The Honorable James A. Rhodes
Governor of Ohio
          and
Members, Ohio General Assembly

Dear Sir and Members:

In compliance with Section 109.73, Article C.4 of the Revised Code of Ohio, we are pleased to submit to you the second annual report of the Ohio Peace Officer Training Academy and the twelfth annual report of the Ohio Peace Officer Training Council. These reports cover operations from January 1, 1977 through December 31, 1977.

The year 1977 again showed an increase in the work load as reflected in the number of completed basic training schools and the number of officers certified. The Ohio Peace Officer Training Academy showed a tremendous increase in enrollment (219%) and in the number of requested training courses (170%) over the year 1976. While we are working toward the goal of providing advanced and in-service training to all officers, total compliance cannot be realized until such training is mandated.

The continuing support of the Ohio Peace Officer Training Council by the Governor and members of the General Assembly is very gratifying and will result in improved law enforcement service to the State of Ohio.

Sincerely yours,

William J. Brown

WILLIAM J. BROWN
Attorney General

Executive Director,
Ohio Peace Officer
Training Council

State Office Tower / 30 East Broad Street / Columbus, Ohio 43215

Introduction

In the year 1977, a total of 182 basic police officer training schools were completed, with a record number of 3908 officers certified by the Ohio Peace Officer Training Council.

It was encouraging to note that many schools voluntarily increased their basic training hours beyond the required minimum of 280 hours. Upon the completion of the basic course, nearly every student has expressed a desire for further schooling. As a result, the advanced and in-service training programs have been intensified as reflected by the increased enrollment at the Ohio Peace Officer Training Academy.

Another yearly firearms instructor training program was held September 26 through September 30, 1977 at Camp Perry, Ohio. There were 48 officers in attendance representing the various law enforcement agencies throughout the state. We were only able to accept half of the total applicants for this yearly training program. We expect to increase the period of training in 1978. The Ohio Peace Officer Training Council is again extremely grateful to the Federal Bureau of Investigation and its Instructor-Agents for their dedication and valuable assistance in this project.

The Ohio Peace Officer Training Council wishes to express its gratitude to the many organizations, especially the Buckeye State Sheriffs' Association, the Ohio Association of Chiefs of Police, and the Ohio State Association of Township Trustees and Clerks, for their cooperation, counsel and assistance in all matters relating to the furtherance and improvement of law enforcement training and education. We also thank the dedicated and sincere efforts of the Zone and Sub-Coordinators in the 14 training zones, who gave freely of their time and knowledge to improve the quality of police training. Last, but not least, our sincere thanks to the many dedicated men and women who took time and effort to teach in our basic programs, many without compensation. Their constant cooperation, as part of the law enforcement community, has assured the citizens of Ohio that their officers are receiving the finest training available.

Purpose Of The Academy

The Academy is dedicated to providing quality instruction in advanced and technical subjects for the peace officers of Ohio.

Philosophy Of the Academy

It is the philosophy of the Academy that the programs will be structured to facilitate the success of the learner.

Instructional Objectives

Officers will be able to perform tasks and apply techniques presented at the Academy, improving their professional efficiency and effectiveness. They will be able to demonstrate their acquired skills through objective tests, where applicable.

Information presented will be the latest available. Proven innovative techniques will be promoted and inquiry stimulated.

Course objectives will be stated in observable behavioral terms, clearly stating what the officer will be able to do as the result of instruction.

Instructional Assistance

The Academy has guest instructors from numerous sources including, Ohio Bureau of Criminal Identification and Investigation, National Auto Theft Bureau, Ohio State Highway Patrol, Ohio State Fire Marshal, Ohio Department of Liquor Control, Federal Bureau of Investigation, and other federal, state and local agencies. Universities and colleges also provided instructional assistance.

Instructional Staff

Instructional staff numbers ten with up to 27 years law enforcement experience each. Nine instructors hold masters degrees or are completing work for this degree.

Staff members have given numerous speeches and presentations throughout Ohio and many police and law enforcement goups toured the Academy.

Program Evaluation

Program and instructional evaluation is conducted in each course presented at the Academy. Overall guest and staff instructional evaluation is at a high level.

Pre and post tests are administered on all formal courses of instruction to determine the change in student performance levels. Pre and post tests reflect a significant improvement in scores.
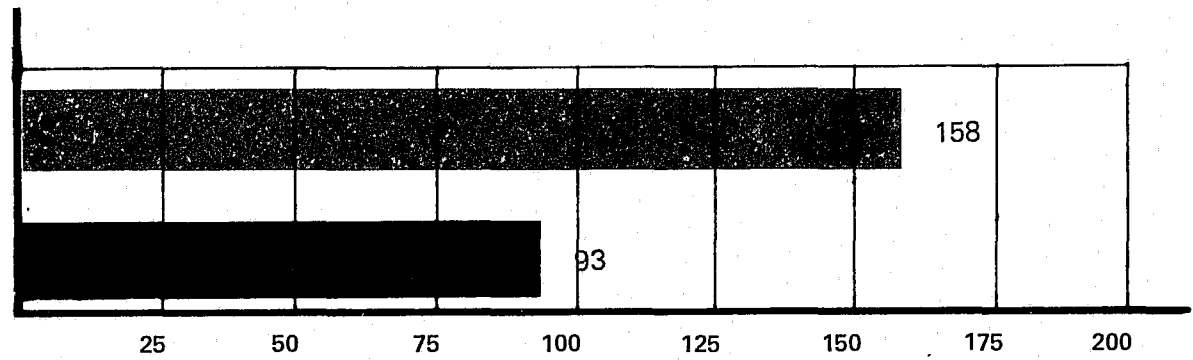

Informal evaluation feedback from the law enforcement community is highly favorable.
