PHOENIX

Phoenix, capital of the State of Arizona, derives its name from the legendary Phoenix Bird, which lived for 500 years, perished in the flames of a funeral pyre and rose from the ashes youthful and strong to begin life again. So it is with Phoenix, the City, which was built on the remains of an ancient Hohokam Indian settlement and is today one of the fastest growing cities in the United States. Phoenix has grown from a population of 65,000 and an area of ten square miles in 1940, to today's thriving metropolis of 777,600 people living in an area that covers 325.7 square miles, to become the eleventh largest city in the country.

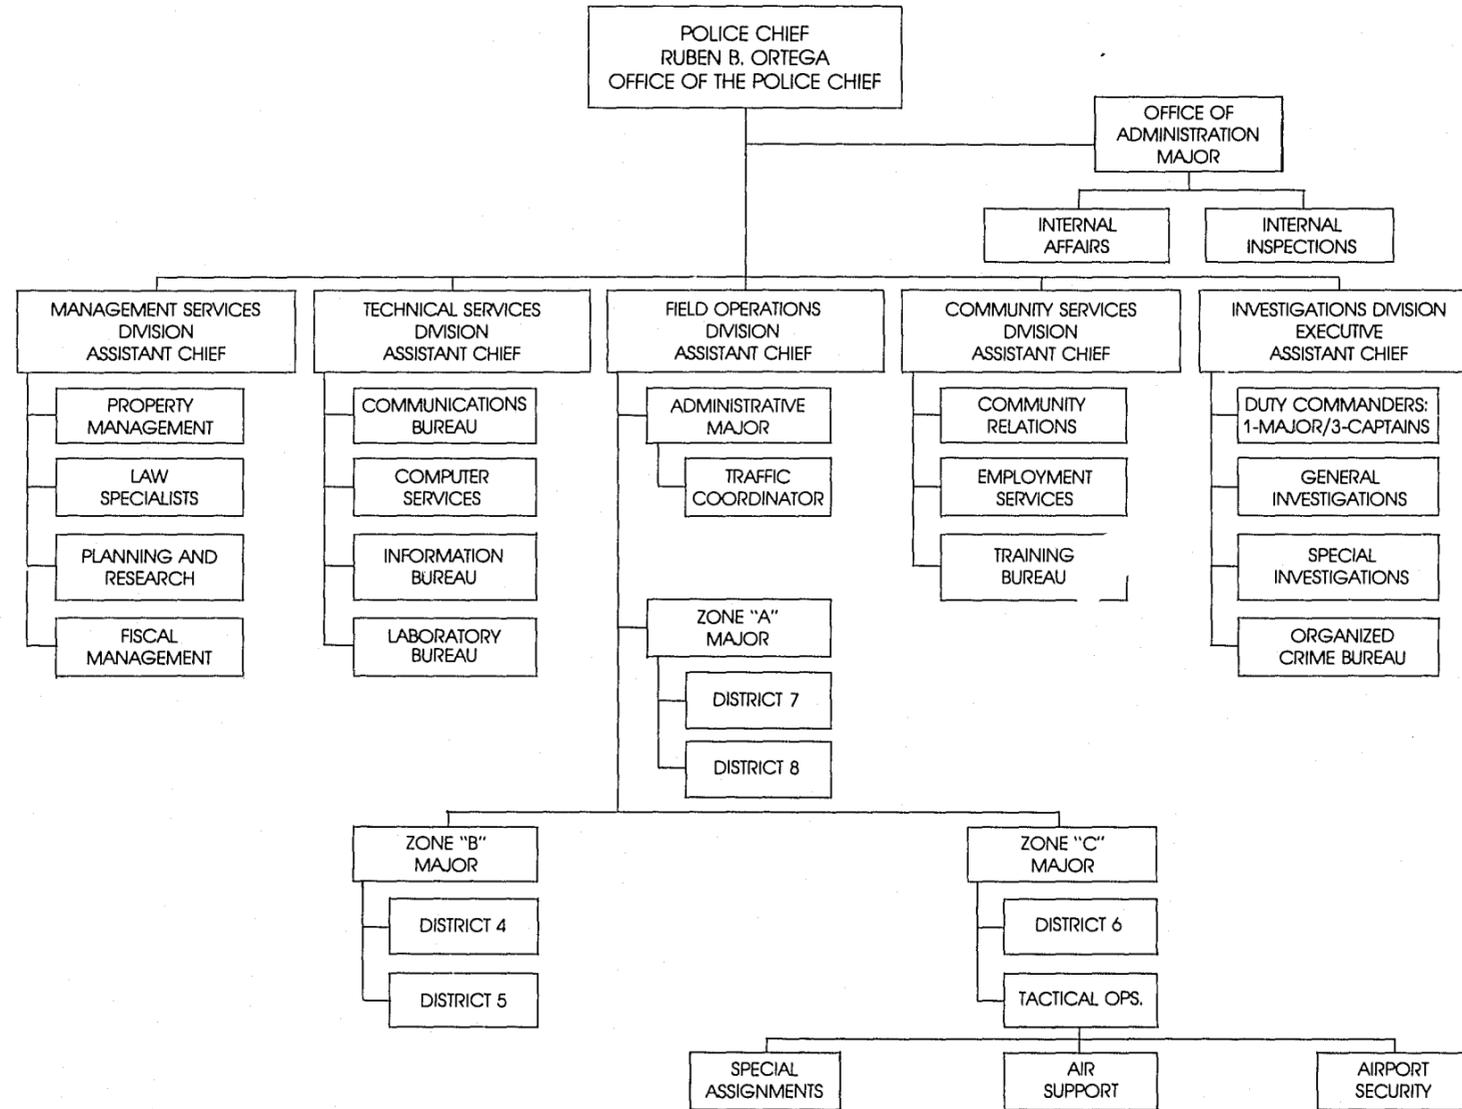

This growth has resulted in an increase in demand for police services and a corresponding increase in Police Department strength from 173 employees in 1940, to 2,243 authorized employees (sworn and civilian) in 1980.

The Annual Report is prepared by the Planning and Research Bureau.

FIELD OPERATIONS DIVISION

The Field Operations Division is organizationally divided into three patrol zones, each under the command of a police major. Patrol zones are further divided into districts under the command of a police captain. There are five district briefing stations which serve the citizens of Phoenix.

DISTRICT 4 — SOUTH MOUNTAIN STATION

