STATE OF NEW YORK  
DIVISION OF CRIMINAL JUSTICE SERVICES  
EXECUTIVE PARK TOWER  
STUYVESANT PLAZA  
ALBANY, NEW YORK 12203

April 1, 1975

TO: the Honorable Hugh Carey  
the Honorable Warren Anderson  
the Honorable Manfred Ohrenstein  
the Honorable Stanley Steingut  
the Honorable Perry B. Duryea, Jr.

The Division of Criminal Justice Services has the honor to submit the first annual New York State Felony Processing Report. Pursuant to Chapter 603 of the Laws of 1973, the Division has produced quarterly reports regarding the processing of felony cases in the courts. This annual report is a recap of the felony processing in the year 1974.

The information presented herein is based upon arrest data reported to the Division under Criminal Procedure Law Section 160.20, and upon information concerning indictments and their dispositions submitted by district attorneys on a voluntary basis.

The Division wishes to express its thanks to the District Attorneys of New York State and to the other individuals who participated in the preparation of the report.

## PREFACE

Chapter 603 of the Laws of 1973 require that the Division of Criminal Justice Services report quarterly to the Governor and the Legislative leaders, statistics concerning New York State felony processing. Since the Law has been in effect, DCJS has produced five such quarterly reports. This report, though not required by specific legislation, is the first annual Felony Processing Report. The report presents statistics for the full Year of 1974.

The primary objective of this data collection and reporting system is to supply useful and timely information to members of the criminal justice community. There may be instances where the total number of defendants reported is less than the actual number of indicted defendants processed through the felony courts. The reason for the possible discrepancy is that the Division is entirely dependent on the voluntary cooperation of the source agencies for the data. However, it is important to emphasize that the focus of these reports is on those patterns of felony processing that can be portrayed adequately on the basis of the data received, not on the total number of defendants processed.

The data presented in this report include both defendants indicted and defendants whose cases were disposed of during 1974. Because convictions are not reported until time of sentencing, the category "defendants disposed of" refers to any of the following types of cases:

1. Defendants convicted and sentenced during the year;
2. Defendants convicted during a previous year but not sentenced until the current year, and
3. Dispositions other than convictions during the year.

The exhibits included in the body of the report focus on three major geographical areas of the State - New York City, Suburban New York and Upstate. Suburban New York includes the counties of Nassau, Rockland, Suffolk and Westchester, areas characteristically different from either New York City or Upstate New York. In addition, similar information is presented by the Judicial Department in the Appendices.

These reports and the information presented therein may suggest certain additional data or exhibits of interest to specific readers. Such information, if available, will be provided upon request by DCJS.

Section 1  
YEARLY SUMMARY

FELONY ARRESTS

New York State Law Enforcement Agencies reported a total of 124,296 felony arrests to the Division.

Page  
Reference

5

In New York State, reported felony arrests for the Year 1974 were up 15% from 1973. Arrests for drug felonies increased by 12% and non-drug felony arrests increased by 16%.

5

In New York City, reported felony arrests for the year were up 14% over last year. Arrests for drug felonies increased by 7% and non-drug felony arrests increased by 15%.

5

In Upstate New York, which includes all counties except Nassau, Rockland, Suffolk, Westchester and those in New York City, reported felony arrests were up by 24%. Arrests for drug felonies increased 27% and non-drug felony arrests increased by 23%.

5

In Suburban New York, reported felony arrests were up 8%. Arrests for drug felonies increased by 2%, non-drug felony arrests by 10%.

5

New York City reported 47% of the total drug felony arrests for the State. Though less than 50% of the drug felony arrests were from New York City, 74% of all Class A drug arrest charges and 80% of all Class B drug arrest charges were reported by New York City.

5, 6, 7

Drug felony arrests accounted for 14.1% of all reported felony arrests for the State. In New York City 9.6% of the reported felony arrests were drug felonies. In Suburban New York and Upstate New York drug felonies accounted for 23.9% and 23.6% respectively of all felony arrests.

5

INDICTMENTS

District Attorneys throughout the State reported 34,435 indicted defendants in the Year of 1974.

11

For New York State, 57% of all reported indicted defendants were for Robbery, Burglary or Drug Offense.

11

The highest incidence of indictments in New York City was for Robbery (32%), Burglary indictments (31%) predominated in Upstate and indictments for Drug charges (23%) were the highest in Suburban New York.

11

Indictments for Sale of Controlled Substances accounted for about 63% of the drug indictments statewide.

12

In New York City and Suburban counties, indictments for Sale of Controlled Substances accounted for over 71% of all drug indictments. In the Upstate area, indictments for the Sale of Controlled Substances accounted for approximately 43% of all drug indictments.

12

Class A drug indictments accounted for approximately 48% of the total drug indictments reported. In New York City, over 75% of the drug indictments were for Class A drug charges.

12

DISPOSITIONS

A total of 28,010 felony defendant cases were reported disposed of during the Year 1974.

14

Convictions accounted for 78.4% of the reported dispositions statewide. For New York City, 76.1% of the dispositions reported were convictions. Suburban New York reported 82.7% conviction rate and Upstate reported 81.2% of the dispositions as convictions.

14, 15, 16, 17

The category "other court action", referring generally to consolidation of indictments or a plea to another indictment, varies according to county practices. This disposition applied to 9.9% of indicted defendants in New York City, 10.6% in Suburban New York and 7.2% Upstate.

15, 16, 17

Page Reference

FELONY ARRESTS

Subtracting "other court action" from total dispositions yields a net conviction rate of 84.4% in New York City, 92.6% in Suburban New York and 87.5% Upstate. 18, 19, 20

Guilty Pleas accounted for 93.4% of all reported convictions. 14

Of the 21,972 defendants convicted, 25.5% were convicted of the most serious charge in the indictment. An additional 33.5% were convicted of felonies in the same or next lower class as the one for which they were indicted. 39

Of the 1,479 convicted defendants who were indicted under the new drug law, 28.1% of those indicted for Sale, were convicted of the most serious charge in the indictment whereas the comparable figure for those indicted for Possession was only 16.5%. 44, 45

For defendants indicted on Class A Drug charges and convicted, 48% were convicted of the most serious offense in the indictments and a total of 82% were convicted of a Class A offense. 44, 45

Of the convicted defendants sentenced, 46% were sentenced to the State or Local correctional institutions and 44% sentenced to probation. 22

For those convicted defendants indicted under the new drug law, 37% were sentenced to State or Local correctional institutions and 55% received a sentence of probation. 31

PROCESSING TIMES

For New York State, the median time required to process felony cases resulting in dismissal or acquittal was more than twice as long as the median time to process convictions. 56

The median time for processing the 28,010 reported dispositions was 133 days from indictment to disposition. 56

The median length of time between conviction and sentencing was about 9 weeks for New York City, 8 weeks in Suburban counties and 3 weeks Upstate. 57, 58, 59

The felony arrest statistics presented in this section have been generated from the fingerprint file maintained by the Division of Criminal Justice Services. Since New York State Law requires that a fingerprint card be submitted to DCJS as a result of each felony arrest, the file is an excellent source of data concerning state-wide felony arrest activity.

The data describes felony arrests only, and therefore, does not necessarily reflect crime incidence for the same time period. In addition, felony arrests may not survive to become indictments, for many are disposed of in lower criminal courts or are weeded out by grand juries. And, because it is not yet possible to link felony arrests to indictments in a continuous data collection process, the relationship between arrest activity and subsequent criminal justice processing cannot be established.

Exhibit 2-1 presents the arrest figures for the Years 1973 and 1974. Exhibits 2-2, 2-3, 2-4 and 2-5 present the breakdown of drug charges for these same periods.

It should be noted that the figures in Exhibit 2-1 are for arrests and that the figures in Exhibits 2-2, 2-3, 2-4 and 2-5 are for arrest charges. Arrests may consist of more than one charge, therefore, total drug charges may exceed total drug arrests.

The arrests reported as major drugs are those felony arrests for Penal Law Article 220. The arrests reported as drug related are felony arrests for Public Health Law Article 3300 and for the following sections of Penal Law Article 200, which deal with bribery in drug cases, 200.04, 200.12, 200.22 and 200.27.

Exhibits 2-2 through 2-5 present figures for Class A drug charges. These charges stem from arrests involving crimes committed prior to September 1, 1973.

Section 3  
INDICTMENTS

The statistical gathering and reporting system which was developed in response to the Dangerous Drug Control Law has established a source of data which can be used in describing and analyzing New York State's felony processing from time of indictment through final disposition. This section will present information concerning felony indictments occurring during the Year 1974.

Below is a summary of the classifications of felonies used in these exhibits and in the exhibits of subsequent sections of this report.

- |                                       |                                           |
|---------------------------------------|-------------------------------------------|
| PL ART 105 includes conspiracy        | PL ART 165 includes other theft offenses  |
| PL ART 120 includes assault           | PL ART 170 includes forgery               |
| PL ART 125 includes homicide          | PL ART 200 includes bribery               |
| PL ART 130 includes rape              | PL ART 205 includes hindering prosecution |
| PL ART 135 includes kidnapping        | PL ART 215 includes bail jumping          |
| PL ART 140 includes burglary          | PL ART 220 includes drug offenses         |
| PL ART 145 includes criminal mischief | PL ART 225 includes gambling              |
| PL ART 150 includes arson             | PL ART 265 includes weapon possession     |
| PL ART 155 includes larceny           |                                           |
| PL ART 160 includes robbery           |                                           |

The unit of count in the reporting system is the defendant, not the indictment; therefore, statistics presented here represent numbers of defendants indicted on felony charges. If the indictment contains more than one charge for the defendant, the highest class charge is reported. When a conflict exists, i. e., one or more charges of the same class, the following priority table is used to determine which charge is reported.

