LAW ENFORCEMENT ASSISTANCE ADMINISTRATION .
ROLE DEFINITIONS RELATED TO JUVENILE DELINQUENCY

REPORT TO THE
INTERDEPARTMENTAL COUNCIL
TO COORDINATE ALL
JUVENILE DELINQUENCY PROGRAMS

BY
LAW ENFORCEMENT ASSISTANCE ADMINISTRATION

TASK I. B:

Delineation of Departmental Role Definitions Related to the
Problem of Juvenile Delinquency and Youth Development.

1. Specification of Department goals regarding juvenile delinquency and youth development:

The over-all goal of LEAA is the prevention, control and reduction of crime and delinquency in the United States. This goal is implemented through the provision of financial and technical assistance to states, local units of government and other relevant groups that are concerned with crime/delinquency prevention and reduction.

2. Delineation of the legislative authority in juvenile delinquency and youth development for Departments and/or Agencies within each Department:

LEAA has ample legislative authority under the Omnibus Crime Control and Safe Streets Act to carry out programs of financial

or technical assistance to the States and local governments in the area of juvenile delinquency prevention, control and rehabilitation. As enacted in 1968 the Safe Streets Act authorized LEAA to administer a grant-in-aid program to provide financial and technical assistance to enable States and local units of government to improve and strengthen law enforcement. "Law enforcement" was defined by the Act (Sec. 601 (a)) to include "all activities pertaining to crime prevention or reduction and enforcement of the criminal law." LEAA has always considered juvenile delinquency prevention and control to be within the scope of its legislative mandate and juvenile delinquency programs have been funded by LEAA since its inception. Any possible doubt on this question was resolved by the Congress in the recent amendments to the Act. The definition of "law enforcement" was amended by adding to the existing language several express examples of covered program areas, including "programs relating to the prevention, control or reduction of juvenile delinquency..." (P.L. 91-644, Section 9 (1), 82 Stat. 209).

The clearest reading of our legislation, then, would be that LEAA can fund any program directed to improving and strengthening State and local government efforts to prevent, control or reduce juvenile delinquency. However, the primary thrust of LEAA's efforts has been directed to funding programs directly related

to the criminal justice system and an agreement was reached between the Attorney General and the Secretary of Health, Education and Welfare to the end that HEW would concentrate its juvenile delinquency efforts on children who are outside of or who have been diverted from the traditional juvenile justice system and that LEAA would focus its efforts on juvenile delinquency programs directly related to the juvenile justice system. This agreement was reflected in a letter dated May 25, 1971 from Secretary Richardson to the Attorney General and was incorporated in the Senate report on the Juvenile Delinquency Prevention and Control Act Amendments of 1971 (S. Rep. No. 92-220, June 17, 1971)

The emphasis on programs directly related to law enforcement is reflected in specific provisions of the Safe Streets Act. In particular, Section 301 of the Act, which as enacted set forth seven general program categories eligible for action grant funding, and was amended by P.L. 91-644 to include the following program category:

The development and operation of community based delinquent prevention and correctional programs, emphasizing halfway houses and other community based rehabilitation centers for initial pre-conviction or postconviction referral of offenders; expanded probationary programs, including para-

professional and volunteer participation; and community service centers for the guidance and supervision of potential repeat youthful offenders.

Finally, the recent amendments added a new Part E to title I of the Act, providing for a program of block and discretionary grants for the construction or renovation of correctional institutions and facilities and the improvement of correctional programs and practices. In order to qualify for a block grant under Part E, a State must file a comprehensive plan for correctional improvements which, among other things---

- (4) provides satisfactory emphasis on the development and operation of community-based correctional facilities and programs, including diagnostic services, halfway houses, probation, and other supervisory release programs for preadjudication and postadjudication referral of delinquents, youthful offenders, and first offenders, and community-oriented programs for the supervision of parolees;...

The agreement between HEW and LEAA reflects the first step taken to coordinate all Federal juvenile delinquency programs and LEAA goals must clearly be directed toward programs which are directly related to children who come within the jurisdiction of the juvenile justice system as it exists in the various States

and units of local government. The goals and standards which LEAA develops in the juvenile delinquency area must reflect this approach.

Grant funds under all LEAA programs can be used for juvenile delinquency projects. This includes planning grants under Part B of the Act (42 USC, Section 3721), action grants (block and discretionary) under Part C of the Act (42 USC, Section 3736), research and development grants from the Institute (42 USC, Section 3741 and 3742), grants for development of juvenile delinquency facilities and programs for training adjudicated juvenile delinquents (42 USC, Section 3750), academic assistance for educating law enforcement officers in juvenile delinquency (42 USC, Section 3746), training programs in juvenile delinquency for law enforcement officers (42 USC, Section 3747), and technical assistance and statistical assistance in the juvenile delinquency area (42 USC, Section 3763).

3. Definition of the criteria that are used in each Department to determine what types of programs are considered for funding:

Criteria used by LEAA to determine what types of programs are considered for funding vary according to grant category.

For instance, the National Institute of Law Enforcement

and Criminal Justice, the research branch of LEAA, first judges an application for a grant according to whether it fits the Institute's fiscal year plan for research. In 1971 this plan contained four main thrusts: Prevention through understanding causes, prevention through new methods of positive intervention, treatment and rehabilitation of delinquents, and system processing of delinquents.

If an application fits into the fiscal year plan it is then judged on its technical aspects to determine, for example, if the methodology is sound, if the results will be valid and useful etc. The reasonableness of the funds requested is then reviewed, followed by a determination of the relative importance of the project when compared with other applications received. Institute Director and LEAA Administrator sign-off completes the process.

For discretionary grants in the juvenile delinquency area, projects must concern adjudicated delinquents, as opposed to predelinquent youth, and must fall within specified guidelines. For FY 1971, guidelines included projects primarily in community treatment (probation and parole improvement), correctional center development, institutional program innovations, and narcotics enforcement and prevention efforts.

Criteria for block grant funds vary from state to state, according to the analysis of needs in individual states.

States consider for funding those juvenile delinquency projects that fall within the areas they have determined are in need of improvement in their analysis of the state criminal justice system.

4. Departmental responses to the problems of juvenile delinquency and youth development.

A. Magnitude

1. Records for 1969, the first funding year of LEAA, do not detail block grant expenditures in the area of juvenile delinquency for that period. However, participation by corrections in the LEAA block grant program during fiscal 1969 was generally low. Discretionary grant records are available for that year, and indicate that only one juvenile project was funded -- a juvenile recidivism prevention project for \$18,752.
2. 1970 records offer a more detailed look at funding in the delinquency area:

Block Grant

Juvenile Coorections	\$19,196,371
Juvenile Delinquency Prevention.....	9,251,863

Discretionary Grants

Juvenile Coorections.....	2,915,906
Large Cities (juvenile delinquency corrections and prevention).....	486,298
	<u>\$32,850,438</u>

These figures are as reasonably accurate as available information permits. However, in many instances juvenile and adult corrections programs were included together in block grant applications, and in some

cases it was not possible to separate the juvenile components.

A breakdown of the distribution of block grant funds to juvenile corrections and juvenile delinquency prevention programs is attached, as is a list of Large City Special Grants and discretionary grants in the delinquency area. Technical assistance expenditures or encumbrances specifically for delinquency in 1970 were as follows:

- Seminars for juvenile delinquency administrator personnel at the Bureau of Prisons' center at Morgantown ... \$8,000
- Technical assistance materials on the planning and design of juvenile facilities, University of Pennsylvania ... \$50,000

3. A summary of LEAA Juvenile Delinquency Programs for FY 1971 is presented in the following chart. Several points should be noted about the information presented in the chart:

1. The summary highlights programs funded through part of June, 1971. Since LEAA has an extension on spending FY 1971 monies, the summary is incomplete for the year. Also, only programs and projects that have a major focus on delinquency are included in the following summaries (although LEAA funded many other projects

that included delinquents, these projects were not included on the following pages, because these projects did not have a major focus on juvenile over adult populations.)

2. The various LEAA juvenile delinquency programs are organized under five major headings: Youth Development-Delinquency Prevention, Diagnosis-Diversion, Rehabilitation-Treatment, Upgrading-Environment/Resources, and Drug Abuse. Under each major heading is a breakdown of significant program areas. It should be noted that many individual projects which are classified under specific program areas could be categorized under more than one heading; these multi-purpose projects are classified under only one heading according to the major thrust of the program.
3. Populations served under major program headings include:
 - a. Youth Development-Delinquency Prevention: Mainly high risk children and youth are classified under this category.
 - b. Diagnosis-Diversion: Although most programs focus on high risk children and youth, some projects include adjudicated delinquents.
 - c. Rehabilitation-Treatment: Practically all projects

deal with adjudicated delinquents.

d. Upgrading-Environment/Resources: Although children/youth are not the major focus of these programs, the facilities resources and personnel that these groups focus on deal with high risk and delinquent populations (See project descriptions).

e. Drug Abuse: The major target populations for these programs are high risk and delinquent populations.
(See project summaries)

FINAL TOTALS
LEAA FY 1971 FUNDING

	<u>No. of Projects</u>	<u>Amount</u>
Prevention	112	16,622,132
Diagnosis/Diversion	93	18,583,488
Rehabilitation	202	35,384,160
Upgrading Resources	210	19,324,328
Drugs	<u>65</u>	<u>7,380,827</u>
TOTAL	<u>682</u>	<u>97,294,935</u>

January 21, 1972

The National Institute of Law Enforcement and Criminal Justice awarded the following juvenile delinquency grants in FY 1971:

	NO. OF PROJECTS/AMOUNT FUNDED	
a. Youth Development - Delinquency Prevention	2	\$235,857
b. Diagnosis - Diversion	2	190,502
c. Rehabilitation - Treatment	3	494,034
d. Upgrading Environment/Resources	0	0
e. Drug Abuse	4 ¹	269,133

Under the Pilot Cities Program in the Institute, the following juvenile delinquency programs were funded in 1971:

- a. Methadone Treatment and Rehabilitation Program and Narcotics Bureau in San Jose -- \$380,844.
- b. Youth Service Bureau in Charlotte -- \$82,954.

¹ No separation was made between juvenile and adult populations; these projects include both.

B. History

From its inception in 1968, LEAA has considered juvenile delinquency prevention and control to be within the scope of its legislative mandate, and has funded programs in the delinquency area during its entire life as an agency. The emphasis on juvenile delinquency has increased during this time.

C. Projections

Several comments can be made about the general direction and substance of the 1972 delinquency programs, as well as major priorities that will be included in most of the juvenile delinquency planning, although some plans have not been finalized yet:

1. Since LEAA's primary mandate is to prevent and reduce crime and delinquency, and because delinquency and youth crime constitute a major portion of the crime problem in this country, LEAA will be devoting more of its attention and resources to the problem of juvenile delinquency.
2. Instead of funding many small projects, LEAA will concentrate its funds and resources in FY 1972 on fewer but more comprehensive projects, so that the impact of the most promising programs will be maximized.

3. In attempting to maximize the impact of programs on juvenile delinquency, LEAA will be placing greater emphasis on coordinating its programs with those of other Federal agencies, so that our limited but coordinated resources may be utilized more effectively and efficiently to make significant inroads on the juvenile delinquency problem, its prevention and reduction.

