INTRODUCTION

The Virginia Department of Criminal Justice Services is designated by the Secretary of Transportation and Public Safety to serve as a state resource center for crime prevention information.

To facilitate coordination and information dissemination, the department has prepared this directory which provides practitioners and interested Virginians with a means to identify and share crime prevention resources.

The directory provides an opportunity for crime prevention programs to match their project needs with resources which are available on the national, state and local levels. It also provides individuals the names of others they may contact to share and exchange ideas on crime prevention topics.

While many agencies and organizations actively engaged in crime prevention have been identified, not all have been identified. There are many professional, civic and social groups working primarily at the local level which have an interest in crime prevention. The majority of these groups can be identified by contacting your local law enforcement agency.

Please contact the Department of Criminal Justice Services if you would like to make any changes or additions to the Crime Prevention Resource Directory.

CRIME PREVENTION RESOURCES

INTRODUCTION

The Crime Prevention Resource List is a collection of public and private awareness material available for use in crime prevention and other law enforcement programs. Most of the public awareness material is available at no cost but several organizations do have minimal fees for audio-visual or display materials. These minimal fees are for cost recovery only and are designated in the list by a double asterisk (**).

The public awareness material listed can be obtained by telephoning directly but most organizations do prefer that a request for material be in writing on agency letterhead stationery. If it can be justified, some organizations will provide more copies of brochures, posters, etc., than are shown in this list.

This list is not intended to serve as a complete listing of all organizations that offer public awareness material at no cost or at minimal cost. These are organizations that Criminal Justice Services was able to identify through a limited national survey.

If you have any questions about the list or are aware of other organizations that offer similar public awareness material, please notify:
