ACQUISITIONS

# To the Citizens of Montgomery County

1993 will be remembered for the many new beginnings which occurred in the Juvenile Division of Common Pleas Court. On January 1, 1993, Judge Michael B. Murphy officially took office. Judge Arthur O. Fisher and Judge Michael B. Murphy will dually serve as the judiciary for this Division.

The renovation of the Juvenile Court building at 303 W. Second Street came to fruition in two different phases. In June of 1993, units of Clerical Services and Legal Services were moved into their completed areas on the first floor. The staff in these departments had continued working in the Juvenile Court building during the construction period. These staff should receive accolades for their fortitude while working in these uncomfortable circumstances.

The personnel that had been temporarily located outside the building during the renovation process moved back into 303 W. Second Street in December, 1993. These personnel should also be recognized for the inconveniences encountered during this period.

The untimely deaths of a number of children as a result of abuse inflicted in their home raised the consciousness of our community. As President of the Board of Commissioners of Montgomery County, Donna B. Moon established the Child Protection Task Force with the belief that "with all of us working together, we can assure the most efficient system possible for the welfare of our children."

The Juvenile Division continues to be challenged with the ominous task of protecting the community from delinquent acts committed by our youth, while protecting our children who have been victims of abuse. Sadly, we continue to witness the correlation of abused children becoming troubled adolescents.

#### MISSION STATEMENT

We are a Court of law dedicated to the task of upholding the Constitution of administering the laws of our land in a just and equal manner. We must strive to provide individualized justice for our children and protect our community, carefully balancing the interests of both. We believe there must be consequences for violation of the laws and that treatment begins with legal consequences. These consequences are intended to teach one responsibility and accountability for their actions. Yet our goal is not to punish but to rehabilitate whenever rehabilitation can be effected without endangering the community.

#### Goals:

We are a Juvenile Court and, although protecting children is everyone's responsibility, we must be the catalyst in rallying the entire community toward that end:

- Provide for the protection of the community through just and speedy consequences;
- Protect the abandoned, neglected and abused and to assess and seek treatment for children in need;
- Be sensitive and responsive to individual victims and their families;
- Provide individualized justice for the offenders;
- Hold those accountable who fail to meet their obligations as parents, guardians or custodians;
- Be a leader in the effective and cost-efficient utilization of community resources for the treatment of children and families;
- Demand high professional standards for ourselves and make every effort possible to demand the same standards from other government agencies and service providers.

We must pursue these goals vigorously and honestly with the utmost respect for the rights of all our citizens.

#### NON-JUDICIAL DISPOSITIONS IN UNRULY COMPLAINTS

#### ORDERED: TREATMENT: Counseling ...... 0 ECSP...... PSYCHE......

Non-judicial dispositions are made by the Referees in case review as distinguished from the court adjudication and others in judicial cases. While non-judicial dispositions often involve cooperative planning and action between complaints, parents, children and Court officials, in most cases the latter suggested the procedures and conditions to be followed.

# **DELINQUENT CHILD**

As used in sections 2151.01 to 2151.54, inclusive, of the Revised Code, "delinquent child" includes any child:

- A. Who violates any law of this state, the United States, or any ordinance or regulation of a political subdivision of the state, which would be a crime if committed by an adult, except as provided in section 2151.02 of the Revised Code;
- B. Who violates any lawful order of the court made under this chapter.

## NON-JUDICIAL DISPOSITIONS IN DELINOUENT COMPLAINTS

#### **ORDERED:** Information Only/Ten Years or Younger......86 TREATMENT:

Non-Judicial dispositions are made by the Referees in case reviews as distinguished from the court adjudication and others in judicial cases. While non-judicial dispositions often involve cooperative planning and action between complaints, parents, children and Court officials, in most cases the latter suggested the procedures and conditions to be followed.

#### COMPLAINTS ON ADULTS

The Court has jurisdiction to determine the custody and parentage of a child and to handle actions against adults charged with violations relating to children.

#### PARENTAGE COMPLAINTS

Parentage action is initiated by the filing of a complaint: 1) by the mother against the alleged father; or 2) by the alleged father against the mother.

These complaints are generally for the purpose of child support. Aid to Dependent Children (ADC) may require their claimants to initiate Parentage action in order to qualify to receive ADC support. The alleged fathers may file for the purpose of visitation rights or custody.

#### SUPPORT COMPLAINTS

Support complaints generally involve one of three types of cases:

1. Parentage Cases

- 2. Parents who have separated but not divorced and the mothers have filed for ADC.
- 3. Children who have been legitimized in Probate Court and have then filed and application for support.

The purpose of these civil proceedings is to determine the reason for failure to pay child support and if the defendant is in contempt of Court.

#### ADULT PROBATION

The Adult Probation Dept. of the Juvenile Court is responsible for all adult cases involving an adult in an offense against a juvenile or with a juvenile. This could include such things as incest physical abuse, sexual abuse, neglect, contributing to unruliness, etc.

Following a plea of guilty or a finding of guilty, a pre-sentence investigation is conducted by this department which is subsequently used in the sentencing of the defendant. Should the defendant be placed on probation as part of their sentence, they are supervised through this department. This includes the monitoring of such areas as mental health counseling, community service, their cooperation with necessary agencies and any special terms felt necessary by the Court.

The Incest Diversion Program allows a defendant, after being evaluated, to enter a plea of guilty to the incest charge and enter into mental health counseling both on an individual and group level. Also available is counseling for the victim and the other program, the defendant is required to perform 150 hours of community service. If at the end of his counseling, the minimum of which is approximately 18 months, he has successfully completed the program, his record is sealed and all charges dismissed. Should he not follow through with his program at any time, he is returned to court, entered into the regular criminal system and placed on probation.

The Adult Probation Dept. also plays an active roll in the attempts by the various school districts to see to it that the children in their areas attend school as prescribed by law. A program has been established whereby the parents of any child not attending school regularly are requested to attend a meeting to discuss the problem. At these meetings, in addition to the parent/parents, a representative of the referring school district is present to present the problem as seen by the school. These meetings have been very successful in resolving the problem, thus avoiding criminal charges against the parent.

In addition, this department is available to students of the various Universities and Colleges as well as High School students of the area to provide information on the subject of Sexual Abuse, Physical Abuse and Neglect.

# THE JUDGE FRANK W. NICHOLAS RESIDENTIAL TREATMENT CENTER FOR YOUTH

NICHOLAS RESIDENTIAL TREATMENT CENTER IS A COURT-OPERATED CENTER LOCATED ON 60 ACRES IN JEFFERSON TOWNSHIP. THIS PROGRAM IS DESIGNED TO SERVICE BOYS, AGES 11-16, WHO HAVE BEEN ADJUDICATED DELINQUENT OR UNRULY DUE TO PROGRESSIVE INVOLVEMENT WITH THE JUVENILE JUSTICE SYSTEM. THESE YOUTH ARE USUALLY NOT RESPONSIVE TO THE CORRECTIONAL EFFORTS OFFERED BY THE PUBLIC SCHOOLS, VARIOUS OUTPATIENT COUNSELING SERVICES OR THE SUPERVISION PROVIDED BY THE JUVENILE COURT PROBATION DEPARTMENT. FOR THESE YOUTH, SPECIALIZED TREATMENT AND EDUCATIONAL SERVICES ARE OFTEN NEEDED.

#### **DEPARTMENTS/PROGRAMS:**

FAMILY SERVICES HOME INSTRUCTION PROGRAM (H.I.P.) NICHOLAS-LIBERTY SCHOOL RESIDENTIAL ALTERNATIVES PROGRAM (R.A.P.)

NICHOLAS RESIDENTIAL TREATMENT CENTER WAS ACCREDITED BY THE AMERICAN CORRECTIONAL ASSOCIATION IN JANUARY 1990 AND WAS GRANTED REACCREDITATION IN DECEMBER 1992.

#### NICHOLAS RESIDENTIAL TREATMENT CENTER 1993 SUMMARY

This year continued to demonstrate the increasing and critical need for residential services within Montgomery County. This was evidenced by an agency record seventynine (79) juveniles referred for consideration for placement from the Court's Resource Planning Program (RPP). The Court's increased focus toward community-based rehabilitation has remained consistent over the last three (3) years, wherein the program has averaged seventy (70) referrals and thirty-three (33) admissions each year.

The typical youngster accepted during the year was a 14 year-old male who averaged four (4) delinquencies, involving such offenses as Criminal Damaging, Petty Theft, Grand Theft, and Violation of Probation. Within this group, the number of offenses ranged from one (1) to one youngster who entered the program with eleven (11) offenses.

Nicholas continued to provide a spectrum of treatment resources during the year for the Court and the community through the RESIDENTIAL ALTERNATIVES PROGRAM (RAP), the HOME INSTRUCTION PROGRAM (HIP), and CHORE SERVICE.

The <u>Residential Alternatives Program (RAP)</u> recorded a program high (115) referrals, while forty-two (42) youth, both male and female, and their families were accepted and served by the program. Court personnel continued to play a major role in offering early intervention as an alternative to probation, evidenced in that 80% of the referrals came from Juvenile Court Referees and Intake Counselors.

The <u>Home Instruction Program (HIP)</u>, through a collaborative effort with local school districts, continued to provide home-based substance abuse prevention/education for families within Montgomery County. Overall, nineteen (19) families were served during the year.

The <u>Chore Service</u>, utilizing a Nicholas youth work crew, continued to provide help and assistance for senior citizens with simple household tasks and light maintenance. Over 240 seniors were provided assistance in running errands, general housekeeping, yard maintenance, outside clean-up, and snow removal. A dual purpose was served through this resource in 1993 in that a valuable service was provided for the community, while simultaneously teaching our youth vital work skills.

**TREATMENT PROGRAM:** During the year the residential treatment program continued to grow through the enhancement of the individualized treatment plan, group process, and community resource expectations. Treatment plans were intensified, through the use of the student "Needs Sheet", in motivating the student to develop skills in the areas of industry, time management, listening/communication, social interaction, and community resource development. This treatment tool has been beneficial in helping each student remain focused in acquiring the skills necessary to successfully complete the treatment program.

The group process was strengthened through the refinement of the orientation process. New students entering Nicholas were introduced to the program via a student/peer orientation method. In this system, the new student is assigned a "buddy", a high level student, for the purpose of conveying the rules and expectations of the Nicholas Treatment Program. The new "buddy" does his best to make the new student feel at home and accepted. Overall, new students have indicated that this peer orientation method had helped them relieve their nervousness about entering Nicholas and made them feel welcome and comfortable in their "temporary home."

Our educational focus intensified through the development of a more comprehensive individualized instructional program for each student. Educational assessment/evaluation instruments were utilized to determine student instructional level and need. A comprehensive student reading program was implemented to stimulate students' interest and skills in reading.

Staff development was intensified through the refinement of the staff development/training program. Weekly team meetings were initiated to assist the treatment staff with professional development, utilizing training workshops and inservice sessions to meet ACA and DYS standards.

Recreational therapy continued to be an integral part of the treatment process in 1993. Students actively participated in the intramural sports of flag football, softball, and basketball. The "RUNNER'S CLUB" began in March with twelve (12) youth demonstrating great stamina and dedication by practicing twice each week. The club participated in the Montgomery County Juvenile Court's Biathlon, Good Sam 10K Run, Lou Cox 5K Memorial Run, and the Dayton West 5K. New in the fall was the development of the "RUNNIN' WOLVES", the Nicholas traveling basketball team. During the year the team made trips to play Osterlin Treatment Center, Columbus Wilson, Buckeye Boys Ranch, Bob Hope House, Hillcrest School, and Building Bridges Program. The highlight of the summer was a four day camping adventure of the staff and students to Hocking Hills. The trip was "fun" for all as the boys learned respect for nature and learned wilderness survival techniques.

Overall, 1993 can best be described as an active year, wherein services were provided to over 300 families through the Residential Treatment Program, Residential Alternatives, Home Instruction, and Chore Service components of the Nicholas Residential Treatment Center.

#### PROBATION SERVICES

The mission of **Probation Services** is:

"TO ENHANCE AN EFFECTIVE INDIVIDUALIZED SYSTEM OF INVESTIGATION AND SUPER-VISION IN THE COMMUNITY FOR JUVENILES AT RISK, SO AS TO PROVIDE COMMUNITY PROTECTION, AS WELL AS TO FACILITATE THE DEVELOPMENT OF SERVICES TO MEET THE NEEDS OF THOSE YOUTH."

#### PROBATION SUPERVISION UNITS

The backbone of the Probation Department are the four (4) geographical area units. Each of the "areas" is comprised of a Unit Manager, five (5) or six (6) Probation Officers and an Area Secretary. Collectively, the Probation Areas are responsible for investigation of approximately 85% and the supervision of approximately 77% of all youth referred to the Department. Providing the Court with a pre-hearing investigation and report (Social History) on each offender is only the beginning. While providing supervision and monitoring of juvenile offenders, the Probation Officer invests many hours into building relationships, fostering a sense of positive self-esteem and developing worthwhile activity outlets within their charges. During 1993 the Probation Department received nearly 1300 new assignments, which represented a 2.9% increase over last year's referrals. The department's staff provided a Herculean effort in continuing to provide the highest level of services to the Court's clients and the community.

During the past year Probation Services has continued in its quest to become a truly service oriented provider. The major goal of every unit was to work with our 'recalcitrant' youths. Every probation officer's charge was to focus on the uncooperative and often unlovable youth and bring them into a trusting relationship. Our volunteer and paid staff worked hard at involving even the most difficult juvenile in endurance sports, cultural events and esteem building activities. A concerted effort was made during 1993 to personally engage all elementary, middle and high school principals of Dayton Public Schools. The department also continued in its efforts to maintain a high level of communications with area law enforcement agencies.

#### **VOLUNTEERS IN PROBATION**

The Volunteer Program continues to provide invaluable assistance to Juvenile Probation Department staff, assuming primary supervision of over 300 cases during 1993 while providing auxiliary services such as tutoring and case mentoring on an on-going basis.

One hundred sixty-five (165) individuals were honored for their volunteer contributions to the department this year, as were numerous church and service groups. As has been the case in the past, college interns continue to make up a large segment of our volunteer corps. This past year found more than fifty (50) interns representing eight area colleges and universities working within the department.

Reaching more kids more effectively is always the goal of the Probation Department, and the Volunteer Program truly enables us to do just that. The community volunteers and interns are shining examples of the department's philosophy of bringing change in the behaviors of our young offenders through building self esteem and "relationship" therapy.

#### FISHER CHEMICAL ABUSE PROGRAM (F-CAP)

F-CAP is the substance abuse unit of the Court. the staff of this program provide chemical assessments, chemical education classes, counseling, urinalysis and referral to in-patient and out-client treatment. Additionally, F-CAP staff spend many hours in the development of relationships through chemical free activities. Youth are referred to the unit mainly through the Probation and Legal Departments. The F-CAP assessment provides the level of chemical involvement, as well as some appropriate intervention recommendations to assist in the effective treatment planning for the youth and family. Through subsidy funding from the Ohio Department of Youth Services and the Bureau of Justice Administration, F-CAP was able to expand in-house and community treatment options. During 1993, the Chemical Education component separated several of the parent/child sessions to more appropriately deal with their individualized needs.

A total of 319 youth were assessed in 1993 which represents almost a 50% increase since 1989. Of the 319 youth assessed, 90% were identified as needing some type of chemical intervention.

A total of 357 families were scheduled for eight (8) hours of Chemical Education classes in 1993. From these referrals for Chemical Education, 25% of the youth were first time offenders and 30% were referred as a result of traffic violations. A total of 187 individuals participated in the 1993 Chemical Education component.

A total of 15,000 urinalysis tests were completed during 1993. Of those completed, 5,250 or 35% tested positive. In addition to being a viable part of assessment, weekly monitoring provided an incentive to our young clients to maintain their sobriety.

# COMMUNITY SERVICE/RESTITUTION PROGRAM (CS/RP)

The Community Service/Restitution Program continues as a dispositional option of the Probation Department based on an accountability model Youth are placed in supervised work groups to complete a Court-ordered number of community service hours (up to 24 hours) or an amount of victim compensation up to \$500.00 per offense. Youth who are assigned to repay victims are credited at a rate of \$3.40 per hour for their community service work at program-supervised work site locations. The program also maintains records of Court-ordered restitution that is paid directly from the offender, receiving funding from the ODYS subsidy grant and community donations.

The Community Service/Restitution Program commends the following organizations for their dedication and support in providing work site locations during 1993.

#### BUILDING BRIDGES

Building Bridges is a privately supported arm of the Probation Department offering work therapy, group activities, intensive casework and a variety of recreational and sports programming. Juvenile offenders who do not respond to traditional probation involvement are referred from one of the four (4) main Probation Areas for group-centered, intensified supervision. Youth are assigned to weekly, supervised work therapy groups that involve the offenders in emotionally-charged helping roles. For their work with brain-injured children, the mentally retarded, nursing home patients, and the home-bound aged, the youth are paid between \$2.00 and \$2.50 an hour from private contributions.

Through a strong effort by the board of trustees and the generous support of the community, Building Bridges was able to continue the strong programming emphasis that sets itapart. Several successful fund raising activities provided additional support, including two George Foster headed benefit baseball clinics locally, Sertoma Club's 3 on 3 "Dunk and Dribble", and Tom Ruppert's "BB/Patented Printing Open". BB staff also rose to the challenge by securing their own program funding for projects like "Horsin' Around", "Boyz Under the Hood", "Reading for Dollars" and "Rights of Passage". Even more important was that all of the "tried and true" service features of the past 19 years continued unabated and with strong youth appeal. These included extensive work therapy, tutoring, volunteer and college intern usage, team and endurance sports, relationship-minded activities, church and service club involvement, group/foster home care and personalized casework.

A 95.1% success rate of keeping youth out of state correctional institutions was achieved through this flurry of services with 142 officially handled youth in 1993. A total of 38 kids lived atsome time within George Foster Homes Programs and 81 youth were considered "unofficial" (no official Juvenile Court ties), representing either siblings or "at risk" friends.

"Boyz Under the Hood" continued with another exciting Volkswagen restoration project. Thanks to wonderful support from Muncie, Indiana, six (6) program girls were again invited to a spellbound week in June in the couple's Traverse City, Michigan cottage. On the other hand, the fourth annual "Rites of Passage" for the George Foster Home boys meant an arduous 3-day August canoe trip down the Little Miami, ending in a leg down the Ohio River to Riverfront Stadium. "Horsin' Around" provided an opportunity for some of the BB girls to become involved in a sometimes strenuous, equestrian therapy activity.

The Building Bridges "Bulldogs" played more out-of-town basketball games than ever before in their own devised league, including two tournaments in Columbus and one in Cincinnati. Supported by the "BB/Patented Printing Open", a lot of winning happened in the individual lives of the players as well as on the Court.

A grant from the Mathile Family Foundation restarted a work therapy group with adoptable animals at SISCA, and this year Building Bridges became reinvolved in DP&L"S insulation program (VIP). There was a summer nature work group at the Germantown Reserve, and a weekly work therapy group at the Parkview Manor Nursing Home continued to be run by Sue Elsner, a high school counselor whose volunteer commitment to BB spans 12 years.

Many volunteers and college interns provide that personal touch to "relationship therapy" and in April, 1993, Vicky Schmitt received the J.C. Penney's "Golden Rule Award" for her BB service.

"Reading for Dollars" had a very successful year by nearly tripling the number of hours logged to 1,730.5 hours. This year high school students from Fairmont, Centerville, and Huber Heights were involved in a "kids helping kids', role along with other volunteers to bring about this tremendous feat. In addition, the Dayton Foundation provided funding to set up PC tutoring stations.

A Continued strong emphasis on employment found that of the 60 official youth terminated during the year 45% (27) left with private sector jobs. These included 14 different restaurant establishments, landscaping, construction and department store work.

Over \$158,000.00 in private contributions came in during 1993, and with the support of the Juvenile Court in probation staffing, per diem reimbursement, utilities and office space, every donated dollar was channeled into "direct service" to program youth. Special grants from the Mead Corporation Foundation and Mosier Industries allowed for the completion of a 7 year capital improvements plan for the George Foster Home. Through BB support many of the department's other units were able to provide additional programming such as work therapy and activities.

### ENHANCED CARING SUPERVISION PROGRAM (ECSP)

The Enhanced Caring Supervision Program provides "super intensive" relationship therapy and monitoring to a small caseload of felony offenders (eight (8) for each of 2.5 probation officers, total of 20). Probation officers maintain close, personal contact (usually daily) with each offender and parent(s), and coordinate multiple service providers for each youth during all four (4) program phases. Juveniles assigned to ECSP are involved in many Building Bridges and Probation Department Activities, with a strong behavioral contract and family counseling component. Since its beginnings three years ago 51.49% of assigned youth have successfully completed this rigorous program.

#### RESOURCE PLANNING PROGRAM (RPP)

This program is one of the Probation Department's specialized units providing a wide range of services and programs. RPP assists with case planning, especially when other agencies are or need to be involved; evaluate the appropriateness of out of home placement for court involved youth; alternative case planning through the Court's Screening and Assessment Committee; and provide case management services for youth on probation. When placement is warranted, RPP works out the funding by utilizing the Court's placement budget, DYS subsidy funding, negotiating cost sharing with other agencies and coordinating referrals to the Inter-agency Clinical Assessment Team (ICAT). In 1993 over 210 cases were referred from the probation staff which represents a 5% increase. A total of 130 cases were reviewed by the Screening and Assessment Committee during the year. All referred cases are prescreened and an informal review process assists the Probation Officer in defining the treatment plan. If necessary, a referral for a formal screening by the Committee is scheduled.

RPP provide on-going supervision and case planning for those youth in out-of-home placement, during aftercare supervision, averaging 70 cases for the unit. Program staff also complete investigations for youth who are in placement and in the custody of Children Services. During 1991 and 1992 there were 26 and 27 cases respectively investigated by the unit. The unit also obtains over 150 financial disclosure information reports from the parents necessary for the court to order child support for children in placement.

The Resource Planning Program continued to provide a volunteer parent support group called "Parents On the Move" (POM), where over 40 parents participated during the 18 meetings during 1993. Community leaders were invited to speak on a wide range of subjects dealing with parenting issues and the parents were also involved in several youth activities, training seminars and other parent support groups. POM parents and staff were involved in presenting an area-wide "Youth Talent Show" at Stivers Middle School in June, where over \$500.00 was raised to support training and programming for the group.

RPP's unit manager also served as the Court's "Service Broker" with the Youth and Family Collaborative, formerly New Futures. Continued efforts to identify service gaps and barriers for youth, as well as to improve service delivery were the main functions of the broker. Coordination with other agencies' service brokers included Children's Services, Department of Human Services, Dayton Metropolitan Housing Authority, Dayton Public Schools and the Alcohol, Drugs and Mental Health Services. Special joint agency projects during 1993 included the "Joint Agency Intake Assessment Pilot" and "Start Right" - an effort to address school absenteeism in DPS students kindergarten through sixth grade. Along with other agencies' staff, 55 Court staff were involved in making personal contact with identified families in the "Start Right" project, resulting in a substantial improvement in school attendance in over 45% of the cases.

# PSYCHOLOGICAL SERVICES

PSYCHOLOGICAL SERVICES ASSISTS IN THE OVERALL DIAGNOSIS AND EVALUATION OF REFERRED YOUTH TO AID THE COURT IN SELECTING THE BEST POSSIBLE DISPOSITIONAL ALTERNATIVE. THROUGH CLINICAL INTERVIEWS, INTELLIGENCE AND ACHIEVEMENT TESTS, NEUROPSYCHOLOGICAL SCREENING TESTS, AND OBJECTIVE AND PROJECTIVE PERSONALITY TESTS, A THOROUGH CLINICAL ASSESSMENT CAN BE MADE OF EACH REFERRED YOUTH. THIS INFORMATION ALONG WITH EXISTING SOCIOLOGICAL DATA COMBINE TO SERVE AS A SOLID BASIS UPON WHICH RECOMMENDATIONS FOR CASE PLANNING AND TREATMENT CAN BE MADE.
