Annual Report 1978 **Ohio Peace Officer** ining Council and Academy

Attorney General William J. Brown 30 East Broad St. Columbus, Ohio 43215

Executive Director Wilfred "Bud" Goodwin 30 East Broad St. Columbus, Ohio 43215

William J. Brown Attorney General

Wilfred Goodwin Executive Director

Honorable James A. Rhodes Governor of Ohio and Members, Ohio General Assembly

Dear Sir and Members:

year of operation.

Certification of new officers declined from 3908 in 1977 to 3652 in 1978, however, officers receiving training at the academy increased from 2573 in 1977 to 3285 in 1978. This suggests that officer numbers in the various departments has levelled off, however, the need for advanced level and specialized training continues to grow.

The continued support of the Governor and Members of the General Assembly will enable the Ohio Peace Officer Training Council to improve law enforcement services in Ohio by providing a more professionally trained officer.

State Office Tower / 30 East Broad St. / Columbus, Ohio 43215 / (614) 466-3081

Introduction

In the year 1978 a total of 174 basic police officers training schools were completed, with 3652 officers being certified by the Ohio Peace Officers Training Council.

It is encouraging to note that many schools increased their basic training hours beyond the required minimum of 280 hours. Upon the completion of the basic course, nearly every student has expressed a desire for further schooling. As a result, the advanced and inservice training programs have been intensified as reflected by the increased enrollment at the Ohio Peace Officer Training Academy.

Another yearly firearms instructor training program was held September 25 through September 29, 1978 at Camp Perry, Ohio. There were 46 officers in attendance representing the various law enforcement agencies throughout the state. We were not able to accept all the applicants for this yearly program. The Ohio Peace Officer Training Council is again extremely grateful to the Federal Bureau of Investigation and its Instructor-Agents for their dedication and valuable assistance in this project.

The Ohio Peace Officer Training Council wishes to express its gratitude to the many organizations, especially the Buckeye Sheriffs Association, the Ohio Association of Chiefs of Police, and the Ohio State Association of Township Trustees and Clerks for their cooperation counsel and assistance in all matters relating to the furtherance of law enforcement training and education. We also thank the sincere and dedicated efforts of the Zone and Sub-Coordinators in the 14 training zones, who freely gave of their time and knowledge to improve the quality of police training. Last but not least, our sincere thanks to the many dedicated men and women who took time and effort to teach in our basic programs, many without compensation. Their constant cooperation, as part of the law enforcement community, has assured the citizens of Ohio that their officers are receiving the finest training available.

Chairman Robert I Temple I

19, 1980.

John Borgia, Incumbent Sheriff, Huron County, Norwalk, Ohio. Term ending September 19, 1979.
Robert J. Cox, Incumbent Chief of Police, Fairborn, Ohio. Term ending September 19, 1980.
Stanley S. Czarnecni, SAC, FBI, Cleveland, Ohio. Term ending September 19, 1981.
Harry F. Davis, State Department of Education (T & I), Columbus, Ohio. Term ending September 19, 1978.
Jack E. McCormick, Supertendent, Bureau of Criminal Identification and Investigation, London, Ohio. Term ending September 19, 1978.
Adam G. Reiss, Superintendent, State Highway Patrol, Columbus, Ohio. Term ending September 19, 1979.
DeWeese L. Skidmore, Incumbent Sheriff, Logan County, Bellefontaine, Ohio. Term ending September 19, 1980.

The Ohio Peace Officer Training Council is bipartisan in composition. It is made up of individuals, working without pay, who are dedicated to the improvement of police training and education in Ohio. Their untiring efforts and direction have made our program one of the most productive and effective in the country.

Enrollment:

Purpose Of The Academy

The Academy is dedicated to providing quality instruction in advanced and technical subjects for the peace officers of Ohio.

Philosophy Of the Academy

It is the philosophy of the Academy that the programs will be structured to facilitate the success of the learner.

Instructional Objectives

Officers will be able to perform tasks and apply techniques presented at the Academy, improving their professional efficiency and effectiveness. They will be able to demonstrate their acquired skills through objective tests, where applicable.

Information presented will be the latest available. Proven innovative techniques will be promoted and inquiry stimulated.

Course objectives will be stated in observable behavioral terms, clearly stating what the officer will be able to do as the result of instruction.

Instructional Assistance

The Academy has guest instructors from numerous sources including, Ohio Bureau of Criminal Identification and Investigation, National Auto Theft Bureau, Ohio State Highway Patrol, Ohio State Fire Marshal, Ohio Department of Liquor Control, Federal Bureau of Investigation, and other federal, state and local agencies. Universities and colleges also provided instructional assistance.

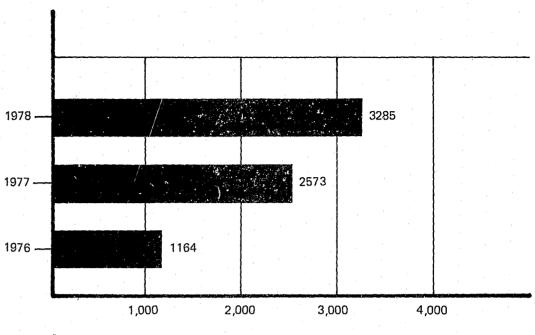

Instructional Staff

Instructional staff numbers ten with up to 27 years law enforcement experience each. Nine instructors hold masters degrees or are completing work for this degree.

Staff members have given numerous speeches and presentations throughout Ohio and many police and law enforcement goups toured the Academy.

Program Evaluation

Program and instructional evaluation is conducted in each course presented at the Academy. Overall guest and staff instructional evaluation is at a high level. Pre and post tests are administered on all formal courses of instruction to determine the change in student performance levels. Pre and post tests reflect a significant improvement in scores. Informal evaluation feedback from the law enforcement community is highly favorable.

State Agencies - 1163 students

Administrative

In January 1978 the academy weathered the worst blizzard in recent memory. For two days, January 26 and 27 the academy was snowbound and the only way in or out was by four wheel drive vehicle. During this period we had 51 students at the academy who organized themselves in teams to feed themselves and 61 refugees; a maintenance team to keep the essential services going; a medical team for injuries or sickness; and a receiving team to take care of incoming refugees.

During this period the electricity went out for 6 hours and as a result the pumps were not operating to keep hot water flowing through the building. This resulted in several frozen pipes, however due to prompt action taken by the maintenance team more serious damage was averted.

By Saturday, January 28 roads were becoming passable and it was possible for some of the students and refugees to leave. By late Sunday, all students and refugees had returned to their homes.

The high temperature hot water pipeline from London Correctional Institution continued to be a problem, however, the supplier of the original pipe agreed o replace it. This was started in July and was completed on October 24, 1978. The academy was without heat or air conditioning from September 16, to October 24, 1978. The landscaping disturbed by the laying of the pipe will be rectified this spring.

December	То	tal: 62,517

*Approximate count as during part of the time the Academy was snow bound and students prepared meals, plus classes held at Academy part of the time only.

The number of meals served has increased by about 12,000 over 1977.

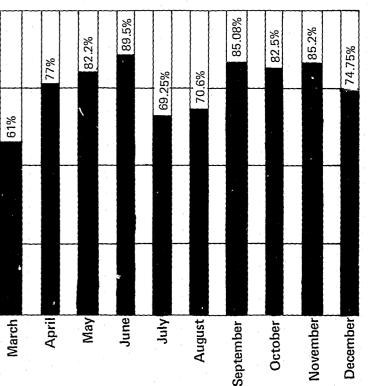

Bed Occupancy

. 1

The use of the Academy has been very heavy during this year as indicated by the attached chart. The average use per month has been 77.85% as compared to 62.85% average use per month in 1977.

It is noted that due to the energy shortage, it was necessary to conduct classes and house students at Urbana College during part of February and March 1978.

January - International Association of Chiefs of Police Collective Bargaining Seminar

Blizzard Report

51 persons were stranded at the Academy when the blizzard struck on Thursday, January 26. It was impossible to get a cook or maintenance person to the Academy until Saturday. The stranded persons, mostly students, assumed these duties.

On Thursday, the electrical power was off for almost six hours and plans were made to evacuate all persons to London Correctional Institution which generates their own electricity. Even though the Academy and LCI are only a few hundred yards apart, this evacuation could not have been performed until Friday as visibility was 0. In fact, LCI had a guard in a tower about 100 feet from the building and could not see to replace him. Just when it appeared all water lines would have to be drained, the electric power was restored.

We opened the Academy as a shelter when it became operational. Sixty-one persons were brought to the building. Some were stranded motorist and truckers and some were from the nearby community where they had to be evacuated from their homes. Included in the evacuees were 13 children, 2 of which were babies.

The last evacuee left the building on Sunday, January 29.

Damage to the building consisted of frozen pipes, exhaust vent cover (7' x 7') blown off of gym roof.

When the storm came we had 4 seminars underway.

- Criminal Investigation 1st week of a 1. 4 week course.
- Executive Development 3rd day of a 2. 5 day program.
- Firearms 1st week of a 3 week course. 3.
- Institutional Mid-Management (Correc-4.
- tions Personnel) 3rd day of a 6 day program.

2 1

The Academy is back on schedule with the missed days to be made up by a combination of Saturdays, evenings and home study assignments.

Special Training Report

The Collective Bargaining Seminar presented at the Academy by the International Association of Chiefs of Police was offered for officers in the eastern part of the United States.

Officers were registered from Wisconsin to Florida.

The winter storm caused several cancellations as about 60 officers were originally to attend.

February - BCI & I - Driver Training Seminar

Special Activity

The Ohio Edison Company, which supplies electrical power to the Academy, advised that the Academy would be required to reduce usage by 50% on February 18, 1978. This was extended to February 21 and then later the company representative advised this level of usage would have to be achieved on 72 hour notice.

We had done considerable advance planning by consultations with the electrical company, a representative from the State Architects office and the maintenance staff for the Academy. All said our big use of electricity was in our kitchen and if we fed students, we could not reduce by 50%.

With all of the uncertainty and the fact that while our function at the Academy is necessary on a long term basis, it is not essential on a short term, it was decided to suspend training at the Academy to conserve energy.

Simultaneous with this decision, the President of Urbana College, offered to assist by making available for our use, classrooms, dormitory rooms and dining facilities. He noted that electricity is supplied to the College by Dayton Power & Light Company and they appear to be in a favorable position. He also said they could provide these accommodations at \$12.00 per student day which is the amount of tuition paid by students.

We entered into a contract with Urbana for a five week period with a maximum of 75 students per week.

March

The following groups toured the Academy:

Lakeland Community College - Law Enforcement Students

Special Activity - Urbana College

Urbana.

Tri-Rivers Joint Vocational School - Law Enforcement Students

Most of the training during March was at Urbana College.

While the facilities at Urbana were not as modern and convenient as those at the Academy, the arrangement with Urbana did allow 192 officers to receive 14,088 hours of instruction.

All of the Academy staff and particularly the instructional staff put forth the extra effort to provide quality training at Urbana. This was difficult as all of the training resources had to be transported from the Academy to
