## INDEX

## MESSAGE FROM THE SHERIFF

**1**993 was a year of tumultuous activity for our Department, a year in which we successfully met many great challenges.

Beginning early in the year and continuing into the Spring, the prolonged California drought ended with torrential rainstorms that brought widespread flooding to much of our community. The month of April found our Department, and all of the local law enforcement community, poised for the potential of renewed civil disturbances as a federal trial involving local law enforcement officers concluded. Our preparedness, coupled with restraint from within the community, prevailed. The Fall brought with it a series of devastating local wildfires. Through all of these challenges, each of you served with unshaken devotion and the utmost professionalism.

Faced with dwindling financial resources available for making our communities safer, you led the State with strong and unselfish efforts during the campaign for the passage of Proposition 172; efforts that resulted in a victory for all of us.

I have the utmost confidence that the members of the Los Angeles County Sheriff's Department will continue to meet the challenges that lay ahead, as you have done during 1993. Your spirit and your character will permit no less.

*Sherran Block*  
Sheriff

## A YEAR IN REVIEW

As we look back on 1993, a number of significant events occurred testing our mettle as an organization. We can all be exceptionally proud of our ability to embrace these challenges while maintaining our commitment to all those we serve. History will note 1993 as a year of change and we will be remembered for those tumultuous times as an organization that retained its vision and belief that our credo will always endure, "A Tradition of Service."

### *Pre-emptive Approach to Civil Disorder*

The Emergency Operations Bureau's (EOB) responsibilities include strategic, long range, disaster/emergency planning and tactical planning for major law enforcement events. Aspects of this pre-emergency planning include the training and development of individual agencies through a uniformed approach to civil disorder management. Conducted by EOB at various sites, this training has been provided to more than 3,000 local officers. Each phase was developed and tailored for its respective audience and included management concepts, leadership skills, and practical applications of proven line tactics in field environments.

In April, this concept was put to task for the first time as the federal prosecution concluded against two Los Angeles police officers. The entire law enforcement community of Los Angeles County was mobilized in preparation to optimize the availability of personnel and resources. Several civil defense regional coalitions assembled and staged their taskforce platoons at pre-identified locations that held a high probability of becoming disturbance "flash points." This gathering of coalition forces for the possibility of planned civil disobedience was a new concept for the Emergency Operations Bureau. Although no tactical response was necessary, this successful planning for civil disorder was the first of its kind conducted on a multi-county level.

### *Disastrous Wildfires*

They started in the early morning hours on October 27, and lasted until late in the evening of November 7, carving a disastrous path across some of Southern California's more scenic terrain. In its aftermath, the Altadena's Kinneloa and Malibu's Old Topanga fires resulted in four fatalities, over 22,000 acres destroyed, numerous firefighters injured, and thousands of residents evacuated from the affected area resulting in the total loss of over \$265 million. This disaster could have been much worse had it not been for the perseverance and conscientious efforts of firefighters and deputies working tirelessly side-by-side.

This dedication to duty did not go unnoticed! The editorial sections of every major newspaper contained numerous accolades from the citizens of Los Angeles County as well as voluminous personal letters written to the Sheriff's Office all expressing their personal thanks and gratitude for a job well done. These kudos are just another reason that this Department is well known for its "Tradition of Service."

### *Budget Challenge*

The passage of the fiscal year 1993-94 state budget translated to a financial disaster for the County of Los Angeles, due specifically to the property tax shift of \$2.6 billion from counties, cities, and special districts to California schools. An extension of the half-cent sales tax provided temporary relief, but it wasn't

Photos courtesy of Lieutenant Dennis Beene, Emergency Operations Bureau

enough. "Save Our Streets - Public Safety First" was the campaign slogan and battle cry led by Sheriff Block and Los Angeles County residents for the passage of Proposition 172, the Statewide Sales Tax Initiative. Several well-organized "Save Our Streets" (SOS) rallies were held throughout the County where hundreds of volunteers gathered and dispersed information to local neighborhoods, shopping malls, and business districts encouraging support for the proposition. The concerted effort of the members of this Department, our volunteers, and the community at large helped this initiative pass by an overwhelming margin. SOS campaigns do work!

### *"Ask the Sheriff" Video Series*

The Sheriff, acting on a recommendation from the Department's Service-Oriented Policing Committee, instituted a new program called "Ask the Sheriff" with the purpose of improving communication within our Department. This program has allowed the Sheriff to answer questions directly from Department members via video. Questions received were personally reviewed by the Sheriff, and those that had a Department-wide interest were answered via the "Ask the Sheriff" video series.

*Photo courtesy of Buddy Fowler, Sheriff's Information Bureau*

### *Closure of the Hall of Justice Jail*

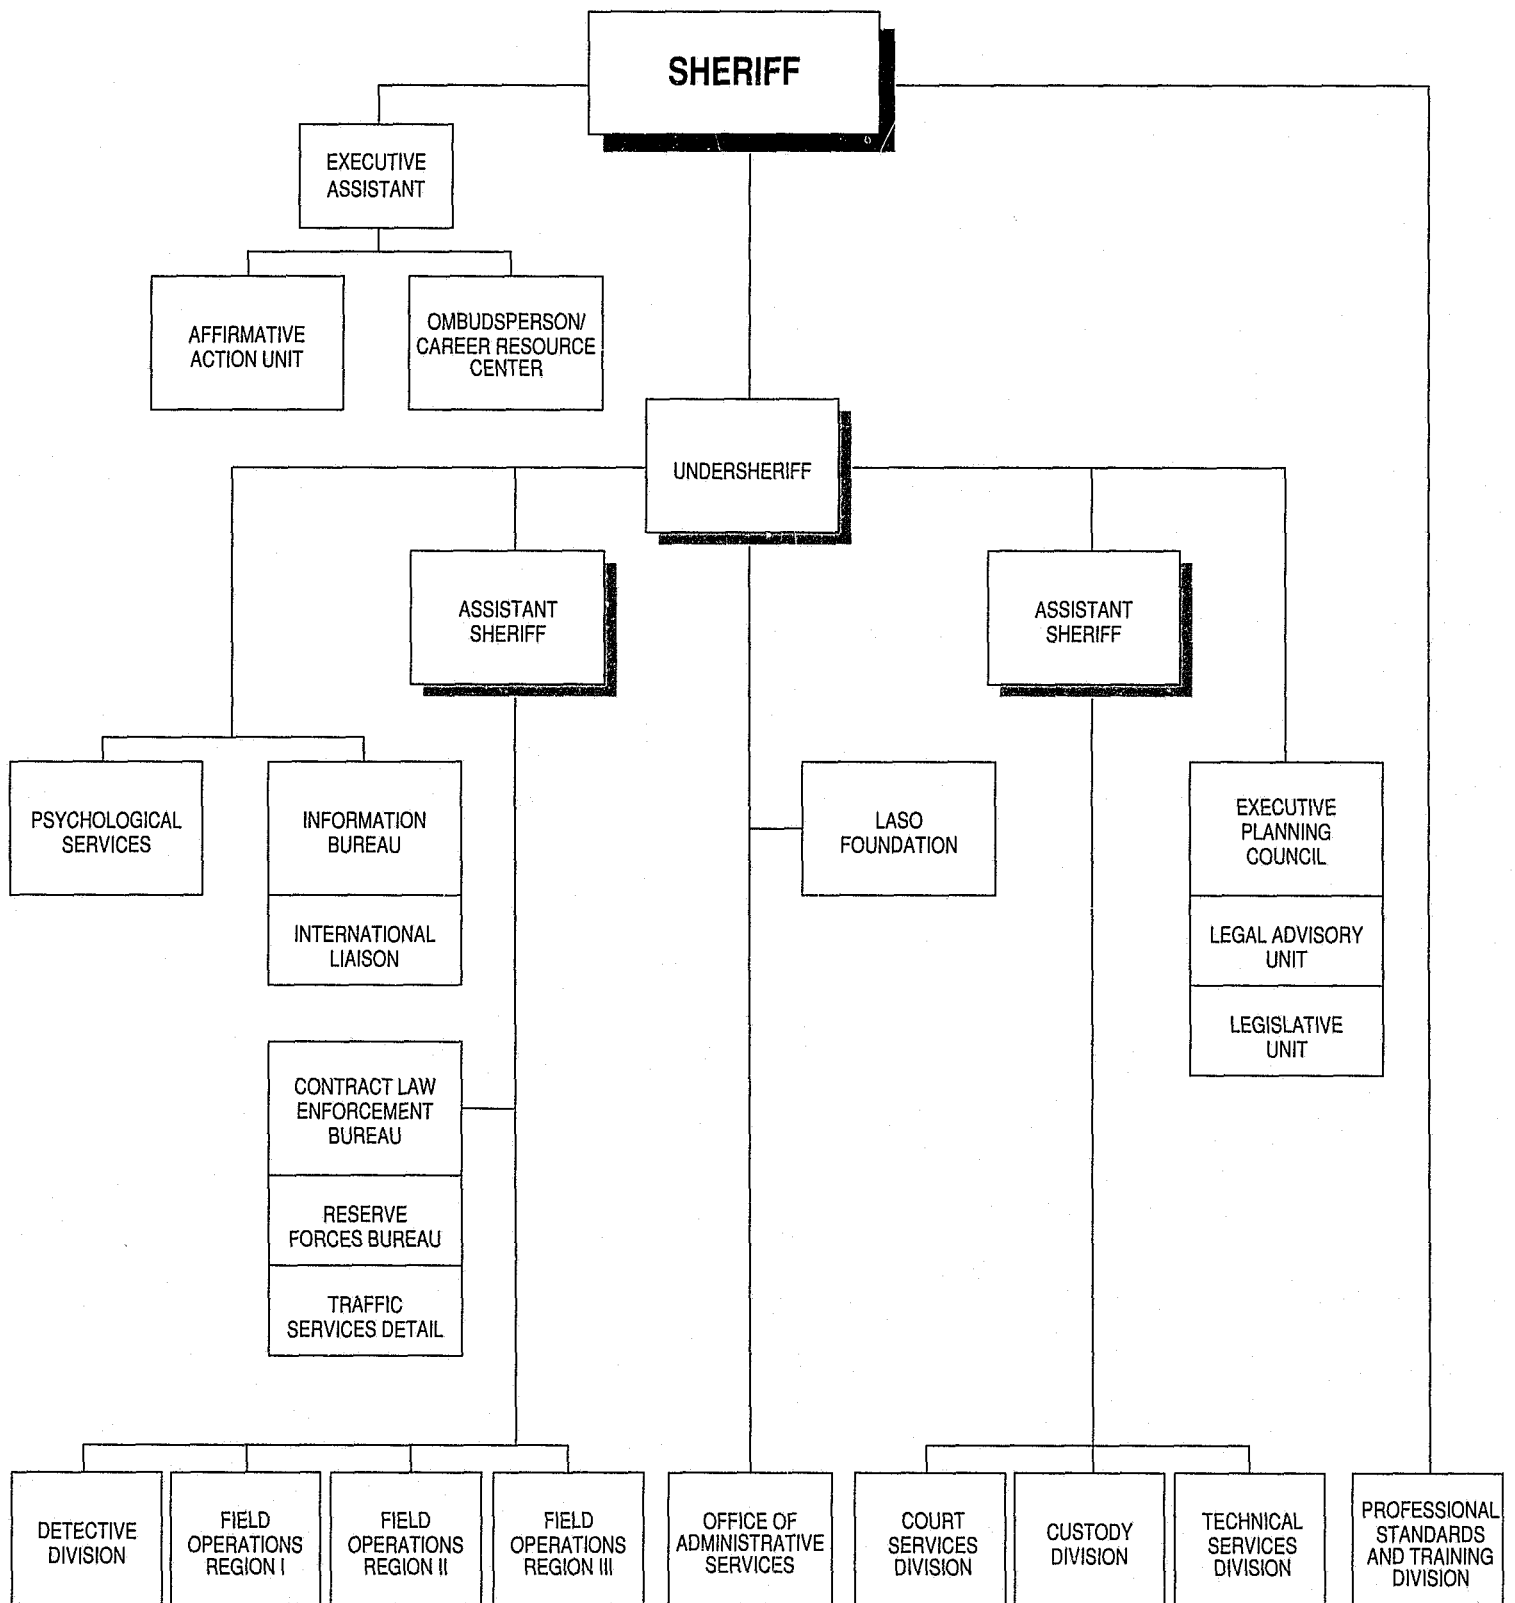

This February, we witnessed the final closing of the jail doors and the relocation of the executive offices after nearly seven decades of history. At a cost of \$6 million and with the placement of the last cornerstone in 1926, the Hall of Justice Jail opened its manually operated gates, elevators, doors, and 520 two-man cells. The Sheriff at the time was William Isham Traeger, who was appointed to the position in 1921 by the County Board of Supervisors. His department consisted of 82 sworn and civilian personnel. The "Hall" was designed to not only house the Sheriff's Office and his administrative staff, but encompassed the offices of the District Attorney, the Public Defender, the County Courts, and the Coroner. Sixty-eight years later, the jail gates closed for the last time.

### *Marshal Merger*

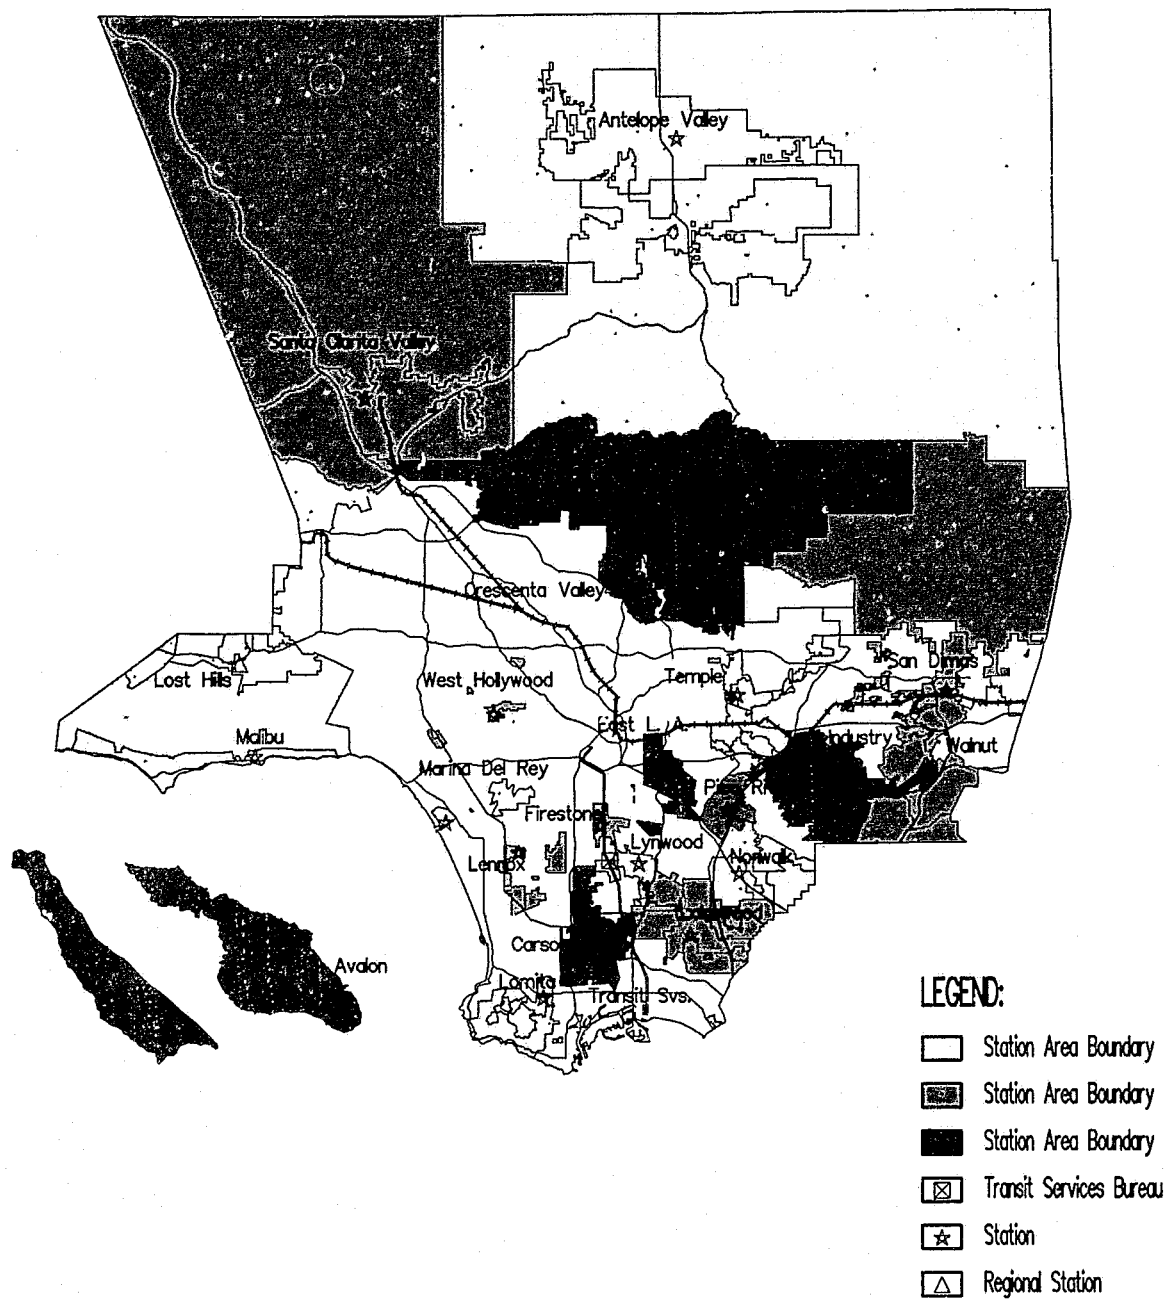

The merging of the Marshal's Department with the Sheriff's Department, effective January 1, 1994, will increase the ranks of our Department by nearly 1,000 members. The merger concept was born nearly 25 years ago, but it was the recent passage of the Katz Bill which realized this merging process. Not only was strength gained in the number of personnel, but the combined expertise and reputation of both departments continues to ring true that we're not only the largest Sheriff's Department in the country, but now the most diversified in the area of law enforcement services.

A Transition Team comprised of members of the Sheriff's Department and the Marshal's Department was formed in October 1993 to ensure the incorporation of the best of both departments and to address the needs and concerns of all personnel. In spite of being faced with several last-minute obstacles, on January 3, 1994, Robert Mann and his executives will be sworn into the Los Angeles County Sheriff's Department. Welcome aboard.

# EXECUTIVE OFFICES

# EXECUTIVE OFFICES ORGANIZATION

## EXECUTIVE OFFICES

Executive Offices is comprised of the Office of the Sheriff, Office of the Undersheriff, and Office of the Assistant Sheriffs. Responsibilities for the Office of the Sheriff include the Professional Standards and Training Division, Affirmative Action Unit, the LASO Foundation, and the Ombudsperson/Career Resource Center. Responsibilities for the Office of the Undersheriff include Psychological Services, the Executive Planning Council, and Sheriff's Information Bureau. Responsibilities for the Office of the Assistant Sheriffs include Contract Law Enforcement Bureau.

### *Affirmative Action Unit*

The Affirmative Action Unit was established in April 1989, and assigned to the Administrative Division. In April 1993, the Unit was re-assigned to the Office of the Sheriff. For purposes of administering the program, the Sheriff's Executive Assistant serves as the Department's Equal Employment Opportunity and Affirmative Action Program Director. A lieutenant is assigned as the full-time program manager.

The Affirmative Action Program Manager is responsible for implementing and managing the Department's Equal Employment Opportunity Program, consulting with Department managers on their equal employment opportunity duties and responsibilities, and preparing all statutory and management reports pertinent to the Department's Equal Employment Opportunity Program.

The Unit prepares the proposal for a yearly revision of the Department's affirmative action goals by developing work force data (in compliance with standards established by the Federal Equal Employment Opportunity Commission) necessary to analyze the outcome of personnel actions as they may affect women and minorities. The Unit also reviews existing grievance procedures and, if necessary, develop additional procedures which will support the expeditious resolution of discrimination complaints filed with either the Department of Fair Employment and Housing and the Equal Employment Opportunity Commission.

### *Ombudsperson/Career Resources Center*

The Ombudsperson/Career Resources Center (OCRC) officially commenced operations in August of 1993.

The OCRC has a dual mission. Its unit commander is the Department's employee Ombudsperson, who assists employees and applicants in the informal resolution of matters relative to gender or ethnic bias or discrimination. The Ombudsperson also provides outreach services to Departmental members who have lodged formal complaints of sexual harassment or discrimination.

The second area of responsibility is the Career Resources Center, which is charged with providing training and resources to enhance both promotional and diverse job opportunities for all employees. The Unit maintains an employee library to facilitate career enhancement and is in the process of implementing a computer system which will augment the dissemination of information regarding employment opportunities. The most significant projects thus far, have included the first annual "College Day," a setting whereby representatives from different colleges and universities gathered to explain to personnel the types of programs offered by their institutions; and a communications skills seminar which provided employees with an abbreviated course in diction and elocution. OCRC staff members also participated in the planning process for the Department's newly implemented Sexual Harassment Training and its Cultural Diversity Class for supervisors.

The OCRC also established an ad hoc committee, which is comprised of experts in various fields, as well as a sampling of clientele that the Unit will be serving. The committee and the OCRC staff are involved in an ongoing process of identifying and assessing career-enhancement-related service needs of Department personnel.

Top to Bottom: Sheriff Sherman Block; Undersheriff Jerry Harper; Assistant Sheriff Robert Ciulik; and Assistant Sheriff Raymon Morris

*Top to Bottom: Gordon Trask - Legal Advisory Unit; Audrey Honig - Psychological Services; and Captain Daniel Burt - Sheriff's Information Bureau*

From the positive response to the establishment of the OCRC, it is apparent that the Unit will play a significant role in the professional growth of employees.

### ***LASO Foundation***

The LASO (Los Angeles Sheriff's Office) Foundation is a non-profit, public benefit corporation created in 1988. The Foundation began as a vehicle through which worthy Sheriff's Department projects and programs, for which there is insufficient funding, can be supported. This support has taken the form of management expertise, capital goods, and professional services delivered to the Sheriff's Department through a private sector board of directors who are business and community leaders.

The Foundation has again proven to be of invaluable assistance to the Sheriff's Department in 1993. The Foundation assisted the Department in the completion and marketing of the Automated Commercial Crimes Information System (ACCIS), which is being administered through the Commercial Crimes Bureau, and provided technical expertise in the area of liability management to the Professional Standards and Training Division when the new Risk Management Bureau was formed.

### ***Legal Advisory Unit***

Assigned to the Executive Planning Council, Office of the Undersheriff, this Unit is responsible for providing legal services to the Department. The Unit is staffed by Departmental personnel and Deputy County Counsels assigned to the Department. Functions of this Unit include: serving as Department liaison and providing coordination with County Counsel, interpreting and defining the impact of newly passed legislation on Department operations, responding to Department telephonic requests for legal assistance pertaining to law enforcement problems encountered in day-to-day operations, conducting research projects which address Department questions on a variety of law enforcement operations, maintaining a legal library for use by Department personnel, and assisting in the instruction of sworn personnel at Advanced Officer Training programs and Cadet Training courses.

### ***Psychological Services***

Psychological Services offers confidential counseling and 24-hour emergency response to all Department personnel and their significant others. Services continued to be provided to over 1,000 clients this year, including those in need of debriefings for officer-involved shootings and other critical incidents. Though budget cuts required the closing of the La Mirada office and curtailment of hours at the Palmdale office, efforts by those in the Downtown and Palmdale offices have allowed the Unit to continue to provide a full spectrum of services to Department personnel.

Over the past year, Psychological Services provided consultation to Department supervisors and managers. The Unit also participated on several committees focused on improving the organizational climate. Unit personnel developed and disseminated a variety of brochures and self-assessment materials on Wellness. Sexual harassment trainings were developed, implemented at the executive level, and will be scheduled for all Department personnel. To keep other trainings current and up-to-date, Unit personnel worked on reviewing and revising POST (Peace Officer Standards and Training) courses. They also researched and provided reviews on the role of police psychologists in training and examined the impact of a law enforcement career on family life.

### ***Sheriff's Information Bureau***

The Sheriff's Information Bureau is primarily responsible for maintaining the Department's operational logs and disseminating information and news to the general public, members of the Department, and the news media. These functions are performed through the operation of a 24-hour command center providing continual liaison with the electronic and print media and the community and by responding to telephonic and written inquiries. The Bureau is also responsible for coordinating various Department events, including the Peace Officers' Memorial, awards programs, dedication ceremonies, etc.

**Sheriff's Department Annual Toy Drive:** On December 13, 1993, this Bureau coordinated the collection and distribution of over \$150,000 in toys for needy children in Los Angeles County. These toys and other contributions were received from the generosity of the men and women of this Department and several other major contributors and were distributed to a host of agencies such as Children's Hospital, the Maravilla Foundation, the Greater Los Angeles Council on Deafness, as well as the many needy and deserving children within our station areas. This was truly a memorable event!

**Sheriff's Annual "Gun Dump:"** The proliferation of handguns in our society led to a record year in which the number of weapons destroyed exceeded those of prior years. This year's event, coordinated by this Bureau, resulted in 2,891 rifles, 8,323 handguns, 4,603 miscellaneous weapons, totalling 11,214 for final destruction; a 12 percent increase over last year's weapons destruction.

**Joint Information Center:** The function of the Joint Information Center (JIC) is to expedite the coordination and dissemination of public information by Los Angeles County's major departments in the event of a disaster. Recognizing that the area news media is best equipped to provide emergency information to the general public, the Sheriff, in his role as Director of Emergency Operations, resolved that the media must have immediate access to critical information with a single site to expedite this flow of information. This location was referred to as the Joint Information Center, located adjacent to the Information Bureau, and was staffed by representatives from our Bureau, Office of Emergency Management, National Guard, California Highway Patrol, and County Fire Department. Other agencies are called upon to staff the JIC as conditions dictate. This new concept was utilized twice in 1993 and proved to be a valuable tool in disseminating critical information during emergencies.

**Peace Officers' Memorial Ceremony:** On May 12, 1993, the Twenty-Fourth Annual Peace Officers' Memorial took place at the Sheriff's Training Academy and Regional Services (STARS) Center. Plaques displaying the names of nine Los Angeles County peace officers were added to the 373 other brave men and women who gave their lives carrying out the commitment they made to their communities when they pinned their badges to their chest.

- Deputy Richard Hammack, Los Angeles County Sheriff's Department, May 11, 1992
- Officer John Hoglund, Maywood Police Department, May 29, 1992
- Officer Fidel Aleman, California Highway Patrol, July 23, 1992
- Detective Edward Kislo, Los Angeles Police Department, August 23, 1992
- Officer Raymond "Skip" Messerly, Los Angeles Police Department, October 21, 1992
- Officer David Schmid, Los Angeles Police Department, December 16, 1992
- Officer Edward Reed, Jr., Los Angeles County Metropolitan Transportation Authority Police Department, February 21, 1993
- Officer Kevin Burrell, Compton Police Department, February 22, 1993
- Officer James MacDonald, Compton Police Department, February 22, 1993

### ***Contract Law Enforcement Bureau***

The Contract Law Enforcement Bureau administers the contractual law enforcement program to 41 of the 88 incorporated cities within the County of Los Angeles. The Bureau also oversees the contracts for the Metro Blue Line light rail system and the Metrolink commuter train system. Over 1.3 million people are served by the Sheriff's cost-efficient contract program. The Bureau also oversees public/private entity contracts, performs cost analysis studies and provides reports for government agencies that request information concerning contract services. Additionally, Reserve Forces Bureau falls under this command.

**Traffic Services Detail:** As the municipal law enforcement for each contract city, the Department also provides traffic enforcement. Traffic Services Detail recommends traffic-related policies and proce-

*Top to Bottom: Captain Dennis Gillard - Contract Law Enforcement Bureau and Captain Rachel Burgess - Office of the Sheriff*

dures, assists Training Bureau with presentation of all formal traffic training, staffs the Department's Traffic Collision Response Team, and provides training and technical assistance to stations.

**Traffic Operation Management-Enforcement and Education (TOMEE):** The TOMEE grant concluded on September 30, 1993. During the 24 months of the grant, 176 sobriety checkpoints were conducted in 25 contract cities. Approximately 124,000 vehicles passed through the checkpoints with over 90,000 of the drivers screened, resulting in 332 arrests for DUI. Also, during this funding period, 390,478 hazardous citations and 67,119 safety belt and 11,234 child safety seat violations were issued.

Through the TOMEE grant, Deputies were able to teach traffic safety to over 167,600 elementary school children. A total of 246 educational and special events presentations resulted in over 254,785 people receiving traffic safety information and awareness. Public service announcements were also developed for child safety seat education in Mandarin and Cantonese in an effort to reach out to the Chinese community.

**Reserve Forces Bureau:** The Bureau is the administrative headquarters for the Department's Reserve Program which consists of four major components: Uniform reserves, search and rescue, mounted posse, and the reserve academy. The Bureau's diversified responsibilities also include being Administrative Headquarters for the Explorer Program, Office of Special Programs, and the Industrial Relations Detail. Each component plays a major role in the Bureau's yearly activities and will be addressed individually.

Uniform reserves are assigned to each of the Sheriff's stations in the County. They perform general law enforcement patrol duties as well as assisting in station level detective functions. Also, within the uniform reserve structure, are the specialist companies: Administrative Support, Aero Bureau, Custody, Medical, Media, Motorcycle Unit, Technical Services, Emergency Operations Bureau, Detective, North Regional Surveillance Apprehension Team, Weapons Training, Transit Services, Juvenile Investigations, Narcotics, and Headquarters. There are currently 730 uniform reserve personnel.

The search and rescue teams provide services to those citizens who become stranded, lost, or injured in all areas of Los Angeles County. They assist other Departmental units and other law enforcement agencies with specialized operations. The 119 reserves who make up the seven search and rescue teams undergo extensive mountaineering training. In addition, each member is required to be an emergency medical technician. Team members may be called out at any time, day or night. When responding to a call, each member is equipped to be self-sufficient for several days in any weather condition.

The Sheriff's mounted posse consists of 143 personnel who are assigned to ten companies, eleven at patrol stations and the Mounted Enforcement Detail Company which is assigned to Special Enforcement Bureau. The posse functions as an integrated support unit to the Department in emergent situations requiring the expertise of trained horse riders in searches and rescues in terrain which is not accessible by motor vehicles or helicopters. The posses also routinely patrol riverbeds and hazardous mountain areas and assist as needed in certain crowd control situations. They are now being frequently used to patrol large shopping mall parking lots. Both Mounted Enforcement Detail personnel and regular posse members participate in numerous parades and special events throughout the year.

Collectively, the 992 reserve deputies worked approximately 292,555 hours this year which represents an approximate savings to the County of \$9 million.

Reserve Forces Bureau is also responsible for the administration of the reserve academy. The academy trains non-designated Level I and Level II Reserves for the Sheriff's Department and participating agencies. Academy classes are held twice a year on a semester basis. The Spring class begins in February and the Fall class begins in September. Classes are conducted concurrently at STARS (Sher-

iff's Training and Regional Services) Center and the College of the Canyons in Santa Clarita. The academy meets three times a week for 20 weeks. The classes are held ten hours on Sundays and four hours each on two weekday evenings. Level II recruits attend the first 13 weeks and Level I recruits attend the entire 20 weeks.

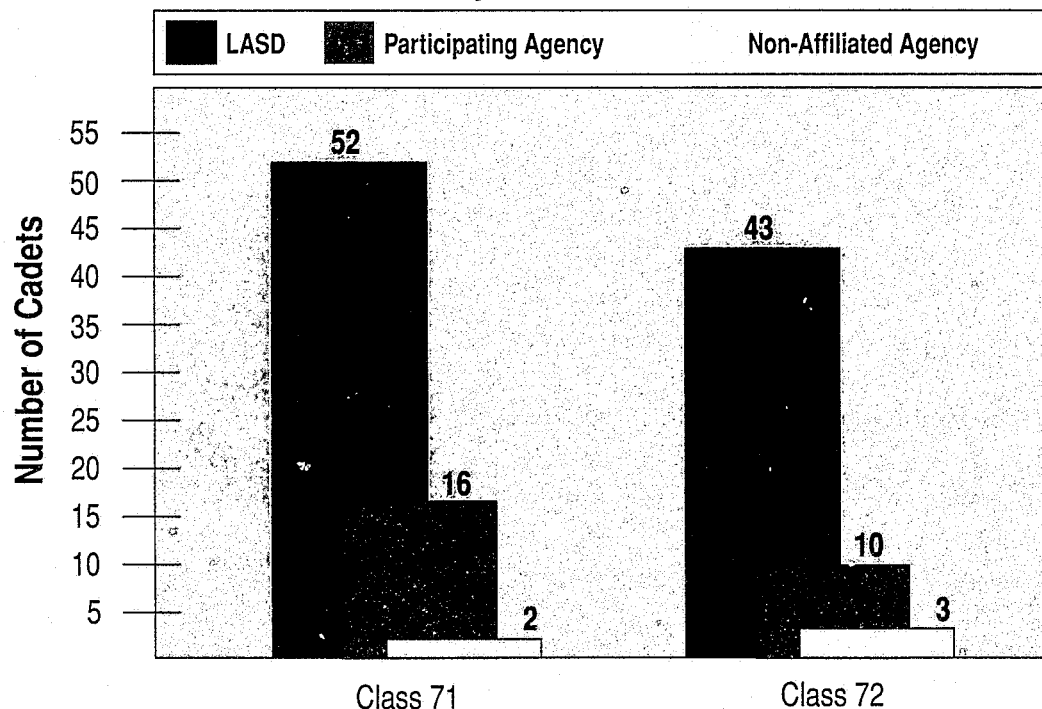

Reserve Class #73 began September 12, 1993, and will graduate February 7, 1994. There are currently 68 recruits in the class.

**Explorer Program:** There are currently 516 law enforcement explorer scouts assigned throughout 20 Sheriff's stations. They worked 73,119 hours in positions that augment County employee duties. These positions are fingerprinting, bicycle licensing, and traffic control at various Sheriff's events. The explorers also participated in 62,724 hours of training/recreational activities. These activities include, but are not limited to role players for patrol school, "Kid Prints," parades, health fairs, career days, and numerous assignments requested by contract cities in which they are assigned. Both of the above categories represent a total of 135,843 hours of explorer activity.

Explorer recruits attend an academy at either STARS Center, College of the Canyons, or South Bay for 18 consecutive Saturdays. Upon graduation, they are assigned to the Sheriff's station where they originally applied.

**Office of Special Programs:** The Office of Special Programs supervises and coordinates the Sheriff's Department civilian volunteers. There are currently 3,400 members and they contributed 259,107 service hours in 1993. The civilian volunteer interpreters continue to assist the FBI, DEA, Marshals, Courts, and other law enforcement agencies in translating various languages. Special Programs began the process of swearing-in and training civilian volunteers in disaster preparedness for assistance at any Sheriff's station. Special Programs created a reference guide book for civilian volunteers. It contains information about a variety of subjects throughout our Department. Special Programs also began to update and implement the Clergy Volunteer Program and Chaplain Volunteer Program.

## Reserve Academy Statistics

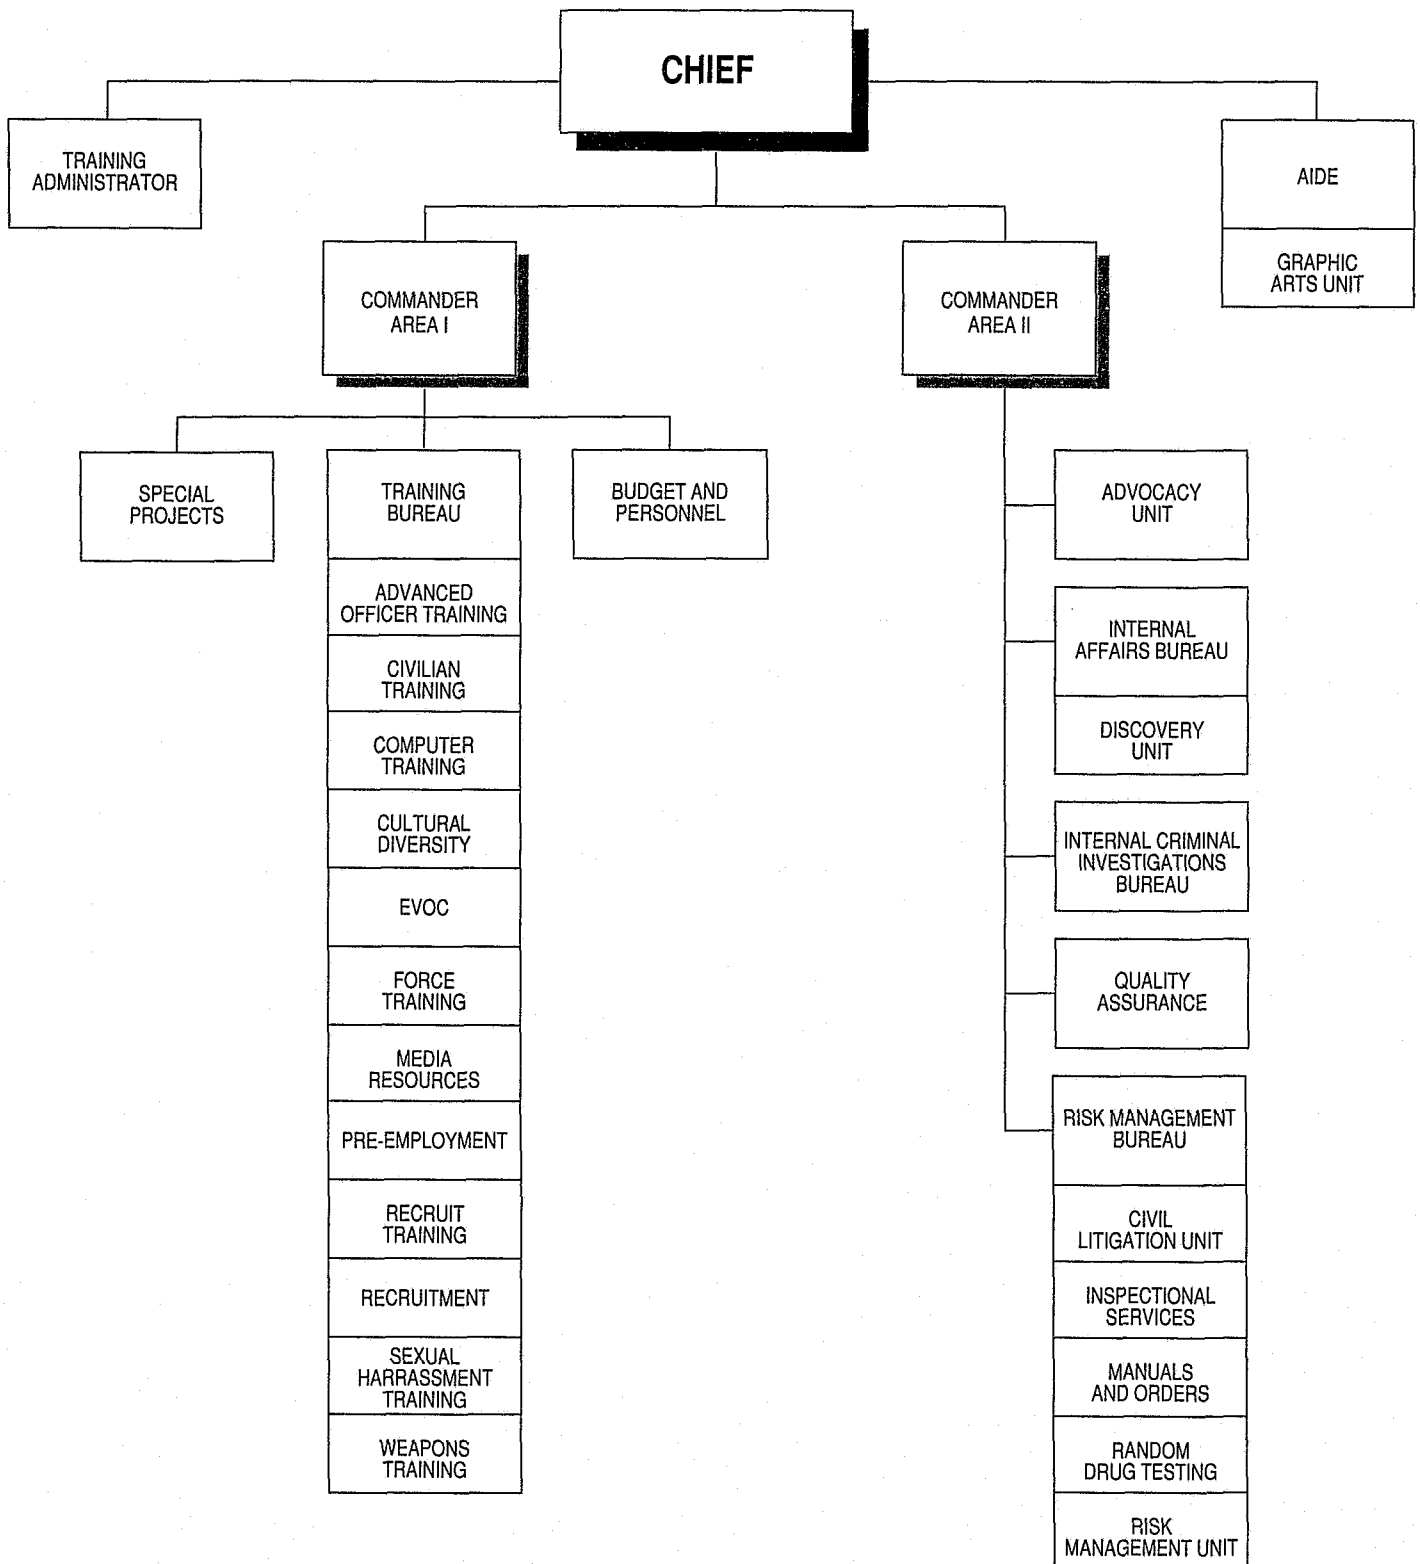

**Industrial Relations Detail:** This year, the Detail was involved in numerous work actions, some of which included the following companies: McDonnell Douglas, General Telephone, ABC Unified School District, UPS, Los Angeles County, and the Department of Water and Power. The role that the Detail played in these work actions was instrumental in easing tensions between the labor and business communities while they settled their differences.

# PROFESSIONAL STANDARDS & TRAINING DIVISION

# PROFESSIONAL STANDARDS AND TRAINING DIVISION ORGANIZATION

# PROFESSIONAL STANDARDS AND TRAINING DIVISION

In January, the Department underwent a major internal reorganization with the creation of the Professional Standards and Training Division (PSTD). The Division is comprised of the Risk Management Bureau, Internal Affairs Bureau, Internal Criminal Investigations Bureau, Training Bureau, and the Advocacy Unit.

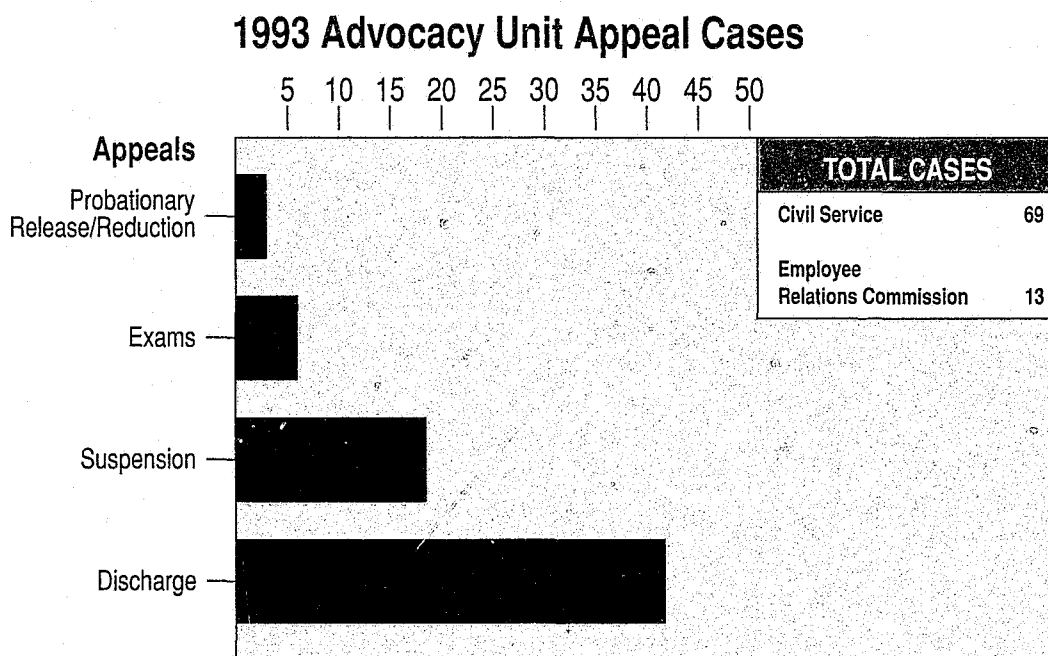

The Professional Standards and Training Division combines the functions of the previous Office of Professional and Ethical Standards with several of the functions previously performed by the Administrative Division, including all functions of the two former Training Bureaus. The consolidation facilitates the management of all the activities of the Department which address litigation issues or involve the investigation of alleged wrongdoing or misconduct. The addition of the Training Bureau allows information developed concerning training issues to be considered immediately for Departmental training enhancement or modification.

The primary responsibilities of PSTD are to promote professional standards and training throughout the Department; evaluate and refine policy, procedures, and tactics through the inspection process; report and review administrative, civil, and training aspects of deputy-involved shootings and use of force; and investigate alleged policy and criminal violations by Department personnel in a timely manner with significant emphasis on fact-finding.

## Advocacy Unit

The Advocacy Unit prepares and presents the Department's case in matters appealed to the Civil Service Commission and the Employee Relations Commission. It also provides around-the-clock consultation services to inquiries regarding disciplinary procedures, and provides training in the area of discipline to supervisors and managers of the Sheriff's Department and other County agencies.

This year, the Advocacy Unit processed 69 cases with the Civil Service Commission. There were 42 appeals involving discharge, 18 appeals of suspension, 6 exam appeals, and 3 appeals of probationary release or reduction (see graph).

*Top to Bottom: Chief Michael Graham;  
Commander Gerald Minnis; and  
Commander Thomas Vetter*

Captain Bert Cueva  
Internal Affairs Bureau

### Internal Affairs Bureau

The Internal Affairs Bureau conducts administrative investigations of policy and misconduct allegations made against both civilian and sworn Department employees. The Internal Affairs Bureau Officer-Involved Shooting Team is responsible for conducting reviews of shootings in terms of tactics, procedures and policy compliance. The Internal Affairs Force Investigation Team is responsible for reviewing any use of force that results in the hospitalization of a suspect beyond emergency room care. These reviews also address potential civil litigation issues through immediate fact-finding and witness identification.

Responsibilities for responses and investigations broadened in 1993 to include reviews of the following areas of concern:

- Force used by any Department member during or following a vehicular or foot pursuit
- Skeletal fractures caused or allegedly caused by any Department member
- Canine bites resulting in hospital treatment
- Any death following contact with any Department member
- Injury or complaint of injury to a person's head, resulting in hospital treatment, following contact with any Department member, or resulting from strikes with an impact weapon
- Hospitalization due to injuries caused or allegedly caused by any Department member

**Discovery Unit:** The Discovery Unit represents the Sheriff's Department as the custodian of records for personnel and administrative investigation files. This Unit processes and responds to Pitchess Motions, general discovery motions, and other legal process received from attorneys involved in civil or criminal proceedings.

### ***Internal Criminal Investigations Bureau***

The Internal Criminal Investigations Bureau (ICIB) investigates allegations of criminal misconduct involving members of this Department when the alleged offense occurs during the course of their employment or within the policing jurisdiction of the Sheriff's Department. ICIB is also responsible for investigating allegations of theft and misappropriation of funds or equipment, involving employees of other county agencies. Investigations of other law enforcement personnel are also conducted at the request of their respective agencies.

### ***Risk Management Bureau***

This year saw the emergence of the new Risk Management Bureau (RMB). The mission of the Bureau is to build and provide the safest work environment possible for our employees by limiting our exposure to liability while at the same time providing the citizens of Los Angeles County the highest level of law enforcement services available. This year, Risk Management Bureau is the highlighted unit for Professional Standards and Training Division (see page 80).

### ***Training Bureau***

This year, the Training Bureau continued as the Department's creative resource for training development, in a period of time which will be looked back on as "Training in Transition." Since last year's consolidation of the Recruit and Advanced Training Bureaus, and in light of the Kolts Commission recommendations, several training issues have come to the forefront which caused a refocusing of the training mission.

The Training Bureau's configuration changed slightly. The most noteworthy changes were the addition of the Training Administrator, Dr. John Chamberlin, and the creation of the Cultural Diversity and Sexual Harassment sections and the Force Training Detail. The Training Administrator has direct access to all levels of the Department and is a key element in

the decision-making processes that develop the training criteria, the selection of personnel, and the prioritizing of courses of instruction.

**Force Training Detail:** The Detail has standardized use of force and force policy training. Originally set up as a pilot program, the Detail's goal is to be recognized as a training nucleus on the issues of force, to facilitate force related training Department-wide, and to be a resource for law enforcement agencies nationwide. All Department defensive tactics instructors (72) have now been recertified.

**Cultural Diversity Section:** This Section has facilitated several workshops on cultural awareness education for both civilian and sworn members of the Department. To date, over 700 individuals have participated in the course. All Department members will take part in this training by the close of 1997.

**Sexual Harassment Section:** This Section has developed a curriculum and course of instruction for both the deputy and the supervisory and management levels. The Sheriff and Department executives will be instructed in the proposed training by the end of this year. Department-wide classes will begin in January 1994. All Department personnel will attend the course by 1997.

**Weapons Training Detail:** The Detail, which includes Laser Village, Biscailuz Center Range, and Pitchess Honor Rancho Range, trained approximately 10,000 individuals in 1993. Over 2,500 attended the expanded Laser Village. Seventy-five thousand qualification courses were fired by sworn personnel and 3.2 million rounds of ammunition were expended in the various weapons courses.

**Emergency Vehicle Operations Center (EVOC):** While training 1,500 students, EVOC has added civilian volunteer and civilian employee courses, in addition to soliciting for and being selected by POST (Peace Officer Standards and Training) as one of three sites in California to offer a law enforcement driver simulator. The simulator training will provide an interactive environment in which each student's judgment, communication, and multi-unit coordination skills will be tested in a risk-free setting.

**Advanced Training Detail:** The Detail coordinated the first POST Supervisory Leadership Institute presented in the Los Angeles area. The eight-month course graduated 12 sergeants from our Department and a similar number from the Los Angeles Police Department. There are approximately 500 other graduates of this course in California.

Several other firsts took place during 1993 at the Advanced Training Detail which included the first Volunteer Clergy Program, Bicycle Patrol Tactics Course, Professional Development Workshop, and a Rail Security Course assisted by the Metrolink Unit and the Southern California Regional Rail Authority.

**Pre-Employment/Recruitment:** While the California economic recession has affected every aspect of the Department, the most visual is the absence of deputy sheriff trainees flowing through the hiring cycle and the Basic Recruit Academy. The Pre-Employment and Recruit Training Details have, however, accomplished notable firsts. Recruit Class #281 graduated as the first Sheriff's Academy class comprised solely of participating agencies. The Pre-Employment Detail began background investigations on reserve applicants. With hiring set to begin in early 1994, these details will again be reconfigured at full strength.

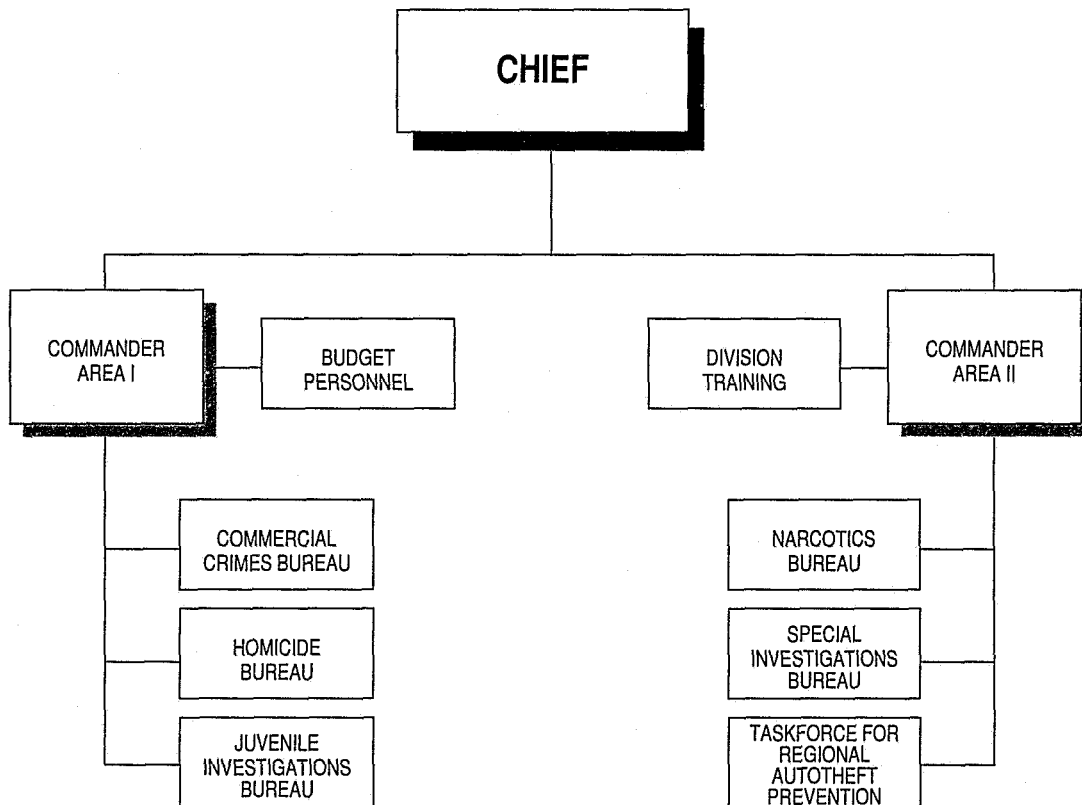

---

# DETECTIVE DIVISION

# DETECTIVE DIVISION ORGANIZATION

## DETECTIVE DIVISION

This Division is responsible for the investigation of crimes, identification and apprehension of criminals, recovery of property, identification and preservation of evidence, and for assisting in the preparation of cases for court. Detective Division consists of Commercial Crimes, Homicide, Juvenile Investigations, Narcotics, and Special Investigations Bureaus as well as the Taskforce for Regional Autotheft Prevention (TRAP).

### *Commercial Crimes Bureau*

*Captain Lee Davenport  
Commercial Crimes  
Bureau*

Commercial Crimes Bureau consists of three details responsible for the investigation of cases involving arson/explosives, forgery/fraud, and vehicle/metal theft.

**Arson/Explosives Detail:** The Arson/Explosives Detail investigates the cause and origin of all fires with a value loss over \$1,500 as well as those fires which are deliberately set. It also investigates and renders safe, explosive devices.

The Detail handled 2,575 cases in 1993. Seventy-one of these cases were brush fires, 106 of which were in the Antelope Valley area. Investigators arrested 9 adults and 55 juveniles in connection with the Antelope Valley area brush fires. The Detail was involved in many notable arrests during the year. They assisted homicide investigators in the arrest of two adults for the arson murder of a retired Los Angeles Police Department officer whose career was the model for the "T.J. Hooker" television series. They also investigated an individual who

booby-trapped his residence, coaxed deputies into his yard, and then detonated a pipe bomb causing injuries to a deputy sheriff. Detail personnel investigated a major wild fire in the Altadena area which resulted in the arrest of a suspect. The fire caused one death, burned 6,000 acres and 118 structures.

This year, Arson/Explosives Detail bomb technicians responded to over 412 explosives related incidents throughout Los Angeles County. Over half of these responses were to investigate and render safe suspected explosive devices or actual bombs. This mission was accomplished by our expert technicians using a variety of equipment, including disrupters, Andros robot, portable x-rays, bomb suits, specialized tools, and, on occasion, high explosives. Two Detail members were sent to the New York Trade Center bombing and gathered information necessary to establish a basic plan and identify resources necessary to deal with a similar situation.

On November 2, 1993, Arson/Explosives Detail personnel investigated a major arson brush fire in the Lost Hills Station area (the Malibu Fires). The fire burned 18,500 acres, including 390 structures, and caused three deaths.

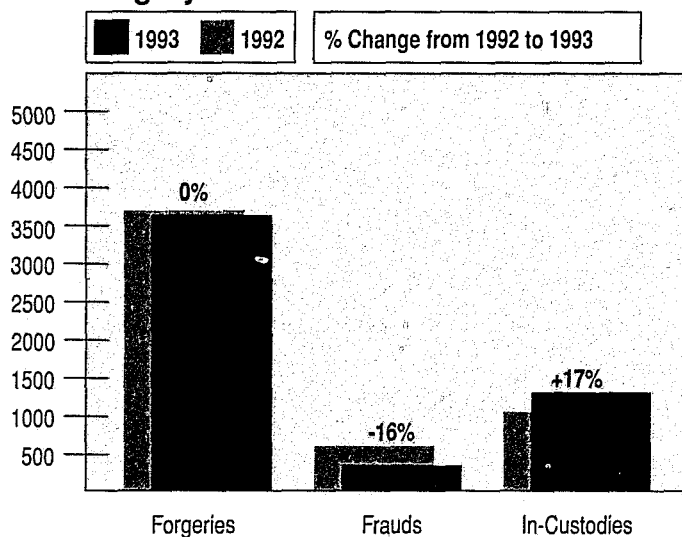

**Forgery/Fraud Detail:** The Forgery/Fraud Detail has investigative responsibility for all worthless document cases, which includes forged checks, warrants, and other bank instruments, misuse of access cards, and forged prescriptions. The Detail is also responsible for investigating fraudulent acts in order to obtain money or property, or business/personal advantage by theft or deception. These acts include fraud, embezzlement, bunco, unfair business practices, theft of trade secrets, and theft by use of computers. Investigators have Countywide responsibility to investigate all cases of persons in custody of the Sheriff's Department who are alleged to have committed any of the aforementioned acts.

The Detail experienced a dramatic increase in work load as depicted by the rise of in-custody cases. This rise in case assignments was partially off-set by the decrease in the number of reported fraud cases. This decrease was welcomed, especially since the fraud caseload increased 200% over the last five years. Indications are that the fraud cases currently under investigation are more complex in nature, and involve a much higher dollar loss to the victims. Forgery cases remained constant at 1992 levels, which is important when comparing reported cases to previous years. This is an indication

*Top to Bottom: Chief Duane  
Preimsberger; Commander Lawrence  
Dykhouse; Commander Michael Nelson;  
and Commander Robert Ripley*

## Forgery/Fraud Statistics

that individuals are taking precautions with their personal papers, businesses, and bank accounts.

**Significant Cases** - Two significant cases that began in 1991, were concluded with successful filings and prosecution. PVS/Key-stone was an insurance fraud which targeted Spanish-speaking individuals and offered auto insurance binders at a very low premium. Over 500 victims responded to Departmental Consumer Fraud Questionnaire forms and were interviewed by investigators. Another case also involved Spanish-speaking individuals who were victims of a real estate and investment scam. The suspect arranged for equity refinance loans encumbering the victims' property for the maximum amount with a promise that the proceeds would be invested at a high return rate. Hundreds of victims were identified, many in foreclosure and unable to make their payments. The projected loss was in excess of \$1.8 million.

The Automated Commercial Crimes Information System (ACCIS), is an on-line database that will provide centralized access for all forgeries and frauds reported to the Department. Modifications and revisions to the original program were accomplished this year. Widespread interest in the system's capabilities has been generated throughout Los Angeles County municipal

police agencies. ACCIS staff and personnel from the Los Angeles Police Department (LAPD) are cooperating in a joint effort to input LAPD records into ACCIS. Private sector involvement is being explored with a goal of expanding the system's capabilities and results.

**Vehicle/Metal Theft Detail:** This Detail is responsible for the investigation of organized commercial vehicle thefts throughout the County. They provide necessary assistance to station detectives, including cases involving multiple jurisdictions, conspiracies, fraud and counterfeit title documents. They also investigate heavy duty commercial vehicle and construction equipment theft. They maintain liaison with major industrial metal supply sources and assist station detectives in identifying, locating, and prosecuting suspects dealing with stolen property in scrap metal yards. Their daily tasks include the identification of vehicles and component parts with missing or altered identification numbers. The Detail also inspects all towing facilities under agreement with the Department and is responsible for the letting of the contracts. Detail members routinely represent the Department in civil court proceedings. As a result, more than a dozen vehicles were forfeited to the Department last year.

**Major Investigations** - The Detail successfully prosecuted an Inglewood resident operating a "chop shop." Eight "VIN-switched" vehicles were recovered, and vehicle identification number (VIN) plates for an additional 12 cars were discovered. Criminal charges were filed against a Downey man responsible for the theft of five boats and at least four stolen cars. The Detail also assisted Homicide detectives regarding a gang shooting involving stolen "VIN-switched" vehicles from New Mexico. A metal theft case resulted in the recovery of more than \$100,000 in I-beam stock stolen from construction companies building the local freeways. Criminal charges are pending against a company crane operator and his wife for the theft.

**Sting Operation** - The Detail recently acquired an automobile from the State Farm Insurance Company to use as "bait" in a controlled theft operation. The car has been outfitted with electronics developed by the Department's technical staff and can be remotely disabled. The vehicle is also equipped with a Teletrac locator device. The car is dropped off at preselected sites and when stolen is remotely stopped and the perpetrators arrested. The car has been successfully used by several patrol stations working in concert with Detail personnel.

## Homicide Bureau

Captain Donn Brooks  
Homicide Bureau

The Homicide Bureau conducts investigations into all homicides and questionable deaths which occur within the Sheriff's jurisdiction. The questionable deaths include suicides, accidental deaths, drug overdoses, and infant deaths.

The Bureau also has a Missing Persons Unit, an Unsolved Unit, and a Foreign Prosecution Unit. The Foreign Prosecution Unit coordinates the prosecution of foreign nationals who have committed violent crimes within Department jurisdiction and fled to their homelands.

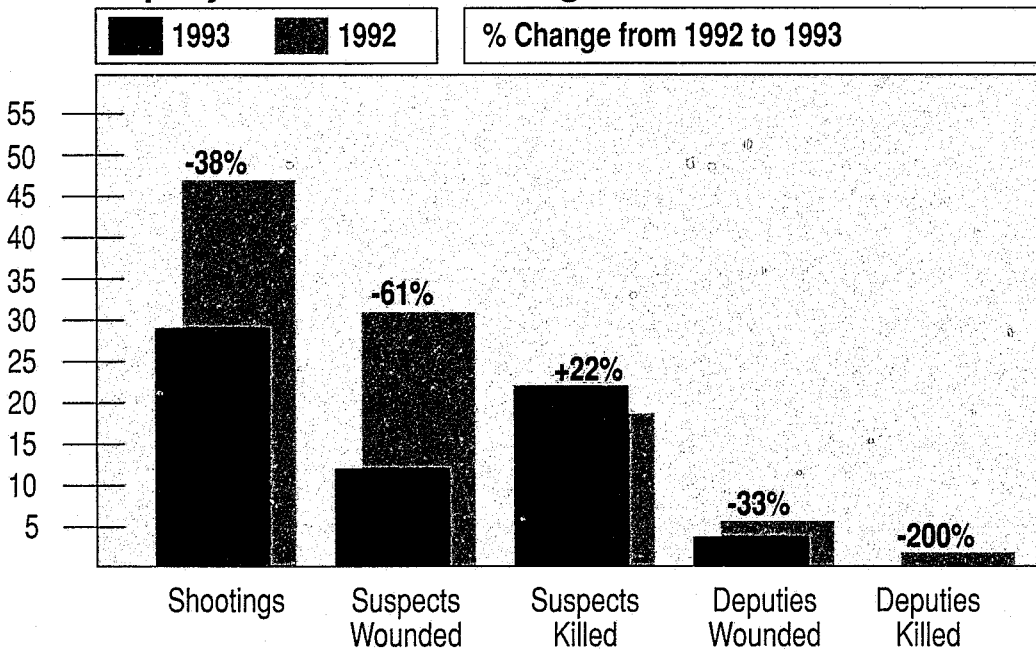

The number of homicide investigations conducted this year paralleled last year's. Of those, approximately 20% were conducted at the request of independent police agencies throughout the County who asked the Bureau to investigate homicides and officer-involved shootings that occurred within their jurisdictions.

The Bureau also conducts criminal investigations of all deputy-involved shootings in which anyone is injured or killed. Fortunately, no deputy sheriffs have lost their lives in the line of duty this year.

Homicide Bureau led two particularly noteworthy taskforces during 1993. The first involved the tragic murder of two Compton police officers. The Bureau organized participating units, investigated leads, and surveilled dozens of known felons before successfully arresting the suspect in the case.

The second taskforce focused on the tragic Malibu fire, which occurred in November and resulted in three fatalities. Substantial reward monies have been offered, and Homicide investigators are following up on numerous leads which have been generated as a result of the rewards and helpful citizens.

## Deputy-Involved Shootings

## Juvenile Investigations Bureau

Captain Doug McClure  
Juvenile Investigations  
Bureau

The investigation of sexual and physical abuse to children is the main focus of Juvenile Investigations Bureau (JIB) activities. The Bureau continues to provide extensive legislative analysis to the Department, and monitors a major Office of Criminal Justice Planning (OCJP) grant regarding community-based diversion organizations.

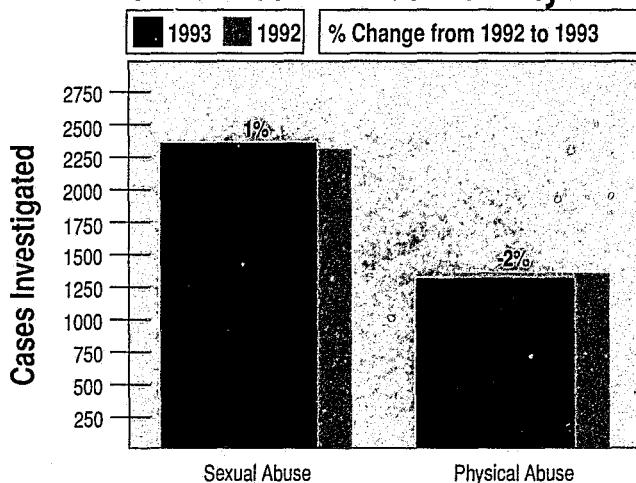

As a Detective Division unit, Juvenile Investigations Bureau serves all station areas and has the exclusive responsibility for these investigations. In the attempt to be as responsive as possible to the citizens of Los Angeles County, investigators work out of satellite offices in Lancaster and West Covina, in addition to the Headquarters office in Whittier.

The investigation of child abuse cases is highly specialized. Investigators assigned to this Bureau are recognized experts in the interviewing of child victims, as well as juvenile and adult suspects.

Juvenile Investigations Bureau personnel participate in multi-disciplinary child abuse centers located throughout Los Angeles County, and share active involvement in the newest multi-disciplinary team in the Antelope Valley, the Antelope Valley Abuse Network Team (AVANT).

Bureau personnel are also available to conduct in-service training to assist patrol personnel in carrying out their responsibility as first reporters in cases of suspected child abuse.

## Child Abuse Case Activity

## JIB Caseload Synopsis

Cases Reported*	3,692
Physical Abuse*	1,331
Male	830
Female	831
Sexual Abuse*	2,361
Male	
Female	
Suspects Arrested	909
Children Taken Into Custody	608

\* Each case may have multiple victims.

## Narcotics Bureau

Captain Dennis Dahlman  
Narcotics Bureau

Narcotics Bureau is responsible for the investigation of cases involving the use, possession, sale, manufacture, and transportation of controlled substances. Other responsibilities include disposal of controlled substances, providing specialized training in controlled substances, directing all financial and asset seizures/forfeitures relative to narcotics activities, public appearances, liaison with the Narcotics and Dangerous Drugs Commission, and participating in "narcotics taskforces."

Through September of this year, the California National Guard provided two military liaison officers to Narcotics Bureau. This greatly assisted the utilization of military resources in drug interdiction operations.

Another noteworthy program was Bureau participation in Operation Alliance, a Federal and State drug taskforce, which coordinated drug interdiction operations along the Southwest Border.

Some of the more notable narcotics crew investigations included several marijuana eradication operations in the Angeles National Forest. Approximately 15,000 marijuana plants were seized, with an estimated street value of \$45,000,000. In March, the Major Violators Crews served search warrants in four San Gabriel Valley cities; three suspects were arrested and 765 pounds of cocaine were seized.

### ***Taskforce for Regional Autotheft Prevention***

*Captain Richard Walls  
Taskforce for Regional  
Autotheft Prevention*

The Taskforce for Regional Autotheft Prevention (TRAP), a multi-agency taskforce, came into existence in January 1993, after the passing of Senate Bill 2139, which imposes an additional one dollar vehicle registration fee on vehicles registered in the County of Los Angeles.

TRAP's mission is to promote a coordinated effort and encourage maximum cooperation between all law enforcement and prosecutorial agencies in Los Angeles County; to deter and reduce the incidence of vehicle theft; to increase the recovery rate of stolen vehicles; to identify trends and patterns in vehicle theft; to provide training and expertise to participating agencies Countywide; and to coordinate a deterrence program in conjunction with the private sector.

TRAP is comprised of a captain, two lieutenants—one from Los Angeles Police Department and one from Los Angeles County Sheriff's Department, six regional teams—each headed by a sergeant, and an administrative staff.

The San Gabriel Valley Team was the first team to become fully operational in July. TRAP expects to be fully activated by January 1994.

To date, 27 police departments have signed the Memorandum of Understanding. Twelve police departments each have an active participating member on the taskforce. Also joining forces with TRAP is the California Highway Patrol with six investigators, the District Attorney's Office, and the National Insurance Crime Bureau (NICB). Efforts are being made to get representatives from the Department of Motor Vehicles, United States Customs Service, and State Parole.

The teams have been successful in a high number of vehicle recoveries. These seizures resulted in 24 arrests, 80 vehicles, \$900,000 in auto parts, and an array of automatic weapons, narcotics, and handguns. Some case examples are:

- "Gypsy Vehicles" Recovery - These vehicles were leased with minimum down, one or two payments were made, then the vehicles were taken out of state and hidden. Vehicles were then brought back into California, re-registered, and resold. One suspect, believing he was speaking to a "receiver," was talked into delivering a vehicle directly to the investigators, resulting in three arrests and several recoveries.
- "VIN Switched" - multiple search warrants were executed resulting in 8 arrests, the recovery of 28 vehicles valued at \$500,000 and the seizure of boats, weapons, and narcotics.
- "Chop Shop" operations led to 9 arrests and the recovery of 18 vintage Volkswagens and 15 other vehicles valued at \$275,000, along with cellular telephones and miscellaneous vehicle parts and personal property. Registrations were seized and several "chop shop" operations were closed down.
- Three "carjacking" cases were cleared with three suspects arrested and three vehicles recovered, valued at \$150,000.
- International Cases - NICB estimates 200,000 vehicles a year are stolen and taken out of the United States. Investigators, in concert with U.S. Customs, intercepted a shipment containing two stolen pick-up trucks. Two suspects were arrested and two vehicles recovered.
- A "Russian Mafia" operation was interdicted and five Mercedes vehicles were recovered in a shipping operation of vehicles to eastern Europe. One vehicle alone was valued at \$100,000.

## **1993 Narcotics Statistics**

### **\*Narcotics Seizures**

Heroin (pounds)	23
Cocaine (pounds)	1,953
Marijuana (pounds)	8,581
Methamphetamine (powder/pounds)	97
Methamphetamine (liquid/gallons)	4

### **\*Arrests**

Adults	18,295
Juveniles	1,173
Total	19,468

### **Assets Seized in Drug-Related Arrests**

Cash	\$15,521,843
Houses	2
Vehicles	35
Boats	0

\*Includes Patrol drug seizures/arrests

*Captain Ronald Black  
Special Investigations  
Bureau*

### ***Special Investigations Bureau***

In August 1993, the Special Investigations and Metro Vice Bureaus were merged. The new Special Investigations Bureau is this year's highlighted unit for Detective Division (see page 83).

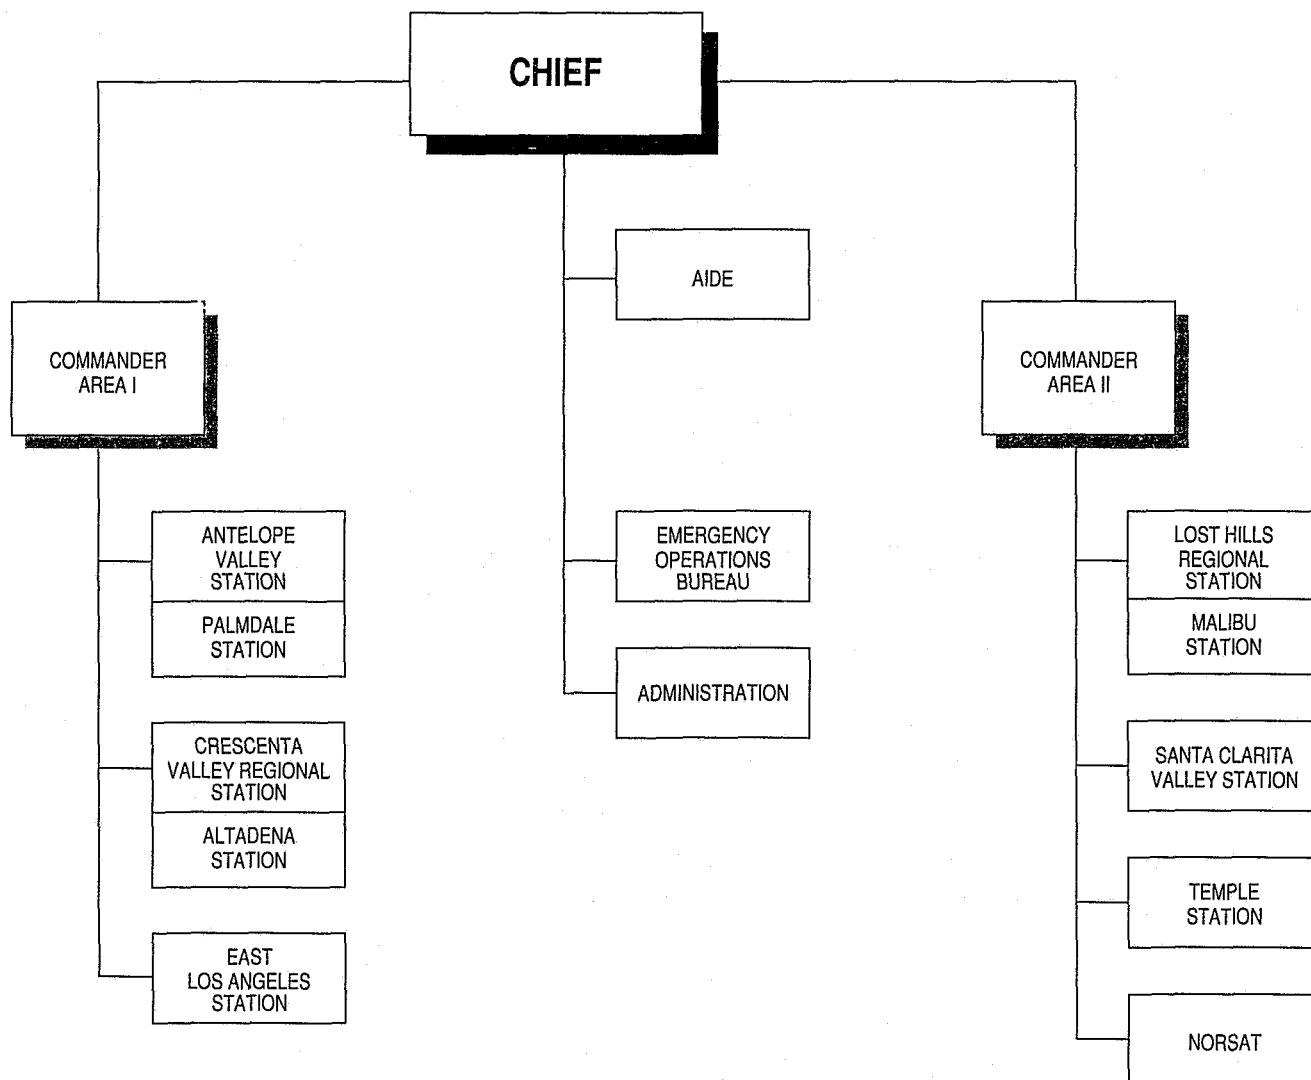

---

# FIELD OPERATIONS REGION I

# FIELD OPERATIONS REGION I ORGANIZATION

## FIELD OPERATIONS REGION I

Field Operations Region I is responsible for the performance of the basic police tasks of protecting life and property, preserving the peace, preventing and suppressing crime, and the apprehension of violators of the law. These functions are carried out at the following Sheriff's stations and specialized units: Antelope Valley, Crescenta Valley, East Los Angeles, Lost Hills, Santa Clarita Valley and Temple Stations; Emergency Operations Bureau; and Northern Regional Surveillance and Apprehension Team.

### *Crescenta Valley Station*

*Captain Michael Quinn  
Crescenta Valley Station*

Crescenta Valley Regional Station, located in northeast Los Angeles County, provides police services for the contract city of La Cañada Flintridge, portions of the Angeles National Forest, the unincorporated County areas of La Crescenta, Montrose, and through the Altadena Local Station, the Altadena area.

The Crescenta Valley Regional Station continued several successful programs in 1993, including Neighborhood Watch, Station Volunteers, School Resource Officer, Loving Unfortunate Victims, Arson Watch, the Selected Target Areas of Response Team (STAR), the Friends of Altadena Station, Crescenta Valley Sheriff's Support Group, the Special Needs Identification Program, Family Abuse Intervention Resources, and the Quake Emergency Survival Team. The variety of programs provided by this Station contributes significantly to the excellent rapport with the community we serve.

### *East Los Angeles Station*

*Captain Ramon Sanchez  
East Los Angeles Station*

East Los Angeles Station, located just east of downtown Los Angeles, provides police services for the unincorporated County area and the contract cities of Commerce and Cudahy.

East Los Angeles Station continues to operate several programs including Neighborhood Watch, Volunteer Program, Eddie Heredia Boxing Club, and the School Resource Deputy. Project Target is still used to track and computerize ongoing community problems that do not require a file number. Operation Combat Auto Theft (CAT) and a false alarm reduction program have been implemented this year.

The East Los Angeles Sheriff's Youth Athletic League celebrated the completion of its first year operating its community center. Through this center, the Youth Athletic League offers programs to the community, including aerobics, boxing, kick boxing, swimming lessons, racquetball, weight training, indoor basketball, and martial arts. An after school Girl Scout program and a computer

literacy/tutorial learning program are now being offered at the community center. Adult and senior program activities are also being implemented.

East Los Angeles Station also continued its directed patrol policing efforts. These programs include special problems teams for Cudahy, Commerce, and the East Los Angeles unincorporated area. In addition, a community based policing program has been implemented in the City of Commerce. A bicycle patrol team has been established in the Maravilla Housing Development. A planned foot patrol team will augment the field units in the business districts of the unincorporated areas of East Los Angeles.

*Top to Bottom: Chief James Callas;  
Commander Carol Painter; and  
Commander Mark Squiers*

### ***Lost Hills Regional Station***

*Captain Donald Mauro  
Lost Hills Regional  
Station*

The Lost Hills Regional Station, located in west Los Angeles County, provides police services for the unincorporated County area and the contract cities of Agoura Hills, Calabasas, Hidden Hills, Westlake Village, and Malibu. This year Lost Hills Regional Station enhanced its community involvement by initiating the following programs:

**Situation Simulation Open House:** This year Lost Hills' open house provided both the media and public the opportunity to participate in the role of a deputy. Those who wished to experience the pressures of law enforcement from the officer's perspective were dressed in a fully equipped Sam or Sally Browne, vests, and raid jackets. Subsequently, they had to solve various crime scenarios. The scenarios consisted of a burglary, shoot/don't shoot, family disturbance, and vehicle pull-over and approach. The Lost Hills Sheriff's Station, as well as the Sheriff's Department, received a high level of praise from both media representatives and the citizens within the community.

**Teen Survival Guide:** Using the concept from Santa Clarita Valley Station's version, Lost Hills Station adapted the guide to accommodate the juveniles within Station jurisdiction. The guide is a compilation of information, contacts, and references that can help teens avoid a potential crisis. The guide is being distributed by schools, contract cities, and the Chamber of Commerce.

This year Lost Hills Station expanded the Victim Assistance, Graffiti Abatement, and Rotary Outreach Programs, with additional civilian participation of support from the community.

### ***Santa Clarita Valley Station***

*Captain Jeremy Conklin  
Santa Clarita Valley  
Station*

Santa Clarita Valley Station, located in north Los Angeles County, provides police services for the unincorporated County area and the contract city of Santa Clarita.

In February Santa Clarita Valley Station personnel sought to find a way to deal with the rise in gang and tagging crew related crimes and the increasing incidents of burglary and car theft. The Director of the Los Angeles County Sheriff's Department Community/Law Enforcement Partnership Program joined Station administration and the Station's gang unit, COBRA, to formulate a plan to enhance the safety of residential neighborhoods.

The fruit of this effort was the beginning of a "Neighbors on Patrol" program. Neighbors on Patrol is a crime prevention program which has its roots in Neighborhood Watch. It is more assertive in that it asks residents to expand their protective wall to include schools, parks, churches, and other areas of vital interest to the neighborhood. Residents are also asked to organize themselves and work together to actively patrol their neighborhood. Training in specific areas is provided to all residents interested in participating.

The City of Santa Clarita, local schools, and the Santa Clarita Anti-Gang Taskforce have now teamed with Station personnel in promoting and implementing Neighbors on Patrol. A formal training and tracking format is in the final stages of development. The present goal is to have a Neighbors on Patrol program in each neighborhood surrounding a local elementary school or City park by the end of 1994.

## Temple Station

Captain Robert Mirabella  
Temple Station

Temple Station, located in northeast Los Angeles County, provides police services for a large unincorporated County area and the five contract cities of Bradbury, Duarte, Rosemead, South El Monte, and Temple City. In January 1993, the new Temple Station facility opened, which tripled the size of the Station. The new facility provided the much needed space for personnel and has afforded the community a greatly enhanced public service building. Special activities within the Station include:

**Community Law Enforcement Survey:** In an effort to address specific concerns and improve the quality of law enforcement in certain contract cities, a community survey form with ten service-related questions was created. It was then circulated as part of the contract city monthly newsletter. The questions addressed issues such as patrol car visibility, contact with personnel, performance of personnel, the quality of service provided, and prioritizing a dozen different police services. The results of the survey were favorable in most areas, and the responses were in line with the direction of the Station's law enforcement services.

**Employee Recognition/Wall of Fame:** In order to recognize Station personnel for commendable performances, a wall within the Station was set aside for framed unit citations, commendable restraint commendations, and positive newspaper articles. The comments from visiting Department personnel, community leaders, visitors, and Station personnel are very high. The employee recognition helps build morale and unity with the women and men of Temple Station. In addition to being very decorative, the wall serves as a constant reminder of the fine work being accomplished by the members of Temple Station.

**Community Advisory Committees:** Community Advisory Committees were established in three unincorporated County areas. These committees will work similar to a contract city's city council, and provide a voice for their respective community. The committees are constantly monitored to ensure they are representative of the areas they serve. Each committee received training from Sheriff's Department instructors to provide a basic understanding of Sheriff's Department policy and procedures. The committees meet quarterly or as needed with the Station commander. The committee and the Station commander determine the best course of action to achieve a community/law enforcement partnership.

## Emergency Operations Bureau

Responsibilities of the Emergency Operations Bureau (EOB) include strategic, long range disaster/emergency planning and tactical planning for major law enforcement events. Additionally, EOB conducts research, writing, and training on various emergency operations procedures as directed and approved by Department executives. EOB is also responsible for the maintenance of the Emergency Operations Center (EOC) and staff training. EOB administers the Sheriff's responsibilities concerning law enforcement mutual aid between the 47 independent police departments in Los Angeles County and our regional affiliates, the Orange County Sheriff's Department. EOB provides a 24-hour, on-call, "duty officer" to support field incident commanders and Departmental executives in the management of unusual occurrences. A summary of significant activities concerning EOB in 1993 are as follows:

The Bureau, previously combined with the Reserve Forces Bureau, was retained by Field Operations Region I while the Reserve Forces Bureau was separated and reassigned to the Executive Offices.

EOB began the year fully committed to a Countywide effort to define law enforcement mutual aid affiliations and providing civil disorder management training for nearly 3,000 Departmental and independent agency personnel. Through cooperative agreements with local agencies, the County was divided into seven law enforcement regions, each region being capable of sustaining at least one tac-

Captain Tony Welch  
Antelope Valley Station

tical coalition platoon for Countywide deployments during emergencies. When required and at the direction of the Sheriff, each agency will mobilize their respective personnel, establish their coalition forces, and begin executing mutual aid missions locally, Countywide, or as appropriate within both Los Angeles and Orange Counties. The coordination and planning with the California Army National Guard resulted in a phased mobilization procedure capable of delivering fully equipped soldiers ready for local deployment within eight hours.

The Department's Emergency Operations Center was activated five times during the year - once for storm related emergencies, twice for civil emergencies, and twice for major fire emergencies; a cumulative total of at least 18 days of activation, with Department mobilizations on about 14 of them.

This year's special events, including the Tournament of Roses Parade, CSW Parade, and elections, required the services of nearly 2,000 Department personnel. Each event required its own unique operations plan prepared by EOB.

Additional anti-abortion protest demonstrations also occurred in various areas this year and EOB was able to provide staff and specialized support in resolving those incidents.

The flexibility and diversity of interests of this Bureau has, once again, been tested in 1993. EOB continues to uphold the "Tradition of Service" not only in concept, but in each of the emergency scenes where the Department has been called to perform.

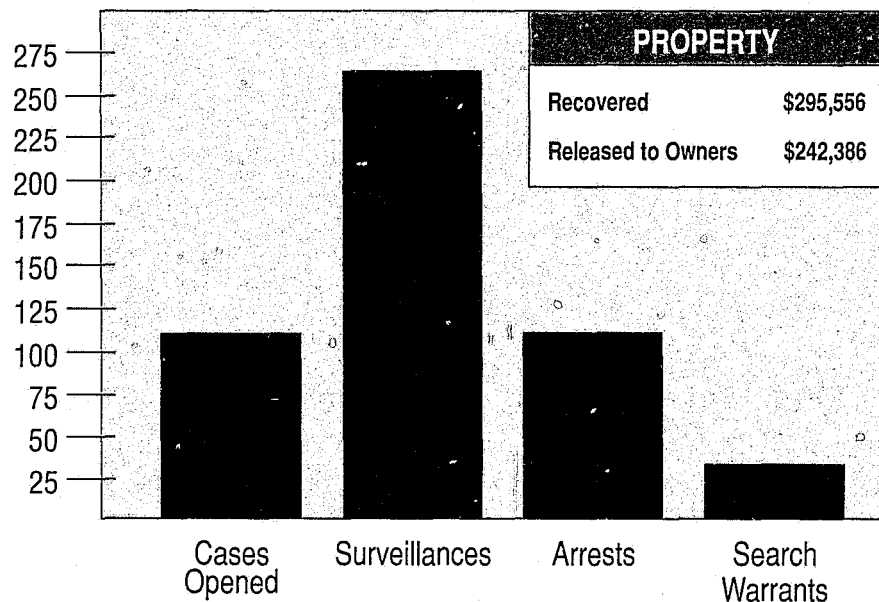

### ***Antelope Valley Station***

Antelope Valley Station, located in north Los Angeles County, provides police services for the unincorporated County area and the contract cities of Lancaster and Palmdale. The Antelope Valley jurisdiction is primarily rural, however, it is one of the fastest growing areas in Los Angeles County. This year, Antelope Valley Station is the highlighted unit for Field Operations Region I (see page 85).

### ***Northern Regional Surveillance and Apprehension Team***

The Northern Regional Surveillance and Apprehension Team (NORSAT) is a multi-jurisdictional operation involving several municipal police agencies. The mission of NORSAT is the surveillance and apprehension of serial and career criminals. The NORSAT operation consists of an administrative headquarters and two law enforcement teams, each led by a sergeant.

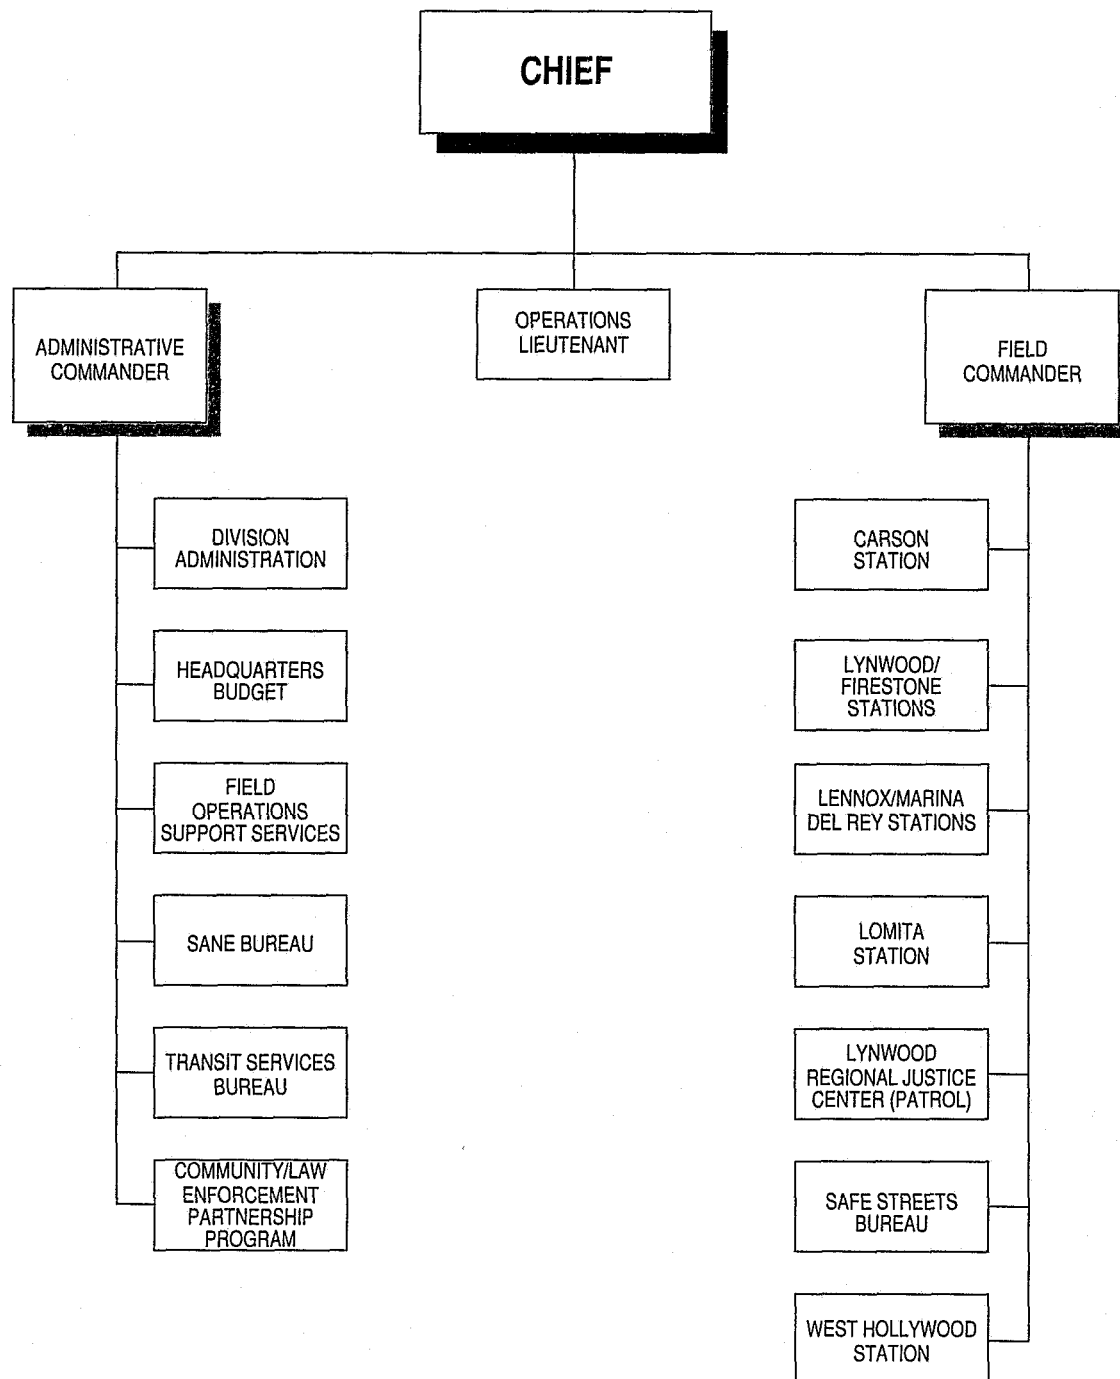

## **1993 NORSAT Statistics**

# FIELD OPERATIONS REGION II

# FIELD OPERATIONS REGION II ORGANIZATION

## FIELD OPERATIONS REGION II

Field Operations Region II is responsible for the performance of the basic police tasks of protecting life and property, preserving the peace, preventing and suppressing crime, and apprehending law violators. These functions are carried out at the following Sheriff's stations and specialized units: Carson, Firestone/Lynwood (Century), Lennox/Marina Del Rey, Lomita, and West Hollywood Stations; Safe Streets Bureau with the Multijurisdictional Criminal Apprehension Detail (MCAD); Substance Abuse and Narcotics Education (SANE) Bureau; and Transit Services Bureau.

### Carson Station

Captain Joseph James  
Carson Station

The City of Carson requested a temporary reassignment of three contracted deputies to address the on-going problem of graffiti vandalism. Under the direction of a sergeant, a Graffiti Abatement Team was developed and deployed. During the ten week program, the Team made 43 arrests for graffiti vandalism and completed over 200 Field Interview Reports. Additionally, the costs associated with each arrest the Team made were calculated and forwarded to the City Attorney's Office for cost recovery efforts. The City of Carson was very pleased with the results of this program and are presently reviewing the possibility of modifying their contract to deploy the Graffiti Abatement Team and other directed patrol units on a full-time basis.

**Child Outreach Program (COP):** This Program allows underprivileged area youths aged 8-12 to enjoy positive activities with off-duty deputies. Youngsters identified as being "at-risk" for joining gangs or becoming involved in other criminal activity are shown the rewards of living a "law abiding life" and have an opportunity to interact with deputies in a positive manner that fosters a role model relationship. Off-duty deputies have chaperoned groups of youths to professional sporting events, off-shore fishing expeditions, and other wholesome activities. The program is co-sponsored by the City of Carson and local businesses and has been very well received by deputies and youngsters alike.

**Muscular Dystrophy Camp:** Several Carson Station deputies volunteered to act as camp counselors during a two week summer camp for the benefit of children afflicted with muscular dystrophy. The camp, which is sponsored and managed by the National Muscular Dystrophy Association, is held annually in the Malibu area. The children, most of whom are severely disabled and require the assistance of camp counselors for even the most basic of tasks, experienced the thrills of participating in a summer camp outing complete with arts and crafts, organized sports, hiking, etc.

### Firestone/Lynwood (Century) Station

Captain Carole Freeman  
Firestone/Lynwood  
Station

With the merger of the old Lynwood and Firestone Sheriff's Stations, the Firestone Neighborhood Watch newsletter changed names to reflect the station consolidations and now includes coverage of interest to all areas served by Century Station. The newsletter includes information on current crime trends in the Station patrol area, articles on personal safety, and highlights commendable actions of Station personnel. The newsletter, with its monthly circulation of 13,000, lets the Station share important information with the community.

**Youth Activities League:** This year saw the closure of the Lynwood Area Sheriff's Youth Activities League and the beginning of the Century Sheriff's Station Youth Activities League. Staff from Century Station are currently forming an activities league to service all areas patrolled by Century Station. Additionally, the Board of Supervisors authorized the old Firestone Sheriff's Station to be

Top to Bottom: Chief William Baker;  
Commander Gladys Ashby; and  
Commander Barry King

Top to Bottom: Captain Jack Scully - Lennox/Marina Del Rey Station and Captain Herbert Pettus - Lomita Station

remodeled and used as the base of operations for the newly formed league once vacated. Private funds will be used for the remodel of the building with one prospective donor being the "Make a Wish Foundation."

**Bicycle Patrol:** The Century Station Bicycle Team was formed in March of 1993. Its primary purpose is to address community-perceived problems, and in doing so, impact community/law enforcement relations in a positive manner. The Team's initial configuration was a sergeant and five deputies. By the end of September the Team was so effective, its size grew to eight deputies. The Team has been used to combat illegal vending, public drinking, and other areas of concern to the communities it serves. The Century Station Bicycle Team is the only team in the County deployed seven days per week in both the City and County areas.

**40th Annual Police Advisory Council Youth Safety Run:** During the week of June 21, 1993, Century Station hosted the 40th Annual Police Advisory Youth Safety Run. In 1953, the former Lynwood Police Department, Arcadia Police Department, and Winn's Tow initiated the safety run with a round trip from Lynwood to Las Vegas, Nevada. This year, Century Station hosted the run for 100 explorers from various agencies. The 35 vehicles were driven round trip from Lynwood to Yosemite National Park. The explorers competed for a variety of trophies and prizes.

### *Lennox/Marina Del Rey Stations*

Lennox Station, located in southwest Los Angeles County, provides police services for the unincorporated County area and the contract city of Lawndale. Marina Del Rey Station, located in west Los Angeles County, provides police services for the unincorporated County area and operates six patrol boats in the harbor and marina waters.

**Lawndale:** Personnel from Lennox Station worked with City officials to develop the Community Problem Action Committee (CompAC). Composed of one lieutenant, one deputy, the City's Planning Director, and the City's Neighborhood Watch Coordinator, this committee identified significant problems in the community and developed and implemented plans to combat those problems. In each case, tactics such as narcotics investigation, enforcement of building and health codes, or serving search warrants were jointly utilized to abate the problem.

**City of Hope Bike-a-Thon:** For the seventh consecutive year, Marina Del Rey hosted the City of Hope Bike-a-Thon. Due to the overwhelming generosity of Departmental personnel, over \$28,900 was raised to assist the medical center.

**Lennox Station Community Youth Center:** Lennox Station's Community Youth Center continued in its second year of providing community oriented programs to keep young people out of gangs. This year a new program provided a Thanksgiving dinner to approximately 120 homeless individuals. The funds for this dinner were raised by the Youth Center's Drill Team by sponsoring a "Teen Dance."

### *Lomita Station*

Lomita Station, located in the southwest Los Angeles County, provides services for the unincorporated County area and the contract cities of Lomita, Rancho Palos Verdes, Rolling Hills, and Rolling Hills Estates. Activities this year include:

**Neighborhood Watchword:** In an endeavor to work closer with the Lomita Sheriff's Station, the Rancho Palos Verdes Neighborhood Watch Coordinator used the program as a conduit to the community for crime prevention as well as disaster preparedness. The Coordinator initiated the quarterly publication of a newsletter entitled "Neighborhood Watchword" which is distributed to area residents. The material, which is produced at no cost to the Department, contains numerous articles and

tips on crime/violence prevention, preparing for emergencies, and upcoming events. It also presents crime alerts and stories recognizing outstanding service provided by residents and/or deputies.

**Gang and Graffiti Committee:** This committee meets monthly to discuss with Station representatives current problems involving gangs and graffiti in the City of Lomita. The committee sponsors a graffiti clean up program as well as a message board on local cable television. The program enlists citizens to adopt specific pieces of property and promptly report any graffiti that appears. The City then cleans the area, often with the help of the residents. The committee also installed video cameras to monitor active areas of gang graffiti such as schools. A hotline number has been established to report violations. These efforts have significantly contributed to maintaining an essentially graffiti free community.

### Safe Streets Bureau

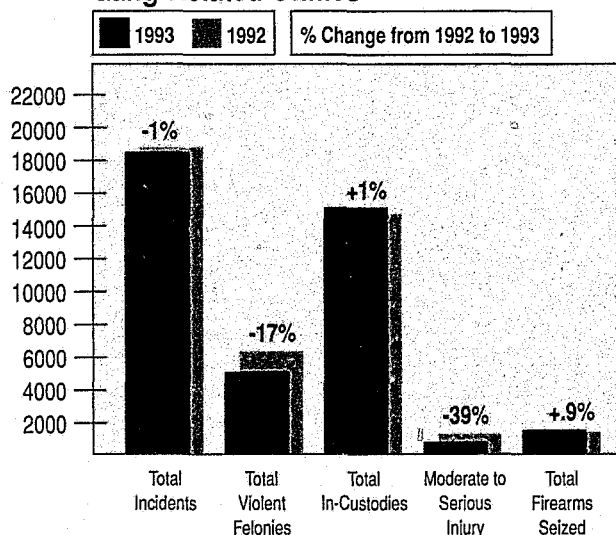

Captain Arthur Herrera  
Safe Streets Bureau

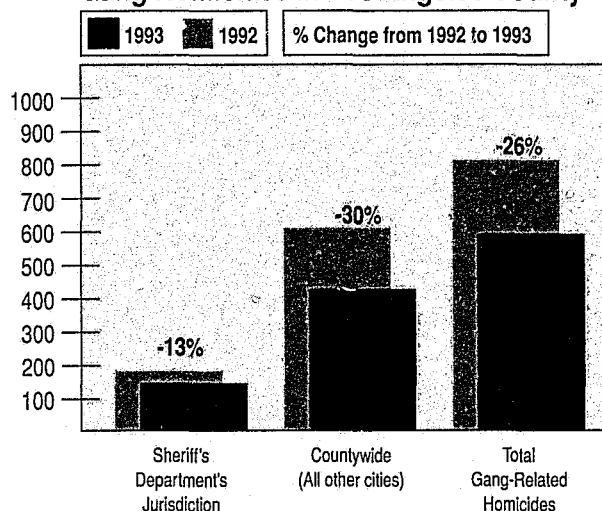

The Safe Streets Bureau is comprised of three details; Operation Safe Streets (OSS), the Gang Enforcement Teams (GET), and the Multijurisdictional Criminal Apprehension Detail (MCAD). The 11 OSS teams are charged with the investigation of cases involving targeted gangs within specific station areas. The six GET teams provide directed uniform patrol in active or violent gang areas.

**Operation Safe Streets:** Members of OSS are currently assigned to a federal task force working with the FBI, LAPD, and other agencies focusing on violent gangs dealing in the interstate transportation of narcotics. Deputies assigned to the taskforce assisted in solving the murder of the two City of Compton police officers. The deputies have also assisted in joint out-of-state operations of the DEA and the Metro Gang Taskforce in an investigation that was responsible for seizing 150 gallons of PCP, which is reported to be one of the largest seizures of its kind.

### Gang-Related Crimes

### Gang Homicides in Los Angeles County

## MCAD Statistics

	1993	1992	Percent Change
Arrests	252	323	-22
Cases Cleared	184	363	-49
Property Recovered	\$27,654,596	\$31,282,600	-12
Narcotics Seized	\$12,390		

**Multijurisdictional Criminal Apprehension Detail:** The Multijurisdictional Criminal Apprehension Detail merged with Safe Streets Bureau during the year. It is composed of two teams of experienced investigators who are responsible for the identification and apprehension of transient career criminals. With a highly successful track record dating back to 1983, MCAD investigators utilize a variety of "high tech" investigative devices to conduct investigations that frequently involve lengthy mobile surveillances. MCAD teams are supported by a crime analyst and 12 Sheriff's civilian volunteers.

- **Burglary Apprehension Team (BAT)** - The Team is comprised of a sergeant and five deputies housed at Lomita Station. While the majority of their efforts are directed at career

criminals targeting the Lomita Region located on the Palos Verdes Peninsula, BAT is available as a resource for any Department unit.

During 1993, BAT members conducted a number of successful investigations that led to the arrest and successful prosecution of suspects involved in a variety of crimes. These included the March bank robbery at the Rolling Hills Estates Great Western Bank by six armed suspects. In addition, arrests for residential and business burglary, auto theft, and cellular telephone fraud were common.

- **Cargo Criminal Apprehension Team (Cargo CATs)** - Now in its fourth year of operation, Cargo CATs is truly "multijurisdictional" and is comprised of experienced cargo theft investigators from six departments, representing city, county, state, and federal law enforcement agencies. Formed on the basis of a "partnership" between law enforcement and members of the cargo, transportation, and insurance industries, Cargo CATs investigators conduct in-depth investigations to identify cargo thieves and their receivers in the greater Los Angeles County/Southern California area.

Since Cargo CATs' inception, the Team has recovered more than \$79.4 million in stolen property and has arrested more than 547 suspects. This year, the Team recovered more than \$27.4 million in stolen property and was responsible for the successful prosecution of a number of suspects in State and Federal courts.

Safe Streets Bureau is also responsible for the maintenance of the Gang Reporting Evaluation and Tracking (GREAT) System. This automated file stores data on over 1,000 Los Angeles County street gangs and 150,000 gang members. The System is accessed by departments throughout the County and across the nation. The State of California recently accepted GREAT as the standard for gang files within the State. The California Department of Justice is proceeding to interlock various regional GREAT Systems together in an effort to build a Statewide gang file.

### ***Substance Abuse Narcotics Education (SANE)***

Captain Judith Lewis  
Substance Abuse  
Narcotics Education

The SANE program has completed its eighth year of teaching prevention education to elementary students (4th, 5th, and 6th graders) throughout Los Angeles County. The SANE Bureau has 47 sworn personnel teaching in approximately 400 schools in 51 districts.

**Drugs, Pregnancy, and You (DP&Y) Program:** This Program is well received at the high school level. This year, it was adopted by the California Stop Crime Coalition (CSCC) as the State model for perinatal education. In July, videotaping was done for the new DP&Y package that the CSCC developed for Statewide distribution to law enforcement and school districts. DP&Y staff provided technical assistance for the project.

**Golf Tournaments:** SANE personnel and the Sheriff's Youth Foundation hosted two golf tournaments this year; one was held at the Hacienda Country Club on July 12, 1993, and the other at the Sherwood Country Club on August 30, 1993. The proceeds and donations generated from these events benefit the SANE Program and the Sheriff's Youth Athletic Leagues.

**Adopt-A-SANE School:** In July, the Sheriff's Youth Foundation announced the formation of Adopt-A-SANE School. Adopt-A-SANE School is designed to benefit students enrolled in SANE classrooms by providing the resources necessary to support and enhance the SANE Program. Corporations, small businesses, and individuals are invited to "Adopt-A-SANE" school, classroom, or student. Their involvement and the positive role model they project to these boys and girls will greatly impact the lives of the students they have "adopted."

**After School Programs:** SANE is actively involved in various after school clubs and programs. These programs provide continuing interaction with elementary school children in an after school setting. Uniformed SANE deputies provide information and sports activities to students beyond the formal curriculum taught during normal school hours.

**COURAGE:** SANE deputies assisted Industry Station's Camp COURAGE, a week-long camping excursion, and for the second year straight, conducted the SANE Summer Program in the City of San Dimas. Both programs' goals are to provide youths living in high risk areas with activities that are both enjoyable and educational.

### ***Field Operations Support Services Unit***

During 1993, the Field Operations Training Unit received a name change to Field Operations Support Services Unit (FOSS). This was done to better reflect the evolving role of the Unit.

This year, the Unit developed 20 newsletters on a multitude of subjects, 7 new Field Operations Directives, and distributed 57 revised Field Operations Directives. Additionally, the Unit continued to coordinate the Advanced Tactical Communications workshop, inspect stations' training, scheduling, and jail programs, and train personnel on civil disturbance. In the realm of civil disturbance training, Field Operations Support Services introduced a variety of "less-lethal" weapons to the stations' inventories. The Stunbag 12-gauge shotgun round and Stingball dispersion grenades were two of these items. Furthermore, the Pepper Spray Pilot project was concluded and Field Operations Support Services began to implement this law enforcement tool Department-wide. Numerous programs and policy and procedures were revised regarding Departmental Radio Communications through the Unit's involvement in the 480 Radio Committee. The Field Operations Support Services Unit remained as the Departmental Matron, Docu-Cam in-car-video, and Station Desk Training coordinators. A new pilot project assigned to the Unit by Department executives was to implement tachographs (Trip-Recorders) for the Departmental patrol fleet.

Field Operations Support Services also administers and coordinates a substantial amount of Departmental and outside vendor schools. The Unit is responsible for the curriculum of all Field Operations Schools, such as Lieutenant, Sergeant, FTO (Field Training Officer), and Patrol School. Additionally, FOSS processes all outside vendor training for Field Operations, procure training dates for all Field Operations Schools, as well as coordinate PPC/Shotgun Training. The Unit hosts the quarterly Training Sergeants meetings where information relative to their duties is presented for enhanced station level training and recordation. A new class was formulated under the title of Detective Bureau Management School.

In 1993, the Field Operations Support Services Unit also interacted externally to the Department on a variety of issues. Members sat on the Mental Health Law Enforcement Relations, Elder Abuse, Family Preservation, Bail Deviation, and Domestic Violence Committees. Field Operations Support Services was also represented on the Los Angeles County Bar Law Enforcement Committee and the District Attorney Hate Crime Taskforce.

Top to Bottom: Captain Frank Vadurro - Transit Services Bureau and Captain Clarence Chapman - West Hollywood Station

### Transit Services Bureau

Transit Services Bureau is responsible for policing the 22 miles of rail corridor comprising the Metro Blue Line and over 140 miles of rail lines used by the Metrolink System. There are 140 sworn and 14 civilian personnel currently assigned to the Bureau. The Bureau's main facility is located on Imperial Highway at the junction of the Metro Blue Line and Metro Green Line. Personnel assigned to this facility police the Blue Line and, through a private entity contract, personnel have been policing the Green Line during its construction phase.

**Metrolink:** During the year, Metrolink expanded to Riverside County, San Bernardino County, and will shortly enter Orange County. Staff assigned to the Metrolink Unit have office space at the Metropolitan Transportation Authority headquarters building in downtown Los Angeles. Patrol personnel are staffed from an office in San Dimas and from various other locations throughout the County. The role of Transit Services Bureau's Metrolink Unit is to coordinate all law enforcement services provided by agencies of jurisdiction through which the trains traverse as well as on board policing duties. Toward that end Memorandums of Understanding have been agreed to by all law enforcement agencies affected.

**Motorcycle Unit:** Transit Services Bureau will also be implementing a motorcycle unit by the end of the year. The motorcycles have been purchased and are being equipped for service. Training for the deputies assigned to motors has been scheduled with their field deployment to occur by March of 1994.

**Core Agency:** Looking to the future, Transit Services Bureau has made a proposal to the Metropolitan Transportation Authority (MTA) to establish a "core agency" to coordinate policing of the entire transit system. This proposal caused the MTA to initiate a cost study to determine actual costs for the Sheriff's Department, LAPD and the MTA Police Department. It is expected that when the study is complete the MTA will choose an agency or combination of agencies to provide system-wide police services.

### West Hollywood Station

West Hollywood Station is the highlighted unit for Field Operations Region II (see page 87).

#### Metrolink

Average Daily Ridership	5,162

---

# FIELD OPERATIONS REGION III

# FIELD OPERATIONS REGION III ORGANIZATION

## FIELD OPERATIONS REGION III

Field Operations Region III is responsible for the performance of the basic police tasks of protecting life and property, preserving the peace, preventing and suppressing crime, and the apprehension of violators of the law. These functions are carried out at the following Sheriff's Stations and specialized units: Avalon, Industry, Lakewood, Norwalk Regional/Pico Rivera Local Stations and Walnut Regional/San Dimas Local Stations; Special Enforcement Bureau, Aero Bureau, and the Crisis Negotiations Team.

### *Avalon Station*

Avalon Station, located on Santa Catalina Island, off the coast of Los Angeles County, provides law enforcement services to the contract city of Avalon, and the unincorporated communities of Two Harbors, Airport-in-Sky, Middle Ranch, Avalon Canyon, and Pebbly Beach. Additionally, the Station services San Clemente Island, the San Pedro Channel, numerous youth camps, and the boating community around these islands. The following represents significant events that took place at Avalon Station during the year:

**Golf Carts as Patrol Vehicles:** Given the unique characteristics of Santa Catalina Island, the Station has always sought ways to provide better service to the community. Following an experiment several years ago utilizing golf carts as patrol vehicles that proved successful, the Station purchased three golf carts. One golf cart is outfitted as a black and white patrol vehicle, one is solid white and marked as a parking control vehicle, and one is left plain and used as an investigative vehicle.

**Code Enforcement Merger:** For a number of years the City of Avalon has employed two code enforcement officers who enforced parking laws and other City ordinances. Following a Station study, the two code enforcement officers were merged into the Sheriff's Department as parking control officers to provide service more efficiently. They are partially funded by both the City of Avalon and the County.

**Computer System:** The Station designed and purchased a computer system that enhanced and made the existing system more effective. It allows both the City of Avalon's and the Department's systems to interface. Additionally, the system includes the automation of certain complaint reports and their processing, and intra-Station communication. Most Station reports have also been automated.

**Patrol Vessel:** Following many years of absence, a marine patrol capability has returned to the Station. After several joint investigative operations with the U.S. Customs Service, they made available to the Station on a permanent loan basis, a 1987 Boston Whaler 22 foot runabout with twin outboard engines. The vessel will be moored at the Two Harbors Local Station and utilized for routine patrol, search and rescue operations, and for responses to many of the isolated coves and camps along Santa Catalina Island's rustic coastline.

**Station Remodeling:** Although only eight years old, Avalon Station began remodeling the Station in order to accommodate newer computer equipment and provide for the needs of eleven additional personnel items. This almost doubled the number of items to 23 from four years ago. The remodeling included moving and enlarging the sergeant's office, moving the station commander's office, providing office space for the station commander's secretary/timekeeper, moving the kitchen to the second floor, re-configuring the men's locker room, and other minor changes. Most of these changes were provided for with the skills of trusty labor.

**Public Safety Radio System:** Unique to Avalon Station is the task of providing dispatch services for the City of Avalon's Fire and Harbor Departments, the Los Angeles County Fire Department, and

*Top to Bottom: Chief Larry Anderson; Commander John Hammargren; and Commander William Stonich*

Beaches and Harbors Department's Baywatch/Paramedics. None of these departments had a modern communications system wherein they could communicate among each other, or with Sheriff's field personnel. Utilizing narcotics forfeiture monies and donated equipment from the Department's former 33 megahertz system, the Station designed and installed a modern system that gives all Island public safety agencies the capability, for the first time ever, to communicate with each other. This assists not only in routine communication, but also during emergencies such as search and rescue operations.

### *Industry Station*

*Captain Michael  
Nagaoka - Industry  
Station*

Industry Station, located in east Los Angeles County, provides police services for the unincorporated County area and contract cities of Industry, La Habra Heights, and La Puente. This year, the Station was involved in the following:

**"\*999" for Kids 5K/10K Run Festival:** The "\*999" for Kids 5K/10K Run and Festival was extremely successful this year. We raised over \$13,962 through this event sponsored by Challenge Cup Relay through funds generated by the "\*999" for Kids teams from the Hall of Justice, Mira Loma, and Industry Station. Industry Station's 5K/10K event raised \$8,439. The funds raised for this program will be used to purchase medical equipment, toys, and other necessities for the 650 severely disabled and abused children assigned to the Department of Children's Services, Medical Placement Unit.

**Court Quality Program:** Industry Station continues to foster better relations between Station personnel and officers of our local courts by hosting quarterly lunch meetings. These informative meetings improve communications, delivery of service, and training throughout the judicial process. This interaction has created and maintained first name relationships and continued dialogue regarding the Station's responsibilities with the justice system.

**Youth Athletic League:** In 1993, the Industry Sheriff's Youth Athletic League expanded operations to four County parks and provided youth leagues in basketball, baseball, and flag football for 1,600 at-risk youths. Instructional programs in baseball, soccer, flag football, and basketball were provided to 100 additional at-risk youths. The League, in conjunction with the Bassett School District, also provided youth camps in Mammoth Lakes and the San Bernardino Mountains for 120 at-risk youths. The funding for these projects was provided through community donations and the proceeds from the First Annual Industry Sheriff's Youth Athletic League Golf Tournament, which raised \$35,000 for the Youth Athletic League. The salaries for deputies involved were provided by the City of Industry and a Community Development Commission block grant.

**Bicycle Patrol:** The Industry Station Selective Enforcement Team implemented bicycle patrols in the Puente Hills Mall in the City of Industry and the Laura and Valley area of La Puente. The equipment necessary to implement the operations was purchased with the support of the City of Industry, City of La Puente, and Puente Hills Mall. The operations produced greater visibility of police presence and a reduction of criminal activity.

**Police Resource Optimization System Grant:** This grant, in the amount of \$183,600, was obtained from the Los Angeles County Productivity Investment Commission to purchase computer hardware, software, and consulting services to maximize the impact of deputies assigned to Industry Station through computer-assisted scheduling. The grant is scheduled for three years of operation beginning July 1, 1993. This year, computer hardware and software were obtained and initial data collection began. The first scheduling adjustments are expected in the second quarter of 1994.

## ***Norwalk Regional Station***

*Captain Norman Smith  
Norwalk Regional Station*

During 1993, Norwalk Regional Station continued its commitment to community based policing with the addition of the La Mirada Public Safety Center. Dedicated on March 12, 1993, the La Mirada Public Safety Center represents a significant extension of public safety services within the City of La Mirada. A joint venture of the City of La Mirada and the Sheriff's Department, the Public Safety Center offers residents and businesses easy access to public safety assistance seven days a week at a centralized location within the community. The Center, located in the La Mirada Theater Complex, provides local offices for the Sheriff's La Mirada detective team and special assigned deputies as well as office space for field deputies. Additionally, City public safety officers, trained to assist with a variety of citizen requests for public safety services, are also located here and provide services related to crime prevention, neighborhood watch, emergency preparedness, business watch, animal control, fingerprinting, and bicycle safety. This 1,100 square foot storefront office provides walk-in service and information 70 hours each week and received the Productivity and

Quality Award from the Los Angeles County Quality and Productivity Commission.

Norwalk Regional Station now provides law enforcement services through the following local facilities: La Mirada Public Safety Center, Norwalk Station, Pico Rivera Local Station and the 8,000 square foot Santa Fe Springs Police Services Center. Detectives and special assigned deputies are assigned to each facility where they interact with the community on a daily basis. Preparations are underway with the addition of facilities for detectives and support personnel in the unincorporated Whittier area, thereby completing the full decentralization of detective and support services at Norwalk Regional Station.

The Problem Specific Policing Taskforce at Pico Rivera Local Station has proven to be a highly effective program for impacting specific community issues. Assembled in June, the four member taskforce targets specific habitual criminals and significant law enforcement problems within the Pico Rivera community. The program already had a dramatic impact on violent crimes including murders, assaults, and drive-by shootings. Turning their attention to less dramatic problems, the team also conducts regular enforcement efforts in an area plagued by panhandlers and chronic drunks and has been applauded by citizens at the scene for their successful efforts. Illegal vending has also posed a problem among the local business community. The Taskforce has been able to effectively deal with the issue while balancing the concerns of local business owners on one hand, and citizen interest groups on the other, eliminating the problem with such finesse that not a single complaint was registered. In its first five months, the Taskforce made 176 total arrests for all crimes, including murder, and has maintained a 98% prosecution rate.

## ***Special Enforcement/Aero Bureau***

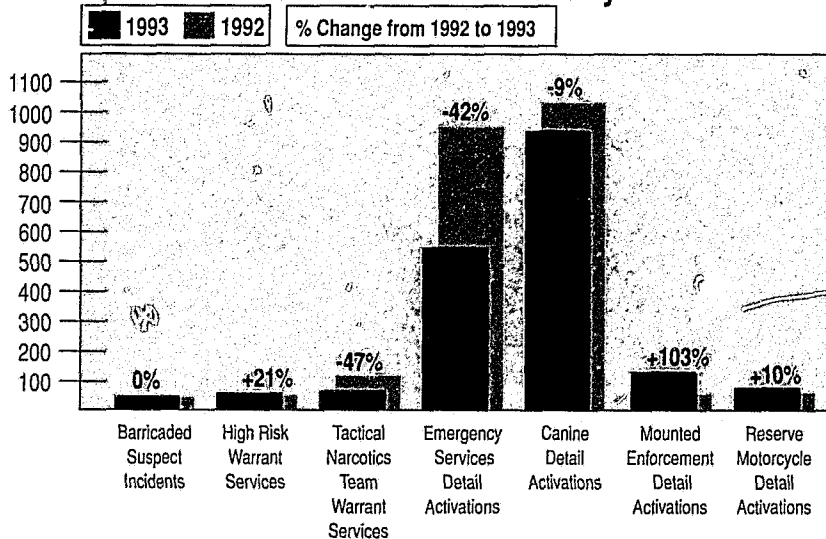

*Captain William Sams  
Special Enforcement/  
Aero Bureau*

The Special Enforcement Bureau (SEB) is comprised of five Details and provides a variety of specialized services throughout the County. It has a current assigned personnel strength of 84 sworn and seven civilians. The Bureau also maintains specialized reserve and civilian volunteer programs with a total strength of 73 reserves and 42 volunteers.

Two major programs have been implemented by SEB this year. One is the "Mission Specific Rotation Program." This program entails the return of three deputies who were "TORA'd" out of SEB in June 1992, in order to bring the Special Enforcement Detail up to a strength of six Special Weapons Teams (SWT). Two of these teams will always be on rotation, away from SEB, for a period of four weeks. They will carry out highly defined "mission specific" tasks which are identified by the requesting patrol station or other Department unit.

## Special Enforcement Bureau Activity

## Aerial Patrol Support Recap

Forward Looking InfraRed (FLIR) Searches	1,447

Observations	6,150
Details	1,400

They will then rotate back to a SWT assignment at SEB while another two teams carry on the same "mission" or begin another elsewhere within the Department.

The second program is the Tactical Response Force (TRF). This program was designed and implemented in order to deal with civil unrest and crowd control situations. The two platoon force is comprised of personnel from the Special Enforcement Bureau, Narcotics Bureau and the Gang Enforcement Team. The TRF's first activation came when a major disturbance broke out at Magic Mountain Amusement Park on April 29, 1993. Through the efforts of the TRF personnel, over 35,000 people were safely escorted from the Park. The TRF is continuing with its training and will be prepared for future activations.

Aero Bureau's proposed move to Brackett Field has been placed on hold. Negotiations with the City of Long Beach have resulted in a five-year lease to remain at Long Beach Airport. In spite of a 40% budget reduction, calls for air support from patrol stations increased. During fiscal year 1992-1993, Aero Bureau was unable to respond to 938 calls for assistance and/or service due to the lack of personnel.

**STRAAC (Sheriff's Tactical Reconnaissance, Air Ambulance Concept):** The STRAAC proposal to incorporate EMS Air Ambulance capability into a dual role with existing law enforcement airborne patrol services is in the developmental stages.

**Aircraft Replacement:** As the demands for aerial support for patrol and surveillance increased, so did the accrued flight hours for each of the Aero Bureau's helicopters. As a result, plans are being considered to replace the Aero Bureau's primary patrol/surveillance helicopter, the McDonnell-Douglas 500E, over the next five years. The MD 520N NOTAR (No Tail Rotor) helicopter, manufactured by McDonnell-Douglas, is being considered as a possible replacement. Aero Bureau pilots have had the opportunity to fly and evaluate the aircraft and are currently working closely with the manufacturer discussing the capabilities of the NOTAR.

**Air Rescue 5:** The status of Air Rescue 5 remains tenuous as we approach the next fiscal year. Hopefully, funding may be secured to maintain this valuable service to the Department and the citizens of Los Angeles County. A commission was formed by the Board of Supervisors to study the feasibility of consolidating rescue services throughout Los Angeles County. Their report to the Board is forthcoming by year's end.

## ***Walnut Regional Station***

*Captain Larry Waldie  
Walnut Regional Station*

Walnut Regional Station, located in east Los Angeles County, provides police services to the unincorporated County area and the contract cities of Diamond Bar, San Dimas, and Walnut. San Dimas Station is part of Walnut Regional Station. The Station area encompasses over 260 square miles and provides law enforcement services for approximately 214,000 citizens.

**Civilian Advisory Board:** Recognizing the need for an open line of communication with the communities we serve, the Civilian Advisory Board was established with 14 members from the community. The members, who attended a 13-week Citizen's Academy and will serve a two-year term, meet once a month to discuss problems and challenges unique to the Station's jurisdiction. The Board's ultimate goal is to establish community partnerships through public and private networking, and assist in educating the community concerning the needs and goals of law enforcement.

**Citizen's Academy:** The program was developed to build a better understanding between the citizens we serve and the Sheriff's Department through education. The 13-week course focuses on the Sheriff's Department's operational procedures as well as criminal law and undercover operations. The 35 member class includes business and community leaders, as well as interested citizens within the Station's jurisdiction and will be an ongoing yearly program. The Station graduated two academy classes during the year.

**Charter Oak/Azusa Youth Athletic Leagues:** Two additional Youth Athletic Leagues were established through community development Block Grant funding. The funding was primarily obtained because of the huge success of the Rowland Heights Youth Athletic League established last year. The activities were also expanded this year to include Summer Youth Programs which provided specific youth activities during school vacation. These programs provided a safe environment for literally hundreds of "at-risk" youths from peer group pressure and exposure to gang and drug activity.

## ***Lakewood Station***

*Captain John Anderson  
Lakewood Station*

Lakewood Station, located in southeast Los Angeles County, provides general and specialized community oriented law enforcement services for approximately 370,000 people in the contract cities of Artesia, Bellflower, Cerritos, Hawaiian Gardens, Lakewood, Paramount, and Long Beach (Districts 5, 8, and 9). Lakewood Station's jurisdiction includes the largest number of contract cities at one station. This year Lakewood Station is Field Operations Region III's highlighted unit (see page 89).

### ***Mental Evaluation Team (MET)***

On March 4, 1993, a reception for the Mental Evaluation Team was hosted by the Sheriff and the Director of the Department of Mental Health. Its purpose was to introduce the new program to various concerned agencies throughout Los Angeles County. Approximately 200 people were in attendance.

MET units consist of a deputy sheriff and a Department of Mental Health clinician. This year MET units responded Countywide from 1700 to 0100 hours and handled over 1,100 interventions involving attempted suicides, mentally ill, and developmentally disabled persons. Of the 1,100, 70% have been diverted from the County psychiatric hospital system due to patients having private insurance resources which allows private psychiatric hospital usage. MET is accessed via Sheriff's radio by requesting an E918 unit to a specific station's dispatch frequency. "Get MET, it Saves."

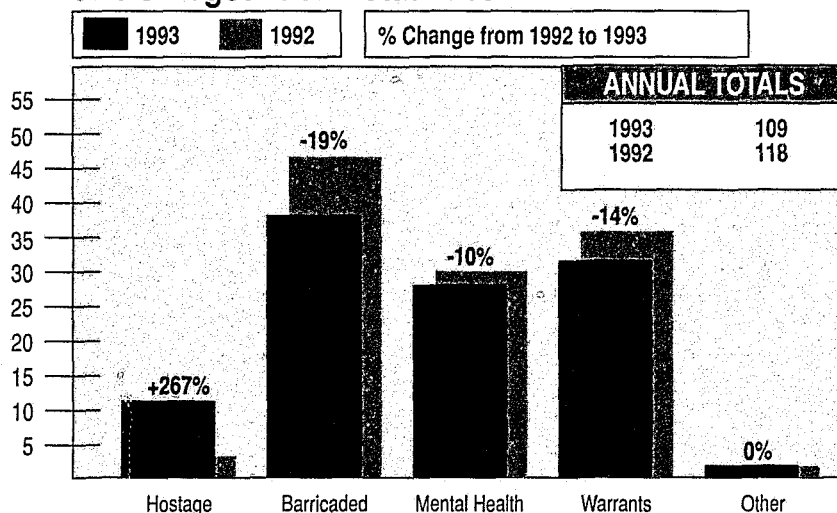

### *Crisis Negotiations Unit*

The application of crisis negotiations as a designated function of the Department is moving into its 20th year. During that time, the Crisis Negotiations Unit has played a very significant part in the safe resolution of highly lethal situations which ultimately saved lives.

During the year, the Crisis Negotiations Unit has assisted in 109 call outs, down 9 from 1992 by 7%. The degree of lethality in these situations has sharply increased placing greater onus on the Negotiations Unit to find safe solutions to barricade, hostage, suicide, and other mental health problems.

As indicated by the graph, hostage situations are up by 267% from 1992, while barricade situations are down by 19% during the same time period. Mental health situations in all categories have decreased since 1992, by 10% indicating that life destructive acts are, in the minds of some, a realistic means of solving problems.

### **Crisis Negotiations Statistics**

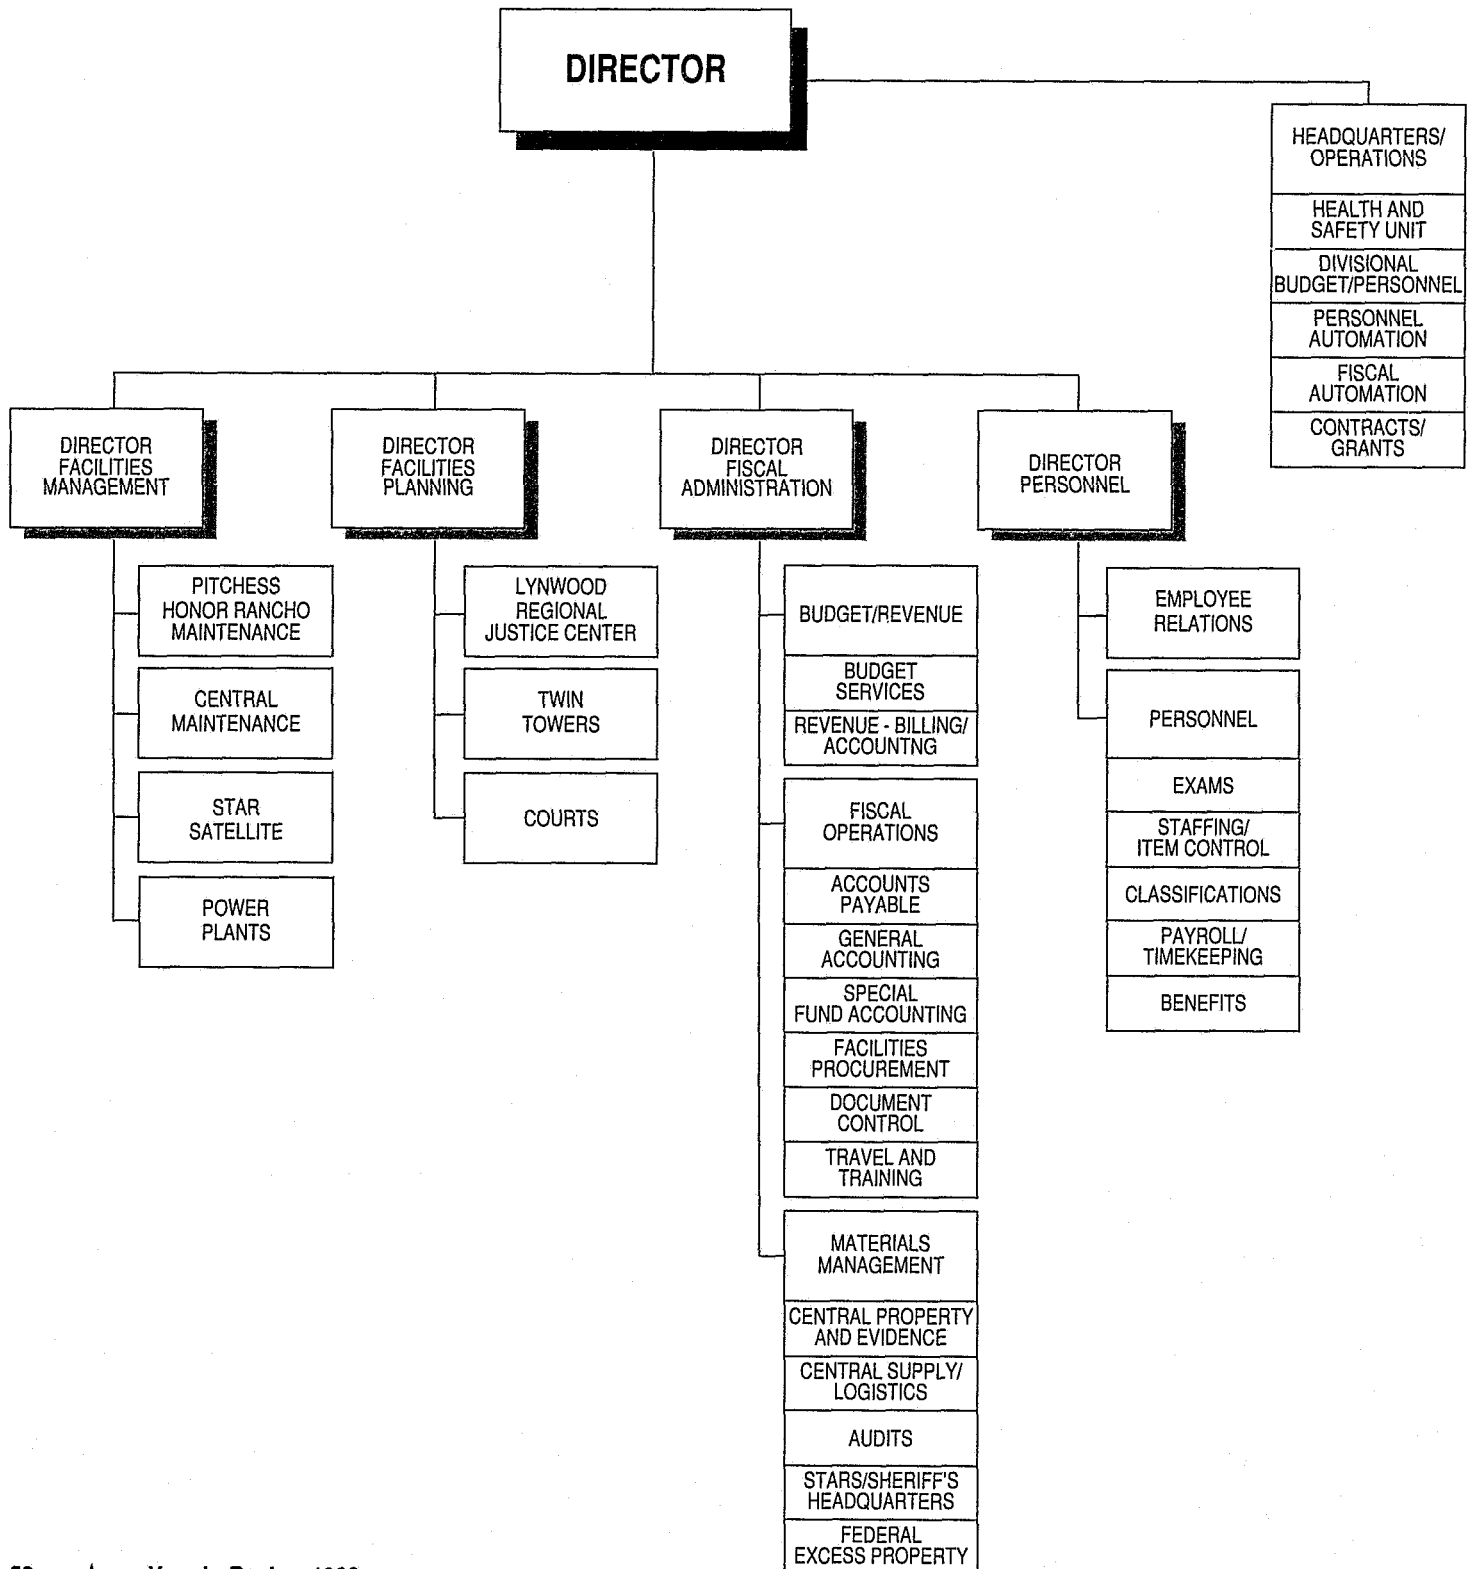

# OFFICE OF ADMINISTRATIVE SERVICES

# OFFICE OF ADMINISTRATIVE SERVICES ORGANIZATION

# OFFICE OF ADMINISTRATIVE SERVICES

The Office of Administrative Services Division is comprised of Facilities Management Services, Facilities Planning, Fiscal Administration, Health and Safety, and Personnel Administration. The Division is responsible for providing administrative staff services to the entire Department. Functions of this Division include recruitment, selection, employee relations, classification, staffing, timekeeping, payroll processing, budget, procurement, supply, facilities maintenance, central evidence tracking, and grant processing.

## *Facilities Management Services*

Facilities Management is this year's highlighted unit for the Office of Administrative Services (see page 91).

## *Facilities Planning Services*

Facilities Planning Services is responsible for processing Department Capital Project requests; initiating authorizations for work performed by Internal Services Department (ISD), including Information Technology Services (ITS), Project Management, Inspections Services, and Facilities Operations Services (FOS); authorizing, monitoring and verifying Capital Project expenditures; procurement activities; preparing documents for program/design efforts to define the scope of work; and acting as liaison between ISD, other County departments, Board of Supervisors and the State Department of Corrections. Other functions in this Unit include monitoring and coordinating lease space for the Department, coordinating a rideshare program based on AQMD regulations, and developing a recycling program. There are two units in Facilities Planning Services: Project Management and Administration/Finance/Material Management.

Facilities Planning manages 30 Capital Projects and 13 Superior and Municipal Court Projects. The budgets for the Sheriff's controlled projects total more than \$619 million including the Lynwood Regional Justice Center and the Twin Towers Correctional Facility with budgets in the amount of \$194 million and \$373.4 million, respectively.

This year, Facilities Planning Services supervised the design and the renovation of the new Sheriff's Department Headquarters. In addition, the Unit coordinated the relocation of Sheriff's personnel from the Hall of Justice facility to the new Headquarters, located in Monterey Park.

## *Fiscal Administration*

Fiscal Administration is comprised of 11 units. These units are:

**General Accounting:** The General Accounting Unit maintains all budgetary accounting records and certain specialized accounting records for the Department. Unit responsibilities include processing Departmental invoice billings for services provided by other County departments; reconciliation of Departmental expenditures with Countywide Accounting and Purchasing System (CAPS); and for remitting payment for evidence collection charges.

**Accounts Payable:** This Unit maintains all budgetary accounting records and certain specialized accounting records for the Department. They are the payment processing unit, and are responsible for on-line payment processing of expenditure data resulting in the automatic issuance of warrants.

**Special Fund Accounting:** The Special Fund Accounting Unit maintains and controls the financial records related to the following funds: Inmate Welfare, Jail Stores, Automated Fingerprint Information System, Financial Administration of Grants, Narcotics Forfeiture Fund, and Automated Countywide Warrant System.

*Top to Bottom: Director Fred Ramirez - Office of Administrative Services; Director Jeffrey Hauptman - Personnel Administration; and Director Victor Rampulla - Fiscal Administration*

**Travel/Training-Document Control:** This Unit is responsible for processing travel advances, expense claims, gasoline credit cards, cellular cards, cellular telephones, and travel requests. Travel/Training also processes payment vouchers for expense claims and travel advances.

Document Control processes all Department Supply Requisitions (DSR's), Purchasing and Stores (P&S) requisitions, and purchase orders for the Sheriff's Department. Document Control also receives, reviews, and distributes all Department Invoice Summary Reports received from P&S and ensures all charges are correct.

**Facilities Procurement:** Facilities Procurement is responsible for ordering supplies for the three regions in Facilities Management. The three regions are Central Services (Central Jail), Satellite Region (STARS Center) and North Region (Pitchess Honor Rancho).

Procurement also works closely with the crafts supervisors and craftsmen, consulting with vendors, commodities, pricing, delivery dates, and methods of ordering (such as sub-order, petty cash, or requisitions). Procurement is also responsible for seeing that all bills are paid on time.

**Budget Services:** Budget Services, in cooperation with Divisional budget staff, prepares the Sheriff's Department general and special fund budget requests which are submitted annually to the County's Chief Administrative Officer.

**Cost Accounting (Revenue Management):** This Unit maintains accounting records for all billings, revenues, collections, special appropriations, other cash funds, and bank accounts. Responsibilities include: reconciling Departmental revenue collections; processing and accounting for all cash collections; maintaining detailed trust account ledgers; and processing billings for services provided to other agencies.

**Internal Audit:** This Unit was established in July 1990, for the purpose of assuring management that Departmental financial activities are being made in compliance with the Government Code, County Fiscal Manual, Departmental Manual of Policies and Procedures, and generally accepted accounting principles. The Unit's main objective is to identify weaknesses and recommend practical corrective actions.

**Central Supply/Logistics:** This Unit issues supplies to all Department units. Responsibilities include control of warehouse inventory, maintenance of stock at predetermined levels, conducting yearly inventory of all stock items, and advising the Uniform and Safety Equipment Committee on matters of uniforms and safety equipment.

**Facilities Upkeep:** Facilities Upkeep interfaces and coordinates the use of inmates to perform custodial services and landscape maintenance at the Hall of Justice and the Sheriff's Training Academy and Regional Services (STARS) Center. Additionally, painting and carpet laying at Sheriff's facilities are coordinated by this Unit.

**Central Property and Evidence:** Central Property received 67,696 line items of evidence while disposing of 64,927 total items. The Unit has not experienced a significant increase in the volume of incoming evidence items over the last two years. Central Property also assisted Sheriff's Information Bureau with the 1993 Annual Gun Dump held at Clean Steel Incorporated in Wilmington, California.

Recently, Central Property expanded the Evidence and Property Inventory Control System (EPIC) to six stations/units, increasing the number to 11.

### ***Health and Safety Unit***

The Health and Safety Unit is now a headquarter's component of the newly created Office of Administrative Services. In 1993, the Unit moved from the Hall of Justice to the Sheriff's Headquarters. Planning and testing of an automated injury/illness tracking system was accomplished and efforts in "return-to-work" were intensified. Civilianization in the Unit has continued with the assignment of a

civilian manager, additional civilian employee services representatives, and civilian administrative staff.

**Administrative Section:** The Administrative Section processed 4,194 Industrial Injury/Illness forms in 1993, down slightly from the 1992 total of 4,229. The Section also developed the Automation Program. The goal of this program is to unite all existing automated unit records into one expanded database system. Automated case tracking, management reporting, and Department-wide electronic data gathering and distribution are the key elements planned for the new automated system.

**Employee Assistance Section:** Confidential counseling was provided for employees with alcohol related problems, their families, co-workers, and supervisors. The counseling services are for anyone in the Department whose life or job is affected by excessive drinking no matter who the substance abuser is. Another source of confidential support and guidance regarding personal or professional problems continued to be available by trained peer volunteers.

- Alcohol Awareness Program - During the year, 28 new clients were seen and 4 interventions occurred for alcohol abuse. The program coordinator attended 195 meetings and made 6 presentations. Over 1,300 client contacts were made.
- Peer Counseling Program - Activity continued at approximately the same level as 1992, with volunteers providing several hundred hours of service throughout the year for co-workers.

**Health and Safety Section:** Wellness and safety issues are addressed by personnel in this Section.

- Wellness Program - Fiscal constraints delayed Department-wide implementation of a formalized Wellness Program and less costly alternatives are under study.
- Injury and Illness Prevention Program - State law requires employers to provide and maintain safe and healthful work places for their employees. Assistance to units with compliance issues identified by CAL-OSHA during site inspections has been provided.
- Bloodborne Pathogens Programs - This year the Health and Safety Section continued to coordinate Hepatitis B vaccinations for "at-risk" employees.

**Return to Work Section:** Throughout the year, attention was focused in this area. Efforts resulted in returning 87 employees to work, compared with 24 in 1992. The Section's field representatives made 434 hospital and home visits and assisted employees and surviving family members with 50 funerals. Additionally, 202 visits/meetings were held with Departmental units to exchange progress reports and explore solutions for problems of ill/injured employees.

### ***Personnel Administration***

Personnel Administration is comprised of ten units. They are:

**Administrative Unit:** The Administrative Unit is responsible for the care, maintenance, storage, and microfilming of personnel files for active, inactive, reserve, and purged files. In addition, the Unit has control of the ordering, issuance, and maintenance of Departmental badges. The Unit is comprised of three sections, the Public Information Counter, the Retirement/Unemployment Desk, and the Vault Operations.

The Vault Operations microfilmed 1,449 personnel files during the year while the Retirement/Unemployment desk successfully contested 70 unemployment insurance cases, which resulted in a savings to the Department.

### **Administrative Unit Statistics**

Retired Sworn and Civilian Personnel Processed	275
Unemployed Insurance Cases Contested	70
Written Employment Verifications	5,076
Lost Badges Replaced (Sworn and Civilian)	30
Lost Identification Cards Replaced (Sworn and Civilian)	35
Badges Ordered and Repaired	3,113
Personnel Files Checked Out and Reviewed	4,150
Microfilmed Files	1,449
CCW Renewals	94
Name Changes	62
Front Counter Sign-in Log (Inquiries for personnel)	1,245

**Alpha Processing Team:** The primary function of the Alpha Processing Team is to process, maintain, and update all personnel transactions for all employees of the Sheriff's Department. The functions that are performed by the Alpha Processing Team are critical to the payroll and timekeeping operations. This year the Team had several major projects which included:

- Proposed Lay-Offs - In April and May, the Team worked non-stop posting seniority lay-off rosters, identifying employees who were targeted for possible lay-offs, and preparing notices.
- Bonus Audit Project - In August and September, the Team conducted an internal audit on the number of employees receiving Catalina Bonus Pay, Supervisory Skill Pay, Diving Pay, Arson/Explosives Pay, and Pilot and Observer Pay.

### Alpha Processing Statistics

Step Advances	5,138
Performance Evaluations	9,628
Transfers	4,956
Name Changes	239
Change of Status Reports	3,858
Service Award Pins	1,791

**Ancillary Services:** Accomplishments for this year included automation of: bilingual pay records to track Departmental employees receiving bilingual pay; Services and Supplies (S&S) and Fixed Asset budgets; and Subpoena, Leaves of Absence, and Unit Performance Evaluation Reports. In addition, this Unit receives and processes all U.S. and County mail at the Sheriff's Headquarters Building.

**Backgrounds:** The background investigators' sole responsibility is to ensure civilian personnel hired meet the Sheriff's Department's hiring standards. This objective is accomplished by conducting a comprehensive investigation into the record history of individuals who have applied at all civilian levels. The investigations must adhere to all Federal, State, and local statutes governing the hiring of employees.

During the year, the Background Investigations Unit processed a total of 431 applications, 173 were routine, 60 were high level, and 198 were security clearances.

**Benefits Unit:** The open enrollment period for Options participants was October 11-29, 1993, while open enrollment for Choices, Flex, and Megaflex participants was November 1-19, 1993. During these enrollment periods, employees were able to select new and/or modify existing benefits for 1994, by using the telephone enrollment process to record benefit selections directly to a computer system. A confirmation letter was then sent to the employee's home indicating selections made for 1994.

**Classification/Compensation Unit:** The Classification/Compensation Unit is primarily responsible for the organization, development, and reclassification of all positions within the Sheriff's Department. The Unit successfully completed the reclassification of approximately 75 Automated Timekeeping System Operators to coincide with the final implementation of Phase II of the Countywide Timekeeping and Personnel/Payroll System. In addition, the Unit participated in the placement of over 900 Marshal's employees to their newly-designated Sheriff positions and classifications.

During the year, Personnel Administration and the Classification Unit continued to be responsible for the overall implementation and direction of the comprehensive Department-wide program for ensuring compliance with all provisions of the Americans with Disabilities Act.

**Consolidated Timekeeping:** During 1993, a new Consolidated Timekeeping Office was established in the Sheriff's Headquarter's Building. This new office handles all of the Executive Offices, Region I, Detective Division, Technical Services, Professional Standards and Training Headquarters, and Office of Administrative Services.

The Audit Training Unit expanded and has three new staff members to provide assistance/training to Unit Timekeepers, Payroll Staff, and the Help Desk Unit. This Unit will also complete timekeeping audits daily.

Effective March 1, 1993, the new Countywide Timekeeping and Personnel/Payroll System (CWTAPPS) was implemented and Department-wide training was conducted for all timekeepers and scheduling staff. As part of the CWTAPPS process, employee's balances reflected on the reverse side of their payroll warrant on November 15, 1993. These balances will continue to appear on the 15th of each month.

**Payroll Operations:** The Payroll Unit processed approximately 800 outgoings, which consisted of lump sum payoffs for retirees, employees leaving County service, transfers to other County departments, and supplemental outgoings. In addition, 7,766 uniform allowance checks, approximately 1,000 mileage claims, 2,208 employee tax forms, 5,477 employment verifications providing information to loan companies, 9,000 cash sick reimbursements, 2,690 timerolls, 50 vacation pay advances, and 1,280 direct deposit authorizations were processed.

The Unit sorted and released approximately 9,000 retirement statements, 210,000 payroll warrants, and 12,400 W-2 Forms. Payroll also mailed nine Early Separation Warrants in November.

The Special Assignments Unit processed 73 subpoenas, 943 overpayment letters and 1,800 overtime slips for special events, such as the Gay Pride Parade, Rose Parade, Malibu-Chatsworth fire, and the June and November elections.

**Recruitment and Selection Unit:** The Recruitment and Selection Unit is responsible for recruiting, announcing, preparing, and administering civilian and sworn examinations for positions in the Department; certifying hire lists; and reporting statistical information about the testing process. This year, the Recruitment Unit attended approximately 16 job fairs at various locations including high schools, colleges, skill centers, and community centers. Approximately 4,000 people are on the mailing list for various positions to be notified of future examinations. The Recruitment Unit received about 9,000 applications in 1993. The total amount includes 3,975 applications for the Custody Assistant examination.

**Staffing Unit:** This year the Staffing Unit conducted two job fairs: (1) the closure of the Hall of Justice Jail, whose staff was temporarily displaced and will be relocated once the Lynwood Regional Justice Center opens; (2) the closure of the Mira Loma Facility and the down sizing of several other units due to the \$25 million budget curtailment. The Staffing Unit was responsible for assisting the Executive Planning Council with planning and providing various reports to help make this event successful.

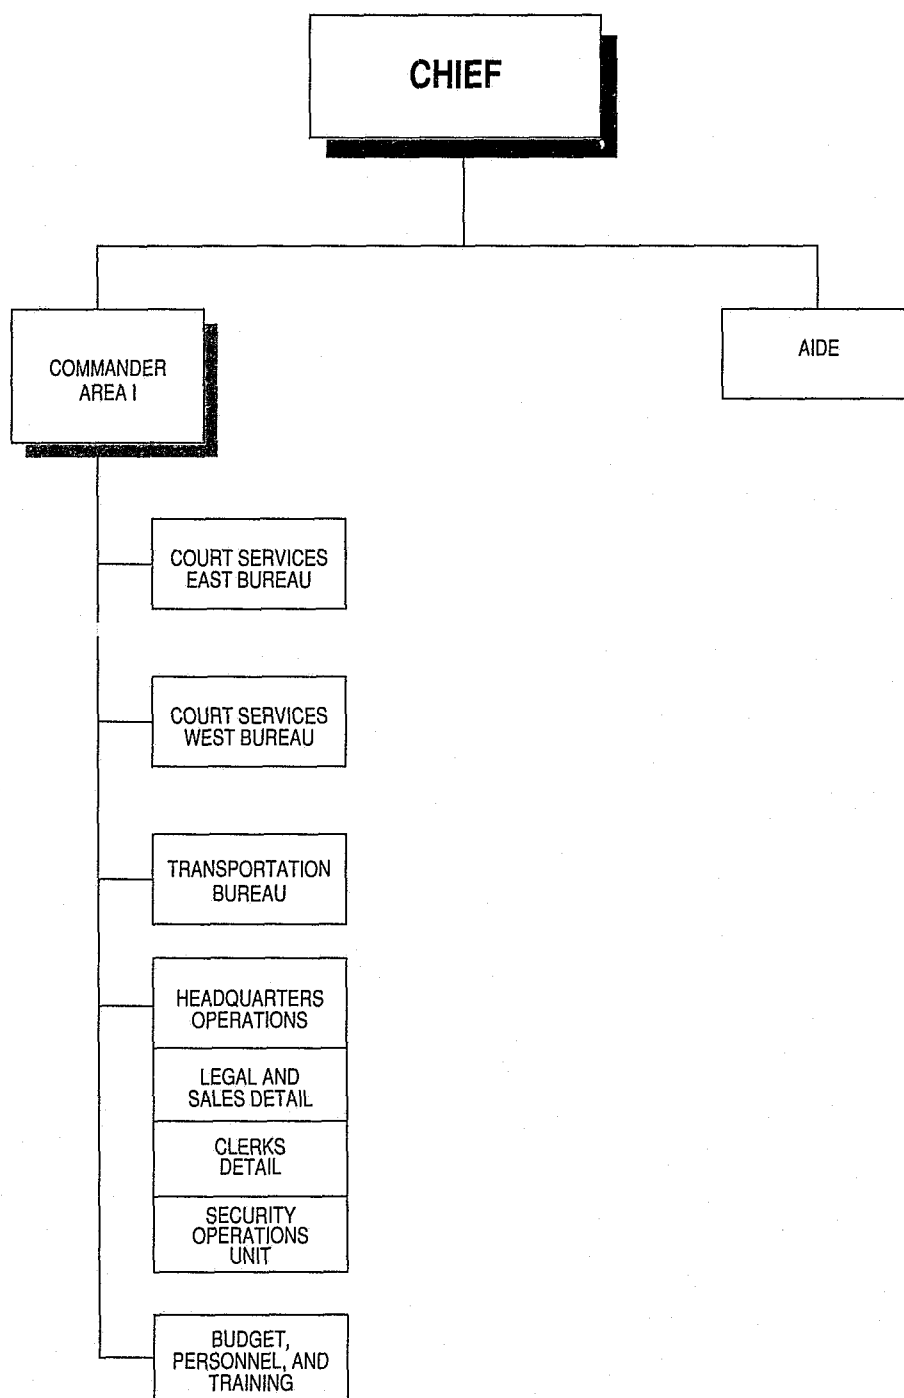

# COURT SERVICES DIVISION

# COURT SERVICES DIVISION ORGANIZATION

## COURT SERVICES DIVISION

The Division is responsible for carrying out the duties of the Sheriff as the Chief Ministerial Officer of the Superior Court of the County of Los Angeles by serving and enforcing civil and criminal processes submitted to them for the courts, attorneys and litigants, and by providing bailiffs to the Superior and Justice Courts. The Division is comprised of Court Services East, Court Services West, and Transportation Bureaus, and the Headquarters Unit.

On October 26, 1993, the Board of Supervisors unanimously voted to merge the 900-member Los Angeles County Marshal's Department into the Sheriff's Department. The effort to consolidate the two departments had its origin more than 20 years ago. Complete implementation of the consolidation must be completed by July 1, 1994; however, it is contemplated this consolidation will be completed before that date. The Sheriff's Department looks forward to enriching itself with the talent, experience, and dedication of its newest deputy sheriffs and their support staff. The Department also looks forward to working with the municipal court judges.

### *Court Services West Bureau*

This Bureau provides services to the following courts: Antelope Valley, Burbank, Central Civil West, Glendale, Inglewood, North Valley, Pasadena, Santa Monica, Sylmar, Torrance, Van Nuys, and the County Courthouse. Court Services West Bureau is also responsible for the custody of prisoners at these facilities and nine municipal court lock-ups.

The Bureau experienced, or anticipates, expansions at several courthouses:

**Burbank Courthouse:** Construction of a new main lock-up and two additional courtrooms began in September and completion is expected in late 1994.

**Los Angeles Municipal Court District:** Two new municipal courthouses and a major renovation is being planned on the west side of the District. A total of 46 courtrooms and three main lock-ups will be built at three locations in Chatsworth, West Los Angeles, and near Los Angeles International Airport. The courts will be open between 1996 and 1998.

**North Hollywood Superior Courthouse:** Plans to construct a new 15-courtroom superior courthouse have begun. The completion date is scheduled for mid-1998.

**Van Nuys Superior Courthouse:** Final corrections have been made and the construction of the additional main lock-up spaces has been completed.

### *Court Services East Bureau*

The Bureau provides services to the following courts: Alhambra, Criminal Courts Building, Compton, Eastlake, Kenyon Juvenile Justice Center, Long Beach, Los Padrinos, Mental Health, Norwalk, Pomona, and the Edmund D. Edelman Children's Court. Court Services East Bureau is also responsible for the custody of prisoners at these facilities and 11 municipal court lock-ups.

Commencing July 1993, all Los Angeles child dependency hearings are heard at the new Children's Court in Monterey Park. This 25-courtroom facility is the nation's first child-oriented courthouse.

The Bureau experienced, or anticipates, expansion at several courthouses and facilities:

**Criminal Courts Building:** Ten high-security courtrooms were completed in June. The highly publicized "People v. Watson, et al" (Reginald Denny) trial was held at this security floor in September and October. Additional high-security housing is planned for mid-1994 installation at the Court.

Top to Bottom: Chief Leroy Baca and Commander Patrick Devaney

Top to Bottom: Captain Ray Gott - Transportation Bureau; Captain Hugh McDonald, Jr. - Court Services West Bureau; Captain John Phillips - Court Services East Bureau; and Captain Burville Wenke - Court Services West Bureau

**Compton Court Video Arraignment Project:** The estimates for and the construction of two video arraignment rooms and a holding cell at the attorney interview room at Central Jail is forthcoming with a mid-1994 completion date anticipated.

**Alhambra Court:** Construction of the three superior courts, adjacent lock-up, and bailiff offices will be completed in November.

### *Transportation Bureau*

The Bureau has a Headquarters Unit, a North County operation at Pitchess Honor Ranch, and a Statewide Transportation Detail. In total, the Bureau transported nearly 1,900,000 inmates in 1993. Daily average to court stood at nearly 2,500 inmates, with a total overall daily transportation figure of over 5,000 inmates. Our North operation averages 1,290 inmates transported daily, while the Statewide Detail, which transports inmates to and from State prisons throughout California, transported nearly 46,000 inmates in 1993.

In addition to transporting inmates to and from court and State prisons, the Bureau also provides court-ordered transportation to private medical facilities, private psychiatric visits, hemodialysis clinics, funerals, and numerous other services.

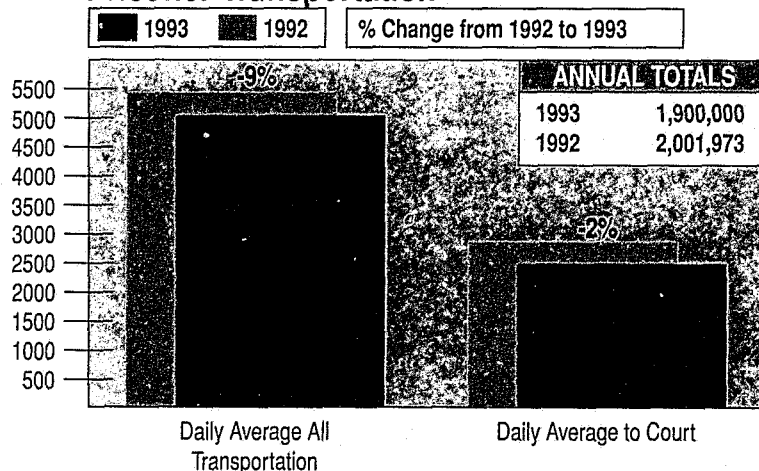

Transportation Bureau's fleet consists of 75 buses, 17 vans, and 9 radio cars. Fifty-six of the buses are the MCI model. During 1993, Transportation Bureau logged far in excess of two and one-half million miles.

### *Court Services Headquarters Unit*

The Headquarters Unit is comprised of the Legal and Sales Detail, the Clerks' Detail, and the Security Operations Unit. The Headquarters Unit serves all special process, such as evictions and levies, other process, and installs Keepers Countywide. This Unit handled over 7,769 civil process and 11,961 subpoenas. As a result, over \$11,257,812 in court-ordered collections were made and over \$2,271,583 in-service fees were received.

The Security Operations Unit deals with special security operations for the Division, as well as providing security for the Board of Supervisors. Their duties include threat assessments, intelligence gathering, security for the Board of Supervisors, investigation of threats against Superior Court Judges, and assisting in high profile/security trials.

### **Prisoner Transportation**

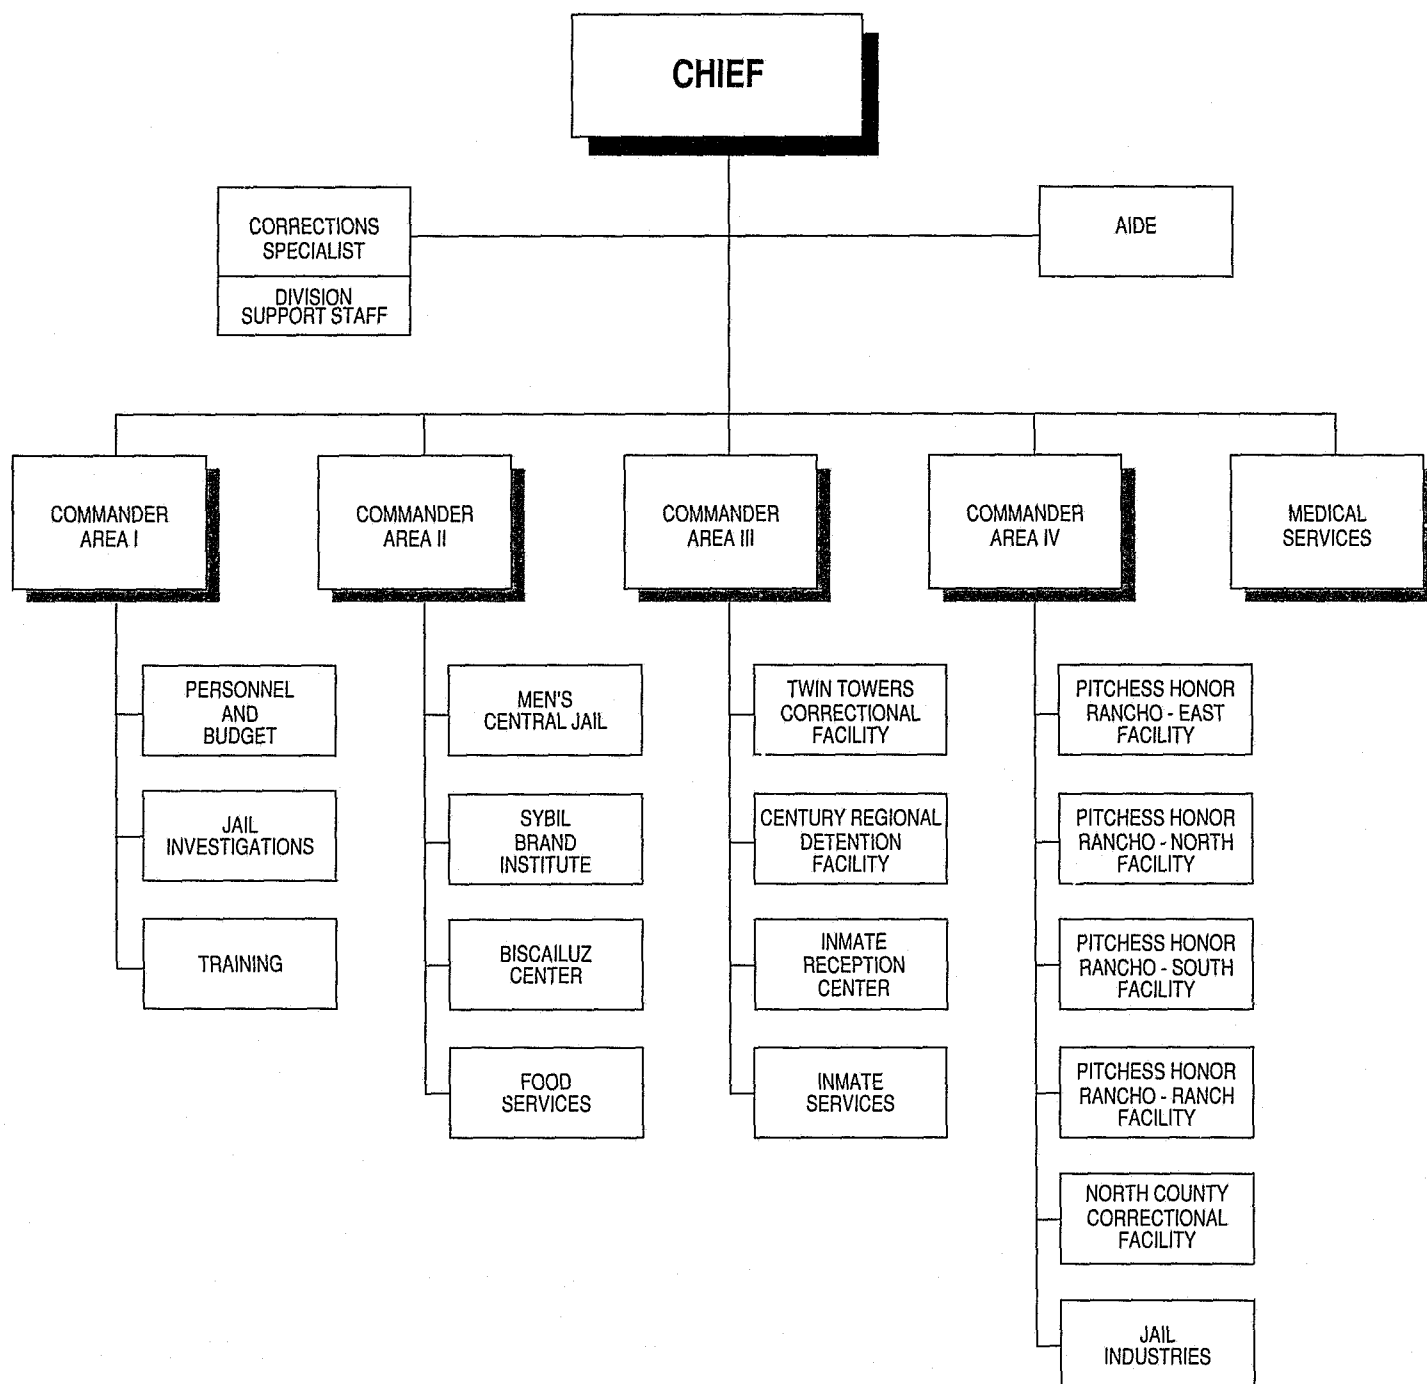

# CUSTODY DIVISION

# CUSTODY DIVISION ORGANIZATION

## CUSTODY DIVISION

Custody Division is responsible for the operation of the County's jail system and for the custody, security, rehabilitation, and care of all sentenced and pretrial inmates held in Sheriff's custody facilities. In addition to the Inmate Reception Center (IRC), the eight custody facilities include: Men's Central Jail (MCJ); Sybil Brand Institute for Women (SBI); Pitchess Honor Rancho Facilities (PHR): East, Ranch, North, South; North County Correctional Facility (NCCF); and Biscailuz Center (BC).

Inmate Population	1993	1992
Average Daily Count	20,026	21,901
Total Inmate Remands	222,847	252,051
Average Daily Remands	610	691
Total Inter-Facility Transfers	217,585	246,602
Average Daily Transfers	596	676

Left to Right, Top to Bottom: Chief Paul Myron; Commander Kenneth Bayless; Commander Alan Chancellor; Commander Robert Pash; and Commander Robert Spierer

### *Custody Division Reorganization*

Custody Division was required to reorganize due to the recent budget constraints imposed upon Los Angeles County. Consequently, Custody Division, which receives the largest portion of the Sheriff's Department budget was "hardest hit" as a result of the reductions. The most significant impact was the forced closing of two jail facilities. This also resulted in the shift of inmates and re-deployment of personnel to other facilities within the Division. Custody Division was also forced to eliminate a commander position which resulted in a realignment of duties as indicated by the organization chart. Following is an overview of the modifications effected in order to continue operating within current guidelines.

### *Jail Closures*

Built in 1925, the Hall of Justice Jail was the beginning of what is now Custody Division. Originally built for a maximum capacity of 1,040 inmates, it was later expanded to house a maximum of 1,800. The Hall of Justice Jail was designed to house all types of inmates (males, females, juveniles, sentenced and pretrial misdemeanants, and felons). Over the span of the last seven decades, this jail was "home" to many of the most notorious criminals of our time. It became the temporary housing location for Charles Manson, Sirhan-Sirhan, and William and Emily Harris of the Symbionese Liberation Army, to name just a few. With the closing of the Jail, 240 sworn and civilian personnel were deployed to other areas within the Division. The Hall of Justice Jail officially closed its doors in February after 68 years of operation.

The Mira Loma Facility was closed in mid-August, 1993. This closure resulted in the reassignment of 1,943 inmates (1,089 males and 854 females) to other facilities. Approximately 200 sworn and civilian personnel were re-deployed to alternate assignments throughout Custody Division. One of the cost savings to Custody Division was realized when the outside vendor contract for medical services was terminated. Another cost saving was the elimination of busing to this facility by Transportation Bureau. The "REACH" program, a successful substance abuse curriculum designed for inmates, was relocated to Sybil Brand Institute. The "REACH" program is described in the highlighted section (see page 93).

Left to Right, Top to Bottom: Captain Stephen Batchelor - Pitchess Honor Rancho, Ranch Facility; Captain John Bryan - Lynwood Regional Justice Center; Captain Allan Etzel - North County Correctional Facility; Captain Patrick Mallon - Twin Towers Correctional Facility; Captain William Martin - Pitchess Honor Rancho, North Facility; and Captain Allen Mathews - Biscailuz Center

### *Inmate Population Management*

In addition to the existing population reduction programs - Early, Percentage, and Citation Release - the Planning and Research Unit of Custody Division created the Release Level Matrix (RLM). In response to the closing of the Mira Loma Facility, the RLM was developed to establish an equitable and objective method of release with minimal community impact. The RLM is a plan whereby inmates are numerically rated using specific criteria which assess their danger to society. The objective of RLM is to sort inmates into manageable and identifiable release levels by assigning numerical values that reflect a "most to least" acceptable order for release. Initially, inmates are divided by male and female. Each gender is then divided by crime type (misdemeanor, felony, or combination of misdemeanor and felony); and further categorized by sentenced, pretrial, or partially sentenced. These sub-groups are filtered through a set of criteria that include: 1) charge type/level, 2) security level, 3) charge(s), 4) bail, and 5) percentage of sentence completed. Prior to this final sort, several conditions exist to filter out inmates not eligible for RLM. This group includes bail at or over \$100,000, specific sex offenses, stalking, spousal abuse, drunk driving, inmates who have completed less than 50% of their sentence, and specific Failure-to-Appear offenses. The resultant sub-groups rank inmates from lowest to highest threat to society. RLM was integrated with existing release mechanisms and was used to effect the full closure of Mira Loma, as well as the partial closure of Biscailuz Center in August 1993. Under this program, Custody Division issued citation releases to 11,754 inmates.

### *Medical Services*

Medical Services provides health care at nine facilities in six locations throughout the County. Medical Services is comprised of 500 personnel and serves a daily average population of 20,000 inmates. In 1993, over three million outpatient visits were provided in Medical Services clinics. Additionally, over 7,101 men and women were admitted to hospital areas which equates to a daily census of over 220 inmates in hospital beds with an average length of stay of 12 days.

In 1993, Medical Services accomplished two programs which provided streamlined health care with cost savings.

Medical Services developed admission criteria for inpatient housing areas. The new inpatient housing alternatives are as follows:

**Correctional Treatment Center (CTC):** The Center was designed and established for acutely ill inmates requiring 24-hour nursing care (50 bed capacity).

**Intermediate Care:** Intermediate Care housing gives Medical Services the ability to monitor inmates whose medical conditions do not warrant 24-hour nursing care (66 bed capacity).

**Sheltered Living:** Sheltered Living accommodates inmates who require monitoring of their medical problems. Rearranging inpatient beds allow Medical Services to better evaluate and provide care to the inmates according to their medical needs. This will represent a savings of approximately \$1.2 million per year.

The implementation of the IRC (Inmate Reception Center) Screening program was also initiated in April 1993. This program insures that all inmates entering the jail system are medically screened for any pre-existing conditions or any current physical or mental conditions. Currently 18% (about 150 daily) of the newly booked population are being identified with medical problems that require immediate attention.

Through affiliations with local and national correctional health care and professional organizations, Medical Services staff remains current in clinical and diagnostic training which enables them to effectively and appropriately treat patient population. In addition, the Department remains at the forefront of correctional medicine through the valuable contributions of Medical Services' professional staff, i.e., physicians, nurses, pharmacists, and laboratory and x-ray technologists in developing and establishing many of the standards now being adopted industry-wide.

*Top to Bottom, Left to Right: Captain Lee McCown - Inmate Reception Center; Captain Nick Popovich - Sybil Brand Institute; Captain Albert Scaduto - Central Jail; Captain Margaret Snelson - Custody Division Administration; Captain Gary Vance - Pitchess Honor Rancho, East Facility; and Captain Robert Wilber - Pitchess Honor Rancho, South Facility*

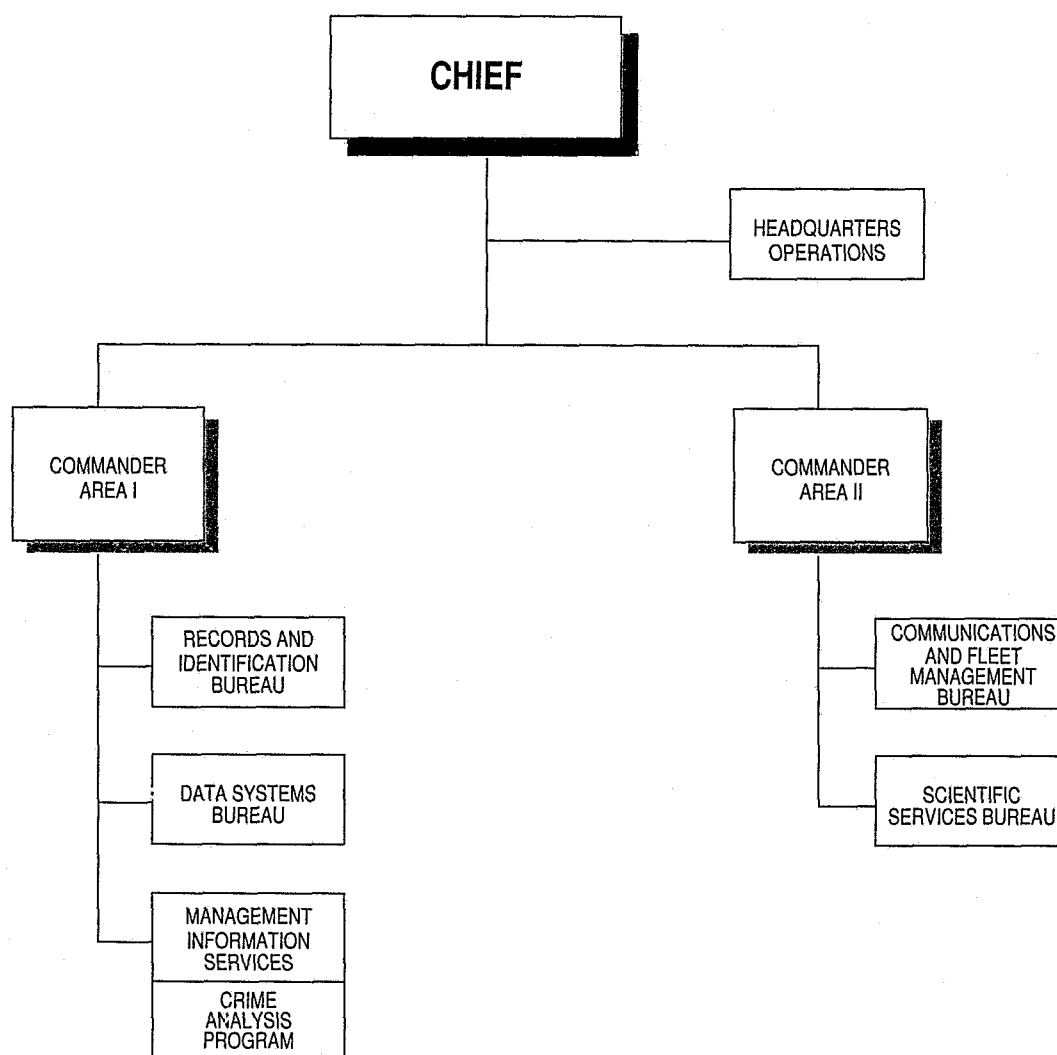

# TECHNICAL SERVICES DIVISION

# TECHNICAL SERVICES DIVISION ORGANIZATION

# TECHNICAL SERVICES DIVISION

Technical Services Division is comprised of Communications and Fleet Management, Data Systems, Records and Identification, and Scientific Services Bureaus, as well as Management Information Services. The Division maintains the automated system for timekeeping and personnel information, provides communications and fleet services, Countywide criminal justice data systems applications, statistical information, record keeping, warrant and identification services, and scientific/criminalistic services.

## *Communications and Fleet Management Bureau*

*Captain Gary Snelson  
Communications and  
Fleet Management  
Bureau*

Communications and Fleet Management Bureau provides for quality communications and appropriate vehicles in a cost-effective manner to support operations of the Department. Accomplishments this year include:

### **Fleet Management:**

- During the months of June, July, and November, the Fleet Operations Unit conducted tests of 1994 model vehicles to evaluate their performance and durability. Testing procedures are nationally recognized as the standard for accepting law enforcement vehicles.
- Annual fleet inspections were conducted by Fleet Operations Unit staff in conjunction with the command inspections of 46 units and bureaus throughout the Department.

### **Radio Room:**

- Participated in the POST Dispatcher Course Curriculum 1993 Update Committee.
- Conducted inspections of all Sheriff's stations' desk operations to ensure conformity and adherence to Departmental guidelines.
- Provided off-site training of the Mutual Aid Communications System to participating Los Angeles County law enforcement agencies.
- Administered entry-level classroom instruction to novice communication operators and provided in-service training for experienced operators.

### **Systems Maintenance:**

- Provided ongoing training within the patrol school curriculum. The course included operation of portable and mobile radios and hands-on training for the Mobile Digital Terminal (MDT).
- Maintained the equipment and software that processed approximately 950,000 data transactions per day without any major failures. This was a 9 percent decrease from the 1,050,000 per day average the previous year. This decrease has been attributed to more efficient use of the administrative message system and the deletion of the Long Beach patrol area.
- Maintained the Department's 3,450 portable radios, 1,300 mobile radios, 1,100 mobile digital terminals, 38 radio receiver/transmitter sites, radio and computer-aided dispatch equip-

*Top to Bottom: Chief Buford Smith;  
Commander David Gomez; and  
Commander William Hinkle*

ment at all stations and bureaus, and all communications equipment at the Sheriff's Communications Center.

- Coordinated all movement, replacement, and expansion of the Department's telephone system, which utilizes a total of 7,600 telephone lines. Ongoing or new projects included the Lynwood Regional Justice Center, Twin Towers Correctional Facility, County Emergency Operations Center, Sheriff's Administrative Headquarters, and the remodeling of Industry and Temple Stations.
- The Stolen Vehicle Recovery Systems (LoJack and Teletrac) have assisted the Department in recovering 125 stolen vehicles since the systems were activated three years ago. LoJack has approximately 50,000 units installed in customers' vehicles, while Teletrac has approximately 6,000.
- The total number of 9-1-1 calls received this year were more than last year. Based upon two three-day surveys conducted in February and October of this year, the following projections were made:

**Justice Data Interface Controller (JDIC) System:** The JDIC Unit was transferred from Data Systems Bureau to Communications and Fleet Management Bureau on February 1, 1993.

The JDIC System provides County Law Enforcement and Criminal Justice Agencies instant access to local, State and Federal data files and offers them the ability to send and receive administrative messages to one another throughout the County, State, and nation. The Sheriff's Department, acting as the California Law Enforcement Telecommunications System (CLETS) County Control Agency, is responsible for providing CLETS and National Crime Information Center (NCIC) access to all criminal justice and law enforcement agencies throughout Los Angeles County. Implemented in 1977, the JDIC System was initially developed to accommodate Departmental activities associated with this responsibility.

- The System currently supports the data communication needs of the Sheriff's Department, all municipal police departments (except Los Angeles Police Department), the District Attorney, the Superior Court, the Municipal Court, the Probation Department, the County Marshal, and a variety of other local, State, and Federal agencies within the County.

- There are currently 102 non-County agencies receiving JDIC services including 48 additions in 1993 alone. There are also eight other County departments receiving JDIC services including two additions in 1993.

### ***Data Systems Bureau***

Captain Claude Farris  
Data Systems Bureau

The Data Systems Bureau has responsibility for the development and maintenance of Sheriff's Department and other law enforcement information systems. In meeting these responsibilities, the following tasks are being performed:

- Development of Sheriff Block's Personnel Performance Index.
- Implementation of a wide-area network linking the Department's computers.
- Monitoring of the Department's \$10 million cost-applied budget for systems usage.
- Maintenance services for the Department's mainframe systems.
- Conversion of the Automated Timekeeping Personnel System with the Countywide Timekeeping and Payroll Personnel System.
- Distribution of data within the Regional Allocation of Police Services System (RAPS) was made available to patrol stations by the development of a database and installation of station terminals for on-line access.
- Data processing services for the Department continued.

**Personnel Performance Index (PPI):** The development and implementation of the Personnel Performance Index System (PPI) is key to the Department's response to the Kolts Report recommendations. Specifically, the PPI, when implemented, will allow Department managers and executives, for the first time, to more effectively manage their human resources as well as the inherent risks associated with law enforcement civil liability. The PPI program is also responding to executive requests to develop and implement an automated Manual of Policies and Procedures and Speaker Bureau Information System.

In response to the Department's urgent need to have an integrated database for managing administrative investigations, use of force, and officer-involved shootings, the Bureau is proceeding to develop an expanded version of the Professional Standards and Training Division's applications to include the automation of the Service Comment or Watch Commander's form, use of force, and officer-involved shootings. In addition to developing an integrated database to capture all requisite information, PPI will also include the development of a system to flag instances that meet predefined criteria and thresholds. PPI was originally comprised of three application modules that automated the business processes of Internal Affairs Bureau, Civil Litigation, and Pitchess Motions. This automation effort began in February of 1991, a contract for software development was executed in late September, and PPI applications entered into production on August 1, 1992. The PPI project when completed will include the automation of the business processes for managing and tracking information related to the Service Comment form, use of force, and officer-involved shootings. PPI will consolidate the information kept in these independent databases into an integrated database.

**Mainframe Systems Support:** This unit forms the largest contingent of personnel within the Bureau. It is responsible for providing support services to the Department and other law enforcement and criminal justice agencies by maintaining the Sheriff's Department's mainframe systems. Those mission-critical systems include:

**Automated Justice Information System (AJIS):** The Automated Justice Information System is an on-line and batch computer system that provides automated management, control, and custody information on all inmates who have been arrested and booked by this Department, the Los Angeles Police Department (LAPD), and 24 police agencies participating in consolidated booking. It provides current arrest, booking, and housing data on all inmates in custody, automates inmate court dates and classifications, and generates the Departmental arrest statistics. The proprietor for this System is Custody Division. The AJIS System processes approximately 42 million transactions per year.

**Automated Personnel Information System (APIS):** This Automated Personnel Information System (APIS) is a batch computer system comprised of subsystems covering personnel data, training history, item control, injury on duty, performance ratings, bargaining unit/MOU information, and affirmative action. It automates the storage, retrieval, and reporting of personnel and training information. It is the sole provider of such reports as the Transfer Preference and Training Resume. The System proprietor is the Training Bureau.

**Automated Timekeeping and Personnel System (ATPS):** This is a distributed processing network composed of five productions and one development IBM 8100 mini-computers. ATPS serves as a repository for time transactions processed over the last five years and employee work history information from hire date forward. The system is used to logon to the Countywide Timekeeping and Payroll/Personnel System (CWTAPPS) for input or inquiry. In addition, the system provides information to the Weapons Qualification System (WQS). The proprietor of the System is Personnel Services.

**Countywide Warrant System (CWS):** The Countywide Warrant System (CWS) is an on-line and batch computer system that stores, updates, and retrieves all County of Los Angeles warrants and wants issued by the superior and municipal courts. The system provides all County law enforcement and criminal justice agencies with immediate access to outstanding warrants/wants issued by courts throughout California and the United States. The Records and Identification Bureau (RIB) is the System's proprietor. CWS processes approximately 87.6 million transactions per year.

**Event Index (EI) System:** The Event Index (EI) is an on-line computer system designed to capture, store, and display summary information related to any crime, arrest, or incident report written by either the Los Angeles County Sheriff's Department or the Los Angeles Police Department. Up to three years of data is maintained on-line and available for on-line query by some 55 police departments in the County via some 2,000 terminals. It is used as an investigative tool to connect names, locations, vehicles and events, and to prepare the mandated Uniform Crime Reports for submission to the State's Department of Justice. The proprietor for EI is Management Information Services. The EI System processes approximately 6.9 million transactions per year.

**Networking Administration and Technical Support (NATS):** This Unit has responsibility for developing the Sheriff's Wide-Area Network to support the Early Warning System. When completed, this network will form the data communications backbone that will support our future systems. The project calls for a network to connect 56 different Department units located across the County. Phase 1 of the project, which was completed in March, included network installation for the captains assigned to Custody, Field Operations and Court Services as well as the Department's executives. Phase 2 will include all commanders and the remaining captains and directors. The last phase will include the various support staff for these executives and managers. This combination of workstations on a high-speed network offers the following security controlled communication capabilities:

- Access to Sheriff Block's Personnel Performance Index.
- Office automation features such as word processing, calendaring, spreadsheets, graphics, and filing capabilities.

- Access to over 200-Department forms on templates
- Electronic mail capability to type or record a message or transport any file or document.
- Access to an on-line version of the Department's Manual of Policy and Procedures.
- FAX capabilities.

As a general function, the NATS Unit provides technical support and expertise to Sheriff's Department information systems in the areas of network development, systems and database design, systems security, help desk services, and administration.

**Quality Assurance Unit:** In systems development terms, quality assurance means making sure that any system being built competently serves the purpose for which it was intended by applying standards, reusable components, common usage techniques, approved formats, procedures, and standard ways of using specific tools.

**Regional Allocation of Police Services (RAPS):** RAPS provides monthly statistical reports on patrol activity by station that form the official record of the Sheriff's Department. The reports provide Department executives, Contract Law Enforcement Bureau, and station administrators with information relevant to particular policing jurisdictions. The data provides a basis for deployment of patrol personnel, analysis of individual car performance, budgetary justifications, and reporting to contract cities regarding levels of police services. The system proprietor is a panel comprised of representatives from the Field Operations Regions.

### *Records and Identification Bureau*

*Captain Susan Burgoon  
Records and  
Identification Bureau*

Records and Identification Bureau (RIB) is responsible for the collection, input, storage, and retrieval of specified documentary and electronic records. Records and Identification Bureau is also the proprietor of the Los Angeles County Regional Identification System (LACRIS), a component of the Statewide CAL-ID system, the Countywide Warrant System (CWS), the local criminal history system, and the Personal History Index (PHI).

RIB has the unique distinction of employing the most ethnically-diverse staff anywhere in the Department with more than 22 languages spoken.

**LACRIS:** The County's CAL-ID System contains fingerprint records of persons arrested in Los Angeles County for Department of Justice retainable offenses. Currently, the database exceeds 2.25 million records, with approximately 10,000 new fingerprint records added monthly. In addition to tenprint identifications, the system has latent and unsolved latent fingerprint search capabilities.

This means that latent prints from crime scenes can be compared to the Department of Justice (DOJ) retainable fingerprint records of arrestees, and also that arrestee fingerprints can be compared to the unidentified latent prints collected from crime scenes. A total of 8,218 latent fingerprint cold-search hits have been made since the system became operational in December 1987. The system allows direct access to the fingerprint databases of the various Automated Fingerprint Identification Systems (AFIS) within California, as well as those states belonging to the Western Identification Network (Oregon, Washington, Idaho, Utah, Wyoming, and Nevada). Four new Local Input Terminals (LIT's) at Downey, Whittier, Pomona, and Pasadena Police Departments will be added to the existing LIT's located at the Scientific Services Bureau, and the Long Beach, Torrance, Santa Monica, and West Covina Police Departments.

**LACRIS Live-Scan:** Live-scan technology is an automated, inkless methodology for capturing suspects' fingerprints and demographic data, and producing multiple copies of fingerprint cards. The cards will be electronically transmitted to LACRIS for positive identification.

RIB entered into a \$5.2 million contract with Digital Biometrics, Inc. (DBI) for an integrated network of live-scan booking terminals to serve all booking locations within Los Angeles County. The terminals will eventually interface directly with AJIS and LACRIS, as well as County and State criminal history record systems. The installation of the network and booking terminals is scheduled for completion during the Spring of 1994.

**Countywide Warrant System (CWS):** CWS is a computerized information system designed for efficient and rapid retrieval of warrants and wanted persons information. CWS currently contains 1,761,011 Los Angeles County Municipal and Superior Court warrants.

**Children Services Unit:** The Unit (newly implemented in March) was conceived out of the Department of Children Services' need to expeditiously obtain accurate criminal history information on individuals whose homes were being considered for temporary/emergency placement of children. The Unit, which is comprised of ten personnel, processes between 6,000 and 8,000 requests monthly.

### *Scientific Services Bureau*

Barry Fisher  
Scientific Services  
Bureau

The Bureau continues to provide modern crime laboratory services in support of criminal investigations for the Sheriff's Department, independent police agencies, and members of the Los Angeles County criminal justice system. The Bureau delivers a wide range of forensic science services including: crime scene responses, narcotics analysis, toxicology, blood alcohol testing, latent fingerprint identification, serology, trace evidence, photographic processing, firearms identification, polygraph examinations, and questioned document analysis. This year, the Bureau's accomplishments were:

**DNA Program Development:** The staff of the DNA genetic testing program has been validating procedures and performing population studies of the various ethnic groups within Los Angeles County. A particularly strong effort was made to collect and tabulate the genetic information among the many nationalities within the Asian population. Genetic data for forensic purposes on Asian populations is quite sparse in the United States. DNA genetic testing is a powerful technique which is capable of identifying individuals from their body fluids and tissues that contain genetic materials.

**FBI DRUGFIRE Project:** The Firearms Identification Section was designated as the central hub site for the FBI's DRUGFIRE system in the Southern California area. The DRUGFIRE system provides examiners with a means of maintaining, and sharing between regional laboratories, descriptive data and digital imagery of microscopic marks on the fired ammunition components recovered in unsolved shooting cases. The hardware, software, digital imaging equipment, and telecommunication lines have been installed. This project is the second system in existence after the FBI's system in Washington, D.C.

**New Blood Alcohol Testing System:** The Blood Alcohol Testing System (BATS) is a licensed forensic alcohol testing laboratory that examines blood and urine samples from individuals suspected of driving under the influence of alcohol. A new Perkin-Elmer gas chromatography system put into service this year has modernized the analytical testing procedures. The System is capable of automatically analyzing 45 specimens in duplicate and printing the results in report form in a five-hour period, thus freeing the criminalist for additional duties.

This year the Crime Scene Investigation and Identification Sections are the highlighted units for Technical Services Division (see page 95).

### **Management Information Services**

Management Information Services (MIS) is assigned to Technical Services Division Headquarters. Established in the Fall of 1990, MIS is comprised of the Statistics Unit, the Headquarters Crime Analysis Program, a Technical Unit, and Operations Unit.

**Statistics Unit:** The Statistics Unit is responsible for gathering, verifying, and maintaining all criminal, non-criminal, and arrest statistics for the Department. The Unit is tasked with the timely analysis and distribution of this data in the Sheriff's *Monthly Statistical Report* and the annual *Year In Review* publication. The Statistics Unit liaisons with the State's Bureau of Criminal Statistics to provide all required statistics. Additionally, the staff processes all requests for statistics which includes media, public, subpoena, and Departmental requests. During 1993, the Unit processed 420 requests for information.

**Crime Analysis:** The Crime Analysis Program was established in 1985 to support patrol and detective personnel by identifying crime trends, patterns, series, and possible suspects. Currently, the headquarters office coordinates and functionally supervises 17 Crime Analysis Units located throughout the County, staffed with a total of 18 crime analysts. Recent budget curtailments resulted in the loss of four budgeted items, reassignment of the analysts, and the elimination of those four Crime Analysis Units: Lost Hills, Santa Clarita Valley, and Crescenta Valley Stations, and the Multi-jurisdictional Criminal Apprehension Detail (MCAD.) In spite of these curtailments, Unit performance was outstanding in 1993, as evidenced by the table listing assistance provided to patrol stations and select Detective Division bureaus.

Additionally, the Headquarters Unit conducted forecasting techniques classes for crime analysts; implemented on-line modem transfer of the analyst's Monthly Reports to MIS; and conducted two requested in-depth site evaluations of Crime Analysis Units.

**Technical Unit:** The Technical Unit is responsible for providing mainframe and microcomputer support to MIS staff. A desktop publishing function creates professional statistical reports, newsletters, and training manuals.

**Operations:** The Operations Unit is responsible for the Event Index System, reporting districts, Originating Agency Identifiers (ORI), statistical codes, and IBM (old) RAPS. The Unit's primary task is to manage end-user requests for system enhancements and corrections and to provide training as needed. This Unit is also tasked with monitoring stations' and bureaus' compliance with Policy and Procedures Manual requirements for processing crime report data.

### **1993 Crime Analysis Statistics**

Requests for Information	10,188
Self-Initiated Activity	2,777
Products Produced	6,028
Series/Patterns Identified	459
Suspects Identified	428
*Suspects Arrested	351
*Cases Cleared	655
*Property Identified	171
Property Recovered	\$12,167,266

\*Assisted Patrol Detectives

## HIGHLIGHTED UNITS

# RISK MANAGEMENT BUREAU

by Lieutenant Ben Nottingham and Sergeant Brent W. Cannady, Risk Management Bureau and Deputy Larry Brogan, Civil Litigation Unit

The Risk Management Bureau (RMB) was created in September 1993, by merging Inspectional Services Bureau (ISB), Civil Litigation Unit (CLU), and Manuals and Orders (M&O) with the newly created Risk Management Unit (RMU).

The Sheriff envisioned the creation of this Bureau as a tool that brings together the administrative resources of the Department to effectively identify and implement policies, procedures, and programs to help the Department meet the ever-growing demands that face a progressive law enforcement organization.

## *Civil Litigation Unit*

The evolution of the Civil Litigation Unit is truly a reflection of the Sheriff's Department's commitment to better manage the complex issues associated with liability. This commitment has culminated in the reduction of money paid to claimants, while reducing the Department's involvement in new lawsuits. The Department believes that every effort should be made to control costs in the area of civil liability. The technique to accomplish this involves case preparations and formalized information sharing between Departmental units.

In March of 1992, the Department recognized the need to separate the issues of alleged police misconduct from the defense of civil claims, and an even greater need to take a progressive front-end approach to the growing number of claims and lawsuits. These issues prompted the creation of the Civil Litigation Unit as a stand-alone unit headed by a lieutenant who would report directly to the commander of the former Office of Professional and Ethical Standards. The responsibilities of stations and units were modified to include an immediate review of pending claims. This review contains a recommendation to pay or deny the claim based on the results of their investigation. Another aspect of this diligent approach was the creation of the immediate claim payment program which assists in the early payment of claims when there are clear-cut indicators of Department liability.

Less than a year later, in January 1993, the Sheriff recognized the critical relationship between training and ethical standards and liability. As a result, he created the Professional Standards and Training Division to supplant the Office of Professional and Ethical Standards with the Civil Litigation Unit on the leading edge of the Sheriff's visionary efforts to address risk management.

To manage the huge influx of information, a claim/lawsuit database was created. Armed with this previously untapped information and a continuously impressive track record for limiting exposure and raising Department awareness, the Civil Litigation Unit joined forces with the County Counsel's Office in a cooperative effort that resulted in the savings of millions of dollars.

Today, the Civil Litigation Unit reports directly to the captain of the Risk Management Bureau under the command of the Professional Standards and Training Division. The Civil Litigation Unit operates as an intrinsic part of the risk management function by addressing potential litigation post haste, while facts are fresh and outside influences are at a minimum. The Unit also operates a number of specialized functions involving tracking claims, lawsuits, and document control. They now respond to, and conduct, investigations at incident scenes that have the potential for future litigation against the County and/or the Department. The Civil Litigation Unit has 24-hour roll-out responsibility to handle selected incidents involving traffic collisions and accidental property damage. This Unit also works closely with the County Counsel's Office and contract law firms to assist in processing discovery requests, conducting specialized investigations, training personnel, and responding to significant incidents.

The Civil Litigation Unit currently has 13 investigators that provide coverage to all Sheriff's Department facilities and stations. The investigators interact with the Operations Staff at each facility and are in constant contact with the County Counsel's Office and contract law firms.

Identifying witnesses for a potential lawsuit.

During the year, the Sheriff's Department received 668 claims for alleged damages caused by Sheriff's Department activities. Compared to the 1992 figures of 684 claims, the Department has realized a reduction of 2.3% over the past year, while maintaining the service oriented philosophy of promoting the claim process in cases of apparent liability. Likewise, during the 1993 calendar year, the Department received 158 new lawsuits associated with Sheriff's Department law enforcement activities. Compared to the 1992 figure of 281 new lawsuits, the Department has realized a significant reduction of 45.6% over the past year. Even more significant, between January 1992 and January 1993, the Civil Litigation Unit worked to reduce our 811 active police malpractice lawsuits to 751. In November 1993 the number was down to 562, and is expected to be even lower in the future through their continued efforts.

These reductions are attributable to the overall commitment by the Sheriff and line-level supervisors who have recognized the importance of a proactive, front-end approach to potential litigation while actively addressing the common link between training and risk management.

### ***Inspectional Services Unit***

The Inspectional Services Unit reviews, inspects, and audits internal Departmental administrative functions on a continuous basis to ensure compliance with Departmental, County, State, and Federal rules and regulations. This Unit additionally provides manpower for special projects directed by Department executives. The mechanics of merging the Los Angeles County Marshal's Department into the Sheriff's Department, as mandated by the Board of Supervisors, has been facilitated by the Inspectional Services Unit.

### ***Manuals and Orders Unit***

This is the coordinating unit for the ever-changing updates to the Department Manual of Policy and Procedures. The staff continues processing proposed manual revisions, preparing the final copies of revision packets for printing, and coordinating with all Departmental divisions in an advisory/resource capacity. Historical volumes of policies and procedures are also maintained for reference by the Department.

An agreement with Data Systems Bureau will make the Manual of Policy and Procedures available through the Sheriff's Data Network. The ultimate goal of the project is the production of an electronic Manual of Policy and Procedures. This new format will result in a continuously updated manual that is standardized throughout the Department.

### ***Random Drug Testing Unit***

The Random Drug Testing Unit administers the Sheriff's Drug Testing Program. The teams assigned to this Unit travel throughout the Department, at all hours of the day and night, administering drug tests to randomly selected personnel. Their expertise has enabled them to provide information to other agencies that have expressed an interest in a similar program.

### ***Risk Management Unit***

In the past, our own Department's risk management efforts were informal and decentralized. Each manager was responsible for developing training programs and policies to deal with identified risk management issues. The expertise to develop risk avoidance programs was limited and information sharing in this area lacking. We always ran the risk of painful lessons learned at one facility or bureau not being appropriately communicated to help others avoid similar situations.

The Risk Management Unit is at the center of a formalized Department effort to identify and minimize risk. Personnel assigned to this Unit are now actively involved in the development of plans and programs, the analysis of data, and the review of Departmental and County policies, procedures, and systems.

Sergeants Marcia Townsend and Stephen Keife of the Random Drug Testing Unit.

*Lieutenants Dennis Burns (seated) Edward Hitchcock (left) and Ben Nottingham (right) of Risk Management Bureau.*

The Risk Management Unit is also responsible for the development and maintenance of a formalized communication system which will ensure that Department executives, managers, and supervisors have timely and accurate information available to help them make decisions related to risk management.

The establishment of this type of specialized unit within a law enforcement organization is unique. Traditionally, cities and counties have assigned risk management duties to centralized agencies or departments whose personnel possessed little expertise or knowledge in the field of law enforcement risk management. In contrast, the personnel of this highly specialized Unit will become our experts in this field which is so vitally important to the law enforcement community.

The creation of a Risk Management Bureau with the collective efforts of five specialized units will, in time, help us build and provide the safest work environment possible for our employees and limit our exposure to liability. It is another example of the Sheriff's proactive response to the citizens of Los Angeles County and their need for the highest available level of law enforcement services.

# SPECIAL INVESTIGATIONS BUREAU

by Lieutenant Frederick D. Price, Special Investigations Bureau

In August of 1993, the Special Investigations and Metro Vice Bureaus were merged to form a single bureau. The merger resulted in a significant restructuring of investigative functions and a resurgence of enforcement efforts that, because of budget cuts, had previously been curtailed.

The new Special Investigations Bureau is responsible for investigations relating to organized crime, prison gangs, terrorist groups, gaming and white collar crime, bookmaking, morals, fugitives, kidnapping/extortions for ransom, pattern and series robberies, solicitations to commit murder, threats to Department employees and government officials, assault weapon violations, pawn shop control, and business license inspections.

## ***Casino Operations***

This Unit monitors all casino based activity within Los Angeles County. The Unit is especially concerned with card cheating, money laundering, skimming and loan sharking.

## ***Operations (Research) Unit***

This Unit is the Department's representative to INTERPOL and maintains a close working relationship with the California Department of Justice. They regularly assist other investigative units with criminal research and crime analysis. Additionally, this Unit also has direct access to many public data resources.

## ***Special Investigation Section***

Investigators are responsible for monitoring the activities of both domestic and international terrorist groups and the activities of special interest groups that use illegal means to further their political agenda. As members of a Federal taskforce, investigators from this Section were involved in the Fourth Skinhead Reich investigation.

## ***Vice Detail***

This Detail consists of the Morals, Bookmaking, License, and Pawns Units. The Detail's primary enforcement effort focuses on prostitution and bookmaking. After a pause of 16 months, Morals Unit is again conducting "John Stings" which are highly effective in dissuading males from frequenting targeted locations of prostitution. Recently, the Bookmaking Unit, in conjunction with the Federal Bureau of Investigation, concluded a three year investigation that resulted in indictments of 26 defendants, including the head of the organization.

The License and Pawns Units are staffed by a highly trained cadre of civilian investigators. License Unit investigators are involved in a myriad of activities that include enforcement of County licensing ordinances, fraud investigations, and violations of the Business and Professions Code. License investigators work closely with the Morals Unit, especially as it concerns massage parlors and acupuncture establishments. The Pawns Unit is responsible for inspecting pawn shops throughout Los Angeles County. During the past year they have recovered over \$40,000 worth of property; assisted Alcohol, Tobacco and Firearms agents in recovering riot related stolen weapons; and recovered other merchandise which has led to the arrest of both burglary and robbery suspects.

Slot machines and pull tabs seized by the Vice investigators.

Top Photo: A few of the weapons taken during search and arrest warrant service of Asian Organized Crime members (May, 1993). Bottom Photo: Boxes of evidence taken during search and arrest warrant service of Asian Organized Crime members (May, 1993).

### ***Organized Crime Detail***

This Detail has been reorganized into two specific units, Asian and Traditional Organized Crime. The Asian Unit focuses on organized criminal enterprises that primarily impact the Asian community. In 1993, this Unit handled or assisted in over 150 felony investigations. During one major investigation, the Asian Unit effectively coordinated the efforts of over 300 local, State and Federal law enforcement officers in the service of 60 search warrants. Sufficient evidence was seized to obtain ten felony indictments, with others forthcoming.

The Traditional Organized Crime Unit monitors the activities of organized crime members active within our jurisdiction. The recent emergence of Russian crime families has added an additional burden to the work performed by this Unit. These Russian criminals have used car bombings, extortion, and murder as methods of establishing power. In 1993, this Unit was involved in several search warrants linking organized crime family members to money laundering and high level bookmaking.

### ***Prison Gang Detail***

This Detail consists of the Prison Gang Unit and Surveillance Team. The Prison Gang Detail focuses its resources on the suppression of criminal activity generated by prison and outlaw motorcycle gangs and their associates. They also conduct a full range of enforcement activities that include surveillance, parole searches, search warrants, and arrests. Investigators from this Unit also provide pertinent intelligence information on prison and outlaw biker gangs to concerned law enforcement agencies. Investigators train other Department members and members of outside law enforcement agencies in recognition and identification of prison gang members and their associates.

### ***Metro Detail***

This Detail is comprised of the Fugitive Apprehension, Fugitive Operations, and Violent Offenders Units. The Fugitive Apprehension Unit is responsible for Warrant and Civil Process and the Escape Desk, while the Fugitive Operations Unit handles extraditions and renditions. The Violent Offenders Unit is responsible for investigating kidnap/extortion, solicitation for murder, and threats to Department employees and government officials. Included in this Unit is a unique taskforce that investigates organized crime rings that specialize in kidnap/extortion ventures.

During 1993, Metro Detail processed 706 extraditions, of which 267 were ultimately approved for extradition by the District Attorney's Office and subsequently returned to this County for trial. Additionally, the Detail processed 579 rendition requests and received 19,661 new warrants. The total number of warrants now awaiting service by this Detail is 42,048.

# ANTELOPE VALLEY STATION

by Sergeant Bobby Denham, Antelope Valley Station

## *Wise Talk*

The Antelope Valley Sheriff's Station, in alliance with the United Community Action Network (U-CAN), instituted the "Wise-Talk" Program. This Program, which is a replica of the "Scared Straight" program, brings high-at-risk crisis youths into a counseling and educational environment with not only law enforcement officers, but with ex-convicts and parolees. Held twice a month, this Program involves youths being brought to the Station for their counseling session with deputies and parolees. These sessions are held inside a holding cell at the Station's jail. Simultaneously, counseling is held for the parents at the U-CAN office. To date, out of 551 high-at-risk youths going through the Program, only 11 have been arrested.

## *A.V.'s Most Wanted*

The Antelope Valley Sheriff's Station, in alliance with Jones Intercable, also produces a local television spot titled "A.V.'s Most Wanted." This one minute segment highlights suspects' names, pictures, and information to an audience that reaches over 80,000 homes in the Antelope Valley. To date, out of 59 suspects featured on the channel, 46 have been captured, with a large portion of those coming from viewer tips.

## *Partners Against Crime/High Desert Storm*

The Antelope Valley Sheriff's Station also co-organized two programs that help residents in crime ridden areas reclaim their neighborhoods. With the aid of the City Redevelopment Agencies in the Cities of Palmdale and Lancaster, a partnership was formed which included property owners and residents within a designated redevelopment project area.

The City of Palmdale named their program "Partners Against Crime." The Station assigned two full-time deputies and a full-time Community Services Officer (CSO) for this Program. The crew works closely with City staff, the Station's narcotics crew and gang unit, and other County agencies to make environmental improvements in the area.

The City of Lancaster named their program "High Desert Storm." Three full-time deputies, working the three varying shifts are assigned to this Program.

While both programs focus on redevelopment, the Station has the lead roll in organizing the neighborhoods into Neighborhood Watch Groups, teaching crime prevention technique, and instilling a sense of pride back into the community. During their first year of implementation, both programs have had dramatic improvements in reducing crime and blight.

## *VOICE*

Developed in January 1993, the Volunteers Organized to Improve Community Environment (VOICE) Program is designed to help serve the special needs of the community, using civilian volunteers as its cornerstone.

**Program Description:** Two volunteers work together in Department approved volunteer uniforms, as a unit, using an available CSO car. They conduct patrol checks, not only at vacationers' homes, but at certain directed patrol areas, such as areas that have a large graffiti problem. The vacation checks are a "meaningful check," which involves physically inspecting all doors and win-

Aerial view of Antelope Valley Station.

dows, looking in backyards, picking up newspapers from lawns and, in general, trying to prevent the home from looking vacant. These directed patrols are designed to prevent communities from experiencing additional crimes.

**The Problem:** For many years law enforcement agencies, such as the Sheriff's Department, have offered directed patrol services to residents and business owners of Antelope Valley. This process involved filling out a card with information such as the location, the problem that is occurring, and a contact person. Deputies would take this card out on patrol with them, and on a "time permitting" basis, conduct checks at the listed locations. Within the past few years, as population in the area escalated, calls for service used more and more of the deputies' time, hence far fewer opportunities for deputies to conduct the directed patrol checks.

As time constraints of normal law enforcement service increased without an equal increase in resources to answer these demands, programs such as directed patrols and vacation checks withered. Commonly, if deputies did have the time to conduct patrol checks, the check normally involved a simple "slow cruise" by the location, looking for obvious signs of entry at the front of locations.

**The Solution:** Utilizing a cadre of specially trained volunteers, the directed patrol and vacation check programs have been revitalized. The Station began phasing out directed patrol checks by deputy personnel; uniformed volunteers now check each of the locations that request either directed patrol or vacation checks. "Meaningful" vacation checks are mandatory, and no other duties are assigned to these volunteers while they are on "patrol." Volunteers are given special instructions on what to do if they see evidence of criminal activity.

#### **Implementation of Benefits:**

- For the Residents - a higher level of service is achieved by using volunteers who have no time constraints, instead of deputies whose available time for "courtesy" programs such as this is severely restricted. Through "meaningful" checks, there is a heightened sense of safety and security in the neighborhood.
- For the Department - the volunteers in the Program are able to handle the checks, leaving the deputies to handle other types of law enforcement problems and calls for service. The image of the Department as an organization of caring professionals is also enhanced.
- For the Volunteers - the program is a boost to them and the volunteer organization. It provides a very interesting change of pace for volunteers who usually do all their work inside the Station, and also helps increase the level of commitment from all Station volunteers.

**The Uniform:** The approved Sheriff's volunteer uniform is mandatory for the volunteer working this assignment. The uniform consists of a white, short sleeve shirt or blouse with the volunteer shoulder patch, blue name tape, and navy blue trousers or slacks. A black belt and shoes should be considered as part of the uniform.

**Communication:** It is required that while the volunteers are out on patrol they have available a cellular phone to communicate with the Station. This is beneficial for both the volunteer and the desk, should a problem arise, it is brought to the attention of the designated field deputy immediately. It also enhances volunteer safety since a designated field deputy is able to keep track of the volunteers.

**Effectiveness:** During the first 11 months of operation, the VOICE Program has proven to be an effective tool in utilizing volunteers to conduct routine vacation and patrol checks. During this same time frame, the City of Lancaster experienced a 16% reduction in burglaries. While it is impossible to tell how much of an impact the VOICE Program has actually made in the reduction of burglaries, it is undisputable that this high profile Program has certainly made a very positive impact on the community.

# WEST HOLLYWOOD STATION

by Sergeant Ken Fonarro, West Hollywood Station

## *Universal City Sub-station*

The new Universal City Sub-station opened on June 1, 1993. The 4,100 square foot facility is on the mezzanine level of the recently opened "Citywalk" shopping and entertainment complex at Universal City. The Station has a lobby and front counter, dispatch area, secured interview rooms, several multi-use office areas, two locker rooms, rest rooms, and storage areas. The Station was designed to comfortably accommodate 30 sworn and civilian employees. It provides easy access to the many entertainment attractions attended by crowds numbering in the thousands daily.

Currently, a team leader is in charge of 15 deputies divided into two shifts. The two shifts have staggered start times which provide for a total of 20 hours of on site coverage everyday.

Foot beat and vehicle patrols are used to cover the varied itineraries on the 330 acre expanse that comprise the unincorporated area of Universal City. Between employees and guests, up to 75,000 people can throng to Universal City each day to work or play. Actual television and movie production facilities share space with the Universal City Tour, a top Southern California entertainment attraction, the Universal Amphitheater, the Cineplex Odeon movie theater complex, and the new "Citywalk" attraction.

New construction is on-going at Universal City, and the immediate success of "Citywalk" will be joined by the "Citywalk East" expansion in 1995. West Hollywood will continue to staff the Universal City Sub-station and provide all the necessary policing services for the unique atmosphere found there.

Deputies Zenon Porche and Patrick Jordan patrolling along "Citywalk."

## *Anti-Hate Crime Taskforce "COBRA"*

In the Spring of 1993, personnel from West Hollywood Station contacted City officials regarding the formation of a community-oriented taskforce to combat hate crimes, in particular, gay bashings. Over previous years, reports of gay bashings and taunting increased during the summer months due to the population influx taking advantage of the mild weather and evening entertainment value in the West Hollywood area. This taskforce would specifically target this type of crime with the view towards apprehension of offenders and deterring future offenses.

Sworn personnel from the Station's "Special Problems Unit" and Crime Prevention Unit initially met with City officials and community members at a town forum to discuss the problem. Information was exchanged to identify likely target areas and times that gay bashings might occur. Several community members volunteered to join Sheriff's personnel on the taskforce thus forming the "Community-Oriented Bashing Recognition and Abatement" alliance, or COBRA. The taskforce has two sergeants, seven deputies, two City officials, and ten community volunteers. The first COBRA operation was set for late June to follow soon after the conclusion of the Christopher Street West Festival.

To date, four COBRA "sting" operations have been conducted utilizing both uniformed patrol and covert surveillance. Undercover deputy "operatives" would place themselves in target locations that were previous scenes of gay bashings, or were high profile areas likely to be chosen. City officials and community volunteers served as advisors and assisted with surveillance. Additional Station personnel rotated onto the taskforce throughout different operations to gain surveillance training and to expand their cultural diversity experiences.

Department members and community leaders agree that these operations have been a success on several levels. Not only do they act as a significant deterrent to possible hate crimes, they bring together community members and Station personnel in cooperative efforts to improve the safety of everyone in West Hollywood. The media coverage provided to these efforts also has sent out the message that the Los Angeles County Sheriff's Department will not tolerate any type of hate crime.

Deputy Dennis Salazar instructs West Hollywood youths in the art of pugilism.

### *Youth Athletic League*

The existing Sheriff's Youth Athletic League program has recently been adapted to the special needs of emigrant Russian children in the West Hollywood community. These young people often have limited English skills and little social interaction outside their immediate ethnic community.

In conjunction with the City of West Hollywood Parks and Recreation Department, deputies at West Hollywood volunteered their time to establish a relationship with children from the Russian community. The Sheriff's Youth Athletic League was the instrument used to facilitate this interaction. Deputies met with "at-risk" youths to teach them a variety of athletic skills including boxing, weight lifting, and running. Other activities included special field trips and co-participation in a five kilometer charity race. The program has been well received by residents and has recently been expanded to include any interested youths in the City of West Hollywood.

## LAKEWOOD STATION

by Lieutenant Marvin O. Cavanaugh, Lakewood Station

With diminishing revenue for municipal and County governments in 1993, Lakewood Station focused on maximizing existing resources and worked very closely with City leaders to generate additional funding for law enforcement services. This year's mission mirrored last year in continuing the effort to positively impact the quality of life in our communities. The willingness to work in non-traditional ways and concentrating on efficiency resulted in a very productive effort.

Keeping the concept of sharing and developing partnerships with the communities we serve in mind, the City of Paramount turned the corner on a project that brought law enforcement and City services closer to the community. While community "sub-stations" have been in existence for some time, the City of Paramount didn't just want a building with a sign on it. In 1990, the first Paramount Sub-station opened and provided the traditional services of a satellite facility. Fueled by a commitment to increasing the quality of life for their community, Paramount City officials continually expanded the role and capability of their community police station.

Throughout the year, the City strengthened the law enforcement resources working out of the Sub-station. Not only concentrating on enhancing the uniformed presence in the community, the Sub-station is home to four detectives, a crime analyst, a community liaison specialist who works with "at-risk" youths, a full-time probation officer, and a traffic clerk from the Compton Municipal Court to handle payment of fines.

The City of Paramount also assembled a group of sworn and civilian professionals that have a single mission in mind—enhancing the quality of life in the community of Paramount. To that end, Paramount Sub-station personnel have been very successful. Even by the most traditional measuring device, crime statistics, the Paramount team has been effective. Equally important though is the name and face recognition this group of professionals has achieved in the community. If your need is a traffic accident report or the abatement of criminal conduct, the citizens of Paramount have a "one stop" place to shop for law enforcement service.

Top Photo: Paramount Sub-station, 5,000 square feet. Bottom Photo: Public Safety Director Bob Robinson.

### *Paramount's Alternative to Street Gang Violence - TARGET*

Street gang violence has steadily risen throughout Los Angeles County over the past five years. Not unlike other communities, the City of Paramount has been impacted by this senseless violence. The City of Paramount and the Lakewood Sheriff's Station have developed and implemented an aggressive program to deal directly with this kind of gang violence.

The TARGET (Team Approach Regarding Gang Enforcement) Program focuses on developing an interagency response to dealing with hard-core gang members. It is an information and case management program that includes all members of law enforcement, City officials, school officials, probation, parole, prosecution, social services, and citizen participation. The Paramount City Council adopted a utility user tax that provided an additional \$1 million to fund the development of the Program. On July 1, 1993, the TARGET Program was implemented.

A critical component is the crime analyst who is responsible for the careful, diligent collection and analysis of information that expedites the recognition of patterns that identify gang members. The tracking system includes case management support for probation, prosecution, and judicial disposition. The files are complete and all relevant information is available to field and detective personnel. Notice is given to TARGET gang members that they have been identified as a criminal street gang

offender under the California Street Terrorism Enforcement and Prevention Act. The TARGET gang member is actually provided notice that they are part of this Program.

Twenty-five patrol deputies are assigned to the City of Paramount. Each deputy has a complete dossier on all 25 TARGET gang members. Each patrol deputy is also assigned 3-4 specific TARGET gang members to monitor. Additionally, there are six special assignment deputies assigned to the City. Each is assigned six TARGET gang members to monitor. Special assignment deputies act as team leaders to coordinate the 24-hour per day effort.

This Program has had phenomenal results in just six months. The first 25 targeted members have been neutralized by imprisonment or voluntary relocation to other parts of Los Angeles County. Street gang violence has taken a sharp downward trend.

### *A Tradition of Service*

At 0001 hours on July 1, 1993, Lakewood Station concluded a unique, first-of-its-kind project that best sums up our Departmental motto, "A Tradition of Service." In late 1990, the City of Long Beach was experiencing a critical shortage of police officers, a situation that is not quickly resolved considering the timely recruiting and training process required to place a police officer in service.

Forty-three deputy sheriffs hit the street on November 1, 1990, in the north and east Long Beach community of 90,000 people. These portions of the City of Long Beach became Lakewood Station's seventh contract city, joining the Cities of Paramount, Bellflower, Artesia, Hawaiian Gardens, Cerritos, and Lakewood. Our arrival was much publicized and hundreds of people greeted the Sheriff's Department as their temporary law enforcement provider. During the subsequent 30 months, the men and women at Lakewood Station handled 120,000 calls for service, organized 93 Neighborhood and Business Watch groups, arrested 14,550 suspects, abated countless neighborhood concerns regarding criminal activity, and firmly entrenched a community-based policing philosophy that was warmly embraced throughout the north and east Long Beach communities.

The task of developing the project, putting it into place, and tailoring our efforts to meet a community's desperate cry for an enhanced quality of life, was a herculean task. The men and women, sworn and civilian, assigned to Lakewood Station during this unique undertaking, were successful. They made a positive impact on a community that won't forget what was accomplished during this contract. Their commitment to the Long Beach community exemplifies our Departmental mission. They say that every job is a self-portrait of the people who did it. That being the case, they have autographed their work with excellence.

Front of Radio Car/Left to Right: Deputy Dave Powell, Sergeant Dave Sloan, Public Safety Coordinator, SAO Jerry Pillen, CSO LeeAnn Jones, Deputy Diane Holloway, Deputy Fred Bertsche, Probation Officer Lisa Galbraith, and Deputy Holly Perez. Side of Radio Car/Left to Right: Sergeant Peggy O'Neal, Deputy Tim Williams, CSO Janene Schlotfeldt, and Liaison Officer Ozzie Ramos.

# FACILITIES MANAGEMENT SERVICES

by Edward F. Fehrenbacher, Facilities Management Services

Director Bob Hastings  
Facilities Management Services

Facilities Management Services (FMS), established in 1990, performs alterations, improvements, and repairs necessary for the efficient and effective utilization of approximately 6.5 million square feet of space within more than 75 facilities occupied by the Sheriff's Department. With a focus on quality service, individual facility requests for work are facilitated at the regional office level. Resource allocation is maximized through automated job and materials tracking, status review, and scheduling. General and preventative maintenance efforts focus on the reduction or avoidance of more costly alternatives.

A significant challenge and successful milestone was met in April 1993, with the completion of the Sheriff's Administrative Headquarters Refurbishment Project. Coordinated by Facilities Planning Services and accomplished through the primary efforts of FMS personnel, this project was completed under budget. FMS provides a variety of additional services related to the management of facilities, such as operation of power plants, contract compliance, coordination of environmental regulatory compli-

ance mandates, repair of business machines, and coordination of business machine maintenance agreements.

## ***Organization***

There are five organizational service units within FMS: the Administrative Headquarters and Power Plant Operations are located at the Hall of Justice; the Central Region, located at Central Jail, provides services to central Los Angeles facilities; the North Region, located at Pitchess Honor Rancho, services northern facilities; and the Satellite Region, located at STARS Center, responds to work requests from Sheriff's stations and specialized units. Each office maintains a centralized materials warehouse.

## ***Power Plants***

FMS is also responsible for the maintenance of power plants at Sheriff's Administrative Headquarters, the Twin Towers Correctional Facility, North County Correctional Facility, Central Jail, Biscailuz Center, Sybil Brand Institute, Mira Loma, and the Lynwood Regional Justice Center.

## ***Contract Compliance***

Contract administration is also provided by FMS, including specification development, bid selection, and contract monitoring.

## ***Environmental Regulatory Compliance***

FMS coordinates the filing of applications for permits to construct or operate equipment regulated by the South Coast Air Quality Management District, and payment of fees related to the issuance and renewal of such permits. Issuance and control of facility EPA identification numbers and payment of resultant fees, necessary for the generation, transportation, treatment or disposal of hazardous waste, are coordinated through FMS upon receipt of copies of manifests and support documentation from the various facilities.

### ***Business Machine Repairs***

Office business machine and print shop equipment repairs are also provided by FMS business machine technicians assigned to North and Satellite Regions. With the exception of copy machines, outside vendor maintenance agreements are coordinated through FMS Headquarters.

***Clockwise: Manager Walt Baehr - Central Region; A/Manager Dean Stroud - Satellite Region Stations and Specialized Units; Manager Steve Morgan - North Region; and Chief Stationary Engineer Greg Braunger - Power Plants.***

# REACH PROGRAM

by Deputy Debbi Snedden, Custody Division Headquarters

## Implementation

Project REACH (Rebuilding, Educating, Awareness, Counseling, Hope), is a substance abuse program aimed at reducing the recidivism rate of the inmate population. The REACH Program was implemented at the Mira Loma Jail Facility in June 1991, through the auspices of the Hacienda La-Puente School District. Prior to the closing of the Mira Loma Jail in August 1993, the REACH Program successfully graduated over 500 inmates. The Program was relocated to Sybil Brand Institute and subsequently re-opened using dormitory 8100 in October 1993. As of November 29, 1993, the REACH Program graduated its second class of inmates.

## Program Description

The REACH Program is a three-phase process developed for multiple offender drunk drivers and dual/poly addicted individuals, (those individuals possessing more than one addiction). It was designed specifically with the intent to reduce recidivism among the inmate population. The Program goals are to prevent substance abuse and the criminal activity that supports that abuse, and to prepare each individual for successful employment opportunities. Each phase of the Program is designed in four week increments. Each phase consists of two tracks. Track One focuses on substance abuse intervention and prevention; Track Two on employability.

Project REACH is a voluntary, residential program where inmates apply for admission and are pre-screened by staff to assess their suitability. Inmates move through each of three phases as they successfully complete each requirement. Inmates with more than 90 days left to serve may remain in the project until their release date; however, inmates must have a minimum of 30 days left to serve of their sentence upon entering the Program. Following is a description of each phase.

**Phase I:** Inmates are exposed to an intensive alcohol and substance abuse education and guidance program. Track One introduces participants to the concept of alcoholism/addiction as a disease, and the denial system utilized by alcoholics/addicts. Inmates also learn about the process of addiction and recovery and study the physiological and psychological effects of various drugs. With this information, they begin to design an individual plan for recovery which will work for them in their choice to lead a clean and sober life. Beginning in this phase, inmates may participate in Alcoholics Anonymous and Narcotics Anonymous meetings. Track Two focuses on how self-esteem and effective communication skills influence work life.

**Phase II:** Individual plans are refined and revised as appropriate. Track One concentrates on alcoholism/addiction as individuals begin to look at messages about drinking and drug use learned within their family structure. Adult/child issues are explored and participants are encouraged to look at how early messages, as well as their current pattern of substance abuse may seriously impact

## REACH MOTTO

— ♦ ♦ ♦ —

R	I will remember to be grateful for each new day in recovery.
E	I will entertain only positive thoughts.
C	I will courageously take my inventory and work my program.
O	I will be optimistic about my life.
V	I will value my life and my recovery.
E	I will encourage and nurture love for myself and others.
R	I will respect the feelings and thoughts of others.
Y	I will say yes to giving support and understanding to others.

— ♦ ♦ ♦ —

## "ONE DAY AT A TIME"

We will share and offer support to one another in fellowship and spirit and give thanks to our higher power as we understand Him for His grace and love.

WE CAN RECOVER!  
WE WILL OVERCOME!  
WE ARE VICTORIOUS!

their relationships with spouses, children, parents, extended family, friends, employers, and society in general. Co-dependency is a major issue addressed in this phase. Students in this phase may enroll in other courses offered, i.e., computer literacy, adult basic education, high school completion, creative writing, and employability. During Phase II, continued participation in Alcoholics Anonymous and Narcotics Anonymous meetings are encouraged. Inmates may also attend church, pre-planned and approved social activities, and visit vocational rehabilitation and other job related activities. Track Two discusses the connection between the expression of personality and success on the job. Subtopics include defense mechanisms, attitude, affirmations, and conflict resolution.

**Phase III:** Inmates finalize their individual action plans focused on relapse prevention, employment, and re-entry. Track One provides heavy emphasis on behavior modification and relapse prevention. Track Two addresses employment topics such as resume writing, interviewing, and how to utilize employment resources.

### ***Future Outlook***

The National Institute of Justice (NIJ), assisted by a grant, was tasked with researching recidivism rates of various substance abuse programs throughout the State. The REACH Program was chosen for study partly due to apparent low recidivism rates. Custody Division personnel are eagerly awaiting the results of this study.

The REACH Program appears to be augmenting community-based programs for acclimating inmates back into society. The life skills taught in the REACH Program prepare graduate inmates to function better as productive citizens upon their release from Custody.

# SCIENTIFIC SERVICES BUREAU

by Wayne G. Plumtree, Supervising Criminalist, Identification Section

## ***Crime Scene Investigation and Identification Sections***

The Crime Scene Investigation and Identification Sections have two main functions: to document crime scenes, and to develop, collect, and identify fingerprints. Properly documented crime scenes are necessary in order to present evidence in court. Fingerprints can be used to identify possible suspects.

Individuals from the Crime Scene Investigation and Identification Sections are available on a 24-hour basis to respond to documenting and collecting evidence at crime scenes. The individuals who respond to crime scenes must be well-versed in the traditional methods for properly documenting the scene: photography (general, latent print, shoeprint, aerial, etc.), videotaping, and sketching. They also develop and collect latent fingerprints left at the crime scene. Such fingerprints are called latent prints because they are invisible until developed using special powders or chemicals. These individuals must also have considerable training and experience in making fingerprint comparisons and offering expert testimony in court.

## ***Chemical Processing Unit***

Not all latent fingerprints can be developed and collected by using dusting powder and lifting tape. Fingerprints on absorbent surfaces, such as paper (money, receipts, bags, etc.) and wood require chemical processing to visualize the fingerprints. Surfaces not conducive to dusting, such as oiled firearms, require fuming with special chemicals and examination under laser light. The technique employed will depend upon the surface and condition of the print. Latent prints developed by chemical techniques must be photographed, as they will fade with time. These special techniques are not done in the field, and must be performed in a specially equipped laboratory.

## ***Cal-ID Unit***

The Statewide Automated Fingerprint Identification System (AFIS) commonly known as CAL-ID employs a powerful computer that can search a latent fingerprint against the known fingerprints of over two million individuals. The computer will list the candidates with the most similar fingerprints. Known fingerprints from the candidates on this list are then compared against the latent print. Thus, it is possible to identify a suspect from a single latent print left at the scene of a crime. A latent fingerprint by itself is of little value. Traditionally, the detective would have to develop a named suspect and then have to obtain the suspect's fingerprints, either by locating and printing the suspect or locating the suspect's fingerprint card. The suspect's fingerprint card, located in a police department's file, would be of no value unless the investigator knew under which name it was filed. This was the situation until 1986 when the Sheriff's Department went on-line with CAL-ID.

## ***Comparison Unit***

After the latent print has been developed and collected, a suspect established (by the investigator or CAL-ID), and an exemplar fingerprint card obtained, a comparison can

Deputy Dale Falcon dusts with black powder to visualize latent fingerprints on the vehicle's window.

*Senior Criminalist Karla Taylor examines a knife for latent fingerprints using a portable laser.*

now be made between the fingerprints on the exemplar card and the latent print. An identification of the latent print to the exemplar card will establish that the latent print was made by the suspect. The fingerprint examiner receives a minimum of two years of training and has made at least 200 identifications verified by senior fingerprint examiners. The fingerprint examiner must then be prepared to testify in court that the suspect and no other individual left the latent print.

---

## SERVICE AWARDS & IN MEMORIAM

## DEPARTMENTAL VALOR AWARDS

Left to Right: Sheriff Sherman Block, Deputy Tony Taylor, Deputy Thomas Wilson, Deputy John Burton, Deputy David Carver, Deputy Oscar Barrios, and Deputy Daniel White

### *Presented on June 19, 1993*

#### **Deputy David M. Carver**

For his heroic action on March 29, 1992, when he placed himself in potential peril while effecting the rescue of a critically wounded deputy sheriff, he was awarded the Meritorious Conduct Medal - Silver.

#### **Deputy Daniel B. White**

For his heroic action on March 29, 1992, when he placed himself in potential peril while effecting the rescue of a critically wounded deputy sheriff, he was awarded the Meritorious Conduct Medal - Silver.

#### **Deputy Thomas Wilson**

In recognition of his heroic actions on March 1, 1992, when he placed himself in potential peril while assisting the victims

of a freeway traffic accident to safety and by repeatedly entering the freeway to warn oncoming traffic of the unlit hazard, he was awarded the Meritorious Conduct Medal - Silver.

#### **Deputy John H. Burton**

In recognition of his heroic actions on June 12, 1992, when he placed himself in a position of immediate peril by rescuing a gravely injured deputy sheriff from within a burning vehicle, he was awarded the Meritorious Conduct Medal - Gold.

#### **Deputy Oscar M. Barrios**

In recognition of his heroic actions on June 12, 1992, when he placed himself in a position of immediate peril by rescuing a gravely injured deputy sheriff from within a burning vehicle, he was awarded the Meritorious Conduct Medal - Gold.

#### **Deputy Nelson H. Yamamoto**

For his heroic actions despite suffering critical gunshot wounds, he maintained his position of control on a suspect while summoning the strength and will to return fire at another suspect, he was awarded (posthumously) the Medal of Valor.

#### **Deputy Tony F. Taylor**

In recognition of his heroic actions on May 1, 1992, (although off-duty) when he placed himself in a position on immediate peril by coming to the aid of an off-duty Los Angeles Police Department officer who was engaged in a gun battle with three suspects, he was awarded the Medal of Valor.

## DISTINGUISHED AND EXEMPLARY SERVICE AWARDS

*Presented on September 28, 1993*

### DISTINGUISHED SERVICE AWARD

**Deputy Terry C. Ascherin**

In recognition of his distinguished efforts in the development of improved swift water rescue capabilities through equipment development and enhanced training.

**Sergeant Ken Fowler  
Sergeant Tom Martin  
Sergeant Thom Bradstock**

For their distinguished efforts in the development of a new Administrative Investigation Manual.

**Lieutenant John Mosak  
Deputy Leonard Phillips**

In recognition of their distinguished efforts in the planning and complete renovation of the existing Inmate Reception Center Property Room, which vastly improved the capacity, efficiency, and substantially cut costs.

### EXEMPLARY SERVICE AWARD

**Deputy James L. Winklepleck**

In recognition of his timely and exemplary efforts which resulted in the saving of the life of a severely injured traffic accident victim.

**Civilian Volunteer Dr. William Buchanan**

In recognition of his exemplary service to the Los Angeles County Sheriff's Department and the citizens of Los Angeles County through the unselfish giving of his time and expertise as the doctor aboard the "Air 5" rescue helicopter.

**Civilian Volunteer Ricardo Maduro**

For his exemplary efforts and service to the Los Angeles County Sheriff's Department through the unselfish giving of substantial time to the Aero Bureau's desk operation.

**Records Manager Janice Grigsby**

For her exemplary efforts in vastly improving the organizational efficiency of the Inmate Reception Center and Custody Division.

**Deputy Gilbert V. Calderon**  
**Deputy Drew O. Stidger**

In recognition of their exemplary efforts in the use of CPR to save the life of a GTA suspect which brought great credit to themselves and the Department.

- *Improved Personal Safety;*
- *Enhanced Public Image; or*
- *Consistent Career Excellence.*

*The exemplary service award is presented to employees who merit Department recognition for work efforts which show an unusual degree of individual initiative resulting in notable achievement through:*

**Lieutenant Jackson Miller**  
**Sergeant John M. Rahn**

For their exemplary efforts in overseeing the remodeling of the Temple City Sheriff's Station.

- *Technical Innovation;*
- *Devotion to an Organizational Mission or Duty;*
- *Improved Personal Safety; or*
- *Enhancement of the Departmental Image.*

*The distinguished service award officially recognizes exceptional performance by employees of this Department. The Medal is presented to employees who have distinguished themselves by actions which are far beyond those required for their position and which result in a significant contribution toward the betterment of our Department and its members through:*

- *Improved Efficiency;*
- *Increased Effectiveness;*
- *Substantial Cost Savings;*

## IN MEMORIAM

**Melvin T. Harris, Deputy**

Service: 06-30-48 to 01-20-73

Death: 01-02-93

Retired

**Doug Travis, Sergeant**

Service: 02-21-55 to 03-17-91

Death: 01-06-93

Retired

**John W. Bain, Deputy**

Service: 10-06-43 to 06-30-67

Death: 01-13-93

Retired

**Deloise Andrews, Deputy**

Service: 05-22-61 to 09-06-77

Death: 01-22-93

Retired

**Lucien C. Edwards III, Deputy**

Service: 10-06-58 to 03-31-85

Death: 01-27-93

Retired

**Celia M. Mitchell, Deputy**

Service: 10-01-58 to 03-31-78

Death: 02-11-93

Retired

**William A. Wilson, Deputy**

Service: 04-30-73 to 03-17-82

Death: 02-12-93

Retired

**Joe Antonoff, Lieutenant**

Service: 05-22-59 to 08-01-89

Death: 02-14-93

Retired

**Leroy Perry Jr., Deputy**

Service: 06-01-55 to 07-31-62

Death: 02-22-93

Retired

**William Finch, Painter**

Service: 12-02-91 TO 02-22-93

Death: 02-22-93

**Ralph A. Larson, Lieutenant**

Service: 08-11-47 to 03-28-77

Death: 03-11-93

Retired

**Victoria Herrera, Station Clerk**

Service: 11-23-87 to 03-16-93

Death: 03-16-93

**Andrew Draine, Custody Assistant**

Service: 11-01-75 to 03-23-93

Death: 03-23-93

**Roland Biscailuz, Deputy**

Service: 10-03-68 to 03-25-93

Death: 03-25-93

**William R. Kerber, Deputy**

Service: 04-01-53 to 08-21-76

Death: 03-28-93

Retired

**David M. Rubin, Deputy**

Service: 01-13-56 to 06-26-74

Death: 04-02-93

Retired

**Michael D. Caradine, Deputy**

Service: 09-17-81 to 07-02-92

Death: 04-06-93

Retired

**Gregorio Hernandez, Fingerprint Tech.**

Service: 05-30-72 to 04-08-93

Death: 04-08-93

**Exequiel Fierro, Senior Cook**

Service: 03-10-86 to 04-09-93

Death: 04-09-93

**Allen C. Ecker, Deputy**

Service: 07-01-49 to 03-31-74

Death: 04-18-93

Retired

**Charles Whitehall, Deputy**

Service: 03-06-69 to 04-24-93

Death: 04-24-93

**Ralph Williams, Sergeant**

Service: 05-28-48 to 03-16-75

Death: 04-25-93

Retired

**Woodrow Jackson, Deputy**

Service: 08-08-57 to 06-18-85

Death: 05-02-93

Retired

**Paul N. Nester, Lieutenant**

Service: 08-01-26 to 06-22-58

Death: 05-14-93

Retired

**Kwok Siu, Accounting Technician**

Service: 12-02-74 to 05-07-93

Death: 05-07-93

**Floyd Smith, Sergeant**

Service: 03-21-52 to 07-24-78

Death: 05-17-93

Retired

**Vinton E. Roberts, Sergeant**

Service: 08-02-47 to 03-31-74

Death: 05-24-93

Retired

**Julius K. Streater Jr., Sergeant**

Service: 01-23-57 to 03-31-81

Death: 06-03-93

Retired

**Joe J. Robledo, Deputy**

Service: 01-14-52 to 08-09-74

Death: 06-13-93

Retired

**John Mihayio, Sergeant,**

Service: 08-13-41 to 08-02-64

Death: 06-17-93

Retired

**Richard Murphy, Electrician**

Service: 07-01-90 to 06-18-93

Death: 06-18-93

**Alfred Ernes, Deputy**

Service: 05-01-56 to 09-22-69  
Death: 07-03-93  
Retired

**Bill B. Meenk, Captain**

Service: 09-13-48 to 12-31-73  
Death: 07-05-93  
Retired

**Martica Clayton, Clerk**

Service: 08-02-89 to 07-13-93  
Death: 07-13-93

**Armand J. Licht Jr., Sergeant**

Service: 07-01-54 to 03-28-75  
Death: 07-20-93  
Retired

**Donald L. Golford, Lieutenant**

Service: 05-10-55 to 03-17-80  
Death: 07-28-93  
Retired

**Johnny F. Velasquez, Deputy**

Service: 09-10-69 to 03-01-85  
Death: 08-08-93  
Retired

**James V. Brennan, Lieutenant**

Service: 04-13-42 to 05-01-68  
Death: 08-22-93  
Retired

**Ernest B. Kritzman, Deputy**

Service: 07-01-52 to 03-31-73  
Death: 08-30-93  
Retired

**LaVonne Y. Rhine, Deputy**

Service: 08-16-54 to 11-27-66  
Death: 09-03-93  
Retired

**Victor H. Gunderson, Deputy**

Service: 07-26-37 to 09-30-63  
Death: 09-06-93  
Retired

**Lorin Rasmussen, Deputy**

Service: 11-04-63 to 09-07-93  
Death: 09-07-93

**Otto F. Burkhardt, Sergeant**

Service: 07-15-49 to 02-01-76  
Death: 09-27-93  
Retired

**Thomas B. Ennis, Deputy**

Service: 04-27-59 to 03-31-88  
Death: 10-04-93  
Retired

**Rochelle Braid, Intermediate Typist Clerk**

Service: 01-08-90 to 10-04-93  
Death: 10-04-93

**David E. Parker, Sergeant**

Service: 07-01-54 to 03-17-81  
Death: 10-23-93  
Retired

**Evelyn E. Lull, Deputy**

Service: 10-11-67 to 01-31-89  
Death: 11-01-93  
Retired

**Francis Tryonoviech, Sergeant**

Service: 01-20-65 to 02-07-79  
Death: 11-04-93  
Retired

**Peter Giron, Deputy**

Service: 10-19-93 to 11-08-93  
Death: 11-08-93

**Glenn W. McEwan, Sergeant**

Service: 08-01-37 to 04-30-67  
Death: 11-07-93  
Retired

**Matthew McDannell, Sergeant**

Service: 01-06-71 to 11-13-93  
Death: 11-13-93

**Donald L. Clary, Deputy**

Service: 04-09-56 to 02-07-79  
Death: 11-19-93  
Retired

**Euris Davidson, Radiation Technician**

Service: 01-05-90 to 11-20-93  
Death: 11-20-93

**James B. Kennedy, Deputy**

Service: 07-19-49 to 08-31-65  
Death: 11-23-93  
Retired

**David Dubose, Deputy**

Service: 12-05-68 to 08-23-92  
Death: 12-04-93  
Retired

**Verda E. Hornbeck, Typist Clerk**

Service: 07-29-43 to 07-31-61  
Death: 12-11-93  
Retired

**Paul Strohmman, Chief**

Service: 04-09-56 to 10-03-84  
Death: 12-11-93  
Retired

Service: 06-17-91 to 12-25-93  
Death: 12-25-93

**Wilford E. Barnard, Lieutenant**

Service: 07-01-52 to 09-07-77  
Death: 12-29-93  
Retired

## STATISTICAL INFORMATION

# INTRODUCTION

The Year in Review 1993 Statistical Summary is issued by the Los Angeles County Sheriff's Department as a means of evaluating the effectiveness of current procedures and as a reference for future development of the Department. The following is a clarification of the terms used in the summary.

Totals may vary from previously published figures. This is due to the continual updating of Event Index System records and the efforts to present the most current data.

## *Crime Rates*

Crime rates in this summary are based on a population of 10,000 rather than 100,000 as in the State of California and Federal Bureau of Investigation reports. This makes the rates more significant in view of the population distribution in the various station and contract city areas. The crime rate is calculated as follows:

$$\frac{\text{Number of Crimes in Area}}{\text{Population in Area}} \times 10,000 = \text{Crime Rate}$$

## *Comparisons*

Factors contributing to crime are numerous and vary from place to place. Readers are cautioned against drawing conclusions from direct comparisons of crime figures between individual communities of similar populations and size. In Los Angeles County, a jurisdiction in excess of eight million population, several factors affect the rate of crime. The factors include:

- Crime reporting practices of citizens
- Solid economic factors
- Demographics of the population, including age, sex, race, and ethnicity
- Population density and community characteristics: commercial, educational, recreational, and economic
- Public attitude toward crime and law enforcement
- Number of police employees per unit of population
- Policies of prosecuting officials and courts

In evaluating percentage changes, consideration must be given to the dates during which changes took place as well as the actual number of crimes upon which the percentage is based.

## *Population*

Population figures were obtained from the May, 1993 publication of the Department of Finance, California.

## *Area*

The area adjustments are made from the data provided by the Los Angeles County Local Agency Formation Commission.

### ***Part I Offenses***

The Part I Offenses are used by law enforcement agencies in the United States to reveal the extent and trend of criminal activity. Any significant change from the anticipated pattern of the figures alerts law enforcement administrators to possible problem areas. The Part I Offenses are Criminal Homicide, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny Theft, Grand Theft Auto, and Arson.

The Sheriff's Department tabulates Part I Offenses by Uniform Crime Report standards and maintains statistical files with regard to violations, locations of occurrences, arrests by age and sex of the offenders, and by disposition of incidents (cases). Only the most serious classification is tabulated from reports with multiple classifications. For example, if a suspect is charged with Burglary and Vandalism, only the Burglary (the most serious crime) is included in the statistics. However, if several persons together commit one crime, each person is counted in "Adults Arrested" but only one crime is counted in "Incidents Handled." Thus, statistics maintained by each of the stations or bureaus may differ from those recorded in this summary.

Similarly, a single incident handled may have multiple assignments with the result that incidents assigned will total more than incidents handled. Additionally, for the crimes of Homicide, Forcible Rape, and Aggravated Assault, the "Incidents Handled" column actually includes the number of victims as opposed to the number of incidents. This procedure is in compliance with the Bureau of Criminal Statistics' Uniform Crime Reporting (UCR) guidelines. Finally, the statistics listed in the "Aggravated Assault" category include not only those assaults with a Felony Assault statistical code (050 series), but also those with the following Misdemeanor Assault statistical codes: 141 (Gun), 142 (Knife), 143 (Dangerous Weapon Other than Gun, Knife, Hands/Feet/Fist/etc.), 146 (Spousal Assault), and 149 (Child Assault).

### ***Percentage Comparisons***

Whenever the availability of data permits, percentage changes are indicated. These percentages reflect increases or decreases in the total number of incidents. It must be noted that these changes do not adequately reflect changes in manpower expended. It is, in fact, possible for a decrease in incidents to represent an increase in man-hours expended.

### ***Lakewood Station***

The 1992 and 1993 data are not comparable due to a boundary change when the Long Beach contract expired on June 30, 1993.

### ***Traffic Statistics***

The figures obtained from Traffic Services Detail were based on data submitted by each station.

### ***Stolen and Recovered Property***

The monetary value of property stolen and recovered has been changed to the type of property stolen instead of property loss by crime classification.

# 1993 Changes Affecting LASD Statistics

EFFECTIVE DATE	CHANGE OR MODIFICATION	REASON FOR CHANGE/MODIFICATION
01/01/93	Reporting Districts 6000-6049 (Blue Line), 6050-6099 (Green Line), 6100-6199 (Metrolink Los Angeles County), 6200-6219 (Metrolink Ventura County), 6220-6259 (Metrolink San Bernardino County), 6260-6299 (Metrolink Riverside County), 6300-6339 (Metrolink Orange County), and 6340-6399 (Metrolink San Diego County) were created for Transit Services Bureau, as were Assignment Codes 6000, 6001, and 6002. The Reporting Districts in the 2100 series (Blue Line) and 8000 series (Metrolink) were inactivated, as were the Assignment Codes in these series.	Transit Services Bureau required a consecutive series of Reporting Districts for all of its operations.
01/01/93	Court Services East changed its Reporting Districts from 4300 and 4399 to 4100 and 4199, and its Assignment Code from 4300 to 4100. Transportation Bureau changed its Reporting Districts from 4500 and 4599 to 4300 and 4399, and its Assignment Code from 4500 to 4300. Technical Services Division changed its Reporting Districts from 6000 and 6099 to 4500 and 4599, and its Assignment Code from 6000 to 4500. Records and Identification Bureau changed its Reporting Districts from 6100 and 6199 to 4600 and 4699, and its Assignment Code from 6100 to 4600. Data Systems Bureau changed its Reporting Districts from 6200 and 6299 to 4700 and 4799, and its Assignment Code from 6200 to 4700. Communications & Fleet Management Bureau changed its Reporting Districts from 6300 and 6399 to 4800 and 4899, and its Assignment Code from 6300 to 4800. Scientific Services changed its Reporting Districts from 6400 and 6499 to 4900 and 4999, and its Assignment Code from 6400 to 4900.	These changes were needed to accommodate the transfer of Transit Services Bureau from the 2100 and 8000 series of Reporting Districts and Assignment Codes to the 6000 series.
01/01/93	The crime and arrest statistics for Transit Services Bureau were no longer included in the unincorporated totals. A new category of Transit Services was created for purposes of reporting data from Transit Services Bureau to the Department of Justice.	It became impractical to determine if criminal activity and arrests on the various transit facilities were occurring in unincorporated areas, contract cities, or non-contract cities. The Department of Justice agreed to the creation of this new category for crime and arrest statistics, and issued Transit Services Bureau a new ORI number.
01/01/93	Reporting District 0585 was created out of Temple Station Reporting District 0584.	Temple Station wanted to more effectively track crime patterns in the affected area.
01/01/93	Reporting District 0608 was created out of Santa Clarita Valley Station Reporting District 0620.	Santa Clarita Valley Station wanted to capture crime statistics for the new Valencia Mall.
01/01/93	Entry of stolen and recovered property amounts in fields other than the "Locally Stolen Vehicle" field for records with a statistical code of 091, 093, 095, 097, or 099 were allowed.	It was discovered that records with these statistical codes previously allowed entry of a stolen property amount only in the "Locally Stolen Vehicle" field, and disallowed the entry of an amount for any other property also stolen.
02/03/93	A single sequence counter was instituted for records with Lost Hills or Malibu reporting districts.	In order to prevent duplicate sequential numbers for Lost Hills and Malibu, it was decided to discontinue individual sequence counters for both stations.

# 1993 Changes Affecting LASD Statistics

(continued)

EFFECTIVE DATE	CHANGE OR MODIFICATION	REASON FOR CHANGE/MODIFICATION
04/05/93	The Active Case Status Report (ACSR) was modified to move the totals for "Detective Division Headquarters" from the "Miscellaneous" section to the "Detective Division" section.	The totals for "Detective Division Headquarters" were more appropriately included in the "Detective Division" section of the report.
05/07/93	A single sequence counter was instituted for records with Transit Services Bureau reporting districts.	Because Transit Services Bureau was expanded to include Reporting Districts in the 6000, 6100, 6200, and 6300 series, a single sequence counter was needed to prevent duplicate sequential numbers.
05/27/93	The Kind Codes of "A" for "Arrestee" and "D" for "Detainee" were removed from the Kind Code Table.	Due to widespread confusion as to when to use these Kind Codes, as opposed to the Kind Codes of "S" for "Suspect" and "D" for "Detainee," they were removed.
06/21/93	The following statistical codes were created: 038 (Carjacking), 039 (Cargo Hijacking), 048 (Carjacking), 049 (Cargo Hijacking), 090 (GTA -- Cargo/Vehicle, Laden with freight), and 264 (Graffiti/Tagging).	The Department decided to begin capturing data on the indicated crimes.
06/28/93	Zero became a valid entry in the stolen property and arson loss fields for statistical codes 031 through 039, 041 through 049, 080 through 089, 090 through 099, 270 through 279, and 382 through 389.	When previously entering records with these statistical codes, there was no way to indicate cases which were attempts or which involved no loss. This led some users to enter \$1 loss amounts, simply to satisfy the system requirement for any amount greater than zero. This requirement skewed the data and caused inquiries from the Department of Justice.
06/30/93	The following Reporting Districts were inactivated: 1380, 1381, 1382, 1383, 1384, 1385, 1386, 1387, 1390, 1391, 1392, 1393, 1394, 1395, and 1396.	Long Beach Police Department resumed responsibility for policing North and East Long Beach on 7/1/93, thereby removing the need for these Reporting Districts.
07/01/93	Reporting District 2534 (which had been created to monitor crime statistics in Kenneth Hahn Plaza) was deleted from the RB Table and incorporated into Reporting District 2536.	A private security firm was hired to police the Kenneth Hahn Plaza.
09/02/93	Reporting Districts 3700 and 3799 were deleted. Reporting Districts 3400 and 3499 were re-named "Special Investigations Bureau." Reporting District 3440 was created for "Special Investigations." Assignment Code 3700 was deleted. Assignment Code 3400 was renamed "Special Investigations Bureau." Assignment Code 3440 was created for "Special Investigations."	Special Investigations Bureau merged with Metro-Vice Bureau on 8/15/93, creating Special Investigations/Metro-Vice Bureau. On October 1, 1993, the name of the new bureau was changed back to Special Investigations Bureau.
09/02/93	Reporting District 1337 was created out of Reporting District 1333 in the City of Bellflower.	Lakewood Station assisted the City of Bellflower in developing a strategic community-based policing plan. The creation of this RD was essential to monitoring crime in an area which was a habitual police hazard.
09/20/93	Reporting Districts 3800 and 3899 and Assignment Code 3800 were activated for use by the new Taskforce for Regional Autotheft Prevention (TRAP).	TRAP was recently created to combat auto theft countywide, and needed to have its own reporting districts and assignment code.

# 1993 Changes Affecting LASD Statistics

12/30/93	Reporting District 1370 was created to capture data on events occurring on the grounds of Lakewood Station. This new Reporting District was formerly part of Reporting District 1321.	Lakewood Station requested a separate Reporting District be created for the area immediately surrounding (and including) the Lakewood Station building. This was done to prevent the City of Lakewood from being charged for reports written for incidents occurring at the station.																														
12/30/93	Reporting District 1318 was created to capture data on events occurring in a particular area of Cerritos. This new Reporting District was formerly part of Reporting District 1312.	Lakewood Station requested a separate Reporting District be created for that area of Cerritos which had Orange County mailing addresses.																														
12/30/93	Reporting District 2917 was created to capture data on events occurring in a particular area of Walnut. This new Reporting District was formerly part of Reporting District 2913.	Walnut Station requested a separate Reporting District be created for an area of Walnut due to an increased level of activity in that area.
