Joseph Yablonsky, Special Agent in Charge, Federal Bureau of Investigation, Cincinnati. Term expires September 19, 1981.

Council which shall meet at least four times each year, may recommend to the Attorney General, rules with respect to:

1. Approval or revocation of peace officer training schools.
2. Minimum courses of study and attendance requirements.
3. Minimum qualifications for instructors.
4. Minimum basic training which peace officers appointed for probationary term shall complete and time within which such training shall be completed.
5. Minimum basic training which peace officers appointed on other than a permanent basis shall complete and the time within which such training shall be completed.
6. Categories and classifications of advanced inservice training programs, minimum courses of study and attendance requirements.
7. Rules permitting persons previous appointed and commissioned as railroad policemen to attend approved peace officer training schools.

Summary

2027 officers were awarded basic training certificates which is a decline of 368 since 1978. 1044 certificates were earned by persons in private security which is a decrease of 213 since 1978. It is believed this indicates an actual decrease in the number of public officers being appointed, however, no conclusion can be drawn for private security since the training program is voluntary.

These personnel received training in 111 basic training schools and 72 private security schools.

3161 officers attended 177 training courses at the Ohio Peace Officer Training Academy. This a decrease of 124 officers insch 1978. The decrease was caused solely by the unavailability of Federal funds to pay tuition for students from departments withough such funds in the department budget. Enrollment was well ahead of 1978 in the first quarter of 1979, however, when Federal funds became unavailable, the enrollment for 1979 slid below 1978 slightly for the 2nd quarter and was greatly behind in the 3rd and 4th quarters.

Every county had officers attend the Academy with the enrollment ranging from 1 officer each from Morgan, Noble and Carroll counties, to a high of 189 from Franklin and 265 from Cuyahoga.

Acknowledgments:

Many persons have given of their time and talents to provide training at both the basic level and in the advanced and inservice programs. While it is not possible to herein recognize each person, we want each to know how much their effort has contributed to the program.

We do want to express our thanks to the organizations which have been of particular support and assistance. Among these are:

- Attorney General William J. Brown
- The Buckeye State Sheriffs Association
- The Ohio Association of Chiefs of Police
- The Zone Coordinators and Subcoordinators in the 14 Training Zones
- The School Commanders
- The Instructors In All of the Schools
- and
- The Entire Law Enforcement Community.

Purpose of the Academy

The Academy is dedicated to providing quality instruction in advanced and technical subjects for the peace officers of Ohio.

Philosophy of the Academy

It is the philosophy of the Academy that the programs will be structured to facilitate the success of the learner.

Instructional Objectives

Officers will be able to perform tasks and apply techniques presented at the Academy, improving their professional efficiency and effectiveness. They will be able to demonstrate their acquired skills through objective tests, where applicable.

Information presented will be the latest available. Proven innovative techniques will be promoted and inquiry stimulated.

Course objectives will be stated in observable behavioral terms, clearly stating what the officer will be able to do as the result of instruction.

Instructional Assistance

The Academy has guest instructors from numerous sources including, Ohio Bureau of Criminal Identification and Investigation, National Auto Theft Bureau, Ohio State Highway Patrol, Ohio State Fire Marshal, Ohio Department of Liquor Control, Federal Bureau of Investigation, and other federal, state and local agencies. Universities and colleges also provided instructional assistance.

Instructional Staff

Instructional staff numbers ten with up to 27 years law enforcement experience each. Nine instructors hold masters degrees or are completing work for this degree.

Staff members have given numerous speeches and presentations throughout Ohio and many police and law enforcement groups toured the Academy.

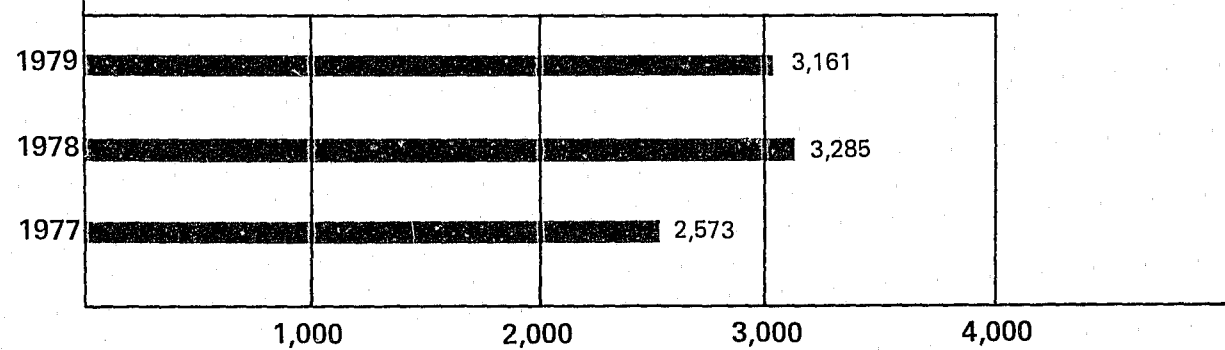

Program Evaluation

Program and instructional evaluation is conducted in each course presented at the Academy. Overall guest and staff instructional evaluation is at a high level. Pre and post tests are administered on all formal courses of instruction to determine the change in student performance levels. Pre and post tests reflect a significant improvement in scores.

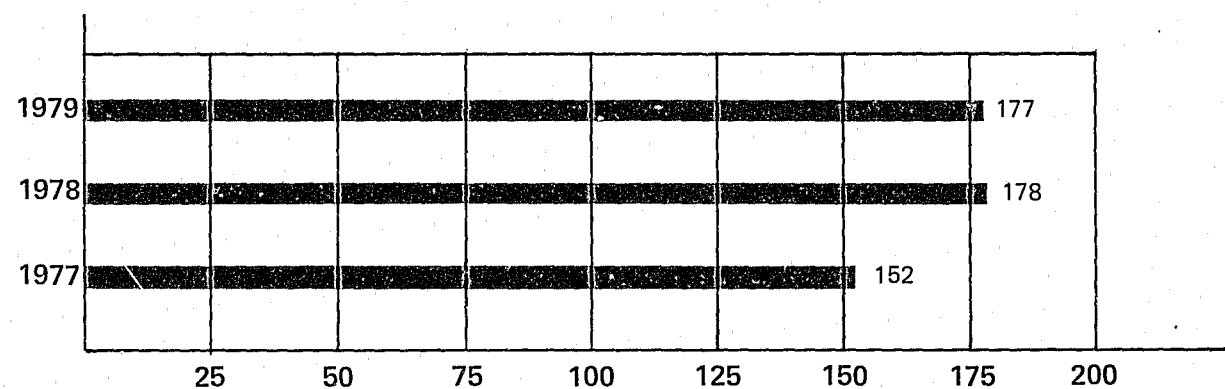

Informal evaluation feedback from the law enforcement community is highly favorable.

Enrollment

The decline in enrollment for calendar year 1979 is probably attributable to a lack of tuition funds during the last half of the year.

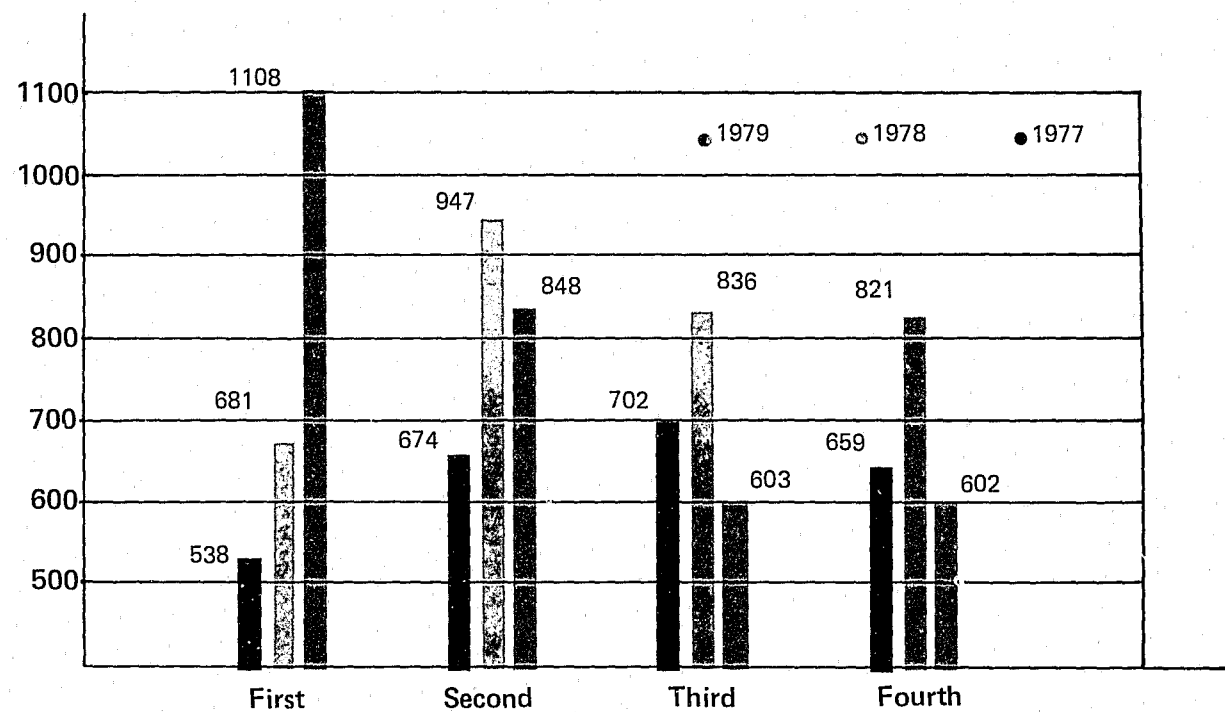

Courses Offered

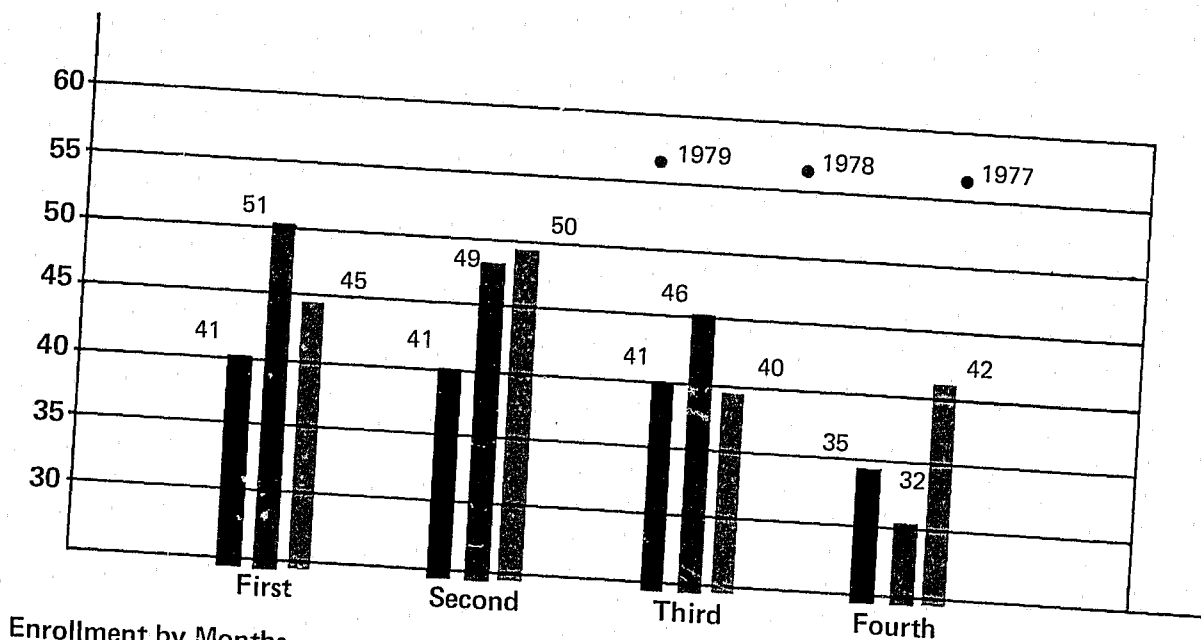

Enrollment by Quarter

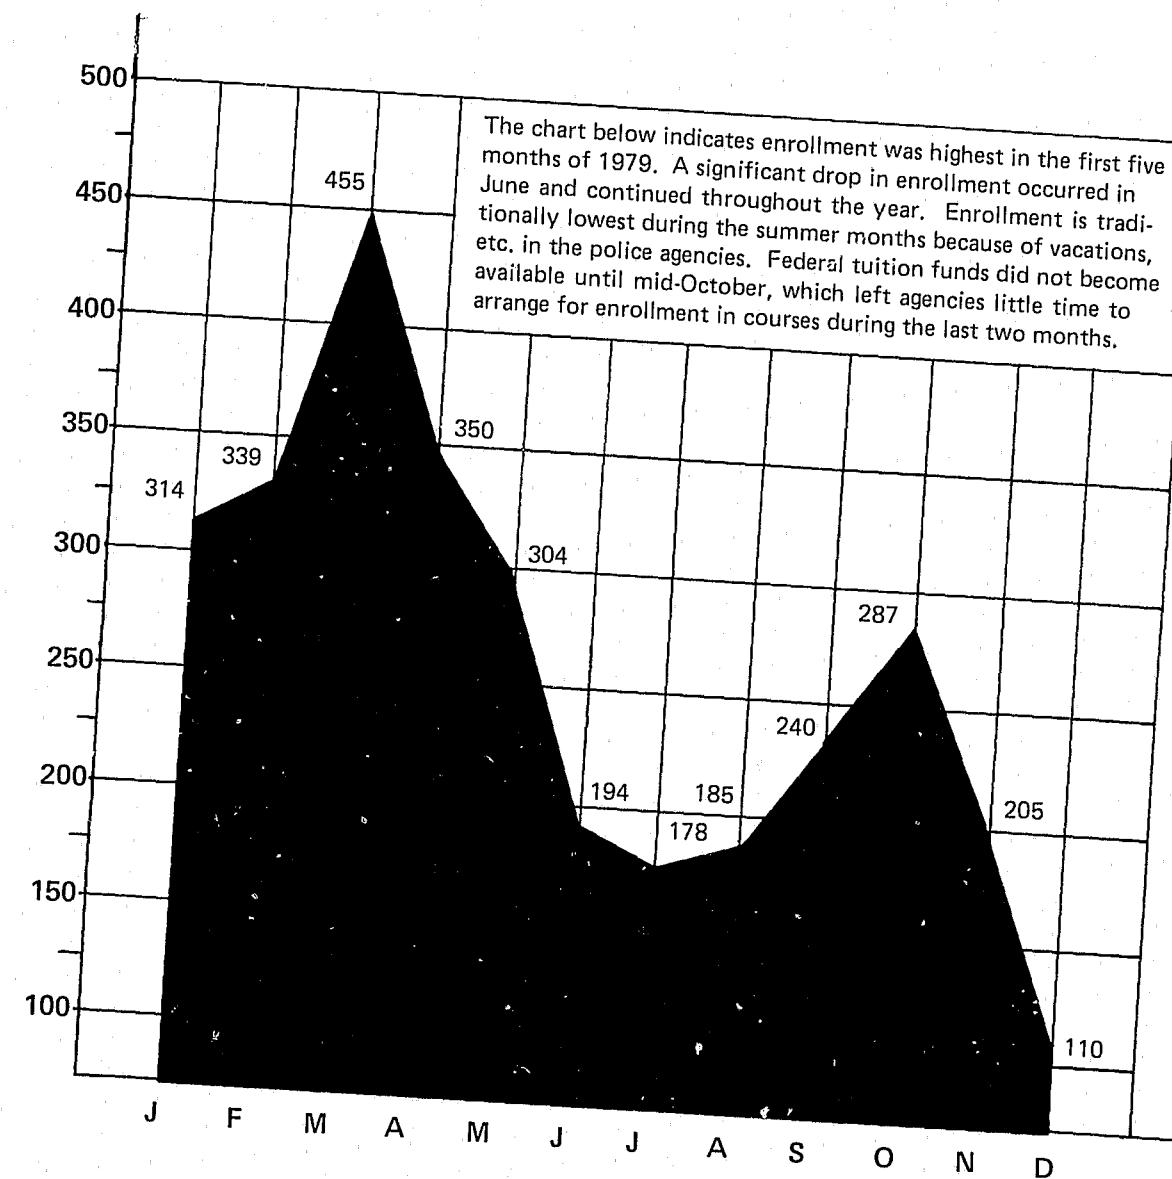

The decline in enrollment during the third and fourth quarters is probably attributable to a lack of tuition funds.
