## **Narcotics Control Assistance Program**

### **2000 Annual Report**

189662

189662

# FOREWORD

On behalf of the State of Missouri and the Missouri Department of Public Safety, it is my pleasure to present the 2000 Narcotics Control Assistance Program-Annual Report. Since 1987, the Edward Byrne Memorial State and Local Law Enforcement Formula Block Grant Program has been an essential resource in our continuing effort to meet the public safety needs of the State and local level criminal justice community. The Missouri Department of Public Safety remains committed to assisting State and local efforts to make Missouri a safer place. The Byrne Program makes it possible for Missouri to aggressively address the many public safety issues associated with illicit drugs and violent crime.

The 2000 Narcotics Control Assistance Program-Annual Report is a comprehensive evaluation of State and local level projects that received financial assistance through the Edward Byrne Memorial State and Local Law Enforcement Formula Block Grant Program. During this reporting period, July 1, 1999 through June 30, 2000, the Missouri Department of Public Safety-Narcotics Control Assistance Program provided grant awards to 64 projects statewide. Financial assistance was provided to projects supporting drug education, drug enforcement, community based prevention, criminal litigation, treatment, supervision, crime laboratory enhancements, criminal records improvement and data analysis. By supporting the award of Byrne Program money to projects within these categories, we place ourselves in a position to best serve the citizens of Missouri.

The Missouri Department of Public Safety remains committed to our vision, "By embracing the challenges of the future, the Department of Public Safety will be a premier leader in providing protection and service, creating a quality of life in which all people feel safe and secure." The Edward Byrne Memorial State and Local Law Enforcement Formula Block Grant Program helps us realize this vision.

Gary B. Kempker, Director  
Missouri Department of Public Safety

Submitted to the Bureau of Justice Assistance  
November 1, 2000

# Executive Summary

In 1987, the Missouri Department of Public Safety initiated an administrative section within the Office of the Director, whose primary responsibility was to oversee and coordinate the dissemination of federal funding awards made to Missouri. This administrative section was implemented and titled as the Narcotics Control Assistance Program (NCAP) in response to the establishment of the federal Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program (Byrne Program) authorized by Title I of the Omnibus Crime Control and Safe Streets Act of 1968, 42 U.S.C. 3711 *et seq.* Additionally, the furtherance of the overall mission of the Missouri Department of Public Safety, as defined in Chapter 650 of the Missouri Revised Statutes, became and continues to be the directive for the Narcotics Control Assistance Program. That mission is to provide a safe and secure environment for all individuals, through efficient and effective law enforcement.

Throughout the years, the Missouri Department of Public Safety, through the Narcotics Control Assistance Program, has been involved in an on-going effort to identify the criminal justice needs of state and local government. As a result of this process, the Narcotics Control Assistance Program has provided the financial and technical assistance required to initiate state and local level responses to crime and drug related issues. This response, which parallels the established objectives of the Byrne program as outlined by the U.S. Department of Justice - Office of Justice Programs, is the foundation for project initiatives within Missouri. It remains the priority of the Narcotics Control Assistance Program to identify state and local initiatives which assist the state of Missouri in the enforcement of drug control or controlled substance laws, initiatives which emphasize the prevention and control of violent crime and serious offenders, and initiatives which improve the effectiveness of the state and local criminal justice system.

In compliance with section 522(a) of the Omnibus Crime Control and Safe Streets Act, the Narcotics Control Assistance Program 2000 State Annual Report (SAR), will outline the impact of Byrne Program funding on the criminal justice system within the jurisdictions of state and local government. During the reporting period covered in this annual report, July 1, 1999 through June 30, 2000, the Narcotics Control Assistance Program provided funding assistance in 9 of the 26 authorized purpose areas. The total monetary award for this reporting period was \$9,973,679.38, for which the Narcotics Control Assistance Program was able to provide financial assistance to 64 state and local level projects.

This level of funding provided financial assistance to 4 Demand Reduction Education Programs (DARE 501(1)), 27 Multi-Jurisdictional Task Force programs (501 2)), 10 Community Oriented Policing / Prevention projects (501(4)), 1 Career Criminal Prosecution project (501(08)), 1 Court Delay Reduction project (501(10)), 5 Intensive Supervision / Probation and Parole projects (501 (11)), 7 Criminal Laboratory Upgrade projects (501 (15a)), 6 Criminal Records Improvement Programs (501 (15b)), 1 Innovative Program (501(16)) and 1 Administrative award. The total funds expended during this reporting period represents grant awards utilizing Byrne Program money from fiscal years 1996, 1997, 1998 and 1999.

In addition to the projects funded through the authorized purpose areas described in this report, the Missouri Department of Public Safety-Narcotics Control Assistance Program was also involved in three separate continuing initiatives, designed to further enhance our current Byrne Program effort. The three initiatives identified in this report are 1), Missouri Methamphetamine Initiative 2), Missouri Interagency Clandestine Lab Task Force initiative and the 3) 1999 Analysis of the Drug Abuse Resistance Education Program in Missouri. Summaries of these separate initiatives can be found in Section I of this report.

The Missouri Department of Public Safety-Narcotics Control Assistance Program continues to be an essential component of the statewide effort to address violent crime and drugs. Through the Byrne Program, Missouri has the financial capability to maintain essential projects that provide needed services for the criminal justice community. Beside the initiatives previously described, the Narcotics Control Assistance Program places an equally high priority on the development and continuation of projects and partnerships that enhance a state, or local unit of government's ability to implement aggressive responses to the public safety needs of their respective service areas. The Narcotics Control Assistance Program strives to implement progressive demand reduction, community, multi-jurisdictional, judicial, correctional, analytical and informational-based response strategies to the public safety threats of crime and drugs.

# **I. Introduction**

## **Program Overview**

The Missouri Department of Public Safety, Office of the Director manages the distribution of federal funds provided to the state by the U. S. Department of Justice, Bureau of Justice Assistance, Edward Byrne Memorial State and Local Law Enforcement Grant Program. The unit responsible for the management of these funds is the Narcotics Control Assistance Program. Since 1987, the Edward Byrne Memorial State and Local Law Enforcement Assistance Program has provided criminal justice agencies with financial resources to confront drugs and violence. The Missouri Department of Public Safety, Office of the Director is committed to assisting state and local efforts to make Missouri a safer place. Dealing head-on with illicit drugs and violent crime is critical to this effort and Federal grant monies make this possible.

The Missouri Department of Public Safety has undertaken a comprehensive approach to utilizing the Byrne grant dollars. Enforcement/interdiction, prevention/education, treatment, criminal litigation, improving criminal history records, and improving statewide illicit drug and violent crime data are the focus areas for the 1999/2000 funding year. By addressing these issues, we believe we can receive the most benefit for the citizens of Missouri.

Since the beginning of Byrne funding in 1987, the Missouri Department of Public Safety (DPS), Narcotics Control Assistance Program (NCAP), has developed a comprehensive strategic approach to the drug and violent crime problems facing Missouri. The current strategy has been designed as a strategic "road map" for the years of 2000 through 2002. The strategy developed by DPS - NCAP, in conjunction with the Statistical Analysis Center (SAC) of the Missouri State Highway Patrol, will provide the State of Missouri with a directional foundation for the next century.

The State of Missouri has, and will continue to build on past years' successes by supporting effective programs, which are committed to the overall objective of a safer Missouri. DPS will continue to evaluate the effectiveness of each state and local program receiving federal money, to ensure that the goals and objectives of each program are addressing the needs of Missouri citizens.

The 3rd Governor's Methamphetamine Summit was held October 15, 1999 in Jefferson City, MO with approximately 150 local, state and federal professionals attending who were concerned about the threat posed by the illicit manufacturing, sale and distribution of methamphetamine. Present were representatives from law enforcement, judiciary, fire service, environmental protection, health care and social services. The main focus of the summit was:

- How to reduce the criminal activity and violence associated with and related to methamphetamine.
- How to measurably reduce and disrupt the importation, distribution and manufacturing of methamphetamine.
- How to mobilize and coordinate available local, state and federal resources;
- How to enhance the health and safety of all Missourians.

The result of this summit was the showcase of local, state and federal projects that are enhancing Missouri's response to Methamphetamine. In addition, the Governor's Meth Summit continues to be an example of local, state and federal collaboration.

## **METHODOLOGY**

Not only did the 1999/2000 funding year mark the first year of a three-year strategic plan, additionally it was the third year of a relatively new planning approach within the State of Missouri. This approach utilizes statistical information obtained from various reporting entities throughout the State. Information that will not only aid in the identification of drug and crime related trends, but also assist in the evaluation of programs supported by DPS-NCAP.

Staff of DPS-NCAP and the Statistical Analysis Center (SAC) of the Missouri State Highway Patrol has implemented two programs that will assist DPS-NCAP in the collection and evaluation of drug and crime related data. One program is the Quarterly Report Program and the second is the Statewide Data / Trend Analysis Program. The Statewide Data / Trend Analysis Program is designed to assist with identification of trends regarding the nature, extent, and characteristics of Missouri's illicit drug and violent crime problem. The Quarterly Report Program has been implemented to collect project specific statistical data that has been utilized to evaluate the efficiency and effectiveness of projects funded through the Edward Byrne Formula Grant Programs.

As a result of this cooperative effort, DPS-NCAP is better equipped to identify and prioritize changes in illicit drug use, illicit drug industries, and violent crime. Information obtained through this Data/Trend Analysis Program has become an essential element in the formulation of current and future strategies.

## **STRATEGIC PLAN IMPLEMENTATION STATUS**

Following is an overview of the implementation of the first year of a three-year strategic plan.

In January 1999, the DPS-NCAP staff conducted a grant workshop for local agencies for the 2000/2001-grant cycle. This workshop was held in Jefferson City, Missouri. All eligible applicants were invited to attend the workshop, which explained the grant application process.

Implementation of the 1999 funding year began with the review of program applications by a grant review committee consisting of DPS-NCAP staff and individuals from the criminal justice and private sector. Approximately 73 requests for funding were reviewed within the approved program categories as described below. The grant evaluation process was competitive in nature, and only those grant applications determined to coordinate with the goals and objectives of the statewide strategy were considered for funding. Approximately sixty-four (64) grant awards were made to state and local recipients. The federal award to the State of Missouri, during this report period, was \$9,920,000.00. Following is a brief summary on each category funded through NCAP during the 1999/2000 funding cycle.

**The 2000 Annual Report covers the NCAP funding cycle that begins on July 1, 1999 and concludes on June 30, 2000.**

### **Multi-Jurisdictional Task Force 501(02)**

Funding for the Multi-Jurisdictional Task Force programs was the largest funding category for NCAP during funding year 1999/2000. NCAP awarded \$4,663,889.99 to 27 multi-jurisdictional/multi-agency enforcement groups throughout the state. Of the 115 counties in the state of Missouri, 101 are active participants/members of the multi-jurisdictional enforcement effort.

The focus of this category is the multi-jurisdictional, multi-agency counter-drug enforcement effort. During this reporting period, the NCAP began placing more emphasis on the collaboration and partnerships required to breed success within the multi-jurisdictional approach to drug enforcement. By placing greater emphasis on the establishment of a comprehensive Memorandum of Understanding/Agreement between all partners of the multi-jurisdictional enforcement group, a more comprehensive understanding of responsibilities and expectations exist. Additionally, greater emphasis is now placed on the establishment of a Board of Directors, responsible for the collective decision making process of each multi-jurisdictional enforcement group.

During 1999/2000, the illicit drug methamphetamine continued to be a priority for an aggressive law enforcement strategy, designed to slow or halt the spread of this drug. As the scope of the methamphetamine problem extends beyond the capabilities of a single entity, many partnerships have been forged in response to this threat to public safety, public health and the environmental sovereignty of our state. Through local, state and federal collaborations and a continued aggressive response, we anticipate the rise in methamphetamine related activity to peak and eventually decline.

As indicated below, the scope of the methamphetamine problem in Missouri continues to increase. The disparity between the federal and state effort is beginning to close, with the state of Missouri taking a more active role in responding to this problem.

## Clandestine Lab Seizure in Missouri

	<u>1997</u>	<u>1998</u>	<u>1999</u>
<i>DEA</i>	415	410	236
<i>MSHP</i>	<u>319</u>	<u>483</u>	<u>600</u>
	<b>734*</b>	<b>893*</b>	<b>836*</b>

\*The number of clan labs seized represents data obtained from local, state and federal sources, which may include some double counting. For the purpose of this report the most accurate clan lab seizure information will be the data obtained from the NCAP Quarterly Report.

During the 1999/2000-grant period, the following statistics were collected for the 27 NCAP funded Multi-Jurisdictional Enforcement Task Forces in the State of Missouri. The following statistics are an example of the data collected through the Quarterly Report. More detailed information can be reviewed in Section III and IV of this report.

	<u>FY 1999</u>	<u>FY 2000</u>
Arrested with one or more drug charges:	5,069	4,696
Arrested with no drug charges:	651	861
Total drug arrests:	5,720	6,157
Search warrants served:	976	915
Consent searches performed:	3,633	3,509
Meth labs seized/destroyed:	628	843
New drug distribution Organizations identified:	146	103
<b><u>OUNCES OF DRUGS SEIZED</u></b>		
Methamphetamine:	3,491.48	3,811.55
Cocaine:	5,124.79	3,073.11
Crack:	181.72	238.89
Heroin:	382.27	123.58
LSD:	3.81	.60
PCP:	180.57	102.73
Other Drugs:	196.63	109.48
Total value of all drugs seized:	\$49,792,449.00	\$38,781,644.00
Top five arrest charge codes:	<u>FY99</u>	<u>FY00</u>
	Sale/Crack	Poss/Marijuana
	Poss/Marijuana	Sale/Methamphetamine
	Sale/Methamphetamine	Sale/Crack
	Poss/Crack	Poss/Methamphetamine
	Sale/Marijuana	Sale/Marijuana

\*The above statistical data is obtained from the Quarterly Reports submitted by the multi-jurisdictional enforcement groups receiving Byrne Program funding between July 1,1999 and June 30, 2000.

### **Intensive Supervision, Probation and Parole – 501 (11):**

This category represents the second largest funding category for 1999/2000, receiving \$3,112,047.00. Five (5) projects, four state and one local program, were approved for funding under this approved purpose area. The purpose of this funding category is to provide financial assistance to programs designed to divert increasing incarceration costs towards more efficient supervision. The Adult and Juvenile Offender Treatment Program assists in combating the drug abuse problem by providing funding for treatment programs.

### **Criminal Records Improvement - 501 (15b):**

During 1999/2000 funding period, the Criminal Records Improvement Program represents the third largest approved purpose area, receiving \$900,766.47. The enhancement of the states ability to collect accurate criminal history record information, in a timely manner, remains a top priority for the state of Missouri. The ultimate goal of this approved purpose area is to provide the financial mechanism that will enable the State to collect the required criminal records data from all criminal justice entities and provide the appropriate storage mechanism within the Missouri Criminal Records Repository. In addition, local criminal justice agencies must be automated for criminal justice reporting to the state central repository if the reports are to be timely, accurate and complete.

### **Crime Laboratory Upgrade Program-501 (15a):**

The Crime Laboratory Upgrade Project represented the fourth largest funding category for the 1999/2000 cycle, receiving \$407,605.00. This approved purpose area provided financial assistance in five regional and two state level crime lab facilities. This funding category provided needed enhancements to forensic laboratories through equipment purchases and upgrades essential to meet the goals and objectives of the 1999 strategic plan. With a rise in methamphetamine related investigations throughout the state, the request for laboratory services have also witnessed a marked increase in service request.

Additionally, the DPS-NCAP coordinates the enhancement of state and regional crime labs with two state level programs, the Missouri Crime Lab Upgrade Program and the Crime Lab Assistance Program. Between the Byrne Program funds and the funds provided by the state of Missouri, NCAP has been able to provide needed laboratory enhancements. Through the personnel and equipment enhancements, the level of service provided to the criminal justice system has improved while keeping pace with increasing analytical caseloads.

### **Missouri State Highway Patrol – NCAP Data Analysis:**

During the 1999/2000 funding cycle, the MSHP was awarded \$281,128 to support NCAP by increasing Missouri's capabilities to analyze its drug and violent crime problems, assess the effectiveness of existing programs and to provide data and analytical support for the development of new projects.

### **Community Oriented Policing/ Crime Prevention – 501 (04):**

During the 1999/2000 funding period, this purpose area represented the sixth largest NCAP funding expenditure, utilizing \$212,204.61 to support one (1) state and nine (9) local COP /Crime Prevention programs. The focus of this funding category is to provide financial assistance to law enforcement agencies, which incorporate a community based policing and proactive crime prevention philosophy into their operational response to the needs of the communities they serve.

### **Drug Abuse Resistance Education (DARE) – 501 (01):**

During the 1999/2000 funding cycle, this approved purpose area was the seventh largest funding category, receiving \$119,403.00. This funding category provided financial assistance to 7 local recipients. During this funding cycle, NCAP continued with the implementation of a more stringent evaluation of each DARE funding request. Unless a requesting agency can justify the funding of personnel cost at a 100% level, the NCAP review committee will require the personnel request to be revised before funding considerations can be made.

In the past, DARE personnel were funded at a 100% level, but not spending 100% of their time on DARE related activities. To remedy this issue, NCAP will not approve more than 75% of a DARE officer's full time salary, which includes the sub-recipients match dollar. If a funding request fully justifies the funding of a DARE officer's full salary, and guarantees that the funded position will only perform DARE related activity, only then will a 100% funding request be considered.

### **Career Criminal Prosecution - 501(08):**

During the 1999/2000 funding cycle, this approved purpose area provided funding assistance to one local level recipient for the amount of \$19,303.00. The purpose of this project is to provide additional prosecutorial services in violent crime and drug cases and provide alternative sentences for non-violent drug offenders.

### **Court Delay Reduction – 501(10):**

During the 1999/2000 funding cycle, this approved purpose area provided funding assistance to one local level project for an award of \$9,636.22. The purpose of this project is to improve the case flow management of the court system to aid in balancing all components of the justice system in Missouri.

### **Missouri Department of Public Safety – Administration:**

During the 1999/2000 funding cycle, the DPS utilized the Edward Byrne Memorial State and Local Law Enforcement Program for administrative cost associated with the management and coordination of the Byrne Program. Within this approved purpose area, the DPS is able to support, in part or in whole, NCAP program staff and supporting DPS staff. During this reporting period, the DPS-NCAP expended \$183,161.45 in Federal Funds for the administration of the Edward Byrne Memorial State and Local Law Enforcement Program.

## **Coordinating Programs / Projects:**

### **Department of Defense-1033 Program:**

The Department of Defense (DoD) Logistical Support Program (1033 Program) is administered through the Department of Public Safety, Office of the Director. This program makes excess military property available to state and local law enforcement agencies at no acquisition cost, for use in counter-drug, counter-terrorism and officer safety activities. In the history of this program, there has been over 260-law enforcement agencies participate and receive property.

In FY 1999 we witnessed a 68.5% decrease in the number of property items issued to Missouri law enforcement agencies, along with a 33.6% decrease in the total acquisition value of the property issued. During that time, 29% of the agencies that had requested to participate and receive property never received property.

From July 1, 1999 to June 30, 2000 there were 2,002 property items issued (down 13% from 2,309 in FY99) with a total acquisition value of \$852,705.78 (up 1% from \$837,331.95 in FY99). 164 agencies were approved to receive property (up 160% from 63 in FY99) with 26 agencies making 60 requests (up 44% from 18 agencies and from 33 requests in FY99).

The primary reason for the continuing decline in the percentage of agencies requesting and receiving property is the continuing down sizing of the Defense Reutilization Marketing Offices. The State of Missouri no longer has any of these facilities available for screening and receiving excess property making it difficult for many smaller agencies to provide manpower or financial resources necessary to travel the long distances required.

A small sample of the types of items issued to these agencies have included aircraft, both fixed wing and rotary, 4 wheel drive trucks and blazers, military ambulances for mobile command vehicles and search warrant entry teams, along with armored personnel carriers for SWAT teams. Ballistic helmets and vests, chemical suits and masks with filters, surgical gloves and handcuffs were issued for officer safety. BDU clothing, boots, wet weather and cold weather clothing, canteens and web belts are some of the types of field gear items issued for Marijuana eradication. Binoculars, night vision scopes and goggles, radio equipment, camcorders and TV/VCR combinations are used for tactical and intelligence gathering purposes. As the equipment issued through the DoD Program are available at no acquisition cost to the state of Missouri and local law enforcement agencies they have become very dependent on this property to complete their counter drug missions.

The Department of Public Safety, Office of the Director is looking into participating in other DoD Programs, such as the Defense New Property Procurement Program (1122 Program) and the Defense Information Technology Management System (1149 Program) to better assist law enforcement in meeting their mission requirements.

### **Local Law Enforcement Block Grant Program:**

The Local Law Enforcement Block Grant Program, now approaching its fifth year of funding, has become an essential funding mechanism for law enforcement. Requiring as little as 10% match, this program is essential for small law enforcement agencies with limited resources, whose funding requests support the program objective of reducing crime and improving public safety. Originating in the HR728 Local Government Law Enforcement Block Grant Act of 1995, and authorized under the Omnibus Fiscal Year 1996 Appropriations Act (Public Law 104-134), this program continues to enhance the strategy and efforts of NCAP.

During this reporting period, DPS made 101 grant awards to law enforcement agencies across the state. The total award amount for this period was \$624,580.40. Short-term contracts are awarded in amounts up to \$10,000 for purchase of equipment that will enable Missouri law enforcement to meet their local needs. The Local Law Enforcement Block Grant contracts, administered by the Missouri Department of Public Safety, are awarded only to law enforcement agencies through their respective city or county.

### **Missouri Methamphetamine Initiative:**

Because of the continued threat methamphetamine represents, Missouri's response continues to be a high priority for Governor Carnahan, Missouri legislators, criminal justice professionals and communities throughout the state. During the 1998/99 funding cycle, the Missouri Department of Public Safety, through appropriations made by the 89<sup>th</sup> General Assembly in conjunction with funding assistance from the U.S. Department of Justice-Bureau of Justice Assistance, Byrne Program, Missouri was able to provide investigative supplies, safety equipment, laboratory equipment and training to state and local law enforcement, state and regional crime laboratories and citizens of the state of Missouri. During the previous summits on Methamphetamine, dedicated professionals identified the most pressing needs facing the state. Because of these efforts, Missouri is beginning to make great strides in its effort to slow the spread of this drug. During the 1999/2000 funding cycle, the Methamphetamine Initiative was continued so the Clandestine Lab Response Trailers could be manufactured and delivered to the 25 Multi-jurisdictional Drug Task Forces supported by NCAP.

**Methamphetamine Clandestine Lab Response Trailers:** 25-pull type, self-contained trailers have been designed and are currently under construction. The trailers have been designed to provide law enforcement with the ability to respond to a clandestine lab site with the tools and equipment needed to safely investigate the clandestine lab incident. Each trailer is designed to provide storage for, and will be equipped with, response equipment such as Self-Contained Breathing Apparatuses (SCBA), full-face respirators, Tyvek protective coveralls and other protective clothing. Additionally, each trailer is designed to provide a dress-out area for officer's responding to a clandestine lab, an emergency water supply for use in the case of a chemical exposure incident, emergency lighting and power source. Each trailer is also designed to provide a safe and secure means of transporting the highly volatile chemical remains of a recovered clan lab to specialized storage containers throughout the state. During this reporting period, 3 trailers were delivered to three Multi-jurisdictional Drug Task Forces in the State. (Although not covered during this annual report, 12 additional trailers have been delivered to the MJDTF's from July 2000 through October 2000, with the remaining 10 trailers to be delivered to them by the end of November 2000).

### **Missouri Interagency Clandestine Lab Task Force:**

At the time the Missouri Interagency Clandestine Lab Task Force (MICLTF) was established, methamphetamine production, trafficking and abuse was becoming a serious problem throughout the state. The methamphetamine problem is spreading from the western United States into the Midwest and today, continues its eastward expansion into other regions of the country. The Midwest region of the country (Missouri, Iowa, Kansas, South Dakota and Nebraska) has witnessed a dramatic increase in the number of clandestine laboratories in operation. Methamphetamine is a relatively simple drug to manufacture. With the number of clandestine lab seizures on the rise, so is the number of methamphetamine related problems. Because of the multiple issues associated with the manufacturing, distribution and abuse of methamphetamine, the state of Missouri had to become aggressive and focused in its response. The clandestine methamphetamine laboratory represents a series of unique threats to the public safety, public health, environment and fiscal integrity of communities across the state.

The Missouri Interagency Clandestine Lab Task Force (MICLTF) has made many positive enhancements to the way the state of Missouri is reacting to the issues relating to the illicit manufacturing of methamphetamine. The accomplishments of this committee would not have been possible without the collaborative, "bottom to top" effort of local, State and Federal agencies dedicated to the delivery of more effective and efficient service to law enforcement agencies throughout the state. This collaborative effort required the participating agencies to focus their efforts, in a collaborative – coordinated manner toward one shared vision, a safer Missouri for all.

Probably the most beneficial project resulting from the activities of this task force is the Haz Mat Storage Container. Through the Missouri Department of Public Safety-Law Enforcement Equipment Program, 20 Hazardous Material Storage Containers were purchased during FY99 and 15 have been placed throughout the state during this reporting period. The containers were specifically built for storing hazardous by-products of the clandestine lab. The containers have been strategically placed around the state in such a manner as to assure that no police department,

fire department or Haz-Mat team will have to travel more than a 50 mile radius to safely store meth related hazardous material. The containers are available for use by all agencies responsible for the handling and storage of clandestine laboratory hazardous material. The containers also represent an alternative to local law enforcement that no longer have to store this highly volatile chemical waste within the confines of their agencies evidence lockers. By providing the alternative of a Haz Mat Storage Container, the exposure risk to life and property is substantially reduced.

The container program has been designed to be flexible. Each container is designed for mobility, either by ground transportation or by air (helicopter). If the demographics of the clandestine lab problem should shift to other regions of the state, the containers can be relocated to meet the regional demand. Once an agency has made application for a storage container and upon the approval of the application by the Missouri Department of Natural Resources, a container will be transported to the approved site. The transportation of each container is at no cost to the requesting agency. The Missouri Army National Guard (MoANG) incorporates the logistics of container movement into "Training Missions" for their various transportation units. Without the cooperation of MoANG, the cost of transporting these storage units would be prohibitive to many agencies requesting the units.

**Expansion of Approved Purpose Areas:**

New for the 1999 Narcotics Control Assistance Program was the addition of the Disruption of Illicit Commerce in Stolen Goods 501(5), Innovative Programs 501(16) and Antiterrorism Training Programs 501(26), which expanded our authorized purpose areas to eleven. With this expansion, the Narcotics Control Assistance Program will continue its efforts to enhance project funding potential for the criminal justice community. Although eleven purpose areas were available for funding programs, only 9 were utilized during the 1999/2000 funding period.

## **II. EVALUATION PLAN AND ACTIVITIES**

### **INTRODUCTION**

The **Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Block Grant Program** provides criminal justice authorities with substantial support in their endeavors to address Missouri's illicit drug and violent crime problems. At the federal level, this program is administered by the U.S. Department of Justice, Bureau of Justice Assistance (BJA) and at the State level; the Missouri Department of Public Safety (DPS) administers it. In Missouri, this program is known as the Narcotics Control and Assistance Program (NCAP) and will be referred to as NCAP throughout this report.

Program evaluation is an essential NCAP responsibility required by its enabling legislation. To meet this responsibility, BJA has provided states with guidelines, technical training, and support for assessing NCAP projects. In Missouri, the DPS has contracted with the Missouri State Highway Patrol (MSHP) Statistical Analysis Center (SAC) to administer the evaluation component of the NCAP program and play a major role in the development of Missouri's drug and violent crime strategy.

The following is a description of the FY 2000 NCAP project evaluation designs developed by the SAC and approved by DPS. These evaluations are mostly administrative or process in nature.

**MISSOURI  
NARCOTICS CONTROL ASSISTANCE PROGRAM

**PROGRESS EVALUATION DESIGNS**  
**FOR**  
**COMMUNITY ORIENTED POLICING / CRIME PREVENTION**

Community Oriented Policing (COP) is a problem-oriented policing concept to analyze criminal activity and work with citizens, business, youth, clergy, and civic groups in their communities to provide solutions to crime problems.

Efficiency evaluations designed for:

Belton Police Department COPS Program  
Blue Springs Choices Cooperative / Campus Law Enforcement  
Carterville Police Department COPS  
Chesterfield COPS Program  
Cleaver Police Department Safe School  
DeSoto Police Department COPS Program  
DPS - Methamphetamine Initiative  
DPS - Capitol Police Intern Program  
DPS - COPS Training and Assistance Program  
Mountain View COPS Program  
MSHP Troop G Criminalist  
MSHP GHQ Toxicology Enhancement  
New Haven Police Department COPS  
Perryville COPS Program

**BELTON POLICE DEPARTMENT COPS PROGRAM:** This project involves supporting a full-time COPS officer position. Project objectives include: 1) development of community policing programs (citizens academy); 2) public education and crime prevention programs (realtor safety, home and business security, basic cycling, self-defense); 3) school-oriented programs and partnerships (student academy, after school outreach, violent, drug or gang offender tracking); 4) special duty assignments (bicycle unit); 5) special services and events (McGruff presentations, 911 presentations, bicycle rodeo); and 6) grant administration. There will be two areas of focus in an effort to expand and improve the program. These are: 1) to increase the number of citizens participating in our public education process; and 2) to increase the number of presentations to the public.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement the COPS program.
2. Number of public education offerings (at least seven different offerings).
3. Number of citizens participating in public education processes (at least 110).
4. Number of citizen academies held.
5. Number of school academies held.
6. Number of public appearances made.
7. Rates of change in crime incident related bike and foot patrol assignments compared to a like time period prior to assignments.
8. Total number of calls-for-service handled by COPS officer as well as total number of arrests made by most serious offense type.
9. Other major work effort and activities performed by the COPS officer.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**BLUE SPRINGS CHOICES COOPERATIVE / CAMPUS LAW ENFORCEMENT:** This project is designed to continue the Campus Law Enforcement Education Officer (CLEEO) program in one middle school for sixth, seventh, and eighth grade students. Objectives for the CLEEO officer are to: 1) track a case load of specific youth identified as having one or more "risk" factors; 2) provide decision-making skills in an educational format to small groups of middle school students who have exhibited criminal, aggressive, or other behavior; 3) provide education, practical solutions, resources, and empowerment to parents of these teens; 4) continue to provide prevention driven, broad based instruction to middle school students on drug avoidance, reducing gang and criminal influences, building positive skills, and character development; and 5) continue to refer the highest risk youth to appropriate agencies designed to address and provide treatment for the most demanding youth issues.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Number of high risk youth identified and tracked. Seventy five youth is the established minimum goal.
2. Number of decision-making classes conducted. Three, five-week classes reaching 30 youth between the ages of 12 and 15 is the established minimum goal.
3. Number of parent education classes conducted. Three, three-week classes is the established minimum goal.
4. Number of classroom hours of instruction given to sixth, seventh, and eighth grade core curriculum.
5. Number of youth identified and referred to the Student Assistance Program or the Youth Outreach Unit. The referral of 75 youth is the established minimum goal.
6. Reduce the percentage of 8th grade students using tobacco, alcohol, or marijuana to levels as reported through the Kauffman Foundation Blue Springs School District Report Card.
7. Overall project management, training, and support services employed to implement the project.
8. Other major work effort and activities performed under auspices of the project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

**CARTERVILLE POLICE DEPARTMENT COPS:** This project is designed to implement an Anti- Drug Crime Patrol program involving police officers and citizen volunteers and provide equipment and supplies, education / training aids, and citizen training to support the program. Goals for the program are to: 1) improve community relationship with the police department; 2) reduce crime by involving the community; and 3) improve officer response time. The ultimate goal is to place trained citizen volunteers on patrol throughout the city during peak crime hours to report any unusual activity to on-duty police officers. Primary objectives will be to: 1) provide 25 hours of training to applicants in city geography, radio procedures, night safety, reporting methods, drug lab signs, and vehicle identification; 2) purchase portable radios for use by the Anti-Drug Crime Patrol; 3) purchase safety equipment to support citizens involved in patrol; and 4) provide Internet access for reporting program progress.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement Anti-Drug Crime Patrol program.
2. Number of training presentations made and topics covered.
3. Number of program applicants and number of trained volunteers in program.
4. Timely acquisition of equipment and supplies.
5. Total number of calls-for-service originating from Anti-Drug Crime Patrol program volunteers.
6. Total number of arrests made as a result of Anti-Drug Crime Patrol program volunteer reporting.
7. Rates of change in crime incidents where Anti-Drug Crime Patrol volunteers are assigned compared to like time period prior to their assignment.
8. Other major work effort and activities associated with program.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**CHESTERFIELD COPS PROGRAM:** This project is designed to continue support for a full-time officer position, office equipment, and office services. These resources are dedicated to supporting the Community Contact Bureau, a storefront substation at the Chesterfield Mall. The storefront area includes office areas, a designated conference room, crime prevention displays, D.A.R.E. displays, and various informational brochures from the police department, city government, and other resource agencies. The substation is utilized for walk-in reports, citizen contacts, general information, citizen fingerprinting, and criminal investigations. The conference room is utilized for COPS related meetings, presentations, and crime prevention seminars. The officer's primary assignment is to work from the Community Contact Bureau. A business watch program, similar to a neighborhood watch program, also will be revitalized.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement the Community Contact Bureau.
2. Total number of hours per week the Community Contact Bureau is manned.
3. Total number of COPS-related meetings, presentations, and seminars held at the Community Contact Bureau (22 community-based meetings, 4 presentations regarding personal safety, and 4 presentations regarding commercial safety are projected as goals).
4. Revitalization of the business watch program.
5. Total number of calls-for-service handled by Community Contact Bureau officer (200 calls-for-service processed is projected as goal).
6. Total number of arrests made by Community Contact Bureau officer by most serious offense type (20 arrests is projected as goal).
7. Process tips received from operation of the West County Crime Stoppers Crime Tip Hotline (120 tips processed is projected as goal).
8. Administratively fingerprint citizens seeking special licensure or adoption processes (120 citizens fingerprinted is projected as goal).
9. Rates of change in crime incidents in the "Mall" compared to a like time period prior to implementation of Community Contact Bureau.
10. Other major work effort and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**CLEAVER POLICE DEPARTMENT SAFE SCHOOL PROGRAM:** This project supports one officer with equipment, education / training aids, and officer training. These resources will be used to implement and maintain a school resource officer in the Cleaver School District and western Christian County for twenty hours per week. The program goal is to achieve a partnership between the Cleaver Police Department and Cleaver School District to address growing drug and alcohol problems in the area. Objectives of the program are: 1) become involved with community policing; 2) teach specific D.A.R.E. activities; 3) monitor school truancy; and 4) provide drug and alcohol programs to the school district and community.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement Safe School Program.
2. Number of classroom presentations given by school resource officer, topics covered, and hours expended (20 hours per week is a projected goal).
3. Number of presentations made to parent groups, teachers, youth groups, etc., and topics covered.
4. Number of officer / youth consultations. Consultations would be in-depth one-on-one discussions with students at their request or at the request of a third party concerning drug / alcohol problems, truancy, or other individual concerns. General get-acquainted sessions are not considered consultations.
5. Number of other consultations (professional, parent, etc.) on behalf of students.
6. Number of offenses committed on school property by students after assignment of school resource officer compared to like period prior to assignment.
7. Other major work effort and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**DE SOTO POLICE DEPARTMENT COPS PROGRAM:** This project involves supporting a full-time COPS officer position. Project objectives include: 1) strengthen the D.A.R.E. Program K-5 to K-12; 2) provide a full-time resource officer to the school district; 3) create a community crime prevention program concerning drug and alcohol abuse; 4) reduce work-load of police department through a proactive approach to law enforcement; and 5) implement community based programs and work with other agencies as needed for the benefit of the community.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement the COPS program.
2. Development and implementation of a drug and alcohol community crime prevention program.
3. Development and implementation of other community based crime prevention programs.
4. Number of public appearances made.
5. Number of classes conducted by resource officer in school by subject area. In addition, the number of classroom hours given.
6. Number of parent and / or teacher education classes conducted.
7. Number of youth identified as being at risk and referred / counseled.
8. Rates of change in school crime incidents compared to a like time period prior to assignment of full-time COPS school resource officer.
9. Total number of calls-for-service handled by COPS officer as well as total number of arrests made by most serious offense type.
10. Other major work effort and activities performed by the COPS officer.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**DPS - METHAMPHETAMINE INITIATIVE:** This project involves providing assistance to Missouri's law enforcement community to increase its capabilities for addressing the State's methamphetamine problem. Investigation and safety equipment will be provided to multi-jurisdictional task forces as well as individual law enforcement agencies to aid in detection and prosecution of methamphetamine use as well as for methamphetamine manufacturing and sales operations. Scientific diagnostic equipment will be provided to Missouri crime laboratories to increase their capabilities for detecting this type of illicit drug as well as its precursors. Finally, a series of training programs will be instituted covering subjects such as: 1) methods and procedures for conducting successful clandestine laboratory investigations; 2) clandestine laboratory investigation officer safety; and 3) community mobilization to fight the methamphetamine problem.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement the program.
2. Timely acquisition of equipment and supplies.
3. Timely acquisition of resources to conduct training.
4. Implementation of selection criteria used for distribution of equipment and training programs provided.
5. Type and amount of equipment permanently distributed to multi-jurisdictional task forces, law enforcement agencies, and crime laboratories by agency name.
6. Number of training programs sponsored by subject covered, number of law enforcement agencies participating, and number of personnel attending.
7. Findings from surveys given to personnel attending training programs. These surveys will assess the relevance of the subject matter covered as well as how it was presented.
8. Other major work effort and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**DPS - CAPITOL POLICE INTERN PROGRAM:** This project involves hiring and equipping university students as interns on a part-time basis (a maximum of 1,000 hours each 12 month period) to perform non-law enforcement duties. These interns will work various shifts and perform such tasks as: filing, data entry, locking / unlocking State buildings, raising / lowering State and Federal flags, security post assignments, assisting with training presentations, etc. Program objectives are to increase minorities and women within the Capitol Police workforce and, as positions become available, fill permanent law enforcement positions with successful part-time interns.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement the program.
2. Timely acquisition of equipment and supplies.
3. Number of interns participating in the program by sex and minority status.
4. Number of intern man-hours expended to support Capitol Police operations.
5. Number of interns subsequently hired to fill permanent positions within the Capitol Police Department.
6. Other major work efforts and activities performed under auspices of the project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**DPS "COPS" TRAINING AND ASSISTANCE PROGRAM:** This project provides a proactive approach with law enforcement agencies to supply informational materials that will be passed on to communities in the form of seminars, Neighborhood Watch Programs, and general information purposes. Training also will be provided to both law enforcement and citizen / community groups. Services provided will be in four basic areas: 1) Community Mobilization; 2) Partnerships; 3) Education; and 4) Equipment (COPEA).

In keeping with a partnership approach, the program will assist in enhancement of the Department of Defense Excess Military Property Program (DOD) by providing some funding to assist in pick-up, delivery, and record keeping of DOD equipment. DOD is essential in assisting agencies obtain materials they would normally not be able to afford. Items such as leather gear, binoculars, gas masks, and vehicles assist law enforcement agencies in their policing efforts.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement the project.
2. Timely acquisition of computers, surveillance equipment, bicycles, general community equipment, training aids, and supplies.
3. Amount and type of equipment permanently distributed to law enforcement agencies by agency name.
4. Amount and type of equipment loaned to law enforcement agencies by agency name.
5. Number of training programs, seminars, and conferences sponsored by subject covered, number of law enforcement agencies participating, and number of personnel attending.
6. Type, amount, and nature of technical assistance provided to organizations or individuals.
7. Number and types of crime prevention resource materials produced and distributed.
8. Number of partnerships developed and maintained.
9. Other major work effort and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report will cover the total grant period and address all evaluation criteria items described above.

**MOUNTAIN VIEW COPS PROGRAM:** This project involves supporting a full-time COPS officer position. The program goal is to provide a partnership between the police and the community so they can work together to define crime-related problems, determine their root cause, and implement solutions to reduce and eliminate them. Program objectives for the COPS officer are to: 1) organize and supervise Neighborhood Watch program; 2) support new Family Youth Center; 3) implement children's fingerprint program; 4) organize educational programs for citizens in the community; 5) implement citizen business and home security program; and 6) coordinate services for battered women shelter. The COPS officer also will concentrate on working as a liaison between the Mountain View Police Department and schools. Finally, the COPS officer will participate as a member of the region's multi-jurisdictional task force.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement the COPS program.
2. Total number of COPS-related presentations given to different groups and businesses.
3. Total number of community crime prevention, gang task force, victim advocacy, and youth programs supported by the COPS officer or where assistance was provided.
4. Total man-hours spent supporting Family Youth Center and coordinating services of battered women's shelter.
5. Number of classroom hours of instruction given by COPS officer in schools.
6. Number of officer / youth consultations. Consultations would be in-depth one-on-one discussions with students at their request or at the request of a third party concerning drug problems, criminal behavior problems, or other individual concerns. General get-acquainted sessions are not considered consultations.
7. Number of fingerprints made as a result of children's fingerprint program.
8. Other major work effort and activities performed by the COPS officer.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**MSHP TROOP G CRIMINALIST:** This project involves continuing support for a drug chemist for the Troop G satellite laboratory in an attempt to more effectively and efficiently move cases through the judicial system process as required by Supreme Court Administrative Rule Number 17 (case processing time standards). The new chemist will be stationed at Troop G satellite laboratory in Willow Springs, Missouri and will be responsible for providing analysis to submitting agencies in the disciplines of drug chemistry, blood alcohol, and liquor violations. These services are provided to all levels of law enforcement in the South Central and Southeastern areas of Missouri.

The following objectives have been set for this project: 1) to enable the Troop G satellite laboratory to reduce backlog of drug cases submitted from the area; and 2) reduce average drug case processing time.

**EVALUATION DESIGN:** This project is supported through the Crime Laboratory quarterly status report automated information system.

**MSHP GHQ TOXICOLOGY ENHANCEMENT:** This project involves hiring an additional toxicology criminalist in an attempt to more effectively and efficiently move cases through the judicial system process as required by Supreme Court Administrative Rule Number 17 (case processing time standards). The individual filling this position will receive basic drug chemistry training at the main crime laboratory in Jefferson City, Missouri. Within a month, the criminalist should be performing basic lab duties and relieving more experienced personnel to work on drug toxicology caseload. Within a year, the criminalist should be fully trained and productive. With this additional criminalist, staffing level of the toxicology section should be adequate to handle the increased caseload for the immediate future.

The following objectives have been set for this project: 1) enable the toxicology laboratory to reduce the backlog of drug toxicology cases by at least 50% by June 30, 2000; and 2) reduce the average drug case processing time by 50% by June 30, 2000.

**EVALUATION DESIGN:** This project is supported through the Crime Laboratory quarterly status report automated information system.

**NEW HAVEN POLICE DEPARTMENT COPS PROGRAM:** This project involves implementing a program to redeploy the equivalent of one officer to conduct community patrol and establish relationships with youth of the community by increasing department operational efficiency through equipment modernization. Objectives of the program are to: 1) acquire and install computer and associated software for expediting department reporting functions; 2) enhance investigation functions with photographic equipment; and 3) provide drug related handouts to community youth and provide consulting about the dangers of drug use. The overall goal of the project is to encourage citizen intercommunication through community policing, thereby improving department responsiveness and community problem solving abilities. New relationships with community youth will be forged by the additional COPS officer who will help them understand dangers of illegal drugs. Because more hours of community policing activities will be realized through the program, police will provide better public safety to the community.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement the COPS program.
2. Timely acquisition of computer equipment and software, digital camera, handouts for children, and supplies.
3. Amount and type of equipment permanently distributed to department.
4. Number of investigations, arrests, and incidents enhanced by photographic equipment.
5. Total number of calls-for-service handled by COPS officer as well as total number of arrests made by most serious offense.
6. Total number of new COPS related programs developed.
7. Total number of handouts given to children and number of officer / youth consultations with type of topics covered.
8. Other major work effort and activities performed by the COPS officer.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**PERRYVILLE COPS PROGRAM:** This project involves supporting a full-time COPS officer position. The project objective is to promote the COPS concept in the community and integrate it with the department. The COPS program will be expanded to include a citizen's police academy with a goal to reach members of the community who can educate others on the role of police and its basic functions. The COPS officer will conduct a variety of programs with emphasis on expanding presentations to businesses on how to handle shoplifters, robberies, bomb threats, and security. At least 1,000 contacts will be made through presentations and public education classes. The neighborhood watch program will be restarted and maintained in at least two neighborhoods. A movie night for community youth will be developed along with a juvenile mentoring program where at-risk-youths will work with businesses they have an interest in.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement the COPS program.
2. Total number of calls-for-service handled by COPS officer.
3. Total number of arrests made by COPS officer by most serious offense type.
4. Total number of COPS-related presentations given to different groups and businesses (over 1,000 contacts is the goal).
5. Total number of community youth programs developed by the COPS officer or where assistance was provided (as a goal new programs to be developed are a police academy program, movie night out program, and juvenile mentoring program).
6. Revitalization and maintenance of neighborhood watch program to include two neighborhoods where interest has dissipated.
7. Rates of change in crime incidents where the COPS officer is assigned to field duties compared to a like time period prior to assignment.
8. Other major work effort and activities performed by the COPS officer.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

**PROGRESS EVALUATION DESIGNS  
FOR  
CAREER CRIMINAL PROSECUTION**

Many prosecutors in Missouri cannot keep up with the case-load as a result of drug enforcement efforts, thus creating a backlog in the legal system. Prosecution programs provide additional manpower and resources to effectively prosecute those arrested for illegal narcotics.

Efficiency evaluation designed for:

Cass County Drug Prosecution Unit

**CASS COUNTY DRUG PROSECUTION UNIT:** This project involves providing additional prosecutorial resources to aggressively prosecute and incarcerate narcotic offenders in an attempt to stem the tide of drug use and reduce the level of general crime surrounding the drug culture in Cass County. The Drug Prosecution Unit is responsible for prosecution of all drug-related crimes in the county, coordination with local law enforcement, and public education.

The following objectives have been established for this project. Where possible, a prosecutor supported by grant funds will: 1) prosecute or supervise prosecution on all narcotic-related crimes in Cass County; 2) provide assistance and advice to local law enforcement agencies during narcotic-related investigations; 3) file all drug-related crimes; 4) work with the Circuit Clerk and Circuit Judge to insure the most serious drug-related crimes as well as cases involving repeat offenders are disposed of as expeditiously as possible; 5) oversee the grand jury (if called) in all drug cases and ongoing narcotic investigations; 6) implement the general policy of reduced plea bargaining and seek tougher penalties in drug-related cases; 7) act as a liaison with both state and federal law enforcement agencies; 8) work with probation and parole to ensure defendants receive drug treatment, are checked for controlled substances in their system, and, if incarcerated, attend hearings to oppose early release when appropriate; and 9) coordinate all drug education programs for the office.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Number of narcotic cases prosecuted by the Cass County Prosecutor's Office. At the end of the contract period, the rate of change in narcotic cases prosecuted compared to a like period prior to the grant project.
2. Narcotics Prosecutor (NP) prosecution work accomplishments:
  - a. Number of narcotic cases directly prosecuted by the NP (80 narcotic-related cases per quarter is projected as a goal).
  - b. Number of nonnarcotic cases prosecuted by the NP.
  - c. Number of narcotic cases not directly prosecuted but overseen by the NP.
  - d. Conviction rate of disposed narcotic cases prosecuted and overseen by the NP.
3. Number of narcotic and nonnarcotic cases presented to the grand jury.
4. Number of educational programs, presentations, law enforcement training seminars, and other training seminars conducted by NP (8 narcotics-related community presentations projected as a goal).
5. Number of narcotic investigations provided NP assistance.
6. Overall project management, training, and support services employed to implement the project.
7. Other major work effort and activities performed under auspices of the project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report will cover the total grant period and address all evaluation criteria items described above.

**PROGRESS EVALUATION DESIGNS  
FOR  
COURT DELAY REDUCTION**

Increases in enforcement and prosecution programs have resulted in increased filing of drug-related charges throughout the State. Court delay reduction programs are designed to improve case flow management in the court system. This aids in balancing all components of the Missouri justice system.

Efficiency evaluation designed for:

Christian County Court Program

**CHRISTIAN COUNTY COURT PROGRAM:** This project involves providing additional prosecutorial resources to: 1) aggressively prosecute all misdemeanor and felony drug cases presented to the Christian County Prosecutor's Office; 2) provide training and legal advice for local law enforcement officers on changes or updates in the law and its effects on prosecution of drug cases; and 3) implement a drug court program in Christian County. In support of this grant project, a management information system will be implemented to track data specific to drug offenders. Such information will include a profile of the defendant, age of first use, drug of choice, employment, education, drug testing dates, and outcomes.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Number of narcotic cases prosecuted by the Christian County Prosecutor's Office. At the end of the contract period, the rate of change in narcotic cases prosecuted compared to a like period prior to the grant project.
2. Narcotics Prosecutor (NP) prosecution work accomplishments:
  - a. Number of narcotic cases directly prosecuted by the NP.
  - b. Number of nonnarcotic cases prosecuted by the NP.
  - c. Number of narcotic cases not directly prosecuted but overseen by the NP.
  - d. Conviction rate of disposed narcotic cases prosecuted and overseen by the NP.
3. Number of educational programs, presentations, law enforcement training seminars, and other training seminars conducted by NP and other members of the Christian County Prosecutor's Office.
4. Number of narcotic investigations provided NP legal assistance.
5. Implementation of the Christian County Community Abrupt Drug Evaluation and Treatment (C.A.D.E.T.) Program including: number of clients entering the program; number of clients currently in the program; and pass / fail ratio of clients leaving the program.
6. Development and implementation of drug offender management information system.
7. Overall project management, training, and support services employed to implement the project.
8. Other major work effort and activities performed under auspices of the project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report will cover the total grant period and address all evaluation criteria items described above.

**PROGRESS EVALUATION DESIGNS**  
**FOR**  
**INTENSIVE SUPERVISION, PROBATION, AND PAROLE**

These include programs designed to provide additional public correctional resources and improve the corrections system, including juvenile and adult treatment in prisons, treatment for offenders on probation or parole, and long-range corrections and sentencing strategies.

Efficiency evaluation designed for:

Free and Clean Program, Kansas City  
Division of Youth Services Job Program  
Family Responsibility Program, Butler County  
Eastern Reception, Diagnostic and Correction Center

**FREE AND CLEAN PROGRAM, KANSAS CITY:** This project involves establishing an intensive substance abuse treatment program in the Kansas City region for clients who have completed institutional treatment programs and have been released in the community under supervision. The Kansas City "Free and Clean" substance abuse treatment program will be based on a case management approach, addressing key life areas to facilitate the offender's recovery from alcohol and drug abuse and criminal life style. The program will offer intensive outpatient services including individual and group counseling. This phased program also will include family, therapy, and life skills training, as well as employment and vocational readiness. It is expected a successful client will complete the entire program in about two years. This phased program will service approximately 306.67 clients per year.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement the project.
2. Number of clients on admission waiting list. Number of new admissions. Number of clients participating in Intensive Phase, Basic Outpatient Phase, and Aftercare Phase.
3. Number of clients successfully completing Intensive Phase, Basic Outpatient Phase, and Aftercare Phase. (NOTE: those successfully completing Aftercare Phase would have successfully completed the total program).
4. Number of clients not successfully completing the program and their disposition.
5. Types of group counseling sessions, parenting, educational, and other training classes attended by program participants and number in attendance.
6. Amount and type of staff providing individual counseling and case management functions as well as man-hours expended.
7. Implementation of an evaluation study designed to assess attainment of program goals including: recidivism rate, rate of non-arrest, sobriety rate, employment rate, nontechnical supervision violation rate.
8. Other major work effort and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

**DIVISION OF YOUTH SERVICES JOB PROGRAM:** This project involves providing thirty-two job slots in the Division of Youth Services (DYS) Job Program. In this program, youth under supervision of DYS are provided services in the areas of job readiness, development of good work habits, and building positive self esteem. To be successful in this program, youth must do at least one of the following: 1) completion of the program (4 months or longer); 2) successful discharge from DYS while in the program; or 3) involvement in the program leading to employment on their own. Requested funds will pay salaries of DYS youth involved in the job program (85%) along with an administrative fee for the Division of Job Development and Training (2%) as well as Private Industry Councils (13%).

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Number of DYS youth filling the thirty-two slots supported by this project.
2. Number of DYS youth filling the thirty-two slots who successfully complete the program.
3. Number of DYS youth filling the thirty-two slots who were terminated from the program and did not successfully complete it.
4. Number of DYS youth filling the thirty-two slots still active in the program.
5. Overall project management, training, and support services employed to implement the project.
6. Other major work effort and activities performed under auspices of the project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**FAMILY RESPONSIBILITY PROGRAM, BUTLER COUNTY:** This project involves establishing a required family counseling program for juveniles involved with the justice system and their families. The overall goal of the program is to decrease incidents of juvenile delinquency, drug abuse and other antisocial behavior such as violence, physical and mental health problems, and sexual experimentation which promotes unwanted pregnancy and sexually transmitted disease. Efforts will be made to help family units develop coping strategies and behaviors which will remove juveniles from the justice system and restore their place in the community. Program objectives are: 1) coordinate families of juvenile offenders meeting with police officers, judges, public school officials, counselors, and medical personnel; 2) provide counseling for parents who contribute to delinquency problems; 3) provide noncontributing parents strategies for taking control of delinquency problems; and 4) foster cooperation among juvenile justice officers, law enforcement agencies, school districts, social agencies, mental health counselors, churches, and Institute for Community Health Education.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

- 1) Overall project management, training, and support services employed to implement the project.
- 2) Number of juveniles and families of juveniles receiving counseling and number of clients successfully completing sessions.
- 3) Types of group counseling sessions, meetings, and parenting / educational training classes attended by program participants and number in attendance. Types of community agencies and organizations participating in counseling sessions, meetings, and training classes.
- 4) Amount and type of staff providing individual and family counseling as well as man-hours expended.
- 5) Implementation of an evaluation study designed to assess attainment of program goals decreasing incidents of juvenile delinquency, recidivism rate, drug abuse, violent behavior, physical and mental health problems, and sexual experimentation.
- 6) Other major work effort and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**EASTERN RECEPTION, DIAGNOSTIC AND CORRECTION CENTER:** This project provides needed resources to fund professional fees for the design, administration, testing services and commissioning, and construction of the Eastern Reception, Diagnostic and Correctional Center in Bonne Terre, Missouri. This new Department of Corrections facility will provide bed space for 1,768 maximum security inmates, 820 reception and diagnostic inmates, and 96 minimum security work cadre inmates.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management and support services employed to implement project.
2. The successful completion of design package.
3. A construction award based on completed design package.
4. Project adherence to established timeline.
5. Other major work effort and activities performed under auspices of the project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report should cover the total grant period and address all evaluation criteria items described above.

**PROGRESS EVALUATION DESIGNS  
FOR  
CRIMINAL RECORDS IMPROVEMENT**

Local criminal justice agencies must be automated if their reporting to the State Central Repository is to be timely, accurate, and complete. When local agencies are automated and linked to the State Repository, they are able to search federal criminal files, state and federal wanted files, and other databases. Criminal justice databases are important tools when fighting crime and protecting citizens. A grant task force has been assigned to provide guidance and advice in administration of the Criminal Records Improvement Project. It is comprised of representatives from Department of Public Safety, Office of State Courts Administrator, Missouri Department of Corrections, Office of Prosecution Services, Sheriff's Association, Police Chief's Association, and Missouri State Highway Patrol Criminal Records and Identification Division.

Efficiency evaluation designed for:

Office Of State Courts Administrator Regional Justice Center Prototype Development  
Improvement of Missouri's Criminal History Records System  
Administrative Data Analysis And Problem Identification Program  
Fayette Police Department In-County MULES Program  
Malden Police Department Criminal Records Improvement Plan  
Ozark County Criminal Records Improvement Program  
Randolph County Sheriff's Office Criminal Records Improvement Program  
Perryville Police Department Criminal Records Improvement Program

## **OFFICE OF STATE COURTS ADMINISTRATOR REGIONAL JUSTICE CENTER**

**PROTOTYPE DEVELOPMENT:** This project involves providing the necessary infrastructure to allow 17 counties (Grundy, Harrison, Nodaway, Cooper, Madison, Ste. Genevieve, Linn, Miller, Moniteau, Morgan, Polk, Benton, Perry, Webster, McDonald, Wayne and Pike) participation in the court automation project. These counties will receive the Banner Case Management System to directly report criminal history dispositions to the Missouri Criminal Records Repository. Use of manual reporting forms will be eliminated with implementation of this system.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management and support services employed to implement the project.
2. Timely acquisition, distribution, and implementation of the Banner Case Management System to seventeen Missouri counties selected for the program.
3. Amount and type of equipment permanently distributed to counties participating in the program by agency name.
4. Number of case dispositions reported directly to Missouri Criminal Records Repository compared to dispositions reported on manual forms for like time period prior to program implementation.
5. Type, amount, and nature of technical assistance and training classes provided counties implementing Banner Case Management System under program.
6. Other major work effort and activities performed under auspices of this project.

Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

**IMPROVEMENT OF MISSOURI'S CRIMINAL HISTORY RECORDS SYSTEM:** This project is designed to enhance the capabilities of Missouri's Criminal History Records System (CHRS) and coordinate efficient reporting to CHRS by responsible criminal justice agencies. Project objectives will be to: 1) provide prosecuting attorney offices with a new case management system entitled "Prosecutor / Dialog System"; 2) maintain existing Highway Patrol and Courts Administrator personnel to install equipment, train new system users, maintain existing automated sites, and provide overall support of the criminal history case management system; 3) implement database conversion to migrate criminal history records being maintained by CHRS central repository to an upgraded criminal history information system; 4) install court case management package at the Court of Appeals-Eastern District and Jackson County-Civil Division. Initiate work on installing the case management system in twelve local courts participating in the next phase of the case management rollout; and 5) implement and monitor grant functions and funding disbursements to appropriate agencies for improvement of criminal history records reporting.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Implementation, application program changes, data conversion, and technical support of Prosecutor / Dialog case management system.
2. Work activities of grants coordinator in implementation and monitoring grant functions.
3. Work activities of ISD computer specialists to assist in design and development of Prosecutor / Dialog case management system as well as development of appropriate interfaces with CHRS, MULES, and other criminal justice information / communications systems. In addition, all other work activities associated with maintaining and / or enhancing any other component of Missouri's CHRS.
4. Work activities of the Office of State Courts Administrator, Division of Data Processing staff to: maintain MOCIS / ACMS software and equipment; provide help desk support and training to existing MOCIS / ACMS users and new EC2004 users; conduct site visits to repair equipment; and install EC2004 infrastructure and case management software. In addition, all other work activities supporting court criminal justice information system development and / or maintenance.
5. Overall project management, training, and support services employed to implement the project.
6. Other major work effort and activities performed under auspices of the project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

#### **ADMINISTRATIVE DATA ANALYSIS AND PROBLEM IDENTIFICATION PROGRAM:**

This project involves establishing a series of policies, procedures, systems, and reporting recommendations allowing the State of Missouri to more effectively manage the Byrne Formula Grant Program by analyzing drug and violent crime environment in the State; assessing effectiveness of existing programs; and offering data and interpretive analysis support for development of new programs. The Missouri State Highway Patrol, coordinating their activities with Department of Public Safety's State Administrative Agency program staff, will complete the following project goals: 1) provide base-line information to properly assess Missouri's illicit drug and violent crime problems; 2) provide information related to deficiencies in policies and programs designed to address these problem areas; 3) support successful administration of Missouri's Edward Byrne Memorial Formula Grant Program by providing needed research, evaluation, and data processing services; 4) build a business system repository for Missouri's illicit drug, violent crime, and criminal justice data having easy access paths which allow interlinking of related data from various sources and retrieval of data, in a meaningful way, for policy and management decision making; and 5) enhance capabilities of Missouri's criminal justice information systems deemed mission critical in supporting statewide illicit drug and violent crime problem analysis as well as for grant administration.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management, training, and support services employed to implement the project.
2. Assistance provided in successful development and / or modification of Missouri's drug and violent crime strategy required under the Byrne Formula Grant Program including, but not limited to, conducting a statewide illicit drug and violent crime problem analysis.
3. Number of research services provided to DPS, Missouri criminal justice authorities, and other public officials.
4. Number of surveys and interviews conducted in support of the analysis of drugs and violent crime.
5. Assistance provided in development and implementation of evaluation criteria and information systems for programs supported under the Byrne Program. Publication of a report describing all approved research designs.
6. Assistance provided in development of the State Annual Report resulting in its successful submission.
7. Development and implementation of new impact evaluations for other grant projects.
8. Design and implementation of business systems repository for Missouri illicit drug, violent crime, and criminal justice data. Design and maintenance of support software for UCR summary-based central repository.
9. Number of violent crime and drug related databases acquired for the business system repository.

10. Development of new information systems designed to provide needed data for the violent crime and drug related business system repository.
11. Technical assistance provided in development of the UCR summary-based and NIBRS information systems and legislation establishing UCR mandatory reporting program.
12. Employment of UCR program manager and Crime Information Analyst. Selection of consultant to design UCR summary-based reporting system.
13. Technical assistance provided in maintenance and upgrade of Missouri's Criminal History Records System (CHRS) to support UCR summary-based reporting.
14. Acquisition of computer hardware and LEI software supporting UCR summary-based central repository.
15. Review of NIBRS reporting standards and initiation of development of uniform incident-based crime and arrest reporting form to support NIBRS standards.
16. Creation of a CHRS Operations and Procedures Manual.
17. Number of CHRS training programs developed on CHRS fingerprint and case disposition processing.
18. Quality control procedures and programs developed and employed to monitor CHRS fingerprint and case disposition reporting compliance.
19. Implementation of CHRS newsletter.
20. Assessment of CHRS central repository manpower requirements.
21. CHRS audit report review and follow-up action taken.
22. Number of seminars and conferences attended in support of the Byrne Program.
23. Other major work effort and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

**FAYETTE POLICE DEPARTMENT IN-COUNTY MULES PROGRAM:** This project is designed to provide the infrastructure for a criminal history reporting system in Howard County interfaced with the State system. Objectives of the project are to: 1) acquire and install a MULES / NCIC terminal and associated software; and 2) ensure dispatch and communication personnel receive system training within a year of equipment installation. The overall goal of the project is to provide Howard County law enforcement agencies with a centralized criminal history reporting system that expedites communication and dispatching functions thereby increasing officer safety. The Howard County Central Dispatch system, once in place, will provide MULES, NCIC, and NLETS access to the Howard County Sheriff's Department, Fayette Police Department, Glasgow Police Department, and New Franklin Police Department. The Fayette Police Department will operate the Howard County Central Dispatch system.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management and support services employed to implement project.
2. Timely acquisition, distribution, and implementation of MULES / NCIC terminal and system software.
3. Amount and type of equipment / software permanently installed and office supplies / training manuals provided to agencies participating in program.
4. Number of arrest warrants, stolen property entries, stolen automobile entries, and missing person records accessed by participating law enforcement agency.
5. Number of arrests made as a result of information or intelligence gained from Howard County Central Dispatch system by most serious offense type.
6. Type, amount and nature of technical assistance and training classes attended by participating law enforcement agencies.
7. Other major work effort and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

**MALDEN POLICE DEPARTMENT CRIMINAL RECORDS IMPROVEMENT PLAN:** This project is designed to provide the department infrastructure for an improved criminal records system through purchase of state-of-the-art computer equipment and software. Objectives of the project are to: 1) conduct a background study to determine most efficient equipment and software currently available; 2) purchase state-of-the-art computer equipment and software; and 3) train communications officers to efficiently access and disseminate criminal history data to field officers and investigators. The improved criminal records system will allow communications officers to automatically load entries into MULES and expedite processing of information to field officers. Local criminal history files will incorporate histories from MULES and NCIC when applicable. The improved criminal records system will track information and analyze data by type of call and location of incident, thereby aiding officer assignment planning.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management and support services employed to implement project.
2. Timely acquisition, distribution, and implementation of MULES / NCIC terminal and system software.
3. Amount and type of equipment / software permanently installed.
4. Number of arrest warrants, stolen property entries, stolen automobile entries, and missing person records accessed by participating law enforcement agency.
5. Number of arrests made as a result of information or intelligence gained from systems by most serious offense type.
6. Type, amount, and nature of technical assistance and training classes provided to law enforcement agencies participating in program.
7. Other major work effort and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

**OZARK COUNTY CRIMINAL RECORDS IMPROVEMENT PLAN:** This project is designed to provide the infrastructure for a criminal history system in Ozark County interfaced with the State system. Objectives of the project are to: 1) acquire and install a MULES / NCIC terminal and associated software; 2) conduct system training for dispatch and communication personnel, jail staff, and other officials; 3) automate agency processing of arrest warrants, stolen property, stolen automobiles, and missing persons; 4) develop ongoing system training programs; 5) develop system security audit procedures; and 6) integrate jail booking procedures with criminal history system. The overall goal of the project is to provide Ozark County law enforcement and other public safety agencies with a criminal history reporting system that expedites communication and dispatching functions. Once the system is in place, automated criminal history access will be provided by the Ozark County Sheriff's Office to Gainesville Police Department, Theodosia Town Marshal, Missouri Department of Conservation, Cities of Barksfield and Sundown, Ozark County Prosecuting Attorney, Ozark County Circuit Court Divisions I and II, Missouri Water Patrol, Missouri State Highway Patrol, and South Central Missouri Drug Task Force. Installation, maintenance, and system operation will be the responsibility of the Ozark County Sheriff's Department.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management and support services employed to implement project.
2. Timely acquisition, distribution, and implementation of MULES / NCIC terminal and system software.
3. Amount and type of equipment / software permanently installed and office supplies / training manuals provided to agencies participating in program.
4. Number of arrest warrants, stolen property entries, stolen automobile entries, and missing person records accessed by participating law enforcement agency.
5. Number of arrests made as a result of information or intelligence gained from the system by most serious offense type.
6. Type, amount, and nature of technical assistance and training classes provided to participating law enforcement agencies.
7. Number and type of criminal history system training programs and security audit procedures developed. Number of jail booking procedures integrated with criminal history system.
8. Other major work effort and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

## **RANDOLPH COUNTY SHERIFF'S OFFICE CRIMINAL RECORDS IMPROVEMENT**

**PLAN:** This project is designed to provide infrastructure support for implementation of the Police Information and Planning System (PIPS) and Pawn Inventory for Law Enforcement Tracking (PILET) program through purchase of computers and software. The program's overall goal is to disrupt and track stolen property and narcotic's offenders through more efficient law enforcement techniques utilizing these systems. Law enforcement agencies in Randolph County will have the ability to enter stolen property in a database and make queries of pawned property, log intelligence items for local checks, and provide digital imaging of photographic lineups for witness identification.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management and support services employed to implement project.
2. Timely acquisition, distribution, and implementation of the Police Information and Planning System (PIPS) and Pawn Inventory for Law Enforcement Tracking (PILET) program to law enforcement agencies in Randolph County.
3. Amount and type of equipment / software permanently distributed to law enforcement agencies receiving infrastructure provided by agency name.
4. Number of stolen property entries, pawn queries, log items, tracked drug offenders and intelligence checks through PIPS / PILET systems by law enforcement agency. Number of lineup photo images archived in system by law enforcement agency.
5. Number of arrests made as a result of information or intelligence gained from systems by most serious offense type.
6. Type, amount and nature of technical assistance and training classes provided to law enforcement agencies' participating in program.
7. Other major work effort and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

### **PERRYVILLE POLICE DEPARTMENT CRIMINAL RECORDS IMPROVEMENT PLAN:**

This project is designed to improve department service to the community by upgrading department dispatch functions through purchase of Missouri Uniform Law Enforcement System (MULES) terminals and computer system. With this computer system and its split screen enhancements, dispatchers can provide information to officers as requested without clearing existing screen entries. Dispatchers will be able to concurrently access information for officers on traffic stops and enter warrants or stolen property. This saves dispatcher time, allowing more interaction with the public entering the facility requesting information or assistance.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management and support services employed to implement project.
2. Timely acquisition, distribution, and implementation of MULES terminals and computer system.
3. Amount and type of equipment permanently distributed to department.
4. Number of stolen property checks and warrants entered into system compared to like period prior to implementation of new MULES terminals and computer system. Turnaround time for providing information to officers on traffic stops compared to like period prior to program implementation.
5. Number of arrests made by most serious offense type compared to like period prior to program implementation.
6. Number of walk-in assistance and information requests handled by dispatchers.
7. Type, amount, and nature of technical assistance and training classes provided to law enforcement agencies participating in program.
8. Other major work effort and activities performed under the auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

# **MULTI-JURISDICTIONAL TASK FORCE PROJECTS AND QUARTERLY PROGRESS REPORT AUTOMATED INFORMATION SYSTEM**

The Multi-jurisdictional Task Force Program continues to be a critical component to drug enforcement efforts throughout the State. This concept takes a multi-agency approach where resources and manpower can be combined to cover a larger geographic area. Agents working for the task force are commissioned to work within any jurisdiction participating in the program. Cooperation and communication within these units are the key to being successful in their enforcement efforts. Cooperative agreements are developed for all agencies involved in the task force as well as entering into agreements with federal agencies.

## Efficiency evaluation designed for:

Drug Abatement Response Team (DART)

## Quarterly Progress Report Automated Information System designed for:

Atchison County Sheriff Drug Task Force  
Barton County Drug Task Force  
Bridgeton / North County MEG  
Bootheel Drug Task Force  
NW Missouri Drug Strike Force / Buchanan County  
Lake Area Narcotics Enforcement Group / Camden County  
COMET  
Jackson County Drug Task Force  
Jasper County Drug Task Force  
Jefferson County Task Force  
Kansas City Police Department Drug Interdiction Unit  
Lafayette County Narcotics Unit  
Mid-Missouri Unified Strike Team and Narcotics Unit  
Mineral Area Drug Task Force  
North Central Missouri Drug Task Force  
North Metro Kansas City Drug and Gang Task Force  
North Missouri Drug Task Force  
Northeast Missouri Narcotics Task Force  
Platte County Drug Task Force  
SEMO Drug Task Force  
South Central Drug Task Force  
Southwest Missouri Drug Task Force  
St. Charles County Regional Drug Task Force  
St. Louis County Police Department Drug Task Force  
St. Louis County Police Department - RAGE  
St. Louis Metropolitan Police Department Drug Task Force  
West Central Missouri Drug Task Force

**DRUG ABATEMENT RESPONSE TEAM (DART):** This project involves supporting the DART team whose mission is to close down drug houses in Kansas City and Jackson County as well as attack meth labs that severely impact the entire community. Once drug houses are closed, the main objective of DART is to convert them to lawful and peaceful purposes. The goals and objectives of DART are to: 1) expand the DART target area to include filings in all geographical areas of Jackson County; 2) continue DART's closing down of drug houses, including meth labs; 3) identify businesses selling products used to manufacture methamphetamine; 4) identify business owners who sell and / or distribute items which fall into the drug paraphernalia category; 5) educate an additional 100 business owners as to the process used to manufacture methamphetamine and to prosecute those who knowingly aid such activity; 6) establish contacts with newly created divisions or governmental agencies to assist in cleanup and disposal of hazardous materials; 7) educate landlords who represent at least 3,000 additional rental units concerning the process of methamphetamine manufacturing and make them more responsible by helping them establish properties that meet stringent antidrug environment settings; 8) work closely with assistant prosecutors assigned to the Jackson County Drug Task Force to make them aware of defendants who have civil forfeitures filed against them and what properties are seized; 9) work more closely with community groups; 10) expand community involvement in cleanup / rehabilitation of closed drug houses; 11) expand number of buy / bust operations to over 250 per year; 12) increase the number of reverse sting operations to 5 -7 per year; 13) refine involvement in community policing by notifying neighborhood groups and businesses regarding education of drugs and drug activity; 14) increase DART activities in Eastern Jackson County by 15%; 15) train all DART attorneys and investigators in procedures to enter houses where 'meth labs' are being operated; 16) create a clean-up resource list for meth labs after they have been closed down; and 17) increase the number of forfeitures, boardings, notice letters, and nuisance filings to over 1,000.

**EVALUATION DESIGN:** The grantee will be evaluated on the following criteria:

1. Overall project management and support services employed to implement the project.
2. Number of landlords educated in the process of methamphetamine manufacturing.
3. Number of businesses educated in the process of methamphetamine manufacturing (an additional 100 is goal).
4. Number of criminal cases filed against individuals for possessing precursor chemicals, solvents, or solutions with intent to manufacture.
5. Number of temporary restraining orders or legal actions against methamphetamine labs.
6. Number of Notice Letters sent to owners.
7. Number of evictions completed.
8. Number of evictions pending.
9. Number of fire and housing inspections.

10. Number of properties posted / vacated after inspections.
11. Vacant properties ordered, boarded, and vacated by inspections.
12. Potential nuisance cases to be filed and number of nuisance cases actually filed.
13. Number of properties investigated through reports from police and community residents.
14. Number of drug houses forfeited through the courts.
15. Number of forfeiture proceedings instituted against suspected and confirmed drug houses.
16. Number of resident contacts made by community liaison.
17. Number of search warrants served and arrests made.
18. Number of buy / bust operations and arrests made (over 250 is goal).
19. Number of reverse stings and arrests made (5-7 is goal).
20. Number of meth labs closed down.
21. Number of completed forfeiture and nuisance actions in circuit court.
22. Other major work efforts and activities performed under auspices of this project.

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and in progress, as well as any impediments preventing the project from being successfully completed at the end of the contract period. The 4th quarter status report shall cover the total grant period and address all evaluation criteria items described above.

# Instructions for completing:

## Missouri Department of Public Safety Multijurisdictional Task Force Quarterly Progress Report

This instruction sheet is to aid Multijurisdictional Task Force (MJTF) grantees in completing the required quarterly progress report for the Missouri Department of Public Safety.

- |                                      |   |  |
|--------------------------------------|---|--|
| 1. <b>Date Submitted</b>             |   | Self-explanatory   |
| 2. <b>Grant Number</b>               |   |  |
| 3. <b>Grant Name</b>                 | } | As designated in MJTF contract with the Dept. of Public Safety |
| 4. <b>Officer-in-Charge (OIC)</b>    |   |  |
| 5. <b>OIC's Agency Name</b>          |   |  |
| 6. <b>Agency ORI</b>                 |   |  |
| 7. <b>Person Completing Form</b>     | } | Self-explanatory   |
| 8. <b>Phone No.</b>                  |   |  |
| 9. <b>Quarterly Reporting Period</b> |   |  |

### 10. Number of law enforcement agencies involved in multijurisdictional task force (MJTF) work activities

The total number of law enforcement agencies comprising the MJTF as well as any others participating in MJTF work activities during the reporting period. **(DO NOT duplicate statistical data that has been reported by another participating agency.)**

### 11. Number of law enforcement officers participating in MJTF work activities

A) and B): Self explanatory.

### 12. Investigations/Cases

- A) The number of MJTF investigations/cases *active* at the start of the quarter. For the second and subsequent quarters, the number of "carried in" active cases should match those reported in Question 12 E) on the previous quarter's report. **Investigations/Cases** should be counted as those incidents involving task force action resulting in **post-response reports being written**. Until this occurs, tips and information received should be considered gathered intelligence, not individual cases.
- B) The number of *new* investigations/cases initiated during the quarter.
- C) The *total* number of MJTF cases active during the quarter. This number should be the sum of item A and item B.
- D) The number of cases disposed of by the MJTF during the quarter.

- E) The *total* number of cases *remaining active* at the end of the quarter. (Subtract item D from item C.)  
NOTE: Enter this number on line 12. A) of the next Quarterly Progress Report.

### 13. Arrest Activity

- A) The number of people arrested and charged with one or more *drug* offenses.
- B) The number of people arrested and charged with other criminal offenses *not* involving drugs.

For the *total* number of people arrested through MJTF actions during the quarter, add items A and B and enter the sum on the appropriate line.

- C) All law enforcement charges associated with offenders arrested through MJTF actions during the quarter. All charges proffered against offenders are to be listed. Total *charges* must equal or exceed the total number of persons arrested. For example, a drug user is arrested for possession of crack. After arrest, he assaults an officer. The quarterly report should indicate a charge for crack *possession* listed under 1) Drug Paraphernalia/Possession and a charge for resisting arrest/assault against police listed under 3) Other Charges. Result: One arrested person is reported with two charges (illicit drug possession and assault) from this single incident.  
(NOTE: There is no longer a need to total the charges by category at the top of each column.)

- 1) The number and type of charges related to drug *paraphernalia/possession* during the reporting period.
- 2) The number and type of charges related to drug *sales and/or manufacturing* during the reporting period.
- 3) The number and type of *non-drug charges* during the reporting period.

### 14. Informant Expenses, Drug Purchases and Free Samples

- A) The number of drug buys made through MJTF activities during the reporting period.
- B) Dollar value of drugs purchased through drug buys during the reporting period.
- C) The number of free drug samples received during the reporting period.
- D) The *estimated* dollar value of drugs received through free samples during the reporting period. Use the local street value of the drugs at the time they were received to make the estimate.
- E) The quantities and type of drugs acquired through drug buys *and* free samples received during the reporting period. Enter the suspected drug type; do not wait for scientific lab examination results. Drug weights may be reported using various units of measure (kg., lb., oz, grams, etc.). For example, two kilos of cocaine are purchased from one distributor, another kilo is purchased from a second distributor in another case, five ounces are acquired through free samples, and eight grams are obtained from street buys during the quarter. In Section 14. E) 2) Cocaine, enter 3 in the "Kilograms" column, 5 in the "Ounces" column, and 8 in the "Grams" column.

- F) The total number of active informants paid during the reporting period.
- G) The total dollar amount expended acquiring information from active informants during the reporting period.

#### 15. Tracking Drug Trafficking Organizations

- A) The number of new Drug Trafficking Organizational and/or Link Analysis Charts completed during the period through MJTF work activities.
- B) The number of new drug trafficking organizations identified through MJTF operations during the reporting period.

#### 16. Search Warrants

- A) The number of search warrants *applied for* by the MJTF during the reporting period.
- B) The number of search warrants *authorized for service* by the MJTF during the reporting period.
- C) The number of search warrants *served* by the MJTF during the reporting period.  
***In the narrative (item #20), please indicate the number of warrants served in each county of your jurisdiction.***
- D) The number of search warrants served by the MJTF during the reporting period *which resulted in drug and/or paraphernalia seizures*.
- E) The number of consent searches and "knock and talk" incidents involving the MJTF during the reporting period.

#### 17. Marijuana Eradicated and Methamphetamine Drug Labs Destroyed

- A) The quantities of marijuana destroyed *through eradication operations* during the reporting period. Enter the suspected marijuana type; do not wait for scientific lab examination results. Marijuana weight may be reported using various units of measure (kg., lb., oz, grams, etc.). For example, 50 lbs. of wild "ditchweed", 32 kilos of cultivated marijuana, and 10 sinsemilla plants are destroyed through eradication during the quarter. In Section 17. A) 1) Wild, enter **50** in the "Pounds" column. On line 2) Cultivated, enter **32** in the "Kilograms" column. On line 3) Sinsemilla, enter **10** in the "Plants" column. NOTE: If a quantity of marijuana is seized for evidence and *not destroyed*, enter it in Section 18.
- B) The number of methamphetamine drug labs destroyed during the reporting period. NOTE: If there is some question as to whether or not the destroyed lab is a meth lab, please contact Mr. Marco Tapia, Missouri Department of Public Safety, at (573) 751-5997.

#### 18. Drug Seizures

- A) The estimated *dollar value* of all drugs *seized* during the quarter. Use the local street value of the drugs at the time they were seized. NOTE: Do not include marijuana destroyed through eradication

operations as reported in Section 17.

- B) The *quantities and type* of drugs *seized* during the reporting period. Enter the suspected drug type; do not wait for scientific lab examination results. Drug weights may be reported using various units of measure (kg., lb., oz, grams, etc.). For example, five kilos of cocaine are seized in three investigations/cases and 10 grams are seized in another during the quarter. In Section 18. B) 2) Cocaine, enter 5 in the "Kilograms" column and 10 in the "Grams" column.

#### 19. Property Seizures/Forfeitures

The *number* and *estimated dollar value* of property *seized or forfeited* during the quarter by type. Enter seizures and forfeitures separately. If property is seized and forfeited during the same reporting period, enter the quantity and dollar value of the property under both the "Seized during reporting period" and "Forfeited during reporting period" columns. ***The forfeitures have been broken into two sections: State and Federal. It is important that the property forfeited is recorded as State or Federal.***

#### 20. Describe all work activities or areas of interest/concern not reported in the sections above, and any topics you would like to have discussed at the next DPS/Task Force Quarterly Meeting. Also indicate the number of search warrants served in each county of your jurisdiction:

Indicate any other activity or information not reported elsewhere on this form which directly addresses any action and/or condition specified in your MJTF contract. In addition, include a description of any other activities which will assist the Department of Public Safety to properly review and evaluate the program. For example, it might be appropriate to describe (without *confidential* information or details) a lengthy intelligence operation which has not yet resulted in arrests or significant drug/asset seizures. Describe all special training programs completed by MJTF officers (SERT, polygraph, or criminal prosecution classes, for example). Please mention topics and areas of concern you would like to discuss at the next Dept. of Public Safety Task Force quarterly meeting. Also indicate the number of search warrants served in each county of your jurisdiction for the reporting period.

#### 21. Signature of Officer in Charge and 22. Date:

Sections 21 and 22 are self explanatory.

**Note:** When completing this form, please make a copy for your records and return the original to:

Narcotics Control Assistance Program  
Department of Public Safety  
PO Box 749  
Jefferson City, MO 65102

If you have any questions on how to complete this form, contact Ms. Carissa Hutson at (573) 751-9000 ext. 229.

# Instructions for completing:

## Missouri Department of Public Safety Multijurisdictional Task Forces Tally Sheets

These instructions are designed to aid you in filling out the Multijurisdictional Task Forces (MJTF) tally sheets. Data entered then can be used to complete the MJTF quarterly progress report required by Department of Public Safety. **Use of these tally sheets is strictly optional.** If you currently have manual and/or automated systems available to complete the quarterly progress report, the tally sheets should not be used. However, if you do not, use of one or more, if not all, of the tally forms is recommended.

### 1. Case Log Tally Sheet (used to complete question 12 on MJTF quarterly progress report)

At the start of the reporting period, list all active investigations/cases carried in. As new investigations/cases are initiated, add them to this tally sheet. As investigations/cases are disposed of, annotate the appropriate entries on this sheet.

**Quarter:** Enter beginning and ending month and year of quarterly reporting period.

**Case No.:** Enter MJTF-related investigation/case number.

**Date initiated:** Enter month, day, and year investigation/case was originally initiated.

**Status:** Indicate whether case was carried in from a previous quarter or initiated in this quarter.

**Disposed of in Quarter:** Indicate whether or not case was disposed of this quarter.

**Date of Disposal:** If case was disposed of during this quarter, enter month, day and year of disposal.

*Instructions on how to use this tally sheet to complete the MJTF quarterly progress report.*

*12A Sum number of investigations/cases identified as carry-ins on tally sheet.*

*12B Sum number of investigations/cases identified as initiated on tally sheet.*

*12C Sum items 12A and 12B.*

*12D Sum number of investigations/cases identified as being disposed of on tally sheet.*

*12E Subtract 12D from 12C to arrive at number of investigations/cases carried out.*

### 2. Drug Acquisition Tally Sheet (used to complete questions 14, 17A, and 18 on MJTF quarterly progress report)

As drugs are acquired during reporting period as a result of MJTF work activities, they should be added to the tally sheet. If more than one type of drug is acquired in an investigation/case, they should all be listed.

**Quarter:** Enter beginning and ending month and year of quarterly progress report.

**Date of Activity:** Enter month, day, and year of drug acquisition.

**Case No.:** Enter MJTF-related investigation/case number.

**Type of Acquisition:** Indicate under what circumstances the drug was acquired. In marijuana eradication operations, if the marijuana is immediately destroyed, circle 4 for eradicated. If some marijuana is held for evidence, make a separate line entry using the same date of activity and case number and update the type of acquisition field with a 3 (seized).

**Drug Type:** Enter suspected drug type. Do not wait for scientific examination results. If drug type is marijuana, indicate if it was wild, cultivated, or sinsemilla.

**Quantity:** Indicate quantity of the drug acquired.

**Measure:** Indicate measure used to classify the quantity, such as kilograms, pounds, plants, etc.

**Est. \$ Value:** Indicate actual or estimated dollar value of drugs acquired.

*Instructions on how to use this tally sheet to complete the MJTF quarterly progress report.*

- 14A Sum number of drug buys by examining "Type of Acquisition" field on tally sheet.
- 14B Of those identified as drug buys, sum estimated dollar values.
- 14C Sum number of free samples by examining type of acquisition field on tally sheet.
- 14D Of those identified as free samples, sum estimated dollar values.
- 14E Of those identified as drug buys or free samples, identify quantities by drug type.
- 17A Of those identified as eradicated, sum quantities by marijuana type.
- 18A Of those identified as seized, sum estimated dollar values.
- 18B Of those identified as seized, identify quantities by drug type.

**3. Informant Expenditure Tally Sheet (used to complete questions 14F and 14G on MJTF quarterly progress report)**

As informants are paid for services rendered as a result of MJTF work activities, they should be added to the tally sheet. At the end of the reporting period, sum the total number of informants being paid to answer question 14F. Please note, if an informant is paid on three separate occasions, count that informant only once. Sum total amount of money expended to answer question 14G.

**Quarter:** Enter beginning and ending month and year of quarterly reporting period.

**Date of Activity:** Enter month, day and year of transaction with informant.

**Case No.:** Enter MJTF-related investigation/case number.

**Officer No.:** Enter identification number of officer involved in transaction.

**Informant Name/Alias:** Enter name or alias of informant involved in transaction.

**Informant Number:** Enter a number assigned by the MJTF to each individual informant.

**Money provided:** Enter total amount of money provided to informant in transaction.

**NOTE:** Because the names or aliases of informants are listed on this tally sheet, it should be considered confidential material. Access to it should be limited, and it should be stored in a secure location.

*Instructions on how to use this tally sheet to complete the MJTF quarterly progress report.*

- 14F Using MJTF-assigned Informant Numbers, determine how many informants were utilized during reporting period and enter that number on question 14F.
- 14G Sum total amount of money provided to informants during reporting period.

#### 4. Property Seizures/Forfeitures Tally Sheet (used to complete question 19 on MJTF quarterly progress report)

**\* THE USE OF THIS TALLY SHEET IS MANDATORY AND IT MUST BE TURNED IN WITH THE QUARTERLY REPORT.**

As property is seized/forfeited during reporting period as a result of MJTF work activities, it should be added to the tally sheet. If more than one type of property is seized/forfeited in an investigation/case, they should be listed separately. If a piece of property is seized **and** forfeited during the same quarter, two separate entries should be made on the tally sheet based on date of activity.

**Quarter:** Enter beginning and ending month and year of quarterly reporting period.

**Date of Activity:** Enter month, day, and year that seizure/forfeiture took place.

**Case No.:** Enter MJTF-related investigation/case number.

**Type of Acquisition:** Indicate type of acquisition (seizure or forfeiture).

**Type of Forfeiture:** *Indicate type of forfeiture (STATE or FEDERAL)*

**Property Type:** Indicate type of property acquired.

**Quantity:** Indicate estimated quantity of acquisition.

**Estimated \$ Value:** Indicate estimated dollar value of acquisition.

*Instructions on how to use this tally sheet to complete the MJTF quarterly progress report.*

- 19A-19F *Examine "Type of Acquisition" field and identify property seized. Sum quantity and estimated dollar values by property type.*
- 19A-19F *Examine "Type of acquisition" field and identify property forfeited. Sum quantity and estimated dollar values by property type.*
- 19G *If property type seized or forfeited does not fit into 19A-19F property type categories, list and describe property, quantity, and estimated dollar value.*

#### 5. Work Productivity Tally Sheet (used to complete questions 13, 15, 16, and 17B on MJTF quarterly progress report)

Enter data on all arrests, drug trafficking analysis, search warrants, consent searches, and methamphetamine drug labs destroyed as a result of MJTF work activities on this tally sheet. On this tally sheet you have the choice of entering activity by numbers (i.e., eight arrests would be entered using the value "8"), or by hash marks (i.e., eight arrests would be entered "IIII III"). At the end of the reporting period, sum numbers or hash marks and enter total number in the "Quarterly Total" block.

**Quarter:** Enter beginning and ending month and year of quarterly reporting period.

**13. No. of Persons Arrested:** Track number of persons arrested through MJTF operations.

*Note: Track persons arrested by MJTF and law enforcement charges made at time of arrest -- **not** the prosecutor's or court's later charges or arrest results.*

A) **For DRUG Offenses:** Track number of persons arrested for one or more **drug** offenses.

B) **For OTHER Offenses:** Track number of persons arrested for **other** types of offenses (i.e., no drug charges).

NOTE: Sum of subcategories A) and B) under **13.** should equal number entered on **the line for "Total No. of persons arrested"** on MJTF Quarterly Progress Report.

C) **Arrest Charges:** More than one charge may be associated with a given arrestee. List all charges associated with arrestees.

1) **Drug Paraphernalia/Possession** - Track all **drug paraphernalia/possession charges** by type of drug or paraphernalia.

2) **Drug Sales/Manufacture** - Track all **drug sales/manufacturing charges** by type of drug.

3) **Other Charges** - Track all **other** (non drug-related) *charges* by charge type.

**15. Drug Trafficking Organizations:** Enter number of new organizational and link analysis charts completed and number of new drug organizations discovered during reporting period.

A) Track number of new organizational and link analysis charts completed by MJTF.

B) Track number of new drug trafficking organizations identified through MJTF activities.

**16. Search Warrants:** Enter the following search-related activity resulting from MJTF operations:

A) Track number of search warrants *applied for*.

B) Track number of search warrants *authorized* for service.

C) Track number of search warrants *actually served and in what county they were served*.

D) Track number of search warrants served resulting in *drugs and/or paraphernalia seized*.

E) Track number of *consent searches* (or "knock and talk" incidents) conducted.

**17. B) Number of Methamphetamine Drug Labs Destroyed:** Track number of meth labs discovered and destroyed through MJTF operations.

*Instructions on how to use this tally sheet to complete the MJTF quarterly progress report.*

13A Enter "Quarterly Total" number of persons arrested for drug-related offenses.

13B Enter "Quarterly Total" number of persons arrested for non drug-related offenses.  
Enter "Quarterly Total" number of persons arrested.

13C1a - 13C1i Enter "Quarterly Total" number of drug paraphernalia/possession charges by drug type.

13C2a - 13C2h Enter "Quarterly Total" number of sales/manufacturing charges by drug type.

13C3a - 13C3g Enter "Quarterly Total" number of other (nondrug-related) charges by charge type.

15A Enter "Quarterly Total" number of Drug Trafficking Organizational and Link Analysis Charts completed.

15B Enter "Quarterly Total" number of Drug Trafficking Organizations identified.

16A Enter "Quarterly Total" number of search warrants applied for.

16B Enter "Quarterly Total" number of search warrants authorized for use.

16C Enter "Quarterly Total" number of search warrants actually served.

16D Enter "Quarterly Total" number of search warrants served resulting in drugs seized.

16E Enter "Quarterly Total" number of consent searches conducted.

17B Enter "Quarterly Total" number of meth labs destroyed through MJTF operations.

**CRIME LABORATORY PROJECTS  
AND  
QUARTERLY PROGRESS REPORT  
AUTOMATED INFORMATION SYSTEM**

A key to successful prosecution of drug offenders is analysis of evidence. Crime Laboratory Upgrade Programs provide state-of-the-art equipment, supplies, and manpower to regional crime labs throughout the State to reduce backlogs and increase turnaround in the analysis of evidence. This year this information system has been expanded so all Missouri crime laboratories report their activity regardless of whether they receive NCAP funding support. Data collected from all crime laboratories will be of invaluable assistance in conducting Missouri's problem analysis supporting development of its illicit drug and violent crime strategy.

# Instructions for completing:

## Missouri Department of Public Safety Crime Laboratory Quarterly Progress Report

This instruction sheet is to aid the Crime Laboratory grantees in completing the required quarterly progress report for the Department of Public Safety.

1. **Date Submitted** Self-explanatory
  2. **Grant Number**
  3. **Grant Name**
  4. **Project Director**
  5. **Program Agency Name**
  6. **ORI**
  7. **Person Completing Form**
  8. **Phone No.**
  9. **Quarterly Reporting Period**
- } As designated in Crime Lab contract with Dept. of Public Safety
- } Self-explanatory
10. Indicate the appropriate number of completed cases for the reporting period  
a), b), and c) The total number of these three subcategories should equal to the number placed in **10**.  
For example: If you have 35 completed cases for the period, you would put "35" in **10**. Of those cases, 12 did not involve any tests for suspected illicit drugs (i.e. blood splatter analysis, ballistics test, latent print analysis, etc.), 6 were tested for suspected illicit drugs and none were found, and 17 were tested for suspected illicit drugs and some were detected. You would put "12" in **10a**, "6" in **10b**, and "17" in **10c**. The sum of these is equal to 35, and should be entered in **10**.
  11. Self-explanatory
  12. Of those completed cases in which one or more illicit drugs and/or precursors were identified through examinations, indicate the number of cases directly involving a clandestine laboratory where they were being produced. If more than one type of illicit drug was being produced, enter the case in all appropriate lab type subcategories. For instance, if a lab produced PCP and LSD, enter the case in both **12d** and **12e**. If other illicit drugs are found at the scene, but not produced by the clandestine laboratory, enter that activity in **13** under the appropriate drug type subcategory.
  13. Of those completed cases in which one or more illicit drugs were identified through examinations, and did not involve clandestine laboratory production, list the cases by specific drug type. If more than one type of illicit drug was identified, enter the case in all appropriate drug type subcategories. For instance, if in a possession case, marijuana and methamphetamine were detected, enter the case in both **13a** and **13d**.

14. Refer to the total number of completed cases involving the examination for one or more illicit drugs (sum of cases listed in 10b and 10c). Compute and enter the average amount of time it took to process these cases based on the date the case was received to the date it was considered completed.
15. Indicate any new illicit drugs identified through examinations. List the name of the new drug, the number of cases where it was detected, and a description of the new drug. The description should include the classification the drug falls into, such as hallucinogen, inhalant, etc.
16. Indicate any resurgence of older type drugs identified through examinations. List the name of the older drug, the number of cases where it was detected, and a description of the older drug. The description should include the classification the drug falls into, such as hallucinogen, inhalant, etc.
17. Indicate any grant fund equipment acquisition activity in the reporting period. Acquisition activity is defined as ordering, receiving, or making the equipment operational. List the date this activity took place. Also list the dates of the prior activity associated with the equipment acquisition, even though it may have been reported in a prior quarter. For instance, the equipment became operational in this quarter. List the date it became operational, as well as the dates ordered and received, even though they happened in a different quarter.
18. Indicate any other activity or information not reported elsewhere in this form which directly addresses any action and/or condition specified in your Crime Lab contract. In addition, include a description of any other activities which will assist the Department of Public Safety to properly review and evaluate your program.

19. Signature of Project Officer

}

**DRUG ABUSE RESISTANCE EDUCATION (DARE)  
PROJECTS AND  
QUARTERLY PROGRESS REPORT  
AUTOMATED INFORMATION SYSTEM**

The DARE program is designed to provide drug education and awareness to students and communities throughout Missouri. The emphasis of the DARE program is to help students recognize and resist subtle pressures that influence them to experiment with tobacco, alcohol, and drugs. In addition, the program works with students to build self-esteem, interpersonal and communication skills, decision making, and positive alternatives to drug use.

Quarterly Progress Report Automated Information System designed for:

Ferguson Police Department  
New Madrid County Sheriff  
Springfield Police Department  
Lake St. Louis Police Department

# Instructions for completing:

## Missouri Department of Public Safety Drug Abuse Resistance Education (DARE) Quarterly Progress Report

This instruction sheet is to aid the DARE grantees in completing the required quarterly progress report for the Department of Public Safety.

1. **Date Submitted** Self-explanatory
2. **Grant Number**
3. **Grant Name**
4. **Project Director**
5. **Program Agency Name**
6. **ORI**
7. **Person Completing Form**
8. **Phone No.**
9. **Quarterly Reporting Period**
10. **Program Support Staff**
  - a) and b) Indicate the number of officers in each category
11. **Program Development/Enhancement**
  - a), b), and c) Self-explanatory
  - d) Indicate the number of presentations/events other than those related to core, Junior High Training (JHT), Violence Education Gang Awareness (VEGA), or Senior High Training (SHT) curriculum, visitation instruction, or those mentioned in 11a-11c. Please describe these activities, such as DARE clubs, summer programs, trips, etc. briefly.
12. **DARE Visitation Work Activities (K-4)**
  - a), b), c), d), and e) Indicate the appropriate figures for the quarterly reporting period only.
  - f) Indicate the appropriate number for the **total contract period**. For example, during Quarter 1, you have 3 schools that receive visitation instruction. You would put 3 in 12a) and 12f). During Quarter 2, one school that received visitation instruction in Quarter 1 receives another visitation and a new school receives visitation instruction. You would put 2 in 12a), but you would put 4 in 12f) because a total of four schools received visitation during the total contract period.
13. **DARE Core Work Activities (5th or 6th)**
  - a), b), c), d), and e) Indicate the appropriate figures for the quarterly reporting period only.
  - f) Indicate the appropriate number of consultations. Consultations would be one-on-one discussions with students at their request, or through an administrator concerning drug problems/issues or other individual concerns. General get-acquainted conversations should not be counted as consultations.
  - g) and h) refer to instructions for 12f)

**14. Violence Education Gang Awareness (VEGA) Work Activities (6th or 7th)**

**Note:** Most DARE programs focus on 5th & 6th grades. However, if your program has adopted a VEGA curriculum please indicate that activity in this section.

- a), b), c), d), and e) Indicate the appropriate figures for the quarterly reporting period only.
- f) refer to 13f)
- g) and h) refer to instructions for 12f)

**15. Junior High DARE Work Activities (7th to 9th)**

**Note:** Most DARE programs focus on 5th & 6th grades. However, if your program has adopted a JHT curriculum for junior high schools please indicate that activity in this section.

- a), b), c), d), and e) Indicate the appropriate figures for the quarterly reporting period only.
- f) refer to instructions for 13f)
- g) and h) refer to instructions for 12f)

**16. High School DARE Work Activities (9th to 12th)**

**Note:** Most DARE programs focus on 5th & 6th grades. However, if your program has adopted a SHT curriculum for high schools please indicate that activity in this section.

- a), b), c), d), and e) Indicate appropriate figures for the quarterly reporting period only.
- f) refer to instructions for 13f)
- g) and h) refer to instructions for 12f)

**17. Describe all work activities or areas of interest/concern not reported in the sections above**

Indicate any other activity or information not reported elsewhere in this form which directly addresses any action and/or condition specified in your DARE contract. In addition, include a description of any other activities which will assist the Department of Public Safety to properly review and evaluate your program.

**18. Signature of Project Director**

## **APPENDIX A**

**Instructions and Log Forms**

***Used for Processing***

**Quarterly Reports at**

**DPS / SAC**

Instructions for Completing:  
Missouri Department of Public Safety  
1999-2000 NCAP Grantees Receipt Log Sheets

The purpose of this log sheet is to allow both the Department of Public Safety and the Statistical Analysis Center to track the quarterly progress reports of the 1999-2000 NCAP grantees that are not covered under Crime Lab, DARE, or multijurisdictional task forces log sheets.

The grantees are identified by name and by an ID number. The ID number is given by the Statistical Analysis Center to help us identify the grantees for our records.

The grantees are required to submit quarterly progress reports throughout the grant year and a final report at the end of each grant year. Enter the month, day and year that the report was received by the Department of Public Safety for the appropriate quarter or final report under the Received column.

Department of Public Safety should review the quarterly progress report to make sure no data are missing or entered incorrectly. If any problems are discovered, call the contact person (listed in the Contact column) to get the correct information.

Department of Public Safety should make a copy of each report and send it to the Statistical Analysis Center for our records. Enter the month, day and year that the reports are sent in the SAC column. DPS should also fill out a batch transfer sheet for each batch of reports sent to SAC.

The reports should be sent to:

Twila Walker  
Missouri State Highway Patrol-GHQ Annex  
ISD-Statistical Analysis Center  
PO Box 568  
Jefferson City, MO 65102

EXAMPLE

DPS receives the quarterly progress report for Chesterfield COPS Program on September 1, 1998. You would enter that date (9-1-98) under the Received column for quarter 1.

DPS receives the quarterly progress report for Christian County Drug Court program on September 3, 1998. You would enter that date (9-3-98) under the Received column for quarter 1.

DPS makes copies and forwards them to SAC on September 4, 1998. You would enter that date (9-4-98) under the SAC column for quarter 1 for both Chesterfield and Christian County.

<u>ID #</u>	<u>Grant Name</u>	<u>Contact</u>	Quarter 1	
			<u>Received</u>	<u>SAC</u>
001	Chesterfield COPS Program	Chief Ray Johnson (314)537-3000	<u>9-1-98</u>	<u>9-4-98</u>
002	Christian County Drug Court	Mark Orr (417)581-7915	<u>9-3-98</u>	<u>9-4-98</u>

If you have any other questions, contact Twila Walker at (573)751-9000, ext. 217 or write to the address above.

Instructions for Completing:  
Missouri Department of Public Safety  
Crime Lab, DARE, and Multijurisdictional Task Forces Receipt Log Sheets

The purpose of this log sheet is to allow both the Department of Public Safety and the Statistical Analysis Center to track the quarterly progress reports of the NCAP crime lab, DARE, and multijurisdictional task forces grantees.

The grantees are identified by name and by an ID number. The ID number is given by the Statistical Analysis Center to help us encode the data from the quarterly progress reports.

The grantees are required to submit quarterly progress reports throughout the grant year and a final report at the end of each grant year. Enter the month, day and year that the report was received by the Department of Public Safety for the appropriate quarter or final report under the Received column.

Department of Public Safety should review the quarterly progress report to make sure no data are missing or entered incorrectly. If any problems are discovered, call the contact person (listed in the Contact column) to get the correct information.

The reports will have to be batched up and sent to the Statistical Analysis Center for encoding. Enter the month, day and year that the specific report is sent to the Statistical Analysis Center under the SAC column. DPS should also fill out the batch transfer sheet when quarterly progress reports are sent to SAC.

The reports should be sent to:

Twila Walker  
Missouri State Highway Patrol-GHQ Annex  
ISD-Statistical Analysis Center  
PO Box 568  
Jefferson City, MO 65102

EXAMPLE

We will use the Crime Lab grantees for our example. DPS receives the quarterly progress report for Kansas City Police Department on September 1, 1998. You would enter that date (9-1-98) under the Received column for quarter 1.

DPS receives the quarterly progress report for MSSC Regional Crime Lab on September 3, 1998. You would enter that date (9-3-98) under the Received column for quarter 1.

DPS decides to batch what they have together and send it to SAC on September 4, 1998. You would enter that date (9-4-98) under the SAC column for quarter 1 for both Kansas City Police Department and MSSC Regional.

<u>ID #</u>	<u>Grant Name</u>	<u>Contact</u>	Quarter 1	
			<u>Received</u>	<u>SAC</u>
001	Kansas City Police Dept. Meth Lab Response	Gary Howell (816)234-5036	<u>9-1-98</u>	<u>9-4-98</u>
002	MSSC Regional Crime Lab - Chemist	Philip Whittle, PhD (417)625-9382	<u>9-3-98</u>	<u>9-4-98</u>

If you have any other questions, contact Twila Walker at (573)751-9000, ext. 217 or write to the address above.

### **III. Summary of Programs, Performance Measures, Evaluation Methods and Evaluation Results:**

#### **NARCOTIC CONTROL ASSISTANCE PROGRAM (NCAP)**

**Fiscal Year 2000**

**Total Federal Funds Expended**

**\$9,973,679.38**

#### **DRUG ABUSE RESISTANCE EDUCATION**

**PURPOSE AREA: 501 (01)**

**Number of Sub-grants: 4**

**Number of Sites: 4**

**Federal Funds Awarded: \$119,403.09**

#### **PROBLEM STATEMENT**

The problems with use and/or exposure to alcohol, tobacco products, and illegal drugs by school age children in Missouri are not unlike those on a national level. According to national statistics, juvenile courts handle three drug cases and three alcohol cases for every one thousand youth, aged 10-17.

The influence of drugs, violence, gangs and gang mentality among some youth in the state has had an effect on youth in all age groups. Combined with and reinforced by low self-esteem, poor coping skills in dealing with peer pressure, and poor decision-making skills, school age children are particularly at risk to become involved in illicit drug use.

Law enforcement budgets in Missouri are limited, especially in areas with rural based economies. In many areas there are not enough resources available to staff officers on an around the clock basis, much less detail a full time officer to teach substance abuse prevention education programs.

#### **PROGRAM DESCRIPTION**

Project DARE, developed by the Los Angeles Police Department in 1983, is a substance abuse prevention education program designed to equip elementary, junior, and senior high school students with skills for resisting peer pressure to experiment with drugs, alcohol, and tobacco. Missouri began funding the DARE program in 1990. The DARE program curriculum Missouri follows is the copyrighted, standardized format.

DARE instruction provides information and education to youth and the community on the dangers of substance abuse. The DARE program also provides information to students to enable them to act in their own best interest when faced with high risk, low gain choices and to resist peer pressure and other influences in making their personal choices. The message that law enforcement sends to a community regarding substance abuse is important and the education of youth and life lessons that are gained through the DARE program is essential in the multi-faceted battle of substance abuse.

The State of Missouri Narcotics Control Assistance Program will provide funding for the salaries of DARE officers to local units of government. All instructors must be DARE certified to receive a contract under this program. The Missouri State Highway Patrol is a DARE certified academy that provides instruction to Missouri officers at no charge to the agency. In addition, DARE workbooks are provided to agencies for all

students enrolled in DARE classes. In 1990, the DARE program in Missouri initially targeted students in the core 5<sup>th</sup> and 6<sup>th</sup> grades. Since that time, DARE has been expanded in many schools to teach K - 4<sup>th</sup> grade, Junior high and Senior high school. The DARE instructor is also available to teach parenting classes and provide presentations at functions outside the school.

### **GOALS, OBJECTIVES, ACTIVITIES & PERFORMANCE MEASURES (PM)**

Goal 1: To provide substance abuse prevention education to Missouri youth and increase community awareness about drug and alcohol related problems in an effort to reduce the number of youth involved in drug and alcohol abuse.

Objective 1: Hire a law enforcement officer that has been or will be trained in the DARE program.

PM: 1 - Successful completion and certification in DARE education.

Objective 2: Develop or maintain DARE instruction in schools.

PM: 1 - Follows DARE curriculum  
2 - Number of grades DARE is taught  
3 - Number of students taught

Objective 3: Provide drug awareness to parents and community.

PM: 1 - Number of outside speaking engagements  
2 - Number of parenting classes  
3 - Number of special DARE activities

### **PROGRAM ACTIVITIES/COMPONENTS**

- All projects funded through this program must:
- Maintain a time and activity sheet
- Report the number of students taught
- Report the number of special outside activities
- Submit monthly reports of expenditures
- Submit quarterly progress reports
- Be site monitored to ensure compliance with guidelines
- Be required to submit evaluation data for measuring performance

### **EVALUATION METHODS**

Evaluation reporting to be utilized by quarterly reports

### **EVALUATION RESULTS (ER)**

#### **OBJECTIVE 1 (ER)**

1. Total of 17 Dare Officers for Fiscal year 2000; down from 33 Dare officers in Fiscal year 1998

#### **OBJECTIVE 2 (ER)**

1. A total of 12 schools provided visitation instruction for Kindergarten through 4<sup>th</sup> Grade for a total of 150 classes. A total of 2162, K-4 students completed the course of instruction consisting of 123 visitation hours.
2. A total of 27 schools provided a Dare core curriculum for Grades 5-12. There were a total of 27 classes taught for the 5<sup>th</sup>-6<sup>th</sup> Grades, and 67 classes taught for the 7-9 Grades.
3. Total of students taught, K-4, 2,162, students, 5-12, 2,793 students. Total of 4,955 students

### **OBJECTIVE 3 (ER)**

1. During the 2000 fiscal year there was a total of 117 presentations given by the Dare program.
2. A total of 5 presentations were made to teachers, 4 parent education presentations were conducted, 46 community presentations, and 62 "other" presentations were held.

## **MULTI-JURISDICTIONAL DRUG TASK FORCE**

### **PURPOSE AREA: 501 (02)**

**Number of Sub-grants: 27**

**Number of Sites: 27**

**Federal Funds Awarded: \$4,663,889.99**

### **PROBLEM STATEMENT**

Illicit drugs cause major problems for law enforcement agencies in the State of Missouri. The use, sale, distribution, and transportation of illegal narcotics must be addressed.

Crime has continued to increase both in the State of Missouri and nation as a whole, and can largely be attributed to the growing number of drug violations. Drug violations can act as a springboard to other crimes such as homicide, robberies, serious assaults, larcenies, burglaries, vandalism, and violence in public housing and help to create a fear of crime in neighborhoods.

Because of the sparse population in the rural areas of the State, drug traffickers for clandestine laboratories where amphetamine/methamphetamine is manufactured often use these areas. Many of the rural areas are protected by local law enforcement agencies that have limited resources and are unable to provide 24 hour staffing to protect its citizens, much less operate specialized drug units without financial assistance. The hazardous material generated by the manufacture of methamphetamine and left behind by clandestine laboratory operators compounds this problem.

### **PROGRAM DESCRIPTION**

The overall drug and crime problem reveals an increasingly adverse effect upon our community and society in general. The Multi-Jurisdictional Task Force Program is a significant tool in combating the plague of drug activity that is present in our society. Agencies join together and combine resources in a team approach to provide enforcement in their target areas. As a result of the Multi-Jurisdictional Task Force programs, communications are improved between law enforcement agencies. These lines of communication are essential in sharing information and thereby coordinating a combined effort to combat the drug and crime problem as well as addressing the hazards associated with the residual effects of methamphetamine manufacturing.

### **GOALS, OBJECTIVES, ACTIVITIES & PERFORMANCE MEASURES (PM)**

Goal 1: To organize a Multi-Jurisdictional Task Force.

Objective 1: Agencies participating in a Multi-Jurisdictional Task Force Program funded under the Narcotics Control Assistance Program must be involved early in planning for the implementation of the program. Program needs as well as problems that may be encountered should be discussed.

PM: 1 - Cooperation of participating agencies is critical for an effective Multi-Jurisdictional Program. An agreement must be developed and signed by the department heads of the participating agencies pledging cooperative support.

Objective 2: Identify and arrest for successful prosecution individuals or groups involved in illicit drug trafficking.

PM: 1 - Gather intelligence information

- 2 - Cultivate informants
- 3 - Identify previously unknown drug organizations and develop investigations on those groups
- 4 - Gather evidence for arrest and prosecution
- 5 - Seize illegal assets derived from drug related investigations

Objective 3: Develop a cost-effective system for the safe disposal of hazardous materials generated as by-products of clandestine drug laboratories.

PM:

- 1 - Develop a cross-discipline communication and cooperation model (task force, fire, EMS, environmental agencies, etc.)
- 2 - Train task force members in the proper collection and disposal methods associated with clandestine laboratories
- 3 - Establish and maintain hazardous material collection/control sites within a reasonable distance of each task force's area of operations

### **PROGRAM ACTIVITIES/COMPONENTS**

All projects funded through this program must:

- Submit a copy of the Multi-Jurisdictional Task Force formal agreement
- Follow policies and guidelines for management of confidential expenditures
- Report annually arrest, types and amounts of drugs purchased and seizure statistics and anecdotal data by which to analyze the effectiveness of the task force
- All projects funded from this program will receive at least two (2) monitoring contacts
- Submit monthly reports of expenditures
- Submit quarterly progress reports
- Be required to submit evaluation data on NCAP quarterly report forms

### **EVALUATION METHODS**

Evaluation reporting to be utilized by quarterly reports

### **EVALUATION RESULTS (ER)**

The following evaluation results were obtained from the quarterly reports submitted by all the Multi-Jurisdictional Drug Task Forces. During this reporting period there were 25 Multi-Jurisdictional Drug Task Forces funded under this purpose area.

- Total arrests during fiscal year 2000 were 5,557 with a total of 7,224 charges.
- 914 arrests for Crack sales.
- 1,208 arrests for possession of Marijuana
- 974 arrests for sales of Methamphetamine
- 596 arrests for possession of Crack Cocaine
- 620 arrests were made for Marijuana sales
- This represents the top five charge code arrests for drug charges, for further information refer to section 4, Supplement Information and Documentation.
- During the four quarters reported, 915 search warrants were served. 875 search warrants resulted in arrests
- The 25 Multi-Jurisdictional Drug Task Forces of Missouri located and destroyed a total of 843 Methamphetamine Labs. The Mineral Area Drug Task Force seized and destroyed a total of 201 labs, followed by Southeast Missouri Drug Task Force with 95 labs, South Central Drug Task Force with 85 and Jefferson County Sheriff's Department with 75.
- The statewide street value of all drugs seized totaled \$38,781,644.00. This amount includes the seizures of 207,597.89 ounces of Marijuana, 3,073.11 ounces of Cocaine, 3,811.55 ounces of Methamphetamine, and 123.58 ounces of Heroin. In addition to drug seizures, weapons were also confiscated for a total of 484 weapons with a reported value of \$97,943.00

### **OBJECTIVE 1 (ER)**

1. Organization and planning of each Multi-Jurisdictional Task Force is the responsibility of the primary governing body as outlined in the Memorandum of Understanding (MOU)

### **OBJECTIVE 2 (ER)**

1. There were 103 new drug organizations identified during this reporting period.
2. The Multi-Jurisdictional Drug Task Forces with a total of \$144,682.00 of Informant expenditures utilized 521 active informants.
3. 50 new organizational charts were prepared from intelligence information obtained.
4. During this reporting period a total of 7,752 new cases were filed with 2,920 cases still active from the previous year. There are a total of 10,672 active court cases awaiting trial.
5. All Multi-Jurisdictional Drug Task Forces combined seized a total of \$2,713,683.00 in items consisting of weapons, currency, real estate, motor vehicles, and personal property and other assets. A total of \$1,384,410.00 in property was forfeited to the Multi-Jurisdictional Drug Task Forces.

### **OBJECTIVE 3 (ER)**

1. Through the Missouri Interagency Clandestine Laboratory Task Force, Missouri has 15 Hazardous Material Collection stations in use and in close proximity of Multi-Jurisdictional Drug Task Force areas. Additional collection stations are scheduled to be in place for a total of 20-collection stations statewide.
2. To date 285 persons have completed Haz-Mat and collection training. Persons who have attended the required training and certification represent the Department of Natural Resources, Law Enforcement and Fire personnel.
3. Clandestine Laboratory Response Trailers are currently being manufactured and distributed to Missouri's Multi-jurisdictional Drug Task Forces in response to the need for the safe collection and transporting of the waste associated with the production of Methamphetamine. During this reporting period, three Clan<sup>Lab</sup> Trailers were delivered to 3 Multi-Jurisdictional Drug Task Forces. (From July 1, 2000 to October 11, 2000, twelve additional trailers were delivered to 12 Multi-jurisdictional Drug Task Forces. The remaining 10 will be delivered to the Task Forces by the end of November 2000.)

## **COMMUNITY ORIENTED POLICING/ CRIME PREVENTION PURPOSE AREA 501(04)**

**Number of Sub-grants: 10**

**Number of Sites: 10**

**Federal Funds Awarded: \$213,204.61**

### **PROBLEM STATEMENT**

Crime and the fear of crime are a major concern for citizens of Missouri as well as the United States. While every effort must be made to enhance enforcement of our laws, an equal effort must be made to prevent crime from occurring in the first place. Despite the continued efforts of law enforcement agencies in the State of Missouri, the problem of drug abuse continues. Property crime is common, especially larceny and vandalism, negatively impacting the quality of life in both metropolitan and rural communities throughout the state. A Missouri public opinion survey identifies crime and drugs as the top two concerns of Missouri citizens. Missouri statistics show increased youth participation in the use and sale of illicit narcotics. Drug abusers' children are seriously at risk to the effects of substance abuse and face increased chances of physical abuse or neglect as a result of the abusers drug use and dependency. The decreasing budgets and increased demand for law enforcement to adequately address the drug and crime problems throughout the State of Missouri require a new approach to crime in Missouri. It has become apparent to many law enforcement agencies throughout the State of Missouri that traditional law enforcement methods must be altered and law enforcement officers cannot do the job alone. Every citizen has a role to play in ensuring a safe environment in which to live.

## **PROGRAM DESCRIPTION**

As with crime prevention programming, no single model of community policing will benefit all communities. It is inherent to both philosophies that specific design must be tailored to local needs and conditions.

Crime prevention means working in partnership rather than in isolation; working with concerned citizens to address ways to prevent crime and drug abuse. It means communities and individual citizens learning how to protect themselves and working together to keep their neighborhoods crime and drug free. It means providing positive alternatives for youth and empowering them to become stakeholders in their schools and communities. It means law enforcement working with communities, businesses, and service organizations to develop action plans based on information about crime and other problems. In some communities, programs that provide activities for juveniles may be needed. In other communities, police substations for services to citizens in a particular area of a city may be the answer and in some areas updated equipment and resources may be needed to assist law enforcement in performing their duties more effectively.

## **GOALS, OBJECTIVES, ACTIVITIES & PERFORMANCE MEASURES (PM)**

**Goal 1:** The promotion, advancement and implementation of the community oriented policing philosophy to local law enforcement agencies throughout the State of Missouri, where the community is promoted as an integral element of local law enforcement with crime prevention and intervention strategies being central components.

**Objective 1:** A cooperative effort involving all affected participants from government, neighborhoods, social, civic, educational, and religious groups to identify, address, and solve problems.

**PM:**

- 1 - Provide a list of all participants in the community
- 2 - Prepare an outline that identifies the problems to be addressed and steps to address these problems
- 3 - Number of community meetings
- 4 - Number and type of community activities
- 5 - Number and type of presentations

**Objective 2:** Provide community oriented policing/crime prevention resources and training and technical assistance to local jurisdictions

**PM:**

- 1 - Number and type of Crime prevention/public awareness information publications distributed
- 2 - Agenda and number of participants attending training programs
- 3 - Type of technical assistance provided (i.e. assistance in coordinating neighborhood watch programs, youth programs, satellite stations, etc.)
- 4 - List of equipment purchased for loan to law enforcement agencies
- 5 - Monthly updates on type of equipment loaned, types of cases worked with loaned equipment and results of cases

## **PROGRAM ACTIVITIES/COMPONENTS**

All projects funded through this program must:

- Submit a copy of the crime prevention plan involving citizens, police, governmental, civic, and social agencies and how it will be implemented
- Provide a list of volunteer services (if this is a part of the program)
- Report community oriented policing activities, types of information disseminated, minutes of community meetings, youth activities developed, etc.
- Submit monthly reports of expenditures
- All projects funded under this program will receive at least two (02) monitoring contacts to evaluate the program and ensure that financial guidelines are being met
- Be required to submit evaluation data for measuring performance

## EVALUATION METHODS

Evaluations reporting to be utilized by quarterly reports are project summary in format. The fourth quarter report submitted by each project is a summary of project activity for the four quarters of the reporting period. The Evaluation Report (ER) is a summary of each project funded under this purpose area.

## EVALUATION RESULTS (ER)

**Belton COPS Program** This project provided a full-time crime prevention /community policing officer position. During this grant period, 10 adult and 2 high school academies were offered to about 200 people. The bike patrol unit worked with a primary focus on community interaction and secondly as a high crime area patrol. Community education seminars ranged from bank robbery training to bicycle rodeos. In addition, "Ident-a-Kid" programs, and McGruff appearances are provided. This concludes the fourth year of funding eligibility.

**Blue Springs Choices Cooperative/Campus Law Enforcement** The Campus Law Enforcement Education Officer program (CLEEO) is a continued project which allows tracking for youth identified as having one or more of several risk factors. The goals and objectives of the program are to provide decision making skills in an educational format to middle school students who have exhibited criminal, aggressive, or other behavioral injuries to their welfare or the welfare of others, provide education, practical solutions, resources, and empowerment to the parents of these teens, continue to provide prevention driven, broad based instruction to the students on drug avoidance, reducing gang and criminal influences, building positive coping skills, and character development, continue to refer the highest at risk youth to appropriate agencies designed to address and provide treatment. The following goals were accomplished: 1) a total of 197 classes were taught and the Blue Springs School District has requested that a CLEEO curriculum be developed for 7<sup>th</sup> graders, 2) individual sessions were conducted with 154 students; this shows that approximately 1 out of every 7 students benefited from the individual contact, 3) Seven - five week decision making classes were conducted, 4) 21 -3 week parent education classes were taught with 177 parent participants, 5) 147 classroom hours were taught to 5,353 participants. A total of 120 students are enrolled at Moreland Ridge School Assistance Program. This project has concluded it's fourth year of funding eligibility.

**Carterville Cops Program** The grant funds provided the Police Department with equipment and supplies to enhance their efforts to provide better service to their community. This project was funded for three months only.

**Chesterfield COPS Program** This project supported a full-time Community Contact Officer position, office services and equipment for a project which has become a valuable asset for Chesterfield. The Chesterfield Community Bureau (CCB) is a storefront sub-station located within the Chesterfield Mall. The sub-station is used for walk-in reports, citizen contacts, general information, citizen fingerprinting, and criminal investigations. It serves as a point of contact for the citizens in a location more convenient than the department's current headquarters facility. The Chesterfield Police Community Contact Bureau continues to be an invaluable asset to the community and Business district of Chesterfield. The CCB has developed and published a monthly newsletter, "THE INFORMER", that is sent out to all mall merchants. It contains information ranging from safety tips to information on persons passing bad checks. The CCB has operated the West County Crime Stoppers Hotline. The hotline has directly been involved in solving numerous unsolved cases in the west county area. The popularity of CCB continues to grow and all goals have nearly been realized and some exceeded. The mall owners have used this project as a model for other mall locations. This project has concluded it's fourth and final year of funding eligibility.

**Clever Police Department** The Clever Police Department began interacting with their community schools with a School Resource Officer. The Officer spoke to and assisted students attending after school detention. The SRO spent time on Foot patrol of the school grounds and hallways, provided alcohol and drug education, scheduled visits by McGruff for the Elementary and Middle schools. The Fatal Vision Goggle program was provided to school students to teach the effects of alcohol and the problems associated with intoxication. This is the first funding year for the Clever Police Department.

**DeSoto Community Resource Officer** This project provided a full time Community Resource Officer services. A major goal is to strengthen the D.A.R.E. program and the school system by the addition of a full time officer. The program has been expanded to include grades K-4 and 6<sup>th</sup>-12<sup>th</sup> grades. DeSoto is one of only three agencies in Missouri who teach D.A.R.E. K-12<sup>th</sup> grade. Objectives include fostering good relations, reducing juvenile crime,

decreasing drug and alcohol related problems, enhancing cooperation between law enforcement and the community, establishing drug and alcohol prevention programs. Partnerships and community-based programs have been implemented and maintained, neighborhood watch programs were re-organized and new programs have been added to address home safety issues and benefit senior citizens. Fourteen Officers and 2 other city employees have received instruction in the COPS program. Three drug awareness education courses were offered, 20 hours of teacher education and classroom information was provided, 10 students were identified as being "at risk" and monitored for attendance, behavior problems and academic progress. Thirty-one criminal incident reports were made, down from 62 the year before. Several public appearances were made that consisted of a Dare parenting program, KID ID, Special Olympics, Neighborhood Watch and Bike Safety as well as participating with area scouts, Little League and the VFW's Children's fun day. The second year of funding has been completed.

**Mountain View COPS Program** The project involved supporting a full-time COPS officer position. It promotes community education and the implementation of strategies to reduce problems within the community. This position has allowed personal attention, interaction with the community and greater cooperation with youth. One of the major objectives is to become more educationally involved with the youth and schools; coordinate with other agencies to assure assistance in the areas of crime and drug abuse prevention as well as safety issues and personal counseling issues. During the past funding year the community resource officer provided 2 bank robbery seminars for local banks, held a safety fair, held several car washes to interact with the community. Assisted with the several events consisting of Easter egg hunts, "Shop With a Cop", bike-a-thon, car seat seminar and interaction with area Boy Scout troops. In addition, the Community Resource Officer provided 10 COPS-related presentations, spent a total of 900 hours in area schools, assisted with 32 youth consultations, and fingerprinted an estimated 650 children with finger print programs.

**Missouri Department of Public Safety- Capitol Police Intern Program** This project provided intern positions and equipment. The goal of the Missouri Capitol Police Intern Program is to provide opportunities to traditionally disenfranchised segment of the population within the Capitol Police work force. Recruitment efforts have been successful through a partnership program established with Lincoln University's Criminal Justice Program. During the last two years of funding, the Missouri Capitol Police has employed a total of 16 interns covering a 3-semester period. The gender and ethnic breakdown of the 16 are, 6 African American males, 6 African American Females, 2 Caucasian Males, and 2 Caucasian Females. This is the second year of funding.

**New Haven Cops** This project has provided much needed computer equipment to the New Haven Police Department and has enhanced the Department's ability to serve it's citizens. With the installation of new hardware and software the Department has seen an appreciable decrease in the time required for officers to complete reports. The department has successfully implemented two new programs, Domestic Violence Victims Assistance Program and in school training based on the student's needs. This includes classes in Alcohol/drug abuse, gun safety, 911, criminal law, the criminal court system, the Constitution and the Bill of Rights. The COPS officer handled a total of 120 calls and made 16 arrests.

**Perryville COPS Program** This project provided support for a full-time COPS officer position, technological equipment upgrades, related equipment and training. The program was successful in providing over 1400 contacts through presentations, workshops, career fairs, and community meetings. Programs were designed to target youth within the community and make them aware of the hazards of destructive behavior. Other goals involved creating a citizen's police academy in order to educate others on the role of the police in the community, a youth mentoring program and rejuvenation of the neighborhood watch programs. This project is in its third year of eligible funding.

**Missouri Department of Public Safety (DPS)-COPS Program** This project provided funding for travel, equipment, supplies, and contractual needs. The focus involved promoting educational opportunities such as Community Oriented Policing meetings and training workshops throughout the state, equipment for the Community Oriented Policing Equipment Assistance (COPEA) program to provide approved agencies, with laptop computers, printers, cameras, video recorders, LCD projectors, and software. Mobilization and partnerships were an important part of this particular project. The effort of increased training provided agencies and organizations with needed tools to enhance these activities. In order to enhance the Department of Defense Excess Military Property Program (DOD) prevention center it provided funding to assist in the pick-up, delivery and record keeping of DOD equipment. DOD continues to provide materials/equipment that agencies may not normally be able to afford. This will assist in improving the quality of life for its residents.

# **CAREER CRIMINAL PROSECUTION PROGRAM**

**PURPOSE AREA: 501(08)**

**Number of Sub-grants: 1**

**Number of Sites: 1**

**Federal Funds Awarded: \$19,303.00**

## **PROBLEM STATEMENT**

Prosecutors throughout the State of Missouri are currently doing their utmost to deal with increased arrests and prosecutions arising from increased use of illicit drugs. Additionally, because narcotics lie at the root of so many other types of crime there is an overload of cases to be prosecuted. Many of the counties in the state have part-time prosecutors to handle all legal action for the county. The rising number of arrests as a result of narcotics creates even more of an overload resulting in an excessive amount of time between arrest and prosecution.

## **PROGRAM DESCRIPTION**

The Career Criminal Prosecution Program is designed to provide prosecutors throughout the state additional resources for the vigorous prosecution and incarceration of drug and violent crime offenders.

The goal of the Career Criminal Prosecution Program is to improve public safety and disrupt foreseeable patterns of drug and violent crime activity through effective prosecution and case management. This program would enable prosecutor's offices additional manpower and resources to devote to drug and violent crime cases, thus reducing the time between arrest and prosecution and relieving the backlog of cases.

The prosecutor must ensure a procedure to screen defendants and identify those cases to be referred for priority prosecution. Criteria for case selection must be specific and tailored to drug and/or violent crime problems in the community. Most individual Career Criminal Prosecution Programs are established as a separate unit or special attorney assigned within the prosecutor's office. Assignment of experienced prosecutors to the unit is critical. A system of direct police referral of potential cases to the special prosecutor unit will enhance the program. Cooperation and coordination between the special prosecution unit and law enforcement is critical in drug and violent crime investigations, therefore many projects may choose to assign a designated prosecutor on 24 hour call to assist law enforcement officers in planning and conducting investigations. This prosecution will then follow the defendant through the court system and assist in any forfeiture or seizure proceedings as necessary.

## **GOALS, OBJECTIVES, ACTIVITIES & PERFORMANCE MEASURES (PM)**

Goal 1: To aggressively prosecute and incarcerate narcotics and violent crime offenders in an attempt to reduce the level of general crime that surrounds the drug culture in the State of Missouri

Objective 1: Hire knowledgeable and experienced prosecutor(s) who will be responsible for all narcotics related crimes

PM: 1 - Development of a detailed job description. Ensure that job announcement, interviewing and hiring procedures are followed

Objective 2: Provide assistance or advice during investigations, prepare necessary paperwork for search or arrest warrants to ensure aggressive but realistic prosecution

PM: 1 - Development of policy and procedure manual outlining coordination between special prosecutor and law enforcement

2 - Meetings/workshops will be held with law enforcement to coordinate activities and provide information that will assist them in investigations

## **PROGRAM ACTIVITIES/COMPONENTS**

All projects funded through this program must:

- Maintain time and activity sheets
- Develop policy and procedure manual
- Report number and type of narcotics-related cases filed
- Report disposition of narcotics-related cases
- Report number of meetings/workshops held to coordinate efforts between law enforcement and prosecution
- Report number of drugs seized
- Report amount of assets seized/forfeited
- Be site monitored to ensure compliance with guidelines
- Be required to submit evaluation data for measuring performance

## **EVALUATION METHODS**

Evaluation reporting to be utilized by quarterly reports and narrative reports submitted by the sub-recipient.

## **EVALUATION RESULTS (ER)**

**Cass County Drug Prosecution Unit**--This project provided a full-time Drug Enforcement Attorney for the County Prosecutor's Office. The objectives were to aggressively prosecute and incarcerate narcotics offenders. The full-time attorney funded through Byrne will specialize in and oversee all aspects of narcotics prosecution in Cass County. Responsibilities involve implementing the general policy of reducing plea bargains and seeking tougher penalties in drug related cases; acting as liaison with both state and federal law enforcement agencies. The success of the program was measured by reviewing the number and types of narcotics-related cases filed, determining whether the penalties imposed upon drug offenders increased and reviewing the number of educational presentations made by the Narcotics Prosecutor during the contract period. During the 2000 fiscal year, this program filed 135 narcotic cases of which, 65 were felonies, and 70 were misdemeanors. The Narcotics Prosecutor provided 2 educational presentations, and assisted with 23 search warrants, 65 felony cases and 70 misdemeanor cases. The Narcotics Prosecutor directly prosecuted 65 felony cases, handled 33 felony non-narcotic cases and 8 forfeiture cases. Further improvement is being sought by the formation of a "Drug Court" in Cass County and a drug court team consisting of a judge, prosecutor, Probation and Parole and Pathways.

## **COURT DELAY REDUCTION PROGRAM**

**PURPOSE AREA: 501(10)**

**Number of Sub-grants: 1**

**Number of Sites: 1**

**Federal Funds Awarded: \$9,636.22**

## **PROBLEM STATEMENT**

The increase in enforcement and prosecution programs has resulted in an increased filing of drug related charges throughout the state court system. Drug cases processed through standard channels must compete with violent felonies for the court's attention. This results in drug cases usually receiving less attention and the hearing and trial dates for the drug cases may be repeatedly postponed as the court deals with higher priority cases.

## **PROGRAM DESCRIPTION**

The Court Delay Reduction programs are designed to improve the case flow management of the Public Defender System, which will aid in balancing all components of the criminal justice system in Missouri. Defense based alternative sentencing programs are designed to offer courts an option between prison and probation by developing individual sentencing plans for drug offenders. Special drug courts are designed to relieve crowded felony dockets,

reduce case processing time and establish mechanisms for more creative and effective dispositions. In some cases, special drug courts link defendants to community-based drug treatment programs in an effort to reduce drug use and drug-related crime. By increasing the use of sentencing alternatives other than incarceration for certain drug defendants; these special drug courts can result in substantial system cost savings.

#### **GOALS, OBJECTIVES, ACTIVITIES & PERFORMANCE MEASURES (PM)**

Goal 1: To address defendant's needs through effective case management, reduce drug use and recidivism, relieve pressures on non-drug caseloads and concentrate drug case expertise in one courtroom.

Objective 1: Cooperation and coordination between law enforcement, the judge, prosecutor and public defender to coordinate and maintain support for the program and to develop the goals, procedures, and guidelines on the court delay reduction program.

PM:

- 1 - Provide a "needs assessment" of the local court system.
- 2 - A policy and procedure manual for the court delay reduction program will be developed.
- 3 - Ongoing communication among the judge, prosecutor, and public defender to identify and resolve problems as they arise.
- 4 - Written agreement to abide by the procedural rules of the court and interagency cooperation.

Objective 2: Link defendants to community based alternatives or drug treatment

PM:

- 1 - Community meetings will be held to discuss the resources and options as early as possible in the implementation process to help maximize understanding and support of the goals of the court delay reduction program.

Objective 3: To reduce the time to disposition, without compromising due process or public safety considerations.

PM:

- 1 - Channel all eligible drug cases into the system as early in the adjudication process as feasible.
- 2 - Implement a system of full and early discovery.
- 3 - Expedite production of laboratory reports and distribute results to the prosecutor and defense as soon after arrest as possible.
- 4 - Develop written procedures for assigning and maintaining cases. There should be specific procedures for responding to violations of court orders or treatment program rules and/or failed drug screenings and there should be rewards for achievements.
- 5- The development of processing procedures that outline plea bargaining guidelines.

#### **PROGRAM ACTIVITIES/COMPONENTS**

All projects funded through this program must:

- Provide a needs assessment
- Provide a detailed action plan for the proposed program

#### **EVALUATION METHODS**

The evaluation methods to measure the Court Delay Reduction Programs for this report period were based upon narrative reports submitted by the sub-recipient.

## **EVALUATION RESULTS (ER)**

**Christian County Prosecutor's Officer-Drug Court Program-** provided funding for an assistant prosecuting attorney. In the past year the narcotics attorney has prosecuted 234 narcotic cases with a 90% conviction rate. The Christian County Drug Court had 16 participants, 10 graduates during the grant year. There were a total of 8 participants who were expelled from the program, of which 7 were sent to the Department of Corrections for either a 120-day treatment program or to serve out their sentences. The drug court has been well received by the community and a positive experience for its participants. The goal of the Christian County Prosecutor's Office is to aggressively address the issue of defendants charged with drugs and drug related offenses by hiring an assistant prosecutor to manage and prosecute all drugs and drug related offenses. Responsibilities are to review, prosecute, and dispose of all drug and drug-related offenses and to implement a mgt. information system that track data specifically to the drug offender. This is the third year for funding.

## **CRIME LABORATORY UPGRADE PROGRAMS**

**PURPOSE AREA: 501(15A)**

**Number of Sub-grants: 7**

**Number of Sites: 7**

**Federal Funds Awarded: \$407,605.00**

### **PROBLEM STATEMENT**

Increased narcotics related arrests are placing burdens on the criminal justice system. The increase in methamphetamine labs in Missouri is a critical element in the backlog of cases facing the crime laboratories in the state. There is a need to process the drug cases faster and use less analyst time in doing so. Federal courts are demanding more time-consuming quantifications of drug cases, additionally, there are many new drugs being abused on the street today. Every year the DEA adds several new drugs to the Controlled Substance List. Expedited drug case management is critical in order to increase crime lab and drug testing capacity. The crime laboratories in the state do not have adequate manpower or resources and the result is a delay in the completion of all cases. Due to the 48-month funding limitation placed upon the Byrne funds, most of the crime laboratories in the State of Missouri are not eligible to apply for federal assistance as a single agency.

### **PROGRAM DESCRIPTION**

Crime laboratory programs have been funded throughout the state since 1987. Because of the 48-month funding limitation, most of the crime laboratories are ineligible to receive funds as single agencies. Programs will be developed to assist crime laboratories to timely and effectively identify all drugs, including designer drugs, and to accommodate the increasing number of requests for quantification. The provision of funds for programs to upgrade state and local crime laboratories will reduce the time involved in testing and improve the quality of the analysis as well as reduce the backlog of court cases.

### **GOALS, OBJECTIVES, ACTIVITIES & PERFORMANCE MEASURES (PM)**

- |              |   |
|--------------|---|
| Goal 1:      | Improve the quality and reduce the backlog of the examination of drug offense evidence in the State of Missouri |
| Objective 1: | Provide manpower for overburdened crime laboratories  |
| PM:          | 1 - Interview and selection process procedures<br>2 - Payroll and time accounting records will be provided      |
| Objective 2: | Provide state-of-the-art equipment and supplies for analysis of evidence for illicit drugs and violent crimes.  |

- PM:           1 - Purchasing procedures will be provided
- 2 - Types and number of evidence samples will be provided
- 3 - Number of expert court testimony will be provided
- Objective 3:   Develop training in evidence testing and court testimony
- PM:           1 - Training descriptions will be developed
- 2 - Number of workshops and participant lists will be provided
- 3 - Course evaluations will be performed

### **PROGRAM ACTIVITIES/COMPONENTS**

All projects funded through this program must:

- Maintain a time and activity sheet for personnel paid under the contract
- Report number and types of evidence samples analyzed
- Report number of times court testimony is provided
- Report training attended by staff
- Submit monthly reports of expenditures
- Submit quarterly progress reports
- Be monitored to ensure compliance with guidelines
- Be required to submit evaluation data for measuring performance

### **EVALUATION METHODS**

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress. The fourth quarter status report shall cover the total grant period and address all evaluation criteria items described.

### **EVALUATION RESULTS (ER)**

- During this reporting period, Missouri Crime labs submitted quarterly reports that contained the following information. The 14 labs submitting information, there was a total active caseload of 51,063 cases that required lab analysis. From the total of cases received by the various labs, 47,071 cases, 92.2%, have been handled and completed.
- Of the 47,071 completed exams, 16,110 drug tests were not requested and 2,170 drugs were not identified. 28,791 cases were examined that drugs were identified.
- Crime labs have maintained an average of 19.4 days turn around for processing drug examinations. This average is down from the 28-day average during FY1997 but up from the 17.2-day average for FY1999.
- During the reporting period, there were 15,900 lab requests for Marijuana, 6,418 lab requests for Crack Cocaine, 3,731 lab requests for Methamphetamine, 1,355 lab requests for Cocaine, and 954 lab requests for Heroin/Opiate.

## **INTENSIVE SUPERVISION PROBATION & PAROLE**

**PURPOSE AREA: 501(11)**

**Number of Sub-grants: 5**

**Number of Sites: 5**

**Federal Funds Awarded: \$3,112,047.00**

### **PROBLEM STATEMENT**

There is ample documentation of the connection between substance abuse and crime. The impact substance-abusing offenders have on society, the criminal justice system, and themselves are significant. Most notably, the drug-involved offender typically commits many more crimes than the non-involved offenders. They are likely to commit hundreds of crimes including robberies and burglaries each year. We know that large numbers of criminal offenders are active abusers of illicit drugs and alcohol and that a relatively small number of drug involved offenders are responsible for a grossly disproportionate amount of crime. The need to focus on the development of effective strategies for addressing drug and alcohol abuse among juvenile and adult offenders is evident. The growing understanding of the relationship of substance abuse and crime has supported the need for comprehensive and coordinated substance abuse services at all points of the criminal justice system.

### **PROGRAM DESCRIPTION**

A variety of effective programs, such as substance abuse counselors, drug treatment and intervention, and intensive supervision of juveniles have been implemented throughout the state. This is a comprehensive focus on substance abuse services at all levels and includes the following key components: Appropriate assessment and intervention, substance abuse education, a range of treatment modalities to meet offender need levels, after-care services, an emphasis on continuity of care, and an on-going concern for quality assurances. The primary focus of the Intensive Supervision Probation/Parole program will be to provide additional public corrections resources and improve the corrections systems.

### **GOALS, OBJECTIVES, ACTIVITIES & PERFORMANCE MEASURES (PM)**

- Goal 1: To develop, implement and provide prioritized substance abuse treatment services to include assessment, education, treatment interventions, modalities, after care, and support groups.
- Objective 1: A research design component and implementation plan is necessary to provide an assessment of the problems and steps to be taken to address these problems
- PM: 1 - Provide steps taken to assess problems and develop implementation plan
- Objective 2: To develop, as determined appropriate, treatment and intervention plans, drug education services, and self-help groups.
- PM: 1 - A copy of the policies and procedures will be provided
- 2 - Specialists will be hired to support treatment, education and group therapy programs
- 3 - Specialized training will be provided to support treatment, education, aftercare and group therapy programs

### **PROGRAM ACTIVITIES/COMPONENTS**

All projects funded through this program must:

- Provide assessment instrument
- Provide reports to include recidivism rates of those completing program
- Provide reports including employment rates of those completing program

- Provide annual project reports
- Be site monitored to ensure compliance with guidelines
- Be required to submit evaluation data for measuring performance

## **EVALUATION METHODS**

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the program from being successfully completed at the end of the contract period. The fourth quarter status report shall cover the total grant period and address all evaluation criteria items described.

## **EVALUATION RESULTS (ER)**

**Free and Clean Program-Kansas**—This project is designed to provide intensive substance abuse treatment services to offenders who are released to the community after receiving substance abuse treatment in a correctional facility. The treatment services provided through this project are a critical component of the Offender Management Strategy for the Department of Corrections in the Kansas City areas. The mission is improvement of public safety through secure confinement and effective community interventions. Through cooperative efforts with victims, communities, state and local governments, the department provides effective correctional services, holds offenders accountable for their behavior and prepares them to be productive citizens. This is the second year of funding for this project.

**Division of Youth Services Job Program**—This project involved funding for 32 slots providing job readiness training and actual work experiences for eligible youth at Camp Avery in conjunction with the Department of Natural Resources. The youth are in transition from a treatment facility to their home community. The work experiences are mainly in the area of maintenance, building trades and food services. The goals of this program are to get as many youth as feasible into a work experience. This year more than eighty youth learned more about the world of work through their participation in the program. Youth in the Springfield areas contributed more than 4,500 hours to non-profit organizations. They work with a variety of non-profit agencies from city park departments to humane societies. Youth are individually matched with jobs according to their vocational interests. During involvement in this program, each student will obtain, understanding of how to complete the following items: job application, resume, birth certificate, social security card, photo I.D., W-4 form, and driver's packet information.

**Office of State Courts Administrator-Regional Justice Centers**- This project involves assistance to develop a prototype of a Regional Justice Center that will better meet the needs of the people than the present county-based facility by offering two planning grants to be used to coordinate local interest and prepare plans and feasibility studies for consideration by state and local authorities. The concept, which is relatively new, would consolidate justice services of multiple counties into a state of the art facility, designed to effectively meet the needs of Missouri's citizens. The federal/state grant awarded to OCSA paid for a professional planning firm to compile detailed information and prepare comprehensive reports and recommendations for those circuits or combinations of continuous counties selected for the study. The reports will be in sufficient detail to allow policy makers at the state and local level to determine whether or not they support construction of a justice center to serve the multi-county area.

**Butler County- Family Responsibility Program** During the past funding year, the family Responsibility Program has grown from an education program to a cooperative effort with the court and community resource council to provide a comprehensive program of mentoring, work, and education. The primary focus of the FRP remains educating juveniles and their families about their rights, responsibilities, and resources for changing delinquent behaviors. The current partnership unites resources to aid parents and juveniles. The objectives set forth have determined what assistance is needed. Educational programs were offered monthly and attendees were tracked through self-reporting and evaluation forms. Professional relationships were developed with the Ripley and Butler County school districts and Caring Communities. These partnerships have enabled more individuals to be reached and continue with programs when the Juvenile Department does not have juvenile so families to send to the programs. This program has completed its second year of funding.

### **State of Missouri- Eastern Reception, Diagnostic and Correctional Center**

This project will provide needed resources to fund professional fees for design, administration, testing services and commissioning, and construction of the Eastern Reception, Diagnostic and Correctional Center in Bonne Terre, Missouri. This new Department of Corrections facility will provide bed space for 1,768 maximum-security inmates, 820 reception and diagnostic inmates, and 96 minimum-security work cadre inmates.

## **CRIMINAL RECORDS IMPROVEMENT**

### **PURPOSE AREA: 501(15b)**

**Number of Sub-grants: 7**

**Number of Sites: 7**

**Federal Funds Awarded: \$900,766.47**

### **PROBLEM STATEMENT**

In today's society, criminal history records are becoming increasingly relied upon by the criminal justice system to make charge, release, and sentencing decisions. Records are also used as a tool when making decisions regarding licensing and employment purposes, including foster care, schoolteachers and bus drivers, hospital, nursing home, and home health care employees, and in transactions relating to the purchase of firearms. Local criminal justice agencies are required to report criminal history to the Missouri State Highway Patrol's Central Repository. The paper system of reporting is quickly becoming obsolete and does not allow timely, accurate, and complete criminal histories. Local criminal justice agencies are unable to report in an adequate manner when they have to stretch their budgets and personnel to the limits just to get their core duties accomplished. In order to achieve complete, accurate, and timely criminal history records, cooperative efforts of all the components of the criminal justice system must be implemented.

### **PROGRAM DESCRIPTION**

Given that each component of the criminal justice system is responsible to a different authority (such as the circuit courts to the State Courts Administrator, prosecutors and sheriffs to their constituencies and police to the mayor or city manager), no one agency can effectively support all elements of the criminal history system. This program is designed around a support structure to address each component. Through cooperative efforts, law enforcement, prosecutors, and courts will provide an integrated solution to improve the completeness, accuracy and timeliness of Missouri's criminal history records. The local criminal justice agencies will be provided with equipment, software and training for the automation and integration of systems for the improvement of the criminal history reporting capabilities. The implementation of law enforcement case management, prosecutor case management and courts case management systems will provide statewide access for users. Once local agencies are automated and linked to the state criminal record repository, the federal criminal files, state and federal wanted files and other databases become a substantial tool in fighting crime and protecting our citizens. A totally automated system is being developed where each agency with reporting responsibilities interacts directly with the criminal history system to provide the required information for the record event under their jurisdiction. The Central Repository would then be responsible for coordinating this effort and controlling the quality and dissemination of the records. They would also be available to assist any element of the system that encounter problems and be responsible for training on an as needed basis.

### **GOALS, OBJECTIVES, ACTIVITIES & PERFORMANCE MEASURES (PM)**

- Goal 1: Promote the timely collection of criminal history record information from all criminal justice agencies within the State of Missouri and store these records at Missouri Criminal Records Repository.
- Objective 1: Develop a comprehensive information and training program to assist agencies in complying with mandatory criminal history records reporting requirements.

PM: 1 - Representatives from the courts, law enforcement and prosecution will meet monthly to develop an automation plan.

2 - A training program is developed.

3 - Number of sites where training and assistance is provided.

Objective 2: Provide equipment and software systems for automating criminal justice agencies.

PM: 1 - Counties throughout the state will be scheduled for implementation of systems.

2 - Teams will install hardware and software and train criminal justice personnel based upon the implementation schedule.

3 - Number of counties automated.

## **PROGRAM ACTIVITIES/COMPONENTS**

All projects funded through this program must:

- Identify the various criminal justice agencies providing input to the criminal history records system
- Provide a list of counties that are automated
- Provide a list of counties where training and assistance is provided
- Provide bid specifications on equipment
- Provide reports showing increase of criminal records being reported
- Submit monthly report of expenditures
- Submit quarterly progress reports
- Be monitored during the contract period

## **EVALUATION METHODS**

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress, as well as any impediments preventing the program from being successfully completed at the end of the contract period. The fourth quarter status report shall cover the total grant period and address all evaluation criteria items described.

## **EVALUATION RESULTS (ER)**

### **OBJECTIVE 1 (ER)**

- Grant task force representatives consisting of Missouri State Highway Patrol, Office of State Courts Administrators, Department of Public Safety, and members of the Law Enforcement community from around the state.
- Personnel of the MSHP, Office of State Court Administrator and a State Court representative provide training for Missouri Law Enforcement and Court Agencies.
- Data is not available regarding the number of sites where training and assistance was provided during this reporting period.

### **OBJECTIVE 2 (ER)**

- The Prosecutor/Dialog case management system was installed in eight pilot counties, five of the counties are utilizing the system. The remaining three counties are experiencing conversion difficulties but are on the way to complete system acceptance. Enhancements were designed and implemented in the system strictly for the prosecutor offices in Missouri. Eleven counties with no conversion issues are scheduled to receive the system by year-end.

- The MSHP FTE's performed grant administration tasks, provided technical assistance for county equipment configurations, configured the equipment for county prosecutor officers, assisted in the conversion of MOPICS data to Prosecutor/Dialog, assisted in the development of the pilot counties and developed a prosecutor/dialog statewide roll-out schedule for Missouri.
- The state courts administrator FTEs maintained MOCIS/ACMS software and equipment, provided help desk support and training, conducted site visits to repair equipment, installed infrastructure and case management software, and supported court criminal justice information system development and maintenance.
- Five Counties are utilizing this system.

**Edward Byrne Memorial State and Local Assistance Program**-The Missouri State Highway Patrol in conjunction with the Office of the State Courts Administrator and the Missouri Office of Prosecution Services completed another successful year under the Edward Byrne Memorial State and Local Assistance Program. Program accomplishments-The Prosecutor/Dialog case management system was installed in eight pilot counties, five of the counties are utilizing the system. The remaining three counties are experiencing conversion difficulties but are on the way to complete system acceptance. Enhancements were designed and implemented in the system strictly for the prosecutor offices in Missouri. Eleven counties with no conversion issues are scheduled to receive the system by year-end. The MSHP FTE's performed grant administration tasks, provided technical assistance for county equipment configurations, configured the equipment for county prosecutor officers, assisted in the conversion of MOPICS data to Prosecutor/Dialog, assisted in the development of the pilot counties and developed a prosecutor/dialog statewide roll-out schedule for Missouri. The state courts administrator FTEs maintained MOCIS/ACMS software and equipment, provided helpdesk support and training, conducted site visits to repair equipment, installed infrastructure and case management software, and supported court criminal justice information system development and maintenance.

## **MISSOURI HIGHWAY PATROL –NCAP DATA ANALYSIS**

**Number of Sub-grants: 1**

**Number of Sites: 1**

**Federal Funds Awarded: \$281,128.00**

### **PROBLEM STATEMENT**

The Missouri Department of Public Safety – Narcotics Control Assistance Program (NCAP), contracted with the Missouri State Highway Patrol – Statistical Analysis Center (SAC) to administer the evaluation component of the NCAP program. DPS and SAC staff has worked in coordination with one another to develop and implement an evaluation plan in support of the programs funded through the NCAP program. The data obtained through the evaluation plan will assist the NCAP staff in determining the effectiveness of funded programs.

### **PROGRAM DESCRIPTION**

Project evaluation designs have been developed for NCAP projects having unique missions and performance indicators. All evaluation designs were based on individual project participants submitting quarterly progress reports followed by an end of contract report covering the total contract period. The implementation of the project involved the development of an automated information reporting system, which includes file input and output software, file maintenance software and quality control software. The development of this capability is an invaluable tool for the NCAP program.

### **PROGRAM ACTIVITIES/COMPONENTS**

- Assist the MDPS – NCAP in the collection of statistical data
- Collect and correlate data received through the NCAP quarterly report
- Assist in the development of program related surveys and evaluation methodology

## **EVALUATION METHODS**

The grantee is required to submit quarterly progress status reports on this project. Quarterly status reports should describe work completed and work in progress.

## **EVALUATION RESULTS (ER)**

**Administrative Data Analysis and Problem Identification Program**-Three Statistical Analysis Center employees were utilized under the NCAP program. All three played a significant role in the success of the project. Attended seminars to sharpen their analysis skills, conducted the trend analysis supporting the 99 Strategy Update and published the Update, conducted trend analysis for the year 2000 Illicit Drug and Violent Crime Strategy, provided technical assistance and published numerous reports to Local and State criminal justice agencies, conducted surveys and interviews of the analysis of drugs and violent crime, developed evaluations designees for all NCAP grantees and reviewed all progress reports submitted; provide assistance in the State Annual Report and provided technical assistance in development of the UCR summary-based and NIBRS information system. Our CRID employee was utilized under this program also. This employee provided technical assistance in the upgrade of the Criminal History Record System, (CHRS) developed training programs to improve the reporting of criminal history records, performed quality control on programs to monitor CHRS fingerprint and case disposition reporting compliance, developed and distributed a Division Brochure and presented lectures on UCR program, criminal history reporting, fingerprint card completion and disposition submission.

## **INNOVATIVE PROGRAMS**

**PURPOSE AREA: 501(16)**

**Number of Sub-grants: 1**

**Number of Sites: 1**

**Federal Funds Awarded: \$246,696.00**

### **Missouri Department of Natural Resources- Meth Lab Cleanup Assistance- DPS**

This funded project assisted the Environmental Emergency Response (EER) section of the Missouri Department of Natural Resources (DNR) with the cleanup of hazardous waste associated with clandestine methamphetamine laboratories. The EER section has provided training, expendable supplies, personal protective gear, and investigative tools to local hazardous material teams and law enforcement agencies throughout the State of Missouri. The EER section has responded to provide proper management, control, and disposal of hazardous materials related to illegal production and/or transportation of controlled substances.

## **PROBLEM STATEMENT**

Methamphetamine use and production is quickly becoming the number one criminal problem in State of Missouri, according to the Missouri Department of Public Safety (DPS). In conjunction with methamphetamine use and production is the cost of collecting, removing, storing and disposing of hazardous materials associated with methamphetamine laboratories.

## **PROGRAM DESCRIPTION**

EER staff provided training, supplies and equipment to law enforcement, fire departments, hazardous materials response teams, and other organizations. Participating agencies were taught the proper techniques of safely packaging and managing clandestine drug lab chemicals. Self-contained breathing apparatus (SCBA), respirators, other personal protective gear, supplies, and equipment were furnished to participants upon completion of training. This provided the necessary training and equipment for those individuals to perform their job safely and with reduced risk of injury to themselves, others around them, and the environment.
