Dear Colleague:

I am pleased to present for your review and use, **Sexual Assaults in Wisconsin 1993**. This is the 10th annual report on sexual assaults in the State issued by the Wisconsin Office of Justice Assistance's Statistical Analysis Center.

Beginning in 1991, OJA began collecting sexual assault data in a format consistent with the Incident-Based Crime Reporting (IBR) system being established in the State. This report focuses on the categories of assaults which are defined by both the national and the Wisconsin IBR systems: forcible rape, forcible sodomy, assault with an object, forcible fondling, and statutory rape.

I hope this report will be a valuable resource for you. We are interested in hearing about any ways in which this report could be improved, and would appreciate any comments you may have on the report.

Sincerely,

Steven D. Sell

The Statistical Analysis Center

The Statistical Analysis Center is a program of the Office of Justice Assistance. The Center collects, analyzes, interprets, and disseminates criminal and juvenile justice data.

The Center administers the State Uniform Crime Reporting (UCR) program. The sexual assault data reported in this publication are collected as part of the UCR program. The Center also operates three other information systems: data on county jail inmates, drug enforcement Task Force data, and statewide juvenile detention data. The Center prepares annual reports and other special reports on the data and other information maintained in these systems.

In addition to operating certain data systems and disseminating related information, the Center conducts other special studies and data analyses and responds to over 400 requests for data and other information each year.

Acknowledgment

The Office of Justice Assistance wishes to acknowledge the contribution of local law enforcement agency staff and administrators in providing the data for this publication.

Without their time and diligence, this report would not be possible.

EXECUTIVE SUMMARY WISCONSIN SEXUAL ASSAULTS: 1993

Number and Nature of Sexual Assaults

- In 1993, an estimated 7521 sexual assaults were reported to law enforcement agencies, representing a 5.0 percent increase over the 1992 estimated total of 7159.
- The most common type of sexual assault was forcible fondling, which accounted for 55 percent of all reported cases.
- Of all sexual assaults, 30 percent were the most serious types of offenses (forcible rape, forcible sodomy, or assault with an object).
- Ninety-two percent of all sexual assaults were perpetrated by someone known to the victim, while eight percent were committed by strangers.
- An offender was arrested in 55 percent of all cases.
- Eighty-nine percent of all sexual assault offenders apprehended were referred to criminal or juvenile court.
- Sexual assaults occurred more frequently in the Spring and Summer months.
- Sixty percent of assaults took place in either the victim's or offender's home.
- Ninety-seven percent of assaults were committed by single offenders.

Sexual Assault Victim Characteristics

- Seventy-five percent of all sexual assault victims were juveniles. Over 68 percent of all victims were 15 years old or younger.
- The average age of all sexual assault victims was 15, the median, or middle, age was 14.
- Sexual assault victims were primarily women (85 percent) and primarily White (82 percent).
- Four percent of victims had serious injuries, an additional four percent had minor injuries.

Sexual Assault Offender Characteristics

- The average age of a sexual assault offender was 25, 10 years older than the average victim; the median, or middle, offender age was 20.
- Ninety-four percent of all offenders were male.
- Offender race was White in 75 percent of assaults; 23 percent involved Black offenders.
- A dangerous weapon was used in four percent of the reported cases, nine percent used personal weapons, and 87 percent used no weapon.
- Three percent of sexual assaults involved multiple offenders.

Forcible Rape

- Twenty-one percent of all offenses were forcible rapes.
- The average victim age was 20, with the median 18. This is considerably higher than the average age of 15 for all sexual assaults, and the median of 14.
- The average offender age was 26, with a median of 25. This is very close to the average offender age of 25 for all assaults, and the median of 20.
- Victims sustained major injuries in 10 percent of the cases reported to law enforcement.
- Apprehended offenders were referred to criminal or juvenile court in 92 percent of the cases.

Forcible Sodomy

- Five percent of all offenses were reported as forcible sodomy.
- The average victim age was 13, with the median being 10.
- The average offender age was 23, with a median of 18.
- Eighty-seven percent of apprehended forcible sodomy offenders were referred to criminal or juvenile court.

Assault with an Object

- Three percent of the cases reported were assaults with an object.
- The average victim age was 11, with the median being 10. This is considerably lower than the average age of 15 for all sexual assaults, and the median of 14.
- The average offender age was 26, with a median of 23. This is very close the overall average of 25, and median of 20.
- Eighty-three percent of apprehended offenders were referred to criminal or juvenile court.

Forcible Fondling

- Fifty-five percent of all sexual assaults were cases of forcible fondling.
- The average victim age was 14, as was the median. These numbers are very close to the overall sexual assault average of 15 and median of 14.
- The average offender age was 26, with a median of 22.
- Eighty-nine percent of apprehended forcible fondling offenders were referred to criminal or juvenile court.

Statutory Rape

- Fifteen percent of all sexual assault offenses were statutory rape.
- The average victim age as well as the median was 14; and the average offender age was 19, with a median of 18.
- Statutory rape offenders were arrested in 65 percent of the cases.
- Ninety-one percent of arrested offenders were referred to criminal or juvenile court.

INTRODUCTION

This report presents data on sexual assaults reported to law enforcement agencies in Wisconsin during 1993. Data were collected by the Statistical Analysis Center (SAC), a program of the Office of Justice Assistance (OJA), as a part of the state Uniform Crime Reporting (UCR) program.

Data on sexual assaults have been collected by SAC as part of the UCR program since January 1, 1984. Unlike most other UCR data, which are collected as aggregate statistics (monthly totals), sexual assault data are collected on a case-by-case basis. These data are collected to provide information about sexual assaults as defined by Wisconsin Statutes. Further information about the collection and interpretation of these data are found in **Appendix A**.

For many years, the UCR program has collected data on "forcible rape," defined by the UCR program as "the carnal knowledge of a female forcibly and against her will." Sexual assault in Wisconsin is defined in sections 940.225 and 948.02 of the State Statutes. The statutes define four degrees of assaultive "sexual contact or sexual intercourse" between persons of either sex. This definition is considerably broader than the UCR definition of forcible rape. A copy of the sexual assault statutory language is found in **Appendix B** of this report.

This report will focus on five sexual assault offense types defined by both the national and Wisconsin Incident-Based Reporting Systems (IBRS). These are: Forcible Rape, Forcible Sodomy, Assault With an Object, Forcible Fondling, and Statutory Rape. A copy of this data collection form is found in **Appendix C** of this report. The 1993 sexual assault statistics presented in this report are usually grouped into the offense categories listed above. They are occasionally grouped on the basis of Wisconsin sexual assault degrees; however, the statutory degree of an assault can be based on factors other than the type of assault. In particular, the age of the victim is a determining factor. For example, if the victim is 12 years old or younger, regardless whether there was sexual contact or intercourse, the assault would be a first degree sexual assault based on the victim's age.

TYPES OF SEXUAL ASSAULTS

Sexual assault, as defined by Wisconsin Statutes, encompasses a wide range of seriousness, from violent rapes to less physically injurious sexual contacts. The seriousness of an assault is, of course, related to a number of factors such as the extent of the victim's trauma, injuries, and so forth; but these are not always easily measured. Fortunately, the seriousness of the assaults are also defined, to some degree, by the five offense categories utilized in the Uniform Crime Reporting - Incident-Based system, as defined below:

Forcible Rape: Vaginal intercourse with a person, forcibly and/or against that person's will, or where the victim was incapable of giving consent because of his/her temporary or permanent mental or physical incapacity.

Forcible Sodomy: Oral or anal sexual intercourse with another person, forcibly and/or against that person's will; or not forcibly nor against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental or physical incapacity.

Sexual Assault With An Object: The use of an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, forcibly and/or against the person's will; or, not forcibly nor against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental or physical incapacity.

Note: An "object" or "instrument" is anything used by the offender other than the offender's genitalia. Examples include a finger, bottle, handgun, stick, etc.

Forcible Fondling: The touching of the private body parts of another person for the purpose of sexual gratification or victim humiliation, forcibly and/or against that person's will; or, not forcibly nor against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental/physical incapacity. *Note:* Forcible Fondling includes "Indecent Liberties" and "Child Molesting." Although "force" may not have been used, offenses may fall into this category because the victim was incapable of giving consent, or did not give consent.

Statutory Rape: Nonforcible sexual intercourse with a person who is under the statutory age of consent; *under age 16 in Wisconsin.*

NUMBER AND NATURE OF SEXUAL ASSAULTS

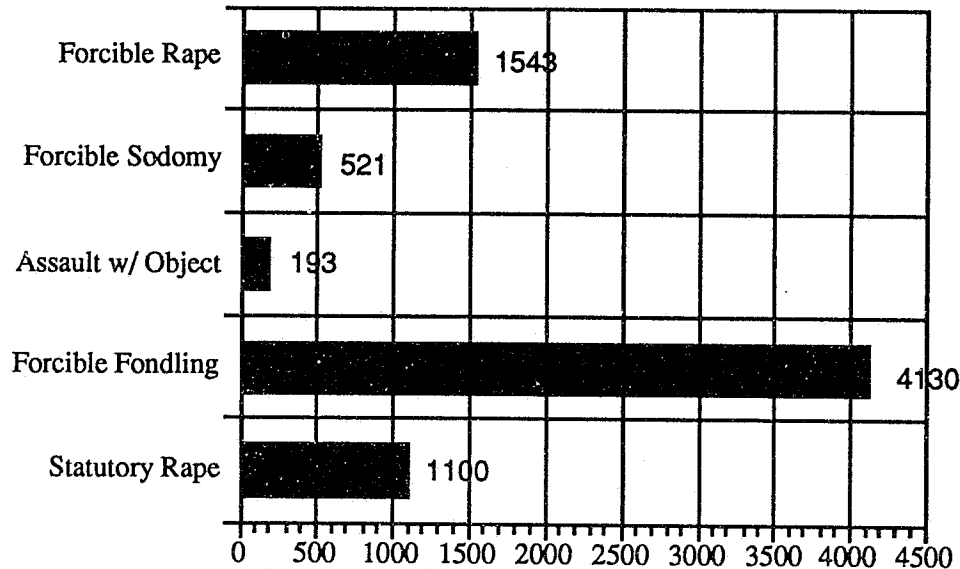

This section provides basic information on all 1993 sexual assaults. Table 1 shows assaults by category of assault and statutory sexual assault degree. Graph 1 shows the relative volume of cases of each of the types of sexual assaults. Note that these data displays, and all those that follow, except Tables 6 and 7, present reported data, excluding the small number of estimated missing cases that have been added to the state total and relevant county totals in order to estimate the universe of cases.

The five UCR-IBR categories of sexual assault defined in the previous section provide a measurable and somewhat objective means of categorizing sexual assaults by seriousness. The best objective measure of the seriousness of a sexual assault may be whether or not it involved penetration of a body orifice, with either genitalia or an object, forcibly or without consent. The most physically injurious offenses (forcible rape, forcible sodomy, and assault with an object) all encompass these characteristics and will be examined as one group later in this report. The other, less serious offenses will be examined as a separate group.

Sexual Assaults By Month

As explained in Data Collection and Interpretation, an assault is usually defined as involving one victim. When multiple victims are involved, one assault is recorded for each victim, however a single assault may involve multiple offenders. The numbers of sexual assaults with single and multiple offenders are shown below. (Multiple offender sexual assaults do not necessarily involve the same assault activity by all offenders.) The table shows that 97 percent of sexual assaults involved single offenders and three percent involved multiple offenders.

MOST SERIOUS SEXUAL ASSAULTS

The best objective measure of the seriousness of a sexual assault may be whether or not it involved penetration of a body orifice, with either genitalia or an object, forcibly or without consent. The most physically injurious offenses (forcible rape, forcible sodomy, and assault with an object) all encompass these characteristics and are further examined in this section.

Forcible Rape

- Twenty-one percent of all offenses were forcible rapes.
- The average victim age was 20, with the median 18. This is considerably higher than the average age of 15 for all sexual assaults, and the median of 14.
- The average offender age was 26, with a median of 25. This is very close to the average offender age of 25 for all assaults, and the median of 20.
- Victims sustained major injuries in 10 percent of the cases reported to law enforcement.
- Apprehended offenders were referred to criminal or juvenile court in 92 percent of the cases.

Forcible Sodomy

- Five percent of all offenses were reported as forcible sodomy.
- The average victim age was 13, with the median being 10.
- The average offender age was 23, with a median of 18.
- Eighty-seven percent of apprehended forcible sodomy offenders were referred to criminal or juvenile court.

Assault with an Object

- Three percent of the cases reported were assaults with an object.
- The average victim age was 11, with the median being 10. This is considerably lower than the average age of 15 for all sexual assaults, and the median of 14.
- The average offender age was 26, with a median of 23. This is very close the overall average of 25, and median of 20.
- Eighty-three percent of apprehended offenders were referred to criminal or juvenile court.

Graph 4 and Tables 6, 7, and 8 on the following pages present basic information on the three most serious sexual assaults: forcible rape, forcible sodomy, and assault with an object.

LESS SERIOUS SEXUAL ASSAULTS

The most physically injurious offenses (forcible rape, forcible sodomy, and assault with an object), examined in the previous section, involved penetration of a body orifice, with either genitalia or an object, forcibly or without consent. This section examines the remaining types of assaults which still meet the Wisconsin definition of a sexual assault. These offenses either involve no penetration or penetration with a willing (but underage) victim.

Forcible Fondling

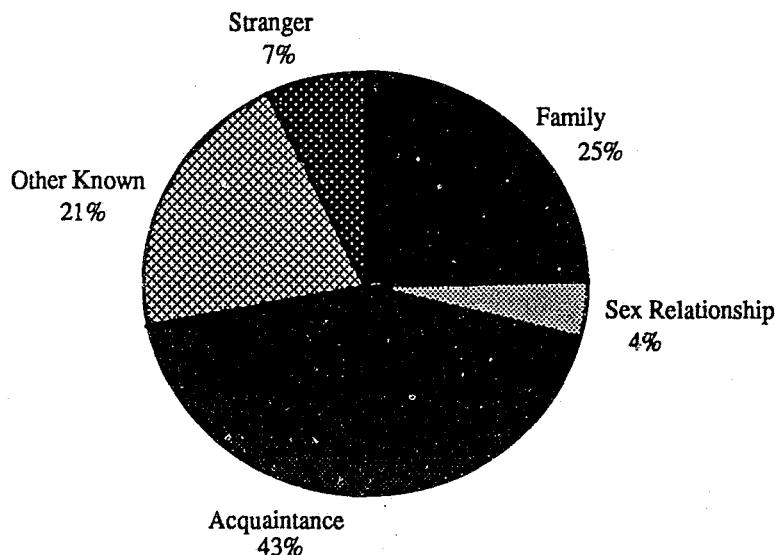

- Fifty-five percent of all sexual assaults were cases of forcible fondling.
- The average victim age was 14, as was the median. These numbers are very close to the overall sexual assault average of 15 and median of 14.
- The average offender age was 26, with a median of 22.
- Eighty-nine percent of apprehended forcible fondling offenders were referred to criminal or juvenile court.

Statutory Rape

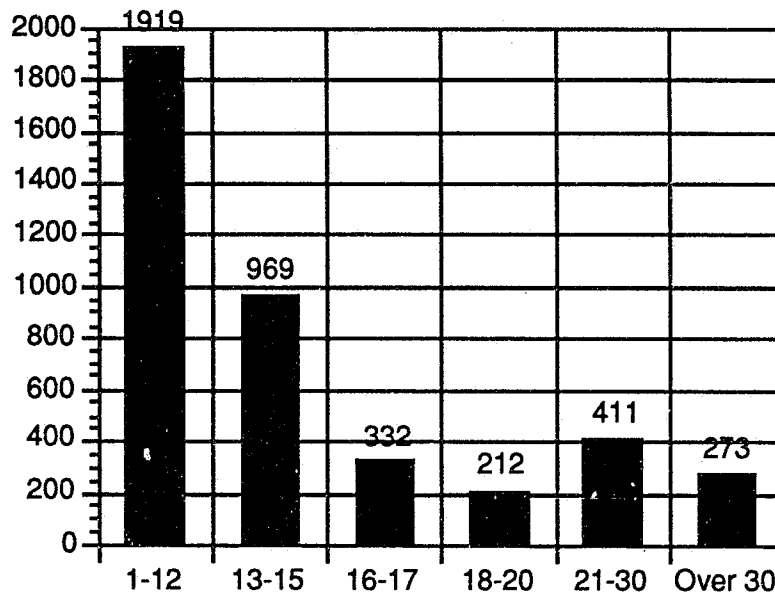

- Fifteen percent of all sexual assault offenses were statutory rape.
- The average victim age as well as the median was 14; and the average offender age was 19, with a median of 18.
- Statutory rape offenders were arrested in 65 percent of the cases.
- Ninety-one percent of arrested offenders were referred to criminal or juvenile court.

Graphs 5 and 6 show additional information regarding forcible fondling offenses. Graph 5 shows the victim-offender relationship for these cases and Graph 6 shows the general relationship to victim age. While forcible fondling incidences clearly decrease with increasing victim age, it should be noted that the age categories portrayed in Graph 6 are not of equal range.

TRENDS IN REPORTED SEXUAL ASSAULTS

There was a 36 percent increase in the estimated number of sexual assaults in Wisconsin between 1986 and 1993. During the past eight years the State experienced first a marginal decline and then a steady increase in reported sexual assaults.

SEXUAL ASSAULTS BY JURISDICTION

Sexual assault data are submitted monthly by law enforcement agencies, along with other Uniform Crime Reports for that month. If there are no assaults to report, a zero report is indicated on the cover sheet. This procedure allows missing data to be estimated for specific jurisdictions, and hence for county and state totals.

Table 10 on the following pages shows the total number of sexual assaults reported by or estimated for each reporting jurisdiction for 1993, and for comparison, 1992. County and state totals are summed from these figures.

When required, estimates were derived by the following method: For jurisdictions with at least six months of data present, an estimate total was derived by prorating from the existing data. That is, the existing data were multiplied by the quotient obtained by dividing 12 by the number of months of data present. For jurisdictions with less than six months of data present, the estimate was simply the number of sexual assaults reported or estimated for the previous year. Estimated data are indicated by the term "EST" after the jurisdiction name. Only the jurisdiction and county totals were affected by the estimation. The estimation process added 34 cases to the statewide total. The subtotals of offense type categories are actual reported data. For those agencies with estimated data, only the totals are estimated; these are not the sum of the offense type subtotals for these agencies.

The actual and estimated agency totals are summed to provide an estimated State Total at the bottom of the Table. There were an estimated 7521 sexual assaults in 1993, a 5.0 percent increase over the 1992 estimated total of 7159.

Appendix A

Data Collection and Interpretation

The assaults described and analyzed in this report are those reported to law enforcement agencies during 1993. The data are submitted to SAC as part of the monthly UCR report of law enforcement agencies. Data are collected on the Wisconsin Sexual Assault Form, which is reproduced in **Appendix C**. As with any sensitive crime, actual reports of offenses to law enforcement agencies may not be totally representative of all assaults committed. Assaults not reported to law enforcement agencies cannot be addressed in this report, even though they may be reported to other agencies such as social services or medical agencies.

The unit of analysis in this report is the assault or offense, which is usually defined as involving one victim; that is, for any given incident, one assault is counted for each victim. The one instance in which several assault incidents are counted as one assault is the case of an ongoing assault. For this report, a series of assaults on one person which constitute one "clear and distinct criminal operation" is counted as one offense. One example of an ongoing sexual assault is an intrafamilial assault situation in which incidents take place over a long period of time. This is counted as one (ongoing) assault.

The data in this report focus on all reported cases, in most cases regardless of the eventual disposition of the cases by the law enforcement agency or the court. The factual accuracy of these reported assaults and the circumstances surrounding them have, in a legal sense, not been substantiated. Although "unfounded" cases (as determined by the law enforcement agency) are still reported and maintained in the database, this report deals only with "founded" cases.

Appendix B Sexual Assault Statutes

940.225 SEXUAL ASSAULT

(1) *First Degree Sexual Assault.* Whoever does any of the following is guilty of a Class B felony:

(a) Has sexual contact or sexual intercourse with another person without consent of that person and causes pregnancy or great bodily harm to that person.

(b) Has sexual contact or sexual intercourse with another person without consent of that person by use or threat of use of a dangerous weapon or any article used or fashioned in a manner to lead the victim reasonably to believe it to be a dangerous weapon.

(c) Is aided or abetted by one or more other persons and has sexual contact or sexual intercourse with another person without consent of that person by use or threat of force or violence.

(2) *Second Degree Sexual Assault.* Whoever does any of the following is guilty of a Class C felony:

(a) Has sexual contact or sexual intercourse with another person without consent of that person by use or threat of force or violence.

(b) Has sexual contact or sexual intercourse with another person without consent of that person and causes injury, illness, disease or impairment of a sexual or reproductive organ, or mental anguish requiring psychiatric care for the victim.

(c) Has sexual contact or sexual intercourse with a person who suffers from a mental illness or deficiency which renders that person temporarily or permanently incapable or appraising the person's conduct, and the defendant knows of such condition.

(d) Has sexual contact or sexual intercourse with a person who the defendant knows is unconscious.

(f) Is aided or abetted by one or more other persons and has sexual contact or sexual intercourse with another person without the consent of that person.

(3) *Third Degree Sexual Assault.* Whoever has sexual intercourse with a person without the consent of that person is guilty of a Class D felony.

(3m) *Fourth Degree Sexual Assault.* Whoever has sexual contact with a person without the consent of that person is guilty of a Class A misdemeanor.

(4) *Consent.* "Consent," as used in this section, means words or overt actions by a person who is competent to give informed consent indicating a freely given agreement to have sexual intercourse or sexual contact. Consent is not an issue in alleged violations of sub (1)(d) and (2)(c), (d), and (e). The following persons are presumed incapable of consent but the presumption may be rebutted by competent evidence, subject to the provisions of s. 972.11(2).

(b) A person suffering from a mental illness or defect which impairs capacity to appraise personal conduct.

(c) A person who is unconscious or for any other reason is physically unable to communicate unwillingness to an act.

(5) *Definitions.* In this section:

(a) "Sexual contact" means any intentional touching by the complainant or defendant, either directly or through clothing by the use of any body part or object, of the complainant's or defendant's intimate parts if that intentional touching is either for the purpose of sexually degrading; or for the purpose of sexual humiliating the complainant or sexually arousing or gratifying the defendant or if the touching contains the elements of actual or attempted battery under s. 940.10(1).

(b) "Sexual intercourse" includes the meaning assigned under s. 939.22(36) as well a cunnilingus, fellatio or anal intercourse between persons or any other intrusion, however slight, of any part of a person's body or of any object into the genital or any opening either by the defendant or upon the defendant's instruction. The emission of semen is not required.

(6) *Marriage Not a Bar to Prosecution.* A defendant shall not be presumed to be incapable of violating this section because of marriage to the complainant.

948.02 SEXUAL ASSAULT OF A CHILD

(1) *First Degree Sexual Assault.* Whoever has sexual contact or sexual intercourse with a person who has not attained the age of 13 years is guilty of a Class B felony.

(2) *Second Degree Sexual Assault.* Whoever has sexual contact or sexual intercourse with a person who has not attained the age of 16 years is guilty of a Class C felony.
