PART I SUMMARY INTRODUCTION TO THE BOARD OF PARDONS AND PAROLES

K

Summary Introduction to the Board of Pardons and Paroles

The Texas Board of Pardons and Paroles is the constitutional authority for the State of Texas which performs two broad functions: (1) administering the Statewide Parole and Mandatory Supervision System in accordance with Article 42.12. Code of Criminal Procedure (Adult Probation, Parole and Mandatory Supervision Law); and (2) investigating and recommending acts of executive clemency by the governor as provided by the Texas Constitution, Article IV, Section 11 and the Code of Criminal Procedure, Articles 42.12, 48.01 and 40.04.

Parole functions include determining which prisoners are to be paroled from institutions operated by the Texas Department of Corrections (TDC), establishing the conditions of parole, investigating and supervising all prisoners released on parole, conducting parole revocation hearings and recommending appropriate disposition to the governor, establishing necessary parole policy within the statutory limits and carrying out the provisions of the Interstate Parole and Probation Compact. Both parole and executive clemency acts require the affirmative action of the Board of Pardons and Paroles and the governor before relief can be given.

Executive clemency includes emergency reprieves of execution of the death penalty, commutations of sentence from death to lesser punishment, commutations of prison sentences or fines or both, full pardons, restorations of civil rights lost as a result of felony convictions, conditional pardons, trial reprieves of all jail sentences, remissions of bond forfeitures and restorations of the right to drive and operate a motor vehicle.

The system of mandatory supervision, created by the 65th Legislature, provides a period of postprison supervision for all other releasees of the Texas Department of Corrections who are not otherwise released to parole or conditional pardon and who have not completed the full calendar time on their sentence. A prisoner released to mandatory supervision is deemed as if on parole. Mandatory supervision affects only those felons whose offenses were committed on or after August 29, 1977.

The Board of Pardons and Paroles is composed of three full-time, salaried members. One is appointed by the governor, one by the chief justice of the Texas Supreme Court and one by the presiding judge of the Court of Criminal Appeals as provided in Article 4, Section 11 of the Texas Constitution. All appointments must be confirmed by the Senate and have a concurrence of twothirds of the members present. All are for overlapping six-year terms of office. Members must have been residents and citizens of the state for not less than two years immediately preceding appointment. The Board is the administrative head of the agency and provides the rules and policies of the agency.

The Board is in session Monday through Friday of each week at the agency headquarters, 711 Stephen F. Austin Building, Austin, Texas, and convenes otherwise at the call of the chairman. All meetings of the Board are conducted in compliance with the Open Meetings Act. All minutes of the Board and decisions relating to parole, pardon and clemency are matters of public record. However, information concerning individuals applying for or on parole or the identity of other individuals connected with a parole or clemency case is privileged and is not public information.

Article 42.12, C.C.P., provides for the appointment of six commissioners to aid and assist the Board in matters of parole decisions and mandatory supervision revocation. Parole commissioners do not

exercise authority in acts of executive clemency nor in the administration of the agency. Parole commissioners are subject to the rules and regulations of the agency as established by the Board.

Two parole commissioners are appointed by the governor, two by the chief justice of the Supreme Court, and two by the presiding judge of the Court of Criminal Appeals. All appointments are for overlapping six-year terms. One commissioner appointed by each of the appointing authorities must reside in Walker County, where the headquarters of the Texas Department of Corrections is located. Two parole commissioners are officed in Angleton and four are located in Huntsville. Parole commissioners are full-time, salaried employees of the state.

PAROLE PANEL

In matters of parole selection, release on mandatory supervision and revocation, the Board members and parole commissioners may act in panels of three persons as provided in Art. 42.12, C.C.P. Panel composition is designated by the Board. A majority of each panel constitutes a quorum for the transaction of its business, and its decision is by majority vote. The parole panel may recommend the granting or denying of parole and may conduct parole and mandatory supervision revocation hearings.

THE STAFF OF THE AGENCY

The staff of the agency, totaling 530 employees, is divided into four areas of responsibility headed by an executive director.

The Executive Director

The executive director of the agency is responsible for the operation and administration of the various functions of the agency. The executive director is one and the same as the director of parole supervision provided in Article 42.12, C.C.P. He is appointed by the Board and serves at its pleasure.

Institutional Services Division

The Institutional Services Division is composed of a director and staff responsible for providing direct pre-parole services to the inmate population of TDC. Institutional parole officers serve all 18 units of the Texas Department of Corrections, prepare pre-parole summaries on inmates eligible for parole consideration and offer counseling and assistance to prospective parolees. The three institutional parole offices are located in Huntsville, Angleton and Palestine.

Field Services Division

The Field Services Division is composed of a director and staff who are responsible for providing supervision and assistance to parolees and mandatory supervision releasees and for conducting preparole investigations of eligible inmates. Texas is divided into eight geographical regions for the purposes of providing supervision and parole services. The eight regional offices are located in Dallas, Houston, San Antonio, Lubbock, Fort Worth, Angleton, Tyler and Waco. More than 230 district parole officers located at the 37 district offices throughout the state are responsible for supervision of nearly 12,000 active parolees and mandatory supervision releasees in the state, including compact parolees from other states residing in Texas. District parole officers are additionally responsible for reporting parole violation that may lead to the revocation of parole or mandatory supervision.

Staff Services Division

The Staff Services Division is composed of a director and subordinate staff who provide all the functions necessary to support the operations of the agency. Primary among these are the parole, mandatory supervision and executive clemency clerical functions in the compilation and maintenance of 53,999 active case files, the preparation of all cases for review by the commissioners and Board members plus the correspondence related to the processing of the cases. Other support functions include accounting and fiscal services, purchasing, warehousing, mail and messenger services, business management, planning and central reception.

Computer Services Division

The Computer Services Division, composed of a director and subordinate staff, provide all automated data processing support for the agency.

¹Revocation after reinstatement of parole is not shown in Column IV for parolees reinstated prior to Fiscal Year 1979.

Table 39 shows the present status of inmates released from the Texas Department of Corrections on paroles or conditional pardons during the 33-year period beginning September 1, 1947, and ending August 31, 1980.

A total of Column I (which gives the total number released each year) shows that 85,553 inmates were released during the entire 33-year period. A total of Column II (which gives the number still on active parole out of the total released each year) shows that 15,167 inmates released over the 33-year period are still serving satisfactorily on paroles or conditional pardons. Many inmates have already completed their paroles or conditional pardons and have been discharged from their sentences. A total of Column III (which gives those terminated satisfactorily out of the total released each year) shows that 49,849 released during the 33-year period have already satisfactorily terminated their paroles or conditional pardons. Some parolees have violated their paroles or conditional pardons, and clemency or parole has been revoked. A total of Column IV (which gives those revoked out of the total released each year) shows that 20,537 over the 33-year period have been revoked. These were revoked because of new felony convictions or for technical violations of parole.

As can be seen, Columns I, II, III and IV are constantly changing from year to year as parolees discharge their sentences or are revoked. For instance, there are at present only 92 parolees out of the 2.058 released in 1970 who are still on active parole. The others have discharged their sentences or have been revoked. On the other hand, there are 4,676 out of the 5,022 released in 1980. This is because those released in 1970 have had 10 years to discharge their sentences while on paroles or conditional pardons, while those released in 1980 have had only one year towards discharging their sentences.

EXPLANATION OF TABLE 40

The chart shows the present status of inmates released from the Texas Department of Corrections on mandatory supervision during the three-year period beginning September 1, 1977, and ending August 31, 1980.

A total of Column I (which gives the total number released each year) shows that 2,889 inmates were released during the entire three-year period. A total of Column II (which gives the number still under mandatory supervision out of the total released each year) shows that 2,026 inmates released over the three-year period are still serving satisfactorily under mandatory supervision. Many inmates have already completed their sentences. A total of Column III (which gives those terminated satisfactorily out of the total released each year) shows that 685 released during the three-year period have already satisfactorily terminated their mandatory supervision status. Some releasees have violated their mandatory supervision status and have been revoked. A total of Column IV (which gives those revoked out of the total released each year) shows that 178 over the three-year period have had their mandstory supervision status revoked. These figures will constantly change from year to year as releasees terminate their sentences or are revoked.
