3	47.1
Yes	71.7	68.7	75.5	65.7	52.9
<u>Where child(ren) under 18 live(s) now<sup>b,c</sup></u>					
Father/mother	25.4	35.2	18.7	24.4	89.7
Grandparent	50.6	40.6	56.7	54.9	9.9
Other relative	20.3	14.7	23.7	22.8	2.9
Friends	4.1	5.7	2.7	4.2	0.4
Foster home	8.6	12.6	5.8	6.5	1.7
Agency/institution	2.1	2.1	1.8	2.1	0.5
Alone	2.0	1.9	2.3	1.5	1.1
Other	4.2	6.4	3.0	3.0	1.0

Note: See Note, table 6.40. Female prison inmates had an estimated 56,123 children and male inmates 770,841 children under the age of 18.

<sup>a</sup>Includes Asians, Pacific Islanders, American Indians, Alaska Natives, and other racial groups.

<sup>b</sup>Percents are based on those inmates with children under age 18.

<sup>c</sup>Percents add to more than 100 because inmates with more than one child may have provided multiple responses.

Other offenses	0.4	0.4	0.5	0.5	0.2	0.5	0.3

Note: See Note, table 6.40. Homicide includes murder and negligent and nonnegligent manslaughter. For a list of offenses in other categories, see Note, table 6.41.

<sup>a</sup>Subcategories may not add to total because of rounding.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Correctional Populations in the United States, 1991*, NCJ-142729 (Washington, DC: USGPO, 1993), p. 36.

Table 6.57

## Drug use by female State prison inmates

By type of drug, United States, 1986 and 1991<sup>a</sup>

Type of drug	Used in the month before the offense		Under the influence at the time of the offense	
	1986	1991	1986	1991
Any drug	50.0 %	53.9 %	33.9 %	36.3 %
Marijuana	30.5	20.5	8.5	4.6
Cocaine/crack <sup>b</sup>	23.3	36.5	12.1	22.6
Cocaine	23.3	26.2	12.1	14.2
Crack	NA	19.1	NA	10.1
Heroin/opiate	17.9	15.9	12.9	11.3
Heroin	17.2	14.8	12.3	10.8
Other opiates	2.1	3.4	1.0	1.0
Stimulants <sup>b</sup>	7.8	7.6	4.0	2.8
Amphetamines	7.8	4.6	4.0	0.9
Methamphetamines	NA	5.1	NA	2.2
Depressants	9.1	5.0	4.5	1.4
Barbiturates	9.0	4.8	3.9	1.3
Methaqualone	3.0	0.8	0.7	0.1
Hallucinogens	3.5	2.2	1.5	1.1
LSD	1.6	1.0	0.4	0.4
PCP	2.2	1.5	1.1	0.7

Note: See Note, table 6.40.

<sup>a</sup>Detail may add to more than the total because an inmate may have been using more than one drug.<sup>b</sup>Percents in 1986 reflect either cocaine or amphetamine use because the survey in that year did not ask about crack or methamphetamines separately.Source: U.S. Department of Justice, Bureau of Justice Statistics, *Women in Prison*, Special Report NCJ-145321 (Washington, DC: U.S. Department of Justice, March 1994), p. 8, Table 12.

Table 6.58

## Drug use history of female State prison inmates

By most serious offense, United States, 1991

Most serious offense	Used drugs in the month before current offense		Under the influence of drugs at the time of the offense		Committed offense to get money to buy drugs	
	Yes	No	Yes	No	Yes	No

Note: See Note, table 6.40.

<sup>a</sup>Includes murder, negligent manslaughter, and nonnegligent manslaughter.<sup>b</sup>Includes rape and other sexual assault.Source: U.S. Department of Justice, Bureau of Justice Statistics, *Women in Prison*, Special Report NCJ-145321 (Washington, DC: U.S. Department of Justice, March 1994), p. 8, Table 13.

Table 6.59

## Characteristics of victims of violent State prison inmates

By most serious offense, United States, 1991<sup>a</sup>

Victim characteristics	All violent offenses <sup>b</sup>	Most serious offense						
		Murder	Negligent man-slaughter	Rape	Other sexual assault	Robbery	Assault	Other violent
Number of inmates	327,958	74,693	12,786	24,833	41,649	104,136	57,558	12,303
<u>Sex of victim(s)</u>								
Male	50.1 %	69.2 %	68.0 %	8.7 %	16.6 %	50.1 %	67.2 %	32.5 %
Female	38.4	24.1	25.1	88.7	79.1	27.3	23.7	59.1
Both	11.5	6.7	7.0	2.7	4.3	22.6	9.2	8.4
<u>Race of victim(s)</u>								
White	54.6	51.8	41.9	63.3	71.5	53.8	45.1	59.8
Black	27.3	33.8	41.6	25.4	17.2	20.9	36.2	20.0
Hispanic	11.2	11.5	13.2	7.4	7.8	11.9	13.0	13.3
Other	2.7	1.4	2.1	2.5	1.7	4.2	2.5	4.2
Mixed	4.1	1.5	1.2	1.4	1.7	9.2	3.2	2.7
<u>Age of victim(s)</u>								
Minors only	17.8	4.8	5.9	40.8	79.6	1.1	5.4	29.3
Adults only	79.7	93.2	90.5	56.1	19.5	95.9	91.8	67.4
Both	2.5	2.0	3.5	3.1	0.9	3.0	2.8	3.3
<u>Relationship of inmate to victim(s)</u>								
Close	17.1	16.9	18.5	32.9	42.1	1.2	18.0	25.7
Relative	9.8	5.9	6.9	22.6	36.5	0.6	5.6	15.1
Intimate	7.3	11.0	11.6	10.3	5.6	0.6	12.4	10.6
Known	33.1	40.6	43.1	39.3	43.4	17.2	38.9	30.0
Well known	14.6	16.1	18.3	19.9	29.0	5.3	15.9	12.0
Acquaintance	12.0	16.7	16.4	15.6	11.6	6.1	13.5	12.6
Sight only	6.5	7.8	8.4	3.8	2.8	5.8	9.5	5.4
Strangers	49.9	42.5	38.3	27.9	14.5	81.5	43.1	44.2

Note: See Note, table 6.40. For a list of offenses within categories, see Note, table 6.41. This table excludes the following number of inmates because of missing data: sex of victims, 12,849; race of victims, 33,717; age of victims, 33,158; and victim-offender relationship, 16,778.

<sup>a</sup>Percents may not add to 100 because of rounding.

<sup>b</sup>Total includes all violent offenders.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Correctional Populations in the United States, 1991*, NCJ-142729 (Washington, DC: USGPO, 1993), p. 44.

Table 6.60

## Prison admissions in 35 States

By admission type and demographic characteristics, United States, 1991<sup>a</sup>

Characteristics	All admissions	New court commitments
Number of admissions	390,699	242,538
Total	100 %	100 %
<u>Sex</u>		
Male	91.8	91.3
Female	8.2	8.7
<u>Race<sup>b</sup></u>		
White	45.6	45.0
Black	53.5	54.0
Other <sup>c</sup>	0.9	1.0
<u>Hispanic origin<sup>d</sup></u>		
Hispanic	20.2	18.0
Non-Hispanic	79.8	82.0
<u>Age at admission</u>		
Under 18 years	1.2	1.8
18 to 24 years	29.5	34.2
25 to 29 years	24.2	22.9
30 to 34 years	20.1	18.2
35 to 44 years	19.4	17.4
45 to 54 years	4.3	4.1
55 years and older	1.3	1.4
Median age	28 years	28 years
<u>Education</u>		
8th grade or less	16.9 %	17.1 %
9th to 11th grade	46.5	47.6
High school graduate	28.7	27.5
Some college	7.5	7.5
Other	0.4	0.4
Median education	11th grade	11th grade

Note: These data were collected by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics through the National Corrections Reporting Program. Thirty-five States and the California Youth Authority (CYA) provided data on prison admissions, Thirty-four States and the CYA provided data on prison releases and entries to parole. Twenty-seven States and the CYA provided data on discharges from parole.

The 390,699 prison admissions reported by 35 States and the CYA accounted for nearly 89 percent of all prison admissions nationwide during 1991. "New court commitments" are offenders entering prison directly from a sentence by a court and not from an unsuccessful period of community supervision.

Data on race were reported for 93.0 percent of the 390,699 admissions to prison with a sentence of more than 1 year, data on Hispanic origin for 73.5 percent, and data on education for 50.8 percent. Data on race were also reported for 94.2 percent of the 242,538 new court commitments with a sentence of more than 1 year, data on Hispanic origin for 67.9 percent, and data on education for 64.0 percent. Data on age at admission were reported for 99.9 percent of all admissions and new court commitments. The median is the point above which and below which 50 percent of all cases fall.

For methodology and jurisdictional explanatory notes, see Appendix 19.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Includes persons of Hispanic origin.

<sup>c</sup>Includes Asians, Pacific Islanders, Native Americans, and others.

<sup>d</sup>Includes persons of all races.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *National Corrections Reporting Program, 1991*, NCJ-145861 (Washington, DC: U.S. Department of Justice, 1994), p. 9.

Federal Bureau of Prisons	1,177	41	492	NA	139	292	11	284	Yes	(o)	(o)	

Note: This information was collected through a survey of the 50 States, the District of Columbia, and the Federal Bureau of Prisons conducted in the Fall of 1992. Alaska, Indiana, and Maryland did not provide information on life-term inmates. The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>a</sup> Individuals convicted of these crimes are sentenced to life as habitual offenders. Lifers include 12 offenders with indeterminate sentences (sentenced prior to 1979) and 42 sex offenders sentenced to life but eligible for parole after 1 day.

<sup>b</sup> However, certain murder offenses are not parole eligible.

<sup>c</sup> Aggravated kidnaping.

<sup>d</sup> Out-of-State compact offenders.

<sup>e</sup> Manslaughter.

<sup>f</sup> Life without parole ended in 1975; however, there are eight remaining inmates serving life without parole sentences.

<sup>g</sup> Parole ineligibility exists as a separate sentencing enhancement, independent of the crime.

<sup>h</sup> For parole ineligibility only.

<sup>i</sup> Statute was declared unconstitutional.

<sup>j</sup> Includes four in Rhode Island, two from Rhode Island serving out of State, and four from other States serving in Rhode Island.

<sup>k</sup> However, a lifer can be ineligible for parole because of the repeat violent offender statute.

<sup>l</sup> Includes all homicide offenders with life sentences.

<sup>m</sup> Includes both males and females.

<sup>n</sup> Includes 11 death sentences.

<sup>o</sup> The Sentencing Reform Act of 1984 eliminated parole. Therefore any life sentence imposed is, by definition, life without parole. Very few inmates in Bureau of Prison facilities remain under the old system.

Note: See Note, table 6.64.

<sup>e</sup>Value too small to display.<sup>f</sup>Primarily State prisoners and some District of Columbia prisoners that are housed in Federal Bureau of Prison facilities.<sup>a</sup>Percents may not sum to total because of rounding.<sup>b</sup>Includes Asians and Native Americans.<sup>c</sup>Includes crimes such as homicide and kidnapping.<sup>d</sup>Includes crimes such as harboring a fugitive, possessing or bringing contraband into a prison, and perjury.Source: U.S. Department of Justice, Federal Bureau of Prisons, *Federal Bureau of Prisons Annual Statistical Report Calendar Year 1993* (Washington, DC: U.S. Department of Justice, 1994), p. 13.

Table 6.68

## Federal prison admissions

By sentence length and demographic characteristics, United States, 1991<sup>a</sup>

	Federal prison admissions		
	Total maximum sentence length		
	Total	12 months or less	More than 12 months
Number of admissions	38,542	14,794	23,000
Total	100 %	100 %	100 %
Sex			
Male	89.4	87.1	90.9
Female	10.6	12.9	9.1
Race <sup>b</sup>			
White	70.9	78.0	65.9
Black	26.6	19.4	31.7
Other <sup>c</sup>	2.5	2.6	2.4
Hispanic origin <sup>d</sup>			
Hispanic	32.4	43.4	24.7
Non-Hispanic	67.6	56.6	75.3
Age at admission			
Under 18 years	0.1	0.2	0.1
18 to 24 years	18.2	23.2	14.5
25 to 29 years	20.3	22.1	18.9
30 to 34 years	19.7	18.9	20.3
35 to 44 years	27.2	23.1	30.3
45 to 54 years	10.4	8.7	11.6
55 years and older	4.0	3.8	4.3
Median age	32 years	31 years	34 years
Education			
8th grade or less	17.8 %	15.2 %	18.5 %
9th to 11th grade	28.4	27.2	28.7
High school graduate	49.2	52.3	48.5
Some college	4.5	5.4	4.3
Median education	12th grade	12th grade	12th grade

Note: See Note, table 6.60. Data on education were reported for 68.9 percent of the 38,542 admissions to prison, and data on total maximum sentence length were reported for 93.3 percent. "Total maximum sentence length" refers to the sentence length that an offender may be required to serve for all offenses. For methodology and jurisdictional explanatory notes, see Appendix 19.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Includes persons of Hispanic origin.

<sup>c</sup>Includes Asians, Pacific Islanders, Native Americans, and others.

<sup>d</sup>Includes persons of all races.

<sup>a</sup>Detail may not add to total because of rounding.

Table 6.71

## Enrollment in academic, work, and counseling programs in State correctional facilities

By type of program and type of facility, June 30, 1984 and June 29, 1990

Type of program	Percent of all inmates/residents enrolled in programs					
	Total		Confinement facilities		Community-based facilities	
	1984	1990	1984	1990	1984	1990
<b>Academic programs</b>						
Adult basic education	8.2 %	8.7 %	8.3 %	8.8 %	4.6 %	4.3 %
Secondary <sup>a</sup>	7.5	5.9	7.6	5.9	5.7	5.4
Special <sup>b</sup>	1.5	1.3	1.5	1.3	0.7	0.6
College	5.4	4.8	5.5	4.9	2.2	0.7
<b>Work programs</b>						
Prison industries	11.0	6.9	11.5	7.1	(c)	0.2
Facility support services <sup>d</sup>	30.7	40.5	31.7	41.3	(c)	10.7
Farming/agriculture/ranching	5.1	4.0	5.3	4.1	(c)	0.3
Vocational training	8.4	8.5	8.7	8.7	(c)	0.4
Work release <sup>e</sup>	3.5	2.8	0.9	0.8	76.5	76.9
<b>Counseling programs</b>						
Psychological/psychiatric <sup>f</sup>	14.2	30.8	14.0	30.3	20.7	49.7
Employment	4.0	5.5	2.9	5.0	37.7	24.4
Life skills/community adjustment	8.7	5.0	7.7	4.4	34.5	25.0
Parenting	0.4	0.9	0.4	0.8	2.1	1.8

Note: See Note, table 6.38.

<sup>a</sup>Includes General Education Development (GED) programs.<sup>b</sup>For example, programs for inmates with learning disabilities.<sup>c</sup>Not included in the 1984 Census of State Adult Correctional Facilities.<sup>d</sup>Includes office work, administration, food services, laundry, building maintenance, repair, construction, and similar programs.<sup>e</sup>Inmates work in the community, unsupervised by correctional facility staff, and return to the facility at night.<sup>f</sup>Including drug and alcohol programs.Source: U.S. Department of Justice, Bureau of Justice Statistics, *Census of State and Federal Correctional Facilities, 1990*, NCJ-137003 (Washington, DC: USGPO, 1992), p. 20, Appendix Table 5.

Table 6.72

## Academic programs in State and Federal correctional facilities and number of participants

By type of program, June 29, 1990

Academic program	Number of facilities with program	State			Number of facilities with program	Federal		
		Number of participants				Number of participants		
		Total	Male	Female		Total	Male	Female
Adult basic education	944	57,256	53,708	3,548	77	5,257	4,661	596
Secondary <sup>a</sup>	962	38,883	36,397	2,486	77	3,386	3,007	379
Special <sup>b</sup>	597	8,680	8,225	455	52	1,256	1,184	72
College	712	31,693	29,398	2,295	70	3,277	2,921	356
Study release	446	785	627	158	2	57	57	0

Note: See Note, table 6.38. Figures add to more than total number of facilities and the total number of inmates because facilities offered multiple programs and some inmates participated in more than one program. Two Federal facilities had an unknown number of participants.

<sup>a</sup>Includes General Education Development (GED) programs.<sup>b</sup>For example, programs for inmates with learning disabilities.Source: U.S. Department of Justice, Bureau of Justice Statistics, *Census of State and Federal Correctional Facilities, 1990*, NCJ-137003 (Washington, DC: USGPO, 1992), p. 11, Table 16.

Table 6.73

**State and Federal correctional facilities providing work assignments and number of participants**

By type of work assignment, June 29, 1990

Work assignment	State		Federal	
	Number of facilities	Number of participants	Number of facilities	Number of participants
Prison industries	396	45,380	62	13,464
Facility support services <sup>a</sup>	1,033	267,086	78	29,307
Farming/agriculture/ranching	325	26,482	12	398
Vocational training	598	55,889	50	3,269
Public works assignments <sup>b</sup>	596	28,961	16	877
Work release <sup>c</sup>	408	18,123	1	6

Note: See Note, table 6.38. Figures add to more than total number of facilities and the total number of inmate/residents because facilities offered multiple programs and some inmates participated in more than one program.

<sup>a</sup>Includes office work, administration, food services, laundry, building maintenance, repair, construction, and similar programs.

<sup>b</sup>Inmates work outside the facility, performing road, park, and public maintenance work, or other activities.

<sup>c</sup>Inmates work in the community, unsupervised by correctional facility staff, and return to the facility at night.

Note: This information was collected through a survey mailed to the departments of correction in the 50 States, the District of Columbia, and the Federal Bureau of Prisons. Nevada was unable to participate in the survey and West Virginia does not operate any education programs. Arizona, the District of Columbia, Indiana, Maine, and Utah did not respond to the survey. The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received. An "X" indicates that the State does not provide the type of program referenced.

<sup>a</sup>Included in Adult Basic Education numbers.

<sup>b</sup>Unavailable, part of life skills program.

<sup>c</sup>Not identified as Adult Basic Education or General Education Development; placed in grade levels.

<sup>d</sup>Numbers included in pre-release.

<sup>e</sup>Part of vocational training.

<sup>f</sup>No specific courses.

<sup>g</sup>Offered if requested and paid for by inmates.

<sup>h</sup>Included in "vocational/technical" numbers.

<sup>i</sup>College courses.

<sup>j</sup>Included in other categories.

<sup>k</sup>Included in Adult Basic Education and General Education Development numbers.

<sup>l</sup>Included in 2-year degree.

<sup>m</sup>Included in "job readiness" numbers.

<sup>n</sup>Community colleges.

## Participation in drug treatment programs among State prison inmates

By sex, race and Hispanic origin, and drug use history, United States, 1991<sup>a</sup>

Participation in drug treatment	All inmates	Sex		Race, Hispanic origin				Drug use history		
		Male	Female	White non-Hispanic	Black non-Hispanic	Hispanic	Other <sup>b</sup>	Ever used drugs	Used drugs in the month before the offense	Under the influence of drugs at time of offense
Number of inmates	698,777	660,557	38,221	246,339	319,235	116,456	16,746	552,115	348,198	216,458
Ever participated in drug abuse treatment program	43.2 %	42.8 %	50.5 %	44.5 %	42.4 %	43.3 %	39.9 %	54.7 %	62.3 %	67.6 %
Since admission	32.7	32.5	37.7	32.0	33.1	33.7	30.7	41.4	47.5	52.3
Before admission	21.0	20.5	28.6	24.8	18.3	20.5	19.3	26.5	31.1	34.3
Number of times										
1 time	12.4	12.1	16.2	13.9	11.3	12.6	7.8	15.7	17.6	18.9
2 times	4.6	4.5	6.0	5.6	4.0	4.2	5.7	5.8	7.2	8.0
3 to 5 times	3.0	2.9	4.8	4.0	2.2	3.0	4.5	3.8	4.8	5.7
6 times or more	0.8	0.8	1.3	1.2	0.7	0.5	1.0	1.1	1.3	1.5
In a program in the month before current admission	6.6	6.5	9.1	6.9	6.1	7.5	7.3	8.4	9.6	11.0
Most recent treatment was while incarcerated	35.6	35.3	40.2	35.2	35.7	36.3	33.6	55.0	48.7	43.9
Currently in treatment	13.4	13.0	20.7	12.5	13.2	15.9	13.4	16.9	19.7	22.2

Note: See Note, table 6.40. This table excludes inmates with no information on number of times in treatment, prior drug use, drug use in the month before the offense, or drug use at the time of the offense.

<sup>b</sup>Includes Asians, Pacific Islanders, American Indians, Alaska Natives, and other racial groups.

<sup>a</sup>Subcategories may not add to total because of rounding.

Table 6.77

## Sex offenders, housing, and treatment programs

By jurisdiction, 1993

Jurisdiction	Total prison population	Number of incarcerated sex offenders	Are sex offenders housed separately?	Treatment programming for sex offenders	Recent changes in handling sex offenders
Alabama	17,222	1,417	No	Individual and group counseling; inmate support groups; medical treatment	None
Alaska	2,800	600	Yes; in institutions where a treatment program is provided	Individual and group counseling; medical treatment including Depo-Provera with some sex offenders on probation; use physiological assessment and behavioral therapy in the institutional programs	Revised the programs so that treatment follows a continuum of care from pre-treatment, through treatment, to community after care. All programs currently follow the same treatment model, Relapse Prevention, and work in concert with each other. A special effort has been made to build up the community aftercare programs.
Arizona	16,845	1,925	No	Individual and group counseling; inmate support groups	Have tripled the size of the sex offender treatment program and are developing a program for female inmates
Arkansas	7,920	1,282	Yes	Individual and group counseling; inmate support groups	New residential treatment program
California	103,000	16,000	No	Individual and group counseling; medical treatment; specialized sex offender caseloads on parole	None
Colorado	7,592	2,035	Yes; in sex offenders treatment therapeutic community program	Individual and group counseling; inmate support groups; medical treatment	Started a therapeutic community treatment component to Phase II of Sex Offender Treatment Program; all offenders are housed together and work together in a greenhouse; developing a community corrections placement for approximately eight sex offenders, which will incorporate offense specific treatment and monitoring
Connecticut	12,361	684	No	Individual and group counseling; medical treatment; family and couples counseling; educational classes	Modified the group program to one more focused and time limited with educational and skill building goals; new department classification system.
Delaware	4,350	469	No	Individual and group counseling; medical treatment	Focused more on treatment of the sex offender population
District of Columbia	11,295	102	No	No special treatment for sex offenders	None
Florida	50,603	5,614	No	Individual and group counseling; inmate support groups	None
Georgia	26,767	2,893	No	Individual and group counseling	None
Hawaii	2,851	574	No	Individual and group counseling; behavior therapy	Treatment has shifted from delivery at medium security facility to minimum security facility; treatment is delivered closer to furlough and parole release rather than early in incarceration
Idaho	2,279	539	No	Individual and group counseling; inmate support groups	Change in a growing awareness of sex offenders as a population group requiring some special handling or treatment
Illinois	33,399	3,141	Yes; only at Graham and Big Muddy River Correctional Centers where there are specific residential programs	Individual and group counseling; inmate support groups	Established specific sex offender programs; a working committee has also been established to review the needs of sex offenders
Indiana	14,249	2,080	No	Individual and group counseling	None
Iowa	4,759	677	Yes; at one institution where sex offender treatment program is located	Individual and group counseling; medical treatment; social skills and other educational courses	None
Kansas	6,240	1,406	No	Individual and group counseling	None
Kentucky	10,526	1,231 <sup>a</sup>	No	Individual and group counseling; family therapy; behavioral therapy	Expanded program, refined and improved treatment protocol

See notes at end of table.

Table 6.77

## Sex offenders, housing, and treatment programs

By jurisdiction, 1993--Continued

Jurisdiction	Total prison population	Number of incarcerated sex offenders	Are sex offenders housed separately?	Treatment programming for sex offenders	Recent changes in handling sex offenders
Louisiana	22,317	2,035 <sup>b</sup>	No	Individual and group counseling; inmate support groups	Sex offender treatment programs have been established at all medium and maximum facilities
Maine	1,518	370 <sup>c</sup>	No	Due to severe budgetary cutbacks, the Department of Corrections offers very limited counseling to prisoners who request to discuss these issues with the psychologist	Offering line officers training on how to manage sex offenders and understanding the behaviorism of the sex offender
Maryland	19,590	1,641	No	Sex offenders may be involved in programming or treatment that is available to general population, no specific sex offender treatment	None
Massachusetts	11,700 <sup>d</sup>	1,755 <sup>d</sup>	No	Group counseling; inmates may become involved in additional forms of counseling if they choose	Implemented a formalized treatment plan at the community correction level; utilizing the relapse prevention model or treatment and are working on implementing department-wide
Michigan	30,996	5,633	No	Individual and group counseling; inmate support group; volunteers from Sex Addicts Anonymous participate in treatment at some institutions	Relapse Prevention--psycho educational modules coupled with group counseling and subset of offenders who are in need of treatment, are risks to public, and amenable to treatment will be scheduled for in-depth sex offender treatment
Minnesota	4,002	842	Yes; in some facilities	Individual and group counseling; inmate support groups	Legislatively directed to place more emphasis on providing/mandating sex offender treatment
Mississippi	9,682	1,017	No	Individual counseling	None
Missouri	16,504	2,031	Yes	Individual and group counseling	None
Nebraska	2,618	352	Yes	Individual and group counseling; medical treatment; therapeutic community approach	Changes in the legal court proceedings; sentencing has influenced how candidates for the department's in-house program and the program provided by Department of Public Institutions are determined
Nevada	6,077	825	No	Individual and group counseling; inmate support groups	None
New Hampshire	1,800	400	Yes; in some facilities	Individual and group counseling; inmate support groups	None
New Jersey	23,937	680	No	Individual and group counseling; inmate support groups; medical treatment; psycho-educational programs; sex education; relapse prevention; victim empathy	Institution undertook revision of its in-house parole referral system
New Mexico	3,474	505	No	Individual and group counseling; research projected in conjunction with New Mexico State University	None
New York	64,531	4,159	No; except one facility where there is a 52-bed residential program	Group counseling	No system-wide changes; however, there is now a 52-bed residential program at one facility
North Carolina	20,841	2,862	No; except when in the Sex Offender Accountability and Responsibility (SOAR) program or special cases	Individual and group counseling; inmate support groups; Sex Offender Accountability and Responsibility (SOAR)	None
North Dakota	570	93	No	Individual and group counseling; inmate support groups	Trying to integrate its philosophy and approach to treating sex offenders so as to present a unified treatment concept from the institution to the community
Oklahoma	16,200	160	Yes; in some institutions	Individual and group counseling; inmate support groups	None

See notes at end of table.

Table 6.77

## Sex offenders, housing, and treatment programs

By jurisdiction, 1993--Continued

Jurisdiction	Total prison population	Number of incarcerated sex offenders	Are sex offenders housed separately?	Treatment programming for sex offenders	Recent changes in handling sex offenders
Oregon	6,500	1,200	Yes	Group counseling; relapse prevention for release; day treatment; intensive residential	Structure in prison programs; mandatory orientation program for all sex offenders; treatment units within prisons
Pennsylvania	25,784	3,104	No; some facilities house sex offenders together in a sex offender therapeutic community	Individual and group counseling; inmate support groups	None
Rhode Island	2,672	279	No	Group counseling	None
South Carolina	19,031	1,800	No	Individual and group counseling; 64-bed residential unit scheduled to open in January 1994	A residential sex offender treatment unit scheduled to open in January 1994 with a planned capacity of 64 inmates
South Dakota	1,545	289	Yes	Group counseling; anger management groups; Rap group; sexual offender discussion groups for inmates who don't meet the criteria for treatment	Requiring 6 months treatment prior to receiving minimum custody classification
Tennessee	11,014	2,183	Yes	Individual and group counseling; inmate support groups; medical treatment; physiological assessment; psychological testing; family linkage when appropriate (treatment in residential setting)	Restructuring approach to sex offender treatment and housing; improved statistical follow up
Texas	63,813	10,609	No	Individual and group counseling; inmate support groups; study groups	None
Utah	3,232	755	Yes; in some facilities	Individual and group counseling; inmate support groups	None
Vermont	920	252	No	Individual and group counseling; inmate support groups; medical treatment	None
Virginia	17,074	3,414	Yes	Individual and group counseling; inmate support groups; psycho-educational programs; therapeutic community programs	None
Washington	10,360	3,129	No; except for subset	Individual and group counseling; aversion therapy	None
West Virginia	1,987	250	Yes; some are segregated while others are in main population	Individual and group counseling; inmate support groups; medical treatment	None
Wisconsin	8,800	1,908	No; residential program at one institution	Individual and group counseling; inmate support groups; p-graph assessment; behavioral interventions; social skills training; milieu therapy; relapse prevention	System-wide initiative in developing and implementing sex offender programs
Wyoming	1,018	202	No	Individual and group counseling; medical treatment	Increased emphasis on relapse prevention strategy; increased parole board scrutiny; increased focus on victims' concerns; in-house classification focus
Federal Bureau of Prisons	79,529	700	Yes	Individual and group counseling	None; however, due to an increase in the number of volunteers for this programming, the program will expand to 70 beds

Note: This information was collected through a survey mailed to the 50 States, the District of Columbia, and the Federal Bureau of Prisons. Montana and Ohio did not respond to the survey. The survey did not specify which offenses were to be included as sex offenses, therefore each jurisdiction used its own definition of "sex offenders." Total prison population figures were reported by each jurisdiction. However, the survey specified no time frame for reporting population figures. As a result, population figures may differ from those presented elsewhere in SOURCEBOOK.

The Source presents the information as submitted by the responding agencies. No attempt is made by the Source to verify the information received.

<sup>a</sup>Not all qualify for sex offender treatment program.

<sup>b</sup>Includes those held in jails and awaiting transfer.

<sup>c</sup>Includes juveniles.

<sup>d</sup>Approximately.

## Clients in drug and/or alcoholism treatment units

By sex, race, ethnicity, and age, United States, as of Sept. 30, 1991

Selected characteristics	Total clients	Type of client		
		Drug abuse clients	Alcoholism clients	Both drug and alcoholism problems
<b>Sex</b>				
All clients <sup>a</sup>	776,069	227,873	350,960	197,236
Male	562,388	150,099	269,238	143,051
Female	213,681	77,774	81,722	54,185
<b>Race, ethnicity</b>				
All clients <sup>a</sup>	735,749	219,118	337,391	179,240
White, non-Hispanic	452,171	107,064	228,620	116,487
Black, non-Hispanic	156,014	68,336	45,989	41,689
Hispanic	103,984	39,635	48,901	15,448
Asian	6,451	1,383	3,922	1,146
Native American	13,465	1,612	8,116	3,737
Other	3,664	1,088	1,843	733
<b>Age</b>				
All clients <sup>a</sup>	738,371	222,679	336,773	178,919
Under 18 years	43,698	11,225	15,076	17,397
18 to 20 years	38,544	10,201	16,659	11,684
21 to 24 years	95,718	25,516	44,954	25,248
25 to 34 years	260,184	80,600	111,313	68,263
35 to 44 years	197,165	71,046	86,112	40,007
45 to 54 years	71,315	18,546	41,104	11,665
55 to 64 years	24,283	4,579	16,086	3,618
65 years and older	7,464	958	5,469	1,037

Note: These data are from the National Drug and Alcoholism Treatment Unit Survey (NDATUS) and reflect information as of Sept. 30, 1991. The 1991 NDATUS was a joint effort between the National Institute on Drug Abuse (NIDA) and the National Institute on Alcohol Abuse and Alcoholism (NIAAA). The NDATUS is a national survey that is designed to measure the location, scope, and characteristics of drug abuse and alcoholism treatment and prevention facilities, services, and activities throughout the 50 States, the District of Columbia, Guam, Puerto Rico, the Trust territories, and the Virgin Islands. Both public and privately funded programs are included.

A total of 11,277 treatment units responded to the 1991 survey, reporting 811,819 clients in treatment. For a discussion of survey methodology, data limitations, and definitions of terms, see Appendix 20.

<sup>a</sup>Excludes clients for whom sex, race, ethnicity, or age was not known or not reported.

Source: U.S. Department of Health and Human Services, National Institute on Drug Abuse and National Institute on Alcohol Abuse and Alcoholism, *Highlights from the 1991 National Drug and Alcoholism Treatment Unit Survey (NDATUS)* (Washington, DC: U.S. Department of Health and Human Services, 1992), p. 8.

Note: See Note, table 6.78. Data for the States exclude treatment units operated by or under contract to Federal agencies or tribal governments. The Federal totals include all units operated by the U.S. Department of Defense, the U.S. Department of Veterans Affairs, the Federal Bureau of Prisons, the Indian Health Services, and all units under contract to the Indian Health Services. For a discussion of survey methodology, data limitations, and definitions of terms, see Appendix 20.

<sup>a</sup>Excludes 127 units that reported no clients.

<sup>b</sup>Excludes 129 units that reported no capacity.

<sup>c</sup>Units that did not report total capacity and units that reported no clients were excluded from the computations of utilization rate. Both clients and total capacity were reported for 98.3 percent of treatment units.

Table 6.83

**Drug and alcoholism treatment and prevention units providing services**

By type of treatment unit and type of service, as of Sept. 30, 1991

Services provided	Total units <sup>a</sup>	Alcoholism services	Drug services	Combined services
Total	11,277	1,251	1,031	8,995
Total treatment units	9,057	984	896	7,177
Non-methadone	8,453	984	519	6,950
Methadone	322	0	290	32
Non-methadone and methadone	282	0	87	195
Total non-treatment units <sup>b</sup>	2,220	267	135	1,818
Total prevention or education units	7,374	760	469	6,145
Prevention or education and treatment	5,522	552	369	4,601
Prevention or education with no treatment	1,852	208	100	1,544
Total other units <sup>c</sup>	4,530	426	331	3,773
Other and treatment, or prevention, or education	4,162	367	296	3,499
Other but no treatment, or prevention, or education	368	59	35	274

Note: See Notes, tables 6.78 and 6.79. For a discussion of survey methodology, data limitations, and definitions of terms, see Appendix 20.

<sup>a</sup>Total number of units reporting does not equal the sum of the number of units reporting services provided because units may report multiple services.

<sup>b</sup>Includes prevention, education, and other services.

<sup>c</sup>Includes services such as crisis intervention and hot-lines.

Table 6.85

## Capacity of U.S. Navy correctional centers

By sex and location, 1993

Correctional center and location	Male	Female
Naval Station, Long Beach, California	34	--
Naval Station, Treasure Island, California	25	5
Naval Submarine Base, New London, Connecticut	20	--
Naval Air Station, Jacksonville, Florida	45	5
Naval Air Station, Pensacola, Florida	35	--
Naval Station, Pearl Harbor, Hawaii	55	5
Naval Station, Great Lakes, Illinois	60	--
Naval Station, Philadelphia, Pennsylvania	95	10
Naval Education and Training Center, Newport, Rhode Island	20	--
Naval Air Station, Millington, Tennessee	35	5
Naval Station, Norfolk, Virginia	234	36
Naval Station, Seattle, Washington	30	--
Naval Station, Guam	23	2
Fleet Activities, Yokosuka, Japan	40	2
Naval Station, Guantanamo Bay, Cuba	10	--
Naval Station, Roosevelt Roads, Puerto Rico	10	--
Naval Station, Rota, Spain	24	2
Naval Consolidated Brig, <sup>a</sup> Miramar, San Diego, California	342	18
Naval Consolidated Brig, <sup>a</sup> Charleston, South Carolina	342	18

Note: Data have been collected from the organizations or agencies through a mail survey. The Navy also operates other small correctional centers and detention spaces in the United States and overseas. All facilities are for Naval personnel 17 years of age and older awaiting court-martial or serving court-martial sentences.

<sup>a</sup>These facilities retrain inmates for return to honorable service, preparation for return to civilian life, or holding for transfer to the Federal Bureau of Prisons and/or Department of Defense long-term confinement facility.

Table 6.86

## Capacity and security level of U.S. Army correctional centers

By location, 1993

Correctional center and location	Capacity	Security level
U.S. Disciplinary Barracks, Ft. Leavenworth, Kansas	1,777	Maximum
Regional Corrections Facility, Ft. Carson, Colorado	150 <sup>a</sup>	Medium
Regional Corrections Facility, Ft. Hood, Texas	150 <sup>a</sup>	Medium
Regional Corrections Facility, Ft. Knox, Kentucky	150 <sup>a</sup>	Medium
Regional Corrections Facility, Ft. Lewis, Washington	252	Medium
Regional Corrections Facility, Ft. Sill, Oklahoma	156	Medium
U.S. Army Confinement Facility, Ft. Benning, Georgia	120 <sup>a</sup>	Minimum
U.S. Army Confinement Facility, Ft. Riley, Kansas	127 <sup>a</sup>	Minimum
U.S. Army Confinement Facility, Ft. Richardson, Alaska	76 <sup>a</sup>	Minimum
U.S. Army Confinement Facility, Mannheim, Germany	240	Medium
U.S. Army Confinement Facility, Camp Humphries, Korea	65	Medium
U.S. Army Confinement Facility, Fort Clayton, Panama	76	Medium

Note: See Note, table 6.85. The U.S. Army Corrections System is composed of five Regional Corrections Facilities, three Army Confinement Facilities, and a central maximum security prison, the U.S. Disciplinary Barracks, within the United States. Three additional confinement facilities are located in overseas areas. The Regional Corrections Facilities and the U.S. Disciplinary Barracks provide a full range of custodial and correctional treatment programs for the incarceration of military offenders regardless of branch of service. Army confinement facilities house short-term prisoners and provide minimum services and programs. The Army Corrections System provides the only long-term corrections capability within the Department of Defense.

<sup>a</sup>Males only.

Wyoming <sup>c</sup>	268	184	80	X	4	135	135	0	0

Note: See Notes, figure 6.1 and table 6.33. Data for the Federal jurisdiction were unavailable for 1991. For information on methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 18.

<sup>a</sup>Figures include both jail and prison inmates; jails and prisons are combined in one system.

<sup>b</sup>Unconditional releases may include a small number of inmates who were released to probation.

<sup>c</sup>All data for Arizona, California, Florida, Georgia, Illinois, Indiana, Iowa, Massachusetts, Michigan, Texas, and Wyoming are custody, rather than jurisdiction counts.

<sup>d</sup>Numbers for release categories are estimated.

<sup>e</sup>Counts of inmates by sentence length may be slightly incorrect. See "Sentencing information" for the relevant jurisdiction in Appendix 18.

Note: See Note, table 6.60. Data are based on first releases with a sentence of more than a year for whom the most serious offense and time served in prison were reported. All data exclude persons released from prison by escape, death, transfer, appeal, or detainer. For methodology, offenses within categories, and jurisdictional explanatory notes, see Appendix 19.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Includes persons of Hispanic origin.

<sup>c</sup>Includes persons of all races.

<sup>d</sup>Less than 0.05 percent.

<sup>e</sup>Figure not computed because there were fewer than 10 cases.

Other offenses	0.3	19	26	0.3	19	24	0.5	22	30	0.3	16	25

Note: See Note, table 6.60. Data are based on first releases with a sentence length of more than a year. First releases are persons released for the first time on their current sentence. All data exclude persons released from prison by escape, death, transfer, appeal, or detainer. Data on time served in prison are based on all first releases for whom the most serious offense, race, Hispanic origin, and time served were reported. For methodology, offenses within categories, and jurisdictional explanatory notes, see Appendix 19.

<sup>a</sup>Detail may not add to total because of rounding.

<sup>b</sup>Includes persons of Hispanic origin.

<sup>c</sup>Includes persons of all races.

<sup>d</sup>Figure not computed because there were fewer than 10 cases.

<sup>e</sup>Less than 0.05 percent.

Table 6.92

**Time served by Federal offenders**

By most serious conviction offense, time served, and percent of sentence served, United States, 1990

Most serious offense	Number of prisoners released <sup>a</sup>	Time served (in months)	Percent of sentence served
All offenses	26,955	19.2	89.4 %
Violent offenses	1,585	54.2	72.3
Murder/manslaughter	80	64.9	69.6
Assault	428	45.0	77.5
Robbery	907	58.4	68.7
Rape	21	(b)	57.8
Other sex offenses <sup>c</sup>	90	34.0	82.3
Kidnaping	35	106.3	56.9
Other violent offenses	24	25.8	124.4
Property offenses	5,653	16.3	89.6
Fraudulent offenses	4,072	15.1	89.4
Embezzlement	415	11.6	92.3
Fraud <sup>d</sup>	2,912	15.2	88.0
Forgery	346	14.6	91.1
Counterfeiting	399	19.0	95.3
Other offenses	1,581	19.6	90.2
Burglary	88	27.2	86.6
Larceny <sup>e</sup>	938	16.8	94.2
Motor vehicle theft	227	22.6	85.4
Arson	39	38.8	74.1
Transportation of stolen property	185	28.3	76.3
Other property offenses <sup>f</sup>	104	8.5	98.7
Drug offenses	8,012	29.7	80.9
Trafficking	7,590	30.7	79.1
Possession and other	422	10.3	112.6
Public-order offenses	11,553	8.6	97.4
Regulatory offenses	503	18.2	93.2
Other offenses	11,050	8.1	97.5
Weapons	1,249	20.9	97.2
Immigration offenses	7,804	4.1	100.5
Tax law violations			
Including tax fraud	466	12.0	76.7
Bribery	82	11.5	87.0
Perjury	70	13.2	90.6
National defense	25	20.7	91.9
Escape	175	18.4	96.7
Racketeering and extortion	497	31.2	71.4
Gambling offenses	2	(b)	(b)
Liquor offenses	2	(b)	(b)
Mail or transport of obscene material	72	24.8	82.2
Traffic offenses	452	2.0	100.1
Migratory birds	35	7.3	102.5
Other	119	13.9	112.3

Note: See Note, table 6.6. Total includes prisoners whose offense category could not be determined. For methodology and definitions of terms, see Appendix 11.

<sup>a</sup>Includes 790 releases for which the time served until first release was unknown.

<sup>b</sup>Too few cases to obtain statistically reliable data.

<sup>c</sup>May include some non-violent offenses.

<sup>d</sup>Excludes tax fraud.

<sup>e</sup>Excludes transportation of stolen property.

<sup>f</sup>Excludes fraudulent property offenses; includes destruction of property and trespass.

Idaho	238	275	270	243	2.1
Montana	752	406	347	811	7.8
Nevada	2,417	1,620	1,187	2,850	17.9
New Mexico <sup>a</sup>	1,151	1,277	1,204	1,224	6.3
Oregon	5,794	5,805	3,576	8,023	38.5
Utah	1,277	1,244	960	1,561	22.2
Washington	9,832	741	958	9,615	-2.2
Wyoming	326	155	168	313	-4.0

Note: See Note, table 6.1. Maine eliminated parole in 1976. For a discussion of survey methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 15.

<sup>a</sup> Estimated numbers in one or more categories. For more information, see jurisdictional explanatory notes in Appendix 15.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Probation and Parole 1990*, Bulletin NCJ-133285 (Washington, DC: U.S. Department of Justice, November 1991), p. 3. Table adapted by SOURCEBOOK staff.

Table 6.94

## Rate (per 100,000 adult residents) of persons in the parole population

United States, 1979-90

	Rate per 100,000 adult residents
1979	138
1980	136
1981	136
1982	144
1983	147
1984	155
1985	158
1986	184
1987	201
1988	224
1989	248
1990	287

Note: See Note, table 6.1. Rates were calculated using U.S. Bureau of the Census population figures for the number of adult residents. Rates for 1979 and 1980 presented in earlier editions of SOURCEBOOK were based on the number of inhabitants and thus are not comparable to the data presented here. For a discussion of survey methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 15.

Note: See Notes, figure 6.1 and table 6.33. Admissions and releases are of prisoners sentenced to more than 1 year. Most, but not all, States reserve prison for offenders sentenced to a year or more. Data for the Federal jurisdiction were unavailable for 1991. For information on methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 18.

<sup>a</sup>Figures include both jail and prison inmates; jails and prisons are combined in one system.

<sup>b</sup>All data for Arizona, California, Florida, Georgia, Illinois, Indiana, Iowa, Massachusetts, Michigan, Texas, and Wyoming are custody, rather than jurisdiction counts.

<sup>c</sup>Numbers for admission categories are estimated.

<sup>d</sup>Counts of inmates by sentence length may be slightly incorrect. See "Sentencing information" for the relevant jurisdiction in Appendix 18.

Note: The U.S. Parole Commission conducts parole hearings for inmates currently in the custody of the Federal Bureau of Prisons and exercises jurisdiction over approximately 20,000 Federal parolees. These data refer only to defendants sentenced as adults. The "percent" column refers to inmates who were granted parole as a proportion of the total number of inmates considered for parole. The Source notes, "while the percentage granted parole has traditionally served as an indicator of paroling policy, it has several limitations. First, it is affected by changes in types of offenders entering the system. For example, the rate of parole grants for auto thieves (whose number entering the Federal system had declined over the years) may not be the same as for narcotics dealers (whose number has risen). Second, the measure may be affected by changes in sentencing practices" (Source, *October 1, 1992 to September 30, 1993*, p. 11). The data do not reflect decisions modified under the Commission's appellate or reopening provisions.

For a list of States in regions, see Appendix 4.

<sup>a</sup>The Commission modified its regional operation by combining the Northeast and Southeast regions into the Eastern region.

<sup>b</sup>The Commission modified its regional operation by closing the Western region. The South Central and North Central regional offices took over the area previously serviced by the Western region.

Gambling offenses	11	100	(d)	(d)	(d)	(d)	(d)	(d)
Liquor offenses	0	100	(h)	(h)	(h)	(h)	(h)	(h)
Mail or transport of obscene material	3	100	(d)	(d)	(d)	(d)	(d)	(d)
Traffic offenses	50	100	80.0	0.0	2.0	4.0	8.0	6.0
Migratory birds	2	100	(d)	(d)	(d)	(d)	(d)	(d)
Other	11	100	(d)	(d)	(d)	(d)	(d)	(d)

Note: See Note, table 6.6. Total includes offenders whose offense category could not be determined. The number of offenders who terminated parole supervision in 1990 was 14,898. Due to changes in the counting of terminations, these data are not directly comparable to prior years. For methodology and definitions of terms, see Appendix 11.

<sup>d</sup>Too few cases to obtain statistically reliable data.

<sup>e</sup>Excludes tax fraud.

<sup>f</sup>Excludes transportation of stolen property.

<sup>g</sup>Excludes fraudulent property offenses; includes destruction of property and trespass.

<sup>h</sup>No cases of this type occurred in the data.

<sup>a</sup>Removal to inactive supervision or return to incarceration for violation of supervision conditions other than charges for new offenses.

<sup>b</sup>Removal to inactive supervision or return to incarceration after arrest for a "major" or "minor" offense.

<sup>c</sup>May include some non-violent offenses.

Source: U.S. Department of Justice, Bureau of Justice Statistics, *Compendium of Federal Justice Statistics, 1990*, NCJ-143499 (Washington, DC: U.S. Department of Justice, 1993), p. 51.

Note: The NAACP Legal Defense and Educational Fund, Inc. periodically collects data on persons on death row. As of Apr. 20, 1994, 37 jurisdictions, the Federal Government, and the United States military had capital punishment laws; and 34 jurisdictions, the Federal Government, and the United States military had at least 1 prisoner under sentence of death. Between Jan. 1, 1973 and Apr. 20, 1994, an estimated 1,379 convictions or sentences have been reversed or vacated on grounds other than constitutional. Between Jan. 1, 1973 and May 30, 1990, an estimated 558 death sentences have been vacated as unconstitutional.

<sup>a</sup>Detail will not add to total because inmates sentenced to death in more than one State are listed in the respective State totals, but each is counted only once at the national level.

<sup>b</sup>Includes two females.

<sup>c</sup>Includes three males who were juveniles at the time of their offenses.

<sup>d</sup>Includes one male who was a juvenile at the time of his offense.

<sup>e</sup>Includes one female.

<sup>f</sup>Includes one male sentenced to death in the State but serving another sentence in another State.

<sup>g</sup>Includes two males sentenced to death in the State but serving another sentence in another State.

<sup>h</sup>Includes three males sentenced to death in the State but serving another sentence in another State.

<sup>i</sup>Includes four females.

<sup>j</sup>Includes four males who were juveniles at the time of their offenses.

<sup>k</sup>Includes two males who were juveniles at the time of their offenses.

<sup>l</sup>Includes one female sentenced to death in the State but serving another sentence in another State.

<sup>m</sup>Includes three females.

<sup>n</sup>Includes six males who were juveniles at the time of their offenses.

Table 6.109

## Prisoners under sentence of death

By demographic characteristics, prior felony conviction history, and legal status, United States, on Dec. 31, 1992

Total number	2,575
Sex	
Male	98.6 %
Female	1.4
Race	
White	58.6
Black	40.0
Other <sup>a</sup>	1.4
Ethnicity	
Hispanic	7.6
Non-Hispanic	92.4
Age <sup>b</sup>	
17 years or younger	(c)
18 to 19 years	0.4
20 to 24 years	7.3
25 to 29 years	16.4
30 to 34 years	25.5
35 to 39 years	19.8
40 to 44 years	14.2
45 to 49 years	9.2
50 to 54 years	3.8
55 to 59 years	1.5
60 years and older	1.8
Education	
Grade 7 or less	8.0
Grade 8	8.0
Grades 9 to 11	37.0
Grade 12	36.8
College	10.2
Marital status	
Married	27.6
Divorced or separated	22.3
Widowed	2.7
Never married	47.4
Prior felony conviction history	
Prior felony convictions	68.5
No prior felony convictions	31.5
Legal status at time of capital offense	
Charges pending	6.7
Probation	8.9
Parole	20.5
Prison escapee	1.7
Prison inmate	2.8
Other status <sup>d</sup>	1.3
None	58.1

Note: Thirty-six States and the Federal Government had death penalty statutes in effect on Dec. 31, 1992. Data on ethnicity were not reported for 142 prisoners; education, 315 prisoners; marital status, 186 prisoners; prior felony conviction history, 154 prisoners; legal status at time of capital offense, 296 prisoners.

<sup>a</sup>Consists of 23 American Indians and 15 Asians.

<sup>b</sup>The youngest person under sentence of death was a black prisoner in Florida born in April 1975 and sentenced to death in October 1991.

The oldest person under sentence of death was a white prisoner in Missouri born in December 1914 and sentenced to death in May 1991.

<sup>c</sup>Less than 0.05 percent.

<sup>d</sup>Includes 9 persons on work release, 4 persons on mandatory conditional release, 3 persons on bail, 2 persons on temporary leave, 2 persons in a halfway house, 1 absconder from bail, 1 person on accelerated rehabilitation, 1 person AWOL from the U.S. Army, 1 person on work furlough, 1 person in jail, 1 person under house arrest, 1 person in a pre-release treatment center, 1 person in a community diversion program, and 1 person in a supervised road gang.

Note: See Note, table 6.109. Figures for 1974-81 have been revised from those reported in *Capital Punishment 1981*, NPS Bulletin SD-NPS-CP-10, December 1982. In addition, as a result of a major procedural change regarding dispositions, the number of dispositions other than execution and the number of persons under sentence of death in 1976 and subsequent years are not strictly comparable to corresponding data for earlier years. For information on methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 18.

<sup>a</sup>Dispositions of death sentences other than by execution included dismissal of indictment, reversal of judgment, commutation, resentencing, order of a new trial, and death.

Note: See Note, table 6.109. For information on methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 18.

<sup>a</sup>One American Indian and one Asian were received from court. Two American Indians and two Asians had their death sentences removed. Twenty-three American Indians and 13 Asians were under a death sentence at yearend.

<sup>b</sup>Hispanics may be of any race. This category does not figure into the total of all prisoners under sentence of death presented in tables 6.109, 6.110, and 6.114.

<sup>c</sup>Dispositions of death sentences other than by execution include dismissal of indictment, reversal of judgment, commutations, resentencing, order of a new trial, and death.

<sup>d</sup>Two American Indian prisoners in North Carolina had their sentences overturned by an appellate court and were awaiting resentencing. An Asian prisoner in California died of natural causes. An Asian prisoner in Washington had his sentence overturned by an appellate court and was resentenced to life imprisonment.

Note: See Note, table 6.109. This table identifies the 1991 yearend status of persons removed from death row during the year. Disposition is final only for those who are serving reduced sentences, who are deceased, or who have been found not guilty. Persons in each of the other categories are subject to further legal proceedings prior to final disposition. For information on methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 18.

<sup>a</sup>All charges on capital offense dropped.

Note: See Note, table 6.109. This table identifies the legal or other event effectively terminating the death sentence. For information on methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 18.