- |                     |                                             |
|---------------------|---------------------------------------------|

Section 4  
DISPOSITIONS

During the Year 1974, the disposition of 28,010 indicted defendants was reported to DCJS. These dispositions, although somewhat fewer than the actual number of dispositions throughout the State, represent a sufficient sample to describe felony processing patterns for the adjudication process that begins with indictment and ends with final disposition.

To examine the disposition patterns of these indictments, felony defendant processing flow diagrams were created. The flow diagrams depict the various disposition "paths" that a defendant may follow. Exhibits 4-1 through 4-4 are for New York State, New York City, Suburban New York and Upstate New York. Appendix A provides similar flow diagrams by Judicial Department.

For each chart, the unit of count is the indicted defendant an individual who is indicted in two separate indictments is counted as two indicted defendants. The number entries indicate how many indicted defendants were processed through each disposition path. Except where noted, the percent figures measure the proportion of total indicted defendants that remain at each point on the diagram.

NET DISPOSITIONS

The differences in the regional use of "other court action" as a disposition may complicate the picture of felony processing. The disposition flows, referred to above, traced indicted defendants as a function of total indicted defendants whose cases were disposed of. By subtracting the "other court action" category from the total, net dispositions result. Net dispositions are defined as indicted defendants disposed of on the merits of the indictment (not by plea to another indictment or consolidation, etc.). Felony defendant processing flows showing net dispositions are presented for New York City, Suburban New York and Upstate New York in Exhibits 4 - 5 through 4 - 7.

