STATE PRISONERS: ADMISSIONS AND RELEASES, 1964

I. INTRODUCTION

The National Prisoner Statistics program was transferred from the Bureau of the Census to the Federal Bureau of Prisons in 1950. Since then, two summary reports have been published annually -- one presenting data on prisoner movement and population, and the other on prisoners executed by civil authorities. A third annual summary report -- on personnel employed by penal institutions -- was initiated in 1958, but was discontinued after publication of the 1962 report.

In addition to the annual reports, five special detailed reports have been published by the Bureau of Prisons. They are:

PRISONERS IN STATE AND FEDERAL INSTITUTIONS, 1950

PRISONERS RELEASED FROM STATE AND FEDERAL INSTITUTIONS,
1951

PRISONERS RELEASED FROM STATE AND FEDERAL INSTITUTIONS,
1952 AND 1953

PRISONERS RELEASED FROM STATE AND FEDERAL INSTITUTIONS,
1960

CHARACTERISTICS OF STATE PRISONERS, 1960

COVERAGE OF THIS REPORT

This report presents detailed data on the characteristics of adult felony prisoners admitted to and released from State correctional institutions for adult felony offenders in the United States during calendar year 1964. (1) Detailed information presented on court commitments includes data on age, length of sentence, offense, race, and sex. Characteristics dealt with for first releases are time served, length of sentence, method of release, offense, race, and sex. (2)

SIGNIFICANCE OF THE DATA

Considerable caution should be used in making State-to-State comparisons, due to the wide disparities in criminal codes and in sentencing and release policies from jurisdiction to jurisdiction, and because of the limited coverage of this report. Only prisoners in adult correctional institutions are covered in this report, thereby excluding prisoners confined in county or local jails,

workhouses, work camps, juvenile institutions, etc. Coverage is also reduced by the elimination, in the detailed tables and charts, of prisoners under sentence of death, prisoners with "indefinite" sentences (i.e., sentences with no minimum and no maximum), unsentenced prisoners, prisoners who died while serving their sentences, juveniles classified as juvenile delinquents or wayward minors, and prisoners with sentence lengths of less than one year in length.

Among the data presented in this report, inter-jurisdictional comparability is greatest for such characteristics as offense, race, and method of release, for which it has been possible to use broad groupings in the tables. State-by-State comparisons on length of sentence, on the other hand, are particularly questionable.

II. PRISONERS RECEIVED FROM COURT

GENERAL CHARACTERISTICS

During calendar year 1964, there were 72,530 prisoners received from court in State institutions for adult felony offenders. Of these, 67,879, or 93.6 percent, were felony prisoners, with the remainder consisting of juveniles and prisoners received from court with indefinite sentences, with sentences of less than one year in length, or under sentence of death. (See Table A-1)

Women made up 4.4 percent of the felony court commitments during 1964. By race, 42,778, or 63 percent, were white, and 25,101, or 37 percent, were non-white.⁽³⁾ The median age was 26.1 years. Prisoners under the age of 20 constituted 17.9 percent of the commitments, while prisoners 40 years or older accounted for 14.7 percent. (See Tables A-1 and A-8, and Chart 1)

OFFENSE⁽⁴⁾

"Burglary" was the largest offense group among the felony prisoners received from court in State institutions during 1964, with 29.4 percent of the total commitments. The second largest group was "Forgery, Fraud and Embezzlement", with 14.0 percent, followed closely by "Other Larceny", with 12.2 percent, and "Robbery", with 11.7 percent. The smallest offense category was "Drug Laws", with 4.1 percent. (See Tables A-2 and A-3)

The highest median age among the offense groups was 31.6 years, in the "Homicide" group, followed by "Forgery, Fraud and Embezzlement", in which the median age was 31.0 years. The lowest median age was recorded in the "Auto-Theft" group -- 22.0 years. (See Table A-5 and Chart 2)

"Burglary" was the largest offense group for both white and

non-white commitments, with 30.5 percent of the total whites and 27.5 percent of the total non-whites. The smallest offense groups, by race, were "Drug Laws" (3.2 percent) for white commitments, and "Auto Theft" (4.1 percent) for non-white commitments. "Violent offenses" ("Homicide", "Robbery", and "Assault") were more in evidence among the non-white offenders (33.0 percent), as compared to 17.3 percent among the whites. (Tables A-6 and A-8, and Chart 3)

The offense group of "Forgery, Fraud and Embezzlement" had the highest proportion of whites among the felony court commitments, with 82.3 percent. The offense groups with the highest proportion of non-whites were "Assault" and "Homicide", each with 56.2 percent. (See Table A-7 and Chart 4)

The highest median age among white felony court commitments was 31.4 years, in the "Forgery, Fraud and Embezzlement" and "Sex Offense" groups. For non-whites it was 32.3 years, in the "Homicide" offense group. The lowest median ages were 22.0 years for whites and 21.9 years for non-whites, both in the "Auto Theft" group. (See Table A-8 and Chart 5)

LENGTH OF SENTENCE⁽⁵⁾

The median sentence length of felony prisoners received from court in State institutions in the United States during 1964 was 64.3 months. For those commitments for whom a minimum length was stated, the median of the minimum sentence length was 21.2 months. Prisoners received with life sentences constituted 3.7 percent of the total commitments. (See Tables A-3 and A-4)

III. FIRST RELEASES

GENERAL CHARACTERISTICS

During calendar year 1964, there were 72,980 prisoners released from prison for the first time on their current sentences by State institutions for adult felony offenders.⁽⁶⁾ Of these, 68,188, or 93.4 percent, were felony prisoners, with the remainder consisting of juveniles and defective delinquents, and of prisoners with indefinite sentences and sentences of less than one year in length. Of the felony first releases, 4.3 percent were women. By race, 43,609, or 64 percent, were white, and 24,579, or 36 percent, were non-white.⁽⁷⁾ (See Table R-1)

OFFENSE

The largest offense group among the felony first releases was "Burglary", which accounted for 29.0 percent of the releases,

followed by "Forgery, Fraud and Embezzlement", with 15.2 percent. "Drug Laws", with 4.1 percent of the releases, was the smallest group, with "Auto Theft" (4.5 percent) close behind. (See Tables R-2 and R-3)

LENGTH OF SENTENCE

The median sentence length of felony first releases during 1964 was 60.8 months, while the median of the minimum (for those cases for which a minimum was stated) was 22.6 months. Releases with Life sentences numbered 912, or 1.3 percent of the total felony first releases. (See Tables R-1 and R-4)

METHOD OF RELEASE

Of the 68,188 felony first releases during calendar year 1964, 42,538 (62.4 percent) were released by parole, 2,767 (4.1 percent) were released by conditional means other than parole, and 22,883 (33.6 percent) were released unconditionally.⁽⁸⁾ (See Tables R-1 and R-6)

TIME SERVED⁽⁹⁾

The median time served by the 1964 felony first releases was 21.0 months. By regions, the Northeast had the highest median time served figure (24.2 months), while the South had the lowest (19.1 months). There were four jurisdictions with median time served figures higher than 30 months: Hawaii (39.0 months), District of Columbia (33.4 months), Pennsylvania (32.1 months), and Minnesota (31.1 months); there were five with medians of less than 12 months: New Hampshire (10.5 months), Maine (10.9 months), Vermont (10.9 months), Montana (11.2 months), and Colorado (11.6 months).⁽¹⁰⁾ (See Tables R-1 and R-5, and Chart 6)

Felony first releases serving for offenses in the "Homicide" category had the longest median time served (48.5 months), followed by "Robbery" (36.1 months), "Drug Laws" (32.8 months), and "Sex Offenses" (31.4 months). The lowest median time served figures were registered by prisoners in the "Other Offenses" (14.1 months) and "Other Larceny" (16.5 months) categories. (Tables R-1, R-7, and R-10, and Chart 7)

Non-whites tended to serve longer than whites, with non-white first releases having a median time served figure of 23.6 months, while the median time served by whites was 19.6 months. Non-whites served longer than whites, on the average, in every offense category except "Assault" and "Robbery". (See Table R-10 and Chart 8)

Prisoners released by conditional means other than parole recorded a higher time served median (26.8 months) than did prisoners released by other means, and 11.6 percent of this group served 5 years or longer. Parolees had a median time served of 21.1 months, with 9.2 percent serving five years or longer, while the median time served by persons released unconditionally was 20.1 months, with only 7.1 percent serving five years or more. (See Table R-6)

EXPLANATORY NOTES

(1) Data on Federal prisoners for 1964 are available, on a fiscal year basis, in STATISTICAL TABLES, FISCAL YEAR 1964 and STATISTICAL TABLES, FISCAL YEAR 1965. Alaska and New Jersey are excluded from this report; the District of Columbia is included. Figures contained in this report may differ from figures found in previously published reports, due principally to the incorporation of data received subsequent to their publication. For the purposes of this report, a "felony" prisoner is defined as a prisoner with a sentence of one year or longer, who was committed for an offense other than one classified as a juvenile offense.

(2) A "first release" is a prisoner who is being released for the first time on his current sentence.

(3) Non-white felony court commitments consisted of 23,910 Negroes (95.3 percent), 935 American Indians (3.7 percent), and 256 of other races (1.0 percent).

(4) When utilizing data on offense presented in this report, it should be remembered that the offense groups used are somewhat arbitrary, thus not necessarily revealing the precise nature of the offense committed.

The offense groupings used in this report contain the following offenses, as they are most commonly reported:

Homicide -- Murder, Manslaughter (negligent and non-negligent).

Robbery -- Armed and Unarmed Robbery, Muggings, Bank Robbery, Banditry, Hijacking, and attempts at any of these.

Sex Offenses -- Forcible Rape, Statutory Rape, Indecent Assault, Carnal Abuse, Sodomy, Adultery, Cohabitation, Incest, Indecent Liberties, Indecent Exposure, Lewdness, Peeping Tom, Seduction, Soliciting, Prostitution, Commercialized Vice, Pandering, Obscenity, and Pornography.

Assault -- Aggravated and Simple Assault, Batteries, Attempted Murder, Attempted Manslaughter, Threats, Kidnapping, and Abduction.

Burglary -- Burglary, Breaking and Entering, Safecracking, Forcible Trespass, Possession of Burglar Tools.

Forgery, Fraud and Embezzlement -- Embezzlement, Conversion, Confidence Game, Disposing of Mortgaged Property, Obtaining Money or Property by False Pretenses, Fraudulent or Fictitious Checks or Checks Drawn on Insufficient Funds, Counterfeiting, Forgery, Uttering.

Auto Theft -- Larceny of Auto, Joy-Riding, Unauthorized Use.

Other Larceny -- Simple Larceny, Grand Larceny, Shoplifting, Cattle Rustling, Auto Breaking or Tampering, Pocket-Picking, Purse Snatching; Receiving, Concealing, and/or Possession of Stolen Goods.

Drug Laws -- Sale or Possession of Narcotics, Dope, or other Drugs, including Marihuana.

Other Offenses -- Weapons Laws, Escape, Abortion, Arson, Bigamy, Bribery, Conspiracy, Blackmail, Extortion, Gambling, Liquor Law Violations, Malicious Mischief; Non-Support, Neglect, or Desertion of Wife and/or Children; Perjury; Violation of Automobile Laws, Contributing to Delinquency.

(5) Because of definitional problems, data on type of sentence will not be presented in this report. The sentence length data which are included will be presented in terms of the maximum (including both the stated maxima of sentences where both a minimum and maximum are specified, and sentences where a specific or "flat" terms of years has been stated) and the minimum (including only those minima which are specified in sentences where both the minimum and the maximum are stated).

In order to avoid tables of prohibitive length, data on sentence length and on time served are presented as medians. Medians were used in preference to the arithmetic mean because they serve as a better summary statistic for this type of data.

Computations were made from grouped data, a necessary but not entirely satisfactory procedure since it assumes an even distribution within the group in which the median falls -- a condition which is not met by data on sentence length. This has resulted in some distortion from the true medians in the medians presented in the report.

(6) These first release figures include an undetermined number of V-discharges, or persons being released for the second or subsequent time on the same sentence, from Florida, Minnesota, and North Carolina.

(7) Non-white felony first releases consisted of 23,285 Negroes (94.7 percent), 921 American Indians (3.8 percent), and 373 of other races (1.5 percent).

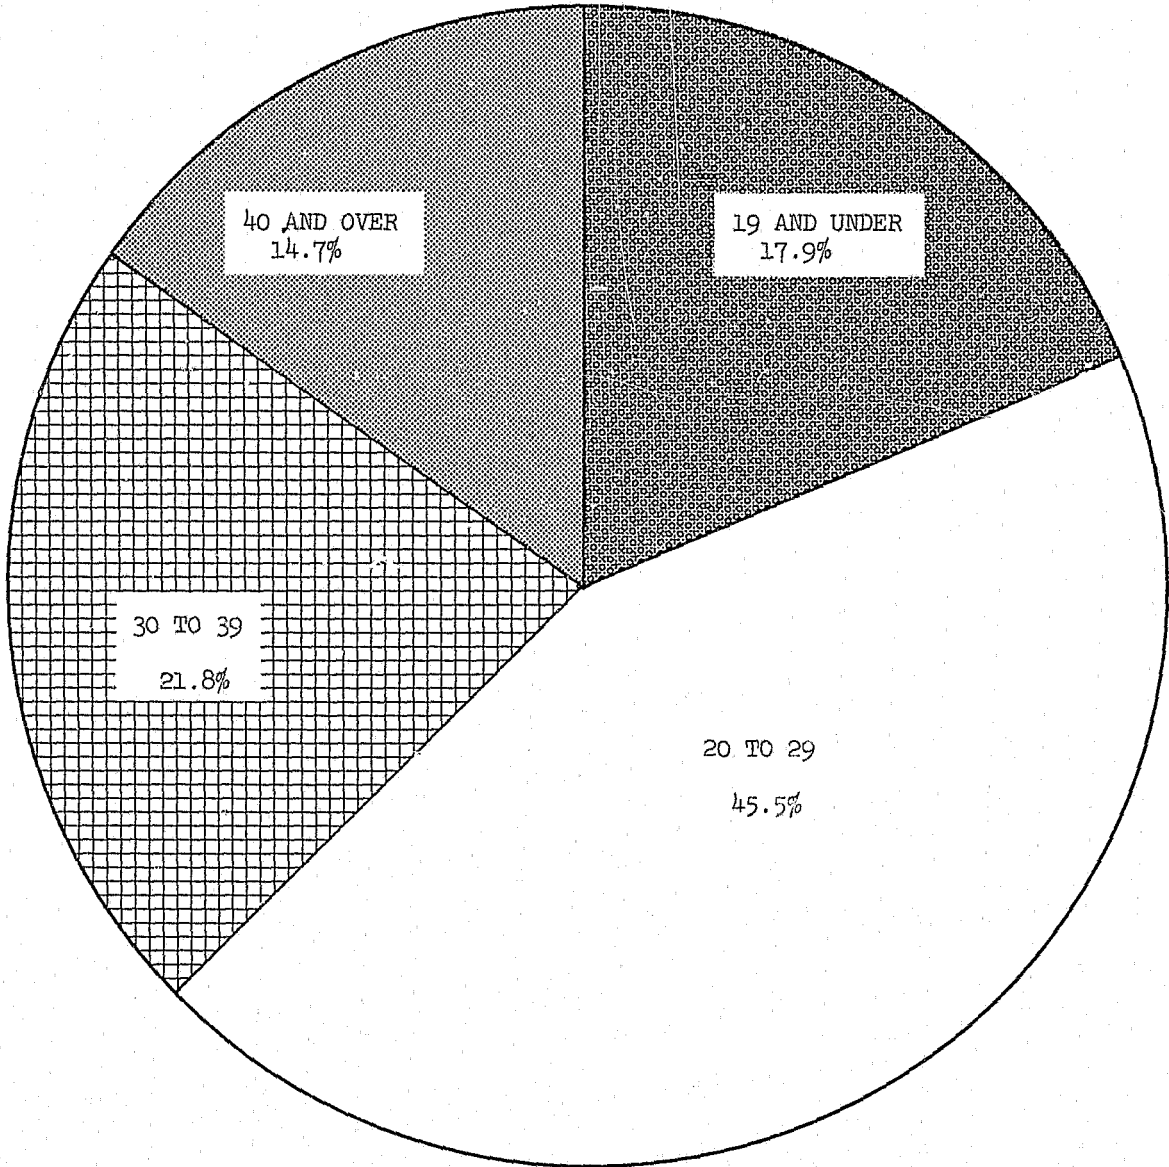

(8) A "conditional release" is a type of discharge whereby, providing certain conditions are met, a person may be released (through the action of a "parole board" or other authority) into the community, where he continues his sentence under supervision; if he violates the conditions of his release, he may be returned to prison to continue his sentence in confinement.

(9) Data are presented on time served for first releases rather than for all releases because of the differing procedures from jurisdiction to jurisdiction in computing time served for prisoners who have been out of the institution on parole or another type of conditional release and have been returned as violators on their current sentence. In using the time served figures, the reader should be aware that, in spite of attempts to standardize our definitions, it seems apparent that, in some instances:

1. Time out in escape status was included in the time served figure.
2. Time served was computed from date of admission rather than from the date sentence began.

(10) In comparing the District of Columbia with other jurisdictions, it should be remembered that it is the only jurisdiction which deals with an exclusively urban population.

(a) Medians are in months. Median not shown where number of cases is less than 25.

(b) Includes only cases where minimum was stated. See Table A4 for detailed data.

(c) Includes misdemeanants, juveniles, and prisoners received from court with indefinite sentences or under sentence of death. For a few States, slight adjustments were made in this column to bring figures into balance.

Table A2. - OFFENSES OF COURT COMMITMENTS WITH SENTENCES OF 1 YEAR OR LONGER, BY STATE: 1964

(a) Medians are in months. Median not shown where number of cases is less than 25.

(b) Includes only cases where minimum was stated. See Table R4 for detailed data.

(c) Includes prisoners with sentences of less than one year, prisoners with indefinite sentences, defective delinquents, and juvenile delinquents.

(d) Figures include V-discharges. Minnesota Youth Act cases are excluded.

(e) Figures include V-discharges.

(f) Median is higher than 240 months.

(a) Medians in this table differ from those in other tables due to the use of different group-intervals in computing the data.

(b) Median is in months. Median not shown where number of cases is less than 10.

(c) Median is higher than

(d) Figures include V-discharges. Minn. Youth Act cases are excluded.

(e) Figures include V-discharges.
