The Louisiana Crime Victim Assistance Service Directory is one segment of a four part series of research project directed toward an improved understanding of the victim's role in Louisiana's criminal justice system. The series also includes: The Victims: What You Should Know About Louisiana's Crime Victim Assistance Services, a short pamphlet about victim assistance; Crime Victim Assistance Services In Louisiana: A Survey, an analysis of Louisiana's delivery of victim assistance services; and Crime Victim Reparation Legislation, an analysis of alternative victim reparations programs.

The "Directory" segment of this series is designed to serve as an aid in locating crime victim assistance services. Many agencies currently act as referral agencies for crime victims. This directory will facilitate the efficient location of the proper service agency.

Crime victim assistance services are listed by parishes, with the parishes listed in alphabetical order. Once the desired parish is located the desired service can be located by checking the list for that parish. Addresses are not listed more than once; if an agency offers more than one service, the address for that agency will appear under the first service listed for that agency. The information on victim services included in this directory is not all-inclusive. It is based on survey information submitted by the agencies listed. Some programs and agencies may have been overlooked. Also, since we have updated the directory based on information received after the preparation of the other reports in the series, the directory may include agencies and programs that were not mentioned in the other reports.

Comments and suggestions are hereby requested. LCJIS also requests that agencies sponsoring assistance programs which do not appear in the directory

contact LCJIS. The directory will be updated each year and all new programs made known to LCJIS will be included. Please contact LCJIS at:
