# UNIFORM CRIME REPORTING

# PROGRAM

ANNUAL REPORT 1976

### INTRODUCTION

#### HISTORY OF UNIFORM CRIME REPORTING

The need to gather and analyze crime statistics in this country dates back to 1870. During this time Congress sought to provide a national system of crime reporting, but their efforts failed. In 1871 the National Police Association attempted to collect crime data, but with equal lack of success.

It was not until 1927 that a Uniform Records Committee was established by the International Association of Chiefs of Police. This committee developed a uniform classification for most parts of the country. This classification was based directly upon the system employed by the Bureau of Census in compiling statistics of prisoners.

During the later part of 1930 the program was turned over to the Federal Bureau of Investigation. The Bureau began receiving on a voluntary basis crime statistics from police agencies throughout the United States. Since those early times, the Bureau has published many distinguished reports using those statistics. In recent years the Bureau has actively assisted individual states in developing their own statewide programs.

#### INTENT OF THE SYSTEM

The intent of the New Mexico Uniform Crime Reporting (NMUCR) Program shall be to supply local community agencies, institutions and organizations with a source of crime statistics which they can use to efficiently and effectively deter, reduce and prevent crime.

#### ASSUMPTIONS AND LIMITATIONS OF THE PUBLICATION

Unfortunately, we cannot state that all police agencies within New Mexico accurately record and submit crime data to NMUCR; however, the statistics listed in this publication are based on the most accurate data currently available. Accompanying this current data are many assumptions and limitations which directly affect the accuracy and precision of the statistics within this publication. These assumptions and limitations also directly affect the summarizing and the comparing of local community crime statistics. These are being noted for the reader who endeavors to draw conclusions concerning the statistical data.

The following factors are the major aspects which have an influence on the statistics presented in this publication:

#### ASSUMPTION

- 1. Crime is a social problem in New Mexico.
- 2. Crime figures presented in this publication are police statistics as distinguished from judicial or penal statistics.
- 3. Actual crimes represent violations of New Mexico statutes and local ordinances.
- 4. Citizen apathy and indifference contribute to the spread of crime.
- 5. Community institutions and organizations, coupled with police agencies are influenced by the decline and/or rise in crime rates.
- 6. A high level of integrity is needed in order to state NMUCR index crime rates.
- 7. Some police agencies have a profound distrust of the practical value of a statistical collection of data.
- 8. It is significant to consider the fact that policy revelant to reporting will differ in accordance with the philosophy of the various agency heads.

#### LIMITATIONS

- 1. All police departments are not equipped to render complete and accurate accounting of offenses committed and persons charged because of limited manpower, funding, etc.
- 2. Difference in the collecting and interpreting crime date.
- 3. Some police jurisdictions overlap.
- 4. Some juveniles are informally handled which affects the accuracy of the juvenile report input.
- 5. Crimes against persons and their property are not always reported to police.
- 6. Crime clearances lag months and sometimes years behind the actual reported offenses.
- 7. Property illustrations reflect the property stolen and/or recovered. Property damage is not included.
- 8. Stolen property figures represent property stolen during the calendar year 1976. Recovered property figures may reflect reported property stolen in a previous calendar year but re-covered in the calendar year 1976.

UNIFORM CRIME REPORTING CLASSIFICATION OF OFFENSES

MAJOR OFFENSES (CRIME INDEX) - PART I

VIOLENT CRIMES

NON-VIOLENT CRIMES

Murder and Non-Negligent Manslaughter Forcible Rape Robbery Aggravated Assault Burglary Larceny Motor Vehicle Theft

OTHER CRIME OFFENSES (NON-INDEX) - PART II

Other Assaults Arson Forgery and Counterfeiting Fraud Embezzlement Stolen Property: Buying, Receiving, Possession, etc. Vandalism Weapons: Carrying, Possession, etc. Prostitution Sex Offenses (Except Forcible Rape and Prostitution) Narcotic Drug Laws Gambling Offense Against Family and Children Driving Under the Influence Disorderly Conduct Vagrancy All Other Offenses (Except Traffic) Suspicion Curfew and Loitering Runaways

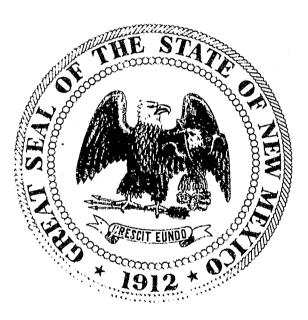

#### CONCLUSION

Crime does exist as a local community problem in New Mexico. The intent of NMUCR is to offer these local communities a basic resource of quantitative crime statistics that could be used by them to deter, reduce and prevent crime.

The release of crime statistics frequently results in a controversy as to the accuracy of the statistics and how these statistics should be interpreted. Listed within this publication are many of the major assumptions and limitations which make it very apparent that great caution should be used when referring to the statistical data in this publication. The recognition of the assumptions and limitations should help the reader of this statistical resource to focus attention on valid objects, thus minimizing the dangers of over-generalization.

# NEW MEXICO

# CRIME INDEX OFFENSES

#### CRIMINAL HOMICIDE

#### Definition and Classification

Murder is defined as the unlawful killing of a human being. Any death due to a fight, arguement, quarrel, assault or commission of a crime is included.

#### Analysis

In 1976, New Mexico reported 110 criminal homicides. The month of June had the highest frequency of murders with 16. There were 71,720 index crimes reported and the crime of murder made up .1 percent of these offenses.

There were .09 murders for 1,000 New Mexico residents. The weapon most often used was the firearm which was used to commit 57.2 percent of the murders. Information was also gathered on the type of firearm and it was found that 41.8 percent of the firearms were handguns. Cutting or stabbing instruments were used to commit 25.4 percent of the murders. Other weapons (blunt objects, poisons, explosives, etc.) were used in the commission of 9 percent of homicides. All other murders were committed through the use of personal weapons such as hands, fists, feet, etc. These amounted to 8.1 percent.

Statewide law enforcement cleared 78.1 percent or 86 of these offenses by arrests.

#### RAPE

#### Definition and Classification

Rape is defined by NMUCR as the carnal knowledge of a female; forcibly and against her will. Generally carnal abuse (statutory rape) or other sex offenses are not classified in this section.

#### Analysis

Forcible rape and attempts to commit forcible rape accounted for 475 of New Mexico's 71,720 index crimes reported in 1976.

In 53.6 percent of the cases of rape, law enforcement was able to clear the offense by an arrest. 7.7 percent of the 255 cases cleared were made by the arrest of juveniles.

#### Forcible Rape by Month CIRCUMSTANCES TOTAL JAN FEB MAR APR MAY JUN JUL AUG SEP OCT NOV DEC Forcible Rape Attempted . 8 Rape TOTALS

#### ROBBERY

#### Definition and Classification

Robbery is defined as the felonious and forcible taking the property of another, against the person's will by violence, force or by putting the person in fear. Generally, robbery differs from larceny in that it is aggravated by the element of force or threat of force.

#### Analysis

There were 1,450 robberies reported during 1976. These robberies were 2.0 percent of the index crimes reported during the year. Reporting agencies were able to clear 35.9 percent of the robberies. The average dollar amount taken was \$596. There was a total of \$866,181 taken in New Mexico robberies.

#### AGGRAVATED ASSAULT

#### Definition and Classification

Assault is defined by NMUCR as an unlawful attack by one person upon another for the purpose of inflicting severe bodily injury. Not included in this section are assaults with intent to rob or rape.

#### Analysis

There were 4,426 aggravated assaults in the state in 1976. The largest number of assaults were committed during the month of August with 429. Personal weapons such as hands, fists, feet, etc., predominate as the weapon most frequently used to commit an aggravated assault. These type of personal weapons were used to carry out 36 percent of the aggravated assaults.

Firearms were used in 23.1 percent of the assaults, knife or cutting instruments in 18.9 percent and the remaining 22 percent with the use of other dangerous weapons. Aggravated assaults amounted to 6.4 percent of the index crimes.

During 1976 2,754 or 62.1 percent of the 4,426 actual offenses of assault were cleared by arrest.

#### Assault by Month and Weapon Used

#### BURGLARY

#### Definition and Classification

Burglary is defined as the unlawful entry of a structure to commit a felony or theft, even though no force was used to gain entry.

The 19,336 burglaries in New Mexico during 1976 comprised 26.9 percent of the index crimes. The reporting agencies were successful in clearing 3,283 of these crimes.

The greatest number of burglaries were in the forcible entry category, which accounted for 71.4 percent of all burglaries. Unlawful entry, no force accounted for 23.2 percent and those remaining were attempted forcible entry.

'n,

#### LARCENY - THEFT

#### Definition and Classification

Larceny-Theft is the unlawful taking or stealing of property or articles of value without the use of force, violence or fraud.

#### Analysis

New Mexico law enforcement agencies reported 42,115 cases of larceny-theft in 1976. These larcenies made up 58.6 percent of the index offenses. Of the total number of these crimes, 8,441 were cleared.

A total of \$7,175,163 were stolen in these larcenies. The category in which the largest amount of dollar loss occurred was "thefts from a motor vehicle" where in \$2,447,925 was taken.

The second highest amount taken was through thefts from buildings, \$1,781,441. Thefts of motor parts and accessories had the third highest amount with \$1,350,667 worth of property taken.

Larceny, like burglary, is difficult to clear by arrest because of the lack of evidence and witnesses present during the commission of these two offenses. LARCENY BY MONTH AND VALUE

#### MOTOR VEHICLE THEFT

#### Definition and Classification

NMUCR defines motor vehicle theft as the unlawful taking or stealing of a motor vehicle, including attempts. Examples of motor vehicles are automobiles, trucks, buses, motorcycles, motor scooters, snowmobiles, etc.

#### Analysis

In 1976 New Mexico agencies reported 3,808 offenses of motor vehicle thefts. Motor vehicle thefts accounted for 5.3 percent of the 71,720 index crimes committed.

During 1976 26.5 percent of the 3,808 offenses reported were cleared by an arrest.

#### VALUE OF PROPERTY STOLEN AND RECOVERED FOR INDEX OFFENSES

The next two charts will deal with value of property stolen and recovered by article and month, as well as property stolen by crime and month. These charts will reveal a great deal of detail in expounding on the areas mentioned above.

The article or type of property stolen is of great importance to the police administrator when he attempts to develop programs to prevent the theft of any particular article.

This is an attempt to list articles stolen by month and also to reveal the value of property involved in the seven Part I Crimes.

MONTH	TOTAL AMOUNT STOLEN	TOTAL AMOUNT RECOVERED	% RECOVERED
January	\$ 2,022,653	\$ 614,948	30.4
February	1,992,979	640,774	32.1

#### ALL ARRESTS FOR PART I AND PART II CRIMES

Arrest statistics reflecting characteristics of persons arrested by age, sex and race are collected monthly from contributing law enforcement agencies. In examining these arrest figures, it is important to remember that the same person may be arrested several times during the year for the same type or different offenses. Each arrest is counted.

A juvenile is counted as a person arrested when he commits an offense and the circumstances are such that if the offender were an adult, an arrest would be made.

#### Juvenile Dispositions

Handled within the Department and released (released to parents, etc.)	5,759
Referred to Juvenile Court or Probation Department	12,178
Referred to Welfare Agency	59
Referred to other Police Agency	189
Referred to Criminal or Adult Court	86

### POLICE ASSAULT FIGURES

Police assault figures are crucial to the police administrator. They say much to anyone attempting to evaluate the causation of this type of criminal activity. The information to follow will portray the frequency of these events and allow each agency head to evaluate the cause after considering his unique variables and factors.

Time of	Assault	AM	<u>PM</u>
12:01	2:00	107	28
2:01	4:00	74	36

#### NEW MEXICO UNIFORM CRIME REPORTING

Statistics presented here were gathered under the Uniform Crime Reporting Program of New Mexico and were submitted by the Law Enforcement Agencies of the State. Attempts at comparisons of the resulting crime figures should not be made without first considering the individual crime factors which exist in each city and county.

Crime figures for the calendar year 1976, as measured by the Crime Index, disclosed a statewide increase of 8.4 percent as compared to 1975. Violent crimes, which include murder, rape, robbery and aggravated assault increased 6.7 percent, while the non-violent crime grouping of burglary, larceny and motor vehicle theft increased 8.6 percent.
