ABSTRACT The career exploration program for grades 9 through 10, as part of a comprehensive K through 10 career development program, attempts to develop an awareness of and appreciation for work, extend knowledge of the variety of career opportunities, and provide experiences in career areas of individual interest. The document, a collection of materials consisting of student learning experience packets and resources, is designed to introduce the students to careers in law enforcement. The introduction includes a definition of the career area, course objectives, course strategies, a suggested time table, and careers explored in the course. The exploration activities, organized according to objectives, activities, and resources, examine the careers of: patrolman, policewoman, police detective, crash squad patrolman, police laboratory specialist, vice squad, park police, and special agent (FBI). Teaching strategies include a study of the student attitudes toward authority and law enforcement agencies, interviews, a self-analysis quiz, discussion, individual and group work, small group exploration trips and self-evaluation. The appendix contains: suggestions, procedures, and forms for exploration and field trips; resources; civil service job descriptions; weekly salary schedule of police employees; and supportive roles in law enforcement. ## CAREER DEVELOPMENT

The Career Development Program responds to the needs of students, taxpayers, and employers for the public schools to provide personal, social, and economic relevance in the educational process. It is an integral part of the educational process essential to the development of all students.

The Career Development components, which are Career Motivation (K-6), Career Orientation (7-8) and Career Exploration (9-10), develop an awareness and appreciation for work, extend knowledge of the variety of career opportunities, and provide experiences in career areas of individual interest. These goals are accomplished through a curriculum based on pupil activities involving simulation, role playing, and individual investigation. These activities require that administrators and teachers develop a new level of working relationships with community resources such as public institutions, business, labor, and industry.

Every individual's right to learn what he or she needs in order to be a producing, participating member of society is a fundamental responsibility of education. Each individual also has a right to self-fulfillment. Career Development, presented as inseparable elements inherent within every level and subject area of the school curriculum, provides each student with the skills and insights to recognize and pursue goals of personal significance. As a result of this program students will increase their abilities to make well-informed and experience-based decisions related to their personal life, school program, and career selection.

  
Donald R. Waldrip, Superintendent  
Cincinnati Public Schools

## CAREER EXPLORATION

Career Exploration is the 9th and 10th grade component of the Career Development Program. Its primary goal is to provide experiences related to career areas chosen by the student. Focus is on the student's perception of himself or herself in relation to the real world of career opportunities. Emphasis is on individualized and personalized activities and experiences.

The student chooses and studies a specific career area using skills and insights gained in earlier parts of the Career Development Program. Students explore occupations within the chosen area with particular attention to those most closely related to their own needs, interests, and abilities. They will experience some of the satisfactions, opportunities, limitations and frustrations peculiar to the various occupations.

Career Exploration is planned as the culmination of the Career Development Program. Successful exploratory experiences will enable the student to formulate and refine realistic and personally meaningful career goals. These experiences will also provide a basis for planning a course of studies in the 11th and 12th grades (and beyond) pursuing career goals.

## FOREWORD

This manual is one of a series produced by the Cincinnati Public Schools as a part of a project designed to provide Career Exploration for students in grades 9 and 10.

It is designed to provide activities and information about an Occupational Area that will provide a more in-depth study than presented in Career Orientation in grades 7 and 8.

This is a tentative guide and has been developed for the purpose of field testing and revising based upon feedback from participating teachers.

The manual was developed by Brach Strong, a school counselor at Schwab Junior High School, and Mel Rutherford, a Social Studies teacher at Campbell Junior High School. The course was revised in 1973 by Mel Rutherford. Jack Ford, an instructional consultant, conducted the curriculum development under the general supervision of Mr. Ralph E. Shauck, Coordinator of Instructional Services.

## I. INTRODUCTION

### A. Definition of Career Area

Careers in Law Enforcement are concerned with protecting the public; maintaining law and order; detecting and preventing crime; directing and controlling motor and pedestrian traffic and investigating and arresting suspects in criminal cases.

Law Enforcement agencies are basically set up on four levels, city, county, state, and federal. The size of a Law Enforcement Agency may vary from a small 3 or 4 man force in a rural town, to a large 31,000 man force in New York City. Employment opportunities are expanding in this field. The fact that policemen tend to retire at an earlier age than workers in most other occupations and that major cities are expanding their forces and adding new programs account for the expanding opportunities. Earnings averaged between \$8,500 - \$10,000 nationally. As of 1970 there were 330,000 full-time policemen and police-women employed across the United States.

### B. Course Objectives

1. To help the student identify a limited number of careers in Law Enforcement.
2. To help the student identify the qualifications necessary for these occupations.
3. To help the student identify the responsibilities and duties associated with the careers in Law Enforcement.
4. To help the student identify the many benefits, both tangible and intangible, associated with Law Enforcement.
5. To help the student develop acceptable standards of behavior, such as desirable personality, emotional control, dependability, responsibility, and loyalty.

### C. Course Strategy

The class as a unit will follow the same schedule, moving through the activities together. The class could explore all the activities during the ten week course, but the most important part of the course is that they understand what they cover. The field trips, films and other resources are intended to be used by all the students at the same time, due mainly to the problem of scheduling these items.

#### 1. Introductory Activity

Before the students begin studying the individual Exploration Activities the students should be given a broad overview of the occupation and how it fits into the field of law enforcement. Most of the occupations are related to each other and fit into an overall scheme.

## 2. Procedures

The main goal of Career Exploration is to provide a hands-on experience for the students. In the field of Law Enforcement, it is extremely difficult to provide a hands-on experience or to create simulated activities. The nature of the career makes it too dangerous for the student and too risky for the Law Enforcement agencies to provide a hands-on experience. The teacher must therefore rely heavily on movies, field trips, speakers, and role play situations. The course is structured such that its success does depend heavily on the use of outside material. The teacher must continually plan ahead to avoid difficulties in scheduling resource materials and personnel. Following are hints or suggestions for the implementation of this course:

1. Suggestions for introducing the course:
  - a. Provide an explanation of what the course involves, its objectives, and the method to be followed.
  - b. Give a brief explanation of the makeup of the Exploration Activities.
  - c. The teacher may wish to go over sheet I "Careers Explored" with the class prior to beginning the actual course, or you may wish to prepare an oral resume.
2. Resources require a 2-3 week advance notice. Teachers should be aware of this three week lag and begin planning 5-6 weeks in advance.
3. All requests for resource people must be in writing. All requests should be directed to the Chief of Police or the Special Agent in charge.
4. Use resource people and materials wisely. Try to schedule the resources for joint classes, so as to prevent repetition and abuse of the sources.
5. Names, addresses, and phone numbers of persons to contact may not appear in the Exploration Activities but are listed in the resource section.

## 3. Evaluation

Exploration Activity #3 includes a series of questions aimed at gauging the attitudes of the student toward authority and law enforcement agencies. It is suggested that this test be given before and after the course and that the results be compared. The main goal of the course is to effect a change in attitudes. Such a goal is not easily measured on an individual basis, but within a class of students, changes in attitudes can be discovered. By comparing the results of the two tests hopefully a pattern would develop showing a greater respect and understanding for Law Enforcement and authority in general. Upon completion of the course each

student will participate in an evaluation survey during Exploration Activity 11 and discuss changes in other career interests with the instructor.

The last exploration activity in this course will ask each student to participate in a "Self Evaluation of Career Maturity" and will provide each student an opportunity to analyze and discuss their career-related experiences.

## 4. Field Trips

A special experience being planned for students in every career area is a Small Group Exploration Trip. Effort has been made to make this as simple as possible for the classroom teacher. See Appendix B.

## 5. Rationale for Law Enforcement Course Why do we need law?

When a man lives together with other people, in a society, he needs laws and people to enforce these laws in order to guarantee his freedom and the freedom of others. It is therefore necessary that societies establish laws and a force of people to implement the laws.

Our modern police force implements the laws that our duly elected officials pass. These laws are written to protect the rights of each citizen and the law enforcement groups have the responsibility of seeing that all the people obey all the laws.

## D. Suggested Timetable

The following timetable should be used as a tentative schedule that the teacher should feel free to change at any time. Certain activities will work well with one class and drag with another. The teacher may wish to stay with Exploration Activities that interest the students longer than the timetable suggests and move quickly through activities that are not as interesting to the class.

## II. Career Exploration Activities

### A. Where to Begin --

1. Resources essential to pupil activities: Many resources listed on the following pupil activity sheets must be made available in the classroom before the students can begin the activities noted. These essential resources are specified IN WORDS on each exploration activity worksheet. THEY MUST BE OBTAINED BY THE TEACHER IN ADVANCE OF THE CLASS MEETING.

#### Examples:

##### a. Films

If . . . the worksheet reads:

RESOURCES
Film: Code Blue (C-7)

Then . . . The teacher must look in Appendix C, Item 7 for catalog information so that this film can be ordered in time for this activity.

- b. Material to be duplicated by the teacher for use in class.

If . . . the worksheet reads:

RESOURCES
See Analysis Quiz (B-4,5,6)

Then . . . The teacher must duplicate a class set of this item which is found in Appendix B as items 4, 5, and 6. Duplication can be achieved by Xeroxing, generating a ditto master via photocopying with IBM 107 and Thermofax or retyping onto a ditto master.

2. Optional resources to be used for enrichment, supplements and student or teacher reference are described only in the Appendix.

If . . . the worksheet reads:

RESOURCES
C-8

Then . . . This indicates that for this activity there is a potentially useful reference described in Appendix C, Item 8. This reference item is not essential to the completion of the student activity.

EXPLORATION ACTIVITY (INTRODUCTORY)

Use of the D.O.T. (Dictionary of Occupational Titles) Number:

The D.O.T. lists 35,550 jobs with a code number for each. The last three digits of this code refer to the relationship of that job to data, people and things. This exploration activity provides the students some experience in using this information to identify jobs which match their interests.

OBJECTIVES	ACTIVITIES	RESOURCES
<p>The student will be able to:</p> <p>Compare their knowledge about the data, people, things content of jobs to factual information listed in the D.O.T. for five jobs of personal interest.</p>	<p>The teacher will conduct a classroom discussion on the D.O.T. code number in identifying the data, people, things orientation of jobs. (See the attached page for examples.)</p> <p>Following this discussion each student is to complete the "D.O.T. Worksheet" which compares the student's estimate of the data, people, things job content to that listed in the D.O.T.</p>	<p>Dictionary of Occupational Titles, Volumes I and II</p> <p>Make a class set of "Examples of D.O.T. Teachers Notes -- Exploration Activity #3

The following information will be exceptionally helpful to the teacher in implementing Exploration Activity #3. The teacher must be aware of the cadet and recruit program and their relationship to the career of patrolman. Before each activity which follows, the teacher will be given notes and information that they should be aware of to successfully teach the course. The cadet program is described on the following pages.

1. Patrolman is the entry level full time position for the Cincinnati Police Force. All officers must begin at this level and follow the method of promotion. Packets 3, 4, 5, 6, and 7 are all promotional positions that begin with the rank of patrolman.
2. Training - two methods for entering the force.
  - a. Cadet - a program for men 18-21 years of age with a high school diploma. He must complete a series of interviews and tests both mental and psychological. Upon reaching 21 years of age, he can take a promotional test to be a recruit.
  - b. Recruit - anyone 21 years of age with a high school diploma can make application to join the recruit class. Recruit is the first promotional step for a cadet, but the cadet program is not a pre-requisite for becoming a recruit. Anyone can enter the Recruit Program at age 21 who can pass the battery of tests.
3. Resources from the Cincinnati Police Department are plentiful, and the people there are very willing to help. They are quite anxious to see the Career Exploration program succeed. They will be very cooperative in planning new programs with you. Most resources will require a two-three week advance notice. Indicate requests in writing to the Chief of Police.

CINCINNATI POLICE DIVISION CADET PROGRAM

The Cincinnati Police Division initiated the Police Cadet Program in 1955 after an exhaustive study of the program in St. Louis.

To say that the Cadet Program was accepted with enthusiasm would be hypocritical. It staggered along, slowly gaining strength, nurtured by the administration.

Cadets were given training in clerical type tasks, including attendance at a commercial college for typing and spelling. They purchased their own uniforms and enjoyed the same benefits as regular employees.

Their primary niche became Central Station where they manned the typewriters for the recording phase of the report process.

They served in various districts and units, including Station X (Police Communications), where they filled the vital positions of tele-type and information operation.

The philosophy is clear. These young men are employed at a pre-career age and trained in the law enforcement body-of-knowledge. They would be amendable to becoming police officers after their 21st birthday and routine processing.

One problem was the comparative scarcity of Cadets. There were so few of them that the behavior of one halo lighted the entire program. There were the normal birthpangs of any new activity. Happily the main body survived the travail.

In 1958, the program was modified by the opening of the Police Science A.B. Program at Chase College. After some initial frictions, the Cadets accepted the change and the Police Division began to encourage the College trained Cadet as the prototype of the future police officer.

In 1961, Chase College began to phase out the Police Science Program. After a brief period the University College, University of Cincinnati, inaugurated the Police Science Program. Again the Cadets underwent some trauma, but the program survived and moved ahead.

In 1967, the Cincinnati Police Division, in conjunction with the City Personnel Department, altered the Cadet concept from full-time employee to co-op employee, with 66 weeks (6 quarters) in college, and 66 weeks in Division work environment. They would be paid full Cadet salary while working, with scholarship fund and grants paying the college costs for the Associate Degree.

As with most changes, the change in status caused morale problems. Having to buy uniforms, having no fringe benefits, operating on half-year pay, all contributed to a general undercurrent of Cadet uneasiness.

On December 23, 1970, City Council, by Ordinance, changed the Cadet employment status from part-time to permanent employee. Thus, they are entitled to normal fringe benefits such as paid vacation, sick leave, and hospital care.

To finance the college-side of the Cadet Program, the University of Cincinnati, in 1967, obtained a Federal Grant (LEAA) for \$51,175.00, aimed at a three-year plan. On December 26, 1968, a supplemental request was prepared for the third year. \$20,100.00 was granted.

In 1969, the funding of the Cadet Program was shifted to LEEP funds. Cadets, by federal definition, are considered In-Service and are eligible to receive financial aid upon individual application. The precise details are handled by the Student Financial Aid Officer of the University of Cincinnati.

