INTRODUCTION

This 4th edition of the Directory has been expanded to include all programs that we have identified as providing social, educational, psychological or medical services to Dade County youth. In spite of our efforts, it is possible that some programs have not been included. If so, we apologize and encourage you to let us know so that they may be included in future editions.

The Directory does not assess the quality, efficiency or availability of the services listed. Inclusion in this Directory does not represent either an endorsement nor an evaluation of the programs. Furthermore, staff and program changes occurring after publication may render some of this information obsolete.

The directory has two indexes to facilitate its use. The first one is an alphabetical listing of all programs by agency name. The second one is a listing of programs by service categories, listing all services within each category alphabetically. Many of these programs are listed under multiple headings due to the variety of services they provide.

The service categories are as follows:

- * Counseling Services
- * Day Care Services
- * Educational Programs
- * Employment/Training Programs
- * General Support Services (Legal Aid, WIC, Welfare, etc.)
- * Health Services
- * Hotlines/Information and Referral Services
- * Mental Health Services (clients served by professional clinical staff)
- * Parenting Skills Training
- * Prevention/Diversion/Rehabilitation Programs
- * Programs for Special Needs (handicapped, etc.)
- * Residential Programs
- * Substance Abuse Treatment Programs
- * Support Groups
- * Teenage Pregnancy Programs/Services
- * Victims Services
- * Youth Development/Recreational Programs

Each agency listing contains a basic description of the service(s) provided, including the geographic area served, branch offices, program goals, funding source(s), and fee(s). Client information is comprised of age, admission restrictions, referral source, and number served. Volunteer requirements for each program are also included in order to provide information to individuals who wish to donate their time, and to provide judges with a selection of possible community service sites.