SOUTH HIGH AND DISTRICT 4 OFFICERS
VOLLEYBALL GAME

District 4 personnel have been leaders in community involvement through their efforts in programs such as Block Watch and Officer Friendly. Other areas of involvement include a volleyball game between students of South Mountain High School and District 4 officers, the Juneteenth Celebration, the South Phoenix Youth Center, the South Phoenix Festival of Thanksgiving, a Family and Youth Community Fair and the Toys for Tots Program at Christmas.

During September, 1980, District 4 implemented a six-month, experimental 10-hour per day 4-day work week. This deployment mode allows for overlapping shifts and increased coverage during hours of peak crime activity.

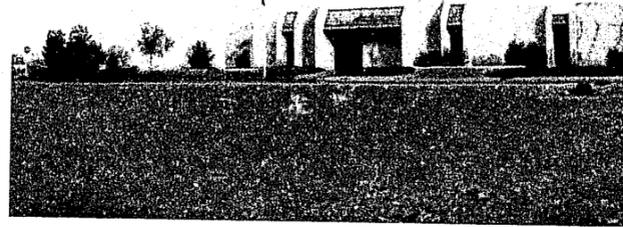

DISTRICT 5 — SKY HARBOR STATION

District 5 personnel began a proactive directed patrol program by forming two squads with the purpose of increasing police visibility and contact with the criminal element. District 5 also trained a Tactical Response Team to respond to situations requiring a trained unit with expertise in crowd control. Additionally, six civilian Traffic Accident Investigators were trained and began work in the field. This experimental program has helped reduce the amount of time patrol officers spend in investigating traffic accidents.

District 5 personnel have participated in neighborhood meetings of concerned citizens in the District and have assisted in the implementation of programs aimed at reducing youth gang activities.

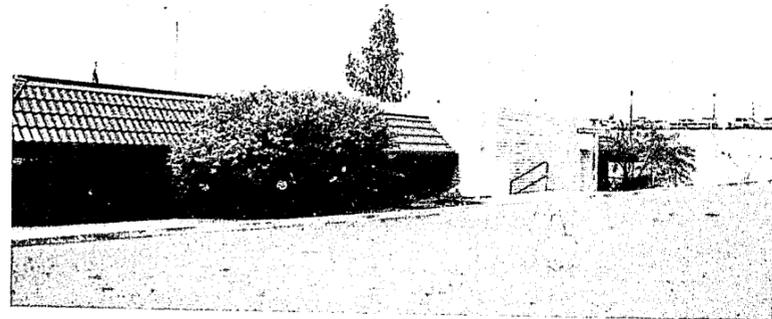

DISTRICT 6 — UNION HILLS STATION

District 6 personnel have the responsibility for providing police services to the citizens of Phoenix who live north of Glendale Avenue. This area encompasses 140 square miles which is 42% of the City's total area.

During January, 1980, the Call Back Program was implemented in the District. This program allows a telephone report to be made by victims of low priority crime calls, rather than dispatching officers to take the report at the crime scene. This program resulted in an increased amount of time officers were able to spend on patrol activities, a lowering of overall response time, and handled 11.5% of the District's calls for service.

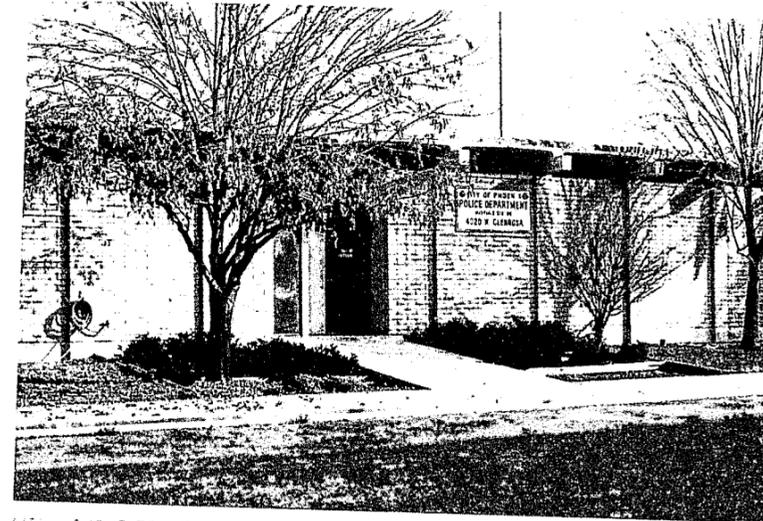

DISTRICT 7 — SQUAW PEAK STATION

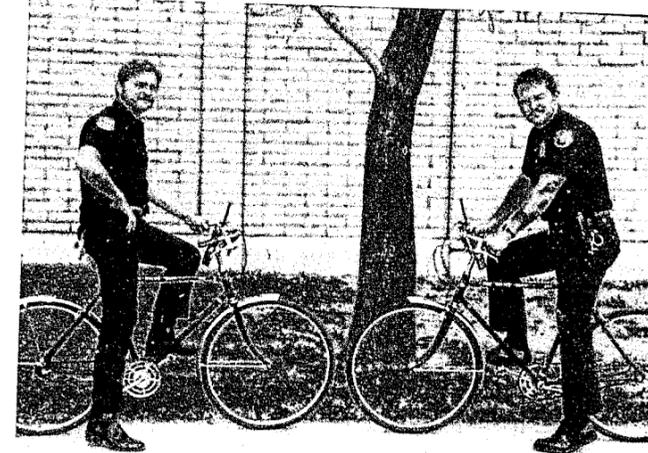

District 7 was the second patrol district to convert to the Team Policing Deployment mode within the Phoenix Police Department. The District's Team Policing concept was implemented in September, 1980.

