INTRODUCTION

The amount of published material in the area of penology has grown considerably in recent years. In order to provide a source book of articles on Corrections which have been appearing regularly in professional journals and periodicals, the Communications Branch of The Correctional Service of Canada has prepared this bibliography.

The material is catalogued by subject area and author and is a comprehensive list of articles on Corrections which have been published in Criminal Justice Journals from 1970-79. Journals which have been referenced in the bibliography appear as a separate list on page 2 of this publication. It is our hope that researchers, academics and persons interested in Corrections will find this bibliography a valuable reference guide to the increasingly complex and growing body of penological knowledge.
