INTRODUCTION

The Virginia Department of Criminal Justice Services has been designated by the Secretary of Public Safety to serve as a state resource center for crime prevention information.

To facilitate coordination and information dissemination, the Department has prepared this directory which provides practitioners and interested Virginians with a means to identify and share resources.

The directory provides an opportunity for crime prevention programs to match their project needs with resources which are available on the national, state and local levels. It also provides a means for resource sharing which hopefully, in some instances, will eliminate the need for a program to purchase costly films, slides, and equipment when there is a possibility they may be borrowed from a neighboring agency or organization.

While every effort was made to identify those agencies and organizations actively engaged in conducting crime prevention programs, it is probably inevitable that some programs were overlooked. Those agencies and organizations whose crime prevention resources are not listed in the directory, can contact the Department of Criminal Justice Services to ensure those services are included in future editions of the directory.
