ACKNOWLEDGEMENTS

Preparation of this report was the responsibility of the Statistics Division, National Institute of Law Enforcement and Criminal Justice, Law Enforcement Assistance Administration. The original planning was the responsibility of Linda Wells. This report was prepared by Karen Joerg. A statement covering definitions and limitations of data was prepared by the Bureau of the Census. Under LEAA design specifications, the Bureau of the Census conducted the directory survey and prepared the tabulations. The Federal Bureau of Investigation provided valuable assistance in the development of the code identifiers, and in the verification of some entries, particularly in the law enforcement sector.

FOREWORD

Under Title 1 of Public Law 90-351, the Law Enforcement Assistance Administration is authorized "to collect, evaluate, publish, and disseminate statistics and other information on the condition and progress of law enforcement in the several States". In partial response to this authorization, LEAA's Statistics Division of the National Institute of Law Enforcement and Criminal Justice entered into an inter-agency agreement with the U. S. Bureau of the Census to conduct a survey in January of 1970 to develop a National Criminal Justice Directory.

The primary emphasis of the directory survey was to obtain the names and addresses of all criminal justice agencies and institutions in the United States. This report presents the individual names and addresses of enforcement agencies, courts (civil as well as criminal), prosecutors' offices, defenders' offices, adult correction agencies, juvenile correction agencies, probation offices, and "other" agencies in Iowa, and counts of agencies by level of government and sector (enforcement, courts, corrections, etc.). While summary national statistics are given in this report, more detailed national findings and a description of the survey methodology may be found in the report "Criminal Justice Agencies in the United States - 1970 - Summary Report" (LEAA - Statistics Division, Report SD-D-1).

The directory is periodically updated. The counts that appear in this volume are as of October 1971 and therefore differ somewhat from those in the Summary Report.

NATIONAL SUMMARY

According to the national directory survey of criminal justice agencies, there are 46,197 public agencies in the criminal justice system which are administered at the state or local government level. This total was based on a census of all publicly financed agencies dealing with crime, criminals, or the administration of criminal justice. The census was conducted in January of 1970 in each state and county of the United States, plus all municipalities and townships with a 1960 population of 1,000 or more persons. The figures and list of agencies in this report represent the most recent update of the directory--October 1971. The numbers therefore may differ somewhat from the counts cited in the Summary Report which provided data as of January 1970.

The results indicate the dispersion within the criminal justice community of the various types of agencies. For example, there are 14,901 ^{1/} enforcement agencies in the United States, of which over 14,000 are operated at the local level of government. It should be noted, however, from other available evidence ^{2/} that state-operated agencies are about 11 times larger on the average than local agencies, in terms of full-time personnel.

There are almost as many courts (13,033) as there are enforcement agencies (14,901). Not all courts, however, address all levels of crime, as do the general police agencies. This survey contains information, for example, about a number of courts which are not technically in the criminal justice system, such as probate courts and family relation courts. About seven-eighths of the courts surveyed are operated at the local level of government.

^{1/} According to the 1967 President's Commission on Law Enforcement and Administration of Justice, Task Force Report: The Police, page 7, there may be as many as 25,000 other police agencies in jurisdictions not covered by the directory survey, that is in townships, boroughs, or villages of under 1,000 population. More recent efforts place this number closer to 10,000, and the Statistics Division is planning to survey this sector of the criminal justice system.

^{2/} See, U. S. Department of Justice, Law Enforcement Assistance Administration and U. S. Department of Commerce, Bureau of the Census, Expenditure and Employment Data for the Criminal Justice System, 1968-69.

About one-fifth of the agencies identified deal with prosecution and defense. Prosecutors' offices, however, outnumber defenders' offices by a factor of 22 to 1; 8,487 to 378. Almost 30 percent of the defenders' offices are state operated but only 7 percent of the prosecutors' offices are operated by state governments.

There are 5,312 (11%) corrections agencies, including 4,503 for adults and 809 for juveniles. Probation offices account for another five percent (2,444 agencies), with the remaining four percent (1,642) of the "other" agencies consisting of such diverse functions as police academies, courts administration, state planning agencies, juvenile boards, and others. Local administration handles about nine in every ten of the adult correction facilities and three in every four of the probation offices.