DISPOSITION BY ARTICLE

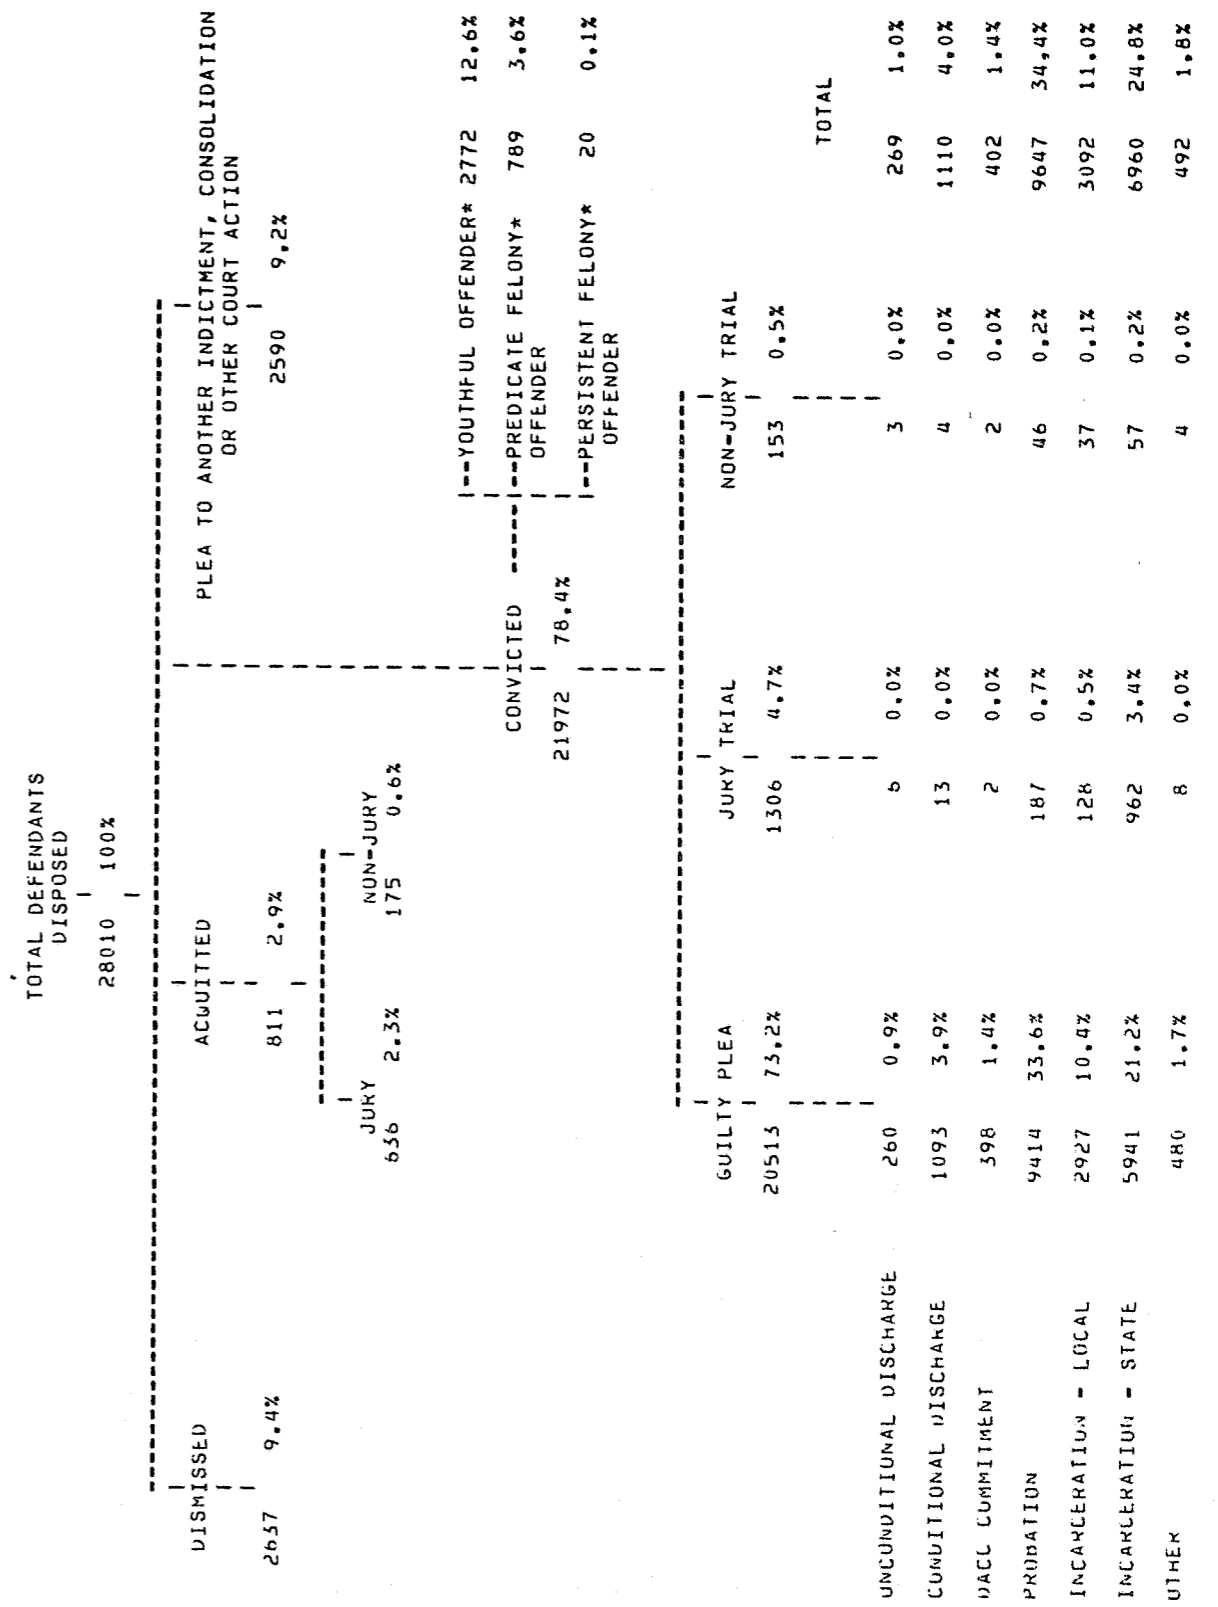

Exhibits 4 - 8, 4 - 10, 4 -12, and 4 -14 present the disposition patterns of felony indictments for New York State, New York City, Suburban New York and Upstate New York.

Exhibits 4 - 9, 4 - 11, 4 - 13, and 4 - 15 present the sentences reported for those indictments that resulted in a conviction.

Together, these Exhibits provide a tracking of indictments for specific types of felonies indicating what happened at different stages of the criminal justice process.

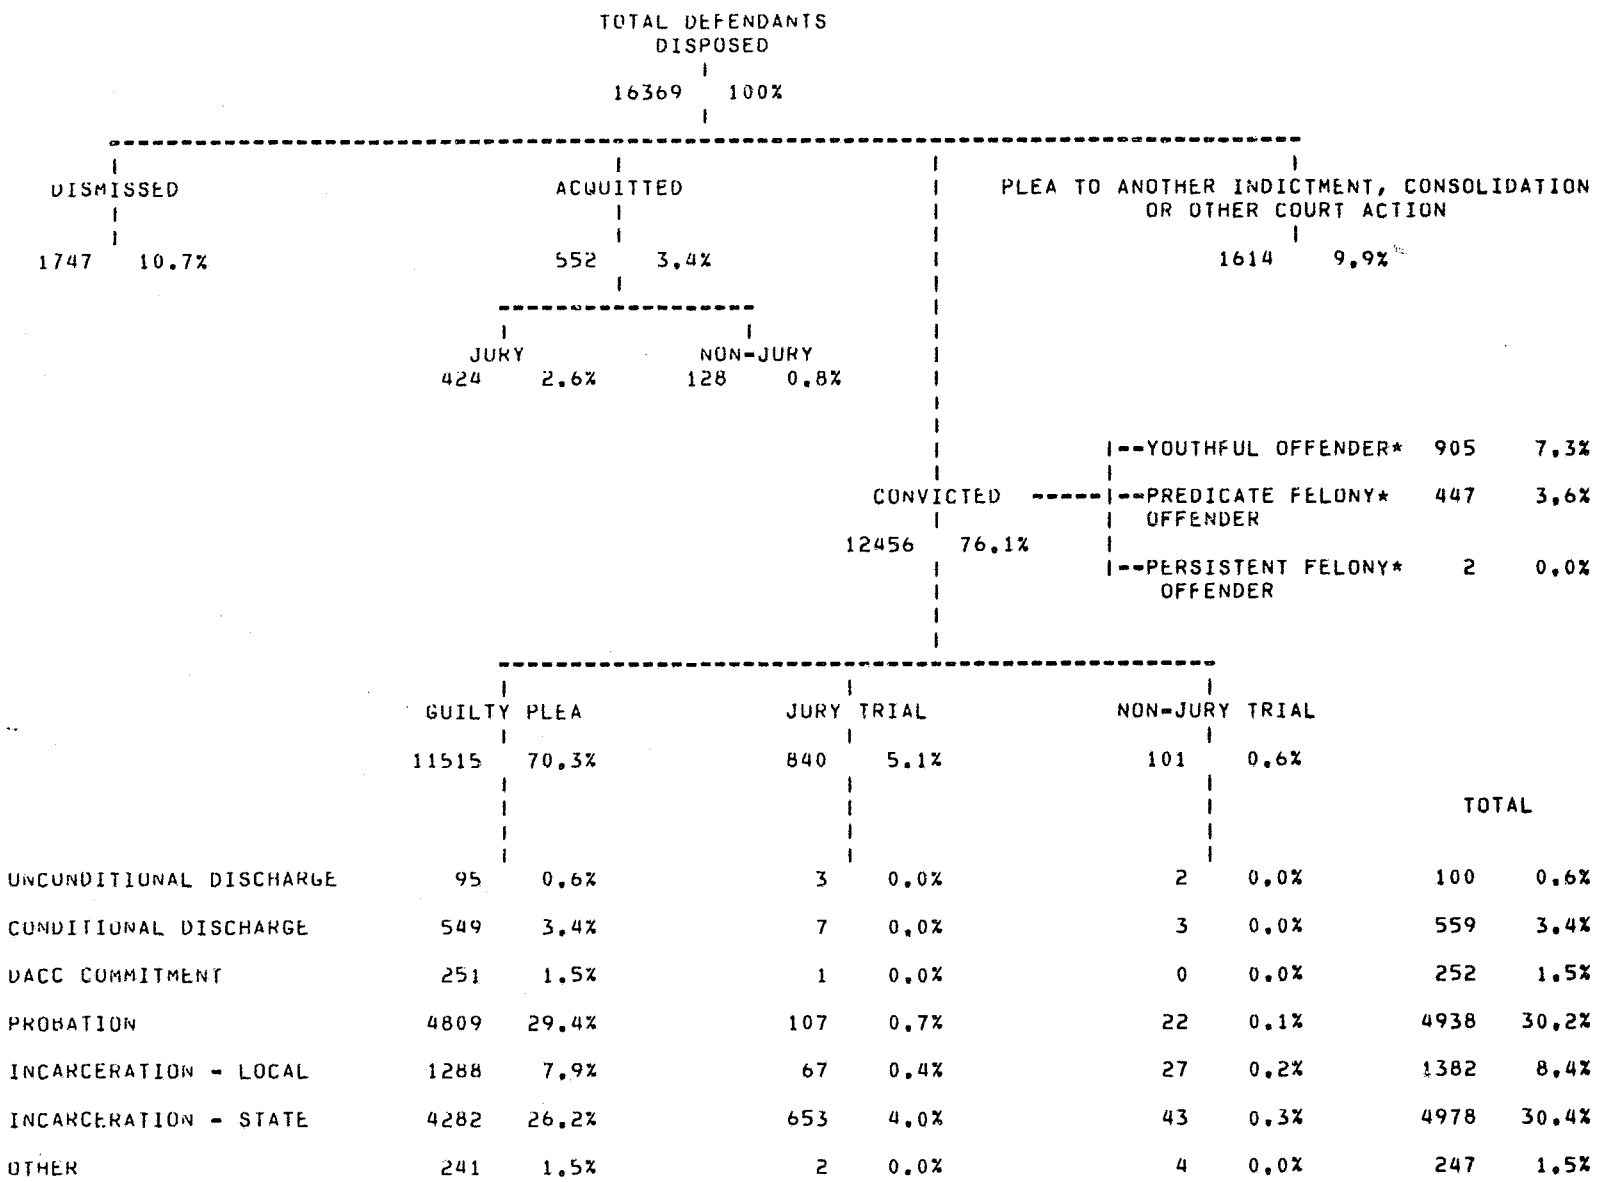

It should be noted that the sentences in Exhibits 4 - 9, 4 - 11, 4 - 13, and 4 - 14 are related to the indictment charges not conviction charges. Sentences for conviction charges can be found in Exhibits 4 - 31 through 4 - 34.

DRUG CHARGES

To highlight Felony Drug Case processing, the following tables were generated to depict the disposition and sentencing patterns of defendants indicted on drug charges.

Included in the row labeled "Other Drug Charges" are cases for crimes committed prior to 9/1/73.

The row labeled "Total Class A" is a total of the new Class A I, A II, and A III charges and does not include any of the old Class A charges.

INDICTMENT vs. CONVICTION CHARGES

For all convicted defendants, a comparison has been made between indictment charges and conviction charges in order to examine charge reduction during felony prosecutions. These comparisons are presented for convictions in New York State, New York City, Suburban New York and Upstate New York in Exhibits 4 - 24 through 4 - 27. The tables divide convicted offenses into three categories: (1) same offense as indictment offense; (2) same Penal Law article as indictment offense but different charge (subdivided to show the class of the convicted offense) and (3) different article than indictment offense (broken down by class). For example, Exhibit 4 - 24 indicates that for all New York State Class A felony indictments, 22.4% were convicted of the same offense, 66.9% of the same article but different offense (25.4% being Class B felony convictions) and 10.8% were convicted of an offense in another Penal Law article. Each column illustrates, similarly, the conviction charges for a particular class of felony indictments.

For felony cases involving multiple indictment/conviction charges per defendant, the data collection reports only the most serious indictment/conviction charge. Thus, the New York State totals in Exhibit 4-24 indicate that 25.5% of the defendants were convicted of the most serious indictment charge.

Exhibit 4 - 28 illustrates, for New York State reported convictions, the relationship between indictment charge and conviction charge for major Penal Law articles. The percentages represent the proportion of persons indicted in one category who were convicted in another. For example, 66.4% of persons indicted for homicide were convicted of homicide, while 15.5% were convicted of felonious assault.

Finally, Exhibits 4 - 29 and 4 - 30 show a similar statewide analysis of charge reduction for convictions of defendants indicted on drug sale or drug possession offenses within the new drug law.

DIVISION OF CRIMINAL JUSTICE SERVICES

SENTENCES BY CONVICTION CHARGE

Exhibits 4-31 through 4-34 present sentencing patterns for specific conviction charges in New York State, New York City, Suburban New York and Upstate New York respectively.

Exhibits 4-35 through 4-38 present sentencing patterns for conviction of specific drug felonies in the same four areas.

It should be noted that the variation in sentencing within a specific article can be attributed to the fact that many different class felonies, including attempts to commit these felonies, fall within the same article.

Caution is advised when comparing the Exhibits in this report with similar Exhibits in prior reports. The method of calculating the percentages has been changed.

For example, in Exhibit 4-31, the 48.9% reported on the first row under column heading Probation indicates that 48.9% of those cases in which the conviction charge was included in Penal Law Article 105 the resulting sentence was probation. In prior reports, this percentage figure would have indicated that 48.9% of all individuals receiving Probation were convicted of an offense under Penal Law Article 105.

Section 5

FELONY DEFENDANT PROCESSING TIMES

The use of offender-based statistics and the tracking of each case for each defendant from time of indictment until final disposition makes possible the measuring of elapsed times between various stages in processing.

Exhibits 5 - 1 through 5 - 4 are flow diagrams which summarize processing time for New York State, New York City, Suburban New York and Upstate New York, respectively. Processing times for defendants indicted on felony drug charges are presented in Exhibits 5 - 5 through 5 - 8. Exhibits 5 - 9 through 5 - 12 present the processing times for defendants indicted under the new Dangerous Drug Control Law. Processing times for defendants indicted on Class A Drug Charges under the new law are presented in Exhibits 5 - 13 through 5 - 16.

Processing times for these same categories by Judicial Department are found in the Appendices.

