#### BOARD OF POLICE COMMISSIONERS

1200 CLARK AVENUE

CITY OF ST. LOUIS

MISSOURI 63103

#### TO THE MEMBERS OF THE BOARD OF ALDERMEN....

The present Board of Police Commissioners assumed their duties and responsibilities on March 5, 1981. We are grateful to our predecessors for their thoughtful consideration and assistance during the period of transition.

While we have been in office less than one year, we have unanimously agreed to pursue the following twelve goals:

- 1. An ongoing dialouge with other governmental institutions, i.e. the State Legislature, the Board of Aldermen, the Board of Estimate and Apportionment of the City of St. Louis, to listen and to inform them of our plans, thoughts and problems.
- 2. A fair policy on promotions based upon merit and performance.
- 3. A financial planning and budgeting process to provide a long range plan for the Department.
- 4. A commitment toward insuring fair and adequate compensation for all employees of the Department.
- 5. A comprehensive study and review of the physical facilities of the Department and the development of a long-term capital improvements program to upgrade the facilities to improve the operations of the Department and provide energy saving and other efficiencies.
- 6. To take advantage of modern technology-communications, computer programs, etc.-to assist the police officer to be a more effective law enforcement professional.
- 7. A study of the organizational framework of the Department to determine the most effective way to deliver services.
- 8. A review of the Affirmative Action Program to assure the fulfillment of its objectives which are to provide minority groups access to and promotion within the Department.
- 9. To use the resources of the private sector of our community--corporations and individuals-to assist the Board in developing and implementing the latest management concepts and techniques in the various operations of the Department.
- 10. To initiate the process for the selection of the next Chief of Police and to provide for an orderly transition to the time for the retirement of the present Chief.
- 11. A review of those Department policies which infringe on constitutional issues-such as strip searches.
- 12. To constantly keep in perspective the realities of the City's fiscal resources and budgetary constraints and their relation to the Department's plans and programs.

Homer E. Sayad, President

Charles E. Valier, Vice-President

Thomas W. Purcell, Purchasing Member

Robert F. Wintersmith, Treasurer

James A. Roche, Jr., Secretary to the Board

Please realize that we have not only evolved a statement of goals, we are actively pursuing them. We have decided on the elimination of twenty-nine civilian positions and twenty-five cadet positions, saving the taxpayers \$650,000.00 in fiscal '81-'82. The Department fleet will be reduced by twenty-nine vehicles, in fiscal '81-'82, yielding an estimated savings of \$288,00.00. Committees have been appointed and are working on:

- (1) A comprehensive long range plan for the Department.
- (2) The development of a fair system of promotions based on merit and performance.
- (3) The decentralization of fiscal accountability to the command level.
- (4) Sound policies on assignment and transfer of Department personnel.
- (5) The establishment of the first outdoor range, in the Department's history.

While our tenure has been relatively brief, we are impressed by the dedication and professional performance of our personnel. The Department's outstanding national reputation is well deserved. We will do our utmost to maintain, if not improve upon that reputation, in the light of a changing economic environment.

Board of Police Commissioners
The Metropolitan Police Department
of the City of St. Louis, Missouri:

We have examined the combined balance sheet - All Fund Types and Account Group of The Metropolitan Police Department of the City of St. Louis, Missouri as of April 30, 1981 and the related combined statement of revenues, expenditures, and changes in fund balances - Governmental Fund Types and Expendable Trust Fund for the year then ended, and the statements of operations and changes in fund equity and changes in financial position of the Proprietary Fund Type - Internal Service Fund for the years ended April 30, 1981 and 1980. Our examinations were made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our report dated June 27, 1980, our opinion on the 1980 financial statements was qualified as being subject to the effects on the General Expenditures Fund financial statements of the ultimate determination of the amount of compensation to be paid the police officers for all time worked in excess of eight hours per day after May 1, 1977, including the half-hour meal period as time worked. As explained in note 5, the determination of the amount of compensation to be paid has been made and has been charged to operations in the current year as required by generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly the financial position of The Metropolitan Police Department of the City of St. Louis, Missouri at April 30, 1981 and the results of its operations for the year then ended and the results of operations and changes in financial position of its Proprietary Fund Type - Internal Service Fund for the years ended April 30, 1981 and 1980, in conformity with generally accepted accounting principles applied on a consistent basis.

#### (1) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Governmental and Fiduciary (Expendable Trust and Agency) Fund Types have been prepared on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when received in cash unless susceptible to accrual, i.e., measurable and available to finance operations, or of a material amount and not received at the normal time of receipt. Expenditures are recorded when the liability is incurred.

The accrual basis of accounting is followed by the Proprietary Fund Type - Internal Service Fund for financial statement presentation purposes.

Due to City of St. Louis

Services performed by the Metropolitan Police Department for which revenues are collected by the Department are deposited in the Treasurer's Fund and remitted to the City of St. Louis.

Certain grant programs require the expenditure of funds before the amount due from the grantor can be requested. It is the practice under such programs for the City of St. Louis to advance the cash needed to finance the required expenditures. Such balances due the City of St. Louis are liquidated upon receipt of funds due from grantors and contractors.

Appropriation Process

Annually, unit commanders submit proposed financial needs for the subsequent year to the controller of the Department. The data is summarized in budgetary form and submitted to the Board of Police Commissioners for review and approval. The final approved budgeted appropriations are submitted to the Board of Estimate and Apportionment of the City of St. Louis to become part of the total City budget.

Funds Disbursed by the City of St. Louis

The Comptroller of the City of St. Louis, upon receipt of properly approved vouchers, makes payments of expenditures on behalf of the Department. Operating transfers from the City of St. Louis are recorded when expenditures are recorded.

