HAWAII CRIMINAL JUSTICE STATISTICAL ANAL, YSIS CENTER

TAKASHI KITAOKA

Judge Masato Doi Chairman, Policy Board Hawaii Criminal Justice Statistical Analysis Center Board Members: Herbert Cornuelle, V. Chmn. Hideki Nakamura Masaru Oshiro

Dear Judge Doi and Members of the Board:

Crime is a socio-legal problem which concerns every state and the entire nation. Efforts to control and alleviate the problem in Hawaii call for the highest type of cooperation among all segments of our government - the executive, the legislative, and the judiciary. Plans to reduce and prevent crime demand the dedicated support, not only of all state and county criminal justice agencies, but by the general public. However, in order to obtain any degree of success, these plans and efforts must be based on reliable facts and figures. Proper crime statistics provide information for intelligent criminal justice planning and budgeting. It is with this thought in mind that the Hawaii Criminal Justice Statistical Analysis Center submits to you and all criminal justice agencies in Hawaii our first Annual Report, entitled, "Crime in Hawaii: A Review of Uniform Crime Reports". This report has been prepared to serve as a summary of statistics on crime in the state and contains data on reported crimes and arrests for the calendar year 1975.

We hope that this publication will enable the criminal justice agencies and the citizens of Hawaii to become more aware of criminal activity within the state and to assist them in their efforts effectively and efficiently to reduce and prevent crime.

This report has been made possible through a grant awarded to this agency by the Law Enforcement Assistance Administration (LEAA).

Through the cooperation of the four county police departments of Hawaii and the Federal Bureau of Investigation (FBI), the Statistical Analysis Center has been able to collect and compile the data contained in this report.

Judge Masato Doi (Board Members: Herbert Cornuelle, Hideki Nakamura, Masaru Oshiro) Pg. 2

Hawaii's centralized Uniform Crime Reporting Program has now been in existence for one year. As time progresses, we shall be able to develop basic crime trend analysis and in-depth examinations of the nature and extent of criminal activity in Hawaii.

The Statistical Analysis Center will continue its efforts to keep all criminal justice agencies and the public informed on matters of crime related statistics. We shall strive to reflect the most comprehensive picture available of Hawaii's criminal activity.

Very truly yours,

TAKASHI KITAOKA

Director

### INTRODUCTION

The development of State UCR programs is a relatively new approach to the collection of UCR data. An important aspect of the transference of this collection responsibility from the FBI to a State agency is to ensure consistency and comparability in the data collected by the State programs. Following are the conditions set by the FBI under which a State program is developed and by which it must operate:

- (1) The State program must conform to the national Uniform Crime Reports standards, definitions, and information required. This, of course, does not prohibit the State from collecting other statistical data beyond the national collection.
- (2) The State agency must have a proven, effective, mandatory, statewide program and have instituted acceptable quality control procedures.
- (3) Coverage within the State by a State agency must at least be equal to that attained by Uniform Crime Reports.
- (4) The State agency must have adequate field staff assigned to assist local units in record practices and crime reporting procedures.
- (5) The State agency must furnish to the FBI all of the detailed data regularly collected by the FBI in the form of duplicate returns, computer printouts, and/or magnetic tape.

- (6) The State must have the proven capability (tested over a period of time) to supply all the statistical data required to the FBI in time to meet national Uniform Crime Reports publication deadlines.
- (7) The FBI will continue its internal procedures of verifying and reviewing individual agency reports for both completeness and quality.
- (8) The FBI will continue to have direct contact with individual reporting units within the State where necessary in connection with crime reporting matters, but will coordinate such contacts with the State agency.
- (9) Upon request, the FBI will continue its training programs within the State with respect to police records and crime reporting procedures. For mutual benefit these will be coordinated with the State agency.
- (10) Should circumstances develop whereby the State agency cannot provide the data required by the national program, the FBI will reinstitute a direct collection of Uniform Crime Reports from police units within the State.

### TYPES OF CRIME STATISTICS

Seven offenses were chosen in the UCR program because of their seriousness and frequency of occurrence as indicators of crime in the United States - these are known as Index Crimes.

It must be kept in mind that all offenses reported herein are known offenses to the police. There has been no consideration taken of any unreported crimes. Because not all crimes come to the attention of the police, the International Association of Chiefs of Police (IACP) limited the reporting of offenses known to the following crime classifications because these are assumed to be the crimes which are most likely to be reported and which occur with sufficient frequency to provide an adequate basis for comparison. They are also serious crimes by nature and/or volume. The chosen offenses are:

- 1. Criminal Homicide
- 2. Forcible Rape
- 3. Robbery
- 4. Aggravated Assault
- 5. Burglary
- 6. Larceny-Theft
- 7. Motor Vehicle Theft

### PART I OFFENSES

The Part I offenses or Index Crimes are as follows:

- 1. Criminal Homicide:
  - a. Murder and non-negligent manslaughter
  - b. Manslaughter by negligence
- 2. Forcible Rape:
  - a. Rape by force
  - b. Attempts to commit rape
- 3. Robbery:
  - a. Firear,
  - b. Knife or cutting instrument
  - c. Other dangerous weapon
  - d. Strong-arm hands, fists, feet, etc.
- 4. Aggravated Assault:
  - a. Firearm
  - b. Knife or cutting instument
  - c. Other dangerous weapon
  - d. Hands, fists, feet, etc., aggravated injury
- 5. Burglary:
  - a. Forcible entry
  - b. Unlawful entry no force
  - c. Attempted forcible entry
- 6. Larceny-Theft (except motor vehicle):
- 7. Motor Vehicle Theft:
  - a. Autos
  - b. Trucks and buses
  - c. Other vehicles

Essential to the maintaining of uniform and consistent data is the establishment of a standard definition of the offenses to be used in the program. Each of the Part I offenses has been defined specifically in UCR. The Crime Index offenses are all of the Part I offenses with the exception of 1b, man-slaughter by negligence.

During 1975, a total of 52,099 index offenses were reported. These index crimes are grouped into two categories-violent crimes and nonviolent crimes.

J

The violent crimes, or crimes against persons include: murder, forcible rape, robbery, and aggravated assault. These offenses in 1975 made up 3.6 percent of all reported index offenses.

In maintaining conformity within the FBI's Uniform Crime Reporting scheme, nonviolent crimes include the offenses of burglary-breaking and entering, larceny-theft and motor vehicle theft. The number of nonviolent crimes constitute 96.4 percent of all Index Crimes reported.

The following tables depict the number of reported Part I crimes and clearances by the police.

### PERSONS ARRESTED

The number of persons arrested of all violations except traffic in the reporting jurisdictions is compiled from monthly returns submitted by the contributing agencies.

The age, sex and race of these persons is recorded and data are collected for juveniles as well as adults for the purpose of computing arrest trends and volume.

A total of 105 arrests or 8.7 percent were juveniles under

18 years of age.

### DEFINITIONS - PART I OFFENSES

### 1. Criminal Homicide

la. Murder and non-negligent Manslaughter is defined as the willful (non-negligent) killing of one human being by another.

Suicides, accidental deaths, assaults to murder and attempted murders are not counted in la. Certain willful killings are classified as justifiable or excusable. Justifiable homicide is defined and limited to:

- the killing of a felon by a police officer in the line of duty, or
- 2) the killing of a felon by a private citizen
- 1b. Manslaughter by negligence is defined as the killing of another person through gross negligence.

All traffic deaths which are found through police investigation to be accidental (without gross negligence) are included.

### 2. Forcible Rape

- 2a. Rape by force
- 2b. Attempts to commit forcible rape

Rape is defined as the carnal knowledge of a female forcibly and against her will.

Statutory rape or carnal knowledge or the attempted carnal knowledge of a female with no force used and wherein the female victim is under the legal age of consent is not counted. Sex attack on a male is counted as "Other Sex Offenses" in Part II Offenses.

### 3. Robbery

Definition - the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

Robbery involves a theft or larceny, but aggravated by the element of force or threat of force. If no force or threat of force is used such as in pocket picking or purse snatching, the offense must be scored as a larceny, rather than robbery.

Cases involving pretended weapons or those in which the weapon is not seen by the victim, but the robber claims to have in his possession is scored as armed robbery.

### 4. Aggravated Assault

Defined as an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

Attempt to murder or assault to murder are reported as aggravated assault.

### 5. Burglary-Breaking or Entering

Defined as the unlawful entry of a structure to commit a felony or a theft.

### 5a. Forcible Entry

All offenses are counted as burglary where force of any kind is used to unlawfully enter a structure for the purpose of committing a theft or any felony. Burglary by concealment inside a building followed by an exiting of the structure is included in this category.

### 5b. Unlawful Entry - no force

Entry in this situation for the purpose of committing a theft or other felony involves no force and is achieved by use of an unlocked door or window. If the area entered were one of open access, thefts from the area would not involve an unlawful trespass and would be counted as a larceny.

### 5c. Attempted Forcible Entry

Only those situations in which a forcible entry burglary is attempted is counted. A forcible entery or unlawful entry where no theft or felony is committed, but where acts of vandalism, malicious mischief, etc., are committed is not scored as a burglary.

### 6. Larceny-Theft (Except Motor Vehicle)

Definition - the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

All thefts which are not part of a robbery, burglary, or motor vehicle theft are classified under this category.

### 7. Motor Vehicle Theft