Cadet employment commences with a basic training program at the Police Training Section encompassing the following categories of information:

- Rules, Regulations and Procedures,
- History and Role of Law Enforcement,
- Ethics,
- Military Courtesy,
- Public Relations,
- Police and Municipal Organization,
- Records and Reports,
- Human Relations,
- Driver's Training.

Until the program was revised in 1967, supervision of Cadets was comparatively easy. As full-time employees, they were under direct control of the supervisors assigned to the various units.

The inception of the co-op system brought with it attendant supervisory difficulties. In an attempt to remain in complete control of the cadets, a Sergeant, assigned to the Training Section, was appointed as the supervisor of the Cadet Program. This Sergeant exercises direct supervision over the Cadets while they are in school, and staff supervision while they are working in the Division. He also acts as liaison officer with the University staff.

Of the total number of Cadets that have been employed, 2 are Lieutenants, 10 are Sergeants, 17 are Specialists, 102 are patrolmen, 3 are on military leave, 98 have resigned, and 2 were dismissed.

Teachers Notes -- Exploration Activity #4

1. It is strongly suggested that a policewoman be brought to class to speak on this career. The information available on this career is quite thin, without the use of the Resource Person; the teacher may find it difficult to present a total picture of the career.

2. A request for a speaker must be in writing to the Chief of Police at least 2-3 weeks in advance.

Exploration Activity #5

Police Detective (Police Specialist) 375.268

The qualifications and benefits for being a specialist are the same as a patrolman. The method of promotion is by competitive Civil Service Examination. Patrolman is the entrance step where all officers start in the Cincinnati Police Department. The teacher may wish to review the specifics of these three categories.

OBJECTIVES	ACTIVITIES	RESOURCES
<p>Students will be able to:</p> <ol style="list-style-type: none"> <li>1. Identify the duties and responsibilities of a specialist.</li> <li>2. Compare the duties and responsibilities of a specialist to a patrolman.</li> <li>3. List the advantages of being a specialist to being a patrolman.</li> <li>4. Then make a final sheet of clues such as the store hours, its manager, its employees, and other facts, and give this to the detectives and the class.</li> <li>6. Brief each witness as to his alibi and story, tell them one is the burglar, seat the suspects up front, bring in the specialists and allow them to view the scene, then question the witnesses and investigate the crime to find the guilty party.</li> </ol> <p>This could be done in one class period or two, at the most. How long this role-play lasts would depend on how much prior preparation the teacher puts into it. If the crime is worked out, clues established, stories composed before the class meets, this role-play could proceed very well.</p> <p>The teacher may wish to write this in advance and allow the participants time to study this material beforehand to learn their roles.</p>	

Teachers Notes -- Exploration Activity #5

This exploration activity is one of several which:

1. Deal with positions in the Cincinnati Police Department that are promotional, that can be obtained only by an officer who has become a patrolman first. The student should be reminded of the promotional nature of each of these packets.

2. Police specialist is the subject of Activity #5.

3. Police specialist in Cincinnati as a rule is a plainclothesman, and can be either male or female. A female must be a policewoman first, then promoted to a specialist.

Exploration Activity #6

Crash Squad Patrolman 375.268

The qualification and benefits for being a crash squad patrolman are the same as a patrolman. The method of promotion is by competitive Civil Service Examination. Patrolman is the entrance step where all officers start in the Cincinnati Police Department. The teacher may wish to review the specifics of these three categories. In Cincinnati this position is identified as the Traffic Section.

### Exploration Activity #7

#### Police Lab Specialist 375.388 (Polygraph Operator and Fingerprint Technician)

The qualifications and benefits for being a police lab specialist are the same as a patrolman. The method of promotion is the competitive Civil Service Exam. Patrolman is the entrance step where all officers must start in the Cincinnati Police Department. The teacher may wish to review the specifics of these three categories. The police Crime Lab in Cincinnati does not do its own chemical analysis work. Most work is handled by the Kettering Lab in Dayton, or the F.B.I. labs in Washington, D.C. Anyone interested in positions in these fields would have to contact these labs for further career information.

