OCT 25 1982

ACQUISITIONS

Dear Directory User:

This is a second printing of the directory updated as of November 1980 that can be effectively used during 1981. There have been many changes since the initial printing and in the future we will attempt to update this directory each year.

If any of the users of this directory have any additions, deletions or corrections, please do not hesitate to contact Ms. Jackie Blasi at 727-7144.

Requests for additional copies should be forwarded to Mr. Michael Phillips in care of the Committee or he can be contacted at 727-7096.

The Committee would like to thank all the residential service providers contained in the directory for their cooperation.

Lastly, I would like to thank the staff of the Committee with special thanks to Walter Timilty, Jackie Blasi, Norma Fay, and Ann Gaudette.

Sincerely,

William Highgas, Jr.
William Highgas, Jr.
Executive Director

HOW TO USE THIS DIRECTORY

ORGANIZATION

Each program in this directory has been listed according to one of five service categories. The service categories are defined below:

1. Group Care (GC)

The group care category includes group homes and halfway houses which maintain a small bed capacity and provide long-term treatment. These programs rely on community resources (public schools, medical services, community recreation and employment programs, etc.) in working with the youth in placement. Group care facilities are non-secure.

2. Specialized Group Care (SGC)

Programs included in this category provide long-term care and have a capacity of approximately 15-30 beds. These non-secure programs have a unique treatment modality and may have an on-grounds school component or vocational program. They may also rely somewhat on community resources for employment, education and recreation.

3. Residential Schools (RS)

Residential schools are large educational or vocational facilities, certified as a school. These schools usually have a full clinical component. Residential schools accept delinquents, CHINS, abused and neglected youth, privately referred youths and students with special education needs.

4. Shelter Care (SC)

Shelter care facilities are designed to provide temporary shelter (less than two months) for youths in crisis. Some programs have a diagnostic capability. Several of the shelters used exclusively for delinquents offer some degree of security.

5. Secure Programs (SP)

Each program in this category relies on locks, bars, security screens, staffing pattern, enclosures or any combination thereof for security measures. Youths do not have access to the community. There are three types of programs in this category. Secure detention programs are used for the temporary detainment of accused or adjudicated juvenile offenders. The Bureau of Clinical Services of the Department of Youth Services coordinates secure treatment programs. These programs are locked, closed treatment facilities with full on-grounds programming. Secure Mental Health Group Care Programs, are operated by the Department of Mental Health. They are similar to DYS secure treatment programs in that they are self-contained, however, their clientele have diagnosed mental health histories.

PREFACE

This directory has been compiled by the Massachusetts Committee on Criminal Justice. The Committee is a state agency mandated to plan and administer all federal funds available to the Commonwealth under the Omnibus Crime Control and Safe Streets Act (1968) and the Juvenile Justice and Delinquency Prevention Act (1974).

This directory was designed to:

- * assist placement agencies and referral services
- * facilitate communication among providers
- * define and delineate the network of available residential facilities
- * present an overview of this crucial component of the juvenile justice system.

The Committee would like to thank the Massachusetts residential service providers listed herein for their interest and cooperation in this project.

TABLE OF CONTENTS

The table of contents provides an alphabetical listing of programs within the service categories described under Organization. The location of each program is listed also.

APPENDICES

Many programs which are components of larger social service agencies are better known by their agency designation. For this reason and for the reader's convenience, this directory contains two appendices. Appendix I contains an alphabetical listing of all programs according to the program name. Appendix II lists the social service agencies by area (county).
