

The author(s) shown below used Federal funds provided by the U.S. Department of Justice and prepared the following final report:

**Document Title: Studying the Effects of Incarceration on
Offending Trajectories: An Information-
Theoretic Approach**

Author(s): Avinash Singh Bhati

Document No.: 216639

Date Received: December 2006

Award Number: 2005-IJ-CX-0008

This report has not been published by the U.S. Department of Justice. To provide better customer service, NCJRS has made this Federally-funded grant final report available electronically in addition to traditional paper copies.

Studying the Effects of Incarceration on Offending Trajectories: An Information- Theoretic Approach

*Technical Report Submitted to the
Data Resources Program (DRP),
National Institute of Justice (NIJ)*

Avinash Singh Bhati

This report was prepared under Grant 2005-IJ-CX-0008 from the National Institute of Justice. Opinions expressed in this document are those of the authors, and do not necessarily represent the official position or policies of the U.S. Department of Justice, the Urban Institute, its trustees, or its funders.

Acknowledgements	vii
Executive Summary	ix
1 Background and Motivation	1
2 The Analytical Framework	5
2.1 A simple non-parametric model	6
2.2 A semi-parametric information-theoretic approach	11
2.2.1 Setting up the basic problem	11
2.2.2 Information Theory: A brief digression	12
2.2.3 An information-theoretic solution to the basic problem	14
2.2.4 Flexible functional form and generalized hazard models	15
2.3 Deflecting offending trajectories	17
2.3.1 Estimating the deviation of trajectories from counterfactual paths	17
2.3.2 Classifying the incarceration experience	18
2.4 Concluding Comments	20
3 An Application	23
3.1 The data	23
3.1.1 Data source	23
3.1.2 Data structure	24
3.1.3 Key variables included	25
3.2 Predictable patterns	28
3.3 Models of the Criminal History Accumulation Process	30
3.3.1 State-specific hazard model estimates	32

List of Tables

2.1	An example of creating the y_{rmm} and d_{rmm} flags from arrest profiles.	8
3.1	Computing CARAGE for two arrest profiles.	26
3.2	Summary of sample used	27
3.3	Pre-prison based hazard models of the criminal history accumulation process of prisoners released in 1994 in Arizona	31
3.4	Summary of the state-specific hazard models of the pre-prison criminal history accumulation process and their projections for the 3-year post-release period	33
3.5	Summary of the state-specific hazard models of the first post-release rearrest event and their projections for the 3-year post-release period	37
3.6	Effects of predictors on the probability of a releasee having a deterrent (versus an incapacitative or criminogenic) incarceration experience.	41
3.7	Effects of predictors on the average log deviation of the post-release trajectory from the counterfactual.	42
A.1	Pre-prison and post-release based hazard models of the criminal history accumulation process of prisoners released in 1994, AZ	56
A.2	Pre-prison and post-release based hazard models of the criminal history accumulation process of prisoners released in 1994, CA	57
A.3	Pre-prison and post-release based hazard models of the criminal history accumulation process of prisoners released in 1994, DE	58
A.4	Pre-prison and post-release based hazard models of the criminal history accumulation process of prisoners released in 1994, FL	59
A.5	Pre-prison and post-release based hazard models of the criminal history accumulation process of prisoners released in 1994, IL	60
A.6	Pre-prison and post-release based hazard models of the criminal history accumulation process of prisoners released in 1994, MD	61