OBJECTIVES	ACTIVITIES	RESOURCES
<p>Students will be able to:</p> <ul style="list-style-type: none"> <li>. Identify the duties of a polygraph operator.</li> <li>. Identify the duties of a fingerprint technician.</li> <li>. Identify the duties of a ballistic expert.</li> <li>. List advantages and/or disadvantages the student sees in this type of career as compared to the on-street officer.</li> <li>. Analyze the 3 jobs of police lab specialist.</li> </ul>	<ol style="list-style-type: none"> <li>1. Police Crime Lab will supply a resource person to come out, describe lab work, fingerprinting especially, fingerprinting the students, showing prints of other people, and showing the criteria used for reading or interpreting fingerprints. The role-play listed as resources 1-3 could be accomplished earlier if the resource person appeared first and presented the program to all the students.</li> <li>2. Complete the analysis sheet contained in the packet.</li> </ol> <p style="text-align: center;"><u>Optional Activities</u></p> <ol style="list-style-type: none"> <li>3. Stage a role-play, a crime, place clues, designate witnesses, and appoint people to play the roles of the lab specialists. Have the fingerprinter print the suspects. Compare the results for the class showing differences of the prints and similarities; have the polygraph specialist make a list of questions concerning the crime and let the class act as the machine interrogating truth or lie; finally, draw diagrams of a bullet on the board, with identifying marks, and let the ballistic expert explain the marks and other significance. The teacher will have to instruct the 3 specialists as to their duties, so that the role-play can adequately point these out.</li> </ol>	<ol style="list-style-type: none"> <li>1. A letter could be written to the Kettering Lab asking them to reply with information concerning the duties they perform for the Cincinnati Police Dept.</li><li>5. Arrangements could be made with the school science department to spend 1 or 2 class periods in a science lab. At this time, the students could be shown as well as take part in basic chemical analysis. Blood will be typed, fabric and stains examined, different hair types studied.</li><li>6. From prior activities the students should now be able to form opinions on a lab job, as compared to a "street job."<ol style="list-style-type: none"><li>a. Students could also prepare soft mud casts and with the cooperation of other teachers prepare the tracks and footprints. The molds could be let to dry and would serve as another example of how Lab Specialists collect evidence. (Clarify the fact that specialists use plaster casts and not mud.)</li></ol></li></ol>

Vice Squad 375.268

The qualifications and benefits for being a vice squad officer are the same as a patrolman. The method of promotion is by competitive Civil Service Examination. Patrolman is the entrance step where all officers must start in the Cincinnati Police Department. The teacher may wish to review the specifics of these three categories:

OBJECTIVES	ACTIVITIES	RESOURCES
<p>Students will be able to:</p> <ol style="list-style-type: none"> <li>1. List and explain what areas the Vice Squad deals with.</li> <li>2. Identify the responsibilities and duties of a vice squad officer.</li> <li>3. Identify the role of an "undercover agent" or an anonymous agent and his value to the vice Squad.</li> <li>4. Compare the vice squad officers job to that of a police specialist to identify differences and similarities.</li> <li>5. Analyze the job of vice squad officer.</li> </ol>	<ol style="list-style-type: none"> <li>1. List the three main areas that the vice squad deals with on the blackboard and make sure all students understand their meanings.</li> <li>2. List the responsibilities of the vice squad.</li> <li>3. List both sets of duties or responsibilities based on student response; then compare them orally to determine in what small ways these jobs differ.</li> <li>4. OBJECTIVES	ACTIVITIES	RESOURCES
	<p>7. Invite a vice squad officer to your class to tell of personal experiences and actual cases. They can describe methods used and ways of obtaining information and exposing crime. They can also give information as to numbers of vice squad men and the possibilities of promotion to that rank.</p> <p>8. The class should discuss the reasons as to why these three areas of crime must be suppressed. It is also important that students understand the role of the undercover agent and see it as an important link in crime fighting.</p>	

Teachers Notes -- Exploration Activity #8

1. The three categories of crime which concerns the Vice Squad are drugs, prostitution and gambling.
2. Responsibilities of a Vice Squad Agent:
  - a. Investigate suspected crimes, criminals or locations where suspected violations of the drug, prostitution and gambling laws may occur.
  - b. Works as a plainclothesman or an undercover agent to observe suspected persons, places, or actions.
  - c. Investigates and collects information to serve as evidence in court cases.
  - d. Appears in court as a witness.

Exploration Activity #9

Park Police (not listed in D. O. T.)

The qualifications and benefits for being a park policeman are the same as a patrolman. The method of promotion is by a competitive Civil Service Examination. The training for a park patrolman is the same as a regular patrolman, but the salary schedule is slightly less. The teacher may wish to review these categories.

OBJECTIVES	ACTIVITIES	RESOURCES
<p>Students will be able to:</p> <ol style="list-style-type: none"> <li>1. Identify the responsibilities and duties of a park policeman.</li> <li>2. He can then discuss: the parallel system, authority, differences in duties and methods for becoming a Park Policeman. They can discuss the advantages and disadvantages of the job from first hand knowledge. They may also discuss the reasons for the separate systems and the differences in pay.</li> </ol>	

Teachers Note -- Exploration Activity #9

The park police are a separate division from the regular police force, but are under the control of the Cincinnati Police Department. The park police have their own officer corps and headquarters. They have their own separate vehicles serviced by the park board. Their salary schedule is slightly lower than the regular force.

EXPLORATION ACTIVITY

(2 Days Suggested)

Student Self Evaluation of Career Maturity

This activity is planned to help the students analyze and learn to value their career-related experiences and the level of their career maturity.

Seven areas of growth and development which have been identified for this use are as follows:

- |  |   |                          |
|--|---|--------------------------|
| 1. Individual and Environment (Social Awareness) | 4. Education and Training                   | 7. Self (Self-Awareness) |
| 2. Economics                                     | 5. Employability and Work Adjustment Skills |                          |
| 3. World of Work                                 | 6. Vocational Decision Making               |                          |

OBJECTIVES	ACTIVITIES	RESOURCES
<p>Students will be able to:</p> <ul style="list-style-type: none"> <li>- Respond, in a purposeful and business-like manner, to one or more questions which ask the student to analyze their experiences in each of the developmental areas.</li> </ul>	<p>All students are asked to seriously consider their career related experiences. A brief class discussion and/or small group discussions may be used to introduce this topic.</p> <p>The students should view the films "What Do We Look Like to Others" and "I Want to Work For Your Company". If these films have been viewed previously they should be reviewed and discussed.</p> <p>Following a review of these films each student is asked to respond to a set of self-analysis questions prepared by the teacher. To help the teacher in preparing these questions a definition of each developmental area and sample questions for each area are attached to this sheet.</p>	<p>The teacher will need to generate class sets of questions.</p> <p>These two films are available from Resource Services on Iowa Street.</p>

## DEFINITIONS OF DEVELOPMENTAL AREAS

### Individual and Environment (Social Awareness)

In this area of the students' development, the students must determine who they are and how they relate to their environment. They must be involved in experiences which will help them to determine their relative abilities to work with people, to manipulate tools, to sense their presence in their environment, and to comprehend the laws of nature and the processes for behavioral advancements within their community.

The students will be involved with understanding their interests, aptitudes, achievements, temperament, their family peers, their society and etc.

### Economics

Students must learn to see themselves as productive worker units who support their community through efficient positive efforts as producers and consumers. They must learn that the money they receive for their work is an important factor in determining the behavior of their community through the way in which they spend their money; the way in which they are willing to work for their money; and how this spending gives direction to the use of raw materials for production and consumption of goods and services to be used in their community.

Students must learn what is meant by a fair day's pay for a fair day's work and the implied obligations between the consumers and producers.

### World of Work

This area is concerned with the students' development of a method for collecting information about jobs. It also is concerned with the students developing an understanding of what behavior is required to do certain jobs. Examples of job information include, in part, the following items:

Job entry levels  
Performance activities  
Working conditions

49

Education and training requirements  
Availability of jobs  
Seasonality of jobs  
Job status  
Advancement possibilities

### Education and Training

Students must learn what behavior modifications (education and training) will be expected of them for certain jobs. In doing so they will learn the innate abilities they have and if these abilities can be developed to the level required to perform certain jobs they choose for their vocation.

Students must learn which educational programs will help them acquire experience that will help develop the performance behavior required for certain jobs.

### Employability and Work Adjustment Skills

This section is concerned with attitude strategies and the importance of the development of successful attitude strategies which are necessary for continued economic gains.

Students must learn how good attitudes are a contribution to their own adjustment and success as well as the success of their community. People are dismissed from their jobs more often because they cannot get along with people than they are for lack of job-related skills.

### Vocational Decision Making

Students must learn a method for making decisions if they are to become employable and well adjusted citizens. They must learn to gather facts about themselves, jobs, and values and how to weigh this information to reach a conclusion as to what work they are able to do and what work they want to do.

### Self

In this area the Self as subject is the major focus. Self as subject requires that the person's own feelings, perceptions and beliefs are dealt with. This

46

requires an internal orientation to the activities as opposed to the external orientation of activities for the other areas.

Seven topics are developed in the broad area SELF. These trace self-awareness, self-acceptance and self-affirmation of the child through interests, aptitudes and abilities, achievement and values and attitudes.

#### SAMPLE QUESTIONS FOR CAREER MATURITY

Listed on this page are sample questions related to areas of growth and development.

1. Self and Environment

### FIELD TRIPS IN CAREER DEVELOPMENT

#### General Student Needs

1. Field trips commonize the background of the students so that there is a basis from which to develop a strong well-rounded instructional program.
2. Because the student is so far removed from his potential career, he needs a broad understanding and exposure to work.
3. Broad off-school-site experiences build readiness for learning by demonstrating that basic skills are essential to a productive work-life.
4. To thoroughly understand a career, the student needs to see the job first hand.
5. Students may not realize all the implications/facets of an occupation in terms of personal interests until they have an exposure to the worker in action.
6. Omission of hands-on experiences may cause a lack of credibility in those courses taught, in the upper levels.
7. While field trips benefit the student, they also benefit the teacher, who, without their assistance, is required to serve as expert on the details of many careers which are not necessarily related to his own speciality.
8. Field trips, when used correctly, can be a source of creating better communication and understanding between business, labor and industry in the community and the school.

