ACKNOWLEDGEMENT OF ASSISTANCE

All manuscripts utilizing data made available through the Consortium should acknowledge that fact as well as identify the original collector of the data. The ICPSR Council urges all users of the ICPSR data facilities to follow some adaptation of this statement with the parentheses indicating items to be filled in appropriately or deleted by the individual user.

The data (and tabulations) utilized in this (publication) were made available (in part) by the Inter-university Consortium for Political and Social Research. The data for the REACTIONS TO CRIME PROJECT, 1977 [CHICAGO, PHILADELPHIA, SAN FRANCISCO]: SURVEY ON FEAR OF CRIME AND CITIZEN BEHAVIOR were originally collected by the Center for Urban Affairs and Policy Research at Northwestern University. Neither the collector of the original data nor the Consortium bear any responsibility for the analyses or interpretations presented here.

In order to provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, each user of the ICPSR data facilities is expected to send two copies of each completed manuscript or thesis abstract to the Consortium. Please indicate in the cover letter which data were used.

INTRODUCTION

DATA COLLECTION DESCRIPTION

This survey was conducted by the Center for Urban Affairs at Northwestern University. Its purpose was to gather information for two investigations which analyzed the impact of crime on the lives of city dwellers. These were the Reactions to Crime (RTC) Project which was supported by the U.S. Department of Justice's National Institute of Justice as part of its Research Agreements Program, and the Rape Project which was supported by the National Center for the Prevention and Control of Rape, a sub-division of the National Institute of Mental Health. Both projects were concerned with individual responses to crime and the impact of fear of crime on day-to-day behavior. The RTC Project was also interested in collective responses to crime--how individuals band together to deal with crime problems and the Rape Project was specifically concerned with sexual assault and its consequences for the lives of women.

Respondents were asked a number of questions which called for self-reports of behavior. These included questions about events and conditions in their home areas, their relationship to their neighbors, who they knew and visited around their homes, and what they watched on TV and read in the newspapers. Also included were several questions measuring respondents' perceptions of the extent of crime in their communities, whether they knew someone who had been a victim, and what they had done to reduce their own chances of being victimized. Finally, there were a number of specific questions about sexual assault, some of which were asked only of women.

DATA COLLECTION PROCEDURES AND SAMPLING INFORMATION

Three cities were selected for study: Chicago, Philadelphia, and San Francisco. Within each of these cities extensive data on three or four neighborhoods was gathered. Sites were selected which provided variation along a number of dimensions--ethnicity, class, crime, and levels of organizational activity. The boundaries of the neighborhoods were determined by the perceptions of area residents interviewed during the fieldwork phase of the

project, and were not drawn to match any convenient, pre-existing geographical sub-units. In addition to the neighborhood samples, a small city-wide sample was drawn from each city. The neighborhood samples range in size from approximately 200 (in four of the sites) to 450 (in six areas). The larger samples were those in which female respondents were oversampled. The city-wide component of the survey was designed to reach randomly-selected adults in 540 households in each city. In total, approximately 1640 interviews were to be conducted in Philadelphia and San Francisco, and 1840 in Chicago.

This survey was carried out by the Market Opinion Research Corporation between October and December, 1977, using a telephone interview scheme. Questionnaire preparation and initial pretesting, along with all sampling and telephone number preparation, was conducted at Northwestern. Random Digit Dialing (RDD) techniques were employed for selecting respondents. Prospective telephone numbers were produced through the following process. First, three-digit prefixes serving the target areas were gathered and screened. Then, using a special computer program, random four-digit numbers were attached to each prefix. Finally the resulting seven-digit phone numbers were screened again.

Each number for an area or city was called in turn. For numbers which appeared to be operating, a total of five calls were made, spread over days and shifts, to reach a responsible adult. An early screen question took out commercial or institutional phones which had been missed in the other screenings. Another checked each household in a neighborhood sample to make sure it lay within the specified area boundaries. A total of 3 call-backs were made to find an adult at home to serve as a household informant. This informant was quizzed to establish the composition of the household, and a respondent (18 or older) then was randomly selected using a Trodahl-Carter-Bryant selection matrix. (Because of the substantive interests of the Rape Project, female respondents were oversampled in several of the neighborhood surveys. Oversampling of females was accomplished by manipulating the use of the Trodahl-Carter-Bryant respondent selection matrix so that they were more likely to be randomly selected.) As many as four call-backs could be made to arrange an interview with this respondent. A total of 5,121 interviews were completed.

WEIGHTING INFORMATION

In addition to the areas in which females were deliberately over-sampled, several samples (notably Chicago and Philadelphia City-wide, Back of the Yards, and Woodlawn) included somewhat too many women. Therefore every sample was weighted using the appropriate city-wide criterion. Operationally, this was accomplished in the following manner: a weighting variable called SEXWT was created which had a value 1.0 for all males, while females in each sample were given weights calculated using the 1970 city census:

$$\text{SEXWT} = \frac{\text{\# of females in city census}}{\text{\# of males in city census}} \times \frac{\text{\# of males in sample}}{\text{\# of females in sample}}$$

To correct for the increased probability of reaching households with multiple phone lines, all cases were weighted by the inverse of the number of phone lines in the household (TELEWT).

FILE STRUCTURE

Reaction to Crime Project, 1977 [Chicago, Philadelphia, San Francisco]: Survey on Fear of Crime and Citizen Behavior is available from the ICPSR in two formats: card-image and OSIRIS. The card-image file contains several decks per case in a format based on 80 column punched cards. The data are sorted by case with all decks for a case together in ascending order.

The OSIRIS dictionary gives the format and other information for each variable in the OSIRIS data file. The dictionary or dictionary-codebook file is used in conjunction with the OSIRIS software package. The OSIRIS data file is constructed with a single logical record for each case. There are 206 variables on 5,121 cases. The data are not weighted.

The OSIRIS data file can be accessed directly through software packages or programs which do not use the OSIRIS dictionary by specifying the tape locations of the desired variables. These tape locations are given in the OSIRIS dictionary-codebook.

CODEBOOK INFORMATION

The example below is a reproduction of information appearing in the machine-readable codebook for a typical variable. The numbers in brackets do not appear but are references to the descriptions which follow this example.

.....
 [1] VAR 0013 [2] V4: PEOPLE ON STREET-DRK [3] MD=7 OR GE 8
 REF 0013 [4] LOC 26 WIDTH 1 [5] DK 1 COL 28
 [6] IMP DEC= d

[7] How many people would you say are usually out walking
 on the street in front of where you live after dark
 -- a lot, some, a few or almost none?

[8]

[9] SEE NOTE(S) X

[10] Actual number is coded.

[11] [12]

01. Almost none
 02. A few
 03. Some
 04. A lot

07. DK
 08. NA

.....
 [1] Indicates the variable and reference numbers.
 A variable number and a reference number are
 assigned to each variable in the data collection.
 In the present codebook which documents the
 archived data collection these numbers are
 identical. Should the data be subsetted or
 rearranged by an OSIRIS program (e.g., MMP to
 intersperse data from another source, or TCOT to
 produce an analysis deck), the variable numbers
 would change to reflect the order of the new data
 collection, while the reference number would remain
 unchanged to reflect the variable number in the
 codebook describing the archived data collection.

- [2] Indicates the abbreviated variable name (maximum of 24 characters) used in the OSIRIS system to identify the variable for the user. An expanded version of the variable name can be found in the variable description list.
- [3] Indicates the code values of missing data. In this example, code values equal to 7 or greater than or equal to 8 are missing data (MD=7 OR GE 8). Alternative statements for other variables are "MD=0," "MD GE 9," or "NO MISSING DATA CODES." Some analysis software packages (including the OSIRIS software package) require that certain types of data which the user desires to be excluded from analysis be designated as "MISSING DATA," e.g., inappropriate, unascertained, unascertainable, or ambiguous data categories. Although these codes are defined as missing data categories, this does not mean that the user should not or cannot use them in a substantive role if so desired.
- [4] Indicates the starting location and width of this variable when the data are stored on a magnetic tape in the OSIRIS format. If the variable is of a multiple-response type, the width referenced is that of a single response. In this example the variable named "V4: PEOPLE ON STREET-DRK" is 1 column wide and is located in the 26th column within the record.
- [5] Indicates the location by deck and column of this variable when the data are stored on cards or in card-image format (80-column format).
- [6] A variable containing data with implied decimals is denoted by the message "IMP DEC= d," where d is the number of decimal places implied in the variable.
- [7] This is the full text (question) supplied by the investigator to describe the variable. The question text and the numbers and letters that may appear at the beginning reflect the original wording of the questionnaire item.
- [8] Indicates an additional comment or explanation appended to the variable description.
- [9] A variable which has a footnote associated with it is denoted by the message, "SEE NOTE(S) X" where X is the number of the footnote referenced.

- [10] "Actual number is coded" appears in the codebook to indicate that the variable has been declared continuous.
- [11] Indicates the code values occurring in the data for this variable.
- [12] Indicates the textual definitions of the codes. Abbreviations commonly used in the code definitions are "DK" (Do Not Know), "NA" (Not Ascertained), and "INAP" (Inappropriate).

ICPSR PROCESSING INFORMATION

The data collection was processed according to the standard ICPSR processing procedures. The data were checked for illegal or inconsistent code values which, when found, were recoded to OSIRIS missing data values. No consistency checks were performed. Statements bracketed in "[" and "]" signs in the body of the codebook were added by the processors for explanatory purposes.