<sup>a</sup>Prisoners died of natural causes in each of the following States: California (1), Florida (2), Missouri (1), and Pennsylvania (2). One prisoner in Nevada committed suicide.

<sup>b</sup>Commutation effects an immediate change in sentence from death to life imprisonment or a term of years.

<sup>c</sup>Further legal proceedings may have followed the vacating of sentences and of convictions and may have resulted in new

sentences of death. Two prisoners in North Carolina had their death sentences overturned and were awaiting resentencing. One prisoner in Washington had his sentence overturned and was resentedenced to life imprisonment.

<sup>d</sup>Total for Virginia includes one prisoner who received a conditional pardon from the Governor.

Note: In three States, Maine, Minnesota, and Wisconsin, there was no death penalty for the entire period covered by the table. Alaska and Hawaii have not had the death penalty since 1960, when they were first included as States. For other States, the death penalty may have been abolished or declared unconstitutional, and/or subsequently reinstated. In these cases, an X will appear to indicate years when the death penalty was not in effect. For information on methodology, definitions of terms, and jurisdictional explanatory notes, see Appendix 18.

<sup>a</sup>As States, Alaska and Hawaii are included in the series beginning Jan. 1, 1960.

<sup>a</sup>Includes 25 executed for armed robbery, 20 for kidnapping, 11 for burglary, 6 for sabotage, 6 for aggravated assault, and 2 for espionage.

Table 6.121

## Methods of execution in States authorizing the death penalty

By State, 1992

Lethal injection	Electrocution	Lethal gas	Hanging	Firing squad
Arkansas <sup>a,b</sup>	Alabama	Arizona	Montana <sup>a</sup>	Idaho <sup>a</sup>
Colorado <sup>a,c</sup>	Arkansas <sup>a,b</sup>	California	New Hampshire <sup>a,d</sup>	Utah <sup>a</sup>
Delaware	Connecticut	Colorado <sup>a,c</sup>	Washington <sup>a</sup>	
Idaho <sup>a</sup>	Florida	Maryland		
Illinois	Georgia	Mississippi <sup>a,f</sup>		
Louisiana <sup>a,e</sup>	Indiana	Missouri <sup>a</sup>		
Mississippi <sup>a,f</sup>	Kentucky	North Carolina <sup>a</sup>		
Missouri <sup>a</sup>	Louisiana <sup>a,e</sup>			
Montana <sup>a</sup>	Nebraska			
Nevada	Ohio			
New Hampshire <sup>a,d</sup>	South Carolina			
New Jersey	Tennessee			
New Mexico	Virginia			
North Carolina <sup>a</sup>				
Oklahoma				
Oregon				
Pennsylvania				
South Dakota				
Texas				
Utah <sup>a</sup>				
Washington <sup>a</sup>				
Wyoming				

Note: See Note, table 6.110. Federal executions are to be carried out according to the method of the State in which the inmate was sentenced.

<sup>a</sup> Authorizes two methods of execution.

<sup>b</sup> Arkansas authorizes lethal injection for those whose capital offense occurred after July 4, 1983; for those whose offense occurred before that date, the condemned prisoner may select lethal injection or electrocution.

<sup>c</sup> Colorado authorizes lethal gas for those whose crimes occurred before July 1, 1988 and lethal injection for those whose crimes occurred on or after July 1, 1988.

<sup>d</sup> New Hampshire authorizes hanging only if lethal injection cannot be given.

<sup>e</sup> All death sentences imposed on or after Sept. 15, 1991 in Louisiana will be carried out by lethal injection. Sentences imposed prior to that date will be carried out by electrocution.

<sup>f</sup> Mississippi authorizes lethal injection for those convicted after July 1, 1984; execution of those convicted prior to that date is to be carried out with lethal gas.

## Annotated list of sources and references

Only published documents cited by the **Sourcebook** are listed here. Information provided to **Sourcebook** staff in the form of single tables or mimeographed reports are not listed.

Where data from more than one edition of a publication were used in trend tables, only the latest edition of the publication is annotated.

Sources typically contain more tables than were selected for presentation in the **Sourcebook**. Narratives that describe or analyze the tables and the procedures used to collect the data also may be presented in greater detail in the original source.

Administrative Office of the United States Courts

### **1992 Annual Report of the Director**

(Annual. Washington: USGPO, 1993. 428 pages, 130 tables (estimated), 12 figures, 2 appendices.)

Presents data for year ending Sept. 30, 1992 and trend data for 1982-92. SOURCEBOOK tables 1.60, 1.65, 1.73, 1.74, 1.76, 5.32, 5.37, 5.42-5.45, 5.80-5.85, 6.3-6.5.

This report begins with an overview of Federal judicial business, administration, appropriations, and expenditures, and provides data on all aspects of the Federal court system. A detailed analysis of workload is presented for the U.S. Courts of Appeals and the U.S. District Courts. For the appellate courts, information is presented on filings, terminations, types of appeals, State prisoner petitions, etc. Information for the U.S. District Courts includes civil cases filed, terminated, and pending; prisoner petitions; juror utilization; Federal public/community defenders; criminal cases filed, terminated, and pending; dispositions of criminal cases filed; amount of time from filing to disposition; and length of civil and criminal trials. Data are provided in aggregate form and also are presented by circuit and district court.

### **1992 Federal Court Management Statistics**

(Annual. Washington: Administrative Office of the United States Courts, 1993. 167 pages, 121 tables.)

Presents data for fiscal 1987-92. SOURCEBOOK table 1.64.

This report presents workload and performance statistics on both civil and criminal matters for each of the U.S. Courts of Appeals and each of the 94 U.S. District Courts. Data for the former include appeals filed, terminated, and pending; number of judgeships; types of appeals; number of opinions; median time from filing to disposition; and other matters pertaining to the appellate courts. Data for the U.S. District Courts include cases filed, terminated, and pending; actions per judgeship; median time from filing to disposition; a juror usage index; and other matters related to activities in U.S. District Courts. As part of the profile, each court is ranked on various dimensions. Two tables presenting the national profile for all U.S. Courts of Appeals and all U.S. District Courts on workload and performance measures also are included.

### **Report on Applications for Orders Authorizing or Approving the Interception of Wire, Oral, or Electronic Communications for the Period January 1, 1992 to December 31, 1992**

(Annual. Washington: USGPO, 1993. 211 pages, 13 tables, 4 figures, 1 appendix.)

Presents data for 1992 and trend data for 1982-92. SOURCEBOOK tables 5.2-5.4.

This report details the applications for orders authorizing or approving the interception of wire, oral, or electronic communications, as required by Title 18, United States Code, Section 2519(1). Included are descriptions of the reporting requirements of the statute, regulations for filing reports, and summaries of the reports submitted by judges and prosecuting officials. The tables in the body of the report present data on grants, denials, and authorized length of intercept orders; offenses for which court intercept orders were granted; types of surveillance used; average costs of electronic surveillance; arrests and convictions resulting from electronic surveillance; and a summary of authorized intercepts from 1982 through 1992. The appendix tables contain detailed data from reports filed by Federal and State judges and prosecuting officials on court-authorized electronic surveillance activities during 1992 and on arrests, trials, and convictions as a result of intercepts installed during previous years.

### **The Third Branch**

(Monthly. Washington: USGPO. Contents and dates of data presented: See below. SOURCEBOOK table 1.58.)

**The Third Branch** is a monthly newsletter for the Federal courts compiled by the Administrative Office of the United States Courts, focusing on current issues facing the Federal judiciary. In addition to segments on special topics (e.g., the March 1994 issue includes articles on judicial reaction to the crime bill then before Congress, new computerized case management systems, Federal court task forces to study bias, and the fiscal 1995 judiciary budget), regular features include interviews with prominent judicial and congressional personnel, and a calendar of events pertinent to judicial personnel.

American Correctional Association

### **1994 Directory of Juvenile and Adult Correctional Departments, Institutions, Agencies and Paroling Authorities**

(Annual. Laurel, MD: American Correctional Association, 1994. 654 pages, 18 tables, 2 figures.)

Presents data for 1993. SOURCEBOOK tables 1.81-1.83, 1.92, 1.103, 6.37, 6.85-6.87.

This directory describes the organization and administrative structure of correctional services in all 50 States, the District of Columbia, the Federal Bureau of Prisons, and the U.S. territories. For each jurisdiction, data are provided on institutions, parole boards, and parole and probation services for both adults and juveniles. Descriptions and addresses of each facility within each jurisdiction are provided. Summary statistics are provided on personnel, fiscal expenditures, correctional populations, types of facilities, paroling authorities, and the death penalty. Information is provided for the U.S. Department of Justice, military correctional facilities, and the Canadian correctional system as well as New York City, Philadelphia, and Cook County (Chicago) departments of correction.

### **1993-1995 National Jail and Adult Detention Directory**

(Biennial. Laurel, MD: American Correctional Association, 1993. 456 pages, 55 tables.)

Presents data for 1992. SOURCEBOOK table 1.77.

This directory provides information on adult jail and detention centers in the 50 States, the District of Columbia, and the Federal Bureau of Prisons. Summary tables present information on the number of jails and detention centers in the United States, total population figures, number of personnel, and expenditure data. For each State, a table summarizing jail/detention center population figures, movement of prisoners, number of

payroll staff and correctional officers, and expenditures is provided. Names and addresses of each jail/detention center in each State are provided. Data on the rated capacity, inmate population, admissions, year constructed, staff, operating expenditures, and programs for each jail/detention center also are provided.

American Judicature Society

---

***Judicial Selection in the United States: A Compendium of Provisions***

(Periodic. 2nd edition. Chicago: American Judicature Society, 1993. 194 pages, 15 tables.)

Presents data for 1993. SOURCEBOOK tables 1.69-1.71.

This document describes the methods by which judges are selected in the 50 States and the District of Columbia. The book begins with a historical review of judicial selection in the United States and a narrative summary of current practice. A survey of State statutes provides data for 1992 or from the most recent statutory updates available. Data are presented on the selection and retention process for State supreme court justices; intermediate appellate judges; and general, limited, and special jurisdiction trial court judges. Current provisions for selecting judges through commission plans, partisan elections, and nonpartisan elections also are presented. The book concludes with a State-by-State presentation of relevant statutory citations and a summary of their texts.

American Judicature Society, Center for Judicial Conduct Organizations

---

***Judicial Conduct Reporter***

(Quarterly. Chicago: American Judicature Society. Contents and dates of data presented: See below. SOURCEBOOK tables 1.72, 5.99.)

The ***Judicial Conduct Reporter*** is a quarterly publication presenting recent developments in laws relating to judicial conduct and ethics as well as data on the procedures and operations of State judicial conduct organizations. The newsletter features annual reports on the disposition of complaints of judicial misconduct and on the personnel and budgets of the State organizations. Also presented are reviews of recent law review articles pertaining to the field.

Astin, Alexander W., William S. Korn, and Ellyne R. Riggs

---

***The American Freshman: National Norms for Fall 1993***

(Annual. Higher Education Research Institute. Los Angeles: University of California, 1993. 167 pages, 13 tables, 8 figures, 6 appendices.)

Presents data for 1993. SOURCEBOOK tables 2.97-2.103.

This report presents the results of a national survey of students attending colleges and universities as first-time, full-time freshmen in Fall 1993. The survey examines social issues and activism, professional interests and goals, economic concerns and their effect on college choice, lifetime goals such as social and financial success, activities during high school, and attitudes toward a variety of political and social issues. These data are based on the responses of 220,757 students at 427 of the Nation's 2- and 4-year colleges and universities, and have been statistically adjusted to represent the 1.6 million first-time, full-time students entering college as freshmen in Fall 1993. Survey methodology, data collection instruments, and a list of participating colleges and universities are provided.

CEGA Publishing

---

***Corrections Compendium***

(Monthly. Lincoln, NE: CEGA Publishing. Contents and dates of data presented: See below. SOURCEBOOK tables 1.10, 1.11, 1.84-1.86, 1.89, 1.104, 6.7, 6.15, 6.16, 6.36, 6.49, 6.63, 6.75, 6.77, 6.88, 6.106.)

The ***Corrections Compendium*** is a monthly publication focusing on issues related to institutional and community corrections. Regular features of the ***Corrections Compendium*** include articles of special interest to the field, sections on court decisions and legal issues, and news items focusing on corrections. Each issue also carries the results of a survey and tabular information on a selected correctional issue (e.g., the June 1994 issue presents the results of a survey on prison escapes and violence).

The Council of State Governments

---

***The Book of the States 1994-95***

(Biennial. Vol. 30. Lexington, KY: The Council of State Governments, 1994. 680 pages, 246 tables, 3 figures. Dates of data presented: See below. SOURCEBOOK tables 1.66, 1.67.)

***The Book of the States*** is a reference work containing information on the operations, revenues, expenditures, and services of State governments. The book is divided into 10 sections: State constitutions; the State executive branch; the State legislative branch; the State judicial branch; State elections, campaign finance, and initiatives; State finances; State management, regulation, and personnel; State programs and issues; intergovernmental affairs; and a final section on historical and contemporary State characteristics. Data that were collected by The Council of State Governments or that were compiled from other sources are presented on a wide variety of topics.

Elam, Stanley M.; Lowell C. Rose; and Alec M. Gallup

"The 25th Annual Phi Delta Kappa/Gallup Poll of the Public's Attitudes Toward the Public Schools"

(***Phi Delta Kappan*** (October 1993), pp. 137-152. 16 pages, 49 tables.)

Presents data for 1993 and trend data for 1969-93. SOURCEBOOK table 2.5.

This article presents the results of public opinion surveys on attitudes toward public schools. Data are provided on various topics including: the biggest problems facing public schools, support for improving inner city schools, financing preschool programs, curriculum matters, health and social service issues, extending the public school day and year, and prayer at public school graduation ceremonies, among many others. A brief explanation of the composition of the sample and the research procedure also is provided.

Executive Office of the President, Office of Management and Budget

---

***Budget of the United States Government, Analytical Perspectives, Fiscal Year 1995***

(Annual. Washington: USGPO, 1994. 1,765 pages, 600 tables (estimated), 1 appendix.)

Presents data for fiscal 1993-99 and trend data for fiscal 1950-99. SOURCEBOOK table 1.12.

This three-volume report details the actual expenditures for fiscal 1993 and the projected expenditures for fiscal 1994-99. The President's budget message is presented and specific program areas are highlighted. The report includes economic and accounting analyses such as Federal receipts and collections; user fees and tax expenditures; information on Federal spending, borrowing, and debt; current services estimates; and a list of

Federal programs by agency and account. The Appendix presents detailed information on the various appropriations and funds that constitute the budget. It includes for each agency the proposed text of appropriation language, budget schedules for each account, new legislative proposals, and explanations of work to be performed and funds needed.

Executive Office of the President, Office of National Drug Control Policy

---

***National Drug Control Strategy: Budget Summary***

(Annual. Washington: Executive Office of the President, 1994. 187 pages, 110 tables (estimated), 1 figure.)

Presents data for fiscal 1995 and trend data for fiscal 1981-95. SOURCEBOOK tables 1.14, 1.15.

This report summarizes the budget authority for the National Drug Control Strategy developed by the Office of National Drug Control Policy. The report outlines Federal drug funding priorities and resource requirements. Descriptions of the fiscal 1995 budget requests for each of the approximately 50 agencies and accounts that comprise the National Drug Control Budget also are presented. The final section provides additional information on funding, including trend tables presenting funding levels for fiscal 1981 through the President's request for 1995.

***State and Local Spending on Drug Control Activities: Report from the National Survey of States and Local Governments***

(Periodic. Washington: Executive Office of the President, 1993. 27 pages, 13 tables.)

Presents data for fiscal 1990 and 1991. SOURCEBOOK tables 1.16-1.18.

This report presents data collected by the U.S. Bureau of the Census for the Office of National Drug Control Policy. The data provide estimates of the amount and type of drug control spending by State and local governments. Data are tabulated by type of drug control activities, such as criminal justice, education, and health and rehabilitation. Total justice system expenditures, total drug control expenditures, and per capita drug control expenditures are provided for each State.

Gallup, George, Jr.

---

***The Gallup Poll***

(Princeton, NJ: The Gallup Poll. Periodicity, contents, and dates of data presented: See below. SOURCEBOOK table 2.6.)

The results of public opinion research conducted by the Gallup Organization are released several times monthly by The Gallup Poll News Service. A wide variety of topics are examined in these surveys including problems facing the Nation, Presidential job performance, health care reform, programs to get people off welfare, gun control, and various political and foreign affairs issues. A brief note on sample size, sampling tolerance, and survey dates is included in each release.

***The Gallup Poll Monthly***

(Monthly. Princeton, NJ: The Gallup Poll. Contents and dates of data presented: See below. SOURCEBOOK tables 2.1, 2.8-2.10, 2.12-2.18, 2.23, 2.24, 2.30, 2.31, 2.35-2.38, 2.42, 2.44, 2.46, 2.50-2.52, 2.54, 2.57, 2.59-2.62, 2.64, 2.66, 2.67, 2.77, 2.78, 2.107, 2.110, 3.32, 3.33, 3.100-3.103.)

*The Gallup Poll Monthly* contains the results of opinion surveys conducted by the Gallup Poll with demographic breakdowns for selected questions. Political, social, and economic trends are presented in monthly issues that include many topics (e.g., March 1994 covered the effect of the Whitewater controversy on President Clinton's public image, the role of the First Lady, the CIA spy scandal, and attitudes toward banning smoking). A brief note on sample size, sampling tolerance, and survey dates is included in each issue.

The George H. Gallup International Institute

---

***America's Youth in the 1990s***

(Special. Princeton, NJ: The George H. Gallup International Institute, 1993. 318 pages, 237 tables, 17 figures, 1 appendix.)

Presents data for 1992 and trend data for 1959-92. SOURCEBOOK tables 2.76, 2.81, 2.82, 2.96.

This book is based on data gathered by The Gallup Youth Survey. The information presented was collected through ongoing surveys of persons 13 to 17 years old and focuses on teens' attitudes toward various personal, social, and political issues. The survey includes items covering family, school, college/career plans, national and international political issues, values and religion,

substance abuse, law and order, health and safety, sports, the media, economics, and the environment, among other issues. Trend tables and demographic breakdowns are presented when available. The appendix provides a discussion of the methodology and sampling information.

Goldman, Sheldon

---

***"Bush's Judicial Legacy: The Final Imprint"***

(*Judicature, The Journal of the American Judicature Society* 76 (April-May 1993), pp. 282-297, 16 pages, 6 tables.)

Presents data for 1963-92. SOURCEBOOK tables 1.62, 1.63.

This article reports the results of research on judgeship appointments to Federal district and appeals courts. Background characteristics of those appointed by President Bush during his tenure are compared with those appointed by Presidents Johnson, Nixon, Ford, Carter, and Reagan. Appointees who had noteworthy political and legal credentials are highlighted as are controversial appointees.

Harris, Louis

---

***The Harris Poll***

(Los Angeles: Creators Syndicate, Inc. Periodicity, contents, and dates of data presented: See below. SOURCEBOOK tables 2.2, 2.7, 2.26, 2.32-2.34, 2.45, 2.65, 2.72-2.75, 2.104, 2.105.)

*The Harris Poll* is a weekly news release of public opinion research conducted by Louis Harris and Associates. The releases deal with a variety of topics including confidence in selected institutions, Presidential job performance, foreign affairs, business and finance, health care reform, sports, and the media and entertainment. A brief note on sample size and survey dates is included in each release.

Hoetmer, Gerard J.

---

***"Police and Fire Department Personnel and Expenditures, 1993"***

(Annual. *The Municipal Year Book 1994*, pp. 114-174. Washington: International City/County Management Association, 1994. 61 pages, 23 tables, 1 figure.)

Presents data for 1993 and trend data for 1983-93. SOURCEBOOK tables 1.46, 1.47, 1.51.

This report presents data gathered through a mail survey sent to all municipalities with populations of 10,000 persons and over in the United States. The survey was conducted in January 1993 by the International City/County Management Association. Data are presented on personnel, salaries, and expenditures for police and fire departments in 1993, as well as minimum staffing requirements for fire departments and fire apparatus. Comparative data from earlier surveys also are provided.

Insurance Information Institute

---

**The Fact Book 1994**

(Annual. New York: Insurance Information Institute, 1994. 147 pages, 100 tables, 18 figures.)

Presents data for 1992 and trend data for 1983-92. SOURCEBOOK table 3.148.

This yearbook provides data on the property and liability segment of the insurance industry in the United States. Overviews of several issues are provided, including health care reform, rebuilding Florida, and pay-at-the-pump auto insurance. Data on premiums written by property and casualty companies in the United States for all types of personal and commercial lines of coverage are included. Information on shared market automobile and property insurance is included, as are data on special programs such as flood insurance and the Federal Crime Insurance Program. Factors affecting costs for various components of the industry are discussed. Detailed data on losses by category are presented. These include fire losses and fatalities, losses due to natural disasters, motor vehicle accidents and fatalities, and losses related to crime. A section is devoted to laws affecting motorists and a directory of insurance organizations is included.

Johnston, Lloyd D.; Jerald G. Bachman; and Patrick M. O'Malley

---

**National Survey Results on Drug Use from Monitoring the Future Study, 1975-1993**

(Annual. Washington: USGPO, 1994.)

Presents data for 1993 and trend data for 1975-93. SOURCEBOOK tables 2.89-2.95, 3.79-3.84.

This document is the 16th in an annual series reporting on drug use and related attitudes of high school students, college students, and young adults in the United States. The re-

search is sponsored by the U.S. Department of Health and Human Services, National Institute on Drug Abuse. Two major topics treated in the report are trends in drug use among American high school students since 1975 and prevalence of drug use among American high school seniors. Also reported are data on school grade at first use; intensity of "high" produced by drug use; attitudes and beliefs among seniors about various types of drug use; and their perceptions of certain relevant aspects of the social environment, such as parental disapproval of drug use or availability of drugs. Beginning in 1985, data on the prevalence and trends in drug use among young adults who have completed high school also are presented.

Karter, Michael J., Jr.

---

**"Fire Loss in the United States in 1992"**

(Annual. *NFPA Journal* 87(September/October 1993), pp. 78-87. 10 pages, 6 tables, 5 figures.)

Presents data for 1992 and trend data for 1977-92. SOURCEBOOK table 3.170.

This article reports the results of the 1992 National Fire Experience Survey conducted by the National Fire Protection Association. Data are presented that describe fire incidence, deaths, injuries, and property loss, by fire type (structural, vehicular, and arson), property use, and geographic region.

Knopp, Fay Honey; Robert Freeman-Longo; and William Ferree Stevenson

---

**Nationwide Survey of Juvenile and Adult Sex-Offender Treatment Programs and Models, 1992**

(Special. Orwell, VT: The Safer Society Program, 1992. 39 pages, 9 tables, 2 appendices.)

Presents data for 1992. SOURCEBOOK table 1.109.

This report presents data from a national survey of identified treatment programs for both juvenile and adult sex-offenders. The number of facilities available and the type of treatment services provided are presented for each State and the District of Columbia. Also included is information about the treatment of special juvenile and adult populations. The appendices provide sample questionnaires and the names and addresses of the facilities that were surveyed.

Moulder, Evelina R.

---

**"Salaries of County Officials, 1993"**

(Annual. *The Municipal Year Book 1994*, pp. 104-113. Washington: International City/County Management Association, 1994. 10 pages, 4 tables.)

Presents data for 1993 and trend data for 1988-93. SOURCEBOOK table 1.53.

This article presents data collected from the 1993 annual salary survey conducted by the International City/County Management Association. The salaries of county officials are presented by job title, region, county population, and county type. County officials surveyed include the governing board chairperson/president/county judge, county manager, county administrator, clerk to the governing board, chief financial officer, county health officer, planning director, county engineer, director of welfare/human services, chief law enforcement official, purchasing director, and personnel director.

---

**"Salaries of Municipal Officials, 1993"**

(Annual. *The Municipal Year Book 1994*, pp. 83-103. Washington: International City/County Management Association, 1994. 21 pages, 4 tables.)

Presents data for 1993 and trend data for 1988-93. SOURCEBOOK table 1.52.

This article presents data collected from a survey of municipal officials conducted by the International City/County Management Association in the summer of 1993. The salaries of municipal officials are presented by job title, city size, region, city type, and form of government. Average salaries of the following city officials are included: the mayor; city manager; chief appointed administrator; assistant city manager/assistant chief administrative officer; city clerk; chief financial officer; treasurer; engineer; police chief; fire chief; superintendent of parks; librarian; and directors of public works, planning, personnel, parks and recreation, information services/data processing, and purchasing.

National Center for State Courts

---

**Survey of Judicial Salaries**

(Biannual. Vol. 20, No. 1. Williamsburg, VA: National Center for State Courts, 1994. 12 pages, 2 tables.)

Presents data for January 1994. SOURCEBOOK table 1.68.

This report presents State judicial salaries as of January 1994. Salaries are presented for judges in the highest court, the intermediate appellate court, general trial courts, and the courts of limited and special jurisdiction of each State. Information also is presented on salary levels of the Chief Justice and Associate Justices of the highest court and intermediate court as well as salaries of State court administrators.

National Opinion Research Center

---

**General Social Surveys, 1972-93**

(Annual. Storrs, CT: The Roper Center for Public Opinion Research, University of Connecticut, distributors. Contents: See below.)

Presents data for 1972-78, 1980, 1982-91, and 1993. SOURCEBOOK tables 2.11, 2.19-2.21, 2.27-2.29, 2.39, 2.40, 2.47, 2.53, 2.55, 2.56, 2.58, 2.63, 2.71, 2.111, 2.112, 3.30, 3.31, 3.45.

This cumulative data file merges all 19 General Social Surveys into a single machine-readable data file with each survey year as a subfile. Interviews were conducted by the National Opinion Research Center during February, March, and April of 1972-78, 1980, 1982-91, and 1993. The data are derived from a national probability sample of English speaking adults, 18 years or older, living in non-institutional arrangements in the continental United States. Survey questions relate to a variety of social issues, including politics, abortion, religion, homosexuality, crime, law enforcement, guns, and capital punishment.

The items appearing on the surveys are one of three types: permanent questions that appear in each survey, rotating questions that appear 2 out of every 3 years, and a small number of questions that appear in a single survey. Starting in 1988 items no longer rotate across years but appear on two-thirds of the cases every year. A comprehensive codebook entitled **General Social Surveys, 1972-1993: Cumulative Codebook** is published by The Roper Center for Public Opinion Research. Survey methodology and the data program are explained in detail in the codebook.

Stanley, Harold W. and Richard G. Niemi

---

**Vital Statistics on American Politics**

(Special. Washington: CQ Press, 1994. 475 pages, 196 tables, 37 figures, 1 appendix.)

Presents single year data and trend data covering a broad range of years. SOURCEBOOK table 1.61.

This source compiles statistical data on topics relevant to American politics. Information is presented on the Constitution, the mass media, elections and campaigns, political parties, public opinion, interest groups, Congress, the Presidency and the Executive branch, the judiciary, federalism, foreign and military policy, social policy, economic policy, and issues related to State and local governments. Various types of data are provided including number of votes cast and offices won, as well as ranking of public officials' reputations, content analysis data, and public opinion data. When available, data spanning numerous years are presented in trend tables. A reference list of available political statistics is provided.

Szymanski, Linda A., Esq.

---

**Waiver/Transfer/Certification of Juveniles to Criminal Court: Age Restrictions--Crime Restrictions (1993 Update)**

(Special. Pittsburgh, PA: National Center for Juvenile Justice, 1994. 83 pages, 1 table.)

Presents data for 1993. SOURCEBOOK table 1.108.

This report presents information on the transfer of juvenile offenders to adult criminal court by judicial waiver. Citations to specific provisions of State juvenile codes, age restrictions, and offense restrictions governing juvenile waiver to criminal court for the 50 States and the District of Columbia are provided in tabular form. Information regarding the currency of each State's legislation also is included.

U.S. Department of Commerce, U.S. Bureau of the Census

---

**Public Employment: 1992**

(Series GE/92-1. Annual. Washington: USGPO, 1994. 37 pages, 11 tables, 4 appendices.)

Presents data for 1992 and trend data for 1957-92. SOURCEBOOK tables 1.44, 1.45.

This report presents data from the annual survey of government employment conducted by the U.S. Bureau of the Census. The survey measures the number of government employees and their gross payrolls for the month of October. Data are presented in national aggregates, by State, and for local, county, municipal, and township governments. The information covers education services, social services and income maintenance, transportation, public safety, environ-

ment and housing, government administration, utilities, and State liquor authorities. Total employment, full-time equivalent employment, and rates of full-time equivalent employment per 10,000 population are presented.

U.S. Department of Health and Human Services, Centers for Disease Control and Prevention

---

**Morbidity and Mortality Weekly Report**

(Washington: USGPO. Periodicity, contents, and dates of data presented: See below. SOURCEBOOK tables 3.59, 3.140.)

The **Morbidity and Mortality Weekly Report** is a weekly series prepared by the Centers for Disease Control and Prevention. Releases present national data compiled by State health departments on a variety of health issues and risk behaviors. Often featured are data from the national Youth Risk Behavior Survey, which measures the prevalence of priority health-risk behaviors among youth as well as data from mortality data files gathered from death certificates filed throughout the United States.

U.S. Department of Health and Human Services, National Institute on Drug Abuse and National Institute on Alcohol Abuse and Alcoholism

---

**Highlights from the 1991 National Drug and Alcoholism Treatment Unit Survey (NDATUS)**

(Annual. Washington: U.S. Department of Health and Human Services, 1992. 18 pages, 16 tables.)

Presents data for 1991. SOURCEBOOK table 6.78.

This report presents data on drug and alcoholism treatment units in the United States, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands. The data were collected through the National Drug and Alcoholism Treatment Unit Survey (NDATUS) and reflect information as of Sept. 30, 1991. Data on the number of treatment units and the number of clients in treatment are presented. Information also is provided on treatment unit function, utilization rate, and unit capacity. Demographic characteristics for clients in treatment are included as well as information on funding sources and staffing of treatment units. Finally, the number of treatment units and clients in treatment are presented for each State.

U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration

#### ***Annual Emergency Room Data, 1992***

(Statistical Series I, Number 12-A. Washington: USGPO, 1994. 178 pages, 107 tables, 6 appendices.)

Presents data for 1992 and trend data for 1989-92. SOURCEBOOK tables 3.94-3.98.

This report presents information on drug abuse-related emergency room (ER) episodes. The data were compiled by the Substance Abuse and Mental Health Services Administration through the Drug Abuse Warning Network (DAWN). These data are weighted estimates representing all drug abuse ER episodes in 1992 from hospitals in the 48 contiguous States, the District of Columbia, and 21 metropolitan areas. Estimates are provided for demographic and episodic characteristics as well as type of drug involved. These data also are presented for the 21 metropolitan areas. The survey methodology and estimation procedure are described, and the reporting form is provided in an appendix.

#### ***Estimates From the Drug Abuse Warning Network: 1992 Estimates of Drug-Related Emergency Room Episodes***

(Advance Report Number 4. Washington: U.S. Department of Health and Human Services, September 1993. 49 pages, 25 tables, 5 figures, 3 appendices.)

Presents trend data for 1978-92. SOURCEBOOK table 3.99.

This report presents final national estimates of drug-related emergency room episodes for 1988-92. Initial estimates of drug-related emergencies for 1978-87 also are included. These estimates are from the Drug Abuse Warning Network (DAWN), an ongoing national survey of hospital emergency rooms. The survey provides data that describe the impact of drug abuse on the emergency departments of the Nation's hospitals. Since 1988, the DAWN emergency room data have been collected from a representative sample of these hospitals located throughout the coterminous United States, including 21 oversampled metropolitan areas. The data from this sample are used to generate estimates of the total number of emergency room drug abuse episodes and drug mentions in all such hospitals. The report provides annual trends in total episodes, cocaine-related episodes, heroin-related episodes, other drug-related episodes, trends in selected metropolitan areas, and long-term trends.

The appendices provide a description of DAWN, limitations of the data, and a series of detailed tables.

#### ***National Drug and Alcoholism Treatment Unit Survey (NDATUS) 1991, Main Findings Report***

(Annual. Washington: U.S. Department of Health and Human Services, 1993. 99 pages, 43 tables, 4 appendices.)

Presents data for 1991. SOURCEBOOK tables 6.79-6.84.

This report presents data on drug abuse and alcoholism treatment units in the 50 States, the District of Columbia, Guam, Puerto Rico, the Trust territories, and the Virgin Islands. These data were collected through the National Drug and Alcoholism Treatment Unit Survey (NDATUS) and reflect information as of Sept. 30, 1991. The information is presented by treatment type, location, ownership, specialized populations served, and types of services provided. Also provided is a profile of drug abuse and alcoholism clients in all treatment units that responded to the survey. The client tables present the number of persons in treatment, total capacity, and the utilization rate. Additional client data include distributions by demographic characteristics. Also presented are tabulations of the annual unduplicated client count and the estimated number of intravenous drug users. State level tabulations are provided for client demographics and for the number of treatment units, clients in treatment, total capacity, and utilization rate. Also presented is information on sources of funding and average cost per client. The appendices provide a glossary of terms used in the survey, data collection instrument, special population analysis, and an index of variables.

#### ***National Household Survey on Drug Abuse: Population Estimates 1992***

(Annual. Washington: USGPO, 1993. 125 pages, 143 tables.)

Presents data for 1992. SOURCEBOOK tables 3.87-3.90.

This report presents data on drug abuse among the Nation's population age 12 and older. Prevalence estimates for specific drugs are provided for age groups, sex and race, as well as region of the country. The drugs included are: marijuana, cocaine, crack, inhalants, hallucinogens, PCP, psychotherapeutics, stimulants, sedatives, tranquilizers, analgesics, alcohol, cigarettes, smokeless tobacco, heroin, and anabolic steroids. Population estimates, based on the prevalence figures, are provided. Prevalence and

population estimates for use of any illicit drug and needle use are also presented by age group, sex, race, and region. Finally, estimates of frequency of use during the past year for marijuana, cocaine, and alcohol users are presented.

#### ***Perceived Availability and Risk of Harm of Drugs: Estimates from the National Household Survey on Drug Abuse***

(Special. Advance Report Number 5. Washington: U.S. Department of Health and Human Services, March 1994. 45 pages, 13 tables, 7 figures, 4 appendices.)

Presents data for 1992 and trend data for 1985-92. SOURCEBOOK tables 2.68, 2.69, 2.70.

This report presents data from the 1992 National Household Survey on Drug Abuse. Information is presented on perceptions of availability of various illicit drugs and the perceived risk of harm associated with drug use. Data on perceived availability are presented for marijuana, cocaine and crack, LSD, PCP, and heroin. Data on perceived risk of harm are presented for marijuana, cocaine, heroin, and cigarettes. The appendices provide a discussion of the methodology and detailed tabulations for specific drugs broken down by sex, race, ethnicity, population density, region, and six major metropolitan areas.

#### ***Preliminary Estimates from the 1993 National Household Survey on Drug Abuse***

(Annual. Advance Report Number 7. Washington: U.S. Department of Health and Human Services, July 1994. 80 pages, 37 tables, 9 figures, 5 appendices.)

Presents data for 1993 and trend data for 1977-93. SOURCEBOOK tables 3.91-3.93.

This report presents preliminary data on drug, alcohol, and tobacco use among the Nation's population aged 12 and older. Prevalence estimates for lifetime, past year, and past month use are provided for any illicit drug, marijuana and hashish, cocaine, inhalants, hallucinogens, psychotherapeutics, alcohol, and tobacco. Also presented are national estimates of past month use of these substances for age groups, sex, race, region, population density, education, and current employment. Data on the frequency of use of marijuana, cocaine, and alcohol also are included. The appendices discuss the survey methodology, describe the data, and present detailed tabulations.

U.S. Department of Justice, Bureau of Justice Assistance

***The Edward Byrne Memorial State and Local Law Enforcement Assistance Programs: FY 1993 Formula Grant Program Guidance and Application Kit***

(Annual. Washington: U.S. Department of Justice, 1992. 112 pages, 1 table, 12 appendices.)

Presents data for fiscal 1993. SOURCEBOOK table 1.19

This document describes the Edward Byrne Memorial State and Local Law Enforcement Assistance Programs and describes procedures and requirements to apply for and administer formula grant funds. National priorities and key program elements are described. Responsibilities of State agencies receiving funds are reviewed and strategies for implementation, requirements for reporting, and program evaluation requirements are outlined. Detailed information on the submission and review process is presented. The appendices provide information on authorized areas for use of funds, the application forms, and forms related to program implementation.

***Report on Drug Control, Fiscal Year 1992***

(Annual. NCJ-141639. Washington: U.S. Department of Justice, 1993. 50 pages, 3 tables, 5 figures, 3 appendices.)

Presents data for fiscal 1992 and trend data for 1987-92. SOURCEBOOK tables 1.20-1.22.

This report provides information on Bureau of Justice Assistance (BJA) drug control and criminal justice system improvement activities during fiscal year 1992. The BJA administers the Edward Byrne Memorial State and Local Law Enforcement Assistance Program consisting of a Discretionary and a Formula Grant Program. The report provides highlights of program activities during fiscal year 1992 followed by a general discussion of program priorities and their implementation. This is followed by chapters that describe both discretionary and formula grant activities in each of the major priority areas (i.e., demand reduction; community oriented policing; law enforcement effectiveness; money laundering and financial investigations; enhanced prosecution; expeditious adjudication; drug testing; corrections and intermediate sanctions; program evaluation and; information systems, statistics, and technology). The appendices provide information on Discretionary Grant Program awards, the allocation of formula grant funds to States, and how States have allocated the funds among the 21 authorized purpose areas.

U.S. Department of Justice, Bureau of Justice Statistics

***Capital Punishment 1992***

(Annual. Bulletin NCJ-145031. Washington: U.S. Department of Justice, December 1992. 13 pages, 17 tables, 2 figures, 2 appendices.)

Presents data for 1992 and trend data for 1930-92. SOURCEBOOK tables 1.102, 6.109-6.111, 6.118, 6.121.

This bulletin presents data on prisoners sentenced to death, current methods of execution, and recent changes in capital punishment legislation. Prisoner information includes sex, race, ethnicity, age, education, marital status, and criminal history. The number of executions occurring in each State since 1930 is presented. Data on prisoners removed from death row by means other than execution also are included.

***Census of Local Jails 1988***

(Periodic. Bulletin NCJ-121101. Washington: U.S. Department of Justice, February 1990. 11 pages, 24 tables.)

Presents data for 1988 and trend data for 1978-88. SOURCEBOOK table 6.20.

This report presents selected findings from the June 30, 1988 National Jail Census conducted by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. This census is the fifth in a series of surveys of local jails conducted in 1970, 1972, 1978, and 1983. Data are presented on the number of jails and inmates for both 1983 and 1988 by State and region, jail overcrowding, average daily jail population, admissions and releases, rated jail capacity, inmate deaths, number of jail employees, jails under court order, and jail expenditures. This bulletin precedes a detailed five volume publication presenting additional data from the 1988 Census.

***Census of State and Federal Correctional Facilities, 1990***

(Periodic. NCJ-137003. Washington: USGPO, 1992. 32 Pages, 32 tables.)

Presents data for 1984 and 1990. SOURCEBOOK tables 1.9, 1.78-1.80, 1.87, 1.88, 1.93, 6.38, 6.39, 6.71-6.74, 6.107.

This report presents information from the 1990 Census of State and Federal Adult Correctional Facilities sponsored by the U.S. Department of Justice, Bureau of Justice Statistics. Earlier enumerations of State facilities were conducted in 1974, 1979, and 1984. Federal institutions were included for the first time in 1990. Data are provided on facilities,

inmates, programs, employees, and expenditures for State and Federal confinement facilities, and State-operated community-based correctional facilities throughout the United States. The report provides a national overview of State and Federal facilities and inmates, by type of facility, function, level of security, region, and jurisdiction. Additional information presented in the report includes: inmate rule violations, State institutions under court order, number and type of employees, annual operating expenditures, boot camp programs, and characteristics of private correctional facilities. Types of academic, work, and counseling programs, as well as the number of inmates enrolled, are presented. Also included is a description of the methodology and a copy of the survey instrument.

***Census of State and Local Law Enforcement Agencies, 1992***

(Bulletin. NCJ-142972. Washington: U.S. Department of Justice, July 1993, 10 pages, 9 tables.)

Presents data for 1986 and 1992. SOURCEBOOK tables 1.29-1.33.

This report presents data from a census of the Nation's State and local law enforcement agencies. The data were collected by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics through the Directory Survey of Law Enforcement Agencies. The survey includes all police and sheriffs' departments that are publicly funded and employ at least one full-time or part-time sworn officer with general arrest powers. The information is presented for State police agencies, local police departments, sheriffs' departments, and special police agencies. Data are presented on number of sworn and nonsworn employees, including full-time and part-time employees. The number of full-time employees, full-time sworn officers, and the rate of sworn officers per 10,000 residents is presented for each State. The number of State and local law enforcement agencies in each State also is provided.

***Compendium of Federal Justice Statistics, 1990***

(Annual. NCJ-143499. Washington: U.S. Department of Justice, 1993. 109 pages, 48 tables, 8 figures.)

Presents data for 1990. SOURCEBOOK tables 5.6-5.9, 5.19-5.21, 5.24, 6.6, 6.92, 6.103.

This report presents detailed information on the processing of cases in the Federal criminal justice system during 1990. The data are derived from the Federal Justice Statistics

data base, which is constructed from source files provided by the Executive Office for U.S. Attorneys, the Administrative Office of the U.S. Courts, the Pretrial Services Agency (PSA), U.S. Sentencing Commission, and the Federal Bureau of Prisons. Information is provided on prosecutorial decisionmaking by U.S. attorneys, type and outcome of pretrial release or detention, disposition of cases, type and length of sentences imposed, and outcomes of parole and probation. In addition, information on average time served and sentence length for incarcerated offenders is presented. A description of the methodology and a glossary of terms are included.

#### ***Correctional Populations in the United States, 1991***

(Annual. NCJ-142729. Washington: USGPO, 1993, 144 pages, 83 tables.)

Presents data for 1991 and trend data for 1930-91. SOURCEBOOK tables Fig. 6.1-Fig. 6.4, 6.28-6.35, 6.40-6.42, 6.46, 6.53-6.56, 6.59, 6.76, 6.89, 6.95, 6.104, 6.112-6.117, 6.119, 6.120.

This report consolidates information collected through a series of surveys of State and Federal corrections officials. The surveys, which include the 1991 Sample Survey of Jails; the 1991 Census of State and Federal Correctional Facilities, and the 1991 Survey of Inmates in State Correctional Facilities, among others, were sponsored by the U.S. Department of Justice, Bureau of Justice Statistics and conducted by the U.S. Bureau of the Census. Data on the numbers and characteristics of persons under correctional supervision in each jurisdiction, including movements between the major components of the correctional system, are presented. Number of jail facilities and inmates housed in local jails are presented. In addition, data on the numbers and characteristics of offenders under sentence of death are reported.

#### ***Crime and the Nation's Households, 1992***

(Annual. Bulletin NCJ-143288. Washington: U.S. Department of Justice, August 1993. 7 pages, 5 tables, 3 figures.)

Presents data for 1992 and trend data for 1975-92. SOURCEBOOK tables 3.38, 3.39, Fig. 3.5, Fig. 3.6.

This annual bulletin presents data from the National Crime Victimization Survey (NCVS) regarding the prevalence of household crimes experienced by American families. Although concentrating on 1992, the bulletin also presents trend data from 1975. Demographic characteristics presented include race and ethnicity of household head, annual family income, region, and place of residence. An explanation of the methodology

involved in developing the households experiencing crime indicator also is included.

#### ***Criminal Victimization 1992***

(Annual. Bulletin NCJ-144776. Washington: U.S. Department of Justice, October 1993. 8 pages, 8 tables, 4 figures.)

Presents data for 1991 and 1992 and trend data for 1973-92. SOURCEBOOK tables 3.2, 3.3.

This report presents information on criminal victimization in the United States using National Crime Victimization Survey (NCVS) data from 1991 and 1992. Data presented include levels and rates of victimization for personal and household crimes, and characteristics of victims. Changes in rates of victimization and rates of reporting victimization to the police for both personal and household crimes for the period 1973 through 1992 also are included.

#### ***Criminal Victimization in the United States, 1992***

(Annual. NCJ-145125. Washington: U.S. Department of Justice, 1994. 156 pages, 133 tables, 8 figures, 5 appendices.)

Presents data for 1992. SOURCEBOOK tables 3.1, 3.4-3.8, 3.10-3.18, 3.21-3.24, 3.34-3.37, 3.40-3.42, 3.46, 3.48-3.58.

This report presents information on criminal victimization in the U.S. during 1992 and is the 20th in a series of annual reports prepared by the National Crime Victimization Survey (NCVS) program. The NCVS, conducted for the Bureau of Justice Statistics by the U.S. Bureau of the Census, is based on findings from a continuous survey of a representative sample of approximately 61,000 housing units across the U.S., inhabited by about 110,000 individuals age 12 and older.

The NCVS concentrates on certain criminal offenses: the personal crimes of rape, robbery, assault, and larceny; and the household crimes of burglary, larceny, and motor vehicle theft. Both completed and attempted crimes are included in the survey. These crimes are examined from the perspective of their frequency, characteristics of the victims and offenders, circumstances surrounding the offenses and their impact, and patterns of reporting to police.

The appendices present the data tables, survey questionnaire and instrument, and technical information concerning sampling design, data collection, estimation procedures, reliability of estimates, and information on standard error computation. Estimates of the economic cost of crime to victims are presented as is a supplementary analysis on family violence. The final section of the report is a glossary that lists crime category defini-

tions, and a description of variables and other terms used in the NCVS.

#### ***Criminal Victimization in the United States: 1973-92 Trends***

(Special. NCJ-147006. Washington: U.S. Department of Justice, 1994. 136 pages, 49 tables, 9 figures, 2 appendices.)

Presents trend data for 1973-92. SOURCEBOOK tables 3.9, 3.26-3.29, 3.43, 3.44, 3.47.

This report presents information on criminal victimization in the U.S. from 1973-92. The data are derived from the National Crime Victimization Survey (NCVS) conducted for the U.S. Department of Justice, Bureau of Justice Statistics by the U.S. Bureau of the Census. Numbers and rates of personal and household crimes are provided for the 20-year period. Data are broken down by victim age, race, sex, and locality of residence for the personal crimes of rape, robbery, assault, and personal larceny. For the crimes of burglary, household larceny, and motor vehicle theft, data are presented by race of head of household, household tenure and size, and locality of residence. In addition, number and percent of victimizations reported to the police are displayed by age, race, and sex of the victim. The survey methodology is discussed and a glossary of terms is provided.

#### ***Drug Enforcement and Treatment in Prisons, 1990***

(Special Report NCJ-134724. Washington: U.S. Department of Justice, 1992. 13 pages, 18 tables.)

Presents data for 1990. SOURCEBOOK tables 1.94-1.96.

This report presents information from the 1990 Census of State and Federal Correctional Facilities sponsored by the U.S. Department of Justice, Bureau of Justice Statistics. Data are presented on drug control activities in State and Federal prisons and State community-based correctional centers. Drug interdiction practices for inmates, staff, and visitors to prison are described. Information is provided on drug testing for inmates and staff, number and type of tests conducted, and testing results. Capacity and enrollment in drug treatment programs also is presented. A discussion of survey methodology and a copy of the drug addendum survey instrument are included as well.

#### ***Drugs and Jail Inmates, 1989***

(Special Report NCJ-130836. Washington: U.S. Department of Justice, August 1991. 12 pages, 20 tables.)

Presents data for 1983 and 1989. SOURCE-BOOK tables 6.25-6.27.

This report presents data from the 1989 Survey of Inmates in Local Jails conducted for the U.S. Department of Justice, Bureau of Justice Statistics by the U.S. Bureau of the Census. The report focuses on inmates who were charged with or convicted of a drug offense or had used drugs prior to committing their offense. Information is provided on characteristics of jail inmates, type of current and prior sentence, and criminal history. In addition, data are presented on drug use, drug use history, crack and cocaine use, reasons for committing the offense, drug treatment participation, family background, and prior physical or sexual abuse. A brief methodology section also is included.

#### ***Drunk Driving***

(Special Report NCJ-134728. Washington: U.S. Department of Justice, September 1992. 10 pages, 18 tables, 1 figure.)

Presents data for 1980 and 1989. SOURCE-BOOK tables 6.23, 6.24.

This report presents data on persons incarcerated in local jails throughout the United States that have been charged with or convicted of a driving while intoxicated offense. The data were collected through the 1989 Survey of Inmates in Local Jails conducted by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. Data presented include national estimates of driving under the influence (DUI), inmate demographic characteristics, criminal histories, type of alcohol and amount of consumption, and length of confinement. An appendix explains estimation procedures for determining blood alcohol concentration (BAC) levels and a methodology section describes the survey.

#### ***Federal Criminal Case Processing, 1982-91, With Preliminary Data for 1992***

(Annual. NCJ-144526. Washington: USGPO, 1993. 30 pages, 18 tables.)

Presents trend data for 1982, and 1986-92. SOURCEBOOK tables 5.14-5.18, 5.22, 5.23, 5.25.

This report presents detailed information on the processing of cases in the Federal criminal justice system for the years 1982 and 1986-91. Some tables also contain preliminary data for 1992. The data are derived from the Federal Justice Statistics database and describe initial prosecution decisions by U.S. attorneys, suspects referred to U.S. magistrates, number of cases terminated, defendants convicted or dismissed in U.S. District

Courts, and defendants convicted and dismissed under the jurisdiction of U.S. magistrates. In addition, the number and percent of offenders sentenced to prison in U.S. District Courts, and their average sentence length is provided.

#### ***Federal Drug Case Processing, 1985-91, With Preliminary Data for 1992***

(Annual. NCJ-144392. Washington: U.S. Department of Justice, 1994. 19 pages, 30 tables.)

Presents trend data for 1985-92. SOURCE-BOOK tables 5.34-5.36.

This report presents detailed information on the processing of drug cases in the Federal criminal justice system for the years 1985-91. Some tables also contain preliminary data for 1992. The data are derived from the Federal Justice Statistics database and describe initial prosecution decisions by U.S. attorneys, drug suspects referred to and convicted under the jurisdiction of U.S. magistrates, and the number of drug cases terminated and drug defendants convicted in U.S. District Courts. In addition, the number and percent of drug offenders sentenced to prison by U.S. District Courts, and their average sentence length is provided.

#### ***Felony Defendants in Large Urban Counties, 1990***

(Special. NCJ-141872. Washington: U.S. Department of Justice, 1993. 28 pages, 30 tables, 1 appendix.)

Presents data for 1990. SOURCEBOOK tables 5.67-5.70, 5.72-5.75.

This report presents data derived from a sample of 39 of the 75 most populous counties in the United States and a sample of felony defendants in each of the 39 counties. The data are from the second survey of the National Pretrial Reporting Program. Data are presented on characteristics of felony defendants, prior arrests and convictions, pretrial release conditions, court appearance records, adjudication outcomes, sentence type and length, and court processing time. A methodology section describes the study and provides definitions of terms used in the report. The appendix provides more detailed tabulations for each jurisdiction in the sample.

#### ***Firearms and Crimes of Violence***

(Special. Washington: U.S. Department of Justice, 1994. 13 pages, 5 tables, 9 figures, 1 appendix.)

Presents trend data for 1979-92. SOURCE-BOOK figures 3.2, 3.3.

This report presents information from a number of sources on the use of firearms in violent crime. Data from the National Crime Victimization Survey on rates of violent crime and violent crime with a handgun are presented. Data from the Uniform Crime Reports on number of violent crimes involving a handgun by type of crime are included. Firearm homicide rates by age, sex, and race are provided by the National Center for Health Statistics. The Survey of State Prison Inmates provides information on whether respondents carried or fired a gun during their crime, type of weapon used in the commission of their crime, and how the weapon was obtained.

#### ***Highlights from 20 Years of Surveying Crime Victims: The National Crime Victimization Survey, 1973-92***

(Special. Washington: U.S. Department of Justice, 1993. 47 pages, 12 tables, 20 figures, 1 appendix.)

Presents trend data for 1973-92. SOURCE-BOOK figures 3.1, 3.4.

This report presents information from the National Crime Victimization Survey (NCVS). Trend figures from 1973 to 1992 are displayed for rates of personal, household, and violent crime victimization as well as for assault, rape, robbery, larceny, burglary, and motor vehicle theft. Victimization trends for age, race, and sex of victims also are included. Aggregate data for offender characteristics and victim-offender relationship are presented. Information on incident characteristics such as time and location of victimizations, whether a weapon was involved, and self-protective measures employed by victims is presented. Finally, a discussion of the NCVS methodology and the redesign of the survey is included.

#### ***HIV in U.S. Prisons and Jails***

(Special Report NCJ-143292. Washington: U.S. Department of Justice, September 1993. 8 pages, 8 tables.)

Presents data for 1991. SOURCEBOOK tables 6.50-6.52, 6.105.

This report presents information on the prevalence of AIDS and HIV seropositivity rates for State and Federal prisoners and inmates of the Nation's largest jails. The total number of known HIV/AIDS cases and total AIDS-related deaths are reported for the 50 States, the District of Columbia, and the Federal Bureau of Prisons. HIV testing policies are listed for all State and Federal jurisdictions, and the 25 largest jail jurisdictions. Demographic, offense, and criminal history characteristics and prior drug use for inmates testing HIV positive are presented. The methodology section

discusses the sources of data for the information provided.

#### ***Jail Inmates 1992***

(Annual. Bulletin NCJ-143284. Washington: U.S. Department of Justice, August 1993. 10 pages, 16 tables, 2 figures.)

Presents data for 1991 and 1992 and trend data for selected years 1970-92. SOURCEBOOK tables 6.17-6.19, 6.22.

This bulletin presents data from the 1992 Annual Survey of Jails. Data presented include average daily population, admissions and releases, demographic characteristics of inmates, rated jail capacity, percent of capacity occupied, inmate deaths, and jails under court order. Data also are presented for the 25 largest jail jurisdictions as well as aggregate figures for large jail jurisdictions.

#### ***Justice Expenditure and Employment, 1990***

(Periodic. Bulletin NCJ-135777. Washington: U.S. Department of Justice, September 1992. 13 pages, 14 tables.)

Presents data for 1990 and trend data for 1971-79, 1985, 1988, and 1990. SOURCEBOOK tables 1.1-1.4, 1.23, 1.24, 1.27.

This report presents criminal justice expenditure and employment data for 1990 and trend tables for 1971-79, 1985, 1988, and 1990. The information was collected by the U.S. Bureau of the Census from the Federal Government, all State governments, all county governments, and a sample of municipal and township governments. Data are presented on six categories of criminal justice activities: police protection; courts; prosecution and legal services; public defense; corrections; and a residual "other" category. The report contains a description of the methodology, data limitations, and definitions of terms. Public expenditure data are for fiscal 1990. Employment data are for the government's pay period that includes Oct. 12, 1990 and payroll data are for the month of October 1990.

#### ***Justice Expenditure and Employment in the U.S., 1990***

(Periodic. NCJ-137754. Washington: USGPO, 1994. 179 pages, 72 tables.)

Presents data for 1990 and trend data for 1971-79, 1985, 1988, and 1990. SOURCEBOOK tables 1.5-1.8, 1.25, 1.26, 1.28.

This publication is the 23rd in a series of reports that present public expenditure and employment data on civil and criminal justice

activities in the United States. The data in this report were collected by the U.S. Bureau of the Census for the Bureau of Justice Statistics through a special Survey of Criminal Justice Expenditure and Employment, which was an annual survey from 1971 to 1979 and was conducted for 1985, 1988, and 1990. Data are presented for six categories of justice activity: police protection; courts; legal services and prosecution; public defense; corrections; and a residual "other" category. Specific data are supplied for the Federal Government, each of the 50 State governments, and the aggregate local level of government within each State. Data are published separately for the county governments and the municipal governments (cities, towns, and townships) for each of the 72 counties with a 1986 population of 500,000 or more, and for the 49 municipalities with a 1986 population of 300,000 or more. A survey methodology section discusses the variation in some fiscal year ending dates. The data in this report are not comparable to those in the Justice Expenditure and Employment Extracts series.

#### ***Law Enforcement Management and Administrative Statistics, 1990: Data for Individual State and Local Agencies with 100 or More Officers***

(Special. NCJ-134436. Washington: U.S. Department of Justice, 1992. 259 pages, 45 tables, 1 appendix.)

Presents data for 1990. SOURCEBOOK table 1.34.

This monograph presents data from the 1990 Law Enforcement Management and Administrative Statistics (LEMAS) program of the U.S. Department of Justice, Bureau of Justice Statistics. The 1990 LEMAS survey was mailed to all 780 State and local law enforcement agencies that reported employing 100 or more sworn officers in the 1986 Directory Survey of Law Enforcement Agencies. In addition, a sample of 2,338 agencies with fewer than 100 officers received a slightly abbreviated version of the questionnaire. This report presents data for agencies with 100 or more officers. This includes 49 State police agencies, 34 county police departments, 380 municipal police departments, 153 sheriffs' departments, and 17 special police departments. Data are presented on number and characteristics of sworn personnel, size of population served, expenditures and salaries, and operational characteristics. Information on agency vehicles and vehicle policies, as well as weapons, body armor, and general programs and policies is presented. Computer use and drug enforcement data also are provided. A copy of the survey questionnaire is included.

#### ***National Corrections Reporting Program, 1991***

(Annual. NCJ-145861. Washington: U.S. Department of Justice, 1994. 97 pages, 80 tables, 8 figures.)

Presents data for 1991. SOURCEBOOK tables 6.60-6.62, 6.68-6.70, 6.90, 6.91, 6.96-6.98, 6.100-6.102.

This report presents data from the National Corrections Reporting Program. It is the seventh in an annual series and describes the characteristics of persons admitted to and released from State and Federal prison and parole systems during 1991. The report is divided into eight sections. The first two sections provide information on admissions and releases from State prison by a number of demographic characteristics, offense type, sentence length, time served, and method of release. The next two sections present data on entries and discharges from State parole. These data also include demographic characteristics, offense type, and time served, as well as successful and unsuccessful parole discharges. Four sections are devoted to Federal prison admissions and releases, and Federal parole entries and discharges. These sections reflect the same type of information presented for the States. A description of the methodology is included.

#### ***National Judicial Reporting Program, 1990***

(Periodic. NCJ-145323. Washington: U.S. Department of Justice, 1993. 51 pages, 38 tables, 8 figures.)

Presents data for 1990. SOURCEBOOK tables 5.55-5.66.

This report presents data on felony sentences imposed by State courts. The data are derived from the National Judicial Reporting Program administered by the U.S. Department of Justice, Bureau of Justice Statistics. The results are based on criminal case processing in a nationally representative sample of 300 counties. Information presented includes number of felony convictions and types of sentences imposed by State courts. Data on sentence length and time served also are provided. Demographic characteristics of persons convicted of felonies are included, as are data on number and type of felony convictions. Mean and median number of days between arrest, conviction, and sentencing are presented as is information on the use of collateral penalties by State courts.

#### ***Pretrial Release of Federal Felony Defendants***

(Special Report. NCJ-145322. Washington: U.S. Department of Justice, February 1994. 11 pages, 11 tables.)

Presents data for 1990. SOURCEBOOK tables 5.10-5.13.

This report presents data from the pretrial segment of the Federal Justice Statistics Program (FJSP). The data were collected by the U.S. Department of Justice, Bureau of Justice Statistics from cases scheduled for interview by a pretrial services agency during 1990. Tables are presented on felony defendants released before and detained until case disposition. The data include type of pretrial release and detention, arrest charge, characteristics of defendants, prior conviction record, time from arrest to pretrial release, and behavior of defendants while on pretrial release. A brief comparison between FJSP data and comparable State felony court data collected through the National Pretrial Reporting Program also is presented.

#### ***Pretrial Release of Felony Defendants, 1990***

(Periodic. Bulletin NCJ-139560. Washington: U.S. Department of Justice, November 1992. 14 pages, 17 tables.)

Presents data for 1990. SOURCEBOOK table 5.71.

This report presents pretrial release data on a sample of felony defendants in the 75 most populous counties in the United States. The data are derived from the second survey of the National Pretrial Reporting Program initiated in 1988 by the U.S. Department of Justice, Bureau of Justice Statistics. Information is presented on the number of felony defendants released before case disposition, financial and nonfinancial release, and type of offense. In addition, data on bail amounts, number of prior convictions, and the number rearrested prior to case disposition are included. Finally, time from pretrial release to rearrest, time from arrest to adjudication, adjudication outcome, and sentencing outcome are presented. A methodology section describes the study and provides definitions of terms used in the report.

#### ***Probation and Parole 1990***

(Annual. Bulletin NCJ-133285. Washington: U.S. Department of Justice, November 1991. 8 pages, 5 tables, 2 figures.)

Presents data for 1990 and trend data for 1977-90. SOURCEBOOK tables 6.1, 6.2, 6.93, 6.94.

This bulletin reports on probation and parole populations for the 50 States, the District of Columbia, and the Federal system. Data are presented on probation and parole entries and exits for 1990, and on the rate of probationers and parolees per 100,000 adult residents. Summary data comparing prison, probation, and parole populations are presented

as are national data on trends in methods of State prison releases.

#### ***Prosecuting Criminal Enterprises***

(Special Report NCJ-142524. Washington: U.S. Department of Justice, November 1993. 7 pages, 11 tables.)

Presents data for 1990 and aggregate data for 1987-90. SOURCEBOOK tables 5.38-5.41.

This report presents information on the processing of Federal racketeering (RICO) and Continuing Criminal Enterprise (CCE) cases by U.S. attorneys. The data are derived from the Bureau of Justice Statistics' Federal Justice Statistics Program that is comprised of information provided by various Federal agencies. Data are provided on cases filed for prosecution and declined by U.S. attorneys, disposition of cases terminated, time from case filing to disposition, sentences imposed on convicted offenders, and length of prison sentences. The characteristics and criminal histories of offenders convicted of RICO and CCE offenses between 1987 and 1990 also are provided.

#### ***Prosecutors in State Courts, 1992***

(Periodic. Bulletin NCJ-145319. Washington: U.S. Department of Justice, December 1993. 8 pages, 11 tables.)

Presents data for 1992. SOURCEBOOK table 5.54.

This report presents data from the 1992 National Prosecutor Survey Program (NPSP). The 1992 NPSP was conducted by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. The data are derived from a nationally representative sample of chief prosecutors' offices throughout the United States. The report presents information on chief prosecutors in State courts including prosecutorial employment, workload, and sources of funding. Data are presented on the policies and practices related to the stages of felony prosecution, and problems encountered in felony prosecutions. A brief methodological description also is provided.

#### ***Sheriffs' Departments 1990***

(Bulletin NCJ-133283. Washington: U.S. Department of Justice, February 1992. 11 pages, 24 tables.)

Presents data for 1990. SOURCEBOOK tables 1.36, 1.41, 1.43.

This bulletin presents data from the Law Enforcement Management and Administrative Statistics (LEMAS) program of the U.S.

Department of Justice, Bureau of Justice Statistics. Findings are presented for sheriffs' departments, which comprise approximately 30 percent of the police agencies participating in the LEMAS program. National estimates are derived from a sample of 840 responding sheriffs' departments. Data are presented on number and characteristics of personnel, size of population served, operating expenditures, workload and job functions, and training and educational requirements for recruits. Information also is presented on lethal and nonlethal weapons authorized for use, and body armor policies. The extent of computerization, and the existence of special units and written policy directives are discussed. A description of the methodology used for the 1990 LEMAS survey is included.

#### ***State and Local Police Departments, 1990***

(Bulletin NCJ-133284. Washington: U.S. Department of Justice, February 1992. 14 pages, 34 tables.)

Presents data for 1987 and 1990. SOURCEBOOK tables 1.35, 1.37, 1.40, 1.42.

This bulletin presents data from the Law Enforcement Management and Administrative Statistics (LEMAS) program of the U.S. Department of Justice, Bureau of Justice Statistics. Findings are presented for 49 State police agencies and a nationally representative sample of 1,830 local police departments. Data are presented on number and characteristics of sworn personnel, size of population served, operating expenditures, job functions, and training and educational requirements for recruits. Information also is presented on lethal and nonlethal weapons authorized for use, and body armor policies. The extent of computerization, and the existence of special units and written policy directives are discussed. A description of the methodology used for the 1990 LEMAS survey is included.

#### ***Violence Against Women***

(Special. NCJ-145325. Washington: U.S. Department of Justice, 1994. 14 pages, 24 tables, 2 figures.)

Presents data for 1987-91 and trend data for 1973-91. SOURCEBOOK tables 3.19, 3.20, 3.25.

This report presents data on violent crime victimization against women from the National Crime Victimization Survey. Average annual rates of victimization for crimes of violence and personal theft are presented for both women and men. Average annual rates of rape, robbery, assault, and personal larceny victimization are presented for women. These data are broken down by demographic characteristics. Female victims' perceptions

of alcohol and drug use by offenders, and detailed information about victim-offender relationship also are provided. Several incident characteristics are presented including the presence of a weapon, whether the victimization was reported to police, and place and time of rape incidents.

#### ***Women in Jail 1989***

(Special Report NCJ-134732. Washington: U.S. Department of Justice, March 1992. 12 pages, 22 tables.)

Presents data for 1983 and 1989. SOURCEBOOK tables 6.20, 6.21.

This report presents data on women incarcerated in local jails throughout the United States. The data were collected through the 1989 Survey of Inmates in Local Jails conducted by the U.S. Bureau of the Census for the U.S. Department of Justice, Bureau of Justice Statistics. Data presented include inmate demographic characteristics, pre-arrest employment and income, current offense, criminal history, prior drug and alcohol use, and past physical or sexual abuse. For women convicted of violent offenses, the characteristics of their victims are described. Selected data from the 1983 Survey of Inmates in Local Jails also are presented for comparison. A brief methodology section presents details on the survey procedures.

#### ***Women in Prison***

(Special Report NCJ-145321. Washington: U.S. Department of Justice, March 1994. 11 pages, 18 tables.)

Presents data for 1986 and 1991. SOURCEBOOK tables 6.43-6.45, 6.47, 6.48, 6.57, 6.58.

This report presents information on women incarcerated in State prisons from the 1991 Survey of Inmates of State Correctional Facilities. Data presented include characteristics and current offense of female inmates, criminal histories, relationship to victims, and maximum sentence length. Information is presented on family structure and children of female inmates, as well as experiences of prior physical or sexual abuse. Also included is information on drug and alcohol use history and involvement in drug treatment programs. Similar data for male inmates are provided for selected tables for comparison purposes, as are data from the 1986 Survey of Inmates of State Correctional Facilities. A description of the survey methodology and data collection procedures is included.

U.S. Department of Justice, Criminal Division

-----  
"Report to Congress on the Activities and Operations of the Public Integrity Section for 1991"

(Annual. Washington: U.S. Department of Justice, 1993. Mimeographed. 30 pages, 3 tables.)

Presents data for 1970-91. SOURCEBOOK table 5.98.

This report was compiled by the Public Integrity Section of the U.S. Department of Justice. It presents tabular information describing Federal prosecutions of Federal, State, and local public officials for offenses involving abuse of public office. The number of public officials and others involved who were indicted, convicted, and awaiting trial is presented for each year from 1970 to 1991. Additionally, the number of convictions of individuals involved in abuse of public office is reported by judicial district.

U.S. Department of Justice, Executive Office for United States Attorneys

-----  
***United States Attorneys' Offices Statistical Report: Fiscal Year 1993***

(Annual. Washington: Executive Office for United States Attorneys, 1994. 71 pages, 20 tables, 18 figures.)

Presents data for fiscal 1993 and trend data for fiscal 1984-93. SOURCEBOOK table 5.5.

This annual publication is comprised of charts, tables, and commentary summarizing the civil and criminal caseloads in U.S. attorneys' offices. Section I reports on personnel in U.S. attorneys' offices. Section II presents data that overview civil and criminal cases opened, filed, pending, disposed of, and appealed. The third section provides a fuller examination of criminal prosecutions by U.S. attorneys, including data regarding criminal caseloads and priority criminal prosecutions. Section IV presents data on the U.S. attorneys' asset forfeiture litigation. Section V presents data on civil litigation by U.S. attorneys, including civil caseloads and types of civil litigation. Information on community liaison programs are noted briefly in the final section.

U.S. Department of Justice, Federal Bureau of Investigation

-----  
***Age-Specific Arrest Rates and Race-Specific Arrest Rates for Selected Offenses, 1965-1992***

(Annual. FBI Uniform Crime Reports. Washington: USGPO, 1993. 208 pages, 96 tables.)

Presents trend data for 1965-92. SOURCEBOOK tables 4.5, 4.18, 4.21, 4.33.

This report presents arrest data from the Uniform Crime Reporting program for the period 1965 to 1992. Arrest rates are tabulated for the total Crime Index; violent crime; property crime; each Crime Index offense; and selected Part II offenses: forgery and counterfeiting, embezzlement, stolen property, weapons violations, sex offenses, drug abuse violations, and gambling. The data are presented by race and sex for both juveniles and adults.

"Bank Crime Statistics, Federally Insured Financial Institutions, January 1, 1992-December 31, 1992"

(Annual. Washington: U.S. Department of Justice, 1993. Mimeographed. 18 pages, 35 tables, 12 figures.)

Presents data for 1992. SOURCEBOOK tables 3.150, 3.151.

This report presents data on crime involving Federally insured financial institutions. Information is provided on violations of Federal bank robbery statutes and the Hobbs Act. The data are broken down by characteristics of the banking institutions, offenders, property loss and recovery, community characteristics, deaths, injuries sustained, hostages taken, and State and region of occurrence.

#### ***Bomb Summary 1992***

(Annual. FBI Uniform Crime Reports. Washington: U.S. Department of Justice, 1993. 47 pages, 13 tables, 17 figures.)

Presents data for 1992 and trend data for 1982-92. SOURCEBOOK tables 3.166, 3.167.

This summary provides tables, charts, narrative descriptions, and comments on bombing incidents reported to the FBI. Data are presented for type of target; type of explosive device; region; State; time of day; day of week; month of year; and personal injury, deaths, and property damage resulting from bombing incidents.

#### ***Crime in the United States, 1992***

(Annual. FBI Uniform Crime Reports. Washington: USGPO, 1993. 394 pages, 133 tables (estimated), 44 figures, 7 appendices.)

Presents data for 1992 and trend data for 1983-92. SOURCEBOOK tables 1.48-1.50, 3.107-3.110, 3.115, 3.116, 3.121-3.123, 3.125-3.129, 3.137, 3.141-3.147, 3.171, 3.172, 4.1-4.4, 4.6-4.17, 4.19, 4.22-31, 4.34.

This report begins with a summary of the Uniform Crime Reporting Program. Each Index offense (murder and nonnegligent manslaughter, aggravated assault, forcible rape, robbery, burglary, larceny-theft, motor vehicle theft, and arson) is described individually in terms of the volume and trend of offenses known to police, the nature of the offense (e.g., type of weapon used, regional distribution, or target of the offense), clearances of the offense, and persons arrested and charged. Data on Index offenses cleared by arrest are then presented, followed by information on persons arrested and persons charged. A section presenting detailed information on residential burglary and automobile theft also is included. The last section of the report focuses on law enforcement personnel.

Data are presented on offenses known to police by State, region, size of place, and extent of urbanization. Clearance and arrest information are presented for the United States as a whole (estimated), cities, suburban areas, and rural areas. Disposition data are based on a limited number of reporting agencies and are presented by offense, except for juveniles taken into custody. The law enforcement personnel information includes data on the number of sworn and civilian law enforcement employees in the United States.

The 1992 report includes seven appendices. The first appendix describes the data base and construction of each of the major tables in the report. Definitions of the offenses are presented in the second appendix. The third appendix includes definitions of area and population categories used throughout the report. Appendix four describes the two measures of crime administered by the U.S. Department of Justice: the Uniform Crime Reporting (UCR) Program and the National Crime Victimization Survey (NCVS). The fifth appendix is a directory of State Uniform Crime Reporting Programs. The sixth appendix provides the National Uniform Crime Reporting Program Directory. The last appendix lists publications from the Uniform Crime Reporting Program.

#### ***Law Enforcement Officers Killed and Assaulted, 1992***

(Annual. FBI Uniform Crime Reports. Washington: USGPO, 1993. 81 pages, 41 tables, 3 figures.)

Presents data for 1992 and trend data for 1983-92. SOURCEBOOK tables 3.152-3.163.

This report contains comments, tables, charts, and descriptive summaries on law enforcement officers feloniously killed and assaulted in the line of duty. Data on officers killed are presented by State; geographic region; population group; circumstances at the scene of the incident; type of officer assignment; type of weapon used in the offense; location of the fatal wound; distance between the officer and offender; and the month, day, and time of the attack. Profiles of the victim officers and the known offenders also are included. Data on officers assaulted are presented by geographic region, population group, type of weapon, circumstances at the scene of the incident, type of officer assignment, percent receiving personal injury, time of day, and percent cleared.

Information also is provided on law enforcement officers accidentally killed. These data are broken down by geographic region, State, and circumstances at the scene of the incident.

The report presents data on assaults on Federal officers from five sectors of the U.S. Government: the Department of the Interior, the Department of Justice, the Department of the Treasury, the U.S. Capitol Police, and the U.S. Postal Service. This section begins with departmental summaries and descriptive summaries of selected incidents of assault on Federal officers that occurred during 1992. Data are presented on the number of known assailants, officers killed or injured, type of weapon, type of activity the officer was engaged in at time of incident, disposition of known assailants, and geographic region.

#### ***Terrorism in the United States, 1982-1992***

(Special. Washington: U.S. Department of Justice, 1993. 30 pages, 7 figures, 2 appendices.)

Presents data for 1992 and trend data for 1982-92. SOURCEBOOK tables 3.173, 3.174.

This report contains data on terrorist incidents, suspected terrorist incidents, and terrorism preventions in the United States. Descriptions of incidents for 1992 are included. Data for number of incidents, suspected incidents, and incidents prevented are provided by year for 1982-92. Information on groups claiming responsibility, type of target, and type of incident also is presented for 1982-92. The report contains a discussion of numerous topical issues related to terrorism in the United States. Among the topics included are how the U.S. Government has responded to the threat of terrorism; how terrorism has changed over the years; the threat terrorism poses; and others. The appendices provide definitions used in the report and a chronological summary of incidents for the period covered.

U.S. Department of Justice, Federal Bureau of Prisons

#### ***Federal Bureau of Prisons Annual Statistical Report Calendar Year 1993***

(Annual. Washington: U.S. Department of Justice, 1994. 89 pages, 57 tables, 1 appendix.)

Presents data for 1993. SOURCEBOOK tables 1.98-1.101, 6.64, 6.67.

This report presents data on prisoners under the jurisdiction of the Federal Bureau of Prisons and staff employed by the Bureau on Dec. 31, 1993. The report is divided into two sections. The first section presents data on the number and characteristics of the Federal prisoner population. Age, race, ethnicity, sex, offense, sentence length, and security level are included. Information is provided for the jurisdictional and custodial population, as well as those in confinement under contract. The second section focuses on employee characteristics. Data on age, race, ethnicity, sex, education, salary grade, and length of employment are provided for all staff and for correctional officers. The appendix contains a glossary of terms used in the report.

U.S. Department of Justice, National Institute of Justice

#### ***Drug Use Forecasting 1992 Annual Report***

(Annual. NCJ-142973. Washington: U.S. Department of Justice, 1993. 31 pages, 50 tables, 29 figures.)

Presents data for 1992 and trend figures for 1988-92. SOURCEBOOK tables 4.35-4.37.

This report presents data on drug use among arrestees in 24 cities throughout the United States. The data are drawn from the Drug Use Forecasting (DUF) program, which is sponsored by the U.S. Department of Justice, National Institute of Justice. Data are based on voluntary urinalysis testing and interviews from samples of arrestees. Information is presented on the use of any drugs; use of marijuana, cocaine, and heroin; and multiple drug use. In addition, the data are broken down by gender, age, and race. The distribution of arrest charges for adult arrestees for each city in the sample also is provided.

U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention

#### ***Children in Custody 1989***

(Periodic. NCJ-127189. Washington: U.S. Department of Justice, January 1991. 10 pages, 8 tables.)

Presents data for 1989 and trend data for 1985-89. SOURCEBOOK tables 6.8-6.11, 6.13.

This report presents information from the 1989 Children in Custody census (CIC) conducted by the U.S. Bureau of the Census for the Office of Juvenile Justice and Delinquency Prevention. Also included are selected findings from the 1985 and 1987 Censuses of Public Juvenile Detention, Correctional, and Shelter Facilities. Data are presented on the number of facilities, population counts, population flow, and demographic characteristics of juveniles in public juvenile facilities. Also provided are data on detention status and reasons for custody. In addition, information is presented on juvenile admissions and types of State and locally administered public juvenile custody facilities. Information on the total number of public facilities administered by State and local governments, total annual and per resident operating costs, and average daily population also is included.

***Comprehensive Strategy for Serious, Violent, and Chronic Juvenile Offenders: Program Summary***

(Special. NCJ-143453. Washington: U.S. Department of Justice, 1993. 46 pages, 5 figures, 1 appendix.)

Presents data for 1991 and trend data for 1965-91. SOURCEBOOK table 6.12.

This report discusses the nature and scope of the problem presented by juvenile offenders. Statistics on violent behavior, arrests and crime rates, juvenile court involvement, and confinement are presented. Research in the area of chronic juvenile offenders, along with program evaluations that have been conducted are briefly reviewed. The second part of the report outlines a strategy for dealing with serious, violent, and chronic juvenile offenders. This includes outlining the general principles, the target populations, the program rationale, specific suggestions for delinquency prevention, possible sanctions, and expected benefits for various aspects of the program. The appendix includes a more detailed discussion of statistics, research, and program evaluations.

U.S. Department of Justice, Office of the Deputy Attorney General

***Attacking Financial Institution Fraud, Fiscal Year 1993***

(Annual. Washington: U.S. Department of Justice, 1994. 189 pages, 64 tables (estimated), 12 figures.)

Presents data for fiscal 1993 and trend data for fiscal 1989-93. SOURCEBOOK table 3.149.

This report presents data on enforcement activities related to financial institution fraud. Major prosecutions, activities of bank fraud task forces, civil enforcement, tax prosecutions, and enforcement highlights are presented. A number of appendices present data from individual agencies including the Resolution Trust Corporation, Federal Bureau of Investigation, United States Secret Service, Internal Revenue Service, and the Comptroller of the Currency. The final appendix presents information on the processing of declarations pursuant to section 2571 of the Crime Control Act of 1990.

U.S. Department of Justice, U.S. Marshals Service

***The Director's Report: A Review of the United States Marshals Service in FY 1992***

(Annual. Washington: U.S. Department of Justice, 1993. 61 pages, 13 tables, 21 figures.)

Presents data for fiscal 1992 and trend data for fiscal 1981-92. SOURCEBOOK tables Fig. 1.1, Fig. 1.2, 1.54-1.57.

This report describes the activities of the U.S. Marshals Service (USMS) for fiscal year 1992. A brief history of the USMS is provided, followed by an explanation of various USMS duties. These duties include fugitive investigations, prisoner processing and detention, prisoner production and transportation, protection of the judiciary, witness security, execution of court orders, government seizures, and special operations and analysis. Also included is a brief explanation of executive direction, support operations, administration, and training within the USMS.

U.S. Department of Justice, U.S. Parole Commission

***Annual Report of the United States Parole Commission, October 1, 1992 to September 30, 1993***

(Annual. Washington: U.S. Department of Justice, 1994. 22 pages, 9 tables.)

Presents data for fiscal 1993 and trend data for fiscal 1990-93. SOURCEBOOK tables 1.105-1.107, 6.99.

This report presents information on the activities of the U.S. Parole Commission for fiscal year 1993. The U.S. Parole Commission

conducts parole hearings for inmates currently in the custody of the Federal Bureau of Prisons and exercises jurisdiction over approximately 20,000 Federal parolees. The document briefly describes the guidelines used in reaching various types of parole decisions and the procedures involved in administrative appeals and the field supervision of parolees. A discussion of recent litigation involving the U.S. Parole Commission is presented as well as a brief overview of special programs. The report documents workload statistics and decision trends for the fiscal year, describing number and type of hearings conducted, parole grants and warrants issued, percent of decisions within guidelines, percent of hearings with inmate representation, and the results of appeals to parole decisions. Finally, biographical information for the parole commissioners is provided.

U.S. Department of State

***Patterns of Global Terrorism: 1993***

(Annual. Washington: U.S. Department of State, 1994. 73 pages, 14 figures, 4 appendices.)

Presents data for 1993 and trend data for 1975-93. SOURCEBOOK table 3.175.

This report provides tables, charts, narrative descriptions, and comments on incidents of international terrorism. Data are presented on types of incidents and victims, and on terrorist groups, regional patterns, counterterrorist activities, and State-supported terrorism. Appendix A presents a chronology of significant terrorist incidents in 1993. Appendix B provides an overview of organizations that engage in terrorism. Appendix C presents a statistical review of international terrorist incidents. Appendix D provides a map identifying the location of international terrorist incidents in 1993.

U.S. Department of Transportation, Federal Aviation Administration

***Annual Report to Congress on Civil Aviation Security, January 1, 1991-December 31, 1991***

(Annual. Washington: U.S. Department of Transportation, 1993. 37 pages, 4 tables, 4 figures.)

Presents data for 1991 and trend data for 1979-91. SOURCEBOOK table 3.176.

This report contains data on threats against civil aviation, both foreign and domestic,

including hijackings, airport bombings, bomb threats, and security incidents. Also presented are data on passenger screening activities and summaries of other ongoing preventive measures. This report covers the period Jan. 1 to Dec. 31, 1991, and provides detailed descriptions of criminal acts against civil aviation committed during that period. The trend tables span various combinations of the years from 1979 to 1991 depending on the availability of data.

U.S. Department of Transportation, National Highway Traffic Safety Administration

***Digest of State Alcohol-Highway Safety Related Legislation, Current as of January 1, 1994***

(Annual. Washington: USGPO, 1994. 541 pages, 2 tables, 1 appendix.)

Presents data for 1994. SOURCEBOOK tables 1.111-1.114.

This 12th edition of the digest provides a detailed description of the various statutory provisions related to alcohol use and highway safety. The data were collected through an examination of the statutory codes of the 50 States, the District of Columbia, American Samoa, Guam, Puerto Rico, and the Virgin Islands. Statutory provisions are examined in the following areas: blood alcohol concentration (BAC) levels as evidence in court, preliminary breath test and implied consent laws, chemical tests authorized under implied consent laws, provisions related to adjudication of driving while intoxicated charges, sanctions for refusal to submit to a blood alcohol concentration test, sanctions following a conviction for driving while intoxicated related offenses, laws requiring a blood alcohol concentration test on persons killed in traffic crashes, minimum legal drinking age, liability of owners of drinking establishments for serving alcohol to intoxicated patrons and to minors, open container laws, and anti-consumption laws. The appendix presents the Uniform Vehicle Code.

***Traffic Safety Facts 1992***

(Annual. Washington: USGPO, 1994. 190 pages, 117 tables, 28 figures, 3 appendices.)

Presents data for 1992 and trend data for 1966-92. SOURCEBOOK tables 3.104-3.106.

This report is based on information from two of the National Highway Traffic Safety Administration's data systems: the Fatal Accident Reporting System and the National Accident Sampling System/General Estimates System. Trend information on number and types of motor vehicle crashes, fatalities, characteristics of persons killed, characteristics of inci-

dents, and alcohol involvement is provided. Detailed information on the time, location, circumstances, and alcohol involvement for motor vehicle crashes occurring in 1992 is included. Statistics on drivers, passengers, and pedestrians involved in crashes in 1992 also are presented. Finally, fatal crash and fatality statistics are tabulated for the 50 States and the District of Columbia.

U.S. Department of Transportation, U.S. Coast Guard

***Digest of Law Enforcement Statistics, Thru March 31, 1994***

(Semi-annual. Washington: U.S. Coast Guard. 41 pages, 26 tables.)

Presents data through Mar. 31, 1994 and trend data for 1973-94. SOURCEBOOK table 4.46.

This report presents data on the law enforcement activities of the U.S. Coast Guard. General contraband seizures, marijuana and cocaine interdictions, and other drug seizures are included. Also included are data on marijuana interdictions by vessel nationality, drug eradications with Coast Guard assistance, and Navy assistance to Coast Guard drug enforcement. Coast Guard boarding statistics are presented as is information on illegal migrant interdictions and fisheries law enforcement seizures and forfeitures.

U.S. Department of the Treasury, Bureau of Alcohol, Tobacco and Firearms

***Explosives Incidents Report 1992***

(Annual. Washington: U.S. Department of the Treasury, 1993. 91 pages, 22 tables, 7 figures.)

Presents data for 1992 and trend data for 1988-92. SOURCEBOOK tables 3.164, 3.165, 3.168, 3.169.

This report provides tables, figures, and narrative descriptions of criminal bombings, other explosives incidents, and arson incidents that were reported to and investigated by the Bureau of Alcohol, Tobacco and Firearms. This, however, does not necessarily include all the bombings and explosives incidents that may have occurred in the United States during these years. The report is divided into eight sections. The first section describes support programs. The second section analyzes the explosive incidents. Data are presented on types of incidents, targets, motives, injuries, property damage, types of devices, geographic location, and accidental explosions. Section three describes stolen and recovered explosives. The

fourth and fifth sections analyze significant explosives investigations and significant arson investigations, respectively, occurring in 1992. The final three sections present program initiatives, a directory of the Bureau's district offices, and a glossary of terms. Throughout the report, a 5-year retrospective of explosives incidents data is presented.

U.S. Department of the Treasury, U.S. Customs Service

***U.S. Customs Service: Annual Report FY 1993***

(Annual. Washington: U.S. Department of the Treasury, 1994. 41 pages, 8 tables, 5 figures.)

Presents data for fiscal 1993 and trend data for fiscal 1989-93. SOURCEBOOK tables 4.44, 4.45.

This report describes the activities of the U.S. Customs Service for fiscal 1993. The report is divided into six sections that discuss inspection and control activities, commercial operations, enforcement, international affairs, internal affairs, and management systems. Finally, a series of tables present financial and statistical information including merchandise entries; customs collections; carriers and persons entering the country; arrests; and seizures of property and narcotics.

U.S. Environmental Protection Agency, Office of Enforcement

***Enforcement Accomplishments Report, Fiscal Year 1992***

(Annual. Washington: U.S. Environmental Protection Agency, 1993. 162 pages, 10 tables, 32 figures, 1 appendix.)

Presents trend data for fiscal 1972-92. SOURCEBOOK table 5.97.

This report presents information on the enforcement activities of the U.S. Environmental Protection Agency. The accomplishments discussed include highlights of specific 1992 enforcement activities and performance, civil and criminal environmental enforcement activity, major enforcement litigation, and key court decisions occurring during the year. Also included is information on building and maintaining a strong national enforcement program as well as media-specific enforcement performance. Detailed activities of the regional offices also are provided. The report concludes with trend data on the disposition of civil and criminal enforcement and information on administrative actions and judicial referrals.

U.S. Postal Service, U.S. Postal Inspection Service

---

**Semiannual Report, April 1 - September 30, 1993**

(Semi-annual. Washington: U.S. Postal Inspection Service, 1993. 63 pages, 8 tables, 6 figures, 6 appendices.)

Presents data for fiscal 1993 and trend figures for fiscal 1988-93. SOURCEBOOK tables 5.90, 5.91.

This report presents information on the security, audit, and enforcement activities of the U.S. Postal Inspection Service. New programs and projects are highlighted, including innovations in developmental and operations audit systems. Investigations of abuse of U.S. Postal Service assets and resources are discussed, including workers' compensation fraud, employee embezzlement, schemes to avoid payment of postage, and other frauds against the U.S. Postal Service. Several internal audit control programs also are described. Information on assaults against employees, employee narcotics involvement, and crime prevention and security is presented. Incidents of mail theft, money order abuse, mail bombings, mailing of child pornography, obscenity, and other prohibited mailings are highlighted. The appendices present audit reports, contract audits, unresolved reports, Inspector General reporting requirements, and data on arrests and convictions.

U.S. Sentencing Commission

---

**Annual Report 1993**

(Annual. Washington: U.S. Sentencing Commission, 1994. 309 pages, 712 tables (estimated), 10 figures, 2 appendices.)

Presents data for fiscal 1993. SOURCEBOOK tables 5.46-5.53.

This publication presents detailed information related to U.S. Sentencing Commission activity for fiscal year 1993. The Commission's primary function is to develop and monitor sentencing policies and practices that include guidelines prescribing the appropriate form and severity of punishment for offenders convicted in Federal courts. The information is presented in six sections: Commission overview, guideline amendments, legal issues, guideline training and education, symposium on drugs and violence in America, and research. The Commission overview section details the organizational structure of the Commission as well as job responsibilities and budget obligations. The guideline amendments section presents information on the progress of periodic modification and

refinements made to the sentencing guidelines. The legal issues section examines Federal case law interpretations of key provisions and constitutionality of the sentencing guidelines. The fourth section provides descriptive evaluation of the guideline training and education available to Federal judges and probation officers who utilize the guidelines. The fifth section offers an overview of the Commission's Inaugural Symposium on Crime and Punishment, held in Washington, DC in June 1993. The final section of the report presents data on monitoring and research studies. The appendices provide a description of datafiles and variables, selected sentencing statistics (by district), and supplementary tables.

Walker, Samuel and K.B. Turner

---

**"A Decade of Modest Progress: Employment of Black and Hispanic Police Officers, 1983-1992"**

(Periodic. Omaha, NE: University of Nebraska at Omaha, 1992. Mimeographed. 7 pages, 4 tables.)

Presents data for 1983 and 1992. SOURCEBOOK tables 1.38, 1.39.

This report presents the results of two surveys of racial minority employment in police departments of the 50 largest cities in the United States. Tables show the percentage of Black and Hispanic officers in the departments and an index of how those percentages compare with the Black and Hispanic population in the community. Percent change in the index between 1983 and 1992 is presented. The percentage of Blacks, Hispanics, and females in supervisory ranks in 1992 also is provided.

Windau, Janice and Guy Toscano

---

**"Workplace Homicides in 1992"**

(Monthly. **Compensation and Working Conditions**, Washington: U.S. Department of Labor, February 1994. 8 pages, 8 tables.)

Presents data for 1992. SOURCEBOOK tables 3.138, 3.139.

**Compensation and Working Conditions** is a monthly release of the U.S. Department of Labor, Bureau of Labor Statistics. This article presents selected results from the first nationwide Census of Fatal Occupational Injuries conducted in 1992 by the Bureau of Labor Statistics. Information is presented on the number of fatal occupational injuries and the number of workplace homicides. The data are presented by type of event, type of occupation, and several employee demo-

graphic characteristics. Additional data on workplace homicides are presented for the 10 largest metropolitan areas and circumstances of the homicides (i.e., shooting, stabbing, co-worker dispute, personal dispute, etc.).

## Appendix 1

### Justice Expenditure and Employment Data Survey methodology and definitions of terms

Note: The following information has been excerpted from the U.S. Department of Justice, Bureau of Justice Statistics, *Justice Expenditure and Employment, 1990*, Bulletin NCJ-135777 (Washington, DC: U.S. Department of Justice, September 1992), pp. 9, 12; and information provided by the U.S. Department of Justice, Bureau of Justice Statistics.

A survey modeled after the sample survey of State and local governments (described below) was also used by the Executive Office of the President, Office of National Drug Control Policy to collect information on expenditures for drug control activities. These data are reported in Executive Office of the President, Office of National Drug Control Policy, *State and Local Spending on Drug Control Activities: Report from the National Survey of State and Local Governments* (Washington, DC: Executive Office of the President, 1993). For variations in data collection procedures and definitions of terms, refer to the section entitled State and Local Spending on Drug Control Activities.

#### Data collection

The Bureau of Justice Statistics (BJS) discontinued its survey of criminal justice expenditure and employment (CJEE) for budgetary reasons following the collection of 1979 data. That survey provided comparable trend data from 1971 to 1979. Beginning with 1980, the Bureau adopted a different methodology to compile and present public expenditure and employment data at greatly reduced cost. In 1985, 1988, and 1990 the original survey methodology was reimplemented to provide data necessary for block grant allocation of Bureau of Justice Assistance funds.

Trend comparisons between the 1971-79, 1985, 1988, and 1990 survey data and data in the *Justice expenditure and employment extracts* series are complicated by differences in methodology. In making trend comparisons, users should limit their analysis to one of the two sources: long-term trends for 1971-79, 1985, 1988, and 1990 from the *Justice expenditure and employment survey* series; or recent year-to-year trends from the 1980-90 *Justice expenditure and employment extracts* reports.

## Methodology

These data were collected by the U.S. Bureau of the Census for the Bureau of Justice Statistics using a special sample survey of State and local governments. Data were collected for the Federal government, all State governments, all county governments, all municipalities (and townships in the six New England States, the three Middle Atlantic States, and Michigan and Wisconsin) having a 1986 population of 10,000 or more, and for a sample of the remaining municipalities and townships. A total of 8,867 local governments were included in the survey panel (3,042 county governments, 4,693 municipalities, and 1,132 townships).

The survey used two methods of data collection: field compilation and mail canvass. Trained field representatives compiled expenditure and employment data from the governments' own records for all States, 78 counties, and 52 municipalities. Other units in the sample were canvassed by mail. Response for the field-compiled units was 100 percent. For the mail canvass units, the response rate was 87 percent.

Data for the Federal government were extracted from *Budget of the United States Government, FY 1992, Appendix*. Beginning with the 1985 survey, that document allowed the classification of appropriate expenditure and employment amounts for the Immigration and Naturalization Service, the U.S. Customs Service, and the Internal Revenue Service as "prosecution and legal services." In earlier years, those amounts could not be broken out of the "police protection" category.

The justice data in this report include the expenditures and employment of the Federal government, State governments, and a sample of county, municipal, and township governments. Unless otherwise noted, data for total governmental functions and non-justice governmental functions also include the expenditures of special districts and school districts, which generally do not have justice functions. Justice expenditure data for these districts are not collected, although in 1978 (the most recent year for which such data are available) 0.6 percent of justice expenditures were made by such districts. The special district and school district data are included in the total government spending to allow State-by-State comparisons across States that make varying use of school districts to finance education.

#### Definitions of terms

**Expenditure** includes only external cash payments made from any source of monies, including any payments financed

from borrowing, fund balances, intergovernmental revenue, and other current revenue. It excludes any intergovernmental transfers and noncash transactions, such as the provision of meals or housing of employees. It also excludes retirement of debt, investment in securities, extensions of loans, or agency transactions. Total expenditures for all government functions do include interest payments on debt, but the expenditure data for individual functions such as justice or education do not.

Expenditure is divided into two major categories:

1. "Direct expenditure" is all expenditure except that classified as intergovernmental. It includes "direct current expenditure" (salaries, wages, fees, and commissions and purchases of supplies, materials, and contractual services) and "capital outlays" (construction and purchase of equipment, land, and existing structures). Capital outlays are included for the year when the direct expenditure is made, regardless of how the funds are raised (for example, by bond issue) or when they are paid back.

2. "Intergovernmental expenditure" is the sum of payments from one government to another, including grants-in-aid, shared revenues, payments in lieu of taxes, and amounts for services performed by one government for another on a reimbursable or cost-sharing basis (for example, payments by one government to another for boarding prisoners).

One important difference between the Survey of Criminal Justice Expenditure and Employment (CJEE) and the Survey of State and Local Spending on Drug Control is in the handling of certain types of government payments. For the CJEE, when a government pays pensions directly to retired employees from appropriated funds, such payments are excluded from expenditure for the government concerned. Also, State and local government contributions to retirement systems they operate are not included in the expenditure data because many governments make lump-sum contributions to plans covering all government employees and cannot report separately for justice employees. For governments whose records reflect contributions of justice employees separately, separate data were obtained. But, such data were excluded from total criminal justice expenditures to provide a consistent data base for administering the block grant program operated by the Bureau of Justice Assistance.

For the Drug Control Survey, the sponsor was interested in including all identifiable expenditures, even if it resulted in lack of comparability between jurisdictions that could report these types of expenditures for specific government functions and those that could not report these expenditures. Thus, any

identifiable government payments to retirees and government contributions to employee retirement systems are included in the Drug Control Survey data.

**Employees** are all persons on government payrolls during the pay period including Oct. 12, 1990. They include all paid officials and persons on paid leave, but exclude unpaid officials, persons on unpaid leave, pensioners, and contractors.

**Full-time employees** are all persons employed on a full-time basis, including all full-time temporary or seasonal workers who were employed during this pay period.

**Full-time equivalent employment** is a statistical measure that estimates the number of full-time employees that could have been employed if the reported number of hours worked by part-time employees had been worked by full-time employees. This statistic is calculated separately for each function of a government by dividing the "part-time hours paid" by the standard number of hours for full-time employees in the particular government and then adding the resulting quotient to the number of full-time employees.

In reports in this series prior to 1988, a different methodology was used to compute this statistic, affecting comparability over time. In the past, the payroll-based formula divided the total payroll (full-time plus part-time) by the full-time payroll and multiplied the result by the number of full-time employees.

**Payroll** is the gross payroll before deductions and includes salaries, wages, fees, and commissions paid to employees as defined above for the month of October 1990.

**Police protection** is the function of enforcing the law, preserving order, and apprehending those who violate the law, whether these activities are performed by a city police department, sheriff's department, State police, or Federal law enforcement agency such as the FBI and the Drug Enforcement Administration. Private security police are outside the scope of the survey.

**Judicial (courts only)** includes all civil and criminal courts and activities associated with courts such as law libraries, grand juries, petit juries, and the like. It is not the same as the "judicial and legal services" category in reports from the Bureau of Justice Statistics *Justice expenditure and employment extracts* series. The "judicial" category in the *Extracts* reports also includes "prosecution and legal services" and "public defense," which are displayed separately in this report.

**Prosecution and legal services** includes the civil and criminal justice activities of the attorneys general, district attorneys, State's attorneys, and their variously named equivalents and corporation counsels, solicitors, and legal departments with various names.

**Public defense** includes legal counsel and representation in either criminal or civil proceedings as provided by public defenders and other government programs that pay the fees of court-appointed counsel.

**Corrections** involves the confinement and rehabilitation of adults and juveniles convicted of offenses against the law and the confinement of persons suspected of a crime awaiting trial and adjudication. It includes costs and employment for jails, prisons, probation, parole, pardon, and correctional administration. Data for institutions with authority to hold prisoners beyond arraignment (usually 48 hours or more) are included in this sector. Data for lock-ups or "tanks" holding prisoners less than 48 hours are included in "police protection."

**Correctional institutions** are prisons, reformatories, jails, houses of correction, penitentiaries, correctional farms, work-houses, reception centers, diagnostic centers, industrial schools, training schools, detention centers, and a variety of other types of institutions for the confinement and correction of convicted adults or juveniles who are adjudicated delinquent or in need of supervision. It also includes facilities for the detention of adults and juveniles accused of a crime and awaiting trial or hearing. Prison is sometimes used to refer to State correctional institutions.

**Probation, parole, and pardon** includes data on probation agencies, boards of parole, boards of pardon, and their variously named equivalents. Although probation departments frequently function under the administration of a court, the data are presented separately under corrections after having been deducted from the judicial data.

**Other justice activities** includes expenditure and employment data that are not elsewhere classified, that cut across more than one category, or that are not allocable to separate categories. Examples are crime commissions, neighborhood crime counsels, and State criminal justice coordinating councils.

#### **State and Local Spending on Drug Control Activities**

The Drug Control Spending survey employed the same sample methodology described above for the Justice Expenditure and Employment survey. That is, data were collected from all 50 States; all 3,042 county governments; all municipalities with a 1986 population of 10,000 or more; and a sample of all remaining municipalities and townships. A total of 8,867 local governments were included in the survey (3,042 county governments, 4,693 municipalities, and 1,132 townships). However, data collection procedures varied between the two studies. The Drug Control Spending survey utilized an additional data collection method, specialized office compilation, in order to gather specific

drug expenditure breakdowns. The data collection procedure, the survey period, and additional definitions employed by the Drug Control Spending survey are described below.

#### **Data collection**

The Drug Control Spending survey used three methods of data collection: field compilation, specialized office compilation with supplemental agency contacts, and mail canvass. Trained field representatives compiled expenditure data from the governments' own records for the 50 States, the 25 counties, and the 25 municipalities having the largest total expenditure for the police, judicial, and corrections functions in 1990. Specialized office compilation procedures were used to collect data for 680 units, which consisted of counties with a population greater than 100,000 and municipalities and urban townships with a population greater than 75,000 that were not included as field compilation units. The field and specialized office compilations were completed between April and November 1992. All other units in the sample were canvassed for expenditure data by mail beginning in June 1992. Respondent governments accounted for 87 percent of the estimated total justice expenditure data. The overall response rate for the mail canvass was 54 percent. Response for field compilation units was 100 percent. Response for specialized office compilation units was 90 percent. The survey efforts were supplemented by reference to a variety of published government documents such as budgets, financial statements, audit reports, and drug strategies. In some cases, such sources were the basis for breaking down totals into more detailed expenditure figures. In addition, agency records of arrests, investigations, court filings and dispositions, inmate counts, etc., were used in some cases to estimate the proportion of agency resources that were drug related.

#### **Drug Control Spending survey period**

The State expenditure data cover the fiscal years ending June 30, 1990 and 1991, for all States except four whose fiscal years ended as follows: New York, March 31; Texas, August 31; and Alabama and Michigan, September 30. Some State agencies operate on a different fiscal year basis than the State government. In such instances, the data are for the agency's fiscal year that ended within the State's regular fiscal year.

For local governments, the 1990 expenditure data are for the governments' fiscal year that ended between July 1, 1989, and June 30, 1990. The 1991 expenditure data are for the governments' fiscal year that ended between July 1, 1990, and June 30 1991. Most municipalities and counties ended their fiscal year

on December 31 or June 30. By using the July 1 to June 30 reference period, some governments' data are for a fiscal year that the local government may refer to as the prior fiscal year. For example, those that ended December 31, 1989, may be referred to as Fiscal Year 1989. The fiscal years reported for Washington, DC, ended September 30.

#### **Additional Drug Control Spending survey definitions of terms**

**Health/hospitals (treatment)** includes expenditures for hospital facilities directly operated by State and local governments and payments to private medical facilities. This function includes payments to clinics, treatment centers, counseling services, community service boards, and research into effective treatment for drug abusers.

**Education (prevention)** includes expenditures by State and local general purpose governments for elementary and secondary school systems that are administratively dependent on State or local governments. This function includes payments by State and local governments to private institutions and/or to independent school district governments and payments for drug abuse education and prevention programs. Excluded are expenditures by independent school district governments.

For the purpose of this survey, treatment and prevention activities were classified under the primary function where they occurred (e.g., corrections, law enforcement) unless there was a major program that could be classified under the appropriate health or education function.

Drug-related expenditures include payments for identifiable drug-related activities and a percentage of administrative/support personnel and overhead costs and other estimated costs that are associated with drug control activity.

## **Appendix 2**

### ***The Municipal Year Book 1994* Definitions of terms and survey response rates**

This information was excerpted from International City/County Management Association, *The Municipal Year Book 1994* (Washington, DC: International City/County Management Association, 1994), pp. xi-xiii, 83, 104, 114. Non-substantive editorial adaptations have been made.

#### **Regions**

**Northeast**--the New England and Mid-Atlantic Divisions;

**North Central**--the East and West North Central Divisions;

**South**--the South Atlantic and the East and West South Central Divisions;

**West**--the Mountain and Pacific Coast Divisions.

#### **Geographic divisions**

**New England**--Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont;

**Mid-Atlantic**--New Jersey, New York, and Pennsylvania;

**East North Central**--Illinois, Indiana, Michigan, Ohio, and Wisconsin;

**West North Central**--Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota;

**South Atlantic**--Delaware, Florida, Georgia, Maryland, North Carolina, South Carolina, Virginia, and West Virginia, plus the District of Columbia;

**East South Central**--Alabama, Kentucky, Mississippi, and Tennessee;

**West South Central**--Arkansas, Louisiana, Oklahoma, and Texas;

**Mountain**--Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming;

**Pacific Coast**--Alaska, California, Hawaii, Oregon, and Washington.

#### **Metro status**

To be classified by the U.S. Office of Management and Budget (OMB) as a Metropolitan Statistical Area (MSA), an area must include either a city with a population of at least 50,000 or a U.S. Bureau of the Census urbanized area of at least 50,000 and a total metropolitan statistical area population of at least 100,000. The OMB further groups metropolitan areas of over 1,000,000 population into consolidated metropolitan statistical

areas (CMSAs) and primary metropolitan statistical areas (PMSAs).

**Central cities**--The core cities of an MSA having a population of at least 25,000 and meeting two commuting requirements: at least 50 percent of the employed residents of the city must work within the city and there must be at least 75 jobs for each 100 residents who are employed. Cities between 15,000 and 25,000 population may also be considered central cities if they are at least one-third the size of the MSA's largest city and meet the two commuting requirements.

**Suburban cities**--The other cities, towns, and incorporated places in an MSA.

**Independent cities**--The incorporated places not located within an MSA.

County types refer to counties located within an MSA as metro; and nonmetro refers to counties located outside the boundaries of an MSA.

#### **Forms of government**

**Mayor-council**--an elected council serves as the legislative body with a separately elected head of government;

**Council-manager**--the mayor and council make policy and an appointed administrator is responsible for the administration of the city;

**Commission**--a board of elected commissioners serves as the legislative body and each commissioner is responsible for administration of one or more departments;

**Town meeting**--qualified voters meet to make basic policy and choose a board of selectmen to carry out the policy;

**Representative town meeting**--representatives selected by citizens vote at meetings, which may be attended by all town citizens.

Table. Survey response rates for 1993

	Police and fire			Survey of municipal officials			Survey of county officials		
	Number of cities surveyed	Responses		Number of cities surveyed	Responses		Number of counties surveyed	Responses	
		Number	Percent		Number	Percent		Number	Percent
Total, all cities	2,795	1,798	64.3 %	7,200	4,570	63.5 %	3,107	1,543	49.7 %
<u>Population group</u>									
Over 1,000,000	8	4	50.0	8	5	62.5	27	13	48.1
500,000 to 1,000,000	16	12	75.0	17	13	76.5	63	41	65.1
250,000 to 499,999	40	30	75.0	39	26	66.7	99	52	52.5

## Appendix 3

### *Crime in the United States* Definitions of terms

Note: The following information has been excerpted from the U.S. Department of Justice, Federal Bureau of Investigation, *Crime in the United States, 1992* (Washington, DC: USGPO, 1993), pp. 1-3, 381-385. Non-substantive editorial adaptations have been made. See U.S. Department of Justice, Federal Bureau of Investigation, *Uniform Crime Reporting Handbook* (Washington, DC: USGPO, 1984) for further definitions and information on classification and counting rules.

#### Population definitions

For purposes of statistical presentation, the cities and counties in the United States are divided into groups based on population size. The population group classifications used by the Uniform Crime Reporting Program are shown in Table 1.

Table 1 Population group, political label, and population coverage

Population group	Political label	Population coverage
I	City	250,000 and over
II	City	100,000 to 249,999
III	City	50,000 to 99,999
IV	City	25,000 to 49,999
V	City	10,000 to 24,999
VI	City <sup>a</sup>	Less than 10,000
VIII	County <sup>b</sup>	-
(Rural county)		
IX	County <sup>b</sup>	
(Suburban county)		

<sup>a</sup>Includes universities and colleges to which no population is attributed.

<sup>b</sup>Includes State police to which no population is attributed.

#### Metropolitan Statistical Area

(MSA)--This includes a city or an urbanized area with a population of 50,000 or more inhabitants and the surrounding county or counties that share certain metropolitan characteristics. MSAs made up approximately 79 percent of the total U.S. population in 1992.

**Rural counties**--Rural counties are those outside MSAs. These areas represented 13 percent of the national population in 1992. Prior to 1981, rural counties were referred to as rural areas.

**Suburban areas**--These areas consist of cities with populations of less than 50,000 together with counties (unincorporated areas) that are within a MSA. Suburban areas can, therefore, be divided into suburban cities and suburban counties.

**Other cities**--Other cities are urban places outside MSAs; most of these areas are incorporated. These cities comprised 8 percent of the 1992 national population.

#### Community types:

	MSA	Non-MSA
Cities	Cities over 50,000 Suburban cities	Other cities
Counties (unincorporated area)	Suburban counties	Rural counties

As a general rule, sheriffs, county police, and many State police report on crimes committed within the limits of counties, but outside cities; local police report on crimes committed within city limits.

The major source of Uniform Crime Reporting (UCR) data is the individual law enforcement agency. The number of agencies included in each population group will vary slightly from year to year due to population growth, geopolitical consolidation, municipal consolidation, etc. For 1992, the population counts are U.S. Bureau of the Census July 1, 1992 State estimates. For all jurisdictions within each State, the populations were adjusted based on the 1992 growth rate as supplied by Census. Table 2 shows the number of agencies within each population group in 1992.

Table 2 Population group and number of agencies

Population group	Number of agencies
I	64
II	134
III	362
IV	716
V	1,711
VI	7,812 <sup>a</sup>
VIII (Rural area)	3,608 <sup>b</sup>
IX (Suburban county)	1,907 <sup>b</sup>
Total	16,314

<sup>a</sup>Includes universities and colleges to which no population is attributed.

<sup>b</sup>Includes State police to which no population is attributed.

Table 3 Total U.S. population, 1960-92<sup>a</sup>

	Population
1960	179,323,175
1961	182,992,000
1962	185,771,000
1963	188,483,000
1964	191,141,000
1965	193,526,000
1966	195,576,000
1967	197,457,000
1968	199,399,000
1969	201,385,000
1970	203,235,298
1971	206,212,000
1972	208,230,000
1973	209,851,000
1974	211,392,000
1975	213,124,000
1976	214,659,000
1977	216,332,000
1978	218,059,000
1979	220,099,000
1980	225,349,264
1981	229,146,000
1982	231,534,000
1983	233,981,000
1984	236,158,000
1985	238,740,000
1986	241,077,000
1987	243,400,000
1988	245,807,000
1989	248,239,000
1990	248,709,873
1991	252,177,000
1992	255,082,000

<sup>a</sup>Population figures are U.S. Bureau of the Census provisional estimates as of July 1 for each year except 1970, 1980, and 1990, which are the decennial census counts.

#### Regions and divisions

The United States is divided into four regions; these regions are further divided into nine divisions. The following is a list of States within divisions and regions.

##### Northeast:

New England--Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont.

Middle Atlantic--New Jersey, New York, Pennsylvania.

##### Midwest:

East North Central--Illinois, Indiana, Michigan, Ohio, Wisconsin.

West North Central--Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota.

##### South:

South Atlantic--Delaware, District of Columbia, Florida, Georgia, Maryland, North

Carolina, South Carolina, Virginia, West Virginia.

East South Central--Alabama, Kentucky, Mississippi, Tennessee.

West South Central--Arkansas, Louisiana, Oklahoma, Texas.

**West:**

Mountain--Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, Wyoming.

Pacific--Alaska, California, Hawaii, Oregon, Washington.

**The Crime Index, Part I, and Part II offenses**

**The Crime Index**

The following offenses and attempts to commit these offenses are used in compiling the Crime Index: (1) murder and nonnegligent manslaughter, (2) forcible rape, (3) robbery, (4) aggravated assault, (5) burglary, (6) larceny-theft, (7) motor vehicle theft, and (8) arson. Arson was added as the eighth index offense in October 1978. (Manslaughter by negligence and simple or minor assaults are not included in the Crime Index.)

Offenses in the UCR program are divided into two groupings, Part I and Part II. Information on the volume of Part I offenses known to law enforcement, those cleared by arrest or exceptional means, and the number of persons arrested is reported monthly. Only arrest data are reported for Part II offenses.

**Part I offenses**

**Criminal homicide--a.** Murder and nonnegligent manslaughter: the willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) the killing of a felon by a law enforcement officer in the line of duty and (2) the killing of a felon by a private citizen. **b.** Manslaughter by negligence: the killing of another person through gross negligence. Traffic fatalities are excluded. While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.

**Forcible rape--**The carnal knowledge of a female forcibly and against her will. Included are rapes by force and attempts or assaults to rape. Statutory offenses (no force used--victim under age of consent) are excluded.

**Robbery--**The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

**Aggravated assault--**An unlawful attack by one person upon another for the purpose

of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Simple assaults are excluded.

**Burglary--breaking or entering--**The unlawful entry of a structure to commit a felony or a theft. Attempted forcible entry is included.

**Larceny-theft** (except motor vehicle theft)--The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles or automobile accessories, shoplifting, pocket-picking, or the stealing of any property or article which is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, "con" games, forgery, worthless checks, etc., are excluded.

**Motor vehicle theft--**The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on the surface and not on rails. Specifically excluded from this category are motorboats, construction equipment, airplanes, and farming equipment.

**Arson--**Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

**Part II offenses**

**Other assaults** (simple)--Assaults and attempted assaults where no weapon is used and which do not result in serious or aggravated injury to the victim.

**Forgery and counterfeiting--**Making, altering, uttering, or possessing, with intent to defraud, anything false in the semblance of that which is true. Attempts are included.

**Fraud--**Fraudulent conversion and obtaining money or property by false pretenses. Included are confidence games and bad checks, except forgeries and counterfeiting.

**Embezzlement--**Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

**Stolen property; buying, receiving, possessing--**Buying, receiving, and possessing stolen property, including attempts.

**Vandalism--**Willful or malicious destruction, injury, disfigurement, or defacement of any public or private property, real or personal, without consent of the owner or persons having custody or control.

**Weapons; carrying, possessing, etc.--**All violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers. Included are attempts.

**Prostitution and commercialized vice--**Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring, or transporting women for

immoral purposes. Attempts are included.

**Sex offenses** (except forcible rape, prostitution, and commercialized vice)--Statutory rape and offenses against chastity, common decency, morals, and the like. Attempts are included.

**Drug abuse violations--**State and local offenses relating to the unlawful possession, sale, use, growing, and manufacturing of narcotic drugs. The following drug categories are specified: Opium or cocaine and their derivatives (morphine, heroin, codeine); marijuana; synthetic narcotics--manufactured narcotics that can cause true addiction (demerol, methadone); and dangerous non-narcotic drugs (barbiturates, benzedrine).

**Gambling--**Promoting, permitting, or engaging in illegal gambling.

**Offenses against the family and children--**Nonsupport, neglect, desertion, or abuse of family and children.

**Driving under the influence--**Driving or operating any vehicle or common carrier while drunk or under the influence of liquor or narcotics.

**Liquor laws--**State or local liquor law violations, except "drunkenness" and "driving under the influence." Federal violations are excluded.

**Drunkenness--**Offenses relating to drunkenness or intoxication. Excluded is "driving under the influence."

**Disorderly conduct--**Breach of the peace.

**Vagrancy--**Vagabondage, begging, loitering, etc.

**All other offenses--**All violations of State or local laws, except those listed above and traffic offenses.

**Suspicion--**No specific offense; suspect released without formal charges being placed.

**Curfew and loitering laws--**(persons under age 18)--Offenses relating to violations of local curfew or loitering ordinances where such laws exist.

**Runaways--**(persons under age 18)--Limited to juveniles taken into protective custody under provisions of local statutes.

## Appendix 4

### **Annual Report of the U.S. Parole Commission** Parole guidelines and definitions of terms

Note: The following information was excerpted from the U.S. Department of Justice, U.S. Parole Commission, *Parole Commission Rules* (28 C.F.R. 2.1-2.67), Nov. 12, 1991. Washington, DC: U.S. Parole Commission. Pp. 11, 12, 17-19, 27, 28, 61, 79, 96, 140, 141, 234, 235; and information provided by the Source. Non-substantive editorial adaptations have been made.

#### **Parole guidelines**

**Initial parole consideration**--The U.S. Parole Commission has adopted guidelines for parole release considerations. These guidelines indicate the customary range of time to be served before release for various combinations of offense (severity) and offender (parole prognosis) characteristics. The time ranges specified by the guidelines are established specifically for cases with good institutional adjustment and program progress. These time ranges are merely guidelines; where the circumstances warrant, decisions outside the guidelines (either above or below) may be rendered.

The guidelines partition offense characteristics into eight severity categories. Category 1 represents the least severe and category 8 the most severe offense behavior. Mitigating or aggravating circumstances in a particular case may justify a decision or severity rating different from that listed.

An evaluation sheet containing a salient factor score serves as an aid in determining parole prognosis (potential risk of parole violation). A salient factor score is calculated by summing the offender's score on each of the following items: number of prior convictions and adjudications, number of prior commitments of more than 30 days duration, age at current offense, commitment of more than 30 days duration within the past 3 years, probation/parole/escape status at time of current offense, and heroin/opiate dependence.

**Reparole consideration**--An offender whose parole is revoked is eligible to be considered for rep parole. If revocation is based upon an administrative violation only, i.e., a violation not involving new criminal conduct, the behavior is graded as a category 1 offense and the salient factor score recalculated. If a finding is made that the prisoner has engaged in behavior constituting new criminal

conduct, the appropriate severity rating for the new criminal behavior is calculated. New criminal conduct may be determined either by a new Federal, State, or local conviction or by an independent finding by the U.S. Parole Commission at a revocation hearing. If the criminal conduct is in violation of State or local law the appropriate severity level is determined by analogy with the listed Federal offense severity ratings and the salient factor score is recalculated. Time served on a new State or Federal sentence is counted as time in custody for rep parole guideline purposes.

#### **Definitions of terms**

**Curfew parole record reviews**--The Special Curfew Parole Program involves parole supervision with a special curfew parole condition to provide a substitute for Community Treatment Center residence for the 60-day period preceding the otherwise scheduled parole, mandatory release, or two-thirds date. This program is designed for prisoners who would otherwise qualify for Community Treatment Center residence during this period but who have acceptable release plans and do not require the support services provided by the Community Treatment Center. Prisoners may be released to this program after completion of a period in a Community Treatment Center, or may be released directly from prison to this program (e.g., where Community Treatment Center residence is not available).

**Dispositional review/revocation**--When a parolee is serving a new sentence in a Federal, State or local institution, a parole violation warrant may be placed against him as a detainer. If the prisoner is serving a new sentence in a Federal institution, a revocation hearing shall be scheduled within 120 days of notification of placement of the detainer, or as soon thereafter as practicable, provided the prisoner is eligible for and has applied for an initial hearing on the new sentence, or is serving a new sentence of 1 year or less; if the prisoner is serving a new sentence in a State or local institution, the violation warrant shall be reviewed by the Regional Commissioner not later than 180 days following notification to the Commission of such placement. The parolee shall receive notice of the pending review, and shall be permitted to submit a written application containing information relative to the disposition of the warrant. The parolee shall also be notified of the right to request counsel to assist him/her in completing this written application.

**Initial hearing**--The initial parole hearing for eligible prisoners, during which examiners discuss with the prisoner his/her offense severity rating, salient factor score, institutional conduct, and any other matter the panel may deem relevant.

Following an initial hearing, the Commission may (1) set a presumptive release date (either by parole or by mandatory re-

lease) within 15 years of the hearing; (2) set an effective date of parole; or (3) continue the prisoner to a 15 year reconsideration hearing pursuant to 28 C.F.R. 2.14(c).

**Local or institutional revocation hearing**--A parolee may request a revocation hearing reasonably near the place of the alleged violation or arrest if the following conditions are met: (1) the parolee has not been convicted of a crime committed while under supervision; and (2) the parolee denies violation of conditions of release. A parolee who voluntarily waives his/her right to a local revocation hearing, or who admits any violation of the conditions of his/her release, or who is retaken following a conviction of a new crime, shall be given a revocation hearing upon his/her return to a Federal institution. However, the Regional Commissioner may, on his/her own motion, designate a case for a local revocation hearing.

**One-third hearing**--Covered under 28 C.F.R. 2.14(e) (1976) until it was phased out. The section provided that a prisoner sentenced to a maximum term of more than 18 months under 18 U.S.C. 4205(b)(2), 18 U.S.C. 294, or 26 U.S.C. 5871, could not be continued past one-third of the maximum sentence. The one-third hearing was phased out after implementation of presumptive date procedures in September 1977.

**Pre-hearing record reviews**--A review of the prisoner's case file by an examiner preceding a regularly scheduled institutional review hearing. If the recommendation is to grant parole, and the regional commissioner concurs, no in-person hearing is conducted. Pre-hearing record reviews (28 C.F.R. 2.14(b)(1976)) were replaced by presumptive date record reviews.

**Region**--Prior to fiscal year 1992, the five regions of the United States were defined in the following manner:

Northeast--Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia;

Southeast--Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee;

North Central--Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio, Wisconsin;

South Central--Arkansas, Louisiana, New Mexico, Oklahoma, Texas;

West--Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming.

As of fiscal year 1992, the commission modified regional operations by combining the Northeast and Southeast regions into the Eastern region and closing the Western region. The South Central and North Central regional offices took over the area previously

served by the Western region. The new regional categories are:

**Eastern**--Alabama, Connecticut, Delaware, District of Columbia, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, Canal Zone, Puerto Rico, Virgin Islands;

**South Central**--Arizona, Arkansas, California, Hawaii, Louisiana, Mississippi, New Mexico, Tennessee, Texas, Guam, American Samoa;

**North Central**--Alaska, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, North Dakota, Ohio, Oklahoma, Oregon, South Dakota, Utah, Washington, Wisconsin, Wyoming.

**Rescission hearing**--If a prisoner has an effective date of parole set by the Commission, and has subsequently been charged with institutional misconduct sufficient to become a matter of record, or is alleged to have committed a new criminal act, a rescission hearing may be scheduled at which time parole may be rescinded or retarded.

**Retroactive record review**--A special type of consideration resulting from a revision of the parole decision guidelines. For more information see 28 C.F.R., Appendix 6.

**Review hearing**--Subsequent parole hearing intended to focus on developments or changes in the prisoner's status; replaced by the statutory interim hearing.

**Statutory review hearings**--Replaced by statutory interim hearings. The purpose of the "interim hearing" is to consider any significant developments or changes that may have occurred subsequent to the initial hearing. Following the interim hearing, the presumptive release date that had been set may remain unchanged, be advanced for superior program achievement or other clearly exceptional circumstances, or be retarded or rescinded for reason of disciplinary infractions.

## Appendix 5

### Public opinion survey sampling procedures

Note: Information on Gallup survey sampling procedures was excerpted from George H. Gallup, *The Gallup Poll, Public Opinion 1934-1971, Vol. 1, 1935-1948* (New York: Random House, 1972), pp. vi-viii; George H. Gallup, *The Gallup Opinion Index*, Report No. 162 (Princeton, NJ: The Gallup Poll, January 1979), pp. 29, 30; George Gallup, *The Sophisticated Poll Watcher's Guide* (Princeton, NJ: Princeton Opinion Press, 1976), p. 102; and from information provided to SOURCEBOOK staff from the Gallup Organization. Information on the Harris Poll survey sampling procedures was provided to SOURCEBOOK staff by Louis Harris and Associates, Inc.; similar procedures used in earlier surveys are described in Louis Harris and Associates, Inc., *The Harris Yearbook of Public Opinion 1970: A Compendium of Current American Attitudes* (New York: Louis Harris and Associates, Inc., 1971), pp. 511-514. Information on the survey procedures employed by the National Opinion Research Center was excerpted from the National Opinion Research Center, *General Social Surveys, 1972-1993: Cumulative Codebook* (Chicago: National Opinion Research Center, University of Chicago, 1993), pp. 1, 811-822, 1071-1073. Information on the Gallup/Phi Delta Kappa Education Poll was excerpted from Stanley M. Elam, "The 22nd Annual Gallup Poll of the Public's Attitudes Toward the Public Schools," *Phi Delta Kappan* (September 1990), p. 54; Stanley M. Elam, Lowell C. Rose, and Alec M. Gallup, "The 23rd Annual Gallup Poll of the Public's Attitudes Toward the Public Schools," *Phi Delta Kappan* (September 1991), p. 56; "The 24th Annual Gallup/Phi Delta Kappa Poll of the Public's Attitudes Toward the Public Schools," *Phi Delta Kappan* (September 1992), p. 52; and "The 25th Annual Phi Delta Kappa/Gallup Poll of the Public's Attitudes Toward the Public Schools," *Phi Delta Kappan* (October 1993), p. 152. Information on the *Roper Reports* was provided by Roper Starch Worldwide, Inc. Information on the Market Segment Research minority poll was provided by Market Segment Research, Inc. Information on the Times Mirror Center for The People and The Press' TV Violence Survey was excerpted from Times Mirror Center for The People and The Press, "TV Violence: More Objectionable in Entertainment Than in Newscasts," Washington, DC: Mar. 24, 1993. (Mimeographed.) Pp. 29, 30. Information on the Youth Risk Behavior Survey was ex-

cerpted from U.S. Department of Health and Human Services, Centers for Disease Control and Prevention, "Health Risk Behaviors Among Adolescents Who Do and Do Not Attend School--United States, 1992," *Morbidity and Mortality Weekly Report* (Washington, DC: USGPO, Mar. 4, 1994), p. 129.

The sampling procedures of eight public opinion surveys or survey organizations are presented in this appendix; The Gallup Poll, the Gallup/Phi Delta Kappa Education Poll, the Harris Survey, the National Opinion Research Center, Roper Starch Worldwide, Inc., Market Segment Research, Inc., Times Mirror Center for The People and The Press, and the Youth Risk Behavior Survey.

### GALLUP POLLS

All Gallup polls since 1950, excluding certain special surveys, have been based on a national probability sample of interviewing areas. Refinements in the sample design have been introduced at various points in time since then. However, over this period the design in its essentials has conformed to the current procedure, as described in the following paragraphs.

The United States is divided into seven size-of-community strata: cities of population 1,000,000 and over, 250,000 to 999,999, and 50,000 to 249,000, with the urbanized areas of all these cities forming a single stratum; cities of 2,500 to 49,999; rural villages; and farm or open country rural areas. Within each of these strata, the population is further divided into seven regions: New England, Middle Atlantic, East Central, West Central, South, Mountain, and Pacific Coast. Within each size-of-community and regional stratum the population is arrayed in geographic order and zoned into equal sized groups of sampling units. Pairs of localities in each zone are selected with probability of selection proportional to the size of each locality's population--producing two replicated samples of localities.

Within selected cities for which population data are reported by census tracts or enumeration districts, these sample subdivisions are drawn with probability of selection proportional to the size of the population. For other cities, minor civil divisions, and rural areas in the sample for which population data are not reported by census tracts or enumeration districts, small, definable geographic areas are drawn, with the probability of selection proportional to size where available data permit; otherwise with equal probability.

A block or block cluster is drawn with probability of selection proportional to the number of dwelling units from within each subdivision selected for which block statistics are available. In cities and towns for which block sta-

tistics are not available, blocks are drawn at random, that is, with equal probability. In subdivisions that are rural or open country in character, segments approximately equal in size of population are delineated and drawn with equal probability.

In each cluster of blocks and each segment so selected, a randomly selected starting point is designated on the interviewer's map of the area. Starting at this point, interviewers are required to follow a given direction in the selection of households, taking households in sequence, until their assigned number of interviews has been completed. Within each occupied dwelling unit or household reached, the interviewer asks to speak to the youngest man 18 or older at home, or if no man is at home, the oldest woman 18 or older. This method of selection within the household has been developed empirically to produce an age distribution by men and women separately which compares closely with the age distribution of the population. It increases the probability of selecting younger men, who are at home relatively infrequently, and the probability of reaching older women in the household who tend to be under-represented unless given a disproportionate chance of being drawn from among those at home. The method of selection among those at home within the household is not strictly random, but it is systematic and objective, and eliminates interviewer judgment in the selection process. Interviewing is conducted at times when adults are most likely to be at home, which means on weekends or if on weekdays, after 4 p.m. for women and after 6 p.m. for men. Allowance for persons not at home is made by a "times-at-home" weighting procedure rather than by "call-backs." This procedure is a standard method for reducing the sample bias that would otherwise result from under-representation of persons who are difficult to find at home.

The pre-stratification by regions is routinely supplemented by fitting each obtained sample to the latest available U.S. Bureau of the Census estimates of the regional distribution of the population. Also minor adjustments of the sample are made by educational attainment (for men and women separately), based on the annual estimates of the U.S. Bureau of the Census derived from their Current Population Survey. The sample procedure described is designed to produce an approximation of the adult civilian population living in the United States, except for those persons in institutions such as prisons or hospitals. The four regions of the country, as reported in Gallup public opinion surveys, have been defined in the following manner:

**East--**Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Delaware, West Virginia, District of Columbia;

**Midwest**--Ohio, Michigan, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska, Kansas;

**South**--Virginia, North Carolina, South Carolina, Georgia, Florida, Kentucky, Tennessee, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, Texas; and

**West**--Montana, Arizona, Colorado, Idaho, Wyoming, Utah, Nevada, New Mexico, California, Oregon, Washington, Hawaii, Alaska.

**Urbanization**--Central cities have populations of 50,000 and above. Suburbs constitute the fringe and include populations of 2,500 to 49,999. Rural areas are those which have populations of under 2,500.

**Race/ethnicity**--Nonwhite is comprised of individuals who report themselves as any combination of the following classifications: Hispanic, American Indian, Other Indian, Oriental, and Black. Black and Hispanic are subcategories of Nonwhite. However, due to variation in respondent reporting the category White may also include some Hispanics.

According to Gallup policy, if the interviewee does not hear or does not understand a question, the interviewer repeats the question and if on the second reading the person does not understand or does not get the point of the question, the interviewer checks the "no opinion" box. It should also be noted that seldom more than 10 percent of all those contacted refuse to be interviewed. Gallup Poll Surveys include approximately 1,000 respondents.

Surveys of college students usually are based on in-person interviews with 1,000 full-time students representing 60 campuses. A sample of campuses is derived from a list of all colleges and universities obtained from the National Center for Education Statistics. Occasionally, special surveys conducted by Gallup for other organizations use smaller samples because of time and/or financial constraints.

Surveys of teenagers are conducted through recontact telephone interviews. A list of eligible teenagers is derived from previously conducted omnibus polls that gather a wide variety of demographic information. These omnibus polls determine whether a teenager is present in the respondent's home and whether the teenager is eligible for subsequent interview. Recontact calls are made based on this information. Within the household, an interview is sought with the oldest teen-age male, 13 to 17 years of age. If no young man is present, an interview is sought with the oldest teen-age female in the household. This method of selection within the household has been developed empirically to produce an age distribution by male and

female teen-agers separately which compares closely with the age distribution of the population.

### Sampling error

All sample surveys are subject to sampling error, that is, the extent to which the results may differ from what would be obtained if the entire population surveyed had been interviewed. The size of sampling errors depends largely on the number of interviews. The following table may be used in estimating sampling error. The computed allowances have taken into account the effect of the sample design upon sampling error. They may be interpreted as indicating the range (plus or minus the figure shown) within which the results of repeated samplings in the same time period could be expected to vary, 95 percent of the time, assuming the same sampling procedure, the same interviewers, and the same questionnaire.

Recommended allowance for sampling error (plus or minus) at 95 percent confidence level

(Percent)

Percent-ages	Sample size					
	near 1,000	750	600	400	200	100
10	2	3	3	4	5	7
20	3	4	4	5	7	9
30	4	4	4	6	8	10
40	4	4	5	6	8	11
50	4	4	5	6	8	11
60	4	4	5	6	8	11
70	4	4	4	6	8	10
80	3	4	4	5	7	9
90	2	3	3	4	5	7

The table would be used in the following manner: Assume a reported percentage is 33 for a group which includes 1,000 respondents. Proceed to row "Percentages near 30" in the table and then to the column headed, "1,000." The figure in this cell is four, which means that at the 95 percent confidence level, the 33 percent obtained in the sample is subject to a sampling error of plus or minus four points.

### GALLUP/PHI DELTA KAPPA EDUCATION POLL

The Gallup/Phi Delta Kappa education polls are modified probability samples of adults 18 years of age and older living in the United States. The 1990 sample was comprised of 1,594 adults; interviewing took place April 6-18 and May 4-22, 1990. The 1991 sample was comprised of 1,500 adults; interviewing took place May 3-17, 1991. The 1992 sample was comprised of 1,306 adults; interviewing took place April 23-May 14, 1992. The 1993 sample was

comprised of 1,306 adults; interviewing took place May 21-June 9, 1993. The data collection design for 1990-92 surveys employed personal, in-home interviewing of the civilian population (excluding persons in institutions such as prisons and hospitals). For the 1993 survey the Gallup Organization used its standard national telephone sample, i.e., an unclustered, directory-assisted, random-digit telephone sample, based on a proportionate stratified sampling design. "Nonpublic school parents" includes parents of students who attend parochial schools, private schools, or independent schools. For further information on the survey sampling procedures see Stanley M. Elam, Lowell C. Rose, and Alec M. Gallup, "The 25th Annual Phi Delta Kappa/Gallup Poll of the Public's Attitudes Toward the Public Schools," *Phi Delta Kappan* (October 1993), p. 152.

### HARRIS SURVEYS

Harris surveys are based on a national sample of the civilian population of the continental United States. Alaska and Hawaii are not represented in the sample, nor are those in prisons, hospitals, or religious and educational institutions. The sample is based on census information on the population of each State in the country, and on the population living in standard metropolitan areas and in the rest of the country. These population figures are updated by intercensal estimates produced annually by the U.S. Bureau of the Census, and sample locations are selected biennially to reflect changes in the country's demographic profile.

National samples are stratified in two dimensions--geographic region and metropolitan (and non-metropolitan) residence. Stratification insures that the samples will reflect, within 1 percent, the actual proportions of those living in the country in different regions and metropolitan (and non-metropolitan) areas. Within each stratum the selection of the ultimate sampling unit is achieved through a series of steps, a process which is technically called multi-stage unclustered sampling. Each sampling unit yields one interview. First States, then counties, and then minor civil divisions (cities, towns, townships) are selected with probability proportional to census estimates of their respective household populations. The Harris Survey has four of these national samples, and they are used in rotation from study to study. The specific sample locations in one study generally are adjacent to those used in the next study. For most surveys covering the entire country, more than one national sample may be employed. Harris Surveys of a nationwide sample usually include approximately 1,250 respondents.

All interviews prior to 1978 were conducted in person, in the homes of respondents. At each household the respondent was chosen by means of a random selection pattern, geared to the number of adults of each sex who live in the household. Interviews lasted approximately 1 hour. Almost all interviews conducted as of 1978 have been telephone interviews. Respondents are selected on the basis of random digit dialing. When the completed interviews are received in New York, a subsample of the respondents are re-contacted to verify that the data have been accurately recorded. Questionnaires are edited and coded in the New York office. The Harris sampling procedure is designed to produce a national cross-section that accurately reflects the actual population of the country 18 years of age and older living in private households. This means that the results of a survey among a national sample can be projected as representative of the country's civilian population 18 years old and older.

Harris Survey national results are reported for the East, Midwest, South, and West regions of the country, defined as follows:

**East**--Maine, New Hampshire, Vermont, New York, Massachusetts, Rhode Island, Connecticut, Pennsylvania, Maryland, New Jersey, Delaware, West Virginia;

**Midwest**--North Dakota, South Dakota, Nebraska, Kansas, Minnesota, Iowa, Missouri, Wisconsin, Illinois, Michigan, Indiana, Ohio;

**South**--Kentucky, Virginia, Tennessee, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Florida, Louisiana, Arkansas, Oklahoma, Texas; and

**West**--Washington, Oregon, California, Idaho, Nevada, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico.

#### Sampling error

It should be kept in mind that the results of the surveys are subject to sampling error, i.e., the difference between the results obtained from the sample and those which would be obtained by surveying the entire population. The size of a possible sampling error varies to some extent with the size of the sample and with the percentage giving a particular answer. The following table sets forth the range of error in samples of different sizes and at different percentages of response.

For example, if the response for a sample size of 1,200 is 30 percent, in 95 cases out of 100 the response in the population will be between 27 percent and 33 percent. This error accounts only for sampling error. Survey research is also susceptible to other errors, such as data handling and interview recording.

Recommended allowance for sampling error (plus or minus) at 95 percent confidence level

Re- sponse percent	Sample size					
	1,600	1,200	900	500	250	100
10(90)	2	2	2	3	5	7
20(80)	2	3	3	4	6	10
30(70)	3	3	4	5	7	11
40(60)	3	3	4	5	7	12
50	3	3	4	5	8	12

#### NATIONAL OPINION RESEARCH CENTER

The National Opinion Research Center (NORC) maintains a national probability sample. The General Social Surveys (GSS) are interviews administered to the NORC national samples using a standard questionnaire. They have been conducted during February, March, and April from 1972 to 1978, 1980, 1982 to 1991, and 1993. There are a total of 29,388 completed interviews (1,613 in 1972; 1,504 in 1973; 1,484 in 1974; 1,490 in 1975; 1,499 in 1976; 1,530 in 1977; 1,532 in 1978; 1,468 in 1980; 1,506 and an oversample of 354 blacks in 1982; 1,599 in 1983; 1,473 in 1984; 1,534 in 1985; 1,470 in 1986; 1,466 and an oversample of 353 blacks in 1987; 1,481 in 1988; 1,537 in 1989; 1,372 in 1990; 1,517 in 1991; and 1,606 in 1993). Sampling frames are based on 1970 census information for surveys conducted in 1972-78, 1980, and 1982. For all interviews conducted from 1984-91, the national sampling frame was based on 1980 census information. A split sample transition design was used in the 1983 survey. One-half of the sample was drawn from the 1970 frame and one-half from the 1980 frame. Again in 1993, a split sample transaction design was employed on the 1993 survey to measure the effect of switching from the 1980 sample frame to the 1990 sample frame. Half the sample was drawn from each frame. Since 1973, the median length of the interview has been about one and a half hours. This study employed standard field procedures for national surveys, including interviewer hiring and training by area supervisors in interviewing locations when necessary.

Each survey is an independently drawn sample of English-speaking persons 18 years of age or older, living in non-institutional arrangements within the United States. Alaska and Hawaii are not included in samples drawn from the 1970 sampling frame, but are represented in one-half of the 1983 surveys, all those conducted from 1984-91, and 1993. Block quota sampling was used in the 1972, 1973, and 1974 surveys and for half of the 1975 and 1976 surveys. Full probability sampling was employed in half of the 1975 and 1976 surveys and in all of the 1977, 1978, 1980, and 1982-93 surveys. At the

block level, quota sampling is used with quotas based on sex, age, and employment status. The cost of the quota samples is substantially less than the cost of a full probability sample of the same size, but there is, of course, the chance of sample biases mainly due to not-at-homes which are not controlled by the quotas. However, in order to reduce this bias, the interviewers are given instructions to canvass and interview only after 3:00 p.m. on weekdays or during the weekend or holidays. The first stage of sample selection includes selection of the Primary Sampling Units (PSUs). The PSUs employed are Standard Metropolitan Statistical Areas (SMSAs) or nonmetropolitan counties selected in NORC's Master Sample. These SMSAs and counties were stratified by region, age, and race before selection. The units of selection of the second stage were block groups (BG) and enumeration districts (EDs). These EDs and BGs were stratified according to race and income. The third stage of selection was that of blocks, which were selected with probabilities proportional to size. In places without block statistics, measures of size for the blocks were obtained by field counting. The average cluster size is five respondents per cluster.

The quotas call for approximately equal numbers of men and women with the exact proportion in each segment determined by the 1970 census tract data. For women, the additional requirement is imposed that there be the proper proportion of employed and unemployed women in the location. Again, these quotas are based on the 1970 census tract data. For men, the added requirement is that there be the proper proportion of men over and under 35 years old in the location. Past experience would suggest that, for most purposes, this quota sample of 1,500 could be considered as having about the same efficiency as a simple random sample of 1,000 cases.

The 1975 and 1976 studies were conducted with a traditional sample design, one-half full probability and one-half block quota. The sample was divided into two parts for several reasons: (1) to provide data for possibly interesting methodological comparisons; and (2) on the chance that there are some differences over time, that it would be possible to assign these differences to either shifts in sample designs, or changes in response patterns. Having allowed for the appearance of all items in the transitional sample design, the General Social Survey then switched to a full probability sample for the 1977 survey.

#### Rotation

Since its inception the GSS employed a *rotation design* under which most of its items appeared on two out of every three surveys. While this design proved to be useful for both

monitoring change and augmenting the content of the GSS, it had the disadvantage of irregularly spacing the data and allowing gaps in the time series. This situation was particularly acute during 1978-82 because of the lack of funding for surveys in 1979 and 1981. At that juncture 4-year gaps regularly appeared in the data and 6-year lapses existed for bivariate correlations between items from different rotations. Even with annual surveys 2-year gaps and 3-year intervals for bivariate correlations occur. To reduce this imbalance in the time series and reduce the length of intervals, in 1988 a switch took place from the rotation, across-time design previously used to a *split-ballot design*. Under this design rotations 1, 2, and 3 occur across random sub-samples within each survey rather than across surveys (and years). Each sub-sample (known as ballots) consists of 1/3 of the sample. Permanent items are not affected by this switch. They continue to appear on all cases for all surveys. Rotating items now appear on all surveys and are asked of two-thirds of respondents on each survey. Over a 3-year cycle the same number of respondents are asked the "rotating" items as before (3,000), but instead of coming in two segments of 1,500 each from two surveys, they appear in three segments of 1,000 each from three surveys.

#### 1970 National Sampling Frame

For 1977, 1978, 1980, 1982 and one-half of 1983 interviews, the NORC national probability sample is a stratified, multi-stage, area probability sample of clusters of households in the continental United States based on 1970 census information. The selection of geographic areas at successive stages is in accordance with the method of **probabilities proportional to size**. Furthermore, the clusters of households are divided into replicated subsamples in order to facilitate estimation of the variance of sample estimators of population characteristics.

At the first stage of selection, Standard Metropolitan Statistical Areas (SMSAs) and non-metropolitan counties covering the total continental United States were grouped according to size strata within the nine census regions. All population figures and other demographic information were obtained from 1970 U.S. Bureau of the Census reports. Within each size stratum, grouping, based on geographic location or racial characteristics (or both), was accomplished before selection. The final frame was further separated into zones or "paper strata" of equal population size in order to facilitate the selection of replicated subsamples of primary sampling units (PSUs). The selection of PSUs was designed to produce four independent subsamples of equal size. The four subsamples were randomly combined to form two larger subsam-

ples of 101 PSUs each. The large subsamples are thus internally separable into two replicated subsamples for variance estimation purposes. NORC has selected one of the two large subsamples described above to serve as its principle frame of households for the remainder of the decade. The PSUs fall into 89 distinct SMSAs and non-metropolitan counties. (New York, a very large SMSA, represents five PSUs, whereas the smaller counties represent only one PSU.)

The second-stage procedure involved the direct selection of census block groups or enumeration districts (EDs) within SMSAs or counties, eliminating the traditional intermediate stage of clustering selections within urban places or county divisions. Before selections, census tracts, minor civil divisions, census county divisions containing the block groups, and EDs were carefully stratified by geographic location, income, and race, in order to maximize the precision of sample estimation within a PSU. Block groups and EDs were then selected with probabilities proportional to size in numbers sufficient to satisfy survey demands for households expected throughout the decade. Lists of the separate households contained in the second stage blocks or EDs were constructed by field personnel or obtained from directories. Thus, the principal NORC national probability sample is, in effect, an inventory of identifiable households, each with a known probability of selection. In a typical sample survey with equal probability of selection for individual households (i.e., a self-weighting sample), households at which interviews will take place are probabilistically selected from the available lists of addresses for blocks and EDs. The method of probabilities proportional to size results in the assignment of an approximately equal number of interviews in each final stage cluster, which in turn leads to increased precision in the estimation of overall population characteristics.

#### 1980 National Sampling Frame

Census information for 1980 was used to sample respondents for one-half of the 1983 interviews, and all those surveys administered 1984-91. Eighty-four PSUs were selected at the first stage. The PSUs consist of counties, SMSAs, independent cities and, in New England, parts of counties. Prior to selection, the United States was divided into PSUs; the PSUs were then grouped into 84 strata. The strata were formed by grouping metropolitan and non-metropolitan PSUs within each of the four Census regions. Within each region, additional variables were used to define strata. The stratifying variables included within-region geography and size; size was measured by the 1980 Census count of occupied housing units. One PSU was selected from each stratum using a controlled selection procedure. This proce-

cedure ensured proportionate representation along certain control dimensions (such as percentage Hispanic in the West). The exact control variables (like the stratification variables) differed somewhat from region to region. Sixteen strata contained only one PSU, which was selected with certainty. The remaining 68 PSUs were selected with probability proportional to size (measured in housing units).

The unit for second stage selection was the block or enumeration district (ED). The number of secondary selections within a PSU depended in part on the stratum size. The number of second stage selections listed for NORC's national frame in the 16 PSUs selected with certainty ranged from 24 to 6 selections for PSU. In the remaining 68 sample PSUs, 6 second stage selections were listed. All total, the new frame included 562 secondary selections.

Prior to selection, the second stage units within each sample PSU were sorted by county, by minor civil division (in some areas), by Census Tract or ED number, and by block number. Counties were ordered within PSUs according to size and geography. Secondary selections were made using systematic zone selection; the probabilities of selection were proportional to size (measured in housing units). Each secondary selection included at least 50 housing units.

In enumeration districts and blocks with a large number of dwelling units, a third stage of selection was carried out. The block or ED was subdivided into pieces which were "field counted." Based on the field count, a piece of the sample block or ED with probability proportional to its size was selected.

#### 1990 National Sampling Frame

For the 1993 General Social Survey (GSS), approximately 1,100 housing units were selected from the 1980 National Sample. These dwelling units were clustered within 141 segments in 50 of the sample PSUs. Within each of the 16 certainty PSUs, approximately one-fourth of the sample segments were selected for the 1993 GSS, yielding a total of 39 segments. Within the remaining 68 sample PSUs, a subsample of 34 PSUs was first selected; then, within each of these 34 PSUs, three segments (out of the six available) were included in the 1993 GSS. Overall, then, the 1993 GSS sample included approximately one segment in four from the 1980 National Sample--one-fourth within the 16 certainty PSUs plus one-half of the segments within a randomly selected half of the 68 remaining sample PSUs. The subsampling of the noncertainty PSUs was carried out by pairing PSUs from similar strata; one PSU was selected randomly from each pair. The subsampling of segments was

done using a simple systematic selection procedure.

The 1990 National Sample also contributed approximately 1,100 housing units to the 1993 GSS sample. These were drawn from 191 segments in 68 of the sample PSUs. Within each of the 19 certainty PSUs, approximately one-half of the sample segments--a total of 71--were selected for the 1993 GSS. Within the remaining 81 sample PSUs, a subsample of 40 PSUs was first selected; within each of these 40 PSUs, all three available segments were sampled for the 1993 GSS. About half of the segments from the 1990 National Sample--one-half of the segments within the 19 certainty PSUs and all of the segments within a random half of the 81 other PSUs--were included in the 1993 GSS sample. The subsampling of the noncertainty PSUs was carried out by pairing PSUs that were nearest neighbors in the final sorted file from which the first stage selections were made; one PSU was selected at random from each pair. The last PSU of the 81 noncertainty PSUs could not be paired with another sample PSU; a random procedure was used to determine whether it would be included in the 1993 GSS sample. Segments in the certainty PSUs were subsampled using a simple systematic selection procedure.

Survey results are reported for four regional categories, with the States classified in the following way:

**Northeast**--Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont;

**North Central**--Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin;

**South**--Alabama, Arkansas, Delaware, District of Columbia, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, West Virginia;

**West**--Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming.

#### **ROPER STARCH WORLDWIDE, INC.**

A nationwide cross section of men and women 18 years of age and older are interviewed, face-to-face, in their homes. For the March 1993 survey, a total of 1,996 persons were interviewed and for the September 1993 survey, a total of 1,985 persons were interviewed. The persons interviewed comprise a representative sample of the population of the continental United States, age 18 and older--exclusive of institutionalized segments of the population (military bases, nursing homes, prisons, etc.). A multi-stage, stratified probability sample of interviewing locations

was employed. The probabilities of selection at each stage are based on the latest U.S. Census population data, and detailed Census maps are used to identify and locate the selected areas.

At the first stage, 100 counties were selected with probabilities proportionate to population, after all the counties in the 48 contiguous States and the District of Columbia were ordered by population size within 18 strata. The strata were constructed by classifying counties as metropolitan and non-metropolitan within each of the nine Census Geographic Divisions. At the second stage, within each primary sampling unit, two Census block groups (or Census Enumeration Districts, when Census block statistics data are unavailable) were selected with probabilities proportionate to population from a computer listing in which the block groups (ED's) are stratified by size of place in which located. At the third stage, within each sample block group (ED), two sample locations (blocks or rural equivalents of blocks) were selected. When Census block data were available the sample blocks were selected with probability proportionate to size (population) from a cumulative computer listing. When no such block data were available, sample Enumeration Districts were broken into identifiable segments (small areas defined by roads, streams, railroad tracks, or other unambiguous boundaries), and the sample segments were selected with equal probability.

At the block (segment) level, the interviewer was assigned a starting point and a path to proceed around the sample area. Quotas for men and women over and under age 45 were imposed, as were quotas for employed people. In addition it was required that interviewing on half the assigned blocks (segments) be conducted after 5 p.m. on weekdays or on Saturday or Sunday to facilitate fulfilling the employment quota. While the assigned quotas produced the proper number of men and women over and under 45, there were small imbalances when the sample was examined in finer age terms, e.g., too few 18-29 year olds, too many 30-44 year olds. Accordingly the sample was weighted to achieve the correct proportions of men and women 18-29, 30-44, 45-59, and 60 and older.

#### **MARKET SEGMENT RESEARCH, INC.**

These data were collected and analyzed by Market Segment Research, Inc. (MSR) as part of the 1993 Minority Market Report. A total of 3,500 interviews were conducted from November 1992 to January 1993. The data were obtained using a combination of telephone and face-to-face interviews. A total of 2,000 interviews were conducted among Hispanics, 1,000 among African-Americans, and 500 among Asians. The Hispanic inter-

views were conducted in Los Angeles, New York, Miami, Chicago, San Antonio, Houston, San Francisco, El Paso, Dallas, and Phoenix/Tucson. The African-American interviews were conducted in New York, Chicago, Washington, D.C., Los Angeles, Detroit, Philadelphia, Atlanta, Baltimore, Houston, and Miami. Asian interviews were conducted in Los Angeles, New York, San Francisco, Chicago, and Washington, D.C.

The samples were based on Areas of Dominant Influence (ADI) and were selected using the 1990 U.S. Census. Within each ADI, census tracts with high, medium, and low population densities for each segment were identified and a sample was selected from each in order to ensure a reflective cross-section of the population. For the Hispanic segment, 50 percent of the sample was selected by surname and the remaining 50 percent was random.

Prior to starting the study, pretest interviews were conducted in every market in each of the languages (English, Spanish, Japanese, Korean, Vietnamese, and Mandarin/Cantonese). Any observations regarding the wording of the questions or the flow of the questionnaire were discussed with field supervisors and project directors. Any necessary changes were made before the study continued. The pretest interviews were not included in the actual sample. Intensive supervisor and interviewer training and field briefings were conducted. Every question and possible answer was reviewed twice. The interviewers conducted practice interviews with each other and then with actual respondents. These practice interviews were not included in the sample. As a security measure, no single interviewer conducted more than 10 percent of the total interviews. Supervisors conducted a minimum of 20 percent validation of each interviewer's daily work. All first-day's work was fully edited before the study continued.

The questionnaire was developed by MSR and each respondent was interviewed for approximately 30 minutes, using a split-run method, resulting in approximately 1 hour's worth of data collection in total. In order to assure the most representative sample of the population, limited screening criteria were used. To qualify for the study, respondents were screened to be 18 years of age or older, to be of the appropriate ethnic origin (self-described), and to pass standard security questions. Within each ethnic segment, 50 percent males and 50 percent females were interviewed. MSR translated the questionnaire into Spanish, Japanese, Vietnamese, Korean, and Cantonese/Mandarin. For each language, MSR translated the English questionnaire into the native tongue and back-translated it to English to ensure that the meaning of each question was conveyed

accurately. The interviews were completed in the respondents' language of preference.

#### **TIMES MIRROR CENTER FOR THE PEOPLE AND THE PRESS: TV VIOLENCE SURVEY**

This survey was conducted by Princeton Survey Research Associates, Inc. for Times Mirror Center for The People and The Press. The survey results are based on telephone interviews among a nationwide sample of 1,516 adults, 18 years of age and older, during the period February 20-23, 1993. The sample was a random digit dialing sample of telephone numbers selected from telephone exchanges in the continental United States. Both listed and unlisted numbers (including not-yet-listed numbers) are represented. The telephone exchanges were selected with probabilities proportional to their size. The first eight digits of the sampled telephone numbers (area code, exchange, bank number) were selected to be proportionally stratified by county and by telephone exchange within county. That is, the number of telephone numbers randomly sampled from within a given county is proportional to that county's share of telephone households in the United States. Estimates of the number of telephone households within each county are derived from 1990 Census data. At least three attempts were made to complete an interview at every sampled telephone number. To compensate for potential biases in survey-derived estimates the sample data have been weighted in the analysis. The demographic weighting parameters were derived from an analysis of the most recently available U.S. Bureau of the Census' Current Population Survey (March 1992). This analysis produced population parameters for the demographic characteristics of households with adults 18 years of age and older, which are then compared with the sample characteristics to construct sample weights. The analysis only included households in the United States that contain a telephone.

#### **THE YOUTH RISK BEHAVIOR SURVEY**

The Youth Risk Behavior Survey (YRBS) was conducted as part of the 1992 National Health Interview Survey (NHIS). The 1992 NHIS was conducted among a representative sample of the civilian noninstitutionalized U.S. population using a multistage cluster-area probability design of approximately 120,000 persons from approximately 49,000 households. The YRBS was conducted as a followback survey to the NHIS among a representative sample of adolescents in the sampled households. In each household with at least one person aged 12 to 21 years, the current school enrollment status of each adolescent was determined as either "in-school" (i.e., attending school or on vacation from school at the time of the interview) or

"out-of-school" (i.e., not attending school and had not graduated from high school or attained General Educational Development credentials at the time of the interview). Out-of-school adolescents were over-sampled. During April 1992 to March 1993, adolescent respondents listened to a tape recording of the questionnaire and recorded their responses on a standardized answer sheet. Questionnaires were completed by 10,645 (77.2 percent) eligible adolescents. Information was analyzed for the 6,969 respondents who were aged 12 to 19 years and had not completed high school. Among these respondents, 91 percent were classified as in-school and 9 percent as out-of-school. Results were standardized by age by using the age distribution of the total population participating in the YRBS.

## Appendix 6

### National Household Survey on Drug Abuse Survey methodology

Note: The following information was excerpted from U.S. Department of Health and Human Services, Substance Abuse and Mental Health Service Administration, *National Household Survey on Drug Abuse: Population Estimates 1992* (Washington, DC: USGPO, 1993), pp. 1-5; *Preliminary Estimates from the 1992 National Household Survey on Drug Abuse* (Rockville, MD: U.S. Department of Health and Human Services, 1993), pp. 25, 26; and *Preliminary Estimates from the 1993 National Household Survey on Drug Abuse* (Rockville, MD: U.S. Department of Health and Human Services, 1994), pp. 27-29, 46, 47. Non-substantive editorial adaptations have been made.

#### Survey methodology

The National Household Survey on Drug Abuse (NHSDA) is an annual series of national surveys to measure the prevalence of drug use among the American household population aged 12 and older. Population estimates of drug use prevalence for the civilian, noninstitutionalized population of the United States are presented.

For the 1992 and 1993 National Household Surveys, a national probability sample of dwelling units in the United States was selected from 118 and 117 primary sampling units, respectively. The sample included persons living in some group quarters, such as rooming houses, college dormitories, and homeless shelters, but did not include transient populations such as the homeless not in shelters and residents of institutional quarters such as jails and hospitals, and active military personnel.

Essentially the same methodology has been used in each of the 12 National Household Surveys. In each selected household, a roster recording the age, race/ethnicity, and sex of all household members aged 12 and older was completed. Using a random sampling procedure, either two, one, or no respondents were selected to be interviewed. (Selection probabilities were based on the race/ethnicity of the head of household and the ages of household members.) The procedure was designed to control the sample sizes for age and race/ethnicity groups of interest. After selection, respondents were interviewed in person in their homes by trained interviewers. The interview process included use of self-administered answer

sheets and other procedures designed to assure respondents that their responses to sensitive questions would be kept confidential and anonymous.

For the 1992 National Household Survey, data were collected throughout the year, resulting in a total of 28,832 interviews with a 95 percent completion rate for screening sample households and an 82.5 percent completion rate for interviewing sample individuals.

For the 1993 National Household Survey, data were collected throughout the year, resulting in a total of 26,489 completed interviews with a 93.9 percent completion rate for screening sample households and a 79.2 percent completion rate for interviewing sample individuals.

Age and race/ethnicity were the two primary correlates of drug use on which the samples were stratified. The sample design ensured adequate sample sizes for four age groups (12 to 17, 18 to 25, 26 to 34, and 35 and older) and three race/ethnicity groups. In addition, for the 1992 and 1993 NHSDA six Metropolitan Statistical Areas were oversampled: Chicago, Denver, the District of Columbia, Los Angeles, Miami, and New York. This oversampling allowed certain subgroups to be large enough to support estimation. The national estimates presented include data from these special samples. Based on the respondents' self-classifications the race/ethnicity groups were classified as: (1) Hispanic in origin, regardless of race; (2) White, not of Hispanic origin; and (3) Black, not of Hispanic origin. As defined, these groups are mutually exclusive. Those who did not identify themselves as Hispanic, non-Hispanic White, or non-Hispanic Black were included in the category "other." This includes American Indians, Alaska Natives, Pacific Islanders, Asians, and other groups.

