

Appendixes

Appendix A: Awards Made in Fiscal Year 1998

This appendix presents the grants, interagency and cooperative agreements, contracts, and fellowships awarded by the National Institute of Justice during fiscal year 1998. The awards reflect research, development, evaluation, training, dissemination, and technical support projects, including those supported by the Violent Crime Control and Law Enforcement Act of 1994 (the Crime Act) and those conducted in partnership with other Federal agencies.

An annual open solicitation for proposals invites investigators to initiate research and evaluation in broadly defined topic areas; more focused solicitations are issued throughout the year on specific topics and programs, including those emphasized by the Crime Act.

Organization Of This Appendix

The awards are listed alphabetically by project title within 16 major topic areas with additional subcategories. Listed under each project title are the awardee organization, principal investigator or contractor, award amount, and award number. Award numbers

beginning with a number other than 98 identify previous years' awards that received supplements in 1998.

An asterisk (*) before the project name means the award was made with funds appropriated under the Crime Act.

For More Information

The Institute's mission and approach to research is described in the NIJ Prospectus, *Building Knowledge about Crime and Justice*.

For online access to this listing as well as information about publications, programs, funding opportunities, and other aspects of NIJ, visit NIJ's World Wide Web page at <http://www.ojp.usdoj.gov/nij>, the Justice Information Center at <http://www.ncjrs.org>, or contact the National Criminal Justice Reference Service at (301) 519-5500 or (800) 851-3420.

National Law Enforcement and Corrections Technology Centers

NIJ's National Law Enforcement and Corrections Technology Centers (NLECTC) offer centralized sources of product and technology information, assessment, and referral services to law enforcement, corrections, and other criminal justice professionals. NIJ also supports a Border Research and Technology Center that focuses on developing and enhancing border control.

The following awards provide technical assistance and other resources in support of the Director of Science and Technology at NIJ through operation of the NLECTC.