#### Specific Student Needs

Field Trips will do the following:

1. Develop an appreciation/awareness that an individual's skills, talent and senses are used in a variety of ways.
2. Develop an awareness of the importance of responsibility and attitude for one's work.
3. Encourage the development of communication skills. Broad off-school-sites experiences demonstrate need and provide motivation for skill learnings.
4. Develop an awareness of the interdependence of the student and all workers.
5. Develop an awareness that there are many people who have different responsibilities in business, labor and industry.

6. Develop an awareness that workers are not necessarily associated with or limited to a specific location and an understanding that there are many kinds of work within specific sites/fields.

#### GUIDELINES FOR IMPLEMENTATION OF FIELD TRIPS IN CAREER DEVELOPMENT

1. The local administrator is responsible for observance of the guidelines by participating staff members.
2. The local administrator should take responsibility for appointing a person to finalize field trip arrangements.
3. There should be planning of each trip well in advance.
4. Teachers should make field trip plans in consideration of/consultation with other teachers who have a teaching responsibility for the pupils.
5. For the convenience of the faculty, field trip information should be given out several days in advance including destination, length of time out of school, and students participating.
6. The teachers should be aware/appreciative of the expense of the trip to the business or industry in relation to the time spent hosting visitors.
7. Teachers should justify the trip in relation to their instructional program.
8. Teachers who desire to take a particular field trip should plan the trip together, although they may not go together.
9. The faculty of each school may prepare a list of meaningful walking trips utilizing the resources of the local community.
10. After the arrangements have been made, and before the trip, there should be communication between the teacher and the contact person at the place where they are going to clarify teacher expectations.
11. Students should be adequately supervised not only for their safety, but to minimize the interruption to business or industry.
12. There should be well planned pre- and post-activities for each trip.
13. After each trip, there should be a note of appreciation to the business or industry. The teacher may communicate the extent to which expectations were met.
14. A follow-up report concerning the value of the trip and results relating to the specific reason for the trip should be submitted to the administrator/coordinator.
15. Identify the businesses and industries of the Cincinnati community that have only one representative (i.e. the phone company) and those businesses and industries that have multiple representatives in this community (i.e. bakeries, garages).

16. To avoid overloading of limited field trip sites, and to maintain privileges, it is necessary to clear requests for these trips through a central clearing office to be designated by Jack Ford.
17. Teachers may build a list of trips and experiences that parents could provide for their children outside of school hours.

#### PROCEDURE FOR EXPLORATION TRIPS

##### SCHEDULE CONSIDERATIONS:

An opportunity is to be provided for students to visit cooperating organizations in small groups for a highly personalized and individualized experience directly related to their career interests. It is essential to minimize the burden on cooperating organizations and to distribute this burden among all community resources and throughout the school year. To accomplish this, trips must be scheduled from the beginning of the school year, and be evenly spaced during the year until every student has been accommodated. The students in a quarter length exploration class may, therefore, participate in an exploration trip prior to, during, or following the time that the course is in progress.

##### PROCEDURES:

Once each month, or even less frequently, the teacher will need to:

1. Place a single phone call to a cooperating organization to set the date and time for the trip.
2. Notify Mr. Jerome Couzins (Education Center, 230 East Ninth St.) of the date and time for the trip.
3. Select six students from the Career Exploration class list.
4. Send permission slips and trip report forms to the selected students via their homerooms.

Permission slips and report forms are illustrated on the following pages. These forms should be reproduced from this curriculum guide as required.

The career committee chairman or coordinator will provide you with a list of organizations which are known to be willing and able to accommodate your students. Addresses, phone numbers and names of persons to contact will be provided.

PARK POLICE SERGEANT

DUTIES: This employee supervises the work of Park Policemen in maintaining law and order in the municipal park system. He is responsible to the Park Police Captain, and, in the Captain's absence, assumes his duties. He assigns, instructs, and inspects the work of the Policemen under his direction, and assists and advises them in making arrests and presenting cases in court.

QUALIFICATIONS: Each applicant must have three years of experience as a Park Policeman. He must be thoroughly familiar with the rules, laws and ordinances governing public conduct, particularly in the public parks. He must be able to supervise and instruct patrolmen. He must have the ability to meet the public, and to maintain records and make reports. He must be willing and able to drive a car in performance of these duties and must have a valid Ohio motor vehicle operator's license upon appointment.

PARK POLICE CAPTAIN

DUTIES: This officer is responsible for the implementation of security policy directives from the Superintendent of Parks. He plans, organizes and directs the activities of Park officers, making certain that law and order is being maintained, and that subordinates are effectively performing their duties. He is in charge of training for division personnel and evaluates the conduct of his men. He takes charge of difficult or unusual situations. He makes reports and recommendations as required. When necessary, he coordinates efforts with the City Police Division. He performs related work.