Substantive areas that will receive serious attention in the planning for FY 1972 in the juvenile delinquency area include:

1. Diversion from the Criminal justice system (Youth Service Bureaus, Child Advocacy Programs, other youth serving agencies/programs, etc.)
2. Prevention of delinquency (school, police, community and other programs aimed at the prevention of delinquency before it occurs, as well as after a child may have had some contact with the criminal justice system).
3. Personalized, community-based treatment programs (group homes, foster care, family strengthening programs, extended probation and parole services, etc.).
4. Involvement of juveniles and youth in positive, constructive responsible roles in the community (Youth Councils, youth-helping-youth programs, community involvement programs for youth, etc.).

5. Development and evaluation of innovative intervention strategies to prevent and reduce juvenile delinquency and youth crime. (Pilot Cities, National Institute of Law Enforcement and Criminal Justice research programs, etc.).

DISTRIBUTION OF BLOCK GRANT FUNDS TO JUVENILE

CORRECTIONS AND JUVENILE DELINQUENCY PREVENTION

State	Total for Juvenile Delinquency	Juvenile Corrections	Juvenile Delinquency Prevention
Alabama	\$ 400,000	\$ 280,000	\$ 120,000

FY 1970

LARGE CITY SPECIAL GRANTS PROGRAM

Juvenile Delinquency

<u>PROJECT TITLE</u>	<u>AWARD AMOUNT</u>
Expanded Juvenile Delinquency Program	\$ 83,240
<u>PROJECT SUMMARY:</u> To expand Huntsville, Alabama's juvenile offenders program by a) expanding the prevention program, b) adding mobile police patrols in high crime areas; c) providing community service officers; d) adding Youth Auxiliary Police; and e) offering the counseling services of a probation officer.	
Comprehensive Juvenile Services	\$ 68,587
<u>PROJECT SUMMARY:</u> To develop a comprehensive juvenile services program in Texarkana, Arkansas providing: 1) a Juvenile Police Bureau; 2) professional probation services; 3) pre-delinquent programs; 4) crisis intervention and temporary housing for youths in trouble.	
Juvenile Delinquency and Public Education Demonstration Project	\$150,000
<u>PROJECT SUMMARY:</u> Ten "police-youth specialists" will be assigned to community school programs in Jacksonville, Florida to counsel students and assist in the development of relevant youth programs.	
Boise Police Department School Resource Officer	\$ 47,721
<u>PROJECT SUMMARY:</u> To establish in Boise, Idaho a unit which will aid youth in developing programs in 3 schools emphasizing police-youth contact; pre-crisis and crisis intervention; and public education.	

Large City Grants, FY 70 -- page 2

Community Youth Residence \$ 22,250

PROJECT SUMMARY: To establish a community youth residence featuring psychiatric, vocational and recreational services in Cambridge, Massachusetts.

Team Counseling of Hard Core Delinquents \$ 69,275

PROJECT SUMMARY: A community treatment, police and recreation service oriented program utilizing counseling and supportive services in St. Louis Missouri.

Juvenile Defender Project \$ 7,334

PROJECT SUMMARY: To make legal services available to minors with limited financial resources who are charged with acts of delinquency in Helena, Montana.

Comprehensive Youth Services \$146,250

PROJECT SUMMARY: To establish an office of youth services in Manchester, New Hampshire that will facilitate early detection and intervention and coordinate existing rehabilitation services.

Bronx Community Counseling Project \$207,597*

PROJECT SUMMARY: To support a youth and adult service bureau in New York City to divert offenders from the criminal justice system.

Model Cities Crime and Delinquency Program \$ 75,900

PROJECT SUMMARY: A juvenile delinquency crisis intervention program in Toledo, Ohio designed to divert youth from the criminal justice system.

Large City Grants, FY 70 -- page 3

Police Juvenile
Referral Program

\$139,145

PROJECT SUMMARY: To establish a Referral And Diagnostic Unit in San Juan, Puerto Rico to screen all juveniles apprehended in San Juan, diverting them from a heretofore mandatory court processing system, and providing a positive structured group experience.

Juvenile Center
Achievement School

\$47,180

PROJECT SUMMARY: To provide a program incorporating the latest innovations in education, technology and the behavioral sciences to meet the academic and social needs of 200 potential dropouts in grades 6-9 in Waco, Texas.

Intensive Drug Abuse
Prevention Education Program

\$ 73,531

PROJECT SUMMARY: A comprehensive educational program directed toward the 72,000 children in grades 7-12 in Milwaukee, Wisconsin's public schools.

Narcotics and Dangerous
Drug Prevention and
Control

\$ 17,986

PROJECT SUMMARY: To establish a narcotics division consisting of sixteen officers and to effect prevention and rehabilitation through school programs and the Model Cities Human Services Center, respectively in Wilkes-Barre, Pennsylvania.

Day Night Care and
Drug Crisis Center

\$ 45,172

PROJECT SUMMARY: To establish a 24-hour facility to house 20 youths and serve an additional 200 daily and implement an existing prevention and rehabilitation program in New Bedford, Massachusetts.

Large City Grants, FY 70 -- page 4

Establishment of a "Community Service Bureau" -- Atlantic City \$131,389*

PROJECT SUMMARY: To aid in the development of police-community relations in Atlantic City, New Jersey by providing educational programs to the public, and by establishing a junior police corps, a police athletic league program and a police-school liaison unit and by conducting a community attitude survey.

Leadership Training through Law in American Society \$232,886

PROJECT SUMMARY: To expand a successful pilot program to modify attitudes of school children toward a commitment to the rule of law in our society by re-educating 30 school teachers in a summer training session in Chicago, Illinois.

Fargo Police-Youth Comparative Community Relations Program \$ 21,320

PROJECT SUMMARY: To increase police-community relations in Fargo, North Dakota by a police sponsored center to service youth, providing a setting where local youth can discuss problems or complaints with an understanding and helpful adult.

School Resource and Community Relations Programs--Fresno Police Department \$ 78,759

PROJECT SUMMARY: To enable the city of Fresno, California to continue its Community Relations and School Resource Officer Programs.

FY 1971

Comprehensive Diagnostic Plan for Juvenile Offenders \$172,989

PROJECT SUMMARY: Phase I: Treatment and indepth diagnosis for juvenile offenders from the Youth Study Center in New Orleans, Louisiana. Phase II: Assistance and services by caseworkers to families of juvenile offenders given help through Phase I.

Large City Grants, FY 71 -- page 5

Demonstration Community Adjustive
Services Bureau

\$147,725

PROJECT SUMMARY: Intake and counseling supportive services to 300 juvenile offenders in Norfolk, Virginia. Housing for 7 youth.

Living Arts Center

\$150,000

PROJECT SUMMARY: To serve girls 8-15. The program in Grand Rapids, Michigan is for first offenders and dropouts; it will have a drop-in center, skill training in communication arts, and the schools will provide an alternate means for getting a high school diploma.

Butte Youth Service
Center Group Home

\$ 46,929

PROJECT SUMMARY: Immediate shelter for 12 young people, individual and group counseling, problem solving experiences, drug abuse seminars and law enforcement seminars.

Youth Counselor Program

\$ 29,415

PROJECT SUMMARY: Designed as an extension of juvenile probation services in East Palo Alto-East Menlo Park communities. Purpose is to employ young people to provide counseling to their pre-delinquent and delinquent peers. Training is for 1 year in a 1-to-1 relationship with assistant probation officers-- 8 young people. (State of California.)

"Safe Streets Unit
Project," Miami, Florida

\$149,709*

PROJECT SUMMARY: One component deals with juvenile guidance; will contact all youthful offenders on a continuing basis, to attempt to have them involved in constructive activities.

Comprehensive Metropolitan Narcotics
and Dangerous Drug Control Program

\$137,576*

PROJECT SUMMARY: Juvenile education component provides for the training of 670 teachers and classroom instruction for 35,000 students in Richmond, Virginia.

Large City Grants, FY 71 -- page 6

Cadet Programs,
Highland Park, Michigan

\$86,360

PROJECT SUMMARY: To establish two programs to deal with juvenile problems: A police cadet program and a community service cadet program, both leading to work and/or careers in law enforcement.

Model Neighborhood Safety
and Police/Community Relations,
Honolulu, Hawaii

\$149,775*

PROJECT SUMMARY: The three major goals are to improve police-community relations; reduce and prevent deviant behavior, primarily among youths; and provide training opportunities for 25 MNA residents in subprofessional police work.

Youth Services Bureau

\$ 62,000

PROJECT SUMMARY: The development of new techniques for police handling and referral of juveniles for voluntary treatment without court involvement and community based treatment programs for juveniles already referred to the juvenile court system, including those on probation or parole. Program also provides for assistance to young adult misdemeanants in Highland Park, Michigan.

Drug Abuse Prevention
Program, Duluth, Minnesota

\$149,805

PROJECT SUMMARY: A four-component program, one of which is a Student Information and Education Program which will conduct discussion type workshops for teachers and youth and will disseminate drug information materials.

Preventive Program for Metropolitan
Narcotics and Drug Abuse Enforcement--
Columbus, Ohio

\$150,000*

PROJECT SUMMARY: The education and prevention component of this program will be an area-wide Education Program aimed at disaffecting teenagers from potential drug use by accurate information concerning drug effects and hazards.

Large City Grants, FY 71 -- page 7

Drug Abuse Education and
Coordination Center--
Albuquerque, New Mexico

\$ 35,588*

PROJECT SUMMARY: To collect and disseminate responsible and accurate drug abuse information, promote community involvement, augment and coordinate existing programs, establish a central information and referral service, organize teams of experts to conduct educational forums and workshops for the benefit of school children, educators, parents, probation officers, youth leaders, social workers, and the general public.

Special Narcotics and Dangerous
Drug Enforcement, Education, and
Prevention Programs--Jersey City, New Jersey

\$102,330*

PROJECT SUMMARY: The program has a number of major goals including the establishment of a broad education program, the development of an in-service training program, the total involvement of various community agencies, and the involvement of juveniles, all geared towards the overall goal of preventing drug addiction.

New and Improved Community and
Public Relations Service Program--
Lexington, Kentucky

\$150,000

PROJECT SUMMARY: A five-part program each of which involves youths, junior high through college age, working with, for and through the Lexington Police Department. Work/study and seeking jobs for disadvantaged youth are two of the components.

School Sentries Program

\$ 98,106

PROJECT SUMMARY: To create and employ a corps of 17 paraprofessional workers attached to various schools in Rochester, New York who would patrol the campuses of the schools and the adjacent streets in order to prevent and control crime within these areas. Their presence would serve to reduce the instances of shakedowns, fights, and petty thievery.

*These projects involve both juveniles and adults.

Large City Grants, FY 71 -- page 8

Police-Court-School-Community Project to
Reduce Juvenile Delinquency--
St. Louis County, Missouri \$195,364

PROJECT SUMMARY: To develop and support within the administrative structure of the St. Louis County Juvenile Court, six juvenile delinquency service teams and six community-based remedial education centers to provide preventive and remedial juvenile delinquency services to school personnel, students, parents, and community groups.

V.I.S.I.T. (Volunteers In-Service Intern
Training Project)--
Essex County, Missouri \$150,293

PROJECT SUMMARY: To improve and expand existing diagnostic treatment services of the Juvenile Courts of Essex County, Missouri by adding undergraduate students from local colleges to each of four courts in the county. An in-service training curriculum will be developed to train students and volunteers.

Coordinated Response to Narcotic and
Dangerous Drug Problem--
Corpus Christi, Texas \$ 92,506

PROJECT SUMMARY: Program has several components and will include an adolescent psychiatric service center and will provide counseling and support for youthful drug abusers.

Mid-Iowa Drug Abuse Council--
Des Moines, Iowa \$150,367

PROJECT SUMMARY: To provide a broad spectrum of rehabilitative services to drug abusers and an expanded program for drug education in a 9-county area of midcentral Iowa. Includes development of school curriculum and workshops for parents.

Large City Grants, FY 71 -- page 9

Improved Juvenile Services--
Baltimore, Maryland

\$150,000

PROJECT SUMMARY: To improve the services of the Baltimore Juvenile Court and reduce the backlog of juvenile cases by adding staff to include 4 court Juvenile Masters, a psychiatrist, psychologist, social worker, and resident nurse.

Comprehensive County/Community
Approach to Drug Abuse Prevention
and Rehabilitation--
Bergen County, New Jersey

\$150,000

PROJECT SUMMARY: To create an in-patient rehabilitation center for early drug users, the center will serve 70 municipalities within Bergen County, has facilities for 94 persons and will serve 35 by the end of 1971.

Children's Village (Design)--
Oakland County, Michigan

\$ 87,611

PROJECT SUMMARY: Provides architectural development costs of a housing and rehabilitation complex for Oakland County. The facility will eventually house both male and female delinquents in separate cottages.

Police Cadet Project--
Newark, New Jersey

\$125,470

PROJECT SUMMARY: To establish a Police Cadet Program by which young men 18-21, who may be interested in police work, may begin a career with the police department. Consists of a 38-month internship and includes attendance at Rutgers University for an AA degree.

Police Youth Specialist--
Jacksonville, Florida

\$ 75,000

PROJECT SUMMARY: An inter-agency effort designed to reduce number of juvenile referrals to the

Large City Grants, FY 71 -- page 10

criminal process. Each of 9 youth specialists are assigned a caseload of 15 hardcore delinquents in the school system of Jacksonville.

Treatment for Juvenile Delinquents-- \$ 67,667
Des Moines, Iowa

PROJECT SUMMARY: Community-based alternatives will be provided to selected juvenile offenders (male and female). They will be referred after a 14 day screening period at one of the two state training schools.

Juvenile Achievement Center School-- \$ 24,055
Waco, Texas

PROJECT SUMMARY: To take care of the academic and social needs of approximately 250 students in grades 6-9 who are in danger of being rejected by the school because of academic and social behavior problems.

Juvenile Social Conscience Project-- \$ 16,272
Witchita, Kansas

PROJECT SUMMARY: To provide a coordinated series of 52 juvenile-offender seminars dealing with juvenile-family-community problems. Reduction of juvenile recidivism will be the goal of the seminars which will be presented each week during the year to juveniles who are potential serious recidivists assigned to the seminar either as a probation condition or a release condition.

New Waverly Delinquency Prevention \$308,200
Program--
Houston, Texas

PROJECT SUMMARY: A community implemented program designed to provide potential delinquents and adjudicated delinquents with assistance along the road to social, education, and economic viability through the application and expertise of the participating agencies.

Large City Grants, FY -- page 11

Comprehensive Program to Improve Law Enforcement in Bridgeport's Model Neighborhood Program--
Bridgeport, Connecticut \$ 99,990

PROJECT SUMMARY: To provide continuation support for a special Police Task Force in a low-income housing project; will provide a police/community relations program; a neighborhood recreation center for teenagers will be the focal point of community relations activities.

Rent-a-Kid--
Omaho, Nebraska \$ 18,000

PROJECT SUMMARY: To provide a central office and local satellite offices which will administer requests for hiring from private citizens, business and industry for children from 13-16.

Stop Addiction through Voluntary Effort (Project SAVE)-- \$185,605

PROJECT SUMMARY: A pilot program aimed at the prevention of drug abuse by youths aged 9-20 in southeast D.C. Through trained communitiy residents.

Establishment of Juvenile Division--
Burlington, Vermont \$ 35,700

PROJECT SUMMARY: To establish a Juvenile Division within the Police Department, consisting of two intensively trained, well-experienced police officers.

The following list offers a sampling of juvenile delinquency discretionary grant projects funded in FY 1970, and is included to offer an idea of types of juvenile delinquency projects funded under the discretionary grant program during the year. Complete program data is available upon request.

LEAA

Juvenile Delinquency Program Descriptions

SUMMARY OF LEAA JUVENILE DELINQUENCY
PROGRAMS FOR FY 1971

A summary of LEAA Juvenile Delinquency Programs for FY 1971 is presented in the following chart. Several points should be noted about the information presented in the chart:

1. The summary highlights programs funded through June, 1971. Since LEAA has an extension on spending FY 1971 monies, the summary is incomplete for the year. Also, only programs and projects that have a major focus on delinquency are included in the following summaries (although LEAA funded many other projects that included delinquents, these projects were not included on the following pages, because these projects did not have a major focus on delinquents over adult populations.).
2. The various LEAA juvenile delinquency programs are organized under five major headings: Youth Development-Delinquency Prevention, Diagnosis-Diversion, Rehabilitation-Treatment, Upgrading-Environment/Resources and Drug Abuse. Under each major heading is a breakdown of significant program areas. It should be noted that many individual projects which are classified under specific program areas could be categorized under more than one heading; these multi-purpose projects are classified under only one heading according to the major thrust of the program.
3. Populations served under major program headings include:
 - a. Youth Development-Delinquency Prevention: Mainly high risk children and youth are classified under this category.
 - b. Diagnosis-Diversion: Although most programs focus on high risk children and youth, some projects include adjudicated delinquents.
 - c. Rehabilitation-Treatment: Practically all projects deal with adjudicated delinquents.
 - d. Upgrading-Environment/Resources: Although children/youth are not the major focus of these programs, the facilities, resources and personnel deal with and/or are for high risk and delinquent populations (See project descriptions).
 - e. Drug Abuse: The major target populations for these programs are high risk and delinquent populations (See project summaries).

							problems & what community wants from law enforcement system & meetings with public officials for local citizens to discuss their grievances.
TENN.	Development and encouragement of programs to improve police-community relations			40,000 C(B)			To increase effectiveness of law enforcement through an improvement in the relations between police and the community-at-large. Development of public educational programs tied to crime prevention will be encouraged with prime consideration being given to pilot projects which result in the introduction & utilization of new techniques of public education programs.
W. VA.	Improvement of Law Enforcement community relations			40,000 C(B)			To establish a full-time community-relations program within any criminal justice agency-police, courts, correction; and juvenile delinquency. Emphasis is on reaching youth and minority groups.
WIS.	Police-School Liaison			40,000 C(B)			Police will work as members of a school delinquency team working to identify and treat potential delinquents.

PREVENTION: COMMUNITY INVOLVEMENT (POLICE/COMMUNITY/YOUTH RELATIONS)

STATE	PROGRAM	I.D.	LENGTH PROJECT	1971 FUND	TOTAL COST	AGES	SUMMARY
WIS.	Police-Youth Interaction			\$130,000 C(B)			To organize police-youth activities aimed at promoting mutual understanding and to promote police work as a career.
WIS.	Police-Youth Aid Division			240,000 C(B)			To establish Youth Aid Divisions within local police agencies and to supplement the services of existing youth divisions. Functions include coordination of community efforts to control delinquency.
PUERTO RICO	Improvement of Police Services for Juveniles			161,000 C(B)			Continued support for the Police Juvenile Reference System of the San Juan Police Department.
FLA.	Police Youth Specialist	71-DF- 829		75,000 C(B)			This is an inter-agency effort designed to reduce number of juvenile referrals to the criminal process. Each of 9 youth specialists are assigned a caseload of 15 hardcore delinquents in the school system Jacksonville.
MICH.	Cadet Programs Highland Park	71-DF- 629		86,360 C(B)			To establish a police cadet program for youth and provide counselors for playground activities.

PREVENTION: COMMUNITY INVOLVEMENT (POLICE/COMMUNITY/YOUTH RELATIONS)

STATE	PROGRAM	1971 FUND	SUMMARY
MICHIGAN	School-Police Liaison Officer	\$81,495 C/D	To fund six police officers to be utilized in the school system of Wyoming and Kentwood, Michigan to act as a liaison between the police, courts, schools, parents, business, and community in general.
ARIZONA	Project AWARE	\$96,458 C/D	Program is designed to reduce juvenile delinquency and improve police-youth relations through an impact program which provides behavior guidance and promotes the health, social, educational, vocational, and character development of boys.

PREVENTION:		COMMUNITY INVOLVEMENT (SCHOOL AND COMMUNITY PROGRAMS)					
STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
HAWAII	Relate community support to the development of preventive programs in schools		\$ 33,000 C(B)				Develop close relationship between schools, the resources of their communities and the general public. Continue support of school-family course liaison; phase I aimed at 615 youths; phase II aimed at a core group of 50 out of a potential 700 youths.
KEN.	Office of Delinquency Specialist for Schools		25,000 C(B)				An office of Delinquent Specialist will be established to plan and develop prevention and rehabilitation programs within the school system. This office will develop plans to channel school resources and personnel to assist the "under-achievers" and truant segments of the approximate 10,000 youths referred to Kentucky courts each year.
KEN.	Community School		50,000 C(B)				To deter delinquents from criminal careers by better use of existing facilities such as opening public school facilities after school, on Saturdays and during the summer.

PREVENTION: COMMUNITY INVOLVEMENT (SCHOOL/COMMUNITY PROGRAMS)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
MASS.	Innovative Education Programs at the Department of Youth Services Institutions		\$ 60,000 C(B)				Implementation of an academic program which will be attended by approximately 60-70% of the population of the Shirley Industrial School for Boys'.
MASS.	Community High Crime Area Delinquency Prevention		25,000 C(B)				To continue development of alternative models for the organization of community resources toward prevention and control of juvenile delinquency. One model is being developed to divert youth in a target community from juvenile justice system and another model is operating to mobilize and upgrade existing community, social service, and criminal justice resources for delinquency prevention and control.
MINN.	Human Factors/Community Sector Program		390,000 C(B)				Grants will be made to schools or school districts to help 1,000 children formulate positive attitudes regarding socially responsible behavior and regarding the entire criminal justice system. To plan and develop two youth drop-in centers, perhaps to include the functions of the Youth Service Bureau. To establish school liaison officer programs. To establish within the junior or senior high school curriculum a short course on criminal law. To establish two juvenile half-way houses and to adequately staff them.

PREVENTION: COMMUNITY INVOLVEMENT (SCHOOL AND COMMUNITY PROGRAMS)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
N.J.	Community Involvement in Local Juvenile Delinquency Prevention Programs		\$1,000,000 C(B)				Examples: expansion of existing school programs; non-residential community centers; vocational resource offices. It is anticipated that approximately 1,000-1,500 youths will be extended guidance treatment, job placement, and/or referral to other social agencies in 1971.
N. MEX.	Public School Curriculum		38,062 C(B)				Development of a public school curriculum to shape constructive youth citizen ideals and social behavior.
N.Y.	Local Crime and Delinquency Prevention Organizations for High Crime Areas		500,000 C(B)				Develop neighborhood crime prevention organizations and inter-neighborhood crime prevention organizations.
ORE.	School Counseling Programs		51,530 C(B)				To develop counseling programs in the elementary and secondary schools of Districts 8 and 10. The following services will be provided: (1) consultation with teachers to assist in the identification and treatment of potentially delinquent children, (2) consultation with parents in an effort to promote understanding and acceptance of the program, (3) individual counseling of school children, and (4) liaison between schools and interested community agencies.

PREVENTION: COMMUNITY INVOLVEMENT (SCHOOL/COMMUNITY PROGRAMS)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
TENN.	Potential Delinquency Academic and Social Adjustment Program		\$ 75,000 C(B)				To detect pre-delinquent behavior in the elementary schools and to refer the child and his family to an appropriate social agency.
WIS.	Improvement of Role of Schools in Delinquency Prevention		180,000 C(B)				To permit experimentation in educational technique and curriculum variations that will focus on delinquent and pre-delinquent children. Also to upgrade guidance and treatment effort within the school.
WIS.	Prevention of Delinquency in the Community		439,000 C(B)				To encourage communities with a high incidence of delinquency to undertake comprehensive and innovative projects under their own leadership and administra- tion.
WYO.	Public Education and Community Relations		10,000 C(B)				^{1,2} To purpose will be to try to prevent juvenile delinquency by upgrading the ability of schools to provide effective counseling and educational services for potential delin- quents.
N.Y.	School Sentries Program	71-DF- 497	98,106 C(D)				To create and employ a corps of para-professional workers attached to various schools throughout the City of Rochester who would patrol the campuses of the schools and adjacent street to prevent and control crime.

PREVENTION: COMMUNITY INVOLVEMENT (SCHOOL/COMMUNITY PROGRAMS)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
OHIO	Cuyahoga County Juvenile Court Corrections Program, Cleveland	71-DF- 667	\$151,500 C(D)				To divert approximately 450 juveniles a year from the criminal justice system at their earliest contact by providing alternatives to formal handling. Community agencies will be involved in coordinating program for improved prevention and control of delinquency.
ARIZ.	Developing Juvenile Delinquency Prevention		110,000 E(?) 80,000 E(D)				To develop extended services to pre-delinquent juveniles in the major metro areas through the establishment of community group homes for the juvenile courts.
KEN.	Delinquency Prevention and Treatment in the Community		200,000 E(D)				Under this program, three projects will be funded: Probationary Juvenile Volunteer Assistance, a Community School in an area of high delinquency.
MASS.	Local Juvenile Delinquency Prevention/Rehabilitation.		250,000 E(D)				Support the establishment of the local level of coordinating juvenile delinquency prevention and rehabilitation programs. This will expand existing programs and initiate and develop programs for various agencies to serve juveniles.
R.I.	Comprehensive Community Delinquency Services		70,000 E(D)				This program will direct community resources at delinquency detection prevention and treatment through projects which

STATE	PROGRAM	PREVENTION: I.D. . .	COMMUNITY-INVOLVEMENT (VOLUNTEERS)			SUMMARY
			1971 FUND	LENGTH PROJECT	TOTAL COST	
ARIZ.	Expanding and Supporting the Use of Citizen Volunteers in Corrections		\$ 10,000 C(B)			To establish long range program encouraging and supporting use of volunteers in various correctional activities, including volunteer probation officer programs.
MISS.	Utilization of Volunteer Personnel in Youth Courts		16,100 C(B)			Volunteer personnel, including ex-juvenile offenders, to provide court services and new volunteer programs to city and county youth courts.
VER.	Volunteer Service in Prevention of Youthful Crime		2,000 C(B)			Recruitment of volunteers to staff community youth service centers when youths need help or privacy.
WIS.	Mandpower Resources for Juvenile Corrections- Volunteers		50,000 C(B)			To use volunteers to support professional corrections personnel in providing juvenile court services to delinquent youth.
MICH.	Delinquency Reduction Through a Volunteer "Case Aide" Program	71-DF- 589	48,920 C(D)			To enable the juvenile court of Oakland County to expand its limited volunteer case aid program.
WASH.	Establish Volunteer Coordination and Service Programs		24,500 E(B) 24,500 E(D)			This program will develop volunteer coordinators at the local levels and institutions throughout the state.

PREVENTION:			RESEARCH AND DEVELOPMENT			
STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	SUMMARY
ARIZ.	Developing Juvenile Delinquency Prevention Programs		\$ 50,000 C(B)			Grants to develop from eight to twelve innovative juvenile delinquency prevention programs.
CALIF.	Develop and Improve Delinquency Programs in the Community		3,548,000 C(B)			Summary not available.
GA.	Research on Juvenile Delinquency		29,051 C(B)			Two phase project to develop a reasonably valid test for deter- mining degree of delinquency of a given youth and to develop model of behavioral management for the potential and hard-core delinquent. In 1971 funds will be used for the first phase involving data collection.
ILL.	Delinquency Prevention Systems		800,000 C(B)			The first project will be the second year continuation of a three year study of juvenile delinquency which provides for intensive psychiatric and psychosomatic research on groups of 40-50 voluntarily hospitalized juveniles on a 24 month basis. Additional programs include Crisis.
IOWA	Juvenile Delinquency Research and Demonstration		83,284 C(B)			Youth center; explorer scout police program; drug abuse program.
KEN.	Delinquency Research Specialized Studies		56,000 C(B)			Two major studies concerned with recidivism and prevention/ rehabilitation will be funded.

STATE	PROGRAM	PREVENTION: I.D.	RESEARCH AND DEVELOPMENT			SUMMARY
			1971 FUND	LENGTH PROJECT	TOTAL COST	
MD.	Research and Planning Capabilities in the Juvenile Area		\$ 41,000 C(B)			To develop a capability at the State level to initiate research projects in the field of juvenile delinquency prevention and treatment. Approximately two to three researchers are contemplated with appropriate supportive staff.
MASS.	Comprehensive Attacks on Auto Theft and Burglary.		25,000 C(B)			Analyze auto theft and/or burglary problems in selected cities, towns or regional groupings and develop methods to reduce incidence of those crimes in those communities.
MICH.	Identification and Prevention of Potentially Delinquent Behavior		600,000 C(B)			Identification of specific variables that might serve as indicators of delinquent behavior and to determine if possible to reverse these indicators. This program will be implemented by up to 15 projects in 1971 and up to 12 additional projects will be funded in each of the next four years.
MICH.	Research and Development		40,000 C(B)			Project which develops a coordinated system of research in the areas of juvenile justice and family problems. It will include a determination of research priorities, on examination and review of juvenile services and an analysis of the relationship of the family to juvenile problems.
MINN.	Research and Planning Program		30,000 C(B)			To study children's acquisition of social behavior norms, learning disabilities and emotional disorders-delinquent behavior.

STATE	PROGRAM	PREVENTION:	RESEARCH AND DEVELOPMENT			AGES	SUMMARY
		I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST		
MINN.	Applied and Feasibility Program		\$ 80,000 C(B)				To establish a pilot project in identification and treatment of pre-delinquent youth.
N.J.	Specific Problem-Oriented Research in Reducing Juvenile Delinquency		75,000 C(B)				An attempt to scientifically determine what kind of prevention and rehabilitation programs work best with what kinds of youth.
N.M.	Improving Relevancy of Youth Serving Institutions		35,625 C(B)				Bridge the generation understanding and communications gaps in order to make youth-serving institutions more relevant to youth.
N.C.	Promote Greater Coordination and Consolidation Among Law Enforcement Agencies		650,000 C(B)				Projects include a 4-county task force to deal with drug abuse, family crisis and juveniles.
OHIO	Research and Development		200,000 C(B)				Projects being tested and evaluated include use of "Big Sisters" for pre-delinquent and delinquent girls; studies of youthful drug involvement; and an analysis of various treatment strategies for delinquent youth.
OKLA.	Community Counseling for Prevention of Juvenile Delinquency		70,000 C(B)				Development of two demonstration projects dealing with the need for delinquent, family and network counseling in both inner city and rural locations.

PREVENTION:			RESEARCH AND DEVELOPMENT				
STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
S.D.	Juvenile Delinquency Prevention Program		\$ 95,000 C(B)				To encourage the development of innovative and improved methods and techniques for prevention of juvenile delinquency. Examples of programs are: juvenile "hot-line;" pre-delinquent prevention programs utilizing a multiplicity of agencies and disciplines; mass media education (excluding drug education); and research efforts in the identification of delinquent areas.
TEX.	Prevention and Control of Juvenile Delinquency-General		75,000 C(B)				General program to cover innovative projects that may develop to prevent and control juvenile delinquency.
VER.	Office of Juvenile Services		20,299 C(B)				Establishment of an Office of Juvenile Services to perform comprehensive planning in this area, and to assist communities in planning and prevention services.
CALIF.	Law Enforcement Consultant Team	71-DF- 530	96,950 C(D)				Six officers will be assigned to work with Youth Authority personnel in Sacramento as members of a "Law Enforcement Consultant Team to develop statewide delinquency prevention programs.

STATE	PROGRAM	PREVENTION: I.D.	RESEARCH AND DEVELOPMENT		AGES	SUMMARY
			1971 FUND	LENGTH PROJECT		
GA.	Fulton County Atlanta Juvenile Court Information Systems	71-DF- 736	\$ 75,480 C(D)			This will revise intake form of the juvenile court to increase information availability to the judge, allowing also for a projection of delinquency trends and formation of prevention programs.
KEN.	Development and Predictive Study of Delinquency Prevention	71-DF- 736	203,827 C(D)			Project will discover methods for (1) building socially, personally, and educationally relevant behaviors; (2) identifying and revising pre-delinquent behavior; (3) measuring types and intensity of delinquency behavior; (4) developing comprehensive models for school systems to control and prevent juvenile delinquency. Study will take place in Louisville, Kentucky school.
N.Y.	Workshops for Juvenile Crime	71-DF- 511	84,775 C(D)			Four model workshops will be held, interdisciplinary in nature, to study problems in juvenile delinquency.

STATE	PROGRAM	PREVENTION	RESEARCH AND DEVELOPMENT
		1971 FUND	SUMMARY
ARIZONA/UTAH	Determinants of Delinquents Behavior - Peer Group and Situational Influences	\$ 41,755 D/NI	Examination of a number of determinants of criminal behavior including the context surrounding commission of the offense (group or individual); the influence of socio-economic status; the relationship of the offense to involvement in the delinquent subculture; and the situational and interactional variables that may have influenced the commission of the offense.
PENNSYLVANIA	Study of Delinquency and Criminal Careers	\$194,102 D/NI	Purpose of this project is to study and analyze the social processes by which young Negro males enter into, maintain and leave a variety of socially relevant forms of behavior such as delinquency, juvenile crime, adult crime, use of alcohol, soft and hard drugs, school drop-out, etc. The study is a longitudinal one involving 3 comparative cohorts of 200 families each. The primary unit of investigation is not the individual boy, but the boy as a family member.