District 7's Team Policing program and managerial style emphasizes an expanded job role for patrol officers and also involves them in participatory management decisions.

DISTRICT 8 — MARYVALE STATION

District 8 Personnel have been involved in the Team Policing Deployment Mode since September of 1979. During 1980, an evaluation of the program was conducted. This evaluation concluded that District 8 was experiencing success in maintaining below average crime trends in burglary and traffic accidents with injuries. Additionally, citizens within District 8 felt that there was a moderate increase in the quality of police protection as compared with the remainder of the City.

DISTRICT 8 BICYCLE PATROL

The officers in District 8 made numerous suggestions to improve upon the traditional police methods presently employed. This participation by the officers provided management with a new source of ideas and led to an overall improved management philosophy.

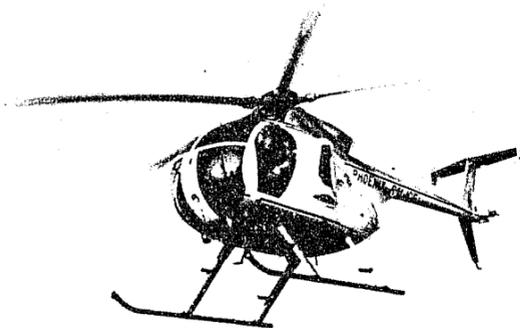

DISTRICT 8 ABANDONED VEHICLE PROGRAM

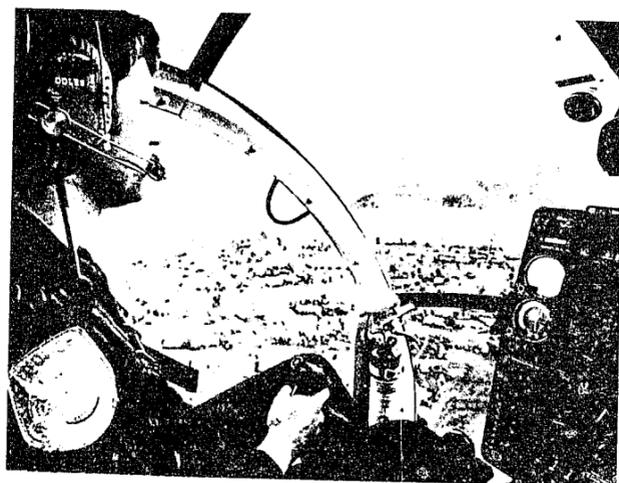

TACTICAL OPERATIONS BUREAU

The Tactical Operations Bureau is divided into three separate units — Air Support, Special Assignments and Airport Security.

The Air Support Unit is housed at the Deer Valley Airport. The Unit operates seven helicopters and three fixed wing aircraft in support of the patrol and criminal investigations functions of the Police Department. The Air Support Unit took delivery of five new Hughes 500D turbine helicopters in February of 1980. The F.B.I. provided training in rappelling and extraction techniques for use with the new helicopters for the Air Support Unit, Special Assignments Unit, and the Fire Department. Additionally, the Air Support Unit provided transportation for men and equipment, on an as-needed basis, in combating brush fires.

At year's end, there were 13 major air carriers and 7 commuter air carriers providing passenger service to the Phoenix area. A noticeable decrease in activity was observed during this period. The Juvenile Crime Reduction Unit also assisted General Investigations personnel in identifying at least 20 gang members involved in felony crimes.
