Introduction

This codebook was the basis for the collection of data on every homicide in Chicago Police Department (CPD) murder analysis report files from 1965 through 1981, a total of more than 12,000 incidents. The codebook will be helpful for those who want to use this data set for their own analysis, and for those interpreting the details of analysis conducted by others. In addition, the codebook will be useful to anyone designing a similar study of homicide.

Data collection for 1965-1970 began in 1968. Additional data collection continued periodically through 1982. It has been possible only with the close cooperation, over the years, of the Chicago Police Department, in particular, former Superintendent James Rochford, former Deputy Superintendent Michael Spiotto, former Homicide Division Commander Joseph DiLeonardi, Homicide/Sex Division Commander Rudolf E. Nimocks (now Commander of Area 4 Detective Division), former Superintendent Richard Brzeczek, Deputy Superintendent Thomas J. Lyons, Chief William Hanhardt, Lieutenant Michael Caccitola, Sergeant Timothy Tidmarsh and Detective Patrick Conway.

Homicide data from 1965 through 1976 were collected under the supervision of Franklin E. Zimring of the Center for Studies in Criminal Justice of the University of Chicago Law School, and Richard L. Block of Loyola University of Chicago. Data collection was supported, in part, by PHS Grant No. 1R01M27575, NIMH, to the Center for Studies of Crime and Delinquency.

Homicide data from 1977 and 1978 were collected under the supervision of Richard Block; collection of 1979 through 1981 data was under the supervision of Richard Block and Carolyn Rebecca Block, and was supported by Bureau of Justice Statistics Grant No. 3960D to the Illinois Law Enforcement Commission, now the Illinois Criminal Justice Information Authority. Those who participated in data collection and coding over the years included Ruth O'Brien-Perrin, John Piegore, Ronald Gilbert, Nancy Haverfield, Ted Nagengast, Barbara Gilloley and Keith Coopridier.

Because the data were collected in many stages by many people over a long period of time, the codes used have undergone repeated revision. However, these revisions added to the coding categories. They did not change the existing codes. For example, the coders of 1965 homicides began with a list of categories of weapon. When a coder came across a weapon not on the list, after consultation with the coding supervisors, the weapon would be added to the list. In this way, the number of categories for weapon, relationship and place expanded until each has close to 100. Some of these categories, as it turned out, occurred only once or twice. In actual analysis, it is easy to combine combine all of the codes into broader categories.

In addition, in later years some variables were added to the study. This is especially true of variables attempting to capture sentence information, which was very seldom present in the CPD analysis report. The best outcome information is "Outcome of Grand Jury or Preliminary Hearing" (column 69), which began to be collected in 1971, and had additional categories added in 1977. The "Codes" and the "Notes" sections of this codebook include details of available information by year.

Geographical location was collected differently in different years. From 1971 through 1976, a north-south and east-west grid code was used. After 1976, actual address was written on the codesheet. This address was later converted to a "pin map" location using the Census DIME file, producing a new geographical data file. This codebook does not apply to the new geographical file.

For most years, data reflect information available in mid-1982, even though the data were originally collected earlier. For the years 1971 through 1978, Authority staff updated the coding by searching police department files for cases that had not been cleared at the time of the original coding, but were cleared by 1982. (Because of the ID used, this would have been very difficult to do for the years 1965 to 1970.) For these cases, additional information was collected if available. Information about case outcome, in particular, was updated.

The major section of this report is the codebook itself, consisting of detailed coding instructions and categories for each piece of information gathered over the years. Since the coding was done by many people over a long period of time, categories were added to some variables and new variables were also added. Therefore, the codebook details specific categories or variables that apply to only some of the 1965 to 1981 years. These and other problems with data interpretation are detailed in the "Notes" section.

Following the "Codes" and the "Notes" sections, the report includes a section of "Recodes," in which a variable such as "Type of Weapon" (columns 23-24), with almost 100 categories, is condensed into a more manageable six-category variable. For those who want to create a computer file containing these recodes, and for those who use the SPSS system file at the Authority, the program that created the system file is also included. In addition, the report includes a bibliography of publications that have used the Chicago homicide data.

Codes

Column	Title	Description
1-3	ID	Unique identification number assigned to each incident by the Chicago Police Department (CPD). The number is in the upper right hand corner of the analysis report. <i>For 1965-1970, see "Notes."</i>
4	Book Year	The year in which the CPD "booked" the crime. <i>See Column 79-80 for "Year of Occurrence."</i>
5	Multiple Homicide	The number of persons murdered in the same incident. 1-9.....Enter actual number 0.....No information <i>This field was not used before 1977.</i>
6	Area	1-6.....Enter actual police area 0.....No information
7-8	District	01-24.....Enter actual police district 00.....No information <i>Note: Geographic boundaries of Chicago police districts changed over time. There were also slight changes in police areas. For details and maps, see Authority homicide study files.</i>

47	Motive: Sex	1...Homosexual rape, "perversion" (enter 0 in column 44) 2...Rape, assault of women (enter 0 in column 44) 3...Involving homosexuality 4...Involving prostitution 0...Not involved <i>Codes 3 and 4 were not used prior to 1971; see "Notes."</i>
48	Wanton (Unlawful) Use of a Weapon	1...Involved (code <u>only</u> if checked in CPD analysis report) 0...Not involved
49	Number of Offenders	1-8...Enter number involved 9...9 or more involved 0...Unknown <i>See "Notes."</i>
50	Previous Offense: Victim	1...No record of previous offense 2...Record, not connected to this murder 3...Record, connected to this murder 0...Not indicated, or juvenile and not applicable <i>"Previous Offense: Victim" was not coded in 1965.</i>

Column	Title	Description
For columns 51 through 54, code all 0's if the number of offenders is unknown, information is missing, there is no second offender, or code is otherwise not applicable. (In 1977 and 1978, 9 was coded in these instances.)		
51	Previous Offense: Offender 1	Code as in column 50. 0-Number of offenders unknown, information is missing, there is no second offender, or code is not applicable.
52	Previous Offense: Offender 2	Code as in column 50. 0-Number of offenders unknown, information is missing, there is no second offender, or code is not applicable.
53	Previous Offense: Offender 3	Code as in column 50. 0-Number of offenders unknown, information is missing, there is no second offender, or code is not applicable.
54	Previous Offense: Offender 4	Code as in column 50. 0-Number of offenders unknown, information missing, there is no second offender, or code is not applicable. <u>Note:</u> In 1965, 1966, and 1967, "Previous Offense: Offender" was not coded.
55	Clearance	1....Exceptional clearance: Police know who offender is, but could make no arrest (e.g., offender's suicide, "bar to prosecution") 2....Not cleared: Police do not know who offender is 3....Cleared by arrest "Clearance" was not coded in 1965, 1966 or 1967. From 1968 to 1974, 3 was not used; all clearances were coded 1.

Column	Title	Description
56	Victim Participa- tion	Code if victim actively participated or precipitated, <u>not</u> if victim merely resisted. Code only where participation was immediate, not where offender killed victim to settle an old score. Child abuse and robbery usually would be coded "No." 1...Yes (argument, fight) 2...No 0...Undetermined "Victim Participation" was not coded in 1965 or 1966.
57	Blank	*****
58	Child Abuse	0...Not indicated (child, but can't tell if abused) 1...Involved: Battered child 2...Not involved: Child, but not battered, (e.g., robbery murder), or not a child (1977-1981) "Child Abuse" was not coded 1965-1970.
59	Victim Intervention in Crime	Third person who intervenes in a crime and is killed. 1...Victim is a police officer 2...Victim is not a police officer, but was active in crime (e.g., good samaritan) 3...Victim passive, bystander, or witness to other crime 0...Not indicated or involved "Victim Intervention in Crime" was not coded from 1965 through 1970.

Column	Title	Description
60-65	Blank	<i>In 1971-1976, geographical location was coded here. See "Introduction."</i>
66	Investigation	<p>1...Offender at the scene 2...Offender immediately identified, but not at the scene 3...Offender identified through investigation 4...Offender never identified 5...Offender at scene, but arrested later (1979-1981) 9...No information</p> <p><i>Not coded from 1965 to 1970. For 1977 and 1978, see "Notes."</i></p>
67	Death of Offender	<p>0...No, death of offender not involved. 1...Killed subsequent to, and as a result of, this incident, but police not involved 2...Killed subsequent to, but not as a result of, this incident 3...Killed by police at scene 4...Suicide (1977-1981) 9...Not cleared, offender not identified (enter 2 in column 55)</p> <p><i>Not coded from 1965 to 1970. From 1971 through 1978, "Not cleared" was coded 0.</i></p>
68	Blank	<i>In 1971-1974, "Inquest Verdict" was coded here.</i>

Column	Title	Description
69	Outcome of Grand Jury or Preliminary Hearing	<p>For multiple offenders, code the most serious outcome for any offender. Also write disposition, if any, on back of code sheet.</p> <p>0...No bill, no probable cause (NPC), not guilty 1...True bill-murder 2...True bill-voluntary manslaughter 3...Not yet indicted, or no information hearing held 4...True bill-involuntary manslaughter 5...True bill-other or unspecified charge (1977-1980) 6...Referred to juvenile (family) court (1977-1980) 7...Other (e.g., nolle prosequere) 8...Defendant not identified or not arrested. No suspect, not cleared (enter 2 in column 55) (1977-1980) 9...No information or not applicable (exceptional clearance)</p> <p><i>Not coded from 1965 to 1970. Also, not coded in 1981 because cases were still in progress. 1971-1978 coding was updated with new information available in 1982.</i></p>
70-74	Indictment Number	<p>Enter the specific number. Also write it on the back of the code sheet. If the number is too long, drop the first digit.</p> <p>00000...None, not available</p> <p><i>Not coded before 1977. For 1971 to 1976 see "Notes."</i></p>

Column	Title	Description
75	Drugs Involved in Crime?	Also see "Intoxicant" (column 41) and "Drugs Used?" (column 77). 1...Selling 2...Argument over possession (enter 2 in column 44) 3...Getting money for drugs 4...Other drug involvement and unknown drug involvement 9...Report states "not involved" <i>Not coded from 1965 through 1976.</i>
76	Victim Committing a Crime?	Do not count a fight or altercation as a crime in this instance. Only count such predatory crimes as a robbery or rape. 1...Victim killed while committing, or fleeing the scene of, a predatory crime 2...Victim not committing a crime 3...Vengeance (motive was revenge for a past crime committed by the victim) 4...Victim committing a victimless crime (e.g., dice game) 0...No information <i>Not coded from 1965 through 1976.</i>
77	Drugs Used During Crime?	Also see "Drugs Involved?" (column 75). 1...Yes, victim 2...No, neither 3...Can't tell (if no offender known) 4...Yes, offender 5...Yes, both <i>Not coded from 1965 through 1974.</i>
78	Indictment Number Digit	Enter the last digit of the indictment number. 0...None <i>Coded only in 1979 and 1980.</i>
79-80	Year of Occurrence	Year in which <u>incident</u> , not death, occurred. Enter last two digits of year. <i>See "Notes."</i>

Additional Information to be Recorded

Note: This information is not contained in the Authority computer file.

Record the following in ink on back of the codesheet:

	Title	Description
1)	Exact Address Where Body Found	Example: <u>721 North Clark Street</u> (include all underlined information). <i>In 1971-1976, geographical location was coded in columns 60 to 65.</i>
2)	Indictment Number (if any)	Include the letter, if the indictment number has one.
3)	Final Disposition	Record the case disposition here, if there is one.

Notes

Column	Title	Comments
1-3	ID	For 1965 through 1970, the ID number in the CPD analysis report was not recorded here. Instead, an arbitrary number was assigned sequentially to each case.
4	Book Year	The year in which the homicide was reported to the police, or became known to the police. It is not necessarily the year in which the homicide occurred. <u>Do not use this variable.</u> Use "Year of Occurrence" instead. 1965-1973...Last digit of the year 1974.....A 1975-1981...Last digit of the year
14	Year Incident Occurred	This was not used at all in 1974. In other years, the final digit of the year was entered. <u>Do not use this variable.</u> Use "Year of Occurrence" instead.
25-40	Offender's Race, Sex and Age	In 1965-1970, these columns were left blank for "no information." To use these variables, assign a missing value to "blank."
41	Intoxicant Involved?	In 1975, CPD criterion for victim intoxication changed. Before 1975, it was the investigating officer's opinion. Beginning in 1975, it was based on blood tests conducted by the Cook County Medical Examiner's Office.
44	Altercation Motive	The use of codes 9 and 0 differed from the definitions given here in 1965, 1966, 1967, 1971, 1972, 1973 and 1974. It is impossible to reconstruct this variable for these years. Also, sometimes in the early years, "Altercation over money" was coded for robbery murders, and "Altercation over sex" was coded for rape murders. For further information, see Authority files. The CPD definition of "Teen Youth Gang" homicide specifies that <u>both</u> victim and offender must be youth gang members. This definition has been used since at least 1967.

Column	Title	Comments
47	Motive: Sex	Police coding of "Perversion" is not reliable before 1971. It is impossible to distinguish between homosexual rape and murder of homosexual friends.
49	Number of Offenders	This information requires some cleaning because "Number of Offenders" was coded 1 in about 10 percent of the cases in which the age, sex and race of a <u>second</u> offender were known.
66	Investigation	In 1977-1978, "Investigation" was coded 9 (no information) when an arrest had been made, but there was no information regarding the type of investigation. To analyze 1977-1978, cross-tabulate "Investigation" with "Clearance" (column 55).
70-76	Indictment Number Drugs Involved? Victim Committing a Crime?	In 1965-1970, these columns were not used. In 1971-1976, they were used to code several sentence variables. However, it was later decided that sentencing information was unreliable. The Authority file, CHOM6581, does <u>not</u> contain these variables.

Recodes Summary

For quick reference, use the following list for variable recodes contained in the Chicago Homicide system file at the Authority. For exact definitions, see the "Recodes--SPSS System File" section below.

Victim and Offender Age

Variable labels: VICAGE, OFF1AGE, OFF2AGE, OFF3AGE, OFF4AGE

Recoded variables: AGEV, AGE0

1	01 THRU 14, 25 THRU 98
2	15 THRU 19
3	20 THRU 24
10	00,99

For other age categorizations, and for correction of some mis-codes, see Authority files.

Victim and Offender Race/Ethnicity

Variable labels: RACEVIC, OFF1RACE, OFF2RACE, OFF3RACE, OFF4RACE

Recoded variables: RACEV, RACE10, RACE20, RACE30, RACE40

1....	White
2....	Black
3....	Latin
4....	Other
5....	Oriental

This coding scheme attempts to provide consistent definitions over the entire 1965-1981 period. However, see the "Codes" section above. Note that in 1965 through 1970, Orientals were included in "Other."

Relationship of Offender to Victim

Variable label: RELATION

Recoded variables: RELATE10, RELATE4

RELATE10

- 1....Husband/wife (including common law)
- 2....Girlfriend/boyfriend, ex-girlfriend/
ex-boyfriend, ex-husband/ex-wife

- 6....Other

Recodes--SPSS System File

The following program created the Chicago Homicide SPSS system file (CHOMISYS.UCR) at the Authority. Use this listing for exact detailed information about recoded variables, missing values, and labels. For example, use this listing to see how each of the many possible codes for "Type of Weapon" (columns 23-24) is recoded into a six-category summary, WEAPON6. Users who wish to categorize a variable differently may do so, but we have found the categories indicated below to be appropriate for most purposes.