#### Development of weights

Sampling weights were calculated to reflect selection probabilities and to compensate for nonresponse and undercoverage. Each weight can be viewed as the number of population members that the responding sample member represents. Each record (i.e., respondent) is assigned an analysis weight which incorporates: (a) the inverse of the selection probability for the respondent, this is the product of the inverses of selection probabilities at each stage of sampling; (b) adjustments for household and person-level nonresponse; (c) poststratification adjustment to Census projections (of the civilian noninstitutionalized population of the total U.S.) for the midpoint of each NHSDA data collection period. Adjustments are made to age, sex, and race/ethnicity distributions.

#### Adjusting for nonresponse through imputation

The prevalence estimates are based on the total sample or all cases in a subgroup, including some cases for which missing data for some recency-of-use and frequency-of-use variables were replaced with logically or statistically imputed values. Prior to determining the completeness of a case, an editing procedure was implemented to check for inconsistencies and to determine if missing information was retrievable by using other information in the questionnaire. Logical imputation was then done to replace inconsistent, missing, or invalid data. Determination of completeness of a case was then made. To be classified as minimally complete interviews, and therefore included in the data base, data on the recency of use of alcohol, marijuana, and cocaine had to have been provided by the respondent or logically imputed from other answers supplied by the respondent.

For some key variables that still had missing values after the application of logical imputation, statistical imputation was used to replace the missing data with appropriate valid response codes. Two types of statistical imputation procedures were used. Hot-deck imputation involves the replacement of a missing value with a valid code taken from another respondent who is "similar" and had complete data. Logistic regression models were also used to determine replacement values for some variables.

#### Sampling error and confidence intervals

In the National Household Survey on Drug Abuse, as in every sample survey, there is some degree of statistical uncertainty or error. The estimates provided are subject to uncertainties of two types: nonsampling and sampling errors. Nonsampling errors are attributed to such sources as recording and coding errors, missing data, computer processing errors, and differences in respondents' interpretations of questions. Nonsampling errors cannot be quantified, however rigorous attempts were made to minimize them through pretesting, interviewer training and evaluation, interview verification, coder training, coding checks, and other quality control measures.

Sampling errors denote the random fluctuations that occur in estimates when a sample of the population is drawn rather than conducting a complete census. Different samples drawn using the same procedures from the same population would be expected to result in different estimates. Many of these observed estimates would differ to some degree from the "true" population value and these differences are due to sampling errors. Sampling errors are quantified by way of

confidence intervals. Asymmetrical 95 percent confidence intervals were calculated for all estimated proportions and corresponding population estimates.

### **Cautions regarding trends among blacks**

These data document an unusual pattern of decline among blacks in the use of both licit and illicit drugs between 1991 and 1992. For example, the rate of lifetime illicit drug use among blacks was 39.2 percent in 1991 and 33.6 percent 1992. Lifetime cocaine use dropped from 11.2 percent to 8.6 percent. Lifetime alcohol use dropped from 79.0 percent to 75.2 percent, and lifetime cigarette use decreased from 65.3 percent to 61.3 percent. Significant declines also occurred for current use of many drugs. These declines are especially surprising in the lifetime drug use estimates because only 1 calendar year has passed between the 1991 and 1992 surveys, rendering the target populations for the two surveys essentially the same. Furthermore, any changes in lifetime use of illicit drugs should generally be upward because of the aging of the drug using cohorts who remain "lifetime users" in each successive survey.

Because of concerns about these unusual results found in the 1992 data, a Peer Review Committee (PRC) was formed to evaluate the results and make recommendations about their release and publication. The PRC included drug abuse researchers, survey design experts, and health statisticians within the Public Health Service who were familiar with the NHSDA.

The PRC identified and explored a series of possible methodological and substantive causes for the observed changes in drug use. Possible explanations that were studied included sampling error and changes in the sample design; editing, imputation, and weighting adjustments; sample frame differences; interviewer effects; seasonality of drug use behavior; nonresponse bias; changes in questionnaire and field procedures; cohort effects; changes in the composition of the target population; changes in willingness to report drug use; and the impact of external events.

The consensus of the PRC was that "the observed differences between 1991 and 1992 cannot be explained by a single factor, although several small differences were found among the factors examined." The committee concluded that "the design and procedures for sampling, weighting, editing, and imputing the survey results are statistically sound," and stated that "the unexpected decrease in lifetime drug use among blacks is an example of what can occasionally occur in survey estimates, particularly when a large number of different estimates are generated

and comparisons are made." They concluded that "some of the decline in current drug use in 1992 is likely to reflect a real decline." The PRC recommended that estimates for 1992 be released, along with footnotes or caveats indicating that comparisons of the rates for blacks to previous surveys' results should be made with caution due to the observed inconsistencies.

### **Regions**

**North Central**--Includes the East North Central States--Illinois, Indiana, Michigan, Ohio, and Wisconsin--and the West North Central States--Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota.

**Northeast**--Includes the New England States of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont and the Middle Atlantic States--New Jersey, New York, Pennsylvania.

**South**--Includes the South Atlantic States--Delaware, District of Columbia, Florida, Georgia, Maryland, North Carolina, South Carolina, Virginia, and West Virginia; the East South Central States of Alabama, Kentucky, Mississippi, and Tennessee, and the West South Central States of Arkansas, Louisiana, Texas, and Oklahoma.

**West**--Includes the States of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

Other <sup>d</sup>	NA	NA	1,301	6,854	1,341	5,300	1,437	45,354	4,079	57,508

Note: Sample size is the unweighted number of respondents in the 1993 National Household Survey on Drug Abuse (NHSDA). Population in the United States as of July 1, 1990 is based on data provided by the U.S. Bureau of the Census. The 1993 NHSDA population distribution is not completely comparable to that of previous years because of differences in post-stratification totals obtained from the U.S. Bureau of the Census. The change has little effect on estimated percentages reporting drug use, but significant effect on estimates of the number of drug users in some subpopulation groups.

<sup>a</sup>In thousands.

<sup>b</sup>Data on adult education are not applicable for 12 to 17 year olds. Total refers to those 18 and older.

<sup>c</sup>Data on current employment are not applicable for 12 to 17 year olds. Total refers to those 18 and older.

<sup>d</sup>Retired, disabled, homemaker, student, or "other."

## Appendix 7

### Monitoring the Future 1975-1993 Survey methodology and definitions of terms

Note: The following information was excerpted from Lloyd D. Johnston, Jerald G. Bachman, and Patrick M. O'Malley, **Monitoring the Future 1986** (Ann Arbor, MI: Institute for Social Research, University of Michigan, 1987), pp. 2-10, 13, 14, 269; Lloyd D. Johnston, Jerald G. Bachman, and Patrick M. O'Malley, **National Survey Results on Drug Use From the Monitoring the Future Study, 1975-1993**, Volumes I and II (Washington, DC: USGPO, 1994); and information provided by the Monitoring the Future Project. Non-substantive editorial adaptations have been made.

#### Survey methodology

The basic research design involves annual data collections from high school seniors during the spring of each year, beginning with the class of 1975. Each data collection takes place in approximately 125 to 135 public and private high schools selected to provide an accurate cross section of high school seniors throughout the coterminous United States.

Since 1985, the results of a follow-up survey of those young adults 1 to 10 years beyond high school have been presented. These results should accurately characterize 85 percent of the young adults in the class cohorts 1 to 10 years beyond high school who are high school graduates. The high school dropout segment, missing from the senior year surveys, is also missing from the follow-up segments.

Also since 1985, the results of follow-up surveys of those high school students who have continued on to college have been presented. The college sample is limited to the most typical one for college attendance: 1 to 4 years past high school, which corresponds to the modal ages of 19 to 22 years old. This age category should encompass about 79 percent of all students enrolled in college full-time in 1989.

#### Sampling procedures

The procedure for securing a nationwide sample of high school seniors is a multistage one. Stage 1 is the selection of particular geographic areas, Stage 2 is the selection of one or more high schools in each area, and Stage 3 is the selection of seniors within each high school.

**Stage 1: Geographic areas.** The geographic areas used in this study are the primary sampling units (PSUs) developed by the Sampling Section of the Survey Research Center (SRC) for use in the Center's nationwide interview studies. These consist of 74 primary areas throughout the coterminous United States—including the 12 largest metropolitan areas, which contain about 30 percent of the Nation's population. Of the 62 other primary areas, 10 are in the Northeast, 18 in the North Central area, 24 in the South, and 10 in the West. Because these same PSUs are used for personal interview studies by the SRC, local field representatives can be assigned to administer the data collections in practically all schools.

**Stage 2: Schools.** In the major metropolitan areas more than one high school is often included in the sampling design; in most other sampling areas a single high school is sampled. In all cases, the selections of high schools are made such that the probability of drawing a school is proportionate to the size of its senior class. The larger the senior class (according to recent records), the higher the selection probability assigned to the high school. When a sampled school is unwilling to participate, a replacement school as similar to it as possible is selected from the same geographic area.

**Stage 3: Students.** Within each selected school, up to about 400 seniors may be included in the data collection. In schools with fewer than 400 seniors, the usual procedure is to include all of them in the data collection. In larger schools, a subset of seniors is selected either by randomly sampling classrooms or by some other random method that is convenient for the school and judged to be unbiased. Sample weights are assigned to each respondent so as to take account of variations in the sizes of samples from one school to another, as well as the (smaller) variations in selection probabilities occurring at the earlier stages of sampling.

The three-stage sampling procedure described above yielded the number of participating schools and students indicated in Table 1.

One limitation in the design is that it does not include in the target population those young men and women who drop out of high school before graduation (or before the last few months of the senior year, to be more precise). This excludes a relatively small proportion of each age cohort—between 15 and 20 percent. Though not an unimportant segment, certain behaviors such as illicit drug use and delinquency tend to be higher than average in this group. However, the addition of a representative sample of dropouts would increase the cost of the present research enormously, because of their dispersion and generally higher level of resistance to being located and interviewed.

For the purposes of estimating characteristics of the entire age group, the omission of high school dropouts does introduce certain biases; however, their small proportion sets outer limits on the bias. For the purposes of estimating changes from one cohort of high school seniors to another, the omission of dropouts represents a problem only if different cohorts have considerably different proportions who drop out. The source has no reason to expect dramatic changes in those rates for the foreseeable future, and recently published government statistics indicate a great deal of stability in dropout rates since 1970.

Some may use the high school data to draw conclusions about changes for the entire age group. While the source does not encourage such extrapolation, the source suspects that the conclusions reached often would be valid, since over 80 percent of the age group is in the surveyed segment of the population and the source expects that changes among those not in school are very likely to parallel the changes among those who are. Nevertheless, for purposes of characterizing the entire age group the source would urge the user to check the results emanating from the present monitoring system against those emerging from other data collection systems using different methods, such as household interviews.

One other important feature of the base-year sampling procedures should be noted. All schools (except for half of the initial 1975 sample) are asked to participate in two data collections, thereby permitting replacement of half of the total sample of schools each year. One motivation for requesting that schools participate for 2 years is administrative efficiency; it is a costly and time-consuming procedure to secure the cooperation of schools, and a 2-year period of participation cuts down that effort substantially. Another important advantage is that whenever an appreciable shift in scores from one graduating class to the next is observed, it is possible to check whether the shift might be attributable to some differences in the newly sampled schools. This is done simply by repeating the analysis using only the 60 or so schools which participated both years. Thus far, the half-sample approach has worked quite well; and examination of drug prevalence data from the "matched half-samples" shows that the half samples of repeat schools yielded drug prevalence trends which were virtually identical to trends based on all schools.

#### Questionnaire administration

The questionnaire administration in each school is carried out by the local SRC representatives and their assistants, following standardized procedures detailed in a project instruction manual. The questionnaires are

administered in classrooms during normal class periods whenever possible, although circumstances in some schools require the use of larger group administrations. Teachers are not asked to do anything more than introduce the SRC staff members and (in most cases) remain in the classroom to help guarantee an orderly atmosphere for the survey. Teachers are urged to avoid walking around the room, so that students may feel free to write their answers without fear of being observed.

The actual process of completing the questionnaires is quite straightforward. Respondents are given sharpened pencils and asked to use them because the questionnaires are designed for automatic scanning. Most respondents can finish within a 45-minute class period; for those who cannot, an effort is made to provide a few minutes of additional time.

#### Content areas and questionnaire design

Drug use and related attitudes are the topics which receive the most extensive coverage in the Monitoring the Future project; but the questionnaires also deal with a wide range of other subject areas, including attitudes about government, social institutions, race relations, changing roles for women, educational aspirations, occupational aims, and marital and family plans, as well as a variety of background and demographic factors. The list below provides an outline of the 19 general subject areas into which all items are categorized. Given this breadth of content, the study is not presented to respondents as a "drug use study," nor do they tend to view it as such.

#### Measurement content areas

**A. Drugs.** Drug use and related attitudes and beliefs, drug availability and exposure, surrounding conditions and social meanings of drug use. Views of significant others regarding drugs.

**B. Education.** Educational lifestyle, values, experiences, and environments.

**C. Work and leisure.** Vocational values, meaning of work and leisure, work and leisure activities, preferences regarding occupational characteristics and type of work setting.

**D. Sex roles and family.** Values, attitudes, and expectations about marriage, family structure, sex roles, and sex discrimination.

**E. Population concerns.** Values and attitudes about overpopulation and birth control.

**F. Conservation, materialism, equity, etc.** Values, attitudes, and expectations related to conservation, pollution, materialism, equity,

and the sharing of resources. Preferences regarding type of dwelling and urbanicity.

**G. Religion.** Religious affiliation, practices, and views.

**H. Politics.** Political affiliation, activities, and views.

**I. Social change.** Values, attitudes, and expectations about social change.

**J. Social problems.** Concern with various social problems facing the Nation and the world.

**K. Major social institutions.** Confidence in and commitment to various major social institutions (business, unions, branches of government, press, organized religion, military, etc.).

**L. Military.** Views about the armed services and the use of military force. Personal plans for military service.

**M. Interpersonal relationships.** Qualitative and quantitative characteristics of cross-age and peer relationships. Interpersonal conflict.

**N. Race relations.** Attitudes toward and experiences with other racial groups.

**O. Concern for others.** Concern for others; voluntary and charitable activities.

**P. Happiness.** Happiness and life satisfaction, overall and in specific life domains.

**Q. Other personality variables.** Attitudes about self (including self-esteem), locus of control, loneliness, risk-taking, trust in others, importance placed on various life goals, counter-culture orientation, hostility.

**R. Background.** Demographic and family background characteristics, living arrangements.

**S. Deviant behavior and victimization.** Delinquent behaviors, driving violations and accidents (including those under the influence of drugs), victimization experiences.

**T. Health habits and symptoms.** Health habits, somatic symptoms, medical treatments.

Because many questions are needed to cover all of these topic areas, much of the questionnaire content was divided into five different questionnaire forms in 1976-88 and six different questionnaire forms for 1989 and beyond which are distributed to participants in an ordered sequence that produces virtually identical subsamples. About one-third of each questionnaire form consists of key or "core" variables which are common to all

forms. All demographic variables and some measures of drug use are included in this "core" set of measures. This use of the full sample for drug and demographic measures provides a more accurate estimation on these dimensions and also makes it possible to link them statistically to all of the other measures which are included in a single form only.

#### Representativeness and validity

The samples for this study are intended to be representative of high school seniors throughout the 48 coterminous States. As previously mentioned, this definition of the sample excludes one important portion of the age cohort: those who have dropped out of high school before nearing the end of the senior year. But given the aim of representing high school seniors, it is useful to consider the extent to which the obtained samples of schools and students are likely to be representative of all seniors and the degree to which the data obtained are likely to be valid.

There are at least four ways in which survey data of this sort might fall short of being fully accurate. First, some sampled schools refuse to participate, which could introduce some bias. Second, the failure to obtain questionnaire data from 100 percent of the students sampled in participating schools would also introduce bias. Third, the answers provided by participating students are open to both conscious and unconscious distortions which could reduce validity. Finally, limitations in sample size and/or design could place limits on the accuracy of estimates.

#### School participation

As noted in the description of the sampling design, schools are invited to participate in the study for a 2-year period. With very few exceptions, each school which has participated for one data collection has agreed to participate for a second. Thus far, from 66 percent to 80 percent of the schools initially invited to participate have agreed to do so each year; for each school refusal, a similar school (in terms of size, geographic area, urbanicity, etc.) was recruited as a replacement.

The selection of replacement schools almost entirely removes problems of bias in region, urbanicity, and the like that might result from certain schools refusing to participate. Other potential biases are more subtle, however. For example, if it turned out that most schools with "drug problems" refused to participate, that could seriously bias the drug estimates derived from the sample. And if any other single factor was dominant in most refusals, that also might suggest a source of serious bias. In fact, however, the reason for schools' refusals to participate are varied and largely a function of happenstance events of the particular year. Thus, there is a fair

amount of confidence that school refusals have not seriously biased the surveys.

### **Student participation**

Completed questionnaires are obtained from three-fourths to four-fifths of all students sampled. The single most important reason that students are missed is that they are absent from class at the time of data collection, and in most cases it is not workable to schedule a special follow-up data collection for them.

In addition to absenteeism, student nonparticipation occurs because of schedule conflicts with school trips and other activities which tend to be more frequent than usual during the final months of the senior year. Of course, some students refuse to complete or turn in a questionnaire. However, the SRC representatives in the field estimate this proportion to be only about one percent.

### **Research design for the follow-up surveys after high school**

Beginning with the graduating class of 1976, each class is followed up and surveyed each year after high school. From the approximately 17,000 seniors originally participating in a given class, a representative sample of 2,400 individuals was chosen for follow-up. In order to ensure sufficient numbers of drug users in the follow-up surveys, those fitting certain criteria of current drug use (that is, those reporting current daily marijuana use in their senior year or use of any of the other illicit drugs in the previous 30 days) were selected with higher probability (by a factor of 3.0) than the remaining seniors. Differential weighting is used in all follow-up analyses to compensate for the differential sampling probabilities.

The 2,400 selected respondents from each class were randomly assigned to one of two matching groups of 1,200 each; one group was surveyed on even-numbered calendar years, while the other group was surveyed on odd-numbered years. This biannual procedure was intended to reduce respondent burden.

### **Follow-up procedures**

Using information provided by respondents at the time of the senior survey (name, address, phone number, and the name and address of someone who would always know how to reach them), students selected for the panels were contacted by mail. Newsletters were sent each year and name and address corrections were requested. Questionnaires were sent by certified mail in the spring of each year. A check for \$5.00 made out to the respondent, was attached to the front. Reminder letters and post cards went out at

fixed intervals thereafter and finally, those not responding received a prompting phone call from the Survey Research Center's phone interviewing facility in Ann Arbor. If requested, a second copy of the questionnaire was sent.

### **Panel retention rates**

To date the panel retention rates have remained quite high. In the first follow-up after high school, about 81 percent of the original panel returned questionnaires. The retention rate decreases ordinarily with time; however, the 1992 panel retention from the four oldest classes (1980-1983) remain at about 70 percent.

Since attrition is to a modest degree associated with drug use, corrections to the prevalence estimates are presented for the follow-up panels. These raise the prevalence estimates from what they would be uncorrected, but only slightly. It is believed that the resulting estimates are the most accurate obtainable, but still low for the age group as a whole due to the omission of dropouts and absentees from the population covered by the original panels.

### **Validity of self-report data**

Survey measures of delinquency and of drug use depend upon respondents reporting what are, in many cases, illegal acts. Thus, a critical question is whether such self-reports are likely to be valid. Like most studies dealing with these areas, there is no direct, objective validation of the present measures; however, the considerable amount of inferential evidence which exists strongly suggests that the self-report questions produce largely valid data. A number of factors suggest a reasonable amount of confidence about the validity of the responses to what are presumably among the most sensitive questions in the study: a low nonresponse on the drug question; a large proportion admitting to some illicit drug use; the consistency of findings across several years of the present study; strong evidence of construct validity (based on relationships observed between variables); a close match between these data and the findings from other studies using other methods; and the findings from several methodological studies which have used objective validation methods.

### **Accuracy of the sample**

A sample survey never can provide the same level of accuracy as would be obtained if the entire target population were to participate in the survey--in the case of the present study, about three million seniors per year. But perfect accuracy of this sort would be extremely expensive and certainly not worthwhile considering the fact that a high level of accuracy can be provided by a carefully designed pro-

bability sample. The accuracy of the sample in this study is affected both by the size of the student sample and by the number of schools in which they are clustered. Virtually all estimates based on the total sample have confidence intervals of plus or minus 1.5 percentage points or smaller--sometimes considerably smaller.

### **Interpreting racial differences**

Data are given for the two largest racial ethnic subgroups in the population--those who identify themselves as White or Caucasian and those who identify themselves as Black or African-American. Data are not given for the other ethnic categories (American Indians, Asian Americans, Mexican Americans, Puerto Ricans, or other Latin Americans) since each of these groups comprise less than three percent of the sample in any given year, which means that their small N's (in combination with their clustered groupings in a limited number of schools) would yield estimates which would be too unreliable. In fact, even Blacks--who constitute approximately 12 percent of each year's sample--are represented by only 350 to 425 respondents per year on any single questionnaire form. Further, because the sample is a stratified clustered sample, it yields less accuracy than would be yielded by a pure random sample of equal size. Therefore, because of the limited number of cases, the margin of sampling error around any statistic describing Blacks is larger than for most other subgroups described in this survey.

There are factors in addition to unreliability, however, which could be misleading in the interpretation of racial differences. Given the social importance which has been placed on various racial differences reported in the social science literature, the reader is cautioned to consider the various factors which could account for differences. These factors fall into three categories: differential representation in the sample, differential response tendencies, and the confounding of race with a number of other background and demographic characteristics.

**Differential representation**--A smaller segment of the Black population than of the White population of high school age is represented by the data contained here. Insofar as any characteristic is associated with being a school dropout or absentee, it is likely to be somewhat disproportionately underrepresented among Blacks in the sample.

**Differential response tendencies**--In examining the full range of variables, certain racial differences in response tendencies were noted. First, the tendency to state agreement in response to agree-disagree questions is generally somewhat greater among Blacks than among Whites.

There is also a somewhat greater than average tendency for Black respondents to select extreme answer categories on attitudinal scales. For example, even if the same proportion of Blacks as Whites felt positively (or negatively) about some subject, fewer of the Whites are likely to say they feel very positively (or very negatively). In the process of interpreting racial differences, the reader should be aware that differences in responses to particular questions may be related to these more general tendencies.

**Covariance with other factors**--Some characteristics such as race are highly confounded (correlated) with other variables--variables which may in fact explain some observed racial differences. Put another way, at the aggregate level one might observe a considerable racial difference on some characteristic, but once one controls for some background characteristics such as socio-economic level or region of the country--that is, comparing the Black respondents with Whites who come from similar backgrounds--there may be no racial difference at all.

#### Definitions of terms

**Drug types**--Definitions or identifiers used in survey forms include:

- Marijuana--pot, grass or hashish;
- Other psychedelics--mescaline, peyote, psilocybin, PCP;
- Amphetamines--uppers, pep pills, bennies, speed;
- Quaaludes--quads, methaqualone;
- Barbiturates--downers, goofballs, reds, yellows;
- Heroin--smack, horse;
- Other narcotics--methadone, opium, codeine, paregoric;
- Inhalants--glue, aerosols, laughing gas;
- Tranquilizers--Librium, Valium, Miltown.

Beginning with the 1979 survey, amyl and butyl nitrites were considered "other inhalants" for questions on one alternate survey form (N=one-fifth of total sample size). This was due to the fact that not all users of this subclass of inhalants were reporting themselves as inhalant users. Hallucinogen use had been similarly underestimated because some users of the hallucinogenic drug PCP do not report themselves as users of hallucinogens--even though PCP was included as an example of a hallucinogenic drug in earlier surveys and on other questions. The alternate questionnaire form contained a special set of questions about PCP, which provided other street names for it (e.g., angel dust). As a result of these definition changes, since 1979 data for drug use in these two drug classes have been adjusted for underreporting. For more information, see the Source.

**Four-year college plans**--Percentage distributions are given separately for (1)

respondents who indicate that they "definitely will" or "probably will" graduate from a four-year college program and (2) those who say that they "definitely won't" or "probably won't" graduate from a four-year college program. Respondents not responding are omitted from both columns. A number of those who do not expect to complete a four-year college program do expect to get some post-secondary education.

**Illicit drug use: Lifetime**--Percentage distributions are given separately for five mutually exclusive subgroups differentiated by their degree of involvement with illicit drugs. Eligibility for each category is defined below.

**None**--This column contains data from those respondents who indicated that they had not used marijuana at any time and did not report use of any of the following illicit drugs in their lifetime: LSD, other psychedelics, cocaine, amphetamines, tranquilizers, methaqualone, barbiturates, heroin, or other narcotics.

**Marijuana only**--This column contains data from other respondents who indicated that they had used marijuana (or hashish) but had never used any of the other illicit drugs just listed.

**Few pills**--This column contains data from those respondents who indicated having used one or more of the above listed drugs (other than marijuana) but who had not used any one class of them on three or more occasions and who had not used heroin at all.

**More pills**--This column contains data from respondents who had used any of the above listed drugs (other than marijuana) on three or more occasions but who had never used heroin.

**Any heroin**--This column contains data from those respondents who indicated having used heroin on one or more occasions in their lifetime.

**Race**--Percentage distributions are given separately for those describing themselves as "White or Caucasian" and "Black or African-American." Comparable columns for the other racial or ethnic groups (Mexican Americans, Asian Americans, American Indians, etc.) are not shown because of the low number of cases in each group.

**Region**--Percentage distributions are given separately for respondents living in each of four mutually exclusive regions of the country. The regional classifications are based on Census categories and are defined as follows:

**Northeast**: Census classifications of New England and Middle Atlantic States; includes Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania.

**North Central**: Census classifications of East North Central and West North Central States; includes Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa,

Missouri, North Dakota, South Dakota, Nebraska, and Kansas.

**South**: Census classifications of South Atlantic, East South Central, and West South Central States; includes Delaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Kentucky, Tennessee, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, and Texas.

**West**: Census classifications of Mountain and Pacific States; includes Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada, Washington, Oregon, and California.

**Sex**--Percentage distributions are given separately for males and females. Respondents with missing data on the question asking the respondent's sex are omitted from both groupings.

**Weighted number of cases**--The number of cases is stated in terms of the weighted number of respondents rather than the actual number, since all percentages have been calculated using weighted cases. The actual number of respondents generally is about 15 percent higher than the weighted number for data collected in 1975, 1976, and 1977. A comparison of weighted and unweighted numbers is provided in Table 2. For data collected in 1978 or later, the actual number of respondents is roughly equal to the weighted number. Weighting is used to improve the accuracy of estimates by correcting for unequal probabilities of selection which arise in the multi-stage sampling procedures.

Table 1. Sample sizes and student response rates

	1981	1982	1983	1984	1985	1986	1987	1988	1989	1990	1991	1992	1993
Number of public schools	109	116	112	117	115	113	117	113	111	114	117	120	121
Number of private schools	19	21	22	17	17	16	18	19	22	23	19	18	18
Total number of schools	128	137	134	134	132	129	135	132	133	137	136	138	139
Actual number of participating students	18,267	18,348	16,947	16,499	16,502	15,713	16,843	16,795	17,142	15,676	15,483	16,251	16,763
Number of weighted cases (total) <sup>a</sup>	18,267	18,348	16,947	16,499	16,502	15,713	16,843	16,795	17,142	15,676	15,483	16,251	16,763
Student response rate (percent) <sup>b</sup>	81	83	84	83	84	83	84	83	86	86	83	84	84

<sup>a</sup>Sample weights are assigned to each respondent to correct for unequal probabilities of selection that arise in the multi-stage sampling procedure.

<sup>b</sup>The student response rate is derived by dividing the attained sample by the target sample (both based on weighted numbers of cases). The target

sample is based upon listings provided by schools. Because such listings may fail to take account of recent student attrition, the actual response rate may be slightly underestimated.

## Appendix 8

### National Crime Victimization Survey Data collection procedures and definitions of terms

Note: The following information was compiled by SOURCEBOOK staff and excerpted from U.S. Department of Justice, Bureau of Justice Statistics, *Criminal Victimization in the United States, 1995* NCJ-145125 (Washington, DC: U.S. Department of Justice, 1994), Appendix III and glossary.

The National Crime Victimization Survey Program surveys a sample of residents throughout the Nation, including persons living in group quarters such as dormitories, rooming houses, and religious group dwellings. Crew members of merchant vessels, Armed Forces personnel living in military barracks, and institutionalized persons, such as correctional facility inmates, do not fall within the scope of the survey. Similarly, United States citizens residing abroad and foreign visitors to this country were excluded. With these exceptions, individuals age 12 and older living in units designated for the sample were eligible to be interviewed.

#### Data collection

Each housing unit selected for the National Crime Victimization Survey (NCVS) is in the sample for 3 years with each of seven interviews taking place at 6-month intervals. An NCVS interviewer's first contact with a housing unit selected for the survey is in person, and if it is not possible to secure face-to-face interviews with all eligible members of the household during this initial visit, interviews by telephone are permissible thereafter. The only exceptions to the requirement that each eligible person be interviewed apply to incapacitated persons and individuals who are absent from the household during the entire field-interviewing period.

Beginning in July of 1986, unless a knowledgeable household member insists otherwise, 12- and 13-year olds are interviewed directly by the interviewer. This differs from the previous practice of interviewing a knowledgeable adult as a proxy respondent for all 12- and 13-year olds unless the adult insisted that the child be interviewed and the alternative was no interview at all. In the case of temporarily absent household members and persons who are physically or mentally incapable of granting interviews, interviewers may accept other household members as proxy respondents, and in certain situations nonhousehold members may provide information for incapacitated persons.

Prior to February 1980 the second through seventh interviews were conducted in the same manner as the initial interview. At that time, however, the mode of interviewing was changed to cut data collection costs. Telephone interviewing was increased and in-person interviewing was reduced. This change was implemented in a manner that reduced the possibility of biasing the results. For half the remaining interviews at a sample address, the procedure was the same as that used for the entire sample prior to February 1980: the third, fifth, and seventh interviews were conducted primarily in person, with telephone followup permitted. The three even-numbered interviews have been conducted insofar as possible by telephone. Beginning in March 1986, all interviews were done by telephone whenever possible, except for the first and fifth interviews, which are still primarily conducted in person. Before February 1980, about 20 percent of the interviews were completed by telephone, as compared to about 50 percent until March 1986. The percentage of telephone interviews is approximately 75 percent currently. The results of an assessment of this change in the data collection mode on results for 1980 were reported in the initial data release for that year.

Face-to-face interviews are often conducted with other family members present. Consequently, if offender and victim reside in the same household, it may not be possible for the victim to relate his or her experience because of the presence of the offender. In telephone interviews the interviewer has no way of knowing if a household member's responses are being monitored.

A basic screen questionnaire and a crime incident report are used to elicit information on the relevant crimes committed against any members of the household age 12 or older. The initial interview is designed to screen for all instances of victimization before details of any specific incident are collected. In the screen questions respondents are asked if they were attacked or threatened but not directly asked if they have been raped. Nor are they told that threats or attacks by their intimates are germane to the survey. Only if a respondent volunteers that she or he has been raped or threatened with rape is the incident so classified.

#### Sample design and size

Survey estimates are based on data obtained from a stratified, multistage cluster sample. The primary sampling units (PSU's) composing the first stage of the sampling were counties, groups of counties, or large metropolitan areas. Large PSU's were included in the sample automatically and were considered to be self-representing (SR). The remaining PSU's, called non-self-representing (NSR),

were combined into strata by grouping PSU's with similar demographic characteristics, as determined by the 1980 census. From each stratum, one PSU was selected for the sample, the probability of selection having been proportionate to the PSU's population.

In June 1984, a sample cut resulted in the reduction of NSR strata from 220 to 153. This also included a 20 percent sample reduction in the larger of the 156 PSU's. Phase-in of a revised NCVS sample design based on 1980 census data began in January 1985. Thus, households that were interviewed during 1987 were drawn from both the 1970- and 1980-based sample designs. The 1980 design consists of 84 SR PSU's and 153 NSR strata, with one PSU per stratum selected with probability proportionate to size. Part of the reduction in the number of SR PSU's is due to a different procedure for drawing PSU boundaries, especially in the New England States, so that the 156 PSU's in the 1970 design are equivalent to 130 PSU's in the current design. Even with this smaller number of sample areas, the reliability of estimates has been maintained by using crime-related characteristics in the formation of the strata and by improving sample selection within the PSU's.

The remaining stages of sampling were designed to ensure a self-weighting probability sample of dwelling units and group quarters within each of the selected areas. This involved a systematic selection of enumeration districts (geographic areas used for the 1980 census), with a probability of selection proportionate to their 1980 population size, followed by the selection of clusters of approximately four housing units from within each enumeration district. To account for units built within each of the sample areas after the 1980 census, a sample was drawn, by means of an independent clerical operation, of permits issued for the construction of residential housing. Jurisdictions that do not issue building permits were sampled using small land-area segments. These supplementary procedures, though yielding a relatively small portion of the total sample, enabled persons occupying housing built after 1980 to be properly represented in the survey. With the passage of time, newly constructed units account for an increased proportion of the total sample.

Approximately 60,500 housing units and other living quarters were designated for the sample. For purposes of conducting the field interviews, the sample was divided into six groups, or rotations, each of which contained housing units whose occupants were to be interviewed once every 6 months over a period of 3 years. The initial interview was for purposes of bounding (that is, establishing a time frame to avoid duplicative recording of information on subsequent interviews) but

was not used in computing annual estimates. Each rotation group was further divided into six panels. Persons occupying housing units within one-sixth of each rotation group, or one panel, were interviewed each month during the 6-month period. Because the survey is continuous, additional housing units are selected in the manner described and assigned to rotation groups and panels for subsequent incorporation into the sample. A new rotation group enters the sample every 6 months, replacing a group phased out after being in the sample for 3 years.

Persons in approximately 23,900 housing units in selected areas were interviewed using a new survey questionnaire. Data from households receiving this new questionnaire are currently excluded. In order to convert to the revised questionnaire, while maintaining the capability of producing annual crime rate change estimates, the new questionnaire is being phased in gradually over a few years. A statistical splice will be performed and then the NCVS will use the new survey instrument for all households in the sample. Adjustments were made in the NCVS weighting to compensate for the exclusion of these new questionnaire cases in the 1992 data. The new survey instrument provides more information about incidents of crime, and includes the additional crime of vandalism.

Interviews were obtained at 6-month intervals from the occupants of about 26,200 of the 31,800 housing units designated for the sample. The large majority of the remaining 5,700 units were found to be vacant, demolished, converted to non-residential use, or otherwise ineligible for the survey. However, approximately 950 of the 5,700 units were occupied by persons who, although eligible to participate in the survey, were not interviewed because they could not be reached after repeated visits, declined to be interviewed, were temporarily absent, or were otherwise not available. Thus, the occupants of about 96 percent of all eligible housing units, or some 52,100 persons, participated in the survey.

Approximately 10 percent of the 26,200 households in the 1992 sample were interviewed using a new technique called Computer-Assisted Telephone Interviewing (CATI). This technique was first used in 1987, and a study of the results revealed that it had no serious effect on the NCVS data. Therefore, the data collected from CATI-designated households are included in the 1992 results.

#### Estimation procedure

To enhance the reliability of the estimates presented, the estimation procedure incorporated additional data on those characteristics of the population that are believed to affect

U.S. Bureau of the Census figures for total population age 12 and older and total number of households, United States, 1973-92

	Total population age 12 and older	Total number of households
1973	164,362,900	70,442,400
1974	167,058,400	72,162,900
1975	169,671,500	73,559,600
1976	171,900,500	74,956,100
1977	174,092,700	76,412,300
1978	176,214,600	77,980,400
1979	178,284,500	79,498,600
1980	184,324,000	82,753,100
1981	186,336,000	84,094,600
1982	188,496,600	85,210,700
1983	190,504,010	86,635,240
1984	191,962,210	88,039,320
1985	194,096,690	89,262,830
1986	196,160,150	90,394,710
1987	197,726,980	91,823,260
1988	199,412,460	93,362,150
1989	201,375,630	94,899,080
1990	203,273,870	95,762,680
1991	204,280,050	96,281,890
1992	206,414,480	97,324,770

victimization rates. These data were used in the various stages of ratio estimation.

The estimation procedure produces quarterly estimates of the volume and rates of victimization. Sample data from 8 months of field interviewing are required to produce estimates for each quarter. Each quarterly estimate is made up of equal numbers of field observations from the months during the half-year interval prior to the time of interview. This arrangement minimizes expected biases associated with the tendency of respondents to place criminal victimizations in more recent months during the 6-month reference period than when they actually occurred. Annual estimates are derived by accumulating data from the four quarterly estimates, which in turn are obtained from 17 months of field interviewing--from February of one year through June of the following year. The population and household rates of victimization are based on an average for these 17 months, centering on the ninth month of the data collection period, or October 1992.

#### Reliability of estimates

All of the National Crime Victimization Survey data presented are population estimates derived from nationwide probability samples. The samples used for the national survey are large; during a 6-month period, about 26,200 household interviews and 52,100 personal interviews are conducted. Nevertheless, whenever samples of a population--rather than the entire population--are studied, a certain amount of sampling error is introduced into the results. The size of this error

depends on such factors as the size of the sample and the variability of the population. However, the sampling design and techniques were carried out in a way that permits an estimation of the amount of sampling error present in the results.

The sample used for the NCVS is one of a large number of possible samples of equal size that could have been used applying the same sample design and selection procedures. Estimates derived from different samples would differ from each other.

The standard error of a survey estimate is a measure of the variation among the estimates from all possible samples and is, therefore, a measure of the precision with which the estimate from a particular sample approximates the average result of all possible samples. The estimate and its associated standard error may be used to construct a confidence interval, that is, a range of numbers having a prescribed probability that it would include the average result of all possible samples. Estimates falling within the prescribed confidence interval are considered statistically significant. Most comparisons reported were significant at a level of 2.0 standard errors (the 95 percent confidence level), meaning that the estimated difference is greater than twice the standard error of the difference. Comparisons that failed the 90 percent test were not considered statistically significant.

Because the method utilized in the calculation of these standard errors and confidence intervals is based on approximations, the standard errors are an indication of the order of magnitude of the standard error rather than the precise standard error for any specific item. It should be noted that as finer and finer breakdowns of the population are made--for example, along dimensions of race, income, age, etc.--the size of the standard error, relative to the size of the estimate, can be expected to increase.

#### Series victimizations

A series victimization is defined as three or more similar but separate crimes which the victim is unable to recall individually or describe in detail to an interviewer. Because of the inability of the victims to provide details for each event separately, series crimes have been excluded from analyses and tables derived from the 1992 NCVS data.

#### Definitions of terms

**Age**--The appropriate age category is determined by the respondent's age on the last day of the month before the interview.

**Aggravated assault**--Attack or attempted attack with a weapon, regardless of whether an injury occurred, and attack with-

out a weapon when serious injury results. Serious injury includes broken bones, lost teeth, internal injuries, loss of consciousness, and any injury requiring two or more days of hospitalization.

**Annual family income**--The total income of the household head and all relatives living in the same housing unit for the 12 months preceding the interview. Includes wages, salaries, net income from businesses or farms, pensions, interest, dividends, rent, and any other form of monetary income. The incomes of people who are not related to the head of the household are not included.

**Assault**--An unlawful physical attack or threat of attack. Assaults may be classified as aggravated or simple. Rape and attempted rape are excluded from this category, as well as robbery and attempted robbery. The severity of assaults ranges from minor threat to incidents which are nearly fatal.

**Attempted forcible entry**--A form of burglary in which force is used in an attempt to gain entry.

**Burglary**--Unlawful or forcible entry or attempted entry of a residence. This crime usually, but not always, involves theft. The illegal entry may be by force, such as breaking a window or slashing a screen, or may be without force by entering through an unlocked door or an open window. If the person entering has no legal right to be present in the structure a burglary has occurred. Furthermore, the structure need not be the house itself for a burglary to take place; illegal entry of a garage, shed, or any other structure on the premises also constitutes household burglary. If breaking and entering occurs in a hotel or vacation residence, it is still classified as a burglary for the household whose member or members were staying there at the time the entry occurred.

**Ethnicity**--A classification based on Hispanic culture and origin, regardless of race.

**Forcible entry**--A form of burglary in which force is used to gain entry to a residence. Some examples include breaking a window or slashing a screen.

**Head of household**--A classification which defines one and only one person in each housing unit as the head. Head of household implies that the person rents or owns (or is in the process of buying), the housing unit. The head of household must be at least 18, unless all members of the household are under 18, or the head is married to someone 18 or older.

**Hispanic**--A person who describes himself as Mexican-American, Chicano, Mexican, Mexicano, Puerto Rican, Cuban, Central American, South American, or from some other Spanish culture or origin, regardless of race.

**Household**--A person or group of people meeting either of the following criteria: (1) people whose usual place of residence is the same housing unit, even if they are

temporarily absent; (2) people staying in a housing unit who have no usual place of residence elsewhere.

**Household crimes**--Attempted and completed crimes that do not involve personal confrontation. Examples of household crimes include burglary, motor vehicle theft, and household larceny.

**Household larceny**--Theft or attempted theft of property or cash from a residence or the immediate vicinity of the residence. In order to occur within a house, the thief must have a legal right to be in the house (such as a maid, delivery person, or guest), as unlawful or forcible entry constitutes a burglary.

**Incident**--A specific criminal act involving one or more victims and offenders. For example, if two people are robbed at the same time and place, this is classified as two robbery victimizations but only one robbery incident.

**Larceny**--Theft or attempted theft of property or cash without involving force or illegal entry. This category is subdivided into personal larceny and household larceny.

**Marital status**--Every person is assigned to one of the following classifications: (1) married, which includes persons in common-law unions and those who are currently living apart for reasons other than marital discord (employment, military service, etc.); (2) separated or divorced, which includes married persons who are legally separated and those who are not living together because of marital discord; (3) widowed; and (4) never married, which includes persons whose marriages have been annulled and those who are living together and not in a common-law union.

**Metropolitan Statistical Area (MSA)**--Office of Management and Budget defines this as a population nucleus of 50,000 or more, generally consisting of a city and its immediate suburbs, along with adjacent communities having a high degree of economic and social integration with the nucleus. MSA's are designated by counties, the smallest geographic units for which a wide range of statistical data can be obtained. However, in New England, MSA's are designated by cities and towns since these subcounty units are of great local significance and considerable data is available for them. Currently, an area is defined as an MSA if it meets one of two standards: (1) a city has a population of at least 50,000; (2) the Census Bureau defines an urbanized area of at least 50,000 people with a total metropolitan population of at least 100,000 (or 75,000 in New England). The Census Bureau's definition of urbanized areas, data on commuting to work, and the strength of the economic and social ties between the surrounding counties and the central city determine which counties not containing a main city are included in an MSA. For New England, MSA's are determined by a core area and related cities and towns, not counties. A metropolitan

statistical area may contain more than one city of 50,000 and may cross State lines. Within this general classification unit, there are three subclassifications: urban (city), suburban, and rural. They are defined as follows:

**Central city (city)**--The largest city or grouping of cities in a metropolitan statistical area. Urban areas are categorized as those portions of metropolitan areas located in "central cities."

**Outside central city (suburban)**--A county or group of counties containing a central city, plus any contiguous counties that are linked socially and economically to the central city. Suburban areas are categorized as those portions of metropolitan areas situated "outside central cities."

**Nonmetropolitan areas (rural)**--A county or group of counties not located inside a metropolitan statistical area. This category includes a variety of localities, including smaller cities with populations less than 50,000; however, it is primarily comprised of sparsely populated areas.

**Minor injury**--Injuries that (1) involve bruises, black eyes, cuts, scratches, swelling, or (2) are of undetermined nature that required less than 2 days of hospitalization.

**Motor vehicle**--An automobile, truck, motorcycle, or any other motorized vehicle legally allowed on public roads and highways.

**Motor vehicle theft**--Stealing or unauthorized taking of a motor vehicle, including attempted thefts.

**Non-Hispanic**--Persons who report their culture or origin as something other than "Hispanic" as defined above. This distinction is made regardless of race.

**Nonstranger**--A classification of a crime victim's relationship to the offender. An offender who is either related to, well known to, or casually acquainted with the victim is a nonstranger. For crimes with more than one offender, if any of the offenders are nonstrangers, then the group of offenders as a whole is classified as nonstranger. This category only applies to crimes which involve contact between the victim and the offender; the distinction is not made for personal larceny without contact since victims of this offense rarely see the offenders.

**Offender**--The perpetrator of a crime; this term usually applies to crimes involving contact between the victim and the offender.

**Offense**--A crime. When referring to personal crimes, the term can be used to refer to both victimizations and incidents.

**Personal crimes**--Rape, personal robbery, assault, personal larceny with contact, or personal larceny without contact. Includes both attempted and completed crimes.

**Personal crimes of theft**--Personal larceny. The theft or attempted theft of property or cash by stealth, either with contact (but without force or threat of force) or without direct contact between the victim and the offender.

**Personal crimes of violence**--Rape, personal robbery, or assault. Includes both attempted and completed crimes, and the crime always involves contact between the victim and the offender.

**Personal larceny**--Equivalent to personal crimes of theft. Personal larceny is divided into two subgroups depending on whether the crime involved personal contact between the victim and the offender.

**Personal larceny with contact**--Theft or attempted theft of property or cash directly from the victim by stealth, not force or threat of force. Includes both purse snatching and pocket picking.

**Personal larceny without contact**--Theft or attempted theft of property or cash from any place other than the victim's home or its immediate vicinity, without direct contact between the victim and the offender. This crime differs from household larceny only in the location in which the theft occurs. Examples of personal larceny without contact include theft of an umbrella in a restaurant, a radio from the beach, or cash from an automobile parked in a parking lot. Occasionally, the victim may see the offender commit the crime.

**Physical injury**--Physical injury is measured for the three personal crimes of violence. Completed or attempted robberies that result in injury are classified as involving "serious" or "minor" assault. Examples of injuries from serious assault include broken bones, loss of teeth, internal injuries, loss of consciousness, and undetermined injuries requiring two or more days of hospitalization. Injuries from minor assault include bruises, black eyes, cuts, scratches, swelling, or undetermined injuries requiring less than two days of hospitalization. Assaults without a weapon are classified as aggravated if the victim's injuries fit the description given above of serious assault. All completed rapes are defined as having resulted in physical injury. Attempted rapes are classified as having resulted in injury if the victim reported having suffered some form of physical injury.

**Race**--Racial categories for this survey are white, black, and other. The category "other" is composed mainly of Asians and American Indians. The race of the head of household is used in determining the race of the household for computing household crime demographics.

**Rape**--Carnal knowledge through the use of force or the threat of force, including attempts. Statutory rape (without force) is excluded. Both heterosexual and homosexual rape are included.

**Rate of victimization**--See "Victimization rate."

**Robbery**--Completed or attempted theft, directly from a person, of property or cash by force or threat of force, with or without a weapon.

**Robbery with injury**--Completed or attempted theft from a person, accompanied

by an attack, either with or without a weapon, resulting in injury. An injury is classified as resulting from a serious assault, irrespective of the extent of injury, if a weapon was used in committing the crime, or, if not, when the extent of the injury was either serious (broken bones, loss of teeth, internal injuries, or loss of consciousness, for example) or undetermined but requiring two or more days of hospitalization. An injury is classified as resulting from a minor assault when the extent of the injury was minor (for example, bruises, black eyes, cuts, scratches, or swelling) or undetermined but requiring less than 2 days of hospitalization.

**Robbery without injury**--Theft or attempted theft from a person, accompanied by force or the threat of force, either with or without a weapon, but not resulting in injury.

**Self-protective measures**--These include attacking the offender(s) with or without a weapon; threatening the offender(s) with or without a weapon; resisting or capturing the offender(s); scaring, warning, persuading, or appeasing the offender(s); running away or hiding; getting help or giving alarm; screaming from pain or fear; or some other method reported by the respondent.

**Serious injury**--Injuries 1) that involve gunshot or knife wounds, internal injuries, broken bones, loss of consciousness, loss of teeth or 2) that are of undetermined nature that required 2 or more days of hospitalization.

**Simple assault**--Attack without a weapon resulting either in minor injury (for example, bruises, black eyes, cuts, scratches, or swelling) or in undetermined injury requiring less than two days of hospitalization. Also includes attempted assault without a weapon.

**Stranger**--A classification of the victim's relationship to the offender for crimes involving direct contact between the two. Incidents are classified as involving strangers if the victim identifies the offender as a stranger, did not see or recognize the offender, or knew the offender only by sight. Crimes involving multiple offenders are classified as involving nonstrangers if any of the offenders was a nonstranger. Since victims of personal larceny without contact rarely see the offender, no distinction is made between strangers and nonstrangers for this crime.

**Tenure**--The NCVS recognizes two forms of household tenancy: (1) owned, which includes dwellings that are mortgaged, and (2) rented, which also includes rent-free quarters belonging to a party other than the occupants, and situations where rental payments are in kind or in services.

**Unlawful entry**--A form of burglary committed by someone having no legal right to be on the premises, even though no force is used.

**Victim**--The recipient of a criminal act, usually used in relation to personal crimes, but also applicable to households.

**Victimization**--A crime as it affects one individual person or household. For personal crimes, the number of victimizations is equal to the number of victims involved. The number of victimizations may be greater than the number of incidents because more than one person may be victimized during an incident. Each crime against a household is assumed to involve a single victim, the affected household.

**Victimization rate**--A measure of the occurrence of victimizations among a specified population group. For personal crimes, this is based on the number of victimizations per 1,000 residents age 12 and older. For household crimes, the victimization rates are calculated using the number of incidents per 1,000 households.

**Victimize**--To commit a crime against a person or household.

## Appendix 9

### ***Annual Emergency Room Data, 1992***

Methodology, estimation procedure, and data limitations

This information was excerpted from U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, ***Annual Emergency Room Data, 1992***, Statistical Series I, Number 12-A (Washington, DC: USGPO, 1994), pp. 1-7, Appendix II. Non-substantive editorial adaptations have been made.

### **Methodology**

These data were collected by the Substance Abuse and Mental Health Services Administration through the Drug Abuse Warning Network (DAWN). The data are weighted estimates representing all drug abuse-related emergency room (ER) episodes in the 48 contiguous States, the District of Columbia, and 21 metropolitan areas for calendar year 1992. During 1992, 503 sample hospitals provided data to DAWN. The sample hospitals reported a total of 147,506 ER drug abuse episodes and 249,707 drug mentions. With the application of sampling weights, these data lead to the estimate of 433,493 drug abuse episodes and 751,731 drug mentions in the universe of eligible hospitals across the United States.

Hospitals eligible for DAWN are non-Federal, short-stay general surgical and medical hospitals in the coterminous United States that have a 24-hour emergency room. The American Hospital Association's (AHA) 1984 and 1985 Annual Surveys of Hospitals were used to obtain a sampling frame. Hospitals in the frame were stratified according to several characteristics. The first characteristic was size; hospitals reporting 80,000 or more annual ER visits were assigned to a single stratum and selected with certainty. Additional strata were defined according to whether the hospital had an organized outpatient department or a chemical/alcohol inpatient unit; facilities were assigned to one of three strata depending on whether they had neither type of unit, either one or the other, or both. Each of the 21 DAWN metropolitan areas was oversampled, and hospitals outside these areas were assigned to the national panel and sampled. In addition to the other strata, hospitals in the metropolitan areas were classified as to whether they were inside or outside the central city. Operationally, this was determined by whether they were located in one of the cities listed in the official name of the metropolitan area. The national

response rate in 1992 was 79 percent; this rate is based on the number of eligible hospitals in the sample and the number actually responding. Data from the 21 oversampled metropolitan areas were pooled with data from the national panel to produce the national estimates.

For the purpose of reporting to the DAWN system, drug abuse is defined as the non-medical use of a substance for psychic effect, dependence, or suicide attempt/gesture. Nonmedical use includes: the use of prescription drugs in a manner inconsistent with accepted medical practice; the use of over-the-counter drugs contrary to approved labeling; or the use of any other substance (heroin, cocaine, marijuana, glue, aerosols, etc.) for psychic effect, dependence, or suicide.

An episode report is submitted for each drug abuse patient who visits a DAWN emergency room and each drug abuse death encountered by a DAWN medical examiner. Each report of a drug abuse ER episode includes demographic information about the patient and information about the circumstances of the episode. In addition to drug overdoses, drug abuse emergency room episodes may result from the chronic effects of habitual drug usage or from unexpected reactions. Unexpected reactions reflect cases where the drug's effect was different than anticipated (e.g., caused hallucinations). Up to four different substances, in addition to alcohol-in-combination, can be specified for each ER episode.

It should be noted that alcohol is reported to DAWN only when used in combination with another drug. It also should be noted that episodes involving children under 6 years of age are not reported to DAWN.

Within each facility participating in the DAWN system, a designated DAWN reporter, usually a member of the emergency room or medical records staff, was responsible for identifying drug abuse episodes and recording and submitting data on each case. On a weekly basis, the total number of daily emergency room visits and the number of cases related to drug abuse were entered into a reporting log. From the official facility records, the relevant details of each drug abuse episode were transferred onto DAWN data forms. A number of quality control procedures are used to assure that DAWN data are as accurate and methodologically consistent as possible. These procedures include: (1) training of personnel responsible for collecting the data within the participating hospitals; (2) provision of instruction manuals and other materials specifying data collection methods, definitions, and requirements; (3) monitoring of reporting practices and problem resolution by a staff of traveling field liaison representatives assigned to five regions of the country;

(4) in-house manual editing of data collection forms with followup to resolve problems; (5) computer editing of data to identify problems; and (6) reabstracting studies at participating facilities to monitor the accuracy and completeness of reporting on a periodic basis and, as needed, on a special study basis to review unusual trends.

### **Estimation procedure**

The data represent weighted estimates of total emergency room drug episodes and drug mentions in the coterminous U.S. and in the 21 metropolitan areas oversampled in DAWN. In order to produce representative estimates for the entire population of hospital ERs, the sampling probabilities must be taken into account. In a random sample such as the DAWN ER sample, each unit has a known probability of being selected. Data from a random sample can be extrapolated to the total population using the sampling weights. In a simple case, each hospital in the sample might have a selection probability of 0.2, or 20 percent. This means that one-fifth of hospitals in the sampling frame are selected, and each selected facility represents itself and four others. In this situation, the sampling weight for each facility is 5, the reciprocal of 0.2. If one of the sample facilities reports 20 drug abuse episodes, then these episodes would be weighted by a factor of 5, resulting in 100 episodes. Applying the sampling weight to the observed data results in weighted estimates.

As mentioned above, the sampling frame of hospital emergency rooms was stratified before the sample was selected. Though a random sample was chosen within each stratum, the selection probabilities varied by stratum. In making estimates from a stratified sample, the sampling proportion in each stratum is taken into account in determining the weight applied to data from sample units in that stratum.

As part of the DAWN emergency room sample design, strata were defined within each area, and a sample was selected from each stratum. Sampling weights are determined for each stratum based on the sampling proportion in that stratum, and stratum-level estimates can be generated by applying the weights. Metropolitan area estimates are produced by aggregating the weighted estimates for the component strata; and national estimates are generated by summing the weighted estimates from the 21 oversampled metropolitan areas and the national panel. Facilities in the national panel were selected with a lower probability than facilities in the 21 oversampled metropolitan areas. Thus data from hospitals in the national panel are given greater weight than those in the oversampled areas when national estimates are developed. In addition to inflating the sample

data to represent the total universe and adjusting for atypical reporting, the estimation process also must make adjustments to offset other sources of possible bias. Sampling weights must be adjusted after the sample is drawn to compensate for facilities that declined to participate (i.e., unit nonresponse). Nonresponse in a stratum or metropolitan area increases the variability of the estimates and thus reduces their precision.

Facilities participating in the system sometimes fail to provide data on all the possible reporting days in a given time period. This daily nonresponse problem usually results from delayed submission of data. When the data files are closed for a given month, the data for some facilities are incomplete because of these delays. Three procedures are used to minimize the effects of daily nonresponse due to delayed reporting. First, annual reports are prepared using data received up to 5 months after the end of the year in question. Second, significant late reporters are identified, and intensive efforts are made to obtain data from them. In these efforts, priority is given to hospitals with (a) a lower than average number of days reported and a large number of weighted mentions of cocaine in a previous quarter, and (b) hospitals that reported for fewer days in the month and are in strata with poorer unit response rates. Third, the estimation procedures include an adjustment for days when facilities failed to submit data.

In addition to considering the original sampling probabilities, the adjustment for atypical reporting, and the adjustments for unit and daily nonresponse, the estimates presented include another adjustment based on the total number of ER visits to all eligible hospitals in the specific metropolitan area. This final factor is applied to produce a ratio estimator. Essentially, this final ratio adjustment benchmarks the weighted estimates of total drug episodes obtained from the sample by the ratio of ER visits from the AHA frame to an estimate of this value obtained from the survey. This benchmarking procedure increases the precision of the estimate of total drug-related episodes by taking advantage of the inherent correlation between the number of these episodes experienced by a facility and its total number of ER visits. Ideally, the benchmark factor has a value of 1.0. However, deviations from 1.0 may occur as a result of nonresponse, sampling error, and other errors.

The final weight is a product of the following components: (1) the inverse of the selection probability, (2) adjustments for atypical response, (3) adjustments for unit and daily nonresponse, and (4) a benchmark adjustment for each metropolitan area and the national panel, that takes into account the total numbers of visits to all eligible facilities

and to sample facilities. Specifically, this factor is the ratio of ER visits from the AHA Annual Survey sampling frame and an estimate of this value derived from the sample. The weights are generated each quarter for each hospital in the sample. For unit nonrespondents, closed, and ineligible hospitals, the weights are equal to zero.

#### **Data limitations**

DAWN collects information about only those drug abuse occurrences that have resulted in a medical crisis and, subsequently, have been identified as drug abuse episodes by a reporting facility. It should be noted that although standard instruction manuals and training are provided to each DAWN reporter, the specific methods and procedures used to identify drug abuse episodes and substances may vary from facility to facility. Emergency room data may reflect drug use self-reported by the patients to attending medical staff. The number of emergency room episodes reported to DAWN is not equivalent to the number of individuals involved, since one person may make repeated visits to an emergency room. DAWN data contain no personal identifiers, which would be required to eliminate repeat visits. A drug abuse episode may have multiple drug mentions. Therefore, not every reported substance is, by itself, necessarily a cause of the medical emergency. On the other hand, substances that contributed to a drug abuse episode may occasionally go unreported or undetected. The presence of multiple drug mentions in an episode has implications for the interpretation of data on both drug use and episode characteristics. For example, since a single drug use motive is reported for each episode, that motive is assigned to each separate drug mentioned in the episode; thus, some caution must be exercised when relating drug mention patterns to specific motives.

## Appendix 10

### *Drug Use Forecasting 1992 Annual Report* Methodology and survey sampling information

Note: The following information was excerpted from the U.S. Department of Justice, National Institute of Justice, *Drug Use Forecasting 1992 Annual Report*, NCJ-142973 (Washington, DC: U.S. Department of Justice, 1993), pp. 2, 6-29. Non-substantive editorial adaptations have been made.

#### Methodology

Drug Use Forecasting (DUF) data are collected in booking facilities throughout the United States. For approximately 14 consecutive evenings each quarter, trained local staff obtain voluntary and anonymous urine specimens and interviews from a new sample of booked arrestees. The DUF sample is based on arrestees brought into the booking facility. Arrestees released before booking are not part of the DUF sample. At each site, approximately 225 males are sampled. At some sites, female arrestees and juvenile arrestees/detainees are also sampled. Generally, more than 90 percent of the arrestees approached agree to be interviewed. Approximately 80 percent of those interviewed provide urine specimens.

To obtain samples with a sufficient distribution of arrest charges, DUF interviewers, where possible, limit the number of male booked arrestees who are charged with the sale or possession of drugs. Because such persons are likely to be using drugs at arrest and are undersampled, DUF statistics frequently are minimum estimates of drug use in the male arrestee population. Males charged with driving offenses generally are excluded from the samples due to DUF's emphasis on more serious crimes. In Omaha, however, all male arrestees brought to the booking facility are included in the DUF sample to obtain a sample of sufficient size. Because they are fewer in number, all female arrestees brought to the booking facilities and all juvenile arrestees/detainees brought to the detention centers during the data collection period are included in the DUF samples, regardless of charge.

Twelve of the DUF sites collect data from male juvenile arrestees/detainees. In each of the juvenile facilities, with the exception of Birmingham, Denver, and Indianapolis, only those youngsters who are detained by the criminal justice system are available for interviewing. Arrestees who are released to their

parents or released for other reasons are not included in the DUF juvenile sample. In Birmingham, Denver, and Indianapolis, however, all juvenile arrestees are available for interviewing. For juveniles in each of the sites, excluding Washington, DC and St. Louis, the catchment area encompasses the county. In Washington, DC, youngsters arrested and detained in the District of Columbia are included in the sample, and in St. Louis only male juveniles arrested and detained in the city of St. Louis are included.

All urine specimens are sent to a central laboratory for analysis. The specimens are analyzed for 10 drugs: cocaine, opiates, marijuana, PCP, methadone, benzodiazepines, methaqualone, propoxyphene, barbiturates, and amphetamines. All positive results for amphetamines are confirmed by gas chromatography to eliminate positives that may be caused by over-the-counter drugs. For most drugs, the urine test can detect use in the previous 2 to 3 days. Exceptions are marijuana and PCP, which sometimes can be detected several weeks after use.

Table. DUF sample sizes, 1992

City	Male	Female
Atlanta, GA	989	474
Birmingham, AL	714	286
Chicago, IL	901	(a)
Cleveland, OH	815	319
Dallas, TX	989	411

## Appendix 11

### Federal Justice Statistics Methodology and definitions of terms

Note: The following was excerpted from U.S. Department of Justice, Bureau of Justice Statistics, *Federal Criminal Case Processing, 1982-91, With Preliminary Data for 1992*, NCJ-144526 (Washington, DC: USGPO, 1993), pp. 19-30; and *Compendium of Federal Justice Statistics, 1990*, NCJ-143499 (Washington, DC: U.S. Department of Justice, 1993), pp. 57, 58, 103-109. Non-substantive editorial adaptations have been made.

#### Methodology

The data are derived from the Bureau of Justice Statistics (BJS) Federal Justice Statistics database. The database is constructed from source files provided by the Executive Office for U.S. Attorneys, the Administrative Office of the United States Courts (AO), the Pretrial Services Agency, United States Sentencing Commission, and the Federal Bureau of Prisons.

Records in the Federal Justice Statistics database are matched according to a statistically weighted combination of names, other personal identifiers, dates of court appearances, types of offenses, and other relevant information contained in the files. Using the matched data files, it is possible to combine information about two or more stages of the processing of a criminal matter or case, from the prosecutor's decision of whether to file a criminal case, through adjudication, and, if the defendant is convicted, through prison and/or supervised release.

The unit of analysis is a combination of a person (or corporation) and a matter or case. For example, if a single person is involved in three different criminal cases during the time period specified in the table, he or she is counted three times in the tabulation. Similarly, if a single criminal case involves a corporate defendant and four individual defendants, it is counted five times in the tabulation.

The offense classifications in the tables are based on the classification system used by the AO. Specific offenses in the AO classification are combined to form the BJS categories in the tables. These categories are designed to be as consistent as possible with BJS publications on State criminal justice systems. Offense categories for the average time served until first release data are based on offense designations by the Bureau of

Prisons. They are similar to the BJS categories but may not be directly comparable.

Where more than one offense is charged or adjudicated, the most serious offense, the one that may or did result in the most severe sentence, is used in the classification. The offense description may change as a case goes through the criminal justice process. Tables indicate whether charged or adjudicated offenses are used.

Data describing the number and rate of prosecutions and the results of magistrate proceedings include only those cases handled by U.S. attorneys. Suspects are classified according to the most serious offense investigated. Data describing prosecutions by other agencies, including the Criminal Division of the U.S. Department of Justice, were not available. Data in all the remaining tables describe the processing of defendants in all court cases, regardless of the prosecuting agency.

In 1991, the Department of Justice provided U.S. attorneys with lists of cases shown in the data as having remained inactive for long periods of time, and directed that resolutions be reported to the Docket and Reporting system, if possible. As a result, many cases which had been shown as pending were reported to be declined for prosecution, or were shown as resolved by U.S. magistrates. Statistics for 1991 were substantially affected by these recordkeeping activities.

The availability of particular items of information is affected by the data source. Data on prosecutors' decisions prior to court filing are provided for cases investigated by U.S. attorneys, but not for those handled by the Criminal Division of the U.S. Department of Justice. Criminal Division cases enter the data base once they are filed in U.S. District Court, however. Many items of social and demographic information come from presentence investigation records or supervision records, and are available only for arrested defendants who were convicted and/or began serving a sentence involving supervised release. (This particularly affects sex, race, ethnicity, education, and occupational information.)

Sentencing figures differ from statistics published by the Administrative Office of the United States Courts for the average "regular" sentence imposed. "Regular" sentences exclude two categories of offenders included in the BJS calculations: offenders receiving a "split" sentence (5 days through 6 months followed by probation) and offenders sentenced under 18 USC 4205(b)(1) and (b)(2) (where a maximum term is set accompanied by no or a small minimum).

Tables concerning prisoners include only prisoners committed by U.S. District Courts

for violations of the U.S. Code. Other prisoners, such as probation and parole violators, and other types of offenses, such as military, District of Columbia, or State offenses, are excluded. Unlike BJS publications concerning State prisoners, which exclude prisoners serving sentences under 1 year, tables 5.25 and 6.92 include Federal prisoners who received sentences of any length.

Time served in prison is the number of months from the prisoner's arrival into custody of the Bureau of Prisons until first release from prison, plus any jail time served and credited. The calculation is the same as that currently used by the Bureau of Prisons. Because other publications may include different groups of prisoners, calculate time served differently, or use a different offense classification, these data may differ from estimates of time served in previous publications by the Bureau of Prisons or in publications based on other data sources.

These data are constructed to permit the user to make valid comparisons of numbers within each table and to compare percentage rates across tables. The total numbers of subjects that are based on records linked between two files are generally less than the total number of records in either source file. Accordingly, comparisons of absolute numbers across two or more tables, or between these data and other data sources, are not necessarily valid.

#### Definitions of terms

Definitions of offense categories describe all offenses included in each category.

**Agriculture violation**--violation of the Federal statutes on agriculture and conservation, for example, violations of the Agricultural Acts, Federal Seed Act, Game Conservation Acts, Insecticide Act, and the Packers and Stockyards Act; also violation of laws concerning plant quarantine and the handling of animals pertaining to research (title 7 U.S.C. except sections on food stamps; title 16 U.S.C.).

**Antitrust**--violation of Federal antitrust statutes.

**Arson**--willfully or maliciously setting, or attempting to set, fire to any property within the special maritime and territorial jurisdiction of the United States.

**Assault**--intentionally inflicting, attempting or threatening to inflict bodily injury to anyone within the special maritime and territorial jurisdiction of the United States or to any Government official, foreign official, official guest, internationally protected person, or any officer or employee of the United States designated in section 18 U.S.C. 1114; also certain violations of the Fair Housing Law.

**Bail**--the sum of money promised as a condition of release, to be paid if a released defendant defaults.

**Bribery**--offering or promising anything of value with intent to unlawfully influence a public official, bank employee, officer or employee of the U.S. Government, witness, or any common carrier as well as soliciting or accepting such an offer. Soliciting or receiving anything of value in consideration of aiding a person to obtain employment in the U.S. Government. Receiving or soliciting any remuneration, directly or indirectly, in cash or any kind in return for purchasing, ordering, leasing, or recommending to purchase any good, service, facility, or item for which payment may be made through Medical Assistance Programs. Bribing in sporting contests is also illegal.

**Burglary**--breaking and entering into another's property with intent to steal within the special maritime and territorial jurisdiction of the United States; also including breaking and entering into any official bank, credit union, savings and loan institution, post office, vessel or steamboat assigned to the use of mail service, or personal property of the United States or breaking the seal or lock of any carrier facility containing inter-State or foreign shipments of freight or express.

**Collateral Bond**--an agreement made by a defendant as a condition of his or her pretrial release that requires the defendant to post property valued at the full bail amount as an assurance of his or her intention to appear at trial.

**Conspiracy**--an agreement by two or more persons to commit or to effect the commission of an unlawful act or to use unlawful means to accomplish an act that is not in itself unlawful; also any overt act in furtherance of the agreement. A person charged with conspiracy in a Federal court case is classified under the substantive offense alleged.

**Counterfeiting**--falsely making, forging, or altering any obligation or security of the United States, foreign obligation or security, coin or bar stamped at any mint in the United States, money order issued by the Postal Service, domestic or foreign stamp, or seal of any department or agency of the United States. Passing, selling, attempting to pass or sell, or bringing into the United States any of the above falsely made articles. Making, selling, or possessing any plates or stones used for printing counterfeit obligations or securities of the United States, foreign obligations or securities, Government transportation requisites, or postal stamps.

**Deposit bond**--an agreement made by a defendant as a condition of his or her release that requires the defendant to post a fraction of the bail before he or she is released.

**Detention**--the legally authorized confinement of persons after arrest, whether before or during prosecution. Only those persons held 2 or more days are classified as detained.

**Drug offenses**--possessing or trafficking in (distributing, importing, or manufacturing) controlled substances. Also furnishing of fraudulent or false information concerning prescriptions as well as any other unspecified drug-related offense.

**Embezzlement**--fraudulently misapplying property by a person to whom such property has been entrusted or into whose hands it has lawfully come where offense is committed by bank officers or employees; officers or employees of the Postal Service; officers of lending, credit, or insurance institutions; any officer or employee of a corporation or association engaged in commerce as a common carrier; court officers of the U.S. courts; or officers or employees of the United States. Embezzling, stealing, or knowingly converting to one's own use or the use of another or without authority selling, conveying, or disposing of any money, property, records, or thing of value to the United States or any department thereof.

**Escape**--departing or attempting to depart from the custody of a correctional institution; a judicial, correctional, or law enforcement officer; or a hospital where one is committed for drug abuse and drug dependency problems. Knowingly advising, aiding, assisting, or procuring the escape or attempted escape of any person from a correctional facility, an officer, or the above-mentioned hospital as well as concealing an escapee. Forcibly rescuing any person in an attempt to prevent execution or forcibly removing or attempting to remove the dead body of any executed offender in order to prevent an autopsy. Aiding or enticing any person belonging to the Armed Forces of a belligerent nation or faction, who is interned in the United States in accordance with the law of nations, to escape or attempt to escape. Providing or attempting to provide to an inmate in prison a prohibited object or making, possessing, obtaining, or attempting to make or obtain a prohibited object (as defined in section 1791C of title 18). Instigating, assisting, attempting to cause, or causing any mutiny or riot at any Federal penal, detention, or correctional facility or conveying into any of these institutions any dangerous instrumentalities.

**Failure to appear**--willful absence from any court appointment.

**Felony**--a criminal offense punishable by death or imprisonment for a term exceeding 1 year.

**Financial conditions**--monetary conditions upon which release of a defendant before trial is contingent. Includes deposit bond, surety bond, and collateral bond (see individual definitions).

**Food and drug violations**--violations of the Federal Food and Drug Act.

**Forgery**--falsely and with intent to defraud, making, counterfeiting, altering, or possessing with intent to pass off as genuine any U.S. Postal Service money order; post-

marking stamp or impression; obligation or security of the United States; foreign obligation, security, or bank note; contractors' bond, bid, or public record; seal of a court or any department or agency of the U.S. Government; the signature of a judge or court officer; ships' papers; documents on entry of vessels; deed; power of attorney; customs matters; bond of distilleries; military or naval discharge certificate; coin or bar; and so forth. Also making, possessing, selling, or printing plates or stones for counterfeiting obligations or securities and receiving, possessing, concealing, selling, or disposing of any falsely made securities, tax stamps, or pledges that have crossed a State or the U.S. boundary after being stolen or unlawfully converted.

**Fraud**--unlawfully depriving a person of his or her property or legal rights through intentional misrepresentation of fact or deceit other than forgery or counterfeiting. Includes violations of statutes pertaining to lending and credit institutions, the Postal Service, inter-State wire, radio, television, veterans benefits, allotments, bankruptcy, marketing agreements, commodity credit, the Securities and Exchange Commission, railroad retirement, unemployment, Social Security, false personation, citizenship, passports, conspiracy, and claims and statements, excluding tax fraud. The category excludes fraud involving tax violations that are shown in a separate category under "Public-order, other offenses."

**Gambling**--transporting, manufacturing, selling, possessing, or using any gambling device in the District of Columbia or any possession of the United States or within Indian country or the special maritime and territorial jurisdiction of the United States. Also transporting gambling devices in the jurisdiction of the United States, except under authority of the Federal Trade Commission or any State that has a law providing for their exemption from these provisions, transmitting wagering information in inter-State or foreign commerce, inter-State transporting of wagering paraphernalia, importing or transporting lottery tickets, or mailing lottery tickets or related matter. An employee of the Postal Service acting as a lottery agent is considered guilty of this offense.

**Hispanic**--ethnic category based on classification by reporting agency. Hispanic persons may be of any race.

**Immigration offenses**--offenses involving illegal entrance into the United States, illegally reentering after being deported, willfully failing to deport when so ordered, or willfully remaining beyond days allowed on conditional permit. Falsely representing oneself to be a citizen of the United States or counterfeiting any visa, permit, or other document to enter the United States as well as violating any of the provisions for travel of citizens or aliens during war or national emergency. Also bringing in or harboring any

aliens not duly admitted by an immigration officer.

**Incarceration**--any sentence of confinement, including prison, jail, and other residential placements.

**Kidnaping**--unlawfully seizing any person, within the special maritime and territorial jurisdiction of the United States, for ransom or reward, except in the case of a minor by a parent. Also receiving, possessing, or disposing of any money or other property that has been delivered as ransom or reward in connection with a kidnaping as well as conspiring to kidnap. This offense includes kidnaping or attempting to kidnap any Government official, the President of the United States, the President-elect, the Vice President, any foreign official, any official guest, or any internationally protected person.

**Labor law violations**--violations of the Fair Labor Standards Act, the Taft-Hartley Act (labor-management relations), the Byrnes Act (transportation of strikebreakers), laws regarding the 8-hour day on public works, and peonage laws.

**Larceny**--taking and carrying away with intent to steal any personal property of another, within the special maritime and territorial jurisdiction of the United States. Stealing, possessing, converting to one's own use, or illegally selling or disposing of anything of value to the United States or any of its departments or agencies or any property made or being made under contract for the United States or any of its departments or agencies. Stealing anything of value (in excess of \$100) from a bank, the Postal Service, or any inter-State or Foreign shipments by carrier. Receiving or possessing stolen property or pirate property. Stealing or obtaining by fraud any funds, assets, or property that are the subject of a grant, contract, or other form of assistance, whether received directly or indirectly, from the Law Enforcement Assistance Administration or that belong to or are entrusted to the custody of an Indian tribal organization. This offense category excludes the transportation of stolen property.

**Liquor violations**--violations of Internal Revenue Service laws on liquor as well as violations of liquor laws not cited under these laws, such as smuggling goods into the United States; dispensing or unlawfully possessing intoxicants in Indian country; transporting intoxicating liquors into any State, territory, district, or possession where sale is prohibited; shipping packages containing unmarked and unlabeled intoxicants; failing to declare liquor at customs; shipping liquor by C.O.D.; knowingly delivering a liquor shipment to someone other than to whom it has been consigned; and violating in any way the Federal Alcohol Administration Act.

**Mailing or transportation of obscene materials**--knowingly using the mail for mailing obscene or crime-inciting matter. Also transporting for sale or distribution, importing,

or transporting any obscene matter in inter-State or foreign commerce.

**Migratory birds offenses**--taking, killing, or possessing migratory birds, or any part, nest, or egg thereof, in violation of Federal regulations or the transportation laws of the State, territory, or district from which the bird was taken. Misuse or nonuse of a migratory-bird hunting and conservation stamp. Violation of the regulations of Bear River Refuge in Utah and Ouachita National Forest sanctuary and refuge in Arkansas and Oklahoma.

**Misdemeanor**--a criminal offense punishable by a jail term not exceeding 1 year and any offenses specifically defined as a misdemeanor by the Administrative Office of the U.S. Courts for the purposes of data collection. (This category includes offenses previously called minor offenses that were reclassified under the Federal Magistrates Act of 1979.)

**Mixed sentence**--a sentence requiring the convicted offender to serve more than 6 months of incarceration, followed by a term of probation. Unless otherwise noted, offenders receiving mixed sentences are included in both incarceration and probation categories. See also "split sentence."

**Most serious offense**--the offense with the greatest potential penalty. For Federal prisoners, the offense with the longest term of incarceration actually imposed.

**Motor carrier violations**--violations of the Federal statutes concerning the Motor Carrier Act.

**Motor vehicle theft**--inter-State or foreign transporting, receiving, concealing, storing, bartering, selling, or disposing of any stolen motor vehicle or aircraft.

**Murder**--committing or attempting to commit murder (first or second degree) or voluntary manslaughter within the special maritime and territorial jurisdiction of the United States. Killing or attempting to kill any Government official, the President of the United States, the President-elect, the Vice President, any officers and employees of the United States, any foreign officials, any official guests, or any internationally protected persons. As applied to the owner or charterer of any steamboat or vessel, knowingly and willfully causing or allowing fraud, neglect, misconduct, or violation of any law resulting in loss of life.

**National defense violations**--violations of the national defense laws on the Selective Service Acts, the Defense Production Act, the Economic Stabilization Act of 1970 (which includes prices, rents, and wages), the Subversive Activities Control Act, alien registration, treason (including espionage, sabotage, sedition, and the Smith Act), curfew and restricted areas, exportation of war materials, trading with an enemy, use of uniform, and any other violations of the Federal statutes concerning national defense.

**Negligent manslaughter**--causing the death of another, within the special maritime and territorial jurisdiction of the United States by wanton or reckless disregard for human life. Also negligent manslaughter of any Government official, the President of the United States, the President-elect, the Vice President, any officers and employees of the United States, any foreign officials, and official guests, or any internationally protected persons. This offense category also includes misconduct, negligence, or inattention to duties by ship officers on a steamboat or vessel resulting in death to any person.

**Offense**--violation of U.S. criminal law. Where more than one offense is charged, the offense with the greatest potential penalty is reported.

**Other property offenses**--offenses that involve the destruction of property moving in inter-State or foreign commerce in the possession of a common or contract carrier. The malicious destruction of Government property, or injury to U.S. postal property such as mailboxes or mailbags. Trespassing on timber and Government lands is also included in this category of offenses.

**Other public-order offenses**--violations of laws pertaining to abortion; bigamy; disorderly conduct on the U.S. Capitol grounds; civil disorder; hunting, trapping, or fishing on Indian lands or military areas and zones; and obscene or harassing telephone calls. Included in "public-order, non-regulatory offenses."

**Other regulatory offenses**--violations of civil rights, election laws, the Communication Act (including wire tapping and wire interception), contempt, laws regarding congressional contempt, custom laws (except narcotics and liquor), importation of injurious animals and birds, inter-State commerce (the Connally Act, Hot Oil Act, transportation or importation of prison-made goods, and the Railroad and Transportation Act), maritime and shipping laws, laws regarding stowaways, the Federal Boat Safety Act of 1971, the Federal Water Pollution Control Act, U.S. postal laws (excluding injury to postal property), intimidation of witness laws, aircraft regulations, explosives (except in vessels), the Gold Acts, train wrecking, hazardous waste, and any other regulatory offenses not listed above.

**Other sex offenses**--transporting, coercing, or enticing any women to go from one place to another in inter-State or foreign commerce, in the District of Columbia, or in any territory or possession of the United States with the intent and purpose to engage in prostitution, debauchery, or any other immoral purpose. Importing, maintaining, or harboring any women for purposes of prostitution or debauchery or for any other immoral purpose. These offenses may be either violent or nonviolent.

**Perjury**--knowingly or willfully giving false evidence or swearing to false statements under oath or by any means procuring

or instigating any person to commit perjury. Making any false material declarations under oath in any proceeding before or ancillary to any court or grand jury of the United States. This offense also includes any officers and employees of the Government listed under 13 U.S.C. 21-25 who willfully or knowingly furnish or cause to be furnished any false information or statement.

**Personal recognizance**--pretrial release condition in which the defendant promises to appear at trial and no financial conditions are required to be met.

**Possession**--acquiring a controlled substance by misrepresentation or fraud, attempting or conspiring to possess, or simple possession of a controlled substance in schedules I-V (as defined by 21 U.S.C. 812). Also possession of a controlled substance in schedule I or II or a narcotic drug in schedule III or IV on board a vessel of the United States or vessels within custom waters of the United States or by any citizen of the United States on board a vessel. Possessing any punch, die, plate, stone, or any other thing designed to reproduce the label upon any drug or container is an offense under this category. Distributing a small amount of marijuana for no remuneration is treated as simple possession and, therefore, is included in this offense category.

**Pretrial release**--the release of a defendant from custody, for all or part of the time before or during prosecution. The defendant may be released either on personal recognizance, unsecured bond or on financial conditions. The category includes defendants released within 2 days after arrest and defendants who were initially detained but subsequently released after raising bail or having release conditions changed at a subsequent hearing.

**Property offenses, fraudulent**--property offenses involving the elements of deceit or intentional misrepresentation. Specifically includes embezzlement, fraud (excluding tax fraud), forgery, and counterfeiting.

**Property offenses, non-fraudulent**--violent offenses against property: burglary, larceny, motor vehicle theft, arson, transportation of stolen property, and other property offenses (destruction of property and trespassing). These offenses are termed "non-fraudulent" only for the purpose of distinguishing them from the category "property offenses, fraudulent," above.

**Public-order, non-regulatory offenses**--offenses concerning weapons; immigration; tax law violations (tax fraud); bribery; perjury; national defense; escape; racketeering and extortion; gambling; liquor; mailing or transporting of obscene materials; traffic; migratory birds; conspiracy, aiding and abetting, and jurisdictional offenses; and "other public-order offenses." These offenses are termed "non-regulatory" only for the purpose of distinguishing them from the

category "public-order, regulatory offenses," below.

**Public-order, regulatory offenses**--violations of regulatory laws and regulations in agriculture, antitrust, labor law, food and drug, motor carrier, and other regulatory offenses that are not specifically listed in the category "public-order, non-regulatory offenses" above.

**Racketeering and extortion**--using inter-State or foreign commerce or any facility in inter-State or foreign commerce to aid racketeering enterprises such as arson, bribery, gambling, liquor, narcotics, prostitution, and extortionate credit transactions. For officers or employees of the United States, or anyone representing himself or herself as such, obtaining property or money from another, with his or her consent induced by actual or threatened force, violence, blackmail, or unlawful interference with employment or business. Transmitting by inter-State commerce or through the mail any threat to injure the property, the person, or the reputation of the addressee or of another or to kidnap any person with intent to extort.

**Rape**--rape, assault with intent to commit rape, and carnal knowledge of a female under 16 who is not one's wife, within the territorial and special maritime jurisdictions of the United States.

**Robbery**--taking anything of value from the person or presence of another by force or by intimidation, within the special maritime and territorial jurisdiction of the United States. Also robbery of bank property, U.S. postal property, or personal property of the United States. Also assaulting or putting the life of any person in jeopardy by the use of a dangerous weapon while committing or attempting to commit such robbery.

**Sentence**--sanction imposed on a convicted offender. For sentences to incarceration, the maximum time the offender may be held in custody is reported.

**Split sentence**--a sentence requiring the convicted person to serve a period of confinement of 6 months or less, followed by a period of probation. Unless otherwise noted, convicted offenders receiving split sentences are included in both the incarceration and probation categories (see also "mixed sentence").

**Surety bond**--an agreement by the defendant as a condition of his or her release that requires a third party (usually a bail bondsman) to promise to pay the full bail amount in the event that the defendant fails to appear.

**Suspect**--a person who is under investigation or interrogation as a likely perpetrator of a specific criminal offense.

**Tax law violations**--tax fraud offenses such as income tax fraud; evading or defeating tax; willful failure to file; fraudulently withholding an exemption certificate or failing to supply information; counterfeiting any stamps with intent to defraud the collection or

payment of tax; willful failure to collect or pay tax; putting fraudulent or false statements on tax returns; failure to obey summons to produce any papers concerning taxes; preparers of returns disclosing or using any information for any purpose other than to assist in preparing returns; failing to furnish receipts for employees of tax withheld; failing to furnish information relating to certain trusts, annuity, and bond purchase plans; and not obtaining a license for a business that makes a profit from foreign items. Also included in this offense category are violations of excise and wagering tax laws and other laws from the Internal Revenue Service title.

**Technical violation**--failure to comply with any of the conditions of pretrial release, probation, or parole, excluding alleged new criminal activity. May result in revocation of release status. Examples of conditions that may be imposed and then violated include remaining within a specified jurisdiction, or appearing at specified intervals for drug tests.

**Threats against the President**--knowingly and willfully depositing in the mail, at any post office, or by any letter carrier a letter, paper, writing, print, missive, or document containing any threat to take the life of or to inflict bodily harm upon the President, Vice President, or any other officer in order of succession to the Presidency. Knowingly and willfully making such threats in any way to the above-named people.

**Traffic offenses**--driving while intoxicated or any moving or parking violations on Federal lands.

**Trafficking**--importing any controlled substance in schedule I, II, III, IV, or V (as defined by 21 U.S.C. 812). Manufacturing, distributing, selling, or possessing with intent to manufacture, distribute, or sell a controlled substance or a counterfeit substance. Exporting any controlled substance in schedules I-V. Manufacturing or distributing a controlled substance in schedule I or II for purposes of unlawful importation. Making or distributing any punch, die, plate, stone, or any other thing designed to reproduce the label upon any drug or container or removing or obliterating the label or symbol of any drug or container. Obtaining a prescription of a controlled substance in schedule III or IV without a written or oral prescription. Distributing for reasons other than medical a controlled substance in schedule V. Illegally crossing the border if the individual is addicted to or using drugs or has been convicted of any violation of narcotics or marijuana laws.

**Transportation of stolen property**--transporting, selling, or receiving stolen goods, stolen securities, stolen moneys, stolen cattle, fraudulent State tax stamps, or articles used in counterfeiting if the above articles or goods involve or constitute inter-State or foreign commerce.

**U.S. attorneys**--all United States attorneys. Prosecutorial data come from the

Docket and Reporting System of the Executive Office for U.S. Attorneys.

**Unsecured bond**--an agreement by the defendant as a condition of his or her release in which the defendant agrees to pay full bond amount in the event of nonappearance at trial, but is not required to post security as a condition to release.

**Violation** (of pretrial release, probation, or parole)--allegation of either a new crime or a technical violation while on pretrial release, probation, or parole.

**Violent offenses**--threatening, attempting, or actually using physical force against a person. Includes murder, negligent manslaughter, assault, robbery, rape, other sex offenses (some of which may be nonviolent), kidnaping, and threats against the President. (See specific offenses.)

**Weapons violations**--violations of any of the provisions of sections 922 and 923 of title 18 concerning the manufacturing, importing, possessing, receiving, and licensing of firearms and ammunition. Manufacturing, selling, possessing, or transporting (within any territory or possession of the United States, within Indian country, or within the special maritime and territorial jurisdiction of the United States) any switchblade knife. Engaging in importing, manufacturing, or dealing in firearms if not registered with the secretary in the Internal Revenue Service District in which the business is conducted or not having paid a special occupational tax. Carrying on the U.S. Capitol grounds or within U.S. Capitol buildings any firearm, dangerous weapon, explosive, or incendiary device.

## Appendix 12

### **National Judicial Reporting Program, 1990** Survey sampling procedures and definitions of terms

Note: The following information has been excerpted from the U.S. Department of Justice, Bureau of Justice Statistics, *National Judicial Reporting Program, 1990* (Washington, DC: U.S. Department of Justice, 1993), pp. 2, 3. Non-substantive editorial adaptations have been made.

#### **Survey sampling procedures**

A sample of 300 counties was drawn for the 1990 National Judicial Reporting Program (NJRP) survey. Every county in the Nation had a nonzero probability of being in the sample. In general, the more felony cases a county had, the more likely it was to be in the sample.

The survey used a two-stage, stratified cluster sampling design. In the first stage the Nation's 3,109 counties or county equivalents were divided into 8 strata. Strata 1 and 2 consisted solely of the 75 largest counties in the United States as defined by the 1985 resident population. Strata 3 through 8 consisted of the remaining 3,034 counties.

Because the 75 largest counties account for a disproportionately large amount of serious crime in the Nation, they were given a greater chance of being selected than the remaining counties.

Stratum 1 consisted of both the 19 counties with the largest number of felony convictions in 1985, and 12 counties whose participation in the survey had been prearranged. Every county in stratum 1 was selected for the sample.

Stratum 2 consisted of the 44 most populous counties that were not in stratum 1. The 44 were ordered by their number of felony convictions in 1985, and then approximately every other county was selected. Stratum 2 thus contributed 23 counties to the sample. Altogether, 54 out of the 75 largest counties were sampled. Data on 1985 felony convictions were obtained from a mail survey described in *State Felony Courts and Felony Laws* (NCJ-106273) and *Census of State Felony Courts, 1985* (codebook for ICPSR 8667). The 54 sampled counties in the 1990 NJRP survey were the same 54 as in the 1986 survey.

The 3,034 counties not among the 75 largest were placed into 6 strata defined by the total number of felony convictions in 1985 and then arrayed within stratum by region, and within region from largest to smallest on felony conviction totals.

The final sample thus included 246 counties from among the 3,034 counties outside the 75 largest. Case-level data were successfully obtained on convicted felons sentenced in 1990 from all 300 sampled counties.

The 31 sampled counties in stratum 1 and the 29 counties in stratum 3 were self-representing only, and their sampled cases therefore had a first-stage sampling weight of 1. The remaining 240 counties sampled from strata 2 and 4 through 8 were selected to represent their respective stratum so that the felony conviction cases sampled had first-stage weights greater than 1.

At the second stage of sampling, a systematic sample of felons sentenced for murder/nonnegligent manslaughter, rape, robbery, aggravated assault, burglary, felony larceny/motor vehicle theft, drug trafficking, and other offenses was selected from each county's official records. The total sample numbered 106,237 cases. Of these, 71,004 cases were in the 75 largest counties.

Rates at which cases were sampled varied by stratum and crime type. In smaller counties every felony case was selected. In larger counties all murder cases and rape cases were typically included, but other offense categories were sampled.

The survey targeted and recorded initial sentences imposed in 1990. If a sentence was imposed on one date and then modified at a later date, the revision was ignored. The survey recorded sentences that were actually executed, not suspended sentences.

Because the year of conviction was not a defining characteristic, some cases in the sample were of persons convicted before 1990 but not sentenced until 1990.

In a few counties, where it was impractical to target sentences in 1990, the target was felons convicted in 1990. In some of the cases the data relate to sentences imposed after 1990.

#### **Sources of data**

For 71 percent of the 300 counties sampled, NJRP data were obtained directly from the State courts. Other sources included prosecutor offices, and courts and prosecutor offices combined. Individual-level NJRP records were obtained through a variety of collection methods, including magnetic tape (44 percent of the counties) and field collec-

tion (20 percent). Data on other cases were obtained from printouts and other documents, and manually completed forms.

Data collection for 233 counties was performed by the U.S. Bureau of the Census and for 67 counties by the National Association of Criminal Justice Planners.

#### **Sampling error**

NJRP data were obtained from a sample and not from a complete enumeration. Consequently they are subject to sampling error. A standard error, which is a measure of sampling error, is associated with each number reported. In general, if the difference between two numbers is at least twice the standard error of that difference, there is at least 95 percent confidence that the two numbers do in fact differ; that is, the apparent difference is not simply the result of surveying a sample rather than the entire population.

National estimates of the number of convictions for individual crime categories and for the aggregate total had a coefficient of variation of 3 percent.

#### **Missing data**

Computations of statistics excluded sample cases that were missing data for the particular variables being tabulated. An exception was table 5.57, which is based on computations that redistributed cases with missing data according to the distribution of the known cases.

#### **Crime definitions**

Before the sample was drawn, 11 crime categories, excluding "other violent," were defined. State penal codes, restricted to those defined as felonies and most closely conforming to each of the 11 definitions, were identified. Convicted felons were placed into appropriate categories based on their penal code citations. At the data analysis stage, cases were aggregated according to their offense designation at time of sampling, with the single exception of "other violent." "Other violent" is a category shown in the tables, but it was not a category at sampling. The "other violent" category was formed from the sampling category "other felonies." That is, after sampling, sampled cases designated "other felonies" were coded either "violent," "nonviolent," or "not ascertained," based on data available. Cases coded "not ascertained" were rare. For data analysis purposes, cases coded "other violent" were removed from the "other felonies" category and shown separately in the tables. The 11 original offense categories, and "other violent" are defined as follows:

**Murder and nonnegligent manslaughter**--Murder is (1) intentionally causing the death of another person without extreme provocation or legal justification or (2) causing the death of another while committing or attempting to commit another crime. Nonnegligent (or voluntary) manslaughter is intentionally and without legal justification causing the death of another when acting under extreme provocation. The combined category of murder and nonnegligent manslaughter excludes involuntary or negligent manslaughter, conspiracies to commit murder, solicitation of murder, and attempted murder.

**Rape**--Forcible intercourse (vaginal, anal, or oral) with a female or male. Includes forcible sodomy or penetration with a foreign object (both of which are sometimes called "deviate sexual assault"); excludes statutory rape or any other nonforcible sexual acts with a minor or with someone unable to give legal or factual consent. Includes attempts.

**Robbery**--The unlawful taking of property that is in the immediate possession of another, by force or the threat of force. Includes forcible purse snatching but excludes nonforcible purse snatching, which is classified as larceny/theft. Includes attempts.

**Aggravated assault**--(1) Intentionally and without legal justification causing serious bodily injury, with or without a deadly weapon or (2) using a deadly or dangerous weapon to threaten, attempt, or cause bodily injury, regardless of the degree of injury if any. Includes "attempted murder," "aggravated battery," "felonious assault," and "assault with a deadly weapon."

**Other violent**--Violent offenses excluding murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Includes offenses such as sexual assault, kidnaping, extortion, and negligent manslaughter. Includes attempts.

**Burglary**--The unlawful entry of a fixed structure used for regular residence, industry, or business, with or without the use of force, to commit a felony or theft. Includes attempts.

**Larceny and motor vehicle theft**--Larceny is the unlawful taking of property other than a motor vehicle from the possession of another, by stealth, without force or deceit. Includes pocket picking, nonforcible purse snatching, shoplifting, and thefts from motor vehicles. Excludes receiving and/or reselling stolen property (fencing) and thefts through fraud or deceit. Includes attempts. Motor vehicle theft is the unlawful taking of a self-propelled road vehicle owned by another. Includes the theft of automobiles, trucks, and motorcycles but not the theft of boats, aircraft, or farm equipment (which is classified as larceny/theft). Also includes receiving, possessing, stripping, transporting, and reselling stolen vehicles and unauthorized use of a vehicle (joyriding). Includes attempts.

**Fraud, forgery, and embezzlement**--Using deceit or intentional misrepresentation

to unlawfully deprive a person of his or her property or legal rights. Includes offenses such as check fraud, confidence games, counterfeiting, and credit card fraud. Includes attempts.

**Drug trafficking**--Includes manufacturing, distributing, selling, smuggling, or "possession with intent to sell." Includes attempts.

**Drug possession**--Includes possession of an illegal drug, but excludes "possession with intent to sell." Includes attempts.

**Weapons offenses**--The unlawful sale, distribution, manufacture, alteration, transportation, possession, or use of a deadly or dangerous weapon or accessory.

**Other felonies**--All felony offenses not listed above. Includes receiving stolen property, driving while intoxicated or other traffic offenses, bribery, obstructing justice, escaping from custody, family offenses (such as child neglect, contributing to the delinquency of a minor, nonpayment of child support), and nonviolent sexual offenses (such as statutory rape, incest, pornography offenses, pimping, prostitution). Includes attempts.

## Appendix 13

### National Pretrial Reporting Program, 1990

Survey methodology, definitions of terms, and crimes within offense categories

Note: The following information has been excerpted from U.S. Department of Justice, Bureau of Justice Statistics, *Felony Defendants in Large Urban Counties, 1990*, NCJ-141872 (Washington, DC: U.S. Department of Justice, 1993), pp. 21, 22; and *Pretrial Release of Felony Defendants, 1990*, Bulletin NCJ-139560 (Washington, DC: U.S. Department of Justice, November 1992), pp. 13, 14. Non-substantive editorial adaptations have been made.

### Methodology

The National Pretrial Reporting Program (NPRP) conducted its second survey from May 1990 to May 1991. These data describe the criminal justice process from arrest to case disposition. NPRP used a sample of cases designed to represent the Nation's 75 most populous counties (by 1990 estimates). In 1990, the 75 largest counties accounted for about 37 percent of the Nation's population and nearly 50 percent of all crimes reported to law enforcement agencies.

The sample was designed and selected by the U.S. Bureau of the Census. It is a two-stage stratified sample with 40 of the 75 most populous counties selected at the first stage (one county had to be dropped from the sample at which point no site could be substituted for it), and a systematic sample of felony filings (defendants) within each county selected at the second stage.

The 40 counties were divided into 4 first-stage strata, based on court filing information obtained through a telephone survey. Fourteen counties were included in the sample with certainty because of their large number of court filings. The remaining 26 counties were allocated to the 3 non-certainty strata based on the variance of felony court dispositions.

The second-stage sampling (filings) was designed to represent all defendants who had felony cases filed with the court during the month of May 1990. The participating jurisdictions included every defendant who had a felony case filed on selected days during that month. The number of days selected depended on the stage-one stratum in which the county had been placed. Each jurisdiction was provided with 5, 10, 15, or 31 days in May 1990 from which to sample all defend-

ants who had felony charges filed. Jurisdictions that did not select a full month of filings were weighted to represent the full month.

Data on 13,597 sample felony cases were collected from the 39 sampled jurisdictions. This sample represented more than 56,807 weighted cases filed during the month of May 1990 in the 75 most populous counties. Cases that, because of incomplete information, could not be classified into one of the four major crime categories (violent, property, drug, public-order) were omitted from the analysis. This reduced the weighted total to 56,618 cases. The data collection effort was supervised by the Pretrial Services Resource Center in Washington, D.C.

Data were collected from the following participating counties: Arizona (Maricopa); California (Los Angeles, Orange, Sacramento, San Bernardino, San Diego, Santa Clara); District of Columbia; Florida (Broward, Dade, Duval, Hillsborough, Palm Beach, Pinellas); Georgia (Fulton); Hawaii (Honolulu); Illinois (Cook); Massachusetts (Essex, Suffolk); Michigan (Wayne); Missouri (St. Louis); New Jersey (Essex); New York (Bronx, Erie, Kings, Monroe, New York, Queens); Ohio (Hamilton); Pennsylvania (Allegheny, Montgomery, Philadelphia); Tennessee (Shelby); Texas (Dallas, Harris, Tarrant); Utah (Salt Lake); Virginia (Fairfax); and Washington (King).

### Definitions of terms

Terms relating to pretrial release

**Released defendant**--Any defendant who was released from custody prior to the disposition of his or her case by the court. Includes defendants who were detained for some period of time before being released and defendants who were returned to custody after being released because of a violation of the conditions of pretrial release.

**Detained defendant**--Any defendant who remained in custody from the time of arrest until the disposition of his or her case by the court. Includes defendants whose cases were disposed of in such a short time that they had no opportunity for pretrial release. Detained defendants are also referred to as "not released."

**Failure to appear**--When a court issues a bench warrant for a defendant's arrest because he or she has missed a scheduled court appearance.

Type of financial release

**Full cash bond**--The defendant posts the full bail amount in cash with the court. If the defendant makes all court appearances, the cash is returned to him or her. If the defendant fails to appear in court, the bond is forfeited.

**Deposit bond**--The defendant deposits a percentage (usually 10 percent) of the full bail amount with the court. The full amount of the bail is required if the defendant fails to appear in court. The percentage bail is returned after the disposition of the case, but the court often retains a small portion for administrative costs.

**Surety bond**--A third party, usually a bail bondsman, signs a promissory note to the court for the full bail amount and charges the defendant a fee for the service (usually 10 percent of the full bail amount). If the defendant fails to appear, the bondsman must pay the court the full bail amount. Frequently the bondsman requires the defendant to post collateral in addition to the fee.

Type of nonfinancial release

**Unsecured bond**--The defendant pays no money to the court but is liable for the full amount of bail should he or she fail to appear in court.

**Release on recognizance**--The court releases the defendant on the promise that he or she will appear in court as required.

**Citation release**--Arrestees are released pending their first court appearance on a written order issued by law enforcement personnel. In the *Pretrial Release of Felony Defendants, 1990* data, citation release is included in the recognizance release category.

**Conditional release**--Defendants are released under conditions which are supervised by a pretrial services agency. This type of release is also known as supervised release.

Other type of release

**Emergency release**--Defendants are released solely in response to a court order placing limits on a jail's population.

### Offense categories

Felony offenses were classified into 12 categories. These categories were further divided into the four major crime categories of violent offenses, property offenses, drug offenses, and public-order offenses. The following listings contain a representative summary of most of the crimes contained in each category; however, these lists are not meant to be exhaustive. All offenses, except murder, include attempts and conspiracies to commit.

Violent offenses

**Murder**--Includes homicide, nonnegligent manslaughter, and voluntary homicide. Does not include attempted murder (which is classified as felony assault), negligent homi-

cide, involuntary homicide, and vehicular manslaughter (which are classified as "other violent crime").

**Rape**--Includes forcible intercourse, sodomy, or penetration with a foreign object. Does not include statutory rape or nonforcible acts with a minor or someone unable to give legal consent, nonviolent sexual offenses, and commercialized sex offenses.

**Robbery**--Includes the unlawful taking of property by force or threat of force.

**Assault**--Includes aggravated assault, aggravated battery, attempted murder, assault with a deadly weapon, felony assault or battery on a law enforcement officer, or other felony assaults. Does not include extortion, coercion, or intimidation.

**Other violent offenses**--Includes vehicular manslaughter, involuntary manslaughter, negligent or reckless homicide, nonviolent or nonforcible sexual assault, kidnaping, unlawful imprisonment, child or spouse abuse, cruelty to child, reckless endangerment, hit and run with bodily injury, intimidation, and extortion.

#### Property offenses

**Burglary**--Includes any type of entry to a residence, industry, or business with or without the use of force with the intent to commit a felony or theft, such as forcible entry and breaking and entering. Does not include possession of burglary tools, trespassing, and unlawful entry where the intent is not known.

**Theft**--Includes grand theft, grand larceny, motor vehicle theft, or any other felony theft. Does not include receiving or dealing stolen property, fraud, forgery, or deceit.

**Other property offenses**--Includes receiving or buying stolen property, forgery, fraud, embezzlement, arson, reckless burning, damage to property, criminal mischief, vandalism, bad checks, counterfeiting, criminal trespassing, possession of burglary tools, and unlawful entry.

#### Drug offenses

**Drug sale/trafficking**--Includes trafficking of controlled substances, sales, distribution, possession with intent to distribute or sell, manufacturing, or smuggling of controlled substances. Does not include possession of controlled substances.

**Other drug offenses**--Includes possession of controlled substances, prescription violations, possession of drug paraphernalia, and other drug law violations.

#### Public-order offenses

**Driving-related**--Includes driving under the influence of drugs or alcohol, driving with a suspended or revoked license, or any other felony in the motor vehicle code.

**Other public-order offenses**--Includes flight/escape, parole or probation violations, prison contraband, habitual offender, obstruction of justice, rioting, libel and slander, weapons offenses, treason, perjury, prostitution/pandering, bribery, and tax law violations.

## Appendix 14

### Juvenile Court Statistics Methodology, definitions of terms, and offenses within categories

This information was excerpted from Howard N. Snyder et al., *Juvenile Court Statistics 1990*, U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention (Washington, DC: USGPO, 1993), pp. 1-4, 101, 103; and National Center for Juvenile Justice, "National Estimates of Juvenile Court Delinquency Cases: 1987-1991" (machine-readable data file), U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention (Pittsburgh, PA: National Center for Juvenile Justice, 1994). Non-substantive editorial adaptations have been made.

#### Methodology

These data are national estimates of juvenile delinquency derived from a nonprobability sample of delinquency cases disposed in 1991 by courts with juvenile jurisdiction. Such courts may also handle other matters, including traffic, child support, adoption, termination of parental rights, abuse, and neglect. However, these data focus on the court's handling of juveniles charged with criminal law violations.

Data collection involves the secondary analysis of data originally compiled by juvenile courts or juvenile justice agencies to meet their own information and reporting needs. As a consequence, the incoming data are not uniform across jurisdictions. In addition, the data are not from a scientifically selected probability sample of courts, but rather from those juvenile systems that routinely collect and willingly disseminate their data. To combine information from various sources, the data were restructured into two standardized data sets: the national case-level data base and the national court-level data base.

Case-level data are generated by courts with automated client tracking/management information systems or automated reporting systems. These data describe in detail the characteristics of each delinquency and status offense case handled by the court. The court-level aggregate statistics were either abstracted from annual reports or supplied on request by local and State agencies. These data describe the number of delinquency and status offense cases handled by a court in a defined time period. National estimates are derived from a sample of 553,243 individual case records from 1,182 jurisdictions in 23

States with jurisdiction over 45 percent of the Nation's youth population at risk, and a sample of compatible court-level aggregate statistics on an additional 155,176 delinquency cases from 322 jurisdictions in an additional 7 States. In all, the national estimates are based on data reported by 1,504 jurisdictions covering 57 percent of the Nation's youth population at risk.

National estimates of the number and characteristics of delinquency and petitioned status offense cases disposed by juvenile courts in 1991 were developed using the national case-level data, the national court-level data, and county-level youth population at risk estimates. The basic assumption underlying each stage of the estimation procedure is that the dynamics that produced the volume and characteristics of juvenile court cases in reporting counties were shared by nonreporting counties of similar size. The weighting procedure developed to generate national estimates of court activity from the nonprobability sample control for many factors, including the size of the community; the demographic composition of a community's youth population; the volume of cases referred to reporting courts; the age, sex, and race characteristics of the youth involved; and the offense characteristics of the cases. Despite these controls and others, no procedure can completely overcome the fundamental threats to validity associated with the use of a nonprobability sample.

The unit of count is a case disposed by a court with juvenile jurisdiction. A case disposed represents a youth processed by a juvenile court on a new referral regardless of the number of charges contained in that referral. A youth charged with four burglaries in a single referral represents a single case, whereas a youth referred to court intake for three burglaries and referred again the following week on another burglary charge represents two cases.

The offense coded was the most serious offense for which the youth was referred to court. Attempts to commit an offense were included under that offense category except attempted murder, which was included in the aggravated assault category.

The term disposed means that a definite action has been taken or that a plan of treatment has been decided upon or initiated. It does not necessarily mean that the case is closed or terminated in the sense that all contact with the youth has ceased.

#### Definitions of terms

**Adjudicated**--Judicially determined (judged) to be a delinquent or status offender.

**Delinquent act/offense**--An act committed by a juvenile for which an adult could be

prosecuted in a criminal court, but when committed by a juvenile is within the jurisdiction of the juvenile court.

**Detention**--The placement of a youth in a restrictive facility between referral to court intake and case disposition.

**Juvenile**--Youth at or below the upper age of juvenile court jurisdiction. See Upper age of court jurisdiction and Youth population at risk.

**Nonpetitioned cases**--Informally handled cases which duly authorized court personnel screen for adjustment prior to the filing of a formal petition. Such personnel include judges, referees, probation officers, other officers of the court, and/or an agency statutorily designated to conduct petition screening for the juvenile court.

**Petitioned cases**--Formally handled cases that appear on the official court calendar in response to the filing of a petition or other legal instrument requesting the court to adjudicate the youth a delinquent, status offender, or a dependent child, or to waive (transfer) the youth to criminal court for processing as an adult.

**Placement out-of-home**--Cases in which youth were placed out of the home in a residential facility housing delinquents or status offenders or were otherwise removed from their home.

**Probation**--Cases in which youth were placed on informal/voluntary or formal/court-ordered probation or supervision.

**Race**--The race of the youth referred as determined by the youth or by court personnel.

**White**--A person having origins in any of the original peoples of Europe, North Africa, or the Middle East. (Nearly all Hispanics were included in the white racial category.)

**Black**--A person having origins in any of the black racial groups of Africa.

**Other**--A person having origins in any of the original peoples of North America, the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands.

**Upper age of court jurisdiction**--The oldest age at which a juvenile court has original jurisdiction over an individual for law-violating behavior. For the time period covered by these data in three States (Connecticut, New York, and North Carolina) the upper age of jurisdiction was 15, in eight States (Georgia, Illinois, Louisiana, Massachusetts, Michigan, Missouri, South Carolina, and Texas) the upper age of jurisdiction was 16, in Wyoming it was 18, and in the remaining 38 States and the District of Columbia the upper age of jurisdiction was 17. It must be noted that within most States there are exceptions to the age criteria that place or permit youth at or below the State's upper age of jurisdiction to be under the original jurisdiction of the adult criminal court. For example, in most States if a youth of a certain age is charged with one of a defined list

of what are commonly labeled "excluded offenses," the case must originate in the adult criminal court. In addition, in a number of States, the district attorney is given the discretion of filing certain cases either in the juvenile or in the criminal court. Therefore, while the upper age of jurisdiction is commonly recognized in all States, there are numerous exceptions to this age criterion.

**Waiver**--Cases that were waived or transferred to criminal court as the result of a waiver or transfer hearing in juvenile court. Excluded are cases that were transferred to criminal court under concurrent jurisdiction provisions.

**Youth population at risk**--For delinquency and status offense matters this is the number of children from age 10 through the upper age of jurisdiction. In all States the upper age of jurisdiction is defined by statute. In most States individuals are considered adults when they reach their 18th birthday. Therefore, for these States, the delinquency and status offense youth population at risk would equal the number of children who are 10 through 17 years of age living within the geographical area serviced by the court.

#### Offenses within categories

**Crimes against persons**--This category includes criminal homicide, forcible rape, robbery, aggravated assault, simple assault, and other person offenses as defined below.

**Criminal homicide**--Causing the death of another person without legal justification or excuse. Criminal homicide is a summary category, not a single codified offense. The term, in law, embraces all homicides where the perpetrator intentionally killed someone without legal justification, or accidentally killed someone as a consequence of reckless or grossly negligent conduct. It includes all conduct encompassed by the terms murder, nonnegligent (voluntary) manslaughter, negligent (involuntary) manslaughter, and vehicular manslaughter. The term is broader than the Crime Index category used in the Federal Bureau of Investigation's Uniform Crime Reports (UCR) in which murder and nonnegligent manslaughter does not include negligent manslaughter or vehicular manslaughter.

**Forcible rape**--Sexual intercourse or attempted sexual intercourse with a female against her will by force or threat of force. The term is used in the same sense as in the UCR Crime Index. (Some States have enacted gender neutral rape or sexual assault statutes which prohibit forced sexual penetration of either sex. Data reported by such States do not distinguish between forcible rape of females as defined above and other sexual assaults.)

**Robbery**--Unlawful taking or attempted taking of property that is in the immediate possession of another by force or the threat of force. The term is used in the

same sense as in the UCR Crime Index and includes forcible purse snatching.

**Assault**--Unlawful intentional inflicting, or attempted or threatened inflicting, of injury upon the person of another.

**Aggravated assault**--Unlawful intentional inflicting of serious bodily injury, or unlawful threat or attempt to inflict bodily injury or death by means of a deadly or dangerous weapon with or without actual infliction of any injury. The term is used in the same sense as in the UCR Crime Index. It includes conduct included under the statutory names aggravated assault and battery, aggravated battery, assault with intent to kill, assault with intent to commit murder or manslaughter, atrocious assault, attempted murder, felonious assault, and assault with a deadly weapon.

**Simple assault**--Unlawful intentional inflicting, or attempted or threatened inflicting, of less than serious bodily injury without a deadly or dangerous weapon. The term is used in the same sense as in UCR reporting. Simple assault is often not distinctly named in statutes since it consists of all assaults not explicitly named and defined as serious. Unspecified assaults are contained in the other offenses against persons category.

**Other offenses against persons**--This category includes kidnaping, violent sex acts other than forcible rape (e.g., incest, sodomy), custody interference, unlawful restraint, false imprisonment, reckless endangerment, harassment, etc., and attempts to commit any such acts.

**Crimes against property**--This category includes burglary, larceny, motor vehicle theft, arson, vandalism, stolen property offenses, trespassing, and other property offenses as defined below.

**Burglary**--Unlawful entry or attempted entry of any fixed structure, vehicle or vessel used for regular residence, industry, or business, with or without force, with intent to commit a felony or larceny. The term is used in the same sense as in the UCR Crime Index.

**Larceny**--Unlawful taking or attempted taking of property (other than a motor vehicle) from the possession of another, by stealth, without force and without deceit, with intent to permanently deprive the owner of the property. This term is used in the same sense as in the UCR Crime Index. It includes shop-lifting and purse snatching without force.

**Motor vehicle theft**--Unlawful taking, or attempted taking, of a self-propelled road vehicle owned by another, with the intent to deprive the owner of it permanently or temporarily. The term is used in the same sense as in the UCR Crime Index. It includes joyriding or unauthorized use of a motor vehicle as well as grand theft auto.

**Arson**--Intentional damaging or destruction by means of fire or explosion of

the property of another without their consent, or of any property with intent to defraud, or attempting the above acts. This term is used in the same sense as in the UCR Crime Index.

**Vandalism**--Destroying or damaging, or attempting to destroy or damage, the property of another without their consent, or public property, except by burning.

**Stolen property offenses**--Unlawfully and knowingly receiving, buying, or possessing stolen property, or attempting any of the above. The term is used in the same sense as the UCR category stolen property; buying, receiving, possessing.

**Trespassing**--Unlawful entry or attempted entry of the property of another with the intent to commit a misdemeanor, other than larceny, or without intent to commit a crime.

**Other property offenses**--This category includes extortion and all fraud offenses, such as forgery, counterfeiting, embezzlement, check or credit card fraud, and attempts to commit any such offenses.

**Drug law violations**--Unlawful sale, purchase, distribution, manufacture, cultivation, transport, possession, or use of a controlled or prohibited substance or drug, or drug paraphernalia, or attempt to commit these acts. Sniffing of glue, paint, gasoline and other inhalants are also included; hence, the term is broader than the UCR category drug abuse violations.

**Offenses against public order**--This category includes weapons offenses, non-violent sex offenses, non-status liquor law violations, disorderly conduct, obstruction of justice, and other offenses against public order as defined below.

**Weapons offenses**--Unlawful sale, distribution, manufacture, alteration, transportation, possession, or use of a deadly or dangerous weapon, or accessory, or attempt to commit any of these acts. The term is used in the same sense as the UCR category weapons; carrying, possessing, etc.

**Sex offenses**--All offenses having a sexual element, not involving violence. The term combines the meaning of the UCR categories prostitution and commercialized vice and sex offenses. It includes offenses such as statutory rape, indecent exposure, prostitution, solicitation, pimping, lewdness, fornication, adultery, etc.

**Liquor law violations, not status**--Being in a public place while intoxicated through consumption of alcohol, or intake of a controlled substance or drug. It includes public intoxication, drunkenness and other liquor law violations. It does not include driving under the influence. The term is used in the same sense as the UCR category of the same name. (Some States treat public drunkenness of juveniles as a status offense, rather than delinquency; hence, some of these offenses may appear under the status offense code status liquor law violations.

Where a person who is publicly intoxicated performs acts which cause a disturbance, he or she may be charged with disorderly conduct.)

**Disorderly conduct**--Unlawful interruption of the peace, quiet, or order of a community, including offenses called disturbing the peace, vagrancy, loitering, unlawful assembly, and riot.

**Obstruction of justice**--This category includes intentionally obstructing a court (or law enforcement) in the administration of justice, acting in a way calculated to lessen the authority or dignity of the court, failing to obey the lawful order of a court, and violations of probation or parole other than technical violations, which do not consist of the commission of a crime or are not prosecuted as such. It includes contempt, perjury, obstructing justice, bribing witnesses, failure to report a crime, nonviolent resisting arrest, etc.

**Other offenses against public order**--This category includes other offenses against government administration or regulation, e.g., escape from confinement, bribery, gambling, fish and game violations, hitchhiking, health violations, false fire alarms, immigration violations, etc.

## Appendix 15

### Probation and Parole in the United States Definitions of terms, survey methodology, and jurisdictional explanatory notes

This information was excerpted from U.S. Department of Justice, Bureau of Justice Statistics, *Probation and Parole 1990*, Bulletin NCJ-133285, pp. 6, 7 (Washington, DC: U.S. Department of Justice, November 1991); and information provided by the U.S. Department of Commerce, Bureau of the Census. Non-substantive editorial adaptations have been made. Data were collected for the U.S. Department of Justice, Bureau of Justice Statistics by the U.S. Bureau of the Census.

#### Definitions of terms

**Probation entries**--Persons entering probation directly from a sentencing court, or from a correctional facility as a result of split sentencing or sentence modification.

**Probation exits**--Persons removed from probation including discharges (termination, completion of terms, and early discharges), revocation and commitment to incarceration, and people who die while on probation.

**Probation population**--All adults who have been placed under the supervisory authority of a probation agency as part of a court order. Bench, court, informal and summary probation cases, where the judiciary never surrenders jurisdiction to a probation agency are excluded.

**Probationers**--Persons who have been placed under the supervisory authority of a probation agency as part of a court order regardless of whether they have been convicted.

**Parole entries**--Persons entering parole supervision from a correctional facility as a result of either parole, reparole, reinstatement, or mandatory supervised release.

#### Parole exits

**Mandatory supervised release**--Persons entering parole supervision from a correctional facility upon expiration of sentence not as a result of a paroling authority decision.

**Removals**--Persons removed from parole: discharges, including terminations, completion of term and early discharges; revocations and commitments to prison; and deaths.

**Parole population**--All persons under the jurisdiction of a paroling authority. (Out-of-State parolees under courtesy super-

vision are counted in the population of the paroling authority with jurisdiction.)

**Paroling authority**--A board, commission, or authority responsible for parole supervision which may or may not have discretionary power to release offenders from prison prior to the expiration of sentence, to revoke parole and return violators to prison, and to reinstate or grant other forms of reentry to parole supervision.

#### Jurisdictional explanatory notes

##### Probation notes

Many States update their population counts, therefore the Jan. 1, 1990, numbers may differ from those previously published for Dec. 31, 1989.

The following States omitted absconders from their January 1 and December 31, counts: California, Colorado, Florida, Indiana, Massachusetts, Mississippi, Missouri, New Mexico, Virginia, and Wisconsin.

**Alabama**--The State revised the previously reported yearend 1989 count by excluding those supervised for other States.

**Arizona**--The State revised the previously reported yearend 1989 count for corrected pending cases.

**Arkansas**--The State estimated all data.

**California**--Exits include 13,496 transfers of jurisdiction, deaths, or loss of jurisdiction.

**Delaware**--The State estimated all data.

**Georgia**--The State included 1,945 abandonment and bastardy cases, and interstate compact cases as entries. Exits include 3,621 abandonment and bastardy cases, special termination, and transferred out-of-State cases. The transfer of abandonment and bastardy cases to another State agency is reflected in the exits. All data exclude probationers who have been sent to another State for supervision and include probationers that Georgia supervises for other States.

**Indiana**--Exits include 1,435 intrastate transfers and 575 interstate transfers.

**Iowa**--The State estimated all data.

**Kentucky**--The State included 13 dismissed cases as exits. Inactive supervision cases were excluded from the probation count.

**Maryland**--Exits include 4,875 unsatisfactory closings. The State excluded 31,079 cases supervised under the Drinking Driver Monitor Program.

**Michigan**--The State estimated entries and exits.

**Missouri**--The State estimated all data. Entries include 118 diversion cases without sentence.

**Nevada**--The State estimated entries and exits.

**New Mexico**--The State included 1,108 closed semiactive cases and interarea transfers as exits.

**Ohio**--The State included persons transferred between State and county probation agencies in entries and exits.

**Oklahoma**--Data does not include those persons on probation with weekend incarceration.

**Oregon**--Data does not include 6,209 probationers supervised by county agencies.

**South Dakota**--All data are midyear 1990 counts.

**Texas**--All data are for August 1990.

**Utah**--Exits include 207 revocations and discharges and 6 reversals of court orders.

**Virginia**--The State included revocations, out-of-State cases terminated, and cases closed administratively as exits.

**West Virginia**--The State estimated all data. Entries include 50 reinstatements.

**Wyoming**--Exits include 221 bench warrants, relief of responsibility, and interstate transfers.

##### Parole notes

Many States update their population counts, therefore, the Jan. 1, 1990, numbers may differ from those previously reported for Dec. 31, 1989.

The following States omitted absconders from their January 1 and December 31 counts: Arkansas, California, Colorado, Florida, Iowa, Kansas, Mississippi, New Hampshire, New Mexico, Ohio, Vermont, Virginia, and Wisconsin.

**Alaska**--The State estimated all data.

**Arizona**--Entries include 491 interstate compact cases. Exits include 10 early discharges.

**California**--Data include California Youth Authority (CYA) cases.

**Colorado**--The January 1, 1990, count differs from the previously reported December 31, 1989, count to reflect 175 cases supervised out-of-State.

**Delaware**--The State estimated all data.

**Florida**--The State supervised only persons sentenced to a year or more.

**Hawaii**--Exits include 89 parolees whose maximum sentence had expired.

**Illinois**--Only persons sentenced to a year or more are supervised. Entries include 533 out-of-State parolees and 2,060 interstate compact and apprehension cases. The number under supervision by Illinois authorities on December 31, 1990, was 14,973; the remainder were under supervision by other authorities.

**Iowa**--The State only supervises persons sentenced to a year or more.

**Kansas**--The January 1 population differs from the previously reported 1989 yearend count to include 296 parolees with an active warrant but with a known location.

Exits exclude an unknown number of persons returned to prison or jail, parole revocation pending; returned to prison or jail, new charges pending; or transferred to another parole jurisdiction. Exits include 275 absconders, 290 expiration of sentence, 62 pre-revocation confinements, and 229 Kansas offenders supervised out-of-State. The State monitors absconders (563) apart from the regular parole caseload.

**Kentucky**--The State included 489 transfers from out-of-State districts as entries.

**Maine**--The State abolished parole in 1976. Thirty pre-1976 parolees remain under supervision, and 25 in prison will become eligible for parole.

**Massachusetts**--The State estimated entries and exits.

**Minnesota**--Entries include 402 parolees on work release.

**Mississippi**--Entries include intrastate transfers and two work release cases.

**Missouri**--The State estimated all data. Data exclude 283 parolees from local jails.

**New Hampshire**--The State supervised only persons sentenced to a year or more. Entries include 92 administrative parolees.

**New Jersey**--Exits include 151 persons recalled by court and discharged by Parole Authority Decree.

**New Mexico**--The State estimated entries and exits.

**Ohio**--Entries include 139 parolees supervised out-of-State. Exits include 31 inactive cases and 67 interstate compact cases.

**Pennsylvania**--Entries include 21,271 parolees released by county courts. The State supervised 610 parolees from local jails.

**Rhode Island**--Absconders are removed from parole only if a revocation warrant has been issued.

**South Carolina**--Exits include 12 pardoned parolees. The State excluded youthful offenders from its counts.

**Tennessee**--The January 1, 1990 count differs from the previously reported December 31, 1989 count because 189 parolees with an alias were doublecounted. Exits include 436 inactive parolees whose supervision was terminated.

**Texas**--Data are for the year ending August 1990. Entries include approximately 12,000 parole releases direct from county jail.

**Virginia**--Entries include 367 transfers from other States. Exits include 379 terminated out-of-State cases.

**West Virginia**--Entries include 95 interstate compact cases.

**Wisconsin**--Data do not include parolees supervised out-of-State. Exits include 15 administrative closings.

**Wyoming**--Exits include 29 administrative closings and pardons.

## Appendix 16

### Children in Custody Survey methodology and definitions of terms

The following information was excerpted from U.S. Department of Justice, Bureau of Justice Statistics, *Children in Custody, 1975-85: Census of Public and Private Juvenile Detention, Correctional, and Shelter Facilities* (Washington, DC: USGPO, 1989), pp. 4-8; U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention, *Children in Custody, 1989* (Washington, DC: U.S. Department of Justice, 1991), pp. 1, 2, 10; and information provided by the U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention. Non-substantive editorial adaptations have been made.

#### Survey methodology

Data for each of the censuses were collected by the U.S. Bureau of the Census for the Bureau of Justice Statistics or the Office of Juvenile Justice and Delinquency Prevention.

All data collected for each of the censuses reflect State-by-State variation among juvenile justice systems and thus require caution when making comparative interpretations. Caution should also be used when interpreting changes over time in categories where the population of interest makes up less than 1 percent of the total population.

The comparison of data is also limited by changes in the questionnaires at each enumeration. The present analysis has accounted for the majority of these changes by collapsing categories where applicable. Tables may include only one or two of the years under consideration because earlier data may not be comparable with later collections. In using these tables one should take into consideration whether the total residential population or only the juvenile population was used. A juvenile is a person of an age (usually under 18) specified by State statute who is subject to juvenile court authority at the time of admission, regardless of age at the time of the census.

#### The 1975 census

##### Period of reference

The 1975 census was conducted on June 30, 1975. Most data elements (including the facility counts and the number of individuals residing within the facilities) pertain to midyear 1975 (June 30). Other data elements, namely

admissions and discharges, apply to the annual year from July 1, 1974 to June 30, 1975, whereas the information on expenditures reflects activities that in general refer to the fiscal year July 1, 1974 through June 30, 1975. For some facilities this time frame coincided with the calendar year.

##### Criteria for inclusion

To be included in the 1975 census, juvenile detention and correctional facilities in the public sector were required to have been in operation at the time the census was conducted (February 1976), to have been in operation at least a month before the census reference date (June 30, 1975), and to have a resident population in which juveniles made up at least 50 percent of the total population. This last criterion, however, did not apply to California State-administered facilities that held youthful offenders in addition to juveniles. These facilities were included in the census even in cases where the youthful offender population outnumbered the juvenile component.

In addition to meeting the public facility criteria, private facilities were eligible for enumeration if a minimum of 10 percent of their residents were adjudicated delinquents, persons in need of supervision (PINS), voluntary admissions, persons awaiting transfer to another jurisdiction, or persons held pending disposition by the courts.

Excluded were facilities in which more than 90 percent of the residents were dependent or neglected or other types of non-offenders. Also excluded were juvenile detention centers operated as part of local jails but lacking a separate staff or budget; Federal juvenile facilities; non-residential facilities; foster homes; and facilities exclusively for drug abusers, alcoholics, dependent or neglected persons, unwed mothers, and the emotionally disturbed or the mentally retarded.

##### Data collection procedures

The census was conducted by mail, with two followup mailings, and then by a telephone call or telegram to nonrespondents.

An overall response rate of virtually 100 percent was achieved for public facilities that met the selection criteria; the rate for private facilities was 95 percent. For the few private facilities that ultimately did not respond to the census, data were supplied from the questionnaires returned in the 1974 census. Respondents were requested to provide estimates for data that could not be obtained from available records. Respondents were asked to submit expenditure information on a fiscal year basis for the period from July 1, 1974 to June 30, 1975; however, other reference

periods such as the calendar year were acceptable.

##### Other notes

In response to an increased interest in the extent to which juvenile facilities emphasized rehabilitation-oriented programs, the 1975 instrument included an additional facility type--residential treatment centers. Uneven responses necessitated the elimination of this category and the reclassification of these facilities to the other six types.

Data for two State forestry camps in New Mexico were reported with those for a State training school.

The nonjuvenile component of the population included youthful offenders as well as adults. The 1975 youthful offender figures included 2,072 males and 58 females, all in public California facilities. Of the 176 adults, 16 males (all in public facilities) were in Montana, whereas private sector institutions held 152 males and 8 females distributed among Alabama, Arizona, California, Colorado, Connecticut, Florida, Massachusetts, Minnesota, New Hampshire, North Dakota, and Oregon.

#### The 1977 and 1979 censuses

##### Period of reference

The reference date for both the 1977 and 1979 censuses was changed from midyear, the point used in earlier censuses, to yearend (December 31). Data on occupancy, admissions, discharges, average daily population, and expenditures were for calendar years Jan. 1, 1977 through Dec. 31, 1977, and Jan. 1, 1979 through Dec. 31, 1979.

##### Criteria for inclusion

To be included in the 1977 and 1979 censuses, facilities were required to have been in operation on December 31 and to have a resident population in which juveniles made up at least 50 percent of the total population. This last criterion, however, did not apply to California State-administered facilities that held youthful offenders in addition to juveniles. These facilities were included even in cases where the youthful offender population outnumbered the juvenile component. Facilities were included in the count if they had as few as 1 percent offenders in an otherwise exclusively nonoffender population. In the 1975 census, a minimum of 10 percent of offenders was required for inclusion.

Excluded were juvenile detention centers operated as a part of local jails but lacking a separate staff or budget; non-residential facilities, that is, those in which juveniles did not stay overnight; establishments operated by

Federal authorities; and foster homes for fewer than three juveniles. Also excluded were facilities solely for alcoholics; dependent, neglected, or abused persons; the emotionally disturbed or the mentally retarded; unwed mothers; or other types of non-offenders.

#### Data collection procedures

The 1977 and 1979 censuses were conducted by mail, with two followup mailings, and then by a telephone call to nonrespondents.

An overall response rate of virtually 100 percent was achieved for public facilities that met the selection criteria; the rate for private facilities was 94 percent. For the few private facilities that ultimately did not respond to the census, data were supplied from the questionnaires returned for earlier years. Respondents were requested to provide estimates for data that could not be obtained from available records. Respondents were asked to submit expenditure information on a calendar year basis for the period from January 1 to December 31. However, other reference periods such as the fiscal year were acceptable.

#### Other notes

On Dec. 31, 1977, there were 2,131 nonjuveniles housed in juvenile facilities (1,824 in public facilities; 307 in private facilities). A total of 2,191 nonjuveniles were housed in juvenile facilities on Dec. 31, 1979 (2,162 in public facilities; 29 in private facilities). As in earlier enumerations the nonjuvenile component of the 1977 and 1979 censuses consisted primarily of youthful offenders, the large majority of whom were committed by the California Youth Authority.

An additional facility classification scheme was added in 1977. In order to provide a classification method that would uniformly group all facilities according to their basic function and at the same time take into account the increasing national policy interest in the degree of restrictiveness prevailing in juvenile custody facilities, the 1977 and 1979 censuses (and all censuses thereafter) were expanded to obtain information on the specific nature of each facility's mission and on key factors indicative of onsite controls.

The designations "short-term" and "long-term" were retained, but assignment to one or the other of these broad categories was determined by which of the following the respondent facility identified as its paramount purpose:

Short-term: Diagnosis and/or classifications; detention pending adjudication, commitment, or placement.

Long-term: Commitment and/or placement for treatment; probation or aftercare;

voluntary admission. If a facility marked more than one of these categories, the largest group of juveniles usually held determined its classification.

Additional designations for "institutional" and "open" environments were added. Questions were added to the instrument to determine existing security arrangements. Respondents were asked to characterize facilities according to three key factors indicative of the control environment:

1. Frequency of access to community resources.

2. Physical and staff restraints on the movement of residents.

3. A qualitative judgment based on (1) and (2) above about the degree of restrictiveness pervading the facility.

These factors were used as the basis for a classification system (referred to as "census classification") permitting the designation of a facility as either institutional or open as well as short-term or long-term.

#### The 1983 census

##### Period of reference

The 1983 census was conducted on Feb. 1, 1983. Most data elements pertain to this date. Other data information elements, namely admissions and discharges and expenditures, apply to the calendar year Jan. 1, 1982 through Dec. 31, 1982. Other reference periods such as the fiscal year were acceptable.

##### Criteria for inclusion

Juvenile programs in operation on Feb. 1, 1983 were included in the census if they housed more than three residents, 50 percent of whom were juveniles, and if offenders were at least one percent of their average daily population. In California, however, all California Youth Authority facilities were included in the census. Juvenile detention centers operated as part of an adult jail were excluded, as were non-residential facilities, facilities exclusively for drug or alcohol abusers or non-offenders, and Federal juvenile correctional facilities.

##### Data collection procedures

The census was conducted by mail, with followup mailings and phone calls used to encourage reporting. The response rate was virtually 100 percent in the public facilities and 90 percent for the private facilities. For the few private facilities that did not respond to the census, data were supplied from the questionnaires returned for earlier years. Respondents were requested to provide estimates for data that could not be obtained from available records.

#### Other notes

On Feb. 1, 1983, there were 2,181 nonjuveniles housed in juvenile facilities (2,098 in public facilities; 83 in private facilities).

#### The 1985 census

##### Period of reference

The 1985 census was conducted on Feb. 1, 1985. Most data elements refer to that date. Other annual data such as admissions, discharges, and expenditure information apply to the calendar year Jan. 1, 1984 through Dec. 31, 1984.

##### Criteria for inclusion

Juvenile programs in operation on Feb. 1, 1985 were included in the census if they housed more than three residents, if at least 50 percent of the residents were juveniles, and if accused or adjudicated delinquents and status offenders were at least one percent of their average daily population. In California, however, all California Youth Authority facilities were included in the census. Juvenile facilities operated as part of adult jails were excluded, as were non-residential facilities, facilities exclusively for drug or alcohol abusers or non-offenders, and Federal juvenile correctional facilities.

##### Data collection procedures

The census was conducted by mail, with followup mailings and phone calls used to encourage reporting. The response rate for public juvenile facilities was virtually 100 percent; the response rate for private facilities was 99 percent.

Respondents were requested to provide estimates for data that could not be obtained from available records.

#### Other notes

On Feb. 1, 1985, there were 2,112 nonjuveniles housed in juvenile facilities (2,080 in public facilities; 32 in private facilities).

#### The 1987 census

##### Criteria for inclusion

Except in California, residential programs and group homes operating on Feb. 2, 1987 were included in the census if they met the following three criteria: 1) They housed three or more residents, 2) At least 50 percent of the residents were juveniles, and 3) Accused or adjudicated delinquents and status offenders made up at least one percent of their average daily population. In California, all California Youth Authority facilities were included. Juvenile facilities which are a part of adult

facilities, non-residential facilities, and facilities operated exclusively for substance abuse and non-offenders were excluded from the census, as were Federal juvenile correctional facilities.

#### Data collection procedures

The 1987 Census of Public and Private Juvenile Detention, Correctional, and Shelter Facilities collected information from 1,107 public and 2,195 private juvenile institutions. The response rate for public institutions was almost 100 percent, with only two refusing to participate. Approximately 80 percent of private facilities responded. The initial response rate from private institutions was about 50 percent. The remaining 30 percent responded to telephone interviews. The questionnaire was fairly lengthy, and in some cases, some information could not be collected during the telephone interviews. Correcting for incomplete data and missing cases was not attempted.

#### Period of reference

The census included a count of juveniles and adults in these facilities on Monday, Feb. 2, 1987. These data were used to calculate the rates and counts of juveniles in institutions. Annual data for the fiscal year 1986 on admissions, discharges, average length of stay, average daily population, staff, services provided, characteristics of the facility, and revenues and expenditures were also collected.

#### Other notes

Individuals over the age of juvenile court jurisdiction could be in these institutions for two reasons. First, there were about 2,600 adult offenders housed in these facilities on the date of the census. These adults were not included in the counts of juveniles. Second, there were about 8,000 juvenile offenders in these facilities who passed the age of juvenile court jurisdiction while in detention, but remained in the juvenile facility. These juvenile offenders were included in the counts of juveniles in custody.

The custody rate is the simple ratio of all children in custody to the sum of the juvenile populations aged 10 to majority for all States, multiplied by 100,000. The age at which juvenile courts lose jurisdiction over young offenders ranges from 16 to 19. For each State, the appropriate upper age is used in deriving the sum for the denominator. Estimates of the population (in thousands) of each State and the District of Columbia, by age and by gender were provided by the U.S. Bureau of the Census. Juveniles aged 10 to the age at which the juvenile court loses jurisdiction were defined as the population at risk.

There were a total of 1,037 youths under the age of 10 in juvenile facilities on the census date. These youngsters, along with the approximately 8,000 juvenile offenders who were past the age of juvenile court jurisdiction while in a facility are included in the numerator of the rates, but these age groups are not included in the denominator. The rates will be slightly inflated because of this. On the other hand, the rates are deflated because some institutions did not respond to the survey.

#### The 1989 Census

The 1989 Children in Custody census surveyed more than 3,200 public and private facilities nationwide that provide custody and care for over 92,000 children daily who are wards of juvenile courts, juvenile corrections, or private agencies.

These facilities represent a broad spectrum of residential programs for juveniles who are either accused or adjudicated delinquents or status offenders--runaways, incorrigibles, or truants. Some facilities also house youth who are detained or committed for treatment or placement as a result of abuse, dependency, or neglect, or for other reasons. They include juvenile detention centers, shelters, reception and diagnostic centers, training schools, camps, ranches, and group homes.

Results are presented from the *public* facility census only. These results are based on data from 1,100 facilities--nearly all such facilities administered by State or local governments in 1989. Facilities reported information on their operations for calendar year 1988 and for the census date, Feb. 15, 1989.

#### Definitions of terms

**Admissions**--Entry transactions recorded by the facility including new entries, reentries, and transfer entries. The number of admissions recorded in a given year does not represent the number of different juveniles admitted.

**Commitment**--Placement of a juvenile in a juvenile custody facility for supervision and treatment following an adjudication for committing a specific delinquent or status offense following a determination that the juvenile was dependent, neglected, or abused, or for some other reason unrelated to delinquency.

**Detention**--Temporary holding of a juvenile pending adjudication for a specific delinquent or status offense or for a condition such as dependency, neglect, or abuse. A juvenile who has already been adjudicated and is awaiting disposition or transfer to a placement facility is also considered to be detained.

**Discharges**--Exit transactions recorded by the facility including final exits, transfer exits, exits to supervision, and unauthorized

exits. The number of discharges recorded in a given year does not represent the number of different juveniles discharged.

**Juvenile**--A person subject to juvenile court jurisdiction for purposes of adjudication and treatment based on age and offense limitations defined by State law. The upper age of original juvenile court jurisdiction ranges from 16 to 19, but for most States it is 17 or 18.

#### Types of facilities

**Institutional environments**--Impose restraints on residents' movements and limit access to the community. They are usually much larger than open facilities. Most detention centers, reception and diagnostic centers, and a majority of training schools are classified as having institutional environments.

**Long-term**--Facilities generally holding juveniles who have been adjudicated and committed to treatment and custody.

**Open environments**--Allow greater movement of residents within the facilities and more access to the community. Facilities with open environments included most private facilities and most shelters; ranches, forestry camps or farms; halfway houses and group homes.

**Private facility**--A juvenile facility (either profit-making or nonprofit) subject to governmental licensing but under the direct administrative and operational control of private enterprise; it may receive substantial public funding in addition to support from private sources.

**Public facility**--A facility under the direct administrative and operational control of a State or local government and staffed by governmental employees.

**Short-term**--Facilities typically holding juveniles awaiting adjudication, disposition, or placement.

#### Adjudication status

**Committed or commitment**--The placement of juvenile offenders following adjudication and any placement procedure. May be referred to as "placement."

**Detained or detention**--Juveniles who are pending adjudication or who have been adjudicated but are awaiting disposition or placement. Includes those juveniles undergoing diagnosis or classification before disposition or placement.

**Voluntary admission**--A type of admission in which a juvenile voluntarily commits himself/herself to a facility without having been adjudicated by a court. The juvenile may be referred to the facility by parents, court, school, or a social agency.

## Appendix 17

### 1989 Survey of Inmates in Local Jails Methodology and survey sampling procedures

Note: The following information was excerpted from the U.S. Department of Justice, Bureau of Justice Statistics, *Profile of Jail Inmates, 1989*, Special Report NCJ-129097 (Washington, DC: U.S. Department of Justice, April 1991), pp. 11, 12; and *Drugs and Jail Inmates, 1989*, Special Report NCJ-130836 (Washington, DC: U.S. Department of Justice, August 1991), pp. 11, 12. Non-substantive editorial adaptations have been made.

#### Methodology

The 1989 Survey of Inmates in Local Jails was conducted for the U.S. Department of Justice, Bureau of Justice Statistics by the U.S. Bureau of the Census. Through personal interviews during July, August, and September 1989, data were collected on individual characteristics of jail inmates; current offenses and sentences; characteristics of victims; criminal histories; jail activities and programs; prior drug and alcohol use and treatment; and health care services provided while in jail. Similar surveys of jail inmates were conducted in 1972, 1978, and 1983.

#### Sample design

The sample for the 1989 survey was selected from a universe of 3,312 jails that were enumerated in the 1988 National Jail Census. The sample design was a stratified two-stage selection. In the first stage, six separate strata were formed based on the size of the male and female populations. In two strata all jails were selected; in the remaining four strata, a systematic sample of jails was selected proportional to the population size of each jail. Overall, a total of 424 local jails were selected. In the second stage, interviewers visited each selected facility and systematically selected a sample of male and female inmates using predetermined procedures. As a result, approximately 1 of every 70 males were selected, and depending on the stratum, 1 of every 14, 15, or 70 females were selected. A total of 5,675 interviews were completed, yielding an overall response rate of 92.3 percent.

Based on the completed interviews, estimates for the entire population were developed using weighting factors derived from the original probability of selection in the sample. These factors were adjusted for

variable rates of nonresponse across strata and inmate characteristics. Further adjustments were made to control the survey estimates to counts of jail inmates obtained from the 1988 National Jail Census and the 1989 Sample Survey of Jails.

#### Accuracy of the estimates

The accuracy of the estimates depends on two types of error: sampling and nonsampling. Sampling error is variation that may occur by chance because a sample rather than a complete enumeration of the population was conducted. Nonsampling error can be attributed to many sources, such as nonresponse, differences in the interpretation of questions among inmates, recall difficulties, and processing errors. In any survey the full extent of the nonsampling error is never known.

The sampling error, as measured by an estimated standard error, varies by the size of the estimate and the size of the base population. Estimates of the standard errors have been calculated for the 1989 and 1983 surveys of jail inmates. A table reporting these standard errors is presented in the full report. These standard errors may be used to construct confidence intervals around the percentages. For example, the 95 percent confidence interval around the percent of jail inmates in 1989 who were in jail for a drug offense is approximately 23.0 percent plus or minus 1.96 multiplied by 0.6 percent (or 21.8 percent to 24.2 percent).

These standard errors may also be used to test the statistical significance of the difference between two sample statistics by pooling the standard errors of the two sample estimates. For example, the standard error of the difference in the percent in jail for drug offenses in 1989 compared to 1983 would be .72 (or the square root of the sum of the squared standard errors in each year). The 95 percent confidence interval around the difference would be 1.96 multiplied by 0.72 percent (or 1.4 percent). Since the observed difference of 13.7 percent (23.0 percent minus 9.3 percent) is greater than 1.4 percent, the difference would be considered statistically significant.

#### Self-reported information

Criminal history data are based on self-reported information provided by each respondent. Through a series of questions, inmates were asked to report on past probation sentences as juveniles and as adults and on past sentences to incarceration up to 10 prior times. For each sentence, the inmates were asked the offenses for which they were sentenced, the type of institution in which they served time, the date of admission, and

the length of time actually served. From this information, a criminal history profile was constructed. A recidivist was defined as an inmate who reported a sentence to probation or incarceration at any time in the past.

Drug use and treatment history data are also based on self-report responses from the inmates. Inmates were asked a detailed set of questions about each of 10 types of drugs. These drugs included heroin; methadone used outside of a treatment program; amphetamines and barbiturates (alone and in combination); methaqualone (Quaaludes); cocaine or crack; LSD; PCP; and marijuana and hashish. Drug use histories were developed by examining the responses to questions for each of these drugs. Inmates who were unconvicted (awaiting arraignment, awaiting trial, or on trial) were not asked any questions about drug use during the month before the arrest for which they were currently detained or about drug use in the month before the first offense for which they had served time in the past.

## Appendix 18

### **Correctional Populations in the United States** Survey methodology, definitions of terms, and jurisdictional explanatory notes

Note: The following information has been excerpted from U.S. Department of Justice, Bureau of Justice Statistics, *Correctional Populations in the United States, 1991*, NCJ-142729 (Washington, DC: USGPO, 1993). Non-substantive editorial adaptations have been made.

#### **Survey methodology**

These data are based on yearend 1990, 1991, and 1992 inmate counts and on enumerations of prisoner transactions during these calendar years. As in past years, these data were collected with a standard questionnaire transmitted to the appropriate State authorities and the Federal Bureau of Prisons.

In each jurisdiction, the questionnaire was completed by a central agency reporting for institutions within the correctional system. This procedure was also used by the Federal Bureau of Prisons in supplying data on Federal institutions. Because the information was derived from a complete enumeration rather than a survey, the statistical data are not affected by sampling error. Response errors were held to a minimum by means of a systematic telephone followup and, where necessary, other control procedures. Thus, the yearend counts are generally considered reliable. Because of the absence of standardized administrative and record keeping practices from State to State, the data for admissions and departures are not always entirely comparable across jurisdictions. Jurisdictions may revise their numbers in later years. Subsequent publications may therefore differ from data currently presented.

#### **National Prisoner Statistics (NPS) category definitions**

**Jurisdiction population, Dec. 31--**Includes all inmates under jurisdiction of State correctional authorities on Dec. 31, 1991 and 1992 regardless of location. Does not include other jurisdictions' inmates (for example, inmates from other States, pretrial detainees) merely housed in prisons.

**Custody population, Dec. 31--**Includes all inmates in the State's custody, that is, housed in State correctional facilities on Dec. 31, 1991 and 1992. Does not include State inmates housed outside State prison facilities; does include other jurisdictions' inmates

(for example, inmates from other States, the courts, local jails) housed in the State's facilities.

**Overcrowding, Dec. 31--**Includes all State prison inmates housed in local jails on Dec. 31, 1991 and 1992 and as a direct result of State prison overcrowding. Does not include State prison inmates held in local jails for other reasons (for example, work release, court appearance, etc.).

#### **Admissions**

**New court commitments--**Includes all inmates who were admitted with new sentences, that is, these inmates were not readmitted for any sentences for which they had already served some prison time. This category includes probation violators entering prison for the first time on the probated offenses. Does not include parole violators with new sentences.

**Parole violators with new sentences--**Includes all parolees returned with new sentences.

**Other conditional release violators with new sentences--**Includes all individuals on conditional release (other than parole) who are returned with new sentences, for example, returns from supervised mandatory release, from shock probation, etc.

**Parole violators only, no new sentences--**Includes all parolees returned only for formal revocations of parole that were not accompanied by new sentences. If the parolee was not formally revoked, that is, the parolee was held only temporarily pending a hearing, no admission occurred for NPS purposes.

**Other conditional release violators only, no new sentences--**Same as above, substituting conditional release violator for parole violator.

**Transfers from other jurisdictions--**Includes all inmates transferred to a State's jurisdiction to continue sentences already in force. Does not include admissions if State does not acquire jurisdiction. Does not include movements from prison to prison within State.

**Absent without leave (AWOL) returns, with or without sentences--**Includes all returns from AWOL, that is, failures to return from authorized temporary absences such as work furlough, study release, mercy furlough, or other authorized temporary absence.

**Escapee returns, with or without new sentences--**Includes all returns from escape, that is, unlawful departures from a State correctional facility or from the custody of State correctional personnel.

**Returns from appeal/bond--**Includes all inmates reinstated to correctional jurisdiction from long-term jurisdictional absences on appeal or bond. Does not include returns from short-term movements (less than 30 days) to court (that is, where the State retains jurisdiction).

**Other admissions--**Includes all other admissions not covered by the above categories.

#### **Releases**

**Unconditional--**An unconditional release occurs only if the released inmate cannot be imprisoned for any sentence for which he/she was in prison.

**Expirations of sentence--**Includes all inmates whose maximum court sentences minus credits have been served.

**Commutations--**Includes all inmates whose maximum sentences have been changed (lowered) to time served to allow immediate unconditional release.

**Other unconditional releases--**Includes all other unconditional releases not covered by the above categories.

**Conditional--**A conditional release occurs if the released inmate, upon violating the conditions of release, can be imprisoned again for any of the sentences for which he/she was in prison.

**Probations--**Includes all inmates who have been placed under probation supervision and conditionally released; includes all shock probation (split sentence) releases.

**Supervised mandatory releases--**Includes all inmates who must, by law, be conditionally released. This type of release may also be called mandatory conditional release.

**Paroles--**Includes all inmates conditionally released to parole.

**Other conditional releases--**Includes all other conditional releases not covered by the above categories.

#### **Death:**

Executions--Self-explanatory.

Illness/natural causes--Self-explanatory.

Suicides--Self-explanatory.

Accidental injury to self--Includes all inmates who accidentally cause their own deaths (for example, a fall from a ladder, mishandling electrical equipment).

Death caused by another person--Includes all inmates whose deaths were caused accidentally or intentionally by another inmate or prison personnel.

Other deaths--Includes all other deaths not covered by the above categories.

#### **Other releases:**

Absent without leave (AWOL)--Includes all failures to return from an authorized temporary absence such as work furlough, study release, mercy furlough, or other authorized temporary absence.

Escapes from confinement--Includes all unlawful departures from a State correctional facility or from the custody of State correctional personnel.

Transfers to other jurisdictions--Includes all inmates who were transferred from one State's jurisdiction to another to continue sentences already in force. Does

not include the release if State does not relinquish jurisdiction. Does not include movements from prison to prison within State.

**Releases to appeal/bond**--Includes all inmates released from correctional jurisdiction to long-term jurisdictional absences on appeal or bond. Does not include short-term movements (less than 30 days) to court (that is, where the State correctional system retains jurisdiction).

**Other releases**--Includes all other releases not covered by the above categories.

## Race

**White**--A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

**Black**--A person having origins in any of the black racial groups of Africa.

**American Indian or Alaska Native**--A person having origins in any of the original peoples of North America, who maintains cultural identification through tribal affiliation or community recognition.

**Asian or Pacific Islander**--A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.

**Other**--Any other race not covered by the above categories.

**Not known**--Any inmate whose racial origin is unknown.

## Ethnic origin

**Hispanic**--A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.

**Not Hispanic**--A person not covered by the above category.

**Not known**--Any inmate whose ethnic origin is unknown.

## Capital punishment explanatory notes

The statistics reported for capital punishment may differ from data collected by other organizations. The differences occur for a variety of reasons.

(1) Inmates under sentence of death are originally added to the National Prisoner Statistics (NPS) counts when they enter correctional facilities rather than when judges pronounce sentence.

(2) Following the year when prisoners are first counted, their admissions or releases as a result of court order are attributed to the year for the sentence or court order. For example, a prisoner sentenced in November

1989 and entering prison custody in January 1990 would be counted as an admission in the 1990 report; the 1991 report would count him or her as being under sentence of death at yearend 1989. Similarly, a prisoner whose sentence is overturned in 1989 but who remains in the count until 1991 when the court's decision is reported would be subtracted from the 1989 and 1990 reports.

(3) NPS counts of persons under sentence of death are always for the last day of a calendar year and thus will differ from more recent counts.

## Correctional Populations in the United States, 1990

failed to include 20 inmates who either were reported late to the NPS program or were not in the custody of State correctional authorities at yearend 1990: Florida (4), Georgia (2), Illinois (3), Kentucky (1), Louisiana (1), Maryland (1), Nevada (2), Ohio (1), Pennsylvania (1), Tennessee (1), and Texas (3). Thirty inmates had sentences to death removed in 1990 but were not reported: Arizona (4), Florida (12), Georgia (1), Illinois (3), Maryland (3), Mississippi (1), Missouri (1), Ohio (2), Oklahoma (1), and South Carolina (2).

In 1991, five male prisoners of the Armed Forces were under a military death sentence for murder.

## 1991 jurisdictional explanatory notes

These jurisdictional explanatory notes apply only to the 1991 data.

Differing legal and administrative requirements as well as diverse record keeping practices among jurisdictions hamper efforts to collect uniform nationwide data on the number and movement of inmates in State and Federal correctional institutions. Not all jurisdictions are able to provide information that meets NPS definitions. For some, the discrepancies between reported data and the criteria are minor, but in others these discrepancies are more serious and, overall, serve to limit the comparability of data among jurisdictions. Limitations in State data, of course, carry over into regional and national figures, which, as a consequence, should be viewed as providing an order of general magnitude rather than precise totals.

The notes that follow identify deviations from the category definitions used in the 1991 questionnaire, provide details on the content of "other" admission and release categories, and specify revisions to data that should be taken into account when comparing 1990 and 1991 figures. State inmates housed in local jails are generally considered to be under State jurisdiction. Exceptions to this rule are noted below. Some States included an adjustment residual in their admission or re-

lease figure in order to balance the yearend 1990 count with the yearend 1991 count.

**Alabama**--Other conditional release violators, with new sentence: Include inmates returned from supervised release under Alabama Act 754 and split sentence/probation with or without new sentences. Escapees and AWOL prisoners: Counted as a single category. Other admissions: Unspecified in the Alabama data system. Causes of death: Can specify only executions. Other releases: Type of release not known at time of data collection. Unknown race: Includes Hispanic inmates not determined as white or black.

**Alaska**--New court commitments: Include other conditional release violators with or without new sentences. Parole violators with new sentences: Include conditional release violators with new sentences. Parole violators only, no new sentences: Include other conditional release violators with no new sentences. Other unconditional releases: Court-ordered releases. Other releases: Include releases to the U.S. Immigration and Naturalization Service and Federal detainer. Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Alaska. Race and Hispanic origin: Were estimated.

**Arizona**--Population, admissions and releases counts: Based on custody data. Other unconditional releases: Court-ordered releases. Other conditional releases: Include supervised early releases, supervised provisional releases, supervised work furloughs and releases to home arrest program. Unspecified causes of death: Cause of death not known at time of data collection. Other releases: Include early releases to detainer and persons returned to prison pending a revocation hearing. The sex breakdown for the 49 inmates housed in local jails to ease crowding in prisons is estimated, based proportionally on admissions.

**Arkansas**--Arkansas revised the previously reported Dec. 31, 1990 population of inmates with maximum sentences of more than 1 year. Other unconditional releases: Court-ordered releases. Other conditional releases: Comprised of persons released under the provisions of Arkansas' Acts 378 and 814 and Boot Camp to supervision. Unknown race: Includes Cuban prisoners.

**California**--Population, admissions and releases counts: Based on custody data. Other conditional release violators with new sentence: Include some parole violators and returns from supervised mandatory release with new sentence. Other conditional release violators only, no new sentences: Include some parole violators without new sentences. The category also includes supervised mandatory and parole releases returned to prison pending revocation hearings. Other admissions: Contain the difference between total admissions and the number in other

admissions categories. Unconditional releases, expirations of sentence: Include some court-ordered releases. Supervised mandatory releases: Include some releases to parole. Other releases: Contain the difference between total releases and the number in other release categories. Jurisdiction population, inmates with a year or less sentence: Include civil narcotic addict commitments and county diagnostic cases. Unknown race: Includes inmates not categorized as white, black, or American Indian. Hispanic origin: Includes only Mexican-American inmates.

**Colorado**--Colorado revised the previously reported Dec. 31, 1990, population of inmates with maximum sentences of more than 1 year. Sentencing information: Reported population with sentences of more than 1 year includes a very small number of inmates with maximum sentences of 1 year. Transfers to other jurisdictions: Include custody transfers of inmates to other states due to interstate compacts. Escapees: Numbers estimated. Other admissions: Backlogged sentenced inmates, housed in local facilities, awaiting Department of Correction bedspace. Other releases: Court-ordered releases not classified as conditional or unconditional. Race and Hispanic origin: Were estimated.

**Connecticut**--New court commitments: May include a small number of prisoners returned from appeal or bond and some probation violators entering with or without new sentences. Unconditional releases, expirations of sentence: Does not distinguish inmates with probation conditions in effect upon expiration of the incarceration portion of their sentences. Includes some releases to probation supervision. Other unconditional releases: Court-ordered releases and pardon discharges. Other conditional releases: Community residence releases under supervision similar to that for parolees. Causes of death: Can specify only executions. Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Connecticut. Hispanic origin: Categorized as prisoners of unknown race.

**Delaware**--Sentencing information, partially suspended sentences: Some prisoners serve sentences in which the term in prison is partially suspended, to be completed under probation. They were categorized with inmates sentenced to 1 year or more only when the prison portion of their sentences exceeded 12 months. As a result, the population and movement counts of inmates with maximum sentences of more than 1 year are understated, and the population count of inmates with 1 year or less maximum sentences is overstated. Parole violators and conditional release violators with new sentences: Include violators with or without new sentences. Other admissions and releases: Include admissions from and releases to State hospitals, local hospitals and those inmates serving weekend sentences. Other

admissions also include inmates who were changed from jail sentences of less than a year to prison sentences of more than 1 year. Other unconditional releases: Court-ordered releases. Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Delaware. Unknown race: Includes Puerto Rican and Mexican prisoners.

**District of Columbia**--Sentencing information, partially suspended sentences: Some prisoners serve sentences in which the term in prison is partially suspended, to be completed under probation. They were categorized with inmates sentenced to 1 year or more only when the prison portion of their sentences exceeded 12 months. As a result, the population and movement counts of inmates with maximum sentences of more than 1 year are understated, and the population count of inmates with 1 year or less maximum sentences is overstated. Sentencing information, short sentences: An undetermined number of inmates housed in neither the District of Columbia jail nor the detention center and having either no sentence or a maximum sentence of 1 year or less were included in the admissions, releases, and population counts of inmates with more than 1 year maximum sentences. As a result, the population and movement counts of inmates with maximum sentences of more than 1 year are overstated, and the population count of inmates with 1 year or less maximum sentences is understated. Parole and other conditional release violators: The total number is actual; the counts of men within categories of violation are estimated. The female violators are counted as parole violators with new sentences. Transfers from and to other jurisdictions: Only includes transfers from mental hospitals and Federal facilities. Unconditional releases, expirations of sentence: Include some inmates with partially suspended sentences and those released to probation. Cause of death: No cause is specified in the District of Columbia's data system. Jurisdiction population totals: Include 1,211 male D.C. code violators housed in Federal Bureau of Prisons facilities and 476 male inmates housed in other State facilities. Of these inmates, an undetermined number are being housed solely to ease prison crowding. Unsented inmates populations: Jurisdiction and custody counts include unsentenced inmates held for the first time in the District jail or detention center. Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in the District of Columbia. Race: Numbers estimated.