DIVERSION FROM CRIMINAL JUSTICE SYSTEM (YOUTH SERVICE BUREAUS)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
ALA.	Juvenile Delinquency Prevention		\$ 168,000 C(B)				To establish four Youth Service Bureaus which will coordinate the fragmented work of existing youth-serving organizations and which will provide job-placement assistance, counseling services and recreational programs. Each of the four bureaus will be able to serve from 1,000 to 1,500 through one or more of its service areas.
ARIZ.	Establishment of Youth Service Bureaus		100,000 C(B)				Establishment of Youth Service Bureaus in areas of high delinquency.
COL.	Community-Based Juvenile Program		300,000 C(B)				Numerous grants for new or continuing Youth Service Bureaus, group homes and Court Volunteer programs. This year's funds will be used for continued support of two bureaus now in operation and the establishment of four or five additional bureaus.
CONN.	Community-Based Youth Service Program		105,000 C(B)				To promote or develop new or experimental youth services that can respond to young peoples' needs and to develop alternatives to the criminal justice system through counseling, hot lines, etc.
CONN.	Youth Service Bureau		41,000 C(B)				A centrally located and

DIVERSION FROM CRIMINAL JUSTICE SYSTEM (YOUTH SERVICE BUREAUS)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
							easily accessible bureau that would coordinate community services for juveniles and delinquency prevention programs.
DEL.	Community-Based Prevention Program		\$ 134,207 C(B)				Youth Resource Bureaus; small group homes for pre-delinquents; area youth work units.
HAWAII	County Youth Services Coordinator		15,000 C(B)				Youth Services Coordinator to coordinate all available services within a single county.
IND.	Community-Based Prevention Programs		533,000				To continue support of two existing Youth Service programs and start 10 additional ones. It is hoped that these projects will reach approximately 3000 youth and divert them from the Court System. Establish a social worker project in 6 local school corporations. Establish police school liaison programs in 10 large cities. Support youth programs with private agencies in Marion County and two other model cities areas. Establish programs to involve police and youth.

DIVERSION FROM CRIMINAL JUSTICE SYSTEM (YOUTH SERVICE BUREAUS)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
IOWA	Youth Service Bureau		\$ 80,445 C(B)				Establishment of 6 Youth Service Bureaus throughout the State, with an estimated recipient potential of approximately 1700 youths.
KEN.	Youth Service Bureaus		100,000 C(B)				To provide delinquent youths with needed services by referral to other community agencies and by development of its own programs. Approximately 40-100 youths should be served monthly by four Youth Service Bureaus.
MAINE	Youth Services Coordination		38,400 C(B)				Establishment of a bureau to coordinate and correlate all public and private youth on related programs.
MD.	Youth Services and Referral Bureau Development		649,400 C(B)				To develop a state-wide system of Youth Service Bureaus (10-20) with Roving Youth Leader support where appropriate. It is estimated that approximately 400 to 600 troubled youths in the delinquent or pre-delinquent areas and approximately 100 to 200 parents will receive services from these bureaus during the first year of operation.
MASS.	Youth Resources Bureau		500,000 C(B)				This program will continue support to the six youth resources Bureaus and provide services to 1000-1500 delin-

REHABILITATION: II. COMMUNITY-BASED (DETENTION)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	COST	AGES	SUMMARY
FLA.	Escambia County Juvenile Detention Facility Program	71-DF-828	\$ 52,835 C(D)				A modern detention center for 30 youths will be planned. Provisions will be made for day care, intensive supervision, foster care, group homes, and supplementary programs and services. A Juvenile Delinquency Task Force will provide total project guidance.
N.C.	Comprehensive Study on Juvenile Detention	71-DF-843	48,391 C(D)				The State Department of Social Services will undertake a comprehensive study of statewide juvenile detention needs. Recommendation will be made re-alternate to institutionalization.
VA.	Juvenile Detention Home	71-DF-563	15,205. C(D)				In the counties of Chesterfield Powhatan and Goochland, Virginia, to support the development of a program and an architectural design for a regional detention facility to house 20-25 juveniles.

REHABILITATION: II. COMMUNITY-BASED (DETENTION)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	COST	AGES	SUMMARY
ALA.	Mobile County Juvenile/Youth Center		\$ 400,000 E(BIK.) 400,000 E(DIS)				A juvenile detention home will be built and will pro- vide the following services & facilities-testing and evaluating treatment, vocational training and a court room.
ALAS.	Anchorage Detention Facility Construction		20,000 E(D)				These funds will contribute providing a co-educational Detention Center with the capability for handling 60 children held for pro- cessing by the children's court, Superior court, Third Judicial District.
GA.	Regional Youth Center		207,500 E(B) 68,000 E(D)				Construction of an addi- tional facility for detention and diagnosis, pending court action, and short-term treat- ment of children and youth. Because of short-term detention 900 children should be served during the Period of a year.

REHABILITATION: II. COMMUNITY-BASED (DETENTION)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	COST	AGES	SUMMARY
IND.	Community-Based Juvenile Corrections		\$ 100,000 E(B) 330,000 E(D)				To open six residential detention and treatment centers, plus one develop- ment center to serve 2100 youthful offenders. To continue three intensive probation project and to open 4-8 additional Shelter care, and treatment care.
MINN.	Development of Regional Jails and Juvenile Detention		77,000 E(B) 607,500 E(D)				To provide a regional juven- ile detention and treatment facilities in areas where existing community-resou- rces could be used for juvenile training and treatment.
MONT.	Juvenile and Female Detention Center Model		7,500 E(B) 25,000 E(D)				To construct a model juven- ile or female detention hold- ing center by remodeling an existing jail facility to incorporate additional and seperate facilities for female and juvenile prisoners.

REHABILITATION: II. COMMUNITY-BASED (DETENTION)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	COST	AGES	SUMMARY
N.J.	Improvement of State and County Correctional Facilities		\$ 597,000 E(B)				Provide a regional detention facility to service Atlantic and Cape Counties that will promote the rehabilitation of juveniles. Short-term detainees. Also provide for a small group residential center an adjunct to the Atlantic-Cape Regional Shelter.
N.J.	Improvement of Juvenile Detention Practices		40,000 E(B)				To assist counties in instituting programs that will promote the rehabilitation of juveniles placed in custody pending juvenile court disposition; and to assist counties in planning and designing juvenile shelters where suitable facilities are lacking. Approximately 14,000 juveniles will be served by this program.
N.Y.	Alternatives To Juvenile Detention and Improving Con- ditions in Detention Facilities		75,000 E(B)				To develop and implement alternatives to juvenile detention in order to reduce the detention caseload by as much as 40%. Also living conditions will be improved for those requiring secure detention.

REHABILITATION: II. COMMUNITY-BASED (DETENTION)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	COST	AGES	SUMMARY
N.D.	Community-based Corrections Programs		\$ 25,000 E(D)				To provide programs reflecting advanced techniques for care and treatment of offenders in the cities and reservations. Juvenile detention Units and a half-way house for the larger cities is needed.

REHABILITATION: III. RESEARCH AND DEVELOPMENT

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	COST	AGES	SUMMARY
ARIZ.	Study and Improvement of Youth Placement Resources		\$ 15,000 C(B)				Continuation of a survey & description of existing foster & group home resources as alternatives to institutionalization.
HAWAII	Corrections Research and Statistics		40,000 C(B)				This program will establish statewide correctional v. bureau of criminal statistics to gather sufficient data and information, to find causes and means for prevention and treatment of juvenile delinquency, and to participate in development of criminal law and administrative policies for resolution of these problems.
S.D.	Innovative Programs for Juvenile Corrections		15,000 C(B)				To stimulate research into innovative programs dealing with juvenile corrections including group counseling, parents and family education, psychological conditioning and use of volunteer probation aides.

REHABILITATION: III. RESEARCH AND DEVELOPMENT

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	COST	AGES	SUMMARY
CALIF.	Alternate Routes	71-DF-942	\$ 202,125 C(D)				This project, in conjunction with a DHEW community action program will provide alternates to court processing for juveniles in the cities of Placentia and Fountain Valley Orange County.
ALAS.	Probation-Parole Intensive Supervision Capability		73,000 E(D)				These funds will provide for program planning for a detention and diagnostic center for juvenile offenders in the Southcentral region of Anchorage..
DEL.	Expand Existing Community-Based Treatment Programs and Develop Alternatives		25,000 E(B) 32,000 E(D)				Grants will be given to the Family Court, local governments Division of Juvenile Corrections, Department of Health and Social Services so to detain and evaluate juveniles the most effecient and judicious manner through institutional treatment programs.
DEL.	Expand Existing Institutional Treatment Services		25,000 E(B) 22,000 E(D)				Grants will be given to the Family Court, local governments, Division of Juvenile Corrections, Department of Health and Social Services soas to detain and evaluate juvenilè the most efficient and judicious manner through institutional treatment services.

REHABILITATION: III RESEARCH AND DEVELOPMENT

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	COST	AGES	SUMMARY
D.C.	Proposed Community Core Pilot Project		\$ 83,662 E(B) 66,000 E(D)				The program seeks to provide alternate care for youths considered good risks". The selection process will include study of the elements of social history, psychological testing interview with the family, and a period of observation in the institution. A Community Core will be set up to evaluate the models of supervision in the community and then develop hypotheses regarding specific treatment plans for various types of delinquents.
MONT.	Jail Survey		6,250 E(B) 55,000 E(D)				To gather data on existing juvenile detention centers with an end result of determining feasible alternatives to system in use. It will also include the feasibility study of establishing regional detention centers.

REHABILITATION: III. RESEARCH AND DEVELOPMENT

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	COST	AGES	SUMMARY
VIRGIN ISLANDS	Comprehensive Correctional System Plan		\$ 20,000 E(D)				A feasibility study of juvenile detention would determine whether such a facility is needed, what kind, where to locate it, and how it would fit in with the overall administrative structure of the grant. A major concern would be to develop a formal process for the purpose of delinquent behavior.

							etc., of staff and clients, distribution of questionnaires and in depth instructional interviews.
TENN.	Expansion and Improvement of Juvenile and Adult Probation	71-DF-801	\$250,000 C(D)				\$250,000 of this award will provide to the State Division of Juvenile Probation with 52 correctional officers; 9 supervisory counselors, 4 district directors, 2 halfway houses and 2 district coordinators for volunteer services.
COL.	Community-based Juvenile Program		134,000 E(B) 120,000 E(D)				Program has 3 areas: Manpower request from a large metropolitan area Juvenile Court to alleviate the current ever-increasing manpower crisis due to increased juvenile delinquency filings; (2) 2 group homes to provide necessary services for 20-25 children each; and (3) implementation study for Mobile Work Study Program.
KAN.	Court Related Personnel		110,000 E(B) 50,000 E(D)				To increase manpower levels of the community level to insure the expansion of services and reduction of caseloads, and provide court operated detention facilities and manpower.

UPGRADING RESOURCES: I. PERSONNEL (STAFFING)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
LA.	Juvenile Correction Personnel		\$ 92,375 E(B)				Number of personnel dealing with diagnostic and evaluation of juvenile delinquency will be increased. This will provide a better coordination of efforts of State Board of Corrections.
MONT.	Adult and Juvenile Probation/Parole Assistance		8,250 E(B)				To provide manpower and equipment assistance to parole officers in order to reduce the caseloads.
NEV.	Expansion of Juvenile Parole		20,000 E(B)				To reduce the caseload of juvenile parole officers by centralizing administrative control and adding more personnel with specialized skills.
N.H.	Additional Staff at State Industrial School		20,000 E(B)				To provide intensive counseling for over 200 State Industrial School students and provide adequate record keeping.
N.H.	Increase in Probation and Parole Staff		6,000 E(B) 17,500 E(D)				This program will reduce probation and parole caseloads to parolees and improve and standardize record keeping systems.
N.C.	Classification of Adjudicated Juveniles		18,000 E(D)				A classification specialist will employ for the classification transfer of children from the District Courts to the Department of Juvenile Corrections.

UPGRADING RESOURCES: I. PERSONNEL (STAFFING)

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
N.C.	Coordinate Local Juvenile Programs		\$ 33,000 E(D)				Consultants to coordinate local juvenile programs.
R.I.	Improve Juvenile Probation Service		20,000				This program will increase the supervisory capability of juvenile probation officers through the reduction of caseloads.
S.C.	Family Courts and Community Programs		25,000 E(B)				To reduce the caseload of juvenile probation officers, to develop more intensive treatment programs by utilizing inter-agency team programs and reduce the fragmentation of court services in areas not now served by family courts.
TEX.	Court Aides and Assistance		50,000 E(B) 30,500 E(D)				To provide assistance to approximately 2,000 trial and appellate that handle criminal and juvenile matters.
VA.	Planning a Training Program for Professional Employees		1,000 E(B)				To improve the capability of juvenile correctional, probation and parole personnel, and those employed by courts to deal with specialized problems.
WIS.	Manpower Resources for Corrections - Volunteer		26,000 E(B)				Use volunteer workers to support professional corrections personnel in providing services to youth confined in state training schools.

UPGRADING RESOURCES: I. PERSONNEL (STAFFING)

STATE	PROGRAM	1971 FUND	SUMMARY
MASS.	Police and Community Service Cadets	\$100,000 C/D	The Model Cities Community Service Cadets component of the project will serve as a recruitment base for the second component, the Police Cadet Program in Springfield. Emphasis is on 18-year old recruits. The objectives are to 1) build rapport between police and residents, especially youth, 2) reduce crime rate and police-citizen confrontation, 3) provide a vehicle for recruitment of minorities and 4) develop community leadership.
INDIANA	Delinquency Control Offer Program	\$197,750 C/D	An additional of 18 delinquency control officers to work with first offenders, very youthful offenders, and pre-delinquency cases with objective of delinquency prevention.
VERMONT	Establishment of Juvenile Division	\$35,700 C/D	To establish a juvenile division within the Burlington Police Department consisting of 2 intensively trained, well-experienced police officers to handle juvenile complaints, coordinate their activities with the rest of the department and existing juvenile programs, and assist in general training in juvenile matters of entire police department.
NEW JERSEY	Police Cadet Project	\$125,470 C/D	To establish a Police Cadet Program in Newark by which young men 18-21, who may be interested in police work, may begin a career with the police department. Consists of a 38-month internship and includes attendance at Rutgers University for an AA degree.

UPGRADING RESOURCES: II. UPGRADING SYSTEMS, EQUIPMENT, PROCEDURES, FACILITIES

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
ARIZ.	Improving Criminal Justice Information and Records System		\$ 50,000 C(B)				Upgrade local records system and support a statewide criminal justice information system. It is estimated that a minimum of ten agencies will join the State system.
ARK.	Comprehensive Community-based Juvenile Program		352,150 C(B)				Provide local communities with personnel, facilities and services to establish comprehensive programs, such as supervised probation for approximately 350 juvenile offenders and residential housing and temporary detention facilities to serve an estimated 250 youths. A total combination of all such projects will service about 2500 youths.
CONN.	Improvement of Police Responses to Juvenile Delinquency		120,000 C(B)				To improve police capability to deal with juveniles so the best interest of the child will be served.
D.C.	Electronic Surveillance Equipment for Schools		30,000 C(B)				To provide twenty-six burglary alarm systems for secondary schools to secure juvenile education process.
D.C.			24,393 C(B)				Improve juvenile justice through expeditious retrieval of complete juvenile records.

UPGRADING RESOURCES: II. UPGRADING SYSTEMS, EQUIPMENT, PROCEDURES, FACILITIES

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
GA.	Generation of Information on Juvenile Delinquency and Information Systems		\$ 15,759 C(B)				Establish data collection and analysis of juvenile delinquency characteristics.
HAWAII	Multi-Purpose Community Center for Hilo, Hawaii		12,000 C(B)				Establish multi-purpose community center to serve as a central facility for all state, county or private agencies included in law enforcement. Provide needed services and care treatment services for potential violators and offenders. This facility is expected to provide these services without incarceration.
IND.	Expand Rehabili- tation Services and Facilities		300,000 C(B)				Increase effectiveness of corrections and rehabili- tation (including probation and parole) by: opening 2 multi-purpose correctional centers near large popu- lation areas to serve 700 males and 60 females; provide expanded work release programs for an additional 200 inmates to State and local institutions; provide equipment and improve facilities in about 15 state and local institutions, and expand rehabilitation services to aid offenders in 5 state institutions and 15 or more

UPGRADING RESOURCES: II. UPGRADING SYSTEMS, EQUIPMENT, PROCEDURES, FACILITIES

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
KAN.	New Equipment		\$ 35,012 C(B)				local agencies. Adequately equip all juvenile justice agencies for better utilization of manpower and delivery of services by providing funds for up to 20 projects for the acquisition of a maximum of 20 units of new equipment.
KAN.	Replacement Equipment		26,759 C(B)				To provide funds for up to 45 projects for the purchasing of up to 25 units of replacement equipment.
KAN.	State Level Law Reform		9,365 C(B)				Strengthen juvenile justice legislation to enable agreement among jurisdictions in handling youthful offenders by funding up to three projects for this purpose.
OKLA.	Juvenile Personnel Training		50,000 C(B)				To develop statewide written standards for law enforcement officers in their exercise of discretion in juvenile cases. These standards will also serve as the basis for in-service training. During the first year it is anticipated that 300 criminal justice personnel, chiefly law enforcement officers, will be trained.

UPGRADING RESOURCES: II. UPGRADING SYSTEMS, EQUIPMENT, PROCEDURES, FACILITIES

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
ORE.	Facility and Improvements		\$ 7,500 C(B)				To provide adequate juvenile holding, treatment and counseling facilities throughout the State and eliminate the holding of youth in adult jails.
PA.	Establishment or Improvement of Juvenile Detention and Reception Facilities		23,100 C(B)				Establish 2 or 3 regional reception/diagnostic centers; establish four new individual county detention facilities and one regional facility; and expand one county facility.
S:D.	State Corrections Equipment Acquisition		15,000 C(B)				To upgrade and improve the effectiveness of State correctional institutions by providing them with equipment to better enable them to fulfill their correctional duties. Purchase of office equipment, recreational equipment, such as audio-visual and any other equipment deemed necessary.
UTAH	Corrections Equipment		5,000 C(B)				Provide rehabilitative equipment and aid to juvenile jails, detention centers, halfway houses and group homes.
UTAH	Juvenile Information Systems		56,000 C(B)				Development of an expanded automated system in the Juvenile Court area.
VA.	Upgrading Juvenile Delinquency Programs		738,000 C(B)				Provide professional and administrative personnel

UPGRADING RESOURCES: II. UPGRADING SYSTEMS, EQUIPMENT, PROCEDURES, FACILITIES

STATE	PROGRAM	I.D.	1973 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
							(such as clinical psychologists and child psychiatrists) and equipment to both state and local agencies. New innovative programs, such pre-release, services, will be emphasized.
WASH.	Improve Court Referral Procedures		\$100,000 C(8)				To create family courts to deal with all criminal and delinquent acts affecting the family and to make preventative services available through these courts.
WIS.	State Assistance to Local Juvenile Justice Systems		155,000 C(8)				To enable the State to provide consultation and technical assistance to the criminal justice agencies serving youth and to encourage coordination between governmental and private agencies.
KAN.	Specialized Equipment		24,259 C(8)				Medical equipment units; communications equipment; security and custody equipment for a total of up to five projects for purchase of a maximum of eight units of specialized equipment.
KEN.	Community Resources Manual		15,000 C(8)				To provide a resource manual for professional and volunteer workers with up-to-date information on available community resources. A

UPGRADING RESOURCES: II. UPGRADING SYSTEMS, EQUIPMENT, PROCEDURES, FACILITIES

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
							minimum of 1000 persons active in juvenile affairs will be expected to benefit from the resource manual.
MD.	Expanded State's Attorneys' Services		\$ 75,000 C(B)				Upgrade capabilities of State's Attorneys' offices by providing full-time prosecutors in all jurisdictions and by providing or expanding prosecutorial services in juvenile proceedings and courts of limited jurisdiction. This program envisions grants to provide prosecuting staff to Baltimore.
MICH.	Improvement of Youth Serving Facilities		150,000 C(B)				Improvement of existing programs through new equipment, remodeling and aid in construction of new community based facilities.
MICH.	Youth Services Information System and Program Evaluation		130,000 C(B)				Development of a data collection system which could be implemented on a statewide basis to evaluate all youth programs and facilities.
MISS.	Improve Security Within the State's Correctional Institutions		30,000 C(B)				Improve security within the State's correctional institutions through the purchase of basic equipment and construction of security facilities at the penitentiary, boys training schools and county penal farms.

UPGRADING RESOURCES: II. UPGRADING SYSTEMS, EQUIPMENT, PROCEDURES, FACILITIES

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
NEV.	Evaluation of Institutional Techniques		\$ 30,000 C(B)				To assess the past and present methodology of juvenile institutions with an eye to updating and improving programs. Approximately 200 or 300 case histories will be evaluated at each of the two juvenile institutions in the state.
NEV.	Updating Records Systems		25,000 C(B)				To provide assistance needed to retain criminal justice records in most efficient and dependable way possible. Agencies will be encouraged to utilize modern record storage systems such as microfilm, microfiche, etc. This will also include purchase of new equipment and hiring of additional personnel to perform transfer of records to the new system.
N.D.	Improving Efficiency and Effectiveness of Court System		10,000 C(B)				To prepare pre-sentence investigation reports in all felony cases.
OHIO	Juvenile Rehabilitation Facilities		1,686,025 C(B)				To provide additional rehabilitation facilities for 850 youths in multi- county areas. Funds will be allocated for studies to determine needs and/or locations for juvenile facilities, remodeling or improvement of existing

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
							facilities, and planning grants or construction of juvenile detention and rehabilitation facilities.
MASS.			\$ 10,000 C(B)				To develop a revised Juvenile code for submission to Massachusetts Legislature.
WIS.	Supplemental Services to Existing Public Corrections Agencies		200,000 C(B)				To provide funds to private or public agencies whose primary goals are to assist public correctional agencies serving juveniles in Milwaukee County and other urban areas.
ARIZ.	Upgrading Facilities of Arizona Boys Ranch	71-DF-754	178,196 C(D)				The Pima County Juvenile Court Center will upgrade physical and environmental facilities at the ranch. Cottage remodeling, installation of a new sewage facility; and installation of a new water system are contemplated.
ALA.	Regional Juvenile Center Decatur		18,000 E(B)				Renovation will take place and equipment and staff will be added for a juvenile center to deal primarily with children under 16 years of age.
ARK.	Comprehensive Community-based Juvenile Program		47,000 E(B)				To provide local communities with the capability for establishing a wide range

UPGRADING RESOURCES: II. UPGRADING SYSTEMS, EQUIPMENT, PROCEDURES, FACILITIES

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
							of projects to fit their needs. This project would serve about 2,500 youths.
CALIF.	Improved Corrections, Administration, Personnel Programs		\$ 23,000 E(B)				This program will improve corrections administration through development of personnel programs and administration procedures.
MAINE	Correctional Facilities and Equipment		121,000 E(B) 73,000 E(D)				Program is for renovation of Stevens School which is an institution for juvenile girl offenders committed the courts. Renovation provides classrooms, laboratory, occupational therapy area, and need facilities.
ORE.	Facilities Improvement		35,000 E(B)				Renovation of Rocky Butte Jail which is presently inadequate; renovation will provide separation of juvenile and adult prisoners.
VA.	Intercom Communication and Emergency Lighting		28,000 E(B)				To improve operational capability through the provision of equipment terms that are fundamental to the effective and efficient discharge of responsibilities. Lights and intercoms will be set up at 8 juvenile institutions.
WYO.	Library Repository for Periodicals		1,000 E(B) 1,000 E(D)				Establish a library of journal articles in the field of corrections.

UPGRADING RESOURCES: II. UPGRADING SYSTEMS, EQUIPMENT, PROCEDURES, FACILITIES

STATE	PROGRAM	1971 FUND	SUMMARY
ALASKA	Fairbanks-Juneau Juvenile Detention Study	\$46,090 C/D	To conduct an intensive survey of existing practices and needs regarding juvenile detention in Juneau and Fairbanks.
CALIFORNIA	A Model Parole Workload System	\$13,325 C/D	1) Verify preliminary or estimated workload standards (time demands) and make visible any necessary modifications of standards, 2) develop a front line management system model for distribution of workload units, 3) provide basis for any further application of the workload model system.
VERMONT	Juvenile Delinquency Training Specialists	\$25,750 C/D	To provide the services of a trained and experienced juvenile delinquency prevention and control specialist to all police departments in the state.

UPGRADING RESOURCES: III. CONSTRUCTION

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
ARIZ.	Construction and Expansion of Juvenile Institutions		\$ 415,000 C(B)				Construct new juvenile correctional facilities in at least 8 counties.
ARK.	Improve State Training School Facilities		65,000 C(B)				Construction of an educational-recreational building at the Wrightsville Boys Training School. This facility will provide educational and recreational benefits for an average of 400 boys each year.
FLA.	Jail Improvement/ Construction and Renovation		15,000 C(B)				Construction of regional detention center for Florida juveniles of both sexes.
GA..	Improved Facilities for the Adjudication Detention and Treatment of Juvenile Delinquents		158,296 C(B)				Construction of Juvenile facilities, including the purchase and renovation of a structure which will become a juvenile foster home accommodating twelve boys as well as a resident married couple, and a facility providing interim care for approximately fifteen delinquents.
ILL.	Local Institutional Services and Facilities (a)		100,000 C(B)				One grant to an urban or rural region for a juvenile detention center; with consideration being given to architectural planning, programming and financial operation.

UPGRADING RESOURCES: III. CONSTRUCTION

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
ILL.	Local Institution Services and Facilities (b) (Local Juvenile Institutions)		\$450,000 C(B)				Use of these locally operated institutions for delinquent minors will be encouraged rather than State facilities.
IOWA	Improvement of Correctional Facilities		10,000 C(B)				Completion of construction of a juvenile home funded in FY 1970, eleven local or county jails will be either remodeled or have additions, two will call for perimeter security fences, about four will add closed circuit television or remodel another two remodeling jobs are for short term detention and work release space; and five projects provide for minor repairs, improvement of housing conditions.
KAN.	Remodeling of Existing Facilities		121,820 C(B)				Provide for remodeling of existing facilities which include four jails, two detention centers, one treatment center, and two probation and parole units and group homes.
KAN.	New Innovated Facilities		126,820 C(B)				The establishment of up to five new small treatment facilities (15-20 clients). Types of facilities could include study release centers, diagnostic centers, a half- way house, a group home and a facility for female offenders.

UPGRADING RESOURCES: III. CONSTRUCTION

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
MINN.	Physical Resources Development Program		\$ 70,000 C(B)				To draw up architectural plans and begin construction for a secure center for incorrigible youth.
NEV.	Jail Improvements		40,000 C(B)				Construction of new facilities and equipping these facilities in order to guarantee security. Also provide separate facilities for juvenile and adult offenders.
N. MEX.	Evaluation, Improvement, Modernization of Community Facilities		50,000 C(B)				Construction of two community jails and detention facilities for both juveniles and adults as well as three remodeling and modernization projects in three facilities.
N.D.	Criminal Justice Facilities for a Combination of Local Units of Government		80,000 C(B)				Provide facilities specialized purposes such as remodeling an existing facility to serve as a group home for juveniles or a halfway house for alcoholics.
S.C.	Construction and Renovation of Correctional Facilities		75,700 C(B)				Renovation of a youthful offender rehabilitation treatment building.
S.C.	Juvenile Department of Corrections Construction		100,000 C(B)				Construction of adequate evaluation and housing facilities at the Juvenile Department of Corrections Reception and Evaluation Center.

UPGRADING RESOURCES: III. CONSTRUCTION

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
TENN.	Improvement of Physical Facilities		\$250,000 C(B)				Construction and/or renovation of general law enforcement facilities throughout the State. These include juvenile courts detention centers, and jails.
UTAH	Corrections Construction		52,000 C(B)				New jail construction and expansion of existing jails and juvenile detention facilities.
VA.	Construction of Regional and Community Centers		466,000 C(B)				Development and construction of regional and community- based diagnostic, treatment and training centers, correctional or detention homes, halfway houses or other multi-jurisdictional correctional or rehabilita- tion facilities.
GUAM	Improvement and Expansion of Correctional Facility		10,000 C(B)				To construct a facility to implement the Youth Offenders Act.
ARIZ.	Preliminary and Expansion of Correctional Facility	71-DF- 688	100,000 C(D)				To provide architectural services, research, clerical, and data processing services for a correctional center in Phoenix for youthful offenders. The center is expected to house 400 youths for long-term stays and 400 for short- term diagnostic services.

UPGRADING RESOURCES: III. CONSTRUCTION

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
IDAHO	Community Diagnostic and Rehabilitation Center	71-DF- 462	\$108,825 C(D)				This will allow funds for architectural fees, professional planning and construction of a detention and rehabilitation facility to serve adult and juvenile offenders on the Fort Hall Indian Reservation.
MICH.	Childrens Village Phase II	71-DF- 726	87,611 C(D)				Provides architectural development costs of a housing and rehabilitation complex for Oakland County, Michigan. The facility will eventually house both male and female delinquents in separate cottages.
IND.	Expand Rehabilitation Services and Facilities		100,000 E(B) 100,000 E(D)				To provide facilities and service for increased rehabilitation activities in the five state and 15 local institutions.
LA.	Lafayette Community Correctional Center		375,000 E(D)				Construction and staffing of differential treatment facilities for youthful offenders.
N. MEX.	New Activities Building for Bernalillo County		61,500 E(B) 100,000 E(D)				A new building that will provide space for classrooms, religious services, counseling, and expanding physical activities for the 3,000 to 3,500 children annually is planned. The objective is to provide physical facilities to enable maximum rehabilitative programming for children from a number of jurisdiction.

UPGRADING RESOURCES: III. CONSTRUCTION

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
N.C.	Janus House Resident Treatment Center		\$ 80,000 E(0)				Community-based, community sponsored facility for boys.
TEX.	Planning for Correction Facility Conservation or Improvements		50,000 E(8) 50,000 E(0)				To plan for the construction, acquisition, or renovation of juvenile institutions or facilities.

CALIF.	Research to Improve Operations of Criminal Justice		\$ 22,000 C(B)				Summary not available.
FLA.	Expanding Staff Expertise in Special Areas		45,000 C(B)				Establish within the Division Youth Services the capability to conduct research into the effectiveness of State/local treatment programs.
KAN.	Research and Development Community Level		16,357 C(B)				To provide funds for up to four projects for the development of research capabilities on a community level. Examples: data gathering; program evaluation; and classifi- cation and screening programs.
KAN.	Research and Development State Level		2,373 C(B)				Development of an R and D unit and/or center for systemwide evaluation and program formation.
N.H.	Court Management Study		4,000 C(B)				Study to promote more timely processing of criminal (including juve- niles) cases through the judicial system.
N. MEX.	Evaluation, Im- provement, of State Operated Correctional Institutions		19,492 C(B)				Study of Girl's Welfare Home prior to plans relative to remodeling, rebuilding or relocation; consultant service to two State operated juvenile institutions;

UPGRADING RESOURCES: IV. RESEARCH/EVALUATION/PLANNING

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
N.Y.	Establishing Research Program Development and Evaluation		\$200,000 C(B)				expansion and improvement of the college education pro- gram for inmates at the State Penitentiary. The development and upgrad- ing of research, program development and evaluation capabilities focused on assessing program effective- ness matching of offenders and program, developing information about commu- nities of offender concen- tration.
N.C.	Develop New and Improved Correctional Options		175,000 C(B)				Projects include employing coordinators to develop programs for emotionally disturbed and mildly retarded delinquents in training schools by attempting to mobilize community resources. 250 juveniles to be aided.
ORE.	Law Revision		39,119 C(B)				A 15 member committee and research staff will under- take a two year project designed to update and improve existing juvenile court and related family statutes.
TEX.	Improvement of Prosecution and Court Activities and Law Reform		50,000 C(B)				To provide to approximately 2,000 trial and appellate courts which exercise criminal and/or juvenile

UPGRADING RESOURCES: IV. RESEARCH/EVALUATION/PLANNING

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
							jurisdiction and to the court related functions within and without the court's jurisdiction the support necessary to develop optimum performance at earliest possible date. Projects will include seminars, stipends for seminars (for travel, subsistence, fees, tuition, books, materials) staffing, technical equipment, handbooks and publications, unit-based diagnostic services, pre-trial release, visitation, court management and courts development.
WIS.	Research and Development		\$ 20,000 C(B)				A variety of research grants including evaluations of various delinquency treatment programs.
GA.	Comprehensive Regional Corrections and Detention Feasibility Study	71-DF-622	29,271 C(D)				A project which will include the following steps as part of considering a seven county area as a base for an adult and juvenile correctional and rehabilitative facility; analysis, seven-fold plan, adoption of plan and preparation of architectural plans.

UPGRADING RESOURCES: IV. RESEARCH/EVALUATION/PLANNING

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
IND.	Mid-America Regional Criminal Justice Conference	71-DF- 546	\$ 12,213 C(D)				Fifteen to seventeen medium sized cities' key personnel will discuss the administration of criminal justice in their cities with five major areas to be considered: See last page.
KEN.	Community Correctional Study	71-DF- 468	37,407 C(D)				To plan a correctional complex in Louisville to replace over-crowded and outdated facilities of the county jail, the children's detention center and city police lock-up.
MICH.	Juvenile Court Services Management Systems Analysis	71-DF- 587	27,246 C(D)				To fund a management systems analysis study of Kent County Juvenile Court.
NEV.	Regional Interdisciplin- ary Workshops	71-DF- 668	61,745 C(D)				Persons currently working in the juvenile justice system or otherwise concerned with juveniles will assemble in 3 regional institutes to establish regional umbrella organiz- ations and plan institutes to provide participants with experience in the juvenile justice system.
R.I.	Regional Technical Assistance for Implementation and Evaluation of Action Projects	71-DF- 489	9,000 C(D)				To provide a mechanism for evaluation and techni- cal assistance to the 6 New England States and criminal justice planning agencies in their drug and juvenile delinquency action programs.

UPGRADING RESOURCES: IV. RESEARCH/EVALUATION/PLANNING

STATE	PROGRAM	I.D.	1971 FUND	LENGTH PROJECT	TOTAL COST	AGES	SUMMARY
CALIF.	Exploration and Development of Alternatives to Criminal Justice System		\$ 80,000 E(B)				Program will explore develop short-range alternatives in the criminal justice system.
MASS.	Department of Youth Services		250,000 E(D)				To assist the Department of Youth Services in developing new approaches, resources, programs for delinquent youth, Supplementary support for creation of administrative regions and the establishment of 3-5 group homes as experimental treatment units.
N.Y.	Establishing and Strengthening Research Program		380,000 E(B)				Projects in this area are designed to develop and upgrade research, program development, evaluation, applied research and capabilities in post-adjudicatory agencies in large counties and major metropolitan areas.
VER.	Feasibility Site Planning and Design Studies for Community Correctional Center		10,000 E(B)				To develop from existing methods and knowledge the most suitable design and site plan for a new community correctional facility which will be a proto-type for 3 other facilities to be built at a later time in the State.

UPGRADING RESOURCES: IV. RESEARCH/EVALUATION/PLANNING

STATE	PROGRAM	1971 FUND	SUMMARY
NEW YORK	Pilot Project to Formulate Standards	\$164,541 D/NI	To conduct a pilot study to determine the best way to formulate and implement in practice a set of nationwide standards for juvenile justice. By-products would be a reform of the juvenile justice system and the provision of a basis of support of the organized bar for such a reform.

IND.	Narcotics and Dangerous Drug Control		\$ 60,000 C(B)				Provide specialized training in narcotics & dangerous drugs to 150 police sheriff person- nel. Strengthen capabilities to detect & prosecute drug & narcotic pushers in State's 5 most populous counties & strengthen Indiana State Police's capability to support local law enforcement officials in this effort.

LEAA

and

Department of Justice

Resources

INFORMATION REQUIREMENTS FOR MANAGEMENT DECISION-MAKING

1. Criminal Justice Information System

LEAA has, in the process of design, an information system which will include national data on the incidence and nature of specific crimes classified by characteristics of both offender and victim.

The availability of these data will permit more thorough analysis and understanding of the nature of criminal activity-information which will help determine motivation, pattern of criminal activity and operation, and relationships between selected demographic and social data and specific crime problems. In short, the system will provide information which should prove invaluable in both designing programs and evaluating their impact. Moreover, they will provide some basis for assessing current performance in criminal justice institutions.

2. Grants-Management Information System

LEAA is developing a Grants Management Information System which is tailored to meet the reporting requirements necessary for efficient management. This is an automated system which will provide current information on the status of each grant awarded by LEAA. It will identify:

- a. The grant recipient and geographic location of award.
- b. The nature and purpose of the award, including the client group.
- c. The program area to which it is related.
- d. Work program and performance to date.
- e. Portion of funds expended.

These data will allow management: to determine the relationship of budget allocations to program and agency goals; to monitor accomplishment (or the lack of it) toward program objectives; to discover possible misallocations of duplication of effort; and, to take immediate corrective action on the basis of the continuous financial and program monitoring information which this system will provide.

LEAA Resources and Facilities

1. National Criminal Justice Reference Service.

This is an automated, technical reference service which is in the initial stages of implementation. The system will not be fully operative for 18 months, but will be capable of providing limited services in 3-4 months. This system will be a reporting of information in the field of criminal justice and will include data on youthful offenders and juvenile delinquency. The service will include:

- summaries of research findings and data
- descriptions of discretionary and block grants dealing with juvenile delinquency
- journal articles
- specific collections of literature
- reports published by private organizations, research institutes and the like.

2. LEAA Library and Reference Service

The library contains a collection of materials in the criminal justice field. In addition, it operates a reference service which prepares abstracts of reports, documents and other published studies, and bibliographies of materials in particular subject areas.

3. National Council on Crime and Delinquency.

Operates a reference service which is at present manual, but which is being automated. This service prepares abstracts of material and conducts searches of literature on particular topics upon request. The charge for this service is \$40 per record.

UNITED STATES GOVERNMENT

Memorandum

DEPARTMENT OF JUSTICE
LAW ENFORCEMENT ASSISTANCE ADMINISTRATION

TO : Dr. Ruby Varyan

DATE: September 17, 1971

FROM : Anthony G. Turner *AK/A 61*
Statistics Division

SUBJECT: Statistics Division Projects for Juvenile Delinquency Council

Attached are descriptions of two of our surveys - the only projects of the Statistics Division relevant to the request made at the meeting of the Research and Information Committee on the 15th. These projects come under the heading of "Resources Available." The first is the Juvenile Detention Facilities Survey. The cost of the contract was \$39,000, FY 1971 funds. It should be noted that this survey is a coordinated project, the planning being a joint effort between LEAA's Statistics Division and the Social and Rehabilitation Service of the National Center for Social Statistics, HEW.

The second is our National Jail Census, conducted in 1970 with FY 1969 funds. This was part of a larger project, so the cost is difficult to determine definitively. We estimate it to be about \$50,000. The relevance of the Jail Census is that several thousand youths are confined in the nation's local jails and well over half these institutions have the authority to hold juveniles.

The Statistics Division has made no grants for juvenile delinquency projects.

I would suggest that when you compile relevant materials and cost data for other parts of the Justice Department - both in the projects area and the "resources" area - do not overlook Systems Analysis in LEAA, the National Institute, the FBI, BNDD, and perhaps Bureau of Prisons.

Juvenile Detention and Correction Facility Survey

The Statistics Division of LEAA has designed a complete census of juvenile correctional institutions in the U. S. to be conducted by the Census Bureau in September 1971. The survey will serve not only the special purpose needs of LEAA, but also will include coverage and content suitable for HEW to continue its series, Statistics on Public Institutions for Delinquent Children.

The survey will yield a wide variety of information in tabular form. Basic budgetary and personnel data and population data by type of institution and by type of offender, e.g., adjudicated delinquent, neglected or dependent child, etc. will be tabulated. Data will be presented on specific types of treatment personnel, e.g., psychiatrist, psychologist, case worker, etc. and on the type and extent of treatment programs. An attempt will be made to identify how many inmates are being held for specifically juvenile offenses, drug offenses, "felonies" and "misdemeanors."

The questionnaire will be mailed directly to 704 institutions whose addresses will be obtained from LEAA's Criminal Justice Directory. HEW will work with LEAA to insure that all institutions formerly contacted by them are included. Coverage will include 400 detention centers excluded from HEW's survey.

The major drawback to the survey at this time is that the results will not be available until Spring 1972.

1970 National Jail Census

In February 1971, LEAA's Statistics Division issued a report on the Nation's local jails and type of inmates, the National Jail Census 1970. The primary emphasis of the Jail Census was to obtain basic facts on such fundamental questions as the number of jails, the number and type of inmates, the number of employees, the operating costs, and the presence or absence of selected facilities.

Although the focus of the study was on adult jails, every state, except three, contained some adult jails which have the authority to incarcerate juveniles for varying types of retention. As a result, the report contains the number of juveniles confined in jails by type of retention.

For the purposes of this census, a jail was defined as any individual facility operated by a unit of local government (that is, a municipality or township with a 1960 population of 1,000 or more persons, or a county) for the detention or correction of adults suspected or convicted of a crime. Only jails which confined inmates for 48 hours or more were included.

An important factor affecting the juvenile data was that over half of the juveniles were reported in 2 institutions in the State of New York. Inmates of these 2 institutions are 16-21 years old and therefore, legally adults according to New York State law. In that state, however, they are treated as "youthful offenders" and were thus classified as juveniles in the survey.

Uniform Crime Reports

The FBI publishes the Uniform Crime Reports annually. Besides information on the volume, trend and rate of crime related to current population, the report contains statistics on arrests, persons charged, clearances of crimes and police data.

The arrest data presented in each report are a useful source of statistics on juveniles. The number of arrests for cities, suburban and rural areas for each offense is displayed by age of the arrested person. There is also information on the number of offenses cleared by arrest of persons under 18 years of age and the police disposition of juvenile offenders taken into custody.

These arrest statistics are collected annually from contributing law enforcement agencies and estimates are made for unreported areas. It is important to recognize when using the statistics, that police arrest practices vary from one jurisdiction to another, particularly with respect to juveniles.

Statistics on Public Institutions for Delinquent Children

In 1956 the Children's Bureau of HEW published the first issue in the series Statistics on Public Institutions for Delinquent Children. The publication has continued on an irregular basis and was last published in 1970 by HEW's National Center for Social Statistics. This report is based on current data collected through a uniform, nationwide survey concerning the children, the institutions, expenditures and personnel. Information is obtained by state on the auspices of institutions, admissions and discharges, the capacity and occupancy, average length of stay, number of employees, and operating expenditures.

This survey is conducted among the total known public institutions for delinquent children in the United States, the Virgin Islands and Puerto Rico. A public institution is defined as a specialized children's institution operating under public auspices and serving delinquent children committed to it by juvenile courts for long-range treatment. This usually includes training schools, forestry camps and ranches, and diagnostic and reception centers, but excludes detention homes. This results in an incomplete statistical profile of juvenile institutions as there are almost 400 detention homes not covered in this survey.

Other limitations of the data presented in this report include the lack of data on demographic characteristics of the delinquents such as age and race. Also, the survey has not regularly centered on type and number of professional staff institutions or the existence and extent of treatment programs. In addition,

wide differences exist between the statistics for one state as compared with another due to a variety of factors; particularly the community resources and services available for children. The Statistics Division of LEAA hopes to eliminate some of these problems of coverage and content by conducting a census of juvenile institutions in Fall 1971 (See Juvenile Detention and Correction Facility Survey).

Juvenile Court Statistics

Juvenile Court Statistics were begun in 1940 and are published annually by the Children's Bureau of HEW. The series covers not only information about "crime" - such as number of delinquency cases handled by the courts - but statistics on dependency and neglect cases and special proceedings, such as adoption. Information on delinquency cases is available by sex, place of occurrence, reason for referral, manner of handling (judicial or non-judicial), and disposition. Traffic offense information is also available.

Coverage is based partly on a national sample of about 500 juvenile courts and partly on special reports from selected localities. The national sample is a sound probability instrument, though it was designed well over a decade ago and needs revision. Most of the detailed information in the report, however, does not come from the national sample but rather from the special reports. Coverage of data on reasons for referral and disposition is quite often missing from some of the nation's largest cities, including New York, Chicago, and Philadelphia.

The reports lack the detail and completeness required for a serious study of delinquency. No data exists on age or race of delinquents. Lack of comparability hinders meaningful interpretation and analysis; for example, the maximum age limits for juvenile delinquents ranges from 16 to 21 years old for those courts which do report. Since many cases of delinquency are not referred to the courts at all, the existing series cannot be used to measure properly the amount of juvenile delinquency.