VARIABLE DESCRIPTION LIST

ICPSR PROCESSING VARIABLES

- 1 ICPSR study number-8162
- 2 ICPSR edition number-1
- 3 ICPSR part number-1
- 4 ICPSR sequential case identification number

IDENTIFIERS AND WEIGHTS

- 5 Area
- 6 Number of phone lines
- 7 Telephone weight
- 8 Sex of Respondent
- 9 Sex weight

NEIGHBORHOOD CHARACTERISTICS

- 10 Recognizing a stranger in the neighborhood is easy/difficult
- 11 R feels a part of the neighborhood/sees it just as a place to live
- 12 Neighborhood is changing for better/worse
- 13 Number of people on the street after dark
- 14 R tries to keep an eye on what is going on in the street

--If Neighbors Saw Suspicious Action, They Would--

- 15 Check the situation
 - 16 Call the police
 - 17 Ignore it
 - 18 Call someone else
 - 19 Call the Respondent
 - 20 Other
 - 21 Don't know/not ascertained
- 22 Number of times R has visited a neighbor in last 2 weeks
 - 23 Number of kids in the neighborhood which R knows by name

RESPONDENT'S ATTITUDE TOWARD OTHER'S BEHAVIOR

- 24 Kids are better today than in the past
- 25 People don't respect others as much as they used to
- 26 Groups of neighbors can reduce crime

- 27 There are a lot of crazy people in the city
28 Police can't do much to stop crime

NEIGHBORHOOD GROUPS/ORGANIZATIONS

- 29 R has gathered with others to discuss neighborhood problems
30 R knows of community groups/organizations in the neighborhood
31 R is involved with community groups/organizations
32 Type of community organization - 1st mention
33 Type of community organization - 2nd mention
34 Type of community organization - 3rd mention
35 Type of community organization - 4th mention
36 Number of groups R is involved with

--First Organization--

- 37 Organization has taken some action against neighborhood crime
38 Stop crime strategy - 1st mention
39 Stop crime strategy - 2nd mention
40 R took part in the activities
41 Effectiveness of the organized action

--Second Organization--

- 42 Organization has taken some action against neighborhood crime
43 Stop crime strategy - 1st mention
44 Stop crime strategy - 2nd mention
45 R took part in the activities
46 Effectiveness of the organized action

--Third Organization--

- 47 Organization has taken some action against neighborhood crime
48 Stop crime strategy - 1st mention
49 Stop crime strategy - 2nd mention
50 R took part in the activities
51 Effectiveness of the organized action

52 Other special crime effort/program in neighborhood
53 Crime prevention program - 1st mention
54 Crime prevention program - 2nd mention
55 Crime prevention program - 3rd mention

RESPONDENT'S CONTACT WITH THE POLICE

- 56 R has contacted the police in the last year

--Reason for Respondent's Last Call to the Police--

- 57 Report crime against self
- 58 Report crime against another
- 59 Report general crime in neighborhood
- 60 Lack of police protection/request increase
- 61 Complaints about specific officer or incidents
- 62 Request general information
- 63 Public services problem
- 64 Request ambulance
- 65 Other
- 66 Don't know/not ascertained/inappropriate

RESPONDENT'S CONTACT WITH PUBLIC OFFICIALS

- 67 R has contacted a public official in the last year

--Reason for Respondent's Last Call to Public
Official--

- 68 Report crime against self
- 69 Report crime against another
- 70 Report general crime in neighborhood
- 71 Lack of police protection/request increase
- 72 Complaints about specific officer or incidents
- 73 Request general information
- 74 Public services problem
- 75 Request ambulance
- 76 Other
- 77 Don't know/not ascertained/inappropriate

CRIME-RELATED PROBLEMS IN NEIGHBORHOOD

- 78 Teenagers hanging out on the street
- 79 Abandoned/burned out buildings
- 80 People using illegal drugs
- 81 Vandalism

- 82 There was a time when crime was less of a problem
- 83 Number of years ago crime was less of a problem

--Burglary--

- 84 Burglary is a neighborhood problem
- 85 R knows a burglary victim
- 86 Break-ins happened in present neighborhood
- 87 Number of neighborhood burglaries in the last year
- 88 R thinks it's likely - attempted robbery at own house
- 89 Actual breakins at R's home
- 90 Most important things for keeping house safe from
burglary

--Measures for Protection Against Burglary--

- 91 Engraved valuables
- 92 Bars/special locks on windows
- 93 Peep-hole in door
- 94 Leave light on at night while out
- 95 When R was away from home - R notified police
- 96 When R was away from home - R had deliveries stopped
- 97 When R was away from home - R had neighbor watch house

--Robbery--

- 98 Street robbery is a neighborhood problem
- 99 R thinks it's likely - R will be robbed on neighborhood street
- 100 R knows a robbery victim
- 101 Location - 1st robbery
- 102 Location - 2nd robbery
- 103 Location - 3rd robbery

--Assault--

- 104 Assault by strangers is a neighborhood problem
- 105 R thinks it's likely - R will be assaulted by a stranger in the neighborhood
- 106 R knows an assault victim
- 107 Location - 1st assault
- 108 Location - 2nd assault
- 109 Location - 3rd assault
- 110 Kind of people who are attacked/robbed in neighborhood
- 111 Sex of victims in neighborhood
- 112 Number of times R was outside after dark last week
- 113 Number of times R has gone to evening entertainment in last 2 weeks

--Measures for Protection Against Robbery/Assault--

- 114 Go out with someone after dark
- 115 Drive rather than walk at night due to crime
- 116 Take dog, whistle, etc. for protection at night against crime
- 117 Avoid certain areas at night due to crime
- 118 Distance from home to area avoided (in blocks)
- 119 How safe R feels alone in neighborhood at night
- 120 How safe R feels alone in neighborhood during the day

RESPONDENT'S SOURCES OF INFORMATION

--Television--

- 121 Hours spent watching TV last night

- 122 R watched national news shows
- 123 R watched local news shows
- 124 R watched police or crime shows

--Newspapers--

- 125 R read daily newspapers
 - 126 Daily newspaper read - 1st mention
 - 127 Daily newspaper read - 2nd mention
 - 128 Daily newspaper read - 3rd mention
 - 129 Daily newspaper read - 4th mention
 - 130 Daily newspaper read - 5th mention
 - 131 Daily newspaper read - 6th mention
 - 132 Read local newspaper regularly
 - 133 Read crime stories yesterday
 - 134 Remember particular crime story
 - 135 Remembered crime story - 1st mention
 - 136 Remembered crime story - 2nd mention
- 137 Best source of crime information in neighborhood

--Communication with People--

- 138 R has talked about crime with someone recently
- 139 Person to whom R talked
- 140 Talked about rape/sexual assault last month

ADDITIONAL NEIGHBORHOOD PROBLEM - SEXUAL ASSAULT/RAPE

- 141 Sexual assault is a neighborhood problem
- 142 Number of rapes in neighborhood are decreasing/
increasing
- 143 Number of women sexually assaulted/raped in
neighborhood in last year

--For Female Respondents Only--

- 144 R thinks it's likely - R will be sexually assaulted
in the next year
- 145 R's level of fear of sexual assault/rape when out
out alone after dark in neighborhood
- 146 R knows a sexual assault victim
- 147 Sexual assault victim was Respondent/another
- 148 Report sexual assault to police
- 149 When sexual assault took place
- 150 Location - 1st sexual assault
- 151 Location - 2nd sexual assault
- 152 Location - 3rd sexual assault

--For Male Respondents Only--

- 153 R thinks it's likely - A woman will be sexually
assaulted in the neighborhood
- 154 R knows a sexual assault victim
- 155 Location - 1st sexual assault

- 156 Location - 2nd sexual assault
- 157 Location - 3rd sexual assault

--Sexual Assault/Rape Prevention--

- 158 Stronger home security measures
- 159 Women shouldn't go out alone at night
- 160 Women should dress more modestly
- 161 Provide psychological therapy for rapists
- 162 Women should learn self-defense
- 163 Women should carry weapons for protection
- 164 Newspapers should publicize known rapists
- 165 Women should not talk to strangers
- 166 Stop women's rights and women's liberation
- 167 Rape victims should fight back
- 168 Increase men's respect for women
- 169 Rape prevention idea - 1st mention
- 170 Rape prevention idea - 2nd mention
- 171 Best rape prevention idea

DEMOGRAPHIC INFORMATION

- 172 Number of years R has lived in neighborhood
- 173 Type of residence
- 174 Own or rent home
- 175 R expects to live in neighborhood 2 years
- 176 R carries theft insurance
- 177 Education
- 178 Number of children
- 179 Employment situation
- 180 Occupation
- 181 Total household income

--Ethnic background--

- 182 Puerto Rican
- 183 Mexican
- 184 Cuban
- 185 Other Latin
- 186 Polish
- 187 Italian
- 188 Irish
- 189 Croatian
- 190 Other European
- 191 Afro-American
- 192 Chinese
- 193 Japanese
- 194 Other Asian
- 195 Other
- 196 Refused/don't know/not ascertained
- 197 Race
- 198 Native or foreign born
- 199 Phone listed/unlisted
- 200 Number of additional phone numbers

201 Age

--Observations by Interviewer--

202 Quality of Respondent's English

203 Spanish interview

204 Respondent's cooperativeness

205 Respondent's interest

206 Respondent's accuracy