General Fixed Assets Account Group

General fixed assets have been acquired for general Department purposes. Assets purchased are recorded as expenditures in the General Expenditures and Special Revenue Funds and capitalized at cost in the General Fixed Assets Account Group.

#### Notes to Financial Statements

No depreciation is provided on General Fixed Assets.

It is the policy of the Department to act as self-insurors on all property. No reserves or provisions have been established in the various funds for self-insurance.

Equipment - Internal Service Fund

Equipment owned by the Internal Service Fund is stated at cost. Depreciation is provided over the estimated useful life of 10 years using the straight-line method.

Inventory

Inventory is valued at average cost. Inventory in the General Expenditures Fund consists of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are used. The reserve for inventory is equal to the amount of inventory to indicate that a portion of the fund balance is not available for future expenditure.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in the Special Revenue Funds. Encumbrances are reported as reservations of fund balances since they do not constitute expenditures or liabilities.

Fund Balance - Unreserved Designated

The fund balance in the Secretary's Fund is composed of amounts designated by the Board of Police Commissioners for payment of distinguished service awards and police officers' scholarships and amounts received in gifts and donations designated for specific purposes.

Deferred Revenue

Certain grantors advance funds to the Department through the Special Revenue and Internal Service Funds. Grant revenue is recognized to the extent that expenditures are made.

Vacation and Banked Overtime

Vacation expense is recognized in the General Expenditures Fund when paid. Vacation accrues to department employees on January 1. The employees must take their vacation before December 31. The amount of accrued vacation not reflected in the financial statements at April 30, 1981 was approximately \$2,190,000.

Presentation

Certain 1980 data has been reclassified to conform with 1981 presentation.

(2) Appropriation (Budget) to Actual Comparison

The following is a summary of the General Expenditures Fund disbursements compared to appropriation. The Department prepares its General Expenditures Fund appropriation on a cash basis.

Included in fixed and miscellaneous disbursements were operating transfers of \$2,446 and \$85,000 to the Special Revenue and Expendable Trust Funds, respectively.

The difference between the cash basis and the modified accrual basis of accounting for the General Expenditures Fund relates to the recognition of accounts payable and accrued wages and overtime payable. A reconciliation between the cash basis and the modified accrual basis of accounting follows:

	Cash basis	Increase in accrued wages and overtime payable over previous year	Increase (decrease) in accounts payable over previous year	Increase in inventory over previous year	Modified accrual basis

#### Notes to Financial Statements

The Special Revenue Funds are comprised of several grants and contracts with various Federal, state, and local agencies. The budgets are prepared at the time the grant or contract document is presented for approval to the appropriate Federal, state, or local agency and may extend beyond one year. Annual budgets are not prepared on the grants and contracts currently in process and, accordingly, budget to actual comparisons are not presented.

#### (3) Pension Plans

#### Police Officers

All commissioned police officers are covered under the Alternative Police
Retirement System of St. Louis. Members of the Plan contribute at a rate of
7% of their base compensation. The City of St. Louis makes contributions to the
Plan on behalf of its members. These contributions are not budgeted for in the
Department's general appropriations process and are not reflected in the financial statements of the Department. The contributions from the City for the year
were \$7,716,358. The unfunded accrued liability at April 30, 1981 determined by
the actuary in accordance with the provisions of accounting principles Board
Opinion #8 was \$23,100,645.

#### Department Full-Time Civilian Personnel

Department full-time civilian personnel continuously employed for one year and at least 25 years of age are eligible for participation in the noncontributory Employees Retirement System of the City of St. Louis. Department contributions are budgeted for in the general appropriations process, made quarterly, and are recorded in the General Expenditures Fund.

Contributions were made at a rate of 11.46% of the total civilians' salaries budgeted, which amounted to \$885,559 for the year. The Plan covers all eligible City employees who are not police officers. As a result, the excess, if any, of the actuarially computed value of vested benefits over the total pension fund and accruals, less prepayments or deferred charges, is not determinable for the Department personnel.

#### (4) Pending Litigation

A number of suits against the Department are presently pending for alleged civil rights violations and negligence in the line of duty. It is expected that the final settlement of these matters will not have a material adverse effect on the financial position or results of operations of the Department.

#### (5) Liability for Overtime

Traditionally, the Department has not treated the half-hour meal period as working time. On May 1, 1977, a new law went into effect which provided that police officers must be paid overtime for all hours worked in excess of an eight hour day. On July 14, 1978, three police officers filed a lawsuit in St. Louis Circuit Court challenging the Department's policy with respect to the half-hour meal period. On March 28, 1979, the Circuit Court decided that the meal period is to be treated as time worked and that overtime compensation must be paid for any time worked in excess of eight hours. The Court ordered that the officers be compensated for any such overtime incurred after May 1, 1977.

On April 21, 1981 and June 18, 1981, the Department presented to the St. Louis Circuit Court for approval, its calculations of overtime compensation for the periods June 17, 1978 to March 26, 1979 and March 27, 1979 to April 30, 1980. The amounts for these periods, which were approved by the St. Louis Circuit Court, were \$460,672 and \$279,532, respectively. The amounts have been reflected in the expenditures for fiscal year 1981.

On April 21, 1981, the St. Louis Circuit Court ruled that the claim for overtime compensation for the period May 1, 1977 to June 16, 1978, was barred by the statutes of limitation. The police officers have filed an appeal of the court's ruling. It is the opinion of the Department's legal counsel that the St. Louis Circuit Court ruling will be upheld. Accordingly, no provision for the liability has been made at April 30, 1981.