In general, the concentration of agencies at the local level of government spans the range of criminal justice activities. Only those specialized agencies in the "other" category are more likely to be found at the state level of administration. Sixty-nine percent of the "other" agencies are state operated.

LIMITATIONS OF DATA

Readers should be cautious in interpretations of these counts, keeping in mind that this survey did not include agencies of those municipal governments with a 1960 population of less than 1,000. The figures in this report reflect the October 1971 update of the directory, particularly in the courts sector and the juvenile corrections sector, and consequently may differ from the figures presented in the Summary Report (Statistics Division Report SD-D-1). Moreover, in deciding whether an agency belonged in the directory or not, the general rule was to be inclusive rather than exclusive.

While numbers will help describe the scope and diversity of the system, the size and range of activity of criminal justice agencies within a state may not always be reflected by simple counts of agencies. Organizational complexity varies considerably from one governmental unit to another, even within a single state. Of the categories enumerated in the directory, the counts of local adult correctional facilities are the most reliable due to the refinement of this sector through the National Jail Census conducted in the Spring of 1970.

DEFINITIONS OF LEVELS OF GOVERNMENT

The criminal justice agencies reported were classified by type of government (state, county, municipality, or township) according to Census Bureau definitions as summarized below:

Counties

Organized county governments are found throughout Iowa, the total of such governments being 99.

Cities

This category includes all active governmental units officially designated as cities, villages, towns, and boroughs. This concept generally corresponds to the "incorporated places" that are recognized in Census Bureau reporting of population and housing statistics. Municipalities which are governmentally inactive were excluded from the survey.

Townships

In Iowa, most township functions are handled by the county governments. Therefore, townships are treated in Census statistics as adjuncts of the county governments, and are not counted as separate governmental units.

Regional Agencies

An agency serving more than one local government was generally assigned to either the largest government involved or to the next highest level of government, depending on the type of agency involved. However, classification was often based on the unique factors involved in the particular case and a complete explanation of procedures would be impractical.

DEFINITIONS OF TYPES OF CRIMINAL JUSTICE AGENCIES

Names of criminal justice agencies were collected and classified under the following headings:

1. Courts
2. Enforcement agencies
3. Correctional institutions
4. Probation and parole agencies
5. Prosecutors
6. Public defenders
7. All other criminal justice agencies

Following is a more detailed explanation covering the types of agencies included in these categories and some comments concerning their limitations.

Courts

The survey included appellate courts, major trial courts of general jurisdiction, special courts (probate, juvenile, family, domestic relations courts) as well as other courts of limited jurisdiction (county, municipal, justice, magistrate, mayor, traffic and police courts).

Specifically excluded from the survey were minor courts of nominal participation in the criminal justice system where the judge's compensation was exclusively on a fee basis (unsalaried). Also excluded were Workmen's Compensation Boards, Bank, Tax, and Industrial Review Boards and Land Courts.

The counts for the "courts" sector include only independent court systems. Sub-units (divisions, departments, bureaus or branches), regardless of function or importance, were excluded.

Courts were classified by level of government based primarily on the geographical boundaries of the district served by the court. The Supreme Court of Iowa and the District Courts were included at the state level of government. Those Justice of the Peace Courts in which the justice is salaried were counted at the county level of government. Reported at the municipal level are Municipal Courts, Superior Courts, and Police Courts and Mayor's Courts in which the justice or mayor is salaried for his judicial activities.

Enforcement Agencies

Included in this sector are state, county, and municipal police or law enforcement agencies with sworn police officers.

Included are all major law enforcement agencies, including the state police, state bureau of investigation in some cases, the county sheriff and police department and county detectives, as well as municipal police departments. Included also are all identifiable and independently administered Park Ranger, Harbor Police, Airport Police, Housing Police, and Transit Police agencies with 50 or more sworn officers, and some smaller forces. Excluded are branches, divisions, or departments of a main law enforcement agency. For example, the Juvenile Division of a sheriff's department would not be counted as an independent law enforcement agency.

Those counties, cities, towns, and villages whose police services are provided for under a contractual agreement with another government or private agency were not considered to have a police department.

Marshals and constables whose primary duties are the serving of warrants were excluded from the survey where they were identifiable. Regulatory agencies were not included in most instances. Game Wardens, Alcoholic Beverage Control Boards, Bingo Boards, Gambling Boards and the like were excluded unless they operate a force of 50 or more sworn police officers.

It should be noted that state, county and municipal medical examiners and coroners were included in this sector.

Correctional Institutions

General Definition -- An individual facility, such as a prison, jail, farm, or annex, which is either separately administered or administratively dependent upon a parent institution and located in a separate geographical area. Hospitals for the criminally insane and halfway houses for narcotic addicts and alcoholics were not counted in this sector but in the "all other criminal justice agencies" sector.

Juvenile Correctional Facilities -- Included are those facilities which detain juveniles only, for 48 hours or more.

This includes detention centers, reception and diagnostic centers, some halfway houses and other probation or work-release type facilities; that is, institutions detaining juveniles for court disposition as well as those holding juveniles for rehabilitation after court disposition. At the local level of government an agency was considered to be a juvenile agency if the administrator considered it as such. At the state level, facilities were assigned juvenile status if they were administered by the state juvenile corrections agency (the Bureau of Family and Children's Services).

Adult Correctional Facilities -- Included are those institutions which detain adults only or a combination of prisoner populations. Drunk tanks, lock-ups and other facilities which detain persons for less than 48 hours are excluded.

Probation and Parole Agencies

Included are probation and parole departments, commissions, boards or agencies operated by the state or local government, including those administratively dependent on the courts. The assignment of a probation officer to a particular level of government was an involved process related to both the type of area served and administrative responsibility. As a rule, a probation department serving more than one county was assigned to the state level of government. Probation services provided on a contractual basis were not included.

Prosecutors

Included are agencies giving legal counsel to the county, municipal, or state government, most of whom have at least minimal prosecutorial responsibility.

Deputy prosecutors or deputy district attorneys and deputy circuit solicitors were not included separately, but were considered a part of the main prosecutor's office. Many city attorneys were included though they may prosecute few cases. It is virtually impossible to verify the prosecutorial nature of each city attorney's duties due to the large numbers of agencies involved. Consequently, city attorneys were included unless it was specifically stated that the attorney does not prosecute cases.

Wherever possible, welfare fraud investigators and similar activities were excluded from this category.

Public Defenders

Included in this category are state or city-dependent law schools with legal aid clinics, as well as public defender offices in the government. Court-appointed attorneys were not included.

Public defender offices are included where these are publicly financed and administered as a department of government. Any organization administered by a non-governmental body (legal aid society, bar association) was excluded even though supported entirely by public funds.

Other Criminal Justice Agencies

Included are any other criminal justice agencies operated by a government which could not be assigned to other categories, such as: police academies, crime commissions, grand juries, some identification bureaus, juvenile boards, court administrators, state planning agencies and regions where available, separate detention facilities or hospitals for the criminally insane, institutions, commissions, boards, or clinics for drug addicts and alcoholics, and administrative agencies such as a department of corrections or a department of public safety.

No attempt was made to include departments of colleges or universities with organized programs in fields of criminal justice.

CODE IDENTIFIERS

A seven or nine-digit code identifier was assigned to each agency in the Directory. Police agencies which have National Crime Information Center (NCIC) identifiers have retained this seven-digit number. All other agencies in the Directory were assigned a nine-digit identifier in accordance with the following scheme:

Digits 1-2	Two-letter state abbreviation
Digits 3-5	County number as designated by the NCIC Manual
	<u>Exception</u> - For Michigan, digits 3 and 4 are the county number; digit 5 is "0"
Digits 6-7	Unit number of agency by type within each level of government and county
Digit 8	Level of Government
	0Special District 1City, town, or township 3County 5State
Digit 9	Type of Agency
	A - Prosecutor D - Defender M - Coroner or Medical Examiner C - Correctional Institution J - Court G - Probation or Parole Y - All other agencies E - State Planning Agency Z - Police agency not in NCIC

A description of the seven-digit identifiers used in the NCIC may be found in the NCIC Operating Manual, which is maintained by the Federal Bureau of Investigation.

The code identifier is found on the last line of each agency's address in the directory.