**Federal prisons**--Population total: Includes 1,776 inmates held under the jurisdiction of the U.S. Immigration and Naturalization Service. Jurisdiction population, inmates with a year or less sentence: Includes 1,429 men and 52 women whose

sentence length is unknown. Custody population, inmates with a year or less sentence: Includes 1,269 men and 43 women whose sentence length is unknown.

**Florida**--Population, admissions and releases counts: Based on custody data. Returns from appeal or bond hearings and other admissions: Contain the difference between total admissions and the number otherwise categorized. Include returns from authorized temporary absences on appeal or bond. Other unconditional releases: Include pardons, vacated sentences, and unconditional releases ordered by the Probation and Parole Commission. Other conditional releases: Include inmates released to supervised community release. Releases to appeal or bond and other releases: Contain the difference between total releases and the number otherwise categorized. Hispanic origin: Categorized as prisoners of unknown race.

**Georgia**--Georgia revised the previously reported Dec. 31, 1990 population of inmates with maximum sentences of more than 1 year. Population, admissions and releases counts: Based on custody data. New court commitments: May include some prisoners returning from appeal or bond. Parole violators with new sentences: Include some other conditional release violators without new sentences. Parole violators only, no new sentences: Include some other conditional release violators with new sentences. Escapees and AWOL prisoners: Counted as a single category. Other conditional releases: Include special reprieves and supervised reprieves controlled by the State Parole Board as well as Governor emergency releases. Unspecified causes of death: Cause of death not known at time of data collection. Other releases: Type of release not known at time of data collection. Jurisdiction population: Excludes inmates awaiting pickup from jails.

**Hawaii**--Category estimates: Jurisdiction and custody totals are actual counts. Admissions, releases, race, and Hispanic origin are estimated from information from Hawaii's Correctional Information System (CIS). Sentencing information, partially suspended sentences: Some prisoners serve sentences in which the term in prison is partially suspended, to be completed under probation. They were categorized with inmates sentenced to 1 year or more only when the prison portion of their sentences exceeded 12 months. As a result, the population and movement counts of inmates with maximum sentences of more than 1 year are understated, and the population count of inmates with 1 year or less maximum sentences is overstated. Other releases: Type of release not known at time of data collection. Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Hawaii. Unknown race: Includes Puerto Ricans, prison-

ers of other Hispanic origin, and inmates who identified more than one racial background; however, prisoners of part-Hawaiian ancestry were counted as Asians or Pacific Islanders. Hispanic origin: Includes Puerto Ricans and individuals of Hawaii's "Other" race category with Spanish surnames.

**Idaho**--Jurisdictional population: Excludes 94 men and 9 women housed in jails solely to ease prison crowding. Escapees and AWOL prisoners: Counted as a single category. Other admissions: Include Civil commitments. Other unconditional releases: Include court-ordered releases of Civil commitments. Race and Hispanic origin: Were estimated.

**Illinois**--Population, admissions and releases counts: Based on custody data. Data for inmates with sentences of more than 1 year include some inmates with 1 year maximum sentences. Conditional release violators with new sentences: Include some parole violators with new sentences. Other conditional release violators only, no new sentences: Include some parole violators without new sentences, and some returned violators with charges pending. Other admissions and releases: Contain the difference between long-term admission and release movements not reported in other categories. Include transfers and release to/returns from medical furlough, writ appeal, or bond. Other unconditional releases: Court-ordered releases. Unspecified causes of death: Cause of death not known at time of data collection. Hispanic origin: Categorized as prisoners of unknown race.

**Indiana**--Population, admissions and releases counts: Based on custody data. Jurisdictional population: Exclude 711 male inmates awaiting pickup from local jails. Conditional release violators with new sentences: Include parole violators with or without new sentences and other conditional release violators without new sentences. Other unconditional releases: The Parole Board determines the termination of sentences. Conditional releases, probations: Numbers estimated.

**Iowa**--Population, admissions and releases counts: Based on custody data. Parole violators only, no new sentences: Include persons returned to prison to await a revocation hearing. Other admissions: Include safekeepers. Other unconditional releases: Court-ordered discharges. Conditional releases, paroles: Include prisoners remanded to prison prior to a formal revocation hearing at which they were returned to parole. Also include inmates released to parole by Conditional Commutation Orders. Other conditional releases: Include releases to work release programs. Unspecified causes of death: Cause of death not known at time of data collection. Other releases: Include safekeeper releases.

**Kansas**--New court commitments: Include some prisoners returning from appeal

or bond. Other conditional release violators, with or without new sentences: Include some probation violators who should have been categorized as new court commitments. Escapees and AWOL prisoners: Counted as a single category. Other admissions: Include admissions not categorized at time of data collection. Other conditional releases: Prisoners under supervision similar to that for parolees. Unspecified causes of death: Cause of death not known at time of data collection. Hispanic origin: Categorized as prisoners of unknown race.

**Kentucky**--Escapees and AWOL prisoners: Counted as a single category. Other admissions: Prisoners returned to prison by court-order. May include some prisoners returning from appeal or bond. Unspecified causes of death: Cause of death not known at time of data collection. Other releases: Court-ordered releases, conditional or unconditional. May include some releases to appeal or bond.

**Louisiana**--Sentencing information: Population with sentences of more than 1 year includes 136 male and 21 female inmates with a year or less maximum sentence. Escapees and AWOL prisoners: Counted as a single category. Other admissions: Include inmates whose admission types were not known at time of data collection. Other unconditional releases: Include court-ordered releases, pardons, and good-time releases. Unspecified causes of death: Cause of death not known at time of data collection. Other releases: Include inmates whose types of release were not known at the time of data collection. Race: Distinguished as white or black. Hispanic origin: Not included in Louisiana's data system.

**Maine**--Other conditional release violators only, no new sentence: Returns from probation. Escapees and AWOL prisoners: Counted as a single category. Other admissions: Returns from intensive supervision program. Other conditional releases: Releases to Intensive Supervision Program. Other releases: Includes releases on detainees and warrants.

**Maryland**--Category estimates: The admissions, releases, and population totals are actual counts. Categories for admissions and releases are estimated by applying percentages from automated data to the totals that are made manually. The automated data count only inmates with maximum sentences of more than 1 year, while the detailed categories in the manual data include inmates with maximum sentences of 1 year or less. New court commitments: Include some prisoners returning from appeal or bond. Parole violators, with or without new sentences: Include supervised mandatory release violators returned to prison. May also include parole violators pending revocation. Escapees and AWOL prisoners: Counted as a single category. Other unconditional releases: Court-ordered releases. May include

a small number of releases to appeal or bond.

**Massachusetts**--Population, admissions and releases counts: Based on custody data. Category estimates: The totals for admissions and releases are actual; the categories are estimated. Total jurisdiction population: Excludes 820 men and 13 women housed in jails solely to ease prison crowding. New court commitments: Include some parole violators with new sentences, other conditional release violators with or without new sentences, and returns from appeal or bond. Unconditional releases, expirations of sentence: Include some releases to probation. Other unconditional releases: Court-ordered releases and some releases to appeal or bond. Jurisdiction population, inmates with sentences of more than 1 year: Offenders who are sentenced to local correctional facilities for terms up to 2 1/2 years are excluded from counts of population, admissions, and releases; however, they may be included in reports about the jail population. Unknown race: Includes Hispanics who are not categorized as any other race.

**Michigan**--Population, admissions and releases counts: Based on custody data. Transfers to and from other jurisdictions: Include transfers to and from mental hospitals, Federal prisons, and prisons in other States. Returns to/from appeal or bond: Contain the net difference between movements to and from the courts. Unspecified causes of death: Causes unknown at the time of data collection. Hispanic origin: Includes only Mexican-Americans, who are also categorized as prisoners of unknown race. Other Hispanic prisoners are classified as non-Hispanic.

**Minnesota**--Parole violators with new sentences: Include other conditional release violators from supervised mandatory releases and work releases with new sentences. Parole violators only, no new sentences: Include other conditional release violators from supervised mandatory releases and work releases without new sentences. Escapees and AWOL prisoners: Counted as a single category. Other unconditional releases: Include prisoners discharged after the Office of Adult Releases modified their sentences or after a court or executive order. May include some commutations. Other conditional releases: Work releases. Hispanic origin: Includes 142 male and 1 female inmates categorized as unknown race. Custody population, unsentenced inmates: Include 23 male inmates held for Minnesota counties and 30 male inmates held for the U.S. Marshal.

**Mississippi**--New court commitments: Include some probation violators with and without new sentences. Other admissions: Include inmates awaiting revocation hearings, some returns from appeal or bond, and data adjustments. Other unconditional releases: Court-ordered releases. Other conditional

releases: Work releases. Other releases: Inmates who went back to prison pending a parole revocation hearing that subsequently returned them to community supervision. Also includes some releases to appeal/bond. Hispanic origin: Categorized as prisoners of unknown race.

**Missouri**--Parole violators with new sentences: Include other conditional release violators returned to prison. Parole violators only, no new sentences: Include some other conditional release violators with no new sentences. Other admissions: Include returns from AWOL/escape, appeal/bond, and shock probation. Other releases: Include releases to AWOL/escape, commutations, court-ordered releases, and shock probation.

**Montana**--New court commitments: Include some probation violators with and without new sentences.

**Nebraska**--Parole violators only, no new sentences: Include some parole violators with new sentences. Unknown race: Include inmates who did not identify their race.

**Nevada**--New court commitments: Include some returns from appeal or bond. Escapees and AWOL prisoners: Counted as a single category. Other unconditional releases: Court-ordered releases. Hispanic origin: Categorized as prisoners of unknown race.

**New Hampshire**--New court commitments: Include some prisoners returned from appeal or bond and may include other conditional release violators with or without new sentences. Parole violators only, no new sentences: Include parole violators who receive new sentences after readmission to prison. Other unconditional releases: Include court-ordered releases not specified as conditional or unconditional.

**New Jersey**--New court commitments: May include some transfers from other jurisdictions and returns from appeal/bond. Other conditional release violators only, no new sentences: Prisoners returned (some with new sentences) from the Intensive Supervision Program, an experimental program operated by the Administrative Office of the Courts. Escapees and AWOL prisoners: Counted as a single category. Other conditional releases: Prisoners released to the Intensive Supervision Program. Other admissions: Include inmates whose admission types were not known at time of data collection. Other race: Includes Hispanic inmates who are not classified as white or black.

**New Mexico**--Parole violators only, no new sentences: May include parole violators with additional sentences. Other conditional release violators only, no new sentences: Include returns from community corrections program. Other conditional releases: Include releases to community corrections program. Causes of death: Can specify only executions.

**New York**--New court commitments: Include parole violators and other conditional

release violators with new sentences. Transfers from and to other jurisdictions: Include transfers from and to the Department of Mental Hygiene for psychiatric treatment. Also include some inmates transferred to and from other agencies. Other admissions: Include 77 men and 4 women returned from conditional parole deportation to custody of the Immigration and Naturalization Services, as well as 4 men and 18 women returned following erroneous discharge. Unspecified causes of death: Cause of death not known at time of data collection. Other releases: Includes 2 men and 23 women for whom type of release was not indicated. Race and Hispanic origin: Categorized all Hispanic inmates, white and black, as white.

**North Carolina**--Sentencing information, partially suspended sentences: Some prisoners serve sentences in which the term in prison is partially suspended, to be completed under probation. They were categorized with inmates sentenced to 1 year or more only when the prison portion of their sentences exceeded 12 months. Although the maximum sentences of all such prisoners were more than 1 year, nearly all of them were included with those prisoners having sentences of 1 year or less. As a result, the counts of population, admissions, and releases of inmates with more than 1 year maximum sentences are understated, and the population count of inmates with maximum sentences of 1 year or less is overstated. Category estimates, sentencing: Population totals are actual; populations by sentence length are estimated. Parole violators with new sentences: Include some parole violators without new sentences and some other conditional release violators with or without new sentences. Escapees and AWOL prisoners: Counted as a single category. Other admissions: Include an adjustment residual to balance movement data with the Dec. 31, 1991 populations. Other unconditional releases: Include court-ordered releases. Conditional releases, parole: Include some supervised mandatory releases. Unspecified causes of death: Include a death resulting from a motor vehicle accident while inmate was being transported to work in Department of Corrections vehicle.

**North Dakota**--New court commitments: Include some parole violators with new sentences and some probation violators with new sentences. Other conditional releases: Include court-ordered releases.

**Ohio**--Sentencing information: The counts of population, admissions, and releases of inmates with maximum sentences of more than 1 year includes some inmates with sentences of 1 year or less. New court commitments: Include some other conditional release violators with new sentences. Transfers from and to other jurisdiction: Include only prisoners transferred between prison and Ohio's Forensic Unit. Escapees and AWOL prisoners: Counted as a single cate-

gory. Other unconditional releases: Include sentences vacated by courts. Race and Hispanic origin: Include counts only of jurisdictional inmates in Ohio's custody.

**Oklahoma**--Sentencing information: The counts of population, admissions, and releases of inmates with maximum sentences of more than 1 year may include a very small number of inmates with sentences of 1 year. New court commitments: Include an undetermined number of conditional release violators with or without new sentences. Other unconditional releases: Include legislative cap releases. Other conditional releases: Include commutations and legislative cap releases to probation supervision. Other releases: Include court-ordered releases not specified as conditional or unconditional. Total jurisdiction population: Excludes 411 men and 23 women housed in jails solely to ease prison overcrowding. Hispanic origin: Categorized as prisoners of unknown race.

**Oregon**--Sentencing information: The counts of population, admissions, and releases of inmates with maximum sentences of more than 1 year include some inmates with sentences of a year or less. Other admissions: Include inmates whose admission types were not known at time of data collection. Other unconditional releases: Include court-ordered releases. Other releases: Include 4 men with vacated sentences and types of release were not known at time of data collection.

**Pennsylvania**--Other admissions: Include persons returned by the Board of Probation and Parole on their original sentence pending revocation and those committed as technical or convicted parole violators. Other unconditional releases: Include court-ordered releases. Unspecified causes of death: Causes not known at time of data collection. Other releases: Include persons released to parole status who had been returned to prison pending a revocation hearing and no revocation occurred. Unknown race: Include Hispanic inmates.

**Rhode Island**--Sentencing information, partially suspended sentences: Some prisoners serve sentences in which the term in prison is partially suspended, to be completed under probation. They were categorized with inmates sentenced to 1 year or more only when the prison portion of their sentences exceeded 12 months. As a result, the population and movement counts of inmates with maximum sentences of more than 1 year are understated, and the population count of inmates with 1 year or less maximum sentences is overstated. Other conditional releases: Include an inmate who went back to prison after an erroneous release to bail who was subsequently released. Unspecified causes of death: Include a death by drug overdose. Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Rhode Island.

**South Carolina**--New court commitments: Include some transfers from other jurisdictions. Other unconditional releases: Include court-ordered releases and offenders who paid fines. Other conditional releases: Include inmates released to the jurisdiction of the Department of Parole and Community Corrections under the Emergency Powers Act.

**Tennessee**--Sentencing information: The counts of population, admissions, and releases of inmates with sentences of more than 1 year include some inmates with maximum sentences of 1 year or less. As a result, the population and movements of inmates with maximum sentences of more than 1 year are overstated. Parole violators with new sentences: May include some parole violators with no new sentences. Other conditional release violators with new sentences: Include some probation and community correction programs violators returned without new sentences. Escapees and AWOL prisoners: Counted as a single category. Releases to parole: Include some mandatory releases to supervision. Other conditional releases: Include releases to community correction programs. Jurisdiction population total: Includes 1,929 men and 89 women housed in local facilities to ease prison crowding. Excludes 2,736 felons sentenced to serve their sentences in local facilities. Unknown race: Includes all inmates who are not classified as white or black. Hispanic origin: Tennessee's data system does not distinguish Hispanic origin.

**Texas**--Population, admissions and releases counts: Based on custody data. Parole violators with or without new sentences: Texas' data system does not distinguish parole violators with new sentences from those without new sentences. Other admissions and other releases: Contain the difference between long-term admission and release movements not reported in other categories. Include prisoners returning from or leaving for long-term bench warrants and medical furloughs. Unspecified causes of death: Include all causes of death other than by execution and those relating to HIV infection. Other race: Includes inmates of Hispanic origin.

**Utah**--Other unconditional release: Include inmates whose sentences were terminated by the Board of Pardons. Unspecified causes of death: Cause of death not known at time of data collection.

**Vermont**--Parole violators with or without new sentences: May include an undetermined number of other conditional release violators returned. Total inmate population: Custody and jurisdiction counts include inmates in prisons and jails, which form an integrated system in Vermont. "Lockups" operated by some cities and counties are excluded. Population and custody counts: Made Dec. 5, 1990. Race: Numbers estimat-

ed, with less than 0.5 percent of the men classified as non-white.

**Virginia**--Other admissions: Include parole revocations pending (both discretionary and mandatory), transfers, and returns from appeal or bond. Other unconditional releases: Include administrative releases. Supervised mandatory releases and paroles: Include releases to detainer and transfers to other jurisdictions. Unspecified causes of death: Cause of death not known at time of data collection. Other releases: Include an undetermined number of persons who were returned to prison pending revocation of discretionary or mandatory parole, for whom no revocation occurred, who are being returned to parole or other supervised status. Hispanic origin: Categorized as prisoners of unknown race.

**Washington**--Escapees and AWOL prisoners: Counted as a single category. Other admissions and releases: Include inmates whose admission and release types were unknown at time of data collection. Other race: Include inmates with mixed racial origins.

**West Virginia**--Conditional releases, probation: Include some releases to court jurisdiction of inmates declared unfit to remain in a particular minimum security facility. Other admissions: Include inmates whose admission type was unknown at time of data collection. Total jurisdiction population: Excludes 263 men and 24 women housed in jails solely to ease prison overcrowding.

**Wisconsin**--Wisconsin revised the previously reported Dec. 31, 1990 population of inmates with maximum sentences of more than 1 year. Other admissions: Include 9 men and 2 women returned to prison following Special Action early releases and 1 man erroneously released. Other conditional releases: Include Special Action early releases. Other releases: Include court-ordered releases not specified as conditional or unconditional.

**Wyoming**--Population, admissions, and releases counts: Based on custody data. New court commitments and unconditional releases, expirations: May include a small number of administrative turnovers (starts and expirations of consecutive sentences). Escapees and AWOL prisoners: Counted as a single category. Other releases, men: Include releases to detainer. Other race: Includes Hispanic prisoners.

## Appendix 19

### **National Corrections Reporting Program, 1991** Methodology, offenses within categories, and jurisdictional explanatory notes

Note: The following information has been excerpted from the U.S. Department of Justice, Bureau of Justice Statistics, *National Corrections Reporting Program, 1991*, NCJ-145861 (Washington, DC: U.S. Department of Justice, 1994), pp. 1-5. Non-substantive editorial adaptations have been made.

#### **Methodology**

The National Corrections Reporting Program (NCRP) collected data on prison admissions and releases, and on parole entries and discharges for calendar year 1991. Thirty-five States, the Federal Bureau of Prisons, the Federal Parole Commission, and the California Youth Authority (CYA) provided data. States reporting in the 1991 program were Alabama, Arkansas, California, Colorado, Florida, Georgia, Hawaii, Illinois, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Virginia, Washington, West Virginia, and Wisconsin.

Multiple admissions or releases per person during the year were recorded as separate events. The NCRP data covered prisoners admitted to or released from custody regardless of the jurisdiction where the prisoner was sentenced. Persons who were sentenced to a State prison but were admitted to or released from the custody of a local jail were included in the NCRP.

Beginning in 1983 all sentenced inmates, including those with a sentence of a year or less, were counted. To assure greater comparability across jurisdictions, the 1991 data include only inmates with a sentence of more than a year except where noted.

Data on sentence length refer to the offense with the longest sentence. Whenever a sentence had both a minimum and a maximum term, the maximum was used to define the sentence length. A life sentence was defined as any prison sentence with a fixed or maximum term of life in prison, regardless of the possibility of parole.

Time served refers to the amount of time spent in prison between the date of admis-

sion and the date of release or to the amount of time spent on parole between the date of prison release and the date of parole discharge. Time served in prison underestimates the actual time served because data on time spent in jail that was credited to the prison sentence for the current offense were not available for most inmates. All tables present data for time served in prison only.

Total time under supervision was calculated by adding time spent in prison and time spent on parole.

The medians were calculated from ungrouped data, since sentencing data do not conform to the standard assumptions permitting calculations from grouped data. Because nearly all sentences are multiples of 12-month units, the assumption of an even distribution of values within groups is not met. Therefore, a shift of only a few cases may increase or decrease the median by 12 months.

In contrast to the calculation of medians, mean sentence lengths excluded prisoners with a sentence of life in prison or death. Medians are sensitive to the uneven distribution of cases; means are strongly influenced by extreme values. Because of the limitations of each measure, both medians and means were reported for sentence length.

Time served data do not group at 12-month intervals. Both medians and means have been reported to provide a more accurate summary of the data.

Year-to-year comparisons should be restricted to those jurisdictions reporting data in all years of interest. Care should be exercised when comparing groups of inmates on sentence length and time served. Differences may be the result of factors not described in the tables, including variations in the criminal histories of each group, variations in the offense composition of each group, and variations among participating jurisdictions in their sentencing and correctional practices.

#### **Offenses within categories**

Each jurisdiction's offenses were recoded to a common set of offense codes. Attempts and conspiracies were included with completed offenses, except for attempted murders and conspiracies to commit murder, which were classified as assaults.

Offense types include the following offenses:

**Homicide**--murder, felony murder, nonnegligent manslaughter, voluntary manslaughter, negligent manslaughter, involuntary manslaughter, and unspecified homicide.

**Murder and nonnegligent manslaughter**--murder, felony murder, nonnegligent manslaughter, and voluntary manslaughter.

**Murder**--murder and felony murder.

**Manslaughter**--negligent manslaughter, vehicular manslaughter, involuntary manslaughter, and negligent homicide.

**Nonnegligent manslaughter**--voluntary manslaughter, nonnegligent manslaughter, and aggravated manslaughter.

**Unspecified homicide**--homicide and homicide type not specified.

**Kidnaping**--abduction, kidnaping, and felonious restraint.

**Rape**--forcible rape, aggravated rape, sexual intercourse, and forcible sodomy without consent.

**Other sexual assault**--statutory rape, carnal abuse, gross sexual imposition by force, fondling, child molestation, and lewd acts with children.

**Robbery**--unarmed robbery, armed robbery, aggravated robbery, and forcible purse snatching.

**Assault**--attempted murder, simple assault, aggravated assault, aggravated battery, vehicular assault, and criminal injury to persons.

**Other violent**--extortion, intimidation, hit-and-run driving with bodily injury, child abuse, and criminal endangerment against a person.

**Burglary**--breaking and entering, burglary, and safecracking.

**Larceny**--theft, petty larceny, and grand larceny.

**Motor vehicle theft**--auto theft, conversion of an automobile, receiving and transferring a stolen vehicle, and unauthorized use of a vehicle.

**Arson**--arson and burning a thing of value.

**Fraud**--worthless checks, uttering, obtaining money by false pretenses, credit card fraud, fraud, forgery, counterfeiting, and embezzlement.

**Stolen property**--possession, transportation, receiving, or selling of stolen property.

**Other property**--destruction of property, vandalism, criminal tampering, trespassing, entering without breaking, and possession of burglary tools.

**Drug possession**--possession or use of controlled substances.

**Drug trafficking**--importation, manufacture, cultivation, sale, or delivery of controlled substances; possession with intent to deliver.

**Other drug**--forging or uttering a false prescription for a controlled substance; possession of drug paraphernalia, unknown drug offenses, and violations of controlled substance acts where the type of violation was unspecified.

**Weapons**--unlawful sale, distribution, manufacture, transportation, or possession of a deadly or dangerous weapon, or explosives.

**Driving while intoxicated**--drunk driving and driving under the influence of alcohol or drugs.

**Other public-order**--escape from custody, court offenses, obstruction of justice, other traffic offenses, drunkenness, disorderly conduct, morals and decency violations, commercialized vice, and liquor law violations.

**Other offenses**--juvenile offenses and unspecified felonies.

Federal offenses were recoded to many of the same categories defined above. Specific Federal categories include the following:

**Embezzlement**--postal, bank, and benefit plans.

**Fraud**--postal, passport, Veterans' and other benefits, government employment, banks, computer, and impersonation.

**Counterfeiting**--postal, money orders, securities, and altering or forging currency.

**Regulatory**--violation of banking and insurance laws, smuggling, violation of customs, election laws, food and drug laws, maritime and railroad laws, retirement act and unemployment insurance, communication law, and other regulatory provisions.

**Immigration**--illegal entry, harboring or smuggling illegal aliens, and other immigration violations.

**Tax law**--internal revenue violations, including tax fraud, tax evasion, and failure to pay excise, alcohol, inheritance, withholding, Social Security, or other taxes.

**Racketeering and extortion**--threats through the mail, over the phone, or in interstate commerce, labor racketeering, RICO, money laundering, and interference with commerce by threat or violence.

#### **Jurisdictional explanatory notes**

##### **Race**

California codes Asians/Pacific Islanders as "unknown."

Colorado, Illinois, Minnesota, New York, Oklahoma, and Texas code inmates of Hispanic origin as "unknown."

Ohio codes American Indians/Alaska Natives, Asians/Pacific Islanders as "unknown."

South Carolina's parole release records code any persons other than white or black as "unknown."

##### **Hispanic origin**

In California, Michigan, and Oklahoma, Hispanics include only those of Mexican origin.

In New York, Hispanics include only persons of Puerto Rican birth or parentage.

Federal parole release data on Hispanic origin were not available for persons released from prison before July 1983.

##### **Education**

Data on education in Maryland include credits for education received after entering prison for parole discharge records only.

Ohio data include people who have a college degree in the category of "some college."

##### **Admission date**

For New York parole release records, the date of admission is the original admission date, rather than the most recent date, if the inmate had been released and then returned.

For Federal parole release records, the date of sentencing is provided instead of the date of admission. This date is accurate for only new court commitments.

##### **Admission type**

In Colorado and New York, "new court commitments" includes some parole violators returned with new sentences.

In Minnesota, "new court commitments" includes probation violators.

In Massachusetts, "transfers" includes returns to prison after court appearance, temporary interstate transfers, transfers from other States, Federal transfers, transfers from county to State custody, and transfers from other secure facilities.

In Hawaii and Maryland, "new court commitments" includes all types of admissions.

Nebraska reported the following types of admissions: regular, multiple-offender, evaluator, Federal safekeeper, county safekeeper, and other. Since these could not be translated into the NCRP categories, they were coded as "missing/invalid data entries."

In Nevada, "parole revocation, new sentence" and "parole revocation, no new sentence" may have been underreported.

In Ohio, "new court commitments" includes an undetermined number of parole violators returned with new sentences.

In New York, admission type for parole revocations were reported for those with no new sentence only. There are no probation revocations because probation is considered a county function.

In North Carolina, "probation revocation" includes persons whose parole status was pending.

In Minnesota, "parole revocation with or without new sentence" includes mandatory parole violators returned and work release violators returned.

In North Carolina, "parole revocation, no sentence information" includes all parole violators with or without new sentences as well as pending parole revocations.

In South Carolina, "parole revocation, no sentence information" includes revocation of "Supervised Furlough II releases" and Emergency Powers Act releases.

In Texas, "parole revocation, no sentence information" and "mandatory parole revocation, no sentence information" include all parole revocations, with or without new sentences.

In Wisconsin, "parole revocation, new sentence" and "parole revocation, no new sentence" include returns of inmates released early because of overcrowding.

In South Carolina, "escapees returned" are not counted as admissions.

In Texas, "not known" includes inmates returning from vocational or educational programs.

##### **Offenses**

New Jersey, North Carolina, Pennsylvania, and South Carolina reported only one offense--the most serious.

Minnesota reports only the most recent offense instead of the most serious.

For Federal parole release records, only two offenses per inmate are reported, usually the two most serious. If an inmate receives an additional offense after admission that is more serious than the original offenses, the inmate's record is updated to show that offense.

##### **Maximum sentence and total maximum sentence**

In Illinois and Maryland persons receiving indeterminate sentences were reported as "not known" on sentence length.

In Virginia "life" includes prisoners with sentences of "life without parole" and "death."

Texas reports only total maximum sentence instead of maximum sentence for the offense with the longest sentence.

##### **Prison release date**

In the Federal prison system and Maryland, the prison release date on parole exit records

is the date parole supervision begins, not the actual release date.

#### **Prison release method**

In Massachusetts, "parole board decision" includes some inmates released by the Massachusetts parole board to another parole board.

In New York, "parole board decision" includes some inmates released by commutation/pardon.

On prison release records in South Carolina, "parole board decision" includes inmates released from a Youthful Offenders Act sentence to a straight sentence and vice versa. Also "other unconditional release" includes those inmates who paid a fine after serving some prison time; those whose sentence was reduced; those who were retired; and those released for medical reasons. On parole release records, "parole board decision" includes inmates released to supervised furlough.

In Wisconsin, "parole board decision" includes early releases because of overcrowding.

In New York, "mandatory parole releases" includes early releases for good time served.

In Minnesota, "other conditional releases" includes work releases.

Mississippi's "other conditional releases" includes split sentences, work release, and supervised earned releases.

New York codes "releases to custody, detainer, or warrant" as either "parole board decision" or "mandatory parole release."

In Ohio, "other conditional releases" consists of releases for educational or vocational purposes, inmates paroled or shock paroled, on detainer, and under interstate compact.

In Oklahoma, "transfers to probation and probation from house arrest" are coded as "probation release."

In South Carolina, "other conditional releases" consists of persons released by the Emergency Powers Act, which include Supervised Furlough II, The Emergency Prison Overcrowding Powers Act, and EPA II.

For the California Youth Authority, "other conditional releases" includes some discharges to prison.

"Other unconditional releases" in Maryland, Ohio, and Texas consists of court-ordered releases.

"Other unconditional releases" in Minnesota consists of discharges of persons with indeterminate sentences by the releasing authority.

In Mississippi, "other unconditional releases" includes shock probation, court suspensions, and court-ordered releases.

In Nebraska, "other unconditional releases" consists of persons whose sentence was vacated.

In Tennessee, "other unconditional releases" consists of unconditional releases to probation.

In Ohio, "other releases" consists of inmates-at-large who did not belong to any other NCRP category.

In Texas, "other releases" includes inmates released to attend vocational or educational facilities.

#### **Parole release method**

In the Federal prison system, "discharged, completion of term" includes absconders, inmates whose convictions were reversed, and inmates who were pardoned.

Maryland includes inmates who failed to comply with special conditions of their parole as "discharged, absconder."

In New York, "other releases" includes parole board decision (discretionary after 3 years) court-ordered releases; new revocations, not pursued; and cases in the revocation process in which statutory requirements were not fulfilled.

In Pennsylvania, "other releases" includes persons who have reached their maximum expiration date and who are in one of the following categories: criminal charges pending, absconders, or returned to home State.

## Appendix 20

### **National Drug and Alcoholism Treatment Unit Survey (NDATUS) 1991** Survey methodology, data limitations, and definitions of terms

Note: The following information was excerpted from the U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, *National Drug and Alcoholism Treatment Unit Survey (NDATUS) 1991, Main Findings Report* (Rockville, MD: U.S. Department of Health and Human Services, 1993), pp. 1-4, 21, 22, 24, 49, 53, 75-82. Non-substantive editorial adaptations have been made.

#### **Survey methodology**

The National Drug and Alcoholism Treatment Unit Survey (NDATUS) was conducted as of Sept. 30, 1991. The 1991 NDATUS was a joint effort between the National Institute on Drug Abuse (NIDA) and the National Institute on Alcohol Abuse and Alcoholism (NIAAA), with other Federal agencies also cooperating in the survey. The NDATUS is a national survey which is designed to measure the location, scope, and characteristics of drug abuse and alcoholism treatment and prevention facilities, services, and activities throughout the 50 States, the District of Columbia, Guam, Puerto Rico, the Trust territories, and the Virgin Islands. The NDATUS is the only survey that includes private as well as publicly funded programs. Data collected from all treatment units include unit identification, type and scope of services provided, client capacity and utilization, selected client characteristics, sources of funding, and staffing. Prevention type facilities completed a partial survey, which includes data on unit identification and types and scope of services provided. Unless otherwise noted, all data are based on information collected as of Sept. 30, 1991.

The 1991 NDATUS was largely dependent on participation from the States to ensure proper identification of all existing active units, including new or closed units, and to assist in distributing and collecting the NDATUS forms from the participating units. Although the level of effort involved in reviewing and editing the NDATUS forms varied by State, a representative from each State attended formal training sessions to assure that he or she possessed sufficient expertise to perform the required survey functions and to provide assistance to the reporting units. To further clarify the reporting requirements, each State and reporting unit was provided a manual

containing item-by-item instructions and a glossary of definitions. On-site technical assistance was available and offered to all States. Technical assistance to State staff was also provided by telephone.

For this survey, an individual was counted as an active client if the following three criteria were met: (1) the individual had been admitted to treatment and a treatment plan had been developed; (2) the individual had been seen on a scheduled appointment basis at least once during September 1991; (3) the individual had not been discharged from treatment by Sept. 30, 1991. For inpatients and residential patients, this definition applied to active clients as of Sept. 30, 1991. For outpatients, individuals were to be counted as active if they received treatment between Sept. 1 and Sept. 30, 1991.

#### **Treatment unit participation**

A total of 11,277 units reported data to the 1991 NDATUS; 80.3 percent of responding units provided treatment, the remaining 19.7 percent did not provide treatment. A total of 14,468 preprinted forms were mailed to the States for distribution to the programs or units. In addition, 390 new units identified by the States were surveyed using blank forms. A total of 14,858 treatment and prevention units were surveyed. Of these units, 1,111 were either closed, reported at the program level, were no longer appropriate for inclusion in NDATUS (i.e., no longer served substance abuse clients), or reflected duplicate forms. Thus of the total surveyed, 13,747 units were considered to be active units (although whether they are treatment units is not known where no response was received). Altogether, 11,277 units responded to the NDATUS, and 2,470 units did not respond. The 1991 NDATUS therefore achieved an overall response rate of 82.0 percent.

#### **Data limitations**

There are certain procedural considerations and limitations which must be taken into account when interpreting the data from the 1991 NDATUS. The following issues should be considered:

While NDATUS attempts to obtain responses from all known treatment units, it is a voluntary survey. While the response rate is believed to be very high among treatment units, it must be recognized that treatment units which did not respond to the survey are not reflected in the data presented.

Data on the number of reporting units from the 1991 NDATUS are not comparable to prior NDATUS surveys. In the 1987 NDATUS, States were given the option of allowing units to report aggregate data at the administrative or program level rather than at the

clinic level. This option had not been available in previous NDATUS efforts. Under this option, a program consisting of a number of clinics may now report data for the entire program on one survey form rather than submitting a separate survey form for each clinic in the program. Since each completed survey was counted as a single reporting unit, this optional change in reporting level had the effect of reducing the number of currently operating units when compared to NDATUS surveys prior to 1987. It should be noted that if the choice was made to report at the program level, then the program level entry was the only one that appeared in the National Directory. While the data on numbers of units were rendered incomparable between NDATUS efforts because of the optional change in reporting level, the data on numbers of clients were not affected by the change in reporting level. Client data were unaffected because capacity, clients in treatment, and client characteristics, etc., from all component clinics were included in the program-level response. The choice to report at the program level was made either at the State level or by the units themselves. Thus the degree of reporting at the program level varied within and across States and probably varied between the 1987 NDATUS and the 1991 NDATUS.

Because NDATUS is based on a reference date, the data reported include only those clients who were in treatment as of Sept. 30, 1991. The definition of "in treatment" includes inpatients who were in the unit on Sept. 30, 1991 and outpatients who had been seen at least once during September 1991. Clients need not have actually been seen on that date to be reported but must have been currently enrolled in the treatment program. Exceptions to the reference point reporting procedures include data on funding, on the annual unduplicated client count, and on staffing. The first two of these items cover a 12-month period, and the third covers a one-month period. The funding data, as discussed below, are based on a 12-month period that included the reference date; this period may vary from one unit to another. The unduplicated count of clients is the number of different clients a unit served in the 12-month period ending with Sept. 30, 1991; thus, it is only unduplicated within units. As clients could be treated at more than one unit reporting to NDATUS within the time period covered, tabulations of the unduplicated annual client count variable may, in fact, include some multiple counting. Staffing data include all staff who worked during the month of September, regardless of whether they were still working on Sept. 30, 1991.

Data on total capacity must be treated with caution. The inpatient or residential capacity is determined by the unit's total number of beds. However, it should be noted that in

units providing multiple types of services, the same beds could be used by clients in different treatment modalities or types of care. Units that did not report total capacity were excluded from the calculations of utilization rates. The utilization rate is calculated by dividing the actual number of clients by the total capacity and reporting the result as a percentage.

All active clients were identified as clients for a primary problem of drug abuse, a primary problem of alcoholism, or both drug abuse and alcoholism problems. Client diagnoses differed substantially among unit locations. For example, correctional facilities and other residential facilities had low proportions of alcoholism clients while halfway houses had low proportions of drug abuse clients. The distribution of reported diagnoses also varied considerably among States.

The NDATUS collects data on units, not individuals. Data on clients represent aggregate client counts for each reporting unit, not records on individual clients. Data collected in different matrices of the NDATUS form are only indirectly related at the unit level. Data on different client demographic characteristics, for example, are reported on different matrices. It is possible to report how many female clients and how many youth clients a unit has, but not how many female youth clients the unit has. Similarly, data on client characteristics and sources of funding are reported in separate matrices, so that relationships between funding and client characteristics cannot be analyzed directly. To avoid the loss of usable information, all responding units were retained in the database. When a unit did not report complete information, it was excluded from the tabulation for which data were missing. As a result, the number of treatment units on which tables are based varies somewhat from table to table.

#### Definitions of terms

**Black (not of Hispanic origin)--**A person having origins in any of the peoples of sub-Saharan Africa or Haiti who does not self-classify as Hispanic.

**Capacity of treatment--**The maximum number of individuals who could be enrolled as active clients as of Sept. 30, 1991 given the unit's staffing, funding, and physical facility at that time. For residential and other 24-hour care units, treatment capacity is equal to the number of beds available at the unit. For ambulatory (less than 24-hour care) units, treatment capacity reflects the maximum active client caseload a unit could carry. This maximum caseload would depend upon such factors as the percentage of staff hours devoted to direct client care, the average length of counseling sessions, and the frequency of client visits to the unit.

**Hispanic--**A person of Cuban, Mexican, Puerto Rican, and all other Spanish cultures and origins, regardless of race (includes Central and South America and Spain).

**Methadone treatment--**Methadone maintenance or detoxification. Methadone maintenance is the continued administration of methadone, in conjunction with provision of appropriate social and medical services at relatively stable dosage levels. Methadone is used as an oral substitute for opiates during the rehabilitative phase of treatment. This category also includes those clients who are being withdrawn (i.e., detoxified) from maintenance treatment.

**Nonmethadone treatment--**Formal organized services for persons who have abused alcohol and/or other drugs. These services are designed to alter specific physical, mental, or social functions of persons receiving care by reducing client disability or discomfort, and ameliorate the signs or symptoms caused by alcoholism and/or drug abuse. For purposes of this survey, detoxification services are considered to be a treatment. This also is referred to as recovery services in some States.

**Prevention/education--**Activities that are intended to reduce or minimize the incidence of new drug abuse or alcoholism problems and the negative consequences of the use of alcohol and/or licit or illicit drugs. Available services may vary widely but generally are associated with information, education, alternatives, and primary and early intervention activities, and also may encompass services such as literature distribution, media campaigns, clearinghouse activities, speaker's bureau, and school or peer group situations. These services may be directed at any segment of the population.

**Treatment unit--**A facility having: (1) a formal structured arrangement for alcohol or drug abuse treatment or recovery using alcohol or drug-specified personnel; and (2) a designated portion of the facility (or resources) for treatment services; and (3) an allocated budget for such treatment services. The unit usually offers some form of initial evaluation or diagnosis of its clients and, thereafter, may include a wide range of different services, such as counseling, job placement, or other rehabilitation services. This is also referred to as a recovery unit in some States.

**Unduplicated annual client count--**The number of different clients a unit served in the 12-month period ending Sept. 30, 1991. This number is unduplicated only within units. As clients could be treated at more than one unit reporting to NDATUS at some time during the 12-month reference period, tabulations of the unduplicated annual count may in fact include some multiple counting.

**White (not of Hispanic origin)--**A Caucasian person having origins in any of the people of Europe (includes Portugal), North Africa, or the Middle East.

## Index

### ABORTION

- Public opinion, 2.2, 2.52, 2.98
  - As important problem, 2.2
- College freshmen, 2.98
- Legality, 2.52

### ABUSE AND NEGLECT

- Juveniles in custody, 6.11
- Public opinion, 2.73
- Self-reported victimization, 3.33

### AIDS

- Among State and Federal prisoners, 6.50, 6.51, 6.52, 6.105
- Characteristics, 6.51, 6.52
- Deaths, 6.105
- Total cases, 6.50
- Public opinion, 2.74, 2.75, 2.102

### AIR PIRACY

- See Hijackings

### ALCOHOL

- Arrests for alcohol-related offenses, 4.1, 4.3, 4.7-4.17, 4.31, 4.32
  - Age, 4.7, 4.8, 4.10, 4.11, 4.13, 4.15, 4.17
- Cities, 4.3, 4.12, 4.13
- Race, 4.11, 4.13, 4.15, 4.17
- Rates, 4.3
- Rural counties, 4.3, 4.16, 4.17
- Sex, 4.9, 4.10, 4.12, 4.14, 4.16
- Size of place, 4.3
- State, 4.32
- Suburban areas, 4.3, 4.14, 4.15

#### Convictions, 5.18

- Court cases, Federal, 5.14, 5.17, 5.18, 5.22, 5.23, 5.28, 5.30, 5.44, 5.45
- Length of trials completed, 5.30
- Number of defendants
  - Convicted, 5.18
  - Disposed, 5.44
  - Prosecuted, 5.8
  - Sentenced, 5.22, 5.23, 5.45

#### Declined for prosecution, 5.15

#### Drinking age, 1.111

#### Driving while intoxicated

- Characteristics of statutes, 1.111-1.114
  - Blood alcohol tests, 1.111-1.113
- Sanctions, 1.114
- Fatal accidents, 3.104, 3.105
- Federal parks, 3.120
- Jail inmates, 6.23, 6.24
  - Characteristics of offenders, 6.23
  - Length of sentence, 6.24

#### Involvement in automobile crashes,

3.104-3.106

Fatalities, 3.104-3.106

#### Juveniles/youth in custody, 6.12

#### Problems resulting from use, 3.103

Public opinion, 2.25, 2.40, 2.67, 2.76, 2.79, 2.80, 2.90, 2.93

As cause of violent crime, 2.25

Availability, 2.79

Disapproval of use, 2.93

### ALCOHOL, Public opinion (continued)

- Drunkness as problem in neighborhood, 2.40
- Harmfulness, 2.80, 2.90
- Law forbidding sale, 2.67
- Public policies, 2.14
- Students, 2.79, 2.80
- Teenagers, 2.76
- Sentences, 5.22, 5.23
- Treatment units, 6.79-6.81, 6.83, 6.84
  - Capacity, 6.79
- Clients, 6.79-6.81, 6.84
  - Age, 6.80
  - Race/ethnicity, 6.82
  - Sex, 6.81
- Number of units, 6.79, 6.83, 6.84
- Type of service, 6.83, 6.84
- Utilization rate, 6.79

### Use

- Age at first use, 3.85
- Among drivers in fatal accidents, 3.105
- Among students, 3.85
  - Frequency, 3.86
- As source of family trouble, 3.103
- Problems resulting from use, 3.103
- Self-reported, 3.59, 3.72-3.74, 3.76-3.81, 3.83, 3.85-3.87, 3.91-3.93, 3.100-3.105
  - Among adolescents, 3.59
  - College students, 3.81
  - High school seniors, 3.72-3.74, 3.76-3.80, 3.85, 3.86
    - Driving under the influence, 3.72-3.74, 3.76
  - High school students, 3.85, 3.86
  - National households, 3.87, 3.91-3.93
- Problems resulting from use, 3.103
- Young adults, 3.83

# ***Correctional Populations in the United States, 1992***

**The 8th annual BJS report  
on the Nation's jail and prison  
inmates, probationers, parolees,  
and inmates under sentence  
of death, available spring 1994.  
Send in your order *today!***

- In one book, you get a summary of criminal justice characteristics of the population under correctional supervision — admission type, release type, sentence length, escapes, probation and parole violations, facility crowding, and deaths in prison.

- The book presents data State by State, except for local jails.

- More than 150 pages of tables, questionnaires, and explanatory text represent all major components of corrections: probation, jail, prison, parole, and persons under sentence of death.

- Aggregate data describe inmates or persons under community supervision — their sex, race, and Hispanic origin.

- 26 large tables, based on individual-level data, present detailed information on persons who entered prison under sentence of death, who were executed, or whose capital sentence was removed. The information includes criminal history, sex, race, age, marital status, and level of education.

## **Notice of change in distribution policy**

Because of the increased cost of printing, postage, shipping, and handling, BJS can no longer mail large documents without a specific individual order.

Readers will continue to receive Bulletins and Special Reports but must order large final reports such as *Correctional Populations in the United States, 1992*, using this order form.

☐ Yes! Send me 1 copy of NCJ 146413  
***Correctional Populations in the United States, 1992***

Evaluation form for  
Sourcebook of Criminal Justice Statistics 1993

1. For exactly what purpose did you consult the Sourcebook?
2. Was the Sourcebook adequate for that purpose? ☐ quite adequate ☐ adequate ☐ somewhat adequate ☐ not adequate  
☐ quite inadequate  
Specifically, what helped or hindered your achieving that purpose?
3. Can you suggest data from primary sources (not found in the Sourcebook) the inclusion of which would have helped you achieve your purpose? (Please give full citations.)
4. Are there data from other primary sources which you would suggest including in future Sourcebooks?
5. Can you point out specific table notes which are not clear or additional terms which need to be defined?
6. Are there sources of data included in the Sourcebook which are of strong interest to you, but of which you were not aware before consulting the Sourcebook? (Please specify sources.)
7. To achieve your purpose, was it necessary for you to consult the original source of the data? For what reason?
8. In what capacity did you consult the Sourcebook? ☐ criminal justice agency employee (*specify functional area*) ☐ researcher  
☐ student ☐ other governmental agency employee ☐ educator ☐ other
9. On about how many separate occasions have you consulted the Sourcebook?
10. Add any additional comments you care to make.

# BJS DATA ON CD-ROM

## Crime Victimization Data, 1973-1991

The Bureau of Justice Statistics (BJS) presents crime victimization data on CD-ROM. Prepared by the Inter-university Consortium for Political and Social Research (ICPSR) at the University of Michigan, the CD-ROM contains National Crime Victimization Survey data sets, including the following:

- 1986-1990 Longitudinal File
- 1991 Full File
- Incident Level Files
- Rape Victim Sample

The BJS Crime Victimization Data CD-ROM contains ASCII files that require the use of specific statistical software packages and does not contain full-text publications. SAS and SPSS setup files are provided.

This CD-ROM can be purchased from the Bureau of Justice Statistics Clearinghouse for \$15. It is available free through ICPSR member institutions.

**For more information, call 1-800-732-3277**

To order your copy of the BJS Crime Victimization Data CD-ROM, please send a check or money order made out to the BJS Clearinghouse to Box 179, Annapolis Junction, MD 20701-0179.

You may also purchase the CD-ROM by using VISA or MasterCard. Please include type of card, card holder's name and address, card number, and expiration date for processing. To expedite service, you may fax your order to (410) 792-4358.

Credit Card Number \_\_\_\_\_ Expiration Date \_\_\_\_\_  
Name and Address of Card Holder \_\_\_\_\_

## Bureau of Justice Statistics reports

(Revised September 1994)

Call toll-free 800-732-3277 to order BJS reports, to be added to one of the BJS mailing lists, or to speak to a reference specialist in statistics at the Bureau of Justice Statistics Clearinghouse, P.O. Box 179, Annapolis Junction, MD 20701-0179; or fax orders to 410-792-4358. For drugs and crime data, call the Drugs & Crime Data Center & Clearinghouse, 1600 Research Blvd., Rockville, MD 20850, toll-free 800-666-3332.

### BJS maintains these mailing lists:

- Law enforcement reports
- Federal statistics
- Drugs and crime data
- Justice expenditure and employment
- Privacy and security of criminal histories and criminal justice information policy
- BJS bulletins and special reports
- State felony courts
- Corrections
- National Crime Victimization Survey
- Sourcebook of Criminal Justice Statistics (annual)

Single copies of reports are free; use title, NCJ number to order. Postage and handling are charged for bulk orders of single reports. For single copies of multiple titles, up to 10 titles are free; 11-40 titles \$10; more than 40, \$20; libraries call for special rates.

Public-use tapes, disks, and CD-ROM's of BJS data sets and other criminal justice data are available from the National Archive of Criminal Justice Data (formerly CJAID), P.O. Box 1248, Ann Arbor, MI 48106 (toll-free 800-999-0960).

## Law Enforcement Management and Administrative Statistics

LEMAS, 1990: Data for individual agencies, 100 or more officers, NCJ-134436, 9/92

### BJS bulletins and special reports

Census of State and local law enforcement

agencies 1992, NCJ-142972, 7/93

Drug enforcement by police and sheriffs'

departments, 1990, NCJ-134505, 5/92

State and local police departments, 1990,

NCJ-133284, 2/92

Sheriffs' departments, 1990, NCJ-133283,

2/92

Please put me on the mailing list for:

☐ **Current BJS Publications Catalog**

☐ **Law enforcement reports** — National data on State and local police and sheriffs' departments: operations, equipment, personnel, salaries, spending, policies, and programs

☐ **Federal statistics** — Federal case processing: investigation through prosecution, adjudication, sentencing, incarceration

☐ **Drugs and crime** — Sentencing and time served by drug offenders, drug use at time of crime by jail inmates and State prisoners, and other quality data on drugs, crime, and law enforcement

☐ **Justice expenditure and employment** — Spending and staffing by Federal/State/local governments and by function (police, courts, corrections, etc.)

☐ **Privacy and security of criminal history information and information policy** — New State legislation; maintaining and releasing intelligence and investigative records; data quality

☐ **BJS bulletins & special reports** — Timely reports of the most current justice data

☐ **State felony courts** — Defendant demographics and criminal history; pretrial release, prosecution, adjudication, and sentencing; State felony laws; indigent defense

☐ **Corrections reports** — Results of sample surveys and censuses of jails, prisons, parole, probation, and other corrections data

☐ **National Crime Victimization Survey reports** — The only ongoing national survey of crime victims

☐ **Sourcebook of Criminal Justice Statistics** (annual) — Broad-based data from 150+ sources (400+ tables, 100+ figures, subject index, annotated bibliography, addresses of sources)

☐ Send me a signup form for the **NIJ Catalog** (free 6 times a year), which abstracts both private and government criminal justice publications and lists upcoming conferences and training sessions in the field.

To be added to any BJS mailing list, please fill in this page and fax to (410) 792-4358 or fold, stamp, and mail to the address below.

# Highlights from 20 Years of Surveying Crime Victims ON SLIDES!

The Bureau of Justice Statistics (BJS) commemorates the 20th anniversary of the National Crime Victimization Survey (NCVS) by offering color slides to accompany its landmark report *Highlights from 20 Years of Surveying Crime Victims: The National Crime Victimization Survey, 1973-92*. These slides were specially designed for classroom use, training, and public presentations.

More than 40 slides illustrate the charts and graphs presented in the publication. Each slide is coded for ready reference to the full text of the report. Also included is a reproducible paper set of the slides (with supporting data tables) for creating overhead transparencies.

## Slide topics answer the frequently asked questions:

- How much crime occurs?
- What are the trends in crime?
- Who are the victims of crime?
- How much crime occurs in schools?
- To what extent are weapons involved in crime?
- Are most crimes reported to the police?

## Order your slides TODAY!

Just fill out and return this ad to:
