ARMPC STATISTICAL MASTER RECORDS

The statistical information presented in these appendices was gathered in the summer of 1971 by ARMPC criminal justice planning staff. It was obtained from official city or county records or publications, or from officials within the named agencies. Information on the police and courts has been stored on magnetic tape. The on-going work program for criminal justice planning includes annual updating of this information and distribution of it to departments and agencies who would find it useful.

As part of the planning process, correlations will be made throughout the year with other current inventories maintained by ARMPC:

- \* Population
- \* Housing
- \* Land Use
- \* Employment
- \* Commercial Floor Space
- \* Others

This is the beginning of a sound statistical base on which significant patterns of criminal activity can be identified. It is a first step in developing programs aimed toward crime prevention and reduction.

The need for standardized records and uniform reporting is obvious from these data. The symbol NA indicates that data were not available because records of the agencies were not kept so that this particular information could be retrieved. Where there is no entry in a particular category, that entry is not applicable.

APPENDIX A

POLICE

For reporting purposes, law enforcement agencies have been divided into ten types according to function. These types are indicated by the last two digits in the APDC CITY CODE at the top of each page. In using these statistics it is important for the user to remember that OFFENSES REPORTED by agencies other than city or county police (and the Douglas County Sheriff) are included in the city or county police reports. In such cases, the city or county agency carrying such reports will be indicated after the agency name. Other categories are compatible, except that the EMORY UNIVERSITY POLICE, total sworn personnel, should be subtracted as they are included in the DEKALB COUNTY POLICE, TOTAL SWORN.

NOTE: Agency types 73, 74, 75, all campus security agencies, do not have arrest powers.

APPENDIX B

COURTS

For reporting purposes, the various courts have been divided into six types according to jurisdiction. These types are indicated by the last two digits in the APDC CITY CODE at the top of each page. In using these statistics, it is important for the user to remember that courts whose last two APDC CITY CODE digits are not the same, are not compatible and should not be added together.

APPENDIX D

CORRECTIONS

For reporting purposes, all correctional agencies have after the agency name, the name of the parent agency. No correctional agency in the region is an independent agency. The APDC CITY CODE will be that of the parent agency. When the BUDGET, EXPENDITURES, and CAPITAL OUTLAY columns are blank, the correctional agency does not have a budget separate from the parent agency. When no custodial personnel (jailers) is indicated, such function is also assumed by the parent agency.