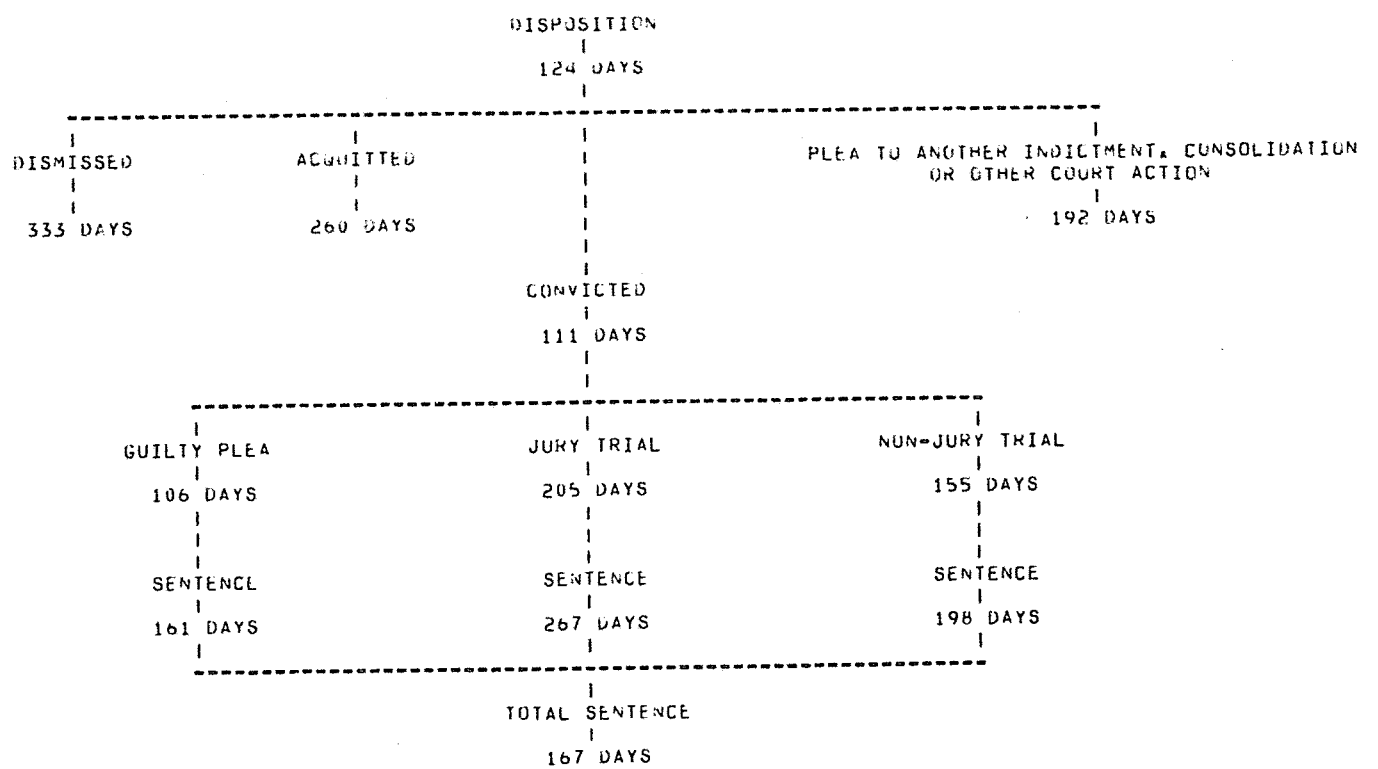

The times used in the flow diagrams are median days. The median is obtained by ranking all the values in a specific category (e.g., time from indictment to disposition) and choosing the middle number -- that is, the value with an equal amount of numbers above and below it. As a result, median values are not influenced by very large or very small numbers the way "average" values are.

At the top of each exhibit the value associated with the term "disposition" is median days from indictment to disposition, regardless of type. The diagrams then branch to show median days from indictment to specific type of disposition. Similarly, the numbers associated with "convicted" and "total sentence" represent times from indictment to conviction and sentencing for all convictions, regardless of type of processing. The branches for "guilty plea", "jury trial" and "non-jury trial" differentiate between processing times associated with the types of proceeding by which a conviction was obtained.

Some of the processing times contained in the diagrams appear quite large especially in the area of "maximum" times. This may be caused by several characteristics of felony processing: some of the cases were not covered by the rules governing speedy trials, and may result in high processing times; the nature of homicide and rackets cases tends to slow processing; interim commitments to mental facilities result in prosecution continuing over long time periods.

APPENDIX F  
DCJS-1020 FORM USED TO COLLECT DATA

**FELONY INDICTMENT and PROSECUTION  
REPORT**

CONTROL NUMBER  
**57107**

**INSTRUCTIONS**

- This is a two part reporting system for indictments handed up after Aug. 31, 1973.
  - Submit "INDICTMENT DEFENDANT INFORMATION" sheet when indictment is handed up.
  - Submit "PROSECUTION INFORMATION" sheet at:
    - Final disposition, if not convicted.
    - Sentence, if convicted.
 (When "PROSECUTION INFORMATION" becomes available for defendants indicted prior to Sept. 1, 1973, submit completed sections A and B.)
- The unit of court is the defendant; complete a separate form for each defendant indicted.
- To report highest class charge, select "top count" on indictment; when conflict exists, refer to Priority Sequence of Felony Offenses.
- Thank you. Please submit completed forms to:
 

DCJS - Statistical Control Unit  
Executive Park Tower  
State Court Plaza  
Albany, New York 12242

## FELONY PROCESSING REPORT

Attached is the first Annual Report on the processing of felony cases in New York State.

The report covers the period January through December 1974 and shows statistics on the number of defendants who were arrested, who were indicted, whose cases were disposed of, and who were sentenced.

The report shows useful information on patterns of felony arrests and subsequent handling of felony defendants.

The information in the report, however, should not be used at this state to assess the deterrent value of penalty provisions or to measure the precise workloads and resource needs of the courts and related criminal justice agencies.

### BACKGROUND

Basic Focus. The information in this report is organized and summarized to show on a geographic basis:

- How many felony arrests occurred; and of that total, how many arrests involved drug charges.
- How many defendants were indicted for specific types of felonies (e.g. assaults, burglaries, drug crimes, homicides, rapes, robberies, etc.); and
- What happened to defendants indicted for felonies at different stages of the criminal justice process.

Limitations. With respect to the above, it should be stressed that:

- While the number of felony arrests reported during the year represents over 95 percent of the total felony arrests that actually occurred during the year;
- The number of reported felony indictments, dispositions, and sentences represent smaller and varying percentages of the total felony processing activity which actually occurred in each category.

The reported information on indictments, dispositions, and sentences is adequate to identify certain basic trends, such as the following, which relate more to the way in which defendants are being handled within geographic area than to the overall workload of the courts and related criminal justice agencies:

- What proportion of reported indictments were for each specific type of felony?
- What proportion of defendants whose cases were reported as disposed of were convicted, acquitted, or dismissed?

- For each type of felony, what proportion of the defendants were sentenced to incarceration, placed on probation, or given some other type of sentence?
- For the defendants indicted, what were the median number of calendar days required to dispose of their cases through sentences, acquittals or dismissals?

Comments on Limitations. The information on indictments, dispositions, and sentences is being provided on a voluntary basis by the district attorney offices across the State.

Fortunately, because of the high degree of cooperation afforded by the district attorney offices, the volume of occurrences being reported is sizeable enough to provide meaningful indications of the overall trends mentioned above.

The Division of Criminal Justice Services, in cooperation with the courts and other criminal justice agencies, currently is in the process of developing an Offender Based Tracking System, which, when it becomes operational will replace the current method of collecting indictment, disposition and sentencing data.

In addition to the current information on arrests, this new system, and another system now being developed will produce complete, up-to-date information on reported incidents and on indictments, trials, dispositions and sentences.

Thus, the information provided under these new systems will make it possible to continue evaluating basic trends and at the same time to measure workloads.

### YEARLY HIGHLIGHTS

Given the above background, some of the highlights shown in the felony process report for the State as a whole are the following:

Arrests. Arrests for all felonies totaled 124,296; up 16,300 or 15.1 percent.

Arrests for drug felonies totaled 17,472; up 1,878 or 12.0 percent over 1973 figures.

Drug Charges. The 17,472 individuals arrested for drug felonies were arrested on 22,697 drug felony charges.

Of the total reported drug charges, 5,597 or 25 percent were for Class A felonies; up 4,276 over 1973 figures.

Indictments. Reported indictments totaled 34,435 with robbery (22.6 percent), burglary (16.8 percent), and drug felonies (18 percent) accounting for 57 percent of the total number of reported indictments.

Dispositions. Reported dispositions for all felonies covered 28,010 indicted defendants; of whom 21,972 or 78 percent were convicted. Reported dispositions for all drug felonies covered 4,250 indicted defendants; of whom 3,160 or 74 percent were convicted. The 4,250 drug dispositions included 1,993 defendants indicted under the terms of the new drug law and 1,479 or 73 percent of these dispositions were convictions.

Convictions. Of the reported 21,972 defendants convicted, 5,592 or 26 percent were convicted of the same offense for which they were indicted. Another 7,062 defendants were convicted of felonies in the same or next lower class as the one for which they were indicted.

Sentencing Patterns. Of the reported 21,972 defendants convicted, 10,454 or 47 percent were sentenced to State or Local correctional institutions or committed to drug facilities.

Of the reported 3,098 defendants convicted of drug charges, 1,185 or 38 percent were sentenced to State or Local correctional institutions or committed to drug facilities.

Processing Times. With respect to dispositions, the median time for processing all 28,010 defendants indicted on felony charges, from indictment to disposition (e.g. dismissal, acquittal, or conviction) was 133 days and for those who were convicted, the median time from conviction to sentencing was 48 days.

#### CONCLUSION

The regional variations in the above Statewide trends are described in the attached yearly report.

It is important to stress again that, with the exception of arrest statistics, these trends are based on partial samples and that there has not been sufficient time at this point to analyze the reasons for or significance of seasonal and regional trends.