QUALIFICATIONS: Each applicant must have two years of service as a Park Police Sergeant. He must have thorough knowledge of Park Department rules and of laws and ordinances to be enforced. He must be able to write accurate and clear reports. He must have demonstrated supervisory ability and good judgment. He must have an Ohio driver's license.

#### PARK POLICEMAN

DUTIES: This employee helps to preserve law and order and protect life and property within an assigned beat in the municipal park system. He enforces traffic movement and parking regulations and cites violators. He investigates vandalism and destruction of park property, and prevents rowdyism and commission of nuisances. He checks for improper use of parks and park facilities and hazardous conditions. He enforces Park Board regulations, such as types of beverage, proper permits and hours of park use. He observes the appearance of his beat and reports need for improvement, maintenance or repair. He turns on park lights, checks and secures building, lowers and raises flags, inspects for fire hazards and coordinates with other Park Board personnel and the regular city police force. He gives information and directions to the public. He makes arrests, helps to secure evidence, and appears as court witness. He submits written and oral reports and performs other related duties.

QUALIFICATIONS: Each applicant must be at least 5'8" in height and 140 pounds in weight, with height proportionate to weight. He must be a high school graduate, and be in excellent physical condition. He must be able to follow instructions, prepare concise and accurate written reports, analyze situations, and deal with the public firmly yet courteously. Experience in military or civilian security work or a related field is desirable. He must be willing and able to work on rotating shift basis and drive a car in performance of his duties. He must have a valid Ohio Operator's License.

#### POLICE CHIEF

DUTIES: This official is the chief executive officer of the Division of Police and is responsible for law enforcement, apprehension of criminals, and protection of local citizenry and property. He is responsible for maintaining a modern and efficient police force, and has the power to assign, transfer, prefer charges, and discipline any member of the force. He inspects, or directs inspection of all bureaus, departments, and districts to determine efficiency of police work performed. He may order investigations, or personally investigate any laxity of law enforcement, complaints from subordinates or citizens, or violations of rules and regulations of the department. He cooperates with the courts, the prosecuting officers, and other law officers, in the enforcement of laws and prosecution of criminals. He prepares daily, monthly, annual, and special reports of various activities of the department and maintains constant contact with police officials of other cities, and law enforcement organizations and societies, in order to keep abreast of latest methods and developments in police work.

QUALIFICATIONS: Each applicant must be capable of supervising and maintaining the morale and discipline of his subordinates and possess outstanding qualities of leadership. He must be able to organize and to deploy his subordinates effectively and use sound judgment in the determination of departmental policies and procedures.

POLICE CAPTAIN

DUTIES: This officer is in command of a Police District or other police section or unit, and is responsible for all matters pertaining to its operation. He plans, organizes and directs the activities of his unit, making most effective and economical use of its capacities and resources to maintain law and order, protect life and property or improve police techniques and service. He advises subordinate officers and men on the application of modern police methods and sees that they are followed. He evaluates the conduct of his men and enforces approved standards of behavior and ethics. He sees that administrative routine pertaining to schedules, assignments, records and reports are carried out. He takes personal charge of unusual or difficult situations. He performs related work.

QUALIFICATIONS: Each applicant must have thorough knowledge of the administration, rules and regulations of the Police Department, and of laws and ordinances. He must have demonstrated his ability to command men.

**CONTINUED**

**1 OF 2**

POLICE LIEUTENANT

DUTIES: This officer has immediate responsibility for the preservation of law and order in his district or during an assigned tour of duty. He supervises the work of a Sergeant and a number of patrolmen, and he is responsible for their training and work in accordance with the rules and regulations of the department. During part of his relief he works in the district station house, making out reports and instructing his men by phone. In some cases, he may be assigned to command some other unit, bureau, squad or office.

QUALIFICATIONS: Each applicant must have thorough knowledge of the laws of Ohio, the ordinances of Cincinnati, and the rules and regulations of the Police Department, and is expected to use superior judgment in their interpretation and enforcement. He must be a leader of men and he must be able to command their respect, maintain good discipline, and teach them police work.

POLICE SERGEANT

DUTIES: This officer assists a Police Lieutenant in supervising a group of Patrolmen assigned to traffic or patrol duty. These supervisory duties include the inspection of and transmission of orders to the men at roll call; seeing the men on their beats; instructing, advising, and assisting them with their assigned work; and taking disciplinary action when necessary. Other duties include making criminal investigations, securing evidence, and arresting offenders; investigating accidents; making civil investigations regarding complaints, destitute families, sick persons, and similar situations; giving advice where no action can be taken; referring matters to proper agencies; enforcing laws, ordinances, rules and regulations, giving general information and aid to citizens, preparing and making various reports on crimes, complaints, and investigations; giving testimony and producing evidence in court; taking charge of the station house in the absence of the Lieutenant; and performing other work as required.
